### **Observations and Findings**

The procurement process is established clearly in Infrastructure Ontario's Project RFP and Evaluation Framework. The evaluation process and criteria described in the documents were applied consistently and equitably. In the final evaluation discussions, the evaluators demonstrated that they had been diligent in their responsibilities, that they were able to support their individual evaluation assessments and that they held no bias for or against any

Proponent. There were no unresolved issues at the RFP stage of the procurement. Consensus was reached and confirmed by all evaluators. An official record was produced to document the evaluation and scoring consensus decisions, including the supporting rationale.

### **Conclusion**

As a result of the Evaluation Team consensus processes, and presentations to the Evaluation Committee held throughout October and November 2023, an approval of the RFP evaluation results and identification of a First Negotiations Proponent was achieved. OPTIMUS|SBR confirms that the identified First Negotiations Proponent successfully satisfied the requirements of the RFP evaluation process and was the highest scoring Proponent in this process.

As the Fairness Monitor for the Project, we certify that the principles of openness, fairness, consistency and transparency have been, in our opinion, properly established and maintained throughout the procurement process. Furthermore, we were not made aware of any issues that emerged during the process that would impair the fairness of this initiative.

As Fairness Monitor, we attest that:

- a) the Project RFP process was conducted in accordance with the provisions of the RFP, and met the fairness and transparency requirements established in the RFP and other related policies of Infrastructure Ontario and the Government of Ontario.
- b) the Sponsors' personnel and external advisors adhered to Infrastructure Ontario's conflict of interest and confidentiality requirements, and
- c) all Proponents were treated consistently in the evaluation process and in accordance with the Project RFP and the established principles of fairness, openness and transparency.
