6.9.5 Complaints During Construction Activities

6.9.5.1 Project Co shall address and respond to each complaint regarding air quality arising from the Works in accordance with the Complaints Protocol developed in accordance with Schedule 18 – Communication and Public Engagement Protocol. Upon receipt of a request by Contracting Authority to investigate a complaint regarding air quality, Project Co shall conduct additional air quality investigations and measurements, as required by Contracting Authority, in order to determine:

- (a) the source of the air quality issue that is the subject of the complaint;
- (b) if concentration of the contaminant of concern exceeds any of the Applicable Construction Air Quality Criteria and Limits; and
- (c) if mitigation measures or additional monitoring are required to confirm compliance with the Applicable Construction Air Quality Criteria and Limits.

6.9.5.2 If mitigation measures or additional monitoring are required pursuant to Section 6.9.4.1(e), then Project Co shall completely define the required mitigation measures and additional monitoring, as applicable, within two (2) Business Days following Project Co's completion of additional air quality investigations and measurements required by Contracting Authority, or within a longer timeframe that may be agreed to by the Parties. Project Co shall implement the mitigation measures and additional monitoring, as applicable, in full within a timeframe agreed upon by the Parties and shall rectify any non-conformance with Applicable Construction Air Quality Criteria and Limits.

6.9.5.3 Project Co shall be responsible for all costs and expenses related to any air quality measurements and investigations and mitigation and monitoring measures required in accordance with Section 6.9.5.1(b) in response to the first 30 separate requests by Contracting Authority to investigate a complaint during each year.

6.9.5.4 The costs of any additional site-specific air quality measurements required in any year above the number set out in Section 6.9.5.3 shall be borne by:

- (a) Project Co if the results indicate that Project Co did not comply with Applicable Construction Air Quality Criteria and Limits; or
- (b) Contracting Authority, subject to and in accordance with Schedule 22 – Variation Procedure, if the results indicate that Project Co activities were in compliance with Applicable Construction Air Quality Criteria and Limits.

- (c) If Contracting Authority receives complaints from the public with respect to Construction Activities that are not in compliance with Applicable Construction Air Quality Criteria and Limits, then Contracting Authority may, in its sole discretion, require Project Co to cancel or discontinue such Construction Activities, and Project Co shall cancel or discontinue such Construction Activities as instructed by Contracting Authority.

6.9.6 Equipment and Best Practice Requirements

- 6.9.6.1 Project Co shall ensure that all diesel fuel and gasoline powered on-road and off-road equipment meet applicable exhaust and evaporative exhaust emission standards established pursuant to O. Reg. 457/19, and the Off-Road Compression-Ignition Engine Emissions Regulations (SOR/2005-32), as amended from time to time, and are maintained in accordance with the applicable manufacturer's specifications.
- 6.9.6.2 Project Co shall coordinate its air pollution management and noise mitigation measures for maximum effectiveness, so as to ensure that the use of noise barriers, curtains, enclosures and other potential noise control methods are also effective for air pollution control where possible.

6.10 Air Quality During Operational Term

6.10.1 Air Quality During Operational Term – General

- 6.10.1.1 Project Co shall be responsible for designing and constructing the Project Co Infrastructure so that the overall air quality criteria and limits as per Section 6.10.2 can be achieved during the Project Co Services.
- 6.10.1.2 Project Co shall implement the operational air quality management process during testing, commissioning, operations and maintenance phase for the Project Operations.
- 6.10.1.3 Project Co shall be responsible for the overall integrated air quality management process, during the Operational Term, including compliance with all permitting requirements and incorporating all air quality data, infrastructure, modeling and items by the Civil Contractors.
- 6.10.1.4 During the performance of the Operational Term, Project Co shall:
 - (a) undertake and complete a self-assessment of Project Co's operations to demonstrate compliance with Section 9 of the Environmental Protection Act, the requirements of O. Reg. 419/05 Air Pollution and Local Air Quality and the requirements of O. Reg. 1/17 Registrations Under Part II.2 of the Act - Activities Requiring Assessment of Air Emissions. Project Co shall include a summary of the self-assessment in the Operations Air Quality Management Plan in accordance with Section 6.10.3.1.

- (i) Project Co shall obtain any permits or approvals, if required, as a result of the self assessment completed in accordance with Section 6.10.1.4 and Schedule 34 – Permits, Licences, Approvals and Agreements.
- (b) comply with all applicable Environmental Approvals and Permits, Licences, Approvals and Agreements as set out in Schedule 34 – Permits, Licences, Approvals and Agreements as they relate to air quality management when designing, purchasing and operating equipment;
- (c) comply with all applicable records of site condition and certificates of property use based on property impacts determined by Project Co design in accordance with Section 6.2.2.1;
- (d) implement measures for managing Project-related air emissions including fugitive dust and odour;
- (e) implement measures for prevention and managing vapour intrusion or seepage of Hazardous Substances into Project Co Infrastructure from soil or groundwater contamination; and
- (f) if any Applicable Operations Air Quality Criteria and Limits are exceeded, Project Co shall undertake the appropriate mitigation measures in order to achieve compliance with the Applicable Operations Air Quality Criteria and Limits.

6.10.2 Applicable Operations Air Quality Criteria and Limits

6.10.2.1 In carrying out the Operational Term, Project Co shall ensure that ambient air quality complies with (collectively, the “**Applicable Operations Air Quality Criteria and Limits**”):

- (a) Ontario Regulation 419/05 for Air Pollution - Local Air Quality;
- (b) Ontario Ambient Air Quality Criteria, published by MECP, and updated April 2019; and
- (c) The Canadian Ambient Air Quality Standards, published by CCME, and dated 2017.

6.10.3 Air Quality Management Plan – Operational Term

6.10.3.1 Project Co shall submit a detailed and comprehensive air quality management plan for the Operational Term (an “**Operations Air Quality Management Plan**”) to the Contracting Authority Representative in accordance with Schedule 10 – Review Procedure.

6.10.3.2 The Operations Air Quality Management Plan shall include, at a minimum, the following:

- (a) a general description of the controls and methods that Project Co will implement during the performance of the Operational Term in order to limit the generation and dispersion of, and in order to mitigate the potential effects of, airborne particulate matter (PM) including PM2.5 and PM10 and other air contaminants that are identified to exceed [REDACTED]% of the criteria limit as determined in accordance with Section 6.10.2 and Section 6.10.4, associated with Project Co’s performance of the Operational Term;
- (b) a description of the activities and conditions associated with Operational Term that may result in the generation or dispersion of airborne particulate matter (PM) including PM2.5 and PM10 and other airborne contaminants that are deemed to potentially exceed the ambient air quality limits as per Section 6.10.2;
- (c) a description of potential environmental impacts, nuisance impacts and impacts on human health and safety of contaminants;
- (d) a list and description of the Sensitive Receptors, including buildings, the general public and workers falling within a 500 m radius of the emissions source(s) during Project Co’s performance of the Operational Term, (the “**Operations Air Quality Impact Zone**”);
- (e) based on dispersion modelling or other scientific approaches consistent with the requirements of O. Reg. 419/05 and in accordance with Metrolinx Environmental Guide for Air Quality and Greenhouse Gas Emissions Assessment (2019), as amended from time to time, Project Co’s estimation of the potential worst-case air quality impacts of the Operational Term of the Project; and
- (f) a list of best practices that will be implemented by Project Co during its performance of the Operational Term for the reduction, control and management of emissions to prevent the discharge of airborne contaminants.
- (g) Project Co’s mitigation measures to reduce air quality impacts, including measures required by any and all of the Environmental Reference Documents in accordance with Appendix B of this Schedule 17 and Section 2.1.

6.10.4 Air Quality Monitoring Requirements – Operational Term

6.10.4.1 If required as per the conditions of any applicable permits, approvals or certificates of property use, Project Co will conduct monitoring in accordance with permit conditions.

- (a) Where required by permit or approval and where applicable, Project Co’s air sampling and monitoring program shall:

- (i) establish a baseline level of air contaminants specified in permit / approvals within the Operations Air Quality Impact Zone prior to the commencement of the Project Co Services by way of quantitative data collection, with the existing air quality conditions measured over a period specified in the permit / approval or by the MECP prior to commencement of the Project Co Services;
- (ii) comply with any air quality monitoring, reporting and documentation requirements in applicable, permits, approvals, and certificates of property use;
- (iii) measure levels of air contaminate that may exceed Applicable Operations Air Quality Criteria and Limits, particularly due to off-gassing of air contaminants into the environment and vapour intrusion of air contaminants into enclosed subsurface and indoor locations; and
- (iv) Project Co shall submit a detailed and comprehensive air quality monitoring plan for the Operational Term (an “**Operations Air Quality Monitoring Plan**”) to the Contracting Authority in accordance with Section 2.2.3 and Schedule 10 – Review Procedure. The Operations Air Quality Monitoring Plan shall:
 - (I) establish air monitoring parameters, and air monitoring and sampling methods;
 - (II) locations and frequencies of air contaminants, the rationale for the choice of such parameters; and
 - (III) methods, locations and frequencies, and any changes that will be made to such parameters, methods, locations and frequencies during Operations per the conditions in the permit, certificate of property use or as approved by the MECP.

6.10.5 Equipment and Best Practice Requirements

- 6.10.5.1 Project Co shall implement mitigation measures for minimizing air quality emissions during the performance of the Operational Term in accordance with Metrolinx Environmental Guide for Air Quality and Greenhouse Gas Emissions Assessment (2019).
- 6.10.5.2 Project Co shall ensure that all new equipment complies with Canadian emissions standards applicable to new equipment at the time of purchase.
- 6.10.5.3 Project Co shall ensure that the propulsion or auxiliary power unit that requires rebuilding or refurbishment is rebuilt or refurbished, if technically feasible, to meet Canadian Emission Standards applicable at the time of rebuilding or

refurbishment and the requirements of O. Reg. 419/05 Air Pollution and Local Air Quality and O. Reg. 1/17 Registrations Under Part II.2 of the Act - Activities Requiring Assessment of Air Emissions as applicable.

- 6.10.5.4 Project Co shall minimize idling of Car engines and non-Car runs in order to reduce air contaminant emissions, as applicable.

6.11 Other Environmental Components

6.11.1 Light Pollution

6.11.1.1 Project Co shall assign lighting zone designations for the Site and all adjacent areas that may be impacted by the Work in accordance with ANSI Recommended Practice in order to determine the ratings that apply to each lighting zone, as further set out in this Section 6.11.1.

6.11.1.2 Project Co shall undertake all mitigation measures that may be required in order to:

- (a) prevent areas with lower lighting zone designations from being impacted by the Work occurring in areas with higher lighting zone designations; and
- (b) minimize light trespass or to address visibility problems caused by eye adaptation when transitioning from a brightly lit area to a more dimly lit area.

6.11.1.3 If Project Co uses outdoor luminaires in a lighting zone, such luminaires shall not, where reasonably practicable, exceed the ratings shown in Table 6.11.1-1, Table 6.11.1-2 and Table 6.11.1-3 that are applicable to such lighting zone.

Table 6.11.1-1 MLO Recommended Uplight Ratings for Light Zones

Lighting Zones	Recommended Uplight Rating
LZ-0	U0
LZ-1	U1
LZ-2	U2
LZ-3	U3
LZ-4	U4

Table 6.11.1-2 MLO Recommended Backlight Ratings for Light Zones

Location of Luminaire from the Property Boundary	Lighting Zone and Recommended Backlight Rating				
	LZ-1	LZ-1	LZ-2	LZ-3	LZ-4
Greater than 2 mounting heights	B1	B3	B4	B5	B5
1 to less than 2 mounting heights and ideally oriented	B1	B2	B3	B4	B4

Location of Luminaire from the Property Boundary	Lighting Zone and Recommended Backlight Rating				
	LZ-1	LZ-1	LZ-2	LZ-3	LZ-4
0.5 to 1 mounting heights and ideally oriented	B0	B1	B2	B3	B3
Less than 0.5 mounting heights and ideally oriented	B0	B0	B0	B1	B2

Table 6.11.1-3 MLO Maximum Allowable Glare Ratings for Light Zones

Orientation and Location of Luminaire	Lighting Zone and Maximum Allowable Glare Rating				
	LZ-1	LZ-1	LZ-2	LZ-3	LZ-4
Luminaire ideally oriented	G0	G1	G2	G3	G4
Luminaire not ideally oriented and 1 to 2 mounting heights from property line of concern	G0	G0	G1	G1	G2
Luminaire not ideally oriented and 0.5 to 1 mounting heights from property line of concern	G0	G0	G0	G1	G1
Luminaire not ideally oriented and less than 0.5 mounting heights from property line of concern	G0	G0	G0	G0	G1

- 6.11.1.4 If adherence to ratings set out in Table 6.11.1-1, Table 6.11.1-2 and Table 6.11.1-3 is not reasonably practicable, Project Co shall not be permitted to use outdoor luminaires, other than full cut-off outdoor luminaires for temporary nighttime illumination.
- 6.11.1.5 Project Co shall not exceed the maximum initial vertical illuminance spill light from exterior lighting recommended for a lighting zone, as recommended by ANSI Recommended Practice.
- 6.11.1.6 Project Co shall mitigate sources of glare to observers within line of sight of light sources on construction work areas. Mitigation methods may include one or several options such as using an internal or external shield of light source, adjusting mounting heights, decreasing source lumens, using luminaires with low-G BUG ratings, or dimming light sources.
- 6.11.1.7 Project Co shall provide a summary of lighting mitigation implemented by Project Area as part of the Monthly Environmental Report in accordance with Section 5.2.2 and Schedule 10 – Review Procedure.

7 PERFORMANCE CRITERIA

7.1 Application of Performance Criteria

7.1.1 The performance criteria set out in Section 7.2 has been established in accordance with Schedule 20 – Payment Mechanism. Project Co shall achieve the performance criteria set out in Section 7.2 during the Operational Term. For clarity, the Performance Failures and associated payment deductions set out in Section 7.2 shall be applicable after the Substantial Completion Date.

7.2 Performance Criteria

Table 7.2-1 Performance Criteria Definitions

Failure Category	Response, Rectification, Remediation	Recording Frequency
<p>“Critical” means Critical Failure category. “Major” means Major Failure category. “Medium” means Medium Failure category. “Minor” means a Minor Failure category.</p>	<p>“Resp. Time” means Response Time. “Rect. Time” means Rectification Time. “Remed. Period” means Remedial Period. “I” means Immediately. “N/A” means not applicable. “NOD” means the next operational day before the next start of Revenue Service.</p>	<p>“PR” means per request. “PE” means per Event. “D” means daily. “W” means weekly. “M” means monthly. “Q” means quarterly. “B” means bi-annually. “A” means annually. “R” means randomly.</p>

Table 7.2-2 Performance Criteria

Section Reference (Schedule 17)	Parameter	Category	Resp. Time	Rect. Or Remed. Period	Recording Frequency	Application (Maximum Project Co exposure)
5.3.1	Submission of Environmental Management System in accordance with Schedule 10 – Review Procedure	Major	N/A	Seven days	PE	1 per day
5.3.2	Submission of Environmental Management System Certification	Major	N/A	Two days	PR	1 per day until certification provided
5.2.6	Submission of Environmental Audit Report in accordance	Major	N/A	Seven Days	PE	1 per day

Section Reference (Schedule 17)	Parameter	Category	Resp. Time	Rect. Or Remed. Period	Recording Frequency	Application (Maximum Project Co exposure)
	with Schedule 10 – Review Procedure					
5.2.2	Submission of Monthly Environmental Report in accordance with Schedule 10 – Review Procedure	Medium	N/A	Seven Days	PE	1 per day
5.2.1	Submission of Annual Environmental Compliance Monitoring Report in accordance with Schedule 10 – Review Procedure	Medium	N/A	Seven days	PE	1 per day
6.5.8.1	Project Co shall report any non-conformance with the Applicable Operations Noise and Vibration Requirements or any Additional Operations Noise and Vibration Sensitive Receptor Performance Requirements resulting from the Noise and Vibration Survey to the Contracting Authority Representative no later than 24 hours after the identification of such non-conformance and shall comply with Section 6.5.1 in	Major	24 hours	24 hours	PR	1 applied per day when conditions of non-conformance is identified

Section Reference (Schedule 17)	Parameter	Category	Resp. Time	Rect. Or Remed. Period	Recording Frequency	Application (Maximum Project Co exposure)
	respect of all such non-conformances					
6.5.4	Submission of Operations Noise and Vibration Management Plan in accordance with Schedule 10 – Review Procedure	Medium	N/A	Seven days	PE	1 per day
6.5.8	Submission of Operations Noise and Vibration Survey in accordance with Schedule 10 – Review Procedure	Medium	N/A	Seven days	PE	1 per day
6.5.9.2	Project Co shall implement the mitigation measures and additional monitoring, as applicable, and shall rectify any non-conformance with Applicable Operations Noise and Vibration Requirements.	Major	N/A	As agreed between the Parties	PE	1 applied per day after condition of non-conformance is identified.
6.8.3	Submission of the Integrated Vegetation Management Plan in accordance with Schedule 10 – Review Procedure	Minor	N/A	Seven days	PE	1 per day
6.8.4.6	Submission of the Tree Tracker in accordance with Schedule 10 – Review Procedures	Minor	N/A	Seven days	PE	1 per day

Section Reference (Schedule 17)	Parameter	Category	Resp. Time	Rect. Or Remed. Period	Recording Frequency	Application (Maximum Project Co exposure)
6.9.3.1	Submission of Operations Air Quality Management Plan in accordance with Schedule 10 – Review Procedure	Medium	N/A	Seven days	PE	1 per day

APPENDIX A-1 TO SCHEDULE 17

CONTRACTING AUTHORITY ENVIRONMENTAL COMMITMENTS

Excerpted from Ontario Line Project,
Environmental Impact Assessment Report

I.D.#	EIAR Commitment	Notes
1.0	Cultural Heritage	
1.1	In the case of properties identified as Provincial Heritage Property of Provincial Significance and where the proposed project infrastructure shall require demolition or removal and/or transfer out of provincial control, Metrolinx shall need to obtain Ministry of Heritage, Sport, Tourism, and Culture Industries (MHSTCI) Minister’s consent.	
1.2	The Minister’s Consent Package shall be prepared which meets MHSTCI requirements and satisfy Metrolinx’s obligations under the <i>Ontario Heritage Act</i> (Ontario).	
2.0	Property	
2.1	The property acquisition process will emphasize the achievement of a mutually satisfactory agreement between Metrolinx and the owner. Only when negotiation has not produced an agreement and the property is required for construction to begin, shall Metrolinx initiate expropriation. The property acquisition process and resulting compensation is intended to leave the affected owner “whole”, thereby mitigating any negative impacts.	
2.2	Prior to construction, soil and groundwater investigations shall be considered along project alignment, including Phase II Environmental Site Assessments for property acquisitions.	
3.0	Land Use Access and Disruption	
3.1	Metrolinx to communicate all changes associated with land use access to impacted properties throughout the duration of the construction phase.	

I.D.#	EIAR Commitment	Notes
3.2	The property acquisition process shall emphasize the achievement of a mutually satisfactory agreement between Metrolinx and the owner. Only when negotiation has not produced an agreement and the property is required for construction to begin, shall Metrolinx initiate expropriation. The property acquisition process and resulting compensation is intended to leave the affected owner “whole”, thereby mitigating any negative impacts.	
3.3	Metrolinx shall inform the City of Toronto, communities, residents, business owners and institutions (e.g., school boards) directly impacted by new construction. Specific mitigation measures shall be developed once property impacts are further refined and confirmed.	
4.0	Visual Effects from Construction Areas/Activities	
4.1	Metrolinx shall consider maintenance of vegetation to the extent possible during construction and replanting of vegetation to maintain natural buffers where appropriate and feasible.	

APPENDIX A-2 TO SCHEDULE 17

SHARED ENVIRONMENTAL COMMITMENTS

Excerpted from Ontario Line Project,
Environmental Impact Assessment Report

I.D.#	EIAR Commitment	Notes
1.0	Road Network	
1.1	Traffic signal timing optimization may be assessed/implemented to increase capacity of affected intersections and to aid in the movement of traffic. Traffic signal timing adjustments would require coordination between Metrolinx and the relevant municipality, and shall be undertaken if required, to determine appropriate changes to traffic signal timings.	
2.0	Socio-Economic and Land Use	
2.1	Access to driveways and side streets shall be restored to the greatest extent possible if any changes are required. Where restoration could not be completed and if required, Metrolinx shall conduct further investigations and negotiate with the affected property owner.	
2.2	Continue to consult with the City of Toronto and TRCA on impacts to parkland and natural areas as the Project progresses	
2.3	Municipality and public engagement as Project planning and design progresses.	
2.4	Coordinate design and construction with the City of Toronto regarding the planned redevelopment of Moss Park.	
2.5	Metrolinx shall inform the City of Toronto, communities, residents, business owners and institutions (e.g., school boards) directly impacted by new construction. Specific mitigation measures shall be developed once property impacts are further refined and confirmed.	
2.6	Metrolinx shall replant vegetation to maintain natural buffers, where appropriate and feasible.	

I.D.#	EIAR Commitment	Notes
2.7	Metrolinx shall maintain vegetation to the extent possible and replanting of vegetation to maintain natural buffers where appropriate and feasible.	
2.8	Ongoing coordination with the City of Toronto shall be required to ensure the integration of Moss Park Station, Leslieville Station, and Gerrard Station with existing parkland and open spaces.	
2.9	Metrolinx shall follow Design Excellence principles and guidelines to ensure that all new infrastructure is constructed to a high visual standard and enhances the surrounding area.	
2.10	Municipality and public engagement as Project planning and design progresses.	
3.0	Consultation	
3.1	Contracting Authority may request Project Co to assist or support Contracting Authority’s Indigenous Nations Engagement. If and where Contracting Authority determines that there is a duty to consult an Indigenous Nation, that duty lies with Contracting Authority. Contracting Authority may request Project Co to assist or support such consultation with Indigenous Nations.	

APPENDIX A-3 TO SCHEDULE 17

PROJECT CO'S GENERAL ENVIRONMENTAL COMMITMENTS

Excerpted from Ontario Line Project,
Environmental Impact Assessment Report

Table 1: Required Environmental Mitigation Measures

I.D.#	EIAR Commitment
1	Natural Environment
1.1	Compensation for tree removals shall be undertaken in accordance with provisions outlined in the Metrolinx Vegetation Guideline (2020). Adhere to all applicable by-laws and regulations for tree removals outside of Metrolinx properties.
1.2	Further consideration to minimize potential effects on Toronto and Region Conservation Authority's Terrestrial Natural Heritage System to the extent possible shall be undertaken during detailed design.
1.3	Compensation for the removal of vegetation in accordance with Metrolinx's Vegetation Guideline (2020) and integrated Vegetation Management approach shall consider maintaining or enhancing connectivity.
1.4	Vegetation removal shall be kept to a minimum and limited to within the construction footprint.
1.5	Construction fencing and/or silt fencing, where appropriate, shall be installed and maintained to clearly define the construction footprint and prevent accidental damage or intrusion to adjacent vegetation or Ecological Land Classification communities.
1.6	Provide compensation for the removal of vegetation in accordance with Metrolinx's Vegetation Guideline (2020) and Integrated Vegetation Management approach.
1.7	Temporarily disturbed areas shall be re-vegetated using non-invasive, preferably native plantings and/or seed mix appropriate to the site conditions and adjacent vegetation communities. Seed mixes shall be used in conjunction with an appropriate non-invasive cover crop as needed.
1.8	Vegetation removals shall also consider and mitigate potential impacts to sensitive species (e.g., migratory birds and Species-at-Risk) and features (e.g., Significant Wildlife Habitat). Refer to the Wildlife, Significant Wildlife Habitat and Species-at-Risk mitigation measures described below.
1.9	An Arborist Report by an I.S.A. Certified Arborist may be prepared with regard to the Ontario Forestry Act R.S.O. 1990, and other regulations and best management practices as applicable.
1.10	The Arborist Report may include, but not be limited to the individual identification of trees within the Study Area including those that require removal or preservation, or trees that may be injured as a result of the Project. Trees to be identified within the Study Area may include those on Metrolinx property, trees on public and private lands, and boundary trees. The City of Toronto by-laws dictate the minimum area buffers to be inventoried and Diameter at Breast Height (DBH) which requires inventory.

I.D.#	EIAR Commitment
1.11	The Arborist Report shall include information needed to establish compensation ratios and tree end use (including identification of high value trees) as per the Metrolinx Vegetation Guideline (2020b).
1.12	Prior to the undertaking of tree removals, a Tree Removal Strategy / Tree Preservation Plan shall be developed during detailed design to document tree protection and mitigation measures that follow the City of Toronto Tree Protection Policy and Specifications for Construction Near Trees Guidelines (2016) and adherence with best practices, standards and regulations on safety, environmental and wildlife protections.
1.13	Pruning of branches shall be conducted through the implementation of proper arboricultural techniques.
1.14	Tree Protection Zone fencing shall be established to protect and prevent tree injuries. Tree Protection Zones shall be clearly staked prior to construction using barriers in accordance with local by-law requirements.
1.15	Stockpiled materials or equipment shall be stored within the construction footprint but shall be kept at least 30 metres away from any watercourse. Signs shall be put up on site to indicate the 30 metres setback from any watercourse.
1.16	A Spill Prevention and Contingency Plan shall be developed and adhered to. Spills shall be immediately contained and cleaned up in accordance with provincial regulatory requirements and the contingency plan.
1.17	Refueling of equipment shall occur at least 30 metres away from any watercourse, where possible. Signs shall be put up on site to indicate the 30 metres setback from any watercourse.
1.18	All machinery, construction equipment and vehicles arriving on site should be in clean condition (e.g., free of fluid leaks, soils containing seeds of plant material from invasive species) and be inspected and washed in accordance with the Clean Equipment Protocol for Industry (Halloran et al., 2013) prior to arriving and leaving the construction site in order to prevent the spread of invasive species to other locations.
1.19	If wildlife is encountered, measures shall be implemented to avoid destruction, injury, or interference with the species, and/or its habitat. For example, construction activities shall cease or be reduced and wildlife shall be encouraged to move off-site and away from the construction area on its own. A qualified Biologist shall be contacted to define the appropriate buffer required from wildlife.
1.20	Prior to construction, investigation of the Project footprint for wildlife and wildlife habitat that may have established following the completion of previous surveys shall be undertaken, as appropriate.
1.21	Work within turtle habitat shall be planned in consideration of turtle overwintering period which occurs from October 1 to April 30 in any given year. It is also possible that turtle surveys would need to be conducted prior to the work.
1.22	Post-construction habitat restoration shall be implemented as required.

I.D.#	EIAR Commitment
1.23	Where project activity occurs adjacent to suitable snake hibernacula, exclusionary fencing shall be erected along the activity area to fully isolate the area of activity during the active snake season. In the event that exclusionary fencing cannot be installed, follow-up discussions with the Ministry of the Environment, Conservation and Parks and the Ministry of Natural Resources and Forestry (Ministry of Natural Resources and Forestry) shall be required to determine adequate alternative mitigation measure(s).
1.24	For areas where the hibernacula feature requires removal to facilitate development, the exclusion fencing is to be installed during the active snake season and prior to any construction activities commencing to prevent snakes from entering the feature pre-removal. Any snakes encountered within the exclusion fencing shall be relocated outside the fencing and within suitable habitat containing suitable vegetation cover / refuge by a qualified biologist in accordance with the required permit(s) in accordance with the Ministry of Natural Resources and Forestry’s Reptile and Amphibian Exclusion Fencing (2013).
1.25	Demolition of buildings should be scheduled outside of the breeding bird season of April 1 to August 31. If this is not possible and buildings must be demolished during this period, the following shall be completed: The roofs shall be checked for presence of gravel. If gravel is not present, then the building is unlikely to provide suitable nesting habitat for Common Nighthawk. If gravel is present, a search for eggs and nesting activity for Common Nighthawk on the roof shall be conducted. If nests or nesting activity of Common Nighthawk are confirmed, the building cannot be demolished until it is confirmed by a Qualified Biologist that young have fully fledged and left the nest.
1.26	All works must comply with the Migratory Birds Convention Act, including timing windows for the nesting period (April 1 to August 31 in Ontario).
1.27	If activities are proposed to occur during the general nesting period a breeding bird and nest survey shall be undertaken prior to required activities. Nest searches by an experienced searcher are required and shall be completed by a qualified Biologist no more than 48 hours prior to vegetation removal.
1.28	If a nest of a migratory bird is found outside of this nesting period (including a ground nest) it still receives protection.
1.29	Opportunities to enhance the natural environment and provide a connection to the surrounding natural areas shall be explored to the extent possible.
1.30	All requirements of the Endangered Species Act and Species at Risk Act shall be met. Species-specific mitigation measures shall be implemented based on any recommended surveys undertaken prior to construction, and consultation with Ministry of the Environment, Conservation and Parks / Ministry of Natural Resources and Forestry.
1.31	If Species-at-Risk is present and conservation strategies have been developed by Ministry of Natural Resources and Forestry / Ministry of the Environment, Conservation and Parks, the Constructor shall follow the commitments in the recover strategy.
1.32	On-site personnel shall be provided with information (e.g., factsheets) that addresses the existence of potential Species-at-Risk on site, the identification of the Species-at-Risk species and the procedure(s) to follow if an individual is encountered or injured.

I.D.#	EIAR Commitment
1.33	Field surveys shall be undertaken prior to construction to confirm the number of nests present at the known locations and whether the nests remain active.
1.34	If construction activities are scheduled during the nesting season for Barn and/or Bank Swallow (April 1 to August 31), a nest search shall be undertaken to confirm that no Barn and/or Bank Swallows are nesting on structures or banks that may be affected by construction activities on or near these areas. If possible, the area shall be netted prior to nesting season to dissuade use of these areas for nesting.
1.35	If repair, maintenance or demolition of buildings / structures with suitable roosting / nesting habitat (e.g., chimneys) is to take place, targeted surveys for Chimney Swift shall be completed as per the Bird Studies Canada Chimney Swift Monitoring Protocol (2009) during the nesting season of April 15 to October 15.
1.36	Repair, maintenance, or demolition of an identified roosting / nesting structure may constitute destruction of critical habitat and would be discussed in advance with the Ministry of the Environment, Conservation and Parks and requirements of the Endangered Species Act will be met.
1.37	Additional monitoring, mitigation and compensation for removal of suitable treed or anthropogenic roosting habitat may be required based on the results of additional surveys and consultation with the Ministry of the Environment, Conservation and Parks
1.38	If any works are proposed within the critical root zone (i.e., 25 metres radius from stem) of a butternut, mitigation, monitoring and compensation to address impacts to butternuts may be required based on the results of additional surveys (i.e., Butternut Health Assessment).
1.39	Construction activities will maintain the buffers established during the design phase to minimize potential negative impacts to wetlands and waterbodies.
1.40	Shorelines or banks disturbed by construction activities shall be immediately stabilized by any activity associated with the project to prevent erosion and/or sedimentation, preferably through re-vegetation with native species suitable for the site.
1.41	In wetland areas where vernal pooling occurs, prior to dewatering isolated work areas, wildlife shall be captured and relocated to suitable habitat outside of the work area
1.42	Vegetation removals shall also consider and mitigate potential impacts to wetland communities. Until such a time that an Ontario Wetland Evaluation System evaluation is completed and evaluated by Ministry of Natural Resources and Forestry, unevaluated wetlands should be considered as significant for the purposes of assessing impacts.
1.43	Wetland communities potentially affected by the Project shall be clearly staked out on site.
1.44	If dewatering is proposed, it is recommended to be undertaken during the winter when the potential effects of changes in water levels are less significant in wetland communities. During detailed design the need for a dewatering zone of influence assessment and dewatering monitoring plan should be evaluated. The dewatering monitoring plan, should it be deemed required, shall monitor for potential negative effects to nearby wetlands and adjacent vegetation communities if affected due to dewatering activities, and shall provide an adaptive management plan should negative effects be observed.
1.45	All requirements of the Fisheries Act shall be met.
1.46	In the event that in-water and/or near water construction works are required appropriate mitigation measures shall be followed, as identified in Applicable Law and through consultation with the relevant authorities including Department of Fisheries and Oceans

I.D.#	EIAR Commitment
	Canada. In water works shall be planned to consider timing windows to protect fish, including their eggs, juveniles, spawning adults and/or the organisms upon which they feed.
1.47	Prior to dewatering isolated work areas, fish shall be captured and relocated to suitable habitat outside of the work area under a License to Collect Fish for Scientific Purposes from the Ministry of Natural Resources and Forestry.
1.48	Design water management system and dewatering operations to prevent erosion and/or release of sediment-laden or contaminated water to the waterbody or adjacent wetlands.
1.49	Onsite inspection shall be undertaken to confirm the implementation of the mitigation measures and identify corrective actions, if required. Corrective actions may include additional site maintenance and alteration of activities to reduce impacts.
1.50	Removal of ash trees, or portions of ash trees, shall be carried out in compliance with the Canada Food and Inspection Agency Directive D03-08: Phytosanitary Requirements to Prevent the Introduction into and Spread within Canada of the Emerald Ash Borer, <i>Agrilus planipennis</i> (Fairmaire) (2014), as amended from time to time. To comply with this Directive, ash trees requiring removal, including wood, bark or chips, shall be restricted from being transported outside of the emerald ash borer regulated areas of Canada.
1.51	Confirm precautions are being taken to reduce the risk of the spread of invasive species by cleaning equipment prior to moving sites.
1.52	Regular monitoring shall be undertaken to confirm that activities do not encroach into nesting areas or disturb active nesting sites.
1.53	Monitoring for dewatering shall be undertaken to confirm sediment-laden discharge; changes in visible scour/erosion; and changes in temperature within any receiving watercourse.
1.54	Identify opportunities to promote pollinator species and habitat in accordance with the Metrolinx Vegetation Guideline (2020). This may include planting or seeding native flowering plants in temporarily disturbed areas.
1.55	Each butternut that may potentially be removed or impacted must be assessed by a qualified butternut health assessor, in accordance with MNRF Butternut Assessment Guidelines (2014). The Assessor shall prepare a butternut health assessment report and document the mitigation monitoring and corrective actions implemented.
1.56	Herbicide applications shall be administered subject to the Pesticides Act.
1.57	Vegetation removal and soil disturbance in designated natural areas shall be avoided where possible and shall be kept to a minimum. In support of this, a tree protection plan and an Erosion and Sediment Control Plan shall be developed and implemented prior to construction.
1.58	Vegetation removal shall also consider and mitigate potential impacts to sensitive species (e.g. migratory birds and SAR) and features (e.g. designated natural areas and significant wildlife habitat).
1.59	Opportunities to plant milkweed or forage vegetation outside of and in the rail right-of-way shall be undertaken, where possible, and in accordance with the Metrolinx Vegetation Guideline (2020b).
1.60	If vegetation clearing proceeds when monarch larvae may be present (April 1 to September 30), milkweed plants should be inspected for monarch larvae prior to their removal. If larvae are present, they may be moved to a location that is suitable and safe, under the direction of a qualified biologist. Monarch caterpillars may be moved to other milkweed

I.D.#	EIAR Commitment
	plants; for other larval stages (e.g. eggs and chrysalis). Entire milkweed plants shall be transplanted.
1.61	If required, reptile exclusion fencing shall be installed according to the Reptile and Amphibian Exclusion Fencing Best Practices (MNR 2013) and fencing should be inspected daily to ensure it is tight and no species are entangled.
1.62	Disturbance to bat roosting habitat shall be avoided during the active season for bats from April 1 to September 30, to the extent possible.
1.63	Floodplain impact assessment shall be conducted during detailed design following TRCA guidelines once details on the pier configuration and other detailed bridge design information are available. Design optimizations on abutment, pier, and valley way placement shall be considered to reduce hydraulic impacts.
1.64	In addition, all necessary studies such as fluvial geomorphic process studies, meander belt and erosion studies, and geotechnical and slope stability assessments shall be completed.
1.65	Prior to construction, develop a flood contingency plan with specific mitigation measures for any proposed works or temporary laydown and staging areas, as required. The flood contingency plan may include risk mapping, and a monitoring strategy.
1.66	Include construction site on TRCA flood warning system to prepare site in advance of possible flood events.
1.67	Prior to construction, a stormwater management plan that shall outline stormwater discharges management associated with construction activities, and an Erosion and Sediment Control Plan shall be developed.
1.68	The overall stormwater quality and quantity control strategy shall be developed in accordance with all relevant municipal, provincial, and federal requirements, as amended, and outlined in a stormwater management report. Stormwater management design shall consider guidance provided by the MECP, formerly the Ministry of the Environment and Climate Change Stormwater Management Planning and Design Manual (2003) and MTO Drainage Management Manual (2008), TRCA Stormwater Management Criteria (2012), and the Low Impact Development Stormwater Management Planning and Design Guide (TRCA/Credit Valley Conservation 2010), as required.
1.69	<p>The following stormwater management best management practices shall be considered and implemented, as required:</p> <ul style="list-style-type: none"> • reduce clearing and amount of exposed soil; • install key sediment control before grading/land alterations begin; • sequence construction activities so that the soil is not exposed for long periods of times; • protect storm drain inlets to filter out debris; and • stabilize all exposed soil areas as soon as land alterations have been completed.
1.70	The TRCAs Living City Policies shall be followed during detailed design, including those policies related to outfall placement.
1.71	The TRCAs Stormwater Management Criteria shall be followed, including those policies related to impervious areas.
2	Soil and Groundwater
2.1	Complete a detailed settlement analysis during the detailed design phase.
2.2	Excavation support systems shall be employed, as required.
2.3	Conduct ground treatment such as jet grouting to reduce the risk of ground loss.

I.D.#	EIAR Commitment
2.4	Remedial action plans, risk assessment and risk mitigation plans for encountering contamination, as necessary.
2.5	Develop a Soil and Excavated Material Management Plan for the handling, management and disposal of all excavated material (i.e., soil, rock and waste) that is generated or encountered during the work.
2.6	Further hydrogeologic assessments shall be conducted at locations requiring dewatering to estimate groundwater flow rates, predict impacts (such as lowering groundwater table), and evaluate treatment/discharge options. These studies are also needed to support potentially required water taking permits from the Ministry of the Environment, Conservation and Parks, including registration under the Ministry’s Environmental Activity Sector Register or Permit to Take Water applications.
2.7	Additional investigations to determine the Zone of Influence of any required dewatering shall be necessary to fully consider the impacts to nearby structures and infrastructure. Further mitigation plans shall be developed prior to construction.
2.8	A Groundwater Management and Dewatering/Unwatering Plan shall be developed to guide the handling, management, and disposal of groundwater encountered.
2.9	Comply with the requirements of the Soil and Excavated Material Software Application for the monitoring, management, and tracking, where each movement of soil and excavated materials is captured in the required database. The soil and excavated material software application shall be executed prior to Soil shipping and capture each movement of Soil and excavated materials outside each Project Area in a real-time digital tracking systems.
2.10	Any existing City lands proposed for future open space shall be returned in the same environmental condition. Third party lands proposed for future open space shall meet the requirements set out under Ontario Regulation 153/04 under the Environmental Protection Act."
2.11	Excavation support systems shall be employed, as required.
2.12	Conduct dewatering such that ground loss is controlled/reduced.
2.13	Use tunneling equipment designed to reduce the potential for frac-out, ground loss and the associated potential for settlement.
2.14	If required, prepare a frac-out contingency plan that is intended to reduce the potential for a frac-out associated with tunneling activities.
2.15	Potential impacts to groundwater-dependent natural features and/or private groundwater supply wells (if present) can be mitigated with measures such as avoidance of dewater cut-off techniques to physically exclude groundwater from flowing into excavations advanced for construction.
2.16	<p>The construction dewatering assessment shall be completed as required to:</p> <ul style="list-style-type: none"> • provide an estimate of groundwater and/or surface water taking rates and quantities; • estimate a zone of influence for each dewatering area; • characterize groundwater and/or surface water quality; • recommend appropriate dewatering methodologies; and • provide an assessment of potential impacts related to the dewatering.

I.D.#	EIAR Commitment
2.17	Dewatering shall be assessed in accordance with the TRCA Technical Guidelines for the Development and Environmental Management Plans for Dewatering (TRCA 2013), O. Reg. 64/16 and 387/04, as amended under the Ontario Water Resources Act, as required.
2.18	<p>The plan to manage groundwater shall be completed as required to:</p> <ul style="list-style-type: none"> • evaluate potential groundwater discharge options; • identify effluent treatment requirements; • outline monitoring, mitigation, and contingency program (if required); • determine the potential need for regulatory approvals; and • identify notification and reporting requirements.
2.19	Identification of site-specific mitigation measures and monitoring programs relating to potential groundwater impacts within the anticipated dewatering zone of influence shall be determined prior to works commencement.
2.20	The existing groundwater conditions within each potential construction dewatering area shall be characterized prior to construction activities, during a site-specific hydrogeological investigation, as required.
2.21	Conduct on-site treatment of dewatering effluent, if required, such that parameters in excess of the established discharge criteria are removed/reduced and discharge can proceed.
2.22	<p>Pre-construction (baseline) groundwater quality testing should be performed at all construction dewatering locations before the outset of any discharge activities and compared to appropriate regulatory guidelines (e.g. Provincial Water Quality Objectives for discharge to the natural environment, storm and sanitary by-laws for discharge to municipal sewers). Appropriate water quality management (e.g. filtration systems and/or water treatment systems) shall be required to be designed and implemented in the event that exceedances of regulatory guidelines or limits are detected in the influent groundwater quality. Discharge of dewatering effluent shall be governed by the discharge approval(s) obtained for the Project, which could include one or a combination of Municipal Discharge Permits, Conservation Authority Approval, and/or MECP Environmental Compliance Approval.</p>
2.23	Maintain machinery free of leaks to reduce the possibility of fluid release.
2.24	Store potential contaminants (e.g. oils, fuels, and chemicals) in designated areas using appropriate secondary containment, where necessary.
2.25	<p>Conduct a review of source protection plan policies and implement the following measures, where required:</p> <ul style="list-style-type: none"> • a Salt Management Plan that incorporates best management practices; • where the storage and application of road salt is required; • best management practices where the handling and storage of dense; • non-aqueous phase liquids is required; • best management practices where the storage of organic solvent is required; and • best management practices where the storage and handling of fuel is required.
3	Air Quality

I.D.#	EIAR Commitment
3.1	Conduct a quantitative assessment for the construction phase of the Project once sufficient detail on the construction planning is available. The quantitative assessment shall be used to update the construction mitigation plan and shall be submitted to MECP for review prior to the start of construction activities.
3.2	Develop and implement a Construction Air Quality Management Plan (AQMP). A copy of the AQMP should be provided to the MECP. The AQMP shall: <ul style="list-style-type: none"> • Demonstrate compliance with the specific air quality criteria and limits in the Metrolinx Environmental Guide for Air Quality and Greenhouse Gas Emissions Assessment (2019). • Define the Project’s air quality impact zone and identify applicable sensitive receptors in this area. • Estimate and document the predictable worst-case air quality impacts of the Project on sensitive receptors in the air quality impact zone, develop appropriate mitigation measures, demonstrate their effectiveness, and commit to their timely implementation. • Include explicit commitment to the implementation of all applicable best practices identified in the ECCC document, Best Practices for the Reduction of Air Emissions from Construction and Demolition Activities (2005), and the MECP’s Technical Bulletin Management Approaches for Industrial Fugitive Dust Sources (MECP, 2017), where practical.
3.3	Develop a Communications Protocol and a Complaints Protocol to respond to issues that develop during construction.
3.4	Schedule construction related activities to avoid overlapping construction activities where possible.
3.5	Reduce the number of machines operating in any one area at any given point in time.
3.6	Mitigation measures to be considered for each of the construction activities: <ul style="list-style-type: none"> • Site Preparation, Excavation and Grading • Demolition • Material Storage • Material Handling and Transfer • Road Surfaces (in and around Construction Sites) • On-site Fabrication Processes • Tunneling (TBM or SEM) • Construction Vehicles and Equipment • On-site Fabrication Processes
3.7	Conduct visual and olfactory inspections during excavation or for incoming loads to screen for odour, visible staining or debris per the MECP’s Management of Excess Soils: A Guide for Best Management Practices (MECP, 2019b). If contaminated soil or materials are suspected, conduct further investigation and soil analysis to confirm if contamination is present and what contaminants are present. Take appropriate preventive actions or suspend activities to reduce potential adverse impacts, including odour or air emissions, from contaminated materials. Prior to commencement of construction, develop a Soil and Excavated Materials Management Plan (SEMMP) for the handling, management and disposal of all excavated material (i.e., soil, rock and waste). The SEMMP shall describe how to address the management of the excavated or imported materials, including contaminated materials. Metrolinx shall follow appropriate best management practices to manage, transport, or dispose of the contaminated materials.

I.D.#	EIAR Commitment
	Where applicable, consult with the MECP Central Region Office to discuss the requirements in dealing with contamination issues and ambient monitoring requirements.
3.8	Apply for air approval for the OMSF and station operations and air emission sources as applicable. Assess and model air emissions following MECP guidance and comply with applicable Ontario Regulation 419/05 standards.
3.9	Develop a detailed Operations Air Quality Management Plan and implement the plan to document the controls and methods that shall be implemented during project operations at the OMSF to limit the generation and dispersion of airborne particulate matter and air contaminants associated with the project operations.
3.10	Undertake on-site inspections confirm the implementation of the mitigation measures and identify corrective actions if required.
3.11	Where practicable, implement the following mitigation measures to reduce air contaminant emissions intensity (amount of pollutant emitted per passenger kilometre travelled): <ul style="list-style-type: none"> • Selecting a less polluting form of energy or fuel (i.e., electricity or hydrogen rather than diesel fuel) for equipment used at the OMSF or stations. • Selecting equipment (such as backup generators) with engines and propulsion systems that meet higher emission standards (i.e., Tier 4 rather than a lower tier). • Maintaining engines and emission control equipment to manufacturers' specifications. • Selecting vehicles that have lower emissions for the mobile maintenance crew
3.12	Consider the following when designing and planning to reduce/limit non-exhaust particulate matter/metals emissions from the trains: <ul style="list-style-type: none"> • Automatic train control/braking systems, wheel and track materials and design, optimizing the wheel profile and applying friction modifiers on wheels or rails to decrease wear particles, choice of brake pad materials • Ventilation system and controls used to control flow rates and air flow movement • Emission control/filter systems
4	Noise and Vibration
4.1	Use construction equipment compliant with noise level specifications in Ministry of the Environment, Conservation and Parks guidelines NPC-115 and NPC-118.
4.2	To mitigate noise impacts from construction, consider the following: <ul style="list-style-type: none"> • perform construction during day-time hours where possible. If night-time construction is necessary, limit activities that may exceed noise limits;

I.D.#	EIAR Commitment
	<ul style="list-style-type: none"> • if construction shall occur outside of normal daytime hours, inform local residents before construction of type of construction and expected duration outside of daytime hours. • Use equipment compliant with NPC-115 and NPC-118 as well as selecting the quieter option when multiple options are available; • limit the number of heavy trucks on site to the minimum required; • stage construction vehicles away from noise sensitive locations, if feasible; • keep equipment in good working order and operate with effective muffling devices; • undertake noise monitoring and regular reporting throughout the construction phase. Where noise level limits are exceeded, additional noise mitigation measures shall be implemented; • use localized movable noise barriers/screens for specific equipment and operations; • reduce simultaneous operation of equipment where feasible; • implement a no idling policy on site (unless necessary for equipment operation); • develop a communications protocol which includes timely resolution of complaints; and • additional mitigation measures not listed above may be considered.
4.3	Establish a communication and complaint protocol for the Project and establish communication with potentially impacted receptors prior to start of construction activities nearby.
4.4	A detailed construction noise assessment should be completed based on the actual location of the equipment and manufacturer’s sound levels to identify the specific mitigation required for each location and to ensure that the noise limits are met for the Project construction.
4.5	Haul route planning should include consideration for minimizing potential impacts on sensitive receptors and limiting increase in traffic noise.
4.6	The contractor should continuously monitor vibration levels at sensitive receptors during construction and adhere to the specified vibration limits.
4.7	<p>To mitigate vibration impacts from construction, consider the following:</p> <ul style="list-style-type: none"> • owners of properties within the Zone of Influence should be notified at least a week before commencing any nearby construction activities; • maintain minimum setback for construction equipment; • utilize construction equipment with lower vibration levels; • plan sequence of construction activities to avoid higher vibration potential during the night-time hours or at consecutive times; • route heavily loaded trucks and equipment away from vibration sensitive receptors Use non-vibratory roller where possible near sensitive sites; • excavators may only be used at least 6.5m (Heritage) or 4.5m (other structure) away from the structure or conduct sample vibration measurements to confirm alternate setback distance if required. Use back-hoe instead of excavator where possible when minimum setback distance cannot be met; and • use speed reduction on TBM where required to minimize potential impacts. Adjust supporting force according to monitored vibration velocity to maintain compliance with limits.

I.D.#	EIAR Commitment
4.8	Contractor should conduct test vibration measurements to check conditions at specific setback distances if they plan to have construction activities at or closer than the minimum recommended setback distances. Sample tests should be performed for all significant vibration-generating equipment anticipated to operate within the ZOI to confirm that vibration levels are compliant with the allowable limits. The measured vibration levels can be used to estimate setback distances and/or the operational condition at a certain distance in which the construction equipment should be allowed to operate.
4.9	To mitigate potential ground borne vibration and ground borne noise impacts from operations consider the following: high-resilience fasteners light mass-spring system floating slab track
4.10	Compliance with noise limits during operations is required. Where noise limits are predicted to exceed the limits, mitigation using noise barriers is to be considered.
4.11	Stationary sources associated with stations, emergency exit and emergency services, portal jet fans, outdoor paging systems, transformers, generators and sources associated with the OMSF require compliance with NPC-300. Design should consider maximum sound levels to meet these limits and mitigation such as silencers, enclosures and operational restrictions can be considered.
4.12	Equipment exceeding the MECP limits would require an investigation of additional noise control required for the construction phase
4.13	Caisson drilling shall be monitored, and the auguring speed should be controlled in accordance with the monitored vibration level.
4.14	In addition, as per the Metrolinx Environmental Guide, construction monitoring may be warranted when: The duration of construction is over a month The construction includes pile driving Nighttime construction is anticipated The anticipated community response to the construction is negative
5	Socio-Economic and Land Use
5.1	Specific property requirements shall be confirmed during detailed design. Where access to property is required, ongoing consultation with affected landowners shall help identify appropriate site-specific mitigation measures.
5.2	A construction staging plan shall be developed and can be devised to specifically limit impacts to sensitive receivers.
5.3	Property requirements shall be carefully determined and refined during the next design phase of the Project, in order to minimize the amount of private land required for the Project.
5.4	Access to driveways shall be maintained during construction where possible. When temporary closures of side-streets are required, appropriate detour signage shall be installed and affected property owners shall be consulted.
5.5	Complete detailed review of proposed development applications including development applications submitted since the completion of this report during the detailed design process to reduce site impacts and determine feasible methods of design integration where needed.
5.6	Reduce potential impacts to recreational uses, parks and open spaces to the extent feasible.

I.D.#	EIAR Commitment
5.7	An Erosion and Sediment Control Plan shall be developed in accordance with the Toronto and Region Conservation Authority’s Erosion and Sediment Control Guide for Urban Construction (2019), as amended from time to time, that addresses sediment release to adjacent properties and roadways.
5.8	Develop a Communications Protocol in accordance with the Contract Documents, which shall indicate how and when surrounding property owners and tenants shall be informed of anticipated upcoming construction works, including work at night.
5.9	Develop a strategy to reduce the impacts of light pollution, trespass, and glare in accordance with the contract documents.
5.10	Perform the work in such a way that any adverse effects of construction lighting are controlled or mitigated to avoid unnecessary and obtrusive light impacts on adjoining residents, communities and/or businesses.
5.11	Provide well connected, clearly delineated, and appropriately signed walkways and cycling route options, with clearly marked detours where required.
5.12	Provide temporary walkways with a pedestrian clearway of 2.1 meters, where possible. Temporary walkways required during construction shall also meet AODA requirements for universal accessibility.
5.13	A construction staging plan shall be developed with focus on pedestrian flow and limiting disruption.
5.14	Maintain access to on-street parking and parking facilities, where feasible. Where regular parking cannot be maintained, provide clear communication, alternative access and signage.
5.15	Provide temporary lighting and wayfinding signs and cues to aid navigation around the construction site.
5.16	Reduce potential impacts on and maintain access to recreational uses, parks and open spaces to the extent feasible.
5.17	Where impacts to institutional uses or community groups and resources are anticipated, consult with the property owner to identify and develop appropriate mitigation measures.
5.18	Maintain access to businesses during working hours, where feasible. Where regular access cannot be maintained, provide alternative access and signage.
5.19	Implement Crime Prevention Through Environmental Design principals to address these concerns during detailed design.
5.20	Provide walkways with a pedestrian clearway of 2.1 meters, where possible. Walkways shall also meet AODA requirements for universal accessibility.
5.21	Provide lighting and wayfinding signs and cues to aid navigation around each station site.
5.22	Restore parkland once construction is complete.
5.23	Reconnect trails where possible once construction is complete or provide alternative routing.
5.24	Project infrastructure shall be designed to reduce light trespass, glare, and pollution.
5.25	A screened enclosure for the development site shall be provided, with particular attention to the waste disposal and material storage areas.
5.26	Construction schedule delays shall be avoided to the extent possible in order to reduce the duration of construction and corresponding visual impacts.

I.D.#	EIAR Commitment
5.27	Consideration shall be given to providing temporary landscaping along the borders of the construction site between site fencing/enclosure and walkways, where space allows, and where necessary.
5.28	Comply with local applicable municipal by-laws and Ministry of Transportation practices for lighting in areas near or adjacent to highways and roadways regarding outdoor lighting for both permanent and temporary construction activities, and incorporate industry best practices provided in ANSI/IES RP-8-18 – Recommended Practice for Design and Maintenance of Roadway and Parking Facility Lighting, as described in the contract documents.
5.29	Work shall be performed in such a way that adverse impacts of construction lighting are controlled or mitigated in such a way as to avoid unnecessary and obtrusive light with respect to adjoining residents, communities and/or businesses.
5.30	Reduce disruptions to the public realm such as sidewalks and cycling facilities and keep in a state of good repair during construction.
5.31	Surrounding communities shall be notified of initial construction plans, as well as future modifications as they occur.
5.32	Consult with residents, businesses, and other stakeholders in relation to the elevated guideway and stations during design.
5.33	Alterations to key features such as sidewalks, trails, parks, and street trees should be reduced and restored to pre-existing conditions following construction, as much as is feasible.
5.34	Retaining walls, tunnel walls, noise walls, and abutments that are public facing or accessible to the walking-public shall have plain surface finishes acceptable by the local road authority and shall require anti-graffiti coating treatment (if artwork shall be installed by the municipality, anti-graffiti coating shall be applied after artwork installation). On all other wall treatment cases, a patterned concrete finish acceptable by the local road authority and anti-graffiti coating shall be applied unless otherwise enhanced.
5.35	Reduce the visual effects of project structures (e.g., elevated guideways, support structures, retaining walls) by considering their location, building materials, architectural design, and surrounding landscape treatments.
5.36	Operations activities such as corridor maintenance to be reduced in duration and footprint to the extent possible.
5.37	Regular (existing) access shall be maintained, where feasible. Where existing access cannot be maintained, alternative access and signage shall be provided.
5.38	Provide temporary lighting and wayfinding signs and cues to aid navigation around the construction site.
5.39	Project infrastructure shall be designed to reduce light trespass, glare, and pollution.
6	Built Heritage Resources and Cultural Heritage Landscapes
6.1	Properties subject to potential impacts, mitigation measures, and monitoring activities are provided in the Heritage Detailed Design Report (HDDR). Project Co shall revise the HDDR based on updates to the Project design as required in this Schedule 17.
6.2	Mitigation measures and monitoring activities shall be completed in accordance with the HDDR and shall in all cases consider avoidance as the preferred alternative.
6.3	Where impacts are anticipated, and in the case of a direct impact all other approaches were considered and eliminated prior to determining a direct impact as the only viable option, a series of site-specific mitigation measures have been prepared as summarized in the EIAR. Non-property specific approaches and presented below based on the impact identified:

I.D.#	EIAR Commitment
6.4	<p>Encroachment Consult with City of Toronto’s Heritage Planning Unit as part of the Detailed Design phase as applicable. Design Project to encroach onto the property as little as possible, while avoiding impacts to the building or landscape and/or heritage attributes identified.</p>
6.5	<p>New physical element or alteration (no impact to heritage attributes) Consult with City of Toronto’s Heritage Planning Unit as part of the Detailed Design phase as applicable. Design the Project to integrate new physical elements with the building or landscape and to be sympathetic and compatible with site-specific design (consideration of Parks Canada’s Standards & Guidelines for the Conservation of Historic Places in Canada, 2010).</p> <p>Modification to fit new use Consult with City of Toronto’s Heritage Planning Unit as part of the Detailed Design phase as applicable. Complete Adaptive Reuse Study for the reuse of the building, if appropriate.</p>
6.6	<p>New physical element or alteration (impacts to heritage attribute) Consult with City of Toronto’s Heritage Planning Unit as part of the Detailed Design phase as applicable. Complete detailed documentation of the property that includes the identification of salvageable material and/or heritage attributes prior to alteration in order to inform what building components should be retained and conserved and/or restored. Design the Project to integrate new physical elements with the building or landscape and to be sympathetic and compatible with site-specific design (consideration of Parks Canada’s Standards & Guidelines for the Conservation of Historic Places in Canada, 2010).</p>
6.7	<p>Relocation Consult with City of Toronto’s Heritage Planning Unit as part of the Detailed Design as applicable. Complete detailed documentation of the property that includes the identification of salvageable material and/or heritage attributes prior to relocation in order to inform what building components should be retained and conserved and/or restored. Stabilize the interior and exterior of the building before relocation. Prepare the new site, i.e., construction of a new foundation, prior to relocation. During Design, complete an Interpretation/Commemoration Strategy Framework in consultation with the City of Toronto Heritage Planning Unit. Incorporate commemoration signage to communicate the cultural heritage value of the relocated structure on the property to the public, if required.</p>
6.8	<p>Demolition Consult with the City of Toronto’s Heritage Planning Unit as part of the Detailed Design as applicable. Complete detailed documentation of the property that includes the identification of salvageable materials and/or heritage attributes. Complete an Interpretation/Commemoration Strategy Framework in consultation with the City of Toronto Heritage Planning Unit. Incorporate salvageable materials and commemoration signage to communicate the cultural heritage value of the demolished structure on the property to the public.</p>

I.D.#	EIAR Commitment
6.9	<p>Where an indirect impact has been identified associated with the potential for vibration effects to a built heritage resource or cultural heritage landscape, vibration monitoring is required. The detailed procedure is provided below:</p> <ul style="list-style-type: none"> Document (review and establish) the structural condition of the building to determine if the structure is vulnerable to vibrations impacts; Establish vibration limits based on building conditions, founding soil conditions, and type of construction vibration; Implement vibration mitigating measures on the construction site and/or at the building; Monitor vibration during construction using seismographs, with notification by audible and/or visual alarms when limits are approached or exceeded; Conduct regular condition surveys and reviews during construction to evaluate efficacy of protective measure in place prior to construction
6.10	Efforts should be made to retain as many of the existing landscape elements as possible.
6.11	Alterations must be complimentary and subordinate to the cultural heritage value and heritage attributes of the property/HCD.
6.12	Prior to property modifications, including but not limited to demolition, the following should be completed: Sensitive and Compatible Design.
7	Archaeological Resources
7.1	Areas identified as retaining archaeological potential, as per the Stage 1 Archaeological Assessment report, must be subject to further archaeological assessment, as recommended and in advance of any ground disturbance.
7.2	Any additional Archaeological Assessments (e.g., Stage 2, Stage 3 and possibly Stage 4, if required) shall be completed as early as possible, and prior to the completion of detailed design. This work shall be done in accordance with the Ministry of Heritage, Sport, Tourism and Culture Industries’ Standards and Guidelines for Consultant Archaeologists (2011), and the appropriate components of the City of Toronto’s Official Plan Chapter 3 to identify any archaeological resources that may be present
7.3	Undertake future work in a manner that protects archaeological sites by conserving them in their original location or through archaeological field work, and endeavor to conserve significant archaeological resources in their original location through documentation, protection, and avoidance of impacts. Where activities could disturb significant archaeological resources or areas of archaeological potential, Metrolinx shall take appropriate measures to mitigate impacts.
7.4	Include provisions in contract as recommended by archaeological assessment(s) (e.g., in case archaeological resources are discovered, protection of sites). All future Stage 2 Archaeological Assessment findings shall be shared with all Indigenous Nations that were engaged during the Stage 1 Archaeological Assessment process, and the City of Toronto as applicable.

I.D.#	EIAR Commitment
7.5	Should previously unknown or unassessed deeply buried archaeological resources be uncovered during construction activities, they may be a new archaeological site and therefore subject to section 48(1) of the <i>Ontario Heritage Act</i> (Ontario). The proponent or person discovering the archaeological resources must cease alteration of the site immediately and engage a Licensed Archaeologist to carry out archaeological field work, in compliance with section 48 (1) of the <i>Ontario Heritage Act</i> (Ontario). Any person discovering human remains must immediately notify the police or coroner and the Registrar of Cemeteries, Ministry of Government Services. In addition, consultation with relevant Indigenous Nations will be initiated in the event that archaeological resources or human remains are discovered.
7.6	The Funeral, Burial and Cremation Services Act, 2002, S.O. 2002, c.33 (Government of Ontario 2002), requires that any person discovering or having knowledge of a burial site shall immediately notify the police or coroner. It is recommended that the Registrar of Cemeteries at the Ministry of Government and Consumer Services is also immediately notified.
7.7	Indigenous Nations shall be invited to participate in any subsequent archaeological work. All future archaeological assessment finding shall be shared with the Indigenous Nations that were engaged.
7.8	If in-water work is required, a marine archaeological assessment shall be completed.
7.9	If detailed design moves the Project footprint onto lands not previously assessed for archaeological potential, additional archaeological assessments may be required in order to conserve archaeological resources through documentation, protection, and/or avoidance from impacts.
7.10	Archaeological sites recommended for further archaeological fieldwork or protection remain subject to section 48(1) of the <i>Ontario Heritage Act</i> (Ontario) and may not be altered, or have artifacts removed from them, except by a person holding an archaeological license.
8	Traffic and Transportation
8.1	Maintain reasonable access through work zones, to the extent possible. Provide advance warning signage and notification to drivers and optimize signal timing plans.
8.2	Access to nearby land uses shall be maintained to the extent possible. Potentially affected residents, tenants and business owners shall be notified of initial construction schedules, as well as modifications to these schedules as they occur.
8.3	Potential effects to pedestrian and cyclist activities during construction will be mitigated through the installation of appropriate wayfinding, regulatory, and warning signs.
8.4	Consult with the City of Toronto and local school board(s) during construction planning including consideration of route detours.
8.5	Ensure that the public is notified in advance of any potential service disruptions.
8.6	Consult with local transit agencies to establish a suitable mitigation strategy to be implemented.
8.7	Consult with the City of Toronto and local school board(s) during construction planning including consideration of impacts to school bus stops.

I.D.#	EIAR Commitment
8.8	Albert Street shall be converted to two-way traffic to accommodate inbound movements during construction.
8.9	At Exhibition Station: During Construction, identify multiple haul routes for trucks to navigate through Liberty Village that abide by existing municipal bylaws while minimizing infiltration at some sensitive neighborhood streets. Spread truck volume evenly across several routes to lower the impact to one specific area.
8.10	At King / Bathurst intersection, introduce further turn restrictions if turning movements are impact during construction.
8.11	Evaluate opportunities for replacing facility parking at Moss Park during construction.
8.12	During design, review options for traffic optimization at the Queen St West / Simcoe St including but not limited to banning westbound left turn movements and/or increasing sidewalk width by either removing existing Line 1 entrance or widening sidewalk.
8.13	Accessibility for Ontarians with Disabilities Act compliant curb ramps shall be provided in locations where the pedestrian detour path moves from the boulevard onto a protected path on the street.

Table 2: Environmental Monitoring Requirements

I.D.#	EIAR Commitment	Notes
1.0	Natural Environment	
1.1	Recommendations for additional monitoring related to vegetation removal within TRCA or Ravine Natural Feature Protection regulated areas may be determined through consultation with Toronto and Region Conservation Authority or the City of Toronto, respectively.	
1.2	On site inspection shall be undertaken to confirm the implementation of the mitigation measures and identify corrective actions if required. Corrective actions may include additional site maintenance and alteration of activities to minimize impacts.	
1.3	The approach to compensation monitoring shall be determined by property ownership, applicable governing by-laws / regulations and location with respect to ecological functioning.	
1.4	Regular inspection in areas of vegetation removal shall be undertaken as required during construction to ensure that fencing is intact, only specified trees are removed and no damage is caused to the remaining trees and adjacent vegetation communities.	
1.5	Regular monitoring shall be undertaken during construction to prevent unauthorized impacts to the Migratory Butterfly Stopover Areas.	
1.6	Monitoring shall be undertaken prior to construction to survey exclusionary fencing installation and regular monitoring during construction to survey for snakes potentially trapped within exclusionary areas.	Applies to disturbance or destruction of Reptile Hibernaculum
1.7	Continuous monitoring of feature removal shall be undertaken during activity.	Applies to disturbance or destruction of Reptile Hibernaculum
1.8	Regular monitoring shall be undertaken to confirm that activities do not encroach into nesting areas or disturb active nesting sites.	Applies to disturbance or destruction of migratory bird nests
1.9	Species-specific monitoring activities shall be developed in accordance with any registration and/or permitting requirements under the Endangered Species Act Permit.	

I.D.#	EIAR Commitment	Notes
1.10	On site inspection shall be undertaken to confirm the implementation of the mitigation measures and identify corrective actions if required. Corrective actions may include additional site maintenance and alteration of activities to minimize impacts.	Applies to habitat loss, disturbance and/or mortality to Barn and/or Bank Swallow, Chimney Swift, Species-at-Risk Bats, and Butternut
1.11	On site inspection shall be undertaken to confirm the implementation of the mitigation measures and identify corrective actions if required. Corrective actions may include alteration of activities to minimize impacts and enhance mitigation measures.	Applies to removal or impacts to wetland, aquatic and riparian vegetation, degradation of wetlands as result of dewatering and discharge activities; erosion and sedimentation to wetlands / waterbodies from construction; risk of contamination to wetlands / waterbodies as a result of spills.
1.12	Monitoring for dewatering shall be undertaken to confirm sediment-laden discharge, visible scour/erosion and/or changes in temperature within any receiving watercourse does not occur.	
1.13	The presence, density, and location of compatible and incompatible species shall be monitored as per the frequency and methodology established in the Bi-Annual Monitoring Program within the Metrolinx Vegetation Guideline (2020b).	
2.0	Soil and Groundwater	
2.1	Develop and conduct a settlement monitoring program to document construction effects, identify adverse trends and identify additional mitigation measures.	
2.2	Soil and groundwater sampling and monitoring plans shall be implemented as required prior to, during, and post construction. Track soil in registry as required by Ontario Regulation 406/19.	
2.3	Best management practices shall be implemented for managing groundwater, including establishing a baseline and monitoring program during construction.	
2.4	Monitor groundwater discharge as required.	
2.5	Establish groundwater monitoring wells as required.	

I.D.#	EIAR Commitment	Notes
2.6	Regular site inspections and monitoring activities such as monitoring of water levels in adjacent groundwater and/or surface water features, if required, shall be completed by qualified members of the construction team to ensure that mitigation measures are fulfilled and that all regulatory requirements are met.	
2.7	If long term dewatering is required, long term groundwater monitoring shall be performed. If permit requirements require it, long term water quality sampling and testing shall also be performed.	
2.8	Regular inspections of equipment for fuel/fluid leaks, dewatering equipment and containment tanks for leakage, and installed erosion and sediment control measures.	
3.0	Air Quality	
3.1	<p>As part of the Construction Air Quality Management Plan, develop and implement Ambient Air Quality Monitoring Plan that documents how air quality monitoring would be conducted and compliance assessed to effectively prevent unacceptable rates of air emissions in accordance with the following guidelines:</p> <ul style="list-style-type: none"> • The construction related air contaminants of primary concern are in the form of particulate matter, with the principal construction related fractions of PM2.5 and PM10 - particulate matter of less than 2.5 and 10 micron in diameter, respectively. Other contaminants of concern include crystalline silica and oxides of nitrogen. The list of contaminants shall be expanded with any anticipated air pollutants that may be produced as a result of the work. • Applicable criteria for air contaminants of concern include Ontario Ambient Air Quality Criteria , Canadian Ambient Air Quality Standards, and the various schedules of Ontario Regulation 419/05. Mitigation thresholds for PM2.5, PM10 and crystalline silica are provided in Metrolinx’s Environmental Guide for Air Quality and Greenhouse Gas Emissions Assessment (2019). 	

I.D.#	EIAR Commitment	Notes
3.2	<p>Monitor for dust and air quality parameters during construction to assess if implemented mitigation measures are effective and to identify if additional mitigation is required.</p> <p>Siting of the monitors should generally follow the guidelines provided in the Ministry of the Environment, Conservation and Parks Operations Manual for Air Quality Monitoring in Ontario (2018).</p>	
3.3	<p>For Project construction locations that are considered short-duration projects (i.e. less than 30 days), periodical opacity monitoring (see ECCC 2005) at the active construction zone boundary and at closest sensitive receptor may be sufficient.</p> <p>For long duration Project construction locations where sensitive receptors are identified 5 to 10 m from the active construction zone, continuous monitoring of PM10 and PM2.5 is recommended at locations upwind and downwind of the active construction zone, as well as at a selected closest sensitive receptor. Monitoring should commence for more than one week prior to the start of any construction activities to establish pre-construction levels and continue through the active phase of the construction project. As the active construction zone moves or changes, the locations of the monitoring equipment shall follow to maintain its relevance.</p> <p>Consider monitoring setup including a meteorological station (for measuring wind speed and direction) and datalogger/modem for downloading data, power/battery source, and capability to send alarm notifications at mitigation thresholds.</p> <p>Calibration of the instruments should be included as part of the monitoring program.</p>	
3.4	<p>Prepare and submit weekly or monthly reports to Metrolinx to provide construction monitoring results, and document air quality monitoring activities, assessment of compliance and effectiveness of mitigation activities.</p>	
3.5	<p>Additional ambient air monitoring may be required if contaminated soils are encountered during construction activities. The list of contaminants and monitoring requirements should be assessed at that time based on the results of investigation and soil/material analysis.</p>	

I.D.#	EIAR Commitment	Notes
3.6	If laboratory work is required, consult the Standards Council of Canada (SCC) or the Canadian Association for Laboratory Accreditation (CALA) for a list of accredited Ontario analytical laboratories to perform specific air analyses.	
3.7	The expected impacts from operations should be effectively mitigated provided that mitigation measures established in the Air Quality Management Plan are followed. Ambient air quality monitoring is not expected to be required. However, if air quality monitoring is deemed applicable, develop an Air Sampling and Monitoring Plan and submit monthly or annual reports, summarizing sampling and monitoring results accumulated over the preceding year.	
3.8	In addition, relevant construction monitoring activities from the guidelines Best Practices for the Reduction of Air Emissions from Construction and Demolition Activities (ECCC 2005) shall be implemented during construction.	
4.0	Noise and Vibration	
4.1	A pre-construction consultation should be completed with potentially impacted property owners for cosmetic damage. A commitment to conduct pre-construction measurements of background vibration and pre-construction inspections (i.e., identify existing cracks in walls, floors and exterior cladding of the first two storeys above grade and interior finishes of all storeys below grade) should be in place.	
4.2	Vibration monitoring should be conducted for the structures where the minimum setback distances required for construction vibration cannot be maintained.	
4.3	Perceptible vibration should be monitored in terms of RMS (mm/s) while structural damage should be monitored in terms of PPV (mm/s). The construction vibration monitoring equipment should be capable of taking measurements in three axes (i.e., transverse, vertical and longitudinal) simultaneously, and the conversion from PPV to RMS using a crest factor is not acceptable for the monitoring purposes.	
4.4	The Metrolinx environmental guide should be reviewed and details from the guide should be included in the vibration monitoring plan.	

I.D.#	EIAR Commitment	Notes
4.5	<p>Operations noise and vibration monitoring procedures can include:</p> <ol style="list-style-type: none"> 1. Over the first five years of operations a survey of ground-borne vibration measurements and compare to operations requirements should be completed. 2. For the first year, vibration monitoring should include all identified representative operational vibration sensitive receptors. 3. For Year 2 through Year 5, and provided vibration monitoring for the First 1 shows compliance at all identified representative receptors, vibration monitoring should be provided to include at least [REDACTED]% of the identified representative operational vibration sensitive receptors. 4. For each year after the first 5 years of operations and provided vibration monitoring for the first five years shows compliance at all identified representative receptors, vibration monitoring should be provided to include at least [REDACTED]% of the identified representative operational vibration sensitive receptors. <p>The monitored locations should be approximately equally distributed along the Project footprint and vary from year to year. Priority should be placed on locations near special track work or tight-radius curves.</p>	
4.6	<p>An operations monitoring program shall be established and can include the following:</p> <ol style="list-style-type: none"> 1. Station, emergency exit and emergency services noise levels for fire ventilation and comfort ventilation should be monitored at the nearest points of reception. 2. OMSF noise should be monitored at sensitive receptors. 3. Operational noise from train movements on tracks to be monitored for representative receptors and for at least the first 5 years of operation. 	
4.7	<p>Operations monitoring locations should be approximately equally distributed along the Project footprint and vary from year to year. Priority should be placed on locations near special track work or tight-radius curves.</p>	
5.0	Socio-Economic and Land Use	
5.1	<p>Regular monitoring of temporary access paths, walkways, cycling routes and fencing.</p>	

I.D.#	EIAR Commitment	Notes
5.2	Construction activities shall be monitored by a qualified Environmental Inspector to confirm that all activities are conducted in accordance with mitigation plans and within specified areas.	
5.3	Regular monitoring of mitigation measures to verify effectiveness and inform adaptive management, as required.	
6.0	Built Heritage Resources and Cultural Heritage Landscapes	
6.1	Vibration monitoring should be conducted for built heritage resources where the minimum setback distances required for construction vibration cannot be maintained.	
7.0	Traffic and Transportation	
7.1	Traffic impacts to be monitored and mitigation adjusted as necessary during the Construction Period.	
7.2	Cycling network impacts to be monitored and mitigation adjusted as necessary during the Construction Period.	
7.3	Ensure that the public is notified in advance of any potential service disruptions or modifications.	
7.4	Signal timing optimizations should be applied based on actual field conditions to accommodate the future traffic patterns and demands at the intersection after opening day.

SCHEDULE 18

COMMUNICATION AND PUBLIC ENGAGEMENT PROTOCOL

1. DEFINITIONS

In this Schedule 18, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 18) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- 1.1 “**Accessibility for Ontarians with Disabilities Act (Ontario)**” means the *Accessibility for Ontarians with Disabilities Act, 2005*, S.O. 2005, c. 11, as amended from time to time.
- 1.2 “**Business Improvement Areas**” means any municipally designated “Business Improvement Areas” as recognized by the City of Toronto.
- 1.3 “**Communications and Public Engagement Protocol**” means this Schedule 18.
- 1.4 “**Communications Calendar**” has the meaning given in Section 4.4(a)(ii).
- 1.5 “**Communications Repository**” has the meaning given in Section 5(a).
- 1.6 “**Communications Signage**” has the meaning given in Section 9.9(b).
- 1.7 “**Communications Working Group**” has the meaning given in Section 4.1(a).
- 1.8 “**Complaints Protocol**” has the meaning given in Section 9.16(b)(i).
- 1.9 “**Construction Activities Incident**” has the meaning given in Section 10.5(a).
- 1.10 “**Construction Liaison Committee**” has the meaning given in Section 4.3(a).
- 1.11 “**Crisis Communication Plan**” has the meaning given in Section 9.3(b)(vi).
- 1.12 “**Documents Relating to Indigenous Nations**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.13 “**Elected Officials**” means any Member of Parliament or their staff or representatives, any Member of the Provincial Parliament (including the Premier) or their staff or representatives or any Municipal Councillor (including the Mayor) or their staff or representatives.
- 1.14 “**Indigenous Entities Engagement**” means a process of meaningfully engaging with Indigenous Entities whose interests may be affected by the Project, with the objective of providing relevant information to Indigenous Entities about the Project and meaningfully considering their input.
- 1.15 “**Indigenous Nations Engagement**” has the meaning given in Schedule 17 – Environmental Obligations.

- 1.16** “**Level 1 Call**” means a comment, suggestion and/or complaint where a caller is providing an opinion on, or reaction to, construction activities and is requesting items be addressed as soon as possible. This Level 1 Call will be tracked, and an initial response by Project Co is to be provided to Contracting Authority within twenty-four (24) hours of receipt.
- 1.17** “**Level 2 Call**” means a media request for information and/or influencer escalation where a caller belongs to a category of media that has stakeholder impact and is looking to have that information provided to them on a fast track. Initial response by Project Co for a Level 2 Call is to be provided to Contracting Authority within two (2) hours. Project Co is to work with Contracting Authority to resolve the response.
- 1.18** “**Level 3 Call**” means a report of personal injury and/or allegations of a safety concern or serious and illegal misconduct where a caller is witness to, or party of, an event on or adjacent to construction activities for which security and health and safety or site supervisory staff must investigate upon receipt of call in order to secure public safety. Incidents and emergencies will require members of the Project Co team to resolve issues overnight, or on weekends.
- 1.19** “**Major Impact**” has the meaning given in Section 10.2(b).
- 1.20** “**Marketing Delivery Agent**” has meaning in Section 9.13.1(a).
- 1.21** “**Marketing Working Group**” has meaning in Section 4.1(e).
- 1.22** “**Medium Impact**” has the meaning given in Section 10.3(b).
- 1.23** “**Metrolinx Advertising Communications Services & Procurement Branch**” is a board comprised of Metrolinx stakeholders who will provide Project Co access to a list of authorized entities in order for Project Co to fulfill its obligations under Section 9.13.
- 1.24** “**Metrolinx Annual Strategic Marketing Plan**” has meaning in Section 9.13.2(a).
- 1.25** “**Metrolinx Brand**” has meaning in Section 9.8.1(a).
- 1.26** “**Metrolinx Branded Items**” has meaning in Section 9.8.1(a).
- 1.27** “**Minor Impact**” has the meaning given in Section 10.4(b).
- 1.28** “**Monthly Editorial Meeting**” has the meaning given in Section 9.2(c).
- 1.29** “**New Branding Installation Notice**” has meaning given in Section 9.8.5(a)(ii).
- 1.30** “**New Branding Installation Commencement Date**” has meaning given in Section 9.8.5(a)(ii).
- 1.31** “**Operational Term Marketing Execution Plan**” means the requirements set out in Section 9.13.3.
- 1.32** “**Project Co Brand**” has meaning in Section 9.8.2(a);
- 1.33** “**Project Co Branded Items**” has meaning in Section 9.8.3(a);

- 1.34 “**Project Co Communications Protocol**” has the meaning given in Section 6(a).
- 1.35 “**Project Co Communications Team**” has the meaning given in Section 3(a).
- 1.36 “**Project Co Construction Communications Plan**” has the meaning given in Section 7.1(a).
- 1.37 “**Project Co Market Research Plan**” means the requirements set out in Section 9.14.
- 1.38 “**Project Co Operations Communications Plan**” has the meaning given in Section 7.2(a).
- 1.39 “**Project Co Shop Local Plan**” has the meaning given in Section 9.11(a).
- 1.40 “**Project Website**” means Contracting Authority’s websites www.metrolinx.com and www.infrastructureontario.ca, a section of which will be designated for the Project.
- 1.41 “**Project Website and Social Media Calendar**” has the meaning given in Section 4.4(a)(ii).
- 1.42 “**Signage and Hoarding Coverage Plan**” has the meaning given in Section 9.9(a).
- 1.43 “**Stakeholder Working Group**” has the meaning given in Section 4.2(a).

2. GENERAL

2.1 General Communications Principles

- (a) The Project represents an important transit infrastructure commitment by Contracting Authority. During the Construction Period, Project Co will lead the communication and community engagement requirements pertaining to its scope of work under the Project Agreement. By developing comprehensive communication plans and materials, Project Co must ensure the public and Stakeholders are informed and engaged in a timely manner, and that appropriate action is taken to address complaints, mitigate impacts to residents and businesses, and to effectively communicate such impacts and progress of the Works. During the Construction Period, Project Co will also provide support and collaborate with South Civil Project Co and North Civil Project Co, who are leading their own communication and community engagement requirements, by providing information, messaging and participation in events and meetings, as reasonably requested by Contracting Authority. During the Operational Term, Project Co will lead its communication requirements as outlined in this Schedule 18.
- (b) Project Co acknowledges that:
- (i) Project Co is Contracting Authority’s and the Stakeholders’ primary source of information with respect to all matters within Project Co’s control in respect of the Project; and
 - (ii) Contracting Authority and the Stakeholders, at all times during the Project Term, shall rely upon Project Co to,
 - (A) anticipate matters which may be of interest and concern to Contracting Authority or the Stakeholders during the Project Term (based on its experience as well as lessons learned during the course of the Project); and

- (B) proactively organize and disseminate information in accordance with its obligations in the Project Agreement so as to permit the Parties to perform their obligations hereunder.
- (iii) Project Co shall work together with Contracting Authority to deliver the communications and public engagement activities pursuant to the Project Agreement, including this Schedule 18.

2.2 General Communications Responsibilities

- (a) During the Project Term, Project Co shall:
 - (i) proactively identify communication issues;
 - (ii) generally enhance opportunities for open, transparent, effective and proactive communications with the public so as to minimize complaints and increase the public's understanding of the Project;
 - (iii) be accountable for the effective delivery of communications and community engagement plans as set out in the Project Agreement;
 - (iv) recognize the contribution of the Parties in the Project Agreement;
 - (v) carry out all activities required to fulfill all of Project Co's communications and community engagement obligations in accordance with and as set out in this Schedule 18;
 - (vi) develop all plans, protocols, and other documentation that Project Co is required to develop in accordance with this Schedule 18 in consultation with Contracting Authority, Stakeholders, and Governmental Authorities, and submit all such plans, protocols and documentation to Contracting Authority for review in accordance with Schedule 10 – Review Procedure;
 - (vii) in consultation with Contracting Authority, Stakeholders, and Governmental Authorities, implement and comply with all plans, protocols and other documentation that have been reviewed and accepted or approved by Contracting Authority in accordance with this Schedule 18;
 - (viii) provide all information, materials, support and consultation to Contracting Authority as Contracting Authority may require with respect to Contracting Authority's communications, public engagement, community liaison and public and customer notification activities, Stakeholder consultation, and reporting related to the Project;
 - (ix) be available to assist Contracting Authority in responding to media, government and public enquiries related to the Project as requested and in accordance with all timelines prescribed by Contracting Authority;
 - (x) review and develop communications and/or technical materials reasonably requested by Contracting Authority;

- (xi) support Contracting Authority with the following Stakeholders when carrying out Project Co's obligations as set out in this Schedule 18:
 - (A) the City of Toronto and the TTC;
 - (B) MTO, MOI, conservation authorities and other Governmental Authorities;
 - (C) Utility Companies; and
 - (D) Emergency Service Providers;
 - (xii) provide experienced communications and public engagement staff, as set out in Section 3(a), to support the implementation of this Schedule 18;
 - (xiii) ensure that all Project Co Parties exhibit a high degree of professionalism and courtesy when working on the Project and when interacting with Elected Officials, Stakeholders, Indigenous Nations, Indigenous Entities, customers, businesses, residents and the public when carrying out Project Co's obligations under this Schedule 18. This includes:
 - (A) acting with appropriate decorum when attending public consultations and events;
 - (B) parking in a manner that will not negatively impact neighbourhood or station access or customer parking;
 - (C) not littering and being respectful of public and private property;
 - (D) replacing or repairing waste receptacles, plantings and signage should these items become damaged or defaced; and
 - (E) not engaging in inconsiderate conversation near public spaces; and
 - (xiv) carry out all activities required to fulfill all of Project Co's obligations set out in Section 37.5 (*Claims Management*) of the Project Agreement and Section 21 (*Incident Reporting and Claim Statement*) of Schedule 25 – Insurance and Performance Security Requirements.
- (b) Project Co shall ensure that all public-facing communications materials and information are provided in colour (and not black and white), unless otherwise directed by Contracting Authority.
 - (c) Project Co acknowledges and agrees that, notwithstanding any other provision in this Schedule 18,
 - (i) all communications-related protocols, plans, materials, advertisements, notices, activities, approaches and strategies with respect to the Project, shall be subject to Contracting Authority's review and approval; and
 - (ii) Project Co may not engage with, consult with, communicate with or disseminate any materials to the public, Governmental Authorities, Stakeholders, Indigenous Nations or

Indigenous Entities with respect to the Project without the prior written consent of Contracting Authority.

- (d) During the Construction Period, Project Co shall:
- (i) provide experienced staff, as set out in Section 3(a)(i), to participate in the Communications Working Group, Stakeholder Working Group, Construction Liaison Committee meetings, internal and external meetings, public in-person and virtual events;
 - (ii) communicate anticipated construction activities and impacts, construction progress, Project highlights, potential traffic, transit system, service or station access changes and other traffic or transit information to the public and customers;
 - (iii) ensure that Stakeholder input is obtained in a timely manner so that it may be properly considered by the Parties;
 - (iv) provide the Stakeholders with regular and timely information in respect of Project status and progress, potential traffic or transit system changes and noise, dust, vibration, and congestion impacts on businesses and residents and other actual and potential impacts of Project activities;
 - (v) support Contracting Authority to mitigate impacts and rectify complaints to Stakeholders, residents and businesses where appropriate;
 - (vi) provide regular updates and support to Contracting Authority related to all community impacts associated with the Project;
 - (vii) work with Contracting Authority to build and foster relationships with local businesses and the public in order to address the community's concerns about the Works that may impact the community, and use best practices for seeking and receiving public comments;
 - (viii) develop and execute business disruption mitigation and business engagement strategies, in consultation with Contracting Authority, in order to address businesses' concerns about Construction Activities;
 - (ix) consult with Contracting Authority with respect to design opportunities to engage the community in the Project's design process where feasible, and as directed by Contracting Authority;
 - (x) support Contracting Authority with the following Stakeholders when carrying out Project Co's obligations as set out in this Schedule 18:
 - (A) neighbourhood groups (including property owners, ratepayers, citizens);
 - (B) local businesses (including individual operators and Business Improvement Areas); and
 - (C) various community interest groups (including employment, environmental, health, natural and cultural heritage, advocacy groups);

- (e) During the Operational Term, Project Co shall,
 - (i) provide experienced staff, as set out in Section 3(a)(ii), to participate in meetings, public in-person and virtual events;
 - (ii) be accountable to customers and rectify complaints as per Section 9.16; and
 - (iii) under Contracting Authority’s direction, collaborate with, the TTC and the City to help Contracting Authority deliver a cohesive communication program and service for the Ontario Line Subway System.
- (f) Project Co may fulfill any obligations that are required to be performed “in person”, as required by this Schedule 18, by hosting a virtual event or participating virtually, subject to the prior written approval of Contracting Authority, not to be unreasonably withheld.

3. PROJECT CO COMMUNICATIONS TEAM

- (a) Project Co shall form a dedicated communications team (the “**Project Co Communications Team**”) no later than thirty (30) days following Financial Close in respect of the Construction Period and no later than sixty (60) days before the anticipated Substantial Completion Date in respect of the Operational Term. The Project Co Communications Team shall be comprised of the following:
 - (i) During the Construction Period,
 - (A) a communications and public engagement lead who shall,
 - (I) be a media-trained spokesperson with a minimum of twelve (12) years of communications experience in media relations, crisis communications, issues management, communications marketing, corporate and community relations and experience in managing a team;
 - (II) have relevant experience with linear projects in a dense urban environment, such as in the transportation, transit, energy, construction, utilities or infrastructure sectors, managing or engaging with impacted communities;
 - (III) oversee the Project Co Communications Team in Section 3(a)(i)(B) who shall directly report to the communications and public engagement lead;
 - (IV) ensure that Project Co’s communications-related obligations under the Project Agreement are being met, with the responsibility to review and sign-off on all plans submitted by Project Co; and
 - (V) be a Key Individual that has a direct reporting relationship to or is embedded with the design and construction team, to ensure appropriate flow of relevant information;

- (B) a communications team that shall possess no fewer than five (5) additional full-time staff members, each of whom shall possess a minimum of five (5) years of communications, marketing or other relevant experience in media relations, customer communications, crisis communications, issues management, community relations and public engagement (transportation, transit, energy, construction, utility or infrastructure sector experience will be considered an asset); and
 - (C) any additional staff that may be required in order for Project Co to fulfill its communications obligations under the Project Agreement.
- (ii) During the Operational Term,
- (A) a communications and public engagement lead who shall,
 - (I) be a media-trained spokesperson with a minimum of ten (10) years of communications experience in media relations, crisis communications, issues management, corporate and community relations and experience managing a team;
 - (II) oversee the Project Co Communications Team in Section 3(a)(ii)(B) who shall directly report to the communications and public engagement lead;
 - (III) ensure that Project Co’s communications-related obligations under the Project Agreement are being met, with the responsibility to review and sign-off on all plans submitted by Project Co; and
 - (IV) have a direct reporting relationship or is embedded within the operations and maintenance team, to ensure appropriate flow of relevant information
 - (B) a communications team that shall possess no fewer than three (3) additional full-time staff members, each of whom shall possess a minimum of three (3) years of communications, marketing or other relevant experience, including in media relations, customer communications, crisis communications, issues management, community relations and public engagement; and
 - (C) any additional staff that may be required in order for Project Co to fulfill its communications obligations under the Project Agreement.
- (b) The Project Co Communications Team shall work closely with Contracting Authority’s staff at community office locations, when required.

4. WORKING GROUPS

4.1 Communications Working Group and Marketing Working Group

- (a) For the Project Term, Contracting Authority representatives and the Project Co Communications Team shall form a communications working group (the “**Communications Working Group**”). The Communications Working Group shall develop and implement all communications plans and

public consultation, marketing and community engagement activities for the Project in accordance with this Schedule 18. Project Co shall ensure that Key Individuals and any other staff from Project Co or any Project Co Party that Contracting Authority may require, are made available to support the Communications Working Group as required. Strategies and tactics developed and employed by the Communications Working Group shall,

- (i) provide for timely, open, transparent, effective, consistent and proactive communications with Contracting Authority, elected officials and the public;
 - (ii) foster and maintain positive and constructive relationships with neighbourhoods, Stakeholders, residents and customers that may be affected by decisions regarding the scope or in-service operations of the Project; and
 - (iii) build trust and maximize public understanding and support for the Project.
- (b) No later than forty-five (45) days following Financial Close, the Communications Working Group shall convene to discuss the Project Co Communications Protocol and to identify the working relationship, roles and responsibilities matrix, and approvals processes for the Project. The Communications Working Group shall provide direction and feedback on communications deliverables and plans expected from Project Co on an ongoing basis.
- (c) During the Construction Period, the Communications Working Group shall meet bi-weekly (or more frequently as the Parties agree, acting reasonably), to plan and implement communications, marketing and public engagement strategies for the Project, share information, discuss community relations updates, identify and plan for communications and Project milestones, manage issues and receive schedule updates.
- (d) During the Operational Term, the Communications Working Group shall meet monthly (or more frequently as the Parties agree, acting reasonably), to plan and implement communications, marketing and public engagement strategies for the Project, share information, discuss customer service updates, manage issues and collaborate on coordinated meetings with other Stakeholders.
- (e) No later than three (3) months prior to Scheduled Substantial Completion Date, Project Co shall establish a marketing working group as a sub-working group to the Communications Working Group (the “**Marketing Working Group**”) to develop and implement marketing requirements and initiatives throughout the Operational Term.
- (f) During the Operational Term, the Marketing Working Group shall meet monthly (or more frequently as the Parties agree, acting reasonably) following Scheduled Substantial Completion Date to plan, coordinate and provide updates on the following:
- (i) identification and scope of the deliverable or activity being addressed, tactic or tools to be employed, objectives, target audience, timing or dead line, and Project Co resources assigned to tasks, marketing activities deployed during the applicable month, including metrics and analytics to quantify the effectiveness of marketing tactics;
 - (ii) potential future deployment of marketing activities related to the Metrolinx Annual Strategic Marketing Plan;

- (iii) activities performed related to the Operational Term Marketing Execution Plan; and
 - (iv) upcoming Project milestones and associated customer benefits which will be the basis of marketing deliverables and activities for the following six (6) month period.
- (g) At the initial meeting of the Marketing Working Group, Contracting Authority shall provide an overarching brand and media strategy inclusive of visual identity, tone of voice, messaging matrix and brand equity. The initial meeting of the Marketing Working Group shall be for the purpose of providing Project Co with information to facilitate the effective support in the execution of the Operational Term Marketing Execution Plan.
- (h) Project Co shall report to the Communications Working Group on a monthly basis with a summary of the updates and discussions of the Marketing Working Group.

4.2 Stakeholder Working Group

- (a) During the Construction Period, Contracting Authority representatives, the Project Co Communications Team, and representatives from the City of Toronto, community, agency and others, as identified by Contracting Authority, shall form a stakeholder working group (the “**Stakeholder Working Group**”). The Stakeholder Working Group shall meet quarterly, or more frequently as the Parties agree acting reasonably, to discuss best practices, share information, develop strategies, and provide oversight and support towards Project Co’s obligations with respect to local employment and local business procurement opportunities, as per Section 8.3(j) of this Schedule 18, in each case in connection with the Parties’ obligations under this Schedule 18.
- (b) The strategies and tactics developed and employed by the Stakeholder Working Group shall,
- (i) foster and maintain positive and constructive relationships with community groups and agencies that may be affected by the Project; and
 - (ii) maximize public understanding of the employment and training opportunities and benefits to the community as a result of the Project.
- (c) Project Co shall ensure that Key Individuals and any other staff from Project Co or any Project Co Party that Contracting Authority may require, are made available to support the Stakeholder Working Group as required.
- (d) No later than sixty (60) days following Financial Close, the Stakeholder Working Group shall convene to provide an overview of the Project and discuss objectives, roles and responsibilities.
- (e) The Stakeholder Working Group shall provide direction and feedback to Project Co and Contracting Authority on deliverables expected from Project Co.

4.3 Construction Liaison Committee

- (a) During the Construction Period, Project Co shall lead monthly construction liaison committee meetings to provide construction updates for the Project (the “**Construction Liaison Committee**”).

- (b) Representatives from the City of Toronto, emergency services, business improvement areas, resident, school, business and community organizations will be invited to serve on the Construction Liaison Committee. As members, they are responsible for:
 - (i) actively participating in meetings;
 - (ii) acting as representatives of their communities and formally communicating back to them; and
 - (iii) providing meaningful and timely feedback to Project Co.
- (c) Project Co will prepare a presentation for each Construction Liaison Committee meeting to be distributed five (5) Business Days prior to the meeting, and will present an overview of the works schedule, local impacts and address questions during the meeting, in addition to supporting Contracting Authority in following-up with the various representatives on matters concerning their communities.

4.4 Submittals for Communications Working Group and Marketing Working Group

- (a) No later than five (5) Business Days prior to each Communications Working Group meeting and/or any sub-working group meeting, including the Marketing Working Group, Project Co shall provide the following submittals to Contracting Authority for review:
 - (i) a draft agenda for the Communications Working Group meeting and/or any sub-working group meeting, including the Marketing Working Group, a final version of which is to be circulated at least two (2) Business Days prior to the meeting; and
 - (ii) an up-to-date calendar outlining the communications deliverables and activities for the next six (6) month period, including,
 - (A) the identification and scope of the deliverable or activity being addressed;
 - (B) the tactic or tools to be employed in order to achieve each deliverable and carry out each activity;
 - (C) the objectives, target audience, timing and deadline associated with each deliverable and activity; and
 - (D) the Project Co resource(s) assigned to each deliverable and activity,(the “**Communications Calendar**”). As part of the Communications Calendar, Project Co shall provide a stand-alone content calendar that includes the timeline for development, submission, review and approval for the content described in Section 9.2(b) (the “**Project Website and Social Media Calendar**”).
- (b) Contracting Authority may, in its sole discretion, provide comments to Project Co with respect to the conformance of the Communications Calendar and the Communications Repository with the requirements of the Project Agreement. Project Co shall incorporate all such comments provided

by Contracting Authority and shall provide updated, corrected versions to Contracting Authority in accordance with the timeframes prescribed by Contracting Authority, acting reasonably.

- (c) During the Construction Period,
 - (i) The minutes of all meetings, recommendations and decisions of the Communications Working Group and/or any sub-working group, such as the Marketing Working Group, including those made by telephone or other form of communication, shall be recorded and maintained by Project Co. Project Co shall circulate copies of such minutes within two (2) Business Days of the holding of the meeting or the making of the recommendation or decision. Unless Contracting Authority notifies Project Co within five (5) Business Days of receipt of the minutes that Contracting Authority disagrees with the contents of the minutes, Contracting Authority and Project Co shall be deemed to have approved such minutes. Project Co shall maintain a complete set of all minutes of the meetings of the Communications Working Group and/or any sub-working group, including the Marketing Working Group, and shall make such minutes available for inspection by Contracting Authority during regular business hours.

- (d) During the Operational Term,
 - (i) The minutes of all meetings, recommendations and decisions of the Communications Working Group and/or any sub-working group, such as the Marketing Working Group, including those made by telephone or other form of communication, shall be recorded and maintained by Project Co. Project Co shall circulate copies of such minutes within five (5) Business Days of the holding of the meeting or the making of the recommendation or decision. Unless Contracting Authority notifies Project Co within five (5) Business Days of receipt of the minutes that Contracting Authority disagrees with the contents of the minutes, Contracting Authority and Project Co shall be deemed to have approved such minutes. Project Co shall maintain a complete set of all minutes of the meetings of the Communications Working Group and/or any sub-working group, including the Marketing Working Group, and shall make such minutes available for inspection by Contracting Authority during regular business hours.

4.5 Submittals for Stakeholder Working Group

- (a) No later than ten (10) Business Days prior to each Stakeholder Working Group meeting, Contracting Authority shall provide,
 - (i) a draft agenda for the Stakeholder Working Group meeting, a final version of which is to be circulated at least two (2) Business Days prior to the meeting; and
 - (ii) meeting minutes from the previous meeting, if applicable, for review prior to commencement of the next meeting.

- (b) At each Stakeholder Working Group meeting, Project Co shall provide a presentation and/or report for discussion, which provides an overview of the following:
 - (i) a dashboard comprised of statistics as noted for activities in Section 8.3(j) regarding Construction Activities and Project Co Services, including,

- (A) magnitude of local procurement investments, investments supporting local business promotions and main street beautification and cleaning efforts by Project Co Parties;
 - (B) number of jobs created by Project Co Parties;
 - (C) a high-level overview of the Project Works Schedule, with anticipated non-trades professional administrative and technical positions on a year-by-year basis;
 - (D) key schedule milestones; and
 - (E) any other submittal that may be requested by Contracting Authority, acting reasonably.
- (c) The minutes of all meetings, recommendations and decisions of the Stakeholder Working Group, including those made by telephone or other form of communication, shall be recorded and maintained by Project Co. Project Co shall circulate copies of such minutes within five (5) Business Days of the holding of the meeting or the making of the recommendation or decision. Unless Contracting Authority notifies Project Co within five (5) Business Days of receipt of the minutes that Contracting Authority disagrees with the contents of the minutes, Contracting Authority and Project Co shall be deemed to have approved such minutes. Project Co shall maintain a complete set of all minutes of the meetings of the Stakeholder Working Group and shall make such minutes available for inspection by Contracting Authority during regular business hours.

5. COMMUNICATIONS REPOSITORY

- (a) Project Co shall implement and maintain, throughout the Project Term, an electronic repository using software that is agreed upon by the Parties (the “**Communications Repository**”). The Communications Repository shall include all communications submittals, stakeholder/contact and comment database, documents, plans, deliverables, agendas, photos, videos, and other media contemplated in this Schedule 18. Project Co shall, throughout the Project Term, allow Contracting Authority users to remotely log in and access the Communications Repository to review and/or export all information set out in the Communications Repository.

6. PROJECT CO COMMUNICATIONS PROTOCOL

- (a) Project Co shall, no later than sixty (60) days following Financial Close, submit a communications protocol for review by Contracting Authority pursuant to Schedule 10 – Review Procedure that describes how Project Co will meet its communications-related obligations under the Project Agreement (the “**Project Co Communications Protocol**”). The Project Co Communications Protocol shall include the following:
- (i) an executive summary of objectives and description of Project Co’s approach to all communications aspects of the Project;
 - (ii) a summary of proposed communications tools to be used by Project Co to consult with and report to Contracting Authority in accordance with this Schedule 18, with a view towards ensuring that a system is in place for media and community relations, social media

management, graphics capabilities, issues management, complaints management, dispute resolution and crisis communications for the purposes of informing and engaging the community, businesses and other Stakeholders about the progress of the Project, as well as any impacts and the benefits of the Project;

- (iii) a summary of Project Co’s proposed plan with respect to notifying, in consultation with Contracting Authority, affected residents and businesses, including Contracting Authority’s community relations representatives, as soon as possible of unplanned or unexpected impacts of the Works (including going door-to-door, providing updates for Contracting Authority’s Project Website and information telephone line, including after-hours support), and providing an estimate of the expected duration of the impact to affected residents and businesses; and
- (iv) a description of the Project Co Communications Team, including,
 - (A) the identification by name of the communications and public engagement lead and all other staff comprising the Project Co Communications Team; and
 - (B) the roles, responsibilities and experience of each member of the Project Co Communications Team.
- (b) Project Co shall update the Project Co Communications Protocol,
 - (i) on an annual basis; or
 - (ii) more frequently as required to account for any changes in circumstances with respect to the Project or lessons learned, or as directed by Contracting Authority, acting reasonably.

Project Co shall resubmit each updated Project Co Communications Protocol to Contracting Authority for review pursuant to Schedule 10 – Review Procedure.

7. PROJECT CO COMMUNICATIONS PLAN

7.1 Project Co Construction Communications Plan

- (a) Project Co shall, no later than ninety (90) days following Financial Close submit a communications plan for review by Contracting Authority pursuant to Schedule 10 – Review Procedure that describes how Project Co will meet its construction communications-related obligations under the Project Agreement (the “**Project Co Construction Communications Plan**”). The Project Co Construction Communications Plan shall include:
 - (i) a description of Project Co’s objectives and strategies and specific tactics, timelines, deliverables and responsibilities to support,
 - (A) initiatives for public engagement and consultation, including in-person and virtual; and
 - (B) local or community-based communications, advertising and notification related to the Works;

- (ii) a detailed description of the communications tools outlined in the Project Co Communications Protocol;
 - (iii) a description of the communications and community engagement activities as set out in Section 8 and Section 9, including a description of how Project Co will carry out such communications activities in accordance with its obligations set out in this Schedule 18;
 - (iv) a description of how the approach will be coordinated with respect to other protocols and plans developed by Contracting Authority or Project Co as part of this Schedule 18;
 - (v) the Communications Calendar, including, for clarity, the Project Website and Social Media Calendar; and
 - (vi) a description of Project Co’s approach and strategy with respect to maintaining and updating the Communications Calendar and Communications Repository.
- (b) Project Co shall update the Project Co Construction Communications Plan,
- (i) on an annual basis; or
 - (ii) more frequently as may be directed by Contracting Authority, acting reasonably, or as may be required to account for any changes in the circumstances of or lessons learned with respect to the Project.

Project Co shall resubmit each updated Project Co Construction Communications Plan to Contracting Authority for review pursuant to Schedule 10 – Review Procedure.

7.2 Project Co Operations Communications Plan

- (a) Project Co shall, no later than one-hundred and eighty (180) days prior to Scheduled Substantial Completion Date, submit a communications plan for review by Contracting Authority pursuant to Schedule 10 – Review Procedure that describes how Project Co will meet its operational communications-related obligations under the Project Agreement (the “**Project Co Operations Communications Plan**”). The Project Co Operations Communications Plan shall include:
- (i) a description of Project Co’s approach with respect to:
 - (A) the Project Co Communications Team;
 - (B) its involvement and participation in meetings to update internal and external Stakeholders as required, including involvement and participation in events or meetings as reasonably requested by Contracting Authority;
 - (C) how Project Co will coordinate communications activities with Contracting Authority as they relate to Project Co Services; and
 - (D) how Project Co will respond to communications-related requests from Contracting Authority and the City of Toronto as applicable, on topics related to the performance of Project Co Services.

- (b) Project Co shall update the Project Co Operations Communications Plan,
 - (i) on an annual basis; or
 - (ii) more frequently as may be directed by Contracting Authority, acting reasonably, or as may be required to account for any changes in the circumstances of or lessons learned with respect to the Project.

8. COMMUNITY ENGAGEMENT

8.1 General

- (a) During the Project Term, public engagement activities shall be conducted by Contracting Authority and Project Co on a range of topics, in accordance with the Project Co Construction Communications Plan and the Project Co Operations Communications Plan.
- (b) During the Construction Period, Project Co shall identify in its Project Co Construction Communications Plan how it will lead community engagement activities, in consultation with Contracting Authority, related to:
 - (i) the OMSF;
 - (ii) the Vehicles;
 - (iii) communicating Project Co Services to the public and Stakeholders; and
 - (iv) communicating any other Project Operations which may impact the community and require notification and which are not covered as part of the South Civil Project and the North Civil Project.
- (c) During the Construction Period, Project Co shall support community engagement activities in consultation with Contracting Authority, related to:
 - (i) the South Civil Project;
 - (ii) the North Civil Project;
 - (iii) the Early Contractor Activities undertaken by Metrolinx or its contractors; and
 - (iv) any other works or initiatives that may be required by Contracting Authority on a reasonable basis.
- (d) During the Operational Term, Project Co shall identify in its Project Co Operations Communications Plan how it will lead community engagement activities, in consultation with Contracting Authority related to:
 - (i) events, campaigns or other activities reasonably required by Contracting Authority, the TTC or the City; and

- (ii) broader participation in industry events to promote the Project.

8.2 Community Engagement – Events

- (a) Contracting Authority and Project Co shall collaborate to develop, plan, and coordinate various events during the Project Term. Project Co shall,
 - (i) participate in planning and executing events for the Project as needed and as requested by Contracting Authority;
 - (ii) participate in supporting events for the South Civil Project and the North Civil Project as needed and as requested by Contracting Authority;
 - (iii) facilitate reasonable access to the Metrolinx Lands and the Project Co Infrastructure from time to time for governmental, public relations, media and public tours and events;
 - (iv) ensure sufficient insurance and liability coverage is in place for any special events or venues;
 - (v) make Project Co staff available for events and tours and provide access and support as may be required by Contracting Authority;
 - (vi) where in-person events are not feasible, provide resources to deliver virtual events; and
 - (vii) provide support to produce various communication materials required for the event and for other events related to the Ontario Line Subway System, as reasonably requested.
- (b) During the Project Term, Contracting Authority shall,
 - (i) lead and organize ministerial and government events, including tours of the Metrolinx Lands for dignitaries, costs of which will be borne by Contracting Authority; and
 - (ii) provide no less than two (2) weeks advance notice to Project Co to support the events described in Section 8.2(b)(i) as requested by Contracting Authority.
- (c) During the Construction Period, Project Co shall, in consultation with Contracting Authority, lead or support up to twenty-four (24) formal public engagement events or meetings for the OMSF per year, such as town halls and open houses, to help mitigate contentious community issues directly related to the Project, including but not limited to business impacts, noise and vibration impacts, traffic impacts, and safety concerns. This will include:
 - (i) planning, organizing, leading, resourcing and executing these events or meetings;
 - (ii) preparing and submitting to Contracting Authority for review and approval individual plans and materials for each public engagement event or meeting, at least one (1) month prior to each event or meeting, including clear objectives, target audiences, event or meeting format, approach and tactics;
 - (iii) being responsible for all logistics for the events and meetings, including,

- (A) renting the venue (which can consist of a school, library, community centre, place of worship, etc. but must be publicly accessible), tables and chairs;
 - (B) producing displays, invitations, signage and printed material;
 - (C) undertaking print, social media and radio advertising in trade, community and national media outlets as determined by Contracting Authority;
 - (D) issuing invitations, tracking RSVPs and administering surveys to attendees;
 - (E) using reasonable commercial efforts to ensure that the majority of attendees at each event and meeting are residents, individuals associated with a business, and Stakeholders located within a one kilometre radius of the area; and
 - (F) supplying computers, projectors, cables, power cords, screens, easels, flip charts, pens, markers, registration and sign in sheets;
- (iv) providing Project Co staff to present on the event or meeting topic or theme, conduct outreach by engaging with the public and responding to inquiries related to the Project;
 - (v) preparing event and meeting summaries for submission to Contracting Authority for approval, including both quick turnaround synopses for Contracting Authority's exclusive use and more comprehensive reports at the conclusion of a particular public engagement program (e.g., a set of workshops);
 - (vi) submitting high resolution, professional-quality photos and video clips of the event or meeting which may be used publicly; and
 - (vii) collecting feedback from participants, note lessons learned, and collect stakeholder contact information, all of which is to be stored in the Communications Repository.
- (d) Upon reasonable notice by Contracting Authority, Project Co shall attend, with representatives of Contracting Authority, Stakeholder meetings, municipal council meetings and presentations, and such other events or meetings as Contracting Authority deems necessary, including providing sufficient and appropriately experienced personnel to present at or to staff the event and meeting and to provide draft meeting materials for review by Contracting Authority.
 - (e) Project Co shall support Contracting Authority in arranging events or meetings, in advance, with residents and businesses where Project Co requires access to properties of such residents and businesses.
 - (f) In addition to the requirements set out in Section 8.2(c), Project Co shall also attend and participate in no fewer than fifty (50) events or meetings per year during the Construction Period which are organized by local schools, community associations, Stakeholders, the South Civil Project Co and the North Civil Project Co, and other events or meetings as reasonably requested by Contracting Authority. Project Co shall,
 - (i) provide materials for such events and distribute marketing information for the Project;

- (ii) provide Project Co staff to present on the event topic or theme, conduct outreach by engaging with the public and to respond to inquiries related to the Project;
 - (iii) no later than ten (10) Business Days after the event/meeting, submit high resolution, professional-quality photos and video clips of the event/meeting which may be used publicly; and
 - (iv) collect feedback from participants, note lessons learned, and collect stakeholder contact information, all of which is to be stored in the Communications Repository.
- (g) During the Operational Term, Project Co shall support a maximum of twenty-four (24) events and meetings per year, supporting Contracting Authority, the TTC and the City to promote the Project to the community or to industry, as reasonably requested by Contracting Authority. Project Co shall,
- (i) provide materials for such events and distribute marketing information for the Project;
 - (ii) provide Project Co staff to present on the event topic or theme, conduct outreach by engaging with the public and to respond to inquiries related to the Project;
 - (iii) no later than ten (10) Business Days after the event/meeting, submit high resolution, professional-quality photos and video clips of the event/meeting which may be used publicly; and
 - (iv) collect feedback from participants, note lessons learned, and collect stakeholder contact information, all of which is to be stored in the Communications Repository.
- (h) Project Co shall, in consultation with Contracting Authority, plan, organize, and execute one public tradeshow no later than one-hundred and eighty (180) days following Financial Close, in accordance with the following requirements:
- (i) no later than sixty (60) days prior to the tradeshow, Project Co shall prepare and submit to Contracting Authority for review and approval plans and materials for the tradeshow, including an outline of clear objectives, target guest list, tradeshow format, approach and tactics;
 - (ii) the tradeshow plan shall ensure that the tradeshow provides a beneficial and efficient networking opportunity between Project Co and local contractors, vendors, job-seekers, community businesses and agencies, with the intent to foster mutually-beneficial relationships and contracts;
 - (iii) hosting relevant stakeholders, Project Co Parties and community agencies to staff their own booth or table to provide beneficial networking, business and job information to attendees;
 - (iv) Project Co shall be responsible for planning, implementing and paying for all logistics for the public tradeshow, including:

- (A) renting the venue, tables and chairs. The venue is to be in a central location for the Project which is publicly accessible, can accommodate a tradeshow layout with booths set up from various stakeholders and partners, and a capacity to hold up to three-hundred (300) people;
 - (B) organizing other logistics such as supplying computers, projectors, cables, power cords, screens, easels, flip charts, pens, markers, and registration and sign in sheets;
 - (C) providing a virtual option for engagement and presentation (for example, telephone and online town hall);
 - (D) producing displays, invitations, signage and printed material;
 - (E) catering for a full-day event, which accommodates the hours between 8:00 am to 8:00 pm EST;
 - (F) print, social media and radio advertising in trade and community and national media outlets in consultation with Contracting Authority targeted to industry vendors, suppliers, businesses and job seekers as Project Co seeks to promote procurement and employment opportunities early on regarding the Project;
 - (G) issuing invitations, tracking RSVPs and administering a survey to attendees; and
 - (H) providing Project Co staff to make presentations, conduct outreach by engaging with the public and responding to inquiries related to the Project, business and job opportunities;
- (v) promptly following the tradeshow, Project Co shall prepare and submit to Contracting Authority a post-tradeshow report summarizing feedback from event participants, lessons learned and confirmed contracts and business opportunities attained for the Project as a result of the tradeshow;
 - (vi) promptly following the tradeshow, Project Co shall submit high resolution, professional-quality photos and video clips to Contracting Authority, the content of which may be posted publicly; and
 - (vii) following the tradeshow, during the Project Term, Project Co and Project Co Parties shall continue to track and report on their progress of the tradeshow objectives and outcomes as per Section 8.3(j)(ii).

8.3 Community Engagement – General Obligations

- (a) Project Co shall provide technical staff for involvement and participation in community events and meetings, including,
 - (i) Key Individuals;
 - (ii) architects;

- (iii) urban designers;
 - (iv) landscape architects;
 - (v) noise and vibration specialists; and
 - (vi) other technical staff as requested by Contracting Authority.
- (b) Technical staff must have strong presentation skills to deliver appropriate messages and to respond appropriately to questions and concerns in a public forum. It is therefore recommended that these technical staff be media-trained to best represent the Project and Project Co's interests.
- (c) In consultation with Contracting Authority, Project Co shall determine how Stakeholder input shall be considered, responded to, and/or accommodated in the Project, including provision of respectful, meaningful, and timely feedback to those providing comments and ideas.
- (d) Project Co shall provide any necessary information required to demonstrate compliance with and fulfillment of the consultation related provisions of the Environmental Approvals.
- (e) In order to allow local residents and businesses easy access to information about progress, Construction Activities, mitigation measures and other Project information, Project Co shall provide dedicated communications staff in accordance with Section 3 to work out of Contracting Authority's community offices at the following location:
- (i) 45 Overlea Boulevard, Toronto, Ontario.
- (f) Notwithstanding Section 9.16, Project Co shall make staff available and support Contracting Authority to respond to enquiries from the public and Stakeholders about the Works.
- (g) In consultation with Contracting Authority, Project Co shall provide updates to the immediately affected property owners, tenants and neighbourhoods on Works-related issues with particular attention to communicating the scope, schedule and status of the Works. This includes having processes to proactively address any Works-related enquiries and issues (for example, public enquiries and complaints regarding noise, hours of work and dust).
- (h) In consultation with Contracting Authority, Project Co shall notify affected residents and businesses, including Contracting Authority's community relations representatives, as soon as possible of unplanned or unexpected Level 3 impacts of Construction Activities (including local outreach if necessary by delivering supplies or notices by going door-to-door to affected buildings as well as providing updates for the Project Website and updated messages on Contracting Authority's information telephone line, including after-hours support), and provide an estimate of the expected duration of the impact.
- (i) Project Co shall maintain a written record of all public enquiries, complaints and communications and shall provide copies to Contracting Authority's lead communications contact on a weekly basis (or immediately if urgent) as per the Complaints Protocol as set out Section 9.16.
- (j) Project Co shall develop and track a dashboard that is agreed by the Parties to,

- (i) demonstrate other local employment impacts, including the hiring of professional, administrative and technical staff for the Project by Project Co and Project Co Parties, in order to track economic benefits, including employment benefits, arising from the Project; and
- (ii) demonstrate how Project Co has utilized local businesses for goods and services during the construction of the Project, noting:
 - (A) business name and location;
 - (B) type(s) of good(s) or service(s) procured and dollar amount of the contract;
 - (C) details pertaining to the performance or quality of the work; and
 - (D) how the contract was sourced.

8.4 Communications with Indigenous Nations and Indigenous Entities

- (a) Contracting Authority shall be responsible for Indigenous Entities Engagement and will liaise directly with Indigenous Entities throughout the Construction Period. Contracting Authority may require Project Co to assist with, and support, Contracting Authority's Indigenous Entities Engagement.
- (b) No later than forty-five (45) days following Financial Close, Project Co shall attend a meeting with the IRO as directed and organised by Contracting Authority. The meeting shall be for the purpose of the IRO providing Project Co with an overview and a series of guidelines for Indigenous Nations Engagement and Indigenous Entities Engagement and ensuring that Project Co's communications and interactions in connection with its participation in such Indigenous Nations Engagement and Indigenous Entities Engagement will be appropriately culturally sensitive.
- (c) Project Co shall consult with the IRO prior to establishing any contact with any Indigenous Nation or Indigenous Entity, and shall follow any direction of the IRO relating to the Project.
- (d) During the Construction Period, Project Co shall attend and provide assistance to Contracting Authority with respect to planning and executing one special event for, and a maximum of two meetings collectively, with any Indigenous Nation and Indigenous Entity identified by Contracting Authority, for which Project Co shall be responsible for,
 - (i) logistical and organizational requirements;
 - (ii) catering; and
 - (iii) provision of presentation or other meeting materials that are required for the special event and meetings.
- (e) Project Co shall prepare, in accordance with templates provided by Contracting Authority, as requested by Contracting Authority:

- (i) Documents Relating to Indigenous Nations, all communications and communications materials, to support Contracting Authority’s Indigenous Nations Engagement; and
 - (ii) any report, assessment, submission, application, communication, communications material or other documents to support Contracting Authority’s Indigenous Entities Engagement.
- (f) Project Co shall submit to Contracting Authority in accordance with Schedule 10 – Review Procedure and clearly noted as an “Indigenous Relations Matter”:
- (i) as it relates to Indigenous Nations Engagement, all Documents Relating to Indigenous Nations and all other planned communications with Indigenous Nations;
 - (ii) as it relates to Indigenous Entities Engagement, all planned reports, assessments, submissions, applications, communications, communications materials or other document concerning or with Indigenous Entities,

prior to providing to any Governmental Authority, Indigenous Nation or Indigenous Entity as applicable. Project Co shall proceed only after receipt of a “NO COMMENT” notification from Contracting Authority in accordance with Schedule 10 – Review Procedure, unless a longer period for review is otherwise prescribed by the Project Agreement.

- (g) Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation where Contracting Authority’s request for assistance, support, information or documentation is not specified as being a responsibility of Project Co with respect to Indigenous Nations Engagement and Indigenous Entities Engagement pursuant to the Project Agreement.
- (h) For clarity, Project Co shall not contact or provide information to persons beyond the Project Co Parties related to Indigenous Nations Engagement and Indigenous Entities Engagement, or comment on any issues related to Indigenous Nations and Indigenous Entities, unless permission is first obtained from Contracting Authority, or as otherwise contemplated by this Project Agreement.
- (i) Project Co shall provide Contracting Authority with a minimum of five (5) Business Days advance Notice of any identified need for meetings or communications with any Indigenous Nation or Indigenous Entity. Project Co shall not proceed with any such meeting or communication without Contracting Authority’s authorization. Project Co acknowledges and agrees that Contracting Authority may, in the sole discretion of Contracting Authority, attend, facilitate, or lead any meeting with Indigenous Nations or Indigenous Entities. The IRO shall minute any such meetings and distribute those minutes, including attendance, key issues discussed and action items.

9. COMMUNICATIONS ACTIVITIES

9.1 Communications Activities – General

- (a) Project Co shall support Contracting Authority in the implementation of the following communication tactics during the Project Term, Construction Period, Operational Term, or combination thereof:

- (i) Project Website and social media;
- (ii) crisis communications;
- (iii) issues management;
- (iv) media relations;
- (v) government relations;
- (vi) branding;
- (vii) signage;
- (viii) advertising;
- (ix) shop local campaigns;
- (x) marketing delivery and support;
- (xi) market research plan;
- (xii) photography and video production; and
- (xiii) complaints protocol.

9.2 Project Website and Social Media

- (a) Throughout the Project Term, Project Co shall:
 - (i) support Contracting Authority's social media strategy for the Project (which includes tools such as Twitter, Facebook, YouTube and Instagram);
 - (ii) support the Project Website by providing static (written) and dynamic (multimedia) content; and
 - (iii) ensure the quality of multimedia content aligns with the latest Metrolinx branding standards.
- (b) During the Construction Period, as part of Project Co's obligations set out in Section 9.2(a), Project Co shall provide the following content for review and approval by Contracting Authority:
 - (i) no less frequently than once per week, Project Co shall provide static (written) and dynamic (multimedia) content related to the Works and upcoming notifications, with a minimum length of 150 words;
 - (ii) no less frequently than once per week, Project Co shall provide professional-grade, high resolution visuals, graphics, renderings, photos or video clips showcasing the design of the Works and progress of Construction Activities;

- (iii) no less frequently than once per month, Project Co shall provide a monthly feature web article that,
 - (A) is of a minimum length of 500 words;
 - (B) includes static (written) and dynamic (multimedia content); and
 - (C) highlights no fewer than one aspect of the Project, including design, innovations on the Project, local workers, general contractors, local companies, Construction Activities, or Project benefits, along with additional content to support related posts on the Project’s social media channels and content for virtual public engagement events;
- (iv) no less frequently than once per month, Project Co shall provide e-newsletter content and associated multimedia content, using the design template provided by Contracting Authority; and
- (v) as requested by Contracting Authority, acting reasonably, Project Co shall provide,
 - (A) draft content with respect to public notification of events, public consultations, consultation materials and post-consultation summaries; and
 - (B) draft content to support government and Stakeholder (for example, MTO, MOI and City of Toronto) web and social media communications needs.
- (c) No later than fifteen (15) days following the finalization of the Project Co Construction Communications Plan, and thereafter on a monthly basis, Project Co shall attend and participate in an editorial meeting with Contracting Authority for the purpose of planning and discussing the content described in Section 9.2(b) (each, a “**Monthly Editorial Meeting**”). At the Monthly Editorial Meetings, Project Co shall present on the topics and content, and shall incorporate all comments received from Contracting Authority into the content that is submitted to Contracting Authority for review and approval.
- (d) In addition to the submittal requirements set out in Section 4.4(a), no later than one week in advance of each Monthly Editorial Meeting, Project Co shall provide an updated Project Website and Social Media Calendar to Contracting Authority.
- (e) Project Co shall employ social media tools to monitor and analyze public responses to the Project, and, no later than two hours after Project Co or Contracting Authority becomes aware of an adverse impact identified by the public that could attract media attention, spread misinformation or pose a safety risk, Project Co shall provide draft responses to online comments for Contracting Authority to review and issue.
- (f) During the Operational Term, as part of Project Co’s obligations set out in Section 9.2(a), Project Co shall provide the following content for review and approval by Contracting Authority:
 - (i) once per month, Project Co shall provide multimedia content related to the Project’s operations or other Project-relevant topics as requested by Contracting Authority;

- (ii) once per month, Project Co shall provide professional-grade, high resolution photos and video clips showcasing the Project;
- (iii) Project Co shall provide a monthly feature web article that,
 - (A) is of a minimum length of five-hundred (500) words;
 - (B) includes static (written) and dynamic (multimedia content); and
 - (C) highlights no fewer than one aspect of the Project, including operations and maintenance services, vehicle features, innovations on the Project, local workers and operators, transit processes, commuter profiles and experiences, Project benefits, along with additional content to support related posts on the Project’s social media channels; and
- (iv) as requested by Contracting Authority, acting reasonably, Project Co shall provide,
 - (A) draft content with respect to public notification of service impacts, customer communication materials; and
 - (B) draft content to support government and Stakeholder (for example, MTO, MOI and City of Toronto) web and social media communications needs.

9.3 Crisis Communication

- (a) No later than thirty (30) days following Financial Close, Contracting Authority shall submit to Project Co the Contracting Authority’s crisis communication plan.
- (b) No later than sixty (60) days following Financial Close, Project Co shall submit a crisis communications plan for the Project Term that is consistent with Contracting Authority’s crisis communications plan as provided to Project Co as at Financial Close and that includes the following:
 - (i) the identification of individuals comprising Project Co’s crisis response team, including the name, title and role of lead staff;
 - (ii) a description of the roles and responsibilities of Project Co, Contracting Authority and other partners and Stakeholders as required (for example, City of Toronto, local transit authorities and MTO) with respect to crisis communications;
 - (iii) a list of tools and tactics to be employed by Project Co in crisis communications;
 - (iv) identification and ranking of a list of potential crisis issues that could develop during the performance of the Works or the Project Co Services;
 - (v) key messages to be communicated to the public; and
 - (vi) a description of the crisis simulations that Project Co intends to conduct during the Project Term, (the “**Crisis Communication Plan**”).

- (c) Project Co shall submit the Crisis Communication Plan to Contracting Authority for review in accordance with Schedule 10 – Review Procedure. Project Co shall update each of the Crisis Communication Plan,
- (i) on an annual basis; or
 - (ii) more frequently as may be directed by Contracting Authority, in its sole discretion, or as may be required to account for any changes in the circumstances of or lessons learned with respect to the Project.

Project Co shall resubmit each updated Crisis Communication Plan to Contracting Authority for review pursuant to Schedule 10 – Review Procedure.

- (d) During the Project Term, Project Co shall:
- (i) consult with and provide assistance to Contracting Authority to implement the Crisis Communication Plan and update the Crisis Communication Plan;
 - (ii) during a crisis situation, make available sufficient Project Co communications staff and Project Co resources in order to work effectively with Contracting Authority to proactively manage and perform Project Co’s communications responsibilities as set out in this Schedule 18; and
 - (iii) conduct a crisis simulation annually (tabletop, full scale or in-person, depending on the crisis topic and resources required) in accordance with the Crisis Communication Plan, and Project Co shall take all actions and make all adjustments in response to lessons learned from each crisis simulation exercise.

9.4 Issues Management

- (a) During the Project Term, Project Co shall consult with and provide assistance to Contracting Authority, as reasonably requested by Contracting Authority, with respect to:
- (i) identifying issues and trends as they emerge, including social media monitoring approach, and develop strategies for tracking, addressing, mitigating, and minimizing issues related to the Project;
 - (ii) developing messages and strategies to address issues and provide accurate and timely information to affected Stakeholders; and
 - (iii) sharing information about potential issues related to the Project with other Stakeholders.
- (b) Project Co shall respond to all issues identified by Contracting Authority within a timeframe determined by Contracting Authority.

9.5 Media Relations

- (a) During the Project Term, Project Co shall,

- (i) direct all media enquiries and interview requests to Contracting Authority's lead communications contact who will determine the organization that is most suitable to respond to the enquiry or request;
- (ii) provide draft responses and messaging to Contracting Authority with respect to all media enquiries and interview requests in a timely manner
- (iii) implement and maintain an electronic media request log using software, and in a format agreed upon by the Parties, which shall track each request that Project Co receives and responds to;
- (iv) support Contracting Authority with respect to all media enquiries and interview requests;
- (v) provide designated media relations staff (with back-up media-trained personnel, as required) with 24/7 availability to monitor, draft messaging and respond to enquiries as requested by Contracting Authority;
- (vi) make available a Project Co designated media relations spokesperson and construction manager or similar expert who is media trained, for the purposes of responding to technical matters related to media and interview requests as requested by Contracting Authority; and
- (vii) provide communications training to Project Co staff, including refresher training regarding Contracting Authority's communication protocols and policies for handling media, public, and Stakeholder interaction.

9.6 Government Relations

- (a) Except as otherwise set out in this Section 9.6, Contracting Authority shall be responsible for any government relations activities.
- (b) Throughout the Project Term, Project Co shall:
 - (i) support Contracting Authority as Contracting Authority liaises with affected Governmental Authorities and boards to provide information about the Project status, upcoming milestones, and issues that may affect the Project;
 - (ii) support Contracting Authority by regularly providing information about construction status, upcoming Works milestones, and issues related to Construction Activities and Project Co Services and reviewing messaging for government relations purposes; and
 - (iii) participate in meetings with Contracting Authority, the City of Toronto and Stakeholders as and when requested by Contracting Authority.
- (c) Except as otherwise set out in this Schedule 18, Project Co, in carrying out its obligations as set out in this Schedule 18, shall not engage with any elected officials or their staff or agents at any level of government without the prior written approval of Contracting Authority.

9.7 Branding Requirements – General

- (a) Unless explicitly permitted or required by this Schedule 18, Project Co shall not apply any advertising or branding to any infrastructure, Cars, plant, equipment, or other items with respect to the Project without the prior written consent of Contracting Authority, which consent may be withheld in Contracting Authority’s sole discretion.
- (b) Project Co acknowledges and agrees that Project Co shall not be entitled to receive any payment or compensation from Contracting Authority or any third party (in any form) from any branding or advertising in respect of the Project, and that Contracting Authority reserves the right to all such branding and advertising.

9.8 Branding

9.8.1 Metrolinx Brand and Metrolinx Branded Items

- (a) Metrolinx shall provide Project Co with its corporate brand name and logo (the “**Metrolinx Brand**”). Project Co shall apply the Metrolinx Brand to each of the following items in accordance with the standards set out in Section 9.7:
 - (i) uniforms;
 - (ii) Stations and the Ontario Line Subway;
 - (iii) OMSF; and
 - (iv) Cars and Additional Cars,(collectively, the “**Metrolinx Branded Items**”).

9.8.2 Project Co Brand

- (a) During the Project Term, Project Co shall develop and use a single corporate brand name and logo for the Project (the “**Project Co Brand**”). The Project Co Brand shall,
 - (i) have a name that is clearly distinguishable from each of Metrolinx, Infrastructure Ontario, GO Transit, UP Express, and any other stakeholders of Contracting Authority, and that is clearly distinguishable from the name of any other brand used in other Contracting Authority projects;
 - (ii) have a logo of distinctive design that is visually and graphically distinct of the Metrolinx logo; and
 - (iii) be simple in design and consistently applied by Project Co on Project Co Branded Items throughout the Project Term.
- (b) No later than ninety (90) days following Financial Close, Project Co shall submit the designs and sample of the Project Co Brand to Contracting Authority for review. Project Co shall not apply the Project Co Brand on any item with respect to the Project, including on any Metrolinx Branded Item, unless and until Contracting Authority approves Project Co’s design and samples.

9.8.3 Project Co Branded Items

- (a) Project Co shall apply the Project Co Brand that is reviewed and accepted by Contracting Authority in accordance with Section 9.8.2(b) on the following items:
- (i) each of Project Co’s corporate communications materials;
 - (ii) each of Project Co’s personnel uniforms and forms of identification;
 - (iii) each of Project Co’s vehicle liveries and equipment
- (collectively, the “**Project Co Branded Items**”).
- (b) Project Co shall provide each Project Co Branded Item to Contracting Authority for review. Project Co shall not introduce any Project Co Branded Item into the Construction Period or the Operational Term unless and until Contracting Authority approves each Project Co Branded Item.

9.8.4 Branding on Project Co Uniforms

- (a) If Project Co is required by the Project Agreement to provide uniforms for personnel, Project Co shall,
- (i) provide personnel with uniforms that present a professional appearance for all personnel performing the Project Co Services who routinely interact with passengers and customers;
 - (ii) provide personnel with uniforms that contain Metrolinx branding to be provided prior to production of uniforms;
 - (iii) require personnel wear clean and neat uniforms at all times during the provision of the Project Co Services; and
 - (iv) ensure all uniforms provided to and worn by personnel have both the Metrolinx Brand and Project Co Brand.
- (b) Project Co shall update uniform designs every five (5) years for Contracting Authority review. Project Co shall not introduce any updated Project Co uniforms into the Construction Period or the Operational Term unless and until Contracting Authority approves Project Co’s updated uniform designs.

9.8.5 New Branding to Cars and Additional Cars

- (a) Notwithstanding Appendix R (*Train Design Guide*) to the Output Specifications, Contracting Authority reserves the right, during the Operational Term, to develop new branding designs and to request Project Co to install the new branding designs to all Cars and Additional Cars, subject to the following:
- (i) Contracting Authority shall only request Project Co to install new branding designs once every ten (10) years;

- (ii) Contracting Authority shall provide notice (the “**New Branding Installation Notice**”) to Project Co six (6) months in advance to the date on which Contracting Authority anticipates Project Co to begin installing the new branding designs (the “**New Branding Installation Commencement Date**”). The New Branding Installation Notice shall include Contracting Authority’s request of Project Co to install new branding to all Cars and Additional Cars;
- (iii) Contracting Authority shall provide Project Co the new branding designs to be installed no later than two (2) months after the New Branding Installation Notice; and
- (iv) Project Co shall begin installing the new branding designs on the New Branding Installation Commencement Date and shall complete the installation of the new branding designs to all Cars and Additional Cars on or before the date which is six (6) months after the New Branding Installation Commencement Date.

9.9 Communications Signage

- (a) Project Co shall submit a signage and hoarding short-term and long-term coverage plan (“**Signage and Hoarding Coverage Plan**”) in accordance with Schedule 10 – Review Procedure, no later than one-hundred and twenty (120) days following Financial Close, which shall include:
 - (i) the mapping of signage to be installed, the number of signs required and the location, type and purpose of each sign, including other details as reasonably requested by Contracting Authority.
- (b) Project Co shall, at the OMSF location, design, translate (if required), print and install various communications signage, including Project promotional signage, business support and shop local signage, wayfinding and safety campaign signage in accordance with any signage templates that may be provided by Contracting Authority from time to time (the “**Communications Signage**”) including:
 - (i) install purpose-built billboards (2 panels, 12ft x 8ft per panel – 24ft x 8ft in total) to promote the benefit of the work to the customer, using Metrolinx provided templates and messaging, following Financial Close but in advance of construction commencement, at the direction of Contracting Authority;
 - (ii) install one government sign (Ontario Builds) to promote the investment by government, using government provided templates and messaging, following Financial Close but in advance of construction commencement, at the direction of Contracting Authority. The sign shall always be displayed in a visible location; and
 - (iii) ensure a minimum of [REDACTED] per cent of the public-facing surface area of all construction hoarding, fencing and barriers are covered with Communications Signage. Project Co shall provide to Contracting Authority the dimensions of all hoarding, fencing and barriers in order to enable Contracting Authority to evaluate Project Co’s conformance with this requirement. Project Co shall ensure that appropriate Communications Signage is provided in a visible location on the Site to indicate the presence of and means of accessing affected businesses.

- (c) Prior to installing any Communications Signage, Project Co shall provide to Contracting Authority for approval, stamped shop drawings of the sign fabrication (where required by local zoning by-laws) and installation details, together with a graphic design mock-up of the signage including dimensions, location and confirmation of the applicable Permits, Licences, Approvals and Agreements.
- (d) Project Co shall ensure any Communication Signage is installed in accordance with the requirements for signage as set out in Section 9.9(b) within twenty-one (21) days of Contracting Authority approval (or such longer period of time agreed to by the Parties, acting reasonably).
- (e) During the Project Term, Project Co shall,
 - (i) use signage material for Communications Signage based on Good Industry Practice and in accordance with Applicable Law;
 - (ii) ensure that all Communications Signage is kept in good condition;
 - (iii) replace any Communications Signage that is damaged at Project Co's expense;
 - (iv) remove graffiti on all Communications Signage within forty-eight (48) hours;
 - (v) provide personnel to install, remove and relocate signage within two (2) weeks, as requested by Contracting Authority from time to time at its sole discretion; and
 - (vi) install, remove or relocate any signage that is provided by Contracting Authority or a Governmental Authority, and ensure that such signs are visibly displayed on the Site.
- (f) During the Operational Term, Project Co shall,
 - (i) remove all construction-related Communications Signage along the corridor within the first three (3) months of the commencement of Project Co Services; and
 - (ii) in consultation of Contracting Authority, update, install, and remove new signage at the OMSF as required and ensure that any government signage is in good condition and visible.
- (g) The requirements for signage as set out in this Section 9.9 shall not limit and are intended to supplement Project Co's other obligations with respect to signage as set out in the rest of the Project Agreement including, for clarity, the Output Specifications.

9.10 Advertising

- (a) During the Project Term, Contracting Authority shall:
 - (i) plan, develop and execute advertisement strategies for the Project;
 - (ii) review and approve advertisements produced by Project Co related to the Project; and
 - (iii) provide templates to Project Co to use as well as messaging, where required.

- (b) During the Construction Period, Project Co shall:
- (i) support and contribute to the planning, development and execution of Contracting Authority's public education and advertising campaigns related to the Works.
 - (ii) plan, develop, and coordinate the placement of advertisements to communicate ongoing construction impacts and to inform the public of public engagement activities through a mix of media, including print community and commuter newspapers, multi-lingual community newspapers and radio stations, radio and television, digital programmatic platforms, social media and online video, along with unaddressed mail in accordance with this Section 9.10;
 - (iii) identify ethnic and diverse populations across the full Project alignment and coordinate the booking of appropriate advertisements via a multichannel media approach and in a multi-lingual format (where required), including print (newspapers, magazine etc.) display media units (email, programmatic banners etc.), social platforms (Facebook, Twitter, Instagram etc.), terrestrial/digital audio (Spotify), and online video placements (OLV) such as YouTube/Connected TV spots;
 - (iv) for social media campaigns, Project Co shall plan, develop and execute an effective community management strategy where applicable to measure campaign impact and adjust such strategy as needed (e.g. respond to comments, provide information to users, sentiment tracking etc.);
 - (v) for each of the 24 public engagement meetings set out in Section 8.2(c), provide one advertisement insertion in two local community newspapers (in full colour and half page in size); as well as considerations of digital executions such as Facebook event advertisement, as digital platforms provide a more measurable response and target for success (for example, in volume of total signups and cost-per acquisition);
 - (vi) for construction notices that indicate significant, long-term construction impacts of more than six (6) months in duration, provide advertisements and notices, including one local newspaper and one major daily newspaper per major Works stage (in full colour and quarter page in size);
 - (vii) procure and coordinate the distribution of construction notices, through Canada Post, based on a distribution area of five-hundred (500) metre radius of the Works, where the applicable Construction Activities are set up;
 - (viii) produce and use sample designs in public information and public engagement materials to illustrate principles, provided that such information and materials are reviewed and approved by Contracting Authority;
 - (ix) not use hoarding or any other areas within the Lands for advertisement and shall not permit, engage or authorize any third party to use any areas within the Lands for advertisement, without the prior written consent of Contracting Authority; and
 - (x) submit all advertisements, insertions, construction notices, messages, and other associated documentation contemplated in Section 9.10(b) for review and approval by Contracting

Authority prior to distributing, placing, posting, issuing, or producing any such advertisement, insertion, construction notice, message or any other documentation.

- (c) During the Operational Term, Project Co shall:
- (i) at the request of Contracting Authority, install and maintain any advertising developed by Contracting Authority and Third Party Contractors within or on any Cars and Additional Cars; and
 - (ii) at the request of Contracting Authority, facilitate third party access to allow Contracting Authority and Third Party Contractors to design, survey, construct, install and maintain station advertising as required at the Line Stations, Terminal Stations or Interchange Stations; and

should Contracting Authority request Project Co carry out the obligations set out in Sections 9.10(c)(i) and/or 9.10(c)(ii), Project Co shall be entitled to a Variation in respect of the Direct Costs incurred by Project Co in connection with the performance of such obligations. The Monthly Service Payment for the month that such Direct Costs were incurred shall be adjusted as required to capture these Direct Costs.

9.11 Shop Local

- (a) Project Co shall, no later than ninety (90) days following Financial Close, submit a shop local plan for review by Contracting Authority pursuant to Schedule 10 – Review Procedure that describes how Project Co will meet its construction shop local-related obligations under the Project Agreement (the “**Project Co Shop Local Plan**”). The Project Co Shop Local Plan shall include Project Co’s plan to support “shop local” or local business sustainment and promotion efforts, including:
- (i) release two direct mail pieces (printed in full colour) annually to residential and business owners, tenants and other property occupants who own, lease and otherwise occupy property within a 1,000-metre radius of the OMSF;
 - (ii) annually issue four advertisements in each of the City of Toronto consisting of two ad insertions in local newspapers (in full-colour and half page in size);
 - (iii) hire an external team to conduct quantitative and qualitative research on an annual basis with local Chambers of Commerce, Business Improvement Areas or equivalent to develop, and amend as required, a “shop local” campaign and business support strategy, in which Project Co shall:
 - (A) develop and fund promoted social media advertising to support a “shop local” campaign; promoted as always on component (full year) along with other digital media considerations (for example, YouTube and display banners);
 - (B) develop promotions and “construction hat specials” for local businesses (particularly the restaurants and service industry);

- (C) leverage restaurant week-type events or create events if no program exists on the corridor for the duration of construction, and on-board restaurants along the corridor with food delivery platforms;
 - (D) hire a promotional or events company to design and carry out community events in support of a “shop local” campaign and cover street event fees for community events, if applicable; and
 - (E) in conjunction with local arts councils or equivalent, conduct a review of street art, mural, and alleyway opportunities along the corridor and commission new projects at Project Co’s expense; and
- (iv) develop and implement a community engagement program, in which Project Co shall,
- (A) canvass every street-level, front-facing property within a 1,000-metre radius of the OMSF, on an annual basis, in order to raise awareness for the Project, provide information about Project social media, and obtain email addresses from local residents and businesses for newsletter updates. Project Co is expected to reach out to these properties both in-person and digitally;
 - (B) produce and print canvassing materials for distribution to the public as directed by Contracting Authority;
 - (C) twice annually, provide information sessions during a four to six week period for residential and commercial high rises, to provide project updates, address concerns and inform on-going communications planning;
 - (D) use a source cloud-based canvass software to support the program, which Project Co shall use while canvassing to record email addresses and keep track of where Project Co has canvassed; and
 - (E) recruit, train, support and manage a part-time, seasonal team, as needed to facilitate the program and in accordance with the requirements as set out in this Section 9.11(a)(iv), who Project Co shall provide with seasonal apparel with project identifier and logos as identified by Contracting Authority for the purposes of canvassing.
- (b) For significant, long-term construction impacts and in support of “shop local” or local business sustainment and promotion efforts, Project Co shall produce and book regular 15 second sponsor messages on the radio on weekdays, in the morning and afternoon peak commuter times for the duration of the long-term construction impacts in accordance with the following:
- (i) radio advertisements shall be played twice each hour between 6:00 a.m. and 10:00 a.m. in the morning and between 3:00 p.m. and 7:00 p.m. in the afternoon; and
 - (ii) radio advertisements shall appear on local Toronto radio stations (for example, CFRB and 680 News).

9.12 Marketing Delivery and Support – Construction Period

- (a) During the Construction Period, Project Co shall:
- (i) secure paid advertising space for a four (4) week time slot per quarter that includes,
 - (A) two (2) transit shelters near each future station/shop location nearby the OMSF;
 - (B) up to ten (10) horizontal billboards and mobile signs (colour and 10' x 20' in size);
 - (C) up to three (3) superboards (48' x 14' in size) and/or horizontal backlights (22' x 9'); and
 - (D) Geotargeted programmatic display advertising at the OMSF;
 - (ii) secure paid radio advertising space for a four (4) week time slot, semi-annually during the Project Term, to appear on local Toronto radio stations such as CFRB and 680 News;
 - (iii) secure paid TV advertising space for a four (4) week time slot, semi-annually, to appear on local Toronto TV station such as CP24; and
 - (iv) support Contracting Authority's efforts to communicate with English speaking populations, as well as ethnic and diverse populations by:
 - (A) identifying ethnic and diverse populations along the corridor, their share of the market, and their associated languages;
 - (B) working with Contracting Authority to draft and translate content for advertisements, according to the ethnic and diverse populations identified;
 - (C) securing paid media space in ethnic publications for the placement of advertisements including print (newspapers, magazines, etc.), display media units (email, programmatic banners, etc.), social platforms (Facebook, Twitter, Instagram, etc.), terrestrial/digital audio (Spotify), and online video placements (OLV) such as YouTube/Connected TV spots, as directed by Contracting Authority; and
 - (D) placing the final advertisements produced by Contracting Authority in the media spaces outlined in Section 9.12(a)(iv)(C), as approved by Contracting Authority.

9.13 Marketing Delivery and Support – Operational Term

9.13.1 Marketing Delivery Agent

- (a) No later than sixty (60) days following Scheduled Substantial Completion Date, Project Co shall provide a designated individual who shall perform the role of marketing delivery agent (the “Marketing Delivery Agent”).
- (b) Project Co shall procure the Marketing Delivery Agent from the list of Metrolinx Advertising Communications Services & Procurement Branch approved entities provided by Metrolinx.

Contracting Authority will provide Project Co the list of Metrolinx Advertising Communications Services & Procurement Branch approved entities no later than ninety (90) days prior to Scheduled Substantial Completion Date.

- (c) Project Co shall ensure that the considerations of this Schedule 18 and the marketing strategies pursuant to the Metrolinx Annual Strategic Marketing Plan for the Operational Term are reflected in the Marketing Delivery Agent selection process.
- (d) Project Co shall ensure that the Marketing Delivery Agent has a minimum of ten (10) years of experience in the following.
 - (i) brand marketing;
 - (ii) web development;
 - (iii) project management;
 - (iv) campaign development;
 - (v) community management;
 - (vi) automation capabilities – CRM;
 - (vii) copywriting;
 - (viii) user experience;
 - (ix) analytics;
 - (x) creative development;
 - (xi) digital marketing; and
 - (xii) public relations.
- (e) The Marketing Delivery Agent will support all provisions of Section 9.13.

9.13.2 Brand and Media Strategy Development

- (a) No later than ninety (90) days prior to the Scheduled Substantial Completion Date, Contracting Authority will deliver to Project Co the Metrolinx annual strategic marketing plan (the “**Metrolinx Annual Strategic Marketing Plan**”) which will include, but not limited to, the overarching strategy inclusive of visual identity, tone of voice, messaging matrix and brand equity.
- (b) The Communications Working Group and its sub-working groups, including the Marketing Working Group, will facilitate monthly status updates which highlight the Project Co marketing activities deployed during the reporting period inclusive of metrics/analytics to quantify the effectiveness of marketing tactics. Updates will inform future deployment of marketing activities related to the Metrolinx Annual Strategic Marketing Plan.

- (c) During the Operational Term, Contracting Authority anticipates that over time the marketing delivery process will require an evolution as time moves forward. Innovations based on new technology, techniques and best practises in the marketplace will present an opportunity to incorporate marketing best practices. Project Co will have the opportunity to guide Contracting Authority by bringing forth best-in-class learning to ensure Contracting Authority is utilizing the correct mix of tactics and approaches to effectively communicate with customers. Project Co will be tasked with sourcing new methods of tactical delivery to ensure Contracting Authority is utilizing tactics, channels and methods that will promote connection with future customers. The expectation is that these ideas will be brought forward on a bi-annual basis at Communications Working Group meeting.
- (d) Contracting Authority will review and amend its marketing plan strategies outlined in the Metrolinx Annual Strategic Marketing Plan, if required, on a quarterly basis and provide Project Co with a copy of such amended strategies.

9.13.3 Operational Term Marketing Execution Plan

- (a) No later than thirty (30) days prior to the Scheduled Substantial Completion Date, Project Co must submit the Operational Term Marketing Execution Plan to Contracting Authority for review and approval. Contracting Authority will provide direction and feedback on marketing deliverables and plans expected from Project Co.
- (b) The Operational Term Marketing Execution Plan will detail the overall delivery of brand and media strategies in accordance with the Metrolinx Annual Strategic Marketing Plan which will form the basis of marketing deliverables and activities during the Operational Term.
- (c) The Operational Term Marketing Execution Plan shall be an annual plan that is based on the Metrolinx Annual Strategic Marketing Plan and shall include the following, at a minimum:
 - (i) the overall brand and media execution strategy which will be the basis of marketing deliverables and activities for the following twelve (12) months; and
 - (ii) a detailed plan to communicate key Project milestones and associated activities to the public through various outreach channels for the following twelve (12) months.
- (d) On an annual basis, or otherwise directed by Contracting Authority, Project Co shall update the Operational Term Marketing Execution Plan and submit it to Contracting Authority for review and approval. Each annual updated Operational Term Marketing Execution Plan shall include Project Co's proposed updates and amendments to the Operational Term Marketing Execution Plan to ensure optimization of marketing for the Project.
- (e) The development of the Operational Term Marketing Execution Plan shall be reviewed in accordance with Section 9.13.4. Contracting Authority will collaborate with Project Co to establish agreed upon guidelines which will govern the review of all materials.
- (f) The Communications Working Group and/or any of its sub-working groups, including the Marketing Working Group, will facilitate monthly status updates which highlight the marketing activities deployed during the reporting period inclusive of metrics/analytics to quantify the

effectiveness of marketing tactics. Updates will inform future deployment of marketing activities related to the Metrolinx Annual Strategic Marketing Plan.

- (g) The first accepted Operational Term Marketing Execution Plan shall be the “Operational Term Marketing Execution Plan – Version – [Date]” and each Operational Term Marketing Execution Plan thereafter shall update to the next version number and shall be dated as of the date submitted and shall replace the previous version of the Operational Term Marketing Execution Plan.

9.13.4 Contracting Authority Review of Operational Term Marketing Materials

- (a) Contracting Authority shall review the Operational Term Marketing Execution Plan in accordance with guidelines that will be developed by Metrolinx, as amended from time to time. These guidelines will be provided by Metrolinx to Project Co ninety (90) days prior to the Scheduled Substantial Completion Date.
- (b) No later than fourteen (14) days prior to the execution of the Operational Term Marketing Execution Plan, Project Co shall provide a finalized version of such materials to Contracting Authority for approval. Project Co acknowledges and agrees that Contracting Authority may be required to obtain the approval of external stakeholders with respect to the materials.

9.13.5 Continuous Improvement and Future Proofing

- (a) Project Co, in cooperation with Contracting Authority, shall identify and implement Good Industry Practice and continuous improvement throughout the Operational Term to ensure the Project is utilizing the optimal combination of tactics and approaches to effectively communicate with customers.
- (b) Innovation and future-proofing shall be included as a permanent agenda item of the Communications Working Group.
- (c) Project Co shall provide and use new methods of delivery to ensure that it is utilizing tactics, channels and methods that will permit Good Industry Practice to support Contracting Authority to connect with future customers.

9.14 Project Co Market Research Plan

- (a) No later than one-hundred and twenty (120) days following Commercial Close, Project Co shall develop and submit an annual Project Co Market Research Plan to Contracting Authority.
- (b) The Project Co Market Research Plan shall include:
 - (i) benchmarks to support evaluation effectiveness and penetration of Metrolinx’s advertising messages against key target audiences;
 - (ii) a Metrolinx pre-advertising campaign strategy plan that identifies:
 - (A) target market;
 - (B) survey strategy;

- (C) demographic targeting strategy; and
 - (D) secondary target market research survey information;
- (iii) a Metrolinx advertising campaign objective that identifies:
 - (A) campaign purpose;
 - (B) target market offerings;
 - (C) campaign accessibility;
 - (D) delivery methods; and
 - (E) an advertising campaign budget allocation.
- (c) Project Co shall update the Project Co Market Research Plan on an annual basis, or as otherwise directed by Contracting Authority and submit it to Contracting Authority for review. Each annual updated Project Co Market Research Plan shall include Project Co's proposed updates and amendments to the Project Co Market Research Plan to ensure optimization of Metrolinx's advertising campaign.
- (d) The first accepted Project Co Market Research Plan shall be the "Project Co Market Research Plan – Version 1 – [Date]" and each Project Co Market Research Plan thereafter shall update to the next version number and shall replace the previous version of the Project Co Market Research Plan.
- (e) With the Communications Working Group, Contracting Authority and Project Co shall review the findings from the previous market research campaign and analyze the data to ensure the following year's Project Co Market Research Plan takes into account the findings from the previous year's survey results.
- (f) With the Marketing Working Group, Project Co shall provide post-campaign feedback, including the following key performance indicators, at a minimum:
 - (i) impressions;
 - (ii) return on advertising spent;
 - (iii) cost per click;
 - (iv) click-through rate; and
 - (v) brand interest rate.

9.15 Photography and Video

- (a) During the Construction Period, for the purposes of record-keeping and demonstrating the progress of the Project, Project Co shall provide the following to Contracting Authority:

- (i) professional quality (high resolution) photos of the OMSF and the Site, on a weekly basis;
 - (ii) high-resolution photos that capture the same angles as renderings provided in design on a monthly basis;
 - (iii) annually, a professional quality (high resolution) time-lapse video that is branded using templates provided by Contracting Authority and that is professionally edited with music, capturing the construction of the OMSF from start to finish;
 - (iv) monthly, a professional quality (high resolution) video clip, that is branded using templates provided by Contracting Authority and that is professionally edited with music, capturing the construction of the Project at the Site; and
 - (v) twice annually, a professional quality (high resolution) video of drone footage, that is branded using templates provided by Contracting Authority and that is professionally edited with music, capturing the construction of the Project at the Site.
- (b) During the Operational Term, for the purposes of record-keeping and demonstrating the services of the Project, Project Co shall provide the following to Contracting Authority:
- (i) professional quality (high resolution) photos of the OMSF and the Site once completed and in-service;
 - (ii) high-resolution photos that capture the same angles as renderings provided in design once these elements are completed and in-service;
 - (iii) monthly, a professional quality (high resolution) video clip, that is branded using templates provided by Contracting Authority and that is professionally edited with music, capturing the Project Co Services, vehicles, Project innovations or other aspects to feature the Project; and
 - (iv) a final, professional quality (high resolution) video of drone footage, that is branded using templates provided by Contracting Authority and that is professionally edited with music, capturing the Ontario Line Subway System in service.
- (c) During the Project Term, Project Co shall,
- (i) obtain all of the rights necessary for Project Co and Contracting Authority to use, reproduce, modify and brand all of the images and footage described in this Schedule 18 without restrictions;
 - (ii) ensure that Project Co and all Project Co Parties provide consent to disclosure of photos and videos relating to the Project and that all photo and video content has been reviewed by Project Co for health and safety clearance; and
 - (iii) review all photo and video content before submitting to Contracting Authority, to reduce the number of revisions back and forth.

- (d) During the Project Term, Project Co shall provide Contracting Authority with access to all images and video files through a cloud-based server that is accessible to Contracting Authority's authorized users throughout the duration of the Project Term.
- (e) During the Project Term, Project Co shall, from time to time, as reasonably requested by Contracting Authority, facilitate on-site access for Contracting Authority-designated photographers and videographers.

9.16 Complaints Protocols

- (a) During the Construction Period, Contracting Authority shall:
 - (i) be responsible for approving all responses to complaints and enquiries relating to the Project;
 - (ii) implement the Contracting Authority community telephone number 416-212-5100 which will be in operation to take complaint calls from the public 24/7/365; and
 - (iii) in-take all Level 1 Calls, Level 2 Calls and Level 3 Calls from the public, and triage and forward to Project Co to manage in accordance with Section 9.16(b);
- (b) During the Construction Period, Project Co shall:
 - (i) incorporate into the Project Co Construction Communications Plan, and align with the Crisis Communication Plan, a complaints protocol (the "**Complaints Protocol**") that,
 - (A) addresses how Project Co will deal with and respond to enquiries, suggestions, claims and complaints received with respect to the Project and identify complaints that require escalation; and
 - (B) requires that Project Co deal with all enquiries, suggestions, claims and complaints and suggestions no later than the initial response period required by Level 1 Calls, Level 2 Calls and Level 3 Calls, as applicable;
 - (ii) provide 24/7 call service support staff to be available to provide regular and timely in-take and responses to Level 1 Calls, Level 2 Calls and Level 3 Calls;
 - (iii) provide drafted responses and tactics to implement for Level 1 Calls, Level 2 Calls and Level 3 Calls, as required, to Contracting Authority for review;
 - (iv) maintain a software system that will track all complaints, enquiries and responses, and for each entry, document the response and the date in which it was provided;
 - (v) provide monthly complaint reports to Contracting Authority, including an analysis of the main areas of concern to complainants; and
 - (vi) coordinate Project Co's complaint tracking and complaint reports with any internal complaint tracking or complaint reports established by Contracting Authority with respect to the Project, as requested by Contracting Authority.

- (c) Project Co shall update the Complaints Protocol,
 - (i) on a semi-annual basis; or
 - (ii) more frequently as may be requested by Contracting Authority, or as may be required to account for any changes in the circumstances of or lessons learned with respect to the Project.
- (d) Project Co acknowledges and agrees that the Complaints Protocol may be made publicly available at the request of Contracting Authority.

10. NOTIFICATION

10.1 Major Impact on Third Party Owners

- (a) With respect to Construction Activities that are reasonably anticipated to have a Major Impact on third-party property owners, Project Co shall:
 - (i) provide Notice to Contracting Authority of such Construction Activities no later than six (6) months prior to the commencement of such Construction Activities or impacts;
 - (ii) provide a draft public notification for Contracting Authority's review, no later than four (4) months prior to the commencement of such Construction Activities; and
 - (iii) prepare and distribute, via Canada Post, public notifications printed in full colour and approved by Contracting Authority, to all property owners within a five-hundred (500) metre radius of the Construction Activities, at least one (1) month prior to the commencement of the Works or impact.
- (b) The public notifications provided by Project Co in accordance with this Section 10.1 shall include a comprehensive list of the elements owned by a third party which Project Co anticipates will have to be removed or relocated by the property owner, what elements can remain on the property, detailed drawings that describes the proposed Construction Activities (including new location of relocated items or impacts that might result from the Construction Activities and restoration plans), proposed timeline for Construction Activities (including duration and anticipated completion), contact information to obtain additional information, and any updates relating to such Construction Activities.

10.2 Major Impact on Transit Users, Customers and Public

- (a) With respect to Construction Activities that are reasonably anticipated to have a Major Impact on transit users, pedestrians, cyclists, residents, traffic, and/or the public generally, Project Co shall:
 - (i) provide Notice to Contracting Authority of such Construction Activities no later than three (3) months prior to the commencement of such Construction Activities or impacts;
 - (ii) provide a draft public notification for Contracting Authority's review, no later than two (2) months prior to the commencement of such Construction Activities;

- (iii) prepare and distribute, via Canada Post, public notifications printed in full colour and approved by Contracting Authority, to residents, business owners and the community within a five-hundred (500) metre radius of the Construction Activities, at least one (1) month prior to the commencement of the Works or impact; and
 - (iv) provide notification using geo-targeted advertising on social media to residents, business owners and the community based on the same distribution area for printed notifications, unless otherwise instructed by Contracting Authority at least one (1) month prior to the commencement of the Works or impact.
- (b) For the purposes of Section 10.1 and this Section 10.2, a major impact shall include overnight construction, temporary Construction Activities, paving, privately owned elements to be relocated or removed by Project Co, transit stop relocations, any disruption to water, gas and/or other utilities, and activities that affect pedestrian circulation (“**Major Impact**”).

10.3 Medium Impact

- (a) With respect to Construction Activities that are reasonably anticipated to have a Medium Impact on business owners, property owners, transit users, pedestrians, cyclists, residents, traffic, and/or the public generally, Project Co shall:
- (i) provide Notice to Contracting Authority of such Construction Activities no later than twenty (20) Business Days prior to the commencement of such Construction Activities or impacts;
 - (ii) provide a draft public notification for Contracting Authority’s review, no later than fifteen (15) Business Days prior to the commencement of such Construction Activities;
 - (iii) prepare and distribute, via Canada Post, public notifications printed in full colour and approved by Contracting Authority, to residents, business owners and the community within a five-hundred (500) metre radius of the Construction Activities at least ten (10) Business Days prior to the commencement of the Works or impact; and
 - (iv) provide notification using geo-targeted advertising on social media to residents, business owners and the community based on the same distribution area for printed notifications, unless otherwise instructed by Contracting Authority at least ten (10) Business Days prior to the commencement of the Works or impact.
- (b) For the purposes of this Section 10.3, a medium impact shall include major intersection work, and impacts from noise, vibration or dust (“**Medium Impact**”). For clarity, the notification provided by Project Co pursuant to Section 10.3(a)(ii) shall be delivered by Contracting Authority to all affected properties by Project Co and in consultation with Utility Companies, as applicable.

10.4 Minor Impact

- (a) With respect to Construction Activities that are reasonably anticipated to have a Minor Impact on business owners, property owners, transit users, pedestrians, residents, traffic and/or the public generally, Project Co shall:

- (i) provide Notice to Contracting Authority of such Construction Activities no later than five (5) Business Days prior to the commencement of such Construction Activities or impacts;
 - (ii) provide a draft public notification for Contracting Authority’s review no later than forty-eight (48) hours prior to the commencement of such Construction Activities to Contracting Authority for review; and
 - (iii) prepare and distribute by hand delivery, public notifications printed in full colour and approved by Contracting Authority, to all impacted residents, business owners and the community within a five-hundred (500) meter radius at least twenty-four (24) hours prior to the commencement of the Works or impact.
- (b) For the purposes of this Section 10.4, a minor impact shall include short-term lane closures, minor pedestrian detours, and minor access and driveway work (“**Minor Impact**”). Project Co shall ensure that access is maintained to properties impacted by the Construction Activities.

10.5 Other Impact

- (a) With respect to incidents related to Construction Activities that are reasonably anticipated to have an impact on Project Co’s employees and contractors, transit users, pedestrians, residents, traffic and/or the public generally, and with respect to which Project Co cannot reasonably provide advance notice of any kind to Contracting Authority or the public (each a “**Construction Activities Incident**”), Project Co shall:
- (i) immediately notify Contracting Authority of such Construction Activities Incident;
 - (ii) comply with all requirements of Schedule 29 – Safety, System Assurance and Security;
 - (iii) provide a draft public notification or messaging to Contracting Authority for review, no later than two (2) hours following the commencement of the Construction Activities Incident to Contracting Authority for review;
 - (iv) be prepared to provide a public statement with respect to the Construction Activities Incident at the request of Contracting Authority; and
 - (v) be prepared to enact a Crisis Communication Plan in consultation with Contracting Authority and to react quickly to provide an immediate response to the public and Stakeholders.
- (b) For the purposes of this Section 10.5, a Construction Activities Incident shall include an accident on site or a major catastrophe.

11. ACCESSIBILITY

11.1 Accessibility

- (a) Project Co shall ensure that all communications with respect to the Project comply with the *Accessibility for Ontarians with Disabilities Act* (Ontario).

- (b) As required by Contracting Authority, Project Co shall provide translation of communication materials (which could include video and photo captions, advertising, multimedia and other communication content) into French and in the top five (5) languages most commonly used in the City of Toronto, as reasonably requested by Contracting Authority in accordance with this Schedule 18.

12. PUBLIC DISCLOSURE AND MEDIA RELEASES

12.1 Public Disclosure and Media Releases

- (a) Except as otherwise permitted in the Project Agreement:
- (i) neither Project Co or its staff nor any of Project Co's Parties or its staff shall issue or disseminate any media release, public announcement, social media post or public disclosure (whether for publication in the press, on the radio, television, internet or any other medium) relating to the Project, the Project Agreement, Contracting Authority's activities or any related matters, without the prior written consent of Contracting Authority; and
 - (ii) neither Party shall use the other Party's name or refer to the other Party, directly or indirectly, in any media release, public announcement or public disclosure (whether for publication in the press, on the radio, television, internet or any other medium) relating to the Project, the Project Agreement, Contracting Authority activities or any matter related thereto, without the prior written consent of the other Party.
- (b) Project Co shall comply and shall ensure that all Project Co Parties comply, at all times, with Contracting Authority's media release and publicity protocols or guidelines, as such protocols and/or guidelines are updated by Contracting Authority from time to time.

SCHEDULE 19

LIQUIDATED DAMAGES AND CONSTRUCTION ENFORCEMENT REGIME

1. DEFINITIONS

1.1 Definitions

In this Schedule 19, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 19) shall have the meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) “**Alternative Transportation Event**” has the meaning given in Section 3.1(d).
- (b) “**Construction Period Deduction**” means a deduction made from the Substantial Completion Payment in accordance with Section 7.
- (c) “**Construction Period Event**” means an incident or state of affairs that does not meet or comply with the Construction Period Performance Criteria, which is capable of becoming a Construction Period Quality Failure.
- (d) “**Construction Period Failure Category**” means the failure category described in the fourth column of the tables in Appendix A to this Schedule 19.
- (e) “**Construction Period Failure Type**” means in the failure type described in the third column of the tables in Appendix A to this Schedule 19.
- (f) “**Construction Period Performance Criteria**” means the level of performance (as set out in the column entitled “Requirements to be Met” in Appendix A to this Schedule 19) that Project Co must achieve to avoid a Construction Period Event for a failure to achieve compliance with the applicable provision of the Output Specifications.
- (g) “**Construction Period Quality Failure**” means any failure by Project Co to provide the Works in accordance with any Construction Period Performance Criteria designated as Construction Period Failure Type of “CPQF” in Appendix A to this Schedule 19.
- (h) “**Construction Period Quality Failure Deduction**” has the meaning given in Section 7.2(a).
- (i) “**Contested Non-Conforming Works**” means Works in respect of which Contracting Authority has given Notice to Project Co, pursuant to Section 61 (*Notices*) of the Project Agreement (but not an NCR initiated by Contracting Authority pursuant to Schedule 11 – Quality Management), that, in the opinion of Contracting Authority, the relevant Works are not in accordance with the Project Agreement, and Project Co has asserted that, in Project Co’s opinion, such Works are in accordance with the Project Agreement.
- (j) “**CPPC Remedial Period**” means the Remedial Period identified in the relevant column in Appendix A to this Schedule 19.

- (k) “**Critical Construction Period Quality Failure**” means a Construction Period Quality Failure designated as a Construction Period Failure Category of “Critical” in Appendix A to this Schedule 19.
- (l) “**Critical Qualifying NCR**” means a Qualifying NCR raised by Contracting Authority or Project Co on a Non-Conformance that requires all or any portion of Project Co Accepted Works to be removed or repeated because such Project Co Accepted Works have, or would reasonably be expected to have, a significant adverse or material adverse impact on:
- (i) the safety of the Project, the environment, System Users or the public;
 - (ii) the quality of the Works; or
 - (iii) the durability of the Works.
- (m) “**Critical Qualifying Process NCR**” means a Qualifying Process NCR raised by Contracting Authority or Project Co on a Non-Conformance that requires the progress of:
- (i) any Critical Path activity to be stopped for longer than 24 hours during any one or more Working Days; or
 - (ii) any near Critical Path activity to be stopped for longer than 24 hours during any one or more Working Days, such that a delay in the Scheduled Substantial Completion Date is forecasted in a Progress Works Schedule.
- (n) “**Critical Works LD Amount**” has the meaning given in Section 6.1(b).
- (o) “**Failure to Vacate**” has the meaning given in Section 3.2(a).
- (p) “**Final Annual TTC Station Weekend Closures Schedule**” has the meaning given in the Output Specifications.
- (q) “**Incident of Train Delay**” means an incident of delay to an applicable train that causes a Train Delay, including one or more subsequent related Train Delays.
- (r) “**Inspection and Test Plan**” has the meaning given in Schedule 11 – Quality Management.
- (s) “**Integration Milestone Delay**” means any delay in delivering Critical Data or completing Critical Works, in each case referred to in Section 6.1.
- (t) “**Lane Closure**” means any restriction or closure of a lane (including partial closures of a lane) on municipal roads, which, in any such case, is (i) required by Contracting Authority (a) upon the occurrence of Macro-Level Emergency (as determined by Contracting Authority in its sole discretion) caused or contributed to by an act or omission of Project Co or a Project Co Party; (b) due to the occurrence of an event or circumstance caused or contributed to by Project Co’s failure to perform the Works or any of its other obligations under the Project Agreement in accordance with the requirements set forth in the Project Agreement; or (c) required in order to rectify or

correct any damage or destruction to municipal roads, which has been caused or contributed to by an act or omission of Project Co or any Project Co Party, or (ii) instituted by Project Co.

- (u) “**Lane Closure Costs**” means Specified Costs and damages for loss of use of municipal roads for each occurrence of a Lane Closure which occurs at a time other than the Permitted Periods for Closures (including, for clarity, where there is a Lane Closure earlier than the Permitted Periods for Closure and including when Project Co fails to re-open lanes within the Permitted Period for Closures) payable by Project Co to Contracting Authority in accordance with Section 4(a).
- (v) “**LEED Silver Certification Liquidated Damages**” has the meaning given in Section 5.2(a).
- (w) “**Macro-Level Emergency**” means an unplanned event that has the potential to adversely affect the safety of the traveling public and/or ongoing traffic operations on one or more municipal or provincial roadways.
- (x) “**Medium Construction Period Quality Failure**” means a Construction Period Quality Failure designated as a Construction Period Failure Category of “Medium” in Appendix A to this Schedule 19.
- (y) “**Medium Qualifying NCR**” means a Qualifying NCR raised by Contracting Authority or Project Co on a Non-Conformance for all or any portion of Project Co Accepted Works that is not a Critical Qualifying Process NCR.
- (z) “**Medium Qualifying Process NCR**” means a Qualifying Process NCR raised by Contracting Authority or Project Co on a Non-Conformance that requires changes to a Construction Document Submittal that has been stamped as issued for construction and is being used by Project Co in its delivery of the Works, which is not a Critical Qualifying NCR.
- (aa) “**Minor Construction Period Quality Failure**” means a Construction Period Quality Failure designated as a Construction Period Failure Category of “Minor” in Appendix A to this Schedule 19.
- (bb) “**Minor Qualifying NCR**” means a Qualifying NCR raised by Contracting Authority on a Non-Conformance on all or any portion of the Works that have been inspected and tested or approved by Project Co at a Witness and Hold Point, pursuant to the Inspection and Test Plan, but are not yet Project Co Accepted Works. For clarity, a Minor Qualifying NCR does not mean a Qualifying NCR raised by Project Co.
- (cc) “**Minor Qualifying Process NCR**” means a Qualifying Process NCR raised by Contracting Authority on a Non-Conformance that is not a Critical Qualifying Process NCR or Medium Qualifying Process NCR. For clarity, a Minor Qualifying Process NCR does not mean a Qualifying Process NCR raised by Project Co.
- (dd) “**Monthly Non-Conformance Report**” has the meaning given in Schedule 11 – Quality Management.
- (ee) “**NCR**” means a Non-Conformance Report.

- (ff) “**OMSF Handover LD Amount**” has the meaning given in Section 6.1(f).
- (gg) “**OMSF Works LD Amount**” has the meaning given in Section 6.1(d).
- (hh) “**Permitted Periods for Closures**” means the permitted period for Lane Closures set out in Section 3.2.8.6 (*Permitted Lane Closures*) of the Output Specifications.
- (ii) “**Project Co Accepted Works**” means all physical elements of the Works that have been accepted by Project Co as meeting its acceptance criteria for those Works pursuant to the Inspection and Test Plan.
- (jj) “**Qualifying NCR**” means a Non-Conformance Report in accordance with Schedule 11 – Quality Management regarding any Non-Conformance discovered in the physical elements of any of the Works:
- (i) for which Project Co has continued, or has stated the intention to continue, construction of the Works past the relevant Witness and Hold Point in contravention of the Inspection and Test Plan; or
 - (ii) following Project Co’s stated completion of a task or component and Project Co’s statement that the requirements for Design and Construction Certification Procedure have been met in respect of such Works and such Works have been inspected and tested by Project Co pursuant to the Inspection and Test Plan,
- and shall include “Critical Qualifying NCR”, “Medium Qualifying NCR” or “Minor Qualifying NCR”.
- (kk) “**Qualifying Process NCR**” means a Non-Conformance Report in accordance with Schedule 11 – Quality Management regarding any Non-Conformance discovered in the Works that is not (i) a Qualifying NCR, or (ii) the result of an NCR related to the requirements described in Tables 1 or 3 of Appendix A to this Schedule 19, and shall include “Critical Qualifying Process NCR”, “Medium Qualifying Process NCR” or “Minor Qualifying Process NCR”.
- (ll) “**Specified Costs**” means the ordinary course costs and expenses of Contracting Authority or the Province Persons in relation to staffing, technical advisors and other consultants engaged by Contracting Authority or the Province Persons for the Project and the Independent Certifier, in each case assuming normal utilization.
- (mm) “**Significant Incident of Train Delay**” means an Incident of Train Delay that causes one or more Train Delays that last for more than five minutes.
- (nn) “**Significant Train Delay Event**” has the meaning given in Section 8.1(b).
- (oo) “**Substantial Completion LD Commencement Date**” has the meaning given in Section 5.1(a).
- (pp) “**Total Construction Period Deduction**” has the meaning given in Section 7.1(a).

- (qq) “**Train Cancellation**” means the cancellation of an in-service passenger train or the cancellation of a non-passenger train that is heading into or out of service.
- (rr) “**Train Delay**” has the meaning given in Section 3.1(a).
- (ss) “**Train Delay Rectification Plan**” has the meaning given in Section 8.1(a).
- (tt) “**Work Plan Methodology Template**” has the meaning given to it in Schedule 40 – Rail Corridor Access and Flagging.
- (uu) “**Witness and Hold Point**” has the meaning given in Schedule 11 – Quality Management.

2. LIQUIDATED DAMAGES – GENERAL

- (a) Except as expressly otherwise set out in the Project Agreement (including for clarity this Schedule 19), nothing in this Schedule 19 shall restrict, limit, prejudice or in any other way impair the rights or remedies of the Parties under any other provision of the Project Agreement.
- (b) Project Co acknowledges and agrees that all liquidated damages set out in this Schedule 19 shall be payable by Project Co whether or not Contracting Authority incurs or mitigates its damages, and that Contracting Authority shall have no obligation to mitigate any of its damages.
- (c) Project Co agrees that Project Co is, and shall be, estopped from alleging that any liquidated damages set out in this Schedule 19 are a penalty and not liquidated damages, or are otherwise unenforceable for any reason whatsoever, including that any of the underlying damages were not incurred by Contracting Authority.
- (d) If liquidated damages are incurred by Project Co in accordance with this Schedule 19, Contracting Authority may, in its sole discretion and at any time, subject to Section 2(e), deduct the amount of those liquidated damages, as calculated and determined by Contracting Authority in accordance with this Schedule 19, from any amount due to Project Co by Contracting Authority.
- (e) Contracting Authority shall not deduct liquidated damages from any Milestone Payment.
- (f) The Parties agree that the liquidated damages set out in this Schedule 19 are not a penalty but represent a genuine and reasonable pre-estimate of:
 - (i) with respect to Section 3.1(a), all costs and losses, including customer ticket refunds, in circumstances where Project Co has caused an individual Train Delay or has caused an Incident of Train Delay;
 - (ii) with respect to Section 3.1(c), all costs and losses, including customer ticket refunds, in circumstances where Project Co has caused an individual Train Cancellation;
 - (iii) with respect to Section 3.1(d), all costs and losses related to an Alternative Transportation Event and the other costs associated with operating a bus bridge or other alternative transportation;

- (iv) with respect to Section 3.2(a), all costs and losses for an individual Failure to Vacate;
 - (v) with respect to Section 5.1, Specified Costs arising from Project Co failing to achieve the requirements for the Substantial Completion Certificate and a Substantial Completion Certificate not being issued on or before the Substantial Completion LD Commencement Date;
 - (vi) with respect to any LEED Silver Certification Liquidated Damages, Contracting Authority's damages as a result of Project Co's failure to satisfy either or both of the requirements of Sections 23.6(d)(i) or 23.6(d)(ii) (*LEED Silver Certification*) of the Project Agreement;
 - (vii) with respect to Section 6.1, all costs and losses arising from Project Co failing to deliver Critical Data or completing Critical Works by the dates identified in Section 6.1 respectively;
 - (viii) with respect to Section 4(a), Lane Closure Costs for each occurrence of a Lane Closure which occurs at a time other than the Permitted Periods for Closure (including, for clarity, where there is a Lane Closure earlier than the Permitted Periods for Closure and including when Project Co fails to re-open lanes or ramps within the Permitted Period for Closures); and
 - (ix) with respect to Section 4(b), all costs and losses arising from Project Co cancelling a TTC Station Weekend Closure within the time periods identified in Section 4(b) respectively.
- (g) Notwithstanding anything to the contrary in this Schedule 19, Project Co shall not be obligated to pay any liquidated damages amount pursuant to this Schedule 19 if Contracting Authority has agreed with Project Co, in advance and in writing, that no such liquidated damages amount shall be payable.
- (h) The Parties agree that the liquidated damages set out in this Schedule 19 are applicable during the Construction Period and are not applicable during the Operational Term.

3. LIQUIDATED DAMAGES – TRAIN DELAYS

3.1 Train Delay

- (a) If, during the performance of the Works, Project Co, contrary to its obligations pursuant to the Project Agreement,
- (i) causes a delay to a GO Transit in-service passenger train, or to a GO Transit non-passenger train (including GO Transit non-passenger trains heading into or out of service), from the then current GO Transit train schedule;
 - (ii) causes a delay to a VIA Rail in-service passenger train, or to a VIA Rail non-passenger train (including VIA Rail non-passenger trains heading into or out of service) from the then current VIA Rail train schedule;
 - (iii) causes a delay to a freight train,

(each, a “**Train Delay**”), then Project Co shall pay to Contracting Authority liquidated damages in the following amounts:

- (iv) except as provided in Section 3.1(a)(v), for the first Train Delay caused by an Incident of Train Delay, which first Train Delay lasts for five minutes or more, \$[REDACTED] for each minute of that Train Delay (for clarity, including the first five minutes); plus
 - (v) for the first Train Delay caused by an Incident of Train Delay, an additional \$[REDACTED] for each minute (to a total of \$[REDACTED] per minute) of that first Train Delay commencing at 15 minutes of delay; plus
 - (vi) a lump sum amount of \$[REDACTED] for each Train Delay to a GO Transit in-service passenger train or to a GO Transit non-passenger train that is heading into service or out of service that, in any such case, lasts 15 minutes or more; plus
 - (vii) a lump sum amount of \$[REDACTED] for each Train Delay to a VIA Rail in-service passenger train or a VIA Rail non-passenger train that is heading into service or out of service that, in any such case, lasts for one hour or more, but less than four hours; plus
 - (viii) a lump sum amount of \$[REDACTED] for each Train Delay to a VIA Rail in-service passenger train or to a VIA Rail non-passenger train that is heading into or out of service that, in any such case, lasts for four hours or more.
- (b) For clarity, the liquidated damages for delay to a GO Transit train as set out in Section 3.1(a) shall not apply if Contracting Authority has agreed with Project Co, in advance and in writing, that such delay to the GO Transit train (measured against the then current GO Transit train schedule), shall not incur liquidated damages in accordance with this Section 3.1.
- (c) In addition to any amount Project Co is obligated to pay Contracting Authority pursuant to Section 3.1(d), if, in the sole discretion of Contracting Authority, any actual Incident of Train Delay requires a Train Cancellation, Project Co shall be obliged to pay liquidated damages to Contracting Authority in accordance with Sections 3.1(a)(iv) and 3.1(a)(v), subject to the following:
- (i) if the Incident of Train Delay that required the Train Cancellation lasted for less than 15 minutes, the Incident of Train Delay shall be deemed to be an Incident of Train Delay that lasted for 15 minutes; and
 - (ii) if the Incident of Train Delay that required the Train Cancellation lasted for 15 minutes or more, liquidated damages shall be assessed on the full period of the Incident of Train Delay.
- (d) If, in the sole discretion of Contracting Authority, a Train Cancellation requires the use of a bus bridge or the use of alternative transportation (each use of a bus bridge and each use of alternative transportation, an “**Alternative Transportation Event**”), Project Co shall, in addition to any other liquidated damages payable pursuant to this Section 3.1, pay to Contracting Authority a lump sum amount of \$[REDACTED] for each Alternative Transportation Event.

- (e) For the purpose of calculating the liquidated damages payable by Project Co in accordance with this Section 3.1, the timing (including commencement, duration and cessation) of any Train Delay, any Incident of Train Delay, and any Train Cancellation,
 - (i) in the case of Sections 3.1(a)(i) and 3.1(a)(ii), shall be determined based on the train data that is established and maintained by the GO Transit control centre; and
 - (ii) in the case of Section 3.1(a)(iii), shall be determined to commence as soon as the GO Transit control centre is notified of a freight train stoppage, due to an inability to pass through the Rail Corridor Access Site, and will end when such freight train is cleared for passage and passes through the Rail Corridor Access Site.

3.2 Rail Corridor Access

- (a) For a Permitted Rail Corridor Access, if Project Co fails to vacate and reinstate any of the tracks by the deadline set out in the corresponding Rail Corridor Access Permit and in the manner approved by Contracting Authority and set out in the approved Work Plan Methodology Template for the Rail Corridor Access (each, a “**Failure to Vacate**”), Project Co shall pay to Contracting Authority liquidated damages as follows:
 - (i) \$[REDACTED] for each minute of the Failure to Vacate, until the Failure to Vacate triggers a Train Delay; *plus*
 - (ii) all liquidated damages for each Train Delay, or Train Cancellation, if any, related to the Failure to Vacate payable pursuant to Section 3.1.

4. LIQUIDATED DAMAGES – LANE CLOSURES AND TTC STATION WEEKEND CLOSURES

- (a) For each and every occurrence of a Lane Closure which occurs at a time other than the Permitted Periods for Closure (including, for clarity, when there is a Lane Closure earlier than the Permitted Periods for Closure and including when Project Co fails to re-open lanes within the Permitted Periods for Lane Closures), Project Co shall pay to Contracting Authority liquidated damages in the following amounts:
 - (i) [REDACTED]; and
 - (ii) [REDACTED].
- (b) For each and every occurrence of a TTC Station Weekend Closure, if Project Co cancels such TTC Station Weekend Closure that was included in a Final Annual TTC Weekend Closures Schedule,
 - (i) less than thirty (30) weeks but more than twenty (20) weeks in advance of the date set out in the applicable Final Annual TTC Station Weekend Closures Schedule, Project Co shall pay Contracting Authority liquidated damages in the amount of \$[REDACTED]; or

- (ii) less than twenty (20) weeks in advance of the date set out in the applicable Final Annual TTC Station Weekend Closures Schedule, Project Co shall pay Contracting Authority liquidated damages in the amount of \$[REDACTED].

5. LIQUIDATED DAMAGES – FAILURE TO ACHIEVE SUBSTANTIAL COMPLETION AND LEED REQUIREMENTS

5.1 Failure to Achieve Substantial Completion

- (a) If Project Co has failed to achieve the requirements for the Substantial Completion Certificate and a Substantial Completion Certificate has not been issued on or before the date which is thirty (30) days following the Scheduled Substantial Completion Date (the “**Substantial Completion LD Commencement Date**”), Project Co shall pay liquidated damages in the amount of \$[REDACTED] per Business Day, commencing on the Substantial Completion LD Commencement Date and concluding on the earlier of:
 - (i) the Substantial Completion Date; and
 - (ii) the date on which the termination of the Project Agreement takes effect in accordance with its terms.
- (b) For greater certainty, Project Co’s obligation to indemnify Contracting Authority pursuant to Section 56.1(a)(i) (*Project Co Indemnities to Contracting Authority*) of the Project Agreement shall remain unaffected by, and shall apply in addition to, any liquidated damages payable by Project Co pursuant to Section 5.1(a), provided, however, that any amount for which Project Co is required to indemnify Contracting Authority pursuant to Section 56.1(a)(i) (*Project Co Indemnities to Contracting Authority*) of the Project Agreement shall exclude the Specified Costs in respect of which such liquidated damages have been paid or are payable.

5.2 Failure to Satisfy LEED Silver Certification Requirements

- (a) In the event that Project Co fails to satisfy the requirements of either or both of Sections 23.6(d)(i) or 23.6(d)(ii) (*LEED Silver Certification*) of the Project Agreement, Project Co shall pay to Contracting Authority liquidated damages in the amount of \$[REDACTED] (“**LEED Silver Certification Liquidated Damages**”). For greater certainty, any such failure shall not result in a Project Co Event of Default.

6. LIQUIDATED DAMAGES – INTEGRATION MILESTONE DELAYS

6.1 Failure to Deliver Critical Data or Complete Critical Works or OMSF Works on Time

- (a) In the event that Project Co fails to deliver any Critical Data on or prior to the applicable Critical Data Deadline, Project Co shall pay to Contracting Authority liquidated damages in an amount equal to \$[REDACTED] per calendar day, commencing on the applicable Critical Data Deadline and concluding on the earlier of (i) the date on which Project Co delivers such Critical Data to the Contracting Authority and (ii) the date on which the termination of the Project Agreement takes effect in accordance with its terms.

- (b) In the event that Project Co fails to Critical Works Complete any Critical Works on or prior to the applicable Critical Works Deadline, Project Co shall pay to Contracting Authority liquidated damages in an amount equal to \$[REDACTED] per calendar day (the “**Critical Works LD Amount**”), commencing on the applicable Critical Works Deadline and concluding on the earlier of (i) the date on which such Critical Works are Critical Works Complete, and (ii) the date on which the termination of the Project Agreement takes effect in accordance with its terms.
- (c) In the event that the Critical Works do not meet the requirements of the Project Agreement at any time after they are Critical Works Complete but prior to the applicable South Civil Infrastructure Section becoming part of the Project Co Infrastructure pursuant to Section 2.1(f) (*Handover of South Civil Infrastructure Sections*) of Schedule 42 – South Civil Infrastructure Access and Handover, Project Co shall pay to Contracting Authority liquidated damages in an amount equal to the Critical Works LD Amount, commencing on the day on which Contracting Authority delivers Notice to Project Co that the Critical Works fail to meet the requirements of the Project Agreement and concluding on the earlier of (i) the date on which such Critical Works meet the requirements of the Project Agreement, (ii) the date on which the applicable South Civil Infrastructure Section becomes part of the Project Co Infrastructure pursuant to Section 2.1(f) (*Handover of South Civil Infrastructure Sections*) of Schedule 42 – South Civil Infrastructure Access and Handover, and (iii) the date on which the termination of the Project Agreement takes effect in accordance with its terms.
- (d) In the event that the Independent Certifier determines pursuant to Section 8.1(f) (*Project Co to Complete OMSF Works*) of Schedule 43 – North Civil Infrastructure Access and Handover that the OMSF Works are not completed in accordance with the requirements of the Project Agreement on or before the OMSF Works Deadline, Project Co shall pay to Contracting Authority liquidated damages in an amount equal to \$[REDACTED] (the “**OMSF Works LD Amount**”) per calendar day, commencing on the OMSF Works Deadline and concluding on the earlier of (i) the date on which the Independent Certifier determines pursuant to Section 8.1(f) (*Project Co to Complete OMSF Works*) of Schedule 43 – North Civil Infrastructure Access and Handover that the OMSF Works are completed in accordance with the requirements of the Project Agreement, and (ii) the date on which the termination of the Project Agreement takes effect in accordance with its terms.
- (e) In the event that the OMSF Works do not meet the requirements of the Project Agreement, at any time after the Independent Certifier determines pursuant to Section 8.1(f) (*Project Co to Complete OMSF Works*) of Schedule 43 – North Civil Infrastructure Access and Handover that the OMSF Works are completed in accordance with the requirements of the Project Agreement, but prior to the applicable OMSF Project Co Infrastructure becoming part of the Project Co Infrastructure pursuant to Section 2.1(f) (*Handover of North Civil Infrastructure Sections*) of Schedule 43 – North Civil Infrastructure Access and Handover, Project Co shall pay to Contracting Authority liquidated damages in an amount equal to the OMSF Works LD Amount, commencing on the day on which Contracting Authority delivers Notice to Project Co that the OMSF Works fail to meet the requirements of the Project Agreement and concluding on the

earlier of (i) the date on which such OMSF Works meet the requirements of the Project Agreement, (ii) the date on which the applicable OMSF Project Co Infrastructure becomes part of the Project Co Infrastructure pursuant to Section 2.1(f) (*Handover of North Civil Infrastructure Sections*) of Schedule 43 – North Civil Infrastructure Access and Handover, and (iii) the date on which the termination of the Project Agreement takes effect in accordance with its terms.

- (f) In the event that the Independent Certifier determines pursuant to Section 9.1(f) (*OMSF Project Co Infrastructure Handover Date*) of Schedule 43 – North Civil Infrastructure Access and Handover that the OMSF Project Co Infrastructure is not in the condition specified in the OMSF Condition Report on or before the OMSF Project Co Infrastructure Handover Date, Project Co shall pay to Contracting Authority liquidated damages in an amount equal to \$[REDACTED] (the “**OMSF Handover LD Amount**”) per calendar day, commencing on the OMSF Project Co Infrastructure Handover Date and concluding on the earlier of (i) the date on which the Independent Certifier determines pursuant to Section 9.1(f) (*OMSF Project Co Infrastructure Handover Date*) of Schedule 43 – North Civil Infrastructure Access and Handover that the OMSF Project Co Infrastructure is in the condition specified in the OMSF Condition Report, and (ii) the date on which the termination of the Project Agreement takes effect in accordance with its terms.
- (g) In the event that the OMSF Project Co Infrastructure is not in the condition specified in the OMSF Condition Report at any time after the OMSF Project Co Infrastructure Handover Date but prior to the applicable OMSF Project Co Infrastructure becoming part of the Project Co Infrastructure pursuant to Section 2.1(f) (*Handover of North Civil Infrastructure Sections*) of Schedule 43 – North Civil Infrastructure Access and Handover, Project Co shall pay to Contracting Authority liquidated damages in an amount equal to the OMSF Handover LD Amount, commencing on the day on which Contracting Authority delivers Notice to Project Co that OMSF Project Co Infrastructure is not in the condition specified in the OMSF Condition Report and concluding on the earlier of (i) the date on which such OMSF Project Co Infrastructure is in the condition specified in the OMSF Condition Report, (ii) the date on which the applicable OMSF Project Co Infrastructure becomes part of the Project Co Infrastructure pursuant to Section 2.1(f) (*Handover of North Civil Infrastructure Sections*) of Schedule 43 – North Civil Infrastructure Access and Handover, and (iii) the date on which the termination of the Project Agreement takes effect in accordance with its terms.

7. CONSTRUCTION ENFORCEMENT REGIME

7.1 Construction Period Deductions

- (a) If, at any time prior to Substantial Completion, Project Co commits one or more Construction Period Quality Failures, Contracting Authority may, in its sole discretion, deduct corresponding Construction Period Deductions from the Substantial Completion Payment. For greater certainty, the cumulative amount of all Construction Period Deductions (the “**Total Construction Period Deduction**”) shall be applied against and shall decrease the Substantial Completion Payment.

7.2 Calculation of the Construction Period Deductions

- (a) Each Construction Period Deduction shall be calculated in accordance with the following formula:

[REDACTED]

(the “**Construction Period Quality Failure Deduction**”).

- (b) The deduction attributable to each Construction Period Quality Failure shall be as follows:

- (i) in the case of a Minor Construction Period Quality Failure for an NCR initiated by Project Co, there shall be no deduction;
- (ii) in the case of a Medium Construction Period Quality Failure for an NCR initiated by Project Co, each deduction shall equal \$**[REDACTED]**;
- (iii) in the case of a Minor Construction Period Quality Failure for an NCR initiated by Contracting Authority:
 - (A) the first deduction shall equal \$**[REDACTED]**; and
 - (B) each subsequent deduction arising from a failure to remediate prior to the expiration of the applicable CPPC Remedial Period, shall be 120 per cent of the immediately previous deduction but shall not exceed 150 per cent of the first deduction;
- (iv) in the case of a Medium Construction Period Quality Failure for an NCR initiated by Contracting Authority:
 - (A) the first deduction shall equal \$**[REDACTED]**; and
 - (B) each subsequent deduction arising from a failure to remediate prior to the expiration of the applicable CPPC Remedial Period shall equal 120 per cent of the immediately previous deduction but shall not exceed 150 per cent of the first deduction; and
- (v) in the case of a Critical Construction Period Quality Failure for an NCR initiated by either Party:
 - (A) the first deduction shall equal \$**[REDACTED]**; and
 - (B) each subsequent deduction arising from a failure to remediate prior to the expiration of the applicable CPPC Remedial Period shall equal 120 per cent of the immediately previous deduction but shall not exceed 150 per cent of the first deduction.

- (c) For clarity, subject to Project Co's right to Dispute the Construction Period Quality Failure, the occurrence of a Construction Period Quality Failure will immediately give rise to a right, on behalf of Contracting Authority, to apply the corresponding Construction Period Quality Failure Deduction against the Substantial Completion Payment, irrespective of the CPPC Remedial Period permitted.
- (d) After the occurrence of a Construction Period Quality Failure, Project Co shall remediate the Construction Period Quality Failure prior to the expiration of the applicable CPPC Remedial Period set out in Appendix A to this Schedule 19. If, prior to the expiration of the applicable CPPC Remedial Period, Project Co demonstrates, to the satisfaction of the Contracting Authority Representative, acting reasonably, that it has remedied the Construction Period Quality Failure, no further Construction Period Deduction shall be made in respect of that Construction Period Quality Failure. If Project Co fails to remediate a Construction Period Quality Failure prior to the expiration of the applicable CPPC Remedial Period, Contracting Authority, may, in its sole discretion, apply a further Construction Period Deduction, calculated in accordance with this Section 7.2, and a further CPPC Remedial Period of the same duration shall be deemed to have commenced. Contracting Authority may, in its sole discretion, apply the applicable Construction Period Deduction each time Project Co fails to remediate a Construction Period Quality Failure prior to the expiration of the applicable CPPC Remedial Period until such time as Project Co demonstrates, to the satisfaction of the Contracting Authority Representative, acting reasonably, that it has remediated the applicable Construction Period Quality Failure.
- (e) For the purposes of calculating the Construction Period Deductions in accordance with this Schedule 19, the Parties shall have regard to Sections 40.2(k) (*Consequences of a Delay Event*) and 44.2(e) (*Consequences of Force Majeure*) of the Project Agreement.

7.3 Tolerances for Minor Construction Period Quality Failures for NCRs Initiated by Contracting Authority

- (a) Contracting Authority shall assess Construction Period Quality Failures on a month to month basis. Except as provided in Section 7.3(c), Contracting Authority shall not apply a Construction Period Deduction due to a Minor Construction Period Quality Failure for an NCR initiated by Contracting Authority in respect of any month in which the total number of Minor Construction Period Quality Failures for NCRs initiated by Contracting Authority for that month is less than or equal to ten (the "**Minor Construction Period Quality Failure Tolerance**").
- (b) If the Minor Construction Period Quality Failure Tolerance is exceeded, Contracting Authority may, in its sole discretion, apply a Construction Period Deduction for each Minor Construction Period Quality Failure for an NCR initiated by Contracting Authority in excess of the Minor Construction Period Quality Failure Tolerance during the applicable month.
- (c) If, in any month, a Minor Construction Period Quality Failure for an NCR initiated by Contracting Authority is due to circumstances that are substantively the same cause as a previous Minor Construction Period Quality Failure for an NCR initiated by Contracting Authority (within the same month or in a different month) (a "**Repeated Minor Construction Period Quality Failure**"), then a Construction Period Deduction shall be made in respect of the third and each subsequent Repeated Minor Construction Period Quality Failure, irrespective of the Minor Construction Period Quality Failure Tolerance.

7.4 Administration of Construction Period Quality Failures and Construction Period Deductions

- (a) Subject to Sections 7.4(b), 7.4(c), 7.4(d) and 7.4(e), Contracting Authority shall use the Monthly Non-Conformance Report produced by Project Co for the purposes of calculating the relevant Construction Period Deductions.
- (b) If either Party believes that there is an error or omission in a Monthly Non-Conformance Report, that Party shall promptly provide Notice to the other Party of such error or omission. Immediately after a Notice is given pursuant to this Section 7.4(b), Project Co and Contracting Authority shall attempt to resolve or clarify the error or omission and amend the applicable Monthly Non-Conformance Report, to their mutual satisfaction, acting reasonably. Subject to Section 7.4(e), if the Parties fail to resolve or clarify the error or omission within ten (10) Business Days after a Notice is given pursuant to this Section 7.4(b), either Party may refer the matter to the Dispute Resolution Procedure. Subject to Sections 7.4(d) and 7.4(e), the Parties are prohibited from giving Notice of an error or omission pursuant to this Section 7.4(b) after the expiration of sixty (60) days after the date of the applicable Monthly Non-Conformance Report.
- (c) Subject to Section 7.4(e), if Project Co fails to monitor or accurately report a Construction Period Event or Construction Period Quality Failure then, in addition to the Construction Period Deduction to be made in respect of the relevant Construction Period Quality Failure (if any), a failure to monitor or report a Construction Period Event or a Construction Period Quality Failure shall be deemed to be Minor Construction Period Quality Failure.
- (d) In the event that any inspection or investigation by Contracting Authority or Project Co pursuant to the Project Agreement reveals new errors, omissions or failures of the type referred to in Section 7.4(b) or Section 7.4(c), such errors, omissions or failures shall be dealt with in accordance with Section 7.4(b) or Section 7.4(c), as applicable, and, for clarity, Contracting Authority may, in its sole discretion, apply Construction Period Deductions in respect of any Construction Period Quality Failures discovered pursuant to this Section 7.4(d) in the manner set out in Section 7.2. Any such Construction Period Deductions shall be made from the Substantial Completion Payment. For clarity, the sixty (60) day deadline set out in Section 7.4(b) shall not apply to errors, omissions or failures revealed pursuant to this Section 7.4(d).
- (e) For the purposes of Sections 7.4(b), 7.4(c) and 7.4(d), if Project Co or a Project Co Party has engaged in fraudulent action or inaction, deliberate misrepresentation, or gross misconduct or incompetence,
 - (i) in the preparation of the Monthly Non-Conformance Report; or
 - (ii) in carrying out the Work resulting in Construction Period Quality Failures,then,
 - (iii) the sixty (60) day deadline set out in Section 7.4(b) shall not apply; and

- (iv) a failure to monitor or accurately report a Construction Period Event or Construction Period Quality Failure pursuant to Section 7.4(c) shall be deemed to be a Critical Construction Period Quality Failure.
- (f) For clarity, if Construction Period Performance Criteria are based upon NCRs, no Construction Period Deductions shall be made for an NCR which is subject to an objection by Project Co, a Notice of objection by Project Co or Dispute Resolution Procedure, pursuant to Part 7 of Schedule 11 – Quality Management.

7.5 Additional Requirements for Tracking and Reporting

- (a) In addition to the requirements of Section 7.2 (*Non-Conformance Report Tracking System*) of Part 7 to Schedule 11 – Quality Management, the Non-Conformance Tracking System shall record Construction Period Quality Failure Deductions pursuant to this Schedule 19.
- (b) In addition to the requirements of Section 7.2 (*Non-Conformance Report Tracking System*) of Part 7 to Schedule 11 – Quality Management, the Monthly Non-Conformance Report shall contain:
 - (i) the number of Construction Period Quality Failure Deductions in each Construction Period Failure Category accrued within the last month of the Construction Period pursuant to this Schedule 19; and
 - (ii) summary statistics and historic trends since Financial Close for the number of Construction Period Quality Failure Deductions in each Construction Period Failure Category each month of the Construction Period pursuant to this Schedule 19.
- (c) Project Co shall track and set out the Total Construction Period Deduction in each monthly Works Report (both on a month by month basis and as a running total). Project Co shall report on the final Total Construction Period Deduction in the Substantial Completion Notice. If Contracting Authority disagrees with the Total Construction Period Deduction set out by Project Co in any Works Report or in the Substantial Completion Notice, then Contracting Authority shall notify Project Co and the Independent Certifier of such disagreement. In the event of a disagreement between the Parties over the Total Construction Period Deduction set out in the Substantial Completion Notice, the Parties shall seek to agree to any matter(s) in dispute with respect to the Total Construction Period Deduction. If the matter(s) cannot be resolved within fifteen (15) Business Days after Contracting Authority's notification of disagreement (or such other period as may be otherwise agreed by the Parties), then such matter shall be dealt with in accordance with Schedule 27 – Dispute Resolution Procedure. For clarity, notwithstanding any disagreement or Dispute between the Parties with respect to the quantum of the Total Construction Period Deduction, the Total Construction Period Deduction as calculated and determined by Contracting Authority in accordance with this Section 7 shall be applied against and shall decrease the Substantial Completion Payment.

7.6 Disputing an NCR During the Construction Period

- (a) In respect of the following circumstances, the Parties shall be subject to the binding determination of the Independent Certifier, and the Independent Certifier’s decision shall be final and shall not be subject to Dispute Resolution:
- (i) a Notice of objection to an NCR has not been resolved by mutual agreement between Contracting Authority and Project Co within five (5) Business Days after the delivery of a Notice of the objection pursuant to Sections 7.1(a)(viii) and 7.1(a)(x) (*Non-Conformance Reporting Process*) of Part 7 to Schedule 11 – Quality Management; and
 - (ii) the NCR referred to in Section 7.6(a)(i) would have been a Construction Period Quality Failure with a Construction Period Failure Category of “Minor” if the Notice of objection referred to in Section 7.6(a)(i) had not been issued.

8. WITHDRAWAL OF RAIL CORRIDOR ACCESS PRIVILEGES

8.1 Withdrawal of Rail Corridor Access Privileges

- (a) If, on any day, Project Co causes more than one Significant Incident of Train Delay, it shall, no later than five (5) Business Days after the day on which that Significant Incident of Train Delay occurred, provide a detailed explanation to Contracting Authority as to the cause of each applicable Significant Incident of Train Delay and a rectification plan designed to eliminate future Train Delays (each a “**Train Delay Rectification Plan**”), for review and approval by Contracting Authority, in its sole discretion.
- (b) If Project Co causes more than three (3) Significant Incidents of Train Delay in a 90-calendar day period (each a “**Significant Train Delay Event**”), Project Co shall immediately lose its rights to access the Rail Corridor, subject to demobilization and any directions issued by Contracting Authority with respect to vacating the Rail Corridor. Project Co shall, no later than five (5) Business Days after the Significant Train Delay Event occurs, provide to Contracting Authority both a Train Delay Rectification Plan and a revised Rail Corridor Access Plan, each setting out a rectification plan designed to eliminate future Train Delays, for review and approval by Contracting Authority. Project Co’s right to access the Rail Corridor shall not be re-instated until Contracting Authority has reviewed and approved, in its sole discretion, the Train Delay Rectification Plan and the revised Rail Corridor Access Plan, which approval may contain conditions imposed on Project Co and intended to eliminate Train Delays.

APPENDIX A TO SCHEDULE 19

CONSTRUCTION PERIOD PERFORMANCE CRITERIA

[REDACTED]

SCHEDULE 20

PAYMENT MECHANISM

PART A. DEFINITIONS AND GENERAL PROVISIONS

Section 1. Definitions

In this Schedule 20, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 20) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- 1.1 “**Actual Headway**” has the meaning given in the Output Specifications.
- 1.2 “**Actual Journey Time**” means sum of seconds the Train runs along the track measured at Train door closing at Origin Terminus and Train door is fully opened at Destination Terminus for the relevant Scheduled Trip, measured as per provisions in the Output Specifications.
- 1.3 “**Additional Base Trip**” means a Base Trip required in a Contract Month by Contracting Authority as requested in accordance with Section 2.2.2.3(b) (*Additional Trips*) of the Output Specifications.
- 1.4 “**Additional Modified Trip**” means a Modified Trip required in a Contract Month by Contracting Authority as requested in accordance with Section 2.2.2.3(b) (*Additional Trips*) of the Output Specifications.
- 1.5 “**Additional Trip**” means any Additional Base Trip, Additional Modified Trip or System Relief Trip.
- 1.6 “**Aggregate Station Availability Ratio**” is described in Section 17.2.
- 1.7 “**Adjusted Operations Plan**” has the meaning given in the Output Specifications.
- 1.8 “**Auxiliary Facilities**” has the meaning given in the Output Specifications.
- 1.9 “**Auxiliary Facilities Occupants**” has the meaning given in the Output Specifications.
- 1.10 “**Availability Failure**” means a combined Trip Availability Failure and Station Availability Failure.
- 1.11 “**Average Monthly Lifecycle Payment**” is described in Section 7.2.
- 1.12 “**AW2 Loading**” has the meaning given in the Output Specifications.
- 1.13 “**Base Relevant Insurance Cost**” has the meaning given in Schedule 25 – Insurance and Performance Security Requirements.
- 1.14 “**Base Trip**” has the meaning given in the Output Specifications.

- 1.15 “**Bedding-In Period**” means the one-hundred and eighty (180) calendar day period following the Payment Commencement Date.
- 1.16 “**Booking Process**” has the meaning given in the Output Specifications.
- 1.17 “**Capacity Level**” has the meaning given in the Output Specifications.
- 1.18 “**Capacity Level Change**” has the meaning given in the Output Specifications.
- 1.19 “**Capacity Level Change Date**” has the meaning given in the Output Specifications.
- 1.20 “**Completed Trip**” means a Trip, where a Train has met the Minimum Doors Open Time at every Station defined as part of such Trip, subject to provisions and adjustments stated in Section 12.8. For clarity, Completed Trip refers to any Scheduled Base Trip, an Additional Base Trip, Scheduled Modified Trip, Additional Modified Trip and System Relief Trip which meets this definition.
- 1.21 “**Completed Scheduled Base Trip**” means a Scheduled Base Trip, where a Train has met the Minimum Doors Open Time at every Station defined as part of such Scheduled Base Trip, subject to provisions stated in Section 12.8.
- 1.22 “**Contract Month**” means a calendar month, except with respect to:
- (a) the first Contract Month of the Operational Term, which runs from the Payment Commencement Date until the end of the calendar month in which such day falls; and
 - (b) the last Contract Month of the Operational Term, which runs from the first day of the calendar month in which the Expiry Date falls until the Expiry Date.
- 1.23 “**Contract Year**” means the period of twelve (12) calendar months that commences on April 1st of each calendar year and ends on March 31st of the next ensuing calendar year, provided that:
- (a) the first Contract Year shall be such period that commences on the first day of the first Contract Month and ends on the next ensuing March 31st; and
 - (b) the final Contract Year shall be such period that commences on April 1st that precedes the date on which the Project Agreement expires or is terminated, for whatever reason, and ends on the expiry or termination of the Project Agreement.
- 1.24 “**CPI-XFET**” means the Consumer Price Index excluding food, energy, and the effect of indirect taxes for Canada, as reported by Statistics Canada.
- 1.25 “**Critical Heavy Civil Failure**” means a Heavy Civil Failure which has been designated with a failure category of “critical” in the Output Specifications or this Schedule 20.
- 1.26 “**Critical Performance Failure**” means a Performance Failure which has been designated with a failure category of “critical” in Schedule 11 – Quality Management, the Output Specifications, Schedule 17 – Environmental Obligations, or this Schedule 20.

- 1.27 “**Cumulative Total Service Car Kilometers Range**” has the meaning given in Section 5.4.
- 1.28 “**Deduction**” means a deduction made from a Monthly Service Payment in accordance with this Schedule 20.
- 1.29 “**Deduction Factor**” means a relevant deduction factor used to calculate the Deduction for any of the Trip Capacity Failures, Trip Punctuality Failures or Station Availability Failures. Deduction Factor is referenced from the relevant table in Appendix A of this Schedule 20.
- 1.30 “**Destination Terminus**” means:
- (a) Science Center Station for an eastbound Base Trip, subject to provisions in Section 8 of this Schedule 20;
 - (b) Exhibition Station for a westbound Base Trip, subject to provisions in Section 8 of this Schedule 20;
 - (c) any Turnaround Station designated as such by Contracting Authority for any Modified Trip, subject to provisions in Section 8 of this Schedule 20; or
 - (d) any Turnaround Station designated as such by Contracting Authority for any Base Trip as a result of provisions in Section 8 of this Schedule 20.
- 1.31 “**Energy Failure**” means any failure by Project Co to provide the Project Co Services in accordance with the applicable Energy Performance Indicators set out in Schedule 8 – Energy Matters.
- 1.32 “**Energy Failure Deduction**” means a Deduction which may be made in respect of an Energy Failure.
- 1.33 “**Energy Performance Indicators**” has the meaning given in Schedule 8 – Energy Matters.
- 1.34 “**Escalation Factor**” means the escalation factor calculated in accordance with Section 6.1.
- 1.35 “**Event**” means:
- (a) a Trip Availability Failure;
 - (b) a Station Availability Failure; or
 - (c) an incident or state of affairs which does not meet or comply with the Performance Criteria or the Energy Performance Indicators, which is capable of becoming a Performance Failure, a Heavy Civil Failure or an Energy Failure.
- 1.36 “**Failure Points**” means points allocated to Project Co in respect of the occurrence of Trip Availability Failures, Station Availability Failures, System Events, Station Events, Heavy Civil Failures and Performance Failures which are determined by the provisions set out in Section 22. For the avoidance of doubt, there are no Failure Points allocated to Energy Failures.

- 1.37 “**Fixed Weighted Index**” means the industrial aggregate excluding unclassified businesses index for Canada of the fixed-weighted index of average hourly earnings for all employees, by industry, Table 14-10-0213-01, as reported by Statistics Canada.
- 1.38 “**Group 1 Station**” and “**Group 2 Station**” are described in Appendix D of this Schedule 20.
- 1.39 “**Headway Buffer**” means a period of time equal to the greater of:
- (a) [REDACTED]; or
 - (b) [REDACTED] minus the Scheduled Headway.
- 1.40 “**Headway Measuring Station**” means the following Stations for the Base Trip, unless designated otherwise in accordance with Section 8, and shall be measured for westbound Base Trips and eastbound Base Trips as set out in Appendix E of this Schedule 20;
- (a) Exhibition Station;
 - (b) Queen Station;
 - (c) East Harbour Station;
 - (d) Pape Station;
 - (e) Science Center Station; and
 - (f) any additional Stations designated in accordance with Section 8.
- 1.41 “**Heavy Civil Failure**” means any failure designated as “HCF” by Project Co to provide the Project Co Services in accordance with any Performance Criteria in Schedule 11 – Quality Management, the Output Specifications, Schedule 17 – Environmental Obligations or this Schedule 20, other than by reason of any Non-Project Co Cause.
- 1.42 “**Heavy Civil Failure Deduction**” means a Deduction which may be made in respect of a Heavy Civil Failure.
- 1.43 “**Help Desk**” means the contact point to be established by Project Co pursuant to the Outputs Specifications in respect of the help desk service for the notification of Events and other day to day matters arising during the Operational Term.
- 1.44 “**Inflation Base Date**” means April 1, 2022.
- 1.45 “**Initial Traction Power Performance Test Failure**” has the meaning given in Schedule 8 – Energy Matters.
- 1.46 “**Insurance Adjustment**” means the adjustment calculated in accordance with Schedule 25 – Insurance and Performance Security Requirements.

- 1.47 “**Insurance Review Date**” has the meaning given in Schedule 25 – Insurance and Performance Security Requirements.
- 1.48 “**Interchange Station**” has the meaning given in the Output Specifications.
- 1.49 “**Joint Insurance Cost Report**” has the meaning given in Schedule 25 – Insurance and Performance Security Requirements.
- 1.50 “**Interchange Station Service Provider**” has the meaning given in the Output Specifications.
- 1.51 “**Lifecycle Escalation Factor**” means the escalation factor calculated in accordance with Section 6.2.
- 1.52 “**Lifecycle Month**” means the relevant month from the period of 1 to 361 months corresponding to the relevant month starting the first month of the Car used for Revenue Service.
- 1.53 “**Major Heavy Civil Failure**” means a Heavy Civil Failure which has been designated with a failure category of “major” in the Output Specifications or this Schedule 20.
- 1.54 “**Major Maintenance Shutdown Period**” has the meaning given in the Output Specifications.
- 1.55 “**Major Performance Failure**” means a Performance Failure which has been designated with a failure category of “major” in Schedule 11 – Quality Management, the Output Specifications, Schedule 17 – Environmental Obligations or this Schedule 20.
- 1.56 “**Maximum Journey Time**” has the meaning given in the Output Specifications.
- 1.57 “**Medium Energy Failure**” means an Energy Failure which has been assessed as a “Medium Energy Failure” in Schedule 8 – Energy Matters.
- 1.58 “**Medium Performance Failure**” means a Performance Failure which has been designated with a failure category of “medium” in Schedule 11 – Quality Management, the Output Specifications, Schedule 17 – Environmental Obligations or this Schedule 20.
- 1.59 “**Minimum Doors Open Time**” has the meaning given in the Output Specifications.
- 1.60 “**Minor Energy Failure**” means an Energy Failure which has been assessed as a “Minor Energy Failure” in Schedule 8 – Energy Matters.
- 1.61 “**Minor Performance Failure**” means a Performance Failure which has been designated with a failure category of “minor” in Schedule 11 – Quality Management, the Output Specifications, Schedule 17 – Environmental Obligations or this Schedule 20.
- 1.62 “**Modified Trip**” means:
- (a) movement of a Train along the track departing from the Origin Terminus and arriving at the Destination Terminus as determined by Contracting Authority;

- (b) any Turnaround Station may be designated as the Origin Terminus or Destination Terminus for the Modified Trip by Contracting Authority;
 - (c) can only be performed at the direction of Contracting Authority; and
 - (d) excludes any Base Trips.
- 1.63 **“Monthly Fixed O&M Service Payment”** means the sum in Canadian Dollars payable by Contracting Authority to Project Co in accordance with the Project Agreement, as calculated in Section 4.1.
- 1.64 **“Monthly Lifecycle Payment”** means the sum in Canadian Dollars payable by Contracting Authority to Project Co in accordance with the Project Agreement, as calculated in Section 5 and does not include additional costs other than anticipated costs (and directly related contingencies and reserves) in respect of the replacement, refreshment and/or refurbishment of the Ontario Line Subway during the Operational Term.
- 1.65 **“Monthly Performance Monitoring Report”** has the meaning given in Schedule 11 – Quality Management.
- 1.66 **“Monthly O&M Service Payment”** means the sum in Canadian Dollars payable by Contracting Authority to Project Co in accordance with the Project Agreement, as calculated in Section 4.
- 1.67 **“Monthly Service Payment”** means the sum in Canadian Dollars payable by Contracting Authority to Project Co in accordance with the Project Agreement, as calculated in Section 3.
- 1.68 **“Monthly Capital Payment”** means the sum in Canadian dollars representing the capital payment portion of a Monthly Service Payment, as identified in Section 3.
- 1.69 **“Monthly Time-Based Cars Lifecycle Payment”** means the sum in Canadian Dollars payable by Contracting Authority to Project Co in accordance with the Project Agreement, as calculated in Section 5.2.
- 1.70 **“Monthly Time-Based Lifecycle Payment”** means the sum in Canadian Dollars payable by Contracting Authority to Project Co in accordance with the Project Agreement, as calculated in Section 5.1.
- 1.71 **“Monthly Time-Based Single Car Lifecycle Payment”** means the sum in Canadian Dollars payable by Contracting Authority to Project Co in accordance with the Project Agreement in a relevant Lifecycle Month per each Car, as calculated in Section 5.2.
- 1.72 **“Monthly Variable O&M Service Payment”** means the sum in Canadian Dollars payable by Contracting Authority to Project Co in accordance with the Project Agreement, as calculated in Section 4.2.

- 1.73 “**Monthly Volume-Based Lifecycle Payment**” means the sum in Canadian Dollars payable by Contracting Authority to Project Co in accordance with the Project Agreement, as calculated in Section 5.3.
- 1.74 “**Network Control Centre**” has the meaning given in the Output Specifications.
- 1.75 “**Non-Project Co Cause**” has the meaning given in Section 2.
- 1.76 “**Off-Peak Period Station Availability Ratio**” is described in Section 17.5.
- 1.77 “**Off-Peak Period Trip Capacity Ratio**” is described in Section 12.6.
- 1.78 “**Off-Peak Period Trip Punctuality Ratio**” is described in Section 13.4.
- 1.79 “**Operations Service Plan**” has the meaning given in the Output Specifications.
- 1.80 “**Origin Terminus**” means:
- (a) Exhibition Station for an eastbound Base Trip, subject to provisions in Section 8 of this Schedule 20;
 - (b) Science Center Station or first Station available after OMSF in the first Off-Peak Period of the Weekday for a westbound Base Trip, subject to provisions in Section 8 of this Schedule 20;
 - (c) any Turnaround Station designated as such by Contracting Authority for any Modified Trip, subject to provisions in Section 8 of this Schedule 20; or
 - (d) any Turnaround Station designated as such by Contracting Authority for any Base Trip as a result of provisions in Section 8 of this Schedule 20.
- 1.81 “**Partial Station Availability Standard**” has the meaning given in the Output Specifications.
- 1.82 “**Passenger Interface Provider**” has the meaning given in the Output Specifications.
- 1.83 “**Peak Period**” has the meaning given in the Output Specifications.
- 1.84 “**Peak Period Station Availability Ratio**” is described in Section 17.4.
- 1.85 “**Peak Period Trip Capacity Ratio**” is described in Section 12.4.
- 1.86 “**Peak Period Trip Punctuality Ratio**” is defined in Section 13.3.
- 1.87 “**Performance Criteria**” means a description in Schedule 11 – Quality Management, the Output Specifications, Schedule 17 – Environmental Obligations or this Schedule 20 of the level of performance that Project Co must achieve to attain compliance with the relevant output specification.

- 1.88 “**Performance Dashboard**” has the meaning given in the Output Specifications.
- 1.89 “**Performance Failure**” means any failure by Project Co to provide the Project Co Services in accordance with any Performance Criteria in Schedule 11 – Quality Management, the Output Specifications, Schedule 17 – Environmental Obligations or this Schedule 20, other than by reason of any Non-Project Co Cause.
- 1.90 “**Performance Failure Deduction**” means a Deduction which may be made in respect of a Performance Failure.
- 1.91 “**Performance Information**” has the meaning given in the Output Specifications.
- 1.92 “**Performance Reporting System**” has the meaning given in the Output Specifications.
- 1.93 “**Period**” has the meaning given in the Output Specifications.
- 1.94 “**Permanent Repair**” means Rectification where a Temporary Repair has been permitted and carried out pursuant to Section 21.
- 1.95 “**Permanent Repair Deadline**” has the meaning given in Section 21.1(b).
- 1.96 “**Rectification**” means, following the occurrence of an Event and where rectification is applicable in accordance with Schedule 8 – Energy Matters, Schedule 11 – Quality Management, the Output Specifications, Schedule 17 – Environmental Obligations or this Schedule 20, making good the Event so that the subject matter of the Event permanently complies with the levels of service required pursuant to the Project Agreement. Without prejudice to the generality of the foregoing this shall include (a) restoring any functional capability which has been disabled or is otherwise not in compliance with the relevant Schedule; (b) repairing any defect, hazard, or other condition which was not in compliance with the relevant Schedule; and (c) formally notifying the Help Desk that Rectification has been completed; and “**Rectify**” or “**Rectified**” shall be construed accordingly.
- 1.97 “**Rectification Time**” means the period specified in Schedule 8 – Energy Matters, Schedule 11 – Quality Management, the Output Specifications, Schedule 17 – Environmental Obligations or this Schedule 20 within which Rectification of the relevant Event must be completed, calculated from the time that such Event is reported to the Help Desk. For the avoidance of doubt, if no period for rectification is specified in any of the above-mentioned Schedules in respect of the relevant Event, no Rectification Time applies.
- 1.98 “**Remedial Period**” means the period allowed for remedying a Performance Failure or a Heavy Civil Failure in accordance with Section 19.4 or an Energy Failure in accordance with Section 20.3.
- 1.99 “**Response**” means, following the notification of the occurrence of an Event and where response is applicable in accordance with Schedule 11 – Quality Management, the Output Specifications, Schedule 17 – Environmental Obligations or this Schedule 20, the following actions by Project Co:
- (a) establishing the location, investigating the nature and cause of the Event and attending the site if necessary;

- (b) appointing a suitably qualified, experienced and accountable person to assess the situation who, within reasonable limits, is empowered to take or to authorize any required action;
 - (c) taking any necessary actions to make the non-compliant system or item safe and secure, thereby as a minimum fulfilling all health and safety requirements;
 - (d) when necessary, giving the Contracting Authority Representative an assessment of the problem, the action taken, details of any work required with timescales and any limitations that this may impose on the Ontario Line Subway and the Project Co Services; and
 - (e) formally advising the Help Desk that the Response has been completed.
- 1.100 “**Response Time**” means the time required by Schedule 11 – Quality Management, the Output Specifications, Schedule 17 – Environmental Obligations or this Schedule 20 for Project Co to complete its Response measured from when an Event is reported to the Help Desk.
- 1.101 “**Scheduled Base Trip**” means a Base Trip required in a Contract Month by Contracting Authority through the Booking Process.
- 1.102 “**Scheduled Headway**” has the meaning given in the Output Specifications.
- 1.103 “**Scheduled Modified Trip**” means a Modified Trip required in a Contract Month by Contracting Authority through the Booking Process.
- 1.104 “**Scheduled Station Hours**” means the total number of hours during a Contract Month that a Station is required to be open and available for use in accordance with the Station Availability Standard, based on the Operations Service Plan then in effect.
- 1.105 “**Scheduled Trip**” means any of the Scheduled Base Trip or Scheduled Modified Trip.
- 1.106 “**Service Car Kilometer**” means a car-kilometer for the Car in Revenue Service. For clarity, Service Car Kilometer refers to car-kilometer required to deliver Scheduled Trips and Additional Trips and does not refer to actual kilometers accumulated by the Car.
- 1.107 “**Station Availability Standard**” means the standard set out in the Output Specifications.
- 1.108 “**Station Availability Failure**” occurs where any Station does not comply with the Station Availability Standard other than by reason of any Non-Project Co Cause. For the avoidance of doubt, Station Availability Failures include the occurrence of Station Events.
- 1.109 “**Station Availability Failure Deduction**” means a Deduction calculated in accordance with Section 17.1.
- 1.110 “**Station Availability Failure Deduction Factor**” has the meaning given in Section 17.2.
- 1.111 “**Station Availability Failure Hours**” means, for any Station, the total number of hours during a Contract Month during which there is a condition of Station Availability Failure. For each Contract

Month, Station Availability Failure Hours shall be rounded up to the nearest 15-minute increment and may be expressed as a decimal.¹

- 1.112 “**Station Event**” means an event identified as such in Section 18.1. For the avoidance of doubt, a Station Event is classified as a Station Availability Failure.
- 1.113 “**Station Event Deductions**” has the meaning given in 18.1.
- 1.114 “**System Event**” means an event identified as such in Section 14.1. For the avoidance of doubt, a System Event is classified as a Trip Availability Failure.
- 1.115 “**System Event Deductions**” has the meaning given in Section 14.1.
- 1.116 “**System Relief Trip**” means a Base Trip required in a Contract Month by Contracting Authority as requested in accordance with Section 2.2.2.3(b) (*Additional Trips*) of the Output Specifications.
- 1.117 “**Subway Rules and Standard Operating Procedures**” has the meaning given in the Output Specifications.
- 1.118 “**Temporary Repair**” means, in respect of the occurrence of an Event which results in a Trip Availability Failure, Station Availability Failure, Heavy Civil Failure or Performance Failure, works of a temporary nature that do not constitute Rectification but temporarily allow for safe use of the affected elements of the Ontario Line Subway and substantially make good the relevant Event for the period until a Permanent Repair can be undertaken.
- 1.119 “**Total Headway Service Delay Seconds**” has the meaning given in Section 13.6.
- 1.120 “**Total Journey Time Service Delay Seconds**” has the meaning given in Section 13.8.
- 1.121 “**Total Monthly Service Car Kilometers**” means the sum of Service Car Kilometers for the Scheduled Trips and Additional Trips accumulated in the relevant Contract Month *m* for the relevant Capacity Level.
- 1.122 “**Total Service Delay Seconds**” has the meaning given in Section 13.5.
- 1.123 “**Traction Power Performance Test Failure**” has the meaning given in Schedule 8 – Energy Matters.
- 1.124 “**Train In-Service Maintenance Standard**” has the meaning given in the Output Specifications.
- 1.125 “**Trip**” means any of Scheduled Base Trip, Scheduled Modified Trip, Additional Base Trip, System Relief Trip and Additional Modified Trip.

¹Example: Three (3) hours and fifteen (15) minutes of Station Availability Failure shall be represented as 3.25 Station Availability Failure Hours.

- 1.126 “**Trip Availability Failure**” means any Trip Capacity Failure and/or Trip Punctuality Failure. For the avoidance of doubt, Trip Availability Failures include the occurrence of System Events.
- 1.127 “**Trip Availability Failure Deduction**” means any Trip Capacity Failure Deduction Factor and/or Trip Punctuality Failure Deduction Factor. For the avoidance of doubt, Trip Availability Failure Deductions include System Events Deduction and is calculated in accordance with Section 11.1.
- 1.128 “**Trip Capacity Failure**” means any failure of the Ontario Line Subway contributing to the inability to attain the Scheduled Trips for a Contract Month, other than by reason of any Non-Project Co Cause. For the avoidance of doubt, Trip Capacity Failures include the occurrence of the relevant System Events.
- 1.129 “**Trip Capacity Failure Deduction Factor**” means a Deduction calculated in accordance with Section 12.
- 1.130 “**Trip Capacity Ratio**” means, collectively, the Off-Peak Period Trip Capacity Ratio and the Peak Period Trip Capacity Ratio.
- 1.131 “**Trip Punctuality Failure**” means any failure of the Ontario Line Subway contributing to the inability to attain the Scheduled Headways and/or Maximum Journey Times for a Contract Month, other than by reason of any Non-Project Co Cause. For the avoidance of doubt, Trip Punctuality Failures include the occurrence of the relevant System Events.
- 1.132 “**Trip Punctuality Ratio**” means, collectively, the Off-Peak Period Trip Punctuality Ratio and the Peak Period Trip Punctuality Ratio.
- 1.133 “**Trip Punctuality Failure Deduction Factor**” means a Deduction calculated in accordance with Section 13.
- 1.134 “**Turnaround Station**” means:
- (a) Queen Station;
 - (b) Moss Park Station;
 - (c) Pape Station;
 - (d) Cosburn Station;
 - (e) Thorncliffe Park Station; or
 - (f) any Station at which turnback services with a Scheduled Headway of [REDACTED] or less can be provided in accordance with Adjusted Operations Plan, subject to provisions in Section 8 of this Schedule 20.
- 1.135 “**Unadjusted Service Payment**” has the meaning given in Section 7.

- 1.136 “**Variable Service Car Kilometer Payment**” means the amount in Canadian Dollars, as described in Section 4.2.
- 1.137 “**Volume-Based Cars Lifecycle Payment**” means the sum in Canadian Dollars payable by Contracting Authority to Project Co in accordance with the Project Agreement in a relevant Contract Month, as calculated in Section 5.3.
- 1.138 “**Volume-Based Fixed Infrastructure Lifecycle Payment**” means the sum in Canadian Dollars payable by Contracting Authority to Project Co in accordance with the Project Agreement in a relevant Contract Month, as calculated in Section 5.3.
- 1.139 “**Weekday**” means Monday, Tuesday, Wednesday, Thursday or Friday.

Section 2. Non-Project Co Causes

- 2.1 Subject to Sections 2.2(c) and 2.4, for the purposes of this Schedule 20, a Non-Project Co Cause is one of the following issues or events, only if and to the extent that such issue or event causes a Trip Availability Failure (including, for clarity, a Trip Capacity Failure or Trip Punctuality Failure), System Event, Station Availability Failure, Station Event, Performance Failure or Heavy Civil Failure:
- (a) an action or order issued by Contracting Authority, Security Provider, Interchange Station Service Provider, Passenger Interface Provider, Network Control Centre or a Governmental Authority, including:
 - (i) slowing down, re-routing or stopping a Train service from its schedule;
 - (ii) closing, partially closing, not opening, or partially not opening a Station; and
 - (iii) any action or orders resulting from an Emergency;
 - (b) attendance of Project Co’s staff or Emergency Service Providers to respond to an Emergency or an event or incident that it reasonably considers may constitute an Emergency (including System User actions resulting from an Emergency);
 - (c) the unlawful or negligent acts or omissions of Protesters and Trespassers (subject to, in the case of Protesters and Trespassers, Section 9.7(c)(ii) (*Protest and Trespass*) of the Project Agreement), Interchange Station Service Providers, Passenger Interface Provider, Network Control Centre, GO Transit, Governmental Authorities, Additional Contractors (including, for greater certainty, TOC Contractors), Third Party Contractors, Civil Contractors, Railway Companies, Emergency Service Providers, Security Provider, Utility Companies, or Auxiliary Facilities Occupants; for the avoidance of doubt, in respect of this Section 2.1(c), including failure by any person who is subject to the Subway Rules and Standard Operating Procedures to act in accordance with the Subway Rules and Standard Operating Procedures;
 - (d) the occurrence of an Event of Vandalism (excluding Graffiti) limited to:

- (i) Physical Damage to the Guideway (including Systems (as defined in the Output Specifications) located in the Guideway) that results in a Trip Availability Failure; and
 - (ii) Physical Damage to public areas of any Station during normal operating hours that results in a Station Availability Failure;
 - (e) the actions of Additional Contractors subject to Section 9.8 (*Additional Works and Third Party Works*) of the Project Agreement, provided that if Contracting Authority has assigned certain responsibilities to Project Co in accordance with Section 9.8 (*Additional Works and Third Party Works*) of the Project Agreement, then a Non-Project Co Cause shall only apply where Contracting Authority fails to carry out its responsibilities in Section 9.8(d) (*Additional Works and Third Party Works*) of the Project Agreement;
 - (f) an interruption to the Project Co Services caused by a loss of utility service from a Utility Company or by electrical power supplied outside of the allowed variance (as specified by the Utility Company) from the nominal value (as specified by the Utility Company), including as a result of any lawful imposition of restrictions by a Governmental Authority;
 - (g) Station Availability Failures caused by the fit-out contractor of any Auxiliary Facilities; and
 - (h) system operating conditions exceeding the environmental conditions set out in Section 2.2.1.5 (*Environmental Conditions for Operations Services*) of the Output Specifications.
- 2.2 Project Co shall only be entitled to relief and a Non-Project Co Cause shall only be applicable pursuant to this Section 2 if and to the extent that:
- (a) the issue or event described in Section 2.1,
 - (i) was not caused or contributed to by any act or omission of Project Co or any Project Co Party;
 - (ii) was not caused or contributed to by any Province Person acting in accordance with a written recommendation or instruction of Project Co or any Project Co Party; or
 - (iii) could not have been prevented or mitigated by the proper performance of Project Co's obligations under the Project Agreement;
 - (b) Project Co has taken, and continued to take, commercially reasonable steps to mitigate the consequences of the Non-Project Co Cause; and
 - (c) Project Co is not entitled to compensation payable pursuant to any insurance policy that clearly and expressly by the policy's terms reimburses Project Co for the Deductions that would be applied by Contracting Authority in respect of such Non-Project Co Cause, or would have been entitled to recover under any insurance policy that clearly and expressly by the policy's terms reimburses Project Co for Deductions had it complied with the

requirements of the Project Agreement in respect of insurance or the terms of any policy of insurance required under the Project Agreement.

- 2.3 For clarity, if Project Co claims relief for a Non-Project Co Cause following an issue or event described in Section 2.1, such Non-Project Co Cause shall be Project Co's sole remedy, and Project Co shall not be entitled to claim relief and/or compensation arising from the same issue or event under Sections 42 (*Excusing Causes*), 43 (*Relief Events*) or 44 (*Force Majeure*) of the Project Agreement.
- 2.4 Following an issue or event described in Section 2.1, Project Co shall resume performance of the Project Co Services as soon as practicable.
- 2.5 For the avoidance of doubt, to the extent that an issue or event described in Section 2.1 does not directly prevent Project Co's ability to respond to or Rectify (as the case may be) a Performance Failure or a Heavy Civil Failure, Project Co shall not be relieved of such Performance Failure or Heavy Civil Failure by reason of any Non-Project Co Cause (as applicable).

PART B. CALCULATION OF SERVICE PAYMENTS

Section 3. Monthly Service Payment

- 3.1 The Monthly Service Payment shall be payable in respect of each Contract Month m during the Operational Term. The Monthly Service Payment shall be calculated in accordance with the following formula:

$$MSP_m = MSP_{cap} + MSP_{ser}_m + MLP_m - \Sigma D_m - \Sigma TPD_m + \left(\frac{BRIC + IA}{12}\right) + \Sigma PA_m$$

Where:

MSP_m	Means the Monthly Service Payment for the Contract Month m for which the formula is to be applied;
MSP_{cap}	Means the Monthly Capital Payment, as referenced in Column B of Table 1 in Appendix A of this Schedule 20;
MSP_{ser}_m	Means the Monthly O&M Service Payment calculated in accordance with Section 4;
MLP_m	Means the Monthly Lifecycle Payment for the relevant Contract Month m , calculated in accordance with the provisions set out in Section 5;
ΣD_m	Means the sum of Trip Availability Failure Deductions, Station Availability Failure Deductions, Heavy Civil Failure Deductions, Performance Failure Deductions, and Energy Failure Deductions in respect of the relevant Contract Month m ;

ΣTPD_m	Means the sum of Deductions for Initial Traction Power Performance Test Failures and Traction Power Performance Test Failures, including, if applicable, any positive adjustment in relation to the Initial Traction Power Performance Test Failure, assessed in accordance with Schedule 8 – Energy Matters for the relevant Contract Month m . For clarity, the Deductions for Initial Traction Power Performance Test Failures and Traction Power Performance Test Failures and, if applicable, any positive adjustment in relation to the Initial Traction Power Performance Test Failure, shall be applied in respect of the Contract Month in which Project Co is assessed an Initial Traction Power Performance Test Failure or a Traction Power Performance Test Failure, as applicable, subject to Section 3.7;
$BRIC$	Means the Base Relevant Insurance Cost calculated in accordance with Section 3.3;
IA	Means the Insurance Adjustment calculated in accordance with Sections 3.4 and 3.5; and
ΣPAm	Means the sum of any amounts owed and payable by Contracting Authority to Project Co or any other adjustments to the Monthly Service Payment under the Project Agreement in the relevant Contract Month m .

- 3.2 In the Contract Month in which the Payment Commencement Date falls and in the last Contract Month of the Project Term, a *pro rata* adjustment shall be made to reflect the actual number of days in the relevant Contract Month from and including the Payment Commencement Date (for the first month) and up to and including the last day of the Project Term (for the last month), where applicable. Additionally, in the Contract Month in which the Payment Commencement Date falls, the number of days in the Contract Month shall be adjusted to include such number of calendar days after the Substantial Completion Date and before the Payment Commencement Date that Project Co has provided the Project Co Services, where applicable.
- 3.3 For the purposes of calculating the Monthly Service Payment in accordance with Section 3.1 of this Schedule 20, the Base Relevant Insurance Cost shall be converted to a monthly amount. For clarity, the Base Relevant Insurance Cost shall not be subject to any escalation adjustment.
- 3.4 No later than sixty (60) days prior to each Insurance Review Date, Project Co will require its insurance broker to prepare and submit to Contracting Authority the Joint Insurance Cost Report. Contracting Authority and Project Co will agree, each acting reasonably, on the Insurance Adjustment to be applied to the Monthly Service Payment for the next Contract Year.
- 3.5 In the event that Project Co is entitled to an Insurance Adjustment pursuant to Section 7.4 (*Benchmarking of Insurance Costs*) of Schedule 25 – Insurance and Performance Security Requirements of the Project Agreement, then such Insurance Adjustment shall constitute an adjustment to the Monthly Service Payment and be applied in accordance with Section 3.1 of this Schedule 20. For clarity, the Insurance Adjustment is calculated as an annual amount in Schedule 25 – Insurance and Performance Security Requirements. For the purposes of an adjustment to the

Monthly Service Payment in accordance with Section 3.1 of this Schedule 20, the Insurance Adjustment shall be converted to a monthly amount.

- 3.6 The Monthly Service Payment for the Contract Month in which an Event of Vandalism occurs as described in Section 16.2 shall be calculated based on the Scheduled Trips and Scheduled Headways in the Operations Service Plan requested by Contracting Authority through the Booking Process for the relevant Contract Month and shall not be adjusted to reflect the reduction in the number of Scheduled Trips and increase to the Scheduled Headway that relate to the relevant Train not being available for Revenue Service for the purposes of the temporarily modified Operations Service Plan.
- 3.7 In the event that in a relevant Contract Month the sum of Trip Availability Failure Deductions, Station Availability Failure Deductions, Heavy Civil Failure Deductions, Performance Failure Deductions and Energy Failure Deductions and the sum of the Deductions for Initial Traction Power Performance Test Failures and Traction Power Performance Test Failures exceed the Unadjusted Service Payment relating to that Contract Month, then the sum of the Deductions for Initial Traction Power Performance Test Failures and Traction Power Performance Test Failures in excess of the Unadjusted Service Payment for that relevant Contract Month shall be deducted from the Monthly Service Payment in respect of any subsequent Contract Month.
- 3.8 In the event that Substantial Completion is achieved after the original Scheduled Substantial Completion Date, the first Monthly Service Payment payable by Contracting Authority to Project Co in respect of the Contract Month in which the Payment Commencement Date falls shall be calculated in accordance with Section 3.1 using the Monthly Capital Payment and the Monthly O&M Service Payment in which Substantial Completion is achieved and any Monthly Lifecycle Payments in respect of such Contract Month.

Section 4. Monthly O&M Service Payment

- 4.1 The Monthly O&M Payment for the relevant Contract Month m shall be calculated in accordance with the following formula:

$$MSPser_m = (\sum_{CL} MSPserF_{CL,m} + MSPserV_m) \times ESC_n$$

Where:

\sum_{CL}	Summation for the relevant Capacity Level(s) in effect in the relevant Contract Month m ;
$MSPser_m$	Means the total, escalated Monthly O&M Service Payment for the relevant Contract Month m ;
$MSPserF_{CL,m}$	Means the un-escalated Monthly Fixed O&M Service Payment for the relevant Capacity Level(s) in effect during the relevant Contract Month m , as referenced in Column B of Table 2 in Appendix A of this Schedule 20;

MSP_{serV_m} Means the un-escalated Monthly Variable O&M Service Payment for the relevant Contract Month m , calculated in accordance with Section 4.2; and

ESC_n Means the Escalation Factor for the relevant Contract Year n as calculated in accordance with Section 6.1.

- 4.2 The Monthly Variable O&M Service Payment for the relevant Contract Month m shall be calculated in accordance with the following formula:

$$MSP_{serV_m} = \sum_{CL} (VP_{CL} \times CKM_{CL,m})$$

Where:

\sum_{CL} Summation for the relevant Capacity Level(s) in effect in the relevant Contract Month m ;

MSP_{serV_m} Means the un-escalated Monthly Variable O&M Service Payment for the relevant Contract Month m ;

VP_{CL} Means the Variable Service Car Kilometer Payment for the relevant Capacity Level(s) in effect during the relevant Contract Month m , as referenced in Column C of Table 2 in Appendix A of this Schedule 20; and

$CKM_{CL,m}$ Means the total number of Total Monthly Service Car Kilometers in the relevant Contract Month m for the relevant Capacity Level, subject to Section 4.3.

- 4.3 With respect to Total Monthly Service Car Kilometers, if the actual number of Cars per Train in Revenue Service is below the number of Cars per Train as confirmed through the Booking Process, the Total Monthly Service Car Kilometers shall be adjusted proportionately for the purposes of calculating the Monthly Variable O&M Service Payment in Section 4.2.
- 4.4 If through the Booking Process in any relevant Contract Month m , Contracting Authority modifies the Operations Service Plan resulting in a Scheduled Headway of greater than [REDACTED] for any Period, then for the purposes of determining the Monthly Variable O&M Service Payment in accordance with Section 4.2 in the relevant Contract Month m , Project Co shall assume a maximum Scheduled Headway of [REDACTED] for any Period where the Scheduled Headway through the Booking Process is greater than [REDACTED].
- 4.5 If through the Booking Process in any relevant Contract Month m , Contracting Authority modifies the Operations Service Plan resulting in the ramp-up and ramp-down of Operations Services (as defined in the Output Specifications) exceeding the [REDACTED]% threshold, as described in Section 2.2.2.3(a)(vii) (*Monthly Booking Process*) of the Output Specifications, then the Monthly Variable O&M Service Payment shall apply to the additional Service Car Kilometers for Project

Co to provide the incremental ramp-up and ramp-down transitions above this threshold. For clarity, this Section 4.5 does not apply to Additional Trips requested by Contracting Authority.

- 4.6 For clarity, the calculation of the Monthly Variable O&M Service Payment (including, for greater certainty, the application of the Variable Service Car Kilometer Payment) would apply for any future extensions, as contemplated in Schedule 44 – System Extension, including, the Service Car Kilometers required to be delivered by Project Co for any future extensions.

Section 5. Monthly Lifecycle Payment

- 5.1 The Monthly Lifecycle Payment applicable for any Contract Month m shall be calculated in accordance with the following formula:

$$MLP_m = ((MTLP_m + MTCLP_m + MVLP_m) \times F \times LESC_n) + ((MTLP_m + MTCLP_m + MVLP_m) \times (1 - F))$$

Where:

MLP_m	Means the total, escalated Monthly Lifecycle Payment applicable for the relevant Contract Month m ;
$MTLP_m$	Means the Monthly Time-Based Lifecycle Payment for the relevant Contract Month m as set out in Column D of Table 3 in Appendix A of this Schedule 20;
$MTCLP_m$	Means the Monthly Time-Based Cars Lifecycle Payment for the relevant Contract Month m calculated in accordance with Section 5.2;
$MVLP_m$	Means the Monthly Volume-Based Lifecycle Payment for the relevant Contract Month m calculated in accordance with Section 5.3;
F	Means [REDACTED]%; and
$LESC_n$	Means the Lifecycle Escalation Factor for the relevant Contract Year n as calculated in accordance with Section 6.2.

- 5.2 The Monthly Time-Based Cars Lifecycle Payment for the relevant Contract Month m shall be calculated in accordance with the following formula:

$$MTCLP_m = \sum_C SingleCLP_{tcm}$$

Where:

$MTCLP_m$	Means the Monthly Time-Based Cars Lifecycle Payment for the relevant Contract Month m ;
-----------	---

\sum_c Summation for the all Cars; and

SingleCLP_{lcm} Means the Monthly Time-Based Single Car Lifecycle Payment per Car for the relevant Lifecycle Month *lcm* as set out in Column B of Table 4 in Appendix A of this Schedule 20.

- 5.3 The Monthly Volume-Based Lifecycle Payment for the relevant Contract Month *m* shall be calculated in accordance with the following formula:

$$MVLP_m = VFLP_m + VCLP_m$$

Where:

MVLP_m Means the Monthly Volume-Based Lifecycle Payment for the relevant Contract Month *m*;

VFLP_m Means the Volume-Based Fixed Infrastructure Lifecycle Payment for the relevant Contract Month *m* as calculated as the amount set out in Column B of Table 5 in Appendix A of this Schedule 20 corresponding to the relevant Cumulative Total Service Car Kilometers Range(s) as set out in Column A of Table 5 in Appendix A of this Schedule 20, where the Cumulative Total Service Car Kilometers Range shall be calculated in accordance with Section 5.4.

VCLP_m Means the Volume-Based Cars Lifecycle Payment for the relevant Contract Month *m* as calculated as the amount set out in Column C of Table 5 in Appendix A of this Schedule 20 corresponding to the relevant Cumulative Total Service Car Kilometers Range(s) as set out in Column A of Table 5 in Appendix A of this Schedule 20, where the Cumulative Total Service Car Kilometers Range shall be calculated in accordance with Section 5.4.

- 5.4 The Cumulative Total Service Car Kilometers Range for the relevant Contract Month *m* shall be calculated in accordance with the following formula:

$$\sum_c \sum_{i=1}^m CKM_{c,i}$$

For clarity, the formula above for Cumulative Total Service Car Kilometers Range calculates the total sum of Total Monthly Service Car Kilometers from Contract Month 1 to the relevant Contract Month *m*.

- 5.5 The Volume-Based Fixed Infrastructure Lifecycle Payment and the Volume-Based Cars Lifecycle Payment, as applicable, corresponding to a Cumulative Total Service Car Kilometers Range, as calculated in accordance with Section 5.4, shall each only be applied once. For clarity, if in a Contract Month *m*, Project Co was entitled to a Volume-Based Fixed Infrastructure Lifecycle Payment and a Volume-Based Cars Lifecycle Payment corresponding to Cumulative Total Service Car Kilometers Range *n* and in the subsequent Contract Month *m+1* Project Co was still within the

same Cumulative Total Service Car Kilometers Range n , then Project Co would not be entitled to the same Volume-Based Fixed Infrastructure Lifecycle Payment and Volume-Based Cars Lifecycle Payment in Contract Month $m+1$ as the Volume-Based Fixed Infrastructure Lifecycle Payment and Volume-Based Cars Lifecycle Payment corresponding to the Cumulative Total Service Car Kilometers Range n had already been applied in the previous Contract Month m .

- 5.6 For further clarity, if two Cumulative Total Service Car Kilometers Ranges are applicable in a relevant Contract Month m whereby the Cumulative Total Service Car Kilometers Range, as calculated in accordance with Section 5.4, results in Project Co “skipping” a kilometer range in the Cumulative Total Service Car Kilometers Range in a relevant Contract Month m , Project Co shall be entitled to the Volume-Based Fixed Infrastructure Lifecycle Payment and Volume-Based Cars Lifecycle Payment corresponding to the Cumulative Total Service Car Kilometers Range, as calculated in accordance with Section 5.4, and the Volume-Based Fixed Infrastructure Lifecycle Payment and Volume-Based Cars Lifecycle Payment corresponding to the “skipped” Cumulative Total Service Car Kilometers Range in that relevant Contract Month m .

Section 6. Escalation Factor

- 6.1 The Escalation Factor shall be calculated in accordance with the following formula:

$$ESC_n = \frac{(CPI_n * W_{CPI})}{(CPI_o)} + \frac{(Labour_n * W_L)}{(Labour_o)}$$

Where:

ESC_n	Means the Escalation Factor applicable to the relevant Contract Year n ;
CPI_n	Means the value of CPI-XFET on April 1 of the relevant Contract Year n , to be determined by reference to the most recent available monthly data published by Statistics Canada for the relevant index, or failing such publication, such other index as the Parties may agree, or as may be determined in accordance with Schedule 27 – Dispute Resolution Procedure, which most closely resembles such index;
CPI_o	Means the value of CPI-XFET on the Inflation Base Date, to be determined by reference to the most recent available monthly data published by Statistics Canada for the relevant index at the Inflation Base Date;
W_{CPI}	Means [REDACTED]%;
$Labour_n$	Means the value of the Fixed Weighted Index on April 1 of the relevant Contract Year n , to be determined by reference to the most recent available monthly data published by Statistics Canada for the relevant index, or failing such publication, such other index as the Parties may agree, or as may be determined in accordance with Schedule 27 – Dispute Resolution Procedure, which most closely resembles such index;

W_L Means [REDACTED]%; and

$Labour_o$ Means the value of the Fixed Weighted Index on the Inflation Base Date, to be determined by reference to the most recent available monthly data published by Statistics Canada for the relevant index at the Inflation Base Date, or failing such publication, such other index as the Parties may agree, or as may be determined in accordance with Schedule 27 – Dispute Resolution Procedure, which most closely resembles such index.

6.2 The Lifecycle Escalation Factor shall be calculated in accordance with the following formula:

$$LESC_n = \frac{(CPI_n * WLC_{CPI})}{(CPI_o)} + \frac{(Labour_n * WLC_L)}{(Labour_o)}$$

Where:

$LESC_n$ Means the Lifecycle Escalation Factor applicable to the relevant Contract Year n ;

CPI_n Means the value of CPI-XFET on April 1 of the relevant Contract Year n , to be determined by reference to the most recent available monthly data published by Statistics Canada for the relevant index, or failing such publication, such other index as the Parties may agree, or as may be determined in accordance with Schedule 27 – Dispute Resolution Procedure, which most closely resembles such index;

WLC_{CPI} Means [REDACTED]%;

$Labour_n$ Means the value of the Fixed Weighted Index on April 1 of the relevant Contract Year n , to be determined by reference to the most recent available monthly data published by Statistics Canada for the relevant index, or failing such publication, such other index as the Parties may agree, or as may be determined in accordance with Schedule 27 – Dispute Resolution Procedure, which most closely resembles such index.

WLC_L Means [REDACTED]%;

CPI_o Means the value of CPI-XFET on the Inflation Base Date, to be determined by reference to the most recent available monthly data published by Statistics Canada for the relevant index at the Inflation Base Date, or failing such publication, such other index as the Parties may agree, or as may be determined in accordance with Schedule 27 – Dispute Resolution Procedure, which most closely resembles such index; and

$Labour_o$ Means the value of the Fixed Weighted Index on the Inflation Base Date, to be determined by reference to the most recent available monthly data published by Statistics Canada for the relevant index at the Inflation Base Date, or failing

such publication, such other index as the Parties may agree, or as may be determined in accordance with Schedule 27 – Dispute Resolution Procedure, which most closely resembles such index.

Section 7. Unadjusted Service Payment

7.1 The Unadjusted Service Payment shall be calculated in accordance with the following formula:

$$USP_m = MSPcap + MSPser_m + AMLP_m$$

Where:

MSPcap Means the Monthly Capital Payment as referenced in Column B of Table 1 in Appendix A of this Schedule 20;

MSPser_m Means the Monthly O&M Service Payment applicable for the relevant Contract Month *m* calculated in accordance with Section 4; and

AMLP_m Means the Average Monthly Lifecycle Payment applicable for the relevant Contract Month *m* calculated in accordance with Section 7.2.

7.2 The Average Monthly Lifecycle Payment applicable for any Contract Month *m* shall be calculated in accordance with the following formula:

$$AMLP_m = \frac{\sum_{m=25}^m ((MTLP_m + MTCLP_m + MVLP_m) \times F \times LESC_n) + ((MTLP_m + MTCLP_m + MVLP_m) \times (1 - F))}{CM_m - 24}$$

Where:

AMLP_m Means the total, escalated Average Monthly Lifecycle Payment applicable for the relevant Contract Month *m*;

MTLP_m Means the Monthly Time-Based Lifecycle Payment for the relevant Contract Month *m* as set out in Column D of Table 3 in Appendix A of this Schedule 20;

MTCLP_m Means the Monthly Time-Based Cars Lifecycle Payment for the relevant Contract Month *m* calculated in accordance with Section 5.2;

MVLP_m Means the Monthly Volume-Based Lifecycle Payment for the relevant Contract Month *m* calculated in accordance with Section 5.3;

F Means [REDACTED]%;

LESC_n Means the Lifecycle Escalation Factor for the relevant Contract Year *n* as calculated in accordance with Section 6.2; and

CM_m The number representing the relevant Contract Month m , in accordance with the number of months shown in Column A of Table 3 in Appendix A of this Schedule 20.

- 7.3 For clarity, calculation of the Average Monthly Lifecycle Payment begins in the 25th Contract Month, thereby aligning the calculation of Monthly Lifecycle Payment in accordance with Section 5 of the Schedule 20.
- 7.4 For the avoidance of doubt, for each Contract Month following the 25th Contract Month, the Lifecycle Payment for the applicable month and the previous months following the end of the 24th Contract Month are summed and divided by the number of Contract Months that have occurred since the end of the 24th Contract Month to determine the rolling Average Monthly Lifecycle Payment.

PART C. SYSTEM EXTENSIONS

Section 8. System Extensions

- 8.1 For any additional Station included in the System Extension, the Stations shall be designated as follows:
- (a) Group 1, if the Station is an Interchange Station which directly connects to other Metro or LRT transit services provided by Metrolinx or TTC;
 - (b) Group 2 for any other Station.
- 8.2 Any additional Station included in the System Extension can be designated as a Headway Measuring Station if such Station is located at minimum two Stations away from the closest Headway Measuring Station.

PART D. DEDUCTIONS FROM MONTHLY SERVICE PAYMENTS

Section 9. Entitlement to Make Deductions

- 9.1 If at any time during the Operational Term a Trip Availability Failure, Station Availability Failure, Performance Failure, Heavy Civil Failures or Energy Failure shall occur, Contracting Authority shall be entitled to make a Deduction from the relevant Monthly Service Payment in respect of that Trip Availability Failure, Station Availability Failure, Performance Failure, Heavy Civil Failures or Energy Failure.
- 9.2 The maximum aggregate of all Deductions that Contracting Authority can make from a Monthly Service Payment in respect of any Contract Month shall be the Unadjusted Service Payment relating to that Contract Month.

Section 10. Classification of Deductions

- 10.1 Subject to Section 10.2, the classification of an Event as a potential Station Availability Failure, Performance Failure, Heavy Civil Failure or Energy Failure (or a combination thereof) shall be

made at the time at which the occurrence of the Event is reported to the Help Desk. An Event which is incorrectly classified may be re-classified with the approval of the Contracting Authority Representative and the Project Co Representative, acting reasonably, in which case the applicable Monthly Performance Monitoring Report and the applicable Performance Information in the Performance Reporting System and Performance Dashboard, as applicable, shall be revised accordingly.

- 10.2 A Trip Availability Failure is not required to be reported to the Help Desk. Trip Availability Failures will be determined through recording of the applicable Performance Information in the Performance Reporting System and Performance Dashboard, as applicable, and summarized for Payment Mechanism calculation purposes in the Monthly Performance Monitoring Report.

PART E. DEDUCTIONS FOR TRIP AVAILABILITY FAILURES

Section 11. Trip Availability Failure Deductions

- 11.1 The Trip Availability Failure Deduction in respect of a Contract Month m , shall be calculated in accordance with the following formula:

$$TAFD_m = (TCFDF_m \times USP_m) + (TPFDF_m \times USP_m) + \sum SED_m$$

Where:

$TAFD_m$ Means the Trip Availability Failure Deduction applicable to Contract Month m ;

$TCFDF_m$ Means the Trip Capacity Failure Deduction Factor in respect of Trip Capacity Failures during Contract Month m is determined in accordance with Section 12;

$TPFDF_m$ Means the Trip Punctuality Failure Deduction Factor in respect of Trip Punctuality Failures during Contract Month m is determined in accordance with Section 13;

USP_m Means the Unadjusted Service Payment for Contract Month m ; and

$\sum SED_m$ Means the sum of System Event Deductions applicable to Contract Month m , calculated in accordance with Section 14.

Section 12. Trip Capacity Failure Deduction Factor

- 12.1 The Trip Capacity Failure Deduction Factor in respect of Trip Capacity Failures during Contract Month m shall be determined by calculating the Trip Capacity Ratio for Contract Month m , in accordance with the formula set out in Section 12.2, and applying the corresponding Trip Capacity Failure Deduction Factor from Table 6 in Appendix B.

- 12.2 The Trip Capacity Ratio in respect of Trip Capacity Failures during Contract Month m shall be calculated in accordance with the following formula:

$$TCR_m = (TCR_{P,m} \times [\text{REDACTED}]) + (TCR_{OP,m} \times [\text{REDACTED}])$$

Where:

TCR_m Means the Trip Capacity Ratio during Contract Month m ;

$TCR_{P,m}$ Means the Peak Period Trip Capacity Ratio during Contract Month m determined in accordance with Section 12.4; and

$TCR_{OP,m}$ Means the Off-Peak Period Trip Capacity Ratio during Contract Month m determined in accordance with Section 12.6.

12.3 For the purposes of Section 12, when selecting a Trip Capacity Failure Deduction Factor from the Table 6 in Appendix B of this Schedule 20, the Trip Capacity Ratio and shall be rounded up to the nearest [REDACTED]%.

12.4 The Peak Period Trip Capacity Ratio for Contract Month m shall be calculated in accordance with the formula set out below:

$$TCR_{P,m} = \frac{CT_{P,m} + NPCC_{P,m}}{TST_{P,m} + TAT_{P,m}}$$

Where:

$TCR_{P,m}$ Means the Peak Period Trip Capacity Ratio during Contract Month m ;

$CT_{P,m}$ Means the total Completed Trips measured as Train departing from Origin Terminus during Peak Periods for Contract Month m ;

$NPCC_{P,m}$ Means the sum of all Scheduled Trips and Additional Trips which were “missed” or not achieved at Peak Periods during Contract Month m and which are attributed in the relevant Monthly Performance Monitoring Report as being due to a Non-Project Co Cause;

$TST_{P,m}$ Means the sum of all Scheduled Trips during Peak Periods for Contract Month m ; and

$TAT_{P,m}$ Means the sum of all Additional Trips during Peak Periods for Contract Month m .

12.5 With respect to the Peak Period Trip Capacity Ratio:

- (a) The Trip Capacity Ratio shall not exceed 1.0 for any individual Period for any single day, whereby for the purposes of calculating the Trip Capacity Ratio, the Completed Trips for a Period on an applicable day shall not exceed the sum of Scheduled Trips and Additional Trips for that relevant Period. For clarity, Scheduled Trips or Additional Trips in the

morning Peak Period occurring between 07:00 and 10:00 on a Weekday if missed or not completed cannot be transferred to the afternoon Peak Period occurring between 15:00 and 19:00 on the same day in an attempt to offset Scheduled Trips or Additional Trips not completed or missed in the morning Peak Period in order to maintain the Trip Capacity Ratio for the morning Peak Period, for the applicable day, or for the applicable Contract Month. For further clarity, for the purposes of calculating the Trip Capacity Ratio, each Period during a single day must be assessed separately whereby $CT_{P,m}$ is the aggregate of the Trip Capacity Ratios assessed separately for each Period for all days during the relevant Contract Month.

- (b) Project Co shall not by virtue of Section 12.5(a) be prevented from providing more Trips than requested by Contracting Authority through the Booking Process for any Period during the Peak Period, however any excess Completed Trips shall not result in the Trip Capacity Ratio exceeding 1.0 for any individual Period during the Peak Period.

- 12.6 The Off-Peak Period Trip Capacity Ratio for Contract Month m shall be calculated in accordance with the formula set out below:

$$TCR_{OP,m} = \frac{CT_{OP,m} + NPCC_{OP,m}}{TST_{OP,m} + TAT_{OP,m}}$$

Where:

- $TCR_{OP,m}$ Means the Off-Peak Period Trip Capacity Ratio during Contract Month m ;
- $CT_{OP,m}$ Means the total Completed Trips measured as Train departing from Origin Terminus during Off-Peak Periods for Contract Month m . For clarity, Completed Trips shall be assessed for each Off-Peak Period in any day separately;
- $NPCC_{OP,m}$ Means the sum of all the Scheduled Trips and Additional Trips which were “missed” or not achieved at Off-Peak Periods during Contract Month m and which are attributed in the relevant Monthly Performance Monitoring Report as being due to a Non-Project Co Cause;
- $TST_{OP,m}$ Means the sum of all Scheduled Trips during Off-Peak Periods for Contract Month m ; and
- $TAT_{OP,m}$ Means the sum of all Additional Trips during Off-Peak Periods for Contract Month m .

- 12.7 With respect to the Off-Peak Period Trip Capacity Ratio:

- (a) The Trip Capacity Ratio shall not exceed 1.0 during any individual Period for any single day, whereby for the purposes of calculating the Trip Capacity Ratio, the Completed Trips for a Period on an applicable day shall not exceed the sum of Scheduled Trips and Additional Trips for that relevant Period. For clarity, Scheduled Trips or Additional Trips

in the Period during the Off-Peak Period occurring between 06:00 and 07:00 on a Weekday if missed or not completed cannot be transferred to the following Period during the Off-Peak Period occurring between 10:00 and 15:00 on the same day in an attempt to offset Scheduled Trips or Additional Trips missed or not completed in the earlier Period in order to maintain the Trip Capacity Ratio for the applicable Period, for the applicable day, or for the applicable Contract Month. For further clarity, for the purposes of calculating the Trip Capacity Ratio, each Period during a single day must be assessed separately whereby $CT_{OP, m}$ is the aggregate of the Trip Capacity Ratios assessed separately for each Period for all days during the relevant Contract Month.

- (b) Project Co shall not by virtue of Section 12.7(a) be prevented from providing more Trips than requested by Contracting Authority through the Booking Process for any Period during the Off-Peak Period, however any excess Completed Trips shall not result in the Trip Capacity Ratio exceeding 1.0 for any individual Period during the Off-Peak Period.

12.8 With respect to Completed Trips for both Peak Periods and Off-Peak Periods:

- (a) For the purposes of calculating the Trip Capacity Ratio, where a Station, defined as part of each such Completed Trip is closed, unless such closure is permitted for a Major Maintenance Shutdown or directed by the Contracting Authority, Security Provider, Interchange Station Service Provider, Passenger Interface Provider, or Network Control Centre (in which case, for clarity, a Non-Project Co Cause applies in accordance with Section 2.1(a)), in accordance with Section 2.3.4.2(c) (*Station Closures*) of the Output Specifications, and the Minimum Doors Open Time is not possible to assess, each Completed Trip shall be adjusted down by a factor of:
 - (i) [REDACTED]% where such Station is an Interchange Station; and
 - (ii) [REDACTED]% where such Station is not an Interchange Station.

For clarity, a Trip shall be considered to be “completed” even when the Train in Revenue Service does not stop and subsequently does not meet the Minimum Doors Open Time requirement, at the Station defined as “closed”.

- (b) For the purposes of calculating the Trip Capacity Ratio, each Completed Trip shall be adjusted down by a factor of [REDACTED]%, where the actual number of Cars per Train in Revenue Service on Trip is below the number of Cars per Train in Revenue Service as confirmed through the Booking Process for the Trip. This provision applies notwithstanding the adjustment to the Monthly Variable O&M Service Payment as per Section 4.3.
- (c) Where a Station is subject to a Major Maintenance Shutdown Period, as set out in Section 16.1, the Train in Revenue Service is not required to comply with Minimum Doors Open Time required to meet the definition of a Completed Trip. For clarity, the Trip shall be considered to be “completed” even when the Train does not stop, and consequently does not meet the Minimum Doors Open Time requirement at the Station subject to a Major Maintenance Shutdown Period.

- (d) Where a failure to meet the Station Availability Standard at any Station is due to a Non-Project Co Cause and such failure to meet the Station Availability Standard at the Station prevents Project Co from achieving the Minimum Doors Open Time at the same Station, the Train in Revenue Service is not required to comply with Minimum Doors Open Time required at that Station to meet the definition of a Completed Trip. For clarity, the Trip shall be considered to be “completed” even when the Train does not meet the Minimum Doors Open Time requirement at the Station that is subject to a Non-Project Co Cause.

Section 13. Trip Punctuality Failure Deduction Factor

- 13.1 The Trip Punctuality Failure Deduction Factor in respect of Trip Punctuality Failures during Contract Month m shall be determined by calculating the Trip Punctuality Ratio for Contract Month m , in accordance with the formula set out below, and applying the corresponding Trip Punctuality Failure Deduction Factor from Table 7 in Appendix B of this Schedule 20.

$$TPR_m = (TPR_{P,m} \times [\text{REDACTED}]) + (TPR_{OP,m} \times [\text{REDACTED}])$$

Where:

TPR_m Means the Trip Punctuality Ratio during Contract Month m ;

$TPR_{P,m}$ Means the Peak Period Trip Punctuality Ratio during Contract Month m determined in accordance with Section 13.3; and

$TPR_{OP,m}$ Means the Off-Peak Period Trip Punctuality Ratio during Contract Month m determined in accordance with Section 13.4.

- 13.2 For the purposes of Section 13, when selecting a Trip Punctuality Failure Deduction Factor from the Table 7 in Appendix B of this Schedule 20, the Trip Punctuality Ratio and shall be rounded up to the nearest $[\text{REDACTED}]\%$.
- 13.3 The Peak Period Trip Punctuality Ratio for Contract Month m shall be calculated in accordance with the formula set out below:

$$TPR_{P,m} = 1 - \frac{SDS_{P,m}}{\sum_{T,P,m} MJT_T}$$

Where:

$TPR_{P,m}$ Means the Peak Period Trip Punctuality Ratio during Contract Month m ;

$SDS_{P,m}$ Means Total Service Delay Seconds accumulated during Peak Periods for relevant Contract Month m and calculated in accordance with Section 13.5;

$\sum_{T,P,m}$ Summation for the relevant Scheduled Base Trips, Additional Base Trips, and System Relief Trips during Peak Periods in the relevant Contract Month m ;

MJT_T Means the Maximum Journey Time, measured in seconds, for the relevant Scheduled Base Trip, Additional Base Trip, and System Relief Trip.²

13.4 The Off-Peak Period Trip Punctuality Ratio for Contract Month m shall be calculated in accordance with the formula set out below:

$$TPR_{OP,m} = 1 - \frac{SDS_{OP,m}}{\sum_{T,OP,m} MJT_T}$$

Where:

$TPR_{P,m}$ Means the Off-Peak Period Trip Punctuality Ratio during Contract Month m ;

$SDS_{P,m}$ Means Total Service Delay Seconds accumulated during Off-Peak Periods for relevant Contract Month m and calculated in accordance with Section 13.5;

$\sum_{T,OP,m}$ Summation for the relevant Scheduled Base Trips, Additional Base Trips and System Relief Trips during Off-Peak Periods in the relevant Contract Month m ; and

MJT_T Means the Maximum Journey Time, measured in seconds, for the relevant Scheduled Base Trip, Additional Base Trip and System Relief Trip.

13.5 The Total Service Delay Seconds accumulated during any relevant Peak Period or Off-Peak Period in the Contract Month m shall be calculated in accordance with the following formula:

$$SDS_m = \sum_{T,m} HSVA \times Headway\ SDS + \sum_{T,m} Journey\ SDS$$

Where:

SDS_m Means Total Service Delay Seconds accumulated during any relevant Peak Period and Off-Peak Period in the Contract Month m ;

$\sum_{T,m}$ Summation for the total of all Trips in any relevant Peak Period or Off-Peak Period in the Contract Month m ;

$HSVA$ Means Headway Second Value Adjustment and is equal to [REDACTED] for a Trip in any relevant Peak Period and equal to [REDACTED] for a Trip in any relevant Off-Peak Period;

² Example: In a Contract Month with 1,000 Scheduled Base Trips, 10 Additional Base Trips and 10 System Relief Trips during Peak Periods, the summation of Maximum Journey Times for those Trips equals 1,652,400 seconds (1,020 Trips x 27 minutes). For clarity, the same example applies for the summation of Maximum Journey Times for Off-Peak Periods calculated in accordance with Section 13.4.

Headway SDS Means Total Headway Service Delay Seconds for each Trip in any relevant Peak Period or Off-Peak Period in Contract Month *m* calculated in accordance with Section 13.6; and

Journey SDS Means Total Journey Time Service Delay Seconds for each Trip in any relevant Peak Period or Off-Peak Period in Contract Month *m* calculated in accordance with Section 13.8.

13.6 The Total Headway Service Delay Seconds for any Trip shall be calculated in accordance with the following formula:

$$Headway\ SDS_T = \sum_S [\max(0, (Actual\ Headway_S - Headway\ Buffer_{S,T} - Scheduled\ Headway_{S,T} - NPCC_{S,T}))]$$

Where:

Headway SDS_T Means Total Headway Service Delay Seconds for any Trip;

\sum_S Summation for all Headway Measuring Stations on any Trip in accordance with Section 13.7(a);

Actual Headway_s Means Actual Headway as measured at the relevant Headway Measuring Station;

Headway Buffer_{s,T} Means applicable Headway Buffer for the relevant Trip at the relevant Headway Measuring Station;

Scheduled Headway_{s,T} Means Scheduled Headway for the relevant Trip at the relevant Headway Measuring Station; and

NPCC_{s,T} Means Total Headway Service Delay Seconds for the relevant Trip at the relevant Headway Measuring Station which resulted from a Non-Project Co Cause during Contract Month *m* and which are attributed in the relevant Monthly Performance Monitoring Report as being due to a Non-Project Co Cause.

13.7 With respect to Total Headway Service Delay Seconds:

(a) Headway Measuring Stations for westbound Base Trips and eastbound Base Trips are set out in Appendix E of this Schedule 20. For clarity, the Destination Terminus for any Trip is not a Headway Measuring Station; and

(b) During a Major Maintenance Shutdown Period, as set out in Section 16.1, Total Headway Service Delay Seconds shall not be calculated at any Headway Measuring Station that is closed during a Major Maintenance Shutdown Period. For any Headway Measuring Station

that is closed during a Major Maintenance Shutdown Period, the Total Headway Service Delay Seconds for the relevant Headway Measuring Station shall equal to [REDACTED]. For clarity, Total Headway Service Delay Seconds shall continue to be calculated for Headway Measuring Stations that are not closed during a Major Maintenance Shutdown Period.

- 13.8 The Total Journey Time Service Delay Seconds for any Trip shall be calculated in accordance with the following formula, subject to provisions in Section 13.9:

$$\begin{aligned} \text{Journey } SDS_T &= \min([\text{REDACTED}], \max(0, (\text{Actual Journey Time}_T \\ &\quad - \text{Maximum Journey Time}_T - NPCC_T))) \end{aligned}$$

Where:

<i>Journey SDS_T</i>	Means Total Journey Time Service Delay Seconds for any Trip;
<i>Actual Journey Time_T</i>	Means Actual Journey Time, measured in seconds, measured as door closed at Origin Terminus and door opening at Destination Terminus for the relevant Trip;
<i>Maximum Journey Time_T</i>	Means Maximum Journey Time, measured in seconds, for the relevant Trip; and
<i>NPCC_T</i>	Means Total Journey Time Service Delay Seconds for the relevant Trip which resulted from a Non-Project Co Cause during Contract Month <i>m</i> and which are attributed in the relevant Monthly Performance Monitoring Report as being due to a Non-Project Co Cause.

- 13.9 With respect to Total Journey Time Service Delay Seconds:
- (a) During a Major Maintenance Shutdown Period, as set out in Section 16.1, the Total Journey Time Service Delay Seconds shall equal to 0 seconds;
 - (b) For the purposes of calculating the Total Journey Time Service Delay Seconds, for any Scheduled Modified Trip and Additional Modified Trip, the Total Journey Time Service Delay Seconds shall equal 0 seconds;
 - (c) The maximum Total Journey Time Service Delay Seconds for any Scheduled Trip shall be no more than [REDACTED]. For clarity, if the Total Journey Time Service Delay Seconds for any Scheduled Trip is greater than [REDACTED], then the Total Journey Time Service Delay Seconds for that Scheduled Trip shall equal [REDACTED]; and
 - (d) Total Journey Time Service Delay Seconds shall only be calculated for Completed Trips. Where a Train has departed from the Origin Terminus but does not arrive at the Destination Terminus and complete the Scheduled Trip, including, for clarity, a Scheduled Trip not completed as a result of an action or direction of Project Co that is not a Non-Project Co

Cause (including, for example, a short turn or turn-back of a Train), then the Total Journey Time Service Delay Seconds for that relevant Scheduled Trip shall equal 0 seconds.

Section 14. System Events

- 14.1 The following deductions (“**System Event Deductions**”) shall also apply in respect of Trip Availability Failures and, for clarity, shall apply in addition to any Trip Availability Failure Deductions that arise from the same circumstance in the relevant Contract Month calculated in accordance with Section 11.1:
- (a) On any single Weekday during a Contract Month, the Peak Period Trip Capacity Ratio for either (a) morning Peak Period service or (b) afternoon Peak Period service is less than **[REDACTED]**%, a **[\$REDACTED]** System Event Deduction per occurrence shall apply. For clarity, each Peak Period (i.e., morning and afternoon) which fails to meet the **[REDACTED]**% service standard shall result in the **[\$REDACTED]** System Event Deduction, such that Project Co could receive two such deductions in a single day, one in respect of morning Peak Period service and the second in respect of afternoon Peak Period service;
 - (b) On any single day during a Contract Month, the Trip Capacity Ratio calculated for that day is less than **[REDACTED]**%, a **[\$REDACTED]** System Event Deduction per occurrence shall apply;
 - (c) On any single Weekday during a Contract Month, the Peak Period Trip Punctuality Ratio for either (a) morning Peak Period service or (b) afternoon Peak Period service is less than **[REDACTED]**%, a **[\$REDACTED]** System Event Deduction per occurrence shall apply. For clarity, each Peak Period (i.e., morning and afternoon), which fails to meet the **[REDACTED]**% service standard shall result in the **[\$REDACTED]** System Event Deduction, such that Project Co could receive two such deductions in a single day, one in respect of morning Peak Period service and the second in respect of afternoon Peak Period service; and
 - (d) On any single day during a Contract Month, the Trip Punctuality Ratio calculated for that day is less than **[REDACTED]**%, a **[\$REDACTED]** System Event Deduction per occurrence shall apply.
- 14.2 The maximum aggregate amount of System Event Deductions to be applied in one day shall be **[\$REDACTED]**. To the extent that a System Event Deduction is applied, no directly corresponding Performance Failure Deduction or Heavy Civil Failure Deduction shall be applied in addition to the System Event Deduction.
- 14.3 The System Event Deductions and the maximum daily aggregate amount listed above, shall be index-linked using the Escalation Factor as referred to in Section 6.1.
- 14.4 For clarity, and subject to Sections 2.2 and 2.4, System Event Deductions shall not be applied to the extent that the triggering System Event is directly caused by a Non-Project Co Cause as described in Section 2.1.

- 14.5 The sum of System Event Deductions for a Contract Month shall be reduced by [REDACTED]% if the Trip Availability Failure Deduction (excluding the sum of System Event Deductions), calculated in accordance with Section 11.1, applicable to the same Contract Month is equal to zero.

Section 15. Bedding-In Period for Trip Availability Failure Deductions

- 15.1 For the purposes of Section 11, during

- (a) the first ninety (90) calendar days of the Bedding-In Period, when the Trip Capacity Ratio for Contract Month m is greater than or equal to [REDACTED]%, the Trip Capacity Failure Deduction Factor shall be [REDACTED]% of the applicable value shown in Table 6, Appendix B of this Schedule 20. No adjustment will be made to the Trip Capacity Failure Deduction Factor when, during the Bedding-In Period, the Trip Capacity Ratio for Contract Month m is less than or equal to [REDACTED]%. During the last Contract Month of such first ninety (90) calendar days of the Bedding-In Period, for the purposes of calculating the Trip Capacity Ratio and selecting the Trip Capacity Failure Deduction Factor, a pro rata adjustment shall be made to reflect the actual number of days in the relevant Contract Month that the Bedding-In Period applies;
- (b) the last ninety (90) calendar days of the Bedding-In Period, when the Trip Capacity Ratio for Contract Month m is greater than or equal to [REDACTED]%, the Trip Capacity Failure Deduction Factor shall be [REDACTED]% of the applicable value shown in Table 6, Appendix B of this Schedule 20. No adjustment will be made to the Trip Capacity Failure Deduction Factor when, during the Bedding-In Period, the Trip Capacity Ratio for Contract Month m is less than or equal to [REDACTED]%. During the last Contract Month of such last ninety (90) calendar days of the Bedding-In Period, for the purposes of calculating the Trip Capacity Ratio and selecting the Trip Capacity Failure Deduction Factor, a pro rata adjustment shall be made to reflect the actual number of days in the relevant Contract Month that the Bedding-In Period applies;
- (c) the first ninety (90) calendar days of the Bedding-In Period, when the Trip Punctuality Ratio for Contract Month m is greater than or equal to [REDACTED]%, the Trip Punctuality Failure Deduction Factor shall be [REDACTED]% of the applicable value shown in Table 7, Appendix B of this Schedule 20. No adjustment will be made to the Trip Punctuality Failure Deduction Factor when, during the Bedding-In Period, the Trip Punctuality Ratio for Contract Month m is less than or equal to [REDACTED]%. During the last Contract Month of such first ninety (90) calendar days of the Bedding-In Period, for the purposes of calculating the Trip Punctuality Ratio and selecting the Trip Punctuality Failure Deduction Factor, a pro rata adjustment shall be made to reflect the actual number of days in the relevant Contract Month that the Bedding-In Period applies; and
- (d) the last ninety (90) calendar days of the Bedding-In Period, when the Trip Punctuality Ratio for Contract Month m is greater than or equal to [REDACTED]%, the Trip Punctuality Failure Deduction Factor shall be [REDACTED]% of the applicable value shown in Table 7, Appendix B of this Schedule 20. No adjustment will be made to the Trip Punctuality Failure Deduction Factor when, during the Bedding-In Period, the Trip Punctuality Ratio for Contract Month m is less than or equal to [REDACTED]%. During the last Contract

Month of such last ninety (90) calendar days of the Bedding-In Period, for the purposes of calculating the Trip Punctuality Ratio and selecting the Trip Punctuality Failure Deduction Factor, a pro rata adjustment shall be made to reflect the actual number of days in the relevant Contract Month that the Bedding-In Period applies.

- 15.2 For clarity, Failure Points relating to Trip Availability Failures (including both Trip Capacity Failures and Trip Punctuality Failures) during the Bedding-In Period shall be awarded in accordance with Section 22 of this Schedule 20.

Section 16. Temporary Modifications

- 16.1 For the purposes of Section 11, during a Major Maintenance Shutdown Period, Project Co shall be subject to Deductions and Failure Points in accordance with this Schedule 20 (including, for clarity, in accordance with Sections 12.8(c), 13.9(a), 13.7(b) and 17.6(b) of this Schedule 20) as measured against the Adjusted Operations Plan, as set out in Section 2.2.4.1(h) (*Adjusted Operations Plan*) of the Output Specifications
- 16.2 For the purposes of Section 11, if an Event of Vandalism to a Train in Revenue Service results in the relevant Train not meeting the Train In-Service Maintenance Standard and requires Project Co to withdraw the Train from Revenue Service, as set out in Section 2.3.4.1(d) (*Train In-Service Maintenance Standard*) of the Output Specifications, then until the later of:
- (a) twenty-hour (24) hours from the time the relevant Train was withdrawn from Revenue Service; and
 - (b) such longer period of time agreed by the Parties, acting reasonably, if Project Co can demonstrate that it is unable to Rectify the relevant Vandalism and Graffiti within twenty-hour (24) hours from the time the relevant Train was withdrawn from Revenue Service,

Project Co shall be subject to Deductions and Failures Points in accordance with this Schedule 20 as measured against a temporarily modified Operations Service Plan during any applicable Peak Period the relevant Train is not available for Revenue Service, that shall reflect a reduction in the number of Scheduled Trips and/or increase to the Scheduled Headway that relate to the relevant Train not being available for Revenue Service for the applicable Peak Period. Contracting Authority and Project Co shall work together to develop the temporarily modified Operations Service Plan and identify the reduction in the number of Scheduled Trips and increase to the Scheduled Headway that relate to the relevant Train not being available for Revenue Service for the applicable Peak Period, taking into consideration typical Journey Times for a Train to complete a Trip. If Project Co has not Rectified the relevant Vandalism and Graffiti by the time permitted or agreed to by the Parties in this Section 16.2, then the temporarily modified Operations Service Plan shall no longer apply and Project Co shall be measured against the Operations Service Plan requested by Contracting Authority during any subsequent Peak Periods.

- 16.3 For clarity, where an Event of Vandalism to a Train in Revenue Service requires Project Co to withdraw the Train from Revenue Service, there shall not be a temporarily modified Operations Service Plan for any Off-Peak Period and Project Co shall be subject to Deductions and Failure

Points in accordance with this Schedule 20 as measured against the Operations Services Plan requested by Contracting Authority through the Booking Process for any Off-Peak Period.

PART F. DEDUCTIONS FOR STATION AVAILABILITY FAILURES

Section 17. Station Availability Failure Deductions

17.1 The Station Availability Failure Deduction in respect of a Contract Month m , shall be calculated in accordance with the following formula:

$$SAFD_m = SAFDF_m \times USP_m + \sum SED_m$$

Where:

$SAFD_m$ Means the Station Availability Failure Deduction applicable to Contract Month m ;

SDF_m Means the Station Availability Failure Deduction Factor during Contract Month m , determined in accordance with Section 17.2;

USP_m Means the Unadjusted Service Payment for Contract Month m ; and

$\sum SED_m$ Means the sum of Station Event Deductions applicable to Contract Month m , calculated in accordance with Section 18.1.

17.2 The Station Availability Failure Deduction Factor during Contract Month m shall be determined by calculating the Aggregate Station Availability Ratio for Contract Month m , in accordance with the formula set out below, and applying the corresponding Station Availability Failure Deduction Factor from Table 8 in Appendix B of this Schedule 20.

$$SAR_{A,m} = [\text{REDACTED}]\% \times SAR_{P,m} + [\text{REDACTED}]\% \times SAR_{OP,m}$$

Where:

$SAR_{A,m}$ Means the Aggregate Station Availability Ratio during Contract Month m ;

$SAR_{P,m}$ Means the Peak Period Station Availability Ratio during Contract Month m ; and

$SAR_{OP,m}$ Means the Off-Peak Period Station Availability Ratio during Contract Month m .

17.3 For the purposes of Section 17.2, when selecting a Station Availability Failure Deduction Factor from Table 8 in Appendix B of this Schedule 20, the Aggregate Station Availability Ratio shall be rounded up to the nearest **[REDACTED]**%.

17.4 The Peak Period Station Availability Ratio for Contract Month m shall be calculated in accordance with the formula set out below:

$$SAR_{P,m} = [\text{REDACTED}] \times \left[\frac{(\text{SSH}_{Gp.1P,m} - \text{SAF}_{Gp.1P,m} + \text{NPCChr}_{p.1P,m})}{\text{SSH}_{Gp.1P,m}} \right] + [\text{REDACTED}] \times \left[\frac{(\text{SSH}_{Gp.2P,m} - \text{SAF}_{Gp.2P,m} + \text{NPCChr}_{Gp.2P,m})}{\text{SSH}_{Gp.2P,m}} \right]$$

Where:

- $SAR_{P,m}$ Means the Peak Period Station Availability Ratio during Contract Month m ;
- $SSH_{Gp.1P,m}$ Means the sum total of Scheduled Station Hours for all Group 1 Stations during Peak Periods for Contract Month m ;
- $SAF_{Gp.1P,m}$ Means the sum total of Station Availability Failure Hours for all Group 1 Stations during Peak Periods for Contract Month m ;
- $NPCChr_{Gp.1P,m}$ Means the number of Scheduled Station Hours which were “missed” or not achieved for all Group 1 Station at Peak Periods during Contract Month m and which are attributed in the relevant Monthly Performance Monitoring Report as being due to a Non-Project Co Cause;
- $SSH_{Gp.2P,m}$ Means the sum total of Scheduled Station Hours for all Group 2 Stations during Peak Periods for Contract Month m ;
- $SAF_{Gp.2P,m}$ Means the sum total of Station Availability Failure Hours for all Group 2 Stations during Peak Periods for Contract Month m ; and
- $NPCChr_{Gp.2P,m}$ Means the number of Scheduled Station Hours which were “missed” or not achieved for all Group 2 Stations at Peak Periods during Contract Month m and which are attributed in the relevant Monthly Performance Monitoring Report as being due to a Non-Project Co Cause.

17.5 The Off-Peak Period Station Availability Ratio for Contract Month m shall be calculated in accordance with the formula set out below:

$$SAR_{OP,m} = [\text{REDACTED}] \times \left[\frac{(\text{SSH}_{Gp.1OP,m} - \text{SAF}_{Gp.1OP,m} + \text{NPCChr}_{Gp.1OP,m})}{\text{SSH}_{Gp.1OP,m}} \right] + [\text{REDACTED}] \times \left[\frac{(\text{SSH}_{Gp.2OP,m} - \text{SAF}_{Gp.2OP,m} + \text{NPCChr}_{Gp.2OP,m})}{\text{SSH}_{Gp.2OP,m}} \right]$$

Where:

- $SAR_{OP,m}$ Means the Off-Peak Period Station Availability Ratio during Contract Month m ;

$SSH_{Gp,1OP,m}$	Means the sum total of Scheduled Station Hours for all Group 1 Stations during Off-Peak Periods for Contract Month m ;
$SAF_{Gp,1OP,m}$	Means the sum total of Station Availability Failure Hours for all Group 1 Stations during Off-Peak Periods for Contract Month m ;
$NPCChr_{Gp,1OP,m}$	Means the number of Scheduled Station Hours which were “missed” or not achieved for all Group 1 Stations at Off-Peak Periods during Contract Month m and which are attributed in the relevant Monthly Performance Monitoring Report as being due to a Non-Project Co Cause;
$SSH_{Gp,2OP,m}$	Means the sum total of Scheduled Station Hours for all Group 2 Stations during Off-Peak Periods for Contract Month m ;
$SAF_{Gp,2OP,m}$	Means the sum total of Station Availability Failure Hours for all Group 2 Stations during Off-Peak Periods for Contract Month m ; and
$NPCChr_{Gp,2OP,m}$	Means the number of Scheduled Station Hours which were “missed” or not achieved for all Group 2 Stations at Off-Peak Periods during Contract Month m and which are attributed in the relevant Monthly Performance Monitoring Report as being due to a Non-Project Co Cause.

17.6 In respect of a Station Availability Failure:

- (a) Where a Station does not meet the Station Availability Standard but does meet the Partial Station Availability Standard requirements of Section 2.3.4.2 (*Stations*) of the Output Specifications, the Station Availability Failure Hours that would otherwise be assessed for the duration of the Station’s failure to meet the Station Availability Standard shall be reduced by [REDACTED] %.
- (b) Where a Station does not meet the Station Availability Standard due to Major Maintenance Shutdown Period, as set out in Section 16.1, the Station Availability Failure Hours that would otherwise be assessed for the duration of the Station’s failure to meet the Station Availability Standard shall be reduced by [REDACTED] %.

Section 18. Station Events

18.1 The following deductions (“**Station Event Deductions**”) shall also apply in respect of Station Availability Failures, and, for clarity, shall apply in addition to any Station Availability Failure Deductions that arise from the same circumstance in the relevant Contract Month calculated in accordance with Section 17.1;

- (a) On any single day during a Contract Month, where any Station is not opened to System Users by the start of Revenue Service, a \$[REDACTED] per occurrence for each Group 1 Station and a \$[REDACTED] per occurrence for each Group 2 Station; and

- (b) On any single day during a Contract Month, any Station not made available per the Station Availability Standard by the start of Revenue Service, a \$[REDACTED] per occurrence for each Group 1 Station and a \$[REDACTED] per occurrence for each Group 2 Station.
- 18.2 For clarity, if Section 17.6(a) applies then Section 17.6(b) does not apply. To the extent that a Station Event Deduction is applied, no directly corresponding Performance Failure Deduction or Heavy Civil Failure Deduction shall be applied in addition to the Station Event Deduction.
- 18.3 The Station Event Deductions listed above shall be index-linked using the Escalation Factor as referred to in Section 6.1.
- 18.4 For clarity, and subject to Sections 2.2 and 2.4, Station Event Deductions shall not be applied to the extent that the triggering Station Event is directly caused by a Non-Project Co Cause as described in Section 2.1.

PART G. DEDUCTIONS FOR PERFORMANCE FAILURES, HEAVY CIVIL FAILURES AND ENERGY FAILURES

Section 19. Amount of Deductions for Performance Failures and Heavy Civil Failures

- 19.1 The amount of the Deduction in respect of a Performance Failure shall be as follows:
- (a) in the case of a Minor Performance Failure, the sum of \$[REDACTED], index-linked using the Escalation Factor as referred to in Section 6.1;
 - (b) in the case of a Medium Performance Failure, the sum of \$[REDACTED], index-linked using the Escalation Factor as referred to in Section 6.1;
 - (c) in the case of a Major Performance Failure, the sum of \$[REDACTED], index-linked using the Escalation Factor as referred to in Section 6.1; and
 - (d) in the case of a Critical Performance Failure, the sum of \$[REDACTED], index-linked using the Escalation Factor as referred to in Section 6.1.
- 19.2 The amount of the Deduction in respect of a Heavy Civil Failure shall be as follows:
- (a) in the case of a Major Heavy Civil Failure, the sum of \$[REDACTED], index-linked using the Escalation Factor as referred to in Section 6.1; and
 - (b) in the case of a Critical Heavy Civil Failure, the sum of \$[REDACTED], index-linked using the Escalation Factor as referred to in Section 6.1.
- 19.3 Where a Performance Failure or a Heavy Civil Failure has a Performance Criteria with a Response Time or a Rectification Time, a Performance Failure or Heavy Civil Failure shall only occur if the Event in question has not been responded to within the applicable Response Time or rectified within the applicable Rectification Time.

- 19.4 Following the occurrence of a Performance Failure or a Heavy Civil Failure, Project Co shall be allowed an additional Response Time or Rectification Time (as the case may be) equivalent to the original Response Time or Rectification Time. If, before the expiry of this additional period, Project Co demonstrates, to the reasonable satisfaction of the Contracting Authority Representative, that it has remedied the Performance Failure or the Heavy Civil Failure, no further Deduction shall be made in respect of the Performance Failure or the Heavy Civil Failure. Otherwise, a further Deduction shall be made of the appropriate amount (as described in Section 19) and a further Response Time or Rectification Time of equal duration (unless otherwise set out for such Performance Failure or such Heavy Civil Failure) shall apply (and, if appropriate, Deductions shall continue to be made) until such time as Project Co shall demonstrate, to the reasonable satisfaction of the Contracting Authority Representative, that it has remedied the Performance Failure or the Heavy Civil Failure.
- 19.5 The provisions of Section 19.4 of shall not apply to Performance Failures or Heavy Civil Failures where, if the response or rectification is not carried out within the Response Time or the Rectification Time, as applicable, the Contracting Authority Representative notifies the Project Co Representative that Contracting Authority no longer requires Project Co to address such Performance Failure or such Heavy Civil Failure.
- 19.6 Where a Performance Failure or a Heavy Civil Failure has a Performance Criteria with no Response Time or Rectification Time, a Performance Failure or a Heavy Civil Failure shall occur upon the occurrence of the Event in question and a Performance Failure Deduction or a Heavy Civil Failure Deduction shall apply in accordance with Section 19.

Section 20. Amount of Deductions for Energy Failures

- 20.1 The amount of the Deduction in respect of an Energy Failure shall be as follows:
- (a) in the case of a Minor Energy Failure, the sum of \$[REDACTED], index-linked using the Escalation Factor as referred to in Section 6.1; and
 - (b) in the case of a Medium Energy Failure, the sum of \$[REDACTED], index-linked using the Escalation Factor as referred to in Section 6.1.
- 20.2 The Rectification Times in respect of Energy Failures shall correspond to the frequency stated in Schedule 8 – Energy Matters. The occurrence of an Energy Failure will result in an Energy Failure Deduction in respect of the Contract Month in which the Energy Failure occurred.
- 20.3 Following the occurrence of an Energy Failure, Project Co shall be allowed a Remedial Period equal to the period specified in Schedule 8 – Energy Matters. If, before the expiry of the Remedial Period, Project Co demonstrates, to the reasonable satisfaction of the Contracting Authority Representative, that it has remedied the Energy Failure, no further Deduction shall be made in respect of the Energy Failure. Otherwise, a further Energy Failure (as described in Schedule 8 – Energy Matters) and a corresponding Deduction shall be made in the appropriate amount (as described in Section 20.1) and a further Remedial Period or Remedial Periods shall apply (and, if appropriate, Deductions shall continue to be made) until such time as Project Co demonstrates, to

the reasonable satisfaction of the Contracting Authority Representative, that it has remedied the Energy Failure.

Section 21. Temporary Repairs

- 21.1 If Project Co informs Contracting Authority that it is unable to Rectify an Event within the specified Remedial Period or Rectification Time due to the need for specialized materials or personnel that are not, and cannot reasonably be expected to be, immediately available but that a Temporary Repair can be effected:
- (a) Contracting Authority may, in its discretion and acting reasonably, permit Project Co to carry out the Temporary Repair proposed by Project Co; and
 - (b) where a Temporary Repair is permitted, a deadline by which a Permanent Repair must be made shall be agreed to by the Parties, each acting reasonably, giving Project Co a reasonable period within which to carry out the Permanent Repair (the “**Permanent Repair Deadline**”).
- 21.2 If the Temporary Repair is effected within the specified Remedial Period and the Permanent Repair is effected by no later than the Permanent Repair Deadline, only the first Performance Failure or the first Heavy Civil Failure will be deemed to have occurred, and a Performance Failure Deduction or a Heavy Civil Failure Deduction may be made in respect of the Event. If the Temporary Repair is effected within the specified Rectification Time and the Permanent Repair is effected by no later than the Permanent Repair Deadline, no Performance Failure or no Heavy Civil Failure will occur, and no Performance Failure Deduction or no Heavy Civil Failure Deduction may be made in respect of the Event.
- 21.3 If the Temporary Repair is not effected within the specified Remedial Period or Rectification Time, a Performance Failure or a Heavy Civil Failure shall be deemed to occur and the following provisions shall apply:
- (a) there shall be a further period beginning at the expiry of the Remedial Period or Rectification Time and of a duration equal to that of the Remedial Period or Rectification Time;
 - (b) Project Co shall ensure that the Temporary Repair is successfully carried out prior to the expiry of the additional period referred to in Section 21.3(a);
 - (c) if the Temporary Repair is not successfully carried out prior to the expiry of the additional period referred to in Section 21.3(a), a further Performance Failure or a Heavy Civil Failure shall occur and a further additional period shall commence;
 - (d) unless the Temporary Repair has been successfully carried out prior to the expiry of the additional period then a further Performance Failure or a Heavy Civil Failure shall occur until such time as the Temporary Repair shall have been successfully completed; and

- (e) if the Temporary Repair is not successfully carried out prior to the Permanent Repair Deadline, and no Permanent Repair has been successfully carried out, the right for Project Co to carry out a Temporary Repair pursuant to this Section 21 shall cease and Section 21.4 shall apply.
- 21.4 If the Permanent Repair is not effected by the Permanent Repair Deadline, a Performance Failure or a Heavy Civil Failure (as applicable) shall be deemed to occur.
- (a) Following the occurrence of a Performance Failure or a Heavy Civil Failure per Section 21.4, Project Co shall be allowed a Remedial Period. The length of the relevant Remedial Period shall be specified by the relevant Performance Criteria. If, before the expiry of the Remedial Period, Project Co demonstrates, to the reasonable satisfaction of the Contracting Authority Representative, that it has remedied the Performance Failure or a Heavy Civil Failure, no further Deduction shall be made in respect of the Performance Failure or a Heavy Civil Failure. Otherwise, a further Deduction shall be made of the appropriate amount (as described in in Section 19) and a further Remedial Period or Remedial Periods of equal duration shall apply (and, if appropriate, Deductions shall continue to be made) until such time as Project Co shall demonstrate, to the reasonable satisfaction of the Contracting Authority Representative, that it has remedied the Performance Failure or the Heavy Civil Failure.
- (b) Following the occurrence of a Performance Failure or a Heavy Civil Failure per Section 21.4, Project Co shall be allowed an additional Response Time or Rectification Time (as the case may be) equivalent to the original Response Time or Rectification Time. If, before the expiry of this additional period, Project Co demonstrates, to the reasonable satisfaction of the Contracting Authority Representative, that it has remedied the Performance Failure or the Heavy Civil Failure, no further Deduction shall be made in respect of the Performance Failure or the Heavy Civil Failure. Otherwise, a further Deduction shall be made of the appropriate amount (as described in Section 19) and a further Response Time or Rectification Time of equal duration shall apply (and, if appropriate, Deductions shall continue to be made) until such time as Project Co shall demonstrate, to the reasonable satisfaction of the Contracting Authority Representative, that it has remedied the Performance Failure or the Heavy Civil Failure.

PART H. FAILURE POINTS

Section 22. Failure Points for Trip Availability Failures, Station Availability Failures, Performance Failures, Heavy Civil Failures, System Events and Station Events

- 22.1 Failure Points shall be awarded for every Trip Availability Failure, Station Availability Failure, Performance Failure, Heavy Civil Failure, System Event and Station Event which occurs during the Operational Term, unless such Failure Points are cancelled pursuant to any other provision of the Project Agreement.
- 22.2 The number of Failure Points attributable to Trip Availability Failures, Station Availability Failures, Performance Failures, Heavy Civil Failures, System Events and Station Events are set out in Appendix C of this Schedule 20.

- (a) Failure Points in respect of System Events shall be awarded following the identification of each such System Event through daily recording of the applicable Performance Information in the Performance Reporting System and Performance Dashboard, as applicable, in accordance with Section 22.3, and summarized in the Monthly Performance Monitoring Report;
 - (b) Failure Points in respect of Station Events shall be awarded following the identification of each such Station Event through daily recording of the applicable Performance Information in the Performance Reporting System and Performance Dashboard, as applicable, in accordance with Section 22.4, and summarized in the Monthly Performance Monitoring Report;
 - (c) Failure Points in respect of Trip Capacity Failures shall be awarded for each Contract Month based on the relevant Trip Capacity Ratio and Trip Punctuality Ratio calculated for that Contract Month, in accordance with Table 9 of Appendix C of this Schedule 20;
 - (d) Failure Points in respect of Trip Punctuality Failures shall be awarded for each Contract Month based on the relevant Trip Capacity Ratio and Trip Punctuality Ratio calculated for that Contract Month, in accordance with Table 10 of Appendix C of this Schedule 20;
 - (e) Failure Points in respect of Station Availability Failures shall be awarded for each Contract Month based on the relevant Aggregate Station Availability Ratio calculated for that Contract Month, in accordance with Table 11 of Appendix C of this Schedule 20;
 - (f) Failure Points in respect of Performance Failures shall be awarded in respect of each Performance Failure, in accordance with Table 12 of Appendix C of this Schedule 20; and
 - (g) Failure Points in respect of Heavy Civil Failures shall be awarded in respect of each Performance Failure, in accordance with Table 13 of Appendix C of this Schedule 20.
- 22.3 Failure Points shall be awarded in each Contract Month based on any System Events occurring during that Contract Month, in accordance with below:
- (a) If on any single Weekday during a Contract Month, the Peak Period Trip Capacity Ratio for either (a) morning Peak Period service or (b) afternoon Peak Period service is less than [REDACTED]%, [REDACTED] Failure Points per occurrence shall be awarded. For clarity, each Peak Period which fails to meet the [REDACTED]% service standard shall result in awarding [REDACTED] Failure Points, such that Project Co could be awarded [REDACTED] Failure Points in respect of morning Peak Period service and a further [REDACTED] Failure Points in respect of afternoon Peak Period service;
 - (b) If on any single day during a Contract Month, the Trip Capacity Ratio for that day is less than [REDACTED]%, [REDACTED] Failure Points per occurrence shall be awarded;
 - (c) If on any single Weekday during a Contract Month, the Peak Period Trip Punctuality Ratio for either (a) morning Peak Period service or (b) afternoon Peak Period service is less than [REDACTED]%, [REDACTED] Failure Points per occurrence shall be awarded. For

clarity, each Peak Period which fails to meet the [REDACTED]% service standard shall result in awarding [REDACTED] Failure Points, such that Project Co could be awarded [REDACTED] Failure Points in respect of morning Peak Period service and a further [REDACTED] Failure Points in respect of afternoon Peak Period service;

- (d) If on any single day during a Contract Month, the Trip Punctuality Ratio for that day is less than [REDACTED]%, [REDACTED] Failure Points per occurrence shall be awarded;
- (e) The maximum aggregate amount of Failure Points to be awarded in respect of System Events for any single day shall be [REDACTED].
- (f) For clarity, and subject to Sections 2.2 and 2.4, Failure Points awarded for System Events shall not be applied to the extent that the triggering System Event is directly caused by a Non-Project Co Cause as described in Section 2.1.
- (g) The aggregate amount of Failure Points awarded in respect of System Events for a Contract Month shall be reduced by [REDACTED]% if the Trip Availability Failure Deduction (excluding the sum of System Event Deductions), calculated in accordance with Section 11.1, applicable to the same Contract Month is equal to zero.

22.4 Failure Points shall be awarded in each Contract Month based on any Station Events occurring during that Contract Month, in accordance with below:

- (a) On any single day during a Contract Month, where any Station is not opened to System Users by the start of Revenue Service, [REDACTED] Failure Points per occurrence for each Group 1 Station and [REDACTED] Failure Points per occurrence for each Group 2 Station shall be awarded.
- (b) On any single day during a Contract Month, any Station is not made available by the scheduled opening time per the Station Availability Standard, [REDACTED] Failure Points per occurrence for each Group 1 Station and [REDACTED] Failure Points per occurrence for each Group 2 Station shall be awarded.
- (c) For clarity, and subject to Sections 2.2 and 2.4, Failure Points awarded for Station Events shall not be applied to the extent that the triggering Station Event is directly caused by a Non-Project Co Cause as described in Section 2.1.

22.5 For the avoidance of doubt when awarding Failure Points, where a further Performance Failure or a further Heavy Civil Failure is deemed to have occurred in accordance with Section 19 or Section 21, the appropriate number of Failure Points shall be awarded in respect of each such Performance Failure and such Heavy Civil Failure, even though they arise from the same circumstances, except as follows:

- (a) To the extent that Failure Points are awarded for System Events, no Failure Points for directly corresponding Performance Failures or Heavy Civil Failures shall be awarded in addition to the Failure Points awarded for System Events.

Section 23. Bedding-In Period for Failure Points

23.1 For the purposes of Section 22, during:

- (a) the first ninety (90) calendar days of the Bedding-In Period, when the Trip Capacity Ratio for Contract Month *m* is greater than or equal to [REDACTED]%, the Failure Points awarded for Contract Month *m* shall be [REDACTED]. No reduction in Failure Points will be applied when, during the Bedding-In Period when the Trip Capacity Ratio for Contract Month *m* is less than or equal to [REDACTED]%;
- (b) the last ninety (90) calendar days of the Bedding-In Period, when the Trip Capacity Ratio for Contract Month *m* is greater than or equal to [REDACTED]%, the Failure Points awarded for Contract Month *m* will be applied at [REDACTED]% of their value in accordance with Table 9, Appendix C of this Schedule 20. No reduction in Failure Points will be applied when, during the Bedding-In Period, the Trip Capacity Ratio for Contract Month *m* is less than or equal to [REDACTED]%;
- (c) the first ninety (90) calendar days of the Bedding-In Period, when the Trip Punctuality Ratio for Contract Month *m* is greater than or equal to [REDACTED]%, the Failure Points awarded for Contract Month *m* shall be [REDACTED]. No reduction in Failure Points will be applied when, during the Bedding-In Period when the Trip Capacity Ratio for Contract Month *m* is less than or equal to [REDACTED]%; and
- (d) the last ninety (90) calendar days of the Bedding-In Period, when the Trip Punctuality Ratio for Contract Month *m* is greater than or equal to [REDACTED]%, the Failure Points awarded for Contract Month *m* will be applied at [REDACTED]% of their value in accordance with Table 10, Appendix C of this Schedule 20. No reduction in Failure Points will be applied when, during the Bedding-In Period, the Trip Capacity Ratio for Contract Month *m* is less than or equal to [REDACTED]%.

PART I. REVIEW AND AMENDMENT OF PAYMENT MECHANISM

Section 24. Five Year Review

- 24.1 The amount of Deductions for Trip Availability Failures, Station Availability Failures, Heavy Civil Failures, Performance Failures, Energy Failures and the grouping of Stations (Group 1 and Group 2 definitions), as well as the overall functioning of the Payment Mechanism shall be reviewed by Contracting Authority and Project Co at any time if requested by either Party, up to a maximum of one review per Contract Year. In any event, a review shall be carried out at least once in every five (5) Contract Years.
- 24.2 Contracting Authority and Project Co shall act reasonably and diligently in carrying out the reviews.
- 24.3 For the avoidance of doubt, the Parties intend that any changes made as a result of such a review shall not alter the overall risk profile of the relevant Project Co Services or the likely magnitude of Trip Availability Failures, Station Availability Failures, Heavy Civil Failures, Performance

Failures and Energy Failures. Where proposed changes would result in any such alteration, the matter shall be deemed to be a Variation and Schedule 22 – Variation Procedure shall apply.

- 24.4 Contracting Authority and Project Co may in respect of each matter that is the subject of the review either:
- (a) agree that the status of the relevant matter shall continue to apply unchanged in the Contract Year immediately following the review; or
 - (b) agree adjustments to the relevant matter to take effect in the Contract Year immediately following the review.
- 24.5 Any agreed adjustment pursuant to a review shall be effective from the commencement of the Contract Year immediately following the relevant review carried out in accordance with Section 24.1.
- 24.6 As part of the review, Project Co may propose revisions to the Operations Service Plan that would provide benefit to Contracting Authority. The resulting benefit will be shared with the Project Co.

Section 25. Peak Periods, Capacity Level Change and Operations Service Plan

- 25.1 Contracting Authority may change the hours within the definition of “Peak Period” within the Output Specifications for the purposes of the Payment Mechanism, at its sole discretion at any time during the Operational Term by providing Project Co with thirty (30) days written Notice, provided that the total number of Peak Period hours in a week does not exceed thirty five (35) hours, and the two daily peak periods are separated by a minimum of three (3) hours.
- 25.2 Contracting Authority may increase the total number of Peak Period hours per week and/or increase the number of Group 1 Stations beyond the limits set out in Sections 25.1 above, subject to agreement between the Parties on appropriate amendments to the Payment Mechanism in order to ensure there is no change in overall risk profile of the relevant Project Co Services or the likely magnitude of Trip Availability Failures, Station Availability Failures, Heavy Civil Failures and Performance Failures. Where proposed changes would result in any such alteration in the risk profile, the matter shall be deemed to be a Variation and Schedule 22 – Variation Procedure shall apply.
- 25.3 Project Co may request an amendment to the Operations Service Plan other than requested by Contracting Authority through the Booking Process, where Trains leaving a specific Station exceed an AW2 Loading, when measured for any morning or afternoon weekday Peak Period or Off-Peak Period and averaged over six (6) Contract Months, if and to the extent that such event materially adversely affects Project Co’s ability to satisfy the Operations Service Plan.
- 25.4 Contracting Authority may direct Project Co to implement a Capacity Level Change in accordance with Section 2.2.2.3(c) (*Capacity Level Change*) of the Output Specifications. On the Capacity Level Change Date, for the purposes of calculating the Monthly O&M Service Payment in accordance with Section 4, the Monthly Fixed O&M Service Payment for Capacity Level 2 and the Variable Service Car Kilometer Payment for Capacity Level 2 shall apply. Following a direction

by Contracting Authority to implement a Capacity Level Change or following the Capacity Level Change Date, Contracting Authority may direct Project Co to not proceed with a Capacity Level Change or implement Capacity Level 1, as applicable, in which case, the Monthly Fixed O&M Service Payment for Capacity Level 1 and the Variable Service Car Kilometer Payment for Capacity Level 1 shall, subject to and in accordance with Schedule 22 – Variation Procedure, be adjusted and result in a Variation. For clarity, following the Capacity Level Change Date, Contracting Authority’s right to modify any aspect of the Operations Service Plan through the Booking Process, in accordance with and subject to Section 2.2.2.3(a) (*Monthly Booking Process*) of the Output Specifications, shall not be limited and, provided that Contracting Authority does not direct Project Co to implement Capacity Level 1 following the Capacity Level Change Date, the Variable Service Car Kilometer Payment for Capacity Level 2 shall apply for any such modification to the Operations Service Plan requested by Contracting Authority through the Booking Process.

PART J. MONITORING AND REPORTING

Section 26. Sources of Information

26.1 The following information regarding the performance of the Project Co Services for the relevant Contract Month shall be used for the purposes of calculating: (1) the relevant Monthly Service Payment and (2) Deductions and the number of Failure Points assessed for the relevant Contract Month:

- (a) In respect of the Monthly Service Payment for the relevant Contract Month:
 - (i) Capacity Level(s) in effect for the relevant Contract Month;
 - (ii) Total Monthly Service Car Kilometers for the relevant Contract Month, broken down by Capacity Level, if applicable;
 - (iii) The sum of Total Monthly Service Car Kilometers from Contract Month 1 to the relevant Contract Month for the purposes of determining the relevant Cumulative Total Service Car Kilometer Range(s) for the relevant Contract Month;
 - (iv) The relevant Lifecycle Month for each Car used for Revenue Service for the relevant Contract Month;
 - (v) Total number of Cars per Train in Revenue Service for each Scheduled Trip and Additional Trip as required through the Booking Process compared with the total number of actual Cars per Train in Revenue Service for each Scheduled Trip and Additional Trip for the relevant Contract Month;
 - (vi) Total additional Service Car Kilometers above the threshold set out in Section 4.5 that entitles Project Co to additional compensation;
 - (vii) Any Deductions for Initial Traction Power Performance Test Failures and Traction Power Performance Test Failures, including, if applicable, any positive adjustment in relation to the Initial Traction Power Performance Test Failure;

- (viii) Any Insurance Adjustments for the relevant Contract Month; and
 - (ix) Any amounts owed and payable by Contracting Authority to Project Co or any other adjustments to the Monthly Service Payment under this Project Agreement in the relevant Contract Month.
- (b) In respect of Deductions and number of Failure Points assessed for the relevant Contract Month, Project Co shall use the performance information in the Monthly Performance Monitoring Report, set out in Schedule 11 – Quality Management, for the relevant Contract Month.

Section 27. Failure by Project Co to Monitor or Report

- 27.1 If there shall be any error or omission in the Monthly Performance Monitoring Report for any Contract Month, Project Co and Contracting Authority shall agree the amendment to the Monthly Performance Monitoring Report or, failing agreement within ten (10) days of notification of the error or omission which shall not be made more than two (2) calendar months following the relevant Monthly Performance Monitoring Report, except in the circumstances referred to in Section 27.4 either party may refer the matter to the Dispute Resolution Procedure.
- 27.2 If Project Co fails to monitor or accurately report any Trip Availability Failure, Station Availability Failure, Performance Failure, Energy Failure or Heavy Civil Failure then, without prejudice to the Deduction to be made in respect of the relevant Trip Availability Failure, Station Availability Failure, Performance Failure, Energy Failure or Heavy Civil Failure, the failure to monitor or report shall be deemed to be a new Performance Failure, and Project Co shall be awarded [REDACTED] Performance Failure points for each occurrence of such Performance Failure, unless the circumstances set out in Section 27.4 apply, in which case Project Co shall be awarded [REDACTED] Performance Failure points for each such occurrence.
- 27.3 In the event that any inspection or investigation by Contracting Authority of records made available pursuant to the Project Agreement reveals any further matters of the type referred to in Sections 27.1 and 27.2, those matters shall be dealt with in accordance with Section 27.1 and 27.2, as appropriate, and Contracting Authority shall, in addition, be entitled to make Deductions in respect of any Trip Failure, Station Availability Failure, Performance Failure or Energy Failure, in the manner prescribed in Section 11, Section 17, Section 19 and Section 20. Any such Deductions shall be made from the Monthly Service Payment, payable in respect of the Contract Month in which the relevant matters were revealed by Contracting Authority's investigations or, to the extent that Contracting Authority is unable to make any further deductions from the Monthly Service Payment in respect of that Contract Month by virtue of Section 9.2, may be carried forward and deducted from Monthly Service Payments due in respect of subsequent Contract Months.
- 27.4 For the purposes of Sections 27.1 and 27.2 the relevant circumstances are:
- (a) fraudulent action or inaction;
 - (b) deliberate misrepresentation; or

- (c) gross misconduct or incompetence in each case on the part of Project Co or a Project Co Party.

27.5 The provisions of this Section 27 shall be without prejudice to any rights of Contracting Authority pursuant to Sections 32 (*Contracting Authority's Remedial Rights*), 45 (*Project Co Default*) and 60 (*Prohibited Acts*) of the Project Agreement.

SCHEDULE 21

CONSTRUCTION PAYMENT PROCEDURES

1 DEFINITIONS

1.1 Definitions

The following terms shall have the following meanings:

- (a) “**Notice of Non-Payment**” has the meaning given in the *Construction Act*.
- (b) “**Proper Invoice**” has the meaning given in Section 3.1(a).
- (c) “**Proper Invoice Delivery Date**” has the meaning given in Section 3.2(a).

2 GENERAL

2.1 Electronic Payment

- (a) Notwithstanding any other provision of the Project Agreement, for the purpose of the Project Agreement, payments made by electronic transfer shall be deemed to have been made on the day and at the time the electronic transfer is initiated, as confirmed by the initiating bank by a confirmation setting out the transfer number and the other details of the transfer.

3 PAYMENT OF PROPER INVOICE

3.1 Proper Invoice

- (a) A proper invoice for the purposes of the Project Agreement (each a “**Proper Invoice**”) means a written bill or other request for payment issued by Project Co for services or materials in respect of the Works performed under the Project Agreement that:
 - (i) satisfies the requirements for a “proper invoice” set out in the *Construction Act*;
 - (ii) identifies the amounts certified for payment by the Independent Certifier and the amounts to be retained as holdback;
 - (iii) includes a WSIB clearance certificate;
 - (iv) includes a CCDC-9A statutory declaration as of the date of the Proper Invoice declaring that payments in connection with the Works have been made;
 - (v) where the Proper Invoice includes final payment under any Subcontract for which lien rights or rights in respect of the holdback may be claimed under the *Construction Act*, includes a certificate of completion and statutory declarations pursuant to Section 15.3(c) (*Construction Act (Ontario)*) of the Project Agreement; and
 - (vi) is not delivered earlier than permitted by Section 3.2(a).

3.2 Delivery of a Proper Invoice

- (a) The earliest date that a Proper Invoice is eligible to be delivered to Contracting Authority (the “**Proper Invoice Delivery Date**”) shall be:
- (i) for payment of any Milestone Payment, the date Project Co delivers the applicable Milestone Payment Completion Notice pursuant to Section 34A(b)(ii) (*Certification of Milestone Payments*) of the Project Agreement;
 - (ii) for payment of the Substantial Completion Payment, the date the Independent Certifier issues the IC Substantial Completion Deliverables Confirmation pursuant to Section 25.3(c) (*Substantial Completion Certificate*) of the Project Agreement;
 - (iii) for payment of the Completion Holdback, the date Project Co delivers the Final Completion Notice pursuant to Section 25.9(b) (*Final Completion Certificate*) of the Project Agreement;
 - (iv) for payment of any further amounts owed for the completion of seasonal Minor Deficiencies, the date all seasonal Minor Deficiencies are completed; and
 - (v) for any payment other than those specified in Sections 3.2(a)(i) to 3.2(a)(iv), no earlier than the date on which all preconditions to such payment have been satisfied pursuant to the terms of the Project Agreement,

and the submission of an invoice earlier than permitted shall constitute valid grounds for Contracting Authority to issue a Notice of Non-Payment.

3.3 Review of a Proper Invoice

- (a) Prior to delivery of each Proper Invoice, the following process shall be followed:
- (i) No later than thirty (30) days prior to the anticipated Proper Invoice Delivery Date, Project Co shall submit a draft payment application to the Independent Certifier and Contracting Authority containing the breakdown of amounts intended to be included in the Proper Invoice, holdback accounting, tax information and all supporting documentation required by the Project Agreement or reasonably requested by the Independent Certifier or Contracting Authority.
 - (ii) From the fifteenth day to the fifth day prior to the Proper Invoice Delivery Date, Project Co shall meet with the Contracting Authority and Independent Certifier in order to review the information and documentation provided, and any additional information or documentation reasonably requested by the Independent Certifier or Contracting Authority, in order to assist Project Co with the preparation of the Proper Invoice.
- (b) Project Co shall not make material changes to the information to be submitted by way of the resulting Proper Invoice on or after the fourth day prior to the Proper Invoice Delivery Date.

3.4 Compliance with Prompt Payment Requirements

- (a) Subject to the giving of a Notice of Non-Payment in the prescribed form and manner, and to any requirement or entitlement to retain a holdback pursuant to the *Construction Act*, Contracting Authority shall pay the amount payable under a Proper Invoice no later than twenty-eight (28) days after receiving the Proper Invoice from Project Co.
- (b) Project Co shall comply, and shall cause the Project Co Parties to comply, with any applicable timelines for prompt payment contained in the Project Agreement or required by the *Construction Act*, and shall indemnify Contracting Authority pursuant to Section 56.1 (*Project Co Indemnities to Contracting Authority*) of the Project Agreement in relation to any failure of Project Co to comply or to cause the Project Co Parties to comply with such timelines for prompt payment.

4 NOTICE OF NON-PAYMENT

4.1 Notice of Non-Payment

- (a) If Contracting Authority disputes payment of a Proper Invoice in whole or in part, Contracting Authority may refuse to pay all or any portion of the Proper Invoice if Contracting Authority delivers a Notice of Non-Payment no later than fourteen (14) days after receiving the Proper Invoice from Project Co.

SCHEDULE 22

VARIATION PROCEDURE

1. VARIATIONS

1.1 Definitions

- (a) In this Schedule 22, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 22) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:
- (i) “**Contracting Authority Work**” has the meaning given in Section 1.7(a).
 - (ii) “**Direct Cost**” has the meaning given in Appendix A of this Schedule 22.
 - (iii) “**Estimate**” has the meaning given in Section 1.4(a).
 - (iv) “**Overhead**” has the meaning given in Appendix C of this Schedule 22.
 - (v) “**Overhead and Profit**” has the meaning given in Appendix B of this Schedule 22.
 - (vi) “**Project Co Variation Notice**” has the meaning given in Section 2.1(a).
 - (vii) “**Variation**” means a variation, addition, reduction, substitution, omission, modification, deletion, removal or other change to the whole or any part of the Project Operations, including in relation to the whole or any part of the Works or the Project Co Services.
 - (viii) “**Variation Confirmation**” has the meaning given in Section 1.8(a)(ii).
 - (ix) “**Variation Directive**” means a written instruction which is issued on a form designated as a “Variation Directive Form” and signed by the Contracting Authority Representative directing Project Co to immediately proceed with a Variation pending the finalization and issuance of a Variation Confirmation for that Variation.
 - (x) “**Variation Enquiry**” has the meaning given in Section 1.3(a).

1.2 General

- (a) Contracting Authority has the right from time to time to propose and require Project Co to carry out and implement a Variation, and any such Variation shall be subject to the provisions of this Schedule 22, provided that Contracting Authority shall not be permitted to withdraw a Variation Enquiry (nor will a Variation Enquiry be deemed to have been withdrawn) with respect to those circumstances specified in the Project Agreement for which Contracting Authority is obligated to proceed with a Variation.

- (b) Contracting Authority shall be obligated to proceed with a Variation in certain circumstances specified in the Project Agreement, and any such Variation shall be subject to the provisions of this Schedule 22.
- (c) The only payment or compensation payable by Contracting Authority to Project Co in connection with any Variation shall be the sum of the following amounts:
 - (i) the Direct Cost of such Variation; plus
 - (ii) Overhead and Profit, other than in the case of Pandemic and Epidemic Change in Law Compensation for which only Overhead shall be included.
- (d) Project Co will not be entitled to any payment, compensation or extension of time for a Variation except to the extent provided in a Variation Confirmation or Variation Directive in accordance with this Schedule 22.
- (e) Project Co shall attend and shall cause any relevant Subcontractors to attend any meetings requested by Contracting Authority from time to time to discuss the implementation of any Variation or Variations generally, including with respect to the administration and pricing of Variations.
- (f) With respect to a Variation for a change in the quantity of Station and Tunnel Ventilation Equipment units in accordance with Section 9.19 (*Station and Tunnel Ventilation Equipment*) of the Project Agreement, Project Co's compensation shall be limited to the unit prices set out in Appendix D of this Schedule 22 for the applicable Station and Tunnel Ventilation Equipment unit multiplied by the change in the number of such units.

1.3 Variation Enquiry

- (a) If Contracting Authority proposes or is obligated pursuant to the terms of the Project Agreement or Applicable Law to initiate a Variation, it shall deliver to Project Co a written Notice of the proposed Variation (a "**Variation Enquiry**").
- (b) A Variation Enquiry shall:
 - (i) describe the proposed Variation with sufficient detail to enable Project Co to prepare a detailed Estimate;
 - (ii) in the event that the proposed Variation will require a Capital Expenditure, state whether Contracting Authority intends to pay for the Variation by way of lump sum payment or payments, adjustment to the Monthly Service Payments (and, if applicable, with a request for Project Co to obtain financing for all or part of the Variation), or a combination thereof; and
 - (iii) provide a preliminary indication of any provisions of the Project Agreement (including the Output Specifications or the Project Co Proposal Extracts) that will be affected by the proposed Variation, as well as the amendments to the Project Agreement (including the

Output Specifications or the Project Co Proposal Extracts) that may be necessary to accommodate the Variation.

1.4 Delivery of Estimate

- (a) As soon as practicable and in any event within fifteen (15) Business Days after receipt of a Variation Enquiry, or such longer period as the Parties agree acting reasonably, Project Co shall deliver its detailed breakdown, estimate and other information (an “**Estimate**”) prepared in accordance with and meeting the requirements of Section 1.6 and in the form prescribed by Contracting Authority, acting reasonably.

1.5 Project Co Grounds for Objection

- (a) Project Co may only refuse to deliver an Estimate if Project Co can demonstrate to Contracting Authority’s satisfaction, acting reasonably, within the period for delivery of an Estimate specified or agreed pursuant to Section 1.4(a), that:
- (i) the implementation of the Variation would materially and adversely affect the health and safety of any person;
 - (ii) the implementation of the Variation would:
 - (A) infringe Applicable Law;
 - (B) cause to be revoked any of the existing Permits, Licences, Approvals and Agreements required by Project Co to perform the Project Operations, and any such Permit, Licence, Approval and Agreement is not, using commercially reasonable efforts, capable of amendment or renewal; or
 - (C) require any new Permits, Licences, Approvals and Agreements for Project Co to perform the Project Operations, any of which will not, using commercially reasonable efforts by Project Co or Contracting Authority, as applicable, be obtainable;
 - (iii) the proposed Variation would have a material and adverse effect on the performance of the Project Operations (except those Project Operations which have been specified as requiring amendment in the Variation Enquiry) in a manner not compensated pursuant to this Schedule 22 and, if applicable, Schedule 44 – System Extension;
 - (iv) the implementation of the Variation would be a departure from Good Industry Practice;
 - (v) Contracting Authority does not have the legal power or capacity to require the Variation to be implemented or to do anything envisaged by this Schedule 22 in respect of or in connection with the Variation;
 - (vi) the Variation would, if implemented, result in a change in the essential nature of the Ontario Line Subway System, or the New Third Party Infrastructure, provided that:

- (A) Project Co shall not be permitted to refuse any Variation which the Contracting Authority in its sole discretion considers necessary for the integration of the South Civil Project, the North Civil Project, the Early Works Infrastructure or the TOC Developments with the Ontario Line Subway System;
 - (vii) the Variation Enquiry does not comply with the requirements of Section 1.3 (including a failure to include adequate information therein to enable Project Co to prepare an Estimate in respect thereof);
 - (viii) in the case of a Variation relating to the Works, the time specified for commencement and/or completion of such Variation cannot be achieved by Project Co despite commercially reasonable efforts; or
 - (ix) in the case of a Variation relating to the Project Co Services, the time specified for implementation of such Variation cannot be achieved by Project Co despite commercially reasonable efforts.
- (b) If Project Co refuses to provide an Estimate on the grounds set out in Section 1.5(a), Project Co shall, within the period for delivery of an Estimate specified or agreed pursuant to Section 1.4(a), deliver to Contracting Authority a written Notice specifying the grounds upon which Project Co rejects the Variation and the details thereof.

1.6 Estimate Requirements

- (a) Unless Contracting Authority in a Variation Enquiry requires only specified limited information, each Estimate shall include the following information, sufficient to demonstrate to Contracting Authority's reasonable satisfaction:
- (i) the steps Project Co will take to implement the Variation, in such detail as is reasonable and appropriate in the circumstances, including a schedule, work breakdown structure, contact list, description of roles and responsibilities and an organizational structure chart;
 - (ii) any impact on any Scheduled Milestone Payment Completion Date or the Scheduled Substantial Completion Date, and any other schedule impact on the provision of the Ontario Line Subway and the New Third Party Infrastructure, the completion of the Works and the performance of the Project Co Services (including for certainty, any impact of the proposed Variation after taking into consideration other Variations);
 - (iii) any impact on the performance of the Project Operations and any other impact on the Project Agreement (including for certainty, any impact of the proposed Variation after taking into consideration other Variations);
 - (iv) any impact on expected usage of utilities, including those identified in Schedule 20 – Payment Mechanism, for the current Contract Year and subsequent Contract Years;
 - (v) any amendments to the Project Agreement (including Schedule 20 – Payment Mechanism) or any Project Document required as a consequence of the Variation, the objective of such

amendments being to ensure that (save for the obligation of Contracting Authority to make payments or altered payments in respect of the Variation) the Parties are in no better and no worse position in relation to the Project than they would have been in if the Variation had not been implemented and, in particular, that there will be no material adverse change to the risk profile of the Project as a result of the Variation;

- (vi) any impact on the Direct Cost to Project Co and each Subcontractor of the proposed Variation, including:
 - (A) any Capital Expenditure that will be incurred, reduced or avoided and the impact on Project Co's cash flows from incurring, reducing or avoiding such costs (whether financed by Project Co or Contracting Authority); and
 - (B) any other costs that will be incurred, reduced or avoided and the impact on Project Co's cash flows from incurring, reducing or avoiding such costs;
- (vii) either:
 - (A) a confirmation that the proposed Variation will not affect Project Co's existing financing or that Project Co's existing financing is adequate to implement the Variation; or
 - (B) if new or additional financing is required to implement the Variation, an indication as to the availability of such new or additional financing and the cost and terms of such new or additional financing;
- (viii) Project Co's confirmation that the projected internal rate of return on any additional equity capital required to finance the Variation will be the Base Case Equity IRR;
- (ix) Project Co's preliminary indication of the potential increase or decrease, if any, of the Monthly Service Payments (expressed in both real dollar amounts and Inflation Base Date dollar amounts using the Escalation Factor as the discount rate), with such amount calculated by reference to the relevant parts of the Financial Model to demonstrate the impact of the proposed Variation;
- (x) any Permits, Licences, Approvals and Agreements that must be obtained or amended for the Variation to be implemented, and the latest date by which Project Co must receive a Variation Confirmation and Project Co or Contracting Authority, as applicable, must obtain or amend such Permits, Licences, Approvals and Agreements for the Estimate to remain valid; and
- (xi) the proposed methods of certification of any construction or operational aspect of the Project Operations required by the Variation if not covered by the provisions of the Project Agreement,

in each case, together with such supporting information and justification as is reasonably required.

- (b) In preparing its Estimate, Project Co shall include sufficient information to demonstrate to Contracting Authority's satisfaction, acting reasonably, that:
- (i) subject to Sections 1.6(c) and 1.6(e), Project Co has used or has obliged each Subcontractor (or will oblige any Subcontractor not yet selected) to use commercially reasonable efforts, including the use of competitive quotes or tenders, to minimize any increase in costs and to maximize any reduction in costs;
 - (ii) except as otherwise set out in this Schedule 22, all costs of Project Co and each Subcontractor are limited to the Direct Cost of the proposed Variation described in Appendix A of this Schedule 22;
 - (iii) Overhead has been calculated in accordance with Appendix C of this Schedule 22 in respect of Pandemic and Epidemic Change in Law Compensation and, in respect of all other Variations, Overhead and Profit has been calculated in accordance with Appendix B of this Schedule 22;
 - (iv) all costs of providing Project Operations, including Capital Expenditures, reflect:
 - (A) labour and material rates applying in the open market to providers of services similar to those required by the Variation;
 - (B) any and all changes in the Output Specifications arising out of the proposed Variation; and
 - (C) any and all changes in risk allocation;
 - (v) the full amount of any and all expenditures that have been reduced or avoided (including any Capital Expenditure) and that all such expenditures, including all applicable amounts for overhead and profit anticipated to be incurred but for the Variation, have been taken into account and applied in total to reduce the amount of all costs; and
 - (vi) Project Co has mitigated or will mitigate the impact of the Variation, including on the Project Works Schedules, the performance of the Project Operations, the expected usage of utilities, and the Direct Cost of the proposed Variation to be incurred.
- (c) Project Co shall use commercially reasonable efforts to obtain the best value for money when procuring and/or delivering any work, services, supplies, materials or equipment required by the Variation, including, at the request of Contracting Authority, applying, using and comparing applicable industry benchmarks or benchmarking data for such purposes, and will comply with all Good Industry Practice in relation to any such procurement, to a standard no less than Project Co would apply if all costs incurred were to its own account without recourse to Contracting Authority, including using commercially reasonable efforts to mitigate such costs. Also, to the extent the procurement or delivery of any work, services, supplies, materials or equipment required by the Variation results in costs or expenses that are in excess of those costs or expenses established by industry benchmarks or benchmarking data, Project Co shall provide Contracting Authority sufficient information and analysis to demonstrate to Contracting Authority's satisfaction, acting

reasonably, that such excess costs or expenses are reasonable and justified in the context of the subject Variation.

- (d) As soon as practicable, and in any event not more than fifteen (15) Business Days after Contracting Authority receives an Estimate, Project Co and Contracting Authority shall discuss and seek to agree on the Estimate, including any amendments to the Estimate agreed to by the Parties.
- (e) At the request of Contracting Authority, including if Contracting Authority is required by Applicable Law or any policy applicable to Contracting Authority, to competitively tender any contract in relation to the proposed Variation, Project Co shall seek and evaluate competitive tenders for the proposed Variation, including in accordance with such Applicable Law or policy.
- (f) Contracting Authority may modify a Variation Enquiry in writing at any time for any matter relating to the Estimate or the discussions in relation thereto, in which case Project Co shall, as soon as practicable and in any event not more than ten (10) Business Days after receipt of such modification, notify Contracting Authority in writing of any consequential changes to the Estimate.
- (g) If the Parties cannot agree on an Estimate pursuant to Section 1.6(d), then any Dispute will be determined in accordance with Schedule 27 – Dispute Resolution Procedure.

1.7 Contracting Authority’s Right to Perform

- (a) In respect of the Ontario Line Subway and the New Third Party Infrastructure, after Substantial Completion, Contracting Authority shall have the right to perform the subject matter of a proposed Variation (“**Contracting Authority Work**”) itself, or through others contracting directly with Contracting Authority, without compensation to Project Co, except as specifically stated herein.
- (b) Contracting Authority shall indemnify and save Project Co harmless from and against any and all loss or expense which may be suffered, sustained or incurred by Project Co as a direct result of, in respect of, or arising out of the performance by Contracting Authority, or any third party, of Contracting Authority Work, including any loss or expense related to any adverse impacts on the Project Operations.

1.8 Variation Confirmation

- (a) As soon as practicable, and in any event within fifteen (15) Business Days after the later of the date the Estimate was delivered and the date the Estimate was either agreed to or any Dispute in respect thereof was determined in accordance with Schedule 27 – Dispute Resolution Procedure, Contracting Authority shall either:
 - (i) subject to Section 1.2(b) and Section 1.8(f), withdraw the Variation Enquiry by written Notice to Project Co; or
 - (ii) issue a written confirmation of the Estimate signed by Contracting Authority (the “**Variation Confirmation**”), including any agreed modifications thereto or any modifications resulting for the determination of a Dispute in respect thereof, which

Variation Confirmation may be subject to Project Co obtaining financing pursuant to Section 1.9.

- (b) Within five (5) Business Days following Project Co's receipt of a Variation Confirmation issued pursuant to Section 1.8(a)(ii), Project Co shall execute and deliver a copy of such executed Variation Confirmation to Contracting Authority.
- (c) If Contracting Authority does not issue a Variation Confirmation within such fifteen (15) Business Days, then, subject to Section 1.2(b) and Section 1.8(f), the Variation Enquiry shall be deemed to have been withdrawn.
- (d) Upon the Variation Confirmation being issued, and if applicable upon Project Co obtaining financing pursuant to Section 1.9:
 - (i) the Parties shall as soon as practicable thereafter do all acts and execute all documents to amend the Project Agreement necessary to implement the Variation, including in respect of any required extension of time and including provision for payment to Project Co as provided in Section 1.10;
 - (ii) Project Co shall implement the Variation as provided for in the Variation Confirmation, and subject to amendments pursuant to Section 1.8(d)(i), all provisions of the Project Agreement applicable to the Project Operations shall apply to the Project Operations as thereby changed and no additional claim with respect to the Variation or Variation Confirmation will be considered; and
 - (iii) payment in relation to the Variation shall be as provided for in Section 1.10 and pursuant to any amendments pursuant to Section 1.8(d)(i).
- (e) If a Variation Confirmation is subject to Project Co obtaining financing pursuant to Section 1.9, then the Variation Confirmation shall not be effective until:
 - (i) Project Co obtains such financing acceptable to Contracting Authority in its sole discretion; or
 - (ii) Contracting Authority in its sole discretion waives such requirement.
- (f) Except as hereinafter provided, until a Variation Confirmation has been issued:
 - (i) the determination of whether or not to proceed with a Variation shall at all times be at Contracting Authority's sole discretion, despite any Dispute or any other matter in relation to a Variation being referred to or determined in accordance with Schedule 27 – Dispute Resolution Procedure; and
 - (ii) Contracting Authority may at any time withdraw a Variation Enquiry and, subject to Section 1.8(g), Contracting Authority shall not be obligated to Project Co in respect of a Variation until such time as Contracting Authority in its sole discretion issues a Variation

Confirmation and, if applicable, Project Co has obtained the financing requested by Contracting Authority or Contracting Authority has waived such requirement,

provided that Contracting Authority may not withdraw a Variation Enquiry in circumstances where Contracting Authority is obligated pursuant to the terms of the Project Agreement to proceed with a Variation. In such circumstances Schedule 27 – Dispute Resolution Procedure shall be employed to finalize any aspects of the Variation which cannot otherwise be agreed to in accordance with the terms of this Schedule 22.

- (g) If a Variation Confirmation is not issued for any Variation Enquiry in respect of which Project Co has used commercially reasonable efforts to produce a fair and accurate Estimate, Contracting Authority shall reimburse Project Co for the Direct Cost reasonably and properly incurred by Project Co in connection with preparing the Estimate.

1.9 Financing

- (a) If Project Co in its Estimate confirms that existing financing is not available to pay for the proposed Variation and if Contracting Authority requests Project Co to obtain financing for a Variation, then a Variation Confirmation may be issued subject to Project Co obtaining financing. In such event, Project Co shall use commercially reasonable efforts to obtain the requested financing on terms satisfactory to Project Co and Contracting Authority, provided that, prior to the Substantial Completion Date, Project Co shall not be required to seek debt financing from any source other than the existing Lenders.
- (b) If Project Co has used commercially reasonable efforts to obtain the requested financing but has been unable to obtain an offer of financing on terms reasonably satisfactory to Project Co and Contracting Authority within sixty (60) days of the date that Contracting Authority issues the Variation Confirmation, then Project Co shall have no further obligation to obtain financing for the Variation and any Variation Confirmation subject to financing shall no longer have any effect unless Contracting Authority, in its sole discretion, waives the requirement for financing or unless Contracting Authority is obligated to proceed with the Variation pursuant to the terms of the Project Agreement.
- (c) If Project Co obtains an offer of financing on terms reasonably satisfactory to Project Co, Project Co shall provide Contracting Authority with details of such financing, and Contracting Authority shall, in its sole discretion, determine whether Project Co should proceed with such financing. If Contracting Authority determines that Project Co should not proceed with such financing, then Project Co shall have no further obligation to obtain financing for the Variation and any Variation Confirmation subject to financing shall no longer have any effect unless Contracting Authority, in its sole discretion, waives the requirement for financing or unless Contracting Authority is obligated to proceed with the Variation pursuant to the terms of the Project Agreement.
- (d) Contracting Authority may at any time withdraw the requirement for Project Co to use commercially reasonable efforts to obtain financing, after which Project Co shall have no further obligation to obtain financing for the Variation and any Variation Confirmation subject to financing shall no longer have any effect unless Contracting Authority, in its sole discretion, waives the

requirement for financing or unless Contracting Authority is obligated to proceed with the Variation pursuant to the terms of the Project Agreement.

- (e) If Contracting Authority waives the requirement for financing or if Project Co has no further obligation to obtain financing for the Variation pursuant to Sections 1.9(b), 1.9(c) or 1.9(d) then Project Co shall proceed with the Variation as set out in the Variation Confirmation and Contracting Authority shall pay for the Variation as provided for in Section 1.10(a)(ii).

1.10 Payment

- (a) If a Variation Confirmation has been issued and is not subject to financing, or if the requirement for financing has been satisfied by Project Co or has been waived by Contracting Authority, a price adjustment for the Variation, as set out in the Estimate and as adjusted and confirmed by the Variation Confirmation, shall be made as follows:
 - (i) the Monthly Service Payments (expressed only in Inflation Base Date dollar amounts using the Escalation Factor as the discount rate) shall be adjusted as set out in the Variation Confirmation; and
 - (ii) payment for Capital Expenditures as set out in the Variation Confirmation and not financed by Project Co shall be paid as follows:
 - (A) Contracting Authority shall pay such Capital Expenditures in lump sum payments based on a payment schedule agreed by Contracting Authority and Project Co, acting reasonably, to reflect the amount and timing of the Capital Expenditures to be incurred by Project Co in carrying out the Variation to the extent borne by Contracting Authority; and
 - (B) where payment for part of the Variation reflects the carrying out of, or specific progress towards, an element within the Variation, Project Co shall provide satisfactory evidence confirming that the part of the Variation corresponding to each occasion when payment is due under the payment schedule has been duly carried out.

In the event Contracting Authority and Project Co fail to agree as to the terms of the payment schedule, the payment schedule shall be determined in accordance with Schedule 27 – Dispute Resolution Procedure, provided that, where all or any part of the Variation is being carried out by a third party under a contract with Project Co, subject to the terms of any contract between Project Co and that third party in relation to the implementation of the Variation having been approved by Contracting Authority, the process under Schedule 27 – Dispute Resolution Procedure shall determine a payment schedule which would enable Project Co to be funded by Contracting Authority in time to make payments to that third party in accordance with its contract with Project Co.

- (b) Contracting Authority shall make payment to Project Co within twenty (20) Business Days of receipt by Contracting Authority of invoices presented to Contracting Authority in accordance with

the agreed payment schedule accompanied (where applicable) by the relevant evidence that the relevant part of the Variation has been carried out.

- (c) Payments by Contracting Authority in respect of a Variation shall be subject to applicable holdback provisions of the *Construction Act* (Ontario), as applicable.
- (d) Project Co shall not be entitled to any amount in excess of the amount of the Estimate confirmed in the Variation Confirmation.
- (e) Upon request by Project Co, Contracting Authority shall provide to Project Co copies of any consent or approval issued by Contracting Authority's board of directors in connection with a proposed Variation.

1.11 Reduction in Project Operations

- (a) If a Variation involves any reduction in the Project Operations which results in savings in the Direct Cost to Project Co, such savings shall result in a reduction in the compensation payable to Project Co under the Project Agreement in an amount equal to such reduction in the Direct Cost, and Project Co shall compensate Contracting Authority by way of a reduction in the Monthly Service Payments (expressed in Inflation Base Date dollar amounts using the Escalation Factor as the discount rate).

1.12 Variation Directive

- (a) If an Estimate is not promptly agreed upon by Contracting Authority and Project Co or if there is a Dispute in relation thereto or if Contracting Authority, in its sole discretion, requires a Variation to be implemented prior to issuing a Variation Confirmation, then Contracting Authority may issue a Variation Directive and, following receipt of the Variation Directive, Project Co shall promptly proceed to implement the Variation.
- (b) Without limiting Project Co's obligation to promptly implement such Variation:
 - (i) the determination of the valuation and time extensions, if any, required in connection with such Variation, shall be made as soon as reasonably possible after commencement of the implementation of the Variation;
 - (ii) the Contracting Authority Representative shall initially determine the valuation of such Variation, acting reasonably, and making the determination in accordance with Appendices A and B hereto, with any Dispute to be determined in accordance with Schedule 27 – Dispute Resolution Procedure; and
 - (iii) Contracting Authority shall fund all Variations implemented by way of a Variation Directive as provided for in Section 1.10(a)(ii).

2. PROJECT CO VARIATIONS

2.1 General

- (a) Project Co shall deliver to Contracting Authority a written Notice (a “**Project Co Variation Notice**”) for each Variation proposed by Project Co.

2.2 Project Co Variation Notice

- (a) A Project Co Variation Notice shall:
- (i) set out details of the proposed Variation in sufficient detail to enable Contracting Authority to evaluate it in full;
 - (ii) specify Project Co’s reasons for proposing the Variation;
 - (iii) indicate all reasonably foreseeable implications of the Variation, including whether there are any costs or cost savings to Contracting Authority, and whether an adjustment to the Monthly Service Payments is required; and
 - (iv) indicate the latest date by which a Variation Enquiry must be issued.
- (b) If Contracting Authority, in its sole discretion, elects to consider the Variation proposed by Project Co, Contracting Authority may issue to Project Co a Variation Enquiry and the procedure set out in Section 1 will apply.
- (c) Project Co shall, promptly upon demand, reimburse Contracting Authority for all out-of-pocket costs and expenses reasonably incurred by Contracting Authority in connection with Contracting Authority’s consideration of any Variation proposed by Project Co pursuant to Section 2 of this Schedule 22, including, without limitation, legal and consulting fees and disbursements, regardless of whether (i) a Variation Enquiry or Estimate is issued in connection therewith or (ii) such Variation is implemented.

3. SMALL WORKS

3.1 General

- (a) After the Substantial Completion Date, with respect to the Ontario Line Subway and the New Third Party Infrastructure, Project Co shall carry out all Small Works requested by Contracting Authority.
- (b) If Small Works are requested by Contracting Authority, Project Co shall, within ten (10) Business Days of each such request and prior to carrying out the Small Works, provide Contracting Authority with a price for carrying out the Small Works.
- (c) Project Co’s price for Small Works shall include only (i) the Direct Cost of such Small Works and (ii) Overhead and Profit with respect to such Direct Cost calculated in accordance with this Schedule 22, including Appendix B of this Schedule 22.

- (d) If Project Co's price is accepted by Contracting Authority, in its sole discretion, Project Co shall carry out the Small Works for such price.
- (e) Contracting Authority may at any time, in its sole discretion, including if Contracting Authority does not accept the price proposed by Project Co pursuant to Section 3.1(b), issue a Variation Enquiry or Variation Directive in respect of such Small Works, in which event the provisions of this Schedule 22, other than this Section 3, shall apply.

3.2 Project Co to Minimize Inconvenience

- (a) Project Co shall notify Contracting Authority of the estimated duration of any Small Works so that Contracting Authority and Project Co can agree upon a convenient time for carrying out the same, so as to minimize and mitigate inconvenience and disruption to Contracting Authority. Project Co shall use commercially reasonable efforts to minimize the duration of any Small Works.

APPENDIX A TO SCHEDULE 22

CALCULATION OF DIRECT COST

1. DIRECT COST

- 1.1 Subject to Section 1.2 of this Appendix A, the term “**Direct Cost**” means the aggregate total, without duplication, of only the following amounts, as paid or incurred by Project Co or each Subcontractor, as applicable, to the extent that they specifically relate to, and are attributable to, the Variation under which Project Co is expressly entitled to its Direct Cost and would not otherwise have been incurred:
- (i) wages and benefits paid for labour in the direct employ of Project Co or each Subcontractor while performing that part of the Project Operations on the Lands;
 - (ii) salaries, wages and benefits of Project Co’s or each Subcontractor’s personnel when stationed at the office on the Lands in whatever capacity employed, or personnel engaged at shops or on the road, in expediting the production or transportation of materials or equipment;
 - (iii) salaries, wages and benefits of Project Co’s or each Subcontractor’s office personnel engaged in a technical capacity;
 - (iv) without limiting Sections 1.1(i), 1.1(ii) and 1.1(iii) of this Appendix A, contributions, assessments or taxes incurred for such items as employment insurance, provincial health insurance, workers’ compensation, and Canada Pension Plan, insofar as such costs are based on the wages, salaries, or other remuneration paid for employees pursuant to Sections 1.1(i), 1.1(ii) and 1.1(iii) of this Appendix A, but excluding for certainty all income taxes on such wages, salaries and other remuneration;
 - (v) the cost of materials (including hand tools which have a retail value of \$[REDACTED] or less), products, supplies, equipment, temporary services and facilities, including transportation and maintenance thereof, which are consumed in the performance of the Variation;
 - (vi) the rental costs of all tools (excluding hand tools which have a retail value of \$[REDACTED] or less), machinery, and equipment used in the performance of the Variation, whether rented from or provided by Project Co or others, including installation, minor repair and replacement, dismantling, removal, transportation and delivery costs thereof;
 - (vii) deposits lost;
 - (viii) except as otherwise set out in the Project Agreement, a reasonable amount of profit consistent with prevailing market rates that is charged by any Subcontractor other than the Construction Contractor and any entity not at arms-length from Project Co;

- (ix) the reasonable fees and disbursements of the Lenders' Consultant and the external technical consultants and external legal advisors of Project Co and its Subcontractors;
- (x) the cost of third party quality assurance required by Contracting Authority, such as independent inspection and testing services;
- (xi) charges levied by Governmental Authorities, but excluding fines or penalties not related to the implementation of the Variation;
- (xii) subject to Section 1.1(iv) of this Appendix A, Taxes (and without limiting the obligation of Contracting Authority to pay HST payable by it under the Project Agreement), but excluding:
 - (A) HST;
 - (B) taxes imposed on Project Co or a Subcontractor based on or measured by income or profit or otherwise imposed under the *Income Tax Act* (Canada), the *Income Tax Act* (Ontario) or any similar statute in any other jurisdiction;
 - (C) capital taxes based on or measured by the capital of Project Co or a Subcontractor;
 - (D) taxes relating to withholdings on any payments by Project Co or a Subcontractor; and
 - (E) taxes relating to any business or activity other than the business or activities related to, and conducted for, the purposes of the Project Operations;
- (xiii) the cost of removal and disposal of contaminants, hazardous substances, Waste products and debris for which Project Co is not responsible under the Project Agreement;
- (xiv) termination payments which are required under Applicable Law to be made to employees of Project Co or a Subcontractor reasonably and properly incurred by Project Co or such Subcontractor arising as a direct result of any Variation reducing the scope of the Project Operations, except to the extent that such termination payments are provided for in contracts of employment, agreements or arrangements that were not entered into in the ordinary course of business and on commercial arm's length terms;
- (xv) the cost of debt financing provided by the Lenders, including all additional financing costs related to any delay caused by the implementation of the Variation;
- (xvi) the cost of competitively tendering any contract in relation to the proposed Variation that is required by Contracting Authority, including as a result of any Applicable Law or any policy applicable to Contracting Authority;
- (xvii) the cost of any additional insurance or performance security required or approved by Contracting Authority; and
- (xviii) the cost of obtaining all Project Co Permits, Licences, Approvals and Agreements.

- 1.2 The Direct Cost otherwise payable shall be subject to and limited by the following:
- (i) the Direct Cost shall be net of all discounts, rebates and other price reductions and benefits, which relate to the Direct Cost incurred;
 - (ii) the amount paid for materials, products, supplies and equipment incorporated into the Project Operations as a result of the Variation shall not exceed commercially competitive rates available in the Province of Ontario for such materials, products, supplies and equipment from arms-length third party suppliers;
 - (iii) the Direct Cost with respect to the per hour cost charged by Project Co or any Subcontractor for salaried personnel shall be calculated by dividing the annual salary (inclusive of all benefits, statutory remittances and holidays) by 2080 hours;
 - (iv) the amount paid for machinery and equipment rental costs shall not exceed the prevailing competitive commercial rate for which such equipment or machinery can be obtained in the Greater Toronto Area;
 - (v) any amounts paid in accordance with this Appendix A for fees, wages, salaries and benefits charged by Project Co or any Subcontractor shall be reasonable and shall not exceed commercially competitive rates available in the Greater Toronto Area;
 - (vi) the Direct Cost shall not include:
 - (A) any cost incurred due to the failure on the part of Project Co or any Project Co Party to exercise reasonable care and diligence in its attention to the execution of that part of the Project Operations (including any cost due to any negligence, improper work, deficiencies or breaches of contract by Project Co and/or any Subcontractor);
 - (B) the fees, costs or expenses, or any other form of compensation, paid or payable by Project Co or any Subcontractor to any person performing asset management, personnel services and/or similar, comparable or like services to or for the benefit of Project Co or any Subcontractor;
 - (C) the cost and expense of maintaining corporate offices, the cost and expense of office administration, estimation, accounting, payroll, printing, office supplies, phones and courier/postal service, the cost and expense of personnel not directly involved in the implementation of the Variation and any other overhead cost or expense;
 - (D) the cost of travel and subsistence expenses; or
 - (E) any costs or expenses associated with the participation of Project Co and any Subcontractor in the meetings described in Section 1.2(e) of this Schedule 22;

- (vii) for greater certainty, the Direct Cost shall include the aggregate real dollar amount value of all of the costs permitted by this Appendix A related to any variation, addition, reduction, substitution, omission, modification, deletion, removal or other change to the Project Co Services associated with the Variation, provided that, in accordance with Section 1.10(a)(i), any adjustment to the Monthly Service Payments pursuant to this Schedule 22 shall only be expressed in Inflation Base Date dollar amounts using the Escalation Factor as the discount rate; and
- (viii) the Direct Cost must be quantifiable and supported by evidence and proper documentation, such as invoices, proof of payments, and detailed hourly rate information as required by Contracting Authority. Proper documentation shall include unit rates or prices and quantities for all items, including labour and materials that comprise the Direct Cost, including for all work completed by any Subcontractor. Any Direct Cost item claimed as a percentage of any other Direct Cost item, such as a “risk contingency”, will not be permissible, unless approved by Contracting Authority in writing.

APPENDIX B TO SCHEDULE 22

CALCULATION OF OVERHEAD AND PROFIT

- (a) “**Overhead and Profit**” means, for each of rows 1, 2, 3, 4 and 5 in Table A – Applicable Overhead and Profit, the product of:
- (i) the Direct Cost of, as applicable, the work or services within the category described in such row, multiplied by
 - (ii) the percentage set out in such row as determined based on the Direct Cost of the Variation.
- (b) For greater certainty, the percentages applicable to Overhead and Profit shall not be determined based on any component or components of the subject Variation (e.g. initial construction costs or annual Project Co Services costs).
- (c) Project Co, the Construction Contractor and the Service Provider shall charge no more than the amount of Overhead and Profit calculated in accordance with this Appendix B.
- (d) No amount for Overhead and Profit shall be charged on any other amount of Overhead and Profit.
- (e) No other methodology for the calculation of Overhead and Profit shall be permitted or apply.
- (f) Project Co acknowledges and agrees that the Overhead and Profit payable in accordance with this Schedule 22 is intended to compensate Project Co, the Construction Contractor and the Service Provider for all costs and expenses incurred in connection with a Variation other than the Direct Cost, including all overhead, profit, office administration and the amounts expressly excluded from the Direct Cost pursuant to Section 1.2 of Appendix A of this Schedule 22.

TABLE A

APPENDIX C TO SCHEDULE 22

**CALCULATION OF OVERHEAD FOR PURPOSES OF PANDEMIC AND EPIDEMIC
CHANGE IN LAW COMPENSATION**

- (a) “**Overhead**” means, for each of rows 1, 2, 3, 4 and 5 in Table B – Applicable Overhead for purposes of Pandemic and Epidemic Change in Law Compensation, the product of:
 - (i) the Direct Cost of, as applicable, the work or services within the category described in such row, multiplied by,
 - (ii) the percentage set out in such row as determined based on the Direct Cost of the Variation.
- (b) For greater certainty, the percentages applicable to Overhead shall not be determined based on any component or components of the subject Variation.
- (c) Project Co, the Construction Contractor and the Service Provider shall charge no more than the amount of Overhead calculated in accordance with Appendix C of this Schedule 22.
- (d) No amount for Overhead shall be charged on any other amount of Overhead.
- (e) No other methodology for the calculation of Overhead shall be permitted or apply.
- (f) Project Co acknowledges and agrees that the Overhead payable in accordance with this Schedule 22 is intended to compensate Project Co, the Construction Contractor and the Service Provider for all costs and expenses incurred in connection with a Variation as a result of a Pandemic and Epidemic Change in Law other than the Direct Cost, including all overhead, office administration and the amounts expressly excluded from the Direct Cost pursuant to Section 1.2 of Appendix A of this Schedule 22, and excluding profit.

SCHEDULE 23

COMPENSATION ON TERMINATION

1. DEFINITIONS

1.1 Definitions

In this Schedule 23, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 23) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) “**Adjusted Estimated Fair Value**” means the Estimated Fair Value adjusted as follows:
- (i) where, in respect of any Payment Period or part of a Payment Period from the Termination Date to the Compensation Date, the Post Termination Service Amount is a negative number, the aggregate amount by which all such negative Post Termination Service Amounts are negative shall be set off against and shall reduce the Estimated Fair Value (whether or not such amounts have been set off by Contracting Authority pursuant to Section 3.3(f));
 - (ii) the aggregate of the following amounts shall be deducted, without duplication, from the Estimated Fair Value:
 - (A) the Post Termination Service Amounts actually paid by Contracting Authority to Project Co prior to the Compensation Date;
 - (B) the Tender Costs; and
 - (C) amounts that Contracting Authority is entitled to set off or deduct; and
 - (iii) the aggregate of the following amounts shall be added, without duplication, to the Estimated Fair Value:
 - (A) all credit balances on any bank accounts held by or on behalf of Project Co on the date that the Estimated Fair Value is calculated; and
 - (B) any insurance proceeds and other amounts owing to Project Co (and which Project Co is entitled to retain), to the extent not included in Section 1.1(a)(iii)(A),

to the extent that:
 - (C) Sections 1.1(a)(iii)(A) and 1.1(a)(iii)(B) have not been directly taken into account in calculating the Estimated Fair Value; and
 - (D) Contracting Authority has received such amounts in accordance with the Project Agreement.

- (b) **“Adjusted Highest Qualifying Tender Price”** means the price offered by the Qualifying Tenderer (if any) with the highest tender price, adjusted as follows:
- (i) where, in respect of any Payment Period or part of a Payment Period from the Termination Date to the Compensation Date, the Post Termination Service Amount is a negative number, the aggregate amount by which all such negative Post Termination Service Amounts are negative shall be set off against and shall reduce such highest tender price (whether or not such amounts have been set off by Contracting Authority pursuant to Section 3.3(f));
 - (ii) the aggregate of the following amounts shall be deducted, without duplication, from such highest tender price:
 - (A) the Post Termination Service Amounts actually paid by Contracting Authority to Project Co prior to the Compensation Date;
 - (B) the Tender Costs; and
 - (C) amounts that Contracting Authority is entitled to set off or deduct; and
 - (iii) the aggregate of the following amounts shall be added, without duplication, to such highest tender price:
 - (A) all credit balances on any bank accounts held by or on behalf of Project Co on the date that the highest priced Qualifying Tender is received; and
 - (B) any insurance proceeds and other amounts owing to Project Co (and which Project Co is entitled to retain), to the extent not included in Section 1.1(b)(iii)(A),
to the extent that:
 - (C) Sections 1.1(b)(iii)(A) and 1.1(b)(iii)(B) have not been directly taken into account in that Qualifying Tender; and
 - (D) Contracting Authority has received such amounts in accordance with the Project Agreement.
- (c) **“Breach of Refinancing Termination Sum”** has the meaning given to it in Section 6.1(b) of this Schedule 23.
- (d) **“Compensation Date”** means either:
- (i) if Section 3.3 applies, the earlier of:
 - (A) the date that the New Agreement is entered into; and
 - (B) the date on which Contracting Authority pays the Adjusted Highest Qualifying Tender Price to Project Co; or

- (ii) if Section 3.4 applies, the date that the Adjusted Estimated Fair Value has been agreed or determined.
- (e) “**Contracting Authority Default Termination Sum**” has the meaning given in Section 2.1(b).
- (f) “**Discount Rate**” means a rate equal to $((A + B) / C) + D$, where:
- A = the product of the outstanding principal amount of debt funded under the Lending Agreements on the date of calculation and the rate of interest applicable to such amount as shown in the Financial Model at Financial Close.
- B = the product of the Equity Capital as at Financial Close and the Base Case Equity IRR.
- C = the sum of the outstanding principal amount of debt funded under the Lending Agreements on the date of calculation and the Equity Capital as at Financial Close.
- D = the yield to maturity on a benchmark Government of Canada bond of the same maturity as the average life of the outstanding principal amount of debt funded under the Lending Agreements on the date of calculation, minus the yield to maturity on a benchmark Government of Canada bond of the same maturity as the average life of the outstanding principal amount of debt funded under the Lending Agreements as shown in the Financial Model at Financial Close.
- (g) “**Employee Termination Payments**” means termination payments which are required under Applicable Law to be made to employees of Project Co or any Project Co Party as a direct result of terminating the Project Agreement (provided that Project Co or the relevant Project Co Party shall take commercially reasonable steps to mitigate its loss) and provided that, in calculating such amount, no account should be taken of any liabilities and obligations of Project Co or the relevant Project Co Party arising out of:
- (i) contracts of employment or other agreements or arrangements entered into by Project Co or the relevant Project Co Party to the extent that such contracts of employment, agreements or arrangements were not entered into in connection with the Project; or
- (ii) contracts of employment or other agreements or arrangements entered into by Project Co or the relevant Project Co Party other than in the ordinary course of business and on commercial arm’s length terms, save to the extent that amounts would have arisen if such contracts or other agreements or arrangements had been entered into in the ordinary course of business and on commercial arm’s length terms.
- (h) “**Estimated Fair Value**” means the amount determined in accordance with Section 3.4.
- (i) “**Invoice Date**” means the date that is the later of:
- (i) the date on which Contracting Authority receives an invoice from Project Co for the relevant termination sum; and
- (ii) the date on which Contracting Authority receives the supporting evidence required pursuant to Section 8.1(a).

- (j) “**Junior Debt Amount**” has the meaning set out in the Project Agreement.
- (k) “**Junior Debt Makewhole**” has the meaning set out in the Project Agreement.
- (l) “**Liquid Market**” means that there are 2 or more willing parties (each of whom is capable of being a Suitable Substitute and of meeting the Qualification Criteria) in the market for agreements in Canada for the provision of operation, maintenance and rehabilitation services (and if the Termination Date occurs prior to Substantial Completion, design and construction services) to light rail transit systems under a public-private partnership or similar model (where such agreements are the same as or similar to the Project Agreement) such that the retendering process in Section 3.3 can reasonably be expected to result in a highest Qualifying Tender price broadly in the range of values that would reasonably be expected to be achieved calculating the Estimated Fair Value under Section 3.4.
- (m) “**Market Value Availability Deduction Amount**” means for any Payment Period or part of a Payment Period, an amount equal to the Deductions for Availability Failures that were made from the Monthly Service Payment under the Payment Mechanism in the Payment Period immediately preceding the Termination Date which were unavailable at the Termination Date but which have subsequently become available, whether as a result of Contracting Authority incurring Rectification Costs or otherwise.
- (n) “**Maximum Service Payment**” means the Monthly Service Payments payable at any time before any Deductions under the Payment Mechanism but allowing for indexation under the Payment Mechanism.
- (o) “**New Agreement**” means an agreement on substantially the same terms and conditions as the Project Agreement as at the Termination Date, but with the following amendments:
 - (i) if the Project Agreement is terminated prior to the Substantial Completion Date, then the Longstop Date shall be extended by a period to allow a New Project Co to achieve Substantial Completion prior to such extended Longstop Date;
 - (ii) any accrued Failure Points shall be cancelled;
 - (iii) the term of such agreement shall be equal to the term from the Termination Date until the Expiry Date; and
 - (iv) any other amendments which do not adversely affect Project Co.
- (p) “**New Project Co**” means the person who has entered or who will enter into the New Agreement with Contracting Authority.
- (q) “**No Default Payment Compensation Amount**” means, with respect to an amount and a specified period of time, such amount multiplied by (i) such period of time in days divided by the actual number of days in the current year multiplied by (ii) the rate of interest per annum in effect on each such day quoted by [REDACTED] from time to time as its reference rate for Canadian Dollar demand loans made to its commercial customers in Canada and which it refers to as its “prime rate”, as such rate may be changed by it from time to time.

- (r) “**Non-Default Termination Sum**” has the meaning given in Section 4.1(b).
- (s) “**Payment Period**” has the meaning set out in the Project Agreement.
- (t) “**Post Termination Service Amount**” means, for the purposes of Section 3.3, for the whole or any part of a Payment Period for the period from the Termination Date to the Compensation Date, an amount equal to the Maximum Service Payment which would have been payable under the Project Agreement had the Project Agreement not been terminated, less an amount equal to the aggregate (without double counting) of:
 - (i) the Market Value Availability Deduction Amount for that Payment Period; and
 - (ii) the Rectification Costs incurred by Contracting Authority in that Payment Period.
- (u) “**Qualification Criteria**” means the criteria that Contracting Authority requires tenderers to meet as part of the Tender Process, which (subject to compliance with Applicable Law) shall include the following:
 - (i) that the tenders confirm acceptance of the New Agreement terms;
 - (ii) that the tenderers have, and are able to demonstrate on an indicative basis on request, the financial ability to pay the lump sum tendered;
 - (iii) that tenderers may only bid on the basis of a single lump sum payment to be paid by the tenderer;
 - (iv) that the tenderer is experienced in performing the Project Co Services or similar services;
 - (v) that the technical solution proposed by the tenderers is capable of delivery and the tenderer is technically capable of delivery of the Project Operations; and
 - (vi) any other tender criteria established by Contracting Authority, acting reasonably.
- (v) “**Qualifying Tender**” means a tender that meets all of the Qualification Criteria.
- (w) “**Qualifying Tenderer**” means a tenderer who submits a Qualifying Tender.
- (x) “**Rectification Costs**” means an amount equal to the reasonable and proper costs incurred by Contracting Authority in a particular Payment Period or part of a Payment Period in ensuring that the Project Co Services are carried out.
- (y) “**Senior Debt Amount**” has the meaning set out in the Project Agreement.
- (z) “**Senior Debt Makewhole**” has the meaning set out in the Project Agreement.
- (aa) “**Subcontractor Losses**” means, subject to Project Co’s obligations under the Project Agreement to limit any compensation to Subcontractors:

- (i) the amount reasonably and properly payable by Project Co to the Construction Contractor under the terms of the Construction Contract as a direct result of the termination of the Project Agreement (including any commercially reasonable breakage fee), provided that such amount shall be reduced to the extent that Project Co or any Subcontractors fail to take commercially reasonable steps to mitigate such amount; and
- (ii) the amount reasonably and properly payable by Project Co to the Service Provider under the terms of the Service Contract as a direct result of the termination of the Project Agreement (including any commercially reasonable breakage fee), provided that such amount shall be reduced to the extent that Project Co or the Subcontractors fail to take commercially reasonable steps to mitigate such amount,

provided that, in both cases, no account should be taken of any liabilities and obligations of Project Co to the Subcontractors arising out of:

- (iii) any loss of overhead or profit of such Subcontractor relating to any period or costs after the Termination Date (save to the extent the same are properly included in any commercially reasonable breakage fee set out in any of the Ancillary Documents);
 - (iv) agreements or arrangements entered into by Project Co or the Subcontractors to the extent that such agreements or arrangements were not entered into in connection with those parties' obligations in relation to the Project; or
 - (v) agreements or arrangements entered into by Project Co or the Subcontractors other than in the ordinary course of business and on commercial arm's length terms, save to the extent that amounts would have arisen if such agreements or arrangements had been entered into in the ordinary course of business and on commercial arm's length terms.
- (bb) **"Tender Costs"** means the reasonable and proper costs of Contracting Authority incurred in carrying out the Tender Process or in connection with any calculation of the Estimated Fair Value.
- (cc) **"Tender Process"** means the process by which Contracting Authority requests tenders from any parties interested in entering into a New Agreement, evaluates the responses from those interested parties and enters into a New Agreement with a new Project Co, in accordance with Section 3.3.
- (dd) **"Tender Process Monitor"** has the meaning given in Section 3.3(g).

2. COMPENSATION ON TERMINATION FOR CONTRACTING AUTHORITY DEFAULT OR CONVENIENCE

2.1 Compensation

- (a) If Project Co terminates the Project Agreement pursuant to Section 46 (*Contracting Authority's Default*) of the Project Agreement or Contracting Authority terminates the Project Agreement pursuant to Section 47.3 (*Termination for Convenience*) of the Project Agreement, Contracting Authority shall pay to Project Co the Contracting Authority Default Termination Sum.

- (b) The “**Contracting Authority Default Termination Sum**” shall be an amount equal to the aggregate of:
- (i) the Senior Debt Amount and the Senior Debt Makewhole;
 - (ii) the Junior Debt Amount and the Junior Debt Makewhole;
 - (iii) any amount payable by Contracting Authority to Project Co in accordance with Sections 43.2(b) (*Consequences of a Relief Event*) and 44.2(b) (*Consequences of Force Majeure*) of the Project Agreement;
 - (iv) the Employee Termination Payments and the Subcontractor Losses;
 - (v) any reasonable costs properly incurred by Project Co to wind up its operations; and
 - (vi) an amount which, if paid on the Termination Date and taken together with all Distributions paid on or made in respect of the Equity Capital on or before the Termination Date and taking account of the actual timing of all such payments, but, in any event, excluding all amounts (whether for costs, overhead, profit or otherwise) after the Termination Date, gives a nominal internal rate of return to the Termination Date equal to the Base Case Equity IRR on the amount paid for the Equity Capital;

LESS, the aggregate (without double counting) of the following, to the extent it is a positive amount:

- (vii) all credit balances on any bank accounts held by or on behalf of Project Co on the Termination Date and the value of any insurance proceeds due to Project Co or to which Project Co would have been entitled had insurance been maintained in accordance with the requirements of the Project Agreement (save where such insurance proceeds are to be applied in reinstatement, restoration or replacement, or, in the case of third party legal liability, in satisfaction of the claim, demand, proceeding or liability or where Contracting Authority is required to procure insurances and to make proceeds available to Project Co under the Project Agreement and it has failed to do so) or sums due and payable from third parties other than sums wholly unrelated to the Project Operations, the Project and the Project Agreement (but only when received from third parties) but excluding any claims under any Subcontracts or claims against other third parties which have not been determined or have been determined but not yet paid, provided that, in such case, Project Co shall assign any such rights and claims under the Subcontracts or claims against other third parties (other than claims against other third parties wholly unrelated to the Project Operations, the Project and the Project Agreement) to Contracting Authority and, at no additional cost to Project Co, give Contracting Authority reasonable assistance in prosecuting such claims;
- (viii) to the extent realized before the Invoice Date, the market value of any other assets and rights of Project Co (other than those transferred to Contracting Authority pursuant to the Project Agreement) less liabilities of Project Co properly incurred in carrying out its obligations under the Project Agreement as at the Termination Date, provided that no account should be taken of any liabilities and obligations of Project Co arising out of:

- (A) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in connection with Project Co's obligations in relation to the Project; or
- (B) agreements or arrangements entered into by Project Co other than in the ordinary course of business and on commercial arm's length terms, save to the extent that liabilities and obligations would have arisen if such agreements or arrangements had been entered into in the ordinary course of business and on commercial arm's length terms; and
- (ix) amounts which Contracting Authority is entitled to set off pursuant to Section 34.12(a)(i) (*Set-Off*) of the Project Agreement,

provided that the Contracting Authority Default Termination Sum shall never be less than the aggregate of the Senior Debt Amount, the Senior Debt Makewhole, the Junior Debt Amount and the Junior Debt Makewhole.

- (c) To the extent that such assets and rights referred to in Section 2.1(b)(viii) are not realized and applied pursuant thereto, Project Co shall, on payment of the Contracting Authority Default Termination Sum, assign such assets and rights to Contracting Authority.
- (d) Contracting Authority shall pay the Contracting Authority Default Termination Sum in accordance with Section 8.

3. COMPENSATION FOR PROJECT CO DEFAULT

3.1 Compensation

- (a) Save and except where Section 6 applies and subject to Section 3.4(c)(ii) (*Failure to Obtain Lenders' Consent*) of Schedule 44 – System Extension, if Contracting Authority terminates the Project Agreement pursuant to Section 45 (*Project Co Default*) of the Project Agreement (including, without limitation, as a result of a Project Co Event of Default for failing to comply with Section 60 (*Prohibited Acts*) of the Project Agreement) or pursuant to Section 3.4(c)(ii) (*Failure to Obtain Lenders' Consent*) of Schedule 44 – System Extension, Contracting Authority shall pay to Project Co either the Adjusted Highest Qualifying Tender Price according to the retendering procedure set out in Section 3.3 or the Adjusted Estimated Fair Value according to the no retendering procedure set out in Section 3.4, as applicable.

3.2 Retendering Election

- (a) Contracting Authority shall be entitled to retender the provision of the Project Operations in accordance with Section 3.3 and the provisions thereof shall apply if:
 - (i) Contracting Authority notifies Project Co on or before the date falling thirty (30) days after the Termination Date; and
 - (ii) there is a Liquid Market,

but, otherwise, Contracting Authority shall require a determination in accordance with the no retendering procedure set out in Section 3.4 and the provisions thereof shall apply.

- (b) Until it is determined that the basis for determining the compensation to Project Co will be the no retendering procedure set out in Section 3.4, Project Co shall continue to perform the Project Co Services and Contracting Authority shall pay Project Co in accordance with Section 3.3(e).

3.3 Retendering Procedure

- (a) The objective of the Tender Process shall be to enter into a New Agreement with a Qualifying Tenderer.
- (b) Contracting Authority shall commence the Tender Process promptly after delivering the notice pursuant to Section 3.2(a) and use commercially reasonable efforts to complete the Tender Process as soon as practicable.
- (c) Contracting Authority shall, as soon as reasonably practicable, notify Project Co of the Qualification Criteria and the other requirements and terms of the Tender Process, including the timing of the Tender Process and shall act reasonably in setting such requirements and terms.
- (d) Project Co authorizes the release of any information by Contracting Authority under the Tender Process which would otherwise be prevented under Section 52 (*Confidentiality/Communications*) of the Project Agreement that is reasonably required as part of the Tender Process.
- (e) Project Co shall continue to perform the Project Co Services, and, for all or any part of a Payment Period falling within the period from the Termination Date to the Compensation Date, Contracting Authority shall pay to Project Co:
 - (i) the Post Termination Service Amount for each completed Payment Period, on or before the date falling twenty (20) Business Days after the end of that Payment Period; and
 - (ii) the Post Termination Service Amount for the period from the end of the last completed Payment Period until the Compensation Date, on or before the date falling thirty (30) days after the Compensation Date.
- (f) If any Post Termination Service Amount is negative, then the amount by which the Post Termination Service Amount is negative shall be carried forward and may be set off against any future positive Post Termination Service Amounts.
- (g) Project Co may, at its own cost, appoint a person (the “**Tender Process Monitor**”) to monitor the Tender Process for the purpose of monitoring and reporting to Project Co and the Lenders on Contracting Authority’s compliance with the Tender Process. The Tender Process Monitor shall enter into a confidentiality agreement with Contracting Authority in a form acceptable to Contracting Authority and shall be entitled to attend all meetings relating to the Tender Process, inspect copies of all the tender documentation and bids and make representations to Contracting Authority as to compliance with the Tender Process. Contracting Authority shall not be bound to consider or act upon such representations. The Tender Process Monitor will not disclose confidential information to Project Co or the Lenders but shall be entitled to advise Project Co and

the Lenders on whether it considers that Contracting Authority has acted in accordance with the Tender Process and correctly determined the Adjusted Highest Qualifying Tender Price.

- (h) As soon as practicable after tenders have been received, Contracting Authority shall, acting reasonably, review and assess the Qualifying Tenders and shall notify Project Co of the Adjusted Highest Qualifying Tender Price.
- (i) If Project Co refers a Dispute relating to the Adjusted Highest Qualifying Tender Price to dispute resolution in accordance with Schedule 27 – Dispute Resolution Procedure, Contracting Authority shall, irrespective of such Dispute, be entitled to enter into a New Agreement.
- (j) Contracting Authority shall pay the Adjusted Highest Qualifying Tender Price in accordance with Section 8.
- (k) Contracting Authority may elect, by Notice to Project Co at any time prior to Contracting Authority ascertaining the Adjusted Highest Qualifying Tender Price, to follow the no retendering procedure set out in Section 3.4. In addition, Contracting Authority shall follow such no retendering procedure if:
 - (i) only one Qualifying Tender is received; or
 - (ii) a New Agreement has not been entered into and compensation paid under Section 8.2 on or before the date falling eighteen (18) months after the Termination Date.
- (l) Project Co may give written Notice to Contracting Authority at any time after the Termination Date and prior to the date for receipt of Qualifying Tenders that a Liquid Market does not exist (or shall not exist on the date for receipt of Qualifying Tenders). If Contracting Authority is in agreement with such Notice, the provisions of Section 3.4 shall apply. If Contracting Authority provides a written response within ten (10) Business Days of receipt of such Notice stating that it is in disagreement with that Notice or if no written response is provided by Contracting Authority within such ten (10) Business Day period, the matter shall be referred for determination in accordance with Schedule 27 – Dispute Resolution Procedure.

3.4 No Retendering Procedure

- (a) Subject to Section 3.4(b), if the provisions of this Section 3.4 apply, Project Co shall not be entitled to receive any Post Termination Service Amount.
- (b) If Contracting Authority elects to require a determination in accordance with this Section 3.4 after it has elected to follow the procedure set out in Section 3.3, then Contracting Authority shall continue to pay to Project Co each Post Termination Service Amount until the Compensation Date in accordance with Section 3.3.
- (c) In determining the Estimated Fair Value, the Parties shall be obliged to follow the principles set out below:
 - (i) All forecast amounts should be calculated in nominal terms as at the Termination Date. Where relevant, adjustments for forecast inflation between the date of calculation and the

forecast payment date(s), as set out in the Project Agreement, will be made and, if made, will use an assumed inflation rate of [REDACTED]% per annum.

- (ii) The Estimated Fair Value shall be calculated using the following formula (without double counting):

$$(A - B - C) - D$$

Where:

A = the present value of the following payments to the extent that, as at the Termination Date, such payments have not yet been paid and are forecast to be made from the Termination Date to the Expiry Date, assuming that no Deductions will be made over that period, discounted at the Discount Rate: the Monthly Service Payments, the Substantial Completion Payment, the First Milestone Payment, the Second Milestone Payment, the Third Milestone Payment and the Fourth Milestone Payment

B = a contingency amount based on a reasonable risk assessment of any cost overruns that may reasonably arise (including in respect of any matter referred to in this Section 3.4(c)(ii)) whether or not forecast in the relevant base case and represented in the Financial Model as of the date of Financial Close, discounted at the Discount Rate

C = the present value of the costs of obtaining or performing the Project Co Services reasonably forecast to be incurred by Contracting Authority from the Termination Date to the Expiry Date to the standard required, discounted at the Discount Rate

D = any rectification costs (including Rectification Costs) that would not arise at the time or in the future had the termination not occurred, and that are reasonably required to deliver the Project Operations to the standard required, including, if applicable, to complete the Works, any costs reasonably forecast to be incurred by Contracting Authority for up-front finance fees and related costs (excluding principal and interest payments), and any other additional operating costs required to restore operating services standards less (to the extent that such sums are included in any calculation of rectification costs (including Rectification Costs) for the purposes of this item D), the aggregate of:

- (A) any insurance proceeds received or which will be received pursuant to policies maintained in accordance with Schedule 25 – Insurance and Performance Security Requirements; and
- (B) amounts payable by Contracting Authority in respect of Capital Expenditures under the Project Agreement which have not been paid,

discounted at the Discount Rate.

- (iii) The amount of (A – B – C) as defined in Section 3.4(c)(ii) shall be no greater than the Non-Default Termination Sum.

- (iv) As applicable, all costs referred to in Section 3.4(c)(ii) are to be forecast at a level that will deliver the Project Co Services and other Project Operations to the standards required by the Project Agreement and to achieve the full Monthly Service Payments (without Deductions).
- (v) The calculation will take into consideration the obligations of the Parties with respect to allowances and payments under the Project Agreement.
- (d) If the Parties cannot agree on the Estimated Fair Value, then the Estimated Fair Value shall be determined in accordance with Schedule 27 – Dispute Resolution Procedure.
- (e) Contracting Authority shall pay the Adjusted Estimated Fair Value in accordance with Section 8.

4. CONSEQUENCES OF NON-DEFAULT TERMINATION AND TERMINATION BY CONTRACTING AUTHORITY FOR RELIEF EVENT, SITE CONDITION EVENT OR PROTEST ACTION

4.1 Consequences

- (a) If Contracting Authority terminates the Project Agreement pursuant to Section 47.1 (*Termination for Relief Event*), Section 47.6 (*Termination for Site Condition Event*) or Section 47.7 (*Termination due to Protest Action*) of the Project Agreement, or if either Party terminates the Project Agreement pursuant to Section 47.2 (*Termination for Force Majeure*) of the Project Agreement, Contracting Authority shall pay to Project Co the Non-Default Termination Sum.
- (b) The “**Non-Default Termination Sum**” shall be an amount equal to the aggregate of:
 - (i) the Senior Debt Amount and the Senior Debt Makewhole;
 - (ii) the Junior Debt Amount;
 - (iii) any amount payable by Contracting Authority to Project Co in accordance with Sections 43.2(b) (*Consequences of a Relief Event*) and 44.2(b) (*Consequences of Force Majeure*) of the Project Agreement;
 - (iv) the Employee Termination Payments and the Subcontractor Losses (but excluding therefrom any claims for loss of profit); and
 - (v) an amount equal to the sum of the Equity Capital, less all Distributions paid on or made in respect of the Equity Capital on or before the Termination Date, provided that where such amount is negative, it shall be deemed instead to be zero;

LESS, the aggregate (without double counting) of the following, to the extent it is a positive amount:

- (vi) all credit balances on any bank accounts held by or on behalf of Project Co on the Termination Date and the value of any insurance proceeds due to Project Co or to which Project Co would have been entitled had insurance been maintained in accordance with the

requirements of the Project Agreement (save where such insurance proceeds are to be applied in reinstatement, restoration or replacement, or, in the case of third party legal liability, in satisfaction of the claim, demand, proceeding or liability or where Contracting Authority is required to procure insurances and to make proceeds available to Project Co under the Project Agreement and it has failed to do so) or sums due and payable from third parties other than sums wholly unrelated to the Project Operations, the Project and the Project Agreement (but only when received from third parties) but excluding any claims under any Subcontracts or claims against other third parties which have not been determined or have been determined but not yet paid, provided that, in such case, Project Co shall assign any such rights and claims under the Subcontracts or claims against other third parties (other than claims against other third parties wholly unrelated to the Project Operations, the Project and the Project Agreement) to Contracting Authority and, at no additional cost to Project Co, give Contracting Authority reasonable assistance in prosecuting such claims; and

- (vii) to the extent realized before the Invoice Date, the market value of any other assets and rights of Project Co (other than those transferred to Contracting Authority pursuant to the Project Agreement) less liabilities of Project Co properly incurred in carrying out its obligations under the Project Agreement as at the Termination Date, provided that no account should be taken of any liabilities and obligations of Project Co arising out of:
 - (A) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in connection with Project Co's obligations in relation to the Project; or
 - (B) agreements or arrangements entered into by Project Co other than in the ordinary course of business and on commercial arm's length terms, save to the extent that liabilities and obligations would have arisen if such agreements or arrangements had been entered into in the ordinary course of business and on commercial arm's length terms; and
- (viii) amounts which Contracting Authority is entitled to set off pursuant to Section 34.12(a)(i) (*Set-Off*) of the Project Agreement,

provided that the Non-Default Termination Sum shall never be less than the aggregate of the Senior Debt Amount, the Senior Debt Makewhole and the Junior Debt Amount.

- (c) To the extent that such assets and rights referred to in Section 4.1(b)(vii) are not realized and applied pursuant thereto, Project Co shall, on payment of the Non-Default Termination Sum, assign such assets and rights to Contracting Authority.
- (d) Contracting Authority shall pay the Non-Default Termination Sum in accordance with Section 8.

5. INTENTIONALLY DELETED

6. CONSEQUENCES OF TERMINATION FOR BREACH OF REFINANCING

6.1 Consequences

- (a) If Contracting Authority terminates the Project Agreement as a result of a Project Co Event of Default for failing to comply with Section 7.3 (*Changes to Lending Agreements and Refinancing*) of the Project Agreement or Schedule 28 – Refinancing or as a result of the Lenders assigning, transferring or otherwise disposing of any right, title or interest they may have in, or obligations they may have pursuant to, the Security Documents in breach of the Lenders’ Direct Agreement, Contracting Authority shall pay to Project Co the Breach of Refinancing Termination Sum.
- (b) The “**Breach of Refinancing Termination Sum**” shall be an amount equal to the aggregate of:
- (i) the Senior Debt Amount and the Senior Debt Makewhole;
 - (ii) the Junior Debt Amount;
 - (iii) any amount payable by Contracting Authority to Project Co in accordance with Sections 43.2(b) (*Consequences of a Relief Event*) and 44.2(b) (*Consequences of Force Majeure*) of the Project Agreement; and
 - (iv) the following amounts calculated in respect of the Construction Contractor and the Service Provider which Project Co can demonstrate will be paid directly to such persons:
 - (A) the Employee Termination Payments; and
 - (B) as applicable, the Construction Contractor’s and the Service Provider’s out-of-pocket costs incurred as a direct result of termination of the Project Agreement (excluding any breakage fees and overhead and profit of the Construction Contractor and the Service Provider, as applicable);

LESS, the aggregate (without double counting) of the following, to the extent it is a positive amount:

- (v) all credit balances on any bank accounts held by or on behalf of Project Co on the Termination Date and the value of any insurance proceeds due to Project Co or to which Project Co would have been entitled had insurance been maintained in accordance with the requirements of the Project Agreement (save where such insurance proceeds are to be applied in reinstatement, restoration or replacement, or, in the case of third party legal liability, in satisfaction of the claim, demand, proceeding or liability or where Contracting Authority is required to procure insurances and to make proceeds available to Project Co under the Project Agreement and it has failed to do so) or sums due and payable from third parties other than sums wholly unrelated to the Project Operations, the Project and the Project Agreement (but only when received from third parties) but excluding any claims under any Subcontracts or claims against other third parties which have not been determined or have been determined but not yet paid, provided that, in such case, Project

Co shall assign any such rights and claims under the Subcontracts or claims against other third parties (other than claims against other third parties wholly unrelated to the Project Operations, the Project and the Project Agreement) to Contracting Authority and, at no additional cost to Project Co, give Contracting Authority reasonable assistance in prosecuting such claims;

- (vi) to the extent realized before the Invoice Date, the market value of any other assets and rights of Project Co (other than those transferred to Contracting Authority pursuant to the Project Agreement) less liabilities of Project Co properly incurred in carrying out its obligations under the Project Agreement as at the Termination Date, provided that no account should be taken of any liabilities and obligations of Project Co arising out of:
 - (A) agreements or arrangements entered into by Project Co to the extent that such agreements or arrangements were not entered into in connection with Project Co's obligations in relation to the Project; or
 - (B) agreements or arrangements entered into by Project Co other than in the ordinary course of business and on commercial arm's length terms, save to the extent that liabilities and obligations would have arisen if such agreements or arrangements had been entered into in the ordinary course of business and on commercial arm's length terms; and
- (vii) amounts which Contracting Authority is entitled to set off pursuant to Section 34.12(a)(i) (*Set-Off*) of the Project Agreement.
- (c) To the extent that such assets and rights referred to in Section 6.1(b)(vi) are not realized and applied pursuant thereto, Project Co shall, on payment of the Breach of Refinancing Termination Sum, assign such assets and rights to Contracting Authority.
- (d) Contracting Authority shall pay such termination sum in accordance with Section 8 of this Schedule 23.

7. CONSEQUENCES OF TERMINATION BY PROJECT CO FOR RELIEF EVENT

7.1 Consequences

- (a) If Project Co terminates the Project Agreement pursuant to Section 47.1 (*Termination for Relief Event*) of the Project Agreement, Contracting Authority shall pay to Project Co a termination sum equivalent to the greater of:
 - (i) an amount calculated and payable in accordance with the Breach of Refinancing Termination Sum, provided that, with respect to the calculation of the amounts which Contracting Authority is entitled to set off pursuant to Section 34.12(a)(i) (*Set-Off*) of the Project Agreement under Section 6.1(b)(vii), Contracting Authority shall only set off amounts which are due to Contracting Authority by Project Co pursuant to the terms of the Project Agreement if and to the extent the Breach of Refinancing Termination Sum exceeds the Senior Debt Amount; and

- (ii) the Adjusted Estimated Fair Value calculated in accordance with this Schedule 23.
- (b) Contracting Authority shall pay such termination sum in accordance with Section 8.1 or 8.3, as applicable.

8. GENERAL

8.1 Payment and Interest Following Non-Project Co Default Termination

- (a) In respect of the termination payments to be made pursuant to any of Sections 2, 4, 6 or 7, as soon as practicable after, and, in any event, within thirty (30) days after, the Termination Date, Project Co shall give to Contracting Authority an invoice for the relevant termination sum and sufficient supporting evidence, reasonably satisfactory to Contracting Authority, justifying the amount of the relevant termination sum including a detailed breakdown of each of the individual items comprising such sum.
- (b) Contracting Authority shall:
 - (i) pay to Project Co the relevant termination sum within sixty (60) days after the Invoice Date; and
 - (ii) indemnify Project Co as provided in Section 56.2(c) (*Contracting Authority Indemnities to Project Co*) of the Project Agreement in respect of any damages suffered or incurred as a result of the relevant termination sum (or any part of such sum that remains outstanding) not being received on the Termination Date:
 - (A) in an amount equivalent to the No Default Payment Compensation Amount for the period from (but excluding) the Termination Date to (and including) the date which is sixty (60) days after the Invoice Date; and
 - (B) thereafter, in an amount equivalent to the Payment Compensation Amount until the date of payment.
- (c) In respect of the termination payments to be made pursuant to any of Sections 4, 6 or 7, if the applicable termination sum is negative, Contracting Authority shall have no obligation to make any payment to Project Co and Project Co shall also thereafter indemnify Contracting Authority as provided in Section 56.1(e) (*Project Co Indemnities to Contracting Authority*) of the Project Agreement in respect of any damages suffered or incurred on such amount on the basis that the due date for the payment of the negative termination sum amount was the date sixty (60) days after the Invoice Date until the date of payment in an amount equivalent to the Payment Compensation Amount.

8.2 Payment and Interest Following Project Co Default – Retendering Procedure

- (a) Subject to Section 8.2(b), following the retendering procedure set out in Section 3.3, Contracting Authority shall pay to Project Co the Adjusted Highest Qualifying Tender Price no later than the date falling thirty (30) days after the later of:

- (i) the date on which Contracting Authority enters into the New Agreement with the New Project Co; and
- (ii) if Project Co has, pursuant to Section 3.3(i), referred a Dispute relating to the Adjusted Highest Qualifying Tender Price to be resolved in accordance with Schedule 27 – Dispute Resolution Procedure, the date on which the Dispute is finally determined, provided that Contracting Authority shall pay the undisputed amount on the date referred to in Section 8.2(a)(i),

and Contracting Authority shall indemnify Project Co as provided in Section 56.2(c) (*Contracting Authority Indemnities to Project Co*) of the Project Agreement on the Adjusted Highest Qualifying Tender Price on the basis that the due date for the payment of the Adjusted Highest Qualifying Tender Price was the date on which Contracting Authority enters into the New Agreement with the New Project Co:

- (iii) in an amount equivalent to the No Default Payment Compensation Amount from the due date up to (and including) the date following thirty (30) days from after the later of the dates determined under Section 8.2(a)(i) and (ii) above (and for clarity, on such portions of the Adjusted Highest Qualifying Tender Price in the circumstance described in paragraph (ii) above); and
 - (iv) thereafter, in an amount equivalent to the Payment Compensation Amount until the date of payment.
- (b) If the Adjusted Highest Qualifying Tender Price is negative, Contracting Authority shall have no obligation to make any payment to Project Co and Project Co shall, on the date of the New Agreement, pay Contracting Authority the amount by which such termination sum is negative, failing which Project Co shall also thereafter indemnify Contracting Authority as provided in Section 56.1(e) (*Project Co Indemnities to Contracting Authority*) of the Project Agreement in respect of any damages suffered or incurred on such amount on the basis that the due date for the payment of the negative termination sum amount was the date of the New Agreement in an amount equivalent to the Payment Compensation Amount until the date of payment.

8.3 Payment and Interest Following Project Co Default – No Retendering Procedure

- (a) Subject to Section 8.3(b), if Contracting Authority follows the no retendering procedure set out in Section 3.4, Contracting Authority shall pay to Project Co the Adjusted Estimated Fair Value no later than the date falling sixty (60) days after the date on which the Adjusted Estimated Fair Value has been agreed or determined in accordance with Section 3.4, together with interest on such amount calculated in accordance with Section 8.1(b)(ii).
- (b) If the Adjusted Estimated Fair Value is negative, Contracting Authority shall have no obligation to make any payment to Project Co and Project Co shall, on the Compensation Date, pay Contracting Authority the amount by which the Adjusted Estimated Fair Value is negative, failing which Project Co shall also thereafter indemnify Contracting Authority as provided in Section 56.1(e) (*Project Co Indemnities to Contracting Authority*) of the Project Agreement in respect of any damages suffered or incurred on such amount on the basis that the due date for payment of the negative

Adjusted Estimated Fair Value was the date of the New Agreement in an amount equivalent to the Payment Compensation Amount until the date of payment.

8.4 Costs

- (a) The costs and expenses to be taken into account in the calculation of all termination sums due pursuant to this Schedule 23 shall only be such costs and expenses to the extent that they are reasonable and proper in quantum and shall have been or will be reasonably and properly incurred.

8.5 Undisputed Amounts

- (a) If the calculation of any termination amount is disputed then any undisputed amount shall be paid in accordance with this Section 8 and the disputed amount shall be dealt with in accordance with Schedule 27 – Dispute Resolution Procedure.

8.6 Outstanding Debt Amounts

- (a) Contracting Authority shall be entitled to rely on a certificate of the Lenders' Agent as conclusive as to the Senior Debt Amount, the Senior Debt Makewhole, the Junior Debt Amount and the Junior Debt Makewhole, as applicable, outstanding or payable at any relevant time.
- (b) If a receipt or other acknowledgement is given by the Lenders' Agent acknowledging or otherwise confirming receipt of payment or payments in respect of the Senior Debt Amount, the Senior Debt Makewhole, the Junior Debt Amount and the Junior Debt Makewhole, as applicable, such receipt or other acknowledgement shall discharge Contracting Authority's obligation to pay such portion of compensation due to Project Co that is equal to the amount acknowledged or confirmed.

SCHEDULE 24

EXPIRY TRANSITION PROCEDURE

ARTICLE 1. INDEPENDENT INSPECTOR

- 1.1 Not less than ninety (90) months prior to the Expiry Date, the Parties shall agree upon and, in accordance with Contracting Authority's procurement policies, engage an independent and suitably qualified and experienced person (the "**Independent Inspector**") to carry out inspections of the Ontario Line Subway pursuant to this Schedule 24.
- 1.2 Project Co and Contracting Authority shall share equally the responsibility for the payment of all fees and costs of the Independent Inspector.
- 1.3 In the event of the Independent Inspector's engagement being terminated otherwise than for full performance, the Parties shall liaise and cooperate with each other in order to appoint a replacement as soon as reasonably practicable, and in any event within ten (10) Business Days of the termination of the last Independent Inspector's engagement.
- 1.4 In the event the Parties fail to agree upon the identity of the Independent Inspector either pursuant to Section 1.1 or Section 1.3 by the specified deadline, then the Independent Inspector shall be selected as follows:
- (a) each Party shall within ten (10) Business Days thereafter select three independent and suitably qualified and experienced persons that would be acceptable to that Party as the Independent Inspector, and shall provide Notice thereof to the other Party; and
 - (b) if the Parties have both selected a common person, then such common person shall be the Independent Inspector; or
 - (c) if the Parties have not selected a common person, then the Independent Inspector shall be selected in accordance with the provisions for selecting a Member or arbitrator pursuant to Schedule 27 – Dispute Resolution Procedure, applicable *mutatis mutandis*.

ARTICLE 2. CONDITION OF THE ONTARIO LINE SUBWAY ON EXPIRY

- 2.1 Subject to the exception specified in Section 2.2, on the Expiry Date:
- (a) each element of the Ontario Line Subway (including, for the avoidance of doubt, the lands identified in the reference plan of survey produced by the post-completion survey set out in Section 25.11 (*Ontario Line Subway Reference Plans and Surveyor's Real Property Reports*) of the Project Agreement and the ground soil located on those lands) shall be in a condition which is consistent with due performance by Project Co of its obligations under the Project Agreement and, in particular, is consistent with the Ontario Line Subway having been maintained in accordance with the Project Co Services Requirements, and, with respect to the lands and the ground soil located on the lands, does not deviate from the Pre-Existing Environmental Site Conditions by reason of any Contamination for which Project Co is responsible pursuant to the Project Agreement;

- (b) each element of the Ontario Line Subway shall,
 - (i) be in good operating order (normal wear and tear excepted);
 - (ii) be capable of performing in accordance with the requirements set out in the Output Specifications; and
 - (iii) successfully complete the Ontario Line Subway Performance Demonstration in accordance with Section 3.1; and
- (c) each element of the Ontario Line Subway shall comply with Part 5 of the Project Co Services Requirements,

(collectively, the “**Expiry Transition Requirements**”).

2.2 For greater certainty, this Schedule 24 shall not apply to any New Third Party Infrastructure.

ARTICLE 3. ONTARIO LINE SUBWAY INSPECTIONS AND PERFORMANCE DEMONSTRATIONS

3.1 Project Co shall carry out a system performance demonstration,

- (a) not more than ninety (90) months and not less than eighty-five (85) months prior to the Expiry Date, at least 8 hours of Trial Running Resilience Tests as specified in Schedule 14 – Commissioning, with a maximum Scheduled Headway of **[REDACTED]**, commencing after the Saturday Late Evening Period, or as otherwise agreed between Contracting Authority and Project Co;
- (b) annually, no later than ninety (90) days prior to the anniversary of the date of the original Ontario Line Subway Condition Report (as such term is defined in Section 3.3), at least 4 hours of Trial Running Resilience Tests as specified in Schedule 14 – Commissioning, with a maximum Scheduled Headway of **[REDACTED]**, on a Sunday outside of Revenue Service Hours, or as otherwise agreed between Contracting Authority and Project Co; and
- (c) ninety (90) days prior to the anticipated date of delivery of the Final Ontario Line Subway Condition Report (as such term is defined in Section 6.1), at least 8 hours of Trial Running Resilience Tests as specified in Schedule 14 – Commissioning, with a maximum Scheduled Headway of **[REDACTED]**, commencing after the Saturday Late Evening Period, or as otherwise agreed between Contracting Authority and Project Co,

(collectively, the “**Ontario Line Subway Performance Demonstration**”)

3.2 During each Ontario Line Subway Performance Demonstration, Project Co shall:

- (a) use reasonable efforts to minimize any disruption to the Project Co Services. For clarity, all costs and expenses related to each Ontario Line Subway Performance Demonstration shall be borne by Project Co;

- (b) not carry Passengers during the Ontario Line Subway Performance Demonstration; and
 - (c) not be subject to Deductions and Failure Points in accordance with Schedule 20 – Payment Mechanism during the Ontario Line Subway Performance Demonstration.
- 3.3 The Parties shall cause the Independent Inspector to perform an inspection of the Ontario Line Subway and assess the results of the Ontario Line Subway Performance Demonstration that Project Co is required to carry out pursuant to Section 3.1, and to produce and deliver to each of the Parties a written report (a “**Ontario Line Subway Condition Report**”) not less than eighty-four (84) months prior to the Expiry Date that:
- (a) identifies the condition of the Ontario Line Subway and each element of the Ontario Line Subway in relation to the Expiry Transition Requirements, and identify whether the Ontario Line Subway has failed the Ontario Line Subway Performance Demonstration;
 - (b) assesses Project Co’s Expiry Transition Process Asset Preservation Work Schedule with the requirements defined in the Output Specifications;
 - (c) identifies any works required to ensure the Ontario Line Subway and each element of the Ontario Line Subway will meet the Expiry Transition Requirements on the Expiry Date (the “**Expiry Transition Works**”), and specifying the Contract Year in which each of those Expiry Transition Works would be required;
 - (d) specifies the Independent Inspector’s estimate of the costs that would be required to perform the Expiry Transition Works (the “**Expiry Transition Works Costs**”); and
 - (e) details how the Expiry Transition Works Costs were calculated.
- 3.4 The Parties shall cause the Independent Inspector to perform another inspection of the Ontario Line Subway and produce and deliver to each of the Parties an updated Ontario Line Subway Condition Report (each a “**Revised Ontario Line Subway Condition Report**”) on each anniversary of the date of the original Ontario Line Subway Condition Report.
- 3.5 The Asset Management Plan shall be amended and updated annually or more frequently as Contracting Authority may reasonably request to include all Expiry Transition Works and all Expiry Transition Works Costs identified in either the Ontario Line Subway Condition Report or any Revised Ontario Line Subway Condition Report not already included in the then current Asset Management Plan.
- 3.6 Project Co shall carry out the Expiry Transition Works at its own cost notwithstanding that the actual cost of the Expiry Transition Works may be higher than the Expiry Transition Works Costs.
- 3.7 Either Party may dispute the Ontario Line Subway Condition Report or any Revised Ontario Line Subway Condition Report, including the Expiry Transition Works and the Expiry Transition Works Costs, in accordance with Schedule 27 – Dispute Resolution Procedure. In the event that a final determination in accordance with Schedule 27 – Dispute Resolution Procedure specifies Expiry Transition Works or Expiry Transition Works Costs which are different than those set out

in either the Ontario Line Subway Condition Report or any Revised Ontario Line Subway Condition Report, then either the Ontario Line Subway Condition Report or any Revised Ontario Line Subway Condition Report, as the case may be, shall be deemed to be amended accordingly, as amended pursuant to Section 3.5, and all deductions and payments permitted or required by Section 4, shall be adjusted accordingly.

ARTICLE 4. PAYMENTS TO AND FROM ESCROW ACCOUNT

- 4.1 Following the date for delivery of the Ontario Line Subway Condition Report, for the purposes of Section 4.2, the Parties shall review the amount of the Expiry Transition Works Costs and the level of capital expenditure Project Co has allocated to spend in the same period pursuant to the Financial Model (the “**Expiry Rehabilitation Costs**”). Where the Expiry Transition Works Costs are greater than the Expiry Rehabilitation Costs, the difference between the Expiry Transition Works Costs and the Expiry Rehabilitation Costs shall be apportioned equally over the Payment Periods from the date the Ontario Line Subway Condition Report is to be delivered hereunder to the Expiry Date (each installment being the “**Expiry Transition Amount**”). If the Ontario Line Subway Condition Report is delivered after the date for delivery hereunder, then the first installment to be paid shall also include the amounts to be paid under the installments that would have been payable prior to the date the Ontario Line Subway Condition Report is delivered. Where the Expiry Transition Works Costs are amended pursuant to Section 3.5 or 3.7, the Parties agree that the Expiry Transition Amount shall be adjusted accordingly.
- 4.2 Subject to Sections 4.3 and 4.5, Contracting Authority may deduct the Expiry Transition Amount from each Monthly Service Payment, and pay into a separate interest bearing bank account, upon escrow terms acceptable to the Parties or in trust (the “**Escrow Account**”), the Expiry Transition Amount. If in any Payment Period, the Expiry Transition Amount is greater than the relevant Monthly Service Payment, Contracting Authority may deduct the difference between the Expiry Transition Amount and the Monthly Service Payment from the next Monthly Service Payment or from such other Payment Period as otherwise agreed between the Parties.
- 4.3 Contracting Authority shall not deduct any amount from a Monthly Service Payment as contemplated in Section 4.2 if, at such time, the funds in the Escrow Account exceed the value (based on the Expiry Transition Works Costs) of all or any part of the Expiry Transition Works (as amended) yet to be performed.
- 4.4 Project Co may from time to time, but not more often than once in any month, make written request for release of funds from the Escrow Account. Contracting Authority shall consider such request within ten (10) Business Days and if the funds in the Escrow Account exceed the value (based on the Expiry Transition Works Costs) of all or any part of the Expiry Transition Works (as amended) yet to be performed, then Contracting Authority shall pay the excess to Project Co from the Escrow Account within ten (10) Business Days thereafter, together with any interest that has accrued on such amount. Project Co shall include with its request all information reasonably required by Contracting Authority to evaluate such request.
- 4.5 Following the date of any Revised Ontario Line Subway Condition Report, the Expiry Transition Amount shall be recalculated and if the amount in the Escrow Account (being the deductions of the Expiry Transition Amount made since the Ontario Line Subway Condition Report) together

with the deductions scheduled to be made from the remaining Monthly Service Payments in accordance with Section 4.2 (and in accordance with any previous application of this Section 4.5) is less than the revised Expiry Transition Amount, then Contracting Authority may deduct such shortfall, in equal installments, from each remaining Monthly Service Payment until the Expiry Date, and pay each installment into the Escrow Account and Section 4.4 shall continue to apply until the Expiry Date.

- 4.6 As an alternative to the deductions permitted by Sections 4.2 and 4.5 or the retention of any amount in the Escrow Account pursuant to the foregoing provisions of this Section 4, Project Co may (and if, at any time, the amounts which Contracting Authority is permitted to deduct pursuant to Sections 4.2 and 4.5 is greater than the remaining Monthly Service Payments, Project Co shall), within five (5) Business Days of a written request from Contracting Authority, provide a bond or letter of credit (the “**Expiry Transition Security**”) in favour of Contracting Authority in an amount equal to the amounts which Contracting Authority is permitted to deduct pursuant to Sections 4.2 and 4.5, in a form and from a surety or bank, as applicable, acceptable to Contracting Authority.

ARTICLE 5. PROJECT CO NOT RELIEVED OF OBLIGATIONS

5.1 Notwithstanding:

- (a) any agreement of Contracting Authority to any Expiry Transition Works, Expiry Transition Works Costs or Expiry Transition Security;
- (b) any participation of Contracting Authority in any inspection under this Schedule 24; and
- (c) the complete or partial carrying out of the Expiry Transition Works,

Project Co shall not be relieved or absolved from any obligation to conduct any other inspection or to perform any other works to the extent otherwise required by the Project Agreement, including the Output Specifications.

ARTICLE 6. FINAL ONTARIO LINE SUBWAY CONDITION REPORT

6.1 The Parties shall cause the Independent Inspector to perform an inspection of the Ontario Line Subway and assess the results of the Ontario Line Subway Performance Demonstration that Project Co is required to carry out pursuant to Section 3.1, and to produce and deliver to each of the Parties a Ontario Line Subway Condition Report within thirty (30) Business Days after the Expiry Date (the “**Final Ontario Line Subway Condition Report**”) that documents whether the Ontario Line Subway met the Expiry Transition Requirements on the Expiry Date, as well as identifying any Expiry Transition Works and Expiry Transition Works Costs.

6.2 If the Final Ontario Line Subway Condition Report identifies any Expiry Transition Works, Contracting Authority may withdraw from the Escrow Account or call upon the Expiry Transition Security an amount equivalent to such Expiry Transition Works Costs, and Contracting Authority shall pay any remaining funds in the Escrow Account (including any interest accrued) to Project Co and return any remaining Expiry Transition Security to Project Co.

- 6.3 Provided that the funds in the Escrow Account and/or the Expiry Transition Security is adequate to meet Project Co's obligations in respect of the Expiry Transition Works identified in the Final Ontario Line Subway Condition Report, following any withdrawal from the Escrow Account or call upon the Expiry Transition Security in accordance with Section 6.2, Project Co shall have no further liability with respect to such Expiry Transition Works.
- 6.4 If no Expiry Transition Works are identified in the Final Ontario Line Subway Condition Report, Contracting Authority shall, within twenty (20) Business Days of receipt by Contracting Authority of the Final Ontario Line Subway Condition Report, pay the funds in the Escrow Account (including any interest accrued) to Project Co and return the Expiry Transition Security to Project Co, unless Contracting Authority disputes the Final Ontario Line Subway Condition Report, in which case the Escrow Account and Expiry Transition Security shall be dealt with as determined in accordance with Schedule 27 – Dispute Resolution Procedure.

ARTICLE 7. GENERAL TRANSITION PROCEDURE

7.1 Obligations of Project Co on Termination or Expiry

- (a) In addition to, and without limiting, the other obligations of Project Co pursuant to this Schedule 24 – Expiry Transition Procedures or the Project Agreement, on the service of a Notice of termination, or termination on the Expiry Date pursuant to Section 47.4 (*Automatic Expiry on Expiry Date*) of the Project Agreement, Project Co shall:
- (i) deliver to Contracting Authority one complete set of all Project Data and Intellectual Property relating to the Project Operations in the form, and incorporating the particulars, required by Contracting Authority; and
 - (ii) deliver to Contracting Authority all information, reports, documents, records and the like referred to in Section 37 (*Records, Information, Audit and Claims Management*) of the Project Agreement, including as referred to in Schedule 26 – Record Provisions, except where such are required by Applicable Law to be retained by Project Co or the Project Co Parties (in which case complete copies shall be delivered to Contracting Authority).

7.2 Assistance by Project Co

- (a) Without limiting the obligations of Project Co set forth in Subsection 7.1(a) and without limiting the rights of Contracting Authority as set out in Section 48.7 (*Transitional Arrangements*) of the Project Agreement: (i) during the period of such number of days selected by Contracting Authority before the Termination Date, as notified to Project Co by Contracting Authority, or (ii) during the period of seven-hundred and twenty (720) days before the Expiry Date (in each case the “**Termination Transition Period**”) and from and after the Termination Date or the Expiry Date, as applicable, and continuing for such period (not to exceed twelve (12) months) after that date as Contracting Authority specifies (the “**Post-termination Period**”), Project Co shall cooperate with Contracting Authority, to such extent as required by Contracting Authority, to complete the timely, safe, orderly, effective and efficient transition of the delivery of the Project Co Services

from Project Co to Contracting Authority or another person that all or any part of has been authorized to deliver such Project Co Services (the “**New Project Co**”) as set out in this Section 7.2.

- (b) Without limiting the generality of Subsection 7.2(a) and without limitation to any other rights of Contracting Authority in the Project Agreement including Section 48.7 (*Transitional Arrangements*) of the Project Agreement:
- (i) Project Co shall comply with all requests of Contracting Authority to provide information and data in the form, and incorporating the particulars, required by Contracting Authority, relating to Project Co’s administration and costs of performing the Project Co Services. Such information shall include information relating to the anticipated administration and cost of a transfer of all or any part of the Project Co Services to a New Project Co or Contracting Authority, as the case may be. Contracting Authority shall have the right to disclose to any prospective New Project Co any or all of the information provided under this Section 7.2(b), without disclosing to Project Co the identity of any such prospective New Project Co; and
 - (ii) during the Termination Transition Period and/or the Post-termination Period, Project Co shall comply with all requests of Contracting Authority to provide all information, records, documents, agreements and data relating, directly or indirectly, to the Project Co Services including, without limitation, such information, records, documents, agreements and data set out below in the form, and incorporating the particulars, required by Contracting Authority, relating to Project Co’s administration and cost of performing the Project Co Services:
 - (A) listing of all current and historical costs and expenses relating to the performance of the Project Co Services;
 - (B) generic human resources catalogues and position descriptions;
 - (C) training and instructor manuals for all employee positions;
 - (D) information and data related to any Project Co Intellectual Property;
 - (E) information related to contingent liabilities and threatened or pending litigation;
 - (F) Project Co’s policy and operations manuals relating to the performance of the Project Co Services;
 - (G) Project Co’s forms relating to the performance of the Project Co Services;
 - (H) true, accurate and complete copies of all subcontracts and all other agreements, understandings, indentures, contracts, leases, deeds of trust,

licenses, options, instruments or other commitments between Project Co and any persons relating to the Project Co Services;

- (I) all information relating to each employee performing the Project Co Services including description of position held, wages, salary and benefits information, hours worked and the terms of any written or oral contracts of employment; and
- (J) all technical information relating to the Project Co Services and all Project Co Intellectual Property as may be identified by Contracting Authority including, without limitation:
 - (I) data network design, configuration and architecture documents;
 - (II) data centre design, configuration, architecture and infrastructure documents;
 - (III) IT data centre equipment (e.g., servers, load balancers, etc.) design, configuration, architecture and infrastructure documents;
 - (IV) application design, configuration and architecture documents;
 - (V) source code repository with all relevant source code (e.g., applications, services, drivers, configuration scripts, scripts, etc.) and configuration management scripts and documentation;
 - (VI) telephony design, configuration, architecture and infrastructure documents;
 - (VII) desktop workstation design, configuration, architecture, infrastructure documents and software images;
 - (VIII) IT peripherals design, configuration, architecture and infrastructure documents;
 - (IX) databases;
 - (X) applications;
 - (XI) database design, configuration, architecture and infrastructure documents;
 - (XII) volume metrics; and
 - (XIII) business rules.

- (c) During the Termination Transition Period, as and when requested by Contracting Authority, Project Co shall cooperate with and provide assistance and facilities to

Contracting Authority and the New Project Co and/or any prospective New Project Co, save to the extent that the provision of such cooperation, assistance or facilities adversely interferes with Project Co's performance of the Project Co Services. If Project Co believes that the provision of such cooperation, assistance or facilities would have a material adverse effect on the Project Co Services, or would result in a material increase in costs to Project Co, Project Co shall provide notice in writing to Contracting Authority immediately. The parameters for such cooperation, assistance and facilities shall include:

- (i) communication;
 - (ii) provision to Contracting Authority of all materials and information as may be reasonably necessary for Contracting Authority to prepare and develop for use by New Project Co and/or any prospective New Project Co of a data room of the nature that would generally be made available to parties participating in a commercial transaction;
 - (iii) access to the areas of the Ontario Line Subway from which the Project Operations are being performed, including without limitation, any premises where any Project Data is stored by Project Co, provided that:
 - (A) all such access shall be during normal working hours for the purposes of general inspection and analysis of the Project Co Services; and
 - (B) those persons provided with such access shall comply with the provisions of any reasonable security requirements and/or protocols, provided that such requirements and/or protocols are not in any way in conflict, or inconsistent, with the rights of inspection to be granted to Contracting Authority in the Project Agreement or the rights of Contracting Authority, New Project Co or any prospective New Project Co to obtain all necessary information as may be reasonably required in the context of a competition or procurement for the provision of services similar to the Project Co Services;
 - (iv) access to Project Co Parties.
- (d) During the period that is not more than one-hundred and eighty (180) days prior to the expiry of the Termination Transition Period, Project Co shall facilitate for Contracting Authority, New Project Co and/or any prospective New Project Co, if requested, meetings with the non-unionized employees of Project Co who are engaged in the performance of the Project Operations prior to such persons being released from employment by Project Co. Project Co shall in no way restrict Contracting Authority or New Project Co, as the case may be, from offering employment to any non-unionized employees of Project Co who are engaged in the performance of the Project Operations. In the event any of the non-unionized employees of Project Co who are offered positions to work with Contracting Authority or New Project Co, as the case may be, accept such offers of employment, Project Co shall complete all documentation and take all steps as may be necessary in the opinion of Contracting Authority, acting reasonably, to properly

terminate such employees of Project Co including by fulfilling all severance and/or termination payment obligations required to be made and Project Co shall take all such other steps as Contracting Authority or New Project Co may reasonably require in connection with the termination of those non-unionized employees who are accepting offers of employment from Contracting Authority or New Project Co. For clarity, the rights granted to Contracting Authority or to any new employer pursuant to this Subsection 7.2(d) shall not shall relieve, release or discharge Project Co of or from its severance and/or termination payment obligations under Applicable Law arising from the termination by Project Co of any of its non-unionized employees engaged to perform the Project Operations.

- (e) During the Termination Transition Period, effective upon prior notice from Contracting Authority, Project Co shall facilitate for Contracting Authority, New Project Co and/or any prospective New Project Co meetings with any union or bargaining agent representing any one or more groups of employees performing the Project Co Services and, if such notice has been given by Contracting Authority, Project Co shall in no way restrict Contracting Authority, New Project Co and/or any prospective New Project Co, as the case may be, from participating in such discussions with any applicable union or bargaining agent. In addition, to the extent that during the Termination Transition Period Project Co and any union or bargaining agent representing any one or more groups of employees performing the Project Co Services are participating in negotiations towards a new collective agreement or an agreement governing the manner in which the employees shall perform duties and services in connection with the performance of the Project Co Services, effective upon prior notice from New Project Co, Project Co shall include as part of Project Co's bargaining team that is participating in such negotiations any representative of New Project Co, subject at all times to New Project Co having the right to participate in such negotiations under Applicable Law. For clarity, the rights granted to Contracting Authority or to any new employer pursuant to this Subsection 7.2(e) shall not shall relieve, release or discharge Project Co of or from any of its obligations under Applicable Law regarding its unionized employees engaged to perform the Project Operations.
- (f) Project Co shall use its best efforts to ensure that any Subcontractor engaged or otherwise used by Project Co to perform any of the Project Co Services complies with this Section 7.
- (g) In connection with all information, records, documents, data and other materials delivered by Project Co to Contracting Authority during the Termination Transition Period as required in Section 7 (collectively, the "**Project Co Materials**") Project Co shall deliver to Contracting Authority a certificate of an officer of Project Co addressed to Contracting Authority and New Project Co, in form and substance satisfactory to Contracting Authority, certifying, among other things, that:
 - (i) all Project Co Materials delivered to Contracting Authority and New Project Co are true, accurate and complete copies of the originals of all such Project Co Materials;

- (ii) with respect to the Project Co Materials that constitute agreements, understandings, indentures, contracts, leases, deeds of trust, licenses, options, instruments or other commitments between Project Co and any persons:
 - (A) all are in good standing and in full force and effect with no amendments and Project Co is entitled to all rights and benefits thereunder;
 - (B) Project Co has complied with all terms thereof, has paid all amounts due thereunder, has not waived any rights thereunder and no default or breach exists in respect thereof on the part of any of the parties thereto and no event has occurred which, after the giving of notice or the lapse of time or both, would constitute such a default or breach; and
 - (C) all are valid and binding obligations of the parties thereto enforceable in accordance with their respective terms; and
- (iii) other than the Project Co Materials there are no other material agreements, understandings, indentures, contracts, leases, deeds of trust, licenses, options, instruments or other commitments relating to the Project Co Services.

7.3 **Post-termination Obligations.** Without limitation to any other obligations of Project Co under Sections 7.1 and 7.2, upon the occurrence of the Termination Date or Expiry Date, as applicable:

- (a) subject to Sections 7.1 and 7.2,
 - (i) Project Co shall immediately cease to be (and shall immediately cease to represent itself to be) authorized to perform the Project Co Services; and
 - (ii) Project Co shall cease, and shall cause all Project Co Parties to immediately cease, to perform the Project Co Services, effective as of the Termination Date or Expiry Date;
- (b) Project Co shall promptly provide Contracting Authority with a list of all agreements then in force and to which Project Co is a party that relate to the performance of the Project Co Services or the subject matter of the Project Agreement (including any agreements with Project Co Parties), and copies of all such agreements as Contracting Authority requests; and
- (c) Project Co shall return to Contracting Authority all computer equipment, supporting equipment and software forming part of the Contracting Authority Intellectual Property in Project Co's possession or control.

7.4 **Public Announcements.** All public announcements by either Party concerning the termination or expiry of the Project Agreement shall be made in accordance with Schedule 18 – Communication and Public Engagement Protocol.

7.5 **Costs.** Project Co shall be solely responsible for all costs associated with the performance of its obligations pursuant to this Schedule 24.

SCHEDULE 25

INSURANCE AND PERFORMANCE SECURITY REQUIREMENTS

ARTICLE 1 CONSTRUCTION PERIOD INSURANCE COVERAGE

- 1.1 Subject to Article 8, from and after execution of the Project Agreement and, until the Substantial Completion Date, Project Co shall, at its own expense, obtain and maintain, or cause to be obtained and maintained, exclusively through the Infrastructure Ontario Construction Insurance Program (IOCIP) the following insurances as further described in Appendix A to this Schedule 25:
- (a) “All Risks” Course of Construction Property, including Boiler and Machinery;
 - (b) “Wrap-Up” Commercial General Liability and Non-Owned Automobile Liability; and
 - (c) Project Specific Pollution Liability (combined Contractors’ Pollution Liability and Pollution Legal Liability).
- 1.2 Subject to Article 8, from and after execution of the Project Agreement, until the Substantial Completion Date, Project Co shall, at its own expense, obtain and maintain, or cause to be obtained and maintained, the following insurances as further described in Appendix A:
- (a) Project Specific Professional Liability;
 - (b) Automobile Liability;
 - (c) Commercial General Liability and Non-Owned Automobile Liability (to be maintained by the Construction Contractor and each of the Subcontractors involved in the Works) with respect to off-Site/Lands operations and activities;
 - (d) Aircraft and Watercraft Liability (if any exposure);
 - (e) “All Risks” Marine Cargo (if any exposure);
 - (f) “All Risks” Contractors’ Equipment;
 - (g) Comprehensive Crime; and
 - (h) WSIB.

ARTICLE 2 OPERATIONAL TERM INSURANCE COVERAGE

- 2.1 Subject to Article 8, from and after the Substantial Completion Date and until the Termination Date, in respect of coverage for the Project Co Services during the Operational Term Project Co shall, at its own expense, obtain and maintain, or cause to be obtained and maintained, the following insurances as further described in Appendix A:

- (a) “All Risks” Property;
- (b) Boiler and Machinery;
- (c) Commercial General Liability and Non-Owned Automobile Liability;
- (d) Environmental Impairment (Pollution) Liability;
- (e) Automobile Liability;
- (f) Comprehensive Crime;
- (g) Cyber & Privacy Liability Insurance; and
- (h) WSIB.

**ARTICLE 3
NO LIMIT ON RECOVERY**

- 3.1 Notwithstanding any other provision of the Project Agreement, it is hereby agreed that the limits of liability specified in this Schedule 25 for insurance policies, whether such policies are required to be obtained (or caused to be obtained) by Metrolinx or by Project Co, shall in no way limit Project Co’s liability or obligations to Metrolinx or Metrolinx’s liability or obligations to Project Co, as applicable.

**ARTICLE 4
ADDITIONAL COVER**

- 4.1 Without prejudice to the other provisions of this Schedule 25, Metrolinx and Project Co shall, at all relevant times and at their own expense, obtain and maintain, or cause to be obtained and maintained, those insurances which they are required to obtain and maintain, or cause to be obtained and maintained, by Applicable Law, or that they consider necessary.
- 4.2 Metrolinx reserves the right to require Project Co to purchase such additional insurance coverage as Metrolinx may reasonably require. Metrolinx also reserves the right to request such higher or lower limits of insurance or otherwise alter the types of coverage requirements, their minimum amounts and deductibles (taking into consideration such matters as the nature of the Project Operations, contract value, industry standards, and availability of insurance) as Metrolinx may reasonably require from time to time. Any additional costs of such additional and/or amended insurance shall be borne by Metrolinx and any cost savings resulting from the implementation of such additional and/or amended insurance shall be for the account of Metrolinx.

**ARTICLE 5
RESPONSIBILITY FOR DEDUCTIBLES**

- 5.1 The Party responsible for the matter giving rise to a claim, to the extent responsible therefor, shall be responsible and liable for the payment of deductibles under any policy of insurance under which it is an insured party or under any policy of insurance Project Co is required to maintain (or cause

to be maintained) under this Schedule 25. In the event that responsibility for the matter giving rise to the claim is indeterminable, the First Named Insured under the policy of insurance is responsible and liable for the payment of deductibles.

ARTICLE 6 COOPERATION WITH INSURER'S CONSULTANT

- 6.1 If an insurer or an insurer's appointed consultant, for underwriting purposes or as a term of an insurance policy, needs to review any part of the performance of the Project Agreement, then Metrolinx and Project Co shall, and shall require the Contracting Authority Parties and the Project Co Parties to:
- (a) cooperate with the insurer and its consultant, including providing them with such information and documentation as they may reasonably require; and
 - (b) allow the insurer and its consultant to attend meetings between Project Co and Metrolinx (or, as applicable, and if reasonably required by the insurer, between Project Co and those engaged by or through Project Co).

ARTICLE 7 BENCHMARKING OF INSURANCE COSTS

- 7.1 For the purposes of this Article 7, the following terms shall have the following meanings:
- (a) **“Actual Relevant Insurance Cost”** means the aggregate of the annual insurance premiums reasonably incurred by Project Co to maintain (or cause to be maintained) the Relevant Insurance at the Relevant Insurance Inception Date and during the Insurance Review Period, but excluding Taxes and all broker's fees and commissions.
 - (b) **“Base Relevant Insurance Cost”** means (i) as of Commercial Close, \$[REDACTED] at the Relevant Insurance Inception Date and, thereafter, means the aggregate of the annual insurance premiums which were projected (as set out in the Financial Model) to be incurred by Project Co to maintain (or cause to be maintained) the Relevant Insurance during the Insurance Review Period, which amounts exclude Taxes and all broker's fees and commissions or (ii) as of the Relevant Insurance Inception Date, the amount reset by Contracting Authority in accordance with Section 7.2.
 - (c) **“Insurance Adjustment”** has the meaning given in Section 7.4.
 - (d) **“Insurance Cost Differential”** means an amount, based on the Joint Insurance Cost Report, equal to $(ARIC - BRIC) \pm PIC$ where:
 - ARIC is the Actual Relevant Insurance Cost;
 - BRIC is the Base Relevant Insurance Cost; and
 - PIC is any Project Insurance Change.

For the purpose of determining the Insurance Cost Differential, in the event that there is a net increase in the ARIC relative to the BRIC, the Project Insurance Change shall have a negative value and, in the event that there is a net decrease in the ARIC relative to the BRIC, the Project Insurance Change shall have a positive value and such Project Insurance Change in the case of a net decrease shall not exceed [REDACTED]% of the difference between ARIC relative to BRIC. For clarity, there is no change to the requirement outlined in Section 7.3, and the Joint Insurance Cost Report must satisfy all conditions set out in Section 7.3.

- (e) **“Insurance Review Date”** means the Relevant Insurance Inception Date and thereafter each anniversary of the Relevant Insurance Inception Date, except where such date lies beyond the end of the Project Term, in which case the Insurance Review Date shall be the last renewal date of the Relevant Insurance prior to the Expiry Date.
- (f) **“Insurance Review Period”** means a one (1) year period from the Relevant Insurance Inception Date and each subsequent one (1) year period commencing on the Relevant Insurance Inception Date, except where the end of such period lies beyond the end of the Project Term, in which case the Insurance Review Period shall be the period from the end of the penultimate Insurance Review Period to the last day of the Project Term.
- (g) **“Joint Insurance Cost Report”** has the meaning given in Section 7.3.
- (h) **“Project Insurance Change”** means any net increase or net decrease in the Actual Relevant Insurance Cost relative to the Base Relevant Insurance Cost, arising from:
 - (i) other than in respect of claims or re-ratings arising out of acts or omissions of Contracting Authority, a Contracting Authority Party, or a System User, the claims history or re-rating of Project Co or any Project Co Party;
 - (ii) the effect of any change in deductible unless:
 - (A) such change is attributable to circumstances generally prevailing in the worldwide insurance market; and
 - (B) the deductible, further to such change, is either greater than or equal to the maximum deductibles set out in this Schedule 25; and
 - (C) in respect of the Relevant Insurance, such change is not attributable to claims made as the result of acts or omissions of Project Co or any Project Co Party; and
 - (iii) any other issue or factor other than circumstances generally prevailing in the worldwide insurance market.
- (i) **“Relevant Insurance”** means all policies of insurance to be obtained (or caused to be obtained) by Project Co in accordance with Article 2.

- (j) “**Relevant Insurance Inception Date**” means the date on which the Relevant Insurance is first providing active insurance cover to Project Co and Contracting Authority being a date no earlier than the Substantial Completion Date.
- 7.2 As of the Relevant Insurance Inception Date, Contracting Authority may, in its sole discretion, reset the Base Relevant Insurance Cost to be equal to the Actual Relevant Insurance Cost for the first Insurance Review Period. If Contracting Authority does reset the Base Relevant Insurance Cost, Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation for such change in the Base Relevant Insurance Cost.
- 7.3 No later than sixty (60) days prior to each Insurance Review Date, Project Co’s insurance broker shall, at Project Co’s sole cost and expense, prepare a report on behalf of both Project Co and Contracting Authority (the “**Joint Insurance Cost Report**”), which contains the following information at the Relevant Insurance Inception Date, and thereafter for the relevant Insurance Review Period:
- (a) a full breakdown of the Actual Relevant Insurance Cost;
 - (b) the Base Relevant Insurance Cost;
 - (c) an assessment and quantification of each Project Insurance Change, together with the reasons therefor;
 - (d) the opinion of Project Co’s insurance broker as to the reasons why the Actual Relevant Insurance Cost has varied from the Base Relevant Insurance Cost, specifying the impact of each of the factors and quantifying the amount attributable to each factor;
 - (e) the calculation of the Insurance Cost Differential; and
 - (f) evidence satisfactory to Contracting Authority, acting reasonably, of any changes to circumstances generally prevailing in the worldwide insurance market that are claimed to account for the Insurance Cost Differential.
- 7.4 The Monthly Service Payment will be subject to an adjustment in the amount of the Insurance Cost Differential (the “**Insurance Adjustment**”) in accordance with Schedule 20 – Payment Mechanism.
- 7.5 At any time, Contracting Authority may, in its sole discretion, no longer require Project Co to carry or obtain all or any part of the Relevant Insurance and such change shall, subject to and in accordance with Schedule 22 – Variation Procedure, result in a Variation.

ARTICLE 8 UNINSURABLE RISKS

- 8.1 The term “**Uninsurable Risk**” means a risk, or any component of a risk, against which Project Co is required to insure pursuant to this Schedule 25 and for which, at any time after the date of the Project Agreement, either:

- (a) the insurance required pursuant to this Schedule 25 (including the terms and conditions specified for such insurance herein) is not available in relation to that risk:
 - (i) where Applicable Laws require that the insurance be licensed in the Province of Ontario to insure such a risk, by insurers licensed in the Province of Ontario; or
 - (ii) where Applicable Laws do not require that the insurance be licensed in the Province of Ontario to insure such a risk, by any insurer otherwise permitted under the terms of the Project Agreement; or
- (b) the insurance premium payable or the terms and conditions for insuring that risk are such that the risk is not generally being insured against in the worldwide insurance market.

Project Co has the onus of demonstrating, to Metrolinx's reasonable satisfaction that the foregoing definition applies to a particular risk.

- 8.2 Project Co shall notify Metrolinx as soon as possible and, in any event, within fifteen (15) Business Days of becoming aware of same, that a risk, or any component of a risk, has become an Uninsurable Risk, and shall provide Metrolinx with all relevant details in relation to such risk, including a copy of the relevant insurance policy.
- 8.3 Project Co and Metrolinx shall, as soon as possible following the provision of the notice referred to in Section 8.2, meet to discuss, in good faith, the appropriate means by which the Uninsurable Risk should be managed and, if Project Co and Metrolinx are able to agree to alternative arrangements, the Uninsurable Risk shall be managed in accordance with such alternative arrangements.
- 8.4 In the event that Project Co and Metrolinx, each acting in good faith, are unable to agree to alternative arrangements with respect to the management of an Uninsurable Risk within fifteen (15) Business Days of the expiry of the period referred to in Section 8.2, Metrolinx may, in its absolute discretion, either:
 - (a) elect to assume responsibility for the Uninsurable Risk and, in respect of the year in which the relevant risk becomes an Uninsurable Risk and every year thereafter, withhold, in equal instalments over the course of such year, from the payment or payments otherwise due to Project Co an amount equal to the annual premium (index linked) relating to the Uninsurable Risk as was current on the date immediately prior to the date on which the relevant risk became an Uninsurable Risk, in which case the Project Agreement shall continue in full force and effect; or
 - (b) terminate the Project Agreement in accordance with Section 47.2 (*Termination for Force Majeure*) of the Project Agreement as if such termination had occurred as a result of the Parties having failed to reach agreement in accordance with Section 47.2 (*Termination for Force Majeure*) of the Project Agreement following the occurrence of an event of Force Majeure, and, in accordance with the provisions of Schedule 23 – Compensation on Termination, pay to Project Co an amount equal to the Non-Default Termination Sum.
- 8.5 On the occurrence of an Uninsurable Risk, Metrolinx may, in its absolute discretion, either:

- (a) pay to Project Co an amount equal to the insurance proceeds that would have been payable to Project Co in connection with such Uninsurable Risk had the relevant insurance continued to be available, in which case the Project Agreement shall continue in full force and effect; or
 - (b) terminate the Project Agreement in accordance with Section 47.2 (*Termination for Force Majeure*) of the Project Agreement as if such termination had occurred as a result of the Parties having failed to reach agreement in accordance with Section 47.2 (*Termination for Force Majeure*) of the Project Agreement following the occurrence of an event of Force Majeure, and, in accordance with the provisions of Schedule 23 – Compensation on Termination, pay to Project Co an amount equal to the Non-Default Termination Sum.
- 8.6 With respect to any Uninsurable Risk:
- (a) Project Co shall continue to approach the insurance market on a regular basis and, in any event, at intervals of not less than one-hundred and eighty (180) days and use reasonable efforts to obtain (or cause to be obtained) insurance to cover as much or all of the Uninsurable Risk as can be insured in the available insurance market from time to time; and
 - (b) Subject to Section 8.6(a), Project Co shall be relieved of its obligation to maintain (or cause to be maintained) insurance in respect of the Uninsurable Risk.
- 8.7 Where a risk which was previously an Uninsurable Risk ceases to be so, Project Co shall, at its own expense, obtain and maintain, or cause to be obtained and maintained, insurance in accordance with the requirements of this Schedule 25 in respect of the risk and the provisions of this Section 8 shall no longer apply to such risk.
- 8.8 From and after the Substantial Completion Date, the Parties shall meet on an annual basis to review the scope of insurance coverage and deductibles provided in this Schedule 25, and may make mutually agreed changes thereto.

ARTICLE 9 DAMAGE OR DESTRUCTION

- 9.1 In the event of damage to, or destruction of, all or any part of the Ontario Line Subway and New Third Party Infrastructure for which there is coverage under an insurance policy, any insurance proceeds received by Project Co shall first be applied so as to ensure the performance by Project Co of its obligations under the Project Agreement, including, where appropriate, the reinstatement, restoration or replacement of the Ontario Line Subway or New Third Party Infrastructure or any other assets, materials or goods necessary or desirable for the carrying out of the Project Operations, all in accordance with the terms of the Insurance Trust Agreement.

ARTICLE 10 SUBCONTRACTORS

- 10.1 Project Co shall require that all Subcontractors are covered by, or obtain, the insurance described in this Schedule 25, provided that Project Co shall determine the applicable limits to be obtained

for such insurance. Project Co shall be solely responsible and liable for any damages which Metrolinx may suffer as a direct result of Project Co's failure to comply with the foregoing.

- 10.2 If Project Co receives notice that any Subcontractor employed by or through Project Co is not covered by any insurance required by this Schedule 25 to be obtained (or caused to be obtained) by Project Co, Project Co shall:
- (a) ensure that such insurance coverage is put in place;
 - (b) remove the Subcontractor from the Lands and ensure that such Subcontractor does not perform any further part of the Project Operations until after such insurance coverage is put in place; or
 - (c) if the Subcontractor cannot be covered by a particular policy as required by this Schedule 25, replace the Subcontractor with a new Subcontractor who can be covered by insurance required by this Schedule 25 or who can obtain the required insurance coverage; it being acknowledged by Project Co that the requirements and restrictions set forth in the Project Agreement regarding new and replaced Subcontractors shall be complied with.

ARTICLE 11 RENEWAL

- 11.1 Project Co shall provide to Metrolinx, at least five (5) Business Days prior to the expiry date of any policy of insurance required to be obtained (or caused to be obtained) by Project Co pursuant to this Schedule 25, evidence of the renewal of each such policy satisfactory to Metrolinx, acting reasonably.

ARTICLE 12 NAMED AND ADDITIONAL INSUREDS AND WAIVER OF SUBROGATION

- 12.1 All insurance provided by Project Co, shall:
- (a) include Project Co, Project Co Parties, Contracting Authority, the Contracting Authority Parties, IO, City and any other party specified in Appendix A as Named Insureds to the extent specified in Appendix A or as required pursuant to any agreement relating to the Project to which Project Co is a party;
 - (b) include Contracting Authority, the Contracting Authority Parties, IO, City, each Railway Company, each Utility Company, Project Co, Project Co Parties, the Lenders, the Lenders' Agent and any other party specified in Appendix A as Additional Insureds, or loss payees (as applicable) to the extent of their respective insurable interests to the extent specified in Appendix A or as required pursuant to any agreement relating to the Project to which Project Co is a party;
 - (c) except with respect to the Project Specific Professional Liability specified in Part 1 of Appendix A and Automobile Liability, Comprehensive Crime and WSIB specified in Parts 1 and 2 of Appendix A, contain a waiver of subrogation as against Contracting Authority, the Contracting Authority Parties, City and their respective shareholders, officials,

directors, officers, employees, elected officials servants, consultants (other than design consultants) and agents;

- (d) contain a breach of warranty provision whereby a breach of a condition by Project Co will not eliminate or reduce coverage for any other insured; and
- (e) be primary insurance with respect to any similar coverage provided by any insurance obtained by or available to Contracting Authority, the Contracting Authority Parties and City without any right of contribution of any insurance carried by Contracting Authority, Contracting Authority Parties and City.

ARTICLE 13

CERTIFICATES OF INSURANCE AND CERTIFIED COPIES OF POLICIES

- 13.1 Prior to the execution of the Project Agreement, Project Co will provide Metrolinx with certified copies of policies, confirming that the insurances specified in Section 1.1 have been obtained and are in full force and effect.
- 13.2 Prior to the execution of the Project Agreement, Project Co will provide Metrolinx with certificates of insurance or certified copies of policies, confirming that the insurances specified in Section 1.2 have been obtained and are in full force and effect. If certificates of insurance are provided, certified copies of the entire contents of all relevant insurance policies will be subsequently provided to Metrolinx no later than ninety (90) days after execution of the Project Agreement.
- 13.3 Prior to the commencement of any part of the Project Co Services, Project Co will provide Metrolinx with certificates of insurance or certified copies of policies, confirming that the insurances specified in Section 2.1 have been obtained and are in full force and effect. If certificates of insurance are provided, certified copies of the entire contents of all relevant insurance policies will subsequently be provided to Metrolinx no later than ninety (90) days after the Substantial Completion Date; however specimen wordings of all such insurance policies, along with the corresponding summary of coverage, limits and deductibles, must be provided to Metrolinx no later than ninety (90) days prior to the Substantial Completion Date.

ARTICLE 14

FAILURE TO MEET INSURANCE REQUIREMENTS

- 14.1 If Project Co fails to obtain or maintain, or cause to be obtained and maintained, the insurance required by this Schedule 25, fails to furnish to Metrolinx a certified copy of each policy required to be obtained by this Schedule 25 or if, after furnishing such certified copy, the policy lapses, is cancelled, or is materially altered, then Metrolinx shall have the right, without obligation to do so, to obtain and maintain such insurance itself in the name of Project Co, and the cost thereof shall either, at Metrolinx's option, be payable by Project Co to Metrolinx on demand or be deducted by Metrolinx from the next payment or payments otherwise due to Project Co.
- 14.2 If coverage under any insurance policy required to be obtained (or caused to be obtained) by Project Co should lapse, be terminated or be cancelled, then, if directed by Metrolinx, all work by Project Co shall immediately cease until satisfactory evidence of renewal is produced.

**ARTICLE 15
MODIFICATION OR CANCELLATION OF POLICIES**

- 15.1 Except as noted in Appendix A, all insurance provided by Project Co shall contain endorsements confirming that the policy will not be cancelled, adversely reduced, adversely materially altered or adversely materially amended without the insurer(s) giving at least ninety (90) days prior written notice by registered mail, at the addresses specified, to Contracting Authority, the Contracting Authority Parties, City, each Railway Company, the Lenders and the Lenders' Agent. For greater certainty, the terms "adversely reduced", "adversely materially altered" and "adversely materially amended" as used in this provision shall mean any decrease or reduction in policy limits, aggregate limits or sub-limits (other than as a result of claims under the policy), any increase in any policy deductible or self-insured retention, any reduction in the policy coverage period, cancellation or suspension of coverage with respect to any insured parties from the time the policy was issued for that policy period, addition of any exclusions or restrictions from the time the policy was issued for that policy period and any reduction or restriction in the scope of coverage provided under the policy, in all cases when such adverse reduction, adverse material alteration or adverse material amendment is initiated by the insurer.
- 15.2 All insurance provided by Project Co shall contain endorsements confirming that, in the event of cancellation for non-payment of premium, the insurer(s) will give at least fifteen (15) days prior written notice by registered mail, at the addresses specified, to Contracting Authority, the Contracting Authority Parties, City, each Railway Company, the Lenders and the Lenders' Agent.
- 15.3 With respect to Operational Term insurance, only notice of cancellation will be required for the Automobile Liability and Comprehensive Crime described in Part 2 of Appendix A.
- 15.4 With respect to insurance described in Section 1.1(a), (b) and (c), Section 1.2(e) and Sections 2.1(a), (b), (c) and (d), breach of any of the terms or conditions of the policies required to be provided by Project Co, or any negligence or wilful act or omission or false representation by an Insured under these policies, shall not invalidate the insurance with respect to Contracting Authority, IO, the Contracting Authority Parties, City, the Lenders or any other Named Insured or Additional Insured, but only to the extent that such breach is not known to these parties.

**ARTICLE 16
INSURERS**

- 16.1 All policies of insurance to be obtained (or caused to be obtained) by Project Co in accordance with this Schedule 25 shall be issued by financially sound insurers acceptable to Metrolinx and the Lenders, acting reasonably, and, where required by statute, be licensed to insure such risk in the Province of Ontario.
- 16.2 To be eligible to provide insurance, an insurer must have the capacity to provide the particular insurance and shall have current ratings from time to time of either:
- (a) a Financial Strength Rating of not lower than "A-" for three out of the previous five (5) years but not lower than "B" at any time during those five (5) years, and a Financial Size Category not lower than VII, such ratings being those established by A. M. Best Company (Best); or

- (b) a Long-Term Financial Strength Rating of not lower than “A-” for three out of the past five (5) years but not less than “BBB” at any time during those five (5) years, a Short-Term Financial Strength Rating of not lower than “A-3” for three out of the previous five (5) years and a Financial Enhancement Rating of not lower than “A-” for three out of the previous five (5) years but not less than “BB+” at any time during those five (5) years, such ratings being those established by Standard and Poor’s (S&P); or
- (c) if the insurer is not rated by Best or S&P, an insurer that is acceptable to Metrolinx and Lenders, acting reasonably, with respect to the insurances required by this Schedule 25.

**ARTICLE 17
POLICY TERMS AND CONDITIONS**

- 17.1 All policies of insurance to be obtained (or caused to be obtained) by Project Co in accordance with this Schedule 25 shall be in form and substance satisfactory to Metrolinx and its insurance advisors, acting reasonably.
- 17.2 To achieve the minimum limits for any type of insurance required under Appendix A, it is permissible to arrange the insurance under a single policy, or by a combination of primary, umbrella and/or excess policies.

**ARTICLE 18
FAILURE TO COMPLY**

- 18.1 Neither failure to comply with nor full compliance by Project Co with the insurance provisions of this Schedule 25 shall relieve Project Co of its liabilities and obligations under the Project Agreement.

**ARTICLE 19
PERFORMANCE SECURITY REQUIREMENTS**

[REDACTED]

**ARTICLE 20
INSURANCE TRUST AGREEMENT**

- 20.1 All losses under (i) the “All Risks” Course of Construction Property Insurance policy, including Boiler & Machinery Insurance carried by Project Co prior to the Substantial Completion Date; (ii) the Property Insurance carried by Project Co after the Substantial Completion Date; and (iii) the Boiler and Machinery Insurance carried by Project Co after the Substantial Completion Date, which, in each case, relate to property or equipment purchased by Metrolinx, shall be payable solely to Metrolinx and shall not be payable to the Account Trustee or distributed pursuant to the Insurance Trust Agreement.

**ARTICLE 21
INCIDENT REPORTING AND CLAIM STATEMENT**

- 21.1 Project Co shall:

- (a) maintain a written register of all damages, events, losses, circumstances, situations, claims or occurrences, including incidents which might result in a claim under any of the policies of insurance required under this Schedule 25 and of all claims made by third parties involving bodily injury, illness, death, personal injury or property damage in respect of the Project (each such incident, an “**Incident**”). Such register shall indicate the date of the Incident, the date reported to Project Co, the type of Incident, and the circumstances giving rise to the Incident. Such register shall indicate the date of the Incident, and monthly and/or quarterly updates reflecting developments in such Incident until each such Incident is resolved, completed and designated as closed;
- (b) allow Contracting Authority to inspect such register at any time and provide a copy of such register to Contracting Authority monthly and/or quarterly and on Contracting Authority’s reasonable request;
- (c) participate in monthly and/or quarterly update meetings to review developments in such Incidents as may be requested by Contracting Authority;
- (d) in collaboration with Contracting Authority, appoint a claims adjuster (“**Control Adjuster**”) to investigate and adjudicate Incidents falling or likely to fall within the insurance deductibles. Control Adjuster’s fees to be paid by Project Co;
- (e) arrange and attend quarterly claims meetings with Contracting Authority representatives, Control Adjuster, the Insurance Claims Adjuster and insurers’ representatives to review the status of all such Incidents, including any disputed or denied Incidents or claims arising therefrom;
- (f) meet with Contracting Authority at Contracting Authority’s reasonable request to discuss any such Incident;
- (g) promptly upon becoming aware of an Incident, but in any event no later than five (5) days after Project Co becomes aware of such Incident, notify Contracting Authority’s claims and insurance group, Control Adjuster and the insurers’ claim representatives assigned to the Project of the full particulars of such Incident. Project Co shall be solely responsible and liable for any claims denied by insurers, or any deductibles and self-insured retentions which Contracting Authority may suffer or become responsible for as a direct result of Project Co’s failure to comply with the incident reporting requirements;
- (h) for all claims below the deductible involving third parties and reported to Project Co (either directly or via Contracting Authority), acknowledge the claim within ten (10) days to the claimant and provide contact details for claimants to follow up on claim status with Project Co;
- (i) provide reasonable access, support, documents and information to Contracting Authority representatives, including Contracting Authority claims and insurance personnel, and Control Adjuster in respect of any Incident;
- (j) as soon as practicable but no later than seven (7) days after becoming aware of the Incident, provide reasonable access, support, documents and information to the Control Adjuster and

- any adjuster assigned by the insurer(s) (“**Insurance Claims Adjuster**”) to investigate any Incident;
- (k) comply with Contracting Authority’s reasonable requests regarding the investigation, negotiation and settlement of any such Incident or claim arising therefrom;
 - (l) without prejudice to the provisions of the Project Agreement, including Schedule 18 – Communications and Public Engagement Protocol, comply with Contracting Authority’s reasonable requests regarding communication, including communication with claimant(s) and members of the public, in respect of any such Incident and claim arising therefrom;
 - (m) upon receiving recommendations on liability and quantum from the Control Adjuster or Insurance Claims Adjuster, settle any claims (subject to Contracting Authority’s consent, not to be unreasonably withheld) falling within the deductibles, self-insured retentions or waiting periods of the policies of insurance required under the Project Agreement, using a release on terms reasonably required by Contracting Authority, and including Project Co, Contracting Authority and any parties reasonably required by Contracting Authority, as releases thereunder; and
 - (n) ensure that the Insurance Claims Adjuster or Control Adjuster, as applicable, shall provide recommendations on liability and quantum in respect of such Incidents to Project Co, the insurers (for losses in excess of the policy deductible) and to the Contracting Authority Representatives assigned in accordance with this Article 21. For clarity, Contracting Authority shall have no responsibility for the costs of any such adjuster, which shall be borne by Project Co or the insurer(s).
- 21.2 Wherever the requirements of this Article 21 are at variance with the terms and conditions of the actual insurance policy(ies), the terms and conditions of the actual insurance policy(ies) will prevail.
- 21.3 The address for provision of notice of Incidents to Contracting Authority’s claims and insurance group is as follows:

**INSURANCE ADJUSTMENTS FOR NORTH CIVIL PROJECT INFRASTRUCTURE SOUTH
CIVIL PROJECT INFRASTRUCTURE AND EARLY WORKS INFRASTRUCTURE**

1. DEFINITIONS

- 1.1 “**All Risk Insurance Premium Amount**” means the premium costs of Project Co’s “All Risks” Course of Construction Property Insurance policy.
- 1.2 “**Early Works Handover Insurance Adjustment Amount**” means an increase or decrease to the All Risk Insurance Premium Amount for an applicable Early Works Infrastructure Section, through no fault or action of Project Co, calculated in accordance with Section 6.1 of this Appendix D to this Schedule 25.
- 1.3 “**Early Works Section Handover Date**” has the meaning given in Schedule 41 – Early Works Handover.
- 1.4 “**Early Works Section Handover Notice**” has the meaning given in Schedule 41 – Early Works Handover.
- 1.5 “**IOCIP Broker of Record**” has the meaning given in the Request for Proposals.
- 1.6 “**No Earlier Than Date**” has the meaning given in Schedule 41 – Early Works Handover, Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable.
- 1.7 “**North Civil Handover Insurance Adjustment Amount**” means an increase or decrease to the All Risk Insurance Premium Amount for an applicable North Civil Infrastructure Section, through no fault or action of Project Co, calculated in accordance with Section 4.1 of this Appendix D to this Schedule 25.
- 1.8 “**North Civil Independent Certifier**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.9 “**North Civil Infrastructure Section Substantial Completion Certificate**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.10 “**North Civil Infrastructure Section Substantial Completion Date**” means the date on which North Civil Infrastructure Section Substantial Completion for a North Civil Infrastructure Section is achieved as evidenced by a North Civil Infrastructure Section Substantial Completion Certificate for such North Civil Infrastructure Section, as such date shall be stated therein.
- 1.11 “**North Civil RFP**” has the meaning given in the Request for Proposals.
- 1.12 “**PML**” has the meaning given in Section 3.2 of this Appendix D to this Schedule 25.

- 1.13 “**South Civil Handover Insurance Adjustment Amount**” means an increase or decrease to the All Risk Insurance Premium Amount for an applicable South Civil Infrastructure Section, through no fault or action of Project Co, calculated in accordance with Section 2 of this Appendix D to this Schedule 25.
- 1.14 “**South Civil Independent Certifier**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.15 “**South Civil Infrastructure Section Substantial Completion Certificate**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.16 “**South Civil Infrastructure Section Substantial Completion Date**” means the date on which South Civil Infrastructure Section Substantial Completion for a South Civil Infrastructure Section is achieved as evidenced by a South Civil Infrastructure Section Substantial Completion Certificate for such South Civil Infrastructure Section, as such date shall be stated therein.
2. **South Civil Infrastructure Section Handover**
- 2.1 Contracting Authority shall deliver to the IOCIP Broker of Record, promptly upon receipt thereof from the South Civil Independent Certifier, each South Civil Infrastructure Section Substantial Completion Certificate. The IOCIP Broker of Record shall use the South Civil Infrastructure Section Substantial Completion Date identified in the applicable South Civil Infrastructure Section Substantial Completion Certificate pursuant to Section 7.2(f) (*South Civil Infrastructure Section Substantial Completion and South Civil Infrastructure Section Handover Date*) of Schedule 42 – South Civil Infrastructure Access and Handover and the final South Civil Infrastructure Section declared value to calculate the applicable South Civil Handover Insurance Adjustment Amount and such amount shall be promptly communicated to Contracting Authority and Project Co.
- 2.2 In the event that a South Civil Infrastructure Section Handover takes place on a day prior to the applicable No Earlier Than Date, Project Co shall be entitled to include the South Civil Handover Insurance Adjustment Amount as part of the Variation set out in Section 2.1(c) (*Handover of South Civil Infrastructure Sections*) of Schedule 42 – South Civil Infrastructure Access and Handover. For clarity, Project Co shall not be entitled, in respect of such insurance adjustment, to any more or less than the South Civil Handover Insurance Adjustment Amount, which shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure.
- 2.3 In the event that a South Civil Infrastructure Section Handover takes place on a day after the applicable No Later Than Date, Project Co shall be entitled to include the South Civil Handover Insurance Adjustment Amount as part of any Delay Event and any Compensation Event set out in Section 2.1(d) (*Handover of South Civil Infrastructure Sections*) of Schedule 42 – South Civil Infrastructure Access and Handover. For clarity, Project Co shall not be entitled, in respect of such insurance adjustment, to any more or less than the South Civil Handover Insurance Adjustment Amount, which shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure.
- 2.4 In the event that a South Civil Infrastructure Section Handover takes place between the applicable No Earlier Than Date and No Later Than Date and such handover results in an increase to the South

Civil Handover Insurance Adjustment Amount as determined by the IOCIP Broker of Record pursuant to Section 2, Project Co shall be entitled to a Variation subject to and in accordance with Schedule 22 – Variation Procedure, and the amount as set out in the Variation Confirmation issued in respect of such Variation under Schedule 22 – Variation Procedure shall be no more and no less than the South Civil Handover Insurance Adjustment Amount. For clarity, the South Civil Handover Insurance Adjustment Amount shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure.

- 2.5 In the event that a South Civil Infrastructure Section Handover takes place between the applicable No Earlier Than Date and No Later Than Date and such handover results in a decrease to the South Civil Handover Insurance Adjustment Amount as determined by the IOCIP Broker of Record pursuant to Section 2, Contracting Authority shall be entitled a Variation subject to and in accordance with Schedule 22 – Variation Procedure and the amount as set out in the Variation Confirmation issued in respect of such Variation under Schedule 22 – Variation Procedure shall be equal to the South Civil Handover Insurance Adjustment Amount. For clarity, the South Civil Handover Insurance Adjustment Amount shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure. Project Co shall elect, by written notice to Contracting Authority, if:
- (a) the Substantial Completion Payment shall be reduced by the amount of the South Civil Handover Insurance Adjustment Amount; or
 - (b) Project Co intends to make a payment to Contracting Authority equal to the amount of the South Civil Handover Insurance Adjustment Amount as set out in the Variation Confirmation issued in respect of such Variation.

3. **Price Adjustments under the North Civil RFP**

- 3.1 Prior to the completion of the North Civil RFP process, Contracting Authority shall provide Project Co, promptly upon receipt thereof from North Civil Project Co, with the estimated construction values of the North Civil Project Infrastructure in accordance with the proposal under the North Civil RFP and estimated handover dates of the North Civil Project Infrastructure in accordance with Schedule 43 – North Civil Infrastructure Access and Handover. Such values and dates may differ from the values and dates provided prior to the Financial Submission Deadline, and such difference may result in an increase or decrease to the All Risk Insurance Premium Amount.
- 3.2 Following receipt of the estimated construction values and handover dates of the North Civil Project Infrastructure under Section 3.1, Project Co shall conduct an updated probable maximum loss (“PML”) study. Subject to review and acceptance of the PML study by Contracting Authority, the loss limit of Project Co’s “All Risks” Course of Construction Property Insurance policy shall be updated (as applicable) to reflect the amount established by the updated PML study. The loss limit adjustment may result in an increase or decrease to the All Risk Insurance Premium Amount.
- 3.3 If as a result of Sections 3.1 and 3.2, there is an increase to the All Risk Insurance Premium Amount, Project Co shall be entitled to a Variation subject to and in accordance with Schedule 22 – Variation Procedure, and the amount as set out in the Variation Confirmation issued in respect of such Variation, shall be equal to the increase of the All Risk Insurance Premium Amount. For clarity,

the amount set out in the Variation Confirmation issued in respect of such Variation shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure.

- 3.4 If as a result of Sections 3.1 and 3.2, there is a decrease to All Risk Insurance Premium Amount, Contracting Authority shall be entitled a Variation subject to and in accordance with Schedule 22 – Variation Procedure and the amount as set out in the Variation Confirmation issued in respect of such Variation shall be equal to the decrease of the All Risk Insurance Premium Amount. For clarity, All Risk Insurance Premium Amount shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure. Project Co shall elect, by written notice to Contracting Authority, if:
- (a) the Substantial Completion Payment shall be reduced by the amount of the cost increase; or
 - (b) Project Co intends to make a payment to Contracting Authority equal to the amount of the cost increase as set out in the Variation Confirmation issued in respect of such Variation.

4. North Civil Infrastructure Section Handover

- 4.1 Contracting Authority shall deliver to the IOCIP Broker of Record, promptly upon receipt thereof from the North Civil Independent Certifier, each North Civil Infrastructure Section Substantial Completion Certificate. The IOCIP Broker of Record shall use the North Civil Infrastructure Section Substantial Completion Date identified in the applicable North Civil Infrastructure Section Substantial Completion Certificate pursuant to Section 7.2(f) (*North Civil Infrastructure Section Substantial Completion and North Civil Infrastructure Section Handover Date*) of Schedule 43 – North Civil Infrastructure Access and Handover and the final North Civil Infrastructure Section declared value to calculate the applicable North Civil Handover Insurance Adjustment Amount and such amount shall be promptly communicated to Contracting Authority and Project Co.
- 4.2 In the event that a North Civil Infrastructure Section Handover takes place on a day prior to the applicable No Earlier Than Date, Project Co shall be entitled to include the North Civil Handover Insurance Adjustment Amount as part of the Variation set out in Section 2.1(c) (*Handover of North Civil Infrastructure Sections*) of Schedule 43 – North Civil Infrastructure Access and Handover. For clarity, Project Co shall not be entitled, in respect of such insurance adjustment, to any more or less than the North Civil Handover Insurance Adjustment Amount, which shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure.
- 4.3 In the event that a North Civil Infrastructure Section Handover takes place on a day after the applicable No Later Than Date, Project Co shall be entitled to include the North Civil Handover Insurance Adjustment Amount as part of any Delay Event and any Compensation Event set out in Section 2.1(d) (*Handover of North Civil Infrastructure Sections*) of Schedule 43 – North Civil Infrastructure Access and Handover. For clarity, Project Co shall not be entitled, in respect of such insurance adjustment, to any more or less than the North Civil Handover Insurance Adjustment Amount, which shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure.

- 4.4 In the event that a North Civil Infrastructure Section Handover takes place between the applicable No Earlier Than Date and No Later Than Date and such handover results in an increase to the North Civil Handover Insurance Adjustment Amount as determined by the IOCIP Broker of Record pursuant to Section 4.1, Project Co shall be entitled to a Variation subject to and in accordance with Schedule 22 – Variation Procedure, and the amount as set out in the Variation Confirmation issued in respect of such Variation under Schedule 22 – Variation Procedure shall be no more and no less than the North Civil Handover Insurance Adjustment Amount. For clarity, the North Civil Handover Insurance Adjustment Amount shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure.
- 4.5 In the event that a North Civil Infrastructure Section Handover takes place between the applicable No Earlier Than Date and No Later Than Date and such handover results in a decrease to the North Civil Handover Insurance Adjustment Amount as determined by the IOCIP Broker of Record pursuant to Section 4.1, Contracting Authority shall be entitled a Variation subject to and in accordance with Schedule 22 – Variation Procedure and the amount as set out in the Variation Confirmation issued in respect of such Variation under Schedule 22 – Variation Procedure shall be equal to the North Civil Handover Insurance Adjustment Amount. For clarity, the North Civil Handover Insurance Adjustment Amount shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure. Project Co shall elect, by written notice to Contracting Authority, if:
- (a) the Substantial Completion Payment shall be reduced by the amount of the North Civil Handover Insurance Adjustment Amount; or
 - (b) Project Co intends to make a payment to Contracting Authority equal to the amount of the North Civil Handover Insurance Adjustment Amount as set out in the Variation Confirmation issued in respect of such Variation.
5. **Early Works Adjustments Following Financial Close**
- 5.1 Following Financial Close, Contracting Authority may provide Project Co with the estimated construction values and estimated handover dates for any applicable Early Works Infrastructure to be handed over in accordance with Schedule 41 – Early Works Handover. Such values and dates may differ from any values and dates provided prior to the Financial Submission Deadline, and such difference may result in an increase or decrease to the All Risk Insurance Premium Amount.
- 5.2 Following receipt of any estimated construction values and handover dates of the Early Works Infrastructure under Section 5.1, Project Co shall conduct an updated PML study and subject to review and acceptance of such PML study by Contracting Authority, the loss limit of Project Co’s “All Risks” Course of Construction Property Insurance policy shall be updated (as applicable) to reflect the amount established by the updated PML study. The loss limit adjustment may result in an increase or decrease to the All Risk Insurance Premium Amount.
- 5.3 If as a result of Sections 5.1 and 5.2, there is an increase to the All Risk Insurance Premium Amount, Project Co shall be entitled to a Variation subject to and in accordance with Schedule 22 – Variation Procedure, and the amount as set out in the Variation Confirmation issued in respect of such Variation, shall be equal to the increase of the All Risk Insurance Premium Amount. For clarity,

the amount set out in the Variation Confirmation issued in respect of such Variation shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure.

- 5.4 If as a result of Sections 5.1 and 5.2, there is a decrease to All Risk Insurance Premium Amount, Contracting Authority shall be entitled a Variation subject to and in accordance with Schedule 22 – Variation Procedure and the amount as set out in the Variation Confirmation issued in respect of such Variation shall be equal to the decrease of the All Risk Insurance Premium Amount. For clarity, All Risk Insurance Premium Amount shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure. Project Co shall elect, by written notice to Contracting Authority, if:
- (a) the Substantial Completion Payment shall be reduced by the amount of the cost increase; or
 - (b) Project Co intends to make a payment to Contracting Authority equal to the amount of the cost increase as set out in the Variation Confirmation issued in respect of such Variation.

6. Early Works Infrastructure Section Handover

- 6.1 In respect of each Early Works Infrastructure Section, Contracting Authority shall deliver to the IOCIP Broker of Record the Early Works Section Handover Notice. IOCIP Broker of Record shall use the Early Works Section Handover Date identified in the applicable Early Works Section Handover Notice and the final Early Works Infrastructure Section declared value to calculate the applicable Early Works Handover Insurance Adjustment Amount and such amount shall be promptly communicated to Contracting Authority and Project Co.
- 6.2 In the event that an Early Works Section Handover takes place on a day prior to the applicable No Earlier Than Date, Project Co shall be entitled to include the Early Works Handover Insurance Adjustment Amount as part of the Variation set out in Section 2.1(c) (*Handover of Early Works Infrastructure Sections*) of Schedule 41 – Early Works Handover. For clarity, Project Co shall not be entitled, in respect of such insurance adjustment, to any more or less than the Early Works Handover Insurance Adjustment Amount, which shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure.
- 6.3 In the event that a Early Works Section Handover takes place on a day after the applicable No Later Than Date, Project Co shall be entitled to include the Early Works Handover Insurance Adjustment Amount as part of any Delay Event and any Compensation Event set out in Section 2.1(d) (*Handover of Early Works Infrastructure Sections*) of Schedule 41 – Early Works Handover. For clarity, Project Co shall not be entitled, in respect of such insurance adjustment, to any more or less than the Early Works Handover Insurance Adjustment Amount, which shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure.
- 6.4 In the event that an Early Works Section Handover takes place between the applicable No Earlier Than Date and No Later Than Date and such handover results in an increase to the Early Works

Handover Insurance Adjustment Amount as determined by the IOCIP Broker of Record pursuant to Section 6.1, Project Co shall be entitled to a Variation subject to and in accordance with Schedule 22 – Variation Procedure, and the amount as set out in the Variation Confirmation issued in respect of such Variation under Schedule 22 – Variation Procedure shall be no more and no less than the Early Works Handover Insurance Adjustment Amount. For clarity, the Early Works Handover Insurance Adjustment Amount shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure.

- 6.5 In the event that an Early Works Section Handover Date takes place between the applicable No Earlier Than Date and No Later Than Date and such handover results in an decrease to the Early Works Handover Insurance Adjustment Amount as determined by the IOCIP Broker of Record pursuant to Section 6.1, Contracting Authority shall be entitled a Variation subject to and in accordance with Schedule 22 – Variation Procedure and the amount as set out in the Variation Confirmation issued in respect of such Variation under Schedule 22 – Variation Procedure shall be equal to the Early Works Handover Insurance Adjustment Amount. For clarity, the Early Works Handover Insurance Adjustment Amount shall not include any Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure. Project Co shall elect, by written notice to Contracting Authority, if:
- (a) the Substantial Completion Payment shall be reduced by the amount of the Early Works Handover Insurance Adjustment Amount; or
 - (b) Project Co intends to make a payment to Contracting Authority equal to the amount of the Early Works Handover Insurance Adjustment Amount as set out in the Variation Confirmation issued in respect of such Variation.

SCHEDULE 26

RECORD PROVISIONS

1 General Requirements

- 1.1 Project Co shall prepare, retain and maintain, at its own expense, all the records (including superseded records) referred to in Section 2.1, as follows:
- (a) in accordance with this Section 1;
 - (b) in accordance with the Project Agreement;
 - (c) in accordance with the requirements of Good Industry Practice;
 - (d) having due regard to the guidelines and policies of the Office of the Information and Privacy Commissioner of Ontario;
 - (e) in accordance with the most stringent of Project Co's, the Construction Contractor's and the Service Provider's normal business practices;
 - (f) in accordance with Canadian GAAP;
 - (g) in chronological order;
 - (h) in electronic format in accordance with Contracting Authority's designated record keeping system;
 - (i) in sufficient detail, in appropriate categories and generally in such a manner as to enable Project Co to comply with Project Co's obligations under Section 37 (*Records, Information, Audit and Claims Management*) of the Project Agreement; and
 - (j) in a form that is capable of audit.
- 1.2 Project Co shall retain and maintain all records at the Ontario Line Subway or otherwise on the Metrolinx Lands, in addition to retaining and maintaining records referred to in Section 2.1 in electronic format on Contracting Authority's designated record keeping system.
- 1.3 Wherever practical, original records shall be retained and maintained in a hard copy and electronic form. Project Co may retain true copies of original records where it is not practical to retain original records.
- 1.4 Any drawings (including the As-Built Drawings and the Record Drawings) required to be made or supplied pursuant to the Project Agreement shall be on the most updated version of the applicable software and editable in updated base software format, and when printed, be of a size appropriate to show the detail to be depicted clearly without magnifying aids, shall be consistent in size and format to drawings previously submitted by Project Co to Contracting Authority, and shall conform to the Output Specifications, Good Industry Practice and the Canadian and Industry Standards. All drawings are to be submitted via Contracting Authority's electronic control management system,

with one hard copy provided to Contracting Authority. Project Co shall make or supply drawings and other documents in such form as has been agreed by the Parties and shall include secure back up facilities. Contracting Authority shall provide Project Co access to Contracting Authority's electronic control management system.

- 1.5 Records shall be stored in electronic format within Contracting Authority's electronic control management system where Project Co shall have access thereto and will continue to have access thereto, such that Contracting Authority will be able to read, copy, download, and search same without licence or payment.
- 1.6 Subject to Sections 1.7 and 1.8, Project Co shall retain and maintain in safe storage, at its expense, all records referred to in Section 2.1 for a minimum period of at least seven (7) years or such longer period as required by Applicable Law.
- 1.7 Project Co shall provide Notice to Contracting Authority if Project Co wishes to destroy any records referred to in this Schedule 26, or in respect of which the required period under Section 1.6 or under Applicable Law for their retention has expired. The Parties agree that:
- (a) within sixty (60) days of such Notice, Contracting Authority may elect to require Project Co to deliver such records to Contracting Authority, in which case Project Co shall, at the expense of Contracting Authority, deliver such records (with the exception of Sensitive Information) to Contracting Authority in the manner and to the location as Contracting Authority shall specify; or
 - (b) if Contracting Authority fails to notify Project Co of its election pursuant to Section 1.7(a) within such sixty (60) day period, Project Co may, at its expense, destroy such records.
- 1.8 In the event of termination of the Project Agreement prior to the Expiry Date, Project Co shall deliver all records that Project Co retains and maintains pursuant to this Schedule 26 to Contracting Authority in the manner and to the location that Contracting Authority shall reasonably specify. Contracting Authority shall make available to Project Co all the records Project Co delivers pursuant to this Section 1.8 subject to prior reasonable Notice. Project Co may deliver true copies of original records required by:
- (a) statute to remain with Project Co;
 - (b) Project Co in connection with its fulfilment of any outstanding obligations under the Project Agreement; or
 - (c) Project Co in connection with its fulfilment of any outstanding obligations under the Lending Agreements.
- 1.9 Where the termination of the Project Agreement arises:
- (a) as a result of a Contracting Authority Event of Default or pursuant to Section 47.3 (*Termination for Convenience*) of the Project Agreement, then the costs of delivering the records and the costs for retaining such records in safe storage will be borne by Contracting Authority; or

- (b) for any other cause, then the costs of delivering the records and the costs for retaining such records in safe storage for a period of at least six (6) years following the Termination Date (unless a longer period is required by Applicable Law), shall be borne by Project Co.
- 1.10 Within thirty (30) days after the end of each Contract Year, Project Co shall deliver to Contracting Authority a report, as reasonably requested by Contracting Authority in connection with Contracting Authority's financial reporting, detailing to the best of Project Co's knowledge at the time of any such report any and all liabilities, claims and demands, including contingent liabilities, claims and demands, that Project Co has or may have against Contracting Authority or that may be owing by Contracting Authority to Project Co. The Parties acknowledge and agree that the contents of any such report or the failure to mention any matter in any such report shall not limit either Party's rights or remedies against the other Party as contemplated by the Project Agreement.
- 1.11 Project Co shall provide to Contracting Authority:
- (a) within sixty (60) days of the first three fiscal quarters of Project Co in each fiscal year, part or all of which falls in a Contract Year, a copy of Project Co's unaudited management financial statements prepared in accordance with Canadian GAAP, and
 - (b) within one-hundred and twenty (120) days after the end of each fiscal year, a copy of Project Co's annual audited financial statements, in respect of that period, prepared in accordance with Applicable Law and Canadian GAAP, together with a certificate of the auditors of Project Co setting forth that they have examined such statements and have conducted a general review of accounting procedures and such tests of accounting records and other supporting evidence as they consider necessary or advisable and confirming that in their opinion such statements present fairly the financial position of Project Co and the results of its operations for the fiscal year reported on and have been defined in accordance with Canadian GAAP,

all of which documents, whether or not marked or identified as confidential or proprietary but subject to the exceptions contained in Section 52 (*Confidentiality/Communications*) of the Project Agreement, shall be treated by Contracting Authority as Confidential Information of Project Co.

2 Records To Be Kept

- 2.1 Without limiting any other requirement of the Project Agreement, Project Co shall prepare, retain and maintain at its own expense:
- (a) the Project Agreement, its Schedules and the Project Documents, including all amendments to such agreements;
 - (b) all records relating to the appointment and replacement of the Contracting Authority Representative and the Project Co Representative;
 - (c) any documents, drawings (including the As-Built Drawings and the Record Drawings) or submissions in accordance with Schedule 10 – Review Procedure;
 - (d) any documents relating to Development Approvals and other Project Co Permits, Licences, Approvals and Agreements, including any refusals and appeals relating to any applications;

- (e) a complete record of construction, recorded as geospatially accurate data, linked to specific components within the BIM model where appropriate, including:
 - (i) Traffic and Transit Management Plan and all sub-plans;
 - (ii) Construction Activities progress photography;
 - (iii) construction notices or other communications with adjacent businesses, property owners or tenants;
 - (iv) planned and unplanned interruptions of Utility Infrastructure;
 - (v) a complaints log including responses and any corrective action; and
 - (vi) any other items as requested by Contracting Authority from time to time;
- (f) all records relating to any statutory inspections of the Ontario Line Subway or the Metrolinx Lands, including any roadways and tracks, recorded as data referenced within the BIM model;
- (g) any notices, reports, results and certificates relating to any Milestone Payment Completion, Substantial Completion and Final Completion of the Works and completion of the Commissioning;
- (h) all operation and maintenance manuals, recorded as data referenced within the BIM model;
- (i) any documents relating to events of Force Majeure, Delay Events, Compensation Events, Relief Events and Excusing Causes;
- (j) all records required to be recorded and retained in accordance with Schedule 15-2 – Operations and Maintenance Requirements;
- (k) all formal notices, reports or submissions made to or received from Contracting Authority in connection with the provision of the Project Co Services, the monitoring of performance, the availability of the Ontario Line Subway, and payment adjustments;
- (l) all certificates, licences, registrations or warranties related to the performance of the Project Co Services;
- (m) the invoices for Monthly Service Payments;
- (n) all documents submitted in accordance with Schedule 22 – Variation Procedure;
- (o) any documents related to decisions resulting from the Dispute Resolution Procedure;
- (p) any documents related to a Project Co Change in Ownership or Change in Control;
- (q) any documents relating to any Refinancing;

- (r) all accounts for Taxes and transactions relating to Taxes, including in relation to HST applicable to the Project, but excluding any records for:
 - (i) Project Co's liabilities or payments under the *Income Tax Act* (Canada), the *Income Tax Act* (Ontario) or any similar statute in any other jurisdiction;
 - (ii) Project Co's liabilities or payments for capital taxes based on or measured by the capital of Project Co;
 - (iii) the withholdings of any payments by Project Co; or
 - (iv) any business or activity in addition to the business or activities related to, and conducted for, the purpose of the Project;
 - (s) the financial accounts of Project Co referred to in Section 1.11 above;
 - (t) such documents as Contracting Authority may reasonably require relating to Business Opportunities in which Contracting Authority has a right or interest;
 - (u) all records required by Applicable Law (including in relation to health and safety matters) to be maintained by Project Co with respect to the Project Operations;
 - (v) any documents relating to insurance and insurance claims;
 - (w) all Jointly Developed Materials; and
 - (x) all other records, documents, information, notices or certificates expressly required to be produced or maintained by Project Co pursuant to the Project Agreement recorded as data referenced within the BIM model.
- 2.2 Either Party may review the documents required to be prepared, retained and maintained by Project Co pursuant to Section 2.1.

SCHEDULE 27

DISPUTE RESOLUTION PROCEDURE

1. General

1.1 Definitions

- (a) In this Schedule 27, unless the context otherwise requires:
- (i) “**Adjudication**” has the meaning given in Section 3.1(a).
 - (ii) “**Adjudication Dispute**” has the meaning given in Section 3.1(a)(ii).
 - (iii) “**Adjudicator**” has the meaning given in Section 3.1(a).
 - (iv) “**Arbitration Act, 1991**” means the *Arbitration Act, 1991*, S.O. 1991, c. 17, as amended from time to time.
 - (v) “**Arbitration Referral Period**” has the meaning given in Section 4.13(a).
 - (vi) “**CDB**” has the meaning given in Section 4.1(a).
 - (vii) “**CDB Chair**” has the meaning given in Section 4.1(c).
 - (viii) “**CDB Expiry Date**” means the later of the Final Completion Date and the date that is three years following the Substantial Completion Date, as may be extended pursuant to Section 4.1(b).
 - (ix) “**CDB Member Agreement**” has the meaning given in Section 4.1(a).
 - (x) “**CDB Member Statement**” has the meaning given in Section 4.3(a).
 - (xi) “**Claimant**” has the meaning given in Section 4.6(a).
 - (xii) “**Date of Commencement**” has the meaning given in Section 4.6(b).
 - (xiii) “**Dispute**” means all disagreements, disputes, or controversies arising during or following the Project Term in relation to or arising out of the interpretation, enforceability, performance, breach, or validity of the Project Agreement or any provision of the Project Agreement, the rights or obligations of the Parties under the Project Agreement, or the exercise or failure to exercise a discretion or power given to a Party under the Project Agreement.
 - (xiv) “**Dispute Notice Supporting Documents**” has the meaning given in Section 1.6(b)(v).
 - (xv) “**Event of Default Dispute**” has the meaning given in Section 1.2(c).
 - (xvi) “**Member**” has the meaning given in Section 4.1(a).

- (xvii) “**Notice of Adjudication**” has the meaning given in Section 3.1(c).
- (xviii) “**Notice of Dispute**” has the meaning given in Section 1.6(a).
- (xix) “**Notice of Request to Arbitrate**” has the meaning given in Section 5(d).
- (xx) “**Party Executive DRP Termination Notice**” has the meaning given in Section 2(e).
- (xxi) “**Party Executive**” has the meaning given in Section 2(a).
- (xxii) “**Party Representative**” means the Contracting Authority Representative or the Project Co Representative, as the context requires.
- (xxiii) “**Project Agreement Arbitration**” has the meaning given in Section 7(a).
- (xxiv) “**Public Safety Dispute**” means any Dispute which Contracting Authority or Project Co, acting reasonably, determines involves an alleged breach of the Project Agreement by the other Party or any act or omission on the part of the other Party or any person with whom the other Party is legally affiliated or for whom the other Party is legally responsible (including a Project Co Party or a Contracting Authority Party, as applicable), which creates or can reasonably be expected to create a serious threat to the health, safety or security of any person, including any user of any part of or the whole of the Project or the Lands, or to the environment.
- (xxv) “**Reply**” has the meaning given in Section 4.7.
- (xxvi) “**Reply Period**” has the meaning given in Section 4.7(a).
- (xxvii) “**Respondent**” has the meaning given in Section 4.6(a).
- (xxviii) “**Rules of Civil Procedure**” means R.R.O. 1990, Reg. 194: Rules of Civil Procedure under the *Courts of Justice Act*, R.S.O. 1990, c. C.43, as amended from time to time.
- (xxix) “**Schedule 27 Procedural Dispute**” means a procedural Dispute regarding the interpretation of, or compliance with, this Schedule 27 (including any Dispute in respect of whether or not a Notice of Dispute complies with the requirements of Section 1.6(b)), other than with respect to any Dispute that has been or must be referred for resolution to Adjudication, arbitration or litigation in accordance with this Schedule 27, which shall be resolved as part of the underlying Adjudication, arbitration or litigation proceedings.
- (xxx) “**Statement of Case**” has the meaning given in Section 4.6(a).
- (xxxii) “**Statement of Reply**” has the meaning given in Section 4.7.
- (xxxiii) “**Technical Member**” has the meaning given in Section 4.1(c).

(xxxiii) “**Third Party Arbitration**” has the meaning given in Section 7(a).

(xxxiv) “**Third Party Litigation**” has the meaning given in Section 7(b).

1.2 Applicability of this Schedule 27

- (a) Except as otherwise provided in the Project Agreement, all Disputes shall be resolved in accordance with this Schedule 27.
- (b) Without limiting any provision of this Schedule 27, the Parties intend that all Disputes that arise:
 - (i) prior to the CDB Expiry Date, shall be resolved in accordance with Sections 1.7, and 2 to 6; and
 - (ii) on and following the CDB Expiry Date, shall be resolved in accordance with Sections 2, 5 and 6.
- (c) Notwithstanding anything set forth in this Schedule 27, and without limiting or prejudice to a Party’s rights pursuant to Section 6 or Contracting Authority’s right to terminate the Project Agreement pursuant to Section 45.3(b) (*Right to Termination*) of the Project Agreement, either Party may, by the delivery of Notice to the other Party, require that any Dispute in respect of whether a Project Co Event of Default or a Contracting Authority Event of Default has occurred under the Project Agreement or any Dispute in respect of or related to Contracting Authority’s right to terminate the Project Agreement pursuant to Section 45.3(a) (*Right to Termination*) or Section 45.4 (*Remedy Provisions*) of the Project Agreement, or Project Co’s right to terminate the Project Agreement pursuant to Section 46.2 (*Project Co’s Options*) of the Project Agreement that arises at any time during the Project Term (an “**Event of Default Dispute**”) be resolved in accordance with Section 5. Sections 1.7, 2 and 4 shall not apply to any such Event of Default Dispute.

1.3 Independent Certifier Determinations and Decisions

- (a) Save and except as set out in Section 25.3(i) (*Substantial Completion Certificate*) of the Project Agreement and Section 3, (i) no determination or decision of the Independent Certifier made pursuant to the Project Agreement shall be binding upon the Parties, and (ii) any Party may refer a Dispute in respect of any such determination or decision of the Independent Certifier for resolution pursuant to this Schedule 27.
- (b) If a Party refers a Dispute in respect of a determination or decision of the Independent Certifier made pursuant to the Project Agreement for resolution by:
 - (i) Adjudication pursuant to Section 3, the Independent Certifier shall not be permitted to be the Adjudicator in such Adjudication; or
 - (ii) the CDB pursuant to Section 4, the Independent Certifier shall not be permitted to provide its opinion as an expert to the CDB pursuant to Section 4.9(c).

1.4 Continued Performance During Disputes

- (a) Project Co and Contracting Authority shall diligently carry out their respective obligations under the Project Agreement during the pendency of any Dispute. If during the pendency of any Dispute it is considered necessary by either Party to proceed in respect of a matter that is in Dispute, then subject to Section 1.4(b), either Party may proceed without prejudice to either Party's rights under the Project Agreement in respect of the Dispute (including in respect of any entitlement of Project Co to a Delay Event, Compensation Event and/or Variation).
- (b) While a Dispute is pending (including any Schedule 27 Procedural Dispute), Contracting Authority may give such written instructions as in Contracting Authority's opinion are necessary in respect of the matter that is in Dispute, including for Project Co to proceed with the Project Operations which are the subject of the Dispute in accordance with the position of Contracting Authority, and Project Co shall comply with such written instructions forthwith.
- (c) Project Co acknowledges and agrees that (i) a pending Dispute will not justify Project Co's failure or refusal to comply with any written instructions given by Contracting Authority pursuant to Section 1.4(b), including in the event that complying with such written instructions would prevent Project Co from achieving Substantial Completion by the Scheduled Substantial Completion Date, and (ii) Project Co has no right to require a determination pursuant to this Schedule 27 of whether or not Contracting Authority is entitled to give such written instructions or whether or not Project Co is required to comply with such written instructions, before complying with such written instructions. Only concurrently with or after complying with Contracting Authority's written instructions shall Project Co be entitled to refer any such Dispute for resolution in accordance with this Schedule 27. For clarity, no Schedule 27 Procedural Dispute may be initiated in respect of any of the written instructions given by Contracting Authority issued pursuant to Section 1.4(b).
- (d) Any claims for time and/or cost consequences of complying with this Section 1.4(d) shall be addressed as part of the resolution of the applicable Dispute, provided that, in the event the matter in Dispute is determined in favour of Project Co, proceeding in accordance with Contracting Authority's written instructions pursuant to Section 1.4(b) shall (i) subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be treated as a Delay Event; (ii) subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event; and (iii) subject to and in accordance with Schedule 22 – Variation Procedure, result in a Variation.

1.5 Mutual Resolution Efforts

- (a) The Parties agree that at all times each of them will make reasonable and *bona fide* efforts to resolve any Dispute arising between them:
 - (i) in the ordinary course in accordance with the Project Agreement starting with the Project teams of the Parties; and

- (ii) if and to the extent the Project teams cannot resolve the Dispute in the ordinary course in accordance with the Project Agreement, by amicable negotiations on a without prejudice basis between the Party Representatives.
- (b) Each Party shall provide full, frank, candid and timely disclosure of relevant facts, information and documents (subject to legal privilege) as may be required by the Project Agreement or reasonably requested by the other Party to facilitate the resolution of any Dispute.
- (c) The communication of facts, documents, or information by a Party on a without prejudice basis does not relieve that Party of any obligation to deliver any facts, documents or information required under the Project Agreement.

1.6 Notice of Dispute

- (a) If the Parties are unable to resolve a Dispute pursuant to Section 1.5(a), either Party may deliver to the Party Representative of the other Party a written notice of dispute (the “**Notice of Dispute**”) in accordance with Section 1.6(b).
- (b) The Notice of Dispute must:
 - (i) expressly state that it is a “Notice of Dispute” pursuant to this Section 1.6;
 - (ii) to the extent available at the time the Notice of Dispute is delivered and following reasonable due diligence, provide particulars of the matters in Dispute sufficient to allow the Party who will receive the Notice of Dispute to understand and meaningfully respond to the Notice of Dispute;
 - (iii) describe any relief sought, including:
 1. the amount claimed, if any, or, if the amount claimed is not available, the approximate value of the claim; and
 2. any extension of time sought, or if that is not available, any anticipated extension of time sought;
 - (iv) identify whether the Dispute is a Public Safety Dispute;
 - (v) to the extent available at the time the Notice of Dispute is delivered, attach all key documents relevant to the Dispute on which the Party intends to rely for the purposes of resolving the Dispute pursuant to this Schedule 27 in the possession or control of such Party following reasonable due diligence (collectively, the “**Dispute Notice Supporting Documents**”); and
 - (vi) be signed by the Party Representative for the Party delivering the Notice of Dispute.
- (c) A Notice of Dispute must be delivered as a precondition to the Parties proceeding with any further steps contemplated in Sections 1.7 or 2 to 5.

- (d) The requirements of this Section 1.6 cannot be waived or amended except as expressly agreed by the Parties pursuant to Section 9(a).

1.7 Schedule 27 Procedural Disputes

- (a) Prior to the CDB Expiry Date, either Party may refer a Schedule 27 Procedural Dispute to the CDB for resolution in accordance with this Section 1.7 following the delivery of a Notice of Dispute in respect of the subject matter of the Schedule 27 Procedural Dispute pursuant to Section 1.6(a).
- (b) Notwithstanding anything to the contrary in this Schedule 27, no Schedule 27 Procedural Dispute shall be required to be escalated for amicable resolution by the Party Executives pursuant to Section 2,
- (c) Except as otherwise expressly set out in this Section 1.7, Sections 4.5 to 4.13 shall not apply to any Schedule 27 Procedural Dispute.
- (d) Subject to Sections 1.7(e), 1.7(f) and 4.12, the CDB shall establish the process for the resolution of any Schedule 27 Procedural Dispute, and may make such orders or give such directions as the CDB considers appropriate.
- (e) Each Party shall provide the CDB with a brief submission in writing in support of its case with regards to each Schedule 27 Procedural Dispute. The responding Party shall provide the CDB with its brief submission within five (5) Business Days of the delivery of the referring Party's brief submission or such longer period as agreed by the Parties in writing or ordered by the CDB.
- (f) The CDB shall render its decision as soon as possible and within five (5) Business Days after receiving the Parties' brief submissions with regards to a Schedule 27 Procedural Dispute, unless the CDB considers an oral hearing to be necessary, in which case the provisions of Sections 4.10(b) to 4.10(d) shall apply and the CDB shall render its decision as soon as possible and within five (5) Business Days after the conduct of the oral hearing.
- (g) The CDB may, acting reasonably and taking into account the complexity of and the prevailing circumstances related to the Schedule 27 Procedural Dispute, extend any such period by delivering written notice to the Parties.
- (h) The CDB's decision on a Schedule 27 Procedural Dispute shall be:
 - (i) made in accordance with the provisions of Sections 4.11(a) to 4.11(c) and 4.11(e); and
 - (ii) final and binding.
- (i) The Parties agree that no decision of the CDB on a Schedule 27 Procedural Dispute shall be subject to appeal, arbitration, litigation or any other dispute resolution process, and expressly waive any and all such rights in respect of each Schedule 27 Procedural Dispute resolved by the CDB.

2. Amicable Resolution by Party Executives

- (a) Upon a Party's receipt of a Notice of Dispute, the Dispute shall be escalated for amicable resolution by an executive of each Party (each a "**Party Executive**").
- (b) The selected Party Executive for each Party shall be:
 - (i) in a position of authority above that of the Party Representative; and
 - (ii) shall have or be delegated full authority to resolve the Dispute subject only to approval of the Chief Executive Officer and board of directors or similar governing or regulatory body of the Party (as applicable).
- (c) The Party Executives shall promptly, and by no later than fifteen (15) Business Days (or such longer period agreed by the Parties in writing) from the date of the receiving Party's receipt of the applicable Notice of Dispute, meet and make reasonable and *bona fide* efforts to resolve the Dispute.
- (d) All discussions and negotiations held, and all communications exchanged, between the Parties in connection with the Party Executive negotiations shall be on a without prejudice basis to facilitate the resolution of the Dispute.
- (e) Either Party may terminate the process of amicable resolution by the Party Executives by providing Notice of termination of such process (each a "**Party Executive DRP Termination Notice**") at any time:
 - (i) if the initial Party Executive meeting does not occur by the expiry of the period set out in Section 2(c); or
 - (ii) ten (10) Business Days after the initial Party Executive meeting described in Section 2(c).
- (f) The requirements of this Section 2 cannot be waived or amended except as expressly agreed by the Parties pursuant to Section 9(a).

3. Adjudication

3.1 Referral to Adjudication

- (a) Subject to Section 1.3(b), either Party may refer a Dispute to a qualified and independent representative of the Independent Certifier for determination by adjudication, or otherwise to a qualified and independent adjudicator listed by the "Authorized Nominating Authority" designated pursuant to the *Construction Act*, (in either case, the "**Adjudicator**") in accordance with this Section 3 ("**Adjudication**") and the *Construction Act* (Ontario), provided that the Dispute:
 - (i) relates to the Works and arises prior to Final Completion; and

- (ii) is a matter pursuant to which there is a statutory right to submit such matter to adjudication in accordance with and to the extent set out in the *Construction Act* (Ontario) (each an “**Adjudication Dispute**”).
- (b) The Parties confirm that they have reviewed sections 13.5(1)1. to 13.5(1)6. (inclusive) of the *Construction Act* (Ontario), and agree that:
 - (i) their interpretation of such provisions is that such provisions do not apply to any claim for delay, disruption or acceleration, or any claim for:
 - 1. a Delay Event;
 - 2. determination of any entitlement under the Project Agreement to a Compensation Event, an Excusing Cause, a Relief Event, or an event of Force Majeure; or
 - 3. determination as to whether:
 - a. a Party is obligated pursuant to the Project Agreement to proceed with a Variation; or
 - b. any works subject to a Dispute are Works under the Project Agreement or whether Project Co is entitled to a Variation in respect of such works; and
 - (ii) they shall not refer to Adjudication, and do not agree to Adjudicate pursuant to section 13.5(1)7. of the *Construction Act* (Ontario), any matter described in Section 3.1(b)(i).
- (c) The Party referring an Adjudication Dispute for Adjudication by the Adjudicator shall deliver to the Adjudicator and the other Party a written notice of Adjudication (each, a “**Notice of Adjudication**”) in accordance with the requirements of the *Construction Act* (Ontario).
- (d) The responding Party may deliver to the Adjudicator and the other Party a response to the Notice of Adjudication. The Parties agree that the responding Party shall have at least twenty-one (21) days within which to deliver its response, or such further time specified by the Adjudicator, giving consideration to the Notice of Adjudication, the amount in dispute, and the principles of fairness, including ensuring that the responding Party has a reasonable amount of time to review and respond to any documents the referring Party intends to rely on during the Adjudication included in the Notice of Adjudication (including any Dispute Notice Supporting Document that was not previously disclosed in the Notice(s) of Dispute (if available)).
- (e) The Parties shall consent to any request by the Adjudicator to extend the deadline for the Adjudicator’s determination in accordance with Section 13.13(2)(a) of the *Construction Act* (Ontario), and shall agree to any extension reasonably requested by a Party to extend the deadline for the Adjudicator’s determination pursuant to Section 13.13(2)(b) of the *Construction Act* (Ontario).

3.2 Powers of the Adjudicator During Adjudication

- (a) In conducting an Adjudication, the Adjudicator shall have the powers granted to adjudicators by the *Construction Act* (Ontario), and:
 - (i) shall act impartially;
 - (ii) may conduct the Adjudication in the manner the Adjudicator determines appropriate in the circumstances, subject to the obligation to conduct the Adjudication in an impartial manner and subject to any joint procedural directions delivered jointly by Project Co and Contracting Authority;
 - (iii) may issue directions respecting the disclosure of documents which a party intends to rely on or that a party has requested from another party in the Adjudication in a manner that ensures that each party to the Adjudication has an opportunity to review such documents, and with regard to principles of proportionality and the desire of the parties for a cost-effective process;
 - (iv) may refuse to hear the Adjudication if the preconditions to bringing an Adjudication Dispute to Adjudication have not yet been met; and
 - (v) shall make a determination of the matter that is the subject of an Adjudication on the basis of applicable laws and the Project Agreement.

3.3 Review of Adjudicator's Determination

- (a) Any Party that is dissatisfied with a determination of the Adjudicator may, within thirty (30) days of the release of the Adjudicator's determination (or such longer period agreed by the Parties, acting reasonably), deliver a Notice of Request to Arbitrate the Dispute pursuant to Section 5(d). In such an event, the determination of the Adjudicator shall be reviewed *de novo* by an arbitration tribunal in accordance with Section 5. If neither Party delivers a Notice of Request to Arbitrate the Dispute pursuant to Section 5(d) before the expiry of such period, or if any arbitration that is commenced pursuant to Section 5 is subsequently abandoned in writing by the Parties before an arbitral award is made pursuant to Section 5, then the determination of the Adjudicator shall be final and binding on the Parties.
- (b) The Parties agree that any determination of the Adjudicator that becomes final and binding on the Parties in accordance with Section 3.3(a) shall not be subject to appeal, arbitration, litigation or any other dispute resolution process and expressly waive any and all such rights in respect of the Dispute resolved by the Adjudicator.

4. Combined Dispute Board

4.1 Appointment of the CDB

- (a) The Combined Dispute Board (“CDB”) shall be a standing body composed of three members appointed in accordance with this Schedule 27 (each a “Member”). On or before Financial Close, the CDB shall be constituted by a written agreement between the Parties and each of the Members substantially in the form set out in Appendix B to this

Schedule 27 and executed and delivered in accordance with Schedule 2 – Completion Documents (each a “**CDB Member Agreement**”).

- (b) The CDB shall remain constituted until the CDB Expiry Date, provided that the CDB shall be reduced to one Member (the CDB Chair) following the Final Completion Date unless the Parties otherwise agree. The Parties may agree in writing to extend the term of the CDB, and shall agree in writing to any extensions necessary in order to obtain CDB decisions in relation to Disputes referred to that form of CDB (i.e. one member or three member) which remain outstanding upon the scheduled reduction of the number of CDB members or the end of the CDB term, as applicable.
- (c) Unless otherwise agreed by the Parties in writing:
 - (i) two Members shall have technical and/or senior managerial expertise relevant to the Project (each a “**Technical Member**”); and
 - (ii) the third Member, who shall be the chair of the CDB, shall have significant experience in construction law and shall be either: (A) a lawyer who is licensed to practice law in Ontario or another province of Canada other than Quebec; or (B) an ex-judge or master of a superior court in Ontario or another province of Canada other than Quebec providing adjudication, arbitration and/or mediation services in Ontario or another province of Canada (the “**CDB Chair**”).
- (d) Each Member shall be independent, impartial and, unless otherwise agreed by the Parties in writing, experienced in resolving and deciding disputes of a type, complexity and value commensurate with the potential Disputes that could be referred to the CDB.
- (e) Each Party shall appoint a Technical Member of its choice on or prior to Financial Close, and shall deliver to the other Party a CDB Member Statement for that Member upon appointment in accordance with Schedule 2 – Completion Documents.
- (f) The Parties shall jointly appoint the CDB Chair on or prior to Financial Close, and deliver a CDB Member Statement for the CDB Chair upon appointment in accordance with Schedule 2 – Completion Documents.
- (g) Before commencing CDB activities, each Member shall sign with the Parties a CDB Member Agreement. The CDB Member Agreement may be terminated in accordance with the CDB Member Agreement.

4.2 Replacement of a Member

- (a) When a Member must be replaced due to death, incapacity, resignation, termination or removal, a new Member shall be appointed within thirty (30) days of the need for replacement arising, in the same manner as the Member being replaced was originally selected in accordance with this Schedule 27, unless otherwise agreed by the Parties in writing. All actions taken by the CDB prior to the replacement of a Member shall remain valid. When one Member is to be replaced, the other Members shall continue to be Members, but shall not hold hearings or issue CDB decisions without the agreement of the Parties in writing prior to the replacement of the Member.

- (b) If a Party fails to appoint a replacement Technical Member and the Parties cannot agree on an alternative Technical Member within the period of time set out in Section 4.2(a), either Party may refer the appointment of that Technical Member or the alternative Technical Member for a court determination pursuant to Section 6(b).
- (c) If the Parties are unable to appoint a replacement CDB Chair within the period of time set out in Section 4.2(a), either Party may refer the appointment of the replacement CDB Chair for a court determination pursuant to Section 6(b).

4.3 Impartiality of the Members

- (a) Every prospective Member shall sign a statement of acceptance, availability, impartiality and independence and disclose in writing to the Parties and the other Members, any facts or circumstances which might call into question the Member's independence in the eyes of the Parties or give rise to reasonable doubts as to the prospective Member's impartiality, substantially in the form set out in Appendix A to this Schedule 27 (the "**CDB Member Statement**").
- (b) A Member shall immediately disclose in writing to the Parties any facts or circumstances concerning the Member's impartiality or independence which may arise in the course of such Member's tenure.
- (c) Should any Party wish to challenge a prospective or current Member on the basis of an alleged lack of impartiality, independence or qualifications, it may, as soon as practicable after learning of the facts upon which the challenge is based, submit to the CDB and the other Party a request for a decision upon the challenge including a written statement of such facts.
- (d) If the challenged prospective or current Member does not withdraw, and the other Party does not agree to the challenge, either Party may refer the matter for a court determination pursuant to Section 6(b).
- (e) No Party shall challenge a current Member on the basis of an alleged lack of impartiality or independence as a result of the Member carrying out its duties under the CDB Member Agreement, including the provision of without prejudice dispute resolution assistance.
- (f) If a prospective or current Member is successfully challenged, the prospective Member shall not be appointed, or the current Member shall be removed forthwith from the CDB and the CDB Member Agreement, if any, between that Member and the Parties shall be automatically terminated.

4.4 Ongoing Project Monitoring by the CDB

- (a) The Parties shall fully cooperate with the CDB and communicate information to it in a timely manner.
- (b) The Parties shall ensure that the CDB is kept informed of the performance of the Parties' obligations under the Project Agreement and of any Disputes arising in the course thereof by such means as reports or Notices issued by the Parties in respect of the Project

Operations, and meetings and participation in site visits. In particular, the CDB shall receive copies of any and all:

- (i) amendments to the Project Agreement and Variation Confirmations;
- (ii) Notices of Dispute;
- (iii) Works Reports;
- (iv) IC Monthly Reports and IC Quarterly Reports (as such terms are defined in the Independent Certifier Agreement);
- (v) Proceeding at Risk Notices;
- (vi) Notices delivered to Project Co by Contracting Authority pursuant to Section 14.1(a) (*Failure to Maintain Schedule for the Works*) of Schedule 12 – Works Schedule Requirements;
- (vii) Notices of, and responses to Notices of, Delay Events, Compensation Events, Relief Events, Excusing Causes, and events of Force Majeure;
- (viii) the Substantial Completion Certificate, the Final Completion Certificate, and the other Notices and documents provided by each of the Parties and the Independent Certifier pursuant to Sections 25.3 (*Substantial Completion Certificate*), 25.5 (*Substantial Completion Countdown Notice and Substantial Completion Deliverables*), 25.6(d) (*Minor Deficiencies*), 25.8(a) (*Failure to Rectify Minor Deficiencies*), 25.9A (*Final Completion Countdown Notice*) and 25.9 (*Final Completion Certificate*) of the Project Agreement;
- (ix) Monthly Performance Monitoring Report and Payment Adjustment Reports;
- (x) Annual Energy Reports;
- (xi) Annual Insurance Reports; and
- (xii) such other Project documentation, Notices, and communications that either Party reasonably believes will assist to keep the CDB informed of the performance of the Project Agreement and of any Disputes arising in the course thereof,

at the same time they are delivered in accordance with the Project Agreement, from the Party that is delivering the document.

- (c) The CDB shall, in consultation with the Parties, establish a schedule of meetings and site visits (which may be conducted via teleconference or videoconference). The frequency of scheduled meetings and site visits shall be sufficient to keep the CDB informed of the performance of the Project Agreement and of any Disputes, but shall be at least monthly beginning as of [REDACTED] unless otherwise agreed by the Parties and the CDB in writing. The Parties and the CDB shall attend all such meetings and site visits. In the event that a Party fails to attend, the CDB and the other Party may nevertheless decide to proceed,

provided that the CDB and the other Party shall not be permitted to discuss any Dispute referred to the CDB for resolution pursuant to Section 4.5(a) at such meeting or site visit.

- (d) The CDB shall, after consultation with the Parties, inform them in writing of the nature, format and frequency of any further documents delivered pursuant to the Project Agreement that shall be sent by the Parties to the CDB.
- (e) During scheduled meetings and site visits, the CDB shall review the performance of the Parties' obligations under the Project Agreement with the Parties. The Parties may at any time by agreement in writing request that the CDB (i) provide informal assistance to the Parties with regards to avoiding or addressing Disputes; or (ii) mediate any Dispute. All such reviews by the CDB and any informal assistance or mediation provided by the CDB pursuant to this Section 4.4(e) is provided on a without prejudice basis and shall not be considered or referred to if a Dispute is submitted for resolution in any subsequent dispute resolution processes or proceedings.
- (f) Each Party is required to copy the other Party in all written communications in respect of the Project it provides to a Member. Unless otherwise agreed by the Parties in writing or as provided in Sections 4.4(c) and 4.10(d), no Party shall have any conversation or any meeting with any Member in respect of the Project without the other Party being included in such conversation or being present at such meeting.

4.5 CDB to Resolve Disputes

- (a) If the Parties are unable to resolve a Dispute other than a Schedule 27 Procedural Dispute prior to the CDB Expiry Date through amicable resolution by the Party Executives pursuant to Section 2 and a Party delivers a Party Executive DRP Termination Notice to the other Party, then subject to Section 3, either Party may in writing refer the Dispute to the CDB for resolution.

4.6 Statement of Case

- (a) The Party referring a Dispute to the CDB pursuant to Section 4.5(a) (the “**Claimant**”) shall submit a concise written statement of its case (the “**Statement of Case**”) to the responding Party (the “**Respondent**”) and the CDB within thirty (30) days (or such longer period agreed by the Parties in writing, acting reasonably) of a Party's referral of the Dispute to the CDB for resolution. The Statement of Case shall only include:
 - (i) the Notice of Dispute, including the Dispute Notice Supporting Documents;
 - (ii) the issues submitted to the CDB for decision;
 - (iii) a statement of the Claimant's position, including a statement of relevant facts and law; and
 - (iv) any amendments, updates, additions to, or deletions from the Notice of Dispute or the Dispute Notice Supporting Documents.

- (b) The date on which the Statement of Case is received by the CDB Chair shall be deemed to be the date of the commencement of the CDB proceeding (the “**Date of Commencement**”).
- (c) If the Claimant provides any material amendment, update, addition to, or deletion from the Notice of Dispute or the Dispute Notice Supporting Documents pursuant to Section 4.6(a)(iv), then the CDB shall permit the Respondent a reasonable amount of time to review and respond to such material amendment, update, addition to, or deletion from the Notice of Dispute or the Dispute Notice Supporting Documents, and shall extend the Reply Period accordingly pursuant to Section 4.7(b)(i).
- (d) Unless the CDB orders otherwise, the Claimant shall not be entitled to rely upon any documents other than the documents contained in its Statement of Case. In the event that the CDB permits the Claimant to rely on any additional documents, the CDB shall permit the Respondent a reasonable amount of time to review and respond to such additional documents.

4.7 Statement of Reply

- (a) Subject to Section 4.7(b), within thirty (30) days of the Date of Commencement (the “**Reply Period**”), the Respondent shall deliver to the Claimant and the CDB a concise written statement of its reply to the Statement of Case (the “**Statement of Reply**”). The Statement of Reply shall only include:
 - (i) a statement of the Respondent’s position, including a statement of relevant facts and law;
 - (ii) the issues submitted to the CDB for a decision; and
 - (iii) any documents not contained in the Statement of Case on which the Respondent intends to rely.
- (b) The Reply Period may be extended to permit the Respondent additional time to provide its Statement of Case by:
 - (i) order of the CDB (including pursuant to Section 4.6(c) or Section 4.6(d)); or
 - (ii) agreement of the Parties, acting reasonably.

4.8 Additional Documents Required by the CDB

- (a) The CDB may at any time request a Party to submit additional written statements or documentation within a reasonable amount of time to assist the CDB in preparing its decision. Each such request shall be communicated in writing by the CDB to the Parties, and any additional written statements or documentation submitted in response to the CDB’s request shall be submitted to the CDB and the other Party. The CDB shall permit the other Party a reasonable amount of time to review and respond to such additional written statements or documentation.

4.9 Evidence and Powers of the CDB

- (a) Subject to Section 4.9(b), the CDB shall decide Disputes based on the Parties' Statement of Case and Statement of Reply and any additional documents and responses delivered pursuant to any of Sections 4.6(c), 4.6(d) or 4.8(a).
- (b) If there are any material factual disputes between the Parties or other issues arising from the Parties' Statement of Case or Statement of Reply, the CDB may order such additional procedural steps or give such directions as the CDB considers appropriate to address such disputes or other issues, with a view to proportionality and the Parties' desire to resolve Disputes in a cost-effective and expeditious manner.
- (c) Without limiting Section 4.9(b), the CDB may, if necessary, appoint one or more experts after considering the positions of the Parties or, subject to Section 1.3(b), obtain and consider the opinion of the Independent Certifier, as an expert.

4.10 Hearings

- (a) The CDB shall order that a hearing in respect of the Dispute take place unless the Parties and CDB agree in writing that a hearing is not required.
- (b) The hearing shall be conducted in Toronto, Ontario or by teleconference or videoconference on written agreement of the Parties and the CDB.
- (c) The Parties shall appear through duly authorized representatives. In addition, the Parties may be assisted or represented by advisers and legal counsel.
- (d) If any Party refuses or fails to take part in the CDB hearing or in any preceding steps, the CDB may proceed notwithstanding such refusal or failure.
- (e) The CDB may request that the Parties provide and exchange summaries of their argument in advance of the hearing.
- (f) Subject to the discretion of the CDB, the hearing shall proceed as follows:
 - (i) the Claimant shall present its case;
 - (ii) the Respondent shall present its case; and
 - (iii) the Claimant shall have an opportunity to reply.

4.11 Basis for Decision

- (a) The CDB shall make decisions based on the Project Agreement and the law applicable to the Dispute.
- (b) The CDB may take into account:

- (i) any failure of a Party to comply with the Project Agreement, including any of its mitigation obligations or its procedural obligations under this Schedule 27; and
 - (ii) any unreasonable delay of the Claimant in bringing its claim, including any unreasonable delay that prevented or prejudiced the Respondent's proper investigation of, opportunity for mitigation of, or ability to respond to the claim.
- (c) A decision of the CDB shall be in writing and state the findings, reasons, and determination of the CDB and include:
- (i) a summary of the Dispute, the positions of the Parties and the decision requested; and
 - (ii) a summary of the relevant provisions of the Project Agreement and the relevant facts and law considered by the CDB.
- (d) The CDB shall issue its decision promptly and, in any event, within thirty (30) days after the hearing unless the Parties consent in writing to an extension, which consent shall not be unreasonably withheld. Failure to issue a decision of the CDB within the time allowed does not invalidate the decision.
- (e) The CDB shall make its decision by a majority of the Members. Any Member who disagrees with the decision shall give the reasons for such disagreement in a separate written document that shall form part of the decision but which shall not be binding on the Parties.

4.12 Costs

- (a) All Member fees and expenses and any other costs associated with the establishment and activities of the CDB (including in relation to obtaining CDB decisions and the cost of any experts appointed pursuant to Section 4.9(c)) shall be [REDACTED] and paid by the Parties in accordance with each CDB Member Agreement, unless otherwise agreed by the Parties in writing or ordered by the CDB.
- (b) Each Party shall bear its own costs associated with Disputes referred to the CDB for a decision.

4.13 Subsequent Dispute Resolution Procedure to the CDB

- (a) Any Party that is dissatisfied with a decision of the CDB other than a decision on a Schedule 27 Procedural Dispute may, within thirty (30) days of the release of the CDB's decision (or such longer period agreed by the Parties, acting reasonably) (the "**Arbitration Referral Period**"), deliver a Notice of Request to Arbitrate the Dispute pursuant to Section 5(d). The decision of the CDB shall be stayed during the Arbitration Referral Period. If the Dispute is arbitrated pursuant to Section 5, the arbitration tribunal shall conduct the arbitration *de novo* and the decision of the CDB shall not, subject to the following sentence, be binding on the Parties. If neither Party delivers a Notice of Request to Arbitrate the Dispute pursuant to Section 5(d) before the expiry of the Arbitration Referral Period, or if any arbitration that is commenced pursuant to Section 5 is subsequently abandoned by the

Parties in writing before an arbitral award is made pursuant to Section 5, then the decision of the CDB shall be final and binding on the Parties.

- (b) The Parties agree that any decision of the CDB that becomes final and binding on the Parties in accordance with Section 4.13(a) shall not be subject to appeal, arbitration, litigation or any other dispute resolution process and expressly waive any and all such rights in respect of the Dispute resolved by the CDB.

5. Arbitration

- (a) Prior to the CDB Expiry Date, if the Parties fail to resolve a Dispute through the processes set out in Sections 2 and 3 or Sections 2 and 4 (if and as applicable) and where no final and binding Adjudication determination or final and binding CDB decision exists in respect of the Dispute, then, subject to Section 1.2(c), the Dispute shall be resolved by *de novo* arbitration in accordance with this Section 5.
- (b) On and following the CDB Expiry Date, if the Parties fail to resolve the Dispute through the process set out in Section 2 and where no final and binding Adjudication determination or final and binding CDB decision exists in respect of the Dispute, then, subject to Section 1.2(c), the Dispute shall be resolved by *de novo* arbitration in accordance with this Section 5.
- (c) At any time during the Project Term, if either Party delivers a Notice to the other Party pursuant to Section 1.2(c), then such Dispute shall be resolved by arbitration in accordance with this Section 5, and pursuant to an expedited process and timetable to be agreed to by the Parties in writing, or as ordered by the arbitral tribunal with regard to the prevailing circumstances.
- (d) Either Party may deliver a Notice of request to arbitrate a Dispute eligible to be referred to arbitration in accordance with this Schedule 27 (each a “**Notice of Request to Arbitrate**”).
- (e) A Notice of Request to Arbitrate will not be effective unless it:
 - (i) is signed by the Party Representative;
 - (ii) if applicable, is delivered to the other Party Representative within the period of time set out in Section 3.3(a) or Section 4.13(a) following the release of any applicable Adjudication decision or CDB decision;
 - (iii) indicates it is a Notice of Request to Arbitrate pursuant to Section 5(d); and
 - (iv) expressly identifies the Dispute to be arbitrated.
- (f) The *Arbitration Act, 1991* shall apply to an arbitration pursuant to this Section 5.
- (g) A Dispute referred to arbitration shall be resolved by a single arbitrator unless:
 - (i) the Parties otherwise agree in writing; or

- (ii) one of the Parties, by Notice delivered to the other Party within seven (7) days after delivery of a Notice of Request to Arbitrate, requires the Dispute to be resolved by a three person arbitral tribunal, in which case the Dispute shall be resolved by a three person arbitral tribunal.
- (h) If the arbitral tribunal is comprised of a single arbitrator:
 - (i) the Parties shall jointly appoint the arbitrator; and
 - (ii) if the Parties are unable to agree on the arbitrator within thirty (30) days after delivery of the Notice of Request to Arbitrate, either Party may apply to the Ontario Superior Court of Justice to appoint the arbitrator pursuant to the *Arbitration Act, 1991*.
- (i) If the arbitral tribunal is comprised of three arbitrators:
 - (i) each Party shall appoint one arbitrator and the first two arbitrators shall jointly appoint the third arbitrator, who shall act as the chair; and
 - (ii) if the Parties have not appointed an arbitrator or arbitrators pursuant to Section 5(i)(i) or if the Parties or the arbitrators are unable to agree on the third arbitrator within thirty (30) days after delivery of the Notice of Request to Arbitrate, either Party may apply to the Ontario Superior Court of Justice to appoint the remaining arbitrator(s) pursuant to the *Arbitration Act, 1991*.
- (j) All arbitrators must have qualifications and experience relevant to the issues in the Dispute commensurate with the nature, complexity and value of the Dispute(s) to be arbitrated.
- (k) No one shall be nominated or appointed to act as an arbitrator who is or was within the past five years in any way interested, financially or otherwise, in the conduct of the Project Operations or in the business affairs of Contracting Authority, Project Co, or any consultant, subconsultant or subcontractor of any of them who may be involved or implicated in the Dispute.
- (l) Unless otherwise agreed by the Parties, the seat and venue of the arbitration shall be Toronto, Ontario. The language of the arbitration shall be English.
- (m) The arbitral tribunal shall render its award as soon as possible and no later than sixty (60) days after the date of the closure of the hearing, or such other period of time as agreed to by the Parties in writing and accepted by the arbitral tribunal.
- (n) The costs of the arbitration are within the discretion of the arbitral tribunal. In exercising discretion to award costs, the arbitrator(s) will take into account the desire of the Parties that costs should generally be awarded to each Party in proportion to the relative success that each Party has in the arbitration.
- (o) The award of the arbitral tribunal shall be final and binding upon the Parties and not subject to appeal.

6. Litigation

- (a) If necessary to prevent irreparable harm to a Party, including in connection with a Public Safety Dispute, nothing contained in this Schedule 27 will prevent the Parties from seeking interim protection from the Ontario Superior Court of Justice, including seeking an interlocutory injunction. However, the Parties agree that no irreparable harm shall occur if the Project Agreement is terminated by Contracting Authority pursuant to Section 45.3(b) (*Right to Termination*) of the Project Agreement and that any such termination by Contracting Authority, would be adequately compensated for by an award of damages to Project Co if it is subsequently determined in accordance with this Schedule 27 that Contracting Authority was not entitled to do so in accordance with the Project Agreement.
- (b) Either Party may bring an application or motion directly to the Ontario Superior Court of Justice for a determination regarding appointment of the challenged or a proposed alternative Member or arbitrator.
- (c) All litigation permitted pursuant this Schedule 27 shall be resolved in the Ontario Superior Court of Justice. Both Parties irrevocably attorn to the exclusive jurisdiction of the courts of the Province of Ontario in respect of any Disputes or matters which arise under the Project Agreement or in connection with the Project and which are to be resolved by litigation.

7. Stay and Consolidation with Third Party Disputes

- (a) Subject to Section 7(c), if either Party is involved in an arbitration in the Province of Ontario with a third party (“**Third Party Arbitration**”), and if such Third Party Arbitration involves common factual or legal issues (including common issues of damages) which are also the subject of a Dispute between the Parties for which a Notice of Dispute has been given, then any arbitration of the Dispute between the Parties which includes those common factual, legal or damages issues (“**Project Agreement Arbitration**”) shall be stayed, consolidated or joined with the Third Party Arbitration(s) but only if each of Contracting Authority, Project Co, and the other parties all agree in writing.
- (b) Subject to Section 7(c), if either Party is involved in litigation in the Province of Ontario with a third party (“**Third Party Litigation**”) and if:
 - (i) such Third Party Litigation involves common factual or legal issues (including common issues of damages) which are the subject of a Project Agreement Arbitration; and
 - (ii) the other Party is brought directly into the Third Party Litigation as a party to that litigation,

then on the application of either Party to the court in the Province of Ontario having jurisdiction the court may, if it determines that it is just and convenient in all the circumstances, order a stay of the Third Party Litigation.

- (c) Sections 7(a) and 7(b) only apply:

- (i) if the Dispute between the Parties includes a claim by one Party against the other for contribution or indemnity for that Party's liability or potential liability to the third party where such liability results or will result from an award in the Third Party Arbitration or a judgment in the Third Party Litigation; and
- (ii) to those specific issues that are common issues in the Project Agreement Arbitration, the Third Party Arbitration and the Third Party Litigation, such that all other issues in the Dispute shall continue to be resolved by Project Agreement Arbitration and shall not be consolidated with the Third Party Arbitration or Third Party Litigation.

8. Confidentiality

- (a) Unless otherwise agreed by the Parties in writing or required by law, no Party shall rely on or introduce as evidence in any subsequent proceeding or investigation, and shall treat as confidential and inadmissible in any arbitration or litigation proceeding or other investigation or proceeding, any information, data, statements, submissions, admissions, settlement proposals, recommendations, discussions, opinions, or any other documents within the meaning of the *Rules of Civil Procedure*, other than documents which would otherwise be admissible pursuant to the *Rules of Civil Procedure*, which were obtained, exchanged or delivered:
 - (i) on a without prejudice basis, including through the process for the amicable resolution of the Dispute by the Party Executives set out in Section 2;
 - (ii) through the Adjudication process by any party or the Adjudicator, except in relation to the determination and reasons of the Adjudicator, which may be introduced in any subsequent dispute resolution processes or proceedings regarding the same Dispute(s); or
 - (iii) through the decision process by any Party or the CDB or any Member, except for a decision and reasons of the CDB, which may be introduced in any subsequent dispute resolution processes or proceedings regarding the same Dispute(s).
- (b) Any Member or arbitrator appointed pursuant this Schedule 27 shall keep all information about any Dispute(s) referred to the CDB or for arbitration confidential and shall not disclose such information to anyone other than the Parties.
- (c) Any Adjudicator or arbitrator shall execute non-disclosure agreements in a form satisfactory to the Parties, providing that, among other things, material delivered by a Party in connection with Adjudication or arbitration shall not be disclosed to any person or used for any other purpose, in accordance with this Section 8, and all such material shall remain the property of the Party disclosing or delivering same.
- (d) An Adjudicator, Member of the CDB or arbitrator shall not be compelled to give evidence in any proceeding in respect of a Dispute that was referred to the Adjudicator, CDB or arbitrator for a decision.

9. Miscellaneous

- (a) The Parties can, by written agreement on a Dispute by Dispute basis:
 - (i) extend any or all timelines set out in this Schedule 27;
 - (ii) agree to waive or by-pass any one or more of the Dispute resolution processes in Sections 1.7, 2, 3 and 4 (to the extent permitted by law) and, instead, proceed directly to resolution of the Dispute by arbitration pursuant to Sections 5;
 - (iii) agree to a different process for arbitration than the one contemplated in this Schedule 27; or
 - (iv) agree to refer any Dispute to mediation by a neutral third party mediator.
- (b) The provisions of this Schedule 27 are subject to the provisions of the Integration Dispute Resolution Procedure in the form attached as Appendix A to Schedule 39A – Form of South Civil Interface Agreement and as Appendix A to Schedule 39B – Form of North Civil Interface Agreement, as applicable, which apply and shall govern in respect of all Integration Disputes.

APPENDIX A TO SCHEDULE 27

**FORM OF CDB MEMBER STATEMENT OF ACCEPTANCE, AVAILABILITY,
IMPARTIALITY AND INDEPENDENCE**

TO: METROLINX, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency in accordance with the *Crown Agency Act, R.S.O. 1990, c. 48* (“Contracting Authority”)

AND TO: THE MINISTER OF INFRASTRUCTURE

AND TO: CONNECT 6IX GENERAL PARTNERSHIP (“Project Co”)

RE: Project agreement (as amended, supplemented or modified from time to time, the “Project Agreement”) dated the 15th day of November, 2022 between Contracting Authority and Project Co in respect of the Ontario Line Subway Rolling Stock, Systems, Operations and Maintenance Project

1. GENERAL

1.1 Name and Position

- (a) **Family Name(s):**
- (b) **Given Name(s):**
- (c) **Member Position (circle one):** **Technical Chair**
- (d) Please attach a current copy of your CV.

1.2 Definitions, Interpretation and Governing Law

- (a) This statement (the “**Statement**”) shall be interpreted in accordance with Schedule 27 – Dispute Resolution Procedure to the Project Agreement, and governed by the laws of Ontario, without regard to conflict of laws provisions. Please initial below all relevant statements.

1.3 Acceptance

- (a) I accept to serve as a Member in accordance with the Project Agreement.

Initial: _____

- (b) I decline to serve as a Member in accordance with the Project Agreement. *(If you tick here, simply date and sign the form without completing any other sections).*

Initial: _____

1.4 Availability

(a) I confirm, on the basis of the information presently available to me that I have received and reviewed a copy of Schedule 27 – Dispute Resolution Procedure to the Project Agreement and can devote the time necessary to discharge the duties of a Member throughout the entire duration of the CDB’s anticipated activities as diligently, efficiently and expeditiously as possible in accordance with the timelines and procedures set out in Schedule 27 – Dispute Resolution Procedure to the Project Agreement.

Initial: _____

(b) I understand that it is important to discharge the duties of a Member set out in Schedule 27 – Dispute Resolution Procedure to the Project Agreement as promptly as reasonably practicable. My current and anticipated professional roles and significant engagements are set out below for the information of the Parties (anonymized as necessary to remain compliant with my professional obligations).

Initial: _____

Number of currently pending matters or roles in which I am involved (*i.e. arbitrations and dispute board activities pending now, not previous experience; additional details you wish to make known to the Parties in relation to these matters can be provided on a separate sheet*):

	As tribunal or dispute board chair / sole arbitrator / sole DB member	As co-arbitrator / co-dispute board member	As counsel	As other
Standing dispute boards				
Ad-hoc dispute boards				
Arbitrations				
Court litigation (e.g. international commercial courts)				
Other (attach separate sheet if necessary)				

I have attached a calendar showing for the next twenty-four (24) months all currently scheduled hearings and other existing commitments (anonymized as necessary) that would prevent me from attending meetings or sitting in a hearing on this Project.

I have further marked in the box below or on a separate sheet any other relevant information regarding my availability.

- (c) I shall make best efforts to maintain the availability necessary to discharge the duties of a Member throughout the entire duration of the CDB’s anticipated activities which require my involvement, and shall immediately disclose in writing to the Parties and the other Members any additional significant matters that I may become involved in and any other relevant information regarding my availability which may arise in the course of my tenure as a Member and which may materially affect my ability to discharge my duties as a Member.

Initial: _____

1.5 Independence and Impartiality

- (a) In deciding which disclosure method applies to you, you should take into account, whether there exists any past, present or future, anticipated or planned relationship, direct or indirect, whether financial, professional or of any other kind, between you and any of the Parties, their lawyers or other representatives, or related entities and individuals. You are also required to disclose all recent, professional or personal, relationships with all key members of all Parties. Any doubt must be resolved in favour of disclosure. Any disclosure should be complete and specific, identifying inter alia relevant dates (both start and end dates), financial arrangements, details of companies and individuals, and all other relevant information.

- (i) **Nothing to disclose:** I am impartial and independent of the Parties and intend to remain so. To the best of my knowledge, and having made due enquiry, there are no facts or circumstances, past or present, that I should disclose because they might be of such a nature as to call into question my independence in the eyes of any of the Parties and no circumstances that could give rise to reasonable doubts as to my impartiality.

Initial: _____

- (ii) **Acceptance with disclosure:** I am impartial and independent and intend to remain so. However, mindful of my obligation to disclose any facts or circumstances which might be of such a nature as to call into question my independence in the eyes of any of the Parties or that could give rise to reasonable doubts as to my impartiality, I draw attention to the matters below and/or on the attached sheet.

I confirm that the matters disclosed above represent full and complete disclosure with respect to any facts or circumstances which might be of such a nature as to call into question

my independence in the eyes of any of the Parties or that could give rise to reasonable doubts as to my impartiality.

Initial: _____

- (b) I shall make best efforts to maintain the independence and impartiality necessary to discharge the duties of a Member throughout the entire duration of the CDB’s anticipated activities, but shall immediately disclose in writing to the Parties and the other Members any facts or circumstances concerning my impartiality or independence which may arise in the course of my tenure as a Member.

Initial: _____

- (c) In accordance with Schedule 27 – Dispute Resolution Procedure of the Project Agreement, I understand that the Parties may exercise their right to challenge me on the basis of an alleged lack of impartiality, independence or qualifications. In the event that I do not withdraw and the other Party does not agree to the challenge, I understand that the challenge shall be determined in accordance with Schedule 27 – Dispute Resolution Procedure of the Project Agreement.

Initial: _____

- (d) In the event that I am successfully challenged, I understand that I will be removed from the CDB forthwith and that my CDB Member Agreement shall be terminated.

Initial: _____

1.6 Delivery

- (a) This Statement may be delivered by sending a fully executed copy by electronic mail or other electronic transmission to the Parties, and such delivery shall be as effective as the manual delivery of this executed Statement.

APPENDIX B TO SCHEDULE 27

FORM OF CDB MEMBER AGREEMENT

This CDB Member Agreement (this “**Agreement**”) is entered into between:

- (a) **CDB Member: [●]** [*Note: Full name and title (sole Member, Technical Member or CDB Chair).*] (the “**Member**”);
- (b) **Party 1: METROLINX** (“**Contracting Authority**”); and
- (c) **Party 2: CONNECT 6IX GENERAL PARTNERSHIP** (“**Project Co**”)

(collectively, the “**Undersigned Parties**”).

WHEREAS:

- A. Contracting Authority and Project Co have entered into an agreement dated November 15, 2022 (the “**Project Agreement**”) for the Ontario Line Subway Rolling Stock, Systems, Operations and Maintenance Project (the “**Project**”);
- B. Schedule 27 – Dispute Resolution Procedure of the Project Agreement provides for the appointment of a Combined Dispute Board (the “**CDB**”), and that the CDB shall, *inter alia*, establish a schedule of meetings and site visits, issue decisions, review the performance of Project Co and Contracting Authority under the Project Agreement, and perform other tasks in accordance with Schedule 27 – Dispute Resolution Procedure to the Project Agreement (the “**CDB Services**”);
- C. Certain Disputes may be referred to the CDB for determination in accordance with Schedule 27 – Dispute Resolution Procedure of the Project Agreement; and
- D. The undersigned individual has been appointed to serve on the CDB as a Member.

The Member and the Parties therefore agree as follows:

1.1 Definitions and Interpretation

- (a) This Agreement shall be interpreted in accordance with Schedule 27 – Dispute Resolution Procedure to the Project Agreement and defined terms shall have the same meaning as in the Project Agreement, unless otherwise specified here.
- (b) If there is any conflict between this Agreement and Schedule 27 – Dispute Resolution Procedure to the Project Agreement, this Agreement will take precedence to the extent of the conflict.

1.2 Undertaking

- (a) The Member shall act as [**a sole Member/Technical Member/the CDB Chair**] and hereby agrees to perform the duties of a Member and provide the CDB Services in accordance with the terms of the Project Agreement and the terms of this Agreement.
- (b) The Member confirms that he or she is and shall remain impartial and independent of the Parties.

- (c) The Member further confirms that he or she has executed and will comply with the terms of the CDB Member Statement.

1.3 Composition of the CDB and Contact Details

- (a) Subject to Section 4 of Schedule 27 – Dispute Resolution Procedure to the Project Agreement, the CDB shall be composed of three independent and impartial Members.

- (b) The Member can be contacted as follows:

Member: *[Note: Include name, address, telephone, email and any other contact details.]*

- (c) The [CDB Chair] (if applicable) is listed below and can be contacted as follows:

CDB Chair: *[Note: Include name, address, telephone, email and any other contact details.]*

- (d) The [other Technical Member] (if applicable) is listed below and can be contacted as follows:

Technical Member: *[Note: Include name, address, telephone, email and any other contact details.]*

- (e) The Parties to the Project Agreement are those indicated above with the following contact details:

(i) **Party 1:**

Metrolinx
2 Queen Street East, 11th Floor
Toronto, Ontario
M5C 3G7

Attn.: [REDACTED]
Email: [REDACTED]

(ii) **Party 2:**

Email: [REDACTED]

- (f) Any changes in these contact details shall be immediately communicated to all other Undersigned Parties.

1.4 Qualifications

- (a) The Parties recognise that the Member is a [●], in accordance with Section 4.1(c) of Schedule 27 – Dispute Resolution Procedure to the Project Agreement.
- (b) The Parties recognise that the Member is independent, impartial and skilled in resolving and deciding disputes of a type, complexity and value commensurate with the Dispute(s) likely to be referred to the CDB, in accordance with Section 4.1(d) of Schedule 27 – Dispute Resolution Procedure to the Project Agreement.

1.5 Fees and Disbursements

- (a) In consideration of the Member performing the CDB activities in accordance with this Agreement and Schedule 27 – Dispute Resolution Procedure of the Project Agreement, the Member shall be entitled to be paid the monthly management fee (the “**Monthly Management Fee**”) and the ad-hoc hourly fee (the “**Ad-hoc Hourly Fee**”) described in this Section 1.5.
- (b) The Monthly Management Fee shall be [CAD \$[●]] per month and shall be payable beginning as of [REDACTED] until the end of the Member’s involvement on the CDB.
- (c) The Member’s Monthly Management Fee shall cover:
- (i) reviewing and becoming and remaining familiar with the Project Agreement, including without limitation, the Output Specifications and Schedule 27 – Dispute Resolution Procedure to the Project Agreement;
 - (ii) reviewing any amendments to the Project Agreement and Variation Confirmations;
 - (iii) reviewing progress reports, correspondence from the Parties, and other documents which the CDB is required to review pursuant to Schedule 27 – Dispute Resolution Procedure to the Project Agreement;
 - (iv) reviewing specific documents which the CDB requests for its review;

- (v) attending internal CDB meetings;
 - (vi) attending ordinary course scheduled meetings and/or site visits (monthly unless otherwise agreed by the Parties in writing);
 - (vii) providing informal assistance with Disputes or potential Disputes;
 - (viii) managing and coordinating the operation of the CDB; and
 - (ix) any overhead and office expenses.
- (d) The Member's Ad-hoc Hourly Fee shall be **[CAD \$[●] per hour]**, and shall be billed in hourly increments for certain work performed. The Ad-hoc Hourly Fee shall cover:
- (i) preparation for and attendance at ad-hoc meetings/site visits with the Parties (excluding the ordinary course scheduled meetings and/or site visits described in Section 1.5(c)(vi)); and
 - (ii) any work carried out in connection with referrals for a CDB decision, including preparation, attendance at hearings, review of the Parties' submissions, delivery of the CDB decision, and revisions to same.
- (e) Intentionally deleted.
- (f) Reasonable Member expenses and disbursements relating to (i) flights (at economy class rates), (ii) hotel (to a maximum of CAD\$[REDACTED] per night), and (iii) the cost of retaining any experts shall be reimbursed at cost, with the prior approval of the Parties. All other costs and disbursements are and shall be deemed to be included in the Monthly Management Fee and the Ad-hoc Hourly Fee. The Member shall retain all receipts and proof of payment of claimed disbursements and expenses, and shall provide them to the Parties or either Party upon request. The Parties shall have no obligation to reimburse the Member if the Member fails to produce receipts and proof of payment upon request.

1.6 Payment of Fees and Expenses

- (a) Unless otherwise agreed by the Parties and the Member in writing, all fees, expenses and disbursements payable under this Agreement shall be invoiced by the Member to the Parties on a monthly basis beginning as of [REDACTED], which invoice shall reflect the performance of the CDB activities performed in the previous month and be in form and substance reasonably satisfactory to the Parties.
- (b) Project Co and Contracting Authority shall each pay one half of such fees, expenses and disbursements to the Member. While each Party is responsible for paying one half of the Member's fees, expenses and disbursements, this obligation is several and not joint. If one Party fails to make payment, the other Party may make payment of the amounts owed by the non-paying Party and recover the costs of doing so from the non-paying Party, but has no obligation to do so.
- (c) All payments to the Member shall be made to the following account: **[name of bank, account number, SWIFT code, etc.]**.

- (d) All payments to the Member under this Agreement shall be payable by the Parties monthly in arrears, and by no later than the date that is thirty (30) days of the receipt by the Parties of an invoice provided by the Member in accordance with this Agreement.
- (e) The Monthly Management Fee payable to the Member under this Agreement shall accrue from day to day, and if for any reason it shall become necessary to calculate any Monthly Management Fee for a period of less than one calendar month, an appropriate pro-rata adjustment shall be made on a daily basis.

1.7 Duration and Termination of this Agreement

- (a) Subject to Section 4 of Schedule 27 – Dispute Resolution Procedure to the Project Agreement, the Member agrees to serve for the duration of the CDB to the extent reasonably possible.
- (b) The Parties may at any time, without cause and with immediate effect, jointly terminate this Agreement but shall pay the Monthly Management Fee to the Member for a period of one month following the termination, unless otherwise agreed by the Parties and the Member in writing.
- (c) The Member may terminate this Agreement at any time by giving a minimum of three months' written notice to the Parties, unless otherwise agreed by the Parties and the Member in writing.
- (d) If the Member is successfully challenged in accordance with Section 4.3 of Schedule 27 – Dispute Resolution Procedure to the Project Agreement, the Member shall be removed forthwith from the CDB and this Agreement shall be terminated.
- (e) The Member shall be entitled to claim payment for work performed to the date of termination of this Agreement in accordance with this Agreement, but shall not be entitled to claim any further payment.

1.8 Indemnity

- (a) The Parties shall jointly and severally indemnify and hold harmless the Member from any claims of third parties for anything done or omitted to be done in the discharge of the Member's activities under this Agreement.
- (b) The indemnity provided in Section 1.8(a) shall not extend to:
 - (i) any act or omission of the Member that is shown to have been in bad faith;
 - (ii) any breach of this Agreement by the Member,
 - (iii) any negligent or unlawful act or omission or willful misconduct of the Member;
 - (iv) any action taken by the Member outside the scope of authority set forth in this Agreement;
or
 - (v) any debt, cost, expense, claim or demand for which insurance proceeds are recoverable by the Member.
- (c) The indemnity provided in Section 1.8(a) shall survive the termination of this Agreement.

1.9 Confidentiality

- (a) The Member and all of the member's affiliates, employees, servants and agents shall keep all information about the Project, the Member's involvement on the Project, any CDB Services performed by the CDB, and any Dispute(s) referred for a CDB decision strictly confidential and shall not disclose such information to anyone other than the Parties.
- (b) The Member shall treat as confidential any information, data, statements, submissions, admissions, settlement proposals, recommendations, discussions, opinions, or any other documents within the meaning of the *Rules of Civil Procedure*, other than documents which would otherwise be admissible pursuant to the *Rules of Civil Procedure*, which were obtained, exchanged or delivered on a without prejudice basis or through the CDB decision process by any other Party or the CDB or any Member, except as set out in Section 8(a)(iii) of Schedule 27 – Dispute Resolution Procedure to the Project Agreement.
- (c) Material delivered by a Party in connection with a CDB decision shall not be disclosed to any person or used, copied, supplied or reproduced for any other purpose other than for the performance of the CDB Services, and all such material shall remain the property of the Party disclosing or delivering same.
- (d) The Member shall be bound by and shall comply with the confidentiality and communication provisions set out in Section 52 (*Confidentiality/Communications*) of the Project Agreement.
- (e) The Parties may at any time require the Member to give and to arrange for its officers, directors, members, employees, servants and agents engaged in the performance of the CDB Services to give written undertakings, in the form of confidentiality agreements on terms required by the Parties, relating to the non disclosure of confidential information, in which case the Member must promptly arrange for such agreements to be made.

1.10 Disputes and Applicable Law

- (a) All disputes arising out of this Agreement which are not subject to resolution pursuant to Section 6(b) of Schedule 27 – Dispute Resolution Procedure to the Project Agreement shall be finally settled by arbitration by one arbitrator agreed by the Undersigned Parties in writing or appointed in accordance with the *Arbitration Act, 1991*. This Agreement shall be governed by the laws of Ontario, without regard to conflict of laws provisions. The place of arbitration shall be Toronto, Ontario. The language of the arbitration shall be English.

1.11 Counterparts

- (a) This Agreement may be executed in one or more counterparts. Any single counterpart or a set of counterparts executed, in either case, by all the parties shall constitute a full, original and binding agreement for all purposes. Delivery of an executed counterpart by sending a copy by electronic mail or other electronic transmission shall be as effective as the manual delivery of an executed counterpart.

SCHEDULE 28

REFINANCING

1. DEFINITIONS

1.1 In this Schedule 28, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 28) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) **“Distribution”** means, whether in cash or in kind:
- (i) any dividend or other distribution in respect of the Equity Capital;
 - (ii) any reduction of capital, redemption or purchase of shares or any other reorganization or variation to the Equity Capital;
 - (iii) any principal, interest, makewhole or other amounts paid on any loans included in the Equity Capital;
 - (iv) any payment, loan, contractual arrangement or transfer of assets or rights to the extent (in each case) it was put in place after Financial Close and was either not in the ordinary course of business or not on reasonable commercial terms; or
 - (v) any other benefit which is either not received in the ordinary course of business or not reasonable commercial terms,

and where any such Distribution is not in cash, the equivalent cash value of such Distribution shall be calculated.

- (b) **“Exempt Refinancing”** means:
- (i) any Refinancing that has the effect of replacing or extending any Mini-Perm Financing, provided that:
 - (A) Project Co shall assume any and all risks and benefits associated with such Refinancing without adjustment to the Monthly Service Payments or any other form of compensation to Project Co under the Project Agreement, including any risk that such Refinancing results in higher financing costs than the financing costs assumed by Project Co in its Financial Model as at Financial Close for the Refinancing of any Mini-Perm Financing; and
 - (B) such Refinancing occurs on or before the Planned Mini-Perm Refinancing Date;
 - (ii) a change in taxation or change in accounting treatment pursuant to a Change in Law or change in Canadian GAAP;

- (iii) the exercise of any right, the grant of any amendment, waiver or consent or any similar action under the Lending Agreements by the Lenders that does not provide for a financial benefit to Project Co under those agreements;
 - (iv) any sale of Equity Capital or securitization of the existing rights or interests attaching to Equity Capital, unless such sale or securitization involves increasing the Senior Debt Amount or the Junior Debt Amount, as applicable, or amending the Senior Debt Makewhole or the Junior Debt Makewhole, as applicable, on terms more favourable to Project Co than contained in the Lending Agreements;
 - (v) any Qualifying Bank Transaction;
 - (vi) any Rescue Refinancing;
 - (vii) any Refinancing that was approved by Contracting Authority prior to the execution of the Project Agreement and occurs during the first six (6) months following the date of the Project Agreement;
 - (viii) any amendment, variation or supplement of any Lending Agreement approved by Contracting Authority as part of any Variation under the Project Agreement; or
 - (ix) any Permitted Borrowing.
- (c) **“Mandatory Refinancing”** means an Exempt Refinancing described in Section 1.1(b)(i).
- (d) **“Mini-Perm Financing”** means a financing facility under any Lending Agreement that, pursuant to the applicable Lending Agreement, is scheduled to be repaid in whole or in part from the proceeds of a new financing on or before the Planned Mini-Perm Refinancing Date.
- (e) **“Planned Mini-Perm Refinancing Date”** is not applicable. There is no Planned Mini-Perm Refinancing Date as at the date of the Project Agreement, and no Refinancing of a Mini-Perm Financing could ever occur without updating this definition of Planned Mini-Perm Refinancing Date by including a specific date.
- (f) **“Qualifying Bank”** means a lending institution that is:
- (i) a bank listed in Schedule I, II or III of the *Bank Act* (Canada); or
 - (ii) a bank, life insurance company, pension fund or fund managed by a professional fund manager that, in each case, controls, either directly or through its affiliates, funds in excess of \$[REDACTED],
- provided such institution is not a Restricted Person.
- (g) **“Qualifying Bank Transaction”** means:
- (i) the disposition by a Lender of any of its rights or interests in the Lending Agreements to a Qualifying Bank;

- (ii) the grant by a Lender to a Qualifying Bank of any rights of participation in respect of the Lending Agreements; or
 - (iii) the disposition or grant by a Lender to a Qualifying Bank of any other form of benefit or interest in either the Lending Agreements or the revenues or assets of Project Co, whether by way of security or otherwise.
- (h) **“Qualifying Refinancing”** means any Refinancing that will give rise to a Refinancing Gain that is not an Exempt Refinancing.
- (i) **“Refinancing”** means:
- (i) any amendment, variation, novation, supplement or replacement of any Lending Agreement;
 - (ii) entering into any new Lending Agreement;
 - (iii) the exercise of any right, or the grant of any waiver or consent, under any Lending Agreement;
 - (iv) the disposition of any rights or interests in, or the creation of any rights of participation in respect of, the Lending Agreements or the creation or granting of any other form of benefit or interest in either the Lending Agreements or the contracts, revenues or assets of Project Co whether by way of security or otherwise; or
 - (v) any other arrangement put in place by Project Co or another person which has an effect which is similar to any of the foregoing provisions of this definition above or which has the effect of limiting Project Co’s ability to carry out any of the foregoing provisions of this definition.
- (j) **“Refinancing Financial Model”** means a comprehensive and detailed financial model satisfactory to Contracting Authority, acting reasonably, prepared for the purpose of Section 2, which financial model shall be similar in form and content to the Financial Model, suitable for the purposes for which it will be used in this Schedule 28, and shall take into account:
- (i) cash flows for the entire remaining Project Term;
 - (ii) any changes in structure and funding since the date of the Project Agreement;
 - (iii) the performance of the Project Operations to the date of the Refinancing;
 - (iv) macroeconomic assumptions; and
 - (v) all other relevant factors.
- (k) **“Refinancing Gain”** means an amount equal to the greater of zero and $(A - B)$, where:

A = the net present value, discounted at a discount rate equal to the Base Case Equity IRR, of all Distributions as projected immediately prior to the Refinancing (using the Refinancing Financial Model and taking into account the effect of the Refinancing) to be made over the remaining term of the Project Agreement following the Refinancing.

B = the net present value, discounted at a discount rate equal to the Base Case Equity IRR, of all Distributions as projected immediately prior to the Refinancing (using the Refinancing Financial Model but without taking into account the effect of the Refinancing) to be made over the remaining term of the Project Agreement following the Refinancing.

- (l) “**Refinancing Notice**” has the meaning given in Section 2.9.
- (m) “**Rescue Refinancing**” means any Refinancing which takes place due to the failure or prospective failure of Project Co to comply with any material financial obligation under the Lending Agreements, or any of them, which does not increase any liability of Contracting Authority, whether actual or potential.

2. REFINANCING

2.1 Project Co shall not carry out:

- (a) any Qualifying Refinancing unless Project Co has obtained the prior written consent of Contracting Authority, which consent, subject to Section 2.2, shall not be unreasonably withheld or delayed; or
- (b) any Exempt Refinancing or any other Refinancing which does not result in a Refinancing Gain unless Project Co has delivered a Notice of such Refinancing to Contracting Authority at least ten (10) Business Days before such Refinancing, except that such Notice shall not be required for a disposition by a Lender of its rights or participation in the Lending Agreements where such disposition is a trade of bonds issued as provided for under a book-based system of a depository or pursuant to a trust indenture that comprises a portion of the Senior Debt Amount and/or Junior Debt Amount.

2.2 Contracting Authority may withhold its consent to any Qualifying Refinancing, in its sole discretion:

- (a) where any person with whom Project Co proposes to carry out a Qualifying Refinancing is a Restricted Person;
- (b) if, at the time the Qualifying Refinancing is contemplated and effected, the Qualifying Refinancing will materially adversely affect the ability of Project Co to perform its obligations under the Project Documents or the Project Agreement; or
- (c) if, at the time the Qualifying Refinancing is contemplated and effected, the Qualifying Refinancing will have the effect of increasing any liability of Contracting Authority, whether actual or contingent, present or future, known or unknown.

- 2.3 Contracting Authority shall be entitled to receive:
- (a) a [REDACTED]% share of any Refinancing Gain arising from a Qualifying Refinancing, in respect of any Refinancing Gain up to (when considered in aggregate with all previous Qualifying Refinancings) a Refinancing Gain of \$[REDACTED];
 - (b) a [REDACTED]% share of any further Refinancing Gain arising from a Qualifying Refinancing, in respect of any Refinancing Gain in excess of \$[REDACTED] and up to (when considered in aggregate with all previous Qualifying Refinancings) a Refinancing Gain of \$[REDACTED]; and
 - (c) a [REDACTED]% share of any further Refinancing Gain arising from a Qualifying Refinancing.
- 2.4 Project Co shall promptly provide Contracting Authority with full details of any proposed Qualifying Refinancing, including a copy of the proposed Refinancing Financial Model and the basis for the assumptions used in the proposed Refinancing Financial Model. Contracting Authority shall (before, during and at any time after any Refinancing) have unrestricted rights of audit over the Refinancing Financial Model and any documentation (including any aspect of the calculation of the Refinancing Gain) used in connection with such Refinancing (whether or not such Refinancing is determined to be a Qualifying Refinancing). Project Co shall promptly, and, in any event, within five (5) Business Days of receiving a written request from Contracting Authority, provide any information in relation to a proposed Refinancing as Contracting Authority may reasonably require. Project Co shall keep Contracting Authority informed as to any changes to the material terms of the Refinancing. Both Contracting Authority and Project Co shall at all times act in good faith with respect to any Refinancing.
- 2.5 Subject to Section 2.6, Contracting Authority shall have the right to elect to receive its share of any Refinancing Gain as:
- (a) a single payment in an amount less than or equal to any Distribution made on or about the date of the Refinancing; and/or
 - (b) a reduction in the Monthly Service Payments over the remaining Project Term,
- such that the total net present value, discounted at the Discount Rate, of the foregoing, calculated at the time immediately prior to the Refinancing, shall equal Contracting Authority's share of the Refinancing Gain.
- 2.6 Contracting Authority and Project Co will negotiate in good faith to agree upon the basis and method of calculation of the Refinancing Gain and payment of Contracting Authority's share of the Refinancing Gain (taking into account how Contracting Authority has elected to receive its share of the Refinancing Gain under Section 2.5 and the profile of the Refinancing Gain). If the Parties fail to agree upon the basis and method of calculation of the Refinancing Gain or the payment of the Contracting Authority's share, the Dispute shall be determined in accordance with Schedule 27 – Dispute Resolution Procedure. Both Contracting Authority and Project Co shall work together collaboratively to establish the rate setting process to complete the Qualifying Refinancing.

- 2.7 The Refinancing Gain shall be calculated after taking into account the reasonable out-of-pocket costs that each Party directly incurs in relation to the Qualifying Refinancing and on the basis that, within fifteen (15) Business Days of any Qualifying Refinancing, Project Co will reimburse Contracting Authority for all such reasonable out-of-pocket costs incurred by Contracting Authority. Project Co and Contracting Authority shall not be entitled to claim as out-of-pocket costs, any charge, cost, expense, fee or similar amount that is incurred by either Party in relation to the Refinancing outside of the ordinary course of business.
- 2.8 If Project Co must, at a future date, undertake a Mandatory Refinancing, then Contracting Authority may at any time request that Project Co provide to Contracting Authority full and complete details and information with respect to the Mandatory Refinancing and its plan for the Mandatory Refinancing, including in respect to all relevant assumptions regarding the Mandatory Refinancing set out in the Financial Model (the “**Refinancing Information**”). For clarity, if Project Co must, at a future date, undertake a Mandatory Refinancing, Contracting Authority must request Project Co to provide the Refinancing Information before Contracting Authority can issue a Refinancing Notice pursuant to Section 2.9. If Contracting Authority and Project Co mutually agree, acting reasonably, that based on the Refinancing Information, a Refinancing prior to the Mandatory Refinancing would not have a negative material financial impact on the Mandatory Refinancing, then Contracting Authority may provide Project Co with a Refinancing Notice pursuant to Section 2.9.
- 2.9 If Contracting Authority considers the funding terms generally available in the market to be more favourable than those reflected in the Lending Agreements, Contracting Authority may, by Notice in writing to Project Co (a “**Refinancing Notice**”), require Project Co to request potential funders to provide terms for a potential Refinancing.
- 2.10 The Refinancing Notice shall set out in reasonable detail the grounds upon which Contracting Authority believes such funding terms to be available. Project Co and Contracting Authority shall meet to discuss the Refinancing Notice within twenty (20) Business Days. Such a meeting will consider the evidence available to both parties about the availability of funding terms for a potential Refinancing. Contracting Authority shall be entitled to withdraw the Refinancing Notice at or before such a meeting, or within seven (7) Business Days following the meeting.
- 2.11 If Contracting Authority serves a Refinancing Notice which is not withdrawn pursuant to Section 2.10, then Project Co shall:
- (a) act promptly, diligently and in good faith with respect to the potential Refinancing;
 - (b) use all reasonable endeavours to obtain the most favourable available terms from existing Lenders and/or new lenders for any potential Refinancing (provided that Project Co shall not be required to propose refinancing in a manner which a prudent board of directors of a company operating the same business in Canada to that operated by Project Co, in similar circumstances, would not approve). For the avoidance of doubt but subject to the previous proviso, “most favourable” available terms are those which are likely to generate a positive Refinancing Gain after the deduction of costs in accordance with the provisions of Section 2.7; and

- (c) either:
- (i) as soon as reasonably practicable after receipt of the Refinancing Notice, provide to Contracting Authority (I) full details of the proposed Refinancing, including a financial model and the basis for the assumptions used in the financial model and evidence to the reasonable satisfaction of Contracting Authority that these assumptions represent the most favourable available terms for the potential Refinancing on the basis set out in Section 2.11(b) and (II) initial drafts of any changes to the Project Agreement including in relation to potential compensation on termination which might be required to give effect to the proposed Refinancing; or
 - (ii) if Project Co (acting reasonably) believes that it is not possible to obtain funding terms which are more favourable than those reflected in the Lending Agreements in accordance with the requirements of Section 2.11(b), provide evidence to the reasonable satisfaction of Contracting Authority for such belief and evidence to the reasonable satisfaction of Contracting Authority that Project Co has complied with its obligations in Sections 2.11(a) and (b) above.

If Contracting Authority reasonably considers that the requirements of Section 2.11(c) have not been satisfied, Contracting Authority may require Project Co to satisfy its obligations under Section 2.11(c).

- 2.12 Following satisfaction by Project Co of its obligations under Section 2.11(c)(i) and receipt of the information referred to in Section 2.11(c)(i), Contracting Authority shall, acting reasonably, either:
- (a) instruct Project Co to implement the proposed Refinancing; or
 - (b) instruct Project Co to discontinue the proposed Refinancing,

If Project Co must, at a future date, undertake a Mandatory Refinancing, Contracting Authority shall not instruct Project Co to implement the proposed Refinancing unless both Contracting Authority and Project Co, acting reasonably, agree that such Refinancing will be likely to generate a positive Refinancing Gain after the deduction of costs in accordance with the provisions of Section 2.7 and will not have a negative material financial impact on the Mandatory Refinancing.

- 2.13 If Contracting Authority instructs Project Co to implement the proposed Refinancing:
- (a) Project Co shall, as soon as reasonably practicable, use all reasonable endeavours to ensure that such proposed Refinancing is implemented;
 - (b) such proposed Refinancing shall be deemed to be a Qualifying Refinancing; and
 - (c) the provisions of Sections 2.1 to 2.7 shall apply.
- 2.14 If:
- (a) Contracting Authority instructs Project Co to discontinue the potential Refinancing pursuant to Section 2.12(b); or

(b) the requirements of Section 2.11(c)(ii) are satisfied,

then, Contracting Authority shall reimburse Project Co for the reasonable and proper professional costs incurred by Project Co in relation to the potential Refinancing, such costs to be paid to Project Co by Contracting Authority within twenty (20) Business Days after receipt of a valid invoice in respect of such amount. Such costs shall not include any internal management costs incurred by Project Co except insofar as (i) it can be demonstrated to the reasonable satisfaction of Contracting Authority that such costs have been incurred in place of professional costs which would in the ordinary course of business have been paid to third parties and (ii) Contracting Authority has, by prior written agreement, approved the use of such internal management resource.

2.15 Contracting Authority shall be entitled to issue a Refinancing Notice under Section 2.9 at any time but not more than once in any two (2) year period. For the avoidance of doubt, a Refinancing Notice that has been withdrawn under Section 2.10 has been issued for the purpose of this Section 2.15.

SCHEDULE 29

SAFETY, SYSTEM ASSURANCE AND SECURITY

1. DOCUMENTS COMPRISING SCHEDULE 29

- (a) This Schedule 29 is comprised of the following:
 - (i) the general provisions of this Schedule 29;
 - (ii) Appendix A – Schedule of Safety Deliverables for System Assurance Submissions;
 - (iii) Appendix B – System Assurance Deliverable Requirements;
 - (iv) Appendix C – Construction Safety and Contractor Site Specific Safety Manual Requirements; and
 - (v) Appendix D – Technical Specifications for Project Co SMS Software Solution.

2. DEFINITIONS

- (a) In this Schedule 29, unless the context indicates a contrary intention, terms that are defined in the Project Agreement including in Schedule 1 – Definitions and Interpretation (and not otherwise defined in this Schedule 29) shall have meanings given to them elsewhere in the Project Agreement, and the following terms shall have the following meaning:
 - (1) “**Acceptable Products Register**” has the meaning given in Section 6.9(a);
 - (2) “**Additional Safety Performance Indicators**” has the meaning given in Section 5.9.7(a);
 - (3) “**Adjacent Railway Systems**” means those railways that are directly impacted by the development, or operation, of the Ontario Line Subway System;
 - (4) “**Annual Safety Culture Survey**” has the meaning given in Section 5.14.2(b);
 - (5) “**Annual Safety Culture Survey Report**” has the meaning given in Section 5.14.2(f);
 - (6) “**Annual Safety Performance Plan**” has the meaning given in Section 5.14.1(a);
 - (7) “**Approval in Principle Safety Submission**” has the meaning given in Section 6.5.2(a)(i);
 - (8) “**Approval in Principle Security Submission**” has the meaning given in Section A.1.1(a)(i);
 - (9) “**Baseline Safety Culture Survey**” has the meaning given in Section 5.14.2(c);
 - (10) “**Canadian Methods for Risk Evaluation and Assessment Standard for Railway Systems**” or “**CMREA**” means *CSA EXP11:20 – Canadian Method for*

Risk Evaluation and Assessment for Railway Systems by the Canadian Standards Association, as amended from time to time;

- (11) “**Canadian Rail Operating Rules**” or “**CROR**” means the Transport Canada Canadian Rail Operating Rules, as amended from time to time;
- (12) “**Certified Health and Safety Inspector**” means an individual who has the necessary credentials recognized by ISO 45001 for the purpose of such individual performing any inspections as may be required to be performed in accordance with Section 7.4(a);
- (13) “**Chief Safety Officer**” means the Project Co individual who shall be responsible for the overall safety of the Ontario Line Subway System and be responsible for the delivery of all aspects of safety management and system assurance, including safety assessment, RAMS and SIL;
- (14) “**Chief Security Officer**” means the Project Co individual who shall be responsible for the overall security of the Ontario Line Subway and be responsible for the delivery of all aspects of security management for the Ontario Line Subway System, including Security Risk Assessment;
- (15) “**Close Call**” means anything that has the potential to cause harm or damage that is not a Near Miss;
- (16) “**Commercial-off-the-Shelf Software**” means software that is purchased from a third party vendor available for purchase in the commercial market with limited customization required;
- (17) “**Common Safety Indicators**” has the meaning given in Section 5.9.1(a);
- (18) “**Consent to Construct Safety Submission**” has the meaning given in Section 6.5.2(a)(iii);
- (19) “**Consent to Construct Security Submission**” has the meaning given in Section 8.5.2(a)(iii);
- (20) “**Consent to Operate Revenue Service**” has the meaning given in Section 4.4(a)(iii)(I);
- (21) “**Consent to Operate Revenue Service Safety Confirmation**” means the Safety Confirmation that is issued by Contracting Authority for approval of the Consent to Operate Revenue Service Safety Submission(s);
- (22) “**Consent to Operate Revenue Service Safety Submission**” has the meaning given in Section 6.5.2(a)(vi);
- (23) “**Consent to Operate Revenue Service Security Confirmation**” means the Safety Confirmation that is issued by Contracting Authority for approval of the Consent to Operate Revenue Service Security Submission(s);

- (24) “**Consent to Operate Revenue Service Security Submission**” has the meaning given in Section 8.5.2(a)(vi);
- (25) “**Consent to Operate System Safety Submission**” has the meaning given in Section 6.5.2(a)(v);
- (26) “**Consent to Operate System Security Submission**” has the meaning given in Section 8.5.2(a)(v);
- (27) “**Consent to Test Safety Submission**” has the meaning given in Section 6.5.2(a)(iv);
- (28) “**Consent to Test Security Submission**” has the meaning given in Section 8.5.2(a)(iv);
- (29) “**Constructor**” has the meaning given in the OHSA;
- (30) “**Contracting Authority ISA**” means an Independent Safety Assessor retained by the Contracting Authority;
- (31) “**Contracting Authority ISA Cybersecurity Submission Verification Report**” has the meaning given in Section 8.6(e);
- (32) “**Contracting Authority ISA ESAC Verification Report**” has the meaning given in Section 6.8(k);
- (33) “**Contracting Authority ISA Security Submission Verification Report**” has the meaning given in Section 8.5.2(d);
- (34) “**Contractor Site Specific Safety Manual**” has the meaning given in Section 7.2(a);
- (35) “**CPTED**” means Crime Prevention Through Environmental Design;
- (36) “**CPP**” means Certified Protection Professional;
- (37) “**Critically Injured**” has the meaning given under R.R.O. 1990, Regulation 834 to the OHSA, as amended from time to time, and “**Critical Injury**” shall have the corresponding meaning;
- (38) “**Cybersecurity Confirmation**” has the meaning given in Section 8.6(f)(i);
- (39) “**Cybersecurity Submission**” has the meaning given in Section 8.6(b);
- (40) “**Design Build Director**” means the Project Co Party listed in Schedule 9 – Key Individuals;
- (41) “**EN 50126-1**” has the meaning given in Section 6.3(b)(i);
- (42) “**EN 50126-2**” has the meaning given in Section 6.3(b)(ii);

- (43) “**EN 50128**” has the meaning given in Section 6.3(b)(iii);
- (44) “**EN 50129**” has the meaning given in Section 6.3(b)(iv);
- (45) “**EN 50155**” has the meaning given in Section 6.3(b)(vi);
- (46) “**EN 50657**” has the meaning given in Section 6.3(b)(v);
- (47) “**Engineering Safety and Assurance Case**” or “**ESAC**” has the meaning given in Section 6.8(a);
- (48) “**Facility Fire Safety Plan**” has the meaning given in Section 6.11(e);
- (49) “**Failure Reporting and Corrective Action System**” or “**FRACAS**” means the system of reporting faults and corresponding Corrective Actions as set out in EN 50126-1;
- (50) “**Final Incident Report**” has the meaning given in Section 7.9(b)(iii);
- (51) “**Final Rail Transportation Occurrence Incident Report**” has the meaning given in Section 5.5.2(d);
- (52) “**Fire/Life Safety Committee**” has the meaning given in Section 3.4(f);
- (53) “**Fire/Life Safety Management Plan**” has the meaning given in Section 6.11(a);
- (54) “**Fire/Life Safety Standards**” has the meaning given in Section 6.3(d);
- (55) “**FRACAS Report**” has the meaning given in Section 6.8(g)(iii)(C);
- (56) “**Guideway and Tunnel Security Plan**” has the meaning given in Section B.1.6 of Appendix B to this Schedule 29;
- (57) “**Hazard**” has the meaning given in the EN 50126-1;
- (58) “**Hazard Analysis**” has the meaning given in EN 50126-1;
- (59) “**Hazard Analysis Report**” has the meaning given in Section 6.8(c)(iv);
- (60) “**Hazard Identification**” has the meaning given in the CMREA;
- (61) “**Hazard Record/Log**” has the meaning given in the CMREA for “Hazard Record” and the meaning given in EN 50126 for “Hazard Log”;
- (62) “**IEC 15288**” has the meaning given in Section 8.4(b);
- (63) “**IEC 62676**” has the meaning given in Section 8.4(a);
- (64) “**IEC PAS 63325**” has the meaning given in Section 8.4(a);
- (65) “**Independent Safety Assessment Plan**” has the meaning given in Section 6.8(c)(vii);

- (66) **“Independent Safety Assessor”** or **“ISA”** means an Independent Safety Assessor accredited by the Standards Council of Canada, pursuant to the Independent Safety Assessor for Railway Systems Accreditation Program developed and administered by the Standards Council of Canada;
- (67) **“Independent SMS Audit”** has the meaning given in Section 5.13.1(c);
- (68) **“Initial Rail Transportation Occurrence Incident Report”** has the meaning given in Section 5.5.2(b);
- (69) **“Interim Rail Transportation Occurrence Incident Report”** has the meaning given in Section 5.5.2(c);
- (70) **“Internal Safety Reporting Procedure”** has the meaning given in Section 5.10(a);
- (71) **“ISO 22341”** has the meaning given in Section 8.4(a);
- (72) **“ISO 31000”** has the meaning given in Section 8.4(a);
- (73) **“ISO 45001”** has the meaning given in Section 7.1(b)(v);
- (74) **“ISO 45001 Certification”** has the meaning given in Section 7.3(a);
- (75) **“Life Saving Rules”** means a set of mandatory rules applicable to individuals to prevent serious injuries and fatalities, covering the most critical safety hazards that are known to cause loss of life or Serious Injury;
- (76) **“Mental Health First Aid”** means the mental health first aid program established by the Mental Health Commission of Canada and its successors, as at the Technical Reference Date, unless instructed by Contracting Authority;
- (77) **“Metrolinx Beacon Safety Performance Standard”** means the Metrolinx Vehicle Beacon Safety Standard, Document ID EHS-TP001-02, as at the Technical Reference Date, unless instructed by Contracting Authority;
- (78) **“Metrolinx Construction Safety Management Program”** means the Metrolinx Construction Safety Management Program, Document ID CSMP-05, as at the Technical Reference Date, unless instructed by Contracting Authority;
- (79) **“Metrolinx Emergency Management Plan”** means the Metrolinx Emergency Management Plan document prepared by the Emergency Management Unit Security Division, as at the Technical Reference Date, unless instructed by Contracting Authority;
- (80) **“Metrolinx Fitness for Duty Policy”** means the Metrolinx Corporate Human Resources, Employee Relations Fitness for Duty Policy, as at the Technical Reference Date, unless instructed by Contracting Authority;

- (81) “**Metrolinx Personal Protective Equipment Standard**” means the Metrolinx Personal Protective Equipment Standard, Document ID EHS-PPE-2020, as at the Technical Reference Date, unless instructed by Contracting Authority;
- (82) “**Metrolinx Personal Track Safety Program**” means the Metrolinx training program covering the hazards and risks of working in a rail environment that all individuals working on the Metrolinx owned rail network must complete before they begin work;
- (83) “**Metrolinx Risk Assessment Guidance Document**” means the Metrolinx Safety Department Risk Assessment Guide, Document ID MX-SMS-G001, as at the Technical Reference Date, unless instructed by Contracting Authority;
- (84) “**Metrolinx Territory**” means Metrolinx owned rail corridors and yards, including the Ontario Line Subway;
- (85) “**Monthly Construction Safety Report**” has the meaning given in Section 7.10(a);
- (86) “**Monthly Safety and Security Report**” has the meaning given in Section 3.4(e);
- (87) “**Near Miss**” means a condition, unsafe act or unplanned event that did not result in injury to personnel or damage to equipment or property but had the potential to do so;
- (88) “**O&M Plan Performance**” has the meaning given in Section 6.10(d);
- (89) “**Occupational Health and Safety Risk**” means a combination of the likelihood of occurrence of a work-related hazardous event(s) or exposure(s) and the severity of injury and ill health that can be caused by the event(s) or exposure(s);
- (90) “**Occupational Health and Safety Standards**” has the meaning given in Section 7.1(b);
- (91) “**OMSF Security Plan**” has the meaning given in Section B.1.5 of Appendix B to this Schedule 29;
- (92) “**Operational Readiness Report**” has the meaning given in Section 6.8(f)(ii);
- (93) “**Passenger Station Security Plan**” has the meaning given in Section B.1.4 of Appendix B to this Schedule 29;
- (94) “**Person In Charge**” means in respect of a Rail Transportation Occurrence, the person designated by Project Co to manage the on-site response to the occurrence, including liaising with Contracting Authority, Adjacent Railway Systems and the emergency services;
- (95) “**Platform**” has the meaning given in the Output Specifications.

- (96) **“Product”** means,
- (a) an individual element that forms part of a System, a Subsystem or an equipment; or
 - (b) a collection of elements that is interconnected to form a System, a Subsystem or an equipment;
- (97) **“Product Acceptance Process”** has the meaning given in Section 6.9(b);
- (98) **“Project Co Declaration”** means a written declaration produced by Project Co in accordance with section 9 of the CMREA;
- (99) **“Project Co Fatigue Management Plan”** has the meaning given in Section 5.12(b);
- (100) **“Project Co Fitness for Duty Policy”** has the meaning given in Section 7.7(b);
- (101) **“Project Co Independent Safety Assessor”** or **“Project Co ISA”** means an Independent Safety Assessor retained by Project Co;
- (102) **“Project Co Internal Audit”** has the meaning given in Section 5.13.1(b);
- (103) **“Project Co Internal Audit Report”** has the meaning given in Section 5.13.1(b);
- (104) **“Project Co Investigator”** means a person appointed by Project Co as an investigator of Safety Incidents;
- (105) **“Project Co ISA Cybersecurity Submission Report”** has the meaning given in Section 8.6(c);
- (106) **“Project Co ISA ESAC Report”** has the meaning given in Section 6.8(i);
- (107) **“Project Co ISA Security Submission Report”** has the meaning given in Section 8.5.2(b);
- (108) **“Project Co Personal Protective Equipment Standard”** has the meaning given in Section 7.5(a);
- (109) **“Project Co Quarterly FRACAS Report”** has the meaning given in Section 6.10(b);
- (110) **“Project Co Safety Incident Management and Investigation Plan”** has the meaning given in Section 5.5.1(b);
- (111) **“Project Co Safety Management System”** or **“Project Co SMS”** has the meaning given in Section 5.1.1(a);
- (112) **“Project Co Safety Management System Component”** has the meaning given in Section 5.1.1(a)(ii);

- (113) “**Project Co Safety Training Program**” has the meaning given in Section 5.11.3(f);
- (114) “**Project Co SMS Software Solution**” has the meaning given in Section 5.1.2(a);
- (115) “**Project Safety Requirements**” has the meaning given in Section 4.1(a);
- (116) “**Project Security Requirements**” has the meaning given in Section 4.2(a);
- (117) “**Rail Transportation Occurrence**” has the meaning given in Section 5.5.1(a);
- (118) “**Rail Transportation Occurrence Summary**” has the meaning given in Section 5.5.2(a);
- (119) “**Railway System**” has the meaning given in the CMREA;
- (120) “**RAM Plan**” has the meaning given in Section 6.4(a);
- (121) “**RAM Policy**” has the meaning given in Section 6.8(c)(ix);
- (122) “**RAM Subsystem Requirements**” has the meaning given in Section 6.8(d)(vi)(H);
- (123) “**RAM Test Specification**” has the meaning given in Section 6.8(f)(iv);
- (124) “**RAM Validation Plan**” has the meaning given in Section 6.8(d)(vi)(I);
- (125) “**RAM Validation Report**” has the meaning given in Section 6.8(g)(iii)(B);
- (126) “**RAMS**” has the meaning given in Section 6.3(f);
- (127) “**Register of Project Safety Requirements**” has the meaning given in Section 5.4.1(a);
- (128) “**Remedial Action**” means action to eliminate the cause(s) of a nonconformity or a Safety Incident and to prevent recurrence;
- (129) “**Remedial Action Plan**” has the meaning given in Section 8.12(a);
- (130) “**Revenue Service**” has the meaning given in the Output Specifications;
- (131) “**Risk**” means the likelihood or frequency of occurrence of an event, including Accidents as defined in the CMREA, resulting in an adverse consequence and the degree of severity of that consequence;
- (132) “**Risk Acceptance Criteria**” has the meaning given in the CMREA;
- (133) “**Risk Analysis**” has the meaning given in the CMREA;
- (134) “**Risk Assessment**” means the overall process comprising a Risk Analysis and a Risk Evaluation, including application of a Risk ranking matrix;

- (135) “**Risk Evaluation**” has the meaning given in the CMREA;
- (136) “**Risk Management**” has the meaning given in the CMREA;
- (137) “**S&TCS**” has the meaning given in the Output Specifications;
- (138) “**Safety and Security Coordination Meeting**” or “**SSCM**” has the meaning given in Section 3.3(c);
- (139) “**Safety and Security Critical Items List**” has the meaning given in Section 6.7(h);
- (140) “**Safety and Security Interface Framework**” has the meaning given in Section 3.4(b);
- (141) “**Safety and System Assurance Standards**” has the meaning given in Section 6.3(b);
- (142) “**Safety Confirmation**” has the meaning given in Section 6.8(l);
- (143) “**Safety Culture Survey Remedial Plan**” has the meaning given in Section 5.14.2(g);
- (144) “**Safety Function**” has the meaning given in EN 50126-1;
- (145) “**Safety Governing Body**” has the meaning given in Section 3.2(a);
- (146) “**Safety Improvement Plan**” has the meaning given in Section 3.3(l);
- (147) “**Safety Incident**” means an occurrence arising out of or in the course of work that could or does result in adverse effect (including occupational disease, illness and death) on the physical, mental or cognitive condition of a person;
- (148) “**Safety Induction Briefing**” has the meaning given in Section 5.11.4(a);
- (149) “**Safety Integrity**” has the meaning given in EN 51026-1;
- (150) “**Safety Integrity Level**” has the meaning given in EN 51026-1;
- (151) “**Safety Measures**” has the meaning given in the CMREA;
- (152) “**Safety Performance Review Body**” has the meaning given in Section 3.3(a);
- (153) “**Safety Policy**” has the meaning given in Section 5.3.1(a);
- (154) “**Safety Requirements**” has the meaning given in the CMREA;
- (155) “**Safety Requirements Specification**” has the meaning given in Section 6.8(c)(vi);
- (156) “**Safety-Sensitive Position**” means any position in which individuals have a key and direct role in Project Co Services and where any impaired performance,

including performance impaired by alcohol, drugs (including medications) or extreme fatigue, could result in a significant Safety Incident or a failure to adequately respond to a significant Safety Incident, or could affect the health, safety, or security of the individual or other individuals (including customers and members of the public), property, or the environment;

- (157) “**Safety Stand Down Meeting**” has the meaning given in Section 7.12(a);
- (158) “**Safety Validation Report**” has the meaning given in Section 6.8(d)(vi)(E);
- (159) “**Safety Work Plan**” has the meaning given in Section 7.11(a);
- (160) “**Security Confirmation**” has the meaning given in Section 8.5.2(e)(i);
- (161) “**Security Exercise**” has the meaning given in Section 8.13(a);
- (162) “**Security Exercise Report**” has the meaning given in Section 8.13(f);
- (163) “**Security Inspection Procedure**” has the meaning given in Section 8.11(a);
- (164) “**Security Log**” has the meaning given in Section 8.10(a);
- (165) “**Security Plan**” has the meaning given in Section 8.7(a);
- (166) “**Security Risk Assessment**” has the meaning given in Section 8.9(a);
- (167) “**Security Risk Assessment Report**” has the meaning given in Section 8.9(b);
- (168) “**Security Risk Assessment Review Report**” has the meaning given in Section 8.9(e);
- (169) “**Serious Injury**” has the meaning given in the Transportation Safety Board Regulations;
- (170) “**Shared Infrastructure Security Plan**” has the meaning given in Section B.1.7 of Appendix B to this Schedule 29;
- (171) “**Significant Change**” means a change to the existing Ontario Line Subway System found to be significant under the CMREA;
- (172) “**SIL**” means the safety integrity level;
- (173) “**SIL Apportionment Report**” has the meaning given in Section 6.7(g);
- (174) “**SMS Action Plan Report**” has the meaning given in Section 5.13.2(d);
- (175) “**SMS Audit**” has the meaning given in Section 5.13.2(a);
- (176) “**SMS Audit Plan**” has the meaning given in Section 5.13.1(a);
- (177) “**SMS Audit Report**” has the meaning given in Section 5.13.2(a);

- (178) “**SMS Contracting Authority Audit**” has the meaning given in Section 5.13.1(e);
- (179) “**SMS Independent Audit Report**” has the meaning given in Section 5.13.1(d);
- (180) “**SOR/2020-222**” has the meaning given in Section 8.4(a);
- (181) “**SSDM Summary Report**” has the meaning given in Section 7.12(g);
- (182) “**Standard Operating Procedures**” has the meaning given in the Output Specifications;
- (183) “**Standards Council of Canada**” means the Standards Council of Canada and its successors;
- (184) “**Subsystem**” has the meaning given in EN 50126-1 and further defined in the CMREA;
- (185) “**Subway Rules**” has the meaning given in the Output Specifications;
- (186) “**Subway Rules and Standard Operating Procedures**” has the meaning given in the Output Specifications;
- (187) “**Supporting Standards**” has the meaning given in Section 6.3(e);
- (188) “**System**” has the meaning given in EN 50126-1 and further refined in the CMREA;
- (189) “**System Assurance Submission**” has the meaning given in Section 6.5.2(a);
- (190) “**System Assurance Submissions Plan**” has the meaning given in Section 6.5.1(a);
- (191) “**System Definition**” means the establishment of boundaries and functions of the System under consideration as set out in EN 50126-1;
- (192) “**System Definition Document**” has the meaning given in Section 6.4(a);
- (193) “**System Design Safety Submission**” has the meaning given in Section 6.5.2(a)(ii);
- (194) “**System Design Security Submission**” has the meaning given in Section A.1.1(a)(ii);
- (195) “**System Performance Status Report**” has the meaning given in Section 6.8(g)(ii);
- (196) “**System RAM Status Report**” has the meaning given in Section 6.8(d)(iv);
- (197) “**System Safety and Security Interface Committee**” or “**SSSIC**” has the meaning given in Section 3.4(a);

- (198) “**System Safety Case**” has the meaning given in Section 6.8(d)(iii);
- (199) “**System Safety Certificate**” has the meaning given in Section 6.8(n);
- (200) “**System Safety Officer**” has the meaning given in Section 6.2(e);
- (201) “**System Safety Plan**” has the meaning given in Section 6.4(a);
- (202) “**System Safety Review Panel**” has the meaning given in Section 3.7(a);
- (203) “**System Security Certificate**” has the meaning given in section 8.5.2(g);
- (204) “**System Security Officer**” has the meaning given in Section 8.2(e);
- (205) “**System Security Plan**” has the meaning given in Section B.1.3 of Appendix B to this Schedule 29;
- (206) “**System Security Standards**” has the meaning given in Section 8.4(a);
- (207) “**System Security Submission**” has the meaning given in Section 8.5.2(a);
- (208) “**System Security Submissions Plan**” has the meaning given in Section 8.5.1(a);
- (209) “**Tolerable Functional Failure Rate**” has the meaning given in EN 50126-2;
- (210) “**Tolerable Hazard Rate**” has the meaning given in EN 50126-1; and
- (211) “**Transportation Safety Board Regulations**” means the *Transportation Safety Board Regulations (SOR/2014-34)*, as amended from time to time.

3. SAFETY AND SECURITY GOVERNANCE

3.1 Contracting Authority

- (a) Contracting Authority shall rely on the following Metrolinx bodies;
 - (i) Safety Certification Committee as the overall Safety Governing Body for the Ontario Line Subway System, and
 - (ii) Safety Performance Review Committee as the Safety Performance Review Body for the Ontario Line Subway System.

3.2 Safety Governing Body

- (a) Contracting Authority shall establish a safety governing board that shall have oversight on the following matters for the Ontario Line Subway System:
 - (i) matters related to the Risk Evaluation and Risk Assessments as set out in this Schedule 29;

- (ii) matters related to system assurance, and Engineering Safety and Assurance Cases as set out in this Schedule 29 for all elements of the Project;
 - (iii) matters related to Product Acceptance Process, as set out in this Schedule 29, for all elements of the Project affecting existing railways;
 - (iv) matters related to security assurance and System Security Submissions as set out in Schedule 29 of the Project;
 - (v) matters related to the acceptance of the Ontario Line Subway System as safe and secure for entry into, and remaining in, Revenue Service;
 - (vi) all other safety, system assurance and security matters as they relate to the Ontario Line Subway, including the development of new infrastructure and equipment and the modification of existing infrastructure and equipment; and
 - (vii) any other matters with respect to safety, system assurance and security as may be set out in the terms of reference that are developed from time to time by the board.
- (the “**Safety Governing Body**”).
- (b) The composition of the membership of the Safety Governing Body shall be determined by Contracting Authority in its sole discretion.
 - (c) The Safety Governing Body shall receive and review submissions related to the items set out in Section 3.2(a) including:
 - (i) the Ontario Line Subway System Safety Plan, the Ontario Line Subway System Definition Document, and the RAM Plan produced by Project Co in accordance with Section 6.4;
 - (ii) with respect to any Risk Evaluation or Risk Assessment performed in accordance with Section 6.5 and the Project Co Declaration;
 - (iii) the System Assurance Submissions Plan in accordance with Section 6.5.1;
 - (iv) the System Assurance Submissions in accordance with Section 6.5.2, including all Engineering Safety and Assurance Cases and Project Co ISA ESAC Reports in accordance with Section 6.8;
 - (v) the Product Acceptance Process and new or modified Project applications in accordance with Section 6.9;
 - (vi) the Project Co Quarterly FRACAS Reports in accordance with Section 6.10(b);
 - (vii) the O&M Plan Performance in accordance with Section 6.10(d);
 - (viii) the System Security Submissions Plan in accordance with Section 8.5.1;
 - (ix) the System Security Submission in accordance with Section 8.5.2;

- (x) the Cybersecurity Submissions in accordance with Section 8.6 and the Output Specifications;
 - (xi) the submissions from the System Safety Review Panels over which the Safety Governing Body has authority; and
 - (xii) the submissions from the Contracting Authority ISA with respect to matters over which the Safety Governing Body has authority.
- (d) Unless otherwise determined by the Contracting Authority, in its sole discretion, the Safety Governing Body shall operate throughout the Project Term.
- (e) The Safety Governing Body shall, in its sole discretion,
- (i) approve or reject any submission, plan or report received pursuant to Section 3.2(c) or
 - (ii) provide comments or revisions to any submission, plan or report.
- (f) If instructed by Contracting Authority, and subject to Schedule 22 – Variation Procedure, Project Co shall incorporate and implement any comments provided by the Safety Governing Body pursuant to Section 3.2(e) into Project Co’s submissions, plans and reports.
- (g) Decisions of the Safety Governing Body shall be made in its sole discretion and shall be final and binding on Project Co.
- (h) The Safety Governing Body may, in its sole discretion:
- (i) adopt such procedures and practices for the conduct of the activities of the Safety Governing Body as it considers appropriate from time to time;
 - (ii) invite to any meeting of the Safety Governing Body such other persons as the Safety Governing Body, with reason, determines;
 - (iii) exclude from any meeting of the Safety Governing Body such persons as the Safety Governing Body, with reason, determines; and
 - (iv) receive and review any person or organization agreed to by the Safety Governing Body.
- (i) The Safety Governing Body shall, in its sole discretion, issue the Consent to Operate Revenue Service for the Ontario Line Subway System following:
- (i) full review of Project Co’s System Safety Certificate and supporting documents; and
 - (ii) full review of Project Co’s System Security Certificate and supporting documents.

3.3 Safety Performance Review Body

- (a) Contracting Authority shall establish a safety performance governing board that shall have oversight on the following matters for the Ontario Line Subway System:
 - (i) the Project Co Safety Management System, including:
 - (A) Project Safety Requirements, excluding those covered by the Safety Governing Body but including all other matters related to safety Risks or Hazards, and any non-conformances with the Project Safety Requirements;
 - (B) Common Safety Indicators; and
 - (C) the audits conducted in accordance with this Schedule 29;
 - (ii) safety-related performance requirements;
 - (iii) all other matters related to Project Co Services, construction safety and occupational health and safety for the Ontario Line Subway System; and
 - (iv) any other matters with respect to safety, other than undertaken by the Safety Governing Body, as may be set out in the terms of reference that are developed from time to time by the board,

(the “**Safety Performance Review Body**”).
- (b) The composition of the Safety Performance Review Body shall be determined by the Contracting Authority in its sole discretion.
- (c) The Safety Performance Review Body shall meet with Project Co each month (the “**Safety and Security Coordination Meeting**” or “**SSCM**”) to discuss and agree on the following:
 - (i) statistics and trend analysis of hazards and risks;
 - (ii) statistics and trend analysis of safety accidents, security incidents, and their precursors (near misses);
 - (iii) tests, simulations, and exercises of emergency preparedness;
 - (iv) training, communication, and promotion of an appropriate safety and security culture;
 - (v) investigation of safety accidents and security incidents, if any;
 - (vi) joint investigation of safety accidents and security incidents, if any; and
 - (vii) report on Remedial Actions, if any.
- (d) The Safety Performance Review Body shall receive and review the Monthly Safety and Security Report (see Section 3.4(e)) prior to the Safety and Security Coordination Meeting.
- (e) The Safety Performance Review Body shall receive and review the submissions related to the items set out in Section 3.3(a) including the following:

- (i) Safety Improvement Plans, as set out in Sections 3.5;
 - (ii) The Project Co Safety Management System, and any changes thereto, as set out in Section 5.1;
 - (iii) Additional and new Project Safety Requirements identified by Project Co and the associated reports, as set out in Section 5.4.1(c);
 - (iv) Initial Rail Transportation Occurrence Incident Reports, Interim Rail Transportation Occurrence Incident Reports and Final Rail Transportation Occurrence Incident Reports, as set out in Section 5.5.2;
 - (v) monthly reports on Common Safety Indicators, as set out in Section 5.9;
 - (vi) reports relating to Risks, Hazards, opportunities for safety improvements and any non-conformances with the Project Safety Requirements, as set out in Section 5.10;
 - (vii) the Project Co Fatigue Management Plan, as set out in section 5.12(b);
 - (viii) Project Co Internal Audit Reports, SMS Independent Audit Reports, and SMS Action Plan Reports, as set out in Sections 5.13.1(a) and 5.13.1(b)
 - (ix) Annual Safety Performance Plan, as set out in Section 5.14.1(a);
 - (x) the methodology, format and questions in the Baseline Safety Culture Survey and each Annual Safety Culture Survey, the Annual Safety Culture Survey Reports and the Safety Culture Survey Remedial Plans, as set out in Section 5.14.2;
 - (xi) Contractor Site Specific Safety Manual, as set out in Section 7.2;
 - (xii) the health and safety inspection and re-inspection reports, as set out in Section 7.4;
 - (xiii) the Project Co Personal Protective Equipment Standard, as set out in Section 7.5;
 - (xiv) the Project Co Fitness for Duty Policy, as set out in Section 7.7;
 - (xv) submissions from the Contracting Authority ISA with respect to matters over which the Safety Performance Review Body has authority in accordance with its terms of reference and this Schedule 29; and
 - (xvi) such other reports as the Safety Performance Review Body requires in its sole discretion.
- (f) The Safety Performance Review Body may, in its sole discretion,
- (i) approve or reject any submission, plan or report; or
 - (ii) provide comments or suggested revisions to any submission, plan or report.

- (g) If instructed by Contracting Authority, Project Co shall incorporate and implement any comments provided by the Safety Performance Review Body into Project Co's submissions, plans and reports.
- (h) Decisions of the Safety Performance Review Body shall be made in its sole discretion and shall be final and binding on Project Co.
- (i) The Safety Performance Review Body may, in its sole discretion:
 - (i) adopt such procedures and practices for the conduct of the activities of the Safety Performance Review Body as it considers appropriate from time to time;
 - (ii) invite to any meeting of the Safety Performance Review Body such other persons as the Safety Performance Review Body determines;
 - (iii) exclude from any meeting of the Safety Performance Review Body such persons as the Safety Performance Review Body determines; and
 - (iv) receive and review reports from any person or organization agreed to by the Safety Performance Review Body.
- (j) The Safety Performance Review Body may, in its sole discretion conduct one or more audits through Contracting Authority ISA or a third party, of the Project Operations or the Project Co Safety Management System to assess whether:
 - (i) Project Co is complying with the Project Safety Requirements; and
 - (ii) an acceptable level of safety, as determined by the Safety Performance Review Body in its sole discretion, is being maintained by Project Co.
- (k) The Safety Performance Review Body may, acting reasonably, deem Project Co to be performing at an "unacceptable level of safety", if an audit conducted in accordance with Section 3.3(j) determines that:
 - (i) ongoing non-compliance with the Project Co Safety Management System or the Project Safety Requirements has occurred or is occurring;
 - (ii) severe Safety Incidents or accidents have occurred; or
 - (iii) that Safety Incidents or accidents are occurring at a high frequency.
- (l) If the Safety Performance Review Body makes a determination of "unacceptable level of safety" pursuant to Section 3.3(k), Contracting Authority, on the basis of a recommendation of the Safety Performance Review Body may require Project Co to develop a safety improvement plan (the "**Safety Improvement Plan**").

3.4 Project Co Obligations for Governance and Committees

- (a) Within sixty (60) days of Financial Close, Project Co shall establish, chair, maintain, and support a committee through which Project Co shall coordinate all aspects of safety and

security management and certification with North Civil Project Co and South Civil Project Co (“**System Safety and Security Interface Committee**” or “**SSSIC**”). The SSSIC shall:

- (i) exist for the duration of the Project Term;
 - (ii) include North Civil Project Co, South Civil Project Co, the Project Co ISA, and Contracting Authority (by standing invitation);
 - (iii) develop a safety and security interface framework.
- (b) Project Co’s representatives at the SSSIC shall include, at a minimum:
- (i) the Chief Safety Officer;
 - (ii) the Chief Security Officer; and
 - (iii) any other Project Co personnel required by Project Co to fulfill the mandate of the SSSIC.
- (c) Within thirty (30) days of its establishment, the SSSIC shall develop a framework, agreed amongst Project Co, North Civil Project Co, and South Civil Project, that identifies the goals of the SSSIC, the procedures, key deliverables, and milestone dates (the “**Safety and Security Interface Framework**” or “**SSIF**”).
- (i) The Safety and Security Interface Framework shall detail the mechanisms that allow Project Co, North Civil Project Co and South Civil Project Co to work collaboratively on all safety and security matters and to resolve any scope or contractual issues.
 - (ii) The SSIF shall detail how documentation is shared between Project Co, North Civil Project Co and South Civil Project Co.
 - (iii) The SSIF shall detail how safety and security documentation is developed by Project Co, North Civil Project Co and South Civil Project Co and incorporated into the safety and security submission to Contracting Authority to meet the requirements of this Schedule 29.
 - (iv) The SSIF shall be reviewed by the SSSIC on a monthly basis for the duration of the Project Term.
- (d) Project Co shall take part in the Safety and Security Coordination Meeting pursuant to Section 3.3(c).
- (e) Project Co shall prepare a monthly report to Contracting Authority, three (3) days in advance of each Safety and Security Coordination Meeting, containing data, trends, analysis, and commentary on the topics to be discussed at a Safety and Security Coordination Meeting (the “**Monthly Safety and Security Report**”).
- (f) Within sixty (60) days of Financial Close, Project Co shall establish, chair, maintain and support a committee to coordinate fire/life safety activities (the “**Fire/Life Safety Committee**”).

- (i) The Fire/Life Safety Committee shall:
 - (A) review fire/life safety risks;
 - (B) provide a forum for Emergency Service Providers to raise issues related to emergency protocols;
 - (C) provide a forum for participants to raise issues of compliance to fire/life safety requirements; and
 - (D) reach consensus on the implementation of fire/life safety that are not explicitly covered by code.
- (ii) The Fire/Life Safety Committee shall be comprised of representatives from:
 - (A) Project Co;
 - (B) North Civil Project Co (during the Construction Period only);
 - (C) South Civil Project Co (during the Construction Period only);
 - (D) the Project Co ISA (during the Construction Period only);
 - (E) the Contracting Authority's Safety Governing Body;
 - (F) Emergency Service Providers;
 - (G) Governmental Authorities;
 - (H) Ontario Fire Marshal (by invitation);
 - (I) representatives of TTC; and
 - (J) representatives of GO Transit.
- (g) The Fire/Life Safety Committee shall be the first level of resolution on matters of fire/life safety that are not dealt with at the SSCM.
- (h) The Fire/Life Safety Committee participants shall reach a consensus within the Fire/Life Safety Committee and implement the result of their mutual agreement to support ESAC development and maintenance of the Consent to Operate Revenue Service. If consensus is not achieved the dispute resolution will follow the requirements as set out in the Project Agreement.
- (i) Project Co and the Civil Contractors shall incorporate requirements and decisions arising from the Fire/Life Safety Committee into the Ontario Line Subway System and obtain all necessary permits accordingly.
- (j) During the Construction Period, the Fire/Life Safety Committee shall:

- (i) ensure Project Co and the Civil Contractors meet the fire/life safety requirements of the Ontario Line Subway System through execution of their Fire/Life Safety Management Plan;
 - (ii) ensure each party has coordinated with the other parties as necessary to identify and mitigate interface risks between themselves;
 - (iii) monitor fire/life safety performance; and
 - (iv) monitor implementation of any corrective actions.
- (k) During the Operational Term, the Fire/Life Safety Committee shall:
- (i) ensure Project Co continue to meet the fire/life safety requirements of the Ontario Line Subway System through execution of their Fire/Life Safety Management Plan;
 - (ii) monitor fire/life safety performance and security performance; and
 - (iii) monitor implementation of any corrective actions.
- (l) Where no other Governmental Authority exists, the Fire/Life Safety Committee shall be the Governmental Authority for compliance with NFPA Codes and Standards, the Canadian National Fire Code and the Ontario Fire Code.
- (m) Project Co shall attend the following meetings and committees:

Meeting Name	Schedule 29 Reference	Schedule
Safety Governing Body	Section 3.2(a)	Monthly
Safety Performance Review Body	Section 3.3(a)	Monthly
Systems Safety & Security Interface Committee	Section 3.4(a)	Monthly
Safety and Security Coordination Meeting	Section 3.4(d)	Monthly
Fire/Life Safety Committee	Section 3.4(f)	Monthly
Safety Stand Down	Section 7.12	Quarterly

3.5 Project Co Safety Improvement Plan

- (a) The Safety Improvement Plan shall include a detailed description of,

- (i) the Remedial Actions that Project Co intends to implement to rectify the issues uncovered by the audit to ensure compliance with the Project Co Safety Management System and the Project Safety Requirements;
 - (ii) the Project Co individuals who shall be responsible for the implementation of each Remedial Action;
 - (iii) the timeline for Project Co's implementation of each Remedial Action;
 - (iv) the mechanism by which Project Co shall monitor the successful implementation of a Remedial Action; and
 - (v) the timeline for Project Co's submission of reports to the Safety Performance Review Body on the implementation of Remedial Action.
- (b) Project Co shall submit each Safety Improvement Plan to the Safety Performance Review Body, for review and approval, no later than twenty (20) Business Days following the request by the Safety Performance Review Body for the Safety Improvement Plan (or such longer period of time as the Parties may agree).

3.6 Submissions to Contracting Authority

- (a) For the purposes of this Schedule 29, any submission, plan, report or other deliverable that Project Co is required to provide to the Contracting Authority's Safety Governing Body or the Safety Performance Review Body pursuant to this Schedule 29 shall be,
- (i) submitted by the Project Co Representative to Contracting Authority for review by the Contracting Authority ISA; and
 - (ii) reviewed and actioned by the Contracting Authority ISA in accordance with Sections 6.8(j) and 6.8(k).
- (b) Project Co shall submit each System Assurance Submission and the System Assurance Submissions Plan for approval in accordance with the requirements of Section 6.5.
- (c) Project Co shall submit each System Security Submission and the System Security Submissions Plan for approval in accordance with the requirements of Section 8.5.
- (d) All other submissions required within this Schedule 29 shall be submitted to Contracting Authority in accordance with the requirements of Schedule 10 – Review Procedure.
- (e) Project Co shall implement each submission, plan or other deliverable that Project Co is required to submit to the Contracting Authority's Safety Governing Body or the Safety Performance Review Body pursuant to this Schedule 29 following receipt of an approval by the Safety Governing Body or the Safety Performance Review Body, as applicable.

3.7 System Safety Review Panels

- (a) No later than thirty (30) days following Commercial Close, Contracting Authority shall establish one or more separate and distinct system safety review panels (each, a "**System**

Safety Review Panel”) comprised of technical representatives of the Contracting Authority.

- (i) For clarity, the role of these panels is only to review the safety aspect of a distinct system, or integrated system design.
- (b) Contracting Authority shall assign subject matters to each System Safety Review Panel based on the Systems set out in Project Co’s Ontario Line Subway System Definition Document.
- (c) Project Co shall meet with each System Safety Review Panel on a monthly basis, and each meeting shall include:
 - (i) an update by Project Co on the status of the System Assurance Submissions related to the System being discussed;
 - (ii) an update from the Project Co ISA on the progress of the System Assurance Submissions, and any general observations or concerns that the Project Co ISA may have with respect to safety or system assurance related to the System being discussed;
 - (iii) discussion, including any feedback or clarification by the System Safety Review Panel on the draft versions of System Assurance Submissions, provided that the drafts have been submitted by Project Co to the applicable System Safety Review Panel no later than ten (10) Business Days in advance of the meeting; and
 - (iv) any matter related to System Assurance Submissions for the applicable System that Project Co or Contracting Authority may elect to discuss.
- (d) Contracting Authority shall document minutes from each meeting set out in Section 3.7(c), and such minutes shall be distributed to Project Co no later than five (5) Business Days after the applicable meeting.
- (e) The Safety Governing Body and the Safety Performance Review Body may, each in its sole discretion, delegate tasks to any System Safety Review Panel or require that information or submissions be reviewed by any System Safety Review Panel prior to such submissions being made to the Safety Governing Body or the Safety Performance Review Body, as applicable.

4. PROJECT CO OBLIGATIONS FOR SAFETY, SYSTEM ASSURANCE AND SECURITY

4.1 Safety Requirements

- (a) Project Co shall carry out the Project Operations in accordance with the following, each as may be amended from time to time:
 - (i) Applicable Law;
 - (ii) Good Industry Practice as it relates to passenger rail transportation safety and system assurance; and
 - (iii) the Safety and System Assurance Standards,
(collectively, the “**Project Safety Requirements**”).
- (b) Project Co and all Project Co Parties shall comply with the Project Safety Requirements at all times during the Project Term.
- (c) Project Co shall comply with the standards set out in this Schedule 29, as at the Technical Reference Date, unless instructed by the Contracting Authority.

4.2 Security Requirements

- (a) Project Co shall carry out the Project Operations in accordance with the following, each as may be amended from time to time:
 - (i) Applicable Law;
 - (ii) Good Industry Practice as it relates to passenger rail transportation security; and
 - (iii) the System Security Standards,
(collectively, the “**Project Security Requirements**”).
- (b) Project Co and all Project Co Parties shall comply with the Project Security Requirements at all times during the Project Term.
- (c) Project Co shall comply with the standards set out in this Schedule 29, as at the Technical Reference Date, unless instructed by the Contracting Authority.

4.3 Project Co Independent Safety Assessor

- (a) Project Co shall appoint the Project Co ISA to independently assess the safety and security work being delivered by Project Co and the Civil Contractors.
- (b) The Project Co ISA shall be a body, acceptable to the Contracting Authority.
- (c) The terms of reference of the Project Co ISA shall be based upon, and include, the requirements provided in the Standard Council of Canada’s Requirements and Guidance – Independent Safety Assessor for Railway Systems Accreditation Program.

- (d) The Project Co ISA team's lead assessor shall be a Professional Engineer in the Province of Ontario.
- (e) The Project Co ISA team's leader shall have a minimum of 10 years in a senior role as a Project Co ISA or senior manager in the field of system safety applied in a metro type rail transit environment.
- (f) The Project Co ISA shall evaluate the compliance of Project Co's and Civil Contractors' work with the System Safety Plan, System Security Plan and RAM Plan during the Construction Period through review and comment of the releases of the System Assurance Submission and the System Security Submissions.
- (g) The scope of the work performed by the Project Co ISA shall be as provided in this Schedule 29.
- (h) The Project Co ISA shall present the status of its assessment, findings, and any safety conditions at SSCM meetings.

4.4 General Project Co Obligations for Ontario Line Subway Safety and Security

- (a) Project Co acknowledges and agrees that during the Construction Period,
 - (i) the management of construction and personnel health and safety for the Ontario Line Subway is a shared responsibility amongst Project Co, South Civil Project Co, North Civil Project Co, Early Works Contractors, and Additional Contractors;
 - (ii) notwithstanding the shared responsibility as described in Section 4.4(a)(i), Project Co shall be responsible for achieving Consent to Operate Revenue Service in accordance with the requirements of this Schedule 29 for the Ontario Line Subway System, which includes the Ontario Line Subway.
 - (A) Project Co shall provide evidence of safe system integration for all Systems and Subsystems comprising the Ontario Line Subway System in accordance with the requirements of the Safety and System Assurance Standards;
 - (B) Project Co shall provide evidence of secure integration for all Systems and Subsystems comprising the Ontario Line Subway System in accordance with the requirements of the System Security Standards; and
 - (C) the Civil Contractors will be responsible for supporting and coordinating with Project Co for their work that is impacted by, or impacts, safety and security of Ontario Line Subway as agreed at the SSSIC;
 - (iii) Project Co shall be responsible and accountable for:
 - (A) ESAC development and submission, together with demonstration of reliability, availability and maintainability of Trains and other rail-borne equipment for the Ontario Line Subway System;

- (B) ESAC development and submission, together with demonstration of reliability, availability and maintainability of the Signaling and Train Control System (as defined in the Output Specifications) for the Ontario Line Subway System;
- (C) ESAC development and submission, together with demonstration of reliability, availability and maintainability of the other Project Co rail systems for the Ontario Line Subway System, including:
 - (I) Traction Power System (as defined in the Output Specifications);
 - (II) Overhead Contact System (as defined in the Output Specifications);
 - (III) Supervisory Control and Data Acquisition (as defined in the Output Specifications);
 - (IV) Communications System (as defined in the Output Specifications);
 - (V) Platform Screen Doors (as defined in the Output Specifications);
 - (VI) Guideway Intrusion Detection System (as defined in the Output Specifications); and
 - (VII) Tunnel Ventilation Control System (as defined in the Output Specifications);
- (D) System Security Submissions of all Project Co Infrastructure for the Ontario Line Subway System;
- (E) providing support to the Civil Contractors in safety case development for, and demonstration of reliability, availability and maintainability of, the Civil Contractors infrastructure, equipment and systems that impact safety on the Ontario Line Subway in accordance with the requirements of this Schedule 29 and as agreed at the SSSIC;
- (F) providing support to the Civil Contractors in security submission development for the Civil Contractors infrastructure, equipment and systems that impact security on the Ontario Line Subway in accordance with the requirements of this Schedule 29 and as agreed at the SSSIC;
- (G) obtaining approvals, from the Contracting Authority, for the System Assurance Submissions for the overall Ontario Line Subway System and all Systems and Subsystems in accordance with the requirements of this Schedule 29;
- (H) obtaining approvals, from the Contracting Authority, for the System Security Submissions for the overall Ontario Line Subway System in accordance with the requirements of this Schedule 29; and

- (I) obtaining approvals for carrying passengers on, and the Revenue Service of, the Ontario Line Subway System (the “**Consent to Operate Revenue Service**”).
- (b) During the Operational Term, Project Co shall be responsible for:
 - (i) providing a safe and secure environment for passengers and staff, including system level management of fire, life safety, and security services;
 - (ii) safe management of Project Co Services; and
 - (iii) maintaining and updating the Ontario Line Subway System Safety and Security documentation, including:
 - (A) providing the Project Co Services in accordance with the Subway Rules and Standard Operating Procedures; and
 - (B) any and all changes to the Subway Rules and Standard Operating Procedures;
 - (iv) maintaining all documentation, procedures, rules, training and other processes necessary to retain the Consent to Operate Revenue Service.
- (c) Project Co acknowledges and agrees that if Contracting Authority believes, in its sole discretion, that a suspension of the Project Operations is required for any Emergency, Contracting Authority may, without limiting Section 32 (*Contracting Authority’s Remedial Rights*) of the Project Agreement, order Project Co to suspend all or any part of the Works or the Project Co Services and Project Co shall immediately comply with such an order.
 - (i) Project Co shall comply, and shall ensure that all Project Co Parties comply, with all safety-related directives or instructions that may be issued by Contracting Authority from time to time.
- (d) If instructed by Contracting Authority, Project Co shall comply, incorporate and implement any changes to standards, codes and regulations used or referenced in this Schedule 29, subject to and in accordance with Section 18 (*Change in Standards*) of the Project Agreement.

5. SAFETY MANAGEMENT SYSTEM

5.1 Project Co Safety Management System

5.1.1 Project Co Safety Management System

- (a) Project Co shall develop and implement a safety management system for the Project Operations (the “**Project Co Safety Management System**” or “**Project Co SMS**”) that,
- (i) complies with requirements set out in this Schedule 29; and
 - (ii) includes the following:
 - (A) a process for ensuring accountability within Project Co and among Project Co Parties that meets the requirements set out in Section 5.2;
 - (B) a Safety Policy that meets the requirements of Section 5.3;
 - (C) a process for ensuring compliance with the Project Safety Requirements in accordance with Section 5.4;
 - (D) a process for managing Safety Incidents that includes,
 - (I) a means of recording meaningful data regarding Safety Incidents such that the data informs the determination of the root cause of Safety Incidents; and
 - (II) the requirements of Section 5.5;
 - (E) a process for identifying safety concerns and safety improvements, as set out in Section 5.6;
 - (F) a Risk Assessment process that meets the requirements of Section 5.7 and that is compliant with the CMREA;
 - (G) a process that meets the requirements of Section 5.8 for selecting, implementing and evaluating remedial action for Risks identified during the Risk Assessment process as requiring remedial action;
 - (H) a process that meets the requirements of Section 5.9 for establishing targets to manage and continuously improve the safety of the Ontario Line Subway System operations and for developing initiatives to achieve each target;
 - (I) a process for reporting Rail Transportation Occurrences, Safety Incidents, Risks, Hazards, opportunities for safety improvements, and any non-conformances with the Project Safety Requirements, that meets the requirements of Section 5.10;

- (J) a process for managing knowledge that meets the requirements of Section 5.11;
- (K) a process with respect to scheduling that meets the requirements of Section 5.12;
- (L) a process for continual improvement of the Project Co Safety Management System that meets the requirements of Section 5.13; and
- (M) a process for meeting the safety and systems assurance requirements that are set out in Section 6,

(each, a “**Project Co Safety Management System Component**”).

- (b) Project Co shall ensure that the Project Co Safety Management System as a whole, and each Project Co Safety Management System Component, applies to the Project Operations and to all activities of Project Co and the Project Co Parties.
- (c) Project Co shall ensure that the Project Co Safety Management System includes a requirement to acquire and maintain ISO 45001 certification in accordance with Section 7.3
- (d) Project Co shall submit updated versions of the Project Co Safety Management System to the Contracting Authority for approval during the Project Term no later than thirty (30) days following Commercial Close and on or before a number of key milestones in accordance with the following:
 - (i) As part of the process for safety and system assurance set out in Section 6, Project Co shall submit an updated version of the Project Co Safety Management System to the Contracting Authority no later than each of the following:
 - (A) the date of Project Co’s submission of each Approval in Principle Safety Submission to the Safety Governing Body;
 - (B) the date of Project Co’s submission of each System Design Safety Submission to the Contracting Authority;
 - (C) the date of Project Co’s submission of each Consent to Construct Safety Submission to the Contracting Authority;
 - (D) the date of Project Co’s submission of each Consent to Test Safety Submission to the Contracting Authority;
 - (E) the date of Project Co’s submission of each Consent to Operate System Safety Submission to the Contracting Authority; and
 - (F) the date of Project Co’s submission of the Consent to Operate Revenue Service Safety Submission to the Contracting Authority.

- (ii) Each updated version of the Project Co Safety Management System submitted in accordance with Section 5.1.1(d)(i) shall, for each Project Co Safety Management System Component, reflect the progression of the Project Operations based on what is included in the applicable System Assurance Submission.
- (iii) In addition to the submissions set out in Section 5.1.1(d)(i), Project Co shall submit an updated version of the Project Co Safety Management System no later than six months following each of the following changes in circumstance:
 - (A) a change in the Chief Safety Officer; and
 - (B) an amendment to any one component of the Project Safety Requirements.
- (e) Until such time as an updated Project Co Safety Management System is approved by the Contracting Authority, in its sole discretion, the then current Project Co Safety Management System shall continue in force.
- (f) Once the updated Project Co Safety Management System is approved by the Contracting Authority, in its sole discretion, the updated Project Co Safety Management System (subject to any revisions implemented as a result of comments from the Contracting Authority) shall replace the then current Project Co Safety Management System (and become the finalized Project Co Safety Management System that is in force).
- (g) The first finalized Project Co Safety Management System that is approved by the Contracting Authority shall be the “Project Co Safety Management System – Version 1 – [Date]”. Thereafter each updated Project Co Safety Management System that is approved by the Contracting Authority shall become the next version number and shall be dated as of the applicable date of completion of the review procedure and shall replace the then current Project Co Safety Management System.
- (h) Project Co may propose changes to the Project Co Safety Management System by submitting an updated Project Co Safety Management System to the Contracting Authority for review and approval. Sections 5.1.1(e), 5.1.1(f) and 5.1.1(g) shall apply to each updated Project Co Safety Management System submitted by Project Co in accordance with this Section 5.1.1(h).

5.1.2 Project Co SMS Software Solution

- (a) No later than sixty (60) days following Commercial Close, Project Co shall provide a software solution for the administration of the Project Co Safety Management System (the “**Project Co SMS Software Solution**”). The Project Co SMS Software Solution shall meet the minimum requirements set out in Appendix D to this Schedule 29.

5.2 Safety Accountability

5.2.1 System of Safety Accountability

- (a) As part of the Project Co Safety Management System, Project Co shall establish a system of accountability that meets the following requirements:

- (i) The Chief Safety Officer shall be accountable for the safe operations and activities of the Ontario Line Subway System and the extent to which the requirements of the Project Co Safety Management System are met, including its effectiveness in achieving the highest level of safety in its subway operations.
- (ii) The Chief Safety Officer shall ensure that the Project Co Safety Management System provides safety governance for all Project Co responsibilities and that Project Co is at all times in compliance with the Project Co Safety Management System;
- (iii) The Chief Safety Officer may designate one or more staff members of Project Co to develop and implement one or more of the processes required as part of the Project Co Safety Management System, provided that formal records of designation are maintained by Project Co. However, the Chief Safety Officer shall at all times be accountable for the extent to which the Project Safety Requirements are met;
- (iv) Project Co shall ensure that all safety-related responsibilities, accountabilities and authorities of each Project Co Party that has a safety-related role (including management of other staff involved in safety-related tasks) are,
 - (A) clearly defined and documented at all levels of Project Co and the Project Co Parties;
 - (B) clearly delegated, assigned and communicated to the applicable Project Co Parties; and
 - (C) understood and accepted by the applicable Project Co Parties; and
- (v) The Chief Safety Officer shall establish Project Co's own internal safety governance structure, processes and committees and shall document such structures, processes, and committees in the Project Co Safety Management System.

5.3 Safety Policy

5.3.1 Safety Policy

- (a) As part of the Project Co Safety Management System, Project Co shall establish, implement and maintain a safety policy for the Ontario Line Subway System (the “**Safety Policy**”) that:
 - (i) includes a commitment to provide a positive health and safety culture and environment for the prevention of injuries and ill health;
 - (ii) is appropriate to the purpose, size and context of the Ontario Line Subway System, and the specific nature of the Risks, Hazards and opportunities for safety performance improvements;
 - (iii) provides a framework for setting safety objectives and evaluating Project Co's performance against these safety objectives;

- (iv) includes a commitment to fulfill legal and regulatory requirements and to comply with Project Safety Requirements;
 - (v) includes a commitment to identify Hazards and to seek to eliminate, isolate, contain or reduce the Risk of such Hazards;
 - (vi) includes a commitment to continual improvement of the Project Co Safety Management System and of safety performance;
 - (vii) includes a commitment to monitor the performance of assets described in Section 6.10(a) through FRACAS methods;
 - (viii) includes a commitment to provide mechanisms for identifying, reporting and resolving safety concerns;
 - (ix) includes a commitment to consult with and enable participation of the public and Project Co Parties;
 - (x) includes protection from reprisals for reporting of safety concerns as set out in Section 5.10(c) and a mechanism for confidential reporting of safety concerns as described in Section 5.10(d); and
 - (xi) is approved and signed by the Chief Safety Officer.
- (b) Project Co shall ensure that the Safety Policy is reviewed annually as part of the Independent SMS Audit.

5.3.2 **Communication of Safety Policy**

- (a) Project Co shall ensure that the Safety Policy is,
- (i) available to Contracting Authority as documented information;
 - (ii) communicated to all Project Co Parties;
 - (iii) communicated to all key stakeholders; and
 - (iv) available to interested parties:
 - (A) any release to a party external to Project Co shall be subject to sensitive information protocols and securely protected.
- (b) Project Co shall ensure that any change to the Safety Policy is communicated to all Project Co Parties no later than seven (7) days after a change is made.
- (c) Project Co shall require that the Construction Contractor and each Project Co Party that is a subcontractor of any tier provide written confirmation that is signed by such organization's safety director (or an equivalent role), that states that such Project Co Party has received and reviewed the Safety Policy and accepts the Safety Policy.

- (d) Project Co shall ensure that copies of the signed confirmations are forwarded to Contracting Authority upon request and that originals are available during any audit by Contracting Authority.

5.4 Compliance with Safety Requirements

5.4.1 Process for Ensuring Compliance

- (a) Project Co shall include, in the Project Co Safety Management System, a list of the regulations, rules, and other instruments comprising the Project Safety Requirements that are applicable to the Project (the “**Register of Project Safety Requirements**”).
- (b) Project Co shall ensure that the Register of Project Safety Requirements is kept up to date and includes, for each regulation, rule and other instrument, the date upon which the regulation, rule or other instrument was approved or established, and the date of its last revision.
- (c) Project Co shall, at all times during the Project Term,
 - (i) identify all additional and new Project Safety Requirements and incorporate them into the Project Co Safety Management System to ensure continued compliance with the Project Safety Requirements at all times;
 - (ii) notify the Contracting Authority of all additional and new Project Safety Requirements; and
 - (iii) report to the Contracting Authority what changes Project Co will implement in response to the additional and new Project Safety Requirements and how such changes will satisfy the Project Safety Requirements.
- (d) Project Co shall include in the Project Co Safety Management System a procedure for verifying compliance with the requirements of this Schedule 29 and the associated Project Safety Requirements.

5.5 Rail Transportation Occurrences and Safety Incidents

5.5.1 Rail Transportation Occurrences and Safety Incident Management and Investigation Plan

- (a) Project Co shall comply with all investigation and reporting requirements set out in this Section 5.5 for any occurrence on the Ontario Line Subway in which:
 - (i) a person is killed or sustains a serious injury as a result of,
 - (A) getting on, or off, or being on board the Train, or
 - (B) coming into direct contact with any part of the Train, or
 - (C) coming into contact with live electrical traction power distribution equipment or system;

- (ii) a Train,
 - (A) is involved in a collision or derailment,
 - (B) sustains damage that affects the safe operation of the Train,
 - (C) sustains damage caused by improper operation of the Train
 - (D) causes or sustains a fire or explosion, or
 - (E) causes damage to the Ontario Line Subway System that poses a threat to the safe passage of a Train or to the safety of any person, property or the environment;
 - (iii) a risk of collision occurs between Trains;
 - (iv) a main track switch is left unprotected in an abnormal position;
 - (v) there is an unplanned and uncontrolled movement of a Train; or
 - (vi) a person whose duties are directly related to the safe operation of the Ontario Line Subway System is unable to perform their duties as a result of a physical incapacitation or impairment which poses a threat to the safety of persons, property or the environment sustained while working on the Ontario Line Subway System,
- (each a “**Rail Transportation Occurrence**”).
- (b) The Project Co Safety Management System shall include a Safety Incident management and investigation plan (the “**Project Co Safety Incident Management and Investigation Plan**”). The Project Co Safety Incident Management and Investigation Plan shall:
 - (i) require that all Rail Transportation Occurrences be reported to the Chief Safety Officer and formally recorded, including the information set out in Section 5.5.2(a), by Project Co;
 - (ii) require that all Rail Transportation Occurrences be reported to the Contracting Authority in accordance with Section 5.5.2;
 - (iii) facilitate the involvement of TTC with respect to Rail Transportation Occurrences in accordance with Section 5.5.3;
 - (iv) set out a process for how each category of Rail Transportation Occurrence shall be investigated and reviewed;
 - (v) set out the process for how each type of Safety Incident other than a Rail Transportation Occurrence shall be investigated and reviewed;
 - (vi) identify how the outcome of the investigations or reviews of Rail Transportation Occurrences and Safety Incidents shall be communicated to all Project Co Parties;

- (vii) identify if a different approach to any of the items set out in Sections 5.5.1(b)(i) to 5.5.1(b)(vi) is required for any Safety Incidents occurring on Adjacent Railway Systems territories as compared to Safety Incidents occurring on the Metrolinx Territory.

5.5.2 Reporting of Rail Transportation Occurrences

- (a) No later than four hours following each Rail Transportation Occurrence, Project Co shall submit to the Contracting Authority a high level written description of the immediate facts of the Rail Transportation Occurrence (each, a “**Rail Transportation Occurrence Summary**”), including,
 - (i) the date, the exact time and the location of the Rail Transportation Occurrence;
 - (ii) the point of departure and the intended destination of any Trains or Maintenance Vehicles involved in the Rail Transportation Occurrence;
 - (iii) a description of the sequence of events and the accident site, including the efforts and involvement of Emergency Service Providers;
 - (iv) the name and contact details of the Person In Charge of the site of the Rail Transportation Occurrence; and
 - (v) the plan for the establishment of an investigation, the composition of the team of investigators, and the conduct of the investigation.
- (b) No later than 24 hours following each Rail Transportation Occurrence, Project Co shall submit to the Contracting Authority an initial written report describing the Rail Transportation Occurrence in a form that is prescribed by the Contracting Authority, in its sole discretion (each, an “**Initial Rail Transportation Occurrence Incident Report**”). Each Initial Rail Transportation Occurrence Incident Report shall include, at a minimum,
 - (i) an up-to-date version of the information set out in the Rail Transportation Occurrence Summary;
 - (ii) a detailed summary and analysis of the Rail Transportation Occurrence, including,
 - (A) an estimate of the number of Passengers, the number of Project Co staff, the number of Security Provider staff and the number of Passenger Interface Provider staff on board any Train involved in the Rail Transportation Occurrence;
 - (B) the names and roles of Project Co Parties involved and, to the extent ascertainable by Project Co, of other persons involved and witnesses;
 - (C) a description of the Trains, Maintenance Vehicles and Road Vehicles involved in the Rail Transportation Occurrence, identified by type and identification numbers;

- (D) a description of the fixed infrastructure involved in the Rail Transportation Occurrence, including track types, switches, and guideway type
 - (E) a description of the means of communication that was used before, during and after the Rail Transportation Occurrence by Project Co and other persons involved in the Rail Transportation Occurrence;
 - (F) a description of the Works or Project Co Services being carried out at or in the vicinity of the site, if applicable;
 - (G) a description of the trigger of the Emergency Response Plan and the chain of events following the trigger; and
 - (H) a description of the trigger of the involvement of the Emergency Service Providers and a description of the involvement and actions taken by the Emergency Service Providers;
- (iii) the estimated number of fatalities, Serious Injuries, and injuries other than Serious Injuries to Passengers, Project Co Parties, Contracting Authority Parties and third parties;
 - (iv) a description of the estimated material damage, including to luggage, other property, vehicles, fixed infrastructure, and the environment;
 - (v) external circumstances relevant to the Rail Transportation Occurrence, including,
 - (A) weather conditions at the time of the Rail Transportation Occurrence and any climatic conditions, including snow, ice, wind, fog, dust and severe heat; and
 - (B) geographical references, including chainages and proximity to Adjacent Railway Systems;
 - (vi) a record of evidence collected and investigations and inquiries initiated or completed by Project Co and Project Co Parties with respect to the Rail Transportation Occurrence, including,
 - (A) summary of testimonies (subject to the protection of the identity of persons) of Project Co Parties and any other witnesses to the Rail Transportation Occurrence;
 - (B) electronic, photographic, audio, video, or other records or documentation related to the Rail Transportation Occurrence;
 - (C) medical records and/or toxicology results in accordance with the Project Co Fitness for Duty Policy of any employees or contractors of Contracting Authority, Project Co, or Project Co Parties involved in the Rail Transportation Occurrence; and

- (D) any other evidence that the Project Co Investigator, or Contracting Authority safety personnel, identifies as being relevant to the investigation;
- (vii) an initial analysis and conclusions with respect to the Rail Transportation Occurrence, including,
 - (A) initial conclusions regarding all known direct and immediate causes of the Rail Transportation Occurrence, including contributory factors relating to actions taken by persons involved or the condition of Trains or Maintenance Vehicles or technical installations;
 - (B) initial conclusions regarding all known direct, immediate and/or root causes relating to the Project Safety Requirements and the Project Co Safety Management System;
 - (C) initial conclusions and observations on safety issues (for example, deficiencies, Risks, or Hazards) that were present, but may not necessarily have contributed to the Rail Transportation Occurrence; and
 - (D) measures that have already been taken or that are being initiated as a consequence of the Rail Transportation Occurrence in order to mitigate Risk; and
- (viii) any other information relating to the Rail Transportation Occurrence that Contracting Authority safety personnel requests or any other information that may be reportable under the Transportation Safety Board Regulations.
- (c) No later than 72 hours following each Rail Transportation Occurrence, Project Co shall submit to the Contracting Authority an updated version of the Initial Rail Transportation Occurrence Incident Report that includes the up-to-date version of all information set out in Sections 5.5.2(b)(i) to 5.5.2(b)(viii) (each, an “**Interim Rail Transportation Occurrence Incident Report**”).
- (d) No later than forty-five (45) days following each Rail Transportation Occurrence, Project Co shall submit to the Contracting Authority an updated version of the Interim Rail Transportation Occurrence Incident Report that includes the current, up-to-date version of all information set out in Sections 5.5.2(b)(i) to 5.5.2(b)(viii) and, in addition, the following information (each, a “**Final Rail Transportation Occurrence Incident Report**”):
 - (i) a detailed estimate of material damage, including to cargo, luggage, other property, Trains, Maintenance Vehicles and Road Vehicles, fixed infrastructure and the environment, including a dollar amount that represents the estimate of total material damage, and a dollar amount breakdown by type of damage;
 - (ii) the record of evidence collected and investigations and inquiries completed on the following:
 - (A) the Project Co Safety Management System, including,

- (I) the framework organization and how orders are given and carried out;
- (II) requirements on Project Co Parties and how they are enforced;
- (III) routines for internal checks and audits and their results; and
- (IV) the interface between different actors involved with the infrastructure;
- (B) the Applicable Law, rules, regulations and standards applicable to the Rail Transportation Occurrence, including,
 - (I) federal and provincial rules and regulations; and
 - (II) Project Safety Requirements;
- (C) the functioning of Trains and Maintenance Vehicles and technical installations as a result of the Rail Transportation Occurrence, including,
 - (I) signalling and control command system, including information from automatic data recorders;
 - (II) infrastructure;
 - (III) communications equipment; and
 - (IV) Trains and Maintenance Vehicles, including information from automatic data recorders;
- (D) documentation on the operating systems involved in the Rail Transportation Occurrence, including,
 - (I) measures taken by staff for traffic control and signalling;
 - (II) exchange of verbal messages in connection with the occurrence, including documentation from recordings; and
 - (III) measures taken to protect and safeguard the site of the Rail Transportation Occurrence;
- (E) human-machine-organization interface, including,
 - (I) working time applied to the staff involved;
 - (II) medical and personal circumstances with influence on the Rail Transportation Occurrence including existence of physical or psychological stress; and
 - (III) design of equipment with impact on human-machine interface; and

- (F) previous Rail Transportation Occurrences of a similar character; and
- (iii) analysis and conclusions, including,
 - (A) final accounting of the event chain of the Rail Transportation Occurrence, establishing the conclusions on the Rail Transportation Occurrence based on the facts;
 - (B) discussion, including analysis of the facts, with the aim of drawing conclusions as to the direct, immediate and/or root causes including contributing factors of the Rail Transportation Occurrence and the performance of the rescue services;
 - (C) conclusions, including,
 - (I) direct and immediate causes of the Rail Transportation Occurrence including contributory factors relating to actions taken by persons involved or the condition of Trains and Maintenance Vehicles or technical installations;
 - (II) underlying causes and contributing factors relating to skills, procedures and maintenance; and
 - (III) direct, immediate and/or root causes relating to the Project Safety Requirements and the Project Co Safety Management System; and
 - (IV) any additional observations including deficiencies and shortcomings established during the investigation, but without relevance to the conclusions on causes; and
- (iv) measures that have already been taken or adopted, or that have been planned or initiated, as a consequence of the Rail Transportation Occurrence.
- (e) All Safety Incident evidence must be preserved by Project Co in accordance with the Metrolinx Emergency Management Plan, the Project Co Safety Incident Management and Investigation Plan and Applicable Law.

5.5.3 Rail Transportation Occurrence Incident Management and Investigation – Contracting Authority Role

- (a) Contracting Authority may, in its sole discretion, exercise oversight with respect to all Project Co investigations of Rail Transportation Occurrences and the identification and implementation of associated remedial actions. Contracting Authority oversight of investigations of Rail Transportation Occurrences may include:
 - (i) a review of whether any changes are needed to the Project Co investigation;

- (ii) a review of whether any changes are needed to the Project Co Safety Management System, Project Co Safety Incident Management and Investigation Plan, or Project Safety Requirements; and
 - (iii) the identification of new or emerging Hazards or Risks and necessary amendments to the Project Co Safety Management System.
- (b) With respect to a Rail Transportation Occurrence, Contracting Authority may, in its sole discretion,
 - (i) require a joint investigation by Project Co and the Contracting Authority;
 - (ii) conduct its own investigation in parallel with Project Co's investigation; or
 - (iii) invite a third party to participate in the investigation or to conduct an independent investigation.
- (c) Other than investigations led by another Governmental Authority, Contracting Authority shall lead and be the primary point of contact for all investigations related to all Rail Transportation Occurrences involving:
 - (i) the Transportation Safety Board;
 - (ii) the Adjacent Railway Systems; or
 - (iii) an allegation of criminal activity.
- (d) Project Co acknowledges and agrees that Contracting Authority may, in its sole discretion, subject only to Section 52.4 (*Certain Voluntary Disclosures*) of the Project Agreement, share information, of any kind whatsoever, with respect to any Rail Transportation Occurrence, whether compiled by Project Co or Contracting Authority, with the Transportation Safety Board or any Third Party Operator.

5.6 Process for Identifying Safety Concerns

- (a) Project Co shall, on an ongoing and regular basis throughout the Project Term, conduct analyses of the Project Operations to identify safety concerns, including any trends, emerging trends regarding Hazards or Risks, or repetitive situations that result in Hazards or Risks.
- (b) The Project Co SMS Software Solution shall serve as a central repository for all information and analyses related to all Rail Transportation Occurrences, safety concerns, and any data from safety monitoring technologies.

5.7 Risk Assessment Process

- (a) As part of the Project Co Safety Management System, with respect to the safety concerns identified by Project Co in Section 5.6, Project Co shall identify all Hazards, and analyze and evaluate, through a Risk Assessment process, all technical, operational, and organizational Risks related to the Project Operations, including those arising from human

and organizational factors, including workload, job design, fatigue, suitability of procedures, and the activities of third parties.

- (b) The Risk Assessment process shall conform to the CMREA and shall include the following considerations:
 - (i) past similar Safety Incidents, including Emergencies and their causes;
 - (ii) potential Emergency situations;
 - (iii) people, including consideration of the activities of Project Co Parties and members of the public; and
 - (iv) changes in the knowledge of, and information about, Hazards.
- (c) The Project Co Safety Management System shall,
 - (i) identify the conditions and work activities that trigger a Risk Evaluation and Risk Assessment process;
 - (ii) identify and evaluate the potential Hazards, Risks, causes and consequences, supported by a consistent Risk ranking matrix;
 - (iii) apply intervention actions (i.e. elimination, reduction, isolation, or containment) to remove the cause of each Hazard and apply controls to minimise the consequence of the Hazard;
 - (iv) establish a suite of generic job safety Risk Evaluation and Risk Assessment forms to support the day to day safe undertaking of routine activities in the Project Operations; and
 - (v) identify all tasks and activity-specific Hazards and Risks that require specialist training, certification or personal protective equipment.
- (d) Project Co shall ensure that all Project Co Parties, Third Party Operators and Contracting Authority Parties are provided with access to all Hazard Records/Logs developed in accordance with the CMREA in order to:
 - (i) facilitate awareness of Hazards associated with the new or modified assets;
 - (ii) inform relevant personnel of any changes required to worker competency requirements; and
 - (iii) enable review of safe working practices.
- (e) Project Co shall ensure that the Hazard Record/Logs are kept up to date and reflect any changes associated with the Project Operations.

5.8 Process for Remedial Actions

- (a) The Project Co Safety Management System shall include a process for selecting, implementing and evaluating any remedial action to be implemented with respect to Risks and Hazards that are identified as part of the Risk Assessment process undertaken in accordance with Section 5.7.
- (b) Project Co shall follow the hierarchy of controls described in ISO 45001, depending on the type of work requiring remedial action, when selecting and implementing remedial actions in accordance with Section 5.8(a).
- (c) The Project Co Safety Management System shall include a plan for consultation with Project Co Parties and Contracting Authority Parties, in the event that such parties are affected by the Risks and Hazards for which the remedial action is being implemented. The consultation plan shall include the following:
 - (i) the mechanisms, time, training and resources necessary for consultation and participation;
 - (ii) identification of obstacles or barriers to participation, and the steps that Project Co and Project Co Parties shall take to remove such obstacles or barriers to participation and to minimize the effect of those obstacles and barriers that cannot be removed; and
 - (iii) the way in which Project Co Parties, Third Party Operators and Contracting Authority Parties can participate in selecting and evaluating remedial actions with respect to Risks and Hazards and participate in determining their effective implementation and use.

5.9 Process for Establishing Targets and Developing Initiatives

5.9.1 Common Safety Indicators Reporting

- (a) As part of the Project Co Safety Management System, Project Co shall, no later than sixty (60) days following Substantial Completion and thereafter throughout the Project Term on a monthly basis, prepare and submit to the Contracting Authority a monthly report on the common safety indicators described in Sections 5.9.2 to 5.9.7 (collectively, the “**Common Safety Indicators**”).

5.9.2 Common Safety Indicators Relating to Incidents

- (a) Project Co shall report on the following types of incidents in accordance with this Section 5.9.2:
 - (i) collisions of Trains and Maintenance Vehicles;
 - (ii) collisions of Trains and Maintenance Vehicles with obstacles within the clearance gauge;
 - (iii) derailments of Trains and Maintenance Vehicles;

- (iv) incidents to persons involving Trains and Maintenance Vehicles in motion, with the exception of suicides and attempted suicides;
 - (v) fire in a Train and Maintenance Vehicles; and
 - (vi) any other type of incident not covered by Sections 5.9.2(a)(i) to 5.9.2(a)(v), including any Rail Transportation Occurrence.
- (b) For the incidents set out in Section 5.9.2(a), Project Co shall report on,
- (i) the total number of incidents;
 - (ii) the total number of incidents relative to appropriate normalization statistics, including,
 - (A) total distance in kilometres travelled by the applicable Trains and Maintenance Vehicles;
 - (B) total distance in kilometres traveled by all Trains and Maintenance Vehicles on the Ontario Line Subway; and
 - (C) total number of staff hours worked, including control room staff, OMSF yard staff, maintenance staff; and
 - (iii) the trend in incidents over time.
- (c) Each significant incident listed in Section 5.9.2(a) shall be reported under the type of the incident that occurs first in time, even if the consequences of a subsequent incident(s) are more severe (for example, a derailment followed by a fire).
- (d) Project Co shall organize the incident report set out in Section 5.9.2(a) into the following categories:
- (i) Passenger (also relative to total Passenger-kilometres and Passenger train-kilometres);
 - (ii) employee or contractor;
 - (iii) trespasser;
 - (iv) other person at a Platform;
 - (v) other person not at a Platform;
 - (vi) vehicle at a Platform; and
 - (vii) vehicle not at a Platform.

5.9.3 Common Safety Indicators Relating to Suicides

- (a) Project Co shall report on the following:

- (i) the total number of suicides and attempted suicides;
- (ii) the total number of suicides and attempted suicides relative to total distance in kilometres travelled by the applicable Trains and Maintenance Vehicles; and
- (iii) the total number of suicides and attempted suicides relative to the total distance in kilometres travelled by all Trains and Maintenance Vehicles on the Ontario Line Subway System.

5.9.4 Common Safety Indicators Relating to Precursors of Accidents

- (a) Project Co shall report on the number of precursors to accidents in accordance with this Section 5.9.4, as organized into the following categories:
 - (i) broken rail;
 - (ii) track buckle and other track misalignment;
 - (iii) S&TCS failure;
 - (iv) broken wheel on Trains and Maintenance Vehicles in service;
 - (v) broken axle on Trains and Maintenance Vehicles in service;
 - (vi) pantograph failures on Trains in service;
 - (vii) vandalism; and
 - (viii) other precursors to accidents.
- (b) Project Co shall report on all precursors set out in Section 5.9.4(a), whether or not they actually result in accidents.
- (c) For the precursors set out in Section 5.9.4(a), Project Co shall report on,
 - (i) the total number of incidents;
 - (ii) the total number of incidents relative to total distance in kilometres travelled by the applicable Trains and Maintenance Vehicles; and
 - (iii) the total number of incidents relative to the total distance in kilometres travelled by all Trains and Maintenance Vehicles on the Ontario Line Subway

5.9.5 Common Safety Indicators Relating to Fatalities and Serious Injuries

- (a) Project Co shall report on total fatalities and Serious Injuries, as organized in the following categories:
 - (i) Fatalities, excluding homicides:
 - (A) caused by,

- (I) assaults;
- (II) contact with object or person;
- (III) slips, trips and falls;
- (IV) electric shocks;
- (V) Train accidents;
- (VI) natural causes; and
- (B) occurring,
 - (I) on the guideway;
 - (II) at the platform-train interface;
 - (III) on board;
 - (IV) in Station;
- (ii) Homicides:
 - (A) caused by,
 - (I) assaults;
 - (II) contact with object or person;
 - (III) falls;
 - (IV) electric shocks; and
 - (B) occurring,
 - (I) on the guideway;
 - (II) at the platform-train interface;
 - (III) on board;
 - (IV) in Station;
- (iii) Serious Injuries.
 - (A) With the same breakdown as in 5.9.5(a)(i).
- (iv) other assaults and abuses;

- (v) slips, trips and falls occurring on,
 - (A) escalators;
 - (B) stairs;
 - (C) flat surfaces;
- (vi) electric shocks;
- (vii) Train accidents; and
- (b) For the fatalities and Serious Injuries set out in Section 5.9.5(a), Project Co shall report on,
 - (i) the total number of accidents;
 - (ii) the total number of accidents relative to total distance in kilometres travelled by the applicable Trains and Maintenance Vehicles; and
 - (iii) the total number of accidents relative to the total distance in kilometres travelled by all Trains and Maintenance Vehicles on the Ontario Line Subway.

5.9.6 Common Safety Indicators Related to Passenger Safety Complaints

- (a) Project Co shall report on the following:
 - (i) the total number of Passenger complaints related to system safety;
 - (ii) the total number of Passenger complaints related to safety relative to total distance in kilometres travelled by all Trains on Ontario Line Subway; and
 - (iii) the total number of Passenger complaints related to safety to the total number of Passengers on a monthly basis and on an annual basis.

5.9.7 Additional Safety Performance Reporting

- (a) In addition to the Common Safety Indicators, Project Co shall develop and record, in the Project Co Safety Management System, additional safety performance indicators as required to meet Project Co's own objectives and requirements and to demonstrate improvements to items tracked in Project Co's Annual Safety Performance Plan (the "Additional Safety Performance Indicators").
- (b) Project Co shall ensure that the Additional Safety Performance Indicators take into account Applicable Law and the Project Safety Requirements and are,
 - (i) consistent with the Safety Policy;
 - (ii) consistent with Good Industry Practice;
 - (iii) linked to priority Risks that influence Project Co's safety performance;

- (iv) measurable;
- (v) reviewed with respect to their achievement and revised as appropriate; and
- (vi) communicated across Project Co including to employees and contractors of Project Co and Project Co Parties.

5.9.8 Establishing Targets and Continuous Improvement Initiatives

- (a) Project Co shall, in the Annual Safety Performance Plan, report on and establish safety targets for the Common Safety Indicators and Additional Safety Performance Indicators, taking into account the results of previous years' analyses of Common Safety Indicators and Additional Safety Performance Indicators.
- (b) Project Co shall develop initiatives to achieve each safety target and shall include in the Project Co Safety Management System a detailed description of each initiative to be implemented to achieve each safety target.
- (c) Project Co shall ensure that the safety targets for the Common Safety Indicators and Additional Safety Performance Indicators and the initiatives to achieve them are communicated to all Project Co Parties.

5.10 Process for Reporting Contraventions and Hazards

- (a) Project Co shall include in the Project Co Safety Management System a procedure for enabling Project Co and Project Co Parties to report to the Contracting Authority any Rail Transportation Occurrences, Risks, Hazards, opportunities for safety improvements, or any non-conformances with the Project Safety Requirements (the “**Internal Safety Reporting Procedure**”).
- (b) Project Co shall ensure that the Internal Safety Reporting Procedure has been developed in consultation with Project Co Parties, meets or exceeds Good Industry Practice, and has been communicated to all Project Co Parties.
- (c) Project Co shall ensure that the Safety Policy includes provisions to protect Project Co and Project Co Parties from reprisals when reporting any Rail Transportation Occurrences, Risks, Hazards, opportunities for safety improvements, or any non-conformance with the Project Safety Requirements.
- (d) The Safety Policy shall include provisions to allow for confidential reporting of safety concerns including Hazards, Risks, opportunities for safety improvements, or any non-conformance with Project Safety Requirements.

5.11 Process for Managing Knowledge

5.11.1 List of Duties, Positions, Skills and Qualifications

- (a) Project Co and Project Co Parties shall establish a list of duties, positions and competencies setting out the following:

- (i) the duties that are essential to safe railway operations;
- (ii) the positions that have responsibility for the performance of each duty; and
- (iii) the mandatory competencies, including the training, skills, accreditations and certifications, qualifications, and experience required to perform each duty safely.

5.11.2 Competencies, Skills, Qualifications and Experience

- (a) Project Co shall establish processes to demonstrate that all Project Co and Project Co Parties have the mandatory competencies, including the training, skills, accreditations and certifications, qualifications and experience to perform the duties set out in Section 5.11.1(a) safely.
- (b) Project Co shall provide job descriptions to each Project Co Party fulfilling a duty set out in Section 5.11.1(a)(i), which shall as a minimum,
 - (i) define the role, responsibilities, and accountabilities for the position; and
 - (ii) define the mandatory competencies for the position.

5.11.3 Plan and Methods for Ensuring Competencies, Skills, Qualifications and Experience

- (a) Project Co shall include in the Project Co Safety Management System a plan for ensuring that each Project Co Party performing a duty set out in Section 5.11.1(a) has the requisite competencies, including skills, qualifications and experience to perform the duties, including the method by which Project Co will verify that Project Co Parties have the adequate competencies, including knowledge, skills, qualifications and experience, to fulfill their duties safely and the supervisory or oversight roles for each such duty in accordance with this Section 5.11.3.
- (b) If applicable, Project Co shall take actions to acquire and maintain the necessary competence for the duties set out in Section 5.11.1(a), including provision of training, mentoring, reassignment of personnel, or the hiring or contracting of competent persons, and Project Co shall evaluate the effectiveness of any such actions taken.
- (c) Project Co shall ensure that the competence of each Project Co Party performing a duty set out in Section 5.11.1(a) is maintained by ensuring that each such Project Co Party has sufficient practice in the field and knowledge of operating conditions, categories of Trains, traction units, lines, corridors, and routes. Project Co shall arrange for specific training for individual workers fulfilling the duties set out in Section 5.11.1(a) in circumstances where there has been a long absence from work.
- (d) Project Co shall retain reasonable documented information as evidence of competence for each worker performing any of the duties set out in Section 5.11.1(a) for the Project Term.
- (e) The processes set out in Section 5.11.2(a) shall include the control of visitors on the Ontario Line Subway to ensure that all safety procedures for the areas being visited are understood and followed.

- (f) Project Co shall develop and implement a safety training program as part of the Project Co Safety Management System for individuals involved in the performance of any of the duties set out in Section 5.11.1(a)(i) (the “**Project Co Safety Training Program**”). The Project Co Safety Training Program shall,
 - (i) take into account,
 - (A) the requisite skills and knowledge required for an individual to be able to safely perform his or her duties; and
 - (B) the requirement for experiential learning to ensure that an individual is able to safely perform his or her duties;
 - (ii) provide ongoing training and periodic update of existing competencies throughout the Project Term;
 - (iii) provide specific training in parts of the Project Co Safety Management System that are relevant to the individual(s) receiving the training throughout the Project Term; and
 - (iv) incorporate the Metrolinx Personal Track Safety Program, as amended from time to time, for all Project Co Parties working on or adjacent to track or within a depot boundary.
- (g) Project Co shall ensure that the Project Co Safety Training Program,
 - (i) is delivered according to the identified competency requirements and individual needs of the staff;
 - (ii) ensures that staff can operate under all operating conditions (normal, degraded, and emergency) as applicable;
 - (iii) is of a duration and includes refresher training at a frequency that is appropriate for the Project Co Safety Training Program objectives; and
 - (iv) is regularly reviewed, audited and updated as required to reflect changes in duties, Project Safety Requirements, or recommendations resulting from reviews and audits and to meet or exceed Good Industry Practice.
- (h) Project Co shall keep individual worker training records of worker training that is completed under the Project Co Safety Training Program.

5.11.4 Knowledge Communication

- (a) Project Co shall provide all Project Co Party staff and safety management personnel on the Site with an induction briefing to Project Co Safety Management System (each a “**Safety Induction Briefing**”).
- (b) The Safety Induction Briefing shall be carried out prior to the commencement of work, and a written confirmation shall be signed by the participant in the Safety Induction Briefing

to acknowledge receipt of the Safety Induction Briefing and the content therein. The Safety Induction Briefing shall include the following topics:

- (i) the Safety Policy;
 - (ii) the Project Co Safety Management System, the Project Safety Requirements and any other standards or documents that may affect railway safety and that Project Co Parties need to know in order to carry out their duties safely;
 - (iii) the contribution of Project Co Parties to the effectiveness of the Project Co Safety Management System, including,
 - (A) the relevance, importance and consequences of their activities;
 - (B) how the Project Co Parties contribute to the correct application and effectiveness of the Project Co Safety Management System; and
 - (C) the benefits of improved safety performance;
 - (iv) the implications and potential consequences of not conforming to the Project Co Safety Management System requirements;
 - (v) Rail Transportation Occurrences and Safety Incidents and the outcomes of investigations that are relevant to the participants;
 - (vi) Hazards, Risks and actions that are relevant to the participants;
 - (vii) the process for reporting Hazards and Safety Incidents;
 - (viii) the importance of and processes for maintaining and replacing safety equipment and personal protective equipment where required; and
 - (ix) the right of Project Co Parties to be informed of and remove themselves from work situations that they consider present an imminent and serious danger to their life or health, as well as the Project Co arrangements for protecting them from undue consequences for doing so.
- (c) Project Co shall provide all Project Co Parties with the investigation findings of Rail Transportation Occurrences that could impact on the competency and training requirements of any Project Co Party.

5.12 Process with Respect to Scheduling

- (a) The Project Co Safety Management System shall include a process for scheduling work of Project Co Parties that includes the requirement to consider principles of fatigue science, except when scheduling work of Project Co Parties during an Emergency related to the safety of railway operations.
- (b) Project Co shall develop a fatigue management plan that meets or exceed Good Industry Practice (the “**Project Co Fatigue Management Plan**”).

5.13 Process for Continual Improvement of Project Co Safety Management System

5.13.1 Project Co Safety Management System Audit Requirements

- (a) The Project Co Safety Management System shall include an audit plan that details all audits that shall be undertaken by Project Co and the Independent Safety Assessor to monitor and continuously improve the Project Co Safety Management System (the “**SMS Audit Plan**”). The SMS Audit Plan shall include a description that defines the types of audits to be undertaken, and for each type of audit,
- (i) the frequency of the audit;
 - (ii) the method to be followed for carrying out the audit;
 - (iii) the responsibilities of Project Co and Project Co Parties for the audit;
 - (iv) the consultation processes that will be used as part of the audit process;
 - (v) planning requirements for the audit;
 - (vi) reporting requirements for the audit;
 - (vii) how the results of previous audits shall be considered in the audit process;
 - (viii) the audit criteria and scope, which shall include auditing of compliance with the CMREA;
 - (ix) the selection process for auditors to ensure objectivity and the impartiality of the audit process;
 - (x) the communication process to ensure that results of the audit are reported to relevant managers, workers, and other relevant interested persons as required;
 - (xi) the process to verify the implementation of any Corrective Action or improvement measures taken as a result of the audit process; and
 - (xii) the process to verify the effectiveness of any Corrective Action or improvement measures taken as a result of the audit process.
- (b) Project Co shall audit at least one Project Co Safety Management System Component each month and shall audit the entire Project Co Safety Management System annually throughout the Project Term (each, a “**Project Co Internal Audit**”). Project Co shall submit the results of each Project Co Internal Audit (the “**Project Co Internal Audit Report**”), including any Corrective Actions taken or planned in respect to a Project Co Internal Audit, to the Contracting Authority no later than thirty (30) days following completion of the Project Co Internal Audit.
- (c) Project Co shall engage an Independent Safety Assessor to undertake an independent audit of the Project Co Safety Management System annually for at least the first three years of

the Project Term, and every two years thereafter throughout the Project Term (each, an “**Independent SMS Audit**”). The Independent SMS Audit shall, at a minimum:

- (i) assess the extent to which the processes and procedures in the Project Co Safety Management System are being correctly applied;
 - (ii) evaluate the effectiveness of the processes and procedures in the Project Co Safety Management System;
 - (iii) evaluate the extent to which the Project Co Safety Management System conforms to the requirements of this Schedule 29; and
 - (iv) identify any corrective measures, as appropriate, to address non-conformance or issues identified in the application or effectiveness of the Project Co Safety Management System.
- (d) The results of the Independent SMS Audit shall be submitted to the Contracting Authority no later than thirty (30) days following completion of the Independent SMS Audit in the form of an audit report (each, an “**SMS Independent Audit Report**”). The Chief Safety Officer shall sign each SMS Independent Audit Report to attest to his or her acceptance of the SMS Independent Audit Report prior to its submission to the Contracting Authority.
- (e) Project Co acknowledges and agrees that Contracting Authority may, from time to time and in its sole discretion, carry out audits of the Project Co Safety Management System itself or through a third party at any time and without Notice (each, an “**SMS Contracting Authority Audit**”). In the event that Contracting Authority undertakes a SMS Contracting Authority Audit, Project Co shall, in good faith, provide all information and assistance as may be requested by Contracting Authority or by the third party undertaking the SMS Contracting Authority Audit.

5.13.2 Action Plan Following SMS Audits

- (a) Subject to a determination made by the Contracting Authority with respect to an Independent SMS Audit in accordance with Section 5.13.1(c), Project Co shall,
- (i) rectify all deficiencies identified in any of the audits set out in Section 5.13.1 (each, an “**SMS Audit**”) or in any audit report set out in Section 5.13.1 (each, an “**SMS Audit Report**”);
 - (ii) address and comply with all results and recommendations arising out of any SMS Audit and any SMS Audit Report; and
 - (iii) update the Project Co Safety Management System to ensure that Project Co complies with this Section 5.13.2(a).
- (b) Project Co may submit a request to the Contracting Authority that,
- (i) identifies a deficiency, result or recommendation arising out of an Independent SMS Audit or SMS Independent Audit Report that Project Co has determined is not

necessary for Project Co to address in order for Project Co to comply with its obligations under the Project Agreement; and

- (ii) sets out a detailed reason for the Project Co determination set out in Section 5.13.2(b)(i).
- (c) The Contracting Authority shall review the request submitted by Project Co in accordance with Section 5.13.2(b) and shall, in its sole discretion, make a determination as to whether or not Project Co is required to address the Project Co identified deficiency, result or recommendation arising out of an Independent SMS Audit or SMS Independent Audit Report. Project Co shall comply with any determination made by the Contracting Authority in accordance with this Section 5.13.2(c).
- (d) Project Co shall prepare a report (the “**SMS Action Plan Report**”) that sets out, in detail, the actions to be taken by Project Co to comply with its obligations as set out in Sections 5.13.2(a) and 5.13.2(c). The SMS Action Plan Report shall be signed by the Chief Safety Officer to acknowledge approval of the SMS Action Plan Report. The SMS Action Plan Report shall be submitted to the Contracting Authority no later than thirty (30) days after submission of an SMS Audit Report.

5.14 Safety Culture

5.14.1 Annual Safety Performance Plan

- (a) Project Co shall prepare and submit an annual safety performance plan (an “**Annual Safety Performance Plan**”) no later than twelve months following Substantial Completion, and within the first month of each Contract Year thereafter, to the Contracting Authority for review and approval.
- (b) The Annual Safety Performance Plan shall set out the details of Project Co’s planned safety improvements for the next calendar year and shall:
 - (i) include planned improvements to enhance safety in the Project Co Services, including by:
 - (A) removing technical barriers to safety;
 - (B) process improvements (for example, new control room processes);
 - (C) behavioural improvements (for example, a new safety leadership programme, new safety training initiatives); and
 - (D) organizational improvements;
 - (ii) include safety improvements that are planned, but that have longer lead times and will progress over several Annual Safety Performance Plans;
 - (iii) include a summary of non-punitive safety reporting activities of Project Co and Project Co Parties;

- (iv) identify any punitive Safety Measures taken by Project Co and Project Co Parties on their employees, contractors or other individuals;
 - (v) include a list of Sites and safety-critical Construction Activities, and the planned safety mitigations associated with such Sites and Construction Activities;
 - (vi) include a summary of the previous year's safety performance compared to Project Co's safety targets;
 - (vii) include a summary of all Risk Assessment activities, reports, decisions and approvals; and
 - (viii) include an annual summary of the Common Safety Indicators and the Additional Safety Performance Indicators for the previous year.
- (c) The Annual Safety Performance Plan shall:
- (i) demonstrate Project Co's commitment to continuous improvement of the Project Co Safety Management System, including safety plans and practices;
 - (ii) demonstrate how Project Co is complying with current Good Industry Practice; and
 - (iii) show planned improvement in Project Co's performance, particularly related to the Common Safety Indicators and the Additional Safety Performance Indicators.

5.14.2 Continual Improvement of Safety Culture

- (a) Project Co shall ensure a positive safety culture across Project Co and all Project Co Parties, including through proactive measures to achieve the following:
- (i) a shared awareness among Project Co and Project Co Parties of the most important Occupational Health and Safety Risks;
 - (ii) development of a suite of Life Saving Rules to define the safety culture approach for Project Co and Project Co Parties;
 - (iii) an interrogative approach to safety with a shared awareness that Occupational Health and Safety Risk is never completely under control;
 - (iv) an integrated approach to safety that ensures that all Project Co and Project Co Parties are involved;
 - (v) a balanced approach to safety that balances "safety by the rules" and "safety by taking initiative";
 - (vi) a holistic approach to safety that always considers technical factors, human factors, and organizational factors;
 - (vii) a highly-visible and proactive approach to safety leadership; and
 - (viii) an explicitly transparent, fair and non-retaliatory approach to:

- (A) enforcing compliance with safety-related principles and requirements;
 - (B) reporting of unsafe situations and all Rail Transportation Occurrences;
 - (C) investigating unsafe situations and all Rail Transportation Occurrences; and
 - (D) auditing of the Project Co Safety Management System.
- (b) Project Co shall engage a third party approved by the Contracting Authority to conduct a survey of its safety culture on an annual basis throughout the Project Term (each, an “**Annual Safety Culture Survey**”). Each Annual Safety Culture Survey shall be administered to all employees and contractors of Project Co and Project Co Parties.
- (c) Project Co shall conduct the first Annual Safety Culture Survey (the “**Baseline Safety Culture Survey**”) no later than six months following Commercial Close. Project Co shall develop and submit the proposed methodology, format, and questions of the Baseline Safety Culture Survey and the plan for communicating the survey and the results of the survey with employees and contractors of Project Co and Project Co Parties to the Contracting Authority for approval, in its sole discretion, no later than two months in advance of the Baseline Safety Culture Survey being administered.
- (d) Each subsequent Annual Safety Culture Survey shall be conducted annually unless otherwise directed by Contracting Authority to conduct such survey less frequently. The content of the Annual Safety Culture Survey shall be submitted to the Contracting Authority no later than thirty (30) days prior to the Annual Safety Culture Survey being administered. Project Co shall adjust the methodology and questions of the Annual Safety Culture Survey based on the comments provided by the Contracting Authority and to align with Good Industry Practice.
- (e) The methodology, format, and questions of the Annual Safety Culture Survey shall not change in years subsequent to the Baseline Safety Culture Survey without prior approval from the Contracting Authority, acting reasonably.
- (f) Project Co shall submit the results of the Annual Safety Culture Survey and Project Co’s analysis of the results (each, an “**Annual Safety Culture Survey Report**”) to the Contracting Authority. Project Co shall develop and submit the Annual Safety Culture Survey Report to the Contracting Authority no later than thirty (30) days following the completion of the applicable Annual Safety Culture Survey.
- (g) Project Co shall provide a remedial action plan (each, a “**Safety Culture Survey Remedial Plan**”) to the Contracting Authority. The Safety Culture Survey Remedial Plan shall identify and describe all remedial actions that are required in order to address all areas in which the results of the Annual Safety Culture Survey are:
- (i) below the endorsed acceptable level as defined in the Annual Safety Culture Survey methodology;
 - (ii) below the average of the Baseline Safety Culture Survey, for all surveys following the Baseline Safety Culture Survey;

- (iii) below the average of the immediately previous Annual Safety Culture Survey; or
 - (iv) determined by the Contracting Authority, acting reasonably, to be of concern.
- (h) Project Co shall develop and submit each Safety Culture Survey Remedial Plan to the Contracting Authority no later than forty-five (45) days following the completion of the applicable Annual Safety Culture Survey Report.

6. SAFETY AND SYSTEM ASSURANCE

6.1 General

- (a) Project Co shall carry out its safety assurance obligations as set out in this Section 6 in order to demonstrate that,
 - (i) the Works have been thoroughly reviewed, demonstrated, safely inspected and tested at all system levels throughout the lifecycle, and are capable of being operated and maintained safely as a fully integrated system;
 - (ii) the Project Co Services, including Subway Rules, Standard Operating Procedures, staffing, staff qualifications, training requirements, certification requirements and other policies required to operate and maintain the Ontario Line Subway System have been thoroughly reviewed, demonstrated and audited, and are capable of operating and maintaining a fully integrated Ontario Line Subway System;
 - (iii) the staff of third parties that are authorised to work the Ontario Line Subway, that are neither Project Co Parties or the Contracting Authority, are competent in the Subway Rules and Standard Operating Procedures, and have met all the qualifications, training, certification and other policies required to access and work on the Ontario Line Subway System;
 - (iv) the Project Operations has achieved an acceptable level of safety and the Project Operations, as an aggregate, function safely on an integrated basis; and
 - (v) all elements are able to support vital, safety critical and safety related functions in normal, degraded, abnormal and emergency modes.
- (b) For the purposes of complying with its safety assurance obligations set out in this Section 6 and as an initial matter, Project Co, in coordination with the Civil Contractors, shall establish a System Definition that shall be used by Project Co for the purposes of applying the CMREA (for modifications of existing railways, subways and LRTs) and EN 50126-1 and EN 50126-2 (for the Ontario Line Subway System), and for developing Project Co's System Assurance Submissions as set out in Section 6.5.
- (c) Project Co shall, in accordance with its System Assurance Submissions Plan and Section 6.5.1(a), submit to the Contracting Authority a series of System Assurance Submissions for each System that comprises the Project Operations. As further detailed in Section 6.5, the System Assurance Submissions are,
 - (i) comprised of the following submission stages that collectively represent the lifecycle of the Project and include the design stage, construction stage, testing and commission stage, and operations stage of the Project:
 - (A) “Approval in Principle Safety Submissions”;
 - (B) “System Design Safety Submissions”;

- (C) “Consent to Construct Safety Submissions”;
 - (D) “Consent to Test Safety Submissions”;
 - (E) “Consent to Operate System Safety Submissions”; and
 - (F) “Consent to Operate Revenue Service Safety Submissions”; and
- (ii) for the purpose of demonstrating to the Contracting Authority that Project Co has met its safety assurance obligations and has achieved RAMS in accordance with the requirements of EN 50126-1.
- (d) As part of each System Assurance Submission, Project Co shall submit an Engineering Safety and Assurance Case and a Project Co ISA ESAC Report for approval by the Contracting Authority, in accordance with Section 6.8
- (e) Project Co must receive approval from the Contracting Authority for each System Assurance Submission (including its corresponding Engineering Safety and Assurance Case) before Project Co is permitted to commence the work contemplated in that System Assurance Submission.
- (f) Project Co shall not,
- (i) commence detailed design work for any “System” until the Contracting Authority has received and approved all Approval in Principle Safety Submissions and System Design Safety Submissions related to that “System” as set out in the System Assurance Submissions Plan unless the Contracting Authority has issued a written derogation to the requirements of this Section 6.1(f)(i) setting out alternative arrangements for commencement of detailed design at Project Co’s risk, in parallel with an Approval in Principle Safety Submission or a System Design Safety Submission to the Contracting Authority;
 - (ii) commence construction of any “System” until the Contracting Authority has received and approved all Consent to Construct Safety Submissions related to that “System” as set out in the System Assurance Submissions Plan;
 - (iii) commence commissioning or testing of any “System” until the Contracting Authority has received and approved all Consent to Test Safety Submissions related to that “System” as set out in the System Assurance Submissions Plan;
 - (iv) commence operations of any “System” until the Contracting Authority has received and approved all Consent to Operate System Safety Submissions related to that “System” as set out in the System Assurance Submissions Plan; or
 - (v) commence Revenue Service of the Ontario Line Subway System until the Contracting Authority has received and approved the final Consent to Operate Revenue Service Safety Submission deliverables as set out in the System Assurance Submissions Plan.
- (g) For clarity,

- (i) Project Co shall not implement any proposed change to Adjacent Railway Systems infrastructure unless and until Project Co has applied the CMREA, in accordance with Section 6.6, to the proposed change and has complied with all other Project Co obligations as set out in Section 6 with respect to the proposed change; and
 - (ii) Project Co shall apply the CMREA in accordance with Section 6.6 to any proposed change that is embedded in any “System” described in a System Assurance Submission prior to making a System Assurance Submission for that System.
- (h) Project Co shall develop and comply with a Product Acceptance Process as described in Section 6.9 for any new or modified Product used as part of the Project Co Services following Revenue Service commencement.
- (i) The Product Acceptance Process may result in a new or modified Product being added to the existing Acceptable Products Register that is established by Contracting Authority.
 - (ii) Notwithstanding that a Product may be on or added to the Acceptable Products Register, Project Co shall still be required to comply with all of its obligations as set out in this Section 6, including its obligations with respect to Risk Assessments, System Assurance Submissions and Engineering Safety and Assurance Cases with respect to each Product.

6.2 Chief Safety Officer and System Safety Officers

- (a) Project Co shall appoint a Chief Safety Officer who shall be responsible for the overall safety of the Ontario Line Subway System and who will be Project Co’s contact for all communications with the Contracting Authority, the System Safety Officers, Project Co ISA and Contracting Authority ISA, and others on safety matters related to the Ontario Line Subway System.
- (b) The Chief Safety Officer shall be responsible for the delivery of all aspects of safety management and system assurance, including safety assessment, RAMS and SIL.
- (c) The Chief Safety Officer will have extensive experience in the delivery of system safety and assurance in a metro type environment and in the development of a Project Co Safety Management System following all parts of EN 50126, including EN 50126-1 and EN 50126-2.
 - (i) The Chief Safety Officer shall have North American experience in delivering metro or subway style mass transit systems.
- (d) Project Co shall provide Contracting Authority with the 24-hour contact information for the Chief Safety Officer or, in the event that the Chief Safety Officer is unavailable for reasons for which Contracting Authority has been provided advance in notice, the 24-hour contact information of the individual acting in the stead of the Chief Safety Officer.
- (e) The North Civil Project Co and South Civil Project Co will each appoint a system safety officer (each, a “**System Safety Officer**”) who shall be responsible for the safety of the

systems and infrastructure within their Project delivery and shall be the point of contact for the Chief Safety Officer, the Contracting Authority, the other System Safety Officer, and others as necessary in respect of the safety and security certification activities.

- (f) Each System Safety Officer shall,
 - (i) have extensive experience in the field of system safety applied in a metro type rail transit environment, in an equivalent position in Canada;
 - (ii) be responsible for supporting the Chief Safety Officer in the overall safety certification of the Ontario Line Subway, and
 - (iii) be responsible for the delivery of all aspects of the North Civil Project Co and South Civil Project Co safety management function (as applicable to the System Safety Officer), including safety assessment and RAMS.

6.3 Safety and System Assurance Standards

- (a) For the purpose of applying the Safety and Systems Assurance Standards, the Contracting Authority shall be the “Safety Authority”, and Project Co shall be the “Railway Duty Holder”, as defined in EN 50126-1,
 - (i) except that Project Co shall not be entitled to issue or withhold any “safety approvals” within the meaning of EN 50126-1;
 - (ii) except Contracting Authority shall establish:
 - (A) the initial Tolerable Functional Failure Rate or SIL within the meaning of EN 50126-2 (see the Output Specifications for each “System”), and
 - (B) the initial RAM targets (see the Output Specifications for each “System”); and
 - (iii) except Contracting Authority shall review final RAM figures from Project Co.
- (b) Project Co shall carry out its safety and system assurance obligations as set out in this Section 6 and in accordance with the following standards:
 - (i) EN 50126-1 Railway Applications - The Specification and Demonstration of Reliability, Availability, Maintainability and Safety (RAMS) Part 1: Generic RAMS process (“EN 50126-1”);
 - (ii) EN 50126-2 Railway Applications - The Specification and Demonstration of Reliability, Availability, Maintainability and Safety (RAMS) Part 2: Systems Approach to Safety (“EN 50126-2”);
 - (iii) EN 50128 Railway applications – Communication, signalling and processing systems – Software for railway control and protection systems (“EN 50128”)

- (iv) EN 50129 Railway applications – Communication, signalling and processing systems – Safety related electronic systems for signalling (“**EN 50129**”);
 - (v) EN 50657 Railways Applications. Rolling stock applications. Software on Board Rolling Stock (“**EN 50657**”); and
 - (vi) EN 50155 Railway applications. Rolling stock. Electronic equipment (“**EN 50155**”), (collectively, the “**Safety and System Assurance Standards**”).
- (c) Project Co shall carry out its safety and system assurance obligations as set out in this Section 6 and in accordance with the following express document:
- (i) CMREA.
- (d) Project Co shall comply with most current version of the following standards (collectively, the “**Fire/Life Safety Standards**”) in the development and management of Ontario Line Subway System Safety:
- (i) CAN/ULC-S524 Standard for Installation of Fire Alarm Systems;
 - (ii) CAN/ULC-S561 Standard for Installation and Services for Fire Signal Receiving Centres and Systems;
 - (iii) CSA 22.1 Canadian Electrical Code, Part 1, Safety Standard for Electrical Installations;
 - (iv) NFPA 13 Standard for the Installation of Sprinkler Systems;
 - (v) NFPA-14 Standard for the Installation of Standpipe and Hose Systems;
 - (vi) NFPA-130 Standard for Fixed Guideway Transit and Passenger Rail Systems;
 - (vii) NFPA-204 Standard for Smoke and Heat Venting;
 - (viii) NFPA-502 Standard for Road Tunnels, Bridges, and Other Limited Access Highways; and
 - (ix) NFPA-1221 Standard for the Installation, Maintenance and Use of Emergency Services Communications Systems.
- (e) Project Co shall use the following additional standards only in the absence of coverage by the Safety and System Assurance Standards and the Fire/Life Safety Standards (collectively, the “**Supporting Standards**”):
- (i) IEC 61508 Electronic Functional Safety Package;
 - (ii) CLC/TR 50126-3 Railway Applications – The Specification and Demonstration of Reliability, Availability, Maintainability and Safety (RAMS) – Part 3: Guide to the Application of EN 50126-1 for Rolling Stock RAM; and

- (iii) EN 50121: Railway applications. Electromagnetic compatibility.
- (f) Project Co shall comply with EN 50126-1 and EN 50126-2, each as amended from time to time, for the specification and demonstration of reliability, availability, maintainability and safety (“RAMS”) for the purpose of preparing the System Assurance Submissions and carrying out Project Co’s safety assurance obligations pursuant to this Section 6,
 - (i) Project Co shall ensure that it addresses each lifecycle stage and all requirements associated with such lifecycle stage as set out in EN 50126-1; and
 - (ii) for System Assurance Submissions and safety assurance obligations related to software, Project Co acknowledges and agrees that EN 50128 does not have the same defined lifecycle stages as EN 50126-1, and that Project Co shall comply with all requirements with all lifecycle stages set out in EN 50128 in an equivalent manner to the stages defined in EN 50126-1.
- (g) Project Co shall comply with EN 50128, as amended from time to time, for the specification and demonstration of RAMS for communications, signalling and control, and protection software unless otherwise directed by the Contracting Authority, this shall include tunnel ventilation control systems intended for use in tunnel emergency evacuation.
- (h) Project Co shall comply with EN 50657 for the development, deployment, and maintenance of any software on the Trains and Maintenance Vehicles, including any Commercial-off-the-Shelf Software used on such vehicles.
- (i) Project Co shall comply with the requirements of EN 50155 for electronic equipment on Trains and Maintenance Vehicles.
- (j) Project Co shall comply with the requirements of EN 50129 for Signalling and Train Control.
- (k) When applying explicit Risk estimation in accordance with any of the Safety and System Assurance Standards, Project Co shall reduce Risks to as low as reasonably practicable (ALARP), such that the costs of implementing additional Risk reduction measures would be grossly disproportionate to the benefits of Risk reduction that would be achieved.
 - (i) Project Co shall reduce all risks to no worse than “Tolerable”, as defined in Table C8 of EN 50126-1, when in accordance with this Section 6.3(k).
- (l) Notwithstanding the Risk estimation required by the Safety and System Assurance Standards, for Construction Activities and Systems and equipment installed at GO Transit facilities, bordering on, or with potential to encroach onto, any GO Transit infrastructure, Project Co shall conduct an additional Risk estimation in accordance with the Metrolinx Risk Assessment Guidance Document.
- (m) The Chief Safety Officer shall be responsible and accountable for the correct application of and compliance with the Safety and Systems Assurance Standards and the CMREA.
- (n) Project Co acknowledges and agrees that, while the CMREA and the Safety and System Assurance Standards may overlap in some respects, Project Co shall comply with each of

the CMREA and Safety and Systems Assurance Standards on a stand-alone basis, and shall produce evidence as may be required by the standards and the requirements of this Section 6 to demonstrate compliance with each of the CMREA and Safety and System Assurance Standards on a stand-alone basis.

- (o) Project Co acknowledges and agrees that the definition of Products as set out in this Schedule 29 is different from and broader than the definition of “Products” as set out in EN 50126-1.
 - (i) Project Co shall comply with the requirements and standards for “Products” set out in EN 50126-1 for all Products as defined in this Schedule 29.
- (p) In case of any conflicts, the Safety and System Assurance Standards and the Fire/Life Safety Standards shall take precedence over the Supporting Standards.

6.4 Finalization of System Safety Plan, System Definition Document and RAM Plan

- (a) Project Co shall, pursuant to the Project Agreement, ensure that each of the Ontario Line Subway System Safety Plan, Ontario Line Subway System Definition Document, and the Ontario Line Subway System RAM Plan is finalized and updated recognising the following:
 - (i) Project Co shall submit each of the Ontario Line Subway System Safety Plan, Ontario Line Subway System Definition Document, and the Ontario Line Subway System RAM Plan to North Civil Project Co and South Civil Project Co for review and to incorporate input related to such Civil Contractor’s infrastructure and Systems;
 - (ii) as part of the RFP Process, the Contracting Authority will review each of the Ontario Line Subway System Safety Plan, Ontario Line Subway System Definition Document, and the Ontario Line Subway System RAM Plan for basic conformity with the Project Agreement as part of the evaluation process but such review,
 - (A) does not constitute the formal approval of the Ontario Line Subway System Safety Plan, Ontario Line Subway System Definition Document or Ontario Line Subway System RAM Plan by Contracting Authority, and
 - (B) does not confirm full contractual conformity with the requirements of the Project Agreement, whether or not the Contracting Authority required Project Co, prior to Commercial Close, to amend the Ontario Line Subway System Safety Plan, the Ontario Line Subway System Definition Document or the Ontario Line Subway System RAM Plan, to clarify any ambiguities and to address any significant failures to comply with the Project Agreement;
 - (iii) a safety plan that complies with all the requirements set out in Section A.1 of Appendix B of this Schedule 29 (“**System Safety Plan**”);
 - (iv) a System definition document that complies with all the requirements set out in Section A.2 of Appendix B to this Schedule 29 (“**System Definition Document**”);

- (v) a RAM plan that complies with all the requirements set out in Section A.3 of Appendix B to this Schedule 29 (the “**RAM Plan**”); and
- (vi) as part of the process for safety and system assurance set out in this Schedule 29, Project Co shall submit an updated version of each of the System Safety Plan, System Definition Document and RAM Plan to Contracting Authority no later than each of the following:
 - (A) the date of Project Co’s submission of each Approval in Principle Safety Submission to the Contracting Authority;
 - (B) the date of Project Co’s submission of each System Design Safety Submission to the Contracting Authority
 - (C) the date of Project Co’s submission of each Consent to Construct Safety Submission to the Contracting Authority;
 - (D) the date of Project Co’s submission of each Consent to Test Safety Submission to the Contracting Authority;
 - (E) the date of Project Co’s submission of each Consent to Operate System Safety Submission to the Contracting Authority; and
 - (F) the date of Project Co’s submission of the Consent to Operate Revenue Service Safety Submission.
- (b) Each updated version of the System Safety Plan, System Definition Document, and RAM Plan submitted in accordance with Appendix A to this Schedule 29 shall reflect the progression of the Project Operations based on what is included in the applicable System Assurance Submission.
- (c) In addition to the submissions set out in Appendix A to this Schedule 29, Project Co shall submit an updated version of each the System Safety Plan, System Definition Document, and RAM Plan no later than six months following each of the following changes in circumstance:
 - (A) a change in the Chief Safety Officer, or
 - (B) an amendment to any one component of the Project Safety Requirements.
- (d) Until such time as an updated Ontario Line Subway System Safety Plan, Ontario Line Subway System Definition Document or RAM Plan is approved by the Contracting Authority, in its sole discretion, the then current Ontario Line Subway System Safety Plan, Ontario Line Subway System Definition Document or RAM Plan, as applicable shall continue in force.
- (e) Once the updated Ontario Line Subway System Safety Plan, Ontario Line Subway System Definition Document or RAM Plan, as applicable is approved by the Contracting Authority, in its sole discretion, the updated System Safety Plan, System Definition

Document or RAM Plan, as applicable, (subject to any revisions implemented as a result of comments from the Safety Governing Body) shall replace the then current System Safety Plan, System Definition Document or RAM Plan, as applicable (and become the finalized System Safety Plan, System Definition Document or RAM Plan, as applicable, that is in force).

- (f) The first finalized System Safety Plan, System Definition Document or RAM Plan that is approved by the Contracting Authority shall be,
- (A) the “System Safety Plan – Version 1 – [Date]”;
 - (B) the “System Definition Document – Version 1 – [Date]”; and
 - (C) the “RAM Plan – Version 1 – [Date]”,

as applicable. Thereafter each updated System Safety Plan, System Definition Document or RAM Plan that is approved by the Contracting Authority shall become the next version number and shall be dated as of the applicable date of completion of the review procedure and shall replace the then current System Safety Plan, System Definition Document or RAM Plan, as applicable.

- (g) Project Co may propose a revision to the System Safety Plan, System Definition Document or RAM Plan by submitting an updated System Safety Plan, System Definition Document or RAM Plan, as applicable, to the Contracting Authority for review and approval, and Sections 6.4(d), 6.4(e) and 6.4(f), shall apply to each updated Project Co Safety Management System submitted by Project Co, in accordance with this Section 6.4.

6.5 System Assurance Submissions Plan and System Assurance Submissions

6.5.1 System Assurance Submissions

- (a) No later than thirty (30) days following Commercial Close, Project Co shall provide to the Contracting Authority, for approval, a detailed plan for System Assurance Submissions to be made by Project Co (the “**System Assurance Submissions Plan**”). The System Assurance Submissions Plan shall include, at a minimum,
- (i) a detailed description of how Project Co intends to divide the Project Operations in accordance with the requirements of EN 50126-1 and a detailed description of what each “System” includes and the components of each “System”, all of which shall be consistent with the System Definition Document;
 - (ii) a detailed explanation of how Project Co intends to meet its obligations as set out in Sections 6.5.1(b) and 6.5.1(c).
 - (iii) a detailed conformance check against the requirements of EN 50126-1, EN 50126-2, EN 50128 and EN 50129 that demonstrates how Project Co has met or intends to meet the requirements of these standards and how Project Co has performed the reconciliation exercise set out in Section 6.3(f)(ii);

- (iv) a detailed explanation of any interfaces with other safety-related activities, including activities associated with the application of the CMREA;
- (v) a table setting out,
 - (A) how many of each type of System Assurance Submissions (including the Approval in Principle Safety Submissions, the System Design Safety Submissions, the Consent to Construct Safety Submissions, the Consent to Test Safety Submissions, the Consent to Operate System Safety Submissions and the Consent to Operate Revenue Service Safety Submission as described in Section 6.5.2(a) Project Co intends to submit during the Project Term;
 - (B) the date on which Project Co intends to submit each System Assurance Submission, taking into account the requirements of 6.5.1(b) and
 - (C) a summary of the content of each System Assurance Submission, with references to the “Systems” established by Project Co;
- (vi) an updated version of Table A- 1 of Appendix A to this Schedule 29 that is extrapolated in accordance with the “Systems” established by Project Co, and that is consistent with Project Co’s planned organization, number and sequence of System Assurance Submissions;
- (vii) a description of the System Assurance Submissions prepared and submitted by South Civil Project Co; and
- (viii) a description of the System Assurance Submissions expected to be prepared and submitted by North Civil Project Co.
- (b) Project Co shall ensure that its planned organization, number and sequencing of System Assurance Submissions, as reflected in the System Assurance Submissions Plan, is consistent with the progression of the Project and takes into account the lifecycle stages described in EN 50126-1, the stages of infrastructure configuration for the Project, and Project Co’s progressive assumption of responsibility.
- (c) Project Co shall ensure that,
 - (i) the totality of the planned Approval in Principle Safety Submissions, as set out in its System Assurance Submissions Plan, covers each component of the Project Operations;
 - (ii) the totality of the planned System Design Safety Submissions, as set out in its System Assurance Submissions Plan, covers each component of the Project Operations;
 - (iii) the totality of the planned Consent to Construct Safety Submissions, as set out in its System Assurance Submissions Plan, covers each component of the Project Operations;

- (iv) the totality of the planned Consent to Test Safety Submissions, as set out in its System Assurance Submissions Plan, covers each component of the Project Operations;
- (v) the totality of the planned Consent to Operate System Safety Submissions, as set out in its System Assurance Submissions Plan, covers each component of the Project Operations; and
- (vi) the totality of the planned Consent to Operate Revenue Service Safety Submission, as set out in its System Assurance Submissions Plan, covers each component of the Project Operations.

6.5.2 System Assurance Submissions

- (a) Project Co shall, in accordance with the System Assurance Submissions Plan set out in Section 6.5.1(a), provide the following submissions (each, a “**System Assurance Submission**”) to Contracting Authority for review and approval:
 - (i) one or more submissions for approval in principle, which shall cover all the concept design elements defined in the EN 50126-1 stages 1-3 undertaken by Project Co and include, at minimum, the deliverables noted as Approval in Principle Safety Submissions in Table A- 1 of Appendix A to this Schedule 29, including an Engineering Safety and Assurance Case (each, an “**Approval in Principle Safety Submission**”);
 - (ii) one or more submissions for approval to finalize detailed designs, which shall cover system design elements defined in the EN 50126-1 stages 3-5 undertaken by Project Co and include, at minimum, the deliverables noted as System Design Safety Submissions in Table A- 1 of Appendix A to this Schedule 29, including an Engineering Safety and Assurance Case (each, a “**System Design Safety Submission**”);
 - (iii) one or more submissions for consent to construct, which shall cover all the detailed design elements in the EN 50126-1 stages 4-6 undertaken by Project Co and include, at minimum, the deliverables noted as Consent to Construct Safety Submissions in Table A- 1 of Appendix A to this Schedule 29, including an Engineering Safety and Assurance Case (each, a “**Consent to Construct Safety Submission**”);
 - (iv) one or more submissions for consent to test, which shall cover all the manufacturer and construction elements in the EN 50126-1 stages 6-8 undertaken by Project Co and include, at minimum, the deliverables noted as Consent to Test Safety Submissions in Table A- 1 of Appendix A to this Schedule 29, including an Engineering Safety and Assurance Case (each, a “**Consent to Test Safety Submission**”); and
 - (v) one or more submissions for consent to operate systems, which shall cover all testing and commissioning elements in the EN 50126-1 stages 8-10 undertaken by Project Co and include, at minimum, the deliverables noted as Consent to Operate System Safety Submissions in Table A- 1 of Appendix A to this Schedule 29, including an

Engineering Safety and Assurance Case (each, a “**Consent to Operate System Safety Submission**”).

- (vi) one or more submissions for consent to operate Revenue Service, which shall cover all operations, maintenance and performance monitoring elements in the EN 50126-1 stage 11 undertaken by Project Co and include, at minimum, the deliverables noted as Consent to Operate Revenue Service Safety Submissions in Table A- 1 of Appendix A to this Schedule 29, including an Engineering Safety and Assurance Case (each, a “**Consent to Operate Revenue Service Safety Submission**”).
- (b) Each System Assurance Submission shall demonstrate RAMS in accordance with the requirements of EN 50126-1.
- (c) Each System Assurance Submission shall be reviewed by the Contracting Authority ISA prior to being submitted to the Contracting Authority for review and approval. The Contracting Authority ISA shall, for each System Assurance Submission, make a recommendation to the Contracting Authority as to whether to approve or reject the System Assurance Submission.
- (d) If the Contracting Authority elects, in its sole discretion, to reject a System Assurance Submission, Project Co shall revise the System Assurance Submission to address the comments and concerns of the Contracting Authority, and shall resubmit the System Assurance Submission and any other documentation as may be required by the Contracting Authority in its sole discretion.
- (e) Project Co shall report on performance for activities associated with stage 11 of EN 50126-1 in accordance with the requirements of the Project Co Safety Management System and the requirements of Section 6.8.

6.6 Application of CMREA

- (a) For the purpose of applying the CMREA, Project Co shall be the proponent.
- (b) Project Co shall apply the CMREA to development of the Ontario Line Subway where it impacts, or is impacted by, Adjacent Railway Systems and any subsequent proposed changes to the Ontario Line Subway System post commencement of Revenue Service, including:
 - (i) technical changes, including:
 - (A) new or modified assets including fixed infrastructure and Trains; and
 - (B) introduction, elimination, or a change of technology or work methods;
 - (ii) operational changes, including:
 - (A) changes to functionality;
 - (B) changes to the service plan not envisaged in the Project Agreement;

- (C) changes to the mainline and yard train control operation; and
- (D) changes to standard operating procedures or rules;
- (iii) maintenance changes, including:
 - (A) changes to maintenance procedures or schedules not covered in existing Subway Rules and Standard Operating Procedures;
 - (B) changes to maintenance personnel training;
 - (C) changes to FRACAS; and
 - (D) changes to monitoring of maintenance; and
- (iv) organizational changes that could impact the Project Operations or that have the potential to affect safety either directly or indirectly, including:
 - (A) changes to the Project Co Safety Management System; and
 - (B) reorganization affecting Project Co or Project Co Parties in safety critical roles or with duties essential to safe railway operations.
- (c) Project Co shall identify Hazards and control Risks during the design and development of any change to the Ontario Line Subway System in accordance with the CMREA and the requirements of the Safety and System Assurance Standards.
- (d) Project Co shall undertake Risk Assessment in accordance with the CMREA for:
 - (i) the design of individual Systems and Subsystems being changed on, or added to, the existing Ontario Line Subway System;
 - (ii) the design of Subsystems to work as an integrated System being changed on, or being added to, the existing Ontario Line Subway System;
 - (iii) the integration of the System being changed on the existing Ontario Line Subway System;
 - (iv) the impact of the change on the safe operation and control of all Trains travelling on the Ontario Line Subway System;
 - (v) the ability to perform Project Co Services in a safe working environment with appropriate safe access and equipment;
 - (vi) the impact of Security Provider, Passenger Interface Provider and Emergency Service Providers to perform their services in a safe working environment with appropriate safe access and equipment, and
 - (vii) the safety of Passengers and the general public.

- (e) When applying explicit Risk estimation in accordance with the CMREA Project Co shall reduce Risks to as low as reasonably practicable (ALARP), such that the costs of implementing additional Risk reduction measures would be grossly disproportionate to the benefits of Risk reduction that would be achieved, following the Metrolinx Risk Assessment Guidance Document.
- (f) Project Co may implement a change that is not considered to be a Significant Change in accordance with the CMREA, but that has an impact on safety, provided that Project Co manages the Risk associated with the change in accordance with the Project Co Safety Management System and the Metrolinx Risk Assessment Guidance Document. Project Co shall retain documentation of the Risk Management measures taken for changes that are not Significant Changes but that may have an impact on safety.
- (g) The Contracting Authority may at any time require a deliverable under this Section 6 or under the CMREA or any Safety and Systems Assurance Standard to be reviewed by the Project Co ISA or the Contracting Authority ISA, in its sole discretion.
- (h) Project Co shall not implement a Significant Change without a Safety Confirmation issued by the Contracting Authority.
- (i) Project Co acknowledges and agrees that the issuance of a Safety Confirmation by the Contracting Authority does not transfer responsibility or accountability for the change from Project Co to the Contracting Authority.
 - (i) For clarity, Project Co at all times shall remain responsible for such a change.
- (j) Project Co shall maintain Hazard Records/Logs during the Project Term in accordance with its Project Co Safety Management System obligations.
- (k) Project Co shall ensure that any change to the Ontario Line Subway System does not worsen the existing Risk profile of the Ontario Line Subway System or the Adjacent Railway Systems respectively.

6.7 Functional Safety

- (a) Project Co shall identify all electrical/electronic/programmable electronic systems that provide Functional Safety as part of the hazard mitigation and risk acceptance process.
- (b) Contracting Authority has provided a minimum Tolerable Functional Failure Rate (TFFR) or SIL requirement for all Safety Functions performed by Systems as identified in the Output Specifications.
- (c) Project Co shall assess electrical/electronic/programmable electronic systems identified by both Project Co and Civil Contractors to identify the safety function they perform or are part of performing.
- (d) Tolerable Hazard Rate

- (i) Project Co shall perform an analysis of Risk Acceptance and Functional Safety to determine the Tolerable Hazard Rate for each system that performs a Safety Function as identified in the hazard mitigation and risk acceptance process.
 - (ii) Project Co shall calculate and determine the final Tolerable Hazard Rate to support their own safety management activities.
- (e) Tolerable Functional Failure Rate
- (i) Project Co shall perform their own analysis to determine the final Tolerable Functional Failure Rate.
 - (ii) Project Co's final Tolerable Functional Failure Rate shall be at least equal to the Tolerable Hazard Rate associated with the occurrence of the hazard.
- (f) Safety Integrity Level
- (i) Project Co shall derive the SIL from the requirements of the Safety Function along with the Tolerable Hazard Rate determined for the hazard addressed by the Safety Function.
 - (ii) Project Co shall use the Tolerable Functional Failure Rate to directly address the calculation for SIL for each Safety Function.
 - (iii) Project Co's SIL for each Safety Function shall be at least equal to the initial SIL prescribed by the Contracting Authority in the Output Specifications.
- (g) SIL Apportionment Report
- (i) Project Co shall produce a SIL apportionment report covering all functional Systems of the Project Co Infrastructure (the "**SIL Apportionment Report**") as described in Section A.13 of Appendix B to this Schedule 29.
 - (ii) Projects Co shall use the SSSIC to ensure that:
 - (A) all program participants are providing required analyses in a timely manner; and
 - (B) SIL allocations for Ontario Line Subway, including integration with Civil Contractors, are handled correctly.
 - (iii) Project Co shall also produce a SIL Apportionment Report for the Ontario Line Subway.
- (h) Safety and Security Critical Items List
- (i) Project Co shall jointly develop and maintain with the Civil Contractors a safety and security critical items list (the "**Safety and Security Critical Items List**") as described in Section A.14 of Appendix B to this Schedule 29.

- (ii) The Safety and Security Critical Items List will feed into the Acceptable Products Register as described in Section 6.9(a).

6.8 Engineering Safety and Assurance Cases

- (a) As part of each System Assurance Submission, Project Co shall submit to the Contracting Authority an engineering safety and assurance case (each, an “**Engineering Safety and Assurance Case** or “**ESAC**”) for each System, that integrates all safety activities, system engineering lifecycle stage activities including RAMS analyses, CMREA activities, operational readiness and performance outcomes.
- (b) Notwithstanding Section 6.8(a) and the requirements set out in Appendix B to this Schedule 29, Project Co shall complete all activities and produce all deliverables required in accordance with the CMREA and the Safety and Systems Assurance Standards, irrespective of whether such activities or deliverables are formally submitted to Contracting Authority as part of an Engineering Safety and Assurance Case or any other submission set out in this Schedule 29.
 - (i) Contracting Authority shall have the right to audit Project Co for, or request evidence from Project Co of, the completion of such activities or deliverables.
- (c) The Engineering Safety and Assurance Case for the Approval in Principle Safety Submissions shall confirm that the proposed concept design for each System conforms to the applicable Safety and Systems Assurance Standards and with the Project Safety Requirements, and shall include:
 - (i) an executive summary;
 - (ii) the System Definition Document;
 - (iii) the System Safety Plan;
 - (iv) the report of Hazard Analysis activity produced in accordance with the requirements of Section A.7 of Appendix B to this Schedule 29 (the “**Hazard Analysis Report**”);
 - (v) the Hazard Record/Log, produced in accordance with the requirements of Section A.4 of Appendix B to this Schedule 29 (the “**Hazard Record/Log**”);
 - (vi) the safety requirements specification, produced in accordance with the requirements of Section A.5 of Appendix B to this Schedule 29 (the “**Safety Requirements Specification**”);
 - (vii) the independent safety assessment plan produced in accordance with the requirements of EN 50126-1 and Section A.6 of Appendix B to this Schedule 29 (the “**Independent Safety Assessment Plan**”);
 - (viii) the report of RAM analysis activity produced in accordance with the requirements of Section A.9 of Appendix B to this Schedule 29 (“**RAM Analysis Report**”);

- (ix) the RAM policy produced in accordance with the requirements of EN 50126-1 (the “**RAM Policy**”); and
- (x) the RAM Plan.
- (d) Each Engineering Safety and Assurance Case for the System Design Safety Submission, shall include:
 - (i) an executive summary;
 - (ii) an updated version of all components comprising the Approval in Principle Safety Submissions required for the System Design Safety Submission as outlined in Table A1 of Appendix A to this Schedule 29;
 - (iii) the System safety case and, where necessary, any relevant safety justification reports in accordance with EN 50126-1, EN 50126-2, EN 50128 and EN 50129 and reports that evidence compliance with the CMREA (the “**System Safety Case**”);
 - (iv) the System RAM status report detailing:
 - (A) the overall Project quantified RAM targets together with reference to the RAM Plan,
 - (B) the report of the RAM analysis activity;
 - (C) the report of RAM analysis investigation activity; and
 - (D) details of RAM activities completed to date,(collectively, the “**System RAM Status Report**”);
 - (v) the system SIL Apportionment Report produced in accordance with the requirements of Section A.13 of Appendix B to this Schedule 29; and
 - (vi) an appendix comprised of supporting documents, including:
 - (A) the System Definition Document;
 - (B) the System Safety Plan;
 - (C) the Safety Requirements Specification;
 - (D) the Safety and Security Critical Items List;
 - (E) the safety validation report produced in accordance with the requirements of Section A.8 of Appendix B to this Schedule 29 (“**Safety Validation Report**”);
 - (F) the Reliability Critical Items List, as outlined in Section A.15 of Appendix B to this Schedule 29;

- (G) the RAM Plan;
 - (H) the RAM subsystem requirements which apportions the overall RAM specifications to individual subsystems and sets out,
 - (I) reliability requirements (for example, failure rates and mean time between failure);
 - (II) maintainability requirements (for example, mean time to repair); and
 - (III) requirements for fault detection and diagnostics and requirements related to the build process (for example, environmental stress screening),(collectively, the “**RAM Subsystem Requirements**”); and
 - (I) the RAM validation plan produced in accordance with the requirements of EN 50126-1 and the requirements of Section A.10 of Appendix B to this Schedule 29 (the “**RAM Validation Plan**”).
- (e) Each Engineering Safety and Assurance Case for the Consent to Construct Safety Submission shall include:
- (i) an updated version of all components comprising the Engineering Safety and Assurance Case for the System Design Safety Submission required for the Consent to Construct Safety Submission as outlined in Table A1 of Appendix A to this Schedule 29; and
 - (ii) an appendix comprised of supporting documents, including the Hazard Analysis Report as outlined in Section A.7 of Appendix B to this Schedule 29.
- (f) Each Engineering Safety and Assurance Case for the Consent to Test Safety Submission shall include:
- (i) an updated version of all components comprising the Engineering Safety and Assurance Case for the Consent to Construct Safety Submission required for the Consent to Test Safety Submission as outlined in Table A1 of Appendix A to this Schedule 29;
 - (ii) an operational readiness report (the “**Operational Readiness Report**”) that includes a summary of,
 - (A) the future operations-related stages associated to the System and commissioning planned; and
 - (B) the status of activities required to ensure operational readiness, including activities related to personnel, training, and equipment; and

- (iii) an appendix comprised of supporting documents, including the Hazard Record/Log produced in accordance with the requirements of Section A.4 of Appendix B to this Schedule 29; and
 - (iv) the RAM test specification describing the testing that will be carried out to demonstrate system fault detection and diagnosis capabilities, fault injection and testing to eliminate early failures (for example, environmental stress screening, goods inwards inspections and soak testing), maintainability demonstrations, and reliability growth programs (the “**RAM Test Specification**”);
- (g) Each Engineering Safety and Assurance Case for the Consent to Operate System Safety Submission shall include:
- (i) an updated version of all components comprising the Engineering Safety and Assurance Case for the Consent to Test Safety Submission required for the Consent to Operate System Safety Submission as outlined in Table A1 of Appendix A to this Schedule 29;
 - (ii) the system performance status report which shall provide a summary of the evidence that the System will meet its performance requirements, including evidence from simulations and system testing (the “**System Performance Status Report**”); and
 - (iii) an appendix comprised of supporting documents, including:
 - (A) the Hazard Record/Log produced in accordance with the requirements of Section A.4 of Appendix B to this Schedule 29;
 - (B) the RAM validation report produced in accordance with the requirement of EN 50126-1 and the requirements of Section A.11 of Appendix B to this Schedule 29 (the “**RAM Validation Report**”); and
 - (C) the FRACAS report produced in accordance with the requirement of Section A.12 of Appendix B to this Schedule 29 (the “**FRACAS Report**”).
- (h) Each Engineering Safety and Assurance Case for the Consent to Operate Revenue Service Safety Submission shall include:
- (i) the final version of all components comprising the Engineering Safety and Assurance Case for the Consent to Operate System Safety Submission;
 - (ii) the System Safety Case for Revenue Service;
 - (iii) the Operational Readiness Report;
 - (iv) the System RAM Status Report for Revenue Service;
 - (v) the System Performance Status Report for Revenue Service ; and
 - (vi) an appendix comprised of supporting documents, including,

- (A) the System Definition Document for Revenue Service;
 - (B) the System Safety Plan for Revenue Service;
 - (C) the Hazard Record/Log for Revenue Service;
 - (D) the Safety Validation Report for Revenue Service;
 - (E) the RAM Validation Report for Revenue Service; and
 - (F) the FRACAS report for Revenue Service.
- (i) Each Engineering Safety and Assurance Case shall be reviewed by the Project Co ISA, and the Project Co ISA shall produce an independent safety assessment report for each Engineering Safety and Assurance Case documenting its review of the Engineering Safety and Assurance Case (the “**Project Co ISA ESAC Report**”).
 - (i) Project Co shall submit the Project Co ISA ESAC Report with each Engineering Safety and Assurance Case to Contracting Authority.
 - (j) Upon receipt by Contracting Authority of the Engineering Safety and Assurance Case and the Project Co ISA ESAC Report, the Contracting Authority ISA shall conduct a review of the Engineering Safety and Assurance Case and the Project Co ISA ESAC Report, and shall submit any requests for clarification to the Project Co ISA no later than five (5) Business Days following the date that the Contracting Authority received the Engineering Safety and Assurance Case and the Project Co ISA ESAC Report.
 - (i) The Project Co ISA shall respond to requests for clarification within five (5) Business Days of receiving a clarification request from the Contracting Authority ISA.
 - (k) The Contracting Authority ISA shall, after reviewing the Engineering Safety and Assurance Case and the Project Co ISA ESAC Report and within fifteen (15) Business Days of receiving the Project Co ISA’s responses to its requests for clarification as set out Section 6.8(j), recommend to the Contracting Authority, with documented rationale in the form of a report, whether to approve or refuse to approve the Engineering Safety and Assurance Case (the “**Contracting Authority ISA ESAC Verification Report**”).
 - (l) No later than five (5) Business Days after receiving the Contracting Authority ISA ESAC Verification Report, the Contracting Authority shall determine whether to approve or reject the Engineering Safety and Assurance Case.
 - (i) Upon approving each Engineering Safety and Assurance Case, the Contracting Authority shall issue a confirmation of approval to Project Co (the “**Safety Confirmation**”).
 - (ii) Contracting Authority shall submit the Contracting Authority ISA ESAC Verification Report(s) to the Independent Certifier for their review in the determination as to whether Project Co has satisfied the conditions of Substantial Completion, as

described in Section 3.1(e) (*Role of The Independent Certifier – Engagement*) of Schedule 6 – Independent Certifier Agreement.

- (m) If the Contracting Authority elects, in its sole discretion, to reject an Engineering Safety and Assurance Case, Project Co shall revise the Engineering Safety and Assurance Case to include changes or additional Safety Measures and shall resubmit the Engineering Safety and Assurance Case and an accompanying Project Co ISA ESAC Report and any other documentation as may be required by the Contracting Authority in its sole discretion.
- (n) When issuing the final Consent to Operate Revenue Service Safety Submission, the Chief Safety Officer shall issue a certificate confirming that all safety requirements of this Schedule 29 have been met, including conformance with the Safety and System Assurance Standards (the “**System Safety Certificate**”). The System Safety Certificate confirms that that the Ontario Line Subway System is safe to operate and is ready to carry passengers. It shall be dated, signed, and sealed by the Chief Safety Officer.
- (o) Upon approving the Consent to Operate Revenue Service Safety Submission, the Contracting Authority shall issue the Consent to Operate Revenue Service Safety Confirmation. The Safety Governing Body shall use the Consent to Operate Revenue Service Safety Confirmation as part of its determination to issue the Consent to Operate Revenue Service pursuant to Section 3.2(i).

6.9 Product Assurance and Product Acceptance

- (a) No later than ninety (90) days prior to the commencement of Revenue Service, Project Co shall build a register of all products that are deployed on Ontario Line Subway that fulfil a vital, safety critical or safety related function (the “**Acceptable Products Register**”) which shall be maintained by Project Co throughout the Project Term.
- (b) No later than sixty (60) days prior to the commencement of Revenue Service, Project Co shall develop and submit to the Contracting Authority for approval Project Co’s proposed process (the “**Product Acceptance Process**”) for introducing new and modified Products to the Ontario Line Subway System during the Project Term.
- (c) The Product Acceptance Process shall be for the purpose of demonstrating to the Contracting Authority that the Products that Project Co uses for the Project are safe, compatible, reliable and fit for purpose. The Product Acceptance Process shall set out, in detail, the timing, content and process for the following activities:
 - (i) Project Co’s identification of new or modified Products that are proposed for use in the Project Co Services in addition to, or replacement of, those detailed in the Acceptable Products Register; and
 - (ii) Project Co’s evaluation of any new or modified Products, including all software-based systems, that are proposed to be added to the Acceptable Products Register for use in the Project Co Services in compliance with this Section 6.
- (d) Project Co shall comply with the Product Acceptance Process for any new or modified Product that Project Co proposes to introduce. The Product Acceptance Process shall

comply with EN 50126-1 and 50126-2, and all other standards referenced therein as appropriate to the system under development.

- (e) The Contracting Authority shall review all new or modified Product applications.
- (f) New or modified Products, once approved by the Contracting Authority, shall be incorporated into the Acceptable Products Register.
- (g) Project Co shall not introduce or implement any new or modified Product as part of the Project Co Services that has not been incorporated into the Acceptable Products Register in accordance with this Section 6.9

6.10 Project Co Performance Monitoring And Improvement

- (a) Project Co shall establish processes to monitor performance of all safety critical assets in compliance with EN 50126-1 and FRACAS principles, including all failures and faults that occur during the Project Operations.
- (b) Project Co shall report to the Contracting Authority on a quarterly basis the output of all FRACAS monitoring, through a quarterly FRACAS report (the “**Project Co Quarterly FRACAS Report**”). The Project Co Quarterly FRACAS Report shall contain information about failures and defects identified during operation and maintenance, including at minimum the failure and defect information defined in EN 50126-1.
- (c) Project Co shall use its Project Co Quarterly FRACAS Report to identify Products that may need to be investigated for RAMS performance and, where performance is deficient against Project Co’s RAMS targets, Project Co shall propose to the Contracting Authority their removal from the Acceptable Products Register.
- (d) In accordance with the requirements of EN 50126-1, Project Co shall document deliverables associated with “Phase 11” as defined in EN 50126-1 at minimum on an annual basis or more frequently as required in accordance with EN 50126-1. Project Co shall submit to the Contracting Authority, on an annual basis, tasks undertaken for the year related to RAMS performance analyses and evaluations for Systems and Subsystems and evidence of correct execution compared to the operations and maintenance plans required by EN 50126-1 (“**O&M Plan Performance**”).

6.11 Fire/Life Safety

- (a) Project Co shall, with input from North Civil Project Co and South Civil Project Co as required and agreed at the SSSIC, develop a fire/life safety management plan (the “**Fire/Life Safety Management Plan**”), which shall describe in detail how fire/life safety activities will be coordinated and carried out. The Fire/Life Safety Management Plan shall include:
 - (i) management and organisation of the Fire/Life Safety Committee pursuant to Section 3.4(f);
 - (ii) review and analysis of codes and standards including the Fire/Life Safety Standards;

- (iii) approach to fire protection;
 - (iv) inter-connection with Interchange Stations (as defined in the Output Specifications);
and
 - (v) fire/life safety protocols.
- (b) Project Co shall coordinate with North Civil Project Co and South Civil Project Co in the development of the Fire/Life Safety Management Plan as agreed at the SSSIC.
- (i) North Civil Project Co and South Civil Project Co shall be obliged to adhere to the Fire/Life Safety Management Plan for execution of their works.
- (c) Project Co shall be responsible for:
- (i) Supporting North Civil Project Co and South Civil Project Co as required and agreed at the SSSIC in the obtaining of all permits and approvals required for fire detection, alarm and suppression systems installed in the North Civil Project Infrastructure and South Civil Project Infrastructure.
 - (A) For clarity, these approvals and permits shall cover rooms and other North Civil Project Infrastructure and South Civil Project Infrastructure provided for Project Co use.
 - (B) For clarity, North Civil Project Co and South Civil Project Co shall remain responsible for the achieving of all occupancy permits for their Works.
 - (ii) Obtaining of all permits and approvals required for fire detection, alarm and suppression systems installed in Project Co Infrastructure,
 - (iii) Obtaining all permits and approvals required to operate a Central Fire Alarm Monitoring System (CFAMS) as described in Section 3.1.21.2(e) (*Central Fire Alarm Monitoring System*) of the Output Specifications.
- (d) Project Co shall, in coordination with North Civil Project Co and South Civil Project Co as agreed at the SSSIC, document the implementation and execution of the Fire/Life Safety Management Plan in a report (the “**Fire/Life Safety Management Report**”), which shall also document the implementation and execution of the Fire/Life Safety Management Report as it relates to works undertaken by North Civil Project Co and South Civil Project Co.
- (e) The Civil Contractors shall be responsible for the preparation of the facility fire safety plan for each Facility in accordance with section 2.8 of the Canadian National Fire Code, including:
- (i) assembly of the overall documents;
 - (ii) provision of all drawings and documents showing the type, location and operation of the Facility fire and emergency systems;

- (iii) provision of section on control of fire hazards;
 - (iv) provision of maintenance of Facilities for the safety of occupants; and
 - (v) provision of section covering alternative methods for the safety of occupants,
(the “**Facility Fire Safety Plan**”).
- (f) Project Co shall be responsible for providing input, as required and agreed at the SSSIC, to the Civil Contractors in the preparation of the Facility Fire Safety Plan, including:
- (i) provision of emergency procedures section;
 - (ii) provision of sections on the training and organisation of supervisory staff, and their duties;
 - (iii) provision of fire drill section;
 - (iv) input to the development of control of fire hazards section;
 - (v) input to the development of the section for maintenance of Facilities for the safety of occupants; and
 - (vi) input to the development of the section covering alternative methods for the safety of occupants.
- (g) Project Co shall be responsible for the maintenance of the Facility Fire Safety Plan following handover of the Facility by Contracting Authority.

7. OCCUPATIONAL HEALTH AND SAFETY AND CONSTRUCTION SAFETY REQUIREMENTS

7.1 General

- (a) Project Co shall:
- (i) with respect to the Works, perform and cause one or more Project Co Parties to perform, all of the obligations of the “Constructor”, and indemnify Contracting Authority and “Province Persons” against any and all of the liabilities of the “Constructor”, under the OHSA and all regulations thereto;
 - (ii) provide Contracting Authority with a clearance certificate from the WSIB, or any successor thereto, once every ninety (90) days from Commercial Close until Final Completion, and from Final Completion until the Termination Date, at the request of the Contracting Authority; and
 - (iii) cause the Project to be registered with the MOL by way of Notice of Project, pursuant to Applicable Law, with the purpose of designating Project Co or the Construction Contractor (or a member of the joint venture, if the Construction Contractor is a joint

venture, or partner of the partnership, if the Construction Contractor is a partnership) as the “Constructor” for all Works on the Site.

- (b) Project Co shall comply with the following occupational health and safety standards, as amended from time to time:
 - (i) ISO Series 6385:2004 Ergonomic principles in the design of work systems;
 - (ii) ISO Series 11064 Ergonomic design of control centres;
 - (iii) ISO Series 9241 Ergonomics of human-system interaction;
 - (iv) ISO Series 10075 Ergonomic principles related to mental work-load;
 - (v) ISO 45001:2018 Occupational health and safety management systems – Requirements with guidance for use (“**ISO 45001**”); and
 - (vi) all requirements as outlined in the Metrolinx Health and Safety Department Guidance Advice document, dated March 2021, with subject Construction/Public Interface, (collectively, the “**Occupational Health and Safety Standards**”).

7.2 Contractor Site Specific Safety Manual

- (a) As “Constructor” of the Works and the Site under the OHSA and the Project Agreement, Project Co shall prepare a site-specific safety manual (the “**Contractor Site Specific Safety Manual**”) for the Works during the pre-construction phase and prior to setting up a Site for the Project Operations, including:
 - (i) each Station;
 - (ii) each other Site.
- (b) Project Co shall ensure that each Contractor Site Specific Safety Manual complies, at a minimum, with:
 - (i) all applicable requirements of the OHSA, including all regulations thereto;
 - (ii) Good Industry Practice;
 - (iii) all health and safety requirements of the Project Agreement;
 - (iv) the Project Co Safety Management System;
 - (v) the requirements of this Schedule 29, including Appendix C to this Schedule 29;
 - (vi) subject to Section 7.2(c), the Metrolinx Construction Safety Management Program as at the Technical Reference Date, unless instructed by Contracting Authority.
- (c) Project Co acknowledges and agrees that,

- (i) the Metrolinx Construction Safety Management Program is provided to Project Co solely to allow Project Co to incorporate any relevant requirements into its Contractor Site Specific Safety Manual given Project Co's role as "Constructor" of the Works and the Site under the OHS Act and the Project Agreement;
 - (ii) provision of the Metrolinx Construction Safety Management Program to Project Co does not constitute provision of a "safety manual" for the Site or control or direction of safety in respect of the Works or at the Site by Contracting Authority;
 - (iii) the terms of the Metrolinx Construction Safety Management Program that are applicable to work for which Metrolinx or a third party is responsible for control and direction of safety are not applicable to Project Co under the Project Agreement; and
 - (iv) Project Co shall consider, in the preparation of the Contractor Site Specific Safety Manual, the applicability of the requirements of the Metrolinx Construction Safety Management Program, including those that apply to access control methods, hazardous operations, health and safety enforcement, and internal incident reporting.
- (d) Project Co shall submit each Contractor Site Specific Safety Manual to the Contracting Authority for approval no later than forty-five (45) days prior to the establishment of a Site.
- (e) The Design Build Director shall assist in preparing each Contractor Site Specific Safety Manual by providing all information that the Design Build Director holds that is relevant to the Contractor Site Specific Safety Manual including pre-construction information obtained from Contracting Authority.
- (f) Throughout the Project Term, Project Co shall ensure that each Contractor Site Specific Safety Manual is appropriately reviewed, updated and revised from time to time, and at a minimum every twelve (12) months or with each material change in Construction Activity, so that it continues to be sufficient to ensure that Works are carried out, so far as is reasonably practicable, without Risks to health or safety. Project Co shall ensure that the updated and revised Contractor Site Specific Safety Manual is consistent with Good Industry Practice at the time that the revisions and updates are made and that the revisions reflect any changes to practices and processes to prevent recurrence of any historic incidents or identified trends in incidents.
- (g) Project Co shall:
- (i) comply with the Contractor Site Specific Safety Manual;
 - (ii) take such measures as are reasonable in accordance with Good Industry Practice to maintain and secure the Site and Lands to prevent access of any persons or creatures not entitled to be there once Project Co has been granted access to the Site and Lands, or has commenced Works; and
 - (iii) maintain Sites in accordance with requirements of Schedule 17 – Environmental Obligations.

7.3 Occupational Health and Safety Certification

- (a) Project Co shall obtain and maintain ISO 45001 certification through a body accredited by the Standards Council of Canada or through a body that is a signatory to the International Accreditation Forum Multilateral Recognition Arrangement (“**ISO 45001 Certification**”) in accordance with the requirements in Section 9.6(a) (*Health and Safety Certification*) of the Project Agreement.
- (b) Project Co shall obtain and maintain a Certificate of Recognition through the Infrastructure Health and Safety Association in the Province of Ontario in accordance with the requirements in Section 9.6(a) (*Health and Safety Certification*) of the Project Agreement.

7.4 Health and Safety Inspections

- (a) Project Co shall perform all health and safety inspections of their facilities, health and safety management systems, and construction vehicles in accordance with the requirements in Section 13 (*Quality Management*) of the Project Agreement.

7.5 Personal Protective Equipment

- (a) Project Co shall prepare and submit to the Contracting Authority, a Project Co personal protective equipment standard (the “**Project Co Personal Protective Equipment Standard**”). The Project Co Personal Protective Equipment Standard shall, at a minimum, comply with the Metrolinx Personal Protective Equipment Standard. Project Co acknowledges and agrees that the Metrolinx Personal Protective Equipment Standard is provided solely for the purpose of incorporating any relevant matters into Project Co’s Contractor Site Specific Safety Manual, and that provision of the Metrolinx Personal Protective Equipment Standard to Project Co does not constitute control or direction of safety of the Works or at the Site by Contracting Authority.
- (b) Project Co shall ensure that any additional requirements for personal protective equipment in the Project Co Personal Protective Equipment Standard is determined by a task-based Risk Assessment.

7.6 Beacons

- (a) With respect to Works performed at a Site within Metrolinx Territory, Project Co shall ensure that all Project Co Parties’ vehicles and equipment meet or exceed the requirements of the Metrolinx Beacon Safety Performance Standard. Project Co Parties’ vehicles and equipment shall be identifiable with company logo(s). Project Co acknowledges and agrees that the Metrolinx Beacon Safety Performance Standard is provided solely for the purpose of incorporating any relevant matters into its Contractor Site Specific Safety Manual and that provision of the Metrolinx Beacon Safety Performance Standard to Project Co does not constitute control or direction of safety of the Works or at the Site by Contracting Authority.

7.7 Fitness for Duty Policy

- (a) Project Co shall comply with the Metrolinx Fitness for Duty Policy, as at the Technical Reference Date, unless instructed by the Contracting Authority. Obligations and

requirements applicable to employees in the Metrolinx Fitness for Duty Policy shall be applicable to employees and contractors of Project Co and Project Co Parties.

- (b) No later than thirty (30) days following Commercial Close, Project Co shall prepare and submit to the Contracting Authority for approval, a policy regarding fitness for duty that is consistent with the Metrolinx Fitness for Duty Policy and that shall be applicable to all Project Co Parties (the “**Project Co Fitness for Duty Policy**”).
- (c) Once approved by the Contracting Authority, the Project Co Fitness for Duty Policy shall be included in the Project Co Safety Management System. The Project Co Fitness for Duty Policy shall be reviewed annually and revised as required to be consistent with the Metrolinx Fitness for Duty Policy, pursuant to Section 7.7(a), and Good Industry Practice.
- (d) The Project Co Fitness for Duty Policy shall identify all Safety-Sensitive Positions in addition to those identified in Appendix A of the Metrolinx Fitness for Duty Policy.
- (e) The Project Co Fitness for Duty Policy shall define appropriate measures to be undertaken for workers following accidents and incidents to ensure physical and psychological fitness for duty.
- (f) Project Co shall provide, for Project Co employees and employees of Project Co Parties, a medical testing program and medical health services including Mental Health First Aid support in accordance with the Metrolinx Fitness for Duty Policy and access to occupational health services, at Project Co’s cost and expense.
- (g) Project Co shall define, within the Project Co Fitness for Duty Policy, a drug and alcohol use control regime consistent with the Metrolinx Fitness for Duty Policy.

7.8 Safety Training Requirements

- (a) Project Co shall ensure that all persons employed or engaged by Project Co or any Project Co Party receive training and supervision that is necessary to ensure Project Co’s performance of this Project Agreement in accordance with its requirements and in compliance with all Project Safety Requirements.
- (b) Project Co shall ensure that all persons successfully complete and be current in the Project Co Safety Training Program, as amended from time to time, prior to accessing a Site.
- (c) Project Co shall maintain records of personnel who have completed Project Co Safety Training Program and, upon request by Contracting Authority, Project Co shall produce records and training documents for such personnel.
- (d) Project Co shall maintain an up-to-date list of all persons that have completed the Project Co Safety Training Program at the Site and ensure all such persons wear the prescribed visually recognizable mark (for example, a sticker), issued upon successful completion of the Project Co Safety Training Program on a readily visible location on their hardhats.
- (e) Project Co shall ensure that all persons who operate equipment or undertake inspections or any other activities within Metrolinx Territory must hold current CROR certification and any other applicable Metrolinx training certifications, including site specific training.

7.9 Safety Reporting Requirements

- (a) Project Co, as “Constructor” of the Works and the Site, under the OHSA and the Project Agreement shall immediately notify Contracting Authority by telephone if any of the following types of events occurs in respect of the Project:
- (i) any notification of emergency service providers (for example, when 911 is called);
 - (ii) any injury where medical attention is required;
 - (iii) any Critical Injury or death, notifiable under section 51(1) of the OHSA;
 - (iv) any worker’s exposure to a hazardous material or designated substance (defined under the OHSA) at any Site;
 - (v) any notification or report to the MOL, MECP, or the WSIB;
 - (vi) any visit to the Site by an inspector or other official from the MOL, MECP, or the WSIB;
 - (vii) any Critical Injury to a member of the public or to a passenger;
 - (viii) any event with the potential to affect, or that actually affects, bus operations;
 - (ix) any property damage (including to Metrolinx’s property or to any other existing property, infrastructure, adjacent property, motor vehicles, and/or mobile equipment);
 - (x) any Near Miss with high potential for Critical Injury; and
 - (xi) any tunneling related incidents, including collapse of overburden and structural failure irrespective of whether injury actually occurs.
- (b) Subject to Section 7.9(e), Project Co shall submit reports for incidents listed in Section 7.9(a) (including the identification of all root cause(s) and Corrective Action(s)) to the Contracting Authority Representative as follows:
- (i) no later than one hour following any incident, Project Co shall make an initial phone call to the Contracting Authority Representative advising that an incident has occurred and providing an initial situation report;
 - (ii) no later than 24 hours following the incident, Project Co shall provide a written status update to the Contracting Authority Representative that includes a description of,
 - (A) all details of the incident, including immediate causes, that are known by Project Co;
 - (B) all implemented corrective actions that Project Co has taken or plans to take; and

- (C) all other relevant and time sensitive information which Project Co can reasonably provide at such time, including names of all persons identified as involved in the incident, witness statements from all persons involved in the incident, video and photographic evidence and toxicology results for employees involved in the incident, as available;
- (iii) no later than 72 hours following the incident (or such longer period of time as the Parties may agree), Project Co shall provide a written Final Incident Report that includes,
 - (A) all investigative information, including root causes;
 - (B) a corrective action plan;
 - (C) training records;
 - (D) applicable drawings;
 - (E) all applicable field level risk assessments and work plans;
 - (F) regulatory body documentation;
 - (G) inspection reports;
 - (H) maintenance records;
 - (I) third party reports;
 - (J) equipment testing reports; and
 - (K) any other relevant documentation or evidence related to the incident (such as witness statements),(the “**Final Incident Report**”);
- (iv) no later than five (5) Business Days following receipt of the Final Incident Report (or such other time frame as the Parties may agree), Contracting Authority shall provide comments to Project Co;
- (v) Project Co shall respond to Contracting Authority’s comments on the Final Incident Report no later than five (5) Business Days after receipt of Contracting Authority’s comments (or such other time frame as the Parties may agree); and
- (vi) following resolution of any comments on the Final Incident Report provided by Contracting Authority, to Contracting Authority’s reasonable satisfaction, the Project Co Representative shall sign-off on the Final Incident Report and provide a final copy to Contracting Authority.

- (c) Each Final Incident Report shall either be in a form satisfactory to Contracting Authority, in its sole discretion, or in a form provided by Contracting Authority to Project Co from time to time.
- (d) Project Co, as “Constructor” of the Works and the Site under the OHSA and the Project Agreement, shall at all times remain responsible for the ways and means of any remedial actions in respect of incidents set out in Section 7.9(a) and reports set out in Section 7.9(b), including remedial actions that arise in response to, or resolve, any comments provided by Contracting Authority in accordance with Sections 7.9(b)(v) and 7.9(b)(vi).
- (e) Unless otherwise directed by Contracting Authority, Section 7.9(b)(iii) to Section 7.9(b)(vi) shall not apply to the visits set out in Section 7.9(a)(vi).

7.10 Monthly Safety Performance Reporting Requirements

- (a) Project Co shall provide a written monthly summary to Contracting Authority no later than eight (8) Business Days after the last day of each month containing the information described in this Section 7.10 (each, a “**Monthly Construction Safety Report**”). Each Monthly Construction Safety Report shall be in a form satisfactory to the Contracting Authority, in its sole discretion, or in a form provided by Contracting Authority to Project Co from time to time. Project Co, as “Constructor” of the Works and the Site under the OHSA and Project Agreement, shall at times remain responsible for any ways and means of any remedial actions included in any such summaries.
- (b) Each Monthly Construction Safety Report shall include the following safety-related performance indicators:
 - (i) The Lost Time Injury Frequency Rate, which shall be calculated as follows:

$$LTFIR = \frac{LTI}{Hours\ Worked} \times [REDACTED]$$

where:

LTI = number of lost time injuries amongst Project Co staff in the reporting period;

Hours Worked = total hours worked in the reporting period by all Project Co workers;

- (ii) The Total Recordable Injury Frequency (TRIF), which shall be calculated as follows:

$$TRIF = \frac{LTS}{Hours\ Worked} \times [REDACTED]$$

where:

LTS = number of recordable injuries or illnesses amongst Project Co staff in the reporting period

Hours Worked = total hours worked in the reporting period by all Project Co, Project Co Parties and Project Co Subcontractors staff;

- (iii) The Severity Rate (SR), which shall be calculated as follows:

$$SR = \frac{\text{Total numbr lot work days}}{\text{Total number of recordable incidents}}$$

- (iv) Ministry of Labour infractions, if any, for the month.
- (c) Notwithstanding Section 7.10(b), Project Co shall be required to report on safety performance indicators as prescribed by the Contracting Authority in its sole discretion from time to time.

7.11 Safety Work Plans

- (a) If Project Co plans to carry out one or more of the following activities with respect to the Works, then Project Co, as “Constructor” of the Works and the Site under the OHSA and the Project Agreement, shall prepare and submit separate safety work plan(s) to Contracting Authority in accordance with this Section 7.11, setting out Project Co’s plan for management and safety of the Works and the Site for each of the following categories of activities:
- (i) mobilization, demobilization or travel through active and in-service operational facilities or spaces available for public use or access;
 - (ii) activities that take place outside of Project Co’s enclosed (i.e. hoarded or fenced) space, phase or stage of construction; or
 - (iii) activities that occur in the area immediately adjacent to Existing Metrolinx Infrastructure, or any area where the public may use to access, or pass by, Existing Metrolinx Infrastructure or a Metrolinx project site,
- (each, a “**Safety Work Plan**”). For clarity, Project Co shall submit a separate Safety Work Plan for each category of activities set out in Sections 7.11(a)(i), 7.11(a)(ii), and 7.11(a)(iii).
- (b) Project Co shall submit each Safety Work Plan to Contracting Authority in accordance with Schedule 10 – Review Procedure no later than fifteen (15) Business Days prior to the commencement of any activity set out in Section 7.11(a).
- (c) All Safety Work Plans shall be submitted using the Work Plan Methodology Template as provided to Project Co by Contracting Authority and shall include all details, attachments and other documents contemplated in the Work Plan Methodology Template. A Safety Work Plan shall be returned Project Co with the comment “RE-SUBMIT” if Contracting Authority determines that it is missing any such details, attachments or other documents.

- (d) For clarity, Project Co shall not be entitled to any Delay Event or Compensation Event with respect to the review of the Safety Work Plan if the Safety Work Plan does not comply with any of the requirements set out in this Section 7.11.

7.12 Safety Stand Down Meeting

- (a) No later than ninety (90) days after Financial Close, and once every ninety (90) days thereafter until Final Completion, or on a date or at a frequency otherwise agreed between Project Co and Contracting Authority until Final Completion, Project Co shall convene a safety meeting (the “**Safety Stand Down Meeting**”) with Contracting Authority that will be up to two hours in length and based on an agenda jointly developed by the Parties in accordance with this Section 7.12. Contracting Authority may, acting reasonably, invite additional participants to any Safety Stand Down Meeting.
- (b) Project Co, as “Constructor” of the Works and the Site under the OHS Act and the Project Agreement, shall convene each Safety Stand Down Meeting at a location on the Metrolinx Lands, or at an alternate location approved by Contracting Authority, in its sole discretion.
- (c) Project Co, as “Constructor” of the Works and the Site under the OHS Act and the Project Agreement, shall provide at least thirty (30) days’ Notice to the Contracting Authority Representative for each Safety Stand Down Meeting, which shall include the particulars for such meeting, including its location, date, time and number of attendees. Upon receiving Notice of any such Safety Stand Down Meeting, Contracting Authority shall have the right to:
 - (i) request that one or more safety topics be presented at the Safety Stand Down Meeting and may, in its sole discretion, choose to provide certain presentation materials to be used by Project Co in connection therewith; and
 - (ii) request the attendance of specific representatives of Project Co and any Project Co Party working at the Lands at such meeting and, if requested, Project Co shall use reasonable commercial efforts to ensure all such individuals attend.
- (d) Project Co, as “Constructor” of the Works and the Site under the OHS Act and the Project Agreement, shall prepare for and participate in, and shall cause all relevant Project Co Parties working at the Site to prepare for and participate in, each Safety Stand Down Meeting, including:
 - (i) if such preparation for and participation in the Safety Stand Down Meeting requires Project Co or any Project Co Party to demobilize any part of the Construction Activities, delays the starting of any Works or causes or contributes to any other interruption or stoppage of the Works;
 - (ii) preparing and delivering presentations on any safety topics requested by Contracting Authority and, if and as applicable, delivering any presentation materials provided by Contracting Authority in connection therewith; and
 - (iii) preparing and delivering presentations on one or more safety topics if Contracting Authority has not requested that a particular safety topic be presented.

- (e) Project Co shall provide all labour and materials required for each Safety Stand Down Meeting, including all equipment, furnishings and presentation materials.
- (f) Project Co acknowledges that it could experience a delay, interruption or stoppage of the Works as a result of each Safety Stand Down Meeting, and Project Co agrees that it shall not be eligible for a Delay Event, Compensation Event or any other relief or additional compensation under the Project Agreement as a result of any such meeting.
- (g) No later than five (5) Business Days after the Safety Stand Down Meeting, Project Co, as “constructor” of the Works and the Site under the OHSA and the Project Agreement, shall provide the written minutes and a summary of the meeting (the “**SSDM Summary Report**”) to Contracting Authority for review in accordance with Schedule 10 – Review Procedure. The SSDM Summary Report shall include:
 - (i) the date of the meeting;
 - (ii) a list of all attendees at the meeting;
 - (iii) topics discussed at the meeting;
 - (iv) a copy of any presentations delivered at, or materials distributed as part of, the Safety Stand Down Meeting in both native file formats and .pdf format; and
 - (v) a copy of evaluation forms provided by Contracting Authority to Project Co as part of the Safety Stand Down Meeting materials that have been filled out by the meeting participants.

7.13 Right of Contracting Authority to Inspect Site

- (a) The Contracting Authority or its designate may perform inspections of the Site on a weekly basis or at such other frequency as the Contracting Authority may, in its sole discretion, elect. Such inspections are solely for the purpose of the Contracting Authority ensuring that Project Co is meeting its health and safety obligations under the Project Agreement, and its role as “Constructor” of the Works and the Site under the OHSA and the Project Agreement, and shall not be for purposes of Contracting Authority controlling the Site, the Works, or health and safety at the Site.

8. SECURITY REQUIREMENTS

8.1 General

- (a) Project Co shall carry out its security obligations as set out in this Section 8 in order to demonstrate that:
- (i) the Works have been thoroughly reviewed, demonstrated, inspected and tested at all system levels throughout the lifecycle, and are capable of being operated and maintained as a fully integrated, secure system;
 - (ii) the Project Co Services, including Subway Rules, Standard Operating Procedures, staffing, staff qualifications, training requirements, certification requirements and other policies required to operate and maintain the Ontario Line Subway System have been thoroughly reviewed, demonstrated and audited, and are capable of securely operating and maintaining a fully integrated Ontario Line Subway System;
 - (iii) the staff of third parties that are authorised to work the Ontario Line Subway, that are neither Project Co Parties or the Contracting Authority, are competent in the security requirements of Subway Rules and Standard Operating Procedures, and have met all the qualifications, training, certification and other policies required to access and work on the Ontario Line Subway System;
 - (iv) the Project Operations has achieved an acceptable level of security and the Project Operations, as an aggregate, deliver a secure integrated system; and
 - (v) all elements are able to support security critical and security related functions in normal, degraded and emergency modes.
- (b) Project Co acknowledges and agrees that:
- (i) the security of System Users is critical and a shared responsibility amongst Project Co, North Civil Project Co, South Civil Project Co, the Security Provider, the Passenger Interface Provider, and other third parties through their respective responsibilities and activities. For clarity, Project Co is only responsible in respect of the Works.
 - (ii) Project Co is obliged to cooperate with all such parties at all times throughout the Project Term to ensure the security and emergency preparedness of the Ontario Subway Line System and System Users;
 - (iii) Project Co shall be responsible for security matters related to the Ontario Line Subway, as detailed in Section 2.1.1 (*Passenger Safety and Security*) of the Output Specifications; and
 - (iv) the Security Provider, operating from the TTC transit control centre at Hillcrest, shall be responsible for all security matters related to System Users as detailed in Section 2.1.1 (*Passenger Safety and Security*) of the Output Specifications.

- (c) Project Co shall establish, implement and maintain a system of security clearance and identification for Project Co personnel, Project Co Parties, the Passenger Interface Provider, and the Security Provider.
- (d) Project Co shall, in accordance with its System Security Submissions Plan and Section 8.5.1, submit to the Contracting Authority a series of System Security Submissions for each System that comprises the Project Operations. As further detailed in Section 8.5, the System Security Submissions are,
 - (i) comprised of the following submission stages that collectively represent the lifecycle of the Project and include the design stage, construction stage, testing and commission stage, and operations stage of the Project:
 - (A) “Approval in Principle Security Submissions”;
 - (B) “System Design Security Submissions”;
 - (C) “Consent to Construct Security Submissions”;
 - (D) “Consent to Test Security Submissions”;
 - (E) “Consent to Operate System Security Submissions”;
 - (F) “Consent to Operate Revenue Service Security Submission”;
 - (ii) for the purpose of demonstrating to the Contracting Authority that Project Co has met its security assurance obligations
- (e) Project Co must receive approval from the Contracting Authority for each System Security Submission before Project Co is permitted to commence the work contemplated in that System Security Submission.
- (f) Project Co shall not,
 - (i) commence detailed design work for any “System” or “Infrastructure” until the Contracting Authority has received and approved all Approval in Principle Security Submissions and System Design Security Submissions related to that “System” or “Infrastructure” as set out in the System Security Submissions Plan unless the Contracting Authority has issued a written derogation to the requirements of this Section 8.1(f)(i) setting out alternative arrangements for commencement of detailed design at Project Co’s risk, in parallel with an Approval in Principle Security Submission or a System Design Security Submission to the Contracting Authority;
 - (ii) commence construction of any “System” or “Infrastructure” until the Contracting Authority has received and approved all Consent to Construct Security Submissions related to that “System” or “Infrastructure” as set out in the System Security Submissions Plan;

- (iii) commence commissioning or testing of any “System” or “Infrastructure” until the Contracting Authority has received and approved all Consent to Test Security Submissions related to that “System” or “Infrastructure” as set out in the System Security Submissions Plan; or
- (iv) commence operations of any “System” until the Contracting Authority has received and approved all Consent to Operate System Security Submissions related to that “System” as set out in the System Security Submissions Plan.
- (v) commence Revenue Service of the Ontario Line Subway System until the Contracting Authority has received and approved the final Security deliverables as set out in the System Security Submissions Plan.

8.2 Chief Security Officer and System Security Officers

- (a) Project Co shall appoint a Chief Security Officer who shall be responsible for the overall security of the Ontario Line Subway and who will be Project Co’s contact for all communications with the Contracting Authority, the System Security Officers, law enforcement and emergency response agencies, and others on security matters related to the Ontario Line Subway System.
- (b) The Chief Security Officer shall be responsible for the delivery of all aspects of security management for the Ontario Line Subway System, including Security Risk Assessment, CPTED and other threat and vulnerability assessments.
- (c) The Chief Security Officer shall be a CPP, or equivalent applicable alternative acceptable to the Contracting Authority, who shall have extensive experience in the field of system security applied in a passenger rail environment, ideally metro or subway, of which at least ten years shall be in an equivalent position in North America with a minimum of four years of Canadian experience.
- (d) Project Co shall provide Contracting Authority with the 24-hour contact information for the Chief Security Officer or, in the event that the Chief Security Officer is unavailable for reasons for which Contracting Authority has been provided advance in notice, the 24-hour contact information of the individual acting in the stead of the Chief Security Officer.
- (e) The North Civil Project Co and South Civil Project Co will each appoint a system security officer (each, a “**System Security Officer**”) who shall be responsible for the security of the systems and infrastructure within their Project delivery and shall be the point of contact for the Chief Security Officer, the Contracting Authority, the other System Security Officer, and others as necessary in respect of the safety and security certification activities.
 - (i) Each System Security Officer shall,
 - (A) be a CPP, or equivalent applicable alternative acceptable to the Contracting Authority, who shall have extensive experience in the field of system security applied in a metro type rail transit environment, in an equivalent position in North America;

- (B) be responsible for the delivery of all aspects of the North Civil Project Co and South Civil Project Co security management function (as applicable to the System Security Officer), including Security Risk Assessment and CPTED; and
- (C) be responsible for supporting the Chief Security Officer in the overall security certification of the Ontario Line Subway System as agreed in the SSSIC.

8.3 Provision of Training To Prescribed Persons

- (a) Project Co shall ensure that any person employed by, or any person acting on behalf of, Project Co or Project Co Parties and who have any of the following duties relating to transport of passengers, as well as the direct supervisors of those persons, undergo security awareness training:
 - (i) operating, maintaining or inspecting equipment or works on the Ontario Line Subway;
 - (ii) controlling the dispatch or movement of equipment, including Trains, for the Ontario Line Subway System;
 - (iii) ensuring the security of equipment and Works for the Ontario Line Subway;
 - (iv) loading or unloading goods to or from Ontario Line Subway equipment;
 - (v) interacting with the public for the purposes of Project Co Services; and
 - (vi) ensuring compliance with its security processes, including those set out in their security plan.
- (b) Pursuant to Section 8.2(a), Project Co shall ensure that security awareness training is provided to the person,
 - (i) within ninety (90) days after the day on which the person initially assumed any of the duties referred to in Section 8.2; and
 - (ii) on a recurrent basis at least once every three years after the day on which the person completed their previous training.
- (c) Project Co shall ensure that until a person responsible for any of the duties referred to in Section 8.2(a) has undergone security awareness training, the person performs their duties under the supervision of a person who has undergone security awareness training.
- (d) Project Co shall ensure that training records are kept for each person who has undergone security awareness training and that the record,
 - (i) is kept up to date;

- (ii) includes the person's name and details of their most recent training, including the date, duration and the title of the training, the delivery method and the name of the provider of the training;
 - (iii) includes the title and the date of any previous security awareness training taken by the person;
 - (iv) is retained for at least two years after the day on which the person ceases to be employed by, or ceases to act on behalf of, Project Co; and
 - (v) is available for audit by the Contracting Authority at any time.
- (e) Project Co shall ensure that a copy of the most recent awareness training materials is kept.

8.4 Security Standards

- (a) Project Co shall carry out its security obligations as set out in this Section 8 and in accordance with the following standards and regulations:
- (i) APTA SS-SIS-S-017-21:2021 Security Risk Assessment Methodology for Public Transit (apart from requirements for response to Terrorist Threats);
 - (ii) ISO 31000 Risk Management – Principles and Guidelines (“**ISO 31000**”);
 - (iii) SOR/2020-222: Passenger Rail Transportation Security Regulations (“**SOR/2020-222**”);
 - (iv) IEC PAS 63325 Lifecycle requirements for functional safety and security for IACS (“**IEC PAS 63325**”);
 - (v) IEC 62676-1 Video Surveillance Systems for use in Security Applications (“**IEC 62676**”); and
 - (vi) ISO 22341 Security And Resilience – Protective Security – Guidelines For Crime Prevention Through Environmental Design (“**ISO 22341**”),
- (collectively, the “**System Security Standards**”).
- (b) Project Co shall use the following standards for reference in their executing their security obligations as set out in this Section 8:
- (i) IEC 15288: Systems and software engineering — System life cycle processes (“**IEC 15288**”)
- (c) Project Co shall use the following documents as guidance where no other Canadian code or standard exists covering the topics of each of these documents:
- (i) NL/L2/OPS/291:2019 Railway Crime Risk Management;
 - (ii) NR/L3/OPS/045/4.01:2019 National Operating Procedure (NOP) 4.01: Evacuation and Security Management of Signalling Locations, Controls, Stations and Trains;

- (iii) NR/L3/OPS/045/4.11:2019 National Operating Procedure (NOP) 4.11: Reporting and Risk Assessing Railway Crime; and
- (iv) NR/L3/OPS/045/4.18:2018 National Operating Procedure (NOP) 4.18: Management of Station Security and Crime.

8.5 System Security Submissions Plan and System Security Submissions

8.5.1 System Security Submissions Plan

- (a) No later than thirty (30) days following Commercial Close, Project Co shall provide to the Contracting Authority, for approval, a detailed plan for System Security Submissions to be made by Project Co (the “**System Security Submissions Plan**”). The System Security Submissions Plan shall include, at a minimum,
 - (i) a detailed description of how Project Co intends to divide the security of the Project Operations into Infrastructure and Systems, a detailed description of what each “System” (fixed infrastructure and rail systems) includes and the components of each piece of Infrastructure item and System, all of which shall be consistent with the System Definition Document;
 - (ii) a detailed explanation of how Project Co intends to meet its obligations as set out in Sections 8.5.1(b) and 8.5.1(c);
 - (iii) a detailed conformance check against the requirements of SOR/2020-222, IEC PAS 63325, IEC 62676 and ISO 22341 that demonstrates how Project Co has met or intends to meet the requirements of these standards and how Project Co has performed the reconciliation exercise set out in Section 6.3(f)(ii);
 - (iv) a table setting out,
 - (A) how many of each type of System Security Submissions (including the Approval in Principle Security Submissions, the System Design Security Submissions, the Consent to Construct Security Submissions, the Consent to Test Security Submissions, the Consent to Operate System Security Submissions and the Consent to Operate Revenue Service Security Submission as described in Section 8.5.2(a) Project Co intends to submit during the Project Term;
 - (B) the date on which Project Co intends to submit each System Security Submission, taking into account the requirements of Section 8.5.1(b); and
 - (C) a summary of the content of each System Security Submission, with references to the “Systems” established by Project Co; and
 - (v) an updated version of Table A- 2 of Appendix A to this Schedule 29 that is extrapolated in accordance with the “Systems” established by Project Co, and that is consistent with Project Co’s planned organization, number and sequence of System Security Submissions.

- (b) Project Co shall ensure that its planned organization, number and sequencing of System Security Submissions, as reflected in the System Security Submissions Plan, is consistent with the progression of the Project and takes into account the lifecycle processes described in IEC 15288, the stages of infrastructure configuration for the Project, and Project Co's progressive assumption of responsibility.
- (c) Project Co shall obtain input from North Civil Project Co and South Civil Project Co as required and agreed at the SSSIC for elements of such Civil Contractor's infrastructure required for the System Security Submissions Plan.
- (d) Project Co shall ensure that,
 - (i) the totality of the planned Approval in Principle Security Submissions, as set out in its System Security Submissions Plan, covers each security, or security impacting component of the Project Operations;
 - (ii) the totality of the planned System Design Security Submissions, as set out in its System Security Submissions Plan, covers each security, or security impacting component of the Project Operations;
 - (iii) the totality of the planned Consent to Construct Security Submissions, as set out in its System Security Submissions Plan, covers each security, or security impacting component of the Project Operations;
 - (iv) the totality of the planned Consent to Test Security Submissions, as set out in its System Security Submissions Plan, covers each security, or security impacting component of the Project Operations;
 - (v) the totality of the planned Consent to Operate System Security Submissions, as set out in its System Security Submissions Plan, covers each security, or security impacting component of the Project Operations; and
 - (vi) the totality of the planned Consent to Operate Revenue Service Security Submissions, as set out in its System Security Submissions Plan, covers each security, or security impacting component of the Project Operations.

8.5.2 System Security Submissions

- (a) Project Co shall, in accordance with the System Security Submissions Plan set out in Section 8.5.1(a), provide the following submissions (each, a "**System Security Submission**") to Contracting Authority for review and approval:
 - (i) one or more submissions for approval in principle, which shall cover all the system and infrastructure definition phases of Project Co Works as laid out in Clause 6.4.2 of IEC 15288 and undertaken by Project Co and include, at minimum, the deliverables noted as Approval in Principle Safety Submissions in Table A- 2 of Appendix A to this Schedule 29, (each, an "**Approval in Principle Security Submission**");

- (A) the requirements developed in this process shall form the Security Requirements Specification submission as described in Section B.3 of Appendix B to this Schedule 29.
- (ii) one or more submissions for approval to finalize detailed designs, which shall cover system and infrastructure design activities of Project Co Works as laid out in Clauses 6.4.3, 6.4.4, 6.4.5 and 6.4.6 of IEC 15288 and undertaken by Project Co and include, at minimum, the deliverables noted as System Design Safety Submissions in Table A- 2 of Appendix A to this Schedule 29, (each, a “**System Design Security Submission**”);
 - (A) the requirements developed in this process shall form the Security Subsystem Requirements Specification submission as described in Section B.4 of Appendix B to this Schedule 29.
- (iii) one or more submissions for consent to construct, which shall cover system and infrastructure requirements activities of Project Co Works as laid out in Clauses 6.4.7 and 6.4.8 of IEC 15288 and undertaken by Project Co and include, at minimum, the deliverables noted as Consent to Construct Security Submissions in Table A- 2 of Appendix A to this Schedule 29 (each, a “**Consent to Construct Security Submission**”);
- (iv) one or more submissions for consent to test, which shall cover system and infrastructure requirements activities of Project Co Works as laid out in Clauses 6.4.7 and 6.4.8 of IEC 15288 and undertaken by Project Co and include, at minimum, the deliverables noted as Consent to Test Security Submissions in Table A- 2 of Appendix A to this Schedule 29 (each, a “**Consent to Test Security Submission**”);
- (v) one or more submissions for consent to operate systems, which shall cover system and infrastructure activities of Project Co Works as laid out in Clauses 6.4.9, 6.4.10 and 6.4.11 of IEC 15288 and undertaken by Project Co and include, at minimum, the deliverables noted as Consent to Operate System Security Submissions in Table A- 2 of Appendix A to this Schedule 29 (each, a “**Consent to Operate System Security Submission**”); and
- (vi) one or more submissions for consent to operate Revenue Service, which shall cover system and infrastructure requirements activities of Project Co Services as laid out in Clauses 6.4.12 and 6.4.13 of IEC 15288 and undertaken by Project Co and include, at minimum, the deliverables noted as Consent to Operate Revenue Service Security Submissions in Table A- 2 of Appendix A to this Schedule 29 (each, a “**Consent to Operate Revenue Service Security Submission**”).
- (b) Each System Security Submission shall be reviewed by the Project Co ISA, and the Project Co ISA shall produce an independent assessment report for each System Security Submission documenting its review of the System Security Submission (the “**Project Co ISA Security Submission Report**”).
 - (i) Project Co shall submit the Project Co ISA Security Submission Report with each System Security Submission to Contracting Authority.

- (c) Upon receipt by Contracting Authority of the System Security Submission and the Project Co ISA Security Submission Report, the Contracting Authority ISA shall conduct a review of the System Security Submission and the Project Co ISA Security Submission Report, and shall submit any requests for clarification to the Project Co ISA no later than five (5) Business Days following the date that Contracting Authority received the System Security Submission and the Project Co ISA Security Submission Report.
 - (i) The Project Co ISA shall respond to requests for clarification within five (5) Business Days of receiving a clarification request from the Contracting Authority ISA.
- (d) The Contracting Authority ISA shall, after reviewing the System Security Submission and the Project Co ISA Security Submission Report, and within fifteen (15) Business Days of receiving the Project Co ISA's responses to its requests for clarification as set out Section 8.5.2(c), recommend to Contracting Authority, with documented rationale in the form of a report, whether to approve or refuse to approve the System Security Submission (the "**Contracting Authority ISA Security Submission Verification Report**").
- (e) No later than five (5) Business Days after receiving the Contracting Authority ISA Security Submission Verification Report, Contracting Authority shall determine whether to approve or reject the System Security Submission.
 - (i) Upon approving each System Security Submission, Contracting Authority shall issue a confirmation of approval to Project Co (the "**Security Confirmation**").
 - (ii) Contracting Authority shall submit the Contracting Authority ISA Security Submission Verification Report(s) to the Independent Certifier for their review in the determination as to whether Project Co has satisfied the conditions of Substantial Completion, as described in Section 3.1(e) (*Role of The Independent Certifier – Engagement*) of Schedule 6 – Independent Certifier Agreement.
- (f) If Contracting Authority elects, in its sole discretion, to reject a System Security Submission, Project Co shall revise the System Security Submission to include changes or additional security measures and shall resubmit the System Security Submission and an accompanying Project Co ISA Security Submission Report and any other documentation as may be required by Contracting Authority, acting reasonably.
- (g) When issuing the final Consent to Operate Revenue Service Security Submission, the Chief Security Officer shall issue a certificate confirming that all security requirements of this Schedule 29 have been met, including conformance with the System Security Standards (the "**System Security Certificate**"). The System Security Certificate confirms that that the Ontario Line Subway System is secure for operation and ready for passenger occupancy. It shall be dated, and signed by the Chief Security Officer, including their CPP (or equivalent) registration number.
- (h) Upon approving the Consent to Operate Revenue Service Security Submission, the Contracting Authority shall issue the Consent to Operate Revenue Service Security Confirmation. The Safety Governing Body shall use the Consent to Operate Revenue Service Security Confirmation as part of its determination to issue the Consent to Operate Revenue Service pursuant to Section 3.2(i).

8.6 Cybersecurity

- (a) Project Co shall comply with the requirements of Section 3.1.20.5 (*Cybersecurity*) of the Output Specifications.
- (b) Project Co shall submit the cybersecurity documentation required in Section 3.1.20.5 (*Cybersecurity*) of the Output Specifications (the “**Cybersecurity Submission**”).
- (c) Each Cybersecurity Submission shall be reviewed by the Project Co ISA, and the Project Co ISA shall produce an independent assessment report for each Cybersecurity Submission documenting its review of the System Security Submission (the “**Project Co ISA Cybersecurity Submission Report**”).
 - (i) Project Co shall submit the Project Co ISA Cybersecurity Submission Report with each Cybersecurity Submission to Contracting Authority.
- (d) Upon receipt by Contracting Authority of the Cybersecurity Submission and the Project Co ISA Cybersecurity Submission Report, the Contracting Authority ISA shall conduct a review of the Cybersecurity Submission and the Project Co ISA Cybersecurity Submission Report, and shall submit any requests for clarification to the Project Co ISA no later than five (5) Business Days following the date that Contracting Authority received the Cybersecurity Submission and the Project Co ISA Cybersecurity Submission Report.
 - (i) The Project Co ISA shall respond to requests for clarification within five (5) Business Days of receiving a clarification request from the Contracting Authority ISA.
- (e) The Contracting Authority ISA shall, after reviewing the Cybersecurity Submission and the Project Co ISA Cybersecurity Submission Report, and within fifteen (15) Business Days of receiving the Project Co ISA’s responses to its requests for clarification as set out Section 8.6(d), recommend to Contracting Authority, with documented rationale in the form of a report, whether to approve or refuse to approve the Cybersecurity Submission (the “**Contracting Authority ISA Cybersecurity Submission Verification Report**”).
- (f) No later than five (5) Business Days after receiving the Contracting Authority ISA Cybersecurity Submission Verification Report, Contracting Authority shall determine whether to approve or reject the Cybersecurity Submission.
 - (i) Upon approving the Cybersecurity Submission, Contracting Authority shall issue a cybersecurity confirmation to Project Co (“**Cybersecurity Confirmation**”).
- (g) If Contracting Authority elects, in its sole discretion, to reject a Cybersecurity Submission, Project Co shall revise the Cybersecurity Submission to include changes or additional cybersecurity measures and shall resubmit the Cybersecurity Submission and an accompanying Project Co ISA Cybersecurity Submission Report and any other documentation as may be required by the Contracting Authority, acting reasonably.

8.7 Security Plan

- (a) Project Co shall, no later than sixty (60) days following Financial Close submit to Contracting Authority a security plan (the “**Security Plan**”) that contains measures to be taken to detect, identify, prevent, mitigate, respond to and recover from acts, or attempted acts, of unlawful interference with the Ontario Line Subway System.
- (b) The Security Plan shall include a risk management strategy that addresses the risks, prioritized as medium or higher in the most recent Security Risk Assessment, and all other risks that require remedial action and additional safeguards that are intended to mitigate heightened risk conditions in a graduated manner.
- (c) The Security Plan shall be comprised of five (5) parts as described in Appendix B to this Schedule 29:
 - (i) the System Security Plan;
 - (ii) the Passenger Station Security Plan;
 - (iii) the OMSF Security Plan;
 - (iv) the Guideway and Tunnel Security Plan; and
 - (v) the Shared Infrastructure Security Plan.
- (d) Project Co shall:
 - (i) make available to each person who is responsible for implementing the Security Plan the portions of the Security Plan that are relevant to the duties of that person;
 - (ii) review the Security Plan at least once every twelve months;
 - (iii) amend the Security Plan if it does not reflect the most recent Security Risk Assessment;
 - (iv) amend the Security Plan if deficiencies that could adversely impact the security of Passenger transportation are identified in the Security Plan, including those identified during the Security Exercises;
 - (v) conduct a comprehensive review of the Security Plan within three years after the day on which the current Security Plan was approved by the Contracting Authority
 - (vi) notify the persons referred to in Section 8.7(d)(i) of any amendments to the relevant portions of the Security Plan; and
 - (vii) provide a copy of the updated Security Plan following its review and amendment within fourteen (14) calendar days of completion of a review.
- (e) Project Co shall ensure that persons employed by or acting on behalf of Project Co and who are responsible for the development and implementation of the Security Plan or any portion of it and any other person with security-related duties for whom the training is considered necessary to ensure the effective implementation of the Security Plan is provided with training on the Security Plan,

- (i) within ninety (90) days after the day on which those persons assume their duties; and
 - (ii) on a recurrent basis at least once every three years after the day on which those persons completed their previous training.
- (f) Project Co shall ensure that on completion of the Security Plan training, participants in the Security Plan training have the knowledge and skills required to carry out their duties.
- (g) Project Co shall ensure that if the Security Plan is amended in such a way that significantly affects the security duties of a person referred to in Section 8.7(d)(i), within thirty (30) days after the day on which the amendments are implemented, the person is provided with training on the amendments to the Security Plan.
- (h) Project Co shall keep a training record for each person who has undergone the Security Plan training, and must ensure that the record:
- (i) is kept up to date;
 - (ii) contains the person's name and details of the most recent Security Plan training they received, including the date, duration and title of the training and the components of the Security Plan that were covered;
 - (iii) contains the title and the date of any previous Security Plan training taken by the person; and
 - (iv) is retained for at least two years after the day on which the person ceases to be employed by, or ceases to act on behalf of Project Co.
- (i) Project Co shall ensure that a copy of the most recent training materials is provided to Contracting Authority within seven calendar days of such training materials being revised.

8.8 Reporting of threats and security concerns

- (a) Project Co shall report to Security Provider and Contracting Authority by any direct means of communication any threat or security concern that results or may result in interference with the Ontario Line Subway System or that affects System Users. The report shall be made immediately, but not later than five (5) minutes after the occurrence of the threat or other security concern. Threats and security concerns include:
- (i) any interference with Project Co Services or service personnel;
 - (ii) any bomb threats, either specific or non-specific;
 - (iii) any report or discovery of a suspicious item;
 - (iv) any suspicious activity observed on, inside or near the Ontario Line Subway;
 - (v) the discovery, seizure or discharge of a weapon, explosive substance (not explicitly used for maintenance of the Ontario Line Subway) or incendiary device (not explicitly used for maintenance of the Ontario Line Subway) on, inside or near the

- Ontario Line Subway or equipment used in the performance of the Works or Project Co Services;
- (vi) any sign of tampering with equipment or Works on, inside or near the Ontario Line Subway;
 - (vii) any information relating to the possible surveillance of equipment, Works or Project Co Services related to the Ontario Line Subway System; and
 - (viii) any suspicious person, circumstance or object that Project Co considers to be a threat or other security concern.
- (b) When reporting a threat or a security concern pursuant to Section 8.4(a), Project Co shall provide the following information to the extent that such information is known:
- (i) the name of the person making the report on behalf of Project Co and the person's title and contact information, including their telephone number and e-mail address;
 - (ii) identification information for any Train that is affected by the threat or other security concern, including its line position;
 - (iii) any information that identifies any Ontario Line Subway equipment or works that is affected by the threat or other security concern;
 - (iv) a description of the threat or other security concern, including the date and time that Project Co became aware of it;
 - (v) the names of the persons involved in the threat or other security concern, and any other information related to those persons, if the disclosure of those names and that information is permitted under Applicable Law; and
 - (vi) the source of any threat information or other security concern, if its disclosure is permitted under Applicable Law.
- (c) In the event that any information referred to in Section 8.4(b) is not known at the time of initial reporting, Project Co shall ensure that the information is reported to Security Provider as soon as it becomes known.
- (d) The Security Provider shall, by any direct means of communication, notify Project Co of any threat or security concern that results or may result in interference with the Ontario Line Subway System or that affects System Users.

8.9 Security Risk Assessment

- (a) Project Co shall conduct a security risk assessment (the “**Security Risk Assessment**”) of the Ontario Line Subway System that identifies, describes, assesses, and prioritizes security risks and that:
- (i) is developed using APTA SS-SIS-S-017-21;

- (ii) is developed using ISO 31000;
- (iii) is developed using ISO 22341;
- (iv) is developed using SOR/2020-222;
- (v) is based on the following elements:
 - (A) current and emerging security threats, including security threat information received from the Contracting Authority, or the Security Provider, or from a municipal, provincial or federal government department or agency;
 - (B) operations, equipment, Works, and other assets that are deemed critical and that require protection from acts and attempted acts of unlawful interference with Passenger transportation;
 - (C) security vulnerabilities, including those identified during daily operations, in security reports made pursuant to Section 8.8, during security inspections carried out pursuant to Section 8.11 and during Security Exercises; and
 - (D) potential impacts, including a decrease in public safety and security, loss of life, damage to property or the environment, disruption of rail transportation and financial and economic loss.
- (vi) identifies, for each risk, the likelihood that the risk will occur and the severity of the impact that it could have if it occurs; and
- (vii) identifies potential safeguards intended to mitigate the risks identified.
- (b) Project Co shall submit a report of the Security Risk Assessment (the “**Security Risk Assessment Report**”) to Contracting Authority within thirty (30) days after the day on which the assessment is completed, and the Security Risk Assessment Report must indicate the date upon which the Security Risk Assessment was completed and include all information set out in Section 8.9(a) and in Section B.5 of Appendix B to this Schedule 29.
- (c) Project Co shall undertake a Security Risk Assessments over the duration of the Project Term and no less frequently than once every three years. Project Co shall submit a Security Risk Assessment Report for each Security Risk Assessment in accordance with Section 8.9(b).
- (d) Notwithstanding Section 8.9(c) Project Co shall review its Security Risk Assessment within seven calendar days after the day on which,
 - (i) there is a change in circumstances that is likely to adversely affect Passenger transportation security;
 - (ii) a threat, or an immediate threat, to Passenger transportation security that is not described in the assessment is identified by the Contracting Authority, or the Security Provider or a municipal, provincial or federal government department or agency; or

- (iii) Project Co identifies a significant vulnerability that is not described in the Security Risk Assessment.
- (e) Project Co shall submit to Contracting Authority a report of any review of its Security Risk Assessment undertaken pursuant to Section 8.9(d) within seven (7) calendar days of completing such a review (the “**Security Risk Assessment Review Report**”). The requirements for the Security Risk Assessment Review Report are detailed in Section B.6 of Appendix B to this Schedule 29.
- (f) Project Co shall carry out these security risk assessments using a combination of design reviews, site / location visits, a review of historical incident data and an approved physical security risk assessment software package as well as factoring in the most current Transport Canada Threat Context Statement
- (g) When applying explicit Risk estimation in accordance with any of the Safety and System Assurance Standards, Project Co shall reduce Risks to as low as reasonably practicable (ALARP), such that the costs of implementing additional Risk reduction measures would be grossly disproportionate to the benefits of Risk reduction that would be achieved.
- (h) Project Co shall determine:
 - (i) an overall likelihood rating for each identified and defined threat;
 - (ii) an overall consequence or severity rating for each identified and defined threat; and
 - (iii) an overall risk rating for each identified and defined threat calculated by using these two ratings.
- (i) Project Co shall use the risk matrix provided in Table 1: Security Risk Matrix below to define the overall risk rating for any identified risk:

Table 1: Security Risk Matrix (from APTA-SS-SIS-S-017-21)

Potential Consequences or Severity	Likelihood				
	Almost Certain A	Highly Likely B	Likely C	Possible D	Remote E
Catastrophic 1	Very High 1A	Very High 1B	High 1C	High 1D	Moderate 1E
Significant 2	Very High 2A	High 2B	High 2C	Moderate 2D	Moderate 2E
Moderate 3	High 3A	High 3B	Moderate 3C	Moderate 3D	Low 3E
Minor 4	Moderate 4A	Moderate 4B	Moderate 4C	Low 4D	Very Low 4E
Low/Negligible 5	Low 5A	Low 5B	Low 5C	Very Low 5D	Very Low 5E

8.10 Security Log

- (a) Project Co shall track the security risks identified in Section 8.9 from identification through resolution using an electronic log that shall include identified security risks, their related measures, their origin and the entity which is obliged to manage them (the “**Security Log**”).
- (b) Project Co shall be responsible for compiling and managing the Security Log according to the requirements set out in Section B.2 of Appendix B to this Schedule 29.
- (c) Civil Contractors shall provide input to Project Co in compiling the Security Log as required and agreed in the SSSIC.
- (d) Security Provider shall provide input to Project Co in compiling the Security Log as required and agreed with Contracting Authority.
- (e) Project Co shall ensure that all Security Logs are established with an independent, secure, electronic database.
 - (i) The Security Log shall be subject to sensitive information protocols and securely protected.
- (f) Project Co shall identify the person responsible for day-to-day management of all Security Logs.
 - (i) The person responsible for day-to-day management shall be cleared to handle sensitive information and independent from the roles who verify implementation of mitigations and countermeasures.

8.11 Security Inspections

- (a) Project Co shall establish, document and submit to Contracting Authority, a process with respect to security inspections (the “**Security Inspection Procedure**”) as described in Section B.9 of Appendix B to this Schedule 29.
- (b) In order to ensure that there are no security concerns related to the transportation of Passengers, Project Co shall ensure that security inspections consist of both ground-level visual inspection of the exterior of the Train and an inspection of the interior of each Car, and such inspections are carried out in accordance with the approved Security Inspection Procedure.
- (c) Project Co shall ensure that security inspections are carried out for each Train before the Train enters service from the OMSF yard or other storage location. In all cases, the inspection must be carried out before passengers board the Train.
- (d) If additional security inspections are required pursuant to Section 8.5.1(a)(iii), Project Co shall ensure such additional inspections are carried out after the train enters service for the day.

- (e) When the security inspection is carried out before passengers board the Train, Project Co shall ensure that the Train is protected from unauthorized interference from the start of the security inspection until Passengers board the Train.
- (f) If signs of tampering or the presence of a suspicious object or any other thing that raises security concerns is discovered during the security inspection, Project Co shall determine whether security has been compromised. If it is determined that security has been compromised, Project Co shall notify the Contracting Authority and ensure that the situation is resolved before allowing the Train to enter into service.
- (g) Project Co shall keep a record of each security inspection and ensure that the record contains the following information:
 - (i) the time and date of the inspection;
 - (ii) the information identifying the Train that was inspected;
 - (iii) the name of the person who conducted the inspection;
 - (iv) the details of any signs of tampering, suspicious objects or other things that raise security concerns; and
 - (v) the measures taken to resolve the situation, if the company determined that security was compromised.
- (h) Project Co shall retain the record for three years after the day on which the security inspection is conducted.

8.12 Remedial Action

- (a) Project Co shall develop a plan (the “**Remedial Action Plan**”) that describes the approach to developing and implementing remedial actions in response to identified security risks and threats as described in Section B.7 of Appendix B to this Schedule 29.
- (b) Project Co shall implement the remedial actions and additional safeguards identified in the Remedial Action Plan in accordance with the Security Plan.
- (c) Project Co shall evaluate the effectiveness of each remedial action that has been implemented in reducing or eliminating risks.
- (d) Project Co shall establish timelines for implementing each remedial action and for evaluation of its effectiveness in reducing or eliminating the risks.
- (e) If the remedial action is not effective in reducing or eliminating some of the risks, Project Co shall identify additional remedial actions or a new remedial action to address those risks.
- (f) The Remedial Action Plan shall be updated any time a new risk or threat is identified through the Security Risk Assessment process (see Section 8.9), or immediately following

the completion of a Security Exercise (see Section 8.13), or following review of the effectiveness of remediation attempts (see Section 8.12(e)).

8.13 Security Exercises

- (a) Project Co shall carry out discussion-based security exercises (each, a “**Security Exercise**”) at least once every year during the Project Term in order to address acts or attempted acts of unlawful interference with Ontario Line Subway System and its operations.
- (b) Project Co shall agree on the security risk scenario to be tested with the Contracting Authority prior to commencement of detailed planning.
- (c) The Security Exercise shall test the effectiveness of the Security Plan with respect to:
 - (i) the elements of the risk management strategy that are relevant to the scenario selected for the exercise;
 - (ii) the additional safeguards set out in the Security Plan that are relevant to the scenario selected for the exercise; and
 - (iii) the process for responding to security threats or other security concerns.
- (d) Project Co shall ensure, to the extent possible, that persons with security duties that are relevant to the scenario selected for the Security Exercise participate in the Security Exercise.
- (e) Project Co shall invite the Contracting Authority, Security Provider and Emergency Service Providers to participate, if their participation is relevant to the scenario.
 - (i) During the Construction Period only, the Civil Contractors shall also be invited to attend.
- (f) Project Co shall create a record of each Security Exercise carried out and submit a report of the Security Exercise to Contracting Authority within thirty (30) days of the date of the Security Exercise (the “**Security Exercise Report**”).
- (g) Requirements for the Security Exercise Report are described in Section B.8 of Appendix B to this Schedule 29. The Security Exercise report shall be subject to sensitive information protocols and securely protected.
- (h) Project Co shall ensure the record of each Security Exercise is retained for three years after the date of the Security Exercise.
- (i) Project Co shall implement any action to address deficiencies identified during the Security Exercise that could adversely impact the security of Passenger transportation. This shall include,
 - (i) update of the Security Plan;

- (ii) update of the Security Risk Assessment and Security Risk Assessment Report; and
- (iii) update of the Remedial Action Plan.

APPENDIX A TO SCHEDULE 29

SCHEDULE OF SAFETY DELIVERABLES FOR SYSTEM ASSURANCE SUBMISSIONS

APPENDIX B TO SCHEDULE 29

A. SYSTEM ASSURANCE DELIVERABLE REQUIREMENTS

A.1 System Safety Plan Requirements

- (a) The System Safety Plan shall comply with the requirements of all parts of EN 50126 and shall, notwithstanding any other provision of this Schedule 29 include the following minimum requirements:
- (i) a description of the policy and strategy for achieving safety;
 - (ii) a description of the scope the plan applies to (note that reference can be made to the System Definition Document), including all Works and Project Co Services;
 - (iii) a description of the proposed organization roles with responsibility for safety management, with summary evidence of the competence of persons holding such roles;
 - (iv) an overview of the planned lifecycle for projects and the related safety activities;
 - (v) a description of the process for the safety approval of Systems being placed into service, including the interface to the Contracting Authority;
 - (vi) a description of the process for the maintenance of safety-related documentation (i.e. document control);
 - (vii) a description of the process for management of the Hazard Record/Log;
 - (viii) a description of arrangements for tracking Hazards and Safety Requirements transferred between Systems or to other entities;
 - (ix) a description of the constraints and assumptions made in the Ontario Line Subway System Safety Plan;
 - (x) a description of Subcontractor management arrangements; and
 - (xi) a description of the process for periodic safety audit, safety assessment, and safety review throughout the lifecycle.

A.2 System Definition Document Requirements

- (a) The System Definition Document shall include the following content, organized into distinct sections:
- (i) an executive summary, which includes the intended purpose of the Project;
 - (ii) an overview of the Ontario Line Subway System, including:

- (A) geographical scope;
- (B) technology; and
- (C) key features;
- (iii) an overview of the interfaces to the Adjacent Railway Systems, including:
 - (A) geographical scope;
 - (B) technology; and
 - (C) key features;
- (iv) a description of the scope of the Project Operations of the Ontario Line Subway System;
- (v) a description of the scope and significance of the Project Operations which summarizes the major changes planned to Adjacent Railway Systems;
- (vi) a description of the scope of the services provided by third party agencies;
- (vii) a description of the function and constituent Subsystems, including a description of,
 - (A) the Subsystem and Subsystem functions;
 - (B) long-term operating and maintenance strategies and conditions;
 - (C) Subsystem life-time considerations; and
 - (D) any logistic considerations;
- (viii) a description of the System boundaries for the Systems for which individual System Assurance Submissions shall be made, including:
 - (A) geographical boundaries;
 - (B) technological Subsystems;
 - (C) interfaces and interactions with the physical environment;
 - (D) interfaces and interactions with other duty-holders; and
 - (E) the alignment of the System to the Works Submittals, as applicable;
- (ix) operational requirements, including:
 - (A) modes of operation including external requirements;

- (B) system operating conditions and constraints;
- (C) system maintenance conditions; and
- (D) logistic support conditions;
- (x) a description of how Safety Measures and requirements will be managed by the Project, including:
 - (A) influences on operations and maintenance personnel; and
 - (B) influences on Passengers and the public;
- (xi) for each System described by Project Co in accordance with Section A.2(a)(viii) that impacts existing Adjacent Railway Systems, a summary of the significance of the change under the CMREA and a description of the application of the six CMREA significance criteria, including:
 - (A) additionality, including a description of whether the change is related (for example, functionally or geographically) to any other change such that they should be considered as a single change;
 - (B) failure consequences, specifically the credible worst-case scenario in the event of a failure of the change introduced to the System (taking into account the existence of safety barriers or controls outside the System);
 - (C) novelty and complexity, specifically what features of the changes to the System would be considered novel and/or complex in the context of the subway infrastructure (including any innovative products, novel product applications, standards deviations, or anything else that affects the System safety risk profile);
 - (D) monitoring and reversibility, specifically if the System can be monitored to give early warning failure and if the System can be practically reverted to the state of the System before the changes (note that most changes on the subway are not reversible); and
 - (E) a conclusion as to whether the change is significant and a summary of the rationale for the conclusion.

A.3 RAM Plan

- (a) The RAM Plan shall include the following minimum requirements:
 - (i) the management of the following:
 - (A) the system lifecycle and RAM tasks and processes to be undertaken within the lifecycle;

- (B) a Failure Reporting and Corrective Action System (FRACAS) to be applied to the various Systems, with records including technical data, maintenance action, and reporting and Corrective Action;
 - (C) all RAM related deliverables from the lifecycle;
 - (D) all RAM acceptance tasks;
 - (E) the constraints and assumptions made in the RAM Plan; and
 - (F) Subcontractor management arrangements;
- (ii) the management of reliability, including:
 - (A) reliability analysis and prediction;
 - (B) reliability planning;
 - (C) reliability testing; and
 - (D) reliability data acquisition and assessment;
 - (iii) the management of availability, including:
 - (A) availability analysis and prediction;
 - (B) availability planning; and
 - (C) availability data acquisition and assessment; and
 - (iv) the management of maintainability, including:
 - (A) maintainability analysis and prediction;
 - (B) maintainability planning;
 - (C) maintainability data acquisition and assessment; and
 - (D) logistic support evaluation.

A.4 Hazard Record/Log

- (a) The Hazard Record/Log shall be structured such that:
 - (i) all causes are mapped to Hazards;
 - (ii) all Hazards are mapped to consequences;
 - (iii) all mitigation measures are mapped to:

- (A) causes, if the measure is acting to prevent causes from happening or to minimize the probability of occurrence of causes;
- (B) Hazards, if acting to prevent Hazards from giving rise to consequences or minimizing the frequency of occurrence of the Hazards; and/or
- (C) consequence, if acting after the consequences happen to reduce the severity of the consequence;
- (iv) mitigations measures are recorded in the Hazard Record/Log as part of the analysis; and
- (v) mitigations measures become Safety Requirements for Project Co to implement.
- (b) The Hazard Record/Log should include information about the System it relates to and any assumptions or limitations about scope.
- (c) Each entry in the Hazard Record/Log in respect of Hazards shall include the following:
 - (i) unique reference number;
 - (ii) name or description of the Hazard;
 - (iii) related system elements, interfaces, and/or functions;
 - (iv) location or area of the Hazard;
 - (v) discipline and Hazard owner;
 - (vi) source of identification;
 - (vii) related lifecycle phase;
 - (viii) status for each project lifecycle stage from the following options:
 - (A) “Open” – a newly identified Hazard;
 - (B) “Resolved” – Safety Requirements have been identified for the Hazard;
 - (C) “Managed” – the Safety Requirements have been accepted by the responsible parties;
 - (D) “Transferred” – the responsibility for the Hazard has been transferred to another System or party; or
 - (E) “Cancelled” – the Hazard is no longer applicable;
 - (ix) related consequence(s)
 - (x) related cause(s);

- (xi) related mitigation measures;
 - (xii) related Safety Requirements;
 - (xiii) related closure assurance evidence; and
 - (xiv) related assumptions.
- (d) Each entry in the Hazard Record/Log in respect of causes shall include the following information:
- (i) unique reference number;
 - (ii) name or description of the cause;
 - (iii) related system elements or interfaces;
 - (iv) location or area of the cause;
 - (v) related Hazard(s);
 - (vi) related mitigation measures;
 - (vii) related Safety Requirements;
 - (viii) related closure assurance evidence; and
 - (ix) related assumptions.
- (e) Each entry in the Hazard Record/Log in respect of consequences shall include the following information:
- (i) unique reference number;
 - (ii) name or description of the consequence;
 - (iii) exposed parties;
 - (iv) where explicit Risk estimation has been used as the Risk Assessment principle, the outcomes of the qualitative or quantitative assessment, including initial and residual Risk for each related consequence;
 - (v) related Hazards;
 - (vi) related mitigation measures;
 - (vii) related Safety Requirements;
 - (viii) related closure assurance evidence; and
 - (ix) related assumptions.

- (f) Each entry in the Hazard Record/Log in respect of mitigation measures shall include the following information:
 - (i) which of the three Risk Assessment principles, in accordance with the CMREA, is being used;
 - (ii) any related Safety Measures;
 - (iii) any related actions to be implemented;
 - (iv) any related Safety Requirements;
 - (v) any related Hazards, causes, or consequences;
 - (vi) any related assumptions; and
 - (vii) any related assurance evidence.

- (g) Each entry in the Hazard Record/Log in respect of safety measures to be addressed as part of a different System shall include the following information:
 - (i) unique reference number;
 - (ii) description of the exported safety constraints;
 - (iii) persons at risk;
 - (iv) possible control measures;
 - (v) constraints;
 - (vi) owner(s); and
 - (vii) Risk transmission.

- (h) Where actions in the Hazard Record/Log are allocated to individuals instructing them to undertake work to either better understand or provide mitigation for the Risk arising from Hazards, each action entry shall include the following information:
 - (i) unique reference number;
 - (ii) actionee name;
 - (iii) description of the action required;
 - (iv) deadline date;
 - (v) completion date;
 - (vi) status of the action, from among the following:

(A) “Open” – if the action has not yet been implemented;

- (B) “Conditionally Closed” – if it is certain that the action will be implemented;
 - (C) “Closed” – if the action has been implemented;
 - (D) “Transferred” if the responsibility for the action has been transferred and accepted by Contracting Authority, Adjacent Railway Systems, Passenger Interface Providers, Security Provider, Interchange Station Service Provider, Third Party Contractors or Additional Contractors; or
 - (E) “Cancelled” if the action is no longer applicable; and
- (vii) details of the actionee responses and any other supporting information to justify closure of the actions.
- (i) The Hazard Record/Log shall be continually reviewed and updated throughout the project and any changes to the Hazard Record/Log shall be recorded, and include the following information:
- (i) date;
 - (ii) Hazard Record/Log version number;
 - (iii) author of the change;
 - (iv) the type of review undertaken;
 - (v) reference to any associated minutes from meetings related to the Hazard Record/Log review activity; and
 - (vi) a summary of the nature of the changes made to the Hazard Record/Log.

A.5 Safety Requirements Specification Requirements

- (a) The Safety Requirements Specification shall comply with the requirements of all parts of EN 50126 and include the following:
- (i) description of functional requirements (i.e. what the System must do to be safe and how effective the System needs to be), including:
 - (A) safety-related function;
 - (B) tolerable Hazard rates or tolerable functional failure rates (for quantitative requirements), considering:
 - (C) definition of safe states;
 - (D) definition of maximum permitted time to enter a safe state; and
 - (E) failure detection measures of facilities or devices;

- (ii) contextual requirements, including:
 - (A) safety-related assumptions such as effectiveness (for example, probability of failure on demand, per hour, etc.) of mitigation barriers (for example, protection systems and redundancies);
 - (B) environmental conditions;
 - (C) organizational rules;
 - (D) operational rules; and
 - (E) maintenance rules; and
- (iii) technical requirements, including:
 - (A) requirements resulting from the Hazard analysis;
 - (B) any legal Safety Requirements; and
 - (C) adaptation requirements for System interfaces.

A.6 Independent Safety Assessment Plan Requirements

- (a) The Independent Safety Assessment Plan shall comply with the requirements of EN 50126-2 and include the following:
 - (i) the remit, including the objective and scope, of the independent safety assessment activities;
 - (ii) detail of the activities throughout the independent safety assessment process and their link to engineering or operational activities, including activities that,
 - (A) ensure the Independent Safety Assessor has a thorough understanding of the Project, the Project Operations and Project Co deliverables based on the documentation provided by Project Co;
 - (B) involve an assessment of the processes to be used by Project Co for managing safety and quality during the design and implementation of any significance change; and
 - (C) involve an assessment of the application of those safety quality processes during the design and implementation of the Significant Change;
 - (iii) statements on pass / fail criteria and how to deal with non-conformance cases;
 - (iv) requirements with regard to content and form of the independent safety assessment documentation, with observations categorized as follows:

- (A) “Category 1” – must be addressed before the System enters service or before a document is used further;
 - (B) “Category 2” – must be addressed within a reasonable time, but the System can enter service in the meantime (possibly with mitigating measures); or
 - (C) “Category 3” – minor comments such as typographical errors; and
- (v) arrangements for tracking closure of observations.
- (b) The Independent Safety Assessment Plan shall include the following minimum documents to be assessed:
 - (i) System Safety Plan;
 - (ii) documentation related to Hazard Identification;
 - (iii) Hazard Record/Log;
 - (iv) Safety Requirements Specification;
 - (v) System Safety Case; and
 - (vi) Engineering Safety and Assurance Case.
 - (c) Notwithstanding Section A.6(b) of this Appendix B to this Schedule 29, the Independent Safety Assessor shall include additional activities (for example, witnessing project activity and performing independent analysis) and document reviews where such activities and document reviews would be beneficial to arriving at a conclusion regarding safety and system assurance.

A.7 Hazard Analysis Report

- (a) The Hazard Analysis Report shall document the outcomes of the Risk Assessment activity that has been undertaken and the results of the various techniques used to assess Hazards, including,
 - (i) Hazard identification workshops;
 - (ii) historical event analysis;
 - (iii) Hazard and operability studies;
 - (iv) failure modes effects and criticality analysis (FMECA);
 - (v) interface Hazard analysis;
 - (vi) zonal analysis;
 - (vii) operating and support Hazard analysis; and

- (viii) common cause failure analysis.
- (b) The Hazard Analysis Report shall include the following minimum requirements:
 - (i) an introduction that includes the purpose of the Hazard analysis activities, their scope, and details about the participants of such activities and the authors of the report to demonstrate suitable competence;
 - (ii) a summary comprised of an overview of the Hazards and the responsible actors;
 - (iii) the methods used for the Hazard analysis, including:
 - (A) Hazard Identification;
 - (B) Hazard classification;
 - (C) Risk Acceptance Criteria; and
 - (D) Safety Requirements identified; and
 - (iv) any further actions required to ensure closure of all identified Hazards.

A.8 Safety Validation Report

- (a) The Safety Validation Report shall comply with the requirement of EN 50126-1 and include the following minimum content:
 - (i) identification and name of:
 - (A) the System under consideration;
 - (B) the documents and other items used for the validation;
 - (C) the processes, technical support tools, and equipment used, along with calibration data; and
 - (D) the simulation models used, if any;
 - (ii) confirmation that the process and activities defined in the Safety Validation Report have been met, with any deviations from the Safety Validation Report recorded and justified;
 - (iii) evaluation of the performance and coverage of requirements tracing in development and verification;
 - (iv) confirmation that the development and verification have handled Corrective Actions in accordance with the change management process and procedures with clearly identified deviations;

- (v) evaluation of the coverage of the Safety Requirements for the system under consideration by the tests and/or analyses;
- (vi) identification of the tests defined and executed by the validator, if any;
- (vii) evaluation of the correctness, consistency and adequacy of the qualification according to the required technology-related standards; and
- (viii) conclusion of the validation results and whether the System under consideration fulfills the Safety Requirements for its intended use in the defined environment.

A.9 RAM Analysis Report

- (a) The RAM Analysis Report shall document the outcomes of the RAM assessment activity that has been undertaken and the results of the various techniques used to assess reliability, availability and maintainability, including:
 - (i) an outline of the planning of the specific RAM analysis tasks for each phase of the lifecycle as required in section 7 of EN 50126-1;
 - (ii) reliability analysis activity per system;
 - (iii) availability analysis activity per system;
 - (iv) maintainability analysis per system; and
 - (v) failure modes effects and criticality analysis per system.

A.10 RAM Validation Plan

- (a) The RAM Validation Plan shall:
 - (i) outline the specific validation tasks and deliverables for each phase of the system lifecycle.
 - (ii) provide justification of the validation strategy chosen. The justification should be prepared in conjunction with the business unit and must include the following:
 - (A) Testing strategy;
 - (B) Acceptance of the test strategies by the one(s) conducting the testing;
 - (C) Witness (including extent) of the test strategy.
 - (iii) outline the steps necessary to demonstrate the adequacy of the specification of the system in fulfilling the requirements.
 - (iv) define the following for each subsystem and piece of equipment:
 - (A) The techniques and measures to be used.

- (B) The test and analysis to be used and the reporting required.
 - (C) Management of the deviations between expected and actual results of the analysis.
 - (D) Management of non-compliances and safety constraints arising from any deviations.
 - (E) Management of conditions and constraints that arise from the deviations, and how they will be considered in the next lifecycle tasks.
- (v) ensure the steps necessary for the analysis are both adequate and complete in order to fulfil the RAM requirements.

A.11 RAM Validation Report

- (a) The RAM Validation Report shall comply with the requirement of EN 50126-1 and include the following minimum content:
- (i) an outline of the planning of the specific validation tasks for each phase of the lifecycle as required in section 7 of EN 50126-1;
 - (ii) identification and name of:
 - (A) the System under consideration;
 - (B) the documents and other items used for the validation;
 - (C) the processes, technical support tools and equipment used, along with calibration data; and
 - (D) the simulation models used if any;
 - (iii) a summary justification of the validation strategy chose, including consideration of:
 - (A) testing and analysis strategy;
 - (B) acceptance of proposed test strategies by the test entity; and
 - (C) witness and coverage of the test strategy;
 - (iv) confirmation that the processes and activities defined in the RAM Validation Plan have been met, with any deviations from the RAM Validation Plan recorded and justified;
 - (v) evaluation of the performance and overage of requirements tracing in development and verification;

- (vi) confirmation that the development and verification have handled Corrective Actions in accordance with the change management process and procedures with clearly identified deviations;
- (vii) evaluation of the coverage of the Safety Requirements for the system under consideration by the tests and/or analyses;
- (viii) identification of the tests defined and executed by the validator, if any;
- (ix) evaluation of the correctness, consistency and adequacy of the qualification according to the required technology-related standards;
- (x) conclusion of the validation results and whether the System under consideration fulfills the Safety Requirements for its intended use in the defined environment; and
- (xi) the steps necessary to demonstrate the adequacy of the specification of the System, Subsystem, and equipment to be validated in fulfilling the requirements for the System, Subsystem, and equipment, respectively, including:
 - (A) the techniques and measures used;
 - (B) the test and/or analyses used and how their results will be reported;
 - (C) management of deviations between expected and actual results of the tests and/or analyses;
 - (D) management of non-compliance and safety constraints arising from the deviations;
 - (E) management of conditions and constraints derived from the deviations, and how they will be considered in the next lifecycle tasks in terms of the impact on the future lifecycle tasks and traceable to the deviations; and
 - (F) the steps necessary to demonstrate the adequacy of the tests and/or analysis as a complete set of tests and/or analyses, with which the fulfillment of the requirements related to a System, Subsystem, and/or component can be demonstrated; and
 - (G) the steps for identification and management of non-fulfillment of requirements and deviations.

A.12 FRACAS Report

- (a) The FRACAS Report shall provide information and feedback regarding failures and defects and their causes found during operational service, and shall include the following minimum requirements:
 - (i) time of failure;

- (ii) cause of failure (this may need to be completed following an investigation);
- (iii) detailed description of the failure;
- (iv) Corrective Action taken;
- (v) safety ranking for the failure;
- (vi) when and how the failures and defects have been detected (for example, in operation or during scheduled maintenance);
- (vii) the effects of the failures and defects up to the Ontario Line Subway System level;
- (viii) the effect, if any, on existing subway and railway systems
- (ix) determination of whether any improvement is required, including to the following:
 - (A) operation and maintenance procedures and manuals;
 - (B) System training documentation;
 - (C) operational Hazard Record/Log;
 - (D) System design; or
 - (E) human factors aspects of operation and maintenance.
- (b) The FRACAS Report shall include a categorization of failures and defects for both safety and reliability for varying levels of severity and criticality.

A.13 SIL Apportionment Report

- (a) Safety requirements shall be expressed in terms of SILs, as described by EN 50126-2 and EN 50129.
- (b) The SIL Apportionment Report shall define system safety requirements that will ensure the safe operation of the Ontario Line Subway System by providing a rigorous methodology for SIL apportionment by:
 - (i) assigning the SIL to safety related functions identified by the Hazard Analysis performed for all PHA hazards; and
 - (ii) providing the apportionment of the SIL to the Ontario Line Subway System.
- (c) The Report shall include:
 - (i) the process used to determine the Safety Function;
 - (ii) the calculations to determine the Tolerable Hazard Rate and Tolerable Functional Failure Rate; and

- (iii) the calculations to apportion the required Safety Integrity Level to each System.

A.14 Safety and Security Critical Items List

- (a) The Safety Critical Items List shall contain:
 - (i) all items that have been identified through analysis as performing a safety function or a safety related function; and
 - (ii) all items that have been identified through analysis as being safety certifiable in their own right.
- (b) The Security Critical Items List shall contain:
 - (i) all items that have been identified through analysis as performing a security function or a security related function; and
 - (ii) all items that have been identified through analysis as being security certifiable in their own right.

A.15 Reliability Critical Items List

- (a) The Reliability Critical Items List shall contain:
 - (i) all items that have been identified through analysis as having a significant impact on, or critical to, the reliability of the Ontario Line Subway System;
 - (ii) all items that have been identified through analysis as having a significant impact on, or critical to, the availability of the Ontario Line Subway System; and
 - (iii) all items that have been identified through analysis as having a significant impact on, or critical to, the maintainability of the Ontario Line Subway System.

B. SYSTEM SECURITY DELIVERABLE REQUIREMENTS

B.1 Security Plan Requirements

B.1.1 The Security Plan shall contain the five (5) sections listed below:

- (a) the System Security Plan;
- (j) the Passenger Station Security Plan;
- (k) the OMSF Security Plan;
- (l) the Guideway and Tunnel Security Plan; and
- (m) the Shared Infrastructure Security Plan.

B.1.2 The requirements for each section of the Security Plan are described in the following sections.

B.1.3 System Security Plan Requirements

- (a) The System Security Plan shall comply with the passenger company requirements of SOR/2020-222 and shall, notwithstanding any other provision of this Schedule 29.
- (b) The System Security Plan shall:
 - (i) identify, by job title, a senior manager responsible for the plan's overall development, approval and implementation;
 - (ii) be signed by the Chief Security Officer attesting to their knowledge and endorsement of and accountability for the Security Plan;
 - (iii) describe the organizational structure and human resources responsible for implementing the Security Plan and identify each position whose incumbent is responsible for implementing the plan or any portion of it;
 - (iv) describe the security duties of each identified department and position;
 - (v) set out a process for notifying each person who is responsible for implementing the Security Plan or any portion of it when the Security Plan or that portion of it must be implemented;
 - (vi) set out a program for the security awareness training required pursuant to Section 8.3 and the components of the security plan training referred to in Sections 8.7(d), 8.7(e), 8.7(f), 8.7(g) and 8.7(h) including a method to ensure that persons who undergo the security plan training acquire the knowledge and skills required under Section 8.3;
 - (vii) set out a process with respect to required Security Risk Assessments pursuant to Section 8.9, including:
 - (A) a procedure for conducting Security Risk Assessments; and

- (B) a method for assessing and prioritizing the risk;
- (viii) set out a process with respect to Remedial Actions pursuant to see Section 8.12 that are part of the risk management strategy, including:
 - (A) a method for identifying security risks that require remedial action; and
 - (B) a method for implementing remedial actions and for evaluation their effectiveness;
- (ix) set out a process for selecting and implementing additional safeguards required;
- (x) set out a process with respect to security inspections referred to in Section 8.11;
- (xi) set out a process with respect to Security Exercises referred to in Section 8.13, including procedures for conducting security exercises;
- (xii) set out a process for responding to threats and other security concerns, including procedures for communicating and coordinating with Contracting Authority
- (xiii) set out a process for reporting threats and other security concerns;
- (xiv) set out a process for reviewing the Security Plan;
- (xv) include a report on the most recent Security Risk Assessment; and
- (xvi) set out a policy on:
 - (A) limiting access to security-sensitive information, and
 - (B) measures for the sharing, storing and destruction of that information.
- (xvii) describe the security policy and strategy for achieving security;
- (xviii) describe the scope the plan applies to (note that reference can be made to the Ontario Line Subway System Definition Document), including all Project Operations
- (xix) describe the proposed organization roles with responsibility for security management, with summary evidence of the competence of persons holding such roles;
- (xx) include an overview of the planned lifecycle for projects and the related security activities;
- (xxi) describe process for the security approval of Systems being placed into service, including the interface to the Contracting Authority;
- (xxii) describe the process for the maintenance of security-related documentation (i.e. document control), including the restriction of access for sensitive documents
- (xxiii) describe the process for management of the Security Log;

- (xxiv) describe arrangements for tracking security requirements transferred between Systems, Infrastructure or to other entities;
 - (xxv) describe the constraints and assumptions made in the Ontario Line Subway System Security Plan;
 - (xxvi) describe Subcontractor management arrangements for security and
 - (xxvii) describe the process for periodic security inspections, security risk assessment, and security review throughout the lifecycle,
- (the “System Security Plan”).

B.1.4 Passenger Station Security Plan

- (a) The Passenger Station Security Plan shall include the following minimum requirements:
 - (i) a description of Project Co’s approach to passenger and Project Co Parties security within Ontario Line Subway Stations;
 - (ii) a description of Project Co’s approach to using CPTED both within the Stations and within their immediate external environment;
 - (iii) a description of how physical and other security measures, including CCTV, will be deployed and managed both within the Stations and within their immediate external environment; and
 - (iv) a description of Project Co’s use of permanent signage, public address and PVIS in the delivery of security within the Stations,
- (the “Passenger Station Security Plan”).

B.1.5 OMSF Security Plan

- (a) The OMSF Security Plan shall include the following minimum requirements:
 - (i) a description of Project Co’s approach to visitor and Project Co Parties security within the OMSF;
 - (ii) a description of Project Co’s approach to using CPTED both within the OMSF and within the immediate external environment, including the rail corridor; and
 - (iii) a description of how physical and other security measures, including CCTV, will be deployed and managed within the OMSF, at its boundaries and within the immediate external environment,
- (the “OMSF Security Plan”).

B.1.6 Guideway and Tunnel Security Plan

- (a) The Guideway and Tunnel Security Plan shall include the following minimum requirements:
- (i) a description of how physical and other security measures, including CCTV and GIDS, will be deployed and managed along the at-grade guideway;
 - (ii) a description of how physical and other security measures, including CCTV and GIDS, will be deployed and managed at tunnel portals;
 - (iii) a description of how physical and other security measures, including CCTV, will be deployed and managed on elevated structures; and
 - (iv) a description of how physical and other security measures, including CCTV, will be deployed and managed for tunnels, including EEBs (as defined in the Output Specifications) and similar points of egress/access,
- (the “**Guideway and Tunnel Security Plan**”).

B.1.7 Shared Infrastructure Security Plan

- (a) The Shared Infrastructure Security Plan shall include the following minimum requirements:
- (i) A description of the approach to managing security at shared infrastructure facilities, including:
 - (A) TTC subway interchange stations;
 - (B) GO Transit interchange stations; and
 - (C) all bus loops,
- (the “**Shared Infrastructure Security Plan**”).

B.2 Security Log

- (a) The Security Log shall be structured such that:
- (i) all causes are mapped to threats or security concerns;
 - (ii) all threats or security concerns are mapped to consequences;
 - (iii) all mitigation measures are mapped to:
 - (A) causes, if the measure is acting to prevent causes from happening or to minimize the probability of occurrence of causes;
 - (B) threats or security concerns, if acting to reduce or prevent threats or security concerns from giving rise to consequences or minimizing the frequency of occurrence of the threats or security concerns; and/or

- (C) consequence, if acting after the consequences happen to reduce the severity of the consequence;
- (iv) mitigations measures are recorded in the Security Log as part of the analysis; and
- (v) mitigations measures become Project Security Requirements for Project Co to implement.
- (b) The Security Log should include information about the System it relates to and any assumptions or limitations about scope.
- (c) Each entry in the Security Log in respect of threats or security concerns shall include the following:
 - (i) unique reference number;
 - (ii) name or description of the security risk or threat;
 - (iii) related system elements, interfaces, and/or functions;
 - (iv) location or area of the security risk or threat;
 - (v) discipline and security risk or threat owner;
 - (vi) source of identification;
 - (vii) related lifecycle phase;
 - (viii) status for each project lifecycle stage from the following options:
 - (A) “Open” – a newly identified threat or security concern;
 - (B) “Resolved” – Security Requirements have been identified for the threat or security concern;
 - (C) “Managed” – the Security Requirements have been accepted by the responsible parties;
 - (D) “Transferred” – the responsibility for the threat or security risk has been transferred to another System or party; or
 - (E) “Cancelled” – the threat or security is no longer applicable;
 - (ix) related consequence(s)
 - (x) related cause(s);
 - (xi) related mitigation measures;
 - (xii) related Project Security Requirements;

- (xiii) related closure assurance evidence; and
- (xiv) related assumptions.
- (d) Each entry in the Security Log in respect of causes shall include the following information:
 - (i) unique reference number;
 - (ii) name or description of the cause;
 - (iii) related system elements or interfaces;
 - (iv) location or area of the cause;
 - (v) related threats or security concerns;
 - (vi) related mitigation measures;
 - (vii) related Project Security Requirements;
 - (viii) related closure assurance evidence; and
 - (ix) related assumptions.
- (e) Each entry in the Security Log in respect of consequences shall include the following information:
 - (i) unique reference number;
 - (ii) name or description of the consequence;
 - (iii) exposed parties;
 - (iv) where explicit threat estimation has been used as the Security Risk Assessment principle, the outcomes of the qualitative or quantitative assessment, including initial and residual Security Risk for each related consequence;
 - (v) related security risk or threats;
 - (vi) related mitigation measures;
 - (vii) related Project Security Requirements;
 - (viii) related closure assurance evidence; and
 - (ix) related assumptions.
- (f) Each entry in the Security Log in respect of mitigation measures shall include the following information:
 - (i) which of the three Risk Assessment principles, in accordance with the CMREA, is being used;

- (ii) any related security measures;
 - (iii) any related actions to be implemented;
 - (iv) any related Project Security Requirements;
 - (v) any related security risks or threats, causes, or consequences;
 - (vi) any related assumptions; and
 - (vii) any related assurance evidence.
- (g) Each entry in the Security Log in respect of security measures to be addressed as part of a different System shall include the following information:
- (i) unique reference number;
 - (ii) description of the exported security constraints;
 - (iii) persons at risk;
 - (iv) possible control measures;
 - (v) constraints;
 - (vi) owner(s); and
 - (vii) risk transmission.
- (h) Where actions in the Security Log are allocated to individuals instructing them to undertake work to either better understand or provide mitigation for the risk arising from security concerns of threats, each action entry shall include the following information:
- (i) unique reference number;
 - (ii) actionee name;
 - (iii) description of the action required;
 - (iv) deadline date;
 - (v) completion date;
 - (vi) status of the action, from among the following:
 - (A) “Open” – if the action has not yet been implemented;
 - (B) “Conditionally Closed” – if it is certain that the action will be implemented;
 - (C) “Closed” – if the action has been implemented;

- (D) “Transferred” if the responsibility for the action has been transferred and accepted by Contracting Authority, Adjacent Railway Systems, Passenger Interface Providers, Security Provider, Interchange Station Service Provider, Third Party Contractors or Additional Contractors; or
- (E) “Cancelled” if the action is no longer applicable; and
- (vii) details of the actionee responses and any other supporting information to justify closure of the actions.
- (i) The Security Log shall be continually reviewed and updated throughout the project and any changes to the Security Log shall be recorded, and include the following information:
 - (i) date;
 - (ii) Security Log version number;
 - (iii) author of the change;
 - (iv) the type of review undertaken;
 - (v) reference to any associated minutes from meetings related to the Security Log review activity; and
 - (vi) a summary of the nature of the changes made to the Security Log.

B.3 Security Requirements Specification

- (a) The Security Requirements Specification shall comply with the requirements of and include the following:
 - (i) description of functional requirements (i.e. what the System must do to provide security and how effective the System needs to be), including:
 - (A) security-related function;
 - (B) security risk assessment;
 - (C) definition of secure state;
 - (D) definition of how security capability is maintained at all times; and
 - (E) failure detection measures of facility or security providing devices;
 - (ii) contextual requirements, including:
 - (A) security-related assumptions such as effectiveness (for example, loss of security provision, etc.) of mitigation barriers (for example, protection systems and redundancies);

- (B) environmental conditions;
- (C) organizational rules;
- (D) operational rules; and
- (E) maintenance rules; and
- (iii) technical requirements, including:
 - (A) requirements resulting from the Security Risk Assessment;
 - (B) any legal security requirements; and
 - (C) adaptation requirements for System interfaces.

B.4 Security Subsystem Requirements Specification

- (a) The Security Subsystem Requirements Specification shall develop the requirements delivered in the Security Requirements Specification to a lower level of elicitation to fully define the technical solution.

B.5 Security Risk Assessment Report

- (a) The Security Inspection Procedure shall comply with the requirements of SOR/2020-222 and shall, notwithstanding any other provision of this Schedule 29 include the following minimum requirements:
- (b) The Security Risk Assessment Report shall document the outcomes of the Security Risk Assessment activity, including:
 - (i) threat and vulnerability identification workshops;
 - (ii) historical event analysis;
 - (iii) security operability studies;
 - (iv) security interface analysis; and
 - (v) zonal analysis.
- (c) The Security Risk Assessment Report shall include the following minimum requirements:
 - (i) an introduction that includes the purpose of the security assessment activities, their scope, and details about the participants of such activities and the authors of the report to demonstrate suitable competence;
 - (ii) a summary comprised of an overview of the security risks, threats and the responsible actors;

- (iii) the methods used for the Security Risk Assessment, including:
 - (A) threat identification;
 - (B) threat classification;
 - (C) security risk acceptance criteria; and
 - (D) Project Security Requirements identified;
- (iv) any further actions required to ensure closure of all identified threats;
- (v) a description of any updates to the Security Log; and
- (vi) a description of any updates to the Remedial Action Plan.

B.6 Security Risk Assessment Review Report

- (a) The Security Risk Assessment Review Report Shall:
 - (i) identify, describe and assess and prioritize any new security risks; and
 - (ii) document the review of the current Security Risk Assessment, including the date of the review, the reason for the review, and any new risks that have been identified, their priority level and the potential security safeguards, if applicable.

B.7 Remedial Action Plan

- (a) The Remedial Action Plan shall describe the approach to developing and implementing remedial actions in response to identified security risks and threats.
 - (i) The Remedial Action Plan shall include descriptions of:
 - (A) the security risk or threat subject to remediation;
 - (B) the effectiveness of actions in reducing or eliminating the risks, and
 - (C) the additional safeguards that are part of the risk management strategy.
- (b) The Remedial Action Plan shall be updated any time a new security risk or threat is identified through the Security Risk Assessment process, or immediately following the completion of a Security Exercise, or following review of the effectiveness of remediation attempts.

B.8 Security Exercise Report

- (a) The Security Exercise Report shall comply with the passenger company requirements of SOR/2020-222 and shall, notwithstanding any other provision of this Schedule 29 include the following minimum requirements:

- (i) the date of the Security Exercise;
- (ii) the names of the participants;
- (iii) a list of the companies and agencies that were invited and those that were involved;
- (iv) the name of the lead agency and the person leading the exercise
- (v) a description of the Security Exercise scenario;
- (vi) a description of the results of the Security Exercise with respect to the elements tested;
- (vii) a description of potential actions to address deficiencies that were identified during the exercise and that could adversely impact the security of the Ontario Line Subway System and its users;
- (viii) a description of any required updates to the Security Log; and
- (ix) a description of any required updates to the Remedial Action Plan.

B.9 Security Inspection Procedure

- (a) The Security Inspection Procedure shall comply with the requirements of SOR/2020-222 and shall, notwithstanding any other provision of this Schedule 29 include the following minimum requirements:
 - (i) a procedure for conducting security inspections;
 - (ii) a method for determining whether security has been compromised;
 - (iii) a method for determining whether additional security inspections are necessary if, having regard to the circumstances, security could be compromised;
 - (iv) a method for addressing the situation, if security has been compromised, before the Train enters into service;
 - (v) a method for preventing unauthorized interference with the Train after the inspection and until passengers board the Train; and
 - (vi) a method for ensuring that a record is kept for each security inspection in compliance with the requirements of Section 8.11(g).

APPENDIX C TO SCHEDULE 29

**CONSTRUCTION SAFETY AND CONTRACTOR SITE SPECIFIC SAFETY MANUAL
REQUIREMENTS**

A. General Requirements

- (a) The Contractor Site Specific Safety Manual shall, at a minimum, comply in all respects with:
- (i) the applicable requirements of the OHSA, including all regulations thereto;
 - (ii) industry recognised safe practices;
 - (iii) the health and safety requirements set by Project Co and by the Construction Contractor with respect to the Project and the Site;
 - (iv) the health and safety requirements of the Project Agreement;
 - (v) the Certificate of Recognition requirements.

B. Minimum Categories

- (a) The Contractor Site Specific Safety Manual shall, at a minimum, contain narrative addressing the categories and sub-categories as set out below:

0.0	<p>Overview and Scope</p> <p>The manual shall have an introduction that shall set out an overview and scope of the Project.</p>
1.0	<p>Health and Safety Policy and Goals</p> <p>The policy shall:</p> <ul style="list-style-type: none"> • state Project Co’s health and safety mandate and occupational health and safety policy; • refer to the safety goals and lifesaving rules of the Project and the culture of safety planned to be implemented by the Construction Contractor; • include a “statement of commitment” by an officer of the Construction Contractor, which must specifically refer to the manual itself and be executed by an officer of the Construction Contractor who has authority to bind the Construction Contractor; and • include a statement of commitment with respect to keeping Subcontractors responsible for matters related to health and safety.

<p>2.0</p>	<p>Safety Leadership</p> <p>The manual shall:</p> <ul style="list-style-type: none"> • include Project Co’s and the Construction Contractor’s approach, actions and continuous improvement regarding the safety leadership of each of its employees and subcontracted workforces; and • include examples of proactive measures and efforts taken in maintaining and improving the safety culture of the organization at all levels, including documented safety inspections.
<p>3.0</p>	<p>Project Health and Safety Objectives and Performance Measurement</p> <p>The manual shall:</p> <ul style="list-style-type: none"> • describe the methodology for measuring health and safety performance, including key performance indicators to assess whether objectives are being met; • indicate how measures of lagging and leading indicators will be used to track health and safety performance and which entity(ies) will be accountable for its implementation and communication to Contracting Authority; and • provide details on Project Co’s proactive safety awards program that supports outstanding safety performance and the health and safety culture of the Project.
<p>4.0</p>	<p>Roles and Responsibilities</p> <p>Describe the specific roles and responsibilities of the following persons in relation to meeting the health and safety objectives and the requirements of the Project Agreement:</p> <ul style="list-style-type: none"> • Project Co; • Project Director; • Construction Health and Safety Manager; • Construction Manager; • Safety Coordinator; • Joint Occupational Health and Safety Committee/Trades Committee; • Subcontractor; • Subcontractor Supervisor; • Workers; • Visitors; and • External Parties.
<p>5.0</p>	<p>Subcontractor Health and Safety Management Plan</p> <p>Describe how Subcontractors will be managed and measures that will be implemented to ensure competent Subcontractor supervision related to the Project. Include in the plan Project Co’s approach to reviewing the Subcontractor’s health and safety performance history.</p>

<p>6.0</p>	<p>Hazard Assessment, Analysis and Control</p> <p>Describe the Construction Contractor’s plan for how work scopes will be assessed and analysed, and how mitigation controls will be put in place to ensure work is performed in a healthy and safe manner. The plan shall include:</p> <ul style="list-style-type: none"> • techniques that focus on scopes of work broken down into steps, identifying potential hazards and potential preventative steps; • daily job and task level Hazard Identification and control; • means to measure workers’ understanding and compliance with safe work practices and safe job procedures through training and correction of unsafe performance; and • how Hazard awareness and mitigation controls are communicated to workers.
	<p>Designated Substances and Hazardous Materials</p>
	<p>Hazard Identification</p>
	<p>Risk Assessment</p> <p>Describe the Construction Contractor’s risk assessment methodology and provide a Project-specific health and safety risk register that details any unique safety requirements of the Project that will be provided and maintained over the duration of the Project. A risk register is required to be completed prior to any work commencement.</p>
	<p>Job Hazard Analysis</p> <p>Provide an analysis to detail a technique that focuses on job tasks as a way to identify hazards before they occur. The analysis shall focus on the relationship between the worker, the task, the tools and the work environment. The analysis shall break down the job in smaller steps to examine potential hazards and potential preventative steps.</p>
	<p>Daily Hazard Identification and Control</p>
	<p>Safe Work Practices and Safe Job Procedures</p> <p>Describe the process to develop and implement safe work practices/safe job procedures to address the identification, assessment, control, prevention and communication of hazards specific to individual tasks or jobs.</p> <p>Provide means to ensure employees understand and comply with safe work practices and safe job procedures through training, correction of unsafe performance and, if necessary, enforcement through a clearly communicated disciplinary system.</p>
<p>7.0</p>	<p>Company Rules – Rules of Conduct and Disciplinary Action</p> <p>Describe the company rules and the disciplinary actions to be taken in the case of health and safety infractions or non-compliance with established procedures and policies.</p>

	<p>Fitness for Duty Policy</p> <p>The policy shall:</p> <ul style="list-style-type: none"> • explain how Project Co will ensure that workers are fit for duty at all times while performing the Works or at the Site; and • meet or exceed the requirements of the Metrolinx Fitness for Duty Policy to ensure that all workers are fit for duty while performing the Works or other activities at the Site. <p>Project Co acknowledges and agrees that Metrolinx Fitness for Duty Policy is provided solely for the purpose of incorporating any relevant matters into its Contractor Site Specific Safety Manual and that provision of the Metrolinx Fitness for Duty Policy to Project Co does not constitute control or direction of safety of the Works or at the Site by Contracting Authority.</p>
	<p>Workplace Violence and Harassment</p>
	<p>Disciplinary Action</p> <p>Describe the company rules and the disciplinary actions to be taken in the case of health and safety infractions or non-compliance with established procedures and policies.</p>
	<p>Worker Rights</p>
8.0	<p>Health and Safety Training and Competency</p> <p>Describe the training program to be implemented to ensure that all persons who will be entering and/or working on the Site are appropriately trained. At a minimum, the training program shall include:</p> <ul style="list-style-type: none"> • demonstration of the individual’s competency for the assigned role; • description and associated documentation of safety and security; and • competency training. <p>The training program should include a description and associated documentation of safety and security competency training programs, either online or in person, for field personnel, including the type of training provided and how it specifically targets health and safety. Training may include task-specific safety training or general awareness training.</p>
	<p>Project Specific Orientation</p> <p>Describe how the health and safety training program will be facilitated with all individuals before they are given access to any areas within the Site or any portion of the Lands. This will include worker education and training on specific Site hazards and controls including safe work practices and safe job procedures.</p>
	<p>Site Specific Orientation</p> <p>If work activities are to be performed on multiple Sites under one project scope, provide a narrative of how a site-specific safety orientation will be created and facilitated to all affected parties to address the hazards specific to the Site. This category is in addition to the Project Specific Orientation.</p>

	<p>Visitor/Short Duration Work Orientation</p> <p>Narrative shall include health and safety training to be provided for all visitors who are not performing work on the Site or any portion of the Lands and will be escorted by a member of Project Co while on the Site or any portion of the Lands before being given authorization to enter the Site or any portion of the Lands.</p>
	<p>Delivery Driver/ Supplier Orientation</p> <p>Narrative shall include health and safety training to be facilitated with all delivery drivers and suppliers before being given authorization to enter the Site or any portion of the Lands, including those who are not performing Construction Activities on the Site or any portion of the Lands but may be granted access to the Site or any portion of the Lands to perform their job functions.</p>
	<p>Worker Training to Specific Site Hazards</p> <p>Including safe work practices and safe job procedures.</p>
	<p>Personal Protective Equipment (“PPE”)</p> <p>Such narrative shall incorporate the requirements of Section 7.5 of this Schedule 29. Identify the minimum PPE that will be required onsite, selection criteria of specialty PPE, and the use and maintenance of PPE.</p>
	<p>Worker/Supervisor Competency Evaluation</p> <p>Describe how the competency of workers and supervisors will be identified, met and evaluated on an ongoing basis.</p>
9.0	<p>Meetings and Communication Plan</p> <p>Describe the frequency of meetings relating to health and safety, how meetings will be documented and how agreed outcomes will be communicated to the appropriate parties.</p>
10.0	<p>Workplace Inspections</p> <p>Describe the Construction Contractor’s strategy for implementing an inspection regime in relation to health and safety on the Site.</p>
	<p>Informal Inspections</p>
	<p>Formal Inspections</p>
	<p>Audits</p>
	<p>Inspection and Audit Schedule</p>
	<p>Inspection Follow-up/Corrective Action Plan</p> <p>Describe the development and maintenance of a health and safety issues log, derived from inspections, audits and incidents with follow-up and corrective action plans necessary to mitigate issues.</p>

	Maintenance of Records
11.0	<p>Construction Emergency Response Plan</p> <p>Describe the policies and procedures pertaining to incident and emergency planning, response (including the safety of the workforce/public), mitigation and recovery.</p> <p>Project Co shall establish procedures to achieve, at a minimum, the following:</p> <ul style="list-style-type: none"> • maintain communication for the exchange of information between Project Co, Contracting Authority, the City of Toronto and other involved agencies; • develop coordinated support through interaction with local, provincial and federal governmental entities, as well as other entities, for safe and efficient construction; • coordinate emergency response, traffic control, security and operational issues affecting construction of the Project, and associated system feeders and exits; and • update Emergency Service Providers regarding the status of construction of the Project, and associated system feeders and exits, to ensure safe and timely response to Emergency events. At a minimum, this shall include off-site and on-site traffic routing changes, and changes to job site access, fire suppression system modifications and in-service availability of standpipes or fire suppression water supply, and changes in the Works that may create a greater likelihood of occurrence of a particular type of Emergency.
	Emergency Response Procedure
	Property, Equipment and Environmental Damage Procedure
	Emergency Evacuation Plan
	Emergency Contacts and Roles
	<p>First Aid and CPR</p> <p>Include documentation that indicates that Subcontractors have a proactive injury management system that supports efficient, effective and timely treatment of their employees who become injured on the Site.</p>
	Drills and Exercises
12.0	<p>Incident Reporting and Investigations Procedure</p> <p>Describe the procedures for reporting incidents, performing proactive investigations intended to prevent future incidents, identifying root causes and implementing measures to prevent a reoccurrence.</p> <p>The Construction Contractor shall demonstrate that an incident review process has been implemented which involves all levels of management to validate corrective measures to minimize future injuries and incidents on the Site.</p>

<p>13.0</p>	<p>Statistics and Records</p> <p>Describe how safety records are to be maintained to verify conformity to Project Co’s Contractor Site Specific Safety Manual requirements.</p> <p>Describe how the safety records shall be in electronic format, legible, electronically searchable, readily identifiable and retrievable, and available to Contracting Authority upon request.</p> <p>Project Co shall create and maintain a corrective action database. Project Co shall ensure all Subcontractor incidents are recorded in said database. The database shall be kept up to date and made available to Contracting Authority upon request. The database shall be maintained to verify conformity to the Contractor Site Specific Safety Manual requirements.</p>
<p>14.0</p>	<p>Security Plan</p> <p>Provide a plan that details guidelines for implementing security on the Site.</p> <p>Provide a methodology for securing the site and restricting trespassers.</p> <p>Describe how Project Co shall comply with its obligation to take every reasonable precaution to protect the public’s health and safety during the execution of the Works.</p>
<p>15.0</p>	<p>Traffic Management and Control Plan</p> <p>Include how activities performed by Project Co and Project Co Parties will protect workers, the public, passengers, transit infrastructure, transit operations and other parties.</p>
<p>16.0</p>	<p>Security Plan</p> <p>Provide a plan that details guidelines for implementing security on the Site. The plan shall include:</p> <ul style="list-style-type: none"> • a methodology for securing the Site and restricting trespassers; and • a description of how Project Co shall comply with its obligation to take every reasonable precaution to protect the public’s health and safety during the execution of the Works.
<p>17.0</p>	<p>Site Plot Plan</p> <p>Plan shall include an illustration of the overall Site and highlight specific locations where high risk Construction Activities will take place or identify Construction Activities that have the potential to impact transit operations and/or affect members of the public.</p>
<p>18.0</p>	<p>Tunnel Safety Plan</p> <p>Provide a tunnel safety plan that describes the management of tunnel-specific risks, meets or exceeds the regulatory requirements in O.Reg.213/91, as amended from time to time, and encompasses the following requirements, at a minimum:</p> <ul style="list-style-type: none"> • a risk assessment and mitigation of tunnel-specific hazards; • provisions and instructions for accessing shafts and tunnels (i.e. brass tags, photo ID’s etc.); • procedures for the following: <ul style="list-style-type: none"> (a) safe hoisting into shaft; (b) derailment of rail borne vehicles, including Trains (where applicable);

	<ul style="list-style-type: none"> (c) gas monitoring inside shafts and tunnels; (d) lock-out, tag-out inside shafts and tunnels; (e) laying track; (f) pipe installation, conveyor belt operation; and (g) other procedures related to safe shaft and tunnel operations; <ul style="list-style-type: none"> • provisions for maintaining optimal air quality inside shafts and tunnels during hot work operations and/or any other work of such nature (i.e., saw cutting, shotcrete, painting, and other such work) that could emit fumes, dust or a noxious gas; • training and orientation specific to shafts and tunnel operation for all personnel entering the shafts and tunnels; and • emergency evacuation plan related to shafts and tunnels (i.e. medical aids, fires, chemical spill, oxygen deficiency, toxic atmospheres, and other emergency circumstances), including, <ul style="list-style-type: none"> (a) use of self-rescuer (such as Draeger Oxy-k or Ocenco systems); (b) use of approved man-basket and/or Davit Arm system (where applicable); (c) notification system for emergencies; (d) use of stretchers inside shafts and tunnels; (e) summoning of the tunnel rescue team (where applicable); (f) provide fire protection plan for shafts and tunnel(s); and (g) provide a communication plan for shafts and tunnel(s).
<p>19.0</p>	<p>Continuous Improvement Plan</p>
<p>20.0</p>	<p>Others</p>

APPENDIX D TO SCHEDULE 29

TECHNICAL SPECIFICATIONS FOR PROJECT CO SMS SOFTWARE SOLUTION

A. The Project Co SMS Software Solution shall:

- (a) be cloud-based;
- (b) be subject to, as a minimum, the cybersecurity policies of the Project.
- (c) allow multiple users to remotely log in and access the solution with single sign-on capability, but with individually set access permissions (i.e. read only, read-write and similar permissions);
- (d) allow users to upload user documents against any individual record contained within the database;
- (e) be equipped with document control capabilities that enable users to track versions and revisions and that ensure that the latest revision of documents is being employed by users;
- (f) allow easy access to data, dashboarding features and business analytics features to enable the monitoring and reporting of the Common Safety Indicators determined in accordance with Section 5.9 of this Schedule 29;
- (g) include a central repository for all historical and current versions of the documents required to be managed in the Project Co SMS, organized in a manner that promotes efficient access to the documents;
- (h) include a database that accurately and effectively records and tracks all data required to be managed in accordance with the Project Co SMS; and
- (i) Throughout the Project Term, Project Co shall ensure that,
 - (i) the Project Co SMS Software Solution is, at all times, the most current vendor-supported version of the cloud-based software selected by Project Co; and
 - (ii) the Project Co SMS Software Solution and all data and documents contained therein are electronically accessible to Contracting Authority, at all times, on a real-time basis through the single sign-on capability, and Project Co shall ensure that all Contracting Authority users' permissions include "read" and "download".
- (j) If, at any time during the Project Term, the Project Co SMS Software Solution vendor is no longer in business or otherwise no longer supports the Project Co SMS Software Solution and the Project Co SMS Software Solution is not supported by another vendor, then Project Co shall, subject to the prior written approval of the Contracting Authority, select and implement an alternative cloud-based software solution for the Project Co SMS that meets the requirements of this Schedule 29.

SCHEDULE 30

INSURANCE TRUST AGREEMENT

THIS AGREEMENT is made as of the 15th day of November, 2022

BETWEEN:

METROLINX, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency in accordance with the *Crown Agency Act*, R.S.O. 1990, c. 48

(“**Contracting Authority**”)

AND:

[REDACTED]

(the “**Lenders’ Agent**”)

AND:

CONNECT SIX GENERAL PARTNERSHIP, [REDACTED]

(“**Project Co**”)

AND:

[REDACTED]

(the “**Account Trustee**”)

WHEREAS:

- A. Contracting Authority and Project Co have entered into the Project Agreement.
- B. Contracting Authority, the Lenders’ Agent and Project Co have entered into the Lenders’ Direct Agreement.
- C. Contracting Authority, the Lenders’ Agent and Project Co have agreed that all amounts from time to time contained in the Insurance Trust Account are to be held in trust by the Account Trustee in accordance with the terms of this Insurance Trust Agreement, and that no releases, distributions or transfers of any funds from the Insurance Trust Account shall be made other than in accordance with the terms of this Insurance Trust Agreement.

NOW THEREFORE in consideration of the mutual covenants and agreements of the Parties hereinafter contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties covenant and agree as follows:

1. DEFINITIONS

In this Insurance Trust Agreement, including the recitals and appendices, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Insurance Trust Agreement) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) “**Account Trustee**” means [REDACTED].
- (b) “**Bank**” means [REDACTED].
- (c) “**Bonds**” means [REDACTED].
- (d) “**Change of Authorization Event**” has the meaning given in Section 9(a).
- (e) “**Change of Authorization Notice**” has the meaning given in Section 9(b)(ii).
- (f) “**Contracting Authority**” has the meaning given in the preamble.
- (g) “**Default Notice**” means a written notice given by the Lenders’ Agent to the Account Trustee that an event of default under the Lending Agreements has occurred and is continuing.
- (h) “**Default Period**” means the period commencing on the date upon which the Account Trustee receives a Default Notice and ending on the date upon which the Account Trustee receives written notice from the Lenders’ Agent that the event of default which was the subject matter of the applicable Default Notice has been cured.
- (i) “**Insurance Policies**” has the meaning given in Section 4(a).
- (j) “**Insurance Proceeds**” has the meaning given in Section 6(a).
- (k) “**Insurance Trust Account**” means [REDACTED] at [REDACTED].
- (l) “**Lenders’ Agent**” means [REDACTED], acting as agent for and on behalf of the Lenders.
- (m) “**Lenders’ Direct Agreement**” means the lenders’ direct agreement made on or about the date hereof among Contracting Authority, Project Co and the Lenders’ Agent.
- (n) “**Multiple Obligee**” means a multiple obligee under the applicable Bond.
- (o) “**Multiple Obligee Rider(s)**” means the multiple obligee rider(s) applicable to the Bonds pursuant to which Project Co, Contracting Authority and the Lenders’ Agent are multiple obligees under the Bonds.
- (p) “**Order**” has the meaning given in Section 8(k).

- (q) **“Party”** means any of Contracting Authority, Project Co, the Lenders’ Agent or the Account Trustee, and **“Parties”** means all of Contracting Authority, Project Co, the Lenders’ Agent and the Account Trustee.
- (r) **“Project Agreement”** means the project agreement dated as of the date hereof between Contracting Authority and Project Co.
- (s) **“Project Co”** has the meaning given in the preamble.
- (t) **“Surety”** has the meaning given in the Project Agreement.
- (u) **“Trust Property”** means all of the property held in trust by the Account Trustee pursuant to this Insurance Trust Agreement, including the Bonds, the Insurance Trust Account, and all amounts from time to time contained therein, the Insurance Policies and the Insurance Proceeds.

2. INTERPRETATION

This Insurance Trust Agreement shall be interpreted according to the following provisions, unless the context requires a different meaning:

- (a) The headings in this Insurance Trust Agreement are for convenience of reference only, shall not constitute a part of this Insurance Trust Agreement, and shall not be taken into consideration in the interpretation of, or affect the meaning of, this Insurance Trust Agreement.
- (b) Unless the context otherwise requires, references to specific Sections, Clauses, Paragraphs, Subparagraphs, and other divisions are references to such Sections, Clauses, Paragraphs, Subparagraphs, or divisions of this Insurance Trust Agreement and the terms “Section” and “Clause” are used interchangeably and are synonymous.
- (c) Words importing persons or parties are to be broadly interpreted and include an individual, corporation, firm, partnership, joint venture, trust, unincorporated organization, Governmental Authority, unincorporated body of persons or association and any other entity having legal capacity, and the heirs, beneficiaries, executors, administrators or other legal representatives of a person in such capacity.
- (d) Unless the context otherwise requires, wherever used herein the plural includes the singular, the singular includes the plural, and each of the masculine, feminine and neuter genders include all other genders.
- (e) References to any standard, principle, agreement or document include (subject to all relevant approvals and any other provisions of this Insurance Trust Agreement concerning amendments) a reference to that standard, principle, agreement or document as amended, supplemented, restated, substituted, replaced, novated or assigned.
- (f) The words in this Insurance Trust Agreement shall bear their natural meaning.

- (g) References containing terms such as:
- (i) “hereof”, “herein”, “hereto”, “hereinafter”, and other terms of like import are not limited in applicability to the specific provision within which such references are set forth but instead refer to this Insurance Trust Agreement taken as a whole; and
 - (ii) “includes” and “including”, whether or not used with the words “without limitation” or “but not limited to”, shall not be deemed limited by the specific enumeration of items but shall, in all cases, be deemed to be without limitation and construed and interpreted to mean “includes without limitation” and “including without limitation”.
- (h) In construing this Insurance Trust Agreement, the rule known as the *ejusdem generis* rule shall not apply nor shall any similar rule or approach apply to the construction of this Insurance Trust Agreement and, accordingly, general words introduced or followed by the word “other” or “including” or “in particular” shall not be given a restrictive meaning because they are followed or preceded (as the case may be) by particular examples intended to fall within the meaning of the general words.
- (i) Where this Insurance Trust Agreement states that an obligation shall be performed “no later than” or “within” or “by” a stipulated date or event which is a prescribed number of days after a stipulated date or event, the latest time for performance shall be 5:00 p.m. on the last day for performance of the obligation concerned, or, if that day is not a Business Day, 5:00 p.m. on the next Business Day.
- (j) Where this Insurance Trust Agreement states that an obligation shall be performed “on” a stipulated date, the latest time for performance shall be 5:00 p.m. on that day, or, if that day is not a Business Day, 5:00 p.m. on the next Business Day.
- (k) Any reference to time of day or date means the local time or date in Toronto, Ontario.
- (l) Unless otherwise indicated, time periods will be strictly construed.
- (m) Whenever the terms “will” or “shall” are used in this Insurance Trust Agreement they shall be construed and interpreted as synonymous and to read “shall”.

3. BONDS AND INSURANCE TRUST ACCOUNT

- (a) Prior to the commencement of a Default Period, the Bonds, the Insurance Trust Account, and all amounts from time to time contained therein, including interest thereon, shall be held in trust by the Account Trustee for the benefit of Project Co. During a Default Period, the Bonds, the Insurance Trust Account, and all amounts from time to time contained therein, shall be held in trust by the Account Trustee for the benefit of the Lenders’ Agent and the Lenders, provided that, upon receipt by the Account Trustee of a Change of Authorization Notice, the Bonds, the Insurance Trust Account, and all amounts from time to time contained therein, shall be held in trust by the Account Trustee for the benefit of Contracting Authority.
- (b) The Account Trustee shall not release the Bonds or release, distribute or transfer any funds from the Insurance Trust Account other than in accordance with the terms of this Insurance Trust Agreement.

- (c) Notwithstanding any other provision of this Insurance Trust Agreement and subject to Section 3(d), the Lenders' Agent, Contracting Authority and Project Co agree that (x) if Project Co or the Lenders' Agent receives the Bonds, then the Bonds will be enforced for the purpose of completion of the Works, and (y) if any of them either receives any Insurance Proceeds from the Insurance Trust Account or has the right to direct the Account Trustee to advance funds in respect of any Insurance Proceeds from the Insurance Trust Account, such funds shall be directed, used or advanced only for one of the following purposes:
- (i) the repair, reinstatement, restoration, rehabilitation or replacement of the Ontario Line Subway, New Third Party Infrastructure or any other assets, materials or goods necessary or desirable for the carrying out of the Project Operations in respect of which such Insurance Proceeds have been paid;
 - (ii) the completion of the Project; or
 - (iii) indemnification for any Contracting Authority loss for which the subject Insurance Proceeds were paid under the Insurance Policies (as defined below).

For greater certainty, use of any Insurance Proceeds received in respect of a claim by Project Co under delay in start-up, soft costs or business interruption insurance shall be applied in accordance with the terms of the Lending Agreements so as to enable Project Co to carry out the Project Operations.

- (d) Notwithstanding anything in this Insurance Trust Agreement, if Contracting Authority is entitled to indemnification under the Insurance Policies in respect of any loss incurred by Contracting Authority, such related insurance proceeds are to be paid directly to Contracting Authority by the insurer or the Account Trustee and shall not be Insurance Proceeds subject to Section 3(c)(i) or (ii). For greater certainty, it is understood and agreed that Contracting Authority shall be required to use such proceeds for carrying out the purposes referred to in Sections 3(c)(i) and (ii) in respect of which such proceeds have been paid.

4. DELIVERY OF BONDS AND INSURANCE POLICIES

- (a) Project Co shall deliver, or cause to be delivered, the Bonds to the Account Trustee. Project Co is required to obtain under the Project Agreement certified copies or originals of all property and asset related insurance policies that Project Co is required to maintain under the Project Agreement (collectively, the “**Insurance Policies**”), and the Account Trustee shall hold the Bonds and Insurance Policies in trust for the benefit of each of the beneficiaries and loss payees, as the case may be, thereunder.

5. BONDS

- (a) If the Account Trustee and Contracting Authority have received a Default Notice, and if Lenders' Agent presents to the Account Trustee (and the other Parties to this Insurance Trust Agreement) a declaration that it or any person Lenders' Agent designates requires possession of the Bonds for the purpose of establishing and/or enforcing the rights of any Multiple Obligee thereunder, and the Account Trustee has received written authorization from Contracting Authority confirming Lenders' Agent's right to receive the Bonds, the Account Trustee shall provide the Bonds to

Lenders' Agent or such designated party, without the need for further investigation or inquiry by the Account Trustee, provided that, if at any time prior to the release of the Bonds to Lenders' Agent or a person designated by it, pursuant to the foregoing, the Account Trustee receives a Change of Authorization Notice and Contracting Authority presents to the Account Trustee a declaration that it or any person designated by it requires possession of the Bonds for the purpose of establishing and/or enforcing the rights of any Multiple Obligor thereunder, the Account Trustee shall provide the same to Contracting Authority or such designated party, without the need for further investigation or inquiry by the Account Trustee that Contracting Authority or the designated party presenting the declaration is entitled to receive the Bonds. Contracting Authority shall provide, no later than five (5) Business Days following receipt by Contracting Authority of a request by the Lenders' Agent, either: (i) the written authorization referred to in this Section 5(a); or (ii) written justification detailing Contracting Authority's rationale for refusing to provide such authorization.

- (b) Project Co agrees to obtain or cause to be obtained from the Surety any required amendment to the Bonds to provide for the foregoing provisions by way of amendment or replacement of the Multiple Obligor Rider now attached to and forming part of the Bonds.
- (c) Contracting Authority, Lenders' Agent and Project Co covenant and agree to observe and perform their respective covenants, agreements and obligations under the provisions of the Lenders' Direct Agreement and further covenant and agree as between them, that if there is any conflict or inconsistency between the provisions of Lenders' Direct Agreement and this Insurance Trust Agreement, the provisions of the Lenders' Direct Agreement shall govern and prevail to the extent of such conflict or inconsistency.

6. INSURANCE PROCEEDS

- (a) The Account Trustee shall distribute any proceeds of any Insurance Policy that are paid over to it by any insurer, Project Co, the Lenders' Agent or Contracting Authority (the "**Insurance Proceeds**") as follows:
 - (i) subject to the last paragraph of Section 3(c), in the case of the all risks course of construction (builders' risk), boiler and machinery insurance or property insurance policies that Project Co is required to maintain under the Project Agreement:
 - (A) if the Account Trustee has not received a Default Notice and:
 - (1) if the amount of such Insurance Proceeds, together with the aggregate of all Insurance Proceeds paid in respect of the same loss or claim, is less than \$[REDACTED], to Project Co to repair, restore or replace the assets in respect of which such Insurance Proceeds have been paid; or
 - (2) if the amount of such Insurance Proceeds, together with the aggregate of all Insurance Proceeds paid in respect of the same loss or claim, is equal to or greater than \$[REDACTED], to the Lenders' Agent to reimburse Project Co for the costs of repairing, restoring or replacing the assets in respect of which such Insurance Proceeds have been paid; or

- (B) if the Account Trustee has received a Default Notice, to the Insurance Trust Account to be distributed by the Account Trustee in such amounts and to such persons as the Lenders' Agent may at any time or from time to time direct in writing, provided that, if the Account Trustee has received a Change of Authorization Notice, the Account Trustee shall release such Insurance Proceeds from the Insurance Trust Account in such amounts and to such parties as Contracting Authority may at any time or from time to time direct in writing, in each case, to repair, restore or replace the assets in respect of which such Insurance Proceeds have been paid; and
 - (ii) in the case of any other Insurance Policies, to the Lenders' Agent, or, following receipt by the Account Trustee of a Change of Authorization Notice, to Contracting Authority, to be distributed to the parties entitled thereto.
- (b) The Account Trustee shall distribute any excess Insurance Proceeds remaining after the distributions contemplated in Section 6(a)(ii) have been made, including any Insurance Proceeds held in the Insurance Trust Account:
 - (i) if the Account Trustee has not received a Default Notice, to Project Co; and
 - (ii) if the Account Trustee has received a Default Notice, to such persons as the Lenders' Agent, or, following receipt by the Account Trustee of a Change of Authorization Notice, Contracting Authority, may at any time or from time to time direct in writing.

7. ACCOUNT AGREEMENT

- (a) The Account Trustee hereby agrees to promptly provide to the Lenders' Agent all monthly statements and other information with respect to the Insurance Trust Account provided to the Account Trustee by the Bank pursuant to the relevant account agreement. The Account Trustee further agrees that it shall make such requests to the Bank for additional information with respect to the Insurance Trust Account as the Lenders' Agent may from time to time request in writing.
- (b) The Account Trustee hereby agrees to promptly provide to Contracting Authority all monthly statements and other information with respect to the Insurance Trust Account provided to the Account Trustee by the Bank pursuant to the relevant account agreement. The Account Trustee further agrees that it shall make such requests to the Bank for additional information with respect to the Insurance Trust Account as Contracting Authority may from time to time request in writing.

8. THE ACCOUNT TRUSTEE

- (a) The Account Trustee shall not have any duty or obligation to manage, control, use, make any payment in respect of, register, record, insure, inspect, sell, dispose of or otherwise deal with any part of the Trust Property except as expressly provided by the terms of this Insurance Trust Agreement. The Account Trustee shall carry out all written directions given by the Lenders' Agent, Contracting Authority or Project Co, as applicable, in accordance with this Insurance Trust Agreement and shall not be required to exercise any discretion in exercising any of its duties under this Insurance Trust Agreement in pursuance of such written directions. The Account Trustee shall not be bound to do or take any act, action or proceeding by virtue of the powers conferred on it

- hereby unless and until it shall have been required to do so under the terms hereof and has received instruction, advice or direction from the Lenders' Agent, Contracting Authority or Project Co, as applicable, as to the action to be taken (except with respect to actions specifically set out herein to be performed by the Account Trustee).
- (b) The Account Trustee will exercise its powers and carry out its obligations hereunder as account trustee honestly, in good faith and in the best interests of the beneficiaries hereunder and in connection therewith will exercise that degree of care, diligence, and skill that a reasonably prudent professional trustee would exercise in comparable circumstances. Unless otherwise required by law, the Account Trustee will not be required to give bond surety or security in any jurisdiction for the performance of any duties or obligations hereunder. No provision of this Insurance Trust Agreement shall be construed to relieve the Account Trustee from liability for its own dishonesty, fraud, negligence (including negligence in the handling of funds), wilful misconduct, bad faith or reckless disregard of any duty hereunder.
- (c) The Account Trustee will not be subject to any liability whatsoever, in tort, contract or otherwise in connection with the Trust Property or the carrying out of its duties under this Insurance Trust Agreement to the Lenders' Agent, the Lenders, Project Co or any other person for any action taken or permitted by it to be taken, or for its failure to take any action, or for not performing any act or fulfilling any duty, obligation or responsibility hereunder by reason of any occurrence beyond the control of the Account Trustee (including, but not limited to, any act or provision of any present or future law or of any Governmental Authority, any act of God or war, or the unavailability of any wire or communication facility), provided that the foregoing limitation will not apply in respect of any action or failure to act arising from or in connection with wilful misconduct, negligence or reckless disregard of duty by the Account Trustee. The Account Trustee in doing anything or permitting anything to be done in respect of the Trust Property or the carrying out of its duties under this Insurance Trust Agreement is, and will be conclusively deemed to be, acting as trustee for the beneficiaries hereunder and not in any other capacity. Except to the extent provided in this Section 8(c), the Account Trustee will not be subject to any liability for debts, liabilities, obligations, claims, demands, judgments, costs, charges or expenses against or with respect to the Trust Property, arising out of anything done or permitted by it to be done or its failure to take any action in respect of the execution of its duties hereunder and resort will be had solely to the Trust Property for the payment or performance thereof, and no other property or assets of the Account Trustee, whether owned in its personal capacity or otherwise, will be subject to levy, execution or other enforcement procedure with regard to any obligation under this Insurance Trust Agreement.
- (d) The Account Trustee shall not be required to expend or risk its own funds or otherwise incur financial liability in the performance of any of its duties hereunder, or in the exercise of any of its rights or powers hereunder, or in acting at the request or direction of the Lenders' Agent on behalf of the Lenders, unless it shall have received adequate indemnity or security against such risk or liability satisfactory to it.
- (e) Notwithstanding the foregoing, the Account Trustee shall be liable for any action or failure to act arising from or in connection with the dishonesty, fraud, negligence (including negligence in the handling of funds), wilful misconduct, bad faith or reckless disregard of any duty hereunder by the Account Trustee or any of its directors, officers or employees, or the failure to comply with the standard of care referred to in Section 8(b).

- (f) Except as otherwise provided in Sections 8(c), 8(d) and 8(e):
- (i) the Account Trustee may rely and shall be protected in acting or refraining from acting upon any signature, resolution, certificate, statement, instrument, opinion, report, notice, request, direction, consent, order or other paper or document reasonably believed by it in good faith to be genuine and to have been signed or presented by the proper party or parties; and
 - (ii) the Account Trustee may exercise its powers and perform its duties by or through such attorneys, representatives, agents and employees as it shall appoint; and may consult with counsel, accountants and other skilled persons selected and employed or retained by it, and the Account Trustee shall not be liable for anything done, suffered or omitted in good faith by it in accordance with the written advice of such counsel, accountants or other skilled persons (provided that such advice pertains to such matters as the Account Trustee may reasonably presume to be within the scope of such person's area of competency) and not contrary to any express provision in this Insurance Trust Agreement.
- (g) Project Co hereby agrees to pay, indemnify and hold harmless the Account Trustee from and against any and all loss, liability, cost, claim and expense incurred by the Account Trustee with respect to the performance of this Insurance Trust Agreement by the Account Trustee or any of the Account Trustee's directors, officers or employees, unless arising from its or their own dishonesty, fraud, negligence (including negligence in the handling of funds), willful misconduct, bad faith or reckless disregard of any duty hereunder.
- (h) Subject to the terms and conditions set forth in the Account Trustee fee letter, the Account Trustee shall receive from the Trust Property reasonable compensation for its services hereunder and shall be reimbursed by Project Co for its reasonable fees and expenses (including the disbursements and reasonable fees of counsel).
- (i) The Account Trustee agrees to look solely to Project Co, and not, except as expressly set forth herein, to the Lenders' Agent, the Lenders or Contracting Authority for any claim for indemnification which may arise under this Insurance Trust Agreement.
- (j) The Account Trustee shall be responsible for keeping all appropriate books and records relating to the receipt and disbursement of all money which it receives hereunder.
- (k) If at any time the Account Trustee is served with any judicial or administrative order, judgment, decree, writ or other form of judicial or administrative process which in any way affects the Trust Property held by it hereunder (including but not limited to orders of attachment or garnishment or other forms of levies or injunctions or stays relating to the transfer of Trust Property) (each, an "**Order**"), the Account Trustee is authorized to comply therewith in any manner as it or legal counsel of its own choosing deems appropriate. The Account Trustee shall in no way be bound to call for further evidence (whether as to due execution validity or effectiveness, or the jurisdiction of any court, or as to the truth of any fact), and shall not be responsible for any loss that may be occasioned by its failing to do so. If the Account Trustee complies with any Order, the Account Trustee shall not be liable to any of the Parties hereto or to any other person or entity even though such Order may be subsequently modified or vacated or otherwise determined to have been without legal force or effect. If the Account Trustee is served with any Order, it shall forthwith and, in any

event, within three (3) Business Days, deliver a copy of such Order to each of the Lenders' Agent, Contracting Authority and Project Co.

- (l) Unless otherwise specifically set forth herein, the Account Trustee shall proceed as soon as practicable to collect any cheques or other collection items at any time deposited hereunder. All such collections shall be subject to the Account Trustee's usual collection practices or terms regarding items received by the Account Trustee for deposit or collection. Except and to the extent provided herein, the Account Trustee shall not be required, or have any duty, to notify any person of any payment or maturity under the terms of any instrument deposited hereunder, nor to take any legal action to enforce payment of any cheque, note or security deposited hereunder, or to exercise any right or privilege which may be afforded to the holder of any such security.
- (m) In the event that the Account Trustee determines that any direction, instruction, notice or other communication given under this Insurance Trust Agreement by the Lenders' Agent or, where the Account Trustee has received a Change of Authorization Notice, Contracting Authority, is ambiguous or uncertain, the Account Trustee may, in its sole discretion, refrain from taking any action other than retaining possession of the Trust Property, unless the Account Trustee has received written instructions, signed by the Lenders' Agent or, if the Account Trustee has received a Change of Authorization Notice, Contracting Authority, which resolve such ambiguity or uncertainty, provided that the Account Trustee shall, forthwith upon determining that such direction, instruction, notice or other communication is ambiguous or uncertain, seek clarification from the Lenders' Agent, or where the Account Trustee has received a Change of Authorization Notice, Contracting Authority, to resolve such ambiguity or uncertainty.
- (n) Prior to receipt of a Change of Authorization Notice by the Account Trustee, any instruction, notice or other communication delivered to the Account Trustee by the Lenders' Agent shall be paramount to and supersede any direction, instruction, notice or other communication from any other Party to this Insurance Trust Agreement, and the Account Trustee shall comply with such direction, instruction, notice or other communication from the Lenders' Agent. After the Account Trustee has received a Change of Authorization Notice, any instruction, notice or other communication delivered to the Account Trustee by Contracting Authority shall be paramount to and supersede any direction, instruction, notice or other communication from any other Party to this Insurance Trust Agreement, and the Account Trustee shall comply with such direction, instruction, notice or other communication from Contracting Authority.
- (o) Each of the Lenders' Agent and Contracting Authority shall provide to the Account Trustee an incumbency certificate setting out the names and sample signatures of individuals authorized to give instructions to the Account Trustee hereunder. The Account Trustee shall be entitled to rely on each such incumbency certificate until a revised or replacement incumbency certificate is provided to the Account Trustee by the Lenders' Agent or Contracting Authority, as applicable. The Account Trustee shall refuse to act upon any instruction given by the Lenders' Agent or Contracting Authority which is signed by any person other than an individual named in the incumbency certificate provided to the Account Trustee by the Lenders' Agent or Contracting Authority, as applicable, pursuant to this Section 8(o), as any such incumbency certificate may be amended, supplemented or replaced from time to time.

- (p) The Account Trustee shall be entitled to rely on, and act upon, any direction, instruction, notice or other communication provided to it hereunder which is sent to it by electronic submission, provided that any such direction, instruction, notice or other communication is signed by an individual named in the incumbency certificate delivered to the Account Trustee by the Lenders' Agent or Contracting Authority, as applicable, pursuant to Section 8(o).

9. LENDERS' AGENT AND CONTRACTING AUTHORITY'S RIGHTS TO DIRECT

- (a) Until the termination of the Project Agreement in accordance with the Lenders' Direct Agreement and receipt by Project Co of any amounts to which it is entitled pursuant to Schedule 23 – Compensation on Termination to the Project Agreement and all Insurance Proceeds to the extent that the value of such Insurance Proceeds was deducted from the amounts payable to Project Co by Contracting Authority (a “**Change of Authorization Event**”), the Lenders' Agent shall, subject to Sections 3 and 4, have the exclusive right to direct the Account Trustee with respect to the Insurance Trust Account, the Insurance Policies, the Bonds and the Insurance Proceeds.
- (b) Upon the occurrence of a Change of Authorization Event:
- (i) the Lenders' Agent shall cease to be entitled, and Contracting Authority shall thenceforth be entitled, to direct the Account Trustee with respect to the Insurance Trust Account, the Insurance Policies, the Bonds and the Insurance Proceeds; and
 - (ii) the Lenders' Agent and Contracting Authority shall jointly provide notice to the Account Trustee (a “**Change of Authorization Notice**”) that Contracting Authority shall, as of the date of such Change of Authorization Event, have the exclusive right to direct the Account Trustee with respect to the Insurance Trust Account, the Insurance Policies, the Bonds and the Insurance Proceeds.
- (c) Notwithstanding the foregoing, no Change of Authorization Event shall occur and no Change of Authorization Notice shall be delivered to the Account Trustee where a Contracting Authority Event of Default has occurred. Where a Contracting Authority Event of Default has occurred, upon receipt by the Lenders' Agent and Lenders of all amounts owing by Contracting Authority to the Lenders' Agent and Lenders under the Lenders' Direct Agreement, the Account Trustee shall release all amounts in the Insurance Trust Account, the Insurance Policies and the Insurance Proceeds to Project Co or as Project Co may otherwise direct from time to time.

10. TERMINATION

- (a) Subject to the provisions of Section 10(b), this Insurance Trust Agreement shall remain in full force and effect and be binding in accordance with and to the extent of its terms until:
- (i) the obligations of Project Co to the Lenders' Agent and the Lenders under the Lending Agreements have been paid and performed in full and the Lenders have no further obligation to make any further advances or other credit accommodations under the Lending Agreements; and
 - (ii) the obligations of Project Co to Contracting Authority have been paid and performed in full.

- (b) The Account Trustee may terminate this Insurance Trust Agreement at any time upon sixty (60) days prior written notice to the other Parties hereto, provided that no termination of this Insurance Trust Agreement by the Account Trustee shall be effective until such time as the Lenders' Agent, Contracting Authority, and Project Co have entered into a replacement insurance trust agreement on the same terms and conditions as this Insurance Trust Agreement with a replacement account trustee satisfactory to the Lenders' Agent, the Lenders and Contracting Authority.

11. ASSIGNMENT

- (a) The Account Trustee shall not assign, transfer or otherwise dispose of any of its rights or obligations under this Insurance Trust Agreement without the prior written consent of the Lenders' Agent, Contracting Authority and Project Co.

12. NOTICES

- (a) All notices, requests, demands, instructions, certificates, consents and other communications required or permitted under this Insurance Trust Agreement shall be in writing (whether or not "written notice" or "notice in writing" is specifically required by the applicable provision of this Insurance Trust Agreement) and served by sending the same by registered mail, by hand, (in each case, with a copy by electronic transmission to the Contracting Authority Representative), or by electronic submission as follows:

- (b) Where any notice is provided or submitted to a Party via electronic submission, an original of the notice sent via electronic submission shall promptly be sent by regular mail or registered mail. For greater certainty, a notice given via electronic submission shall not be invalid by reason only of a Party's failure to comply with this Section 12(b).
- (c) Any Party to this Insurance Trust Agreement may, from time to time, change any of its contact information set forth in Section 12(a) by prior notice to the other Parties, and such change shall be effective on the Business Day that next follows the recipient Party's receipt of such notice unless a later effective date is given in such notice.
- (d) Subject to Sections 12(e), 12(f) and 12(g):
- (i) a notice given by registered mail shall be deemed to have been received on the third (3rd) Business Day after mailing;
 - (ii) a notice given by hand delivery shall be deemed to have been received on the day it is delivered; and
 - (iii) a notice given by electronic submission shall be deemed to have been received on the day it is transmitted by electronic submission.
- (e) If the Party giving the notice knows or ought reasonably to know of difficulties with the postal system which might affect negatively the delivery of mail, any such notice shall not be mailed but shall be made or given by personal delivery or by electronic submission in accordance with this Section 12.
- (f) If any Notice delivered by hand or transmitted by electronic submission is so delivered or transmitted, as the case may be, either on a day that is not a Business Day or on a Business Day

after 4:00 p.m. (recipient's local time), then such Notice shall be deemed to have been received by such recipient on the next Business Day.

- (g) A notice given by electronic submission shall be deemed to have been received by the recipient on the day it is transmitted only if an electronic submission report (maintained by the sender) indicates that the transmission of such notice was successful.

13. AMENDMENTS

- (a) This Insurance Trust Agreement may not be varied, amended or supplemented except by an agreement in writing signed by duly authorized representatives of the Parties and stating on its face that it is intended to be an amendment, restatement or other modification, as the case may be, to this Insurance Trust Agreement.

14. WAIVER

- (a) No waiver made or given by a Party under or in connection with this Insurance Trust Agreement shall be binding or effective unless the waiver is in writing, signed by an authorized representative of the Party giving such waiver, and delivered by such Party to the other Parties. No waiver made with respect to any right, power or remedy in one instance will be deemed to be a waiver with respect to any other instance involving the exercise of such right, power, or remedy or with respect to any other right, power, or remedy.
- (b) Failure by any Party to exercise any of its rights, powers or remedies hereunder or its delay to do so shall not constitute a waiver of those rights, powers or remedies. The single or partial exercise of a right, power or remedy shall not prevent its subsequent exercise or the exercise of any other right, power or remedy.

15. RELATIONSHIP BETWEEN THE PARTIES

- (a) The Parties are independent contractors. This Insurance Trust Agreement is not intended to and does not create or establish between the Parties any relationship as partners, joint venturers, employer and employee, master and servant, or, except as provided in this Insurance Trust Agreement, of principal and agent.

16. ENTIRE AGREEMENT

- (a) Except where provided otherwise in this Insurance Trust Agreement, this Insurance Trust Agreement constitutes the entire agreement between the Parties in connection with its subject matter and supersedes all prior representations, communications, negotiations and understandings, whether oral, written, express or implied, concerning the subject matter of this Insurance Trust Agreement.

17. SEVERABILITY

- (a) Each provision of this Insurance Trust Agreement shall be valid and enforceable to the fullest extent permitted by law. If any provision of this Insurance Trust Agreement is declared invalid, unenforceable or illegal by the courts of a competent jurisdiction, such provision may be severed

and such invalidity, unenforceability or illegality shall not prejudice or affect the validity, enforceability and legality of the remaining provisions of this Insurance Trust Agreement. If any such provision of this Insurance Trust Agreement is invalid, unenforceable or illegal, the Parties shall, acting in good faith, promptly negotiate new provisions to eliminate such invalidity, unenforceability or illegality and to restore this Insurance Trust Agreement as near as possible to its original intent and effect.

18. ENUREMENT

- (a) This Insurance Trust Agreement shall enure to the benefit of, and be binding on, each of the Parties and their respective successors and permitted transferees and assigns.

19. GOVERNING LAW AND JURISDICTION

- (a) This Insurance Trust Agreement shall be governed by and construed in accordance with the laws of Ontario and the laws of Canada applicable therein and shall be treated in all respects as an Ontario contract, without regard to conflict of laws principles.
- (b) The Parties agree that the courts of the Province of Ontario and all courts competent to hear appeals therefrom shall have exclusive jurisdiction to hear and settle any action, suit, proceeding or dispute in connection with this Insurance Trust Agreement and hereby irrevocably attorn to the exclusive jurisdiction of such courts.
- (c) Nothing in this Insurance Trust Agreement affects the rights, protections and immunities of the Crown under the *Crown Liability and Proceedings Act* (Ontario).

20. CONTRACTING AUTHORITY DESIGNATE

- (a) At any time and from time to time, the Crown may designate any ministry, branch, agency, division, department or office of the Government of Ontario to carry out administrative responsibility for the rights and obligations of Contracting Authority under this Insurance Trust Agreement and Project Co, the Lenders' Agent and the Account Trustee may deal exclusively with the designated person in respect of all such matters and is entitled to rely on the actions, directions, requests, notices, consents, approvals, waivers, comments relating to the review of documentation and other administrative matters and decisions determined by such designated person from time to time, until the Crown has notified Project Co, the Lenders' Agent and the Account Trustee in writing that such designated person is no longer the person designated by the Crown hereunder and such notice shall have effect on the later of the date of delivery of such notice and the date specified in the written notice. The Crown shall advise Project Co, the Lenders' Agent and the Account Trustee in writing of any designation hereunder. The rights and obligations of the Parties to this Insurance Trust Agreement shall be in no way affected by reason of any such designation. Project Co, the Lenders' Agent and the Account Trustee acknowledge the right of the Crown to delegate administrative responsibilities hereunder as set forth in this Section 20.

21. FURTHER ASSURANCE

- (a) Each Party shall do all things, from time to time, and execute all further documents necessary to give full effect to this Insurance Trust Agreement.

22. LANGUAGE OF AGREEMENT

- (a) Each Party acknowledges having requested and being satisfied that this Insurance Trust Agreement and related documents be drawn in English. *Chacune des parties reconnaît avoir demandé que ce document et ses annexes soient rédigés en anglais et s'en declare satisfaite.*

23. COUNTERPARTS

- (a) This Insurance Trust Agreement may be executed in one or more counterparts. Any single counterpart or a set of counterparts executed, in either case, by all of the Parties shall constitute a full, original and binding agreement for all purposes. Delivery of an executed counterpart by sending a copy by electronic mail or other electronic transmission shall be as effective as the manual delivery of an executed counterpart.

24. LIABILITY

- (a) Metrolinx, as Crown agency, shall be liable for all of the obligations of Contracting Authority under this Insurance Trust Agreement.

25. COPYRIGHT NOTICE

- (a) The Parties acknowledge that King's Printer for Ontario is the exclusive owner of the copyright in the Project Agreement and this Insurance Trust Agreement.

[REMAINDER OF THIS PAGE INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF the Parties have executed this Insurance Trust Agreement as of the date first above written.

PROJECT CO INFORMATION

[REDACTED]

SCHEDULE 32
FINANCIAL MODEL EXTRACTS

[REDACTED]

SCHEDULE 33

WORKS REPORT REQUIREMENTS

1. The Works Report prepared by Project Co (or the COR-Certified Construction Project Co Party designated by Project Co under Section 9.5(a)(v) (*Safety and Security*) of the Project Agreement), as “constructor” of the Works and Site, under the *Occupational Health and Safety Act* (Ontario) and this Project Agreement, shall include the following:
 - (a) an executive summary describing the general status of the Works;
 - (b) a detailed status of the Works, including:
 - (i) a narrative detailing the progress of:
 - (A) the Ontario Line Subway, including:
 - (1) the Facilities;
 - (2) the Trackwork;
 - (3) the Guideway;
 - (4) the Civil Structure;
 - (5) the Systems;
 - (6) the Cars; and
 - (7) the OMSF; and
 - (B) all New Third Party Infrastructure;
 - (ii) a narrative detailing the progress of design and review;
 - (iii) a narrative on contemplated innovations, where applicable;
 - (iv) a narrative detailing the progress and status of and issues related to:
 - (A) communications and public engagement;
 - (B) traffic and transit management (including upcoming road closures);
 - (C) Utility Work;
 - (D) demolitions and removals;
 - (E) safety, security, and emergency management;

- (F) property access and business management plan updates;
- (G) all Permits, Licences, Approvals and Agreements;
- (H) environmental monitoring and compliance; and
- (I) all Commissioning, including a narrative on:
 - (1) the test-track for the Cars;
 - (2) the Cars; and
 - (3) New Third Party Infrastructure and the status with all New Third Party Infrastructure owners.
- (c) a report on the then applicable South Civil Integration Demerit Points Incurred and North Civil Integration Demerit Points Incurred, each as calculated at the time of the applicable Works Report, if any;
- (d) plans for Works scheduled in the forthcoming reporting period;
- (e) goals for the next reporting period (such as progress on activities, resolution of issues);
- (f) progress photos;
- (g) outstanding technical and contractual decisions;
- (h) sustainability compliance status, including LEED Silver Certification progress reports for the OMSF;
- (i) quality assurance and quality control, including:
 - (i) the status of the Design Quality Management Plan, Construction Quality Management Plan, Project Co Services Quality Management Plan, other Quality Management Plans, Quality Audit Program Plan, and Quality Audit Program Plan updates;
 - (ii) a table setting out and responding to items of Non-Conformance and deficiencies in ongoing Works as identified by Contracting Authority or Project Co or both;
 - (iii) the status of Design Certificates and Construction Certificates;
 - (iv) an update of quality control and quality assurance activities and personnel responsible;
 - (v) the monthly Quality Management System reports, Project Co Quality Audit Reports, Corrective Actions Plans, and summary information from the Non-

- Conformance Tracking System (all as described in Schedule 11 – Quality Management); and
- (vi) the status of Internal Quality Audits, External Quality Audits and Independent Quality Audits;
 - (vii) organization and staffing changes, deletions, and additions for Project Co and all Project Co Parties;
- (j) the status of all Submittals pursuant to the requirements of the Project Agreement;
- (k) health and safety, including:
- (i) the total number of hours worked for all persons on Site;
 - (ii) the total number of critical injuries (defined under section 1(1) of the *Occupational Health and Safety Act* (Ontario)) or fatalities;
 - (iii) the total number of injuries to any member of the public;
 - (iv) the total number of incidents involving medical aid or health care (as defined by the *Workplace Safety and Insurance Act* (Ontario));
 - (v) the total number of incidents involving first aid (as defined by the *Workplace Safety and Insurance Act* (Ontario));
 - (vi) the total number of incidents involving damage to property, infrastructure and/or mobile equipment owned by Metrolinx, the City of Toronto, the TTC or other third parties, and adjacent property;
 - (vii) the total number of near misses (no damage to property or persons);
 - (viii) the total number of incidents resulting in lost time;
 - (ix) the total number of incidents with no lost time;
 - (x) the total number of Other Critical Injuries (as defined by *Occupational Health and Safety Act* (Ontario));
 - (xi) the total number of supervisor (as such term is defined in the *Occupational Health and Safety Act* (Ontario)) weekly jobsite safety inspections;
 - (xii) the total number of weekly safety talks;
 - (xiii) the total number of management field visits;
 - (xiv) the total number of site safety orientations;
 - (xv) all correspondence related to MOL or MECP visits; and

- (xvi) details of MOL and MECP enquiries;
- (l) Subcontract status, including with respect to:
 - (i) consultants;
 - (ii) Subcontracts awarded;
 - (iii) tenders; and
 - (iv) small, minority-owned, women-owned, and disadvantaged business enterprises;
- (m) financial status, including:
 - (i) all requirements of Schedule 19 – Liquidated Damages and Construction Enforcement Regime;
 - (ii) progress and Variations status;
 - (iii) an insurance summary;
 - (iv) Construction Contractor default status;
 - (v) Current cash flow status for both actual and projected expenditures (capital cost components) from Financial Close, represented monthly, and excluding Variations, to be organized according to a work breakdown structure (WBS) which will be readily relatable to the updates of schedule and progress as described in Schedule 12; and
 - (vi) a twelve (12) month (minimum) financial forecast including all Project Co costs; and
- (n) risk management, including:
 - (i) updated risk register, highlighting any changes or updates from the previous month's report;
 - (ii) risk response plans requiring action from Contracting Authority;
 - (iii) claims;
 - (iv) liens;
 - (v) environmental issues;
 - (vi) labour;
 - (vii) market conditions;

- (viii) outstanding disputes;
 - (ix) safety and security, including a threat and vulnerability log;
 - (x) operational risks;
 - (xi) Stakeholder risks;
 - (xii) other risks; and
 - (xiii) a narrative description of risk impact to the Critical Path and how risks are reflected in the Progress Works Schedule described in Schedule 12 – Works Schedule Requirements.
2. Project Co, as “constructor” of the Works and Site, under the *Occupational Health and Safety Act* (Ontario) and this Project Agreement, shall address comments from Contracting Authority on each previous month’s reporting in subsequent reports, and will be required to provide a resolution table to illustrate how Contracting Authority comments have been addressed. Project Co as “constructor” shall remain responsible for determining the way and means of resolution and correction of all matters.

SCHEDULE 34

PERMITS, LICENCES, APPROVALS AND AGREEMENTS

1. DEFINITIONS

In this Schedule 34, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 34) shall have the meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) **“Additional Listed PLAA Requirements”** has the meaning given in Section 9.6(c).
- (b) **“Additional PLAA Completion Requirements”** has the meaning given in Section 8.1(b)(ii).
- (c) **“Additional Project Co PLAA Responsibilities”** means the obligations set out in the column titled “Additional Responsibilities” in Appendix B to this Schedule 34.
- (d) **“Completeness Review Timeline”** means the period of time listed in the column titled “Completeness Review Timeline” in Appendix B to this Schedule 34.
- (e) **“Completion Checklist”** means the application completion checklist for the applicable Listed Project Co PLAA listed in the column titled “Completion Checklist” in Appendix B to this Schedule 34 and further described in Appendix E to this Schedule 34.
- (f) **“Contracting Authority Permits, Licences, Approvals and Agreements”** means those Permits, Licences, Approvals and Agreements set out in the column titled “Issuing Authority and Name of Contracting Authority Permit, Licence, Approval or Agreement” in Appendix A to this Schedule 34.
- (g) **“Contracting Authority PLAA Responsibilities and Requirements”** means the responsibilities and requirements of Contracting Authority set out in the column titled “Contracting Authority Responsibilities and Requirements” in Appendix A to this Schedule 34.
- (h) **“Date for Issuance”** means the date set out in the column titled “Date for Issuance” in Appendix A to this Schedule 34.
- (i) **“Determination Delay Period”** means, in respect of Listed Project Co PLAA, the period of time commencing on the Listed Project Co PLAA Deadline and ending on the earlier of (i) the Listed Project Co PLAA Issuance Date and (ii) the Listed Project Co PLAA Refusal Date.
- (j) **“Listed Project Co PLAA”** means those Project Co Permits, Licences, Approvals and Agreements set out in the column titled “Name of Project Co Permit, Licence, Approval or Agreement” in Appendix B or Appendix C to this Schedule 34, but for certainty excludes;
 - (i) Permits, Licences, Approvals and Agreements that are related to, but not explicitly included as, Listed Project Co PLAAs; and

- (ii) any Project Co Permits, Licences, Approvals and Agreements that are not listed in Appendix B or Appendix C to this Schedule 34.
- (k) **“Listed Project Co PLAA Application”** means an application for a Listed Project Co PLAA as submitted to the applicable Issuing Authority, including all documents and information contained therein.
- (l) **“Listed Project Co PLAA Completeness Confirmation”** has the meaning given in Section 8.2(a)(ii).
- (m) **“Listed Project Co PLAA Deadline”** means the date that is equal to [REDACTED]% of (i) the time set out in the column titled “Project Co PLAA Timeline” in Appendix B to this Schedule 34, or (ii) the applicable Staged Permits Deadline for a Listed Project Co PLAA set out in Appendix C to this Schedule 34 provided Project Co has satisfied all applicable obligations that are described in the column titled “Project Co Obligations” for such Listed Project Co PLAA in Appendix C to this Schedule 34.
- (n) **“Listed Project Co PLAA Issuance Date”** has the meaning given in 9.6(a)(i).
- (o) **“Listed Project Co PLAA Refusal Date”** has the meaning given in 9.6(a)(ii).
- (p) **“Listed Project Co PLAA Requirements”** means any written requirements, policies, guidelines or rules of the applicable Issuing Authority in respect of the applicable Listed Project Co PLAA that are publicly available, included in or consistent with Applicable Law, including any requirements, policies, guidelines or rules set out in the applicable Completion Checklist and any applicable Additional PLAA Completion Requirements.
- (q) **“Listed Project Co PLAA Submission Date”** means the day that a Listed Project Co PLAA Application is submitted by Project Co to the applicable Issuing Authority as may be modified by this Schedule 34.
- (r) **“Master Servicing Agreement”** has the meaning given in Appendix A to this Schedule 34.
- (s) **“Permits, Licences, Approvals and Agreements”** means all permissions, consents, approvals, certificates, permits, licences, agreements and authorizations required to perform the Project Operations in accordance with the Project Agreement and as required by Applicable Law, and all necessary consents, approvals, certificates, permits, licences, agreements and authorizations from and with any third parties (including, to the extent applicable, all Development Approvals, Railway Approvals and Utility Agreements, and the approval of the Fire Marshal of Ontario), needed to perform the Project Operations in accordance with the Project Agreement and as required by Applicable Law.
- (t) **“Permits, Licences, Approvals and Agreements Manager”** means the Project Co Party listed in Schedule 9 – Key Individuals.
- (u) **“PLAA Advisory Committee”** has the meaning given in Section 5(a).

- (v) “**PLAA Plan**” has the meaning given in Section 3.3(a).
- (w) “**Pre-Submission Consultation**” has the meaning given in Section 8.1(a).
- (x) “**Pre-Submission Consultation Notice**” has the meaning given in Section 8.1(b).
- (y) “**Project Co CA PLAA Obligations**” means the obligations set out in the column titled “Project Co Obligations” in Appendix A to this Schedule 34.
- (z) “**Project Co Permits, Licences, Approvals and Agreements**” means all Permits Licences, Approvals and Agreements other than the Contracting Authority Permits, Licences, Approvals and Agreements and, for greater certainty, includes the Listed Project Co PLAAs.
- (aa) “**Project Co PLAA Timeline**” means the date as set out in the column titled “Project Co PLAA Timeline” in Appendix B to this Schedule 34.
- (bb) “**Project Co PLAA Tracking System**” has the meaning given in Section 6.1(a).
- (cc) “**Project PLAA Tracker**” has the meaning given in Section 6.2(a).
- (dd) “**Staged Permits Deadline**” means the date set out in the column titled “Staged Permits Deadline” in Appendix C to this Schedule 34 and represents the number of Business Days following submittal of all documentation and materials by Project Co to the Issuing Authority required under the column titled “Project Co Obligations” in Appendix C, for the Issuing Authority to make a final determination. The Staged Permits Deadline period begins on the first Business Day following the date of submittal.
- (ee) “**Target Listed Project Co PLAA Submission Date**” has the meaning given in Section 9.1(a).

2. GENERAL CONTRACTING AUTHORITY PLAA OBLIGATIONS

2.1 Contracting Authority Responsible for Contracting Authority Permits, Licences, Approvals and Agreements

- (a) Contracting Authority shall, at its own cost and risk, obtain (on or before the applicable Date for Issuance), maintain, and, as applicable, renew all Contracting Authority Permits, Licences, Approvals and Agreements, subject to and in accordance with:
 - (i) any applicable Contracting Authority PLAA Responsibilities and Requirements; and
 - (ii) any other provision expressly set out in this Schedule 34 – Permits, Licences, Approvals and Agreements.
- (b) For greater certainty, where a Contracting Authority Permit, Licence, Approval or Agreement cannot be obtained, maintained or renewed by the Contracting Authority, as applicable, as a result of a Project Co CA PLAA Obligation not having been performed, then Contracting Authority shall be under no obligation to obtain the applicable corresponding Contracting Authority Permit,

Licence, Approval or Agreement until Project Co has performed the applicable, corresponding Project Co CA PLAA Obligation.

- (c) Contracting Authority shall, at its own cost and risk, perform the obligations and assume the responsibilities under, and otherwise comply with the terms of, the Contracting Authority Permits, Licences, Approvals and Agreements other than:
 - (i) any obligation or responsibility that is expressly set out as a Project Co CA PLAA Obligation; or
 - (ii) any obligations or responsibility that is expressly excluded in this Schedule 34 from being a responsibility or obligation by any applicable Contracting Authority PLAA Responsibilities and Requirements.
- (d) Notwithstanding anything to the contrary in the Project Agreement, where Contracting Authority is required to obtain, enter into, maintain or renew a Contracting Authority Permit, Licence, Approval or Agreement described in Appendix A to this Schedule 34, such Contracting Authority Permit, Licence or Approval may be obtained, entered into, maintained or renewed by Contracting Authority, as determined by Contracting Authority, in its sole discretion.

2.2 Obligations in Respect of Project Co Permits, Licences, Approvals and Agreements

- (a) Contracting Authority shall, at its own cost, provide or cause to be provided such information, documentation, and administrative assistance as Project Co may request and as Contracting Authority may reasonably be able to provide, and shall execute such applications and documents as are required to be in its name, to enable Project Co or any Project Co Party to obtain, maintain or renew any Project Co Permits, Licences, Approvals and Agreements or to demonstrate compliance with any Permits, Licences, Approvals and Agreements, provided that, nothing in this Section 2.2(a) shall make Contracting Authority responsible, in any way, for obtaining, or for any delay in obtaining, or for the failure of Project Co or any Project Co Party to obtain (other than to the extent caused by a breach of Contracting Authority's obligations under this Section 2.2(a)), any Project Co Permits, Licences, Approvals and Agreements.
- (b) Contracting Authority shall not be obligated to:
 - (i) invoke Crown immunity or exercise any other of its legal rights in order to avoid or eliminate the requirement to obtain any Permits, Licences, Approvals and Agreements;
 - (ii) exercise any right or power or perform any duty, obligation or statutory function it may have under any Applicable Law in order to obtain or issue any Permits, Licences, Approvals and Agreements;
 - (iii) except as otherwise expressly provided in this Schedule 34, automatically grant Project Co Permits, Licences, Approvals and Agreements for which it is the authorizing entity and will apply its usual procedures and criteria in considering applications from Project Co or any Project Co Party for such Project Co Permits, Licences, Approvals and Agreements.

2.3 Where Contracting Authority Elects to be Party to Project Co Licences, Permits, Approvals and Agreements

- (a) In the event that Contracting Authority agrees or elects, in its sole discretion, to obtain, become a party to, or be bound by any Project Co Permits, Licences, Approvals and Agreements following a written request in this regard being made by Project Co to Contracting Authority, then with respect to such Project Co Permits, Licences, Approvals and Agreements, the Parties covenant and agree as follows:
- (i) Contracting Authority covenants and agrees to provide to Project Co a copy of such Project Co Permits, Licences, Approvals and Agreements within ten (10) days of Contracting Authority's receipt of the same;
 - (ii) Project Co agrees to and in favour of Contracting Authority:
 - (A) to perform and fulfil the liabilities and obligations (including indemnity obligations) of Contracting Authority under such Project Co Permits, Licences, Approvals and Agreements as if Project Co was an original party thereto in the place and stead of Contracting Authority;
 - (B) to pay any amounts paid, payable, or owing by Contracting Authority arising under, pursuant to, in respect of or in connection with such Project Co Permits, Licences, Approvals and Agreements; and
 - (C) to perform, satisfy, discharge and fulfil all obligations (including indemnity obligations), liabilities and indebtedness of or owing by Contracting Authority arising under, pursuant to, in respect of or in connection with such Project Co Permits, Licences, Approvals and Agreements;
 - (iii) Project Co acknowledges and agrees that any amount paid by Contracting Authority under, pursuant to, in respect of or in connection with such Project Co Permits, Licences, Approvals and Agreements shall constitute, and shall be deemed to constitute, a debt of an equivalent amount immediately due and payable by Project Co to Contracting Authority pursuant to the terms of this Project Agreement, and Contracting Authority shall be entitled to exercise its rights under Section 34.12 (*Set-Off*) of the Project Agreement to seek payment of such debt due and payable to Contracting Authority by Project Co; and
 - (iv) Project Co acknowledges and agrees that Contracting Authority's agreement or election to obtain, become a party to, or be bound by such Project Co Permits, Licences, Approvals and Agreements shall not, and shall not be deemed, construed or interpreted to:
 - (A) be an agreement by Contracting Authority that such Project Co Permits, Licences, Approvals and Agreements are, become or constitute Contracting Authority Permits, Licences, Approvals and Agreements;

- (B) be a waiver by Contracting Authority of full compliance with, or a waiver by Contracting Authority of any breach of, any of the provisions of this Project Agreement;
- (C) be any form of forbearance of or to Contracting Authority's right to seek or enforce strict compliance with any of the provisions of this Project Agreement, or the exercise by Contracting Authority of any right, power or remedy that may be available to Contracting Authority under this Project Agreement; or
- (D) restrict, limit, prejudice or in any other way impair the rights and/or remedies of Contracting Authority under this Project Agreement.

3. GENERAL PROJECT CO PLAA OBLIGATIONS

3.1 Project Co Responsible for Project Co Permits, Licences, Approvals and Agreements

- (a) Project Co shall, at its own cost and risk obtain, maintain and renew all Project Co Permits, Licences, Approvals and Agreements (as applicable), and perform and comply with any applicable Additional Project Co PLAA Responsibilities (subject to Section 8.1(d)).
- (b) All Project Co requirements and obligations applicable to obtaining Project Co Permits, Licences, Approvals and Agreements, and the relief granted in accordance with Sections 9.2, 9.4, 9.5 and 9.6, shall also apply to the renewal and extension of any Project Co Permits, Licences, Approvals and Agreements, including the Project Co PLAA Timelines identified in Appendix B.
- (c) Project Co shall, at its own cost and risk, perform the obligations and assume the responsibilities under, and otherwise comply with the terms and conditions of, the Project Co Permits, Licences, Approvals and Agreements (including any obligations and responsibilities expressly set out by an applicable Additional Project Co PLAA Responsibility).
- (d) Project Co shall prepare and submit all supporting materials as required by the applicable Governmental Authorities in connection with all Project Co Permits, Licences, Approvals and Agreements. Project Co shall ensure that all such applications and supporting materials respond to the Governmental Authority's requirements and comments regarding such supporting materials.
- (e) All Permits, Licences, Approvals and Agreements not expressly described in Appendix A, Appendix B or Appendix C to this Schedule 34, are the responsibility of Project Co under the Project Agreement.
- (f) Where any Project Co Permits, Licences, Approvals and Agreements have requirements that may impose any conditions, liabilities or obligations on Contracting Authority or any Province Person, Project Co shall not obtain, amend or renew (other than upon the same terms and conditions) such Project Co Permits, Licences, Approvals and Agreements without the prior written consent of Contracting Authority, provided that neither Contracting Authority nor any Province Person shall be responsible for obtaining, or for the failure of Project Co to obtain, any Project Co Permits, Licences, Approvals and Agreements. Contracting Authority shall comply, or shall require compliance, with any conditions, liabilities or obligations as are imposed on Contracting Authority

or any Province Person by the requirements of any Project Co Permits, Licences, Approvals and Agreements obtained with Contracting Authority's consent under this Schedule 34.

- (g) Where any Project Co Permits, Licences, Approvals and Agreements have requirements that may require Contracting Authority to sign or provide information for the completion of the Listed Project Co PLAA Application, Project Co shall notify the Contracting Authority a minimum of ten (10) Business Days in advance of the intended submittal of the Listed Project Co PLAA Application to the applicable Governmental Authorities.
- (h) Project Co shall maintain and submit to Contracting Authority all documents and records relating to the Project Co Permits, Licences, Approvals and Agreements for the Project. When documents or records are submitted to Contracting Authority in a version other than the original version that was submitted, a blackline version of the document or record showing the revisions made from the previously submitted version shall be provided to Contracting Authority in addition to and concurrently with the revised document or record.
- (i) Unless otherwise specified in this Schedule 34, Project Co shall liaise directly with applicable Governmental Authorities regarding Project Co's Permits, Licences, Approvals and Agreements obligations hereunder.
- (j) In the event that Project Co fails to comply with conditions associated with any Project Co Permits, Licences, Approvals and Agreements, Contracting Authority may, in its sole discretion, exercise its rights to increase monitoring of Project Co in accordance with Section 21.2 (*Increased Monitoring*) of the Project Agreement.
- (k) For the purposes of any site licence under the Master Servicing Agreement, Project Co and the Construction Contractor are designated as agents of Contracting Authority to fulfill any of Contracting Authority's obligations under such site licence for all dealings with the City of Toronto.

3.2 Obligations in Respect of Contracting Authority Permits, Licences, Approvals and Agreements

- (a) Project Co shall, at its own cost and risk, perform the Project Co CA PLAA Obligations in accordance with their terms and conditions.
- (b) Project Co shall, at its own cost, provide or cause to be provided such information, documentation, and administrative assistance as Contracting Authority may request and as Project Co may reasonably be able to provide, and shall execute such applications and documents as are required to be in its name, to enable Contracting Authority to obtain, maintain or renew any Contracting Authority Permits, Licences, Approvals and Agreements or to demonstrate compliance with any Permits, Licences, Approvals and Agreements, provided that, other than to the extent caused by a breach of Project Co's obligations under this Section 3.2(b), nothing in this Section 3.2(b) shall make Project Co responsible, in any way, for obtaining, or for any delay in obtaining, or for the failure of Contracting Authority to obtain any Contracting Authority Permits, Licences, Approvals and Agreements.

3.3 PLAA Plan

- (a) Project Co shall prepare and provide to Contracting Authority, a Permits, Licences, Approvals and Agreements plan (the “**PLAA Plan**”), that sets out the schedule and approach to obtain each Permit, Licence, Approval and Agreement for which Project Co is responsible to obtain, provide or perform in accordance with the Project Agreement, including Project Co CA PLAA Obligations, Listed Project Co PLAA, the “Project Co Obligations” set out in the column of the same name in Appendix C, alternative approval processes as set out in Section 10 and all other Permits, Licences, Approvals and Agreements not expressly described in Appendix A, Appendix B or Appendix C to this Schedule 34. More specifically, the PLAA Plan shall:
- (i) Provide information in the format set out in Attachment 1 (*Form of Project PLAA Plan*) of Appendix D to this Schedule 34, or in such other format as the Project Co Representative and Contracting Authority Representative may agree, and which would include:
 - (A) identification of all relevant Permits, Licences, Approvals and Agreements required for the Works, including application requirements and lead times required for Permits, Licences, Approvals and Agreements acquisition including applicable SPR Submittals (if required in Attachment 1 (*Site Plan Review Checklist*) of Appendix C (*City of Toronto Works Submittals*) to Schedule 10 – Review Procedure), and preparation of the submittals in accordance with the relevant Permits, Licences, Approvals and Agreements Checklists;
 - (B) identification of the approach and timing proposed for liaison with Governmental Authorities, third parties and other stakeholders as necessary; and
 - (C) be submitted sixty (60) days after Financial Close.
 - (b) The PLAA Plan as submitted shall be subject to review and comment by Contracting Authority and shall be submitted through the PLAA Advisory Committee. Contracting Authority shall provide any comments on the PLAA Plan to Project Co within twenty (20) Business Days of receiving the PLAA Plan. Project Co shall revise the PLAA Plan responding to any commentary received from Contracting Authority and submit a revised PLAA Plan to the PLAA Advisory Committee within ten (10) Business Days of receipt of Contracting Authority’s comments.
 - (c) Updates to the PLAA Plan shall be submitted through the PLAA Advisory Committee to the Contracting Authority for review and comment. Contracting Authority shall provide any comments on the updated PLAA Plan to Project Co within ten (10) Business Days of receiving the updated PLAA Plan. Project Co shall revise the updated PLAA Plan responding to any commentary received from Contracting Authority and submit a further revised PLAA Plan to the PLAA Advisory Committee within five (5) Business Days of receipt of Contracting Authority’s comments.
 - (d) The final PLAA Plan shall be submitted to Contracting Authority through the PLAA Advisory Committee.

3.4 Additional Obligations

- (a) Where requested by Contracting Authority, Project Co shall cooperate with and within two (2) Business Days of receipt of Contracting Authority's request, provide Contracting Authority Representative with any written documentation or authorizations required by Contracting Authority for any inquiry of any Governmental Authority relating to Project Co's compliance with this Schedule 34 and any Permits, Licences, Approvals and Agreements relating to the Project. If Contracting Authority requests Project Co to provide any Confidential Information or Sensitive Information, Contracting Authority will, as part of that request, provide Project Co with a copy of relevant portions of the inquiry of the Governmental Authority (to the extent permitted by Applicable Law).
- (b) Project Co shall forward to the Contracting Authority Representative a copy of any report, submission, application or other document relating to Permits, Licences, Approvals and Agreements, concurrent with the filing or submission by Project Co of such report, submission, application or other document to any Governmental Authority. Within five (5) Business Days of receipt of a Governmental Authority's comments on its review of any such report, submission, application or other document, Project Co shall provide to the Contracting Authority Representative a written description and copy of any comments, terms or conditions from the Governmental Authority.
- (c) Project Co shall copy the Contracting Authority Representative on any correspondence with any Governmental Authority.
- (d) Project Co shall provide Contracting Authority with five (5) Business Days advance Notice of all planned meetings with any Governmental Authority and Project Co acknowledges that Contracting Authority may, in its sole discretion, attend such meetings. Project Co shall minute all such meetings held and distribute all meeting minutes to Contracting Authority and the applicable Governmental Authority.

4. PLAA FINANCIAL OBLIGATIONS

- (a) Project Co shall satisfy and be responsible for all Financial Obligations in connection with the Project Co Permits, Licences, Approvals and Agreements, including all Financial Obligations in respect of Project Co CA PLAA Obligations, provided that, if Contracting Authority is able to obtain an exemption from such Financial Obligations on behalf of Project Co and with respect to the Project, Project Co shall provide to Contracting Authority an accurate accounting of the costs and expenses avoided by Project Co as a result of any such exemption; and notwithstanding any other provision of this Project Agreement, Contracting Authority shall be permitted to deduct an amount equal to all costs and expenses that were avoided by Project Co as a result of any such exemption from the Substantial Completion Payment. Project Co or any of its Affiliates shall not be responsible for payment of any development charges, Toronto parkland dedications or cash-in-lieu relating to the Works, Ontario Line Subway, the New Third Party Infrastructure or the Lands.
- (b) Subject to Section 4(a), Contracting Authority shall be responsible for all Financial Obligations under or in respect of all the Contracting Authority Permits, Licences, Approvals and Agreements

(other than to the extent such Financial Obligations are identified as a Project Co CA PLAA Obligations in this Schedule 34).

- (c) The Parties agree that any refund, partial rebate or credit granted by Contracting Authority, the City, any applicable Governmental Authority or any other third party relating to the Financial Obligations referred to in Sections 4(a) and 4(b) shall be for the benefit of Contracting Authority to the extent such Financial Obligations were paid by Contracting Authority and shall be for the benefit of Project Co to the extent such Financial Obligations were paid by Project Co. Without limiting the generality of the foregoing, to the extent that Contracting Authority enters into any cost sharing arrangements with the City, any Governmental Authority or any third party, Project Co acknowledges and agrees that Contracting Authority shall be the sole beneficiary of any such cost sharing arrangements and Project Co shall have no entitlement whatsoever to any benefit arising from any such cost sharing arrangements.

5. PLAA ADVISORY COMMITTEE

- (a) Project Co shall have qualified representatives, including at a minimum the PLAA Manager(s), PLAA coordinator(s), and the Environmental Manager(s), who shall form a PLAA Advisory Committee for the Project (the “**PLAA Advisory Committee**”). A representative or representatives from the Contracting Authority Permits, Licences, Approvals and Agreements team will also participate in the PLAA Advisory Committee. A representative from any Governmental Authority may attend the PLAA Advisory Committee from time to time. Project Co shall provide ten (10) Business Days advance notice to the Contracting Authority if it requires an Governmental Authority to attend the PLAA Advisory Committee. The notice should include: the name of the Governmental Authority, the specific division’s name if applicable, a detailed description of the item specific to that Governmental Authority that will be discussed by the PLAA Advisory Committee and any supporting documents. The role of the PLAA Advisory Committee is to provide advice to Project Co on PLAA related matters.
- (b) Project Co shall conduct 16 (or more if required by Contracting Authority) PLAA Advisory Committee meetings annually for the first two years following Financial Close and an average of 6 (or more if required by Contracting Authority) meetings annually through the remainder of the Project Term.
- (c) Project Co shall commence the first PLAA Advisory Committee meeting no later than sixty (60) days after Financial Close.
- (d) The PLAA Advisory Committee shall provide teleconference details for those unable to attend in-person.
- (e) At the Contracting Authority Representative’s request, the engineer of record, designers or other subject matter experts shall attend PLAA Advisory Committee meetings to discuss Permits, Licences, Approvals and Agreements submissions, content, comments and responses, submittal lookahead established submission dates and other relevant requirements in compliance with the Project Agreement and any Applicable Law.
- (f) At PLAA Advisory Committee meetings, Project Co shall report on:

- (i) the PLAA Plan in accordance with Section 3.3;
 - (ii) the status of all Permits, Licences, Approvals and Agreements;
 - (iii) key Permits, Licences, Approvals and Agreements issues, design activities and Construction Activities undertaken as part of the preparation and processing of Permits, Licences, Approvals and Agreements submissions;
 - (iv) the status of Permits, Licences, Approval and Agreements conditions and progress to meet conditions;
 - (v) the status of any required Permits, Licences, Approval and Agreements renewals; and
 - (vi) any communications with Governmental Authorities relating to any Permits, Licences, Approvals and Agreements.
- (g) The PLAA Advisory Committee meetings shall be facilitated by Project Co and Project Co shall prepare and distribute an agenda and presentation to the Contracting Authority Representative at least five (5) Business Days in advance of each PLAA Advisory Committee meeting.
- (h) Project Co shall prepare PLAA Advisory Committee meeting minutes and submit such minutes to the Contracting Authority Representative within five (5) Business Days following the PLAA Advisory Committee meeting.

6. PLAA TRACKING

6.1 Project Co PLAA Tracking System

- (a) Project Co shall, at its sole cost and expense, provide Contracting Authority with a web-based interface to track the status of (i) each Project Co Permit, Licence, Approval and Agreement, (ii) Project Co CA PLAA Obligations, and (iii) obligations that are described in the column titled “Project Co Obligations” for such Listed Project Co PLAA in Appendix C (including information on each stage of preparation, submission, approval and renewal, as applicable) (the “**Project Co PLAA Tracking System**”).
- (b) The Project Co PLAA Tracking System shall:
- (i) include functionality to provide automated email alerts to a customizable frequency and list of email addresses;
 - (ii) be updated by Project Co each Business Day;
 - (iii) be available to Contracting Authority, and any applicable Governmental Authority in respect of their applicable Project Co Permits, Licences, Approvals and Agreements, in real time each Business Day; and
 - (iv) serve as a permanent repository for all applications, comments from any Governmental Authority, and obtained Permits, Licences, Approvals and Agreements for which Project

Co is responsible to obtain, provide or perform in accordance with the Project Agreement. Project Co shall upload all such applications, comments and materials to the Project Co PLAA Tracking System within ten (10) Business Days of receipt.

- (c) The Project Co PLAA Tracking System shall:
- (i) be operational no later than the date upon which the first Project Co Permits, Licences, Approvals and Agreements application is submitted;
 - (ii) include a feature that highlights to Contracting Authority and each applicable Issuing Authority each outstanding applicable Listed Project Co PLAAs when it reaches the following milestone triggers:
 - (A) **[REDACTED]**% of the number of Business Days designated for a final determination by the applicable Issuing Authority in Appendix B to this Schedule 34 for the applicable Listed Project Co PLAA; and
 - (B) **[REDACTED]**% of the number of Business Days designated for a final determination by the applicable Issuing Authority in Appendix B to this Schedule 34 for the applicable Listed Project Co PLAA;
 - (iii) contain accurate information as to the status of the applicable Project Co Permits, Licences, Approvals and Agreements;
 - (iv) in addition to tracking progress on obtaining Project Co Permits, Licences, Approvals and Agreements, also track progress in relation to any required renewals of Project Co Permits, Licences, Approvals and Agreements; and
 - (v) include a feature that tracks conditions of approval and progress to meet conditions of approval for Project Co Permits, Licences, Approvals and Agreements.
- (d) Project Co shall submit documentation on the proposed design, functionality, and usage of the Project Co PLAA Tracking System to the Contracting Authority Representative in accordance with Schedule 10 – Review Procedure no later than sixty (60) days after Financial Close.
- (e) In addition to the reporting requirements within the Project Co PLAA Tracking System required by this Section 6, Project Co shall provide separate written notice to the Contracting Authority Representative with respect to any outstanding Project Co Permits, Licences, Approvals and Agreements when it reaches the milestone triggers outlined in Section 6.1(c)(ii).
- (f) Project Co shall ensure at all times that the Project Co PLAA Tracking System:
- (i) is fully functional and available to Contracting Authority and the applicable Governmental Authority;
 - (ii) contains accurate information as to the status of all obligations listed under the column titled “Project Co Obligations” in Appendix A or Appendix C to this Schedule 34; and

- (iii) contains accurate information as to the status of all Project Co Permits, Licences, Approvals and Agreements.

6.2 Form of Project PLAA Tracker

- (a) Project Co shall, at its sole cost and expense, submit to Contracting Authority information in an excel file with the data fields set out in and in the form set out in Attachment 2 (*Form of Project PLAA Tracker*) to Appendix D to this Schedule 34 (the “**Project PLAA Tracker**”).
- (b) The Project PLAA Tracker shall be updated by Project Co each Business Day and submitted to Contracting Authority on a weekly basis and be made available to Contracting Authority and any applicable Governmental Authority in respect of their applicable Project Co Permits, Licences, Approvals and Agreements upon request.
- (c) Project Co shall ensure at all times that the Project PLAA Tracker:
 - (i) is fully functional and available to Contracting Authority and the applicable Governmental Authority;
 - (ii) contains accurate information as to the status of all obligations listed under the column titled “Project Co Obligations” in Appendix A or Appendix C to this Schedule 34; and
 - (iii) contains accurate information as to the status of all Project Co Permits, Licences, Approvals and Agreements.

7. SITE PLAN REVIEW PROCESS

- (a) Project Co shall submit all site plans related to the site plan review process for the Project Co Infrastructure in accordance with Schedule 10 – Review Procedure and any applicable Additional Project Co PLAA Responsibilities.
- (b) Neither Contracting Authority nor Project Co will be required to sign any site plan agreements in respect of site plan review as it relates to Project Co Infrastructure located on lands identified in Schedule 35 – Lands.
- (c) In the event that Project Co is required to construct any New Third Party Infrastructure that would require site plan approval, Project Co shall obtain such site plan approval on behalf of the applicable owner(s) of such New Third Party Infrastructure, and such site plan approval shall be considered a Project Co Permit, Licence, Approval and Agreement.

8. LISTED PROJECT CO PLAA REVIEW PROCESS

8.1 Pre-Submission Consultation

- (a) For each Listed Project Co PLAA for which there is an applicable Completion Checklist, prior to submitting the applicable Listed Project Co PLAA Application, Project Co shall confirm with the applicable Issuing Authority whether or not such Issuing Authority:

- (i) has modified any of the requirements for the applicable Completion Checklist; or
 - (ii) requires any documentation or information in addition to the documentation and information set out in the applicable Completion Checklist in order to review and make a determination on the applicable Listed Project Co PLAA Application;

(the “**Pre-Submission Consultation**”).
- (b) Project Co shall notify Contracting Authority in writing (the “**Pre-Submission Consultation Notice**”), no later than two (2) Business Days following a Pre-Submission Consultation, as to whether the applicable Issuing Authority:
 - (i) has modified any of the requirements for the applicable Completion Checklist; and
 - (ii) requires any documentation or information in addition to the documentation and information set out in the applicable Completion Checklist for the applicable Listed Project Co PLAA in order to review and make a determination on the applicable Listed Project Co PLAA Application (together with (i), the “**Additional PLAA Completion Requirements**”);

and Project Co shall set out in such Pre-Submission Consultation Notice the substantive details (including a description of any additional documentation and information required) of any applicable Additional PLAA Completion Requirements and, if applicable, the additional information set out in Section 8.1(c)(iii).
- (c) If, within twenty (20) Business Days after Project Co’s completion of the Pre-Submission Consultation, the Issuing Authority has not responded to Project Co in respect of the items set out in Sections 8.1(a)(i) and 8.1(a)(ii), then:
 - (i) Project Co shall be deemed to have completed the applicable Pre-Submission Consultation;
 - (ii) there shall be deemed to be no Additional PLAA Completion Requirements in respect of the applicable Listed Project Co PLAA; and
 - (iii) Project Co shall provide Contracting Authority with a written record which will include a description of the efforts Project Co undertook to complete the applicable Pre-Submission Consultation and any supporting documentation.
- (d) Provided that Project Co has completed or has been deemed to have been completed in accordance with Section 8.1(c), the Pre-Submission Consultation and submitted the Pre-Submission Consultation Notice in accordance with Section 8.1(b), then any Additional PLAA Completion Requirements (other than Additional PLAA Completion Requirements resulting from a Variation proposed by Project Co or the evaluation of an alternative solution under the *Ontario Building Code*) shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be treated as a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event, or if applicable, subject to

and in accordance with Section 42 (*Excusing Causes*) of the Project Agreement, be treated as an Excusing Cause.

8.2 Listed Project Co PLAA Applications

- (a) In respect of each Listed Project Co PLAA Application Project Co shall:
- (i) ensure that such application has been prepared in accordance with Good Industry Practice and includes all documentation and information required by the applicable Completion Checklist and any applicable Additional PLAA Completion Requirements and satisfies all the requirements contained therein;
 - (ii) no later than two (2) Business Days prior to submitting the Listed Project Co PLAA Application, submit to Contracting Authority a written confirmation that (i) the Permits, Licences, Approvals and Agreements Manager has reviewed the Listed Project Co PLAA Application and, to the best of their knowledge such Listed Project Co PLAA Application includes all documentation and information required by the applicable Completion Checklist, any applicable Additional PLAA Completion Requirements and satisfies all the requirements contained therein and (ii) where a Listed Project Co PLAA Application requires input from an engineer, an engineer of record has reviewed the documentation or information in the Listed Project Co PLAA Application which relates to engineering subject matter expertise and, to the best of their knowledge, such documentation and information in the Listed Project Co PLAA Application has been prepared in accordance with Good Industry Practice (the “**Listed Project Co PLAA Completeness Confirmation**”).
- (b) Project Co acknowledges and agrees that any Listed Project Co PLAA Application in respect of a Listed Project Co PLAA for which the Issuing Authority is the City of Toronto shall include a copy of the Listed Project Co PLAA Completeness Confirmation from the Permits, Licences, Approvals and Agreements Manager and, if applicable, the applicable engineer of record.

9. SUBMISSION, REVIEW AND ISSUANCE OF LISTED PROJECT CO PLAAS

9.1 Submission of Listed Project Co PLAA Applications

- (a) Project Co shall be responsible for submitting all Listed Project Co PLAA Applications to the applicable Issuing Authority on or before the date set out for submission of the Listed Project Co PLAA Application as set out in:
- (i) the Baseline Works Schedule or Recovery Works Schedule, as applicable; and
 - (ii) the Three Week Look-Ahead Schedule most recently delivered prior to the submission of the applicable application;
- (each such date being the “**Target Listed Project Co PLAA Submission Date**”).

- (b) No later than two (2) Business Days following a Listed Project Co PLAA Submission Date, Project Co shall:
 - (i) provide Contracting Authority with a copy of the applicable Listed Project Co PLAA Application as submitted to the Issuing Authority; and
 - (ii) cause the applicable Listed Project Co PLAA Submission Date to be entered into the Project Co PLAA Tracking System and the Project PLAA Tracker.
- (c) The first day of the Completeness Review Timeline, as identified in Appendix B, shall begin on the first Business Day following the Listed Project Co PLAA Submission Date. The Completeness Review Timeline is the period within which the Issuing Authority will review the Listed Project Co PLAA Application to determine if all required information and materials have been provided in the Listed Project Co PLAA Application, in accordance with the relevant Completion Checklist and Additional PLAA Completion Requirements. An Issuing Authority shall be deemed to have rejected a Listed Project Co PLAA Application if Project Co has not fulfilled the requirements of the applicable Completion Checklist and the Additional PLAA Completion Requirements.
- (d) The Project Co PLAA Timeline, as identified in Appendix B, shall begin the first Business Day following the end of the Completeness Review Timeline. The Project Co PLAA Timeline is the period within which the Issuing Authority will review the technical content of the Listed Project Co PLAA Application, request clarification as necessary, and make a decision regarding the issuance of the Listed Project Co PLAA.

9.2 Rejection by Issuing Authority of Listed Project Co PLAA Application

- (a) If an Issuing Authority rejects a Listed Project Co PLAA Application then Project Co shall immediately notify Contracting Authority of such rejection and, no later than one (1) Business Day following such rejection shall provide Contracting Authority with a written notice that includes:
 - (i) the name of the applicable Listed Project Co PLAA;
 - (ii) the applicable Target Listed Project Co PLAA Submission Date;
 - (iii) the applicable Listed Project Co PLAA Submission Date; and
 - (iv) the reasons given by the Issuing Authority for such rejection (including copies of any correspondence received from the Issuing Authority).
- (b) Unless otherwise directed by Contracting Authority, Project Co shall take whatever commercially reasonable steps are required, including the provision of additional information or documentation, in order to cause the Issuing Authority to accept and consider the rejected Listed Project Co PLAA Application as soon as possible.
- (c) Subject to Section 9.7(a), if an Issuing Authority has rejected a Listed Project Co PLAA Application, in whole or in part due to a failure by Project Co to include all documentation and

information required by the applicable Completion Checklist and any applicable Additional PLAA Completion Requirements or to satisfy all the requirements contained therein, then:

- (i) Project Co shall be responsible for all costs incurred by Project Co as a result of such rejection (including pursuant to Section 9.2(b));
 - (ii) Project Co shall resubmit to the Issuing Authority a complete Listed Project Co PLAA Application; and
 - (iii) the Listed Project Co PLAA Submission Date shall be revised to be the date upon which Project Co resubmits the complete Listed Project Co PLAA Application for review.
- (d) If an Issuing Authority has rejected a Listed Project Co PLAA Application for any reason other than as set out in Section 9.2(c), then such rejection shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be treated as a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event, or if applicable, subject to and in accordance with Section 42 (*Excusing Causes*) of the Project Agreement, be treated as an Excusing Cause, provided that Project Co has:
- (i) completed or was deemed to have completed the Pre-Submission Consultation;
 - (ii) provided Contracting Authority with the Pre-Submission Consultation Notice in accordance with 8.1(b);
 - (iii) prepared the applicable Listed Project Co PLAA Application in accordance with Section 8.2(a);
 - (iv) submitted the applicable Listed Project Co PLAA Application in accordance with Sections 9.1(a) and 9.1(b);
 - (v) provided Contracting Authority with the notices required pursuant to Section 9.2(a);
 - (vi) complied with its obligations pursuant to Sections 9.2(a) and 9.2(b); and
 - (vii) complied with its obligations in Sections 6.1(f) and 6.2(c) (but with respect to Section 6.1(f)(iii) and Section 6.2(c)(iii), only in respect of the applicable Listed Project Co PLAA).
- (e) In the event Project Co has substantially and materially, but not fully complied with its obligations in Sections 6.1(f) and 6.2(c), as determined by the Contracting Authority, and provided that Project Co has updated the Project PLAA Tracker with respect to the elements of the Listed Project Co PLAA Application that is the subject of a claim for relief, then Project Co may be entitled to relief or compensation in accordance with in Section 9.2(d), but Project Co's failure to fully comply shall be taken into account in determining Project Co's entitlement to any relief or compensation granted and a proportional adjustment shall be made based on the degree of non-compliance with Sections 6.1(f) and 6.2(c), as determined by the Contracting Authority acting reasonably.

9.3 Obligations During Review of Listed Project Co PLAA Application

- (a) Project Co shall, at all times prior to and following the Listed Project Co PLAA Submission Date, comply with all Listed Project Co PLAA Requirements.
- (b) At all times following the Listed Project Co PLAA Submission Date, Project Co shall provide timely and thorough responses (including provision of additional information) in accordance with Good Industry Practice to questions (including requests for additional information that are consistent with the Listed Project Co PLAA Requirements) or concerns posed by any Issuing Authority in respect of a Listed Project Co PLAA Application and such responses shall be made in accordance with deadlines set out in this Project Agreement or in the event that no deadlines are set out in this Project Agreement, within one (1) Business Day of the receipt of questions or concerns posed by the Issuing Authority during the Completeness Review Timeline or within three (3) Business Days of the receipt of questions or concerns posed by the Issuing Authority during the Project Co PLAA Timeline.
- (c) Without limiting its obligations in Section 9.3(b), where Project Co is of the opinion that the questions or concerns raised by the Issuing Authority are not consistent with Listed Project Co PLAA Requirements, within two (2) Business Days of receipt of such questions or concerns, Project Co shall provide written notice to Contracting Authority setting out the question or concern at issue and detailed reasons upon which Project Co has formed such opinion. Such written notice shall be tabled at the next meeting of the PLAA Advisory Committee and approaches to seeking resolution of the questions or concerns raised by the Issuing Authority, in accordance with Good Industry Practice, shall be discussed. In the event that Project Co has used commercially reasonable efforts to resolve the questions or concerns raised by the Issuing Authority in accordance with Good Industry Practice, and such questions or concerns remain unresolved such that the Listed Project Co PLAA continues to be deemed as rejected, then the provisions of 9.2(d) shall apply.

9.4 Failure to Make a Determination

- (a) Subject to Section 9.4(b), if an Issuing Authority fails to:

- (i) issue a Listed Project Co PLAA; or
- (ii) notify Project Co that it refuses to issue a Listed Project Co PLAA,

on or before the Listed Project Co PLAA Deadline then such failure shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be treated as a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event, or if applicable, subject to and in accordance with Section 42 (*Excusing Causes*) of the Project Agreement, be treated as an Excusing Cause, but only to the extent of the Determination Delay Period provided that Project Co has:

- (iii) prepared the applicable Listed Project Co PLAA Application in accordance with Section 8.2(a);

- (iv) submitted the applicable Listed Project Co PLAA Application in accordance with Sections 9.1(a) and 9.1(b);
 - (v) complied with its obligations in Section 9.3; and
 - (vi) complied with its obligations in Sections 6.1(f) and 6.2(c) (but with respect to Section 6.1(f)(iii) and Section 6.2(c)(iii), only in respect of the applicable Listed Project Co PLAA).
- (b) Without limiting Section 9.4(a), but subject to Section 9.7(a), Project Co shall not be entitled to the relief set out in Section 9.4(a) to the extent that the Issuing Authority's failure to issue a Listed Project Co PLAA is as a result of any failure of Project Co or the Listed Project Co PLAA Application to comply with the applicable Listed Project Co PLAA Requirements.

9.5 Refusal to Issue a Listed Project Co PLAA

- (a) If an Issuing Authority has notified Project Co that it refuses to issue a Listed Project Co PLAA then Project Co shall, no later than two (2) Business Days following the Listed Project Co PLAA Refusal Date, provide Contracting Authority with a written notice that includes:
- (i) the name of the Listed Project Co PLAA;
 - (ii) the applicable Target Listed Project Co PLAA Submission Date;
 - (iii) the applicable Listed Project Co PLAA Submission Date; and
 - (iv) the reasons given by the Issuing Authority for its refusal (including copies of any correspondence received from the Issuing Authority).
- (b) Unless otherwise directed by Contracting Authority, Project Co shall take whatever commercially reasonable steps are required, including the provision of additional information or documentation, in order to cause the Issuing Authority to approve Listed Project Co PLAA Application as soon as possible.
- (c) Subject to Section 9.7(a), if an Issuing Authority's refusal to issue Project Co a Listed Project Co PLAA is caused, in whole or in part, due to a failure by Project Co to comply with any Listed Project Co PLAA Requirements and Good Industry Practice then:
- (i) Project Co shall be responsible for all costs incurred by Project Co as a result of such refusal to issue (including pursuant to Section 9.2(b)); and
 - (ii) the applicable Listed Project Co PLAA Submission Date shall be revised to be the date upon which Project Co resubmits the complete Listed Project Co PLAA Application.
- (d) If an Issuing Authority has refused to issue a Listed Project Co PLAA for any reason other than Project Co failing to comply with the applicable Listed Project Co PLAA Requirements or Good Industry Practice then subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, such refusal shall be treated as a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event,

or if applicable, subject to and in accordance with Section 42 (*Excusing Causes*) of the Project Agreement, be treated as an Excusing Cause, provided that Project Co has:

- (i) prepared the applicable Listed Project Co PLAA Application in accordance with Section 8.2(a);
- (ii) submitted the applicable Listed Project Co PLAA Application in accordance with Sections 9.1(a) and 9.1(b);
- (iii) complied with its obligations in Section 9.3;
- (iv) provided Contracting Authority with the notices required pursuant to Section 9.5(a);
- (v) complied with its obligations pursuant to Section 9.5(b); and
- (vi) complied with its obligations in Sections 6.1(f) and 6.2(c) (but with respect to Section 6.1(f)(iii) and Section 6.2(c)(iii), only in respect of the applicable Listed Project Co PLAA).

9.6 Issuance of Listed Project Co PLAAs

- (a) In respect of each Listed Project Co PLAA, Project Co shall immediately notify Contracting Authority when the applicable Issuing Authority has:
 - (i) issued such Listed Project Co PLAA (the “**Listed Project Co PLAA Issuance Date**”); or
 - (ii) notified Project Co that it refuses to issue such Listed Project Co PLAA (the “**Listed Project Co PLAA Refusal Date**”).
- (b) If the Issuing Authority has issued a Listed Project Co PLAA with terms and conditions that, in the opinion of Project Co, are inconsistent with the Listed Project Co PLAA Requirements then Project Co shall, no later than five (5) Business Days following the Listed Project Co PLAA Issuance Date provide Contracting Authority with a written notice that includes:
 - (i) the name of the Listed Project Co PLAA;
 - (ii) the applicable Target Listed Project Co PLAA Submission Date;
 - (iii) the applicable Listed Project Co PLAA Submission Date;
 - (iv) the applicable Listed Project Co PLAA Issuance Date;
 - (v) the terms and conditions imposed by the Issuing Authority which, in the opinion of Project Co, are inconsistent with the Listed Project Co PLAA Requirements and the detailed reasons upon which Project Co has formed such opinion; and
 - (vi) all reasons and rationale given by the Issuing Authority for the inclusion of such terms and conditions (including copies of any correspondence received from the Issuing Authority in respect of the same).

For greater certainty, nothing in this Section 9.6(b) shall relieve Project Co of its obligation to comply with all terms and conditions of a Listed Project Co PLAA (including any terms and conditions which, in its opinion, are inconsistent with the Listed Project Co PLAA Requirements).

- (c) If an Issuing Authority has issued a Listed Project Co PLAA with terms and conditions that are inconsistent with the Listed Project Co PLAA Requirements (such inconsistent terms and conditions being, “**Additional Listed PLAA Requirements**”) such Additional Listed PLAA Requirements shall subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement be treated as a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event, or if applicable, subject to and in accordance with Section 42 (*Excusing Causes*) of the Project Agreement, be treated as an Excusing Cause, provided that Project Co has:
- (i) prepared the applicable Listed Project Co PLAA Application in accordance with Section 8.2(a);
 - (ii) submitted the applicable Listed Project Co PLAA Application in accordance with Sections 9.1(a) and 9.1(b);
 - (iii) complied with its obligations in Section 9.2(e);
 - (iv) provided Contracting Authority with the notices required pursuant to Section 9.6(b) and complied with its obligations thereunder; and
 - (v) complied with its obligations in Sections 6.1(f) and 6.2(c) (but with respect to Section 6.1(f)(iii) and Section 6.2(c)(iii), only in respect of the applicable Listed Project Co PLAA).

9.7 TTC Consent

- (a) For the Listed Project Co PLAA enumerated below, a failure or refusal of the TTC to provide the written consent included in the relevant Completion Checklist shall not be considered a failure of Project Co to comply with the Listed Project Co PLAA Requirements, nor shall it be considered a failure of Project Co to include all documentation and information required by the relevant Completion Checklist:
- (i) Road Cut Permit (Full Stream) and/or Construction/Encroachment (Major) Permit;
 - (ii) Road Cut Permit (Short Stream) and/or Construction/Encroachment (Minor) Permit; and
 - (iii) City of Toronto Street Occupancy Permit,

provided that Project Co has diligently sought to obtain the written consent of the TTC described in the relevant Completion Checklist and has otherwise complied with all obligations and requirements of the Project Agreement related to these Listed Project Co PLAAs and their associated Works.

10. ALTERNATIVE APPROVAL PROCESS BY CONTRACTING AUTHORITY

- (a) At the sole discretion of Contracting Authority, Project Co may be directed to submit a Listed Project Co PLAA Application that would typically be submitted to the City of Toronto, Toronto Building (as indicated in the Issuing Authority column, Appendix B), directly to Contracting Authority for review and approval.
- (b) Project Co may identify circumstances where demolition permit and building permit applications may not meet the requirements of Applicable Law as described in the *Ontario Building Code*. Under such circumstances, Project Co shall notify Contracting Authority at least thirty (30) Business Days prior to applying for such Project Co Permits, Licences, Approvals and Agreements, and Contracting Authority may, in its sole discretion, determine that such applications shall be submitted directly to Contracting Authority for approval instead of to the City of Toronto. Project Co shall otherwise meet the requirements of the *Ontario Building Code*.
- (c) All provisions of this Schedule 34, including for greater certainty, all requirements, obligations and entitlements to relief, shall continue to apply in the circumstances described in Sections 10(a) and 10(b) with references to Issuing Authority instead being to Contracting Authority.
- (d) With respect to the application of the alternative approval application process for demolition permits, any subsequent building permit applications related to infrastructure on the applicable location may proceed in accordance with Appendix B, or alternatively circumstances may warrant application of the alternative approval process in accordance with Sections 10(a) and 10(b).
- (e) With respect to application of the alternative approval application process for building permit applications (other than demolition permits), once an application has been submitted to the Contracting Authority for approval, any subsequent building permit applications related to the infrastructure associated with the original application shall be submitted directly to the Contracting Authority for approval.

APPENDIX A TO SCHEDULE 34

CONTRACTING AUTHORITY PERMITS, LICENCES, APPROVALS AND AGREEMENTS

No.	Issuing Authority and Name of Contracting Authority, Permit, Licence, Approval or Agreement	Contracting Authority Responsibilities and Requirements	Project Co Obligations	Date for Issuance
1.	City of Toronto, Transportation Services Permanent Closure of a Public Thoroughfare	Contracting Authority shall obtain all approvals from the City of Toronto that are required for permanent closures of public thoroughfares that are required to carry out the Works.	Project Co shall carry out its obligations with respect to undertaking these permanent closures in accordance with the terms of approval for permanent closures of public thoroughfares.	Prior to commencement of Works associated with this permit
2.	City of Toronto, Transportation Services Approval for Permanent Removal of On-street Parking	Contracting Authority shall obtain all approvals from the City of Toronto that are required for permanent removal of on-street parking that are required to carry out the Works.	Project Co shall carry out its obligations with respect to undertaking these permanent closures in accordance with the terms of approval for permanent removal of on-street parking.	Prior to commencement of Works associated with this permit
3.	City of Toronto, Transportation Services Street Occupation Permit	Contracting Authority is responsible for obtaining Council Approval for Street Occupation for all street occupancy of greater than one year (>365 days) required for specific locations that are identified in Section 3.2.8.6 (<i>Permitted Lane Closures</i>) of the Output Specifications.	Project Co is responsible for submitting and obtaining the Street Occupation Permits within the zones for which the Contracting Authority has obtained Council Approval. Project Co will be responsible for submitting and obtaining any renewals or revisions required for these permits and for compliance with the terms of any street occupation permits for occupancy of greater than one year	Prior to commencement of Works associated with this permit

No.	Issuing Authority and Name of Contracting Authority, Permit, Licence, Approval or Agreement	Contracting Authority Responsibilities and Requirements	Project Co Obligations	Date for Issuance
			(>365 days), as it carries out the Works. Project Co is responsible for obtaining Council Approval for Street Occupation for street occupancy of greater than one year (>365 days) for locations that are not identified in Section 3.2.8.6 (<i>Permitted Lane Closures</i>) of the Output Specifications.	
4.	City of Toronto, Toronto Water Master Servicing Agreement	Contracting Authority is responsible for entering into a master servicing agreement with the City of Toronto (the “ Master Servicing Agreement ”) associated with any relocation, alteration, construction, and/or installation of municipal water and/or sewer infrastructure, and shall be responsible for performance of the following obligations thereunder: <ul style="list-style-type: none"> • Section 19(a) (<i>City’s Fees</i>); and • Section 28(b) (<i>Successors and Assigns</i>). 	Project Co shall comply with the provisions in the Master Servicing Agreement, and shall be responsible for performance of all of Contracting Authority’s obligations, including, but not limited to, Schedule B (<i>Sample Certificate Letter</i>), Schedule C (<i>OHSA Declaration</i>), Schedule D (<i>City Policies</i>), Schedule E (<i>Toronto Water Wellness Report</i>), Schedule F (<i>City of Toronto C&A Protocol</i>) and Schedule G (<i>Drinking Water Works Permit and Municipal Drinking Water Licence</i>) thereunder except the items identified in the “Contracting Authority Responsibilities and Requirements” column. Contracting Authority has provided Project Co with a template master	Prior to commencement of Works associated with this permit

No.	Issuing Authority and Name of Contracting Authority, Permit, Licence, Approval or Agreement	Contracting Authority Responsibilities and Requirements	Project Co Obligations	Date for Issuance
			servicing agreement in the AWARD data room.	
5.	Sewer Discharge Agreement (Permanent / Long Term)	Contracting Authority is responsible for entering into an agreement with Toronto Water for the Permanent/Long Term Sewer Discharge Approval. The process for obtaining the Sewer Discharge Agreement with Toronto Water for the permanent discharge shall be undertaken by Contracting Authority, concurrent with the permit application process undertaken by Project Co.	Project Co shall be responsible for preparing and submitting the permit applications associated with the discharge and obtaining approval for the Permanent/ Long Term sewer discharge.	Prior to connection to the point of discharge
6.	MECP Permit under s. 17(1) in accordance with clause 17(2)(d) of the Endangered Species Act, 2007	Contracting Authority is responsible for obtaining permits under the Ontario <i>Endangered Species Act</i> (Ontario) that are required to carry out the Works. A Permit under s. 17(1) in accordance with clause 17(2)(d) of the Endangered Species Act, 2007, has been obtained, and has been posted to the Data Room.	Project Co is responsible for compliance with the conditions of any permit under the Ontario <i>Endangered Species Act</i> .	Prior to commencement of Works associated with this permit
7.	Ministry of Heritage, Sport, Tourism and Culture Industries (MHSTCI) Archaeological Assessment Clearance	Contracting Authority shall obtain MHSTCI Archaeological Assessment Clearance for all Archaeological Assessments that have been completed by the Contracting Authority.	None, as it relates to Archaeological Assessments that have been completed by the Contracting Authority.	Prior to commencement of Works associated with this permit by Project Co, in the locations subject to the Archaeological Assessments
8.	Canadian Pacific Railway permits and agreements	The Contracting Authority will be responsible for agreements with Canadian Pacific Railway required for the Works.	Project Co is responsible for compliance with the terms of any	Prior to commencement of construction by Project Co in the CP railway

No.	Issuing Authority and Name of Contracting Authority, Permit, Licence, Approval or Agreement	Contracting Authority Responsibilities and Requirements	Project Co Obligations	Date for Issuance
		<p>These agreements would include Construction Agreements and Access Agreements. The Contracting Authority will be entering into Access Agreements for investigations and verification of Project Co’s works.</p>	<p>agreements with Canadian Pacific Railway, as it carries out the Works.</p> <p>In regards to Access Agreements, subsequent to the Access Agreement with the Contracting Authority, an Access Agreement will also be required between Canadian Pacific Railway and Project Co.</p>	
9.	Fisheries and Oceans Canada, Fisheries Act Authorization	<p>Contracting Authority is responsible for consultation with Fisheries and Oceans Canada for the submission of a Request for Review under the Fisheries Act and any subsequent submission that may be required for Fisheries Act Authorization necessary to carry out the Works.</p>	<p>Project Co is responsible for compliance with any Fisheries Act Authorization as issued for the Works.</p> <p>In the event that Project Co determines that their design for the Works that is subject to Fisheries Act Authorization differs from the design as developed and submitted by Contracting Authority and/or that the conditions issued in any letter of direction or in any Fisheries Act Authorization received by Contracting Authority cannot be met by Project Co, then Project Co will be responsible to proceed separately to submit a Request for Review and, if necessary, to apply for Fisheries Act Authorization.</p>	<p>Prior to commencement of Works associated with this authorization</p>

APPENDIX C TO SCHEDULE 34

PROJECT CO STAGED PERMITS, LICENCES, APPROVALS AND AGREEMENTS

Under the staged process for Sewer Discharge Permits (Construction/Short Term) and for Permits to Take Water, Project Co has the option, should its design align with the assumptions and conditions of any Stage 1 permit in principle that is applied for and received by Contracting Authority, to submit a Stage 2 permit application in accordance with the staged process. Alternatively, Project Co may proceed separately with an application for Sewer Discharge Permits or PTTW outside of this staged process in accordance with Appendix B.

No.	Issuing Authority and Name of Permit, Licence, Approval or Agreement	Stage 1 Permit Conditions	Project Co Obligations	Staged Permits Deadline (number of Business Days)
1.	MECP Permit to Take Water	The Contracting Authority intends to submit a Stage 1 Permit to Take Water (PTTW) application that would address water taking requirements identified by the Contracting Authority within this contract.	<p>Project Co shall prepare and submit all documentation and materials that MECP will require (as per the Permit to Take Water – MECP Application Checklist) to issue the final PTTW.</p> <p>The finalization and issuance of the PTTW will be contingent upon Project Co submitting the following documents and information to, and to the satisfaction of, the PTTW director:</p> <ul style="list-style-type: none"> • A letter signed by a person in authority with the contractor that is undertaking the project stating the contractor’s intention to assume responsibility for the Metrolinx project, or a portion of the Metrolinx project, identified in the draft PTTW and quoting the draft PTTW number; 	[REDACTED]

No.	Issuing Authority and Name of Permit, Licence, Approval or Agreement	Stage 1 Permit Conditions	Project Co Obligations	Staged Permits Deadline (number of Business Days)
			<ul style="list-style-type: none"> • Parts 3, 4, 5 and 6 of the PTTW application form, including proof of the legal name of the contracting firm undertaking the project as required by part 3; • Confirmation of the contractor’s water taking (pumping) rates as indicated in section 9 of the PTTW application form; and, • A completed section 11 of the PTTW application form: the statement of the contractor • For clarity, the PTTW director will only issue a Permit to Project Co that authorizes a water-taking rate which is less than or equal to the draft estimate of the water-taking rate set out in the Stage 1 PTTW application. Any request for increased water taking or any change in the management of water taking and return flows that cannot be reconciled against the PTTW director’s technical evaluation of the Contracting Authority submitted Stage 1 application will require a new application. 	

No.	Issuing Authority and Name of Permit, Licence, Approval or Agreement	Stage 1 Permit Conditions	Project Co Obligations	Staged Permits Deadline (number of Business Days)
			<p>In the event that Project Co determines that the requirements of the Stage 1 Permit cannot be met, Project Co will be obliged to proceed with permitting in accordance with Appendix B.</p>	
2.	<p>COT</p> <p>Sewer Discharge Permit Application, Short Term (construction)</p>	<p>The Contracting Authority intends to submit a Stage 1 Sewer Discharge Permit application, short term, that would address sewer discharge during construction as identified by the Contracting Authority within this contract.</p>	<p>Project Co shall prepare and submit all documentation and materials that Toronto Water will require (as per the CoT - Sewer Use Permit or Discharge Agreement Application Checklist) to issue the final discharge approval (one per location) for short term (construction) discharge. This would include an updated hydraulic analysis report for the discharging sewer system.</p> <p>If Project Co’s submission is to the satisfaction of Toronto Water, and if Project Co meets the required criteria as identified below, Toronto Water’s review and issuance of the permit will be in accordance with the Staged Permits Deadline.</p> <p>The following parameters constitute meeting required criteria:</p> <ul style="list-style-type: none"> • A discharge rate and duration less than or equal to the estimated 	<p>[REDACTED]</p>

No.	Issuing Authority and Name of Permit, Licence, Approval or Agreement	Stage 1 Permit Conditions	Project Co Obligations	Staged Permits Deadline (number of Business Days)
			<p>discharge rate in the Stage 1 Sewer Use submission;</p> <ul style="list-style-type: none"> • No change in discharge point location(s) as identified in the Stage 1 Sewer Use submission; • Water quality that meets the criteria outlined in the City of Toronto’s Sewer Use By-Law for sanitary discharge or provide description of treatment system and copy of the ECA if required; • Discharge duration can be changed based on project schedule as approved by Toronto Water, if within the planned timeframe in the Stage 1 Sewer Use submission; and • Pump capacity less than or equal to proposed pump capacity in the Stage 1 Sewer Use submission. <p>In the event that Project Co’s submission is not to the satisfaction of Toronto Water, and if Project Co’s submission cannot meet the required criteria identified in the Stage 1 Sewer Discharge Permit, Project Co will be obliged to proceed with permitting in accordance with Appendix B.</p>

SCHEDULE 35

LANDS

PART A – DEFINITIONS AND INTERPRETATION

- (a) In this Schedule 35, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 35) shall have the meanings given to them in the Project Agreement and the following terms shall have the following meanings:
- (i) “**City Lands**” means the lands owned by the City upon which the New City Infrastructure is or will be located;
 - (ii) “**City Road Allowance**” means, collectively, but not limited to, the municipal streets and rights of way owned by the City of Toronto (or to which the City of Toronto has acquired or will acquire rights) and/or as identified under the City of Toronto Road Classification System – City of Toronto Street Name Index, commonly known as:
 - (I) Strachan Avenue, and any intersecting municipal streets or rights of ways approximately from Ordance Street to the F.G. Gardiner Expressway;
 - (II) Tecumseth Street, and any intersecting municipal streets or rights of ways approximately from Niagara Street to the rail corridor;
 - (III) Niagara Street, and any intersecting municipal streets or rights of ways approximately from Tecumseth Street and Bathurst Street;
 - (IV) Wellington Street West, and any intersecting municipal streets or rights of ways approximately from Tecumseth Street to Bathurst Street;
 - (V) Bathurst Street, and any intersecting municipal streets or rights of ways approximately from Stewart Street to Adelaide Street West;
 - (VI) King Street West, and any intersecting municipal streets or rights of ways approximately from Bathurst Street to Portland Street;
 - (VII) Adelaide Street West, and any intersecting municipal streets or rights of ways approximately from Bathurst Street to Portland Street;
 - (VIII) Portland Street, and any intersecting municipal streets or rights of ways approximately from Adelaide Street West to Richmond Street West;
 - (IX) Richmond Street West, and any intersecting municipal streets or rights of ways approximately from Portland Street to Augusta Avenue;
 - (X) Augusta Avenue, and any intersecting municipal streets or rights of ways approximately from Richmond Street West to Queen Street West;

- (XI) Queen Street, and any intersecting municipal streets or rights of ways, approximately from Augusta Avenue to Ontario Street;
- (XII) Jarvis Street, and any intersecting municipal streets or rights of ways approximately from Queen Street East to Shuter Street;
- (XIII) Sherbourne Street, and any intersecting municipal streets or rights of ways approximately from Queen Street East to Shuter Street;
- (XIV) Ontario Street, and any intersecting municipal streets or rights of ways, approximately from Queen Street East to Richmond Street East;
- (XV) Richmond Street East, and any intersecting municipal streets or rights of ways, approximately from Ontario Street to Berkeley Street;
- (XVI) Adelaide Street East, and any intersecting municipal streets or rights of ways, approximately from Berkeley Street to Parliament Street;
- (XVII) King Street East, and any intersecting municipal streets or rights of ways, approximately from Berkeley Street to Parliament Street;
- (XVIII) Front Street East, and any intersecting municipal streets or rights of ways, approximately from Berkeley Street to Parliament Street;
- (XIX) Berkeley Street, and any intersecting municipal streets or rights of ways, approximately from Richmond Street East to Scadding Avenue;
- (XX) Parliament Street, and any intersecting municipal streets or rights of ways, approximately from Front Street East to the F.G. Gardiner Expressway;
- (XXI) Cherry Street, and any intersecting municipal streets or rights of ways, approximately from Mill Street to Lake Shore Boulevard East;
- (XXII) The Don Valley Parkway, and any intersecting municipal streets or rights of ways, approximately from Sunlight Park Road to Lake Shore Boulevard East;
- (XXIII) Eastern Avenue, and any intersecting municipal streets or rights of ways, approximately from Lewis Street to McGee Street;
- (XXIV) Queen Street East, and any intersecting municipal streets or rights of ways, approximately from Boulton Avenue to Booth Avenue;
- (XXV) Dundas Street East, and any intersecting municipal streets or rights of ways, approximately from West Avenue to Carlaw Avenue;
- (XXVI) Logan Avenue, and any intersecting municipal streets or rights of ways, approximately from Dundas Street East to First Avenue;

- (XXVII) Carlaw Avenue, and any intersecting municipal streets or rights of ways, approximately from Badgerow Avenue to Gerrard Street East;
- (XXVIII) Gerrard Street East, and any intersecting municipal streets or rights of ways, approximately from Carlaw Avenue to Pape Avenue;
- (XXIX) Pape Avenue, and any intersecting municipal streets or rights of ways, approximately from the Gerrard Street East to Hopedale Avenue;
- (XXX) Minton Place, and any intersecting municipal streets or rights of ways, approximately from Pape Avenue to the Don Valley Parkway;
- (XXXI) The Don Valley Parkway, and any intersecting municipal streets or rights of ways, approximately from Beechwood Drive to Millwood Road;
- (XXXII) Millwood Road, and any intersecting municipal streets or rights of ways, approximately from The Don Valley Parkway to Village Station Road;
- (XXXIII) Overlea Boulevard, and any intersecting municipal streets or rights of ways, approximately from Millwood Road to Thorncliffe Park Drive;
- (XXXIV) Thorncliffe Park Drive, and any intersecting municipal streets or rights of ways, approximately from Overlea Boulevard to Banigan Drive;
- (XXXV) Beth Neilson Drive, and any intersecting municipal streets or rights of ways, approximately from Pat Moore Drive to Wicksteed Avenue;
- (XXXVI) Don Mills Road, and any intersecting municipal streets or rights of ways, approximately from Gateway Boulevard to Wynford Drive;
- (XXXVII) Simcoe Street, and any intersecting municipal streets or rights of ways, from Queen Street West south to Richmond Street West;
- (XXXVIII) University Street, and any intersecting municipal streets or rights of ways, from Queen Street West north to Armoury Street;
- (XXXIX) James Street, and any intersecting municipal streets or rights of ways, from Queen Street West north to Albert Street; and
- (XL) F.G. Gardiner Expressway, any intersecting municipal streets or rights of ways from Strachan Avenue to Dufferin Street;
- (iii) “**Commencement Date**” means the date provided in the column marked “Commencement Date” set out in the table in Part B of this Schedule 35;
- (iv) “**Construction Period Lands**” means the Lands designated as “Construction Period Lands” in the column marked “Construction Period Lands, Operational Term Lands or Project Term Lands” in the table in Part B of this Schedule 35, which shall be available to,

and be the responsibility of, in accordance with the terms of the Project Agreement, Project Co from and after the applicable South Civil Infrastructure Section Handover Date or North Civil Infrastructure Section Handover Date;

- (v) “**CP Rail Corridor Lands**” means all of the lands owned by CP Rail that are located in the vicinity of the Bala Subdivision between miles 2.1 to 12.2;
 - (vi) “**Lands**” means, collectively, the Metrolinx Lands and the Third Party Lands (including, for clarity, all buildings, structures, installations, fixtures, services and any other such improvements thereon and therein);
 - (vii) “**Metrolinx Easement Lands**” means the lands located within the City Road Allowance representing the required location for the Ontario Line Subway as set out in the Output Specifications;
 - (viii) “**Metrolinx Lands**” means, collectively, the lands owned or to be acquired by Metrolinx or lands in respect of which Metrolinx has acquired or will acquire certain rights, all as set out in the table in Part B of this Schedule 35 and Contracting Authority’s rights of access to the TTC Interchange Stations as set out in Part C of this Schedule 35, and, for clarity, (A) includes the Metrolinx Easement Lands and (B) excludes the Third Party Lands;
 - (ix) “**Operational Term Lands**” means the portion of the Lands designated as “Operational Term” in the column marked “Construction Period Lands, Operational Term Lands or Project Term Lands” in the table in Part B of this Schedule 35;
 - (x) “**Project Term Lands**” means the portion of the Lands designated as “Project Term” in the column marked “Construction Period Lands, Operational Term Lands or Project Term Lands” in the table in Part B of this Schedule 35. Project Term Lands includes both the Construction Period Lands and Operational Term Lands;
 - (xi) “**Standard Agreements**” has the meaning set out in Section (b)(iii) of Part A of the Schedule 35;
 - (xii) “**Third Party Lands**” means, collectively, (A) the CP Rail Corridor Lands, (B) the City Road Allowance, (C) the City Lands and (D) the TTC Lands, and does not include the Metrolinx Easement Lands; and
 - (xiii) “**TTC Lands**” means the lands owned by the TTC or the City upon which Existing TTC Infrastructure is, or New TTC Infrastructure will be, located.
- (b) For the purposes of this Schedule 35,
- (i) Construction Period Lands are available for use and access by, and shall be the responsibility of, Project Co, subject to Project Co’s obligations with respect to Permits, Licenses, Approvals and Agreements and the terms and conditions of the Project Agreement, for the Construction Activities from the Commencement Date until the earlier of,

- (A) the end of the period in the column marked “Duration” in the table in Part B of this Schedule 35; and
- (B) Final Completion.

For clarity, the Construction Period Lands will be available to, and shall be the responsibility of, Project Co as of the Commencement Date, but the term of the temporary easement will not commence until Project Co provides notice of commencement in accordance with the easement agreement. Project Co shall have no access to the Construction Period Lands following Final Completion.

- (ii) For those Construction Period Lands where the length of the period in the column marked “Duration” is less than the length of the Construction Period, notwithstanding the Commencement Date for the Construction Period Lands, availability for use and access by Project Co will not commence until:

- (A) Project Co provides notice of commencement in accordance with the easement agreement for that property provided by Contracting Authority; or
- (B) if no easement agreement for that property has been provided by Contracting Authority, one-hundred and twenty (120) days after Project Co provides notice of commencement to Contracting Authority.

- (iii) Pursuant to this Schedule 35 – Lands, for certain Metrolinx Lands, Metrolinx will enter into easement, licence, or similar agreement(s) (the “**Standard Agreements**”) prior to and after Financial Close. If, after the Technical Reference Date,

- (A) Metrolinx enters into one or more easement, licence or similar agreement(s) in respect of the Metrolinx Lands; or
- (B) Metrolinx acquires Metrolinx Lands that are subject to any easement, licence or similar agreement(s),

and, to the extent such agreement(s) have substantively the same terms and conditions as any Standard Agreements entered into prior to Financial Close and that are provided as Background Information prior to the Technical Reference Date, such agreement(s) shall be treated, for the purposes of Section 15 (*Encumbrances*) of the Project Agreement and for the purpose of Schedule 16 – Encumbrances, as though Project Co had knowledge of such agreements prior to Financial Close. For clarity, this Section (b)(iii) of Part A shall not apply in circumstances where Metrolinx enters into an easement, licence, or similar agreement after Financial Close on different terms and conditions from the Standard Agreement if such differences cause a delay to Project Co in performing the Project Operations, create additional obligations or liabilities for Project Co, or cause an increase in cost to Project Co.

- (iv) Operational Term Lands are available for use and access by, and shall be the responsibility of, in accordance with the terms of the Project Agreement, Project Co, subject to Project Co’s obligations with respect to Permits, Licenses, Approvals and Agreements and the

terms and conditions of the Project Agreement, for Project Operations from the Commencement Date until the earlier of:

- (A) the end of the period in the column marked “Duration”; and
 - (B) the Termination Date.
- (v) Subject to Project Co’s obligations with respect to the Permits, Licenses, Approvals and Agreements and the other terms and conditions of the Project Agreement, Project Co’s access to and use of the Metrolinx Lands for the purposes of the Project Operations is subject to the restrictions, qualifications, requirements and other provisions contained in the applicable grant, Schedule 16 – Encumbrances, and the column marked “Restrictions and Requirements” set out in the table in Part B of this Schedule 35.
- (vi) The information provided in the column marked “Address” in the table in Part B of this Schedule 35 is provided for information only. The information provided in the column marked “PIN” takes precedence over address information in the identification of exact locations of various properties.
- (vii) With respect to access to the TTC OCC and BOCC,
- (A) during the Construction Period, the Contracting Authority will provide access to the TTC OCC and BOCC to Project Co to permit Project Co to undertake the Project Operations in respect of the TTC OCC and BOCC; and
 - (B) during the Operational Term, the Contracting Authority will provide access to the TTC OCC and BOCC to Project Co to permit Project Co to deliver the Project Co Services at the TTC OCC and BOCC specified in the Output Specifications.
- (viii) Access to TTC Lands and Lands located within the TTC Zone of Influence, are subject to Project Co’s obligations with respect to the TTC Zone of Influence.
- (ix) All Works associated with Stations performed within the Metrolinx Easement Lands are to be contained within a limit of twenty (20) meters from the centre line of the nearest track alignment, except for the following locations:
- (A) at Simcoe Street, within 35 meters south of the centerline of the eastbound track alignment;
 - (B) at University Avenue, within 115 meters north of the centerline of the westbound track alignment excluding the western 6.1 meters of the University Avenue ROW; and
 - (C) at James Street, within 60 meters north of the centerline of the westbound track alignment.
- (x) For Construction Period Lands identified as a temporary easement on property plates, Project Co shall remove all supportive excavation elements including, but not limited to,

tie backs, soil anchors and rock bolts, prior to returning the applicable Lands. No part of Project Co Infrastructure or any other Works shall remain on the Construction Period Lands identified as a temporary easement on property plates.

SCHEDULE 36

PROPERTY ACCESS MATTERS

1. DEFINITIONS

In this Schedule 36, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 36) shall have the meaning given to them in the Project Agreement and the following terms shall have the following meanings:

- 1.1 “**Actual Property Access Closure Costs**” or “**APACC**” means the total cost of all Actual Property Access Closures for a Property Access Area in respect of a given calendar month, which total cost shall be calculated by multiplying the number of Actual Property Access Closures for the applicable Property Access Area by the applicable Unit Cost.
- 1.2 “**Actual Property Access Closures**” or “**APAC**” means all actual Property Access Closures that occur in a given calendar month for a Property Access Area.
- 1.3 “**Aggregate Actual Property Access Closures**” or “**AAPAC**” means all Actual Property Access Closures for a Property Access Area from Financial Close to Substantial Completion, as set out in the final Property Access Closure Analysis Report.
- 1.4 “**Aggregate Actual Property Access Closures Cost**” or “**AAPACC**” means the sum of all Actual Property Access Closure Costs for a Property Access Area from Financial Close to Substantial Completion, as set out in the final Property Access Closure Analysis Report.
- 1.5 “**Aggregate Target Property Access Closures**” or “**ATPAC**” means the total target Property Access Closures for a Property Access Area from Financial Close to Substantial Completion, which:
- (a) are set out in the Property Access Closure Target Letter; and
 - (b) shall include and account for all requirements of Section 3.2 (*Construction Requirements*) of the Output Specifications as well as Schedule 35 – Lands.
- 1.6 “**Aggregate Target Property Access Closures Cost**” or “**ATPACC**” means the total cost of all target Property Access Closures for a Property Access Area from Financial Close to Substantial Completion, as set out in the Property Access Closure Target Letter.
- 1.7 “**Door Closure**” means:
- (a) the closure of pedestrian access to a building door; or
 - (b) any of the following circumstances in which business operations associated with a building are disrupted:
 - (i) circumstances in which the Works are taking place within 1.5 metres of a building door;

- (ii) Utility shutdowns as a result of the Works that preclude the delivery of Utilities to a building; and
- (iii) circumstances in which pedestrian ingress and egress cannot be provided to a building,

provided that such closure or disruption is as a result of the Works, and provided that such closure or disruption takes place for more than four cumulative hours within any eight hour duration in any day or for more than eight cumulative hours in any day.

1.8 “**Driveway Closure**” means:

- (a) for a property zoned for commercial use:
 - (i) where the width of a driveway as of Financial Close is less than 3.75 metres, a reduction of the width of that driveway to less than the width of that driveway as of Financial Close; or
 - (ii) where the width of a driveway as of Financial Close is greater than or equal to 3.75 metres:
 - (A) a reduction of the width of that driveway to less than 3.75 metres;
 - (B) where the width of a driveway as of Financial Close is less than 7.50 metres, a reduction of the width of that driveway to less than the width of that driveway as of Financial Close, unless Project Co provides, at all times during the duration of the reduction, traffic control persons at the location of that driveway; or
 - (C) where the width of a driveway as of Financial Close is greater than or equal to 7.50 metres, a reduction of the width of that driveway to less than 7.50 metres, unless Project Co provides, at all times during the duration of the reduction, traffic control persons at the location of that driveway; or
- (b) for a property zoned for residential use:
 - (i) where the width of a driveway as of Financial Close is less than 3.0 metres, a reduction of the width of that driveway to less than the width of that driveway as of Financial Close; or
 - (ii) where the width of a driveway as of Financial Close is greater than or equal to 3.0 metres:
 - (A) a reduction of the width of that driveway to less than 3.0 metres;
 - (B) where the width of a driveway as of Financial Close is less than 6.0 metres, a reduction of the width of that driveway to less than the width of

that driveway as of Financial Close, unless Project Co provides, at all times during the duration of the reduction, traffic control persons at the location of that driveway; or

- (C) where the width of a driveway as of Financial Close is greater than or equal to 6.0 metres, a reduction of the width of that driveway to less than 6.0 metres, unless Project Co provides, at all times during the duration of the reduction, traffic control persons at the location of that driveway;

provided that, in each case, such reduction is as a result of the Works and takes place for more than four cumulative hours within any eight hour duration in any day or for more than eight cumulative hours in any day.

- 1.9 **“Property Access Area”** means the defined portions of the Site where Works are to be undertaken in which the Unit Costs are to be applied for any Property Access Closure as identified in Appendix A. The Property Access Areas are delineated as follows:
- (a) Property Access Area 1 – Exhibition Station to west of Don River;
 - (b) Property Access Area 2 – East of Don River to Minton Pace; and
 - (c) Property Access Area 3 – Minton Place to Science Centre.
- 1.10 **“Property Access Closure”** means a Door Closure, Driveway Closure, or Sidewalk Closure, as applicable, as contemplated in Appendix A, but excludes:
- (a) a Door Closure or Driveway Closure for which there is a Property Access Closure Agreement in full force and effect between the parties thereto; and
 - (b) any Door Closure, Driveway Closure or Sidewalk Closure that is solely the result of a Utility Company carrying out self-performed work that must be carried out by that Utility Company as part of the Works.
- 1.11 **“Property Access Closure Adjustment”** or **“PACA”** means the amount calculated pursuant to Section 5 and, for clarity, adjusted in accordance with Section 5.5.
- 1.12 **“Property Access Closure Agreement”** means an executed and delivered agreement between Project Co or a Project Co Party and the owner(s) or tenant(s) of a property located in a Property Access Area in respect of Project Co or such Project Co Party, as part of the Works, providing alternative access or other mitigating measures to such owner(s) or tenant(s) in respect of a Door Closure or a Driveway Closure. For the purposes of this Schedule 36, “Property Access Closure Agreement” includes all amendments, other modifications and supplements to, restatements of and any termination of such agreement.
- 1.13 **“Property Access Closure Analysis Report”** has the meaning given to it in Section 2.1.
- 1.14 **“Property Access Closure Measurement and Verification Plan”** or **“PACMVP”** has the meaning given to in Section 3.3.

- 1.15 “**Property Access Closure Target Letter**” means the letter attached to Appendix C.
- 1.16 “**Property Access Matters Review Meeting**” has the meaning given in Section 3.6.
- 1.17 “**Sidewalk Closure**” means the closure of a sidewalk for more than four cumulative hours within any eight hour duration in any day or for more than eight cumulative hours in any day as a result of the Works, except that a closure of a sidewalk shall not constitute a “Sidewalk Closure” if Project Co provides, at all times during the duration of the closure, a continuous passage for pedestrians by means of an accessible temporary or permanent sidewalk of a width not less than 1.5 metres along:
- (a) at least one side of the roadway for segments of the roadway set out in Table 1.17-1; or
 - (b) both sides of the roadway for the segments of the roadway not set out in Table 1.17-1.

Table 1.17-1 – Roadway Segments with Sidewalk Allowed on One Side

Road segment	Requirements
None.	

- 1.18 “**Unit Cost**” for each Property Access Closure, means the price for each Door Closure, Driveway Closure or Sidewalk Closure as set out in Appendix A. The unit costs are per day.

2. CONTENT AND FORMAT OF THE PROPERTY ACCESS CLOSURE ANALYSIS REPORT

- 2.1 Project Co shall, on a monthly basis starting at Financial Close, monitor its Property Access Closures at each Property Access Area and provide a report of such Property Access Closures to Contracting Authority (each, a “**Property Access Closure Analysis Report**”) pursuant to and in accordance with this Section 2.1. Project Co shall classify and quantify all Property Access Closures in each Property Access Closure Analysis Report in accordance with this Schedule 36.
- 2.2 The Property Access Closure Analysis Report shall, at a minimum, include the following information:
- (a) using the template provided in Appendix B, a summary of Actual Property Access Closures and Actual Property Access Closure Costs for each Property Access Area, on a Property Access Area by Property Access Area basis, for the previous calendar month, indicating, for each Door Closure, Driveway Closure or Sidewalk Closure:
 - (i) the location (indicating Property Access Area); and
 - (ii) the time, date, and duration;

- (b) a projection of anticipated Property Access Closures for each Property Access Area for each month from the then current calendar month until the anticipated Substantial Completion Date, along with trends and potential risks associated with the anticipated Property Access Closures;
- (c) accurate and precise data in support of the items described in Sections 2.2(a) and 2.2(b);
- (d) for each Property Access Area, a calculation of:
 - (i) the sum of all APACC from Financial Close up to and including the previous calendar month; and
 - (ii) the variance between the amount described in Section 2.2(d)(i) and the cost of all projected Property Access Closures from Financial Close up to and including the previous calendar month, as set out in the Property Access Closure Target Letter;
- (e) for each Property Access Area, a calculation of:
 - (i) the sum of all anticipated APACC from the then current calendar month to the anticipated Substantial Completion Date based on the projected Property Access Closures described in Section 2.2(b); and
 - (ii) the variance between the amount described in Section 2.2(e)(i) and the cost of all anticipated Property Access Closures from the then current calendar month to the anticipated Substantial Completion Date, as set out in the Property Access Closure Target Letter;
- (f) Project Co's projected estimate of the AAPACC and the Property Access Closure Adjustment;
- (g) a corrective action plan if there is a forecasted exceedance of Project Co's projected estimate of the AAPACC from the ATPACC by greater than [REDACTED]% for any Property Access Area;
- (h) the progress of, and any planned adjustments to, any corrective action plan that was in place from any previous Property Access Closure Analysis Reports;
- (i) the measurement and verification of Property Access Closures in accordance with the Property Access Closure Measurement and Verification Plan;
- (j) summary tables from all previous Property Access Closure Analysis Reports delivered by Project Co to Contracting Authority; and
- (k) a full copy of each Property Access Closure Agreement (in un-redacted form) executed and delivered by the parties thereto in the previous month (including, for clarity, any amendment, other modification or supplement to, or restatement or termination of such agreement).

- 2.3 Subject to Section 2.4, Project Co shall prepare and deliver to Contracting Authority a Property Access Closure Analysis Report in respect of each calendar month.
- 2.4 Each Property Access Closure Analysis Report shall be delivered by Project Co to Contracting Authority in accordance with Schedule 10 – Review Procedure within five (5) Business Days after the end of the calendar month that is the subject of the Property Access Closure Analysis Report. Notwithstanding the foregoing, the final Property Access Closure Analysis Report shall be (a) prepared and delivered by Project Co to Contracting Authority twenty (20) Business Days before the anticipated Substantial Completion Date, and (b) updated pursuant to Section 5.5.

3. PROCEDURES FOR DETERMINING AND REPORTING PROPERTY ACCESS CLOSURES AND PROPERTY ACCESS CLOSURE ADJUSTMENTS

- 3.1 Contracting Authority will assess Project Co the cost of Property Access Closures based on the total Property Access Closures that occur per day on a per Property Access Area basis. The cost of Property Access Closures for each Property Access Area shall be included in the calculation of the Property Access Closure Adjustment.
- 3.2 The AAPACC and ATPACC for each Property Access Area shall be used to calculate the Property Access Closure Adjustment. The Property Access Closure Target Letter shall not be amended, altered or adjusted except by the process described in Section 4.
- 3.3 No later than ninety (90) days prior to the first Property Access Closure, Project Co shall submit to Contracting Authority, in accordance with Schedule 10 – Review Procedure, a plan describing how Project Co will track all of its Property Access Closures on a monthly basis for each Property Access Area, how Project Co will evaluate its performance on Property Access Closure progress, and the verification process through which Contracting Authority and the City of Toronto may audit Project Co’s Property Access Closure performance (the “**Property Access Closure Measurement and Verification Plan**” or “**PACMVP**”). Project Co shall ensure that all subsequent Property Access Closure Analysis Reports are consistent with the Property Access Closure Measurement and Verification Plan.
- 3.4 The PACMVP shall, at a minimum, include the following information:
- (a) a narrative clearly describing the methodology to be used to minimize the number and duration of Property Access Closures;
 - (b) clearly identified objectives and targets;
 - (c) identification of the communication methods, protocols and timing by which notification to property owners of Property Access Closures will be made;
 - (d) an anticipated schedule of Property Access Closures organized by Property Access Area;
 - (e) the methods by which Project Co will measure Property Access Closure duration;
 - (f) the methods by which Project Co will compare planned and actual performance in meeting Property Access Closure targets; and

- (g) the method by which Property Access Closure records will be recorded, preserved and made available to Contracting Authority for the purposes of verification.
- 3.5 Project Co shall not initiate or proceed with initiation or implementation of Property Access Closures prior to submission and review of the PACMVP by Contracting Authority in accordance with Schedule 10 – Review Procedure.
- 3.6 No later than five (5) Business Days following the submission of each Property Access Closure Analysis Report (or as otherwise agreed to between the Parties), Project Co and Contracting Authority shall convene a review meeting (the “**Property Access Matters Review Meeting**”) to be attended by the Project Co Representative and other relevant Project Co representatives (including the Communications and Public Engagement Lead described in Schedule 9 – Key Individuals) and the Contracting Authority Representative. At the Property Access Matters Review Meeting, Project Co shall present the Property Access Closure Analysis Report to Contracting Authority, and Contracting Authority and Project Co shall discuss the Property Access Closure Analysis Report and the AAPAC for the preceding period.
- 3.7 Project Co shall assist the Contracting Authority Representative by providing information with respect to Property Access Closures and access to the Property Access Closure records, and by other means as may reasonably be required to confirm the information in the Property Access Closure Analysis Report.
- 3.8 For the purpose of this Schedule 36, Property Access Closures shall be measured on a per day basis. Project Co shall ensure that at no time shall any Property Access Closure persist for more than fifteen (15) consecutive days, or more than a combined total of thirty (30) days over the course of the Construction Period. Any two Property Access Closures with less than ten (10) days between closures shall be deemed to be consecutive for the purposes of this Section 3.8. For clarity, if Project Co allows a Property Access Closure to persist for more than fifteen (15) consecutive days, or for more than a combined total of thirty (30) days in contravention of this Section 3.8, Project Co shall continue to incur Actual Property Access Closure Costs for such Property Access Closures in accordance with this Schedule 36.

4. PROCESS FOR AMENDING THE AGGREGATE TARGET PROPERTY ACCESS CLOSURE

- 4.1 In all cases, adjustments or corrections to the ATPAC must be consistent with the principles outlined in the PACMVP.
- 4.2 Project Co and Contracting Authority shall, acting reasonably, agree to make any adjustments or corrections to the APACC, ATPACC, AAPAC and AAPACC for any Property Access Area, but only in the event of changes implemented due to an amendment of the Project Agreement or a Variation that would cause Property Access Closure changes.
- 4.3 The Party requesting an amendment to the ATPAC for a Property Access Area in accordance with Section 4.2 shall initiate a Variation in accordance with Schedule 22 – Variation Procedure. Where required, an amended PACMVP shall also be prepared and include a detailed analysis of the impacts to area businesses and residents, including an analysis of revised Property Access Closure requirements. The amended PACMVP shall include a recommendation regarding

amendments to the ATPAC. Both Contracting Authority and Project Co shall agree to the amended ATPAC no later than twenty (20) Business Days following receipt of such analysis. If there is no agreement within a further ten (10) Business Days, then either Party may refer the matter to the Dispute Resolution Procedure.

5. CALCULATION OF PROPERTY ACCESS CLOSURE ADJUSTMENT

5.1 For the purpose of preparing the Property Access Closure Target Letter, the Aggregate Target Property Access Closures Cost shall be calculated for each Property Access Area as follows:

[REDACTED]

5.2 For the purpose of preparing the Property Access Closure Analysis Report, the Aggregate Actual Property Access Closures Cost shall be calculated for each Property Access Area as follows:

[REDACTED]

5.3 Within two (2) Business Days following the final determination of the AAPACC for each Property Access Area as set out in the final Property Access Closure Analysis Report, Project Co shall calculate the Property Access Closure Adjustment as follows:

[REDACTED]

5.4 Before the expiry of the two (2) Business Day period set out in Section 5.3, Project Co shall provide Notice to Contracting Authority setting out the Property Access Closure Adjustment and the details supporting its calculation for Contracting Authority's review, comment and confirmation. Project Co shall promptly provide Contracting Authority with any other supporting information in respect of Project Co's calculation and adjustment of the Property Access Closure Adjustment that Contracting Authority may reasonably request.

5.5 On the Substantial Completion Date, Project Co shall provide (a) Notice to Contracting Authority setting out any adjustment to the Property Access Closure Adjustment required as a result of any Property Access Closures that occurred between the date of the submission of the final Property Access Closure Analysis Report pursuant to Section 2.4 and the Substantial Completion Date and the details supporting the calculation of such adjustment for Contracting Authority's review, comment and confirmation, and (b) an updated final Property Access Closure Analysis Report that includes and reflects such Property Access Closures.

5.6 The Property Access Closure Adjustment shall be shown as a separate item within the invoice for the Substantial Completion Payment provided by Project Co to Contracting Authority under the Project Agreement.

5.7 For greater certainty,

(a) Contracting Authority shall deduct the amount of the Property Access Closure Adjustment, as reviewed and confirmed by Contracting Authority, from the Substantial

Completion Payment pursuant to Section 34.1(b) (*Payments During the Construction Period*) of the Project Agreement; and

- (b) the Property Access Closure Adjustment deduction from the Substantial Completion Payment shall not be subject to the limitations set out in Section 57.4 (*Maximum Liability*) of the Project Agreement.

5.8 For the purposes of calculating the Property Access Closure Adjustment in accordance with this Schedule 36, the Parties shall have regard to Sections 40.2(k) (*Consequences of a Delay Event*) and 44.2(e) (*Consequences of Force Majeure*) of the Project Agreement.

6. APPLICATION

6.1 The Property Access Closure requirements of this Schedule 36 will no longer be in effect once Substantial Completion has been achieved.

7. PROPERTY ACCESS CLOSURE AGREEMENTS

7.1 Without limitation or prejudice to any of Contracting Authority's rights under the Project Agreement whatsoever (including, for greater certainty, under Section 56.1 (*Project Co Indemnities to Contracting Authority*) of the Project Agreement) and subject to Section 7.2, Project Co may, at its risk, cost and expense, enter into or cause a Project Co Party to enter into Property Access Closure Agreements with owners and tenants of properties within Property Access Areas who are affected by Door Closures or Driveway Closures.

7.2 Project Co shall ensure that no Property Access Closure Agreement contains confidentiality provisions that would inhibit or prevent such agreement's full and un-redacted disclosure to Contracting Authority pursuant to Section 2.2(k).

APPENDIX A TO SCHEDULE 36

UNIT COSTS FOR PROPERTY ACCESS CLOSURES

- 1.0 Where a Property Access Closure address or a Unit Cost for a Property Access Closure has not been provided in this Appendix A, Project Co may submit a request to Contracting Authority to perform a Property Access Closure at that address. Contracting Authority may, in its sole discretion, permit the Property Access Closure and, if permitted, provide the Unit Cost. Project Co shall not perform a Property Access Closure at an address for which Contracting Authority has not provided a Unit Cost pursuant to this Appendix A.

PROPERTY ACCESS CLOSURE TARGET LETTER

[REDACTED]

SCHEDULE 37

INTELLECTUAL PROPERTY

ARTICLE 1. INTERPRETATION

- 1.1 **Definitions:** In this Schedule 37, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 37) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:
- (a) **“Civil Project IP”** means Intellectual Property that is created, developed or acquired by, or licensed to Contracting Authority by, any of the South Civil Project Co, any South Civil Project Co Party, North Civil Project Co, any North Civil Project Co Party, pursuant to any of the Civil Project Contracts.
 - (b) **“Contracting Authority Intellectual Property”** means:
 - (i) Intellectual Property that is Owned, created, developed or acquired by Contracting Authority or any Contracting Authority Personnel:
 - (A) prior to the Project Term; or
 - (B) during the Project Term but outside the Project Scope; or
 - (C) during the Project Term and within the Project Scope, but which is not Project Co Intellectual Property, Contracting Authority Jointly Developed Materials, Subcontractor Intellectual Property or Third Party Intellectual Property;
 - (ii) the Developed Intellectual Property, excluding any Developed Intellectual Property that is specified in a Variation or by separate agreement of Contracting Authority and Project Co to be Owned by Project Co;
 - (iii) all Operational and Maintenance Data;
 - (iv) in addition to the Operational and Maintenance Data set out in item (iii) above, any other Project Data that is specified in a Variation or by separate agreement of Contracting Authority and Project Co to be Owned by Contracting Authority;
 - (v) subject to Section 51.4 (*Jointly Developed Materials*) of the Project Agreement, all Modifications to any of the foregoing, whether made by or on behalf of Project Co, Contracting Authority or any Subcontractor alone, jointly with each other or with any other person; and
 - (vi) the Civil Project IP,

and which is used by Contracting Authority, or required to be used by Project Co or a Subcontractor, in the performance of their respective obligations in respect of the Project or under the Project Agreement.

- (c) **“Contracting Authority Personnel”** means persons acting on behalf of Contracting Authority or employed, engaged or retained by Contracting Authority in connection with the performance of Contracting Authority’s obligations in connection with the Project, including Contracting Authority’s consultants, contractors and subcontractors and the employees, officers, directors, volunteers and agents of Contracting Authority and its direct and indirect consultants, contractors and subcontractors, excluding Project Co and any Subcontractor and their respective Personnel.
- (d) **“Contracting Authority Supplied Third Party Intellectual Property”** means Intellectual Property Owned by a person other than Contracting Authority, Project Co, a Subcontractor or any of their respective Personnel that is delivered, supplied or otherwise provided by Contracting Authority to Project Co under the Project Agreement for the purpose of performing the Project Operations and the Project, including any Background Information.
- (e) **“Contracting Authority Trademarks”** means the Trademarks Owned by Contracting Authority.
- (f) **“Copyleft Licence”** means any licence that requires, as a condition of use, modification and/or distribution of Copyleft Materials, that such Copyleft Materials, or other software or content incorporated into, derived from, used, or distributed with such Copyleft Materials: (i) in the case of software, be made available or distributed in a form other than binary (e.g., source code form), (ii) be licensed for the purpose of preparing derivative works, (iii) be licensed under terms that allow the products or portions thereof or interfaces therefor to be reverse engineered, reverse assembled or disassembled (other than by operation of law), or (iv) be redistributable at no license fee. Copyleft licences include the GNU General Public License, the GNU Lesser General Public License, the Mozilla Public License, the Common Development and Distribution License, the Eclipse Public License, and all Creative Commons “sharealike” licenses.
- (g) **“Copyleft Materials”** means any software or content subject to a Copyleft Licence.
- (h) **“Deliverable”** means any item required to be supplied or delivered by Project Co to Contracting Authority within the Project Scope, including Equipment and Vehicles, Project Software, Project Data and all other deliverable requirements specified in Schedule 10 – Review Procedure.
- (i) **“Delivered”** means, with respect to any Intellectual Property, that such Intellectual Property is:
 - (i) a Deliverable;
 - (ii) incorporated, embedded or otherwise included in any Deliverable, the Ontario Line Subway System or any part of the work delivered as part of the Project Operations;
 - (iii) necessary for the undertaking, completion and performance of the Project Operations or any Equivalent Activity; or
 - (iv) necessary for the Use by Contracting Authority or a subsequent Licensee of any Deliverable, the Ontario Line Subway System, or any part of the work delivered as part of

the Project Operations or any Intellectual Property in accordance with the rights granted to Contracting Authority hereunder.

- (j) **“Developed Intellectual Property”** means Intellectual Property that is:
- (i) created or developed, or Ownership of which is acquired, by Project Co, any Subcontractor or any Project Co Personnel, or Subcontractor Personnel, whether alone or together with each other or any other person, during the Project Term and within the Project Scope;
 - (ii) created, developed or Ownership of which is acquired for the purposes of the Project, the Project Operations or the Ontario Line Subway System; and
 - (iii) created or designed based on functional, design and performance specifications provided by Contracting Authority, or Contracting Authority Personnel, or Contracting Authority Parties,

and, for greater certainty, Developed Intellectual Property does not include any Project Co Intellectual Property used to develop or create the Developed Intellectual Property.

- (k) **“Embedded Software”** means the Project Co Embedded Software, Subcontractor Embedded Software and Third Party Embedded Software.
- (l) **“Equipment”** means all electrical and mechanical equipment, machinery, computer hardware and systems comprising or used in the Ontario Line Subway System.
- (m) **“Equivalent Activity”** means any activity, undertaking or operation relating to the Ontario Line Subway System done by Contracting Authority, any permitted assignee of Contracting Authority pursuant to Section 59.2 (*Contracting Authority Assignment*) of the Project Agreement and/or any other person acting on behalf of or under the authority of Contracting Authority, which activity, undertaking or operation if done by Project Co would be within the Project Scope, including the Project Operations.
- (n) **“Escrow Agent”** means a recognized provider of escrow services selected by Project Co and approved by Contracting Authority and having a location within the Province of Ontario with whom the Escrow Materials will be deposited in accordance with Section 3.11.
- (o) **“Escrow Agreement”** means an escrow agreement that meets the requirements of Section 3.11 and pursuant to which Escrow Materials are held by the Escrow Agent and Contracting Authority is designated as a beneficiary party.
- (p) **“Escrow Materials”** means:
- (i) with respect to Software, the Source Materials for that Software;
 - (ii) with respect to Embedded Software, the Source Materials for that Embedded Software; and
 - (iii) with respect to any Equipment or Vehicle, the Source Materials for that Equipment or Vehicle.

- (q) **“Escrow Provider”** means:
- (i) Project Co in respect of the Project Co Licensed Software;
 - (ii) the applicable Subcontractor in respect of any Subcontractor Licensed Software;
 - (iii) the applicable third party licensor in respect of any Third Party Licensed Software;
 - (iv) Project Co in respect of the Project Co Embedded Software;
 - (v) the applicable Subcontractor in respect of any Subcontractor Embedded Software; and
 - (vi) the applicable third party licensor in respect of any Third Party Embedded Software.
 - (vii) in respect of any Equipment or Vehicle, whichever of Project Co and one or more Subcontractors is the supplier of such Equipment or Vehicle.
- (r) **“Expanded Purposes”** means (i) the Permitted Purposes; and (ii) for any other purpose of Metrolinx.
- (s) **“Licence”** means a non-exclusive license or sub-licence, as applicable, granting the rights and subject to the restrictions and limitations set out in this Schedule 37.
- (t) **“Licensed Intellectual Property”** means, with respect to any Licence, the Intellectual Property that is within the scope of that Licence as provided for in this Schedule 37.
- (u) **“Licensee”** means, in respect of any Licence granted or required to be granted by Project Co pursuant to this Schedule 37, Contracting Authority or any permitted assignee under Section 59.2 (*Contracting Authority Assignment*) of the Project Agreement that is the holder of that Licence at the relevant time.
- (v) **“Licensor”** means Project Co in respect of the Project Co Licenced Software, the applicable Subcontractor in respect of any Subcontractor Licenced Software, or the applicable third party licensor in respect of any Third Party Licensed Software.
- (w) **“Limited Modification Rights”** in respect of a Software or an Embedded Software, means the right to configure, customize or modify such Software or Embedded Software, without access to the Source Materials thereto, in order to have complete and unrestricted access to, or otherwise Use, all the functionalities within such Software or Embedded Software that is licensed to Contracting Authority under this Schedule 37.
- (x) **“Modification”** means all corrections, modifications, changes, enhancements, improvements, supplements, customizations or derivative works, and includes the Limited Modification Rights, and “Modify” means to make a Modification.
- (y) **“OTS Software”** means Software that is commonly considered ‘off the shelf’, meaning Software that is (i) made generally available to the public on a commercial basis through regular distribution channels or pre-installed as a standard part of hardware on a non-exclusive basis, (ii) that can be

obtained in the ordinary course of business under standard terms and conditions, (iii) that continues to be generally available for license, and (iv) which has not been modified or customized by Project Co or any other person for the Project. For clarity, Software provided on a Software-as-a-Service basis (SaaS) that satisfies the above criteria (i) through (iv) may constitute OTS Software, but in no instance shall Open Source Materials be deemed OTS Software.

- (z) **“Open Source Licence”** means any licence meeting the Open Source Definition (as promulgated by the Open Source Initiative) or the Free Software Definition (as promulgated by the Free Software Foundation), or any substantially similar licence, including any licence approved by the Open Source Initiative, or any Creative Commons Licence. For the avoidance of doubt, Open Source Licences include Copyleft Licences.
- (aa) **“Open Source Materials”** means any software or content subject to an Open Source Licence.
- (bb) **“Operational and Maintenance Data”** means the data, logs and recordings created or generated during the operation and maintenance of the Ontario Line Subway System, whether stored in a data warehouse, Revenue Vehicle or any other location, including all CCTV recordings, voice recordings (PA, radio, telephone, intercom), SCADA logs, S&TCS logs, IAC logs, Revenue Vehicle logs, PVIS messages and other logs and reports related to the operation and maintenance of the Ontario Line Subway System.
- (cc) **“Ownership”** means, in respect of any Intellectual Property, ownership of all right, title and interest in and to that Intellectual Property and **“Own”**, **“Owned”** and **“Owner”** shall have corresponding meanings.
- (dd) **“Permitted Purposes”** means:
 - (i) during the Project Term, performance of Contracting Authority’s obligations and the exercise of Contracting Authority’s rights under the Project Agreement and any other agreements relating to the Project;
 - (ii) during the Project Term, Contracting Authority’s participation in Project Operations and any activity, undertaking or operation within the Project Scope, including its participation in the design, construction, operation, maintenance, repair, correction and renovation of the Ontario Line Subway System;
 - (iii) during the Project Term, any activity of Contracting Authority contemplated pursuant to Section 37.4 (*Right to Disclose Intellectual Property*) or Section 48.7 (*Transitional Arrangements*) of the Project Agreement;
 - (iv) after the Project Term, any Equivalent Activity;
 - (v) both during and after the Project Term, the use, integration and interoperation of the Ontario Line Subway System with:
 - (A) any existing or other transit projects undertaken by or on behalf of Contracting Authority or interfacing with Contracting Authority projects, including any Integrated System Extension; and

- (B) any existing or after-acquired systems, software, technology or equipment related to the use, operation, maintenance, repair, correction, renovation of the Ontario Line Subway System and any Integrated System Extension,

but, for clarity, not any system that is not the Ontario Line Subway System or an Integrated System Extension;
- (vi) both during and after the Project Term, the integration and interoperation of the Ontario Line Subway System with any existing or other transit projects undertaken by or on behalf of Contracting Authority or interfacing with Contracting Authority projects;
- (vii) both during and after the Project Term, and so long as the Licensee is Contracting Authority or other Governmental Authority:
 - (A) the provision of governmental services and the conduct of operations and activities provided in connection or otherwise associated with the Ontario Line Subway System and any Integrated System Extension and the Lands by Contracting Authority or any Governmental Authority or any emergency service provider; and
 - (B) the development of transportation standards, policies and procedures.
- (ee) **“Personnel”** means (i) in reference to Project Co, the Project Co Personnel, (ii) in reference to Contracting Authority, Contracting Authority Personnel, and (iii) in reference to any Subcontractor, such Subcontractor’s Personnel.
- (ff) **“Project Co Embedded Software”** means computer software that is Owned by Project Co and that:
 - (i) is included, embedded or otherwise incorporated in Equipment or Vehicles;
 - (ii) is not licensed separately and apart from that Equipment or Vehicle; and
 - (iii) is not subject to a separate warranty, and is not subject to maintenance and repair separately from, that Equipment or Vehicle.
- (gg) **“Project Co Intellectual Property”** means:
 - (i) Intellectual Property that is Owned, created, developed or acquired by Project Co or any Project Co Personnel:
 - (A) prior to the Project Term; or
 - (B) during the Project Term but outside the Project Scope; or
 - (C) during the Project Term and within the Project Scope, but which is not Contracting Authority Intellectual Property, Contracting Authority Supplied Third Party Intellectual Property, Subcontractor Intellectual Property or Third Party Intellectual Property;

- (ii) the Project Co Licensed Software;
 - (iii) the Project Co Embedded Software;
 - (iv) Project Co's Technical Information;
 - (v) the Project Intellectual Property;
 - (vi) the Project Data, excluding: (A) all Operational and Maintenance Data; and (B) any other Project Data that are specified in a Variation or by separate agreement of Contracting Authority and Project Co to be Owned by Contracting Authority;
 - (vii) any Developed Intellectual Property that is specified in a Variation or by separate agreement of Contracting Authority and Project Co to be Owned by Project Co; and
 - (viii) Subject to Section 51.4 (*Jointly Developed Materials*) of the Project Agreement, all Modifications to any of the foregoing, whether made by or on behalf of Project Co, Contracting Authority, Contracting Authority Parties, or any Subcontractor alone, jointly with each other or with any other person.
- (hh) **“Project Co Licensed Software”** means any computer software that is Owned by Project Co, is not Project Co Embedded Software and is delivered, supplied or otherwise provided by Project Co under the Project Agreement as or as part of any Deliverable.
- (ii) **“Project Co Personnel”** means persons acting on behalf of Project Co or employed, engaged or retained by Project Co in connection with the performance of Project Co's obligations under the Project Agreement, including Project Co's consultants, contractors and Subcontractors and the employees, officers, directors, volunteers and agents of Project Co and its direct and indirect consultants, contractors and Subcontractors.
- (jj) **“Project Data”** means:
- (i) all Design Data;
 - (ii) all drawings, reports, documents, plans, formulae, calculations and other data prepared by Project Co relating to the performance of the Project Co Services;
 - (iii) all Operational and Maintenance Data; and
 - (iv) any other materials, documents and/or data prepared by or on behalf of Project Co or Subcontractors in relation to the Project Operations, the Ontario Line Subway System or the Project Agreement, excluding the Jointly Developed Materials, the Background Information and any Developed Intellectual Property.
- (kk) **“Project Intellectual Property”** means Intellectual Property that is created or developed, or Ownership of which is acquired, by Project Co, any Subcontractor or any Project Co Personnel or Subcontractor Personnel, whether alone or together with each other or any other person, during the Project Term and within the Project Scope, and which is created, developed or acquired for the

purposes of the Project or the Ontario Line Subway System, but excluding Project Software, Embedded Software, Project Data, Developed Intellectual Property and Technical Information.

- (ll) **“Project Scope”** means the scope of the Project, including the performance of all Project Operations, as defined by the terms of the Project Agreement.
- (mm) **“Project Software”** or **“Software”** means any Project Co Licensed Software, Subcontractor Licensed Software and Third Party Licensed Software, but does not include Embedded Software.
- (nn) **“Software Maintenance and Support”** means, with respect to any Software, the software maintenance and support services for that Software that form part of the Project Co Services or that are provided separately under a software maintenance and support agreement with the licensor of that Software.
- (oo) **“Software Tools”** means, with respect to any Software or Embedded Software, any routines, compilers, bootstraps, analyzers, monitors, toolkits and other software tools used by the licensor of such Software or Embedded Software in connection with the programming, compiling, maintenance, debugging, analysis, configuration, customization, verification or monitoring of such Software or Embedded Software.
- (pp) **“Source Materials”** means:
- (i) a complete source code version of the Software or Embedded Software, in machine-readable form which, when compiled, will produce the executable version of the Software or Embedded Software and in human-readable form with annotations in the English language or such other language as is acceptable to Contracting Authority, acting reasonably, in both cases on a storage medium suitable for long term archival storage;
 - (ii) a complete copy, in English or such other language as is acceptable to Contracting Authority, acting reasonably, in both electronic and paper form, suitable for long term archival storage, and appropriately labelled to describe the contents thereof, of all applicable documentation and other explanatory materials, including programmer’s notes, technical or otherwise, for the Software or Embedded Software (other than to the extent that the Software or Embedded Software consists of OTS Software) as may be required for a person other than the licensor of the Software or Embedded Software, using a competent computer programmer possessing ordinary skills and experience, to further develop, maintain and operate the Software or Embedded Software without further recourse to the licensor, which will include, to the extent such items have been or are created for such Software or Embedded Software, general flow charts, input and output layouts, field descriptions, volumes and sort sequence, data dictionary, file layouts, processing requirements and calculation formulae, circuit diagrams and the details of all algorithms and which shall be deemed to include those materials, as revised from time to time; and
 - (iii) all Software Tools for such Software or Embedded Software, to the extent not previously delivered with the Software or Embedded Software.
 - (iv) with respect to any Vehicle and any Equipment, a complete copy, in English or another language acceptable to the Contracting Authority, acting reasonably, in both electronic and

paper form, suitable for long term archival storage, and appropriately labelled to describe the contents thereof, of all applicable documentation and other explanatory materials for the Vehicle or Equipment as may be required for a Person skilled in the applicable technology other than the supplier of the Vehicle or the Equipment to specify the performance of the Vehicle or the Equipment or replacement parts thereof and to maintain and operate the Vehicle or the Equipment without further recourse to the supplier, which will include, to the extent the following items have been or are created for the Vehicle or the Equipment and are required to so specify performance or for such maintenance and operation, pseudocode descriptions, flowcharts and state diagrams,

provided that, with respect to (i) and (ii) above, to the extent that the Software or Embedded Software consists of OTS Software, only a complete list of such OTS Software, including the version number and the name of the licensor or the Software as a Service provider shall be required as the Source Materials for such OTS Software.

- (qq) **“Subcontractor Embedded Software”** means computer software that is Owned by a Subcontractor and that:
- (i) is included, embedded or otherwise incorporated in Equipment or Vehicles;
 - (ii) is not licensed separately and apart from that Equipment or Vehicle; and
 - (iii) is not subject to a separate warranty, and is not subject to maintenance and repair separately from, that Equipment or Vehicle.
- (rr) **“Subcontractor Intellectual Property”** means, with respect to each Subcontractor:
- (i) Intellectual Property that is Owned, created, developed or acquired by that Subcontractor:
 - (A) prior to the Project Term; or
 - (B) during the Project Term but outside the Project Scope; or
 - (C) during the Project Term and within the Project Scope, but which is not Contracting Authority Intellectual Property, Contracting Authority Supplied Third Party Intellectual Property, Project Co Intellectual Property or Third Party Intellectual Property;
 - (ii) the Subcontractor Licensed Software;
 - (iii) the Subcontractor Embedded Software;
 - (iv) the Subcontractor’s Technical Information; and
 - (v) subject to Section 51.4 (*Jointly Developed Materials*) of the Project Agreement, all Modifications to any of the foregoing, whether made by or on behalf of Project Co, Contracting Authority, Contracting Authority Parties, or any Subcontractor alone, jointly with each other or with any other person.

- (ss) “**Subcontractor Licensed Software**” means any computer software that is Owned by a Subcontractor, is not Subcontractor Embedded Software and is delivered, supplied or otherwise provided by the Subcontractor under the Project Agreement, the Subcontract as or as part of any Deliverable.
- (tt) “**Subcontractor Personnel**” means, with respect to any Subcontractor, persons acting on behalf of that Subcontractor or employed, engaged or retained by that Subcontractor in connection with the performance of that Subcontractor’s obligations under the Project Agreement or the Subcontract, including the Subcontractor’s consultants, contractors and subcontractors and the employees, officers, directors, volunteers and agents of the Subcontractor and its direct and indirect consultants, contractors and subcontractors.
- (uu) “**System Architecture and Look and Feel**” means any work product, including any Intellectual Property therein, Owned, created, developed, acquired or licensed whether by Project Co or any Subcontractor in respect of any aspect of the architecture or look and feel of the Ontario Line Subway System, including without limitation all designs, design details, drawings, specifications, prototypes, documentation, works and all instruments of architectural service that relate to the design identity, look and feel of any aspect of the architectural and landscape design whether in respect of the stations, stops, landscape and urban design elements, furniture, fit and finish, or any other aspect of the Ontario Line Subway System.
- (vv) “**Technical Information**” means technical information relating to any Equipment or Vehicle supplied or Intellectual Property licensed under the Project Agreement, including software documentation, user and operating manuals, maintenance and repair manuals, parts lists and other materials relevant to the use, operation, maintenance or repair of such Equipment, Vehicle or Intellectual Property.
- (ww) “**Third Party Embedded Software**” means computer software that is not Owned by Contracting Authority, Project Co or a Subcontractor and that:
- (i) is included, embedded or otherwise incorporated in Equipment or Vehicles;
 - (ii) is not licensed separately and apart from that Equipment Vehicle; and
 - (iii) is not subject to a separate warranty, and is not subject to maintenance and repair separately from, that Equipment or Vehicle.
- (xx) “**Third Party Intellectual Property**” means Intellectual Property Owned by a person other than Contracting Authority, Project Co, a Subcontractor or any of their respective Personnel that is delivered, supplied or otherwise provided by Project Co or a Subcontractor under the Project Agreement as or as part of any Deliverable, including Third Party Licensed Software and Third Party Embedded Software.
- (yy) “**Third Party Licensed Software**” means any computer software that is not Owned by Contracting Authority, Project Co or a Subcontractor, is not Third Party Embedded Software and is delivered, supplied or otherwise provided by Project Co or a Subcontractor under the Project Agreement as or as part of any Deliverable.

- (zz) **“Trademark Licence Agreement”** means the trademark licence agreement entered into between Project Co and Contracting Authority providing for the license by Contracting Authority of Contracting Authority Trademarks to Project Co, being substantially in the form of Appendix A attached to this Schedule 37.
- (aaa) **“Use”** means, with respect to any Intellectual Property, to do any and all things with that Intellectual Property that the Owner of that Intellectual Property could do, including to load, transmit, access, execute, use, disclose, store, display, copy, adapt, translate, incorporate into other materials, practice, make and have made, but specifically excluding the right to Modify and subject to any limitations in the provision of this Schedule 37 pursuant to which a Licence is granted.

ARTICLE 2. OWNERSHIP

2.1 **Project Co Intellectual Property:** Project Co shall be and remain the sole and exclusive Owner of the Project Co Intellectual Property. For certainty, nothing in this Schedule 37 shall transfer to Project Co any Ownership of, or grant to Project Co any right in respect of, Contracting Authority Intellectual Property used in the creation or development of or that is embodied, incorporated, embedded, otherwise included or illustrated in any Project Co Intellectual Property, except for the Licence granted under Section 3.1.

2.2 **Contracting Authority Intellectual Property:** Contracting Authority shall be and remain the sole and exclusive Owner of Contracting Authority Intellectual Property. For certainty, nothing in this Schedule 37 shall transfer to Contracting Authority any Ownership of, or grant to Contracting Authority any right in respect of, the Project Co Intellectual Property used in the creation or development of or that is embodied, incorporated, embedded, otherwise included or illustrated in any Contracting Authority Intellectual Property, except for the Licence granted under Section 3.2 and the License granted under Section 3.13.

For greater clarity and without limiting Contracting Authority’s Ownership rights, Project Co acknowledges and agrees that Contracting Authority shall be entitled to Use and Modify and in each case shall be entitled to license other Persons to Use and/or Modify the Developed Intellectual Property (other than any Developed Intellectual Property that is specified in a Variation or by separate agreement of Contracting Authority and Project Co to be Owned by Project Co) in any manner and for any purpose whatsoever, including without limitation in connection with the Expanded Purposes.

2.3 **Subcontractor Intellectual Property:** As between Contracting Authority and Project Co, but subject to any agreement to the contrary between Project Co and any Subcontractor, each Subcontractor shall be and remain the sole and exclusive Owner of its Subcontractor Intellectual Property.

2.4 **Contracting Authority Supplied Third Party Intellectual Property:** As between Contracting Authority and Project Co, but subject to any agreement to the contrary between Contracting Authority and the Owner of any Contracting Authority Supplied Third Party Intellectual Property, the Owner of any Contracting Authority Supplied Third Party Intellectual Property shall be and remain the sole and exclusive Owner of any Contracting Authority Supplied Third Party Intellectual Property. For certainty, nothing in this Schedule 37 shall transfer to Project Co or any Subcontractor

any Ownership of, or grant to Project Co or any Subcontractor any right in respect of, Contracting Authority Supplied Third Party Intellectual Property used in the creation or development of or that is embodied, incorporated, embedded, otherwise included or illustrated in any Project Co Intellectual Property or any Contracting Authority Intellectual Property or any Subcontractor Intellectual Property, except for the Licence granted under Section 3.1.

2.5 Assignments

- (a) If, notwithstanding Section 2.1, 2.2, 2.3 or 2.4 or Section 51.4 (*Jointly Developed Materials*) of the Project Agreement, either party (the “**Assignor**”) retains, acquires or owns any right, title or interest in or to any Intellectual Property that is to be Owned by another person (the “**Assignee**”) pursuant to Section 2.1, 2.2, 2.3 or 2.4 or Section 51.4 (*Jointly Developed Materials*) of the Project Agreement as applicable, (the “**Assigned Intellectual Property**”), then the Assignor will assign, and for no further consideration and without any further act or formality does hereby irrevocably assign, to the Assignee all of the Assignor’s worldwide right, title and interest in and to the Assigned Intellectual Property free and clear of all liens, claims, charges or encumbrances, but subject to any Licences granted or required to be granted by the Assignee to the Assignor pursuant to this Schedule 37.
- (b) If and to the extent that the assignment pursuant to Subsection 2.5(a) is not effective on the date hereof or on any future date, either generally or pursuant to the laws of any jurisdiction, then any and all right, title and interest in and to the Assigned Intellectual Property that is retained, acquired or owned by the Assignor (collectively, the “**Trust Rights**”), will be held by the Assignor in trust for the exclusive benefit and use of the Assignee, except for any Licences granted or required to be granted by the Assignee to the Assignor pursuant to this Schedule 37, and the Assignor will execute and deliver to the Assignee such transfers, assignments, documents and instruments as may be necessary to transfer and assign to the Assignee the Trust Rights, free and clear of all liens, claims, charges or encumbrances, promptly upon receipt thereof from the Assignee, and will otherwise cooperate with the Assignee to give effect to, record and register the Assignee’s ownership of the Trust Rights.
- (c) Project Co will include in each Subcontract provisions equivalent to Subsections 2.5(a) or 2.5(b) with respect to: (i) Contracting Authority Intellectual Property, Jointly Developed Materials, Developed Intellectual Property, Project Data and any Modifications thereto, and shall enforce those provisions against each Subcontractor to the extent necessary to ensure that Contracting Authority remains at all times the sole and exclusive Owner of all such property; and (ii) the Contracting Authority Supplied Third Party Intellectual Property and any Modifications thereto, and shall enforce those provisions against each Subcontractor to the extent necessary to ensure that the Licensor remains at all times the sole and exclusive Owner of all such property.

2.6 **Personnel:** Contracting Authority and Project Co shall, and Project Co shall include in each Subcontract an obligation of each Subcontractor to, ensure that their respective Personnel shall:

- (a) by duly executed written agreement or by operation of law, irrevocably and unconditionally sell, assign and transfer to that party all right, title and interest that its Personnel may have in or to any and all Intellectual Property referred to in this Schedule 37 and all Modifications thereto, such that agreements as to Ownership of Intellectual Property pursuant to Sections 2.1, 2.2, 2.3 or 2.4, and

Section 51.4 (*Jointly Developed Materials*) of the Project Agreement and the assignment by that party pursuant to Section 2.5 include all right, title and interest of its Personnel; and

- (b) by duly executed written agreement, irrevocably waive all non-transferable rights, including moral rights, that they have or may have in any Intellectual Property assigned by such Personnel pursuant to Subsection 2.6(a) in favour of the assignee and its successors, assigns and licensees.

ARTICLE 3. LICENCES

3.1 Licence by Contracting Authority to Project Co

- (a) Subject to Subsection 3.1(d), Contracting Authority hereby grants to Project Co:
 - (i) a royalty free, fully paid-up, limited Licence to Use and Modify Contracting Authority Intellectual Property for the sole purpose of and only to the extent necessary for the performance by Project Co of the Project Scope and its obligations under the Project Agreement; and
 - (ii) a limited Licence to Use Contracting Authority Supplied Third Party Intellectual Property for the sole purpose of and only to the extent necessary for the performance by Project Co of the Project Scope and its obligations under the Project Agreement.
- (b) Subject to Subsection 3.1(d), Project Co may sublicense its rights under the Licence granted in Subsection 3.1(a) to any Subcontractor for the sole purpose of and only to the extent necessary for the performance by that Subcontractor of its obligations under its Subcontract.
- (c) Except as provided in Subsection 3.1(b), Project Co may not transfer, assign, sublicense or otherwise dispose of the Licence granted under Subsection 3.1(a) without the prior written consent of Contracting Authority, which consent may be given or refused by Contracting Authority in its absolute and unfettered discretion.
- (d) The Licence of any Contracting Authority Supplied Third Party Intellectual Property pursuant to Subsection 3.1(a) shall be subject to the terms and conditions of the license agreement between Contracting Authority and the licensor of Contracting Authority Supplied Third Party Intellectual Property. Contracting Authority will provide to Project Co a copy of any such third party license agreement (which may be redacted as to financial and other terms not relevant to use of Contracting Authority Supplied Third Party Intellectual Property by Project Co and Subcontractors), or where prohibited from doing so by obligations of confidentiality to the third party licensor, a summary of the obligations, limitations and restrictions applicable to use of Contracting Authority Supplied Third Party Intellectual Property by Project Co and Subcontractors. Project Co will comply, and will require any Subcontractor to comply, with the terms and conditions of such third party license agreement (as set out in the copy of the third party license agreement or summary thereof provided by Contracting Authority to Project Co) to the extent applicable to Project Co and any Subcontractor in the performance of their respective obligations under the Project Agreement and any Subcontract. If requested by Contracting Authority, Project Co will, and will require any Subcontractor to, execute and deliver to Contracting Authority and the third party licensor an agreement that includes reasonable terms for the protection of the confidentiality of Contracting

Authority Supplied Third Party Intellectual Property and an acknowledgement of the third party licensor's ownership thereof, unless Project Co disputes such ownership.

- (e) **[INTENTIONALLY DELETED]**
- (f) The Licence granted to Project Co under: Subsection 3.1(a)(i), and any sublicense granted by Project Co to a Subcontractor thereunder, will terminate upon the expiry or termination of Project Co Services and other obligations under the Project Agreement; Subsections 3.1(a)(ii) and any sublicense granted by Project Co to a Subcontractor thereunder, will terminate upon the earlier of: (A) expiry or termination of Project Co Services and other obligations under the Project Agreement; and (B) the termination of the contract in respect of the applicable Contracting Authority Supplied Third Party Intellectual Property or Contracting Authority's licence or sublicense rights thereunder.
- (g) The Licences granted to Project Co under Section 3 do not include licences to any Contracting Authority Trademarks. The use of any Contracting Authority Trademarks shall be governed by the terms of the Trademark Licence Agreement.

3.2 Licence by Project Co to Contracting Authority

- (a) Project Co hereby grants to Contracting Authority a Licence to:
 - (i) Use and Modify the Project Co Intellectual Property (excluding Project Co Licensed Software and Project Co Embedded Software) that is Delivered and the Subcontractor Intellectual Property (excluding the Subcontractor Licensed Software and the Subcontractor Embedded Software) that is Delivered;
 - (ii) Use, and have Limited Modification Rights to, the Project Co Licensed Software that is Delivered and the Subcontractor Licensed Software that is Delivered and only in respect of the modules that are Delivered; and
 - (iii) Use, and have Limited Modification Rights to, the Project Co Embedded Software and the Subcontractor Embedded Software as part of and for the Use of the Equipment or Vehicle in which such software is included, embedded or otherwise incorporated,

for the Permitted Purposes. Subject to Section 3.11, the Licenses granted pursuant to this Section 3.2 in respect of Project Software and Embedded Software apply to only object code versions thereof and not the source code materials for any such Project Software or Embedded Software. For greater clarity, to the extent that any Licensed Intellectual Property is subject to a License granted in this Section 3.2(a) and such Licensed Intellectual Property is also included within the scope of any Escrow Materials, the License granted herein shall take precedence and Contracting Authority shall have all such rights to Use, Modify, and shall have such Limited Modification Rights to same, as are contemplated in such License.

In addition and notwithstanding any other provision of this Schedule 37, with respect to such components of the System Architecture and Look and Feel that consist of the architecture of the Stations, Tunnel and Guideway (but not any technology systems architecture) and/or look and feel of the Ontario Line Subway System that are not owned by Contracting Authority pursuant to this

Schedule 37, Project Co hereby grants to Contracting Authority a Licence to Use and Modify such components of the System Architecture and Look and Feel for the Expanded Purposes.

- (b) The Licences granted pursuant to this Section 3.2 and Section 3.13 will be irrevocable (except as provided in Subsection 3.2(d)), perpetual, royalty free, fully paid-up (upon payment of the fees specified in the Project Agreement for the Deliverable which consists of or incorporates the Licensed Intellectual Property in respect of which the Licence is granted), and permit Use by Contracting Authority on an enterprise basis without restriction or limitation as to users (whether by number, identity or otherwise), location, capacity, authorized system or otherwise, as part of or in connection with the Ontario Line Subway System, or in the case of the System Architecture and Look and Feel, in connection with the Expanded Purposes. Notwithstanding the foregoing, Contracting Authority and Project Co agree that where expressly requested, from time to time in writing and reasonably in advance, by Project Co with respect to Licensed Subcontractor Intellectual Property which is only available on a Software-as-a-Service basis for which Project Co is unable, after exercising commercially reasonable efforts, to procure a License thereto on a perpetual and unlimited or unrestricted user, location, capacity or authorized systems basis, then Project Co shall procure that the License thereto shall be for not less than the Project Term and for such specified number of users, location, capacity or authorized system basis, as the Contracting Authority may expressly agree in writing. Project Co shall, notwithstanding the foregoing, be responsible to ensure that such License shall be sufficient in all respects for the Permitted Purposes or Expanded Purposes, as applicable.
- (c) The Licences granted pursuant to this Section 3.2 and Section 3.13 may be transferred, assigned, sublicensed and otherwise disposed of by Contracting Authority subject to and in accordance with Section 59.2 (*Contracting Authority Assignment*) of the Project Agreement, provided that the Licence in respect of Project Co Embedded Software and Subcontractor Embedded Software may only be transferred together with the Equipment or Vehicle in which such software is included, embedded or otherwise incorporated.
- (d) The Licences granted pursuant to this Section 3.2 and Section 3.13 may not be terminated except in the event of the failure of the Licensee to pay the applicable fees as provided for in the Project Agreement for the specific Deliverable which consists of or incorporates the Licensed Intellectual Property, and such failure is not remedied by the Licensee within sixty (60) days after notice by Project Co to the Licensee demanding that such failure be remedied, provided that any such termination shall apply only to the Licensed Intellectual Property to which such failure applied and not to any other Licensed Intellectual Property. Except as specifically provided in this Subsection 3.2(d), Project Co shall not be entitled to terminate or rescind the Licences granted under this Section 3.2 and Section 3.13, and if the Licensee commits any other breach of or default under this Schedule 37 or the Project Agreement, whether material or not and whether that breach or default is or is not capable of being remedied, Project Co's rights and remedies in respect of that breach or default shall be limited to such rights and remedies other than termination or rescission of the Licences granted under this Section 3.2 and Section 3.13 as may exist at law or in equity, it being acknowledged by Project Co that except as provided in this Subsection 3.2(d) the Licences granted under this Section 3.2 and Section 3.13 are perpetual and irrevocable. No breach of or default under this Schedule 37 by Contracting Authority shall constitute a repudiation of the Licences granted under this Section 3.2 and Section 3.13 by Contracting Authority.

- (e) The Licensee may provide and disclose the Licensed Intellectual Property to any employee, contractor, subcontractor, consultant, service provider, outsourcer or other person retained by the Licensee in connection with the Permitted Purposes, except in respect of the System Architecture and Look and Feel in connection with the Expanded Purposes, and any such employee, contractor, subcontractor, service provider, outsourcer or other person may exercise all rights to Use and Modify the Licensed Intellectual Property as may be granted by the Licensee to such person within the scope of the Licence granted by Project Co to the Licensee pursuant to this Schedule 37, provided that the Licensee shall be responsible for anything done or failed to be done by any employee, contractor, subcontractor, service provider, outsourcer or other person to whom the Licensee provides and discloses the Licensed Intellectual Property, including a breach by any such person of Contracting Authority's obligations of confidentiality in respect of any Confidential Information that is or is part of Licensed Intellectual Property.
- (f) The Licensee may Use Project Software that is licensed pursuant to this Section 3.2 or Section 3.13 (in multiple environments or instances, including for training, development, testing, staging, and disaster recovery and in a live, production or operating environment.
- (g) The Licensee may make copies of the Licensed Intellectual Property as may be reasonably necessary for Use and Modification of the Licensed Intellectual Property in accordance with the Licences granted pursuant to this Section 3.2 and Section 3.13 or otherwise this Schedule 37. All such copies shall be Owned by Owner of the original Licensed Intellectual Property and licensed to the Licensee pursuant to this Section 3.2 or Section 3.13. Except as permitted by this Schedule 37, the Licensee will not copy, Modify, disassemble, reverse engineer, decompile, translate or otherwise obtain or create the source code for any Project Co Intellectual Property, Project Co Licensed Software, Project Co Embedded Software, Subcontractor Intellectual Property, Subcontractor Licensed Software or Subcontractor Embedded Software.
- (h) The Licensee will not remove from any Licensed Intellectual Property any markings or notices with respect to the ownership thereof, copyright therein or the confidentiality thereof.
- (i) Where Contracting Authority has the right to Modify any Licensed Intellectual Property, Project Co shall ensure that all authors of such Licensed Intellectual Property have waived all moral rights that such authors may have therein in favour of Contracting Authority and its successors, assigns and licensees.
- (j) If, pursuant to Subsection 3.2(a) and by virtue of the definition of Delivered in Subsection 1.1(i) (*Definitions*), Contracting Authority is granted a License in respect of any Project Co Intellectual Property or Subcontractor Intellectual Property that is not a Deliverable or incorporated, embedded or otherwise included in any Deliverable, Project Co shall, or shall cause the applicable Subcontractor to, physically supply and deliver to Contracting Authority the Project Co Intellectual Property and Subcontractor Intellectual Property that falls within the definition of Delivered but has not previously been physically supplied and delivered to Contracting Authority, together with all related Project Co's Technical Information as may be necessary for Contracting Authority to Use and Modify that Project Co Intellectual Property and Subcontractor Intellectual Property in accordance with the Licenses granted herein.

- (k) In respect of the Project Co Intellectual Property and all or any part of the Source Materials for any Licensed Intellectual Property that are included with the Licensed Intellectual Property when Delivered to Contracting Authority pursuant to the Project Agreement (“**Included Source Materials**”) therefor, Project Co shall provide to Contracting Authority training and consulting services to ensure that Contracting Authority is able to carry out all Equivalent Activities and Permitted Purposes in respect of the Project Co Intellectual Property and the Subcontractor Intellectual Property, excluding Equivalent Activities and Permitted Purposes that require access to and Use and Modification of Escrow Materials other than the Included Source Materials. Project Co shall cause each Subcontractor in respect of its Subcontractor Intellectual Property and any Included Source Materials therefor to provide such training and consulting services. In addition, Project Co shall, and shall cause each Subcontractor to, disclose and provide to Contracting Authority all trade secrets, know-how, documentation and other information of any kind whatsoever within their possession or control as may be necessary for Contracting Authority to carry out all Equivalent Activities and Permitted Purposes in respect of the Project Co Intellectual Property and the Subcontractor Intellectual Property, excluding any of the foregoing that form part of Escrow Materials.
- (l) Project Co shall use reasonable commercial efforts to ensure that each Deliverable and all Intellectual Property included in each Deliverable as and when delivered to Contracting Authority do not contain Harmful Code, a Lock or Undisclosed Functionality. Upon notice by Contracting Authority that a Deliverable or any item of Intellectual Property as delivered to Contracting Authority contains Harmful Code, a Lock or Undisclosed Functionality, Project Co shall promptly repair or replace the Deliverable or item of Intellectual Property so that the Deliverable or item of Intellectual Property does not contain the Harmful Code, Lock or Undisclosed Functionality (as applicable). In this Section 3.2(l): “**Harmful Code**” means a virus, worm, “Trojan Horse”, or other code or routine that manifests contaminating or destructive properties that might damage, harm, detrimentally interfere with, or otherwise adversely affect a Deliverable, any Intellectual Property or the System or any computer system, hardware, software, equipment, or services in connection with which the Deliverable or Intellectual Property is Used or any related data; “**Lock**” means a “time bomb”, “logic bomb”, “back door”, “drop-dead device” or any other disabling or limiting code, design or routine that might be used to interrupt, lock, disable, erase, limit the functionality or Use of, or otherwise adversely affect, or facilitate unauthorized access to, a Deliverable, any Intellectual Property or the System or the computer system, hardware, software, equipment, or services in connection with which the Deliverable or Intellectual Property is Used or any related data; and “**Undisclosed Functionality**” means a functionality providing the capability to automatically communicate with or transmit data to any person or computer system, that is not expressly required by the Project Agreement or otherwise expressly agreed to by Contracting Authority.

3.3 Licences with Subcontractors

- (a) Project Co will be responsible to obtain from each Subcontractor the right to grant the Licence under Section 3.2 in respect of the Subcontractor Intellectual Property.
- (b) Project Co will be responsible to obtain from each Subcontractor the right to Use and Modify the Subcontractor Intellectual Property to the extent necessary for Project Co to perform its obligations

under the Project Agreement, on such terms as are not in breach of or conflict with the Project Agreement.

- (c) Project Co will be responsible to grant to each Subcontractor the right to Use and Modify Contracting Authority Intellectual Property and Project Co Intellectual Property to the extent necessary for each Subcontractor to perform its obligations under its Subcontract, on such terms as are not in breach of or conflict with the Project Agreement.

3.4 **Third Party Intellectual Property:** Project Co will not, and will not permit any Project Co Personnel, Subcontractor or Subcontractor Personnel to, incorporate, embed or otherwise include in the Ontario Line Subway System or any Deliverable any Third Party Intellectual Property unless:

- (a) for Third Party Intellectual Property other than Third Party Embedded Software, such Third Party Intellectual Property is provided by the Owner thereof pursuant to a license agreement that:
 - (i) grants to the Licensee rights equivalent to or better than the rights granted under the Licence in Section 3.2, including being assignable in accordance with Subsection 3.2(c), and, where the Third Party Intellectual Property is software or includes software, provides for the maintenance and support of that software on terms acceptable to Contracting Authority; or
 - (ii) has been approved by Contracting Authority in writing, which approval may be given or refused by Contracting Authority in its absolute and unfettered discretion,

and such license agreement, if not entered into with Contracting Authority directly, has been assigned or is freely assignable to Contracting Authority;

- (b) for Third Party Embedded Software, either (i) such Third Party Embedded Software is embedded in Equipment or a Vehicle and is not provided by the Owner thereof pursuant to a license agreement, but may be used by Contracting Authority or any subsequent owner of the machine or equipment or vehicle as part of and for the intended purposes of such machine or equipment or vehicle upon the purchase thereof, or (ii) such Third Party Embedded Software is subject to a license agreement that complies with Subsection 3.4(a).
- (c) If Project Co, Project Co Personnel, Subcontractor or Subcontractor Personnel incorporates, embeds or includes any Third Party Intellectual Property in the Ontario Line Subway System or any Deliverable other than in compliance with this Section 3.4, then in addition to any other rights and remedies Contracting Authority may have against Project Co, Project Co will at its sole cost and expense take all necessary steps to comply with this Section 3.4 or, if Project Co is unable to do so, to remove such Third Party Intellectual Property and replace it with Project Co Intellectual Property that provides the same (or, substantially and in all relevant respects, equivalent functionality and performance, provided that all deviations from the functionality and performance of such Third Party Intellectual Property have been notified in advance and in writing to Contracting Authority specifying in reasonable detail each such deviation and the reason as to why each such deviation is an immaterial deviation to the functionality and performance of such Third Party Intellectual Property, and Contracting Authority has agreed in writing to such substitution) functionality and performance as such Third Party Intellectual Property and which will operate

within the Ontario Line Subway System without any degradation thereof or adverse effect thereon, and which will be included in the Project Co Intellectual Property for the purposes of the Licence granted pursuant to Section 3.2.

- 3.5 **Non-Assertion:** Project Co agrees not to assert, and to cause its Subcontractors not to assert, any Intellectual Property right against Contracting Authority or any Licensee that would have the effect of diminishing the rights granted to Contracting Authority or any Licensee hereunder. Without limiting the generality of the foregoing, Project Co will not sue, and will cause its Subcontractors not to sue, Contracting Authority or any Licensee on the basis that any Equivalent Activity or the Ownership or Use of the Ontario Line Subway System or any Deliverable within the scope of the Permitted Purposes infringes any Intellectual Property right of Project Co or any Subcontractor.
- 3.6 **Deliveries:** Project Co will deliver to Contracting Authority all Licensed Intellectual Property at the times specified in the Project Agreement, or where no time is specified, on or before the Final Completion Date or the Termination Date, whichever is first to occur. The media on which Project Software is delivered and tangible copies or embodiments of any Licensed Intellectual Property other than Project Software and will be the property of Contracting Authority, notwithstanding Project Co's, a Subcontractor's or a third party's Ownership of the Licensed Intellectual Property. If any Licensed Intellectual Property requires software in order to Use that Licensed Intellectual Property, Project Co will ensure that such software will be commercially available to Contracting Authority at a reasonable license fee, or if such software is not commercially available, Project Co will at its cost provide such software and a license therefor to Contracting Authority and Contracting Authority Parties on terms and conditions that do not result in any impairment of Contracting Authority's Use of the Licensed Intellectual Property in accordance with the Licence therefor.
- 3.7 **Pass Through Obligations:** Project Co is responsible to include in all contracts with Project Co Personnel and in all Subcontracts with Subcontractors such terms and conditions as may be necessary for Project Co to grant, or obtain for Contracting Authority, the Ownership, Licences, rights and benefits provided for in this Schedule 37.
- 3.8 **Conflicting Software Licences:** All software referenced in this Schedule 37 will be licensed in accordance with this Schedule 37 or such other software license agreement for same as may be agreed to by Contracting Authority in accordance with Section 3.4, and any form of software license agreement used or provided by a licensor in association with any such software will be of no force or effect and will not be binding on Contracting Authority or any other Licensee, even if by its terms such software license agreement is stated to be accepted by the installation or use of the software, and regardless of any acceptance of such software license agreement that is required in order to install or use the software.
- 3.9 **Trademarks and Names:** Except as expressly set forth: (a) in the Trademark Licence Agreement; (b) the Project Agreement; or (c) otherwise in a writing executed by each of Contracting Authority and Project Co, neither Party shall use any Trademarks owned by the other Party, or use the names or any identifying logos or otherwise of the other Party in any advertising or permit them so to be used.

- 3.10 **Open Source:** Project Co shall not, and shall cause the Subcontractor not to, incorporate, embed or include any Open Source Materials in any Deliverables, Contracting Authority Intellectual Property or Contracting Authority Supplied Third Party Intellectual Property without the prior written consent of Contracting Authority.
- 3.11 **Escrow Agreements**
- (a) If requested by Contracting Authority (which for the purposes of this Section 3.11 includes any permitted assignee under Section 59.2 (*Contracting Authority Assignment*) of the Project Agreement), at any time during the Project Term, Project Co will, or will require the applicable Subcontractor or third party licensor to, enter into an Escrow Agreement for any Software or Embedded Software, Equipment or Vehicle of which Escrow Materials are deposited in escrow under an Escrow Agreement entered into pursuant to this Section 3.11 (an “**Escrowed Deliverable**”) on terms that comply with this Section 3.11, or amend its existing Escrow Agreement for such Software, Embedded Software, Equipment or Vehicle to comply with this Section 3.11, and add Contracting Authority as a beneficiary under the Escrow Agreement.
- (b) The Escrow Provider will deposit with the Escrow Agent the Escrow Materials for the Escrowed Deliverable and all Modifications thereto provided by the Escrow Provider to Contracting Authority as part of the Project Operations, Software Maintenance and Support (if purchased by or on behalf of Contracting Authority) or any other services performed by the Escrow Provider for Contracting Authority, and in the case of Software or the Embedded Software, the Escrow Provider will update the Escrow Materials to conform to the then-current version of the Software in use by Contracting Authority including all Modification thereto made for the benefit of Contracting Authority.
- (c) Contracting Authority will have the right, on reasonable notice to the Escrow Provider and the Escrow Agent, to verify that the Escrow Materials conform to the Escrowed Deliverable supplied to and in use by Contracting Authority to which the Escrow Materials relate. In addition, Contracting Authority may purchase such additional verification services as may be offered by the Escrow Agent and the Escrow Provider will cooperate with Contracting Authority and the Escrow Agent in the performance of those verification services.
- (d) Contracting Authority will have the right to obtain from the Escrow Agent a copy of the Escrow Materials retained by such Escrow Agent for a particular Escrow Provider upon any of the following events:
- (i) the Escrow Provider is bankrupt;
 - (ii) a trustee, receiver, manager, receiver-manager, custodian or Person having similar authority is appointed for the Escrow Provider or its business and assets and is not released or removed within thirty (30) days after the appointment;
 - (iii) the Escrow Provider seeks protection from its creditors or undertakes any reorganization for the purpose of obtaining relief from its creditors;
 - (iv) the Escrow Provider ceases to carry on business; or

- (v) in the case of Software, if Contracting Authority is purchasing Software Maintenance and Support for the Software in respect of which the Escrow Materials have been deposited, if the Escrow Provider has given Contracting Authority or any of its representatives notice that it will no longer provide Software Maintenance and Support or if the Escrow Provider defaults in the performance of Software Maintenance and Support and does not remedy that default within thirty (30) days after receipt of notice from Contracting Authority demanding that the Escrow Provider do so.
- (e) Project Co shall ensure that the Escrow Agreement: (i) requires the Escrow Agent to release the Escrow Materials to Contracting Authority if any of the events listed in Section 3.11(d) occur; (ii) does not contain any provision placing any obligation on Contracting Authority, including without limitation, any indemnity obligation; and (iii) complies with and does not contradict any provision of this Section 3.11. Where this Section 3.11 places an obligation on the Escrow Agent, Project Co shall cause the Escrow Agent to comply with all such obligations.
- (f) Project Co hereby grants, and Project Co shall ensure that all Escrow Providers grant to Contracting Authority, with effect as of the date the applicable Software or the applicable Embedded Software is used in connection with the Project Scope (but subject, for greater clarity, to the release of the applicable Escrow Materials), a Licence to:
 - (i) Use the Escrow Materials to enable Contracting Authority to Use the Escrowed Deliverable to which the Escrow Materials relate for the Permitted Purposes, and where the Escrowed Deliverable is or contains Licensed Intellectual Property in accordance with the Licence applicable thereto;
 - (ii) make Modifications to the Escrow Materials notwithstanding any contradictory term or condition in the Licence applicable to the Escrowed Materials which Modifications are only used for the Permitted Purposes or the Expanded Purposes, as applicable, and are subject to confidentiality obligations under Subsection 3.11(f)(vi);
 - (iii) in the case of Escrow Materials for Software and Embedded Software, recompile versions of the Software or Embedded Software from the Escrow Materials, which recompiled versions shall be deemed to form part of the Software or Embedded Software and be subject to the terms hereof;
 - (iv) in the case of Escrow Materials for Equipment and Vehicles, use the Escrow Materials to design and manufacture, or to have designed, manufactured and supplied, replacement Equipment or Vehicles or parts therefor;
 - (v) make only those copies of the Escrow Materials that Contracting Authority reasonably requires for the purposes set out in Subsections 3.11(f)(i), 3.11(f)(ii) and 3.11(f)(iii); and
 - (vi) disclose the Escrow Materials, or any part thereof, only to agents, employees or contractors of Contracting Authority as reasonably required for the purposes set out in Subsections 3.11(f)(i), 3.11(f)(ii) and 3.11(f)(iii), provided that such agents, employees and contractors are bound by obligations of confidentiality in respect of any Escrow

Materials disclosed to them, the breach of which shall constitute a breach by Contracting Authority of its obligations of confidentiality in respect of the Escrow Materials.

- (g) The Licence granted pursuant to Subsection 3.11(f) will:
- (i) where the Escrow Provider is Project Co or a Subcontractor, form part of the Licence granted pursuant to Section 3.2; or
 - (ii) where the Escrow Provider is a third party, form part of the license granted by such third party to Contracting Authority,
- and in either case remain in effect for so long as such licence remains in effect.
- (h) Except where Contracting Authority (i) terminates the Escrow Agreement, (ii) has a renewal right and fails to renew the Escrow Agreement, or (iii) fails to make payments as set out in Section 3.11(i), the Escrow Provider will not terminate or fail to renew the Escrow Agreement without entering into a new Escrow Agreement with a replacement escrow agent on terms and conditions substantially the same as the Escrow Agreement and this Section 3.11.
- (i) Contracting Authority will pay all fees charged by the Escrow Agent in association with the deposit and maintenance of the Escrow Materials by the Escrow Agent under the Escrow Agreement for the benefit of Contracting Authority. The Escrow Provider shall have no responsibility or liability arising from any failure of Contracting Authority to pay fees when due in order to maintain the Escrow Materials with the Escrow Agent.
- (j) If Contracting Authority receives the Escrow Materials, then as between Contracting Authority and Project Co and notwithstanding any other provision of the Project Agreement, Contracting Authority will own all Modifications to the Escrow Materials made by or for Contracting Authority and all Intellectual Property in such Modifications.
- (k) For greater certainty, the provisions of this Section 3.11 do not extend to include any OTS Software.

3.12 **Modifications:** Notwithstanding the granting of any licence pursuant to this Schedule 37, where Contracting Authority has made any Modification to the Project Co Intellectual Property or the Subcontractor Intellectual Property other than (a) a Modification made by or on behalf of Project Co or a Subcontractor or otherwise authorized by Project Co or any Subcontractor, or (b) a Modification made through the Limited Modification Rights, then,

- (i) any warranty provided by Project Co under the Project Agreement shall not apply solely in respect of and directly to the extent of such Modification;
- (ii) Project Co and the Subcontractors shall not be liable in respect of any Direct Losses arising in connection with such Modifications where such Modifications are the direct cause of such Direct Losses, and the Direct Losses would not have occurred but for the Modifications; and
- (iii) the indemnity obligations of Project Co set out in Section 56.1(g) (*Project Co Indemnities to Contracting Authority*) of the Project Agreement shall not apply in respect of any such

Modifications where the Modifications are the direct cause of such Direct Losses, and the Direct Losses would not have occurred but for the Modifications.

3.13 Reverse Engineering License

- (a) Without limiting any of Contracting Authority's rights pursuant to the Project Agreement, at law or in equity, but subject to Subsection 3.13(b), Project Co grants to Contracting Authority a License to reverse engineer any or all of the Project Co Intellectual Property and Subcontractor Intellectual Property if:
- (i) Project Co (in respect of its Project Co Intellectual Property) or a Subcontractor (in respect of its Subcontractor Intellectual Property) has failed to comply with Subsections 3.2(j) (*License by Project Co to the Contracting Authority*) and 3.2(k) (*License by Project Co to the Contracting Authority*) or if the Design Data, the System Architecture and Look and Feel to the extent owned by Project Co, or any other documents and information supplied by Project Co is incomplete or otherwise insufficient to permit Contracting Authority to install, operate, maintain, repair, upgrade, Modify, replace or otherwise Use any or all of the Works, excluding any ability to Modify for which access to and Use and Modification of Escrow Materials would be required; or
 - (ii) Project Co (in respect of its Escrowed Deliverables) or a Subcontractor (in respect of its Escrowed Deliverables) has failed to comply with Section 3.11 or the Escrow Materials deposited by Project Co or a Subcontractor are insufficient to permit Contracting Authority to install, operate, maintain, repair, upgrade, Modify, replace or otherwise Use the Escrowed Deliverable to which the Escrow Materials relate and to exercise Contracting Authority's rights under Section 3.11,

provided that the reverse engineering and the results therefrom will be used for the Permitted Purposes only.

- (b) The Contracting Authority will not exercise its right to reverse engineer an item of Project Co Intellectual Property or Subcontractor Intellectual Property under Section 3.13(a) for the purposes of installing, operating, maintaining, repairing, upgrading, Modifying, replacing or otherwise Using any or all of the Works, unless Contracting Authority will have first given notice to Project Co stipulating the documents and information which Contracting Authority requires in order to install, operate, maintain, repair, upgrade, Modify, replace or otherwise Use any or all of the Licensed Intellectual Property, and Project Co will have failed to deliver to Contracting Authority or otherwise make those documents and information available to Contracting Authority within seven (7) Business Days after receipt of Contracting Authority's notice.

APPENDIX A TO SCHEDULE 37

FORM OF TRADEMARK LICENCE AGREEMENT

TRADEMARK LICENSE AGREEMENT

THIS TRADEMARK LICENSE AGREEMENT, effective as of [DATE] (the “**Agreement**”), is between Contracting Authority (the “**Licensor**”), and Project Co (the “**Licensee**”), and Licensor and Licensee are referred to herein individually as a “**Party**” and collectively as the “**Parties**”.

WHEREAS:

1. Licensor and Licensee are parties to a Project Agreement dated November 15, 2022 (the “**Project Agreement**”);
2. Capitalized terms used but not defined herein have the meanings assigned to them in the Project Agreement and Schedule 37 thereto;
3. Licensor owns the trademarks shown on Exhibit A (the “**Marks**”);
4. Licensee proposes to use the Marks in [Ontario] (the “**Territory**”) for the Limited Purpose set forth below; and
5. Subject to the terms and conditions set forth herein, Licensor is willing to grant to Licensee, and Licensee is willing to accept, a non-exclusive license to use the Marks pursuant to the terms of this Agreement.

NOW THEREFORE in consideration of the covenants contained herein, the receipt and sufficiency of which are acknowledged, the Parties agree as follows:

1. **Grant:** Licensor grants to Licensee, and Licensee accepts, a limited, non-transferable, non-exclusive, royalty-free right and license to use the Marks in the Territory for the sole purpose of and only to the extent necessary for the performance by Licensee of the Project Scope and its obligations under the Project Agreement (the “**Limited Purpose**”).
2. **No Right to Sublicense:** Licensee acknowledges and agrees that it does not have the right to sublicense the use of the Marks to any party without the express written consent of Licensor.
3. **Ownership:** Licensee acknowledges Licensor’s ownership of the Marks, and agrees that its use of the Marks shall enure to Licensor’s benefit.
4. **Licensee Covenants:** Licensee acknowledges that Licensor is the owner of all rights in the Marks, and, except as otherwise expressly permitted by this Agreement, Licensee shall not at any time do or suffer to be done any act or thing that will in any way impair the rights of Licensor in and to the Marks. Nothing in this Agreement grants, nor shall Licensee acquire, any right, title or interest in or to the Marks or any goodwill associated with the Marks, other than those rights expressly granted

hereunder. Licensee shall affix to all materials that contain or bear one or more of the Marks such legends and notices as Licensor may reasonably require. At Licensor's request, Licensee shall publish a public notice in the following form, or in any other form prescribed by Licensor from time to time, in appropriate publications addressed to the general public: "[MARK] is a trademark owned by [LICENSOR] used under license by [LICENSEE]". Licensee undertakes to comply with all relevant laws and regulations pertaining to trademarks and marking requirements. Licensee shall execute all documents and provide all assistance reasonably required by Licensor to apply for, obtain and maintain registrations for the Marks, and to enforce rights in, and defend any proceedings brought against applications or registrations for, the Marks.

5. **Restrictions On Use:** Notwithstanding anything contained in this Agreement or otherwise, Licensee shall use the Marks only in accordance with the design, description and/or appearance of the Marks as shown on Exhibit A. Licensee may not change or modify the Marks nor join the mark with any other words or designs. Licensee agrees to abide by any reasonable guidelines provided by Licensor from time to time in connection with the use of the Marks.
6. **Quality Standards and Control:** Licensee agrees that use of the Marks by Licensee in association with any products or services (the "**Products**" and "**Services**") will meet or surpass the standards set by Licensor and conveyed to Licensee from time to time for the character and quality of such Products and Services.
7. **Inspection:** At the request of the Licensor, the Licensee shall provide to Licensor for Licensor's review, comment and approval samples of any Products and sample copies of materials associated with the Products or Services or used to advertise/promote the Products or Services.
8. **Breach of License:** Licensor may notify the Licensee if it objects to any proposed or actual use of the Marks if in Licensor's sole judgment (acting reasonably) Licensor believes that the Marks are being used or proposed to be used in a manner that erodes the goodwill associated with the Marks or otherwise reduces the value of the Marks. If Licensee is so notified, the Parties shall attempt to settle any dispute and Licensee shall, if directed by Licensor to do so, cease using or cease from using the Marks until the time such dispute has been settled between the Parties or otherwise finally determined.
9. **Infringement:** Licensee shall promptly notify Licensor upon becoming aware of any infringement or dilution of the Marks and shall cooperate fully with Licensor to stop such infringement or dilution. Licensor, in its sole discretion, will take any action that it deems necessary to protect the validity of the Marks, and Licensee hereby waives any rights that it may have pursuant to section 50(3) of the *Trademarks Act*, R.S.C., 1985, c. T-13, as amended from time to time.
10. **Indemnification:** Licensor does not assume any liability to Licensee, or third parties, for Licensee's goods or services, including the Products and Services, and Licensee shall defend, indemnify and hold harmless Licensor and its affiliates, successors and assigns, and their respective officers, directors, employees, agents, lawyers and representatives from and against any and all claims, causes of action, suits, damages, losses, liabilities, costs and expenses (including, but not limited to, reasonable lawyer fees and expenses), which may be sustained or suffered as a result of any such third party claims or arising from a breach of this Agreement by Licensee including,

without limitation, any act or omission, which causes or is alleged to cause harm or a violation of any of the rights of any third party.

11. **Breach/Use Outside Limited Purpose:** In the event that Licensee breaches any of the terms of this Agreement, including use of the Marks outside the Limited Purpose or Territory as determined by Licensor in its sole discretion, but acting reasonably, Licensor shall have the option to terminate this Agreement immediately, and if so terminated, all subsequent use by Licensee will be unauthorized and subject to legal action. Upon the termination of this Agreement for any reason, all rights in the Marks granted to Licensee hereunder shall automatically revert to Licensor, Licensee shall have no further rights in the Marks, and Licensee shall immediately change its use of the Marks to uses that do not consist of or include the Marks or any words similar to the Marks. In the event of an unauthorized use of the Marks by Licensee, Licensee consents to the immediate entry of a court injunction preventing Licensee's further use of the Marks.
12. **Termination:** This licence granted to Licensee will terminate upon the expiry or termination of Licensee's services and other obligations under the Project Agreement.
13. **No Agency:** The Parties hereto are independent contractors with respect to each other, and nothing herein shall create any association, partnership, joint venture or agency relationship between them.
14. **Assignment:** Licensee may not convey, sublicense, assign, transfer, pledge, hypothecate, encumber or otherwise dispose of this Agreement without the prior written consent of Licensor, which consent may be unreasonably withheld.
15. **Headings:** The headings contained in this Agreement are for purposes of convenience only and shall not affect the meaning or interpretation of this Agreement.
16. **Notices:** All notices, requests, demands and other communications made in connection with this Agreement shall be made in the manner set out in the Project Agreement.
17. **Entire Agreement:** This Agreement constitutes the entire agreement between Licensor and Licensee with respect to the subject matter hereof and supersedes all prior agreements and understandings, whether oral, written, express or implied, between Licensor and Licensee.
18. **No Waiver:**
 - (a) No waiver made or given by a Party under or in connection with this Agreement shall be binding or effective unless the waiver is in writing, signed by an authorized representative of the Party giving such waiver, and delivered by such Party to the other Party. No waiver made with respect to any right, power or remedy in one instance will be deemed to be a waiver with respect to any other instance involving the exercise of such right, power, or remedy or with respect to any other right, power, or remedy.
 - (b) Failure by either Party to exercise any of its rights, powers or remedies hereunder or its delay to do so shall not constitute a waiver of those rights, powers or remedies. The single or partial exercise of a right, power or remedy shall not prevent its subsequent exercise or the exercise of any other right, power or remedy.

19. **Successors:** This Agreement shall be binding upon and shall enure to the benefit of the Parties and their respective successors and permitted assigns.
20. **Severability:** Each provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law. If any provision of this Agreement is declared invalid, unenforceable or illegal by the courts of a competent jurisdiction, such provision may be severed and such invalidity, unenforceability or illegality shall not prejudice or affect the validity, enforceability and legality of the remaining provisions of this Agreement. If any such provision of this Agreement is invalid, unenforceable or illegal, the Parties shall, acting in good faith, promptly negotiate new provisions to eliminate such invalidity, unenforceability or illegality and to restore this Agreement as near as possible to its original intent and effect.
21. **Governing Law:** This Agreement shall be governed by and construed in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein and shall be treated in all respects as an Ontario contract, without regard to conflict of laws principles. Each of the Parties attorn to the jurisdiction of the courts of the Province of Ontario and all courts competent to hear appeals therefrom.
22. **Counterparts:** The Project Agreement may be executed in one or more counterparts. Any single counterpart or a set of counterparts executed, in either case, by all the Parties shall constitute a full, original and binding agreement for all purposes. Counterparts may be executed either in original or faxed form provided that any Party providing its signature in faxed form shall promptly forward to the other Party an original signed copy of the Project Agreement which was so faxed.

[Remainder of page intentionally blank – Next page is the signature page.]

IN WITNESS WHEREOF, the Parties have signed this Agreement effective as of the date set forth above.

SCHEDULE 38

CARS

1. DEFINITIONS

- 1.1 In this Schedule 38, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 38) shall have the meanings given to them in the Project Agreement and the following terms shall have the following meanings:
- (a) **“Acceptance”** means, in relation to any Additional Car, the time and date when such Additional Car is ready for Revenue Service as part of a Train in accordance with the applicable requirements of Schedule 14 – Commissioning, and **“Accepted”** and similar expressions shall be construed accordingly.
 - (b) **“Additional Car”** has the meaning given in Section 3.1(a).
 - (c) **“Additional Car Acceptance Schedule”** has the meaning given in Section 3.1(c).
 - (d) **“Additional Cars Delivery Event”** means, collectively, Additional Cars Delivery Event 1 and Additional Cars Delivery Event 2.
 - (e) **“Additional Cars Delivery Event 1”** has the meaning given in Section 3.3(a)(i).
 - (f) **“Additional Cars Delivery Event 2”** has the meaning given in Section 3.3(a)(ii).
 - (g) **“Additional Car Milestone Payment”** means a payment by Contracting Authority calculated in accordance with Section 1 of Appendix A to this Schedule 38.
 - (h) **“Additional Car Option Price”** means the agreed upon price for each Additional Car, determined in accordance with Section 3.4(a), if any.
 - (i) **“Additional Car Order”** means a written notice given to Project Co by Contracting Authority for the supply of an Additional Car or Additional Cars.
 - (j) **“Aggregate Additional Cars Order Price”** means the total value of an applicable Additional Car Order and shall be equal to the sum of the Additional Car Option Price multiplied by the number of Additional Cars to be supplied for an applicable Additional Car Order.
 - (k) **“Bill of Sale”** has the meaning given in Section 4.1.
 - (l) **“Canadian Content”** means a minimum of [REDACTED] percent ([REDACTED]%) of the final value of a Car supplied by Project Co under the Project Agreement, which must be contracted for by Project Co in Canada, as calculated in accordance with this Schedule 38.

- (m) “**Canadian Content Certificate**” means the certificate provided by the Car Supplier to Project Co or a Project Co Party upon the successful completion of the acceptance test of each Car pursuant to the provisions of the Project Agreement.
- (n) “**Canadian Content Requirements**” means the requirements for compliance with this Schedule 38 in respect of Canadian Content for the Project.
- (o) “**Canadian Supplier**” means a supplier with a permanent establishment in Canada.
- (p) “**Capacity**” has the meaning given in the Output Specifications.
- (q) “**Car Manual**” means a handbook or guidebook, specific to a Car, that the Car Supplier provides to Metrolinx or Contracting Authority under the Project Agreement.
- (r) “**Car Supplier**” means the Construction Contractor.
- (s) “**Car Warranty**” means any warranty provided in respect of Cars.
- (t) “**Component**” means any article, material, or supply, whether manufactured or unmanufactured, that is directly incorporated into a Car, and includes any Subcomponent.
- (u) “**CPI-XFET**” has the meaning given in Schedule 20 – Payment Mechanism.
- (v) “**Currency Exchange Adjustment**” has the meaning given in Section 3 of Appendix A to this Schedule 38.
- (w) “**Eligible Cost**” has the meaning given in Section 5.2.
- (x) “**Engineering**” means the application of scientific and technical knowledge to the design, analysis, or construction of a Subcomponent, Component or Car.
- (y) “**Fixed Weighted Index**” has the meaning given in Schedule 20 – Payment Mechanism.
- (z) “**Freight**” means the cost for transportation within Canada or paid to a Canadian carrier for carriage within Canada, or both, for (a) delivering a Subcomponent or Component to a Manufacturer; or (b) delivering a Car to Metrolinx.
- (aa) “**Inflation Base Date**” has the meaning in Schedule 20 – Payment Mechanism.
- (bb) “**Initial Cars**” means the Cars required to achieve Substantial Completion and meet Capacity Level 1 and Capacity Level 2 in accordance with the requirements of the Project Agreement, including the Output Specifications. The Initial Cars shall be at least [REDACTED] Cars.
- (cc) “**Irreversible Manufacturing Process**” means a Manufacturing Process which transforms Subcomponents into a Component which cannot be separated back into the Subcomponents without destroying the Subcomponents’ integrity.

- (dd) “**Labour**” means work performed by a Manufacturer, or a Manufacturer’s supplier of Subcomponents or Components, that is directly related to the Manufacturing Process of Cars, including Project Management and Engineering, plus any benefits paid or general administration and similar expenses recognized and allowed by Canadian accounting rules.
- (ee) “**Manufacturer**” means the Manufacturer of a Subcomponent, Component or Car acquired, or that may be acquired pursuant to the Project Agreement and, as applicable, includes a dealer who distributes Cars on behalf of such Manufacturer.
- (ff) “**Manufacturing Process**” means the application of processes to alter the form or function of Components, or Subcomponents to create a Component, or a Car.
- (gg) “**Minimum Additional Car Order Size**” means, if applicable, the minimum number of Additional Cars for any Additional Car Order agreed to by the Parties.
- (hh) “**Monthly Fixed O&M Service Payment**” has the meaning given in Schedule 20 – Payment Mechanism.
- (ii) “**Monthly Time-Based Cars Lifecycle Payment**” has the meaning given in Schedule 20 – Payment Mechanism.
- (jj) “**Monthly Time-Based Lifecycle Payment**” has the meaning given in Schedule 20 – Payment Mechanism.
- (kk) “**Monthly Variable O&M Service Payment**” has the meaning given in Schedule 20 – Payment Mechanism.
- (ll) “**Monthly Volume-Based Lifecycle Payment**” has the meaning given in Schedule 20 – Payment Mechanism.
- (mm) “**Preliminary Acceptance**” means, in relation to any Additional Car, the time and date when such Additional Car has satisfied the requirements of the Factory Acceptance Test in accordance with the applicable requirements of Schedule 14 – Commissioning.
- (nn) “**Project Management**” means the application of knowledge, skills, tools, and techniques to the Manufacturing Process, distribution and acquisition of Cars.
- (oo) “**Public Transportation**” means any service for which a fare is charged for transporting the public by Cars operated by or on behalf of Metrolinx, or under an agreement with Contracting Authority or Metrolinx, and includes special transportation facilities for the physically disabled, but does not include transportation by special purpose facilities such as school buses or ambulance.
- (pp) “**Revenue Service**” has the meaning given in the Output Specifications.
- (qq) “**Service Car Kilometer**” has the meaning given in Schedule 20 – Payment Mechanism.

- (rr) “**Special Tools**” means an engineered tool that a Manufacturer may provide to service a Car after Acceptance.
- (ss) “**Subcomponent**” means a part of a Component which cannot be further separated into its constituent parts without destroying its integrity.
- (tt) “**Test Equipment**” means the diagnostic equipment that the Car Supplier provides to Metrolinx or Contracting Authority under the Project Agreement.

2. PROJECT CO GENERAL OBLIGATIONS

2.1 Project Co shall:

- (a) design, engineer, construct and manufacture the Cars in accordance with the Output Specifications;
- (b) conduct and complete all Commissioning and carry out all integration activities, to ensure the integration of the Cars into and with the other elements of the Project Co Infrastructure and to ensure that the other elements of the Project Co Infrastructure fully integrate with the Cars, in accordance with the Project Agreement including Schedule 14 – Commissioning;
- (c) supply, provide and deliver the Cars, and operate, maintain and rehabilitate the Cars, in accordance with the Output Specifications;
- (d) provide for the proper storage of the Cars; and
- (e) provide the operations, maintenance and engineering training associated with the Cars in accordance with the Output Specifications.

3. ADDITIONAL CARS

3.1 General Provisions Applicable to Additional Car Orders

- (a) Contracting Authority shall have the option, in its sole discretion, to purchase Cars in addition to the Initial Cars (each an “**Additional Car**”):
 - (i) for any System Extension; or
 - (ii) at any time or times during the Project Term,

provided that no less than three (3) years’ notice of the required Acceptance date is given to Project Co by Contracting Authority giving Project Co an Additional Car Order in accordance with this Schedule 38.

- (b) All Additional Cars shall comply with the requirements of the Project Agreement, including the Output Specifications, and shall be the same as or equivalent with the Initial Cars.

- (c) Project Co shall, no later than forty-five (45) days after the date of an Additional Car Order, submit an Additional Car Acceptance Schedule to Contracting Authority for its approval and agreement.
- (d) Each Additional Car Acceptance Schedule must be acceptable to and approved by Contracting Authority in its sole discretion and shall be subject to review by Contracting Authority pursuant to Schedule 10 – Review Procedure.
- (e) Project Co shall cause the Acceptance of each Additional Car to occur in accordance with the applicable and agreed Additional Car Acceptance Schedule.
- (f) Contracting Authority may give further Additional Car Orders to Project Co before Project Co has completed the Acceptance of Additional Cars pursuant to any preceding Additional Car Order, in which case, Contracting Authority and Project Co shall, acting reasonably, agree to an amended Additional Car Acceptance Schedule for the incremental Additional Cars ordered. For clarity, there shall be no amendment to the Additional Car Acceptance Schedule for Additional Cars previously ordered.
- (g) Contracting Authority shall pay Additional Car Milestone Payments for each Additional Car in accordance with Section 1 of Appendix A to this Schedule 38.
- (h) For certainty, Additional Cars shall be considered Cars and shall be subject to the same requirements as Initial Cars for all purposes under the Project Agreement.
- (i) Additional Cars for any System Extension as contemplated in Schedule 44 – System Extension shall be purchased in accordance with this Schedule 38, but, for clarity, the terms and requirements of Schedule 44 – System Extension shall continue to apply to any System Extension for which Additional Cars are purchased.

3.2 Currency Exchange Adjustment

- (a) At least ninety (90) days before calculating the Additional Car Milestone Payments in accordance with Section 1 of Appendix A to this Schedule 38, Project Co may submit to Contracting Authority a request for a Currency Exchange Adjustment to adjust each Additional Car Milestone Payment based on changes in the US dollar (USD) or European euro (EUR) to Canadian dollar (CAD) exchange rate, as agreed to by the Parties, since the Inflation Base Date. Contracting Authority and Project Co shall work together to identify the portion of the Additional Car Milestone Payment that will be subject to an adjustment for a change in the USD or EUR to CAD exchange rate, as agreed to by the Parties, since the Inflation Base Date, and Project Co shall provide evidence (including reference to other relevant vehicle supply contracts recently executed or completed, and with regard to Canadian Content Requirements) to the reasonable satisfaction of Contracting Authority with respect to that portion of the Additional Car Milestone Payment that is subject to an adjustment for which a change in the USD or EUR to CAD exchange rate, as agreed to by the Parties, since the Inflation Base Date is applicable.
- (b) At any time after Contracting Authority has given an Additional Car Order to Project Co, Contracting Authority may request Project Co use commercially reasonable efforts to obtain

and execute a currency hedging arrangement for all or some of the Additional Car Milestone Payments and Project Co shall be entitled to a Variation, subject to and in accordance with Schedule 22 – Variation Procedure, in respect of Direct Costs associated with obtaining and executing such currency hedging arrangement. In such event:

- (i) Project Co shall use commercially reasonable efforts to obtain the requested currency hedging arrangement on terms satisfactory to Project Co and Contracting Authority;
 - (ii) If Project Co has used commercially reasonable efforts to obtain the requested currency hedging arrangement in respect of an Additional Car Milestone Payment but has been unable to obtain such currency hedging arrangement on terms reasonably satisfactory to Project Co and Contracting Authority within sixty (60) days of the date that Contracting Authority issues the request, then Project Co shall have no further obligation to obtain such currency hedging arrangement in respect of such Additional Car Milestone Payment;
 - (iii) If Project Co obtains an offer of a currency hedging arrangement on terms reasonably satisfactory to Project Co in respect of an Additional Car Milestone Payment, Project Co shall provide Contracting Authority with details of such currency hedging arrangement, and Contracting Authority shall, in its sole discretion, determine whether Project Co should proceed with such currency hedging arrangement. If Contracting Authority determines that Project Co should not proceed with such currency hedging arrangement, then Project Co shall have no further obligation to obtain a currency hedging arrangement in respect of such Additional Car Milestone Payment;
 - (iv) Contracting Authority may at any time withdraw the requirement for Project Co to use commercially reasonable efforts to obtain a currency hedging arrangement in respect of an Additional Car Milestone Payment, after which Project Co shall have no further obligation to obtain a currency hedging arrangement in respect of such Additional Car Milestone Payment;
 - (v) If Contracting Authority withdraws the request for Project Co to use commercially reasonable efforts to obtain and execute a currency hedging arrangement in respect of an Additional Car Milestone Payment, or if Project Co has no further obligation to obtain a currency arrangement in respect of an Additional Car Milestone Payment pursuant to Sections 3.2(b)(ii), 3.2(b)(iii), or 3.2(b)(iv), Project Co will be entitled to a Currency Exchange Adjustment in accordance with Section 3.2(a) for such Additional Car Milestone Payment; and,
 - (vi) If Project Co executes a currency hedging arrangement for all or some of the Additional Car Milestone Payments, Project Co will no longer be entitled to a Currency Exchange Adjustment in accordance with Section 3.2(a) for such Additional Car Milestone Payments.
- (c) If Project Co has obtained and executed a currency hedging arrangement for all or some of the Additional Car Milestone Payments, in accordance with Section 3.2(b), and Contracting Authority subsequently requests Project Co to either terminate the currency hedging

arrangement or terminate an Additional Car Order that is subject to a currency hedging arrangement, Contracting Authority shall pay to Project Co any amounts necessary for any net swap breakage costs payable to any applicable currency hedge provider(s) under a currency hedging agreement(s),

3.3 Failure to Deliver Additional Cars

- (a) If Project Co fails to achieve Acceptance of Additional Cars by the date specified for Acceptance in the applicable Additional Car Acceptance Schedule, Project Co shall pay to Contracting Authority liquidated damages as follows:
- (i) If Project Co fails to achieve Acceptance of the first [REDACTED]% (rounded down to the nearest whole number) of Additional Cars of an Additional Car Order within thirty (30) days after the last date specified in the applicable Additional Car Acceptance Schedule for Acceptance of the first [REDACTED]% of Additional Cars (“**Additional Cars Delivery Event 1**”), an amount equal to \$[REDACTED] (index-linked) for each Additional Car subject to Additional Cars Delivery Event 1 per calendar day, commencing from Additional Cars Delivery Event 1 and concluding on the earlier of (i) the date on which Project Co achieves Acceptance of all the applicable Additional Cars subject Additional Cars Delivery Event 1, and (ii) the date on which the termination of the Project Agreement takes effect in accordance with its terms; and
 - (ii) If Project Co fails to achieve Acceptance of all Additional Cars of an Additional Car Order within thirty (30) days after the date specified in the applicable Additional Car Acceptance Schedule for Acceptance of the final Additional Car (“**Additional Cars Delivery Event 2**”), an amount equal to \$[REDACTED] (index-linked) for each Additional Car subject to the Additional Cars Delivery Event 2 per calendar day, commencing from Additional Cars Delivery Event 2 and concluding on the earlier of (i) the date on which Project Co achieves Acceptance of the final Additional Car and (ii) the date on which the termination of the Project Agreement takes effect in accordance with its terms.
- (b) The liquidated damages set out in Section 3.3(a) are mutually exclusive, whereby, for clarity, if the liquidated damages associated with any Additional Cars Delivery Event are in effect, the liquidated damages associated with the preceding Additional Cars Delivery Event shall not be in effect.
- (c) The Parties agree that the liquidated damages set out in Section 3.3(a) are not a penalty but represent a genuine and reasonable pre-estimate of the damages and costs that Contracting Authority will suffer as a result of Project Co failing to achieve Acceptance of Additional Cars on the date specified for Acceptance of each such Additional Car in the applicable Additional Car Acceptance Schedule.
- (d) Liquidated damages shall accrue daily, may be deducted by Contracting Authority only from Additional Car Milestone Payments and shall be Contracting Authority’s sole remedy for the costs Contracting Authority will suffer as a result of Project Co failing to achieve Acceptance

of Additional Cars on the date specified for Acceptance of such Additional Car in the applicable Additional Car Acceptance Schedule.,

- (e) Project Co's maximum aggregate liability in respect of its obligations to pay liquidated damages described in Section 3.3(a) shall not exceed [REDACTED]% of the Aggregate Additional Cars Order Price for an applicable Additional Car Order.
- (f) Commissioning of Additional Cars will not be required for Substantial Completion.
- (g) To the extent the delivery of Additional Cars is affected by:
 - (i) any of the events set out in Section 40 (*Delay Events*) of the Project Agreement so as to cause a delay in achieving the Additional Car Acceptance Schedule, whether or not such event constitutes a Delay Event, Project Co shall be allowed an extension of time equal to the delay to the Additional Car Acceptance Schedule, subject to and in accordance with the relevant provisions of Section 40.2 (*Consequences of a Delay Event*) and Section 40.3 (*Mitigation*) of the Project Agreement which would apply if such event were a Delay Event;
 - (ii) any of the events set out in Section 40.1 (a)(ii), (iii), (x) or (xvii) of the Project Agreement, as a direct result of which Project Co has incurred loss or expense, whether or not any of these events also caused a delay, Project Co shall be entitled to compensation, subject to and in accordance with the relevant provisions of Section 41.2 (*Consequences of a Compensation Event*), Section 41.3 (*Mitigation*) and Section 41.4 (*Insured Exposure*) which would apply if such event were a Compensation Event; or
 - (iii) an Excusing Cause which interferes adversely with, or causes a failure of, the performance of Project Co Services after the Substantial Completion Date, the provisions of Section 42.2(a)(i), (ii), (iii), (iv) and (vi) (*Consequences of an Excusing Cause*), subject to and in accordance with Section 42 (*Excusing Causes*), of the Project Agreement shall apply.
- (h) For certainty, no event or circumstance that affects the delivery of Additional Cars shall be considered a Compensation Event or result in any reimbursement or payment from Contracting Authority pursuant to Section 42.2(a)(v) (*Consequences of an Excusing Cause*) of the Project Agreement.

3.4 Determination of Additional Car Option Price

- (a) For any Additional Car Order given to Project Co by Contracting Authority, the Additional Car Option Price shall be agreed between Project Co and Contracting Authority, acting reasonably, having regard to (i) all relevant market factors at the time of such Additional Car Order, (ii) the size of such Additional Car Order, and (iii) the price of the Initial Cars, adjusted for inflation.

3.5 Applicability of Minimum Additional Car Order Size Requirement

- (a) The Minimum Additional Car Order Size applies to any Additional Car Order as follows:
- (i) where such Additional Car Order is given to Project Co by Contracting Authority less than eighteen (18) months before the date of Acceptance of the final Additional Car pursuant to the immediately preceding Additional Car Order, the Minimum Additional Car Order Size applies;
 - (ii) where such Additional Car Order is given to Project Co by Contracting Authority eighteen (18) months or more before the date of Acceptance of the final Additional Car pursuant to the immediately preceding Additional Car Order, the Minimum Additional Car Order Size does not apply; and
 - (iii) where such Additional Car Order is given to Project Co by Contracting Authority and there is no preceding Additional Car Order in production, the Minimum Additional Car Order Size applies.
- (b) If the combined number of Additional Cars that will be in production at the same time according to any applicable Additional Car Acceptance Schedule exceeds the Minimum Additional Car Order Size, Project Co may request and Contracting Authority shall grant where reasonably required to revise any applicable Additional Car Acceptance Schedule if Project Co demonstrates to the satisfaction of Contracting Authority that a longer period for production and Acceptance for any Additional Car above the Minimum Additional Car Order Size is necessary.
- (c) Notwithstanding that the combined number of Additional Cars in production at the same time exceeds the Minimum Additional Car Order Size according to any applicable Additional Car Acceptance Schedule, where an Additional Car Order is given at least eighteen (18) months before the date of Acceptance of the final Additional Car pursuant to a preceding Additional Car Order, the date of Acceptance of the final Additional Car pursuant to such preceding Additional Car Order shall not be permitted to change.

3.6 Operating, Maintenance and Lifecycle Costs

- (a) For each Additional Car Order, Project Co and Contracting Authority shall agree, acting reasonably, to changes to the Monthly Fixed O&M Service Payment and the Monthly Time-Based Lifecycle Payment set out in Schedule 20 – Payment Mechanism, and such adjustments shall, subject to and in accordance with Schedule 22 – Variation Procedure, result in a Variation.
- (b) For clarity, and subject to Section 3.6(c), the Monthly Variable O&M Service Payment, the Monthly Volume-Based Lifecycle Payment and the Monthly Time-Based Cars Lifecycle Payment set out in Schedule 20 – Payment Mechanism shall not be subject to a Variation for an Additional Car Order. The Monthly Variable O&M Service Payment and the Monthly Volume-Based Lifecycle Payment will be administered in accordance with any additional Service Car Kilometers completed and the Monthly Time-Based Cars Lifecycle Payment will be administered in accordance with the total number of Cars, including the applicable Additional Cars, that are Accepted.

- (c) In the event of any future extensions as contemplated in Schedule 44 – System Extension, Project Co and Contracting Authority shall agree, acting reasonably, to changes to the Monthly Volume-Based Lifecycle Payment and the Monthly Time-Based Cars Lifecycle Payment, in addition to changes to the Monthly Fixed O&M Service Payment and the Monthly Time-Based Lifecycle Payment, pursuant to Section 3.6(a), and such adjustments shall, subject to and in accordance with Schedule 22 – Variation Procedure, result in a Variation. For clarity, the Monthly Variable O&M Service Payment shall not be subject to a Variation for any future extensions and will be administered in accordance with any additional Service Car Kilometers completed.

4. BILL OF SALE FOR CARS

- 4.1 Project Co shall deliver to Contracting Authority a bill of sale (or like instrument) issued by the Car Supplier to and in favour of Metrolinx for each Car, in form and content satisfactory to Contracting Authority (each a “**Bill of Sale**”), on the date that title to the Car passes to Contracting Authority in accordance with Section 55.1(a) (*Title*) of the Project Agreement, in which the Car Supplier:

- (a) represents and warrants that:
- (i) Project Co is, at the time of Acceptance, rightfully and absolutely entitled to such Car;
 - (ii) Project Co, at the time of Acceptance of such Car, has good right, title and authority to grant, bargain, sell, assign, transfer, convey and set over to Metrolinx such Car; and
 - (iii) Metrolinx shall, immediately on the execution and delivery of such Bill of Sale, have possession of and peaceably and quietly have, hold, possess and enjoy such Car, free and clear of all encumbrances, to and for its own use and benefit without any manner of hindrance, interruption, molestation, claim or demand whatsoever of, from or by the Car Supplier, Project Co or any person whomsoever and with good title thereto, free and clear and absolutely released and discharged from and against all former and other bargains, sales, gifts, grants, mortgages, pledges, security interests, adverse claims, liens, charges and encumbrances of any nature or kind whatsoever;
- (b) grants, bargains, sells, assigns, transfers, conveys and sets over to Metrolinx absolutely, all of Project Co’s right, title and interest in and to such Car, subject to the provisions of Section 51 (*Intellectual Property*) of the Project Agreement and Schedule 37 – Intellectual Property; and
- (c) covenants and agrees with Metrolinx that the Car Supplier will from time to time and at all times at Project Co’s expense, on every reasonable request of Metrolinx make, do and execute or cause and procure to be made, done and executed all further acts, deeds or assurances as may be reasonably required by Metrolinx (including conducting all lien searches requested by Metrolinx), whether for more effectually and completely vesting in Metrolinx such Car in accordance with the terms of each such Bill of Sale or for the purpose of registration or otherwise.

4.2 Project Co shall retain all responsibility for the risk of loss or damage or destruction of, to or in respect of all Cars notwithstanding the issuance of a Bill of Sale to Metrolinx in relation to such Car.

5. CALCULATION OF ELIGIBLE COSTS AND CANADIAN CONTENT

5.1 Determination of the Canadian Content

(a) For the purposes of determining whether the Canadian Content Requirements have been met for each Car, costs shall first be assessed to determine if the cost is an Eligible Cost under Section 5.2. If such cost is determined to be an Eligible Cost, it shall then be assessed in accordance with Section 5.3 to determine what portion of the Eligible Cost will be allocated as Canadian Content for each Car.

5.2 Calculation of Eligible Cost

(a) A cost shall be considered eligible if the costs paid by the Manufacturer are paid to a Canadian Supplier for labour, work or production performed in Canada in respect of Cars for the items listed below and provided that such costs are directly related to the Manufacturing Process, distribution and acquisition of such Cars:

- (i) Labour;
- (ii) Subcomponents and Components and raw materials;
- (iii) Project Management;
- (iv) Engineering;
- (v) Car Manuals;
- (vi) Special Tools;
- (vii) Test Equipment;
- (viii) Freight; and
- (ix) Car Warranty,

(collectively, “**Eligible Cost**”).

5.3 Calculation of Canadian Content

(a) The overall Canadian Content of a Car shall be calculated in accordance with this Schedule 38 as a percentage of the total final costs of a Car to the Car Supplier, less any applicable Taxes.

- (b) In determining Canadian Content for a Car, Contracting Authority will only consider that portion of the Eligible Costs that is directly related to the Manufacturing Process, distribution and acquisition of that Car.
- (c) Subject to the provisions of this Schedule 38, Eligible Costs for Components or Subcomponents will be calculated and applied toward the Canadian Content for a Car as follows:
- (i) for a Component or Subcomponent that has undergone an Irreversible Manufacturing Process in Canada, [REDACTED] percent ([REDACTED]%) of the Eligible Cost for that Component or Subcomponent will be applied toward the Canadian Content calculation; or
 - (ii) for a Component or Subcomponent that contains [REDACTED] percent ([REDACTED]%) or more Canadian Content through any combination of expenditures that may be considered Eligible Costs, [REDACTED] percent ([REDACTED]%) of the expenditures for that Component or Subcomponent will be applied toward the Canadian Content calculation if all expenditures for that Component or Subcomponent are made in Canada; or
 - (iii) for a Component or Subcomponent that contains between [REDACTED] ([REDACTED]%) and [REDACTED] percent ([REDACTED]%) Canadian Content through any combination of expenditures that may be an Eligible Cost, the exact percentage of Canadian Content for the Component or Subcomponent will be applied toward the Canadian Content calculation if all expenditures for that Component or Subcomponent are made in Canada; or
 - (iv) where a Component or Subcomponent is procured from a Canadian Supplier and the Canadian Supplier has provided added value through the procuring, manufacturing or after sales support of the Component or Subcomponent, as determined by Contracting Authority in its sole discretion:
 - (A) a minimum Canadian Content of [REDACTED] percent ([REDACTED]%) for such Component or Subcomponent will be applied for that Component or Subcomponent toward the Canadian Content calculation; and
 - (B) Project Co will not be required to certify the percentage of Canadian Content in a Canadian Content Certificate.
- For clarity and without limitation, simply handling the Component or Subcomponent will not be sufficient to qualify as added value.
- (d) Eligible Costs associated with items that are not intended for operational use, or which do not support operational use, will not be applied toward the Canadian Content calculation, including prototypes, mock-ups, samples, or other items intended to demonstrate the functionality of the final Cars, non-operational Components or Subcomponents, draft Car Manuals or other pre-operational Cars, Components, Subcomponents.

- (e) Taxes shall not be included in the calculation of any Eligible Costs or Canadian Content.

6. DECLARATIONS AND CANADIAN CONTENT CERTIFICATION

6.1 Declarations, Consents, Reports and Audits

- (a) Project Co shall provide, and shall cause the Car Supplier to provide, a written declaration from the Car Supplier, in form and content satisfactory to Contracting Authority, providing the Car Supplier's consent to the disclosure, verification and audit, by the Contracting Authority or the Auditor General of the Province, of information forming the basis of compliance with the Canadian Content Requirements.
- (b) Project Co shall ensure that the Car Supplier provides such progress reports and written declarations as Contracting Authority or any Contracting Authority Party may require with respect to ongoing compliance with Canadian Content Requirements during the Project Term.

6.2 Canadian Content Certification

- (a) Project Co shall provide Contracting Authority, concurrent with the delivery to Metrolinx of the Bill of Sale for the applicable Car, a Canadian Content Certificate in respect of such Car.
- (b) Each Canadian Content Certificate delivered by Project Co to Contracting Authority pursuant to Section 6.2(a) shall:
- (i) demonstrate that the subject Car meets the Canadian Content Requirements;
 - (ii) include any necessary or desirable back-up information reasonably necessary to support the contents thereof and to address the requirements of the Canadian Content Requirements;
 - (iii) include a declaration from the Car Supplier certifying the percentage of Canadian Content and providing the consent of the Car Supplier to the disclosure, verification and audit of the information forming the basis of the certification;
 - (iv) be true and correct; and
 - (v) be in form and content satisfactory to Contracting Authority.

APPENDIX A TO SCHEDULE 38

ADDITIONAL CARS OPTION PRICE AND PAYMENT

Section 1 – Additional Car Milestone Payment

If Contracting Authority and Project Co agree to a Currency Exchange Adjustment in accordance with Section 3.2(a), the Currency Exchange Adjustment calculated in accordance with Section 3 of Appendix A and applicable to the relevant Contract Month m shall be added to the Additional Car Milestone Payment calculated in accordance with this Section 1 of Appendix A such that the amount paid to Project Co in the relevant Contract Month m shall equal:

$$ACMP_m + CEA_m$$

Where:

$ACMP_m$ Means the total escalated Additional Car Milestone Payment applicable and due for the relevant Contract Month m calculated in accordance with this Section 1 of Appendix A; and

CEA_m Means the Currency Exchange Adjustment for the relevant Contract Month m .

Each Additional Car Milestone Payment is set out in the table below:

#	Additional Car Milestone Payments	Percentage of the Aggregate Additional Cars Order Price	
1	Acceptance by Contracting Authority of the Additional Car Acceptance Schedule (down payment)	[REDACTED] %	
2	Preliminary Acceptance of Additional Car 1.	[REDACTED] %	
3	Preliminary Acceptance of each of the Additional Cars 2 to n (pro-rata per Additional Car), where “ n ” is equal to the total number of Additional Cars in an Additional Car Order.	[REDACTED] %	

4	<p>Acceptance of each of the Additional Cars 1 to <i>n-1</i> (pro-rata per Car), where “n-1” is equal to the second last Additional Car in an Additional Car Order.</p> <p><i>For example, with a 30 Additional Car Order, this number would represent the 29th Additional Car.</i></p>	<p>[REDACTED] %</p>	
5	<p>Acceptance of the final Additional Car.</p>	<p>[REDACTED] %</p>	
	<p>Aggregate Additional Cars Order Price</p>	<p>[REDACTED] %</p>	

Section 2 – Currency Exchange Adjustment

The Currency Exchange Adjustment shall be calculated in accordance with the following formula, subject to any adjustments to which Contracting Authority and Project Co may agree:

$$CEA_m = \left(\frac{(USD \text{ or } EUR/CAD_n)}{(USD \text{ or } EUR/CAD_o)} - 1 \right) \times (ACMP_m \times PCEA)$$

CEA_m Means the Currency Exchange Adjustment, which can be a positive or negative value, applicable to the relevant Contract Month *m* in which an Additional Car Milestone Payment is calculated;

USD or EUR/CAD_n Means the value of the average annual USD or EUR to CAD exchange rate, as agreed to by the Parties, for the most recent full calendar year, to be determined by reference to the most recent available annual data published by Bank of Canada, or failing such publication, such other average annual USD or EUR to CAD exchange rate, as agreed to by the Parties, publication as the Parties may agree, or as may be determined in accordance with Schedule 27 – Dispute Resolution Procedure, which most closely resembles the average annual USD or EUR to CAD exchange rate, as agreed to by the Parties, previously published by the Bank of Canada.

For example, if the relevant Contract Month m is April 2010, the average annual USD or EUR to CAD exchange rate, as agreed to by the Parties, to be referenced would be calendar year 2009.

USD or EUR/CAD₀ Means the value of the average annual USD or EUR to CAD exchange rate, as agreed to by the Parties, for the most recent full calendar year as of the Inflation Base Date, to be determined by reference to the most recent available annual data published by Bank of Canada for the USD or EUR to CAD exchange rate, as agreed to by the Parties,.

For example, if the Inflation Base Date is April 1, 2000, the average annual USD or EUR to CAD exchange rate, as agreed to by the Parties, to be referenced would be calendar year 1999.

ACMP_m Means the total escalated Additional Car Milestone Payment calculated in accordance with this Section 2 of Appendix A; and

PCEA Means the portion of the Additional Car Milestone Payment that Contracting Authority and Project Co agree is subject to an adjustment for a change in the USD or EUR to CAD exchange rate, as agreed to by the Parties, since the Inflation Base Date as set out in Section 3.2(a).

THIS AGREEMENT is made as of the 15th day of November, 2022

BETWEEN:

METROLINX, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency in accordance with the *Crown Agency Act, R.S.O. 1990, c. 48*

(“Contracting Authority”)

AND:

CONNECT 6IX GENERAL PARTNERSHIP, [REDACTED]

(“RSSOM Project Co”)

AND:

[REDACTED]

(“South Civil Project Co”)

WHEREAS:

- A. RSSOM Project Co has on the date hereof entered into an agreement (the “**RSSOM Project Agreement**”) with Contracting Authority to design, construct, finance, supply, operate, maintain and rehabilitate the Ontario Line Subway, to design, construct and finance the New Third Party Infrastructure, and to carry out the RSSOM Project Operations (all as defined in the RSSOM Project Agreement);
- B. South Civil Project Co has on or about November 8, 2022 entered into an agreement (the “**South Civil Project Agreement**”) with Contracting Authority to design, construct and finance a tunnel for the underground portion of the southern alignment between Exhibition Station and a portal location within the Don Yard and for other associated structures required for the new subway line in Toronto, Ontario, and to carry out the South Civil Works (all as defined in the South Civil Project Agreement); and
- C. RSSOM Project Co and South Civil Project Co have agreed to (a) establish and participate in an Integration Committee (as defined herein) with a view to coordinating the integration of the conduct of certain of their activities so as to meet their respective obligations under the RSSOM Project Agreement and the South Civil Project Agreement; (b) establish and participate in a Design Integration Working Group for the integration of the design of the RSSOM Project and the South Civil Project; and (c) resolve Integration Disputes (as defined herein) in accordance with the Integration Dispute Resolution Procedure (as defined herein), all in accordance with the terms of this agreement (the “**Agreement**”).

In consideration of the mutual promises and covenants contained in this Agreement, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by the Parties, the Parties hereby agree as follows:

**ARTICLE 1
DEFINITIONS AND INTERPRETATION**

1.1 Definitions

In this Agreement, including the recitals and appendices, unless the context indicates a contrary intention, the following terms shall have the following meanings,

“**Business Day**” means any day other than a Saturday, a Sunday, a statutory holiday in the Province of Ontario or any day on which banks are not open for business in the City of Toronto, Ontario.

“**Construction Integration Working Group**” has the meaning given in Section 5.1.

“**Contracting Authority**” has the meaning given in the preamble.

“**Contracting Authority Party**” has the meaning given to such term in either Project Agreement.

“**Crown**” means His Majesty the King in right of Ontario.

“**Design Integration Working Group**” has the meaning given in Section 4.1.

“**Dispute**” means all disagreements, disputes, or controversies arising during or following the Project Term in relation to or arising out of the interpretation, enforceability, performance, breach, or validity of the RSSOM Project Agreement or the South Civil Project Agreement, as applicable, or any provision of such Project Agreement, the rights or obligations of the Parties under such Project Agreement, or the exercise of failure to exercise a discretion or power given to a Party under such Project Agreement, but shall not include an Adjudication Dispute or any matter in respect of which the Independent Certifier is entitled or required to make a final and binding determination under either the RSSOM Project Agreement or the South Civil Project Agreement as applicable.

“**DIWG Draft Submittals**” means DIWG Review South Civil Integration Works Submittals or DIWG Review RSSOM Integration Works Submittals, as applicable.

“**DIWG Review RSSOM Integration Works Submittals**” has the meaning given in Section 4.4(b).

“**DIWG Review South Civil Integration Works Submittals**” has the meaning given in Section 4.4(b).

“**Governmental Authority**” has the meaning given to such term in either Project Agreement.

“**Initial Integration Improvement Workshop Notice**” has the meaning given in Section 3.6(c).

“**Integration Committee**” has the meaning given to such term in Section 3.1.

“**Integration Dispute**” means a Dispute for which a Notice designating such Dispute as an Integration Dispute has been given by Contracting Authority pursuant to the Integration Dispute Resolution Procedure.

“**Integration Dispute Resolution Procedure**” means the procedure for final resolution of all Integration Disputes as set out in Appendix A hereto.

“**Integration Improvement Goals**” has the meaning given in Section 3.6(a).

“**Integration Improvement Opportunities**” has the meaning given in Section 3.6(f).

“**Integration Improvement Process**” has the meaning given in Section 3.6(a).

“**Integration Improvement Workshop Participants**” has the meaning given in Section 3.6(e).

“**Integration Improvement Workshops**” has the meaning given in Section 3.6(c).

“**Management Board of Cabinet**” has the meaning set out in the *Management Board of Cabinet Act (Ontario), R.S.O., 1990, c. M.1.*

“**OL Project Cos**” means, collectively, RSSOM Project Co and South Civil Project Co, and “**OL Project Co**” means either one of them.

“**Parties**” means each of Contracting Authority, RSSOM Project Co and South Civil Project Co and “**Party**” means any one of them without specificity.

“**Project Agreements**” means, collectively, the RSSOM Project Agreement and the South Civil Project Agreement, and “**Project Agreement**” means either one of them.

“**Proposed Integration Improvements List**” has the meaning given in Section 3.6(g).

“**Province Person**” has the meaning set out in either Project Agreement.

“**RSSOM Commercial Close**” has the meaning given to the term “Commercial Close” in the RSSOM Project Agreement.

“**RSSOM Contracting Authority Representative**” has the meaning given to the term “Contracting Authority Representative” in the RSSOM Project Agreement.

“**RSSOM Construction Manager**” means the lead “Construction Manager” identified in Schedule 9 – Key Individuals to the RSSOM Project Agreement.

“**RSSOM Design Manager**” means the “Design Manager” identified in Schedule 9 – Key Individuals to the RSSOM Project Agreement.

“**RSSOM Financial Close**” has the meaning given to the term “Financial Close” in the RSSOM Project Agreement.

“**RSSOM Independent Certifier**” has the meaning given to the term “Independent Certifier” in the RSSOM Project Agreement.

“**RSSOM Integration Works Submittals**” has the meaning given to the term “RSSOM Infrastructure Works Submittals” in Schedule 10 – Review Procedure of the South Civil Project Agreement.

“**RSSOM Operations Director**” means the “Operations Director” identified in Schedule 9 – Key Individuals to the RSSOM Project Agreement.

“**RSSOM Project**” has the meaning given to the term “Project” in the RSSOM Project Agreement.

“**RSSOM Project Agreement**” has the meaning in Recital A.

“**RSSOM Project Co**” has the meaning given in the preamble.

“**RSSOM Project Co Parties**” has the meaning given to the term “Project Co Parties” in the RSSOM Project Agreement.

“**RSSOM Project Co Representative**” means the person designated as such by RSSOM Project Co on or prior to Commercial Close and any permitted replacement.

“**RSSOM Project Co Termination Date**” means “Termination Date” as defined in the RSSOM Project Agreement.

“**RSSOM System Integration Manager**” means the “System Integration Manager” identified in Schedule 9 – Key Individuals to the RSSOM Project Agreement.

“**RSSOM Works Committee**” has the meaning given to the term “Works Committee” in the RSSOM Project Agreement.

“**South Civil Commercial Close**” has the meaning given to the term “Commercial Close” in the South Civil Project Agreement.

“**South Civil Contracting Authority Representative**” has the meaning given to the term “Contracting Authority Representative” in the South Civil Project Agreement.

“**South Civil Construction Manager**” means the lead “Construction Manager” identified in Schedule 9 – Key Individuals to the South Civil Project Agreement.

“**South Civil Design Manager**” means the “Design Manager” identified in Schedule 9 – Key Individuals to the South Civil Project Agreement.

“**South Civil Final Completion Date**” has the meaning given to the term “Final Completion Date” in the South Civil Project Agreement.

“**South Civil Financial Close**” has the meaning given to the term “Financial Close” in the South Civil Project Agreement.

“**South Civil Independent Certifier**” has the meaning given to the term “Independent Certifier” in the South Civil Project Agreement.

“**South Civil Infrastructure**” means the Project Co Infrastructure as defined in the South Civil Project Agreement.

“**South Civil Integration Works Submittals**” has the meaning given to the term “South Civil Infrastructure Works Submittals” in Schedule 10 – Review Procedure of the RSSOM Project Agreement.

“**South Civil Project**” has the meaning given to the term “Project” in the South Civil Project Agreement.

“**South Civil Project Agreement**” has the meaning in Recital B.

“**South Civil Project Co**” has the meaning given in the preamble.

“**South Civil Project Co Parties**” has the meaning given to the term “Project Co Parties” in the South Civil Project Agreement.

“**South Civil Project Co Representative**” means the person designated as such by South Civil Project Co on or prior to Commercial Close and any permitted replacement.

“**South Civil Project Co Termination Date**” means “Termination Date” as defined in the South Civil Project Agreement.

“**South Civil System Integration Manager**” means the “System Integration Manager” identified in Schedule 9 – Key Individuals to the South Civil Project Agreement.

“**South Civil Works Committee**” has the meaning given to the term “Works Committee” in the South Civil Project Agreement.

1.2 In Writing

Unless otherwise expressly provided, any notice, certificate, consent, approval, determination, agreement or waiver which is required to be issued, made or given in terms of this Agreement shall be required to be issued, made or given in writing in accordance with Section 8.5 hereof.

1.3 Interaction Between Project Agreements and this Agreement

- (a) To the extent of any inconsistency or conflict between the provisions of this Agreement and the provisions of either Project Agreement, the provisions of the applicable Project Agreement shall prevail as between the parties thereto, provided that, with respect to the resolution of an Integration Dispute the provisions of this Agreement shall prevail.
- (b) Except to the extent expressly provided in this Agreement, nothing in this Agreement shall affect, modify, reduce or limit in any way or manner whatsoever the rights or the obligations of any OL Project Co with respect to Contracting Authority under its respective Project Agreement, provided that, in all cases, there shall be no duplication of any claims made or amounts paid or payable by any party to this Agreement to any other party to this Agreement, whether under this Agreement, the RSSOM Project Agreement or the South Civil Project Agreement.
- (c) Except to the extent expressly provided for by the Parties in this Agreement, nothing in this Agreement shall affect, modify, reduce or limit in any manner whatsoever the rights or obligations of Contracting Authority with respect to any OL Project Co under the respective Project Agreements.

1.4 Joint and Several Liability

[REDACTED]

ARTICLE 2 GENERAL OBLIGATIONS

2.1 Purpose and Intent

The Parties acknowledge and agree that, for the RSSOM Project and the South Civil Project to be successful, it is necessary that the Parties work together cooperatively to address any integration issues arising in connection therewith. The Parties have therefore agreed to enter into this Agreement in order to commit to establish, and take part in, the Integration Committee, the Design Integration Working Group and the Construction Integration Working Group and agree to the Integration Dispute Resolution Procedure.

2.2 No Liability

The Parties hereby agree as follows:

- (a) Contracting Authority and RSSOM Project Co shall not be responsible or liable (whether in contract, tort, breach of statutory duty or under any other theory of law) to any Party in respect of any act, omission or statement by South Civil Project Co or any South Civil Project Co Party;
- (b) Contracting Authority and South Civil Project Co shall not be responsible or liable (whether in contract, tort, breach of statutory duty or under any other theory of law) to any Party in respect of any act, omission or statement by RSSOM Project Co or any RSSOM Project Co Party; and
- (c) no knowledge (whether constructive or implied, but excluding, for greater certainty, any actual knowledge of a Party) shall be imputed to a Party solely as a result of it being a party to this Agreement, nor shall such knowledge be used or relied upon in any claim or action at law made or instituted by any other Party against such Party in connection with the RSSOM Project or the South Civil Project under or pursuant to the RSSOM Project Agreement or the South Civil Project Agreement respectively, whether by waiver or otherwise,

provided that nothing in this Section 2.2 shall affect the rights and liabilities of the Parties, as applicable, under the Project Agreements, which would otherwise have arisen under the relevant Project Agreement.

ARTICLE 3 INTEGRATION COMMITTEE

3.1 Establishment

- (a) The Parties shall, within thirty (30) days following the later to occur of South Civil Financial Close and RSSOM Financial Close, establish a committee (the “**Integration Committee**”) consisting of the following (and each Party shall identify its representatives by notice to the other Parties within such thirty (30) period)
 - (i) six representatives appointed by Contracting Authority from time to time, one of whom will be the RSSOM Contracting Authority Representative and one of whom will be the South Civil Contracting Authority Representative (provided if the RSSOM Contracting Authority Representative and South Civil Contracting

Authority Representative are the same person, Contracting Authority shall appoint 5 additional representatives);

- (ii) on behalf of South Civil Project Co: the South Civil Project Co Representative, the South Civil Construction Manager, the South Civil System Integration Manager and the South Civil Design Manager; and
- (iii) on behalf of RSSOM Project Co: the RSSOM Project Co Representative, the RSSOM Construction Manager, the RSSOM System Integration Manager and RSSOM Design Manager,

provided that the representatives that shall attend any Integration Improvement Workshops contemplated in Section 3.6 shall be the Integration Improvement Workshop Participants contemplated in Section 3.6(e).

- (b) A representative of each of the South Civil Independent Certifier and the RSSOM Independent Certifier shall be required to attend meetings as non-voting members of the Integration Committee. Members of the Integration Committee may invite, on prior Notice to all members, (i) such advisors and consultants as they require from time to time to attend meetings and to provide briefings to the Integration Committee, or (ii) representatives of North Civil Project Co to participate in meetings of the Integration Committee (including any Integration Improvement Workshops) on a non-voting basis to discuss matters relating to the integration of design of the Ontario Line Subway.
- (c) The RSSOM Contracting Authority Representative shall be the chairperson at all meetings of the Integration Committee, provided that any Integration Improvement Workshops shall be chaired by a representative of Contracting Authority identified in the applicable notice delivered by Contracting Authority pursuant to Section 3.6(c) or Section 3.6(e), as applicable.

3.2 Function and Role

- (a) The Integration Committee shall assist the Parties by promoting cooperative and effective communication with respect to matters related to integration and handover of the South Civil Infrastructure and all matters contemplated in Schedule 42 – South Civil Infrastructure Access and Handover of the RSSOM Project Agreement, and Schedule 45 – Integration with the RSSOM Project of the South Civil Project Agreement. The Integration Committee shall interface with the South Civil Works Committee, the RSSOM Works Committee and the System Management Committee (as defined in the RSSOM Project Agreement) as and when required. In addition to the foregoing, the Integration Committee shall engage in the Integration Improvement Process set out in Section 3.6.
- (b) The Integration Committee shall be responsible for receiving and reviewing all matters related to integration of the South Civil Infrastructure with the RSSOM Project, including:
 - (i) discuss and resolve any matters or issues that arise under Schedule 42 – South Civil Infrastructure Access and Handover of the RSSOM Project Agreement or Schedule 45 – Integration with the RSSOM Project of the South Civil Project Agreement,

- (ii) discuss and resolve any matters referred to the Integration Committee for consideration by the Design Integration Working Group or the Construction Integration Working Group, and
 - (iii) any special matters referred to the Integration Committee by Contracting Authority or either OL Project Co, including any Integration Improvement Opportunities identified by Contracting Authority as contemplated in Section 3.6(h).
- (c) Subject to Sections 3.2(d) and 3.6(i), any unanimous decision of the Integration Committee shall be final and binding on the Parties. If the Integration Committee is unable to reach a unanimous decision, any Party may refer the matter for resolution in accordance with Article 7 (Integration Dispute Resolution Procedure).
- (d) The Integration Committee shall not have authority to make decisions with respect to or approve (but may discuss and make recommendations to the applicable Parties in respect of):
- (i) any amendment to or waiver of any provision of this Agreement;
 - (ii) any amendment to or waiver of any obligations or requirements set out in the RSSOM Project Agreement or the South Civil Project Agreement); and
 - (iii) any Variation (as defined in the RSSOM Project Agreement) or any Variation (as defined in the South Civil Project Agreement).

3.3 Term of Integration Committee

Unless otherwise agreed by the Parties, the Integration Committee shall operate only until the South Civil Final Completion Date.

3.4 Replacement of Committee Members

Contracting Authority shall be entitled to replace any of its representatives on the Integration Committee by written Notice to the OL Project Cos. Contracting Authority will use commercially reasonable efforts to deliver prior written Notice of any such replacement to the OL Project Cos. The OL Project Cos may replace any of their representatives on the Integration Committee with the prior written consent of Contracting Authority.

3.5 Procedures and Practices

- (a) The members of the Integration Committee may:
- (i) adopt such procedures and practices for the conduct of the activities of the Integration Committee as they consider appropriate from time to time;
 - (ii) invite to any meeting of the Integration Committee such other persons as the members of the Integration Committee may agree;
 - (iii) exclude from any meeting of the Integration Committee such persons as the members of the Integration Committee may agree; and

- (iv) receive and review reports from any person or organization agreed to by the members of the Integration Committee.
- (b) Once established, the Integration Committee shall meet at least once each month from the later of RSSOM Financial Close or South Civil Financial Close, as applicable, until the South Civil Final Completion Date, unless otherwise agreed by the members of the Integration Committee or the Parties. Members of the Integration Committee shall, by notice to the other members of the Integration Committee to be delivered no later than five (5) Business Days prior to the date of a meeting of the Integration Committee scheduled pursuant to this Section 3.5(b), propose agenda items for discussion at such meeting, or confirm that such member has no agenda items to include for discussion at such meeting.
- (c) Any one of the RSSOM Project Co Representative, the South Civil Project Co Representative, the RSSOM Contracting Authority Representative or the South Civil Contracting Authority Representative may convene a special meeting of the Integration Committee at any time. Special meetings of the Integration Committee may be convened on not less than five (5) Business Days' Notice to all members of the Integration Committee identifying the agenda items to be discussed at the special meeting.
- (d) Unless otherwise agreed by the members of the Integration Committee, the Integration Committee shall meet in the City of Toronto. Meetings of the Integration Committee may be held by means of such telephonic, electronic or other communication facilities as permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously. A person participating in a meeting by such means will be deemed to be present at such meeting.
- (e) Four representatives of Contracting Authority (one of whom shall be the RSSOM Contracting Authority Representative and one of whom shall be the South Civil Contracting Authority Representative (and if they are the same person, 3 additional Contracting Authority Representatives shall be required) and two representatives of each of the OL Project Cos shall constitute a quorum at any meeting of the Integration Committee. A quorum of members may exercise all the powers of the Integration Committee. The members shall not transact business at a meeting of the Integration Committee unless a quorum is present.
- (f) Minutes of all meetings, recommendations and decisions of the Integration Committee, including those made by telephone or other form of communication, shall be recorded and maintained by RSSOM Project Co. RSSOM Project Co shall circulate copies of such minutes within five (5) Business Days of the holding of the meeting or the making of the recommendation or decision. Unless Contracting Authority or South Civil Project Co notifies the other Parties within five (5) Business Days of receipt of the minutes that such Party disagrees with the contents of the minutes, Contracting Authority and the OL Project Cos shall be deemed to have approved such minutes. RSSOM Project Co shall maintain a complete set of all minutes of the meetings of the Integration Committee and shall make such minutes available for inspection by the other Parties hereto during regular business hours.

3.6 Integration Improvement Process

- (a) The Parties shall participate, in accordance with this Section 3.6, in a process (the “**Integration Improvement Process**”) whose purpose shall be to create meaningful dialogue among the Parties with a view to identifying opportunities to improve, where possible, the integration of the Projects with a view to the successful delivery of the Ontario Line Subway System on schedule. Such improvements could relate to design, construction or scheduling aspects of either Project, and/or to changes to allocation of scope of Works (as defined in either Project Agreement) as between the Projects which, in each case, may reduce integration risk and improve certainty of delivery of the Projects and the Ontario Line Subway System (the “**Integration Improvement Goals**”).
- (b) The Parties shall engage in the Integration Improvement Process in a collaborative good faith manner pursuant to this Section 3.6 as part of the work of the Integration Committee.
- (c) The Integration Improvement Process shall take place pursuant to workshops (the “**Integration Improvement Workshops**”) each of which shall take place for at least three (3) days (or such other duration as the Integration Improvement Workshop Participants shall determine in respect of the applicable Integration Improvement Workshop). Contracting Authority shall, no later than five (5) Business Days after the date that the Integration Committee is established pursuant to Section 3.1(a), confirm by Notice (the “**Initial Integration Improvement Workshop Notice**”) to the other Parties the date on which the first Integration Improvement Workshop shall take place, which date shall be no later than ten (10) Business Days after the date of the Initial Integration Improvement Workshop Notice. Contracting Authority shall identify in the Initial Integration Improvement Workshop Notice, in respect of the initial Integration Improvement Notice, (i) the Contracting Authority’s Integration Improvement Workshop Participants, (ii) the Contracting Authority’s Integration Improvement Workshop Participant that shall act as chairperson of the Integration Improvement Workshop and (iii) the list of Integration Improvement Opportunities to be discussed at such initial Integration Improvement Workshop (which may include any of the Integration Opportunities identified in the Parties’ response to the RFP in respect of either Project). Each OL Project Co shall, by Notice to the other Parties delivered no later than five (5) Business Days after the date of the Initial Integration Improvement Workshop Notice, identify such Party’s Integration Improvement Workshop Participants for such Integration Improvement Workshop.
- (d) Each subsequent Integration Improvement Workshop shall take place (i) during the period ending on the one (1) year anniversary of the date of the initial Integration Improvement Workshop, on a quarterly basis, with each subsequent Integration Improvement Workshop taking place on the date that is the three (3) month anniversary of the preceding Integration Improvement Workshop (or if such day is not a Business Day, on the next following Business Day), and (ii) at all times thereafter during the term of this Agreement, at such times and in such frequency as the Integration Improvement Workshop Participants shall agree from time to time at the most recent Integration Improvement Workshop. The Integration Improvement Workshops shall be in addition to all other meetings of the Integration Committee.
- (e) The participants at each Integration Improvement Workshop (for each Integration Improvement Workshop, the “**Integration Improvement Workshop Participants**”) shall be such members of the Integration Committee, Design Integration Working Group or

Construction Integration Working Group, such other representatives (including members of executive leadership and Project teams) of each Party, or the RSSOM Independent Certifier and/or South Civil Independent Certifier, as each Party shall identify with a view to ensuring that the Integration Improvement Workshop Participants are able to engage in the Integration Improvement Process in a meaningful manner as contemplated in Section 3.6(a) and contribute to the evaluation of, and proposal of, Integration Improvement Opportunities.

- (f) Each OL Project Co shall by Notice to Contracting Authority delivered no later than fifteen (15) Business Days prior to each Integration Improvement Workshop (other than the initial Integration Improvement Workshop) identify in respect of such Integration Improvement Workshop (i) its Integration Improvement Workshop Participants and (ii) the proposed changes to the Projects which would, in its opinion, likely advance the Integration Improvement Goals (“**Integration Improvement Opportunities**”), and which such Party proposes for discussion at the Integration Improvement Workshop.
- (g) Contracting Authority shall, by Notice to the other Parties delivered no later than five (5) Business Days prior to each Integration Improvement Workshop (other than the initial Integration Improvement Workshop) identify in respect of such Integration Improvement Workshop (i) its Integration Improvement Workshop Participants, (ii) its Integration Improvement Workshop Participant that shall act as chairperson and (iii) a list of all Integration Improvement Opportunities to be discussed at the Integration Improvement Workshop (the “**Proposed Integration Improvements List**”). For clarity, Contracting Authority shall include in the Proposed Integration Improvements List such Integration Improvement Opportunities as it shall determine, in its sole discretion and shall not be obligated to include therein all Integration Improvement Opportunities identified by the OL Project Cos in their Notices delivered pursuant to Section 3.6(f).
- (h) Contracting Authority may, in its sole discretion, propose for discussion at an Integration Committee meeting any Integration Improvement Opportunities (whether identified in the Proposed Integration Improvements List or not and whether proposed by the OL Project Cos or not).
- (i) The Parties acknowledge that any amendments to the Project Agreements that are required to give effect to any Integration Improvement Opportunities (whether identified in the Proposed Integration Improvements List or not) shall require a Variation and the Contracting Authority shall determine, in its sole discretion, whether to implement any Integration Improvement Opportunity by way of a Variation. For clarity, notwithstanding any agreement or disagreement by the Parties at a meeting of the Integration Committee or otherwise (including any Integration Improvement Workshop) with respect to the merit of, or the need for, an Integration Improvement Opportunity, the implementation of any Variation to give effect thereto shall remain at the sole discretion of Contracting Authority.
- (j) The terms of Sections 3.5(b)-(f) shall not apply in respect of any meetings of the Integration Committee that are Integration Improvement Workshops.

ARTICLE 4
DESIGN INTEGRATION WORKING GROUP

4.1 Establishment

- (a) The Parties shall, within thirty (30) days following the later to occur of South Civil Financial Close and RSSOM Financial Close, establish a working group which shall be responsible for all matters relating to the integration of the design of the South Civil Project and the RSSOM Project (the “**Design Integration Working Group**”).
- (b) The Design Integration Working Group shall include the following permanent members (and each Party shall identify its representatives (other than the RSSOM Operations Director) by notice to the other Parties within thirty (30) days following the later to occur of South Civil Financial Close and RSSOM Financial Close and RSSOM Project Co shall identify the RSSOM Operations Director by notice to the other Parties within ten (10) days after the date on which it is required to be appointed pursuant to the terms of the RSSOM Project Agreement):
 - (i) South Civil Design Manager;
 - (ii) South Civil System Integration Manager;
 - (iii) RSSOM Design Manager;
 - (iv) RSSOM System Integration Manager;
 - (v) RSSOM Operations Director; and
 - (vi) Representative(s) of the Contracting Authority.
- (c) The RSSOM Design Manager shall chair the Design Integration Working Group.

4.2 Function and Role

The Design Integration Working Group shall be responsible for:

- (a) coordinating the integrated design of the RSSOM Project with the South Civil Project;
- (b) promoting collaboration between RSSOM Project Co’s designers and South Civil Project Co’s designers;
- (c) resolution of design interface issues relating to the RSSOM Project and South Civil Project;
- (d) oversight of the interface management process described in the Output Specifications (as defined in the South Civil Project Agreement) and the Output Specifications (as defined in the RSSOM Project Agreement);
- (e) monitoring of the interface matrix and interface register delivered by RSSOM Project Co pursuant to Schedule 15 to the RSSOM Project Agreement or by South Civil Project Co pursuant to Schedule 15 to the South Civil Project Agreement;

- (f) resolution of interface management issues relating to the RSSOM Project and the South Civil Project, and directing the completion of the Interface Control Documents as required pursuant to Schedule 10 – Review Procedure of each of the Project Agreements;
- (g) coordination of sharing of design data between RSSOM Project Co and South Civil Project Co as needed to deliver the RSSOM Project and South Civil Project;
- (h) review and coordination of RSSOM Integration Works Submittals and South Civil Integration Works Submittals as contemplated in Section 4.4; and
- (i) report progress to the Integration Committee and Construction Integration Working Group.

4.3 Term of Design Integration Working Group

Unless otherwise agreed by the Parties, the Design Integration Working Group shall operate only until the South Civil Final Completion Date.

4.4 DIWG Draft Submittals

- (a) Nothing in this Section 4.4 shall limit or modify the obligations of the Parties pursuant to Schedule 10 – Review Procedure of either the RSSOM Project Agreement or South Civil Project Agreement. All submittals made pursuant to Section 4.4 of this Agreement are intended to be informal interim draft submittals and shall not be reviewed in accordance with Schedule 10 – Review Procedure until such time as submittals are made pursuant to Schedule 10 – Review Procedure.
- (b) The Design Integration Working Group shall develop a schedule (which shall be consistent with the Interim Baseline Works Schedule or Baseline Works Schedule (each as defined under the South Civil Project Agreement, and as defined under the RSSOM Project Agreement), as then applicable) for the timing of development and submission, by (i) South Civil Project Co of interim drafts of all South Civil Integration Works Submittals (the “**DIWG Review South Civil Integration Works Submittals**”) and (ii) RSSOM Project Co of interim drafts of all RSSOM Integration Works Submittals (the “**DIWG Review RSSOM Integration Works Submittals**”) to the Design Integration Working Group for review, in each case, in advance of their submission pursuant to (and at the times required under) Schedule 10 – Review Procedure of the applicable Project Agreement (and delivery thereof by Contracting Authority to the other OL Project Co pursuant to Part C of Schedule 10 of the applicable Project Agreement). Such schedule shall be developed with a view to ensuring sufficient opportunity for the Design Integration Working Group to review and consider (1) each DIWG Review South Civil Integration Works Submittal and provide an opportunity to South Civil Project Co to revise it to reflect discussions at the Design Integration Working Group prior to its submission under Schedule 10 – Review Procedure of the South Civil Project Agreement and (2) each DIWG Review RSSOM Integration Works Submittal and provide an opportunity to RSSOM Project Co to revise it to reflect discussions at the Design Integration Working Group prior to its submission under Schedule 10 – Review Procedure of the RSSOM Project Agreement.
- (c) If the Design Integration Working Group fails to agree to and develop the schedule contemplated in Section 4.4(b) of this Agreement within thirty (30) days following the later to occur of South Civil Financial Close and RSSOM Financial Close, such schedule shall

be deemed to require delivery to the Design Integration Working Group of (i) each DIWG Review South Civil Integration Work Submittal that is Critical Data as defined under the South Civil Project Agreement no later than fifteen (15) Business Days prior to the applicable Critical Data Deadline as defined under the South Civil Project Agreement, (ii) each other DIWG Review South Civil Integration Work Submittal no later than fifteen (15) Business Days prior to the date on which it is required to be submitted under Schedule 10 – Review Procedure of the South Civil Project Agreement as required under the Interim Baseline Works Schedule or Baseline Works Schedule (each as defined under the South Civil Project Agreement), as then applicable, (iii) each DIWG Review RSSOM Integration Work Submittal that is Critical Data as defined under the RSSOM Project Agreement no later than fifteen (15) Business Days prior to the applicable Critical Data Deadline as defined under the RSSOM Project Agreement, (iv) each other DIWG Review RSSOM Integration Work Submittal no later than fifteen (15) Business Days prior to the date on which it is required to be submitted under Schedule 10 – Review Procedure of the RSSOM Project Agreement as required under the Interim Baseline Works Schedule or Baseline Works Schedule (each as defined under the RSSOM Project Agreement), as then applicable.

- (d) South Civil Project Co shall submit the DIWG Review South Civil Integration Works Submittals, and RSSOM Project Co shall submit the DIWG Review RSSOM Integration Works Submittals, in each case to the Design Integration Working Group, in accordance with the schedule developed pursuant to Section 4.4(b).
- (e) The Design Integration Working Group shall discuss and consider each DIWG Review South Civil Integration Works Submittal and each DIWG Review RSSOM Integration Works Submittal with a view to agreeing to any changes thereto.
- (f) Upon receipt of any DIWG Draft Submittal the Design Integration Working Group shall meet and consider such DIWG Draft Submittal in a reasonable and collaborative manner with a view to discussing and resolving any comments to such DIWG Draft Submittal made by any members of the Design Integration Working Group prior to submission of such DIWG Draft Submittal pursuant to Schedule 10 – Review Procedure.

4.5 Procedures and Practices.

- (a) The members of the Design Integration Working Group may:
 - (i) adopt such procedures and practices for the conduct of the activities of the Design Integration Working Group as they consider appropriate from time to time;
 - (ii) invite to any meeting of the Design Integration Working Group other parties to resolve specific interface matters, (including Early Works Contractors as defined in either the RSSOM Project Agreement or the South Civil Project Agreement) where such parties' involvement in the Ontario Line Subway may impact more than one of the Parties hereto, or such other persons as the other members of the Design Integration Working Group may agree;
 - (iii) exclude from any meeting of the Design Integration Working Group such persons as the members of the Design Integration Working Group may agree, acting reasonably; and

- (iv) receive and review reports from any person or organization agreed to by the members of the Design Integration Working Group.
- (b) Once established, the Design Integration Working Group shall meet at least once each week from the later of RSSOM Financial Close or South Civil Financial Close, as applicable, until the South Civil Final Completion Date, unless otherwise agreed by the members of the Design Integration Working Group or the Parties. The Design Integration Working Group shall establish the frequency of scheduled meetings of the Design Integration Working Group (and confirm whether it shall meet on a weekly basis or otherwise) at the first meeting thereof.
- (c) Members of the Design Integration Working Group shall, by notice to the other members thereof to be delivered no later than five (5) Business Days prior to the date of any meeting of the Design Integration Working Group scheduled pursuant to Section 4.5(b), propose agenda items for discussion at such meeting, or confirm that such member has no agenda items to include for discussion at such meeting.
- (d) Any member of the Design Integration Working Group may convene a special meeting of the Design Integration Working Group at any time. Special meetings of the Design Integration Working Group may be convened on not less than five (5) Business Days' Notice, or such other period of time as may be agreed to by the Design Integration Working Group, to all members of the Design Integration Working Group identifying the agenda items to be discussed at the special meeting.
- (e) Unless otherwise agreed by the members of the Design Integration Working Group, the Design Integration Working Group shall meet in the City of Toronto. Meetings of the Design Integration Working Group may be held by means of such telephonic, electronic or other communication facilities as to permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously. A person participating in a meeting by such means will be deemed to be present at such meeting.
- (f) One representative of Contracting Authority, one representative of RSSOM Project Co and one representative of South Civil Project Co shall constitute a quorum at any meeting of the Design Integration Working Group. A quorum of members may exercise all the powers of the Design Integration Working Group. The members shall not transact business at a meeting of the Design Integration Working Group unless a quorum is present. Decisions of the Design Integration Working Group shall be made by agreement of representatives of each of the Contracting Authority, RSSOM Project Co South Civil Project Co.
- (g) Minutes of all meetings, recommendations and decisions of the Design Integration Working Group, including those made by telephone or other form of communication, shall be recorded and maintained by RSSOM Project Co. RSSOM Project Co shall circulate copies of such minutes within five (5) Business Days of the holding of the meeting or the making of the recommendation or decision. Unless Contracting Authority or South Civil Project Co notifies the other Parties within five (5) Business Days of receipt of the minutes that such Party disagrees with the contents of the minutes, Contracting Authority and the OL Project Cos shall be deemed to have approved such minutes. RSSOM Project Co shall maintain a complete set of all minutes of the meetings of the Design Integration Working Group and shall make such minutes available for inspection by the other Parties hereto during regular business hours.

- (h) The Design Integration Working Group may refer any unresolved issues for consideration by the Integration Committee.

ARTICLE 5 CONSTRUCTION INTEGRATION WORKING GROUP

5.1 Establishment

- (a) The Parties shall, within thirty (30) days following the later to occur of South Civil Financial Close and RSSOM Financial Close, establish a working group which shall be responsible for all matters relating to the integration of the construction of the South Civil Project and the RSSOM Project (the “**Construction Integration Working Group**”);
- (b) The Construction Integration Working Group shall include the following permanent members (and each Party shall identify its representatives by notice to the other Parties within thirty (30) following the later to occur of South Civil Financial Close and RSSOM Financial Close):
 - (i) South Civil Construction Manager;
 - (ii) RSSOM Construction Manager; and
 - (iii) Representative(s) of the Contracting Authority.
- (c) The RSSOM Construction Manager shall chair the Construction Integration Working Group.

5.2 Function and Role

The Construction Integration Working Group shall be responsible for:

- (a) coordinating the integrated construction of the RSSOM Project and the South Civil Project;
- (b) promoting collaboration between RSSOM Project Co and South Civil Project Co with a focus on the access and handover process set out in Schedule 42 – South Civil Infrastructure Access and Handover of the RSSOM Project Agreement;
- (c) oversight of the interface management process described in the Output Specifications (as defined in the South Civil Project Agreement) and the Output Specifications (as defined in the RSSOM Project Agreement);
- (d) monitoring of the interface matrix and interface register delivered by RSSOM Project Co pursuant to Schedule 15 to the RSSOM Project Agreement or by South Civil Project Co pursuant to Schedule 15 to the South Civil Project Agreement;
- (e) coordinate RSSOM Integration Works Submittals and South Civil Integration Works Submittals relating to construction;
- (f) coordinate access by RSSOM Project Co to elevators prior to handover thereof by South Civil Project Co;

- (g) report progress to the Integration Committee and Design Integration Working Group; and
- (h) resolution of construction interface issues relating to the RSSOM Project and South Civil Project.

5.3 Term of Construction Integration Working Group

Unless otherwise agreed by the Parties, the Construction Integration Working Group shall operate only until the South Civil Final Completion Date.

5.4 Procedures and Practices

- (a) The members of the Construction Integration Working Group may:
 - (i) adopt such procedures and practices for the conduct of the activities of the Construction Integration Working Group as they consider appropriate from time to time;
 - (ii) invite to any meeting of the Construction Integration Working Group other parties to resolve specific interface matters, (including Early Works Contractors as defined in either the RSSOM Project Agreement or the South Civil Project Agreement) where such parties' involvement in the Ontario Line Subway may impact more than one of the Parties hereto, or such other persons as the other members of the Construction Integration Working Group may agree;
 - (iii) exclude from any meeting of the Construction Integration Working Group such persons as the members of the Construction Integration Working Group may agree, acting reasonably; and
 - (iv) receive and review reports from any person or organization agreed to by the members of the Construction Integration Working Group.
- (b) Once established, the Construction Integration Working Group shall meet at least once each week from the later of RSSOM Financial Close or South Civil Financial Close, as applicable, until the South Civil Final Completion Date, unless otherwise agreed by the members of the Construction Integration Working Group or the Parties. The Construction Integration Working Group shall establish the frequency of scheduled meetings of the Construction Integration Working Group (and confirm whether it shall meet on a weekly basis or otherwise) at the first meeting thereof.
- (c) Members of the Construction Integration Working Group shall, by notice to the other members thereof to be delivered no later than five (5) Business Days prior to the date of any meeting of the Construction Integration Working Group scheduled pursuant to Section 5.4(b), propose agenda items for discussion at such meeting, or confirm that such member has no agenda items to include for discussion at such meeting.
- (d) Any member of the Construction Integration Working Group may convene a special meeting of the Construction Integration Working Group at any time. Special meetings of the Construction Integration Working Group may be convened on not less than five (5) Business Days' Notice, or such other period of time as may be agreed to by the

Construction Integration Working Group, to all members of the Construction Integration Working Group identifying the agenda items to be discussed at the special meeting.

- (e) Unless otherwise agreed by the members of the Construction Integration Working Group, the Construction Integration Working Group shall meet in the City of Toronto. Meetings of the Construction Integration Working Group may be held by means of such telephonic, electronic or other communication facilities as to permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously. A person participating in a meeting by such means will be deemed to be present at such meeting.
- (f) One representative of Contracting Authority, one representative of RSSOM Project Co and one representative of South Civil Project Co shall constitute a quorum at any meeting of the Construction Integration Working Group. A quorum of members may exercise all the powers of the Construction Integration Working Group. The members shall not transact business at a meeting of the Construction Integration Working Group unless a quorum is present. Decisions of the Construction Integration Working Group shall be made by agreement of representatives of each of the Contracting Authority, RSSOM Project Co South Civil Project Co
- (g) Minutes of all meetings, recommendations and decisions of the Construction Integration Working Group, including those made by telephone or other form of communication, shall be recorded and maintained by RSSOM Project Co. RSSOM Project Co shall circulate copies of such minutes within five (5) Business Days of the holding of the meeting or the making of the recommendation or decision. Unless Contracting Authority or South Civil Project Co notifies the other Parties within five (5) Business Days of receipt of the minutes that such Party disagrees with the contents of the minutes, Contracting Authority and the OL Project Cos shall be deemed to have approved such minutes. RSSOM Project Co shall maintain a complete set of all minutes of the meetings of the Construction Integration Working Group and shall make such minutes available for inspection by the other Parties hereto during regular business hours.
- (h) The Construction Integration Working Group may refer any unresolved issues for consideration by the Integration Committee.

ARTICLE 6 TERMINATION

6.1 Termination of Agreement

This Agreement shall take effect on the date hereof and, subject to Section 8.11, shall terminate and cease to have effect on the earlier of:

- (a) the earlier of the RSSOM Project Agreement, or the South Civil Project Agreement expires or terminates in accordance with its terms; and
- (b) the earlier of the RSSOM Project Co Termination Date or the South Civil Project Co Termination Date,

provided that such expiry or earlier termination shall be without prejudice to any accrued rights and liabilities of the Parties prior to or as at the date of expiry or earlier termination of this Agreement and

without prejudice to the final determination of any Integration Dispute that has not been finally determined prior to or as at the date of expiry or earlier termination of this Agreement and this Section 6.1 shall survive any such termination.

ARTICLE 7 INTEGRATION DISPUTE RESOLUTION PROCEDURE

7.1 Integration Disputes

Any Dispute which has been designated as an Integration Dispute shall be heard or determined in accordance with the Integration Dispute Resolution Procedure set out in Appendix A hereto.

7.2 Commencement of Disputes

Each Party hereto acknowledges and agrees that it may not make any claim or demand, or assert any Dispute or commence any action or proceeding against any of the other Parties in connection with the South Civil Project or the RSSOM Project or the terms of this Agreement provided that nothing in this Section 7.2 shall in any way prevent, prohibit, limit or restrict (i) Contracting Authority or South Civil Project Co from making any such claim or demand, Dispute or action or proceeding against each other as may be asserted, made or initiated under the South Civil Project Agreement or (ii) Contracting Authority or RSSOM Project Co from making any such claim or demand, Dispute or action or proceeding against each other as may be asserted, made or initiated under the RSSOM Project Agreement.

7.3 Obligation to continue

The Parties shall diligently carry out their respective obligations under this Agreement and their respective Project Agreements during the pendency of any Integration Disputes.

ARTICLE 8 GENERAL PROVISIONS

8.1 Interpretative Provisions

In this Agreement:

- (a) references to this Agreement include the Appendices and other attachments hereto, each of which form an integral part hereof;
- (b) references to “hereunder”, “herein” and “hereof” are to the provisions of this Agreement, and references to Articles and Sections herein refer to articles, sections, or subsections of this Agreement;
- (c) the headings of the Articles, Sections, Appendices and any other headings, captions or indices herein are inserted for convenience of reference only and shall not be used in any way in construing or interpreting any provision hereof;
- (d) unless the context otherwise requires, wherever used herein the plural includes the singular, the singular includes the plural, and each of the masculine, feminine and neuter genders include all other genders;

- (e) where a term is defined herein, a derivative of such term shall have a corresponding meaning unless the context otherwise requires.
- (f) any reference to a statute shall include and shall be deemed to be a reference to such statute and to the regulations made pursuant thereto, and all amendments made thereto and in force from time to time, and to any statute or regulation that may be passed which has the effect of supplementing the statute so referred to or the regulations made pursuant thereto;
- (g) any reference to “including” and/or “includes” means “including, without limitation” and/or “includes, without limitation” respectively;
- (h) unless otherwise expressly stated, any reference to dollars or \$ means Canadian dollars;
- (i) all references to any agreement, document, standard, principle or other instrument include (subject to all relevant approvals and any other provision of this Agreement expressly concerning such agreement, document, standard, principle or other instrument) a reference to that agreement, document, standard, principle or instrument as amended, supplemented, substituted, novated or assigned; and
- (j) words importing persons or parties are to be broadly interpreted and include an individual, corporation, limited liability company, joint stock company, firm, partnership, joint venture, trust, unincorporated organization, Governmental Authority, unincorporated body of persons or association and any other entity having legal capacity, and the heirs, beneficiaries, executors, administrators or other legal representatives of a person in such capacity.

8.2 General Duty to Mitigate

Contracting Authority and each OL Project Co shall at all times take commercially reasonable steps to minimize and mitigate any loss for which the relevant Party is entitled to bring a claim against any other Party pursuant to this Agreement.

8.3 Entire Agreement

Except where provided otherwise in this Agreement, this Agreement constitutes the entire agreement between the Parties in connection with its subject matter and supersedes all prior representations, communications, negotiations and understandings, whether oral, written, express or implied, concerning the subject matter of this Agreement.

8.4 Enurement

This Agreement shall enure to the benefit of, and be binding on, each of the Parties and their respective successors and permitted transferees and assigns.

8.5 Notices

- (a) All notices, requests, demands, instructions, certificates, consents and other communications (each being a “**Notice**”) required or permitted under this Agreement (including Notices to RSSOM Project Co Representative and South Civil Project Co Representative) shall be in writing (whether or not “written notice” or “notice in writing”

is specifically required by the applicable provision of this Agreement) and served by sending the same by registered mail, by hand (in each case with a copy by electronic submission to the RSSOM Contracting Authority Representative and the South Civil Contracting Authority Representative), or by electronic submission as follows:

If to Contracting Authority, RSSOM Contracting Authority Representative or South Civil Contracting Authority Representative:

Metrolinx
2 Queen Street East, 11th Floor
Toronto, ON M5C 3G7

Attn.: [REDACTED]
Email: [REDACTED]

If to RSSOM Project Co:

Attn.: [REDACTED]
[REDACTED]

Email: [REDACTED]
[REDACTED]

- (b) Where any Notice is provided or submitted to a Party via electronic submission, an original of the Notice sent via electronic submission shall promptly be sent by regular mail or registered mail. For greater certainty, a Notice given via electronic submission shall not be invalid by reason only of a Party's failure to comply with this Section 8.5(b).
- (c) Any Party to this Agreement may, from time to time, change any of its contact information set forth in Section 8.5(a) by prior Notice to the other Parties, and such change shall be effective on the Business Day that next follows the recipient Party's receipt of such Notice unless a later effective date is given in such Notice.
- (d) Subject to Sections 8.5(e), 8.5(f) and 8.5(g):
 - (i) a Notice given by registered mail shall be deemed to have been received on the third (3rd) Business Day after mailing;
 - (ii) a Notice given by hand delivery shall be deemed to have been received on the day it is delivered; and
 - (iii) a Notice given by electronic submission shall be deemed to have been received on the day it is transmitted by electronic submission.
- (e) If the Party giving the Notice knows or ought reasonably to know of difficulties with the postal system which might affect negatively the delivery of mail, any such Notice shall not be mailed but shall be made or given by personal delivery or by electronic submission in accordance with this Section 8.5.
- (f) If any Notice delivered by hand or transmitted by electronic submission is so delivered or transmitted, as the case may be, either on a day that is not a Business Day or on a Business Day after 4:00 p.m. (recipient's local time), then such Notice shall be deemed to have been received by such recipient on the next Business Day.
- (g) A Notice given by electronic submission shall be deemed to have been received by the recipient on the day it is transmitted only if an electronic submission report (maintained by the sender) indicates that the transmission of such Notice was successful.

8.6 Governing Law and Jurisdiction

- (a) This Agreement shall be governed by and construed in accordance with the laws of Ontario and the laws of Canada applicable therein and shall be treated in all respects as an Ontario contract, without regard to conflict of laws principles.
- (b) Subject to Article 7 hereof (Integration Dispute Resolution Procedure) the Parties hereby irrevocably attorn to the exclusive jurisdiction of the courts of the Province of Ontario and all courts competent to hear appeals therefrom.
- (c) Nothing in this Agreement affects the rights, protections and immunities of the Crown under the *Crown Liability and Proceedings Act (Ontario)*.

8.7 Assignment

- (a) Either OL Project Co (in this Section 8.7(a), the “**Transferring Project Co**”) may assign, transfer or otherwise dispose of the benefit of this Agreement to any person (in this Section 8.7(a), the “**assignee**”) to whom the Transferring Project Co assigns, transfers or otherwise disposes of its interest in the Project Agreement to which it is party pursuant to Section 59.1 (*Project Co Assignment*) of the RSSOM Project Agreement or Section 47.1 (*Project Co Assignment*) of the South Civil Project Agreement, as applicable, and shall provide written notice to Contracting Authority and the other OL Project Co of such assignment, transfer or other disposition. Such assignee, as a condition precedent to any such assignment, transfer or other disposition, shall assume the obligations and acquire the rights of the Transferring Project Co under this Agreement pursuant to an assumption agreement with, and in form and substance satisfactory to, Contracting Authority and the other OL Project Co, each acting reasonably. Contracting Authority, the OL Project Cos and the assignee shall, at the Transferring Project Co’s cost and expense, do all things and execute all further documents as may be necessary in connection therewith.
- (b) Contracting Authority may assign, transfer or otherwise dispose of the benefit of the whole or part of this Agreement to any person (in this Section 8.7(b), the “**assignee**”) to whom Contracting Authority assigns, transfers or otherwise disposes of its interest in the Project Agreement pursuant to Section 59.2 (*Contracting Authority Assignment*) of the RSSOM Project Agreement and Section 47.2 (*Contracting Authority Assignment*) of the South Civil Project Agreement, and shall provide written notice to the OL Project Cos of such assignment, transfer or other disposition.
- (c) Neither OL Project Co shall assign, novate, or otherwise transfer its interest in this Agreement to any person except concurrently with an assignment, novation or transfer of its Project Agreement to the same person in accordance with the provisions of the applicable Project Agreement.

8.8 Time of the Essence

Time is of the essence of every provision of this Agreement. Extension, waiver or variation of any provisions of this Agreement shall not be deemed to affect this provision and there shall be no implied waiver of this provision.

8.9 Further Assurance

Each Party shall do all things, from time to time, and execute all further documents necessary to give full effect to this Agreement.

8.10 Third Party Beneficiaries

Except as provided in the indemnities pursuant to the Project Agreements, it is specifically agreed between the Parties executing this Agreement that it is not intended by any of the provisions of any part of this Agreement to create in the public or any member thereof, a third party beneficiary hereunder, or to authorize anyone not a party to this Agreement to maintain a suit for personal injury or property damage pursuant to the terms or provisions of this Agreement.

8.11 Survival

The Parties agree that Article 1, Section 2.2, Article 7 and Article 8 of this Agreement shall survive the termination of this Agreement.

8.12 Waiver

- (a) No waiver made or given by a Party under or in connection with this Agreement shall be binding or effective unless the waiver is in writing, signed by an authorized representative of the Party giving such waiver, and delivered by such Party to the other Parties. No waiver made with respect to any right, power or remedy in one instance will be deemed to be a waiver with respect to any other instance involving the exercise of such right, power, or remedy or with respect to any other right, power, or remedy.
- (b) Failure by any Party to exercise any of its rights, powers or remedies hereunder or its delay to do so shall not constitute a waiver of those rights, powers or remedies. The single or partial exercise of a right, power or remedy shall not prevent its subsequent exercise or the exercise of any other right, power or remedy.

8.13 Counterparts

This Agreement may be executed in one or more counterparts. Any single counterpart or a set of counterparts executed, in either case, by all of the Parties shall constitute a full, original and binding agreement for all purposes. Delivery of an executed counterpart by sending a copy by electronic mail or other electronic transmission shall be as effective as the manual delivery of an executed counterpart.

8.14 Language of Agreement

Each Party acknowledges having requested and being satisfied that this Agreement and related documents be drawn in English. *Chacune des parties reconnaît avoir demandé que ce document et ses annexes soient rédigés en anglais et s'en déclare satisfaite.*

8.15 Liability

Metrolinx, as Crown agency, shall be liable for all of the obligations of Contracting Authority under this Agreement.

8.16 No Reliance

- (a) Each of the Parties acknowledge that:
- (i) it has not entered into this Agreement on the basis of and does not rely, and has not relied, upon any statement or representation, whether negligent or innocent, or warranty or other provision, whether oral, written, express or implied, made or agreed to by any person, whether a Party to this Agreement or not, except those expressly made, given or repeated in this Agreement and the only remedy or remedies available in respect of any misrepresentation or untrue statement made to it shall be those expressly provided for in this Agreement; and
 - (ii) this Section 8.16 shall not apply to any statement, representation or warranty made fraudulently, or to any provision of this Agreement which was induced by fraud, for which the remedies available shall be all those available under the law governing this Agreement.

8.17 Costs

Each Party shall be responsible for paying its own costs and expenses incurred in connection with the negotiation, preparation and execution and delivery of this Agreement.

8.18 Proof of Authority

Each Party reserves the right to require any person executing this Agreement on behalf of any other Party to provide proof, in a form acceptable to such Party, as applicable, that they have the requisite authority to execute this Agreement on behalf of and to bind such Party.

8.19 Copyright Notice

The Parties acknowledge that King's Printer for Ontario is the exclusive owner of copyright in the Project Agreements and this Agreement.

[REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF the Parties hereto have duly executed this Agreement as of the day and year first above written.

APPENDIX A TO SCHEDULE 39A

INTEGRATION DISPUTE RESOLUTION PROCEDURE

1. General

1.1 Definitions

- (a) In this Appendix A, unless the context otherwise requires:
- (i) “**Adjudication Dispute**” means a matter to which there is a statutory right to submit such matter to adjudication under the *Construction Act* (Ontario);
 - (ii) “*Arbitration Act, 1991*” means the *Arbitration Act, 1991*, S.O. 1991, c. 17, as amended from time to time.
 - (iii) “**Arbitration Referral Period**” has the meaning given in Section 3.13(a) of this Appendix A.
 - (iv) “**CIDB**” has the meaning given in Section 3.1(a) of this Appendix A.
 - (v) “**CIDB Chair**” has the meaning given in Section 3.1(c)(ii) of this Appendix A.
 - (vi) “**CIDB Expiry Date**” means five (5) years after the South Civil Project Substantial Completion Date, subject to any extension of the CIDB Expiry Date pursuant to Section 3.1(b) of this Appendix A.
 - (vii) “**CIDB Member**” has the meaning given in Section 3.1(a) of this Appendix A.
 - (viii) “**CIDB Member Agreement**” has the meaning given in Section 3.1(a) of this Appendix A.
 - (ix) “**CIDB Member Statement**” has the meaning given in Section 3.3(a) of this Appendix A.
 - (x) “**CIDB Technical Member**” has the meaning given in Section 3.1(c)(i) of this Appendix A.
 - (xi) “**Claimant**” has the meaning given in Section 3.6(a) of this Appendix A.
 - (xii) “**Date of Commencement**” has the meaning given in Section 3.6(b) of this Appendix A.
 - (xiii) “**Dispute**” has the meaning given in Section 1.1 of the main body of this Agreement.
 - (xiv) “**Integration Dispute**” has the meaning given in Section 1.1 of the main body of this Agreement.
 - (xv) “**Integration Dispute Notice Supporting Documents**” means all key documents relevant to the Integration Dispute on which the Party intends to rely for the purposes of resolving the Integration Dispute pursuant to this Integration Dispute Resolution Procedure in the possession or control of such Party following reasonable due diligence.

- (xvi) “**Notice of Request to Arbitrate**” has the meaning given in Section 4(c) of this Appendix A.
- (xvii) “**Parties**” means the Parties to this Interface Agreement and, in respect of any Integration Dispute, includes any other Parties added to such Integration Dispute in accordance with this Integration Dispute Resolution Procedure, and “**Party**” means any one of them without specificity, as the context requires.
- (xviii) “**Party Executive**” has the meaning given in Section 2(a) of this Appendix A.
- (xix) “**Party Executive IDRP Termination Notice**” has the meaning given in Section 2(e) of this Appendix A.
- (xx) “**Party Representative**” means the Contracting Authority Representative, the RSSOM Project Co Representative, the South Civil Project Co Representative, a person designated as such by a Project Co Party or a person designated as such by a Civil Contractor Party, as the context requires.
- (xxi) “**Project Agreement**” has the meaning given in Section 1.1 of the main body of this Agreement.
- (xxii) “**Public Safety Integration Dispute**” means any Integration Dispute which Contracting Authority, RSSOM Project Co or South Civil Project Co, acting reasonably, determines involves an alleged breach of this Interface Agreement, the RSSOM Project Agreement or the South Civil Project Agreement by another Party or any act or omission on the part of another Party or any person with whom another Party is legally affiliated or for whom another Party is legally responsible (including a Project Co Party, a Civil Contractor Party or a Contracting Authority Party, as applicable), which creates or can reasonably be expected to create a serious threat to the health, safety or security of any person, including any user of any part of or the whole of the Project or the Lands, or to the environment.
- (xxiii) “**Reply**” has the meaning given in Section 3.7 of this Appendix A.
- (xxiv) “**Reply Period**” has the meaning given in Section 3.7(a) of this Appendix A.
- (xxv) “**Respondent**” has the meaning given in Section 3.6(a) of this Appendix A.
- (xxvi) “**Rules of Civil Procedure**” means R.R.O. 1990, Reg. 194: Rules of Civil Procedure under the *Courts of Justice Act*, R.S.O. 1990, c. C.43, as amended from time to time.
- (xxvii) “**Statement of Case**” has the meaning given in Section 3.6(a) of this Appendix A.
- (xxviii) “**Statement of Reply**” has the meaning given in Section 3.7(a) of this Appendix A.
- (xxix) “**Third Party Arbitration**” has the meaning given in Section 6(a) of this Appendix A.
- (xxx) “**Third Party Litigation**” has the meaning given in Section 6(b) of this Appendix A.

1.2 Applicability of Integration Dispute Resolution Procedure

- (a) All Integration Disputes shall be resolved subject to and in accordance with this Integration Dispute Resolution Procedure.
- (b) Without limiting any provision of this Appendix A, the Parties intend that all Integration Disputes that arise:
 - (i) prior to the CIDB Expiry Date, shall be resolved in accordance with Sections 2 to 5; and
 - (ii) on and following the CIDB Expiry Date, shall be resolved in accordance with Sections 2, 4 and 5.

1.3 Notice of Integration Dispute

- (a) Where a Notice of Dispute has been given under the RSSOM Project Agreement or the South Civil Project Agreement, as applicable, Contracting Authority may give Notice to Project Co and South Civil Project Co designating such Dispute as an Integration Dispute where it appears to Contracting Authority that:
 - (i) there is a claim for contribution, indemnity or other relief under any one or more of the following:
 - (A) Sections 56.1(a)(vi) or 56.1(a)(vii) (*Project Co Indemnities to Contracting Authority*) of the RSSOM Project Agreement;
 - (B) Sections 56.2(a)(i), 56.2(a)(ii) or 56.2(a)(iii) (*Contracting Authority Indemnities to Project Co*) of the RSSOM Project Agreement arising, directly or indirectly, out of, or in consequence of, or involving or relating to any act or omission, or any deliberate or negligent act or omission, of a Civil Contractor (as applicable);
 - (C) Sections 44.1(a)(vii) or 44.1(a)(viii) (*Project Co Indemnities to Contracting Authority*) of the South Civil Project Agreement; or
 - (D) Sections 44.2(a)(i), 44.2(a)(ii) or 44.2(a)(iii) (*Contracting Authority Indemnities to Project Co*) of the South Civil Project Agreement arising, directly or indirectly, out of, or in consequence of, or involving or relating to any act or omission, or any deliberate or negligent act or omission, of RSSOM Project Co (as applicable);
 - (ii) as a result of, in respect of, or arising out of the same matter or occurrence or series of matters or occurrences (including common issues of damages or compensation), there is any one or more of the following:
 - (A) doubt as to responsibility or entitlement to relief among Contracting Authority, RSSOM Project Co and South Civil Project Co, or the respective extent to which each may be responsible or entitled, whether jointly, severally or in the alternative;
 - (B) a common question of fact among Contracting Authority, RSSOM Project Co and South Civil Project Co;

- (C) a common question of law among Contracting Authority, RSSOM Project Co and South Civil Project Co, including the determination of rights that depends upon the interpretation of the RSSOM Project Agreement or South Civil Project Agreement, as applicable, or the interpretation of Applicable Law; or
- (iii) the Parties agree that designation of such Dispute as an Integration Dispute may promote or secure the most expeditious and least expensive determination of such Dispute on its merits.
- (b) Contracting Authority may give a Notice under section 1.3(a) designating a Dispute as an Integration Dispute, at any time that is at least seven (7) days before the Date of Commencement of a CDB proceeding with respect to such Dispute. For greater certainty, Contracting Authority may issue a Notice pursuant to Section 1.3(a) concurrent with a Notice of Dispute under either Project Agreement.
- (c) Any Project Co Party or Civil Contractor Party referred to in a Notice designating a Dispute as an Integration Dispute who is not a Party to such Integration Dispute may be added or joined by Contracting Authority as a necessary Party where Contracting Authority considers that the presence of such additional Party is necessary to enable the issues in the Integration Dispute to be effectively and completely determined.
- (d) Where Notice designating a Dispute as an Integration Dispute has been given by Contracting Authority, the Dispute shall thereafter be considered and heard or determined in accordance with this Integration Dispute Resolution Procedure, unless a Party challenges such Notice, by bringing a motion or application to the CIDB within seven (7) days after such Notice was given, and demonstrates that:
 - (i) grounds for such Notice, as set out in this Section 1.3, do not exist;
 - (ii) designation of the Dispute as an Integration Dispute will unduly complicate or delay the Dispute, or cause undue prejudice to such Party, in a manner which cannot be adequately addressed by appropriate terms, directions, or an award of costs; or
 - (iii) the Dispute is an Adjudication Dispute or a matter in respect of which the Independent Certifier is entitled or required to make a final and binding determination under either the RSSOM Project Agreement or the South Civil Project Agreement, as applicable.
- (e) The CIDB shall decide whether a Dispute should be heard or determined as an Integration Dispute, on such terms and subject to such directions as the CIDB may decide, where any Party challenges a Notice designating such Dispute as an Integration Dispute.
- (f) All time periods with respect to a Dispute under Schedule 27 – Dispute Resolution Procedure of the RSSOM Project Agreement or the South Civil Project Agreement, as applicable, shall be suspended where a Notice designating such Dispute as an Integration Dispute has been challenged until the CIDB has decided whether such Dispute should be heard or determined as an Integration Dispute.
- (g) Any Party may challenge a decision of the CIDB that a Dispute should be heard or determined as an Integration Dispute by delivering a Notice of Request to Arbitrate such decision within seven (7) days after the date of the decision of the CIDB. All time periods with respect to such Dispute

under Schedule 27 – Dispute Resolution Procedure of the RSSOM Project Agreement or the South Civil Project Agreement, as applicable, shall be suspended where such Notice of Request to Arbitrate has been delivered until the arbitral tribunal has decided pursuant to Section 4 whether such Dispute should be heard or determined as an Integration Dispute.

- (h) If no Party delivers a Notice of Request to Arbitrate a decision of the CIDB whether a Dispute should be heard or determined as an Integration Dispute before the expiry of the time period set out in Section 1.3(g), or if any arbitration that is commenced pursuant to Section 4 is subsequently abandoned by the Parties in writing before an arbitral award is made pursuant to Section 4, then the decision of the CIDB whether a Dispute should be heard or determined as an Integration Dispute shall be final and binding on the Parties.

1.4 Independent Certifier Determinations and Decisions

- (a) If a Party refers an Integration Dispute in respect of a determination or decision of the Independent Certifier made pursuant to the RSSOM Project Agreement or the South Civil Project Agreement for resolution by the CIDB pursuant to Section 3, the Independent Certifier shall not be permitted to provide its opinion as an expert to the CIDB pursuant to Section 3.9(c).

1.5 Continued Performance During Integration Disputes

- (a) RSSOM Project Co, South Civil Project Co and Contracting Authority shall diligently carry out their respective obligations under the RSSOM Project Agreement or the South Civil Project Agreement, as applicable, during the pendency of any Integration Dispute. If during the pendency of any Integration Dispute it is considered necessary by any Party to proceed in respect of a matter that is in Dispute, then subject to Section 1.5(b), any Party may proceed without prejudice to any other Party's rights under the RSSOM Project Agreement or the South Civil Project Agreement, as applicable, in respect of the Integration Dispute (including in respect of any entitlement of RSSOM Project Co or South Civil Project Co to a Delay Event, Compensation Event and/or Variation).
- (b) While an Integration Dispute is pending, Contracting Authority may give such written instructions as in Contracting Authority's opinion are necessary in respect of the matter that is the subject of the Dispute, including for RSSOM Project Co to proceed with the Project Operations or South Civil Project Co to proceed with the Works which are the subject of the Dispute in accordance with the position of Contracting Authority, and RSSOM Project Co or South Civil Project Co, as applicable, shall comply with such written instructions forthwith.
- (c) RSSOM Project Co and South Civil Project Co acknowledge and agree that (i) a pending Integration Dispute will not justify any failure or refusal to comply with any written instructions given by Contracting Authority pursuant to Section 1.5(b), including in the event that complying with such written instructions would prevent RSSOM Project Co or South Civil Project Co, as applicable, from achieving Substantial Completion by the applicable Scheduled Substantial Completion Date, and (ii) RSSOM Project Co and South Civil Project Co shall have no right to require a determination pursuant to this Integration Dispute Resolution Procedure or otherwise of whether or not Contracting Authority is entitled to give such written instructions or whether or not RSSOM Project Co or South Civil Project Co, as applicable, is required to comply with such written instructions, before complying with such written instructions. Only concurrently with or after complying with Contracting Authority's written instructions shall RSSOM Project Co or South Civil Project Co be entitled to refer any such Dispute for resolution.

- (d) Any claims for time and/or cost consequences of complying with this Section 1.5(d) shall be addressed as part of the resolution of the applicable Integration Dispute, provided that, in the event the matter of the Integration Dispute is determined in favour of RSSOM Project Co or South Civil Project Co, as applicable, proceeding in accordance with Contracting Authority's written instructions pursuant to Section 1.5(b) shall (i) subject to and in accordance with Section 40 (*Delay Events*) of the RSSOM Project Agreement or Section 30 (*Delay Events*) of the South Civil Project Agreement, as applicable, be treated as a Delay Event; (ii) subject to and in accordance with Section 41 (*Compensation Events*) of the RSSOM Project Agreement or Section 31 (*Compensation Events*) of the South Civil Project Agreement, as applicable, be treated as a Compensation Event; and (iii) subject to and in accordance with Schedule 22 – Variation Procedure of the RSSOM Project Agreement or South Civil Project Agreement, as applicable, result in a Variation.

1.6 Mutual Resolution Efforts

- (a) The Parties agree that at all times each of them will make reasonable and *bona fide* efforts to resolve any Integration Dispute:
- (i) in the ordinary course in accordance with the RSSOM Project Agreement or the South Civil Project Agreement, as applicable, starting with the Project teams of the Parties; and
 - (ii) if and to the extent the Project teams cannot resolve the matter in the ordinary course in accordance with the RSSOM Project Agreement or the South Civil Project Agreement, as applicable, by amicable negotiations on a without prejudice basis among the Party Representatives.
- (b) Each Party shall provide full, frank, candid and timely disclosure of relevant facts, information and documents (subject to legal privilege) as may be required by the RSSOM Project Agreement or the South Civil Project Agreement, as applicable, or reasonably requested by another Party to facilitate the resolution of any Integration Dispute and shall provide such cooperation and assistance as is necessary to enable the issues in any Integration Dispute to be effectively and completely determined.
- (c) The communication of facts, documents, or information by a Party on a without prejudice basis does not relieve that Party of any obligation to deliver any facts, documents or information required under the RSSOM Project Agreement or the South Civil Project Agreement, as applicable.

2. Amicable Resolution by Party Executives

- (a) Upon receipt of a Notice designating a Dispute as an Integration Dispute, the Integration Dispute shall be escalated for amicable resolution by an executive of each Party (each a "**Party Executive**").
- (b) The selected Party Executive for each Party shall be:
- (i) in a position of authority above that of the Party Representative; and
 - (ii) shall have or be delegated full authority to resolve the Integration Dispute subject only to approval of the Chief Executive Officer and board of directors or similar governing or regulatory body of the Party (as applicable).

- (c) The Party Executives shall promptly, and by no later than fifteen (15) Business Days (or such longer period agreed by the Parties in writing) from the date of the receipt of the Notice designating the Dispute as an Integration Dispute, meet and make reasonable and *bona fide* efforts to resolve the Integration Dispute.
- (d) All discussions and negotiations held, and all communications exchanged, among the Parties in connection with the Party Executive negotiations shall be on a without prejudice basis to facilitate the resolution of the Integration Dispute.
- (e) Any Party may terminate the process of amicable resolution by the Party Executives by providing Notice of termination of such process (each a “**Party Executive IDR Termination Notice**”) at any time:
 - (i) if the initial Party Executive meeting does not occur by the expiry of the period set out in Section 2(c); or
 - (ii) ten (10) Business Days after the initial Party Executive meeting described in Section 2(c).
- (f) The requirements of this Section 2 cannot be waived or amended except as expressly agreed by the Parties pursuant to Section 8(a).

3. Combined Integration Dispute Board

3.1 Appointment of the CIDB

- (a) The Combined Integration Dispute Board (“**CIDB**”) shall be a standing body composed of three members appointed in accordance with this Integration Dispute Resolution Procedure (each a “**CIDB Member**”). On or before South Civil Financial Close, the CIDB shall be constituted by a written agreement among the Parties and each of the CIDB Members substantially in the form set out in Attachment 2 to this Appendix A and executed and delivered in accordance with Schedule 2 – Completion Documents (each a “**CIDB Member Agreement**”).
- (b) The CIDB shall remain constituted until the CIDB Expiry Date. The Parties may agree in writing to extend the term of the CIDB, and shall agree in writing to any extensions necessary in order to obtain CIDB decisions in relation to Integration Disputes which remain outstanding at the end of the CIDB term.
- (c) Unless otherwise agreed by the Parties in writing:
 - (i) two CIDB Members shall be Professional Engineers qualified to practice in Ontario or another province of Canada or have technical and/or senior managerial expertise relevant to the Project (each a “**CIDB Technical Member**”); and
 - (ii) the third Member, who shall be the chair of the CIDB, shall have significant experience in construction law and shall be either: (A) a lawyer who is licensed to practice law in Ontario or another province of Canada other than Quebec; or (B) an ex-judge or master of a superior court in Ontario or another province of Canada other than Quebec providing adjudication, arbitration and/or mediation services in Ontario or another province of Canada (the “**CIDB Chair**”).

- (d) Each CIDB Member shall be independent, impartial and, unless otherwise agreed by the Parties in writing, experienced in resolving and deciding disputes of a type, complexity and value commensurate with the potential Integration Disputes that could be referred to the CIDB.
- (e) Each of RSSOM Project Co and South Civil Project Co shall appoint a CIDB Technical Member of its choice on or prior to South Civil Financial Close, and shall deliver to the other Parties a CIDB Member Statement for that CIDB Member upon appointment in accordance with Schedule 2 – Completion Documents.
- (f) Contracting Authority shall appoint the CIDB Chair on or prior to South Civil Financial Close, and deliver a CIDB Member Statement for the CIDB Chair upon appointment in accordance with Schedule 2 – Completion Documents.
- (g) Before commencing CIDB activities, each CIDB Member shall sign with the Parties a CIDB Member Agreement. The CIDB Member Agreement may be terminated in accordance with the CIDB Member Agreement.

3.2 Replacement of CIDB Member

- (a) When a CIDB Member must be replaced due to death, incapacity, resignation, termination or removal, or when a CIDB Technical Member must be replaced because such CIDB Technical Member has ceased to be a Technical Member of the CDB under the RSSOM Project Agreement or the South Civil Project Agreement, as applicable, a new CIDB Member shall be appointed within thirty (30) days of the need for replacement arising, in the same manner as the CIDB Member being replaced was originally selected in accordance with this Integration Dispute Resolution Procedure, unless otherwise agreed by the Parties in writing. All actions taken by the CIDB prior to the replacement of a CIDB Member shall remain valid. When one CIDB Member is to be replaced, the other CIDB Members shall continue to be CIDB Members, but shall not hold hearings or issue CIDB decisions without the agreement of the Parties in writing prior to the replacement of the CIDB Member.
- (b) If a Party fails to appoint a replacement CIDB Technical Member and the Parties cannot agree on an alternative CIDB Technical Member within the period of time set out in Section 3.2(a), any Party may refer the appointment of that CIDB Technical Member or the alternative CIDB Technical Member for a court determination pursuant to Section 5(b).
- (c) If Contracting Authority is unable to appoint a replacement CIDB Chair within the period of time set out in Section 3.2(a), any Party may refer the appointment of the replacement CIDB Chair for a court determination pursuant to Section 5(b).

3.3 Impartiality of CIDB Members

- (a) Every prospective CIDB Member shall sign a statement of acceptance, availability, impartiality and independence and disclose in writing to the Parties and the other CIDB Members, any facts or circumstances which might call into question the CIDB Member's independence in the eyes of the Parties or give rise to reasonable doubts as to the prospective CIDB Member's impartiality (including if such prospective CIDB Member, other than a prospective CIDB Technical Member being appointed in accordance with Section 3.1(f), is or has been a CDB Member or arbitrator under the RSSOM Project Agreement or the South Civil Project Agreement), substantially in the form set out in Attachment 1 to this Appendix A (the "**CIDB Member Statement**").

- (b) A CIDB Member shall immediately disclose in writing to the Parties any facts or circumstances concerning the CIDB Member's impartiality or independence which may arise in the course of such CIDB Member's tenure.
- (c) Should any Party wish to challenge a prospective or current CIDB Member on the basis of an alleged lack of impartiality, independence or qualifications, it may, as soon as practicable after learning of the facts upon which the challenge is based, submit to the CIDB and the other Parties a request for a decision upon the challenge including a written statement of such facts.
- (d) If the challenged prospective or current CIDB Member does not withdraw, and the other Parties do not agree to the challenge, any Party may refer the matter for a court determination pursuant to Section 5(b).
- (e) No Party shall challenge a current CIDB Member on the basis of an alleged lack of impartiality or independence as a result of the CIDB Member carrying out its duties under the CIDB Member Agreement, including the provision of without prejudice dispute resolution assistance.
- (f) If a prospective or current CIDB Member is successfully challenged, the prospective CIDB Member shall not be appointed, or the current CIDB Member shall be removed forthwith from the CIDB, and the CIDB Member Agreement, if any, between that CIDB Member and the Parties shall be automatically terminated.

3.4 Project Monitoring by the CIDB

- (a) The Parties shall fully cooperate with the CIDB and communicate information to it in a timely manner.
- (b) During any meetings and site visits in which the CIDB participates, the CIDB may review the performance of the Parties' obligations under the RSSOM Project Agreement and South Civil Project Agreement, as applicable, with the Parties. The Parties may at any time by agreement in writing request that the CIDB (i) provide informal assistance to the Parties with regards to avoiding or addressing Integration Disputes; or (ii) mediate any Integration Dispute. All such reviews by the CIDB and any informal assistance or mediation provided by the CIDB pursuant to this Section 3.4(b) is provided on a without prejudice basis and shall not be considered or referred to in any such Integration Dispute or if any Integration Dispute is submitted for resolution in any subsequent dispute resolution processes or proceedings.
- (c) Each Party is required to copy the other Parties in all written communications in respect of the Project it provides to a CIDB Member. Unless otherwise agreed by the Parties in writing or as provided in Section 3.10(d), no Party shall have any conversation or any meeting with any CIDB Member in respect of the Project without the other Parties being included in such conversation or being present at such meeting.

3.5 CIDB to Resolve Integration Disputes

- (a) If the Parties are unable to resolve an Integration Dispute prior to the CIDB Expiry Date through amicable resolution by the Party Executives pursuant to Section 2 and a Party delivers a Party Executive IDR Termination Notice to the other Parties, then any Party may in writing refer the Integration Dispute to the CIDB for resolution.

- (b) The CIDB shall have all the powers in respect of Integration Disputes that a CDB has in respect of other Disputes under the RSSOM Project Agreement or the South Civil Project Agreement, as applicable.

3.6 Statement of Case

- (a) The Party referring an Integration Dispute to the CIDB pursuant to Section 3.5(a) (the “**Claimant**”) shall submit a concise written statement of its case (the “**Statement of Case**”) to the responding Parties (the “**Respondent**”) and the CIDB within thirty (30) days (or such longer period agreed by the Parties in writing, acting reasonably) of a Party’s referral of the Integration Dispute to the CIDB for resolution pursuant to Section 3.5(a). The Statement of Case shall only include:
- (i) the Notice of Dispute, including all Integration Dispute Notice Supporting Documents;
 - (ii) the issues submitted to the CIDB for decision;
 - (iii) a statement of the Claimant’s position, including a statement of relevant facts and law; and
 - (iv) any amendments, updates, additions to, or deletions from the Notice of Dispute or the Integration Dispute Notice Supporting Documents.
- (b) The date on which the Statement of Case is received by the CIDB Chair shall be deemed to be the date of the commencement of the CIDB proceeding (the “**Date of Commencement**”).
- (c) If the Claimant provides any material amendment, update, addition to, or deletion from the Notice of Dispute or the Integration Dispute Notice Supporting Documents pursuant to Section 3.6(a)(iv), then the CIDB shall permit each Respondent a reasonable amount of time to review and respond to such material amendment, update, addition to, or deletion from the Notice of Dispute or the Integration Dispute Notice Supporting Documents, and shall extend the Reply Period accordingly pursuant to Section 3.7(b)(i).
- (d) Unless the CIDB orders otherwise, the Claimant shall not be entitled to rely upon any documents other than the documents contained in its Statement of Case. In the event that the CIDB permits the Claimant to rely on any additional documents, the CIDB shall permit each Respondent a reasonable amount of time to review and respond to such additional documents.

3.7 Statement of Reply

- (a) Subject to Section 3.7(b), within thirty (30) days of the Date of Commencement (the “**Reply Period**”), each Respondent shall deliver to the Claimant and the CIDB a concise written statement of its reply to the Statement of Case (the “**Statement of Reply**”). The Statement of Reply shall only include:
- (i) a statement of the Respondent’s position, including a statement of relevant facts and law;
 - (ii) the issues submitted to the CIDB for a decision; and
 - (iii) any documents not contained in the Statement of Case on which the Respondent intends to rely.

- (b) The Reply Period may be extended to permit each Respondent additional time to provide its Statement of Case by:
 - (i) order of the CIDB (including pursuant to Section 3.6(c) or Section 3.6(d)); or
 - (ii) agreement of the Parties, acting reasonably.

3.8 Additional Documents Required by the CIDB

- (a) The CIDB may at any time request a Party to submit additional written statements or documentation within a reasonable amount of time to assist the CIDB in preparing its decision. Each such request shall be communicated in writing by the CIDB to the Parties, and any additional written statements or documentation submitted in response to the CIDB's request shall be submitted to the CIDB and the other Parties. The CIDB shall permit the other Parties a reasonable amount of time to review and respond to such additional written statements or documentation.

3.9 Evidence and Powers of the CIDB

- (a) Subject to Section 3.9(b), the CIDB shall decide Integration Disputes based on the Parties' Statement of Case and Statement of Reply and any additional documents and responses delivered pursuant to any of Sections 3.6(d), 3.7(a) or 3.8(a).
- (b) If there are any material factual disputes among the Parties or other issues arising from the Parties' Statement of Case or Statement of Reply, the CIDB may order such additional procedural steps or give such directions as the CIDB considers appropriate to address such disputes or other issues, with a view to proportionality and the Parties' desire to resolve Integration Disputes in a cost-effective and expeditious manner.
- (c) Without limiting Section 3.9(b), the CIDB may, if necessary, appoint one or more experts after considering the positions of the Parties or, subject to Section 1.4(a), obtain and consider the opinion of the Independent Certifier, as an expert.

3.10 Hearings

- (a) The CIDB shall order that a hearing in respect of the Integration Dispute take place unless the Parties and CIDB agree in writing that a hearing is not required.
- (b) The hearing shall be conducted in Toronto, Ontario or by teleconference or videoconference on written agreement of the Parties and the CIDB.
- (c) The Parties shall appear through duly authorized representatives. In addition, the Parties may be assisted or represented by advisers and legal counsel.
- (d) If any Party refuses or fails to take part in the CIDB hearing or in any preceding steps, the CIDB may proceed notwithstanding such refusal or failure.
- (e) The CIDB may request that the Parties provide and exchange summaries of their argument in advance of the hearing.
- (f) Subject to the discretion of the CIDB, the hearing shall proceed as follows:

- (i) the Claimant shall present its case;
- (ii) each Respondent shall present its case; and
- (iii) the Claimant shall have an opportunity to reply.

3.11 Basis for Decision

- (a) The CIDB shall make decisions under the RSSOM Project Agreement based on the provisions of the RSSOM Project Agreement and under the South Civil Project Agreement based on the provisions of the South Civil Project Agreement.
- (b) The CIDB may take into account:
 - (i) any failure of a Party to comply with the RSSOM Project Agreement or South Civil Project Agreement, as applicable, including any of its mitigation obligations or its procedural obligations under this Interface Agreement; and
 - (ii) any unreasonable delay in bringing the claim, including any unreasonable delay that prevented or prejudiced proper investigation of, opportunity for mitigation of, or ability to respond to the claim.
- (c) A decision of the CIDB shall be in writing and state the findings, reasons, and determination of the CIDB and include:
 - (i) a summary of the Integration Dispute, the positions of the Parties and the decision requested; and
 - (ii) a summary of the relevant provisions of the RSSOM Project Agreement or South Civil Project Agreement, as applicable, and the relevant facts and law considered by the CIDB.
- (d) The CIDB shall issue its decision promptly and, in any event, within thirty (30) days after the hearing unless the Parties consent in writing to an extension, which consent shall not be unreasonably withheld. Failure to issue a decision of the CIDB within the time allowed does not invalidate the decision.
- (e) The CIDB shall make its decision by a majority of the CIDB Members. Any CIDB Member who disagrees with the decision shall give the reasons for such disagreement in a separate written document that shall form part of the decision but which shall not be binding on the Parties.

3.12 Costs

- (a) Unless otherwise agreed by the Parties in writing or ordered by the CIDB, or otherwise set out in a CIDB Member Agreement, all CIDB Member fees and expenses and any other costs associated with the establishment and activities of the CIDB (including in relation to obtaining CIDB decisions and the cost of any experts appointed pursuant to Section 3.9(c)) shall be paid by the Parties in accordance with each CIDB Member Agreement, and shared as follows:
 - (i) **[REDACTED]**% by Contracting Authority;

- (ii) [REDACTED]% by each of RSSOM Project Co and South Civil Project Co.
- (b) Each Party shall bear its own costs associated with Integration Disputes referred to the CIDB for a decision.

3.13 Subsequent Dispute Resolution Procedure to the CIDB

- (a) Any Party that is dissatisfied with a decision of the CIDB may, within thirty (30) days of the release of the CIDB's decision (or such longer period agreed by the Parties, acting reasonably) (the "**Arbitration Referral Period**"), deliver a Notice of Request to Arbitrate the Integration Dispute pursuant to Section 4(c). The decision of the CIDB shall be stayed during the Arbitration Referral Period. If the Integration Dispute is arbitrated pursuant to Section 4, the arbitration tribunal shall conduct the arbitration *de novo* and the decision of the CIDB shall not, subject to the following sentence, be binding on the Parties. If no Party delivers a Notice of Request to Arbitrate the Integration Dispute pursuant to Section 4(c) before the expiry of the Arbitration Referral Period, or if any arbitration that is commenced pursuant to Section 4 is subsequently abandoned by the Parties in writing before an arbitral award is made pursuant to Section 4, then the decision of the CIDB shall be final and binding on the Parties.
- (b) The Parties agree that any decision of the CIDB that becomes final and binding on the Parties in accordance with Section 3.13(a) shall not be subject to appeal, arbitration, litigation or any other dispute resolution process and expressly waive any and all such rights in respect of the Integration Dispute resolved by the CIDB.

4. Arbitration

- (a) Prior to the CIDB Expiry Date, if the Parties fail to resolve an Integration Dispute through the processes set out in Sections 2 and 3, and where no final and binding CIDB decision exists in respect of the Integration Dispute, then the Integration Dispute shall be resolved by *de novo* arbitration in accordance with this Section 4.
- (b) On and following the CIDB Expiry Date, if the Parties fail to resolve the Integration Dispute through the process set out in Section 2, then the Dispute shall be resolved by *de novo* arbitration in accordance with this Section 4.
- (c) Any Party may deliver a Notice of request to arbitrate an Integration Dispute eligible to be referred to arbitration in accordance with this Integration Dispute Resolution Procedure (each a "**Notice of Request to Arbitrate**").
- (d) A Notice of Request to Arbitrate will not be effective unless it:
 - (i) is signed by the Party Representative;
 - (ii) if applicable, is delivered to the other Party Representatives within the period of time set out in Section 3.13(a) following the release of any applicable CIDB decision;
 - (iii) indicates it is a Notice of Request to Arbitrate pursuant to Section 4(c); and
 - (iv) expressly identifies the Integration Dispute to be arbitrated.

- (e) The *Arbitration Act, 1991* shall apply to an arbitration pursuant to this Section 4.
- (f) An Integration Dispute referred to arbitration shall be resolved by a single arbitrator unless:
 - (i) the Parties otherwise agree in writing; or
 - (ii) one of the Parties, by Notice delivered to the other Parties within seven (7) days after delivery of a Notice of Request to Arbitrate, requires the Integration Dispute to be resolved by a three person arbitral tribunal, in which case the Integration Dispute shall be resolved by a three person arbitral tribunal.
- (g) If the arbitral tribunal is comprised of a single arbitrator:
 - (i) the Parties shall jointly appoint the arbitrator; and
 - (ii) if the Parties are unable to agree on the arbitrator within thirty (30) days after delivery of the Notice of Request to Arbitrate, any Party may apply to the Ontario Superior Court of Justice to appoint the arbitrator pursuant to the *Arbitration Act, 1991*.
- (h) If the arbitral tribunal is comprised of three arbitrators:
 - (i) RSSOM Project Co and South Civil Project Co shall each appoint one arbitrator and Contracting Authority shall appoint the third arbitrator, who shall act as the chair; and
 - (ii) if the Parties have not appointed an arbitrator or arbitrators pursuant to Section 4(h)(i), any Party may apply to the Ontario Superior Court of Justice to appoint the remaining arbitrator(s) pursuant to the *Arbitration Act, 1991*.
- (i) All arbitrators must have qualifications and experience relevant to the issues in the Integration Dispute commensurate with the nature, complexity and value of the Integration Dispute(s) to be arbitrated.
- (j) No one shall be nominated or appointed to act as an arbitrator who is or was within the past five years:
 - (i) a Member of a CDB under the RSSOM Project Agreement or the South Civil Project Agreement;
 - (ii) an arbitrator under the RSSOM Project Agreement or the South Civil Project Agreement, unless the arbitral tribunal will be comprised of three (3) arbitrators with one (1) arbitrator who is an existing or former arbitrator under the RSSOM Project Agreement and one (1) arbitrator who is an existing or former arbitrator under the South Civil Project Agreement; or
 - (iii) in any way interested, financially or otherwise, in the conduct of the Project Operations under the RSSOM Project Agreement, the Works under the South Civil Project Agreement, or in the business affairs of Contracting Authority, RSSOM Project Co, South Civil Project Co or any consultant, subconsultant or subcontractor of any of them who may be involved or implicated in the Integration Dispute.

- (k) Unless otherwise agreed by the Parties, the seat and venue of the arbitration shall be Toronto, Ontario. The language of the arbitration shall be English.
- (l) The arbitral tribunal shall render its award as soon as possible and no later than sixty (60) days after the date of the closure of the hearing, or such other period of time as agreed to by the Parties in writing and accepted by the arbitral tribunal.
- (m) The costs of the arbitration are within the discretion of the arbitral tribunal. In exercising discretion to award costs, the arbitrator(s) will take into account the desire of the Parties that costs should generally be awarded to each Party in proportion to the relative success that such Party has in the arbitration.
- (n) The award of the arbitral tribunal shall be final and binding upon the Parties and not subject to appeal.
- (o) Where a Dispute has been designated as an Integration Dispute, the arbitral tribunal shall have all the powers in respect of such Integration Dispute that an arbitral tribunal has in respect of other Disputes under the RSSOM Project Agreement or the South Civil Project Agreement, as applicable.
- (p) The arbitral tribunal shall make decisions under the RSSOM Project Agreement based on the provisions of the RSSOM Project Agreement and under the South Civil Project Agreement based on the provisions of the South Civil Project Agreement.

5. Litigation

- (a) If necessary to prevent irreparable harm to a Party, including in connection with a Public Safety Integration Dispute, nothing contained in this Appendix A will prevent the Parties from seeking interim protection from the Ontario Superior Court of Justice, including seeking an interlocutory injunction. However, the Parties agree that no irreparable harm shall occur if the RSSOM Project Agreement or South Civil Project Agreement, as applicable, is terminated and that any termination of the RSSOM Project Agreement or South Civil Project Agreement, as applicable, by any Party, if found to be wrongful, would be adequately compensated for by an award of damages.
- (b) Any Party may bring an application or motion directly to the Ontario Superior Court of Justice for a determination regarding appointment of a challenged or a proposed alternative CIDB Member or arbitrator.
- (c) All litigation permitted pursuant this Integration Dispute Resolution Procedure shall be resolved in the Ontario Superior Court of Justice. All Parties irrevocably attorn to the exclusive jurisdiction of the courts of the Province of Ontario in respect of any Integration Disputes which are to be resolved by litigation.

6. Stay and Consolidation with Third Party and Integration Disputes

- (a) Subject to Section 6(c), if any Party is involved in an arbitration in the Province of Ontario with a third party (“**Third Party Arbitration**”), and if such Third Party Arbitration involves common factual or legal issues (including common issues of damages) which are also the subject of an Integration Dispute, then any arbitration of the Integration Dispute which includes those common factual, legal or damages issues may be stayed, consolidated or joined with the Third Party

Arbitration(s) but only if the Parties to the Integration Dispute and the other parties to such Third Party Arbitration all agree in writing.

(b) Subject to Section 6(c), if any Party is involved in litigation in the Province of Ontario with a third party (“**Third Party Litigation**”) and if:

(i) such Third Party Litigation involves common factual or legal issues (including common issues of damages) which are the subject of an arbitration under this Integration Dispute Resolution Procedure ; and

(ii) such Party is brought directly into the Third Party Litigation as a party to that litigation,

then on the application of any Party to the court in the Province of Ontario having jurisdiction the court may, if it determines that it is just and convenient in all the circumstances, order a stay of the Third Party Litigation.

(c) Sections 6(a) and 6(b) only apply:

(i) if the Integration Dispute includes a claim by one Party against another for contribution or indemnity for that Party’s liability or potential liability to the third party where such liability results or will result from an award in the Third Party Arbitration or a judgment in the Third Party Litigation; and

(ii) to those specific issues that are common issues in the arbitration under this Integration Dispute Resolution Procedure and the Third Party Arbitration or the Third Party Litigation, such that all other issues in the Integration Dispute shall continue to be resolved by arbitration under this Integration Dispute Resolution Procedure and shall not be consolidated with the Third Party Arbitration or Third Party Litigation.

(d) Where two or more Integration Disputes are pending between or among Contracting Authority and any Civil Contractor(s), at any stage of the Integration Resolution Dispute Procedure, the Parties to such Integration Disputes may agree or the CIDB or arbitral tribunal, as applicable, may order that:

(i) an Integration Dispute shall be considered or consolidated with, or heard at the same time as or immediately before or after, another Integration Dispute; or

(ii) claims made in an Integration Dispute shall be:

(A) stayed until after the determination of claims in another Integration Dispute; or,

(B) asserted by way of counterclaim, crossclaim or third party claim in another Integration Dispute.

7. Confidentiality

(a) Unless otherwise agreed by the Parties in writing or required by law, no Party shall rely on or introduce as evidence in any subsequent proceeding or investigation, and shall treat as confidential and inadmissible in any arbitration or litigation proceeding or other investigation or proceeding, any information, data, statements, submissions, admissions, settlement proposals,

recommendations, discussions, opinions, or any other documents within the meaning of the *Rules of Civil Procedure*, other than documents which would otherwise be admissible pursuant to the *Rules of Civil Procedure*, which were obtained, exchanged or delivered:

- (i) on a without prejudice basis, including through the process for the amicable resolution of the Integration Dispute by the Party Executives set out in Section 2; or
 - (ii) through the decision process by any Party or the CIDB or any CIDB Member, except for a decision and reasons of the CIDB, which may be introduced in any subsequent dispute resolution processes or proceedings regarding the same Integration Dispute(s).
- (b) Any CIDB Member or arbitrator appointed pursuant this Integration Dispute Resolution Procedure shall keep all information about any Integration Dispute(s) referred to the CIDB or for arbitration confidential and shall not disclose such information to anyone other than the Parties.
- (c) Any arbitrator shall execute non-disclosure agreements in a form satisfactory to the Parties, providing that, among other things, material delivered by a Party in connection with arbitration shall not be disclosed to any person or used for any other purpose, in accordance with this Section 7, and all such material shall remain the property of the Party disclosing or delivering same.
- (d) A Member of the CIDB or arbitrator shall not be compelled to give evidence in any proceeding in respect of an Integration Dispute that was referred to the CIDB or arbitrator for a decision.

8. Miscellaneous

- (a) The Parties can, by written agreement on an Integration Dispute by Integration Dispute basis:
- (i) extend any or all timelines set out in this Integration Dispute Resolution Procedure;
 - (ii) agree to waive or by-pass any one or more of the Integration Dispute resolution processes in Sections 2 and 3 and, instead, proceed directly to resolution of the Integration Dispute by arbitration pursuant to Sections 4;
 - (iii) agree to a different process for arbitration than the one contemplated in this Integration Dispute Resolution Procedure; or
 - (iv) agree to refer any Integration Dispute to mediation by a neutral third party mediator.

ATTACHMENT 1 TO APPENDIX A

**FORM OF CIDB MEMBER STATEMENT OF ACCEPTANCE, AVAILABILITY,
IMPARTIALITY AND INDEPENDENCE**

TO: METROLINX, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency in accordance with the *Crown Agency Act*, R.S.O. 1990, c. 48

(“Contracting Authority”)

AND TO: THE MINISTER OF INFRASTRUCTURE

AND TO: CONNECT 6IX GENERAL PARTNERSHIP (“RSSOM Project Co”)

AND TO: [REDACTED] (“South Civil Project Co”)

RE: The **INTERFACE AGREEMENT** dated the 15th day of November, 2022 between Contracting Authority, RSSOM Project Co and South Civil Project Co, the **RSSOM PROJECT AGREEMENT** dated the 15th day of November, 2022 between Contracting Authority and RSSOM Project Co, and the **SOUTH CIVIL PROJECT AGREEMENT** dated the 8th day of November, 2022 between Contracting Authority and South Civil Project Co, each in respect of the Ontario Line Subway

1. General

1.1 Name and Position

- (a) Family Name(s):
- (b) Given Name(s):
- (c) CIDB Member Position (circle one): Technical or Chair
- (d) Please attach a current copy of your CV.

1.2 Definitions, Interpretation and Governing Law

- (a) This statement (the “**Statement**”) shall be interpreted in accordance with the Interface Agreement, the RSSOM Project Agreement and the South Civil Project Agreement, and governed by the laws of Ontario, without regard to conflict of laws provisions. Please initial below all relevant statements.

1.3 Acceptance

- (a) I accept to serve as a Combined Integration Dispute Board (“**CIDB**”) Member (“**CIDB Member**”) in accordance with the Interface Agreement, the RSSOM Project Agreement and the South Civil Project Agreement.

Initial: _____

- (b) I decline to serve as a CIDB Member in accordance with the Interface Agreement, the RSSOM Project Agreement and the South Civil Project Agreement. *(If you tick here, simply date and sign the form without completing any other sections).*

Initial: _____

1.4 Availability

- (a) I confirm, on the basis of the information presently available to me that I have received and reviewed a copy of the Interface Agreement and can devote the time necessary to discharge the duties of a CIDB Member throughout the entire duration of the CIDB’s anticipated activities as diligently, efficiently and expeditiously as possible in accordance with the timelines and procedures set out in the Interface Agreement.

Initial: _____

- (b) I understand that it is important to discharge the duties of a CIDB Member set out in the Interface Agreement as promptly as reasonably practicable. My current and anticipated professional roles and significant engagements are set out below for the information of the Parties (anonymized as necessary to remain compliant with my professional obligations).

Initial: _____

Number of currently pending matters or roles in which I am involved (*i.e. arbitrations and dispute board activities pending now, not previous experience; additional details you wish to make known to the Parties in relation to these matters can be provided on a separate sheet*):

	As tribunal or dispute board chair / sole arbitrator / sole DB member	As co-arbitrator / co-dispute board member	As counsel	As other
Standing dispute boards				
Ad-hoc dispute boards				
Arbitrations				
Court litigation (e.g. international commercial courts)				
Other (attach separate sheet if necessary)				

I have attached a calendar showing for the next twenty-four (24) months all currently scheduled hearings and other existing commitments (anonymized as necessary) that would prevent me from attending meetings or sitting in a hearing on this Project.

I have further marked in the box below or on a separate sheet any other relevant information regarding my availability.

- (c) I shall make best efforts to maintain the availability necessary to discharge the duties of a CIDB Member throughout the entire duration of the CIDB’s anticipated activities which require my involvement, and shall immediately disclose in writing to the Parties and the other CIDB Members any additional significant matters that I may become involved in and any other relevant information regarding my availability which may arise in the course of my tenure as a CIDB Member and which may materially affect my ability to discharge my duties as a CIDB Member.

Initial: _____

1.5 Independence and Impartiality

- (a) In deciding which disclosure method applies to you, you should take into account, whether there exists any past, present or future, anticipated or planned relationship, direct or indirect, whether financial, professional or of any other kind, between you and any of the Parties, their lawyers or other representatives, or related entities and individuals. You are also required to disclose all recent, professional or personal, relationships with all key members of all Parties. Any doubt must be resolved in favour of disclosure. Any disclosure should be complete and specific, identifying *inter alia* relevant dates (both start and end dates), financial arrangements, details of companies and individuals, and all other relevant information.

- (i) **Nothing to disclose:** I am impartial and independent of the Parties and intend to remain so. To the best of my knowledge, and having made due enquiry, there are no facts or circumstances, past or present, that I should disclose because they might be of such a nature as to call into question my independence in the eyes of any of the Parties and no circumstances that could give rise to reasonable doubts as to my impartiality.

Initial: _____

- (ii) **Acceptance with disclosure:** I am impartial and independent and intend to remain so. However, mindful of my obligation to disclose any facts or circumstances which might be of such a nature as to call into question my independence in the eyes of any of the Parties or that could give rise to reasonable doubts as to my impartiality, I draw attention to the matters below and/or on the attached sheet.

I confirm that the matters disclosed above represent full and complete disclosure with respect to any facts or circumstances which might be of such a nature as to call into question my independence in the eyes of any of the Parties or that could give rise to reasonable doubts as to my impartiality.

Initial: _____

- (b) I shall make best efforts to maintain the independence and impartiality necessary to discharge the duties of a CIDB Member throughout the entire duration of the CIDB's anticipated activities, but shall immediately disclose in writing to the Parties and the other CIDB Members any facts or circumstances concerning my impartiality or independence which may arise in the course of my tenure as a CIDB Member.

Initial: _____

- (c) In accordance with the Interface Agreement, I understand that the Parties may exercise their right to challenge me on the basis of an alleged lack of impartiality, independence or qualifications. In the event that I do not withdraw and the other Parties do not agree to the challenge, I understand that the challenge shall be determined in accordance with the Interface Agreement.

Initial: _____

- (d) In the event that I am successfully challenged, I understand that I will be removed from the CIDB forthwith and that my CIDB Member Agreement shall be terminated.

Initial: _____

1.6 Delivery

- (a) This Statement may be delivered by sending a fully executed copy by electronic mail or other electronic transmission to the Parties, and such delivery shall be as effective as the manual delivery of this executed Statement.

ATTACHMENT 2 TO APPENDIX A

FORM OF CIDB MEMBER AGREEMENT

This CIDB Member Agreement (this “**Agreement**”) is entered into among:

- (a) **CIDB Member:** [●] [*Note: Full name and title (sole Member, CIDB Technical Member (the “CIDB Member”)*);
 - (b) **Party 1:** METROLINX (“**Contracting Authority**”);
 - (c) **Party 2:** CONNECT 6IX GENERAL PARTNERSHIP (“**RSSOM Project Co**”); and
 - (d) **Party 3:** [REDACTED] (“**South Civil Project Co**”),
- (collectively, the “**Undersigned Parties**”).

WHEREAS:

- A. The Undersigned Parties have entered into an agreement dated November 15, 2022 (the “**Interface Agreement**”) for the Ontario Line Subway (the “**Project**”);
- B. The Interface Agreement provides for the appointment of a Combined Integration Dispute Board (the “**CIDB**”), and that the CIDB shall, *inter alia*, issue decisions under the Interface Agreement, and perform other tasks in accordance with the Interface Agreement (the “**CIDB Services**”);
- C. Certain Integration Disputes may be referred to the CIDB for determination in accordance with the Interface Agreement; and
- D. The undersigned individual has been appointed to serve on the CIDB as a CIDB Member

The CIDB Member and the Parties therefore agree as follows:

1.1 Definitions and Interpretation

- (a) This Agreement shall be interpreted in accordance with the Interface Agreement and defined terms shall have the same meaning as in the Interface Agreement, unless otherwise specified here.
- (b) If there is any conflict between this Agreement and the Interface Agreement, this Agreement will take precedence to the extent of the conflict.

1.2 Undertaking

- (a) The CIDB Member shall act as [**a CIDB Technical Member/the CIDB Chair**] and hereby agrees to perform the duties of a CIDB Member and provide the CIDB Services in accordance with the terms of the Interface Agreement and the terms of this Agreement.
- (b) The CIDB Member confirms that he or she is and shall remain impartial and independent of the Parties.

- (c) The CIDB Member further confirms that he or she has executed and will comply with the terms of the CIDB Member Statement.

1.3 Composition of the CIDB and Contact Details

- (a) Subject to Section 3 of the Integration Dispute Resolution Procedure under the Interface Agreement, the CIDB shall be composed of three independent and impartial CIDB Members.

- (b) The CIDB Member can be contacted as follows: CIDB Member: *[Note: Include name, address, telephone, email and any other contact details.]*

- (c) The CIDB Chair is listed below and can be contacted as follows: CIDB Chair: *[Note: Include name, address, telephone, email and any other contact details.]*

- (d) The **[other CIDB Technical Member]** is listed below and can be contacted as follows: CIDB Technical Member: *[Note: Include name, address, telephone, email and any other contact details.]*

- (e) The Parties to the Interface Agreement are those indicated above with the following contact details:

- (i) Party 1:

Metrolinx
2 Queen Street East, 11th Floor
Toronto, Ontario
M5C 3G7

Attn.: **[REDACTED]**
Email: **[REDACTED]**

- (ii) Party 2:

Email: [REDACTED]

(iii) Party 3:

[REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

with a copy to:

[REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

(f) Any changes in these contact details shall be immediately communicated to all other Undersigned Parties.

1.4 Qualifications

(a) The Parties recognise that the CIDB Member is a [●], in accordance with Section 3.1(c) of the Integration Dispute Resolution Procedure under the Interface Agreement.

(b) The Parties recognise that the CIDB Member is independent, impartial and skilled in resolving and deciding disputes of a type, complexity and value commensurate with the Integration Dispute(s) likely to be referred to the CIDB, in accordance with Section 3.1(d) of the Integration Dispute Resolution Procedure under the Interface Agreement.

1.5 Fees and Disbursements

(a) In consideration of the CIDB Member performing the CIDB activities in accordance with this Agreement and the Interface Agreement, the CIDB Member shall be entitled to be paid the initial fee (the “**Initial Fee**”) and the ad-hoc hourly fee (the “**Ad-hoc Hourly Fee**”) described in this Section 1.5.

(b) The Initial Fee shall be a lump sum amount equal to CAD \$[REDACTED] and shall be reflected in the first invoice of the CIDB Member provided pursuant to Section 1.6(a).

- (c) The CIDB Member's Initial Fee shall cover:
- (i) reviewing and becoming and remaining familiar with the RSSOM Project Agreement and the South Civil Project Agreement, including without limitation, the Output Specifications, Schedule 42 – South Civil Infrastructure Access and Handover of the RSSOM Project Agreement, and Schedule 45 – Integration with the RSSOM Project of the South Civil Project Agreement;
 - (ii) reviewing any relevant amendments to the RSSOM Project Agreement, the South Civil Project Agreement and Variation Confirmations;
 - (iii) reviewing correspondence from the Parties, and other documents which the CIDB is required to review;
 - (iv) reviewing specific documents which the CIDB requests for its review;
 - (v) attending internal CIDB meetings;
 - (vi) attending meetings and/or any site visits in which the CIDB is required to participate;
 - (vii) providing informal assistance with Integration Disputes or potential Integration Disputes;
 - (viii) managing and coordinating the operation of the CIDB; and
 - (ix) any overhead and office expenses.
- (d) The CIDB Member's Ad-hoc Hourly Fee shall be **[CAD \$[●] per hour]**, and shall be billed in hourly increments for certain work performed. The Ad-hoc Hourly Fee shall cover:
- (i) preparation for and attendance at ad-hoc meetings/site visits with the Parties; and
 - (ii) any work carried out in connection with referrals for a CIDB decision, including preparation, attendance at hearings, review of the Parties' submissions, delivery of the CIDB decision, and revisions to same.
- (e) Any non-productive ad-hoc travel shall be reimbursed at half the hourly rate of the CIDB Member's Ad-hoc Hourly Fee.
- (f) Reasonable CIDB Member expenses and disbursements relating to (i) flights (at economy class rates), (ii) hotel (to a maximum of CAD \$[REDACTED] per night), and (iii) the cost of retaining any experts shall be reimbursed at cost, with the prior approval of the Parties. All other costs and disbursements are and shall be deemed to be included in the Initial Fee and the Ad-hoc Hourly Fee. The CIDB Member shall retain all receipts and proof of payment of claimed disbursements and expenses, and shall provide them to the Parties or any Party upon request. The Parties shall have no obligation to reimburse the CIDB Member if the CIDB Member fails to produce receipts and proof of payment upon request.

1.6 Payment of Fees and Expenses

- (a) Unless otherwise agreed by the Parties and the CIDB Member in writing, all fees, expenses and disbursements payable under this Agreement shall be invoiced by the CIDB Member to the Parties on a monthly basis, which invoice shall reflect the performance of the CIDB activities performed in the previous month and be in form and substance reasonably satisfactory to the Parties.
- (b) RSSOM Project Co, South Civil Project Co and Contracting Authority shall each pay one third of such fees, expenses and disbursements to the CIDB Member, with the exception of the Initial Fee, which shall be split (i) [REDACTED]% by Contracting Authority and (ii) [REDACTED]% by each of RSSOM Project Co and South Civil Project Co. While each Party is responsible for paying its portion of the CIDB Member's fees, expenses and disbursements, this obligation is several and not joint. If one Party fails to make payment, the other Parties may make payment of the amounts owed by the non-paying Party and recover the costs of doing so from the non-paying Party, but has no obligation to do so.
- (c) All payments to the CIDB Member shall be made to the following account: **[name of bank, account number, SWIFT code, etc.]**.
- (d) All payments to the CIDB Member under this Agreement shall be payable by the Parties monthly in arrears, and by no later than the date that is thirty (30) days of the receipt by the Parties of an invoice provided by the CIDB Member in accordance with this Agreement.
- (e) Intentionally deleted.

1.7 Duration and Termination of this Agreement

- (a) Subject to Section 3 of the Integration Dispute Resolution Procedure under the Interface Agreement, the CIDB Member agrees to serve for the duration of the CIDB to the extent reasonably possible.
- (b) The Parties may at any time, without cause and with immediate effect, jointly terminate this Agreement.
- (c) The CIDB Member may terminate this Agreement at any time by giving a minimum of three months' written notice to the Parties, unless otherwise agreed by the Parties and the CIDB Member in writing.
- (d) If the CIDB Member is successfully challenged in accordance with Section 4.3 of Appendix A to the CIDB Member Agreement, the CIDB Member shall be removed forthwith from the CIDB and this Agreement shall be terminated.
- (e) The CIDB Member shall be entitled to claim payment for work performed to the date of termination of this Agreement in accordance with this Agreement, but shall not be entitled to claim any further payment.

1.8 Indemnity

- (a) The Parties shall jointly and severally indemnify and hold harmless the CIDB Member from any claims of third parties for anything done or omitted to be done in the discharge of the CIDB Member's activities under this Agreement.
- (b) The indemnity provided in Section 1.8(a) shall not extend to:
 - (i) any act or omission of the CIDB Member that is shown to have been in bad faith;
 - (ii) any breach of this Agreement by the CIDB Member,
 - (iii) any negligent or unlawful act or omission or willful misconduct of the CIDB Member;
 - (iv) any action taken by the CIDB Member outside the scope of authority set forth in this Agreement; or
 - (v) any debt, cost, expense, claim or demand for which insurance proceeds are recoverable by the CIDB Member.
- (c) The indemnity provided in Section 1.8(a) shall survive the termination of this Agreement.

1.9 Confidentiality

- (a) The CIDB Member and all of the member's affiliates, employees, servants and agents shall keep all information about the Project, the CIDB Member's involvement on the Project, any CIDB Services performed by the CIDB, and any Integration Dispute(s) referred for a CIDB decision strictly confidential and shall not disclose such information to anyone other than the Parties.
- (b) The CIDB Member shall treat as confidential any information, data, statements, submissions, admissions, settlement proposals, recommendations, discussions, opinions, or any other documents within the meaning of the *Rules of Civil Procedure*, other than documents which would otherwise be admissible pursuant to the *Rules of Civil Procedure*, which were obtained, exchanged or delivered on a without prejudice basis or through the CIDB decision process by any other Party or the CIDB or any CIDB Member, except as set out in Section 7(a)(ii) of the Integration Dispute Resolution Procedure under the Interface Agreement.
- (c) Material delivered by a Party in connection with a CIDB decision shall not be disclosed to any person or used, copied, supplied or reproduced for any other purpose other than for the performance of the CIDB Services, and all such material shall remain the property of the Party disclosing or delivering same.
- (d) The CIDB Member shall be bound by and shall comply with the confidentiality and communication provisions set out in Section 52 (*Confidentiality/Communications*) of the RSSOM Project Agreement and Section 40 (*Confidentiality*) of the South Civil Project Agreement.
- (e) The Parties may at any time require the CIDB Member to give and to arrange for its officers, directors, members, employees, servants and agents engaged in the performance of the CIDB Services to give written undertakings, in the form of confidentiality agreements on terms required

by the Parties, relating to the non disclosure of confidential information, in which case the CIDB Member must promptly arrange for such agreements to be made.

1.10 Disputes and Applicable Law

- (a) All disputes arising out of this Agreement which are not subject to resolution pursuant to Section 5(b) of the Integration Dispute Resolution Procedure under the Interface Agreement shall be finally settled by arbitration by one arbitrator agreed by the Undersigned Parties in writing or appointed in accordance with the *Arbitration Act, 1991*. This Agreement shall be governed by the laws of Ontario, without regard to conflict of laws provisions. The place of arbitration shall be Toronto, Ontario. The language of the arbitration shall be English.

1.11 Counterparts

- (a) This Agreement may be executed in one or more counterparts. Any single counterpart or a set of counterparts executed, in either case, by all the parties shall constitute a full, original and binding agreement for all purposes. Delivery of an executed counterpart by sending a copy by electronic mail or other electronic transmission shall be as effective as the manual delivery of an executed counterpart.

THIS AGREEMENT is made as of the [●] day of [●], 20[●]

BETWEEN:

METROLINX, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency in accordance with the *Crown Agency Act, R.S.O. 1990, c. 48*

(“**Contracting Authority**”)

AND:

CONNECT 6IX GENERAL PARTNERSHIP, [REDACTED]

(“**RSSOM Project Co**”)

AND:

[●], a corporation incorporated under the laws of Ontario]

(“**North Civil Project Co**”)

WHEREAS:

- A. RSSOM Project Co has on or about November 15, 2022 entered into an agreement (the “**RSSOM Project Agreement**”) with Contracting Authority to design, construct, finance, supply, operate, maintain and rehabilitate the Ontario Line Subway, to design, construct and finance the New Third Party Infrastructure, and to carry out the RSSOM Project Operations (all as defined in the RSSOM Project Agreement);
- B. North Civil Project Co has on or about [●] entered into an agreement (the “**North Civil Project Agreement**”) with Contracting Authority to design, construct and finance a tunnel for the underground portion of the northern alignment between Gerrard Station and Science Centre Station, and to design, construct and finance Leslieville Station, and for other associated structures required for the new subway line in Toronto, Ontario, and to carry out the North Civil Works (all as defined in the North Civil Project Agreement); and
- C. RSSOM Project Co and North Civil Project Co have agreed to (a) establish and participate in an Integration Committee (as defined herein) with a view to coordinating the integration of the conduct of certain of their activities so as to meet their respective obligations under the RSSOM Project Agreement and the North Civil Project Agreement; (b) establish and participate in a Design Integration Working Group for the integration of the design of the RSSOM Project and the North Civil Project; and (c) resolve Integration Disputes (as defined herein) in accordance with the Integration Dispute Resolution Procedure (as defined herein), all in accordance with the terms of this agreement (the “**Agreement**”).

In consideration of the mutual promises and covenants contained in this Agreement, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged by the Parties, the Parties hereby agree as follows:

**ARTICLE 1
DEFINITIONS AND INTERPRETATION**

1.1 Definitions

In this Agreement, including the recitals and appendices, unless the context indicates a contrary intention, the following terms shall have the following meanings,

“**Business Day**” means any day other than a Saturday, a Sunday, a statutory holiday in the Province of Ontario or any day on which banks are not open for business in the City of Toronto, Ontario.

“**Construction Integration Working Group**” has the meaning given in Section 5.1.

“**Contracting Authority**” has the meaning given in the preamble.

“**Contracting Authority Party**” has the meaning given to such term in either Project Agreement.

“**Crown**” means His Majesty the King in right of Ontario.

“**Design Integration Working Group**” has the meaning given in Section 4.1.

“**Dispute**” means all disagreements, disputes, or controversies arising during or following the Project Term in relation to or arising out of the interpretation, enforceability, performance, breach, or validity of the RSSOM Project Agreement or the North Civil Project Agreement, as applicable, or any provision of such Project Agreement, the rights or obligations of the Parties under such Project Agreement, or the exercise of failure to exercise a discretion or power given to a Party under such Project Agreement, but shall not include an Adjudication Dispute or any matter in respect of which the Independent Certifier is entitled or required to make a final and binding determination under either the RSSOM Project Agreement or the North Civil Project Agreement as applicable.

“**DIWG Draft Submittals**” means DIWG Review North Civil Integration Works Submittals or DIWG Review RSSOM Integration Works Submittals, as applicable.

“**DIWG Review North Civil Integration Works Submittals**” has the meaning given in Section 4.4(b).

“**DIWG Review RSSOM Integration Works Submittals**” has the meaning given in Section 4.4(b).

“**Governmental Authority**” has the meaning given to such term in either Project Agreement.

“**Initial Integration Improvement Workshop Notice**” has the meaning given in Section 3.6(c).

“**Integration Committee**” has the meaning given to such term in Section 3.1.

“**Integration Dispute**” means a Dispute for which a Notice designating such Dispute as an Integration Dispute has been given by Contracting Authority pursuant to the Integration Dispute Resolution Procedure.

“**Integration Dispute Resolution Procedure**” means the procedure for final resolution of all Integration Disputes as set out in Appendix A hereto.

“**Integration Improvement Goals**” has the meaning given in Section 3.6(a).

“**Integration Improvement Opportunities**” has the meaning given in Section 3.6(f).

“**Integration Improvement Process**” has the meaning given in Section 3.6(a).

“**Integration Improvement Workshop Participants**” has the meaning given in Section 3.6(e).

“**Integration Improvement Workshops**” has the meaning given in Section 3.6(c).

“**Management Board of Cabinet**” has the meaning set out in the *Management Board of Cabinet Act (Ontario), R.S.O., 1990, c. M.1.*

“**North Civil Commercial Close**” has the meaning given to the term “Commercial Close” in the North Civil Project Agreement.

“**North Civil Contracting Authority Representative**” has the meaning given to the term “Contracting Authority Representative” in the North Civil Project Agreement.

“**North Civil Construction Manager**” means the lead “Construction Manager” identified in Schedule 9 – Key Individuals to the North Civil Project Agreement.

“**North Civil Design Manager**” means the “Design Manager” identified in Schedule 9 – Key Individuals to the North Civil Project Agreement.

“**North Civil Final Completion Date**” has the meaning given to the term “Final Completion Date” in the North Civil Project Agreement.

“**North Civil Financial Close**” has the meaning given to the term “Financial Close” in the North Civil Project Agreement.

“**North Civil Independent Certifier**” has the meaning given to the term “Independent Certifier” in the North Civil Project Agreement.

“**North Civil Infrastructure**” means the Project Co Infrastructure as defined in the North Civil Project Agreement.

“**North Civil Integration Works Submittals**” has the meaning given to the term “North Civil Infrastructure Works Submittals” in Schedule 10 – Review Procedure of the RSSOM Project Agreement.

“**North Civil Project**” has the meaning given to the term “Project” in the North Civil Project Agreement.

“**North Civil Project Agreement**” has the meaning in Recital B.

“**North Civil Project Co**” has the meaning given in the preamble.

“**North Civil Project Co Parties**” has the meaning given to the term “Project Co Parties” in the North Civil Project Agreement.

“**North Civil Project Co Representative**” means the person designated as such by North Civil Project Co on or prior to Commercial Close and any permitted replacement.

“**North Civil Project Co Termination Date**” means “Termination Date” as defined in the North Civil Project Agreement.

“**North Civil System Integration Manager**” means the “System Integration Manager” identified in Schedule 9 – Key Individuals to the North Civil Project Agreement.

“**North Civil Works Committee**” has the meaning given to the term “Works Committee” in the North Civil Project Agreement.

“**OL Project Cos**” means, collectively, RSSOM Project Co and North Civil Project Co, and “**OL Project Co**” means either one of them.

“**Parties**” means each of Contracting Authority, RSSOM Project Co and North Civil Project Co and “**Party**” means any one of them without specificity.

“**Project Agreements**” means, collectively, the RSSOM Project Agreement and the North Civil Project Agreement, and “**Project Agreement**” means either one of them.

“**Proposed Integration Improvements List**” has the meaning given in Section 3.6(g).

“**Province Person**” has the meaning set out in either Project Agreement.

“**RSSOM Commercial Close**” has the meaning given to the term “Commercial Close” in the RSSOM Project Agreement.

“**RSSOM Contracting Authority Representative**” has the meaning given to the term “Contracting Authority Representative” in the RSSOM Project Agreement.

“**RSSOM Construction Manager**” means the lead “Construction Manager” identified in Schedule 9 – Key Individuals to the RSSOM Project Agreement.

“**RSSOM Design Manager**” means the “Design Manager” identified in Schedule 9 – Key Individuals to the RSSOM Project Agreement.

“**RSSOM Financial Close**” has the meaning given to the term “Financial Close” in the RSSOM Project Agreement.

“**RSSOM Independent Certifier**” has the meaning given to the term “Independent Certifier” in the RSSOM Project Agreement.

“**RSSOM Integration Works Submittals**” has the meaning given to the term “RSSOM Infrastructure Works Submittals” in Schedule 10 – Review Procedure of the North Civil Project Agreement.

“**RSSOM Operations Director**” means the “Operations Director” identified in Schedule 9 – Key Individuals to the RSSOM Project Agreement.

“**RSSOM Project**” has the meaning given to the term “Project” in the RSSOM Project Agreement.

“**RSSOM Project Agreement**” has the meaning in Recital A.

“**RSSOM Project Co**” has the meaning given in the preamble.

“**RSSOM Project Co Parties**” has the meaning given to the term “Project Co Parties” in the RSSOM Project Agreement.

“**RSSOM Project Co Representative**” means the person designated as such by RSSOM Project Co on or prior to Commercial Close and any permitted replacement.

“**RSSOM Project Co Termination Date**” means “Termination Date” as defined in the RSSOM Project Agreement.

“**RSSOM System Integration Manager**” means the “System Integration Manager” identified in Schedule 9 – Key Individuals to the RSSOM Project Agreement.

“**RSSOM Works Committee**” has the meaning given to the term “Works Committee” in the RSSOM Project Agreement.

1.2 In Writing

Unless otherwise expressly provided, any notice, certificate, consent, approval, determination, agreement or waiver which is required to be issued, made or given in terms of this Agreement shall be required to be issued, made or given in writing in accordance with Section 8.5 hereof.

1.3 Interaction Between Project Agreements and this Agreement

- (a) To the extent of any inconsistency or conflict between the provisions of this Agreement and the provisions of either Project Agreement, the provisions of the applicable Project Agreement shall prevail as between the parties thereto, provided that, with respect to the resolution of an Integration Dispute the provisions of this Agreement shall prevail.
- (b) Except to the extent expressly provided in this Agreement, nothing in this Agreement shall affect, modify, reduce or limit in any way or manner whatsoever the rights or the obligations of any OL Project Co with respect to Contracting Authority under its respective Project Agreement, provided that, in all cases, there shall be no duplication of any claims made or amounts paid or payable by any party to this Agreement to any other party to this Agreement, whether under this Agreement, the RSSOM Project Agreement or the North Civil Project Agreement.
- (c) Except to the extent expressly provided for by the Parties in this Agreement, nothing in this Agreement shall affect, modify, reduce or limit in any manner whatsoever the rights or obligations of Contracting Authority with respect to any OL Project Co under the respective Project Agreements.

1.4 Joint and Several Liability

[REDACTED]

ARTICLE 2 GENERAL OBLIGATIONS

2.1 Purpose and Intent

The Parties acknowledge and agree that, for the RSSOM Project and the North Civil Project to be successful, it is necessary that the Parties work together cooperatively to address any integration issues arising in connection therewith. The Parties have therefore agreed to enter into this Agreement in order to commit to establish, and take part in, the Integration Committee, the Design Integration Working Group and the Construction Integration Working Group and agree to the Integration Dispute Resolution Procedure.

2.2 No Liability

The Parties hereby agree as follows:

- (a) Contracting Authority and RSSOM Project Co shall not be responsible or liable (whether in contract, tort, breach of statutory duty or under any other theory of law) to any Party in respect of any act, omission or statement by North Civil Project Co or any North Civil Project Co Party;
- (b) Contracting Authority and North Civil Project Co shall not be responsible or liable (whether in contract, tort, breach of statutory duty or under any other theory of law) to any Party in respect of any act, omission or statement by RSSOM Project Co or any RSSOM Project Co Party; and
- (c) no knowledge (whether constructive or implied, but excluding, for greater certainty, any actual knowledge of a Party) shall be imputed to a Party solely as a result of it being a party to this Agreement, nor shall such knowledge be used or relied upon in any claim or action at law made or instituted by any other Party against such Party in connection with the RSSOM Project or the North Civil Project under or pursuant to the RSSOM Project Agreement or the North Civil Project Agreement respectively, whether by waiver or otherwise,

provided that nothing in this Section 2.2 shall affect the rights and liabilities of the Parties, as applicable, under the Project Agreements, which would otherwise have arisen under the relevant Project Agreement.

ARTICLE 3 INTEGRATION COMMITTEE

3.1 Establishment

- (a) The Parties shall, within thirty (30) days following the later to occur of North Civil Financial Close and RSSOM Financial Close, establish a committee (the “**Integration Committee**”) consisting of the following (and each Party shall identify its representatives by notice to the other Parties within such thirty (30) period
 - (i) six representatives appointed by Contracting Authority from time to time, one of whom will be the RSSOM Contracting Authority Representative and one of whom will be the North Civil Contracting Authority Representative (provided if the RSSOM Contracting Authority Representative and North Civil Contracting

Authority Representative are the same person, Contracting Authority shall appoint 5 additional representatives);

- (ii) on behalf of North Civil Project Co: the North Civil Project Co Representative, the North Civil Construction Manager, the North Civil System Integration Manager and the North Civil Design Manager; and
- (iii) on behalf of RSSOM Project Co: the RSSOM Project Co Representative, the RSSOM Construction Manager, the RSSOM System Integration Manager and RSSOM Design Manager,

provided that the representatives that shall attend any Integration Improvement Workshops contemplated in Section 3.6 shall be the Integration Improvement Workshop Participants contemplated in Section 3.6(e).

- (b) A representative of each of the North Civil Independent Certifier and the RSSOM Independent Certifier shall be required to attend meetings as non-voting members of the Integration Committee. Members of the Integration Committee may invite, on prior Notice to all members, (i) such advisors and consultants as they require from time to time to attend meetings and to provide briefings to the Integration Committee, or (ii) representatives of South Civil Project Co to participate in meetings of the Integration Committee (including any Integration Improvement Workshops) on a non-voting basis to discuss matters relating to the integration of design of the Ontario Line Subway.
- (c) The RSSOM Contracting Authority Representative shall be the chairperson at all meetings of the Integration Committee, provided that any Integration Improvement Workshops shall be chaired by a representative of Contracting Authority identified in the applicable notice delivered by Contracting Authority pursuant to Section 3.6(c) or Section 3.6(e), as applicable.

3.2 Function and Role

- (a) The Integration Committee shall assist the Parties by promoting cooperative and effective communication with respect to matters related to integration and handover of the North Civil Infrastructure and all matters contemplated in Schedule 43 – North Civil Infrastructure Access and Handover of the RSSOM Project Agreement, and Schedule 45 – Integration with the RSSOM Project of the North Civil Project Agreement. The Integration Committee shall interface with the North Civil Works Committee, the RSSOM Works Committee and the System Management Committee (as defined in the RSSOM Project Agreement) as and when required. In addition to the foregoing, the Integration Committee shall engage in the Integration Improvement Process set out in Section 3.6.
- (b) The Integration Committee shall be responsible for receiving and reviewing all matters related to integration of the North Civil Infrastructure with the RSSOM Project, including:
 - (i) discuss and resolve any matters or issues that arise under Schedule 43 – North Civil Infrastructure Access and Handover of the RSSOM Project Agreement or Schedule 45 – Integration with the RSSOM Project of the North Civil Project Agreement,

- (ii) discuss and resolve any matters referred to the Integration Committee for consideration by the Design Integration Working Group or the Construction Integration Working Group, and
 - (iii) any special matters referred to the Integration Committee by Contracting Authority or either OL Project Co, including any Integration Improvement Opportunities identified by Contracting Authority as contemplated in Section 3.6(h).
- (c) Subject to Sections 3.2(d) and 3.6(i), any unanimous decision of the Integration Committee shall be final and binding on the Parties. If the Integration Committee is unable to reach a unanimous decision, any Party may refer the matter for resolution in accordance with Article 7 (Integration Dispute Resolution Procedure).
- (d) The Integration Committee shall not have authority to make decisions with respect to or approve (but may discuss and make recommendations to the applicable Parties in respect of):
- (i) any amendment to or waiver of any provision of this Agreement;
 - (ii) any amendment to or waiver of any obligations or requirements set out in the RSSOM Project Agreement or the North Civil Project Agreement); and
 - (iii) any Variation (as defined in the RSSOM Project Agreement) or any Variation (as defined in the North Civil Project Agreement).

3.3 Term of Integration Committee

Unless otherwise agreed by the Parties, the Integration Committee shall operate only until the North Civil Final Completion Date.

3.4 Replacement of Committee Members

Contracting Authority shall be entitled to replace any of its representatives on the Integration Committee by written Notice to the OL Project Cos. Contracting Authority will use commercially reasonable efforts to deliver prior written Notice of any such replacement to the OL Project Cos. The OL Project Cos may replace any of their representatives on the Integration Committee with the prior written consent of Contracting Authority.

3.5 Procedures and Practices

- (a) The members of the Integration Committee may:
- (i) adopt such procedures and practices for the conduct of the activities of the Integration Committee as they consider appropriate from time to time;
 - (ii) invite to any meeting of the Integration Committee such other persons as the members of the Integration Committee may agree;
 - (iii) exclude from any meeting of the Integration Committee such persons as the members of the Integration Committee may agree; and

- (iv) receive and review reports from any person or organization agreed to by the members of the Integration Committee.
- (b) Once established, the Integration Committee shall meet at least once each month from the later of RSSOM Financial Close or North Civil Financial Close, as applicable, until the North Civil Final Completion Date, unless otherwise agreed by the members of the Integration Committee or the Parties. Members of the Integration Committee shall, by notice to the other members of the Integration Committee to be delivered no later than five (5) Business Days prior to the date of a meeting of the Integration Committee scheduled pursuant to this Section 3.5(b), propose agenda items for discussion at such meeting, or confirm that such member has no agenda items to include for discussion at such meeting.
- (c) Any one of the RSSOM Project Co Representative, the North Civil Project Co Representative, the RSSOM Contracting Authority Representative or the North Civil Contracting Authority Representative may convene a special meeting of the Integration Committee at any time. Special meetings of the Integration Committee may be convened on not less than five (5) Business Days' Notice to all members of the Integration Committee identifying the agenda items to be discussed at the special meeting.
- (d) Unless otherwise agreed by the members of the Integration Committee, the Integration Committee shall meet in the City of Toronto. Meetings of the Integration Committee may be held by means of such telephonic, electronic or other communication facilities as permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously. A person participating in a meeting by such means will be deemed to be present at such meeting.
- (e) Four representatives of Contracting Authority (one of whom shall be the RSSOM Contracting Authority Representative and one of whom shall be the North Civil Contracting Authority Representative (and if they are the same person, 3 additional Contracting Authority Representatives shall be required) and two representatives of each of the OL Project Cos shall constitute a quorum at any meeting of the Integration Committee. A quorum of members may exercise all the powers of the Integration Committee. The members shall not transact business at a meeting of the Integration Committee unless a quorum is present.
- (f) Minutes of all meetings, recommendations and decisions of the Integration Committee, including those made by telephone or other form of communication, shall be recorded and maintained by RSSOM Project Co. RSSOM Project Co shall circulate copies of such minutes within five (5) Business Days of the holding of the meeting or the making of the recommendation or decision. Unless Contracting Authority or North Civil Project Co notifies the other Parties within five (5) Business Days of receipt of the minutes that such Party disagrees with the contents of the minutes, Contracting Authority and the OL Project Cos shall be deemed to have approved such minutes. RSSOM Project Co shall maintain a complete set of all minutes of the meetings of the Integration Committee and shall make such minutes available for inspection by the other Parties hereto during regular business hours.

3.6 Integration Improvement Process

- (a) The Parties shall participate, in accordance with this Section 3.6, in a process (the “**Integration Improvement Process**”) whose purpose shall be to create meaningful dialogue among the Parties with a view to identifying opportunities to improve, where possible, the integration of the Projects with a view to the successful delivery of the Ontario Line Subway System on schedule. Such improvements could relate to design, construction or scheduling aspects of either Project, and/or to changes to allocation of scope of Works (as defined in either Project Agreement) as between the Projects which, in each case, may reduce integration risk and improve certainty of delivery of the Projects and the Ontario Line Subway System (the “**Integration Improvement Goals**”).
- (b) The Parties shall engage in the Integration Improvement Process in a collaborative good faith manner pursuant to this Section 3.6 as part of the work of the Integration Committee.
- (c) The Integration Improvement Process shall take place pursuant to workshops (the “**Integration Improvement Workshops**”) each of which shall take place for at least three (3) days (or such other duration as the Integration Improvement Workshop Participants shall determine in respect of the applicable Integration Improvement Workshop). Contracting Authority shall, no later than five (5) Business Days after the date that the Integration Committee is established pursuant to Section 3.1(a), confirm by Notice (the “**Initial Integration Improvement Workshop Notice**”) to the other Parties the date on which the first Integration Improvement Workshop shall take place, which date shall be no later than ten (10) Business Days after the date of the Initial Integration Improvement Workshop Notice. Contracting Authority shall identify in the Initial Integration Improvement Workshop Notice, in respect of the initial Integration Improvement Notice, (i) the Contracting Authority’s Integration Improvement Workshop Participants, (ii) the Contracting Authority’s Integration Improvement Workshop Participant that shall act as chairperson of the Integration Improvement Workshop and (iii) the list of Integration Improvement Opportunities to be discussed at such initial Integration Improvement Workshop (which may include any of the Integration Opportunities identified in the Parties’ response to the RFP in respect of either Project). Each OL Project Co shall, by Notice to the other Parties delivered no later than five (5) Business Days after the date of the Initial Integration Improvement Workshop Notice, identify such Party’s Integration Improvement Workshop Participants for such Integration Improvement Workshop.
- (d) Each subsequent Integration Improvement Workshop shall take place (i) during the period ending on the one (1) year anniversary of the date of the initial Integration Improvement Workshop, on a quarterly basis, with each subsequent Integration Improvement Workshop taking place on the date that is the three (3) month anniversary of the preceding Integration Improvement Workshop (or if such day is not a Business Day, on the next following Business Day), and (ii) at all times thereafter during the term of this Agreement, at such times and in such frequency as the Integration Improvement Workshop Participants shall agree from time to time at the most recent Integration Improvement Workshop. The Integration Improvement Workshops shall be in addition to all other meetings of the Integration Committee.
- (e) The participants at each Integration Improvement Workshop (for each Integration Improvement Workshop, the “**Integration Improvement Workshop Participants**”) shall be such members of the Integration Committee, Design Integration Working Group or

Construction Integration Working Group, such other representatives (including members of executive leadership and Project teams) of each Party, or the RSSOM Independent Certifier and/or North Civil Independent Certifier, as each Party shall identify with a view to ensuring that the Integration Improvement Workshop Participants are able to engage in the Integration Improvement Process in a meaningful manner as contemplated in Section 3.6(a) and contribute to the evaluation of, and proposal of, Integration Improvement Opportunities.

- (f) Each OL Project Co shall by Notice to Contracting Authority delivered no later than fifteen (15) Business Days prior to each Integration Improvement Workshop (other than the initial Integration Improvement Workshop) identify in respect of such Integration Improvement Workshop (i) its Integration Improvement Workshop Participants and (ii) the proposed changes to the Projects which would, in its opinion, likely advance the Integration Improvement Goals (“**Integration Improvement Opportunities**”), and which such Party proposes for discussion at the Integration Improvement Workshop.
- (g) Contracting Authority shall, by Notice to the other Parties delivered no later than five (5) Business Days prior to each Integration Improvement Workshop (other than the initial Integration Improvement Workshop) identify in respect of such Integration Improvement Workshop (i) its Integration Improvement Workshop Participants, (ii) its Integration Improvement Workshop Participant that shall act as chairperson and (iii) a list of all Integration Improvement Opportunities to be discussed at the Integration Improvement Workshop (the “**Proposed Integration Improvements List**”). For clarity, Contracting Authority shall include in the Proposed Integration Improvements List such Integration Improvement Opportunities as it shall determine, in its sole discretion and shall not be obligated to include therein all Integration Improvement Opportunities identified by the OL Project Cos in their Notices delivered pursuant to Section 3.6(f).
- (h) Contracting Authority may, in its sole discretion, propose for discussion at an Integration Committee meeting any Integration Improvement Opportunities (whether identified in the Proposed Integration Improvements List or not and whether proposed by the OL Project Cos or not).
- (i) The Parties acknowledge that any amendments to the Project Agreements that are required to give effect to any Integration Improvement Opportunities (whether identified in the Proposed Integration Improvements List or not) shall require a Variation and the Contracting Authority shall determine, in its sole discretion, whether to implement any Integration Improvement Opportunity by way of a Variation. For clarity, notwithstanding any agreement or disagreement by the Parties at a meeting of the Integration Committee or otherwise (including any Integration Improvement Workshop) with respect to the merit of, or the need for, an Integration Improvement Opportunity, the implementation of any Variation to give effect thereto shall remain at the sole discretion of Contracting Authority.
- (j) The terms of Sections 3.5(b)-(f) shall not apply in respect of any meetings of the Integration Committee that are Integration Improvement Workshops.

ARTICLE 4
DESIGN INTEGRATION WORKING GROUP

4.1 Establishment

- (a) The Parties shall, within thirty (30) days following the later to occur of North Civil Financial Close and RSSOM Financial Close, establish a working group which shall be responsible for all matters relating to the integration of the design of the North Civil Project and the RSSOM Project (the “**Design Integration Working Group**”).
- (b) The Design Integration Working Group shall include the following permanent members (and each Party shall identify its representatives (other than the RSSOM Operations Director) by notice to the other Parties within thirty (30) days following the later to occur of North Civil Financial Close and RSSOM Financial Close and RSSOM Project Co shall identify the RSSOM Operations Director by notice to the other Parties within ten (10) days after the date on which it is required to be appointed pursuant to the terms of the RSSOM Project Agreement):
 - (i) North Civil Design Manager;
 - (ii) North Civil System Integration Manager;
 - (iii) RSSOM Design Manager;
 - (iv) RSSOM System Integration Manager;
 - (v) RSSOM Operations Director; and
 - (vi) Representative(s) of the Contracting Authority.
- (c) The RSSOM Design Manager shall chair the Design Integration Working Group.

4.2 Function and Role

The Design Integration Working Group shall be responsible for:

- (a) coordinating the integrated design of the RSSOM Project with the North Civil Project;
- (b) promoting collaboration between RSSOM Project Co’s designers and North Civil Project Co’s designers;
- (c) resolution of design interface issues relating to the RSSOM Project and North Civil Project;
- (d) oversight of the interface management process described in the Output Specifications (as defined in the North Civil Project Agreement) and the Output Specifications (as defined in the RSSOM Project Agreement);
- (e) monitoring of the interface matrix and interface register delivered by RSSOM Project Co pursuant to Schedule 15 to the RSSOM Project Agreement or by North Civil Project Co pursuant to Schedule 15 to the North Civil Project Agreement;

- (f) resolution of interface management issues relating to the RSSOM Project and the North Civil Project, and directing the completion of the Interface Control Documents as required pursuant to Schedule 10 – Review Procedure of each of the Project Agreements;
- (g) coordination of sharing of design data between RSSOM Project Co and North Civil Project Co as needed to deliver the RSSOM Project and North Civil Project;
- (h) review and coordination of RSSOM Integration Works Submittals and North Civil Integration Works Submittals as contemplated in Section 4.4; and
- (i) report progress to the Integration Committee and Construction Integration Working Group.

4.3 Term of Design Integration Working Group

Unless otherwise agreed by the Parties, the Design Integration Working Group shall operate only until the North Civil Final Completion Date.

4.4 DIWG Draft Submittals

- (a) Nothing in this Section 4.4 shall limit or modify the obligations of the Parties pursuant to Schedule 10 – Review Procedure of either the RSSOM Project Agreement or North Civil Project Agreement. All submittals made pursuant to Section 4.4 of this Agreement are intended to be informal interim draft submittals and shall not be reviewed in accordance with Schedule 10 – Review Procedure until such time as submittals are made pursuant to Schedule 10 – Review Procedure.
- (b) The Design Integration Working Group shall develop a schedule (which shall be consistent with the Interim Baseline Works Schedule or Baseline Works Schedule (each as defined under the North Civil Project Agreement, and as defined under the RSSOM Project Agreement), as then applicable) for the timing of development and submission, by (i) North Civil Project Co of interim drafts of all North Civil Integration Works Submittals (the “**DIWG Review North Civil Integration Works Submittals**”) and (ii) RSSOM Project Co of interim drafts of all RSSOM Integration Works Submittals (the “**DIWG Review RSSOM Integration Works Submittals**”) to the Design Integration Working Group for review, in each case, in advance of their submission pursuant to (and at the times required under) Schedule 10 – Review Procedure of the applicable Project Agreement (and delivery thereof by Contracting Authority to the other OL Project Co pursuant to Part C of Schedule 10 of the applicable Project Agreement). Such schedule shall be developed with a view to ensuring sufficient opportunity for the Design Integration Working Group to review and consider (1) each DIWG Review North Civil Integration Works Submittal and provide an opportunity to North Civil Project Co to revise it to reflect discussions at the Design Integration Working Group prior to its submission under Schedule 10 – Review Procedure of the North Civil Project Agreement and (2) each DIWG Review RSSOM Integration Works Submittal and provide an opportunity to RSSOM Project Co to revise it to reflect discussions at the Design Integration Working Group prior to its submission under Schedule 10 – Review Procedure of the RSSOM Project Agreement.
- (c) If the Design Integration Working Group fails to agree to and develop the schedule contemplated in Section 4.4(b) of this Agreement within thirty (30) days following the later to occur of North Civil Financial Close and RSSOM Financial Close, such schedule shall

be deemed to require delivery to the Design Integration Working Group of (i) each DIWG Review North Civil Integration Work Submittal that is Critical Data as defined under the North Civil Project Agreement no later than fifteen (15) Business Days prior to the applicable Critical Data Deadline as defined under the North Civil Project Agreement, (ii) each other DIWG Review North Civil Integration Work Submittal no later than fifteen (15) Business Days prior to the date on which it is required to be submitted under Schedule 10 – Review Procedure of the North Civil Project Agreement as required under the Interim Baseline Works Schedule or Baseline Works Schedule (each as defined under the North Civil Project Agreement), as then applicable, (iii) each DIWG Review RSSOM Integration Work Submittal that is Critical Data as defined under the RSSOM Project Agreement no later than fifteen (15) Business Days prior to the applicable Critical Data Deadline as defined under the RSSOM Project Agreement, (iv) each other DIWG Review RSSOM Integration Work Submittal no later than fifteen (15) Business Days prior to the date on which it is required to be submitted under Schedule 10 – Review Procedure of the RSSOM Project Agreement as required under the Interim Baseline Works Schedule or Baseline Works Schedule (each as defined under the RSSOM Project Agreement), as then applicable.

- (d) North Civil Project Co shall submit the DIWG Review North Civil Integration Works Submittals, and RSSOM Project Co shall submit the DIWG Review RSSOM Integration Works Submittals, in each case to the Design Integration Working Group, in accordance with the schedule developed pursuant to Section 4.4(b).
- (e) The Design Integration Working Group shall discuss and consider each DIWG Review North Civil Integration Works Submittal and each DIWG Review RSSOM Integration Works Submittal with a view to agreeing to any changes thereto.
- (f) Upon receipt of any DIWG Draft Submittal the Design Integration Working Group shall meet and consider such DIWG Draft Submittal in a reasonable and collaborative manner with a view to discussing and resolving any comments to such DIWG Draft Submittal made by any members of the Design Integration Working Group prior to submission of such DIWG Draft Submittal pursuant to Schedule 10 – Review Procedure.

4.5 Procedures and Practices.

- (a) The members of the Design Integration Working Group may:
 - (i) adopt such procedures and practices for the conduct of the activities of the Design Integration Working Group as they consider appropriate from time to time;
 - (ii) invite to any meeting of the Design Integration Working Group other parties to resolve specific interface matters, (including Early Works Contractors as defined in either the RSSOM Project Agreement or the North Civil Project Agreement) where such parties' involvement in the Ontario Line Subway may impact more than one of the Parties hereto, or such other persons as the other members of the Design Integration Working Group may agree;
 - (iii) exclude from any meeting of the Design Integration Working Group such persons as the members of the Design Integration Working Group may agree, acting reasonably; and

- (iv) receive and review reports from any person or organization agreed to by the members of the Design Integration Working Group.
- (b) Once established, the Design Integration Working Group shall meet at least once each week from the later of RSSOM Financial Close or North Civil Financial Close, as applicable, until the North Civil Final Completion Date, unless otherwise agreed by the members of the Design Integration Working Group or the Parties. The Design Integration Working Group shall establish the frequency of scheduled meetings of the Design Integration Working Group (and confirm whether it shall meet on a weekly basis or otherwise) at the first meeting thereof.
- (c) Members of the Design Integration Working Group shall, by notice to the other members thereof to be delivered no later than five (5) Business Days prior to the date of any meeting of the Design Integration Working Group scheduled pursuant to Section 4.5(b), propose agenda items for discussion at such meeting, or confirm that such member has no agenda items to include for discussion at such meeting.
- (d) Any member of the Design Integration Working Group may convene a special meeting of the Design Integration Working Group at any time. Special meetings of the Design Integration Working Group may be convened on not less than five (5) Business Days' Notice, or such other period of time as may be agreed to by the Design Integration Working Group, to all members of the Design Integration Working Group identifying the agenda items to be discussed at the special meeting.
- (e) Unless otherwise agreed by the members of the Design Integration Working Group, the Design Integration Working Group shall meet in the City of Toronto. Meetings of the Design Integration Working Group may be held by means of such telephonic, electronic or other communication facilities as to permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously. A person participating in a meeting by such means will be deemed to be present at such meeting.
- (f) One representative of Contracting Authority, one representative of RSSOM Project Co and one representative of North Civil Project Co shall constitute a quorum at any meeting of the Design Integration Working Group. A quorum of members may exercise all the powers of the Design Integration Working Group. The members shall not transact business at a meeting of the Design Integration Working Group unless a quorum is present. Decisions of the Design Integration Working Group shall be made by agreement of representatives of each of the Contracting Authority, RSSOM Project Co North Civil Project Co.
- (g) Minutes of all meetings, recommendations and decisions of the Design Integration Working Group, including those made by telephone or other form of communication, shall be recorded and maintained by RSSOM Project Co. RSSOM Project Co shall circulate copies of such minutes within five (5) Business Days of the holding of the meeting or the making of the recommendation or decision. Unless Contracting Authority or North Civil Project Co notifies the other Parties within five (5) Business Days of receipt of the minutes that such Party disagrees with the contents of the minutes, Contracting Authority and the OL Project Cos shall be deemed to have approved such minutes. RSSOM Project Co shall maintain a complete set of all minutes of the meetings of the Design Integration Working Group and shall make such minutes available for inspection by the other Parties hereto during regular business hours.

- (h) The Design Integration Working Group may refer any unresolved issues for consideration by the Integration Committee.

ARTICLE 5 CONSTRUCTION INTEGRATION WORKING GROUP

5.1 Establishment

- (a) The Parties shall, within thirty (30) days following the later to occur of North Civil Financial Close and RSSOM Financial Close, establish a working group which shall be responsible for all matters relating to the integration of the construction of the North Civil Project and the RSSOM Project (the “**Construction Integration Working Group**”);
- (b) The Construction Integration Working Group shall include the following permanent members (and each Party shall identify its representatives by notice to the other Parties within thirty (30) following the later to occur of North Civil Financial Close and RSSOM Financial Close):
 - (i) North Civil Construction Manager;
 - (ii) RSSOM Construction Manager; and
 - (iii) Representative(s) of the Contracting Authority.
- (c) The RSSOM Construction Manager shall chair the Construction Integration Working Group.

5.2 Function and Role

The Construction Integration Working Group shall be responsible for:

- (a) coordinating the integrated construction of the RSSOM Project and the North Civil Project;
- (b) promoting collaboration between RSSOM Project Co and North Civil Project Co with a focus on the access and handover process set out in Schedule 43 – North Civil Infrastructure Access and Handover of the RSSOM Project Agreement;
- (c) oversight of the interface management process described in the Output Specifications (as defined in the North Civil Project Agreement) and the Output Specifications (as defined in the RSSOM Project Agreement);
- (d) monitoring of the interface matrix and interface register delivered by RSSOM Project Co pursuant to Schedule 15 to the RSSOM Project Agreement or by North Civil Project Co pursuant to Schedule 15 to the North Civil Project Agreement;
- (e) coordinate RSSOM Integration Works Submittals and North Civil Integration Works Submittals relating to construction;
- (f) coordinate access by RSSOM Project Co to elevators prior to handover thereof by North Civil Project Co;

- (g) report progress to the Integration Committee and Design Integration Working Group; and
- (h) resolution of construction interface issues relating to the RSSOM Project and North Civil Project.

5.3 Term of Construction Integration Working Group

Unless otherwise agreed by the Parties, the Construction Integration Working Group shall operate only until the North Civil Final Completion Date.

5.4 Procedures and Practices

- (a) The members of the Construction Integration Working Group may:
 - (i) adopt such procedures and practices for the conduct of the activities of the Construction Integration Working Group as they consider appropriate from time to time;
 - (ii) invite to any meeting of the Construction Integration Working Group other parties to resolve specific interface matters, (including Early Works Contractors as defined in either the RSSOM Project Agreement or the North Civil Project Agreement) where such parties' involvement in the Ontario Line Subway may impact more than one of the Parties hereto, or such other persons as the other members of the Construction Integration Working Group may agree;
 - (iii) exclude from any meeting of the Construction Integration Working Group such persons as the members of the Construction Integration Working Group may agree, acting reasonably; and
 - (iv) receive and review reports from any person or organization agreed to by the members of the Construction Integration Working Group.
- (b) Once established, the Construction Integration Working Group shall meet at least once each week from the later of RSSOM Financial Close or North Civil Financial Close, as applicable, until the North Civil Final Completion Date, unless otherwise agreed by the members of the Construction Integration Working Group or the Parties. The Construction Integration Working Group shall establish the frequency of scheduled meetings of the Construction Integration Working Group (and confirm whether it shall meet on a weekly basis or otherwise) at the first meeting thereof.
- (c) Members of the Construction Integration Working Group shall, by notice to the other members thereof to be delivered no later than five (5) Business Days prior to the date of any meeting of the Construction Integration Working Group scheduled pursuant to Section 5.4(b), propose agenda items for discussion at such meeting, or confirm that such member has no agenda items to include for discussion at such meeting.
- (d) Any member of the Construction Integration Working Group may convene a special meeting of the Construction Integration Working Group at any time. Special meetings of the Construction Integration Working Group may be convened on not less than five (5) Business Days' Notice, or such other period of time as may be agreed to by the

Construction Integration Working Group, to all members of the Construction Integration Working Group identifying the agenda items to be discussed at the special meeting.

- (e) Unless otherwise agreed by the members of the Construction Integration Working Group, the Construction Integration Working Group shall meet in the City of Toronto. Meetings of the Construction Integration Working Group may be held by means of such telephonic, electronic or other communication facilities as to permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously. A person participating in a meeting by such means will be deemed to be present at such meeting.
- (f) One representative of Contracting Authority, one representative of RSSOM Project Co and one representative of North Civil Project Co shall constitute a quorum at any meeting of the Construction Integration Working Group. A quorum of members may exercise all the powers of the Construction Integration Working Group. The members shall not transact business at a meeting of the Construction Integration Working Group unless a quorum is present. Decisions of the Construction Integration Working Group shall be made by agreement of representatives of each of the Contracting Authority, RSSOM Project Co North Civil Project Co
- (g) Minutes of all meetings, recommendations and decisions of the Construction Integration Working Group, including those made by telephone or other form of communication, shall be recorded and maintained by RSSOM Project Co. RSSOM Project Co shall circulate copies of such minutes within five (5) Business Days of the holding of the meeting or the making of the recommendation or decision. Unless Contracting Authority or North Civil Project Co notifies the other Parties within five (5) Business Days of receipt of the minutes that such Party disagrees with the contents of the minutes, Contracting Authority and the OL Project Cos shall be deemed to have approved such minutes. RSSOM Project Co shall maintain a complete set of all minutes of the meetings of the Construction Integration Working Group and shall make such minutes available for inspection by the other Parties hereto during regular business hours.
- (h) The Construction Integration Working Group may refer any unresolved issues for consideration by the Integration Committee.

ARTICLE 6 TERMINATION

6.1 Termination of Agreement

This Agreement shall take effect on the date hereof and, subject to Section 8.11, shall terminate and cease to have effect on the earlier of:

- (a) the earlier of the RSSOM Project Agreement, or the North Civil Project Agreement expires or terminates in accordance with its terms; and
- (b) the earlier of the RSSOM Project Co Termination Date or the North Civil Project Co Termination Date,

provided that such expiry or earlier termination shall be without prejudice to any accrued rights and liabilities of the Parties prior to or as at the date of expiry or earlier termination of this Agreement and

without prejudice to the final determination of any Integration Dispute that has not been finally determined prior to or as at the date of expiry or earlier termination of this Agreement and this Section 6.1 shall survive any such termination.

ARTICLE 7 INTEGRATION DISPUTE RESOLUTION PROCEDURE

7.1 Integration Disputes

Any Dispute which has been designated as an Integration Dispute shall be heard or determined in accordance with the Integration Dispute Resolution Procedure set out in Appendix A hereto.

7.2 Commencement of Disputes

Each Party hereto acknowledges and agrees that it may not make any claim or demand, or assert any Dispute or commence any action or proceeding against any of the other Parties in connection with the North Civil Project or the RSSOM Project or the terms of this Agreement provided that nothing in this Section 7.2 shall in any way prevent, prohibit, limit or restrict (i) Contracting Authority or North Civil Project Co from making any such claim or demand, Dispute or action or proceeding against each other as may be asserted, made or initiated under the North Civil Project Agreement or (ii) Contracting Authority or RSSOM Project Co from making any such claim or demand, Dispute or action or proceeding against each other as may be asserted, made or initiated under the RSSOM Project Agreement.

7.3 Obligation to continue

The Parties shall diligently carry out their respective obligations under this Agreement and their respective Project Agreements during the pendency of any Integration Disputes.

ARTICLE 8 GENERAL PROVISIONS

8.1 Interpretative Provisions

In this Agreement:

- (a) references to this Agreement include the Appendices and other attachments hereto, each of which form an integral part hereof;
- (b) references to “hereunder”, “herein” and “hereof” are to the provisions of this Agreement, and references to Articles and Sections herein refer to articles, sections, or subsections of this Agreement;
- (c) the headings of the Articles, Sections, Appendices and any other headings, captions or indices herein are inserted for convenience of reference only and shall not be used in any way in construing or interpreting any provision hereof;
- (d) unless the context otherwise requires, wherever used herein the plural includes the singular, the singular includes the plural, and each of the masculine, feminine and neuter genders include all other genders;

- (e) where a term is defined herein, a derivative of such term shall have a corresponding meaning unless the context otherwise requires.
- (f) any reference to a statute shall include and shall be deemed to be a reference to such statute and to the regulations made pursuant thereto, and all amendments made thereto and in force from time to time, and to any statute or regulation that may be passed which has the effect of supplementing the statute so referred to or the regulations made pursuant thereto;
- (g) any reference to “including” and/or “includes” means “including, without limitation” and/or “includes, without limitation” respectively;
- (h) unless otherwise expressly stated, any reference to dollars or \$ means Canadian dollars;
- (i) all references to any agreement, document, standard, principle or other instrument include (subject to all relevant approvals and any other provision of this Agreement expressly concerning such agreement, document, standard, principle or other instrument) a reference to that agreement, document, standard, principle or instrument as amended, supplemented, substituted, novated or assigned; and
- (j) words importing persons or parties are to be broadly interpreted and include an individual, corporation, limited liability company, joint stock company, firm, partnership, joint venture, trust, unincorporated organization, Governmental Authority, unincorporated body of persons or association and any other entity having legal capacity, and the heirs, beneficiaries, executors, administrators or other legal representatives of a person in such capacity.

8.2 General Duty to Mitigate

Contracting Authority and each OL Project Co shall at all times take commercially reasonable steps to minimize and mitigate any loss for which the relevant Party is entitled to bring a claim against any other Party pursuant to this Agreement.

8.3 Entire Agreement

Except where provided otherwise in this Agreement, this Agreement constitutes the entire agreement between the Parties in connection with its subject matter and supersedes all prior representations, communications, negotiations and understandings, whether oral, written, express or implied, concerning the subject matter of this Agreement.

8.4 Enurement

This Agreement shall enure to the benefit of, and be binding on, each of the Parties and their respective successors and permitted transferees and assigns.

8.5 Notices

- (a) All notices, requests, demands, instructions, certificates, consents and other communications (each being a “**Notice**”) required or permitted under this Agreement (including Notices to RSSOM Project Co Representative and North Civil Project Co Representative) shall be in writing (whether or not “written notice” or “notice in writing”

is specifically required by the applicable provision of this Agreement) and served by sending the same by registered mail, by hand (in each case with a copy by electronic submission to the RSSOM Contracting Authority Representative and the North Civil Contracting Authority Representative), or by electronic submission as follows:

If to Contracting Authority or RSSOM Contracting Authority Representative:

Metrolinx

- (b) Where any Notice is provided or submitted to a Party via electronic submission, an original of the Notice sent via electronic submission shall promptly be sent by regular mail or registered mail. For greater certainty, a Notice given via electronic submission shall not be invalid by reason only of a Party's failure to comply with this Section 8.5(b).
- (c) Any Party to this Agreement may, from time to time, change any of its contact information set forth in Section 8.5(a) by prior Notice to the other Parties, and such change shall be effective on the Business Day that next follows the recipient Party's receipt of such Notice unless a later effective date is given in such Notice.
- (d) Subject to Sections 8.5(e), 8.5(f) and 8.5(g):
 - (i) a Notice given by registered mail shall be deemed to have been received on the third (3rd) Business Day after mailing;
 - (ii) a Notice given by hand delivery shall be deemed to have been received on the day it is delivered; and
 - (iii) a Notice given by electronic submission shall be deemed to have been received on the day it is transmitted by electronic submission.
- (e) If the Party giving the Notice knows or ought reasonably to know of difficulties with the postal system which might affect negatively the delivery of mail, any such Notice shall not be mailed but shall be made or given by personal delivery or by electronic submission in accordance with this Section 8.5.
- (f) If any Notice delivered by hand or transmitted by electronic submission is so delivered or transmitted, as the case may be, either on a day that is not a Business Day or on a Business Day after 4:00 p.m. (recipient's local time), then such Notice shall be deemed to have been received by such recipient on the next Business Day.

- (g) A Notice given by electronic submission shall be deemed to have been received by the recipient on the day it is transmitted only if an electronic submission report (maintained by the sender) indicates that the transmission of such Notice was successful.

8.6 Governing Law and Jurisdiction

- (a) This Agreement shall be governed by and construed in accordance with the laws of Ontario and the laws of Canada applicable therein and shall be treated in all respects as an Ontario contract, without regard to conflict of laws principles.
- (b) Subject to Article 7 hereof (Integration Dispute Resolution Procedure) the Parties hereby irrevocably attorn to the exclusive jurisdiction of the courts of the Province of Ontario and all courts competent to hear appeals therefrom.
- (c) Nothing in this Agreement affects the rights, protections and immunities of the Crown under the *Crown Liability and Proceedings Act (Ontario)*.

8.7 Assignment

- (a) Either OL Project Co (in this Section 8.7(a), the “**Transferring Project Co**”) may assign, transfer or otherwise dispose of the benefit of this Agreement to any person (in this Section 8.7(a), the “**assignee**”) to whom the Transferring Project Co assigns, transfers or otherwise disposes of its interest in the Project Agreement to which it is party pursuant to Section 59.1 (*Project Co Assignment*) of the RSSOM Project Agreement or Section 47.1 (*Project Co Assignment*) of the North Civil Project Agreement, as applicable, and shall provide written notice to Contracting Authority and the other OL Project Co of such assignment, transfer or other disposition. Such assignee, as a condition precedent to any such assignment, transfer or other disposition, shall assume the obligations and acquire the rights of the Transferring Project Co under this Agreement pursuant to an assumption agreement with, and in form and substance satisfactory to, Contracting Authority and the other OL Project Co, each acting reasonably. Contracting Authority, the OL Project Cos and the assignee shall, at the Transferring Project Co’s cost and expense, do all things and execute all further documents as may be necessary in connection therewith.
- (b) Contracting Authority may assign, transfer or otherwise dispose of the benefit of the whole or part of this Agreement to any person (in this Section 8.7(b), the “**assignee**”) to whom Contracting Authority assigns, transfers or otherwise disposes of its interest in the Project Agreement pursuant to Section 59.2 (*Contracting Authority Assignment*) of the RSSOM Project Agreement and Section 47.2 (*Contracting Authority Assignment*) of the North Civil Project Agreement, and shall provide written notice to the OL Project Cos of such assignment, transfer or other disposition.
- (c) Neither OL Project Co shall assign, novate, or otherwise transfer its interest in this Agreement to any person except concurrently with an assignment, novation or transfer of its Project Agreement to the same person in accordance with the provisions of the applicable Project Agreement.

8.8 Time of the Essence

Time is of the essence of every provision of this Agreement. Extension, waiver or variation of any provisions of this Agreement shall not be deemed to affect this provision and there shall be no implied waiver of this provision.

8.9 Further Assurance

Each Party shall do all things, from time to time, and execute all further documents necessary to give full effect to this Agreement.

8.10 Third Party Beneficiaries

Except as provided in the indemnities pursuant to the Project Agreements, it is specifically agreed between the Parties executing this Agreement that it is not intended by any of the provisions of any part of this Agreement to create in the public or any member thereof, a third party beneficiary hereunder, or to authorize anyone not a party to this Agreement to maintain a suit for personal injury or property damage pursuant to the terms or provisions of this Agreement.

8.11 Survival

The Parties agree that Article 1, Section 2.2, Article 7 and Article 8 of this Agreement shall survive the termination of this Agreement.

8.12 Waiver

- (a) No waiver made or given by a Party under or in connection with this Agreement shall be binding or effective unless the waiver is in writing, signed by an authorized representative of the Party giving such waiver, and delivered by such Party to the other Parties. No waiver made with respect to any right, power or remedy in one instance will be deemed to be a waiver with respect to any other instance involving the exercise of such right, power, or remedy or with respect to any other right, power, or remedy.
- (b) Failure by any Party to exercise any of its rights, powers or remedies hereunder or its delay to do so shall not constitute a waiver of those rights, powers or remedies. The single or partial exercise of a right, power or remedy shall not prevent its subsequent exercise or the exercise of any other right, power or remedy.

8.13 Counterparts

This Agreement may be executed in one or more counterparts. Any single counterpart or a set of counterparts executed, in either case, by all of the Parties shall constitute a full, original and binding agreement for all purposes. Delivery of an executed counterpart by sending a copy by electronic mail or other electronic transmission shall be as effective as the manual delivery of an executed counterpart.

8.14 Language of Agreement

Each Party acknowledges having requested and being satisfied that this Agreement and related documents be drawn in English. *Chacune des parties reconnaît avoir demandé que ce document et ses annexes soient rédigés en anglais et s'en déclare satisfaite.*

8.15 Liability

Metrolinx, as Crown agency, shall be liable for all of the obligations of Contracting Authority under this Agreement.

8.16 No Reliance

- (a) Each of the Parties acknowledge that:
- (i) it has not entered into this Agreement on the basis of and does not rely, and has not relied, upon any statement or representation, whether negligent or innocent, or warranty or other provision, whether oral, written, express or implied, made or agreed to by any person, whether a Party to this Agreement or not, except those expressly made, given or repeated in this Agreement and the only remedy or remedies available in respect of any misrepresentation or untrue statement made to it shall be those expressly provided for in this Agreement; and
 - (ii) this Section 8.16 shall not apply to any statement, representation or warranty made fraudulently, or to any provision of this Agreement which was induced by fraud, for which the remedies available shall be all those available under the law governing this Agreement.

8.17 Costs

Each Party shall be responsible for paying its own costs and expenses incurred in connection with the negotiation, preparation and execution and delivery of this Agreement.

8.18 Proof of Authority

Each Party reserves the right to require any person executing this Agreement on behalf of any other Party to provide proof, in a form acceptable to such Party, as applicable, that they have the requisite authority to execute this Agreement on behalf of and to bind such Party.

8.19 Copyright Notice

The Parties acknowledge that King's Printer for Ontario is the exclusive owner of copyright in the Project Agreements and this Agreement.

[REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF the Parties hereto have duly executed this Agreement as of the day and year first above written.

APPENDIX A TO SCHEDULE 39B

INTEGRATION DISPUTE RESOLUTION PROCEDURE

1. General

1.1 Definitions

(a) In this Appendix A, unless the context otherwise requires:

- (i) “**Adjudication Dispute**” means a matter to which there is a statutory right to submit such matter to adjudication under the *Construction Act* (Ontario);
- (ii) “**Arbitration Act, 1991**” means the *Arbitration Act, 1991*, S.O. 1991, c. 17, as amended from time to time.
- (iii) “**Arbitration Referral Period**” has the meaning given in Section 3.13(a) of this Appendix A.
- (iv) “**CIDB**” has the meaning given in Section 3.1(a) of this Appendix A.
- (v) “**CIDB Chair**” has the meaning given in Section 3.1(c)(ii) of this Appendix A.
- (vi) “**CIDB Expiry Date**” means five (5) years after the North Civil Project Substantial Completion Date, subject to any extension of the CIDB Expiry Date pursuant to Section 3.1(b) of this Appendix A.
- (vii) “**CIDB Member**” has the meaning given in Section 3.1(a) of this Appendix A.
- (viii) “**CIDB Member Agreement**” has the meaning given in Section 3.1(a) of this Appendix A.
- (ix) “**CIDB Member Statement**” has the meaning given in Section 3.3(a) of this Appendix A.
- (x) “**CIDB Technical Member**” has the meaning given in Section 3.1(c)(i) of this Appendix A.
- (xi) “**Claimant**” has the meaning given in Section 3.6(a) of this Appendix A.
- (xii) “**Date of Commencement**” has the meaning given in Section 3.6(b) of this Appendix A.
- (xiii) “**Dispute**” has the meaning given in Section 1.1 of the main body of this Agreement.
- (xiv) “**Integration Dispute**” has the meaning given in Section 1.1 of the main body of this Agreement.
- (xv) “**Integration Dispute Notice Supporting Documents**” means all key documents relevant to the Integration Dispute on which the Party intends to rely for the purposes of resolving the Integration Dispute pursuant to this Integration Dispute Resolution Procedure in the possession or control of such Party following reasonable due diligence.

- (xvi) “**Notice of Request to Arbitrate**” has the meaning given in Section 4(c) of this Appendix A.
- (xvii) “**Parties**” means the Parties to this Interface Agreement and, in respect of any Integration Dispute, includes any other Parties added to such Integration Dispute in accordance with this Integration Dispute Resolution Procedure, and “**Party**” means any one of them without specificity, as the context requires.
- (xviii) “**Party Executive**” has the meaning given in Section 2(a) of this Appendix A.
- (xix) “**Party Executive IDRP Termination Notice**” has the meaning given in Section 2(e) of this Appendix A.
- (xx) “**Party Representative**” means the Contracting Authority Representative, the RSSOM Project Co Representative, the North Civil Project Co Representative, a person designated as such by a Project Co Party or a person designated as such by a Civil Contractor Party, as the context requires.
- (xxi) “**Project Agreement**” has the meaning given in Section 1.1 of the main body of this Agreement.
- (xxii) “**Public Safety Integration Dispute**” means any Integration Dispute which Contracting Authority, RSSOM Project Co or North Civil Project Co, acting reasonably, determines involves an alleged breach of this Interface Agreement, the RSSOM Project Agreement or the North Civil Project Agreement by another Party or any act or omission on the part of another Party or any person with whom another Party is legally affiliated or for whom another Party is legally responsible (including a Project Co Party, a Civil Contractor Party or a Contracting Authority Party, as applicable), which creates or can reasonably be expected to create a serious threat to the health, safety or security of any person, including any user of any part of or the whole of the Project or the Lands, or to the environment.
- (xxiii) “**Reply**” has the meaning given in Section 3.7 of this Appendix A.
- (xxiv) “**Reply Period**” has the meaning given in Section 3.7(a) of this Appendix A.
- (xxv) “**Respondent**” has the meaning given in Section 3.6(a) of this Appendix A.
- (xxvi) “**Rules of Civil Procedure**” means R.R.O. 1990, Reg. 194: Rules of Civil Procedure under the *Courts of Justice Act*, R.S.O. 1990, c. C.43, as amended from time to time.
- (xxvii) “**Statement of Case**” has the meaning given in Section 3.6(a) of this Appendix A.
- (xxviii) “**Statement of Reply**” has the meaning given in Section 3.7(a) of this Appendix A.
- (xxix) “**Third Party Arbitration**” has the meaning given in Section 6(a) of this Appendix A.
- (xxx) “**Third Party Litigation**” has the meaning given in Section 6(b) of this Appendix A.

1.2 Applicability of Integration Dispute Resolution Procedure

- (a) All Integration Disputes shall be resolved subject to and in accordance with this Integration Dispute Resolution Procedure.
- (b) Without limiting any provision of this Appendix A, the Parties intend that all Integration Disputes that arise:
 - (i) prior to the CIDB Expiry Date, shall be resolved in accordance with Sections 2 to 5; and
 - (ii) on and following the CIDB Expiry Date, shall be resolved in accordance with Sections 2, 4 and 5.

1.3 Notice of Integration Dispute

- (a) Where a Notice of Dispute has been given under the RSSOM Project Agreement or the North Civil Project Agreement, as applicable, Contracting Authority may give Notice to Project Co and North Civil Project Co designating such Dispute as an Integration Dispute where it appears to Contracting Authority that:
 - (i) there is a claim for contribution, indemnity or other relief under any one or more of the following:
 - (A) Sections 56.1(a)(vi) or 56.1(a)(vii) (*Project Co Indemnities to Contracting Authority*) of the RSSOM Project Agreement;
 - (B) Sections 56.2(a)(i), 56.2(a)(ii) or 56.2(a)(iii) (*Contracting Authority Indemnities to Project Co*) of the RSSOM Project Agreement arising, directly or indirectly, out of, or in consequence of, or involving or relating to any act or omission, or any deliberate or negligent act or omission, of a Civil Contractor (as applicable);
 - (C) Sections 44.1(a)(vii) or 44.1(a)(viii) (*Project Co Indemnities to Contracting Authority*) of the North Civil Project Agreement; or
 - (D) Sections 44.2(a)(i), 44.2(a)(ii) or 44.2(a)(iii) (*Contracting Authority Indemnities to Project Co*) of the North Civil Project Agreement arising, directly or indirectly, out of, or in consequence of, or involving or relating to any act or omission, or any deliberate or negligent act or omission, of RSSOM Project Co (as applicable);
 - (ii) as a result of, in respect of, or arising out of the same matter or occurrence or series of matters or occurrences (including common issues of damages or compensation), there is any one or more of the following:
 - (A) doubt as to responsibility or entitlement to relief among Contracting Authority, RSSOM Project Co and North Civil Project Co, or the respective extent to which each may be responsible or entitled, whether jointly, severally or in the alternative;
 - (B) a common question of fact among Contracting Authority, RSSOM Project Co and North Civil Project Co;

- (C) a common question of law among Contracting Authority, RSSOM Project Co and North Civil Project Co, including the determination of rights that depends upon the interpretation of the RSSOM Project Agreement or North Civil Project Agreement, as applicable, or the interpretation of Applicable Law; or
- (iii) the Parties agree that designation of such Dispute as an Integration Dispute may promote or secure the most expeditious and least expensive determination of such Dispute on its merits.
- (b) Contracting Authority may give a Notice under section 1.3(a) designating a Dispute as an Integration Dispute, at any time that is at least seven (7) days before the Date of Commencement of a CDB proceeding with respect to such Dispute. For greater certainty, Contracting Authority may issue a Notice pursuant to Section 1.3(a) concurrent with a Notice of Dispute under either Project Agreement.
- (c) Any Project Co Party or Civil Contractor Party referred to in a Notice designating a Dispute as an Integration Dispute who is not a Party to such Integration Dispute may be added or joined by Contracting Authority as a necessary Party where Contracting Authority considers that the presence of such additional Party is necessary to enable the issues in the Integration Dispute to be effectively and completely determined.
- (d) Where Notice designating a Dispute as an Integration Dispute has been given by Contracting Authority, the Dispute shall thereafter be considered and heard or determined in accordance with this Integration Dispute Resolution Procedure, unless a Party challenges such Notice, by bringing a motion or application to the CIDB within seven (7) days after such Notice was given, and demonstrates that:
 - (i) grounds for such Notice, as set out in this Section 1.3, do not exist;
 - (ii) designation of the Dispute as an Integration Dispute will unduly complicate or delay the Dispute, or cause undue prejudice to such Party, in a manner which cannot be adequately addressed by appropriate terms, directions, or an award of costs; or
 - (iii) the Dispute is an Adjudication Dispute or a matter in respect of which the Independent Certifier is entitled or required to make a final and binding determination under either the RSSOM Project Agreement or the North Civil Project Agreement, as applicable.
- (e) The CIDB shall decide whether a Dispute should be heard or determined as an Integration Dispute, on such terms and subject to such directions as the CIDB may decide, where any Party challenges a Notice designating such Dispute as an Integration Dispute.
- (f) All time periods with respect to a Dispute under Schedule 27 – Dispute Resolution Procedure of the RSSOM Project Agreement or the North Civil Project Agreement, as applicable, shall be suspended where a Notice designating such Dispute as an Integration Dispute has been challenged until the CIDB has decided whether such Dispute should be heard or determined as an Integration Dispute.
- (g) Any Party may challenge a decision of the CIDB that a Dispute should be heard or determined as an Integration Dispute by delivering a Notice of Request to Arbitrate such decision within seven (7) days after the date of the decision of the CIDB. All time periods with respect to such Dispute

under Schedule 27 – Dispute Resolution Procedure of the RSSOM Project Agreement or the North Civil Project Agreement, as applicable, shall be suspended where such Notice of Request to Arbitrate has been delivered until the arbitral tribunal has decided pursuant to Section 4 whether such Dispute should be heard or determined as an Integration Dispute.

- (h) If no Party delivers a Notice of Request to Arbitrate a decision of the CIDB whether a Dispute should be heard or determined as an Integration Dispute before the expiry of the time period set out in Section 1.3(g), or if any arbitration that is commenced pursuant to Section 4 is subsequently abandoned by the Parties in writing before an arbitral award is made pursuant to Section 4, then the decision of the CIDB whether a Dispute should be heard or determined as an Integration Dispute shall be final and binding on the Parties.

1.4 Independent Certifier Determinations and Decisions

- (a) If a Party refers an Integration Dispute in respect of a determination or decision of the Independent Certifier made pursuant to the RSSOM Project Agreement or the North Civil Project Agreement for resolution by the CIDB pursuant to Section 3, the Independent Certifier shall not be permitted to provide its opinion as an expert to the CIDB pursuant to Section 3.9(c).

1.5 Continued Performance During Integration Disputes

- (a) RSSOM Project Co, North Civil Project Co and Contracting Authority shall diligently carry out their respective obligations under the RSSOM Project Agreement or the North Civil Project Agreement, as applicable, during the pendency of any Integration Dispute. If during the pendency of any Integration Dispute it is considered necessary by any Party to proceed in respect of a matter that is in Dispute, then subject to Section 1.5(b), any Party may proceed without prejudice to any other Party's rights under the RSSOM Project Agreement or the North Civil Project Agreement, as applicable, in respect of the Integration Dispute (including in respect of any entitlement of RSSOM Project Co or North Civil Project Co to a Delay Event, Compensation Event and/or Variation).
- (b) While an Integration Dispute is pending, Contracting Authority may give such written instructions as in Contracting Authority's opinion are necessary in respect of the matter that is the subject of the Dispute, including for RSSOM Project Co to proceed with the Project Operations or North Civil Project Co to proceed with the Works which are the subject of the Dispute in accordance with the position of Contracting Authority, and RSSOM Project Co or North Civil Project Co, as applicable, shall comply with such written instructions forthwith.
- (c) RSSOM Project Co and North Civil Project Co acknowledge and agree that (i) a pending Integration Dispute will not justify any failure or refusal to comply with any written instructions given by Contracting Authority pursuant to Section 1.5(b), including in the event that complying with such written instructions would prevent RSSOM Project Co or North Civil Project Co, as applicable, from achieving Substantial Completion by the applicable Scheduled Substantial Completion Date, and (ii) RSSOM Project Co and North Civil Project Co shall have no right to require a determination pursuant to this Integration Dispute Resolution Procedure or otherwise of whether or not Contracting Authority is entitled to give such written instructions or whether or not RSSOM Project Co or North Civil Project Co, as applicable, is required to comply with such written instructions, before complying with such written instructions. Only concurrently with or after complying with Contracting Authority's written instructions shall RSSOM Project Co or North Civil Project Co be entitled to refer any such Dispute for resolution.

- (d) Any claims for time and/or cost consequences of complying with this Section 1.5(d) shall be addressed as part of the resolution of the applicable Integration Dispute, provided that, in the event the matter of the Integration Dispute is determined in favour of RSSOM Project Co or North Civil Project Co, as applicable, proceeding in accordance with Contracting Authority's written instructions pursuant to Section 1.5(b) shall (i) subject to and in accordance with Section 40 (*Delay Events*) of the RSSOM Project Agreement or Section 30 (*Delay Events*) of the North Civil Project Agreement, as applicable, be treated as a Delay Event; (ii) subject to and in accordance with Section 41 (*Compensation Events*) of the RSSOM Project Agreement or Section 31 (*Compensation Events*) of the North Civil Project Agreement, as applicable, be treated as a Compensation Event; and (iii) subject to and in accordance with Schedule 22 – Variation Procedure of the RSSOM Project Agreement or North Civil Project Agreement, as applicable, result in a Variation.

1.6 Mutual Resolution Efforts

- (a) The Parties agree that at all times each of them will make reasonable and *bona fide* efforts to resolve any Integration Dispute:
- (i) in the ordinary course in accordance with the RSSOM Project Agreement or the North Civil Project Agreement, as applicable, starting with the Project teams of the Parties; and
 - (ii) if and to the extent the Project teams cannot resolve the matter in the ordinary course in accordance with the RSSOM Project Agreement or the North Civil Project Agreement, as applicable, by amicable negotiations on a without prejudice basis among the Party Representatives.
- (b) Each Party shall provide full, frank, candid and timely disclosure of relevant facts, information and documents (subject to legal privilege) as may be required by the RSSOM Project Agreement or the North Civil Project Agreement, as applicable, or reasonably requested by another Party to facilitate the resolution of any Integration Dispute and shall provide such cooperation and assistance as is necessary to enable the issues in any Integration Dispute to be effectively and completely determined.
- (c) The communication of facts, documents, or information by a Party on a without prejudice basis does not relieve that Party of any obligation to deliver any facts, documents or information required under the RSSOM Project Agreement or the North Civil Project Agreement, as applicable.

2. Amicable Resolution by Party Executives

- (a) Upon receipt of a Notice designating a Dispute as an Integration Dispute, the Integration Dispute shall be escalated for amicable resolution by an executive of each Party (each a "**Party Executive**").
- (b) The selected Party Executive for each Party shall be:
- (i) in a position of authority above that of the Party Representative; and
 - (ii) shall have or be delegated full authority to resolve the Integration Dispute subject only to approval of the Chief Executive Officer and board of directors or similar governing or regulatory body of the Party (as applicable).

- (c) The Party Executives shall promptly, and by no later than fifteen (15) Business Days (or such longer period agreed by the Parties in writing) from the date of the receipt of the Notice designating the Dispute as an Integration Dispute, meet and make reasonable and *bona fide* efforts to resolve the Integration Dispute.
- (d) All discussions and negotiations held, and all communications exchanged, among the Parties in connection with the Party Executive negotiations shall be on a without prejudice basis to facilitate the resolution of the Integration Dispute.
- (e) Any Party may terminate the process of amicable resolution by the Party Executives by providing Notice of termination of such process (each a “**Party Executive IDR Termination Notice**”) at any time:
 - (i) if the initial Party Executive meeting does not occur by the expiry of the period set out in Section 2(c); or
 - (ii) ten (10) Business Days after the initial Party Executive meeting described in Section 2(c).
- (f) The requirements of this Section 2 cannot be waived or amended except as expressly agreed by the Parties pursuant to Section 8(a).

3. Combined Integration Dispute Board

3.1 Appointment of the CIDB

- (a) The Combined Integration Dispute Board (“**CIDB**”) shall be a standing body composed of three members appointed in accordance with this Integration Dispute Resolution Procedure (each a “**CIDB Member**”). On or before North Civil Financial Close, the CIDB shall be constituted by a written agreement among the Parties and each of the CIDB Members substantially in the form set out in Attachment 2 to this Appendix A and executed and delivered in accordance with Schedule 2 – Completion Documents (each a “**CIDB Member Agreement**”).
- (b) The CIDB shall remain constituted until the CIDB Expiry Date. The Parties may agree in writing to extend the term of the CIDB, and shall agree in writing to any extensions necessary in order to obtain CIDB decisions in relation to Integration Disputes which remain outstanding at the end of the CIDB term.
- (c) Unless otherwise agreed by the Parties in writing:
 - (i) two CIDB Members shall be Professional Engineers qualified to practice in Ontario or another province of Canada or have technical and/or senior managerial expertise relevant to the Project (each a “**CIDB Technical Member**”); and
 - (ii) the third Member, who shall be the chair of the CIDB, shall have significant experience in construction law and shall be either: (A) a lawyer who is licensed to practice law in Ontario or another province of Canada other than Quebec; or (B) an ex-judge or master of a superior court in Ontario or another province of Canada other than Quebec providing adjudication, arbitration and/or mediation services in Ontario or another province of Canada (the “**CIDB Chair**”).

- (d) Each CIDB Member shall be independent, impartial and, unless otherwise agreed by the Parties in writing, experienced in resolving and deciding disputes of a type, complexity and value commensurate with the potential Integration Disputes that could be referred to the CIDB.
- (e) Each of RSSOM Project Co and North Civil Project Co shall appoint a CIDB Technical Member of its choice on or prior to North Civil Financial Close, and shall deliver to the other Parties a CIDB Member Statement for that CIDB Member upon appointment in accordance with Schedule 2 – Completion Documents.

[Note: The Preferred Proponent and Contracting Authority may agree that one Technical Member from each CDB under the RSSOM Project Agreement and North Civil Project Agreement will serve as the CIDB Technical Members.]

- (f) Contracting Authority shall appoint the CIDB Chair on or prior to North Civil Financial Close, and deliver a CIDB Member Statement for the CIDB Chair upon appointment in accordance with Schedule 2 – Completion Documents.
- (g) Before commencing CIDB activities, each CIDB Member shall sign with the Parties a CIDB Member Agreement. The CIDB Member Agreement may be terminated in accordance with the CIDB Member Agreement.

3.2 Replacement of CIDB Member

- (a) When a CIDB Member must be replaced due to death, incapacity, resignation, termination or removal, or when a CIDB Technical Member must be replaced because such CIDB Technical Member has ceased to be a Technical Member of the CDB under the RSSOM Project Agreement or the North Civil Project Agreement, as applicable, a new CIDB Member shall be appointed within thirty (30) days of the need for replacement arising, in the same manner as the CIDB Member being replaced was originally selected in accordance with this Integration Dispute Resolution Procedure, unless otherwise agreed by the Parties in writing. All actions taken by the CIDB prior to the replacement of a CIDB Member shall remain valid. When one CIDB Member is to be replaced, the other CIDB Members shall continue to be CIDB Members, but shall not hold hearings or issue CIDB decisions without the agreement of the Parties in writing prior to the replacement of the CIDB Member.
- (b) If a Party fails to appoint a replacement CIDB Technical Member and the Parties cannot agree on an alternative CIDB Technical Member within the period of time set out in Section 3.2(a), any Party may refer the appointment of that CIDB Technical Member or the alternative CIDB Technical Member for a court determination pursuant to Section 5(b).
- (c) If Contracting Authority is unable to appoint a replacement CIDB Chair within the period of time set out in Section 3.2(a), any Party may refer the appointment of the replacement CIDB Chair for a court determination pursuant to Section 5(b).

3.3 Impartiality of CIDB Members

- (a) Every prospective CIDB Member shall sign a statement of acceptance, availability, impartiality and independence and disclose in writing to the Parties and the other CIDB Members, any facts or circumstances which might call into question the CIDB Member's independence in the eyes of the Parties or give rise to reasonable doubts as to the prospective CIDB Member's impartiality

(including if such prospective CIDB Member, other than a prospective CIDB Technical Member being appointed in accordance with Section 3.1(f), is or has been a CIDB Member or arbitrator under the RSSOM Project Agreement or the North Civil Project Agreement), substantially in the form set out in Attachment 1 to this Appendix A (the “**CIDB Member Statement**”).

- (b) A CIDB Member shall immediately disclose in writing to the Parties any facts or circumstances concerning the CIDB Member’s impartiality or independence which may arise in the course of such CIDB Member’s tenure.
- (c) Should any Party wish to challenge a prospective or current CIDB Member on the basis of an alleged lack of impartiality, independence or qualifications, it may, as soon as practicable after learning of the facts upon which the challenge is based, submit to the CIDB and the other Parties a request for a decision upon the challenge including a written statement of such facts.
- (d) If the challenged prospective or current CIDB Member does not withdraw, and the other Parties do not agree to the challenge, any Party may refer the matter for a court determination pursuant to Section 5(b).
- (e) No Party shall challenge a current CIDB Member on the basis of an alleged lack of impartiality or independence as a result of the CIDB Member carrying out its duties under the CIDB Member Agreement, including the provision of without prejudice dispute resolution assistance.
- (f) If a prospective or current CIDB Member is successfully challenged, the prospective CIDB Member shall not be appointed, or the current CIDB Member shall be removed forthwith from the CIDB, and the CIDB Member Agreement, if any, between that CIDB Member and the Parties shall be automatically terminated.

3.4 Project Monitoring by the CIDB

- (a) The Parties shall fully cooperate with the CIDB and communicate information to it in a timely manner.
- (b) During any meetings and site visits in which the CIDB participates, the CIDB may review the performance of the Parties’ obligations under the RSSOM Project Agreement and North Civil Project Agreement, as applicable, with the Parties. The Parties may at any time by agreement in writing request that the CIDB (i) provide informal assistance to the Parties with regards to avoiding or addressing Integration Disputes; or (ii) mediate any Integration Dispute. All such reviews by the CIDB and any informal assistance or mediation provided by the CIDB pursuant to this Section 3.4(b) is provided on a without prejudice basis and shall not be considered or referred to in any such Integration Dispute or if any Integration Dispute is submitted for resolution in any subsequent dispute resolution processes or proceedings.
- (c) Each Party is required to copy the other Parties in all written communications in respect of the Project it provides to a CIDB Member. Unless otherwise agreed by the Parties in writing or as provided in Section 3.10(d), no Party shall have any conversation or any meeting with any CIDB Member in respect of the Project without the other Parties being included in such conversation or being present at such meeting.

3.5 CIDB to Resolve Integration Disputes

- (a) If the Parties are unable to resolve an Integration Dispute prior to the CIDB Expiry Date through amicable resolution by the Party Executives pursuant to Section 2 and a Party delivers a Party Executive IDR Termination Notice to the other Parties, then any Party may in writing refer the Integration Dispute to the CIDB for resolution.
- (b) The CIDB shall have all the powers in respect of Integration Disputes that a CDB has in respect of other Disputes under the RSSOM Project Agreement or the North Civil Project Agreement, as applicable.

3.6 Statement of Case

- (a) The Party referring an Integration Dispute to the CIDB pursuant to Section 3.5(a) (the “**Claimant**”) shall submit a concise written statement of its case (the “**Statement of Case**”) to the responding Parties (the “**Respondent**”) and the CIDB within thirty (30) days (or such longer period agreed by the Parties in writing, acting reasonably) of a Party’s referral of the Integration Dispute to the CIDB for resolution pursuant to Section 3.5(a). The Statement of Case shall only include:
 - (i) the Notice of Dispute, including all Integration Dispute Notice Supporting Documents;
 - (ii) the issues submitted to the CIDB for decision;
 - (iii) a statement of the Claimant’s position, including a statement of relevant facts and law; and
 - (iv) any amendments, updates, additions to, or deletions from the Notice of Dispute or the Integration Dispute Notice Supporting Documents.
- (b) The date on which the Statement of Case is received by the CIDB Chair shall be deemed to be the date of the commencement of the CIDB proceeding (the “**Date of Commencement**”).
- (c) If the Claimant provides any material amendment, update, addition to, or deletion from the Notice of Dispute or the Integration Dispute Notice Supporting Documents pursuant to Section 3.6(a)(iv), then the CIDB shall permit each Respondent a reasonable amount of time to review and respond to such material amendment, update, addition to, or deletion from the Notice of Dispute or the Integration Dispute Notice Supporting Documents, and shall extend the Reply Period accordingly pursuant to Section 3.7(b)(i).
- (d) Unless the CIDB orders otherwise, the Claimant shall not be entitled to rely upon any documents other than the documents contained in its Statement of Case. In the event that the CIDB permits the Claimant to rely on any additional documents, the CIDB shall permit each Respondent a reasonable amount of time to review and respond to such additional documents.

3.7 Statement of Reply

- (a) Subject to Section 3.7(b), within thirty (30) days of the Date of Commencement (the “**Reply Period**”), each Respondent shall deliver to the Claimant and the CIDB a concise written statement of its reply to the Statement of Case (the “**Statement of Reply**”). The Statement of Reply shall only include:

- (i) a statement of the Respondent's position, including a statement of relevant facts and law;
 - (ii) the issues submitted to the CIDB for a decision; and
 - (iii) any documents not contained in the Statement of Case on which the Respondent intends to rely.
- (b) The Reply Period may be extended to permit each Respondent additional time to provide its Statement of Case by:
- (i) order of the CIDB (including pursuant to Section 3.6(c) or Section 3.6(d)); or
 - (ii) agreement of the Parties, acting reasonably.

3.8 Additional Documents Required by the CIDB

- (a) The CIDB may at any time request a Party to submit additional written statements or documentation within a reasonable amount of time to assist the CIDB in preparing its decision. Each such request shall be communicated in writing by the CIDB to the Parties, and any additional written statements or documentation submitted in response to the CIDB's request shall be submitted to the CIDB and the other Parties. The CIDB shall permit the other Parties a reasonable amount of time to review and respond to such additional written statements or documentation.

3.9 Evidence and Powers of the CIDB

- (a) Subject to Section 3.9(b), the CIDB shall decide Integration Disputes based on the Parties' Statement of Case and Statement of Reply and any additional documents and responses delivered pursuant to any of Sections 3.6(d), 3.7(a) or 3.8(a).
- (b) If there are any material factual disputes among the Parties or other issues arising from the Parties' Statement of Case or Statement of Reply, the CIDB may order such additional procedural steps or give such directions as the CIDB considers appropriate to address such disputes or other issues, with a view to proportionality and the Parties' desire to resolve Integration Disputes in a cost-effective and expeditious manner.
- (c) Without limiting Section 3.9(b), the CIDB may, if necessary, appoint one or more experts after considering the positions of the Parties or, subject to Section 1.4(a), obtain and consider the opinion of the Independent Certifier, as an expert.

3.10 Hearings

- (a) The CIDB shall order that a hearing in respect of the Integration Dispute take place unless the Parties and CIDB agree in writing that a hearing is not required.
- (b) The hearing shall be conducted in Toronto, Ontario or by teleconference or videoconference on written agreement of the Parties and the CIDB.
- (c) The Parties shall appear through duly authorized representatives. In addition, the Parties may be assisted or represented by advisers and legal counsel.

- (d) If any Party refuses or fails to take part in the CIDB hearing or in any preceding steps, the CIDB may proceed notwithstanding such refusal or failure.
- (e) The CIDB may request that the Parties provide and exchange summaries of their argument in advance of the hearing.
- (f) Subject to the discretion of the CIDB, the hearing shall proceed as follows:
 - (i) the Claimant shall present its case;
 - (ii) each Respondent shall present its case; and
 - (iii) the Claimant shall have an opportunity to reply.

3.11 Basis for Decision

- (a) The CIDB shall make decisions under the RSSOM Project Agreement based on the provisions of the RSSOM Project Agreement and under the North Civil Project Agreement based on the provisions of the North Civil Project Agreement.
- (b) The CIDB may take into account:
 - (i) any failure of a Party to comply with the RSSOM Project Agreement or North Civil Project Agreement, as applicable, including any of its mitigation obligations or its procedural obligations under this Interface Agreement; and
 - (ii) any unreasonable delay in bringing the claim, including any unreasonable delay that prevented or prejudiced proper investigation of, opportunity for mitigation of, or ability to respond to the claim.
- (c) A decision of the CIDB shall be in writing and state the findings, reasons, and determination of the CIDB and include:
 - (i) a summary of the Integration Dispute, the positions of the Parties and the decision requested; and
 - (ii) a summary of the relevant provisions of the RSSOM Project Agreement or North Civil Project Agreement, as applicable, and the relevant facts and law considered by the CIDB.
- (d) The CIDB shall issue its decision promptly and, in any event, within thirty (30) days after the hearing unless the Parties consent in writing to an extension, which consent shall not be unreasonably withheld. Failure to issue a decision of the CIDB within the time allowed does not invalidate the decision.
- (e) The CIDB shall make its decision by a majority of the CIDB Members. Any CIDB Member who disagrees with the decision shall give the reasons for such disagreement in a separate written document that shall form part of the decision but which shall not be binding on the Parties.

3.12 Costs

- (a) Unless otherwise agreed by the Parties in writing or ordered by the CIDB, or otherwise set out in a CIDB Member Agreement, all CIDB Member fees and expenses and any other costs associated with the establishment and activities of the CIDB (including in relation to obtaining CIDB decisions and the cost of any experts appointed pursuant to Section 3.9(c)) shall be paid by the Parties in accordance with each CIDB Member Agreement, and shared as follows:
- (i) [REDACTED]% by Contracting Authority;
 - (ii) [REDACTED]% by each of RSSOM Project Co and North Civil Project Co.
- (b) Each Party shall bear its own costs associated with Integration Disputes referred to the CIDB for a decision.

3.13 Subsequent Dispute Resolution Procedure to the CIDB

- (a) Any Party that is dissatisfied with a decision of the CIDB may, within thirty (30) days of the release of the CIDB's decision (or such longer period agreed by the Parties, acting reasonably) (the "**Arbitration Referral Period**"), deliver a Notice of Request to Arbitrate the Integration Dispute pursuant to Section 4(c). The decision of the CIDB shall be stayed during the Arbitration Referral Period. If the Integration Dispute is arbitrated pursuant to Section 4, the arbitration tribunal shall conduct the arbitration *de novo* and the decision of the CIDB shall not, subject to the following sentence, be binding on the Parties. If no Party delivers a Notice of Request to Arbitrate the Integration Dispute pursuant to Section 4(c) before the expiry of the Arbitration Referral Period, or if any arbitration that is commenced pursuant to Section 4 is subsequently abandoned by the Parties in writing before an arbitral award is made pursuant to Section 4, then the decision of the CIDB shall be final and binding on the Parties.
- (b) The Parties agree that any decision of the CIDB that becomes final and binding on the Parties in accordance with Section 3.13(a) shall not be subject to appeal, arbitration, litigation or any other dispute resolution process and expressly waive any and all such rights in respect of the Integration Dispute resolved by the CIDB.

4. Arbitration

- (a) Prior to the CIDB Expiry Date, if the Parties fail to resolve an Integration Dispute through the processes set out in Sections 2 and 3, and where no final and binding CIDB decision exists in respect of the Integration Dispute, then the Integration Dispute shall be resolved by *de novo* arbitration in accordance with this Section 4.
- (b) On and following the CIDB Expiry Date, if the Parties fail to resolve the Integration Dispute through the process set out in Section 2, then the Dispute shall be resolved by *de novo* arbitration in accordance with this Section 4.
- (c) Any Party may deliver a Notice of request to arbitrate an Integration Dispute eligible to be referred to arbitration in accordance with this Integration Dispute Resolution Procedure (each a "**Notice of Request to Arbitrate**").
- (d) A Notice of Request to Arbitrate will not be effective unless it:

- (i) is signed by the Party Representative;
 - (ii) if applicable, is delivered to the other Party Representatives within the period of time set out in Section 3.13(a) following the release of any applicable CIDB decision;
 - (iii) indicates it is a Notice of Request to Arbitrate pursuant to Section 4(c); and
 - (iv) expressly identifies the Integration Dispute to be arbitrated.
- (e) The *Arbitration Act, 1991* shall apply to an arbitration pursuant to this Section 4.
- (f) An Integration Dispute referred to arbitration shall be resolved by a single arbitrator unless:
- (i) the Parties otherwise agree in writing; or
 - (ii) one of the Parties, by Notice delivered to the other Parties within seven (7) days after delivery of a Notice of Request to Arbitrate, requires the Integration Dispute to be resolved by a three person arbitral tribunal, in which case the Integration Dispute shall be resolved by a three person arbitral tribunal.
- (g) If the arbitral tribunal is comprised of a single arbitrator:
- (i) the Parties shall jointly appoint the arbitrator; and
 - (ii) if the Parties are unable to agree on the arbitrator within thirty (30) days after delivery of the Notice of Request to Arbitrate, any Party may apply to the Ontario Superior Court of Justice to appoint the arbitrator pursuant to the *Arbitration Act, 1991*.
- (h) If the arbitral tribunal is comprised of three arbitrators:
- (i) RSSOM Project Co and North Civil Project Co shall each appoint one arbitrator and Contracting Authority shall appoint the third arbitrator, who shall act as the chair; and
 - (ii) if the Parties have not appointed an arbitrator or arbitrators pursuant to Section 4(h)(i), any Party may apply to the Ontario Superior Court of Justice to appoint the remaining arbitrator(s) pursuant to the *Arbitration Act, 1991*.
- (i) All arbitrators must have qualifications and experience relevant to the issues in the Integration Dispute commensurate with the nature, complexity and value of the Integration Dispute(s) to be arbitrated.
- (j) No one shall be nominated or appointed to act as an arbitrator who is or was within the past five years:
- (i) a Member of a CDB under the RSSOM Project Agreement or the North Civil Project Agreement;
 - (ii) an arbitrator under the RSSOM Project Agreement or the North Civil Project Agreement, unless the arbitral tribunal will be comprised of three (3) arbitrators with one (1) arbitrator who is an existing or former arbitrator under the RSSOM Project Agreement and one (1)

arbitrator who is an existing or former arbitrator under the North Civil Project Agreement;
or

- (iii) in any way interested, financially or otherwise, in the conduct of the Project Operations under the RSSOM Project Agreement, the Works under the North Civil Project Agreement, or in the business affairs of Contracting Authority, RSSOM Project Co, North Civil Project Co or any consultant, subconsultant or subcontractor of any of them who may be involved or implicated in the Integration Dispute.
- (k) Unless otherwise agreed by the Parties, the seat and venue of the arbitration shall be Toronto, Ontario. The language of the arbitration shall be English.
- (l) The arbitral tribunal shall render its award as soon as possible and no later than sixty (60) days after the date of the closure of the hearing, or such other period of time as agreed to by the Parties in writing and accepted by the arbitral tribunal.
- (m) The costs of the arbitration are within the discretion of the arbitral tribunal. In exercising discretion to award costs, the arbitrator(s) will take into account the desire of the Parties that costs should generally be awarded to each Party in proportion to the relative success that such Party has in the arbitration.
- (n) The award of the arbitral tribunal shall be final and binding upon the Parties and not subject to appeal.
- (o) Where a Dispute has been designated as an Integration Dispute, the arbitral tribunal shall have all the powers in respect of such Integration Dispute that an arbitral tribunal has in respect of other Disputes under the RSSOM Project Agreement or the North Civil Project Agreement, as applicable.
- (p) The arbitral tribunal shall make decisions under the RSSOM Project Agreement based on the provisions of the RSSOM Project Agreement and under the North Civil Project Agreement based on the provisions of the North Civil Project Agreement.

5. Litigation

- (a) If necessary to prevent irreparable harm to a Party, including in connection with a Public Safety Integration Dispute, nothing contained in this Appendix A will prevent the Parties from seeking interim protection from the Ontario Superior Court of Justice, including seeking an interlocutory injunction. However, the Parties agree that no irreparable harm shall occur if the RSSOM Project Agreement or North Civil Project Agreement, as applicable, is terminated and that any termination of the RSSOM Project Agreement or North Civil Project Agreement, as applicable, by any Party, if found to be wrongful, would be adequately compensated for by an award of damages.
- (b) Any Party may bring an application or motion directly to the Ontario Superior Court of Justice for a determination regarding appointment of a challenged or a proposed alternative CIDB Member or arbitrator.
- (c) All litigation permitted pursuant this Integration Dispute Resolution Procedure shall be resolved in the Ontario Superior Court of Justice. All Parties irrevocably attorn to the exclusive jurisdiction of the courts of the Province of Ontario in respect of any Integration Disputes which are to be resolved by litigation.

6. Stay and Consolidation with Third Party and Integration Disputes

- (a) Subject to Section 6(c), if any Party is involved in an arbitration in the Province of Ontario with a third party (“**Third Party Arbitration**”), and if such Third Party Arbitration involves common factual or legal issues (including common issues of damages) which are also the subject of an Integration Dispute, then any arbitration of the Integration Dispute which includes those common factual, legal or damages issues may be stayed, consolidated or joined with the Third Party Arbitration(s) but only if the Parties to the Integration Dispute and the other parties to such Third Party Arbitration all agree in writing.
- (b) Subject to Section 6(c), if any Party is involved in litigation in the Province of Ontario with a third party (“**Third Party Litigation**”) and if:
- (i) such Third Party Litigation involves common factual or legal issues (including common issues of damages) which are the subject of an arbitration under this Integration Dispute Resolution Procedure ; and
 - (ii) such Party is brought directly into the Third Party Litigation as a party to that litigation,
- then on the application of any Party to the court in the Province of Ontario having jurisdiction the court may, if it determines that it is just and convenient in all the circumstances, order a stay of the Third Party Litigation.
- (c) Sections 6(a) and 6(b) only apply:
- (i) if the Integration Dispute includes a claim by one Party against another for contribution or indemnity for that Party’s liability or potential liability to the third party where such liability results or will result from an award in the Third Party Arbitration or a judgment in the Third Party Litigation; and
 - (ii) to those specific issues that are common issues in the arbitration under this Integration Dispute Resolution Procedure and the Third Party Arbitration or the Third Party Litigation, such that all other issues in the Integration Dispute shall continue to be resolved by arbitration under this Integration Dispute Resolution Procedure and shall not be consolidated with the Third Party Arbitration or Third Party Litigation.
- (d) Where two or more Integration Disputes are pending between or among Contracting Authority and any Civil Contractor(s), at any stage of the Integration Resolution Dispute Procedure, the Parties to such Integration Disputes may agree or the CIDB or arbitral tribunal, as applicable, may order that:
- (i) an Integration Dispute shall be considered or consolidated with, or heard at the same time as or immediately before or after, another Integration Dispute; or
 - (ii) claims made in an Integration Dispute shall be:
 - (A) stayed until after the determination of claims in another Integration Dispute; or,
 - (B) asserted by way of counterclaim, crossclaim or third party claim in another Integration Dispute.

7. Confidentiality

- (a) Unless otherwise agreed by the Parties in writing or required by law, no Party shall rely on or introduce as evidence in any subsequent proceeding or investigation, and shall treat as confidential and inadmissible in any arbitration or litigation proceeding or other investigation or proceeding, any information, data, statements, submissions, admissions, settlement proposals, recommendations, discussions, opinions, or any other documents within the meaning of the *Rules of Civil Procedure*, other than documents which would otherwise be admissible pursuant to the *Rules of Civil Procedure*, which were obtained, exchanged or delivered:
- (i) on a without prejudice basis, including through the process for the amicable resolution of the Integration Dispute by the Party Executives set out in Section 2; or
 - (ii) through the decision process by any Party or the CIDB or any CIDB Member, except for a decision and reasons of the CIDB, which may be introduced in any subsequent dispute resolution processes or proceedings regarding the same Integration Dispute(s).
- (b) Any CIDB Member or arbitrator appointed pursuant this Integration Dispute Resolution Procedure shall keep all information about any Integration Dispute(s) referred to the CIDB or for arbitration confidential and shall not disclose such information to anyone other than the Parties.
- (c) Any arbitrator shall execute non-disclosure agreements in a form satisfactory to the Parties, providing that, among other things, material delivered by a Party in connection with arbitration shall not be disclosed to any person or used for any other purpose, in accordance with this Section 7, and all such material shall remain the property of the Party disclosing or delivering same.
- (d) A Member of the CIDB or arbitrator shall not be compelled to give evidence in any proceeding in respect of an Integration Dispute that was referred to the CIDB or arbitrator for a decision.

8. Miscellaneous

- (a) The Parties can, by written agreement on an Integration Dispute by Integration Dispute basis:
- (i) extend any or all timelines set out in this Integration Dispute Resolution Procedure;
 - (ii) agree to waive or by-pass any one or more of the Integration Dispute resolution processes in Sections 2 and 3 and, instead, proceed directly to resolution of the Integration Dispute by arbitration pursuant to Sections 4;
 - (iii) agree to a different process for arbitration than the one contemplated in this Integration Dispute Resolution Procedure; or
 - (iv) agree to refer any Integration Dispute to mediation by a neutral third party mediator.

ATTACHMENT 1 TO APPENDIX A

**FORM OF CIDB MEMBER STATEMENT OF ACCEPTANCE, AVAILABILITY,
IMPARTIALITY AND INDEPENDENCE**

TO: METROLINX, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency in accordance with the *Crown Agency Act*, R.S.O. 1990, c. 48

(“Contracting Authority”)

AND TO: THE MINISTER OF INFRASTRUCTURE

AND TO: CONNECT 6IX GENERAL PARTNERSHIP (“RSSOM Project Co”)

AND TO: [•] (“North Civil Project Co”)

[Note: North Civil Project Co may be a corporation, a limited partnership or a general partnership, in each case formed under the laws of any Canadian jurisdiction and otherwise acceptable to Contracting Authority.]

RE: The **INTERFACE AGREEMENT** dated the [•] day of [•], 20[•] between Contracting Authority, RSSOM Project Co and North Civil Project Co, the **RSSOM PROJECT AGREEMENT** dated the 15th day of November, 2022 between Contracting Authority and RSSOM Project Co, and the **NORTH CIVIL PROJECT AGREEMENT** dated the [•] day of [•], 20[•] between Contracting Authority and North Civil Project Co, each in respect of the Ontario Line Subway

1. General

1.1 Name and Position

- (a) Family Name(s):
- (b) Given Name(s):
- (c) CIDB Member Position (circle one): Technical or Chair
- (d) Please attach a current copy of your CV.

1.2 Definitions, Interpretation and Governing Law

- (a) This statement (the “**Statement**”) shall be interpreted in accordance with the Interface Agreement, the RSSOM Project Agreement and the North Civil Project Agreement, and governed by the laws of Ontario, without regard to conflict of laws provisions. Please initial below all relevant statements.

1.3 Acceptance

- (a) I accept to serve as a Combined Integration Dispute Board (“**CIDB**”) Member (“**CIDB Member**”) in accordance with the Interface Agreement, the RSSOM Project Agreement and the North Civil Project Agreement.

Initial: _____

- (b) I decline to serve as a CIDB Member in accordance with the Interface Agreement, the RSSOM Project Agreement and the North Civil Project Agreement. *(If you tick here, simply date and sign the form without completing any other sections).*

Initial: _____

1.4 Availability

- (a) I confirm, on the basis of the information presently available to me that I have received and reviewed a copy of the Interface Agreement and can devote the time necessary to discharge the duties of a CIDB Member throughout the entire duration of the CIDB’s anticipated activities as diligently, efficiently and expeditiously as possible in accordance with the timelines and procedures set out in the Interface Agreement.

Initial: _____

- (b) I understand that it is important to discharge the duties of a CIDB Member set out in the Interface Agreement as promptly as reasonably practicable. My current and anticipated professional roles and significant engagements are set out below for the information of the Parties (anonymized as necessary to remain compliant with my professional obligations).

Initial: _____

Number of currently pending matters or roles in which I am involved (*i.e. arbitrations and dispute board activities pending now, not previous experience; additional details you wish to make known to the Parties in relation to these matters can be provided on a separate sheet*):

	As tribunal or dispute board chair / sole arbitrator / sole DB member	As co-arbitrator / co-dispute board member	As counsel	As other
Standing dispute boards				
Ad-hoc dispute boards				
Arbitrations				
Court litigation (e.g. international)				

	As tribunal or dispute board chair / sole arbitrator / sole DB member	As co-arbitrator / co-dispute board member	As counsel	As other
commercial courts)				
Other (attach separate sheet if necessary)				

I have attached a calendar showing for the next twenty-four (24) months all currently scheduled hearings and other existing commitments (anonymized as necessary) that would prevent me from attending meetings or sitting in a hearing on this Project.

I have further marked in the box below or on a separate sheet any other relevant information regarding my availability.

- (c) I shall make best efforts to maintain the availability necessary to discharge the duties of a CIDB Member throughout the entire duration of the CIDB’s anticipated activities which require my involvement, and shall immediately disclose in writing to the Parties and the other CIDB Members any additional significant matters that I may become involved in and any other relevant information regarding my availability which may arise in the course of my tenure as a CIDB Member and which may materially affect my ability to discharge my duties as a CIDB Member.

Initial: _____

1.5 Independence and Impartiality

- (a) In deciding which disclosure method applies to you, you should take into account, whether there exists any past, present or future, anticipated or planned relationship, direct or indirect, whether financial, professional or of any other kind, between you and any of the Parties, their lawyers or other representatives, or related entities and individuals. You are also required to disclose all recent, professional or personal, relationships with all key members of all Parties. Any doubt must be resolved in favour of disclosure. Any disclosure should be complete and specific, identifying *inter alia* relevant dates (both start and end dates), financial arrangements, details of companies and individuals, and all other relevant information.
 - (i) **Nothing to disclose:** I am impartial and independent of the Parties and intend to remain so. To the best of my knowledge, and having made due enquiry, there are no facts or circumstances, past or present, that I should disclose because they might be of such a nature as to call into question my independence in the eyes of any of the Parties and no circumstances that could give rise to reasonable doubts as to my impartiality.

Initial: _____

- (ii) **Acceptance with disclosure:** I am impartial and independent and intend to remain so. However, mindful of my obligation to disclose any facts or circumstances which might be of such a nature as to call into question my independence in the eyes of any of the Parties or that could give rise to reasonable doubts as to my impartiality, I draw attention to the matters below and/or on the attached sheet.

I confirm that the matters disclosed above represent full and complete disclosure with respect to any facts or circumstances which might be of such a nature as to call into question my independence in the eyes of any of the Parties or that could give rise to reasonable doubts as to my impartiality.

Initial: _____

- (b) I shall make best efforts to maintain the independence and impartiality necessary to discharge the duties of a CIDB Member throughout the entire duration of the CIDB's anticipated activities, but shall immediately disclose in writing to the Parties and the other CIDB Members any facts or circumstances concerning my impartiality or independence which may arise in the course of my tenure as a CIDB Member.

Initial: _____

- (c) In accordance with the Interface Agreement, I understand that the Parties may exercise their right to challenge me on the basis of an alleged lack of impartiality, independence or qualifications. In the event that I do not withdraw and the other Parties do not agree to the challenge, I understand that the challenge shall be determined in accordance with the Interface Agreement.

Initial: _____

- (d) In the event that I am successfully challenged, I understand that I will be removed from the CIDB forthwith and that my CIDB Member Agreement shall be terminated.

Initial: _____

1.6 Delivery

- (a) This Statement may be delivered by sending a fully executed copy by electronic mail or other electronic transmission to the Parties, and such delivery shall be as effective as the manual delivery of this executed Statement.

ATTACHMENT 2 TO APPENDIX A
FORM OF CIDB MEMBER AGREEMENT

This CIDB Member Agreement (this “**Agreement**”) is entered into among:

- (a) **CIDB Member:** [●] [*Note: Full name and title (sole Member, CIDB Technical Member (the “CIDB Member”)*);
 - (b) **Party 1: METROLINX** (“**Contracting Authority**”);
 - (c) **Party 2: CONNECT 6IX GENERAL PARTNERSHIP** (“**RSSOM Project Co**”); and
 - (d) **Party 3:** [●] (“**North Civil Project Co**”),
- (collectively, the “**Undersigned Parties**”).

WHEREAS:

- A. The Undersigned Parties have entered into an agreement dated [**date of the Interface Agreement**] (the “**Interface Agreement**”) for the Ontario Line Subway (the “**Project**”);
- B. The Interface Agreement provides for the appointment of a Combined Integration Dispute Board (the “**CIDB**”), and that the CIDB shall, *inter alia*, issue decisions under the Interface Agreement, and perform other tasks in accordance with the Interface Agreement (the “**CIDB Services**”);
- C. Certain Integration Disputes may be referred to the CIDB for determination in accordance with the Interface Agreement; and
- D. The undersigned individual has been appointed to serve on the CIDB as a CIDB Member

The CIDB Member and the Parties therefore agree as follows:

1.1 Definitions and Interpretation

- (a) This Agreement shall be interpreted in accordance with the Interface Agreement and defined terms shall have the same meaning as in the Interface Agreement, unless otherwise specified here.
- (b) If there is any conflict between this Agreement and the Interface Agreement, this Agreement will take precedence to the extent of the conflict.

1.2 Undertaking

- (a) The CIDB Member shall act as [**a CIDB Technical Member/the CIDB Chair**] and hereby agrees to perform the duties of a CIDB Member and provide the CIDB Services in accordance with the terms of the Interface Agreement and the terms of this Agreement.
- (b) The CIDB Member confirms that he or she is and shall remain impartial and independent of the Parties.

- (c) The CIDB Member further confirms that he or she has executed and will comply with the terms of the CIDB Member Statement.

1.3 Composition of the CIDB and Contact Details

- (a) Subject to Section 3 of the Integration Dispute Resolution Procedure under the Interface Agreement, the CIDB shall be composed of three independent and impartial CIDB Members.

- (b) The CIDB Member can be contacted as follows: CIDB Member: *[Note: Include name, address, telephone, email and any other contact details.]*

- (c) The CIDB Chair is listed below and can be contacted as follows: CIDB Chair: *[Note: Include name, address, telephone, email and any other contact details.]*

- (d) The **[other CIDB Technical Member]** is listed below and can be contacted as follows: CIDB Technical Member: *[Note: Include name, address, telephone, email and any other contact details.]*

- (e) The Parties to the Interface Agreement are those indicated above with the following contact details:

- (i) Party 1:

Metrolinx
2 Queen Street East, 11th Floor
Toronto, Ontario
M5C 3G7

Attn.: **[REDACTED]**
Email: **[REDACTED]**

- (ii) Party 2:

[REDACTED]

Attn.: **[REDACTED]**
Email: **[REDACTED]**

with a copy to:

[REDACTED]

Attn.: **[REDACTED]**
Email: **[REDACTED]**

and:

[REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

and:

[REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

(iii) Party 3: *[Note: Include contact information.]*

(f) Any changes in these contact details shall be immediately communicated to all other Undersigned Parties.

1.4 Qualifications

(a) The Parties recognise that the CIDB Member is a [●], in accordance with Section 3.1(c) of the Integration Dispute Resolution Procedure under the Interface Agreement.

(b) The Parties recognise that the CIDB Member is independent, impartial and skilled in resolving and deciding disputes of a type, complexity and value commensurate with the Integration Dispute(s) likely to be referred to the CIDB, in accordance with Section 3.1(d) of the Integration Dispute Resolution Procedure under the Interface Agreement.

1.5 Fees and Disbursements

(a) In consideration of the CIDB Member performing the CIDB activities in accordance with this Agreement and the Interface Agreement, the CIDB Member shall be entitled to be paid the initial fee (the “**Initial Fee**”) and the ad-hoc hourly fee (the “**Ad-hoc Hourly Fee**”) described in this Section 1.5.

(b) The Initial Fee shall be a lump sum amount equal to CAD \$[REDACTED] and shall be reflected in the first invoice of the CIDB Member provided pursuant to Section 1.6(a).

(c) The CIDB Member’s Initial Fee shall cover:

(i) reviewing and becoming and remaining familiar with the RSSOM Project Agreement and the North Civil Project Agreement, including without limitation, the Output Specifications, Schedule 43 – North Civil Infrastructure Access and Handover of the RSSOM Project Agreement, and Schedule 45 – Integration with the RSSOM Project of the North Civil Project Agreement;

(ii) reviewing any relevant amendments to the RSSOM Project Agreement, the North Civil Project Agreement and Variation Confirmations;

(iii) reviewing correspondence from the Parties, and other documents which the CIDB is required to review;

- (iv) reviewing specific documents which the CIDB requests for its review;
 - (v) attending internal CIDB meetings;
 - (vi) attending meetings and/or any site visits in which the CIDB is required to participate;
 - (vii) providing informal assistance with Integration Disputes or potential Integration Disputes;
 - (viii) managing and coordinating the operation of the CIDB; and
 - (ix) any overhead and office expenses.
- (d) The CIDB Member's Ad-hoc Hourly Fee shall be [CAD \$[●] per hour], and shall be billed in hourly increments for certain work performed. The Ad-hoc Hourly Fee shall cover:
- (i) preparation for and attendance at ad-hoc meetings/site visits with the Parties; and
 - (ii) any work carried out in connection with referrals for a CIDB decision, including preparation, attendance at hearings, review of the Parties' submissions, delivery of the CIDB decision, and revisions to same.
- (e) Any non-productive ad-hoc travel shall be reimbursed at half the hourly rate of the CIDB Member's Ad-hoc Hourly Fee.
- (f) Reasonable CIDB Member expenses and disbursements relating to (i) flights (at economy class rates), (ii) hotel (to a maximum of CAD \$[REDACTED] per night), and (iii) the cost of retaining any experts shall be reimbursed at cost, with the prior approval of the Parties. All other costs and disbursements are and shall be deemed to be included in the Initial Fee and the Ad-hoc Hourly Fee. The CIDB Member shall retain all receipts and proof of payment of claimed disbursements and expenses, and shall provide them to the Parties or any Party upon request. The Parties shall have no obligation to reimburse the CIDB Member if the CIDB Member fails to produce receipts and proof of payment upon request.

1.6 Payment of Fees and Expenses

- (a) Unless otherwise agreed by the Parties and the CIDB Member in writing, all fees, expenses and disbursements payable under this Agreement shall be invoiced by the CIDB Member to the Parties on a monthly basis, which invoice shall reflect the performance of the CIDB activities performed in the previous month and be in form and substance reasonably satisfactory to the Parties.
- (b) RSSOM Project Co, North Civil Project Co and Contracting Authority shall each pay one third of such fees, expenses and disbursements to the CIDB Member, with the exception of the Initial Fee, which shall be split (i) [REDACTED]% by Contracting Authority and (ii) [REDACTED]% by each of RSSOM Project Co and North Civil Project Co. While each Party is responsible for paying its portion of the CIDB Member's fees, expenses and disbursements, this obligation is several and not joint. If one Party fails to make payment, the other Parties may make payment of the amounts owed by the non-paying Party and recover the costs of doing so from the non-paying Party, but has no obligation to do so.

- (c) All payments to the CIDB Member shall be made to the following account: **[name of bank, account number, SWIFT code, etc.]**.
- (d) All payments to the CIDB Member under this Agreement shall be payable by the Parties monthly in arrears, and by no later than the date that is thirty (30) days of the receipt by the Parties of an invoice provided by the CIDB Member in accordance with this Agreement.
- (e) Intentionally deleted.

1.7 Duration and Termination of this Agreement

- (a) Subject to Section 3 of the Integration Dispute Resolution Procedure under the Interface Agreement, the CIDB Member agrees to serve for the duration of the CIDB to the extent reasonably possible.
- (b) The Parties may at any time, without cause and with immediate effect, jointly terminate this Agreement.
- (c) The CIDB Member may terminate this Agreement at any time by giving a minimum of three months' written notice to the Parties, unless otherwise agreed by the Parties and the CIDB Member in writing.
- (d) If the CIDB Member is successfully challenged in accordance with Section 4.3 of Appendix A to the CIDB Member Agreement, the CIDB Member shall be removed forthwith from the CIDB and this Agreement shall be terminated.
- (e) The CIDB Member shall be entitled to claim payment for work performed to the date of termination of this Agreement in accordance with this Agreement, but shall not be entitled to claim any further payment.

1.8 Indemnity

- (a) The Parties shall jointly and severally indemnify and hold harmless the CIDB Member from any claims of third parties for anything done or omitted to be done in the discharge of the CIDB Member's activities under this Agreement.
- (b) The indemnity provided in Section 1.8(a) shall not extend to:
 - (i) any act or omission of the CIDB Member that is shown to have been in bad faith;
 - (ii) any breach of this Agreement by the CIDB Member,
 - (iii) any negligent or unlawful act or omission or willful misconduct of the CIDB Member;
 - (iv) any action taken by the CIDB Member outside the scope of authority set forth in this Agreement; or
 - (v) any debt, cost, expense, claim or demand for which insurance proceeds are recoverable by the CIDB Member.

- (c) The indemnity provided in Section 1.8(a) shall survive the termination of this Agreement.

1.9 Confidentiality

- (a) The CIDB Member and all of the member's affiliates, employees, servants and agents shall keep all information about the Project, the CIDB Member's involvement on the Project, any CIDB Services performed by the CIDB, and any Integration Dispute(s) referred for a CIDB decision strictly confidential and shall not disclose such information to anyone other than the Parties.
- (b) The CIDB Member shall treat as confidential any information, data, statements, submissions, admissions, settlement proposals, recommendations, discussions, opinions, or any other documents within the meaning of the *Rules of Civil Procedure*, other than documents which would otherwise be admissible pursuant to the *Rules of Civil Procedure*, which were obtained, exchanged or delivered on a without prejudice basis or through the CIDB decision process by any other Party or the CIDB or any CIDB Member, except as set out in Section 7(a)(ii) of the Integration Dispute Resolution Procedure under the Interface Agreement.
- (c) Material delivered by a Party in connection with a CIDB decision shall not be disclosed to any person or used, copied, supplied or reproduced for any other purpose other than for the performance of the CIDB Services, and all such material shall remain the property of the Party disclosing or delivering same.
- (d) The CIDB Member shall be bound by and shall comply with the confidentiality and communication provisions set out in Section 52 (*Confidentiality/Communications*) of the RSSOM Project Agreement and Section 40 (*Confidentiality*) of the North Civil Project Agreement.
- (e) The Parties may at any time require the CIDB Member to give and to arrange for its officers, directors, members, employees, servants and agents engaged in the performance of the CIDB Services to give written undertakings, in the form of confidentiality agreements on terms required by the Parties, relating to the non disclosure of confidential information, in which case the CIDB Member must promptly arrange for such agreements to be made.

1.10 Disputes and Applicable Law

- (a) All disputes arising out of this Agreement which are not subject to resolution pursuant to Section 5(b) of the Integration Dispute Resolution Procedure under the Interface Agreement shall be finally settled by arbitration by one arbitrator agreed by the Undersigned Parties in writing or appointed in accordance with the *Arbitration Act*, 1991. This Agreement shall be governed by the laws of Ontario, without regard to conflict of laws provisions. The place of arbitration shall be Toronto, Ontario. The language of the arbitration shall be English.

1.11 Counterparts

- (a) This Agreement may be executed in one or more counterparts. Any single counterpart or a set of counterparts executed, in either case, by all the parties shall constitute a full, original and binding agreement for all purposes. Delivery of an executed counterpart by sending a copy by electronic mail or other electronic transmission shall be as effective as the manual delivery of an executed counterpart.

SCHEDULE 40

RAIL CORRIDOR ACCESS AND FLAGGING

1. INTERPRETATION AND DEFINITIONS

1.1 Schedule Documents

- (a) This Schedule 40 consists of the main body of this Schedule 40 and the appendices and attachments as follows:
- (i) Appendix A – Project-Specific Provisions, including,
 - (A) Attachment 1 to Appendix A – Rules of the Route;
 - (ii) Appendix B – Implementation of Track Protection and Flagging;
 - (iii) Appendix C – Train Schedules, including;
 - (A) Attachment 1 to Appendix C – Future Service Increases;
 - (iv) Appendix D – Operations and Maintenance Phase;
 - (A) Attachment 1 to Appendix D – Required Mitigation Measures For Operations and Maintenance Activities;
 - (v) Appendix E – Intentionally Deleted;
 - (vi) Appendix F – Third Party Operator Railway Operations Provisions; and
 - (vii) Appendix G – Metrolinx Dedicated Risk Assessment Process, including,
 - (A) Attachment 1 to Appendix G – Advance Dedicated Risk Assessments.

1.2 Definitions

In this Schedule 40, unless the context indicates a contrary intention, terms that are defined in the Project Agreement (and not otherwise defined in this Schedule 40) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) “**Access Agreements**” means the agreements that Project Co is obliged to execute to access the CN Territory or the CP Territory, as applicable, as set out in Appendix A to this Schedule 40.
- (b) “**Access Approval Process**” has the meaning given in Section 4.1(a).
- (c) “**Access Opportunities Calendar**” has the meaning given in Section 3.2(a), as amended from time to time.

- (d) “**Adjacent Track Closed**” has the meaning given in the GO Transit General Engineering Instructions.
- (e) “**Advance Metrolinx Dedicated Risk Assessment**” has the meaning given in Attachment 1 to Appendix G to this Schedule 40.
- (f) “**Annual Engineering Access Planning Meeting**” has the meaning given in the Metrolinx Network Access Planning Standard;
- (g) “**Applicable CROR**” has the meaning given in Section 2.2(a).
- (h) “**Application for Access**” has the meaning given in Section 4.4(a).
- (i) “**Barrier**” means,
 - (i) a structure that creates a physical barrier; or
 - (ii) a space that creates a barrier without a structure.
- (j) “**Booking Request**” has the meaning given in Section 4.3(a).
- (k) “**Canadian Pacific Minimum Safety Requirements for Contractors Working on CP Property in Canada**” means the Rail Corridor Access requirements of CP Rail.
- (l) “**Canadian Rail Operating Rules**” or “**CROR**” means the Transport Canada Canadian Rail Operating Rules, as at the Technical Reference Date.
- (m) “**Category of Access**” has the meaning given in Section 3.1(a).
- (n) “**CN Standards**” mean the Canadian National Railway Company standards set out in the Output Specifications.
- (o) “**CN Supplemented CROR**” means the CROR as revised or supplemented by CN Rail from time to time for application on the CN Territory.
- (p) “**CN Territory**” means that part of the Rail Corridors owned by CN Rail.
- (q) “**Control Location**” means a portion of the Rail Corridor to which specific Rail Corridor Access rules apply, as set out in Attachment 1 to Appendix A to this Schedule 40.
- (r) “**CP Railway Maintenance and Freight Information**” means the CP Rail railway maintenance and freight information attached as Appendix F to this Schedule 40.
- (s) “**CP Standards**” mean the Canadian Pacific Railway Company standards set out in the Output Specifications.
- (t) “**CP Supplemented CROR**” means the CROR as revised or supplemented by CP Rail from time to time for application on the CP Territory.

- (u) “**CP Territory**” means that part of the Rail Corridors owned by CP Rail.
- (v) “**Delivering Work Within Possessions**” has the meaning given in the Work Plan Methodology Template User Manual.
- (w) “**Disruptive Possession Access**” has the meaning given in the Metrolinx Network Access Planning Standard.
- (x) “**Emergency Rail Situation**” means any situation that, in the opinion of CN Rail, CP Rail or Metrolinx, causes an immediate and serious threat or danger to the public, Contracting Authority Parties, or Project Co Parties, or that causes an immediate and serious threat to VIA Rail’s, CN Rail’s, CP Rail’s or Metrolinx’s Railway Operations.
- (y) “**Foul of Track**” means that an individual and/or work equipment is,
 - (i) within four feet of the nearest rail;
 - (ii) within the GO Transit Heavy Rail Clearance Envelopes; or
 - (iii) on or over the yellow line at the edge of station platforms,and “**Fouling of Track**” has a corresponding meaning.
- (z) “**Fouling**” means encroaching on prohibited GO Transit Heavy Rail Clearance Envelopes.
- (aa) “**General Access Rules**” has the meaning given in Section 6.2(a).
- (bb) “**GO Transit General Engineering Instructions**” means the GO Transit General Engineering Instructions dated April 2020, as at the Technical Reference Date.
- (cc) “**GO Transit Heavy Rail Clearance Envelopes**” has the meaning given in the GO Transit Track Standards.
- (dd) “**GO Transit Track Standards**” means the GO Transit Track Standards dated May 2018, as at the Technical Reference Date.
- (ee) “**Green Work Complexity Assessment**” has the meaning given in the Work Plan Methodology Template User Manual.
- (ff) “**Main Track**” has the meaning given in Appendix A to this Schedule 40.
- (gg) “**Major Track Closure**” has the meaning given in the Metrolinx Network Access Planning Standard.
- (hh) “**Metrolinx Access Contact**” has the meaning given in Section 7.2(a)(i).
- (ii) “**Metrolinx Dedicated Risk Assessment**” has the meaning given in Appendix G to this Schedule 40

- (jj) “**Metrolinx Network Access Planning Standard**” means the Metrolinx Network Access Planning Standard dated May 2021, as at the Technical Reference Date.
- (kk) “**Metrolinx Supplemented CROR**” means the CROR as revised and supplemented by Metrolinx from time to time for application on the Metrolinx Territory.
- (ll) “**Metrolinx Territory**” means that part of the Rail Corridors owned by Metrolinx.
- (mm) “**Minor Track Closure**” has the meaning given in the Metrolinx Network Access Planning Standard.
- (nn) “**No Comment or Reviewed As Noted-Minor Issues Designation**” means a designation, determined by Contracting Authority after review of a Works Submittal in accordance with Schedule 10 – Review Procedure, of either,
 - (i) “NO COMMENT” on the applicable Works Submittal; or
 - (ii) “REVIEWED AS NOTED-MINOR ISSUES” on the applicable Works Submittal, with no “RE-SUBMIT” requirement, and provided that all non-conformances noted in the review have been corrected.
- (oo) “**Non-Disruptive Access**” has the meaning given in the Metrolinx Network Access Planning Standard;
- (pp) “**Peak Hours**” means the peak hours applicable to the Project Rail Corridor as set out in Appendix A to this Schedule 40.
- (qq) “**Permitted Rail Corridor Access**” is a Rail Corridor Access for which Metrolinx has issued a Rail Corridor Access Permit.
- (rr) “**Planned Railway Operations Changes**” has the meaning given in Section 2.1(c)(vi).
- (ss) “**Platform Closure**” has the meaning given in the Metrolinx Network Access Planning Standard.
- (tt) “**Possession Pack**” has the meaning given to it in the Metrolinx Network Access Planning Standard.
- (uu) “**Project Rail Corridor**” means the Rail Corridor(s) applicable to this Project as set out in Appendix A to this Schedule 40.
- (vv) “**Project Specific Access Rules**” has the meaning given in Section 6.2(b).
- (ww) “**Quarterly Disruptive Possession Meeting**” has the meaning given in the Metrolinx Network Access Planning Standard.
- (xx) “**Rail Corridor**” means each of the Union Station, Lakeshore East, Lakeshore West, Milton, Barrie, Kitchener, Richmond Hill and Stouffville rail corridors and “**Rail Corridors**” means all rail corridors.

- (yy) “**Rail Corridor Access**” means entry onto one or more of the Rail Corridors.
- (zz) “**Rail Corridor Access Permit**” has the meaning given in Section 4.6(a).
- (aaa) “**Rail Corridor Access Plan**” has the meaning given in Section 3.3(a).
- (bbb) “**Rail Corridor Access Site**” means the part of the Rail Corridor on which Project Co is permitted to perform Works as set out in a Rail Corridor Access Permit.
- (ccc) “**Rail Corridors Infrastructure Handover Protocols**” means the GO Transit Rail Corridors Infrastructure Handover Protocols, as at the Technical Reference Date.
- (ddd) “**Railway Flag Person**” means the foreman and other flag persons in charge of the protection of track work and Track Units during the Rail Corridor Access and by way of flagging.
- (eee) “**Railway Maintenance**” means the maintenance activities being carried out on or adjacent to the Rail Corridor at any time.
- (fff) “**Railway Operations**” means the operation of one or more active railways by Metrolinx or Third Party Operators, including, for clarity, the passage of freight, equipment, and passenger trains both in revenue service and non-revenue service.
- (ggg) “**Railway Safety Act (Canada)**” means the *Railway Safety Act*, 1985, c. 32 (4th Supp.), as amended from time to time.
- (hhh) “**Red Work Complexity Assessment**” means a Work Complexity Assessment in respect of Works that have a high risk of overrunning the finishing time of the corresponding Rail Corridor Access.
- (iii) “**Rule 841**” has the meaning given in the Canadian Rail Operating Rules.
- (jjj) “**Rule 842**” has the meaning given in the Canadian Rail Operating Rules.
- (kkk) “**Rules of the Route**” means the rules set out in Attachment 1 to Appendix A to this Schedule 40, as amended by Contracting Authority from time to time to reflect Planned Railway Operations Changes.
- (lll) “**Signal Person**” means the Project Co employee responsible for communicating with the Railway Flag Person to govern Project Co’s entrance into the Rail Corridor Access Site.
- (mmm) “**Special Request Meeting**” has the meaning given in Section 3.4(a)(iv).
- (nnn) “**Subcategory of Access**” has the meaning given in Section 3.1(a).
- (ooo) “**Subdivision**” and “**Subdivisions**” means a subdivision or subdivisions on a Rail Corridor.
- (ppp) “**T-8 Week Process**” has the meaning given in the Metrolinx Network Access Planning Standard.

- (qqq) “**Third Party Operators**” means third parties to whom Metrolinx grants the right to carry out Railway Operations on the Metrolinx Territory including CN Rail, CP Rail and VIA Rail or third parties who carry out Railway Operations on the CN Territory or CP Territory.
- (rrr) “**Track Closure**” means the closure of one or more tracks within the Rail Corridor.
- (sss) “**Track Protection**” has the meaning given in Section 9.1(a).
- (ttt) “**Track Protection Forecast**” has the meaning given in Section 9.1(e).
- (uuu) “**Track Unit**” means a vehicle or machine capable of on-track operation and utilized for track inspection, track work and other railway activities when on the track.
- (vvv) “**Train Schedules**” means the current and projected train schedules set out in Appendix C to this Schedule 40 and the Third Party Operator Railway Operations provisions set out in Appendix F to this Schedule 40.
- (www) “**White Period Access**” has the meaning given in the Metrolinx Network Access Planning Standard.
- (xxx) “**Work Complexity Assessment**” has the meaning given in Section 4.3(a)(v).
- (yyy) “**Work Event and Protection Request**” has the meaning given in Section 4.4(a).
- (zzz) “**Work Plan Methodology Template**” has the meaning given in Section 4.5(a).
- (aaaa) “**Work Plan Methodology Template User Manual**” means the Metrolinx Work Plan Methodology Template User Manual, as at the Technical Reference Date.
- (bbbb) “**Zone**” means an area within the Rail Corridor that contains multiple Control Locations and is defined for the purposes of limiting simultaneous Major Track Closure and/or Minor Track Closure, as set out in Appendix A to this Schedule 40.

2. ACCESSING THE RAIL CORRIDOR

2.1 Fundamental Requirements of Rail Corridor Access

- (a) Project Co shall not,
- (i) access any part of any Rail Corridor unless and until it has received a Rail Corridor Access Permit for Rail Corridor Access;
 - (ii) enter or occupy any part of a Rail Corridor during a Permitted Rail Corridor Access other than the Rail Corridor Access Site that is explicitly approved in the Rail Corridor Access Permit;
 - (iii) commit any Fouling or Fouling of Track without the consent of Metrolinx, unless explicitly permitted in a Rail Corridor Access Permit; or

- (iv) perform any Works on or adjacent to a Rail Corridor, unless,
 - (A) Project Co's Contractor Site Specific Safety Manual has been reviewed by Contracting Authority;
 - (B) Project Co has executed all Access Agreements applicable to the Project Rail Corridor as set out in Appendix A to this Schedule 40; and
 - (C) Project Co has scheduled, applied for, and received a Rail Corridor Access Permit and Track Protection for the applicable Works in accordance with this Schedule 40.
- (b) Metrolinx may, at any time, implement, or decline to implement a Planned Railway Operations Change. Contracting Authority shall provide Project Co at least seven (7) days' Notice prior to the implementation of a Planned Railway Operations Change.
- (c) Project Co acknowledges and agrees that,
 - (i) certain portions of the Works may have to be carried out on or adjacent to tracks on which Railway Operations, Railway Maintenance, and works by third party contractors are carried out;
 - (ii) portions of the Works may be carried out on CP Territory or CN Territory as set out in Appendix A to this Schedule 40;
 - (iii) Other Contractors performing construction or maintenance activities may have Permitted Rail Corridor Accesses at the same time and in close proximity to Project Co's Permitted Rail Corridor Access;
 - (iv) if Project Co's performance of the Works requires Rail Corridor Access, these Works will be affected by Railway Operations;
 - (v) the freight trains that operate on the Rail Corridor do not operate in accordance with a prescribed schedule;
 - (vi) the schedules for Railway Operations change from time to time, and Project Co shall plan, design and organize its construction means and methodologies in accordance with the Access Opportunities Calendar and the planned changes to Railway Operations set out in the Train Schedules, including, for clarity, the changes to peak periods and frequency of trains ("**Planned Railway Operations Changes**"); and
 - (vii) Project Co shall,
 - (A) only be permitted to submit a Booking Request that is shown as available in the current Access Opportunities Calendar; and
 - (B) have no special rights with respect to the Access Opportunities Calendar, subject only to the right to submit advance Booking Requests prior to Commercial Close.

- (d) Project Co shall plan, design and organize its construction and maintenance means and methodologies,
- (i) with regard to the access that is available to Project Co in accordance with the Access Opportunities Calendar, Rules of the Route, the Train Schedules, and the rules for applying for and receiving Rail Corridor Access in accordance with this Schedule 40;
 - (ii) to anticipate Railway Operations and Railway Maintenance based on the Train Schedules, the Access Opportunities Calendar, and information set out in Appendix A to this Schedule 40;
 - (iii) to avoid interference with all Railway Operations;
 - (iv) in accordance with the access provisions applicable to the Project Rail Corridor, or any parts thereof, as set out in the Project Agreement, including, for clarity, the Output Specifications, Schedule 35 – Lands, Schedule 29 – Safety, System Assurance and Security and this Schedule 40;
 - (v) in accordance with the applicable Rail Corridor Access Permit;
 - (vi) to anticipate the lack of predictability of the passage of freight trains on the Project Rail Corridor, in accordance with Appendix F to this Schedule 40;
 - (vii) to ensure that safe and uninterrupted Railway Operations always take priority over the performance of the Works, subject only to the applicable Permitted Rail Corridor Access;
 - (viii) in accordance with the corresponding (i) Metrolinx-approved Metrolinx Dedicated Risk Assessment, as applicable, as set forth in Appendix G to this Schedule 40 and (ii) Metrolinx-accepted Advance Metrolinx Dedicated Risk Assessment, as applicable, as set forth in Attachment 1 to Appendix G to this Schedule 40; and
 - (ix) in accordance with the corresponding provisions for Rail Corridor Access during the Project Co Services as outlined in Appendix D to this Schedule 40.
- (e) Project Co shall,
- (i) prepare and serve all notices of Works on the Project Rail Corridor as required under the *Railway Safety Act* (Canada);
 - (ii) respond to any objection received in respect of any notices of Works on the Project Rail Corridor served as required under the *Railway Safety Act* (Canada); and
 - (iii) obtain all required Permits, Licences, Approvals and Agreements, in addition to the Rail Corridor Access Permit, that are required to carry out the Works that are the subject of the Rail Corridor Access Permit.
- (f) With respect to Works carried out under a Rail Corridor Access Permit on CN Territory and CP Territory, Project Co shall,

- (i) permit and facilitate access to the Rail Corridor Access Site(s), the Works on the Rail Corridor Access Site(s), and all documentation regarding Works on the Rail Corridor Access Site(s) for,
 - (A) CN Rail or CP Rail representatives, as applicable; and
 - (B) utility owners, in the case of utility crossings on the Project Rail Corridor;
 - (ii) provide monthly reports, with sections of the monthly reports that are with respect to CN Rail, the CN Territory, CP Rail and the CP Territory for CN Rail and CP Rail, to Metrolinx on the progress of the Works on the Rail Corridor Access Site(s), including any Permits, Licences, Approvals and Agreements, public consultations, changes, and schedules, which reports Metrolinx will forward to CN Rail or CP Rail, as applicable; and
 - (iii) together with Contracting Authority, meet with representatives of CN Rail or CP Rail, as applicable, on at least a monthly basis to review the progress of and any issues relating to the Works on the Rail Corridor Access Site(s).
- (g) Project Co shall use the web-based system prescribed by Contracting Authority to access and make applications related to the Access Approval Process, including the online submission of any documentation described in this Schedule 40.

2.2 Canadian Rail Operating Rules – Supplementary Provisions

- (a) Metrolinx carries out Railway Operations on Metrolinx Territory, CN Territory and CP Territory. While each of Metrolinx, CN Rail and CP Rail applies the CROR on its own Territory, each of Metrolinx, CN Rail and CP Rail may revise or supplement the CROR with additional provisions or requirements specific to the Metrolinx Territory, the CN Territory or the CP Territory. The CROR that is applicable to the Project is set out in Appendix A to this Schedule 40 (the “**Applicable CROR**”).

3. RAIL CORRIDOR ACCESS PLANNING

3.1 Categories of Permitted Access to the Rail Corridor

- (a) Metrolinx shall categorize each Rail Corridor Access into a category of access, in accordance with the Metrolinx Network Access Planning Standard, and as described in Attachment 1 to Appendix A to this Schedule 40 (each a “**Category of Access**” and each sub category a “**Subcategory of Access**”).
- (b) Project Co shall comply with the then current Rules of the Route.
- (c) Project Co acknowledges and agrees that,
- (i) Project Co may not be eligible to apply for all Categories of Access and Subcategories of Access; and

- (ii) the only Categories of Access and Subcategories of Access that Project Co is eligible to apply for with respect to the Project and the Project Rail Corridor are set out in Appendix A to this Schedule 40.

3.2 Access Opportunities Calendar

- (a) Metrolinx shall create, maintain and update a calendar setting out the availability of all Categories of Access on the Rail Corridors (the “**Access Opportunities Calendar**”).
- (b) Project Co may, from time to time during the Project Term, submit Booking Requests based on the Access Opportunities Calendar in accordance with the following:
 - (i) Project Co acknowledges and agrees that Project Co may be one of many entities seeking Rail Corridor Access on the Project Rail Corridor. Project Co shall be entitled to the amount of Rail Corridor Access stated in Attachment 1 to Appendix A to this Schedule 40;
 - (ii) Project Co may submit advance Booking Requests prior to Commercial Close in accordance with Section 4.2, in which case, subject to Section 9.4(2) (*Rail Corridor Access-Advance Booking Requests*) of the RFP and Section 4.3 of this Schedule 40, the access dates requested in such advance Booking Requests shall be secured;
 - (iii) In respect of Booking Requests made by Project Co after Commercial Close, Project Co shall not receive preferential treatment with respect to the specific dates within any given calendar year, and Project Co shall not be eligible for a Delay Event, a Compensation Event or any other form of compensation or relief arising from the allocation of Rail Corridor Access opportunities to Project Co or Other Contractors; and
 - (iv) Metrolinx may amend the Access Opportunities Calendar to take into account the Planned Railway Operations Changes, opportunities for Rail Corridor Access that have been allocated, changes to Railway Operations and Railway Maintenance.
- (c) Project Co acknowledges and agrees that, if Metrolinx amends the Access Opportunities Calendar to take into account changes to Railway Operations that are not Planned Railway Operations Changes and, as a result, Project Co experiences delay or additional cost, such delay and cost shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be treated as a Delay Event, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event and, subject to and in accordance with Section 42 (*Excusing Causes*) of the Project Agreement, be treated as an Excusing Cause.
- (d) Project Co acknowledges and agrees that if Metrolinx elects not to implement any or a portion of the Planned Railway Operations Changes and, as a result,
 - (i) Project Co experiences delay or additional cost, such delay and cost shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be treated as a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event; and

- (ii) Project Co experiences cost savings or schedule efficiencies, then Contracting Authority shall be entitled to such cost savings and schedule efficiencies and, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation.

3.3 Rail Corridor Access Plan

- (a) No later than the deadline set out in Appendix A to this Schedule 40, Project Co shall submit its first Rail Corridor Access Plan, for review by Contracting Authority, in accordance with Schedule 10 – Review Procedure (the “**Rail Corridor Access Plan**”). Project Co’s first Rail Corridor Access Plan shall be substantially the same as the draft Rail Corridor Access Plan Project Co submitted, as Proponent, in the RFP process that preceded this Project Agreement.
- (b) Project Co shall not submit an Application for Access until its first Rail Corridor Access Plan has been reviewed pursuant to Schedule 10 – Review Procedure and has received a No Comment or Reviewed As Noted-Minor Issues Designation from Contracting Authority. As part of Contracting Authority’s review of the Rail Corridor Access Plan, Contracting Authority may comment on the matters set out in Sections 3.3(d)(i), 3.3(d)(ii) and 3.3(d)(iii) and the appropriateness of the Category of Access proposed by Project Co in accordance with Section 3.3(d)(iv) for each of Project Co’s proposed Rail Corridor Accesses. Project Co shall, acting reasonably, address Contracting Authority’s comments in its Rail Corridor Access Plan.
- (c) No later than the deadlines set out in the Metrolinx Network Access Planning Standard, Project Co shall submit updates to its then current Rail Corridor Access Plan, for review by Contracting Authority, in accordance with Schedule 10 – Review Procedure. If Project Co fails to submit an update to its Rail Corridor Access Plan in accordance with this Section 3.3 or fails to achieve a No Comment or Reviewed As Noted-Minor Issues Designation more than two times in a row for the same updated Rail Corridor Access Plan, Metrolinx may suspend consideration of Project Co’s Applications for Access until a No Comment or Reviewed As Noted-Minor Issues Designation is achieved by Project Co for the applicable updated Rail Corridor Access Plan.
- (d) The Rail Corridor Access Plan and each subsequent update thereto shall identify each of Project Co’s requested Rail Corridor Accesses, including:
 - (i) the type and scope of work to be carried out for each Rail Corridor Access;
 - (ii) the duration of the Rail Corridor Access;
 - (iii) the location(s) and access and egress points, gates, barriers and plank crossings applicable to the Works;
 - (iv) the Category of Access and Subcategory of Access that will be required for each Rail Corridor Access;
 - (v) the specific tracks whose closures are being requested;
 - (vi) the estimated flagging resources required for each Rail Corridor Access; and

- (vii) the proposed start and end date and start and end time for each Rail Corridor Access that is planned to occur during the next three years.
- (e) Project Co acknowledges and agrees that any update to the Rail Corridor Access Plan submitted pursuant to this Section 3.3 does not revise or alter any Application for Access submitted to Metrolinx prior to the submission of any update to the Rail Corridor Access Plan, nor will it impact the dates or deadlines for review of any such applications by Metrolinx.

3.4 Planning and Status Meetings

- (a) Project Co shall attend the following meetings:
 - (i) an Annual Engineering Access Planning Meeting which informs the development or continuance of the Rules of the Route, and supports the potential coordination of Disruptive Possession Accesses between contractors and Third Party Operators, as described in the Metrolinx Network Access Planning Standard;
 - (ii) Quarterly Disruptive Possession Meetings prior to Project Co’s Disruptive Possession Accesses, on the dates set out in the then current Metrolinx Network Access Planning Standard;
 - (iii) meetings associated with the T-8 Week Process, as described in the Metrolinx Network Access Planning Standard; and
 - (iv) monthly meetings to review unique Disruptive Possession Access requests (each a “**Special Request Meeting**”).

4. RAIL CORRIDOR ACCESS APPROVAL PROCESS

4.1 Access Approval Process

- (a) Subject to Appendix A to this Schedule 40, Project Co shall seek approval from Metrolinx for each Rail Corridor Access in accordance with the following five steps (collectively the “**Access Approval Process**”), and as detailed in the Metrolinx Network Access Planning Standard:
 - (i) Step 1 – Subject to Section 4.2, Project Co shall submit a Booking Request, including a Work Complexity Assessment in accordance with Section 4.3, for review and response by Metrolinx;
 - (ii) Step 2 – After Project Co has achieved a No Comment or Reviewed As Noted-Minor Issues Designation from Contracting Authority on its first Rail Corridor Access Plan, in accordance with Section 3.3, Project Co shall submit its Application(s) for Access and Work Complexity Assessment(s), in accordance with the timelines set out in the Metrolinx Network Access Planning Standard, for review and approval by Metrolinx;
 - (iii) Step 3 – After Metrolinx approves a Work Complexity Assessment for an Application for Access, Project Co shall submit its Work Plan Methodology Template and, as required, the

Delivering Work Within Possessions portion of the Work Plan Methodology Template in accordance with Section 4.4(a), for review and approval by Metrolinx;

- (iv) Step 4 – After Metrolinx approves Project Co’s Application for Access and Work Plan Methodology Template, including, if required, the Delivering Work Within Possessions portion of the Work Plan Methodology Template, Project Co shall complete all steps associated with the T-8 Week Process, as set out in the Metrolinx Network Access Planning Standard; and
 - (v) Step 5 – After Steps 1 through 4 have been completed successfully, and Project Co has received a “GO” at the GO/NO-GO White Board Meeting, in accordance with the Metrolinx Network Access Planning Standard, Metrolinx shall issue a Rail Corridor Access Permit to Project Co for Rail Corridor Access, in accordance with Section 4.6.
- (b) If, at any step in the Access Approval Process, Metrolinx provides comments on a submission to Project Co, Project Co shall incorporate all of Metrolinx’s comments into the submission and resubmit the submission to Metrolinx. For greater certainty, to the extent Contracting Authority has noted a Reviewed As Noted-Minor Issues in respect of a Rail Corridor Access Plan as contemplated in Section 4.1(a)(ii), the same shall have been corrected by Project Co in accordance with Schedule 10 – Review Procedure prior to the issuance by Metrolinx of any Rail Corridor Access Permit.

4.2 Advance Booking Requests

- (a) Project Co may make a Booking Request in accordance with Section 4.3 at any time prior to the deadline set out in Section 4.3, but shall not be eligible to complete the remaining steps (Steps 2 to 5) of the Access Approval Process set out in Section 4.1(a) until Project Co’s Rail Corridor Access Plan has been submitted to, and reviewed by, Contracting Authority in accordance with Section 3.3 and Project Co has received a No Comment or Reviewed As Noted-Minor Issues Designation from Contracting Authority.
- (b) The Parties acknowledge and agree that, subject to and in accordance with the rules that were set out in the RFP process that preceded this Project Agreement,
 - (i) Project Co was permitted to submit Booking Requests for certain Rail Corridor Access prior to Commercial Close;
 - (ii) Booking Requests made by Project Co prior to Commercial Close were entered into the Access Opportunities Calendar prior to Commercial Close; and
 - (iii) for clarity, for those Booking Requests made by Project Co and entered into the Access Opportunities Calendar prior to Commercial Close, Project Co must meet the requirements of Section 3.3 and must complete the remaining steps (Steps 2 to 5) of the Access Approval Process set out in Section 4.1(a) in order to have its Rail Corridor Access approved.

4.3 Booking Requests

- (a) Project Co shall, no later than the deadline set out in the Metrolinx Network Access Planning Standard, submit a request to book each requested Rail Corridor Access (each a “**Booking Request**”). Each Booking Request shall include, for the requested Rail Corridor Access,
- (i) Project Co’s opinion as to which Category of Access and Subcategory of Access should apply;
 - (ii) the date(s), start and end times for the requested Rail Corridor Access;
 - (iii) the location of the Rail Corridor Access Site, including the applicable Subdivision or Subdivisions and mile posts setting out the limits of the proposed Rail Corridor Access Site; and
 - (v) a work complexity assessment in accordance with the Work Plan Methodology Template User Manual (each a “**Work Complexity Assessment**”), using the form provided by Metrolinx.
- (b) Save and except in respect of any Booking Request made prior to Commercial Close in accordance with Section 4.2(b), Project Co shall ensure that each requested Rail Corridor Access included in a Booking Request is available in the then current Access Opportunities Calendar.
- (c) Metrolinx shall, no later than the deadline set out in the Metrolinx Network Access Planning Standard, review Project Co’s Booking Request to determine whether the requested Rail Corridor Access is available in accordance with the then current Access Opportunities Calendar. Metrolinx may, in its sole discretion, and on a one-time basis per requested Rail Corridor Access (in addition to any adjustments made by Metrolinx to the requested date for Rail Corridor Access in respect of a Booking Request made prior to Commercial Close in accordance with Section 9.4 (*Rail Corridor Access-Advance Booking Requests*) of the RFP),
- (i) no later than one-hundred and fifty-five (155) Business Days prior to Project Co’s requested date for a Major Track Closure, revise the requested date by up to one week;
 - (ii) no later than eighty (80) Business Days prior to Project Co’s requested date for a Platform Closure or a Minor Track Closure revise the requested date by up to one week; and
 - (iii) no later than twenty (20) Business Days prior to Project Co’s requested date for a Non-Disruptive Access, White Period Access revise the requested date by up to one week.
- (d) For clarity, Project Co acknowledges and agrees that,
- (i) Metrolinx may exercise its rights set out in Section 4.3(c) notwithstanding that Metrolinx may have revised the requested date for a Rail Corridor Access prior to Commercial Close in accordance with the RFP; and
 - (ii) notwithstanding Section 8.2, Project Co shall not be entitled to a Delay Event or a Compensation Event arising from Metrolinx’s revision of a requested date for a Rail

Corridor Access in accordance with Section 4.3(c), or in accordance with Section 9.4 (*Rail Corridor Access-Advance Booking Requests*) of the RFP, and the number of days of any such revisions shall not be taken into account for purposes of Section 8.2.

4.4 Application for Access

- (a) After Metrolinx has reviewed and approved Project Co's Rail Corridor Access Plan pursuant to Section 3.3 and Project Co's Booking Request pursuant to Section 4.3, Project Co shall submit an application for Rail Corridor Access for each Rail Corridor Access requested, each of which must correspond to a Booking Request made by Project Co in accordance with Section 4.3 (each an "**Application for Access**"), using the form provided by Metrolinx, including a work event and protection request (each a "**Work Event and Protection Request**") following the information set out in the Metrolinx Network Access Planning Standard.
- (b) Project Co shall submit each Application for Access in accordance with the submission requirements set out in this Schedule 40 and in accordance with the deadlines set out in the Metrolinx Network Access Planning Standard.
- (c) No later than the deadlines set out in the Metrolinx Network Access Planning Standard, Metrolinx shall review Project Co's Application for Access and the corresponding Work Complexity Assessment and, with respect to Minor Track Closures, categorize the Work Complexity Assessment as either a Green Work Complexity Assessment or a Red Work Complexity Assessment in accordance with the Work Plan Methodology Template User Manual. If the Work Complexity Assessment relates to a Major Track Closure, Metrolinx shall categorize the Work Complexity Assessment as a Red Work Complexity Assessment.

4.5 Work Plan Methodology Template Submission

- (a) After Metrolinx has reviewed and approved an Application for Access in accordance with Section 4.4, Project Co shall submit, no later than the deadline set out in Metrolinx Network Access Planning Standard, for review and approval by Contracting Authority, a work plan methodology for that Application for Access in accordance with the Work Plan Methodology Template User Manual (each a "**Work Plan Methodology Template**").
- (b) Project Co shall ensure that each Work Plan Methodology Template submitted pursuant to Section 4.5(a) is consistent with the corresponding Application for Access.
- (c) For an Application for Access that has been assigned a Red Work Complexity Assessment pursuant to Section 4.4(c), Project Co shall include the following in its Work Plan Methodology Template:
 - (i) a completed Delivering Work Within Possessions submission in the Work Plan Methodology Template and in accordance with the Work Plan Methodology Template User Manual;
 - (ii) a schedule contingency of at least ten percent of the total estimated number of hours for the corresponding Rail Corridor Access in the duration of such Rail Corridor Access; and

- (iii) any information that Project Co believes is relevant to the Application for Access or any information that Metrolinx may request, acting reasonably.
- (d) Project Co acknowledges and agrees that Contracting Authority may, in its sole discretion, at any time prior to issuing a Rail Corridor Access Permit in respect of an Application for Access, request that Project Co complete and submit a Delivering Work Within Possessions component as part of its Work Plan Methodology Template and the Application for Access, irrespective of whether the Application for Access has been assigned a Red Work Complexity Assessment or a Green Work Complexity Assessment.
- (e) Metrolinx shall review Project Co's Work Plan Methodology Template no later than the deadlines set out in the Metrolinx Network Access Planning Standard.

4.6 Rail Corridor Access Permit

- (a) If Project Co has received an approval from Metrolinx pursuant to each of Sections 4.3, 4.4 and 4.4(a), and is otherwise compliant with this Schedule 40 and Schedule 29 – Safety, System Assurance and Security, Metrolinx shall issue to Project Co a permit in respect of the Rail Corridor Access set out in the corresponding Work Event and Protection Request (each a “**Rail Corridor Access Permit**”). Only a Rail Corridor Access Permit issued by Metrolinx permits Project Co to enter the applicable Rail Corridor Access Site.
- (b) A Rail Corridor Access Permit may include one or more of the following:
 - (i) a final Possession Pack;
 - (ii) receipt of a “GO” at the GO/NO-GO Whiteboard Meeting, as described in the Metrolinx Network Access Planning Standard; and
 - (iii) other permits, as provided in accordance with the Metrolinx Network Access Planning Standard.
- (c) Metrolinx may, in its sole discretion, grant a Rail Corridor Access Permit for a single entry into a Rail Corridor Access Site or for multiple entries into that Rail Corridor Access Site over an extended period of time, each depending on the scope of the Works to be completed under the applicable Rail Corridor Access Permit.
- (d) Project Co shall ensure that appropriate Rail Corridor Access Permits are obtained from Metrolinx and displayed at the Rail Corridor Access Site prior to performing any Works requiring a Rail Corridor Access Permit.
- (e) Project Co shall carry out all Rail Corridor Accesses in accordance with the applicable Rail Corridor Access Permits, and the Work Plan Methodology Template, including the Delivering Work Within Possessions component, if applicable, and the approved Work Event and Protection Request.

5. CANCELLATION OR MODIFICATION OF RAIL CORRIDOR ACCESS

- (a) If Project Co becomes aware that Project Co will cancel or modify a Rail Corridor Access, then Project Co shall promptly provide Contracting Authority with Notice of such cancellation or modification.
- (b) If Project Co has failed to give written Notice of the cancellation or modification of a Permitted Rail Corridor Access no later than six (6) Business Days before the scheduled start time of the Permitted Rail Corridor Access as specified in the Rail Corridor Access Permit, Project Co shall pay all costs and expenses for scheduled flagging services that Project Co fails to use. For informational purposes, Metrolinx anticipates that the base cost of flagging is \$[REDACTED] per hour per crew.

6. GENERAL RULES FOR CATEGORIES OF ACCESS

6.1 Categories of Access

- (a) Notwithstanding anything else to the contrary in this Project Agreement, Project Co is eligible to make application for only those Categories of Access, and Subcategories of Access, if applicable, set out in Appendix A to this Schedule 40.

6.2 Rules for Categories and Subcategories of Rail Corridor Access

- (a) The general rules applicable to each Category of Access and each Subcategory of Access that are generally applicable on the Rail Corridors are set out in Attachment 1 to Appendix A to this Schedule 40 (the “**General Access Rules**”).
- (b) Notwithstanding the General Access Rules, Project Co may be subject to Project specific rules that modify the General Access Rules and apply to Rail Corridor Access on the Project Rail Corridor for this Project (the “**Project Specific Access Rules**”). The Project Specific Access Rules applicable to this Project are set out in Attachment 1 to Appendix A to this Schedule 40.

7. ACCESSING THE RAIL CORRIDOR

7.1 Preparatory Work Prior to a Permitted Rail Corridor Access

- (a) Project Co shall perform advance preparatory work, in accordance with this Schedule 40, CP Standards or CN Standards, as applicable, and the Output Specifications, in order to minimize the duration of each Permitted Rail Corridor Access and to ensure the completion of the applicable Works, including the completion of the Rail Corridors Infrastructure Handover Protocols, within the allotted time set out in the applicable Rail Corridor Access Permit.
- (b) No later than forty-eight (48) hours prior to the date and time that a Permitted Rail Corridor Access is scheduled to commence, in accordance with the applicable Rail Corridor Access Permit, Project Co shall,

- (i) ensure that all resources and equipment required to carry out the Works set out in the approved Work Plan Methodology Template are available to be deployed when required and are permitted by the applicable Rail Corridor Access Permit; and
 - (ii) give Notice to Metrolinx that the requirements of Section 7.1(b)(i) have been met.
- (c) If Contracting Authority determines that Project Co has not complied with Section 7.1(b)(i) in respect of a Rail Corridor Access Permit, Contracting Authority may cancel that Rail Corridor Access Permit.
- (d) Project Co may Dispute a decision by Metrolinx pursuant to Section 7.1(c) and may refer it for resolution in accordance with Schedule 27 – Dispute Resolution Procedure. A Dispute by Project Co pursuant to this Section 7.1(d) shall not, in any way whatsoever, interfere with or stop the Metrolinx cancellation of the Rail Corridor Access Permit.

7.2 Red Work Complexity Assessment Works – Rules and Requirements

- (a) For each Rail Corridor Access Permit in respect of an Application for Access with a Red Work Complexity Assessment, Project Co shall provide Contracting Authority with the following:
- (i) written progress updates, via email to the individual identified by Metrolinx as the Metrolinx contact person (the “**Metrolinx Access Contact**”), during Project Co’s performance of all preparatory Works required in accordance with the applicable Work Plan Methodology Template, every twenty-four (24) hours during the five (5) Business Days that precede the applicable Permitted Rail Corridor Access;
 - (ii) written progress updates every four (4) hours or as otherwise instructed by the Metrolinx Access Contact, via email to the Metrolinx Access Contact, in accordance with the applicable Work Plan Methodology Template, for the duration of the performance of the Works during the duration of the applicable Permitted Rail Corridor Access;
 - (iii) a detailed written summary of the progress of the Works when compared to the applicable Work Plan, at each of the critical milestones identified in the Work Plan Methodology Template for the applicable Permitted Rail Corridor Access; and
 - (iv) a description of any contingency or mitigation actions that Project Co has taken in order to maintain the progress of the Works in a manner that is consistent with the applicable Work Plan Methodology Template.
- (b) If directed by Contracting Authority, Project Co shall meet with Contracting Authority to discuss Project Co’s progress of the Works with respect to any or all of the critical milestones described in a Work Plan Methodology Template with a Red Work Complexity Assessment.
- (c) Contracting Authority shall use the information provided by Project Co pursuant to Sections 7.2(a) and 7.2(b) in order to assess the progress of the preparatory Works required for the corresponding Rail Corridor Access, and the progress of the Works during such Rail Corridor Access.

- (d) Project Co acknowledges and agrees that, if Metrolinx determines, with respect to Works pursuant to a Work Plan Methodology Template with a Red Work Complexity Assessment, that,
- (i) the Works related to the Rail Corridor Access will not be completed within the permitted time set out in the applicable Rail Corridor Access Permit; or
 - (ii) notwithstanding any contingency or mitigation actions that Project Co has taken or intends to take in accordance with the Work Plan Methodology Template, Project Co will not be able to complete the Works, and restore the Rail Corridor to a service condition in accordance with the requirements set out in Section 7.3, within the time set out in the Rail Corridor Access Permit,
- then Metrolinx may,
- (iii) at any time prior to the commencement of the Rail Corridor Access, require Project Co to cease all preparatory work and Metrolinx may cancel such Rail Corridor Access; and
 - (iv) at any time during the Rail Corridor Access, require Project Co to cease all the Works, restore the Rail Corridor to a service condition in accordance with the requirements set out in Section 7.3 and vacate the Rail Corridor.
- (e) Project Co shall not be eligible for a Delay Event or a Compensation Event if an action taken by Metrolinx pursuant to Section 7.2(d) arose as a result of an act or omission of Project Co.
- (f) Project Co may Dispute a decision by Metrolinx pursuant to Section 7.2(d) and may refer it for resolution in accordance with Schedule 27 – Dispute Resolution Procedure. A Dispute by Project Co pursuant to this Section 7.2(f) shall not, in any way whatsoever, interfere with or stop the Metrolinx cancellation of the Rail Corridor Access Permit.

7.3 Inspections, Handover, and Completion of a Permitted Rail Corridor Access

- (a) Prior to the completion of each Permitted Rail Corridor Access, and within the allotted time set out in the applicable Rail Corridor Access Permit, Project Co shall inspect the Works, complete the Rail Corridors Infrastructure Handover Protocols and shall certify to Metrolinx that the Rail Corridor Access Site meets the requirements of the standards set out in Appendix A to this Schedule 40 and the Output Specifications. One or more of Metrolinx, CP Rail or CN Rail, as set out in Appendix A to this Schedule 40 will inspect and place the track in service prior to the re-commencement of routine Railway Operations or the termination of the Permitted Rail Corridor Access. Project Co shall coordinate this inspection with Metrolinx.

7.4 Rail Corridor Condition and Construction Requirements

- (a) Except in cases of Major Track Closure, Project Co shall provide continued safe movement of Railway Operations through or adjacent to the Rail Corridor Access Site, as applicable, in accordance with the standards set out in Appendix A to this Schedule 40 and the Output Specifications.

- (b) Project Co shall, at all times, abide by the directions of the Railway Flag Person, provided that such directions are consistent with the CROR, Metrolinx Supplemented CROR, CN Supplemented CROR, or CP Supplemented CROR, as applicable.

8. REDUCTION AND DELAY OF RAIL CORRIDOR ACCESS

8.1 Reduction in the Time Allocated for a Permitted Rail Corridor Access

- (a) Metrolinx may, in its sole discretion and after the issuance of a Rail Corridor Access Permit, reduce the length of time that Project Co will be allowed for a Permitted Rail Corridor Access. In the event of such a reduction the following rules shall apply:

- (i) For all Categories of Access and Subcategories of Access except for a Major Track Closure:

- (A) if the reduction is for less than the greater of,

(I) fifteen minutes in total; or

(II) ten percent of the total planned duration for Rail Corridor Access under the applicable Rail Corridor Access Permit (measured from the date and time the Railway Flag Person was scheduled to arrive at the location of the applicable Works on the Rail Corridor),

then Project Co shall not be eligible for a Delay Event, a Compensation Event or any other compensation of any kind whatsoever arising from the reduction of the total planned duration;

- (B) if the reduction is equal to or exceeds the greater of,

(I) fifteen minutes in total; or

(II) ten percent of the total planned duration for Rail Corridor Access under the applicable Rail Corridor Access Permit (measured from the date and time the Railway Flag Person was scheduled to arrive at the location of the applicable Works on the Rail Corridor),

then such reduction shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be treated as a Delay Event, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event and, subject to and in accordance with Section 42 (*Excusing Causes*) of the Project Agreement, be treated as an Excusing Cause;

- (C) if Metrolinx reduces more than twenty-five percent of the total number of Permitted Rail Corridor Accesses, each by less than ten percent of the total planned duration for Rail Corridor Access under the applicable Rail Corridor Access Permit (measured from the date and time the Railway Flag Person was scheduled to arrive at the location of the applicable Works on the Rail Corridor), then Project Co shall,

subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be entitled to a Delay Event, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be entitled to a Compensation Event and, subject to and in accordance with Section 42 (*Excusing Causes*) of the Project Agreement, be entitled to an Excusing Cause; and

- (D) if Metrolinx reduces more than seventy-five percent of the total number of Permitted Rail Corridor Accesses, each by less than fifteen minutes, then Project Co shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be entitled to a Delay Event, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be entitled to a Compensation Event and, subject to and in accordance with Section 42 (*Excusing Causes*) of the Project Agreement, be entitled to an Excusing Cause.
- (ii) For Major Track Closures,
 - (A) if the reduction is for less than two (2) hours in total, Project Co shall not be eligible for a Delay Event, a Compensation Event or any other compensation of any kind whatsoever arising from the reduction, delay or cancellation; and
 - (B) if the reduction is for greater than two (2) hours in total then such reduction shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be treated as a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event.

8.2 Delay of a Requested Rail Corridor Access

- (a) Metrolinx may, in its sole discretion, at any time after the submission by Project Co of a Booking Request, but in any event prior to the issuance by Metrolinx of a Rail Corridor Access Permit, delay the date or time for any requested Rail Corridor Access. In the event of such a delay, subject in all cases to Section 4.3(d), the following rules shall apply:
 - (i) for a Non-Disruptive Access or a White Period Access,
 - (A) if Metrolinx has given Project Co at least twenty (20) Business Days' prior Notice of the delay and the delay is for less than or equal to seven (7) days, Project Co shall not be eligible for a Delay Event, a Compensation Event or any other compensation of any kind whatsoever arising from the delay; and
 - (B) if Metrolinx fails to give the Notice required by Section 8.2(a)(i)(A) or if the delay is for more than seven (7) days the delay shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be treated as a Delay Event, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event and, subject to and in accordance with Section 42 (*Excusing Causes*) of the Project Agreement, be treated as an Excusing Cause;

- (ii) for a Platform Closure or a Minor Track Closure,
 - (A) if Metrolinx has given Project Co at least eighty (80) Business Days' prior Notice of the delay and the delay is for less than or equal to seven (7) days, Project Co shall not be eligible for a Delay Event, a Compensation Event or any other compensation of any kind whatsoever arising from the delay; and
 - (B) if Metrolinx fails to give the Notice required by Section 8.2(a)(ii)(A) or if the delay is for more than seven (7) days the delay shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be treated as a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event;
- (iii) for Major Track Closures,
 - (A) if Metrolinx has given Project Co at least one-hundred and fifty-five (155) Business Days prior Notice of the delay and the delay is for less than or equal to seven (7) days, Project Co shall not be eligible for a Delay Event, a Compensation Event or any other compensation of any kind whatsoever arising from the delay; and
 - (B) if Metrolinx fails to give the Notice required by Section 8.2(a)(iii)(A) or if the delay is for more than seven (7) days, such delay shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be treated as a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event; and
- (iv) for all Categories of Access and Subcategories of Access, if Metrolinx delays a requested Rail Corridor Access in a Booking Request pursuant to Sections 8.2(a)(i)(A), 8.2(a)(ii)(A) or 8.2(a)(iii)(A), as applicable, Metrolinx shall identify, up to ten (10) Business Days following the provision of any such Notice, as applicable, an alternate date and time for the Rail Corridor Access. If Metrolinx delays a requested Rail Corridor Access in a Booking Request pursuant to Sections 8.2(a)(i)(A), 8.2(a)(ii)(A) or 8.2(a)(iii)(A), as applicable, without identifying an alternative date and time for the Rail Corridor Access in accordance with the time period set forth in this Section 8.2(a)(iv), it shall be considered to be a delay in excess of seven (7) days pursuant to Sections 8.2(a)(i)(B), 8.2(a)(ii)(B) or 8.2(a)(iii)(B), as applicable.

9. IMPLEMENTING TRACK PROTECTION AND FLAGGING REQUIREMENTS

9.1 Implementation of Track Protection and Flagging

- (a) Metrolinx may, in its sole discretion, determine the appropriate track protection applicable to each Permitted Rail Corridor Access, including Rule 841 and Rule 842 (“**Track Protection**”).
- (b) At all times during a Permitted Rail Corridor Access, Project Co shall comply with the requirements of the Track Protection prescribed by Metrolinx throughout the Rail Corridor Access Site.

- (c) During a Permitted Rail Corridor Access, Project Co shall carry out the Works in accordance with Track Protection requirements set out in Appendix A and Appendix C to this Schedule 40 and the Rail Corridor Access Permit.
- (d) Project Co shall not use flagging services on a standby basis.
- (e) Project Co shall submit to Metrolinx a track protection forecast as set out in Appendix A to this Schedule 40 (the “**Track Protection Forecast**”).

10. RAIL CORRIDOR SAFETY

10.1 General

- (a) During Project Co’s performance of the Works in the Rail Corridor, Project Co shall adhere to, and shall cause Project Co Parties to adhere to, the Canadian Rail Operating Rules, the *Occupational Health and Safety Act* (Ontario), directions of the Railway Flag Person, including with respect to security restrictions, safety requirements or emergency situations, the Track Protection confirmation granted by Metrolinx, the Applicable Law, Schedule 29 – Safety, System Assurance and Security, and any additional rules and directions set out in the Appendices to this Schedule 40.
- (b) Project Co shall comply with all instructions of the Railway Flag Person related to Railway Operations, and Project Co shall not be entitled to a Delay Event, a Compensation Event or any other compensation of any kind whatsoever with respect to such instructions.
- (c) If, during Project Co’s performance of Project Operations on or adjacent to the Rail Corridor, an Emergency Rail Situation arises, Metrolinx, CN Rail or CP Rail, as applicable, may direct that Project Co and all Project Co Parties exit from the Rail Corridor for such period of time as is necessary for Metrolinx, CN Rail or CP Rail, as applicable, acting reasonably, to remedy the Emergency Rail Situation. Provided that the Emergency Rail Situation did not arise as a result of an act or omission of Project Co or a Project Co Party, then, provided that the delay meets the reduction threshold set out in Sections 8.1(a)(i)(B) or 8.1(a)(ii)(B), as applicable, any delay in the Project Operations or any additional costs in respect of the Project Operations due to an evacuation or shutdown pursuant to this Section 10.1(c) shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be treated as a Delay Event, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event and, subject to and in accordance with Section 42 (*Excusing Causes*) of the Project Agreement, be treated as an Excusing Cause.

10.2 Training Requirements

- (a) Project Co shall ensure that all employees of Project Co or a Project Co Party who are granted access to the Rail Corridor or have the potential to enter the Rail Corridor are trained and current in the following railway safety training course:
 - (i) Metrolinx – approved Personal Track Safety Program (<https://www.metrolinx.com/en/projectsandprograms/constructionanddevelopment/personal-track-safety-program.aspx>); and

- (ii) all training set out in Appendix A to this Schedule 40.
- (b) Project Co shall ensure that all employees of Project Co or a Project Co Party who are engaged in track work and/or operate track mounted construction equipment are trained and current in the following railway safety training courses:
 - (i) Metrolinx Supplemented CROR; and
 - (ii) GO Transit General Engineering Instructions.
- (c) Project Co shall maintain and keep on the Site an up-to-date list of all employees of Project Co or a Project Co Party that have been trained in accordance with this Section 10.2. Project Co shall ensure all such trained employees shall, at all times when on the Rail Corridor, wear the sticker that is issued upon successful completion of the courses, on a readily visible location on their hardhats, or carry the wallet card that is issued upon successful completion of the courses. Project Co shall not commence Construction Activities on the Rail Corridor until Project Co has complied with this Section 10.2(c).

11. DELAY AND COMPENSATION EVENTS

- (a) Project Co shall not be eligible for a Delay Event or a Compensation Event arising from:
 - (i) the implementation of a Planned Railway Operations Changes;
 - (ii) changes to the Access Opportunities Calendar arising from a Planned Railway Operations Changes; or
 - (iii) Contracting Authority's change to a web-based system to access and make application for the Access Approval Process.

[REDACTED]

APPENDIX B TO SCHEDULE 40

IMPLEMENTATION OF TRACK PROTECTION AND FLAGGING

- (a) Metrolinx shall determine, in its sole discretion, whether Project Co will be obliged to have track protection for a Rail Corridor Access, having regard to the Canadian Rail Operating Rules, Applicable CROR and the GO Transit General Engineering Instructions.
- (b) Provided that Project Co has fully complied with the requirements set out in this Schedule 40, Metrolinx shall provide the flagging resources for Project Co to perform the Works in respect of the corresponding Rail Corridor Access.
- (c) Project Co shall perform the Works in the Rail Corridor, and shall carry out all Rail Corridor Access, in accordance with the instructions of the Railway Flag Persons and in accordance with the Canadian Rail Operating Rules, Applicable CROR, the GO Transit General Engineering Instructions and the Access Agreement, if applicable. For clarity, in scheduling the Works, Project Co shall allow time for the protecting foreman to set up and dismantle flags in accordance with the Canadian Rail Operating Rules and Applicable CROR.
- (d) Project Co shall prioritize the use of Temporary Barrier Separation method of protection in accordance with the, then current, GO Transit General Engineering Instructions to perform any Works that can have an impact on any train movement.
- (e) Project Co shall ensure that all gates that provide direct access to the Rail Corridor are governed by the Railway Flag Person. Project Co shall ensure that the railway approved locks are Abloy (or a Metrolinx approved equivalent) switch locks. Project Co shall not use private locks on these gates. Project Co acknowledges that it is the responsibility of the Railway Flag Person to lock and close all gates that are not in immediate use. If during the performance of the Works, Project Co requires the use of these gates, Project Co shall assign a Signal Person at each gate to govern construction equipment, vehicles and personnel entering the Rail Corridor. Project Co shall ensure that the Signal Person is in direct communication with the Railway Flag Person via radio or face to face contact, and that hand signals are prohibited. Project Co acknowledges that it will be at the sole discretion of the Railway Flag Person to grant permission to the Signal Person as to whom may enter the Rail Corridor.
- (f) Project Co acknowledges that:
 - (i) prior to entering the Rail Corridor a Railway Flag Person must be present and that Project Co's forces shall attend a job briefing outlining the protection areas where work may take place and any restrictions that will be in place;
 - (ii) Project Co must ensure that the GO Transit General Engineering Instructions rules and restrictions discussed at the job briefing are followed by Project Co and Project Co Parties;
 - (iii) Adjacent Track Closed protection can only take place under the following requirements:
 - (A) a Work Plan Methodology Template has been submitted and approved in accordance Section 4.5 (*Work Plan Methodology Template Submission*) of this Schedule 40; and

- (B) an approved Rail Corridor Access Permit has been granted in accordance with Section 4.6 (*Rail Corridor Access Permit*) of this Schedule 40;
- (iv) Adjacent Track Closed shall be applied when an adjacent track is used as protection;
- (v) Metrolinx shall mark the area where the Adjacent Track Closed is authorized with an appropriate marker to indicate that the track adjacent is inactive;
- (g) Project Co shall apply Rule 842s to perform the Works on or adjacent to the Rail Corridor and, subject to the parameters set out below, Project Co shall not perform Works under more than one Rule 842s at any one time on the same Project Rail Corridor. For clarity, Rule 842s will have the following parameters:
 - (i) Up to eight (8) sub-foreman; where Metrolinx Dedicated Risk Assessment is only required for more than four (4) sub-foreman, to be reviewed and approved by Metrolinx;
 - (ii) Rule 842s shall be no longer than 5 miles in length, unless otherwise approved by Metrolinx; and
 - (iii) Separation between Rule 842's shall be in compliance with the Canadian Rail Operating Rules.
- (h) Where applicable, Project Co shall perform the Works under Rule 841 as prescribed by the Canadian Rail Operating Rules.
- (i) Project Co shall use the form provided by Metrolinx for all requests for flagging services and shall reference the applicable Rail Corridor Access Permit in the Work Event and Protection Request. Metrolinx will not arrange flagging services for Project Co unless a Rail Corridor Access Permit has been granted.
- (j) Project Co shall not carry out a Rail Corridor Access without a Railway Flag Person and Signal Person present.
- (k) Project Co shall have a competent supervisor present in reasonable proximity to the Rail Corridor at all times during a Rail Corridor Access, to whom Metrolinx and the Railway Flag Person shall issue instructions regarding performance of the Works within the Rail Corridor. Project Co shall also have a competent supervisor present to ensure all persons performing the Works in the Rail Corridor have the applicable training certificates on their person in addition to escorting non-certified personnel who are not directly involved in the completion of the Works (such as for deliveries) on and off the Rail Corridor; provided that any such non-certified personnel cannot access the Rail Corridor unless such person's access has been approved by the Railway Flag Person.
- (l) Project Co shall supply each Railway Flag Person with a Kenwood TK3302 or approved equivalent portable two-way radio for communication with the competent supervisor(s) referred to in Section (k) of this Appendix B and shall ensure that all radios provided to the Railway Flag Persons communicate on the same frequency. The protocols regarding Track Protection radio communication with the Railway Flag Person shall be governed by the Railway Flag Person.
- (m) Project Co shall adhere to the Canadian Rail Operating Rules, the Applicable CROR and the Canadian Pacific Minimum Safety Requirements for Contractors Working on CP Property in

Canada when working on or adjacent to the Rail Corridor. If Project Co fails to adhere to the Canadian Rail Operating Rules, the Applicable CROR and the Canadian Pacific Minimum Safety Requirements for Contractors Working on CP Property in Canada, or the instructions of a Railway Flag Person during a Rail Corridor Access, Metrolinx may, in its sole discretion, require Project Co to vacate the Rail Corridor under terms and conditions to be determined by Metrolinx. If Project Co is required to vacate the Rail Corridor in accordance with this Section (m), Project Co shall not be eligible for a Delay Event or Compensation Event arising from the requirement to vacate the Rail Corridor.

- (n) Project Co shall adhere to the Railway Flag Person's procedures pertaining to job briefings, supplemental job briefings (should changes arise on site), sign-in/out procedures, and other railway flagging related duties in compliance with Section (m) of this Appendix B.
- (o) Project Co shall submit the Work Event and Protection Requests in accordance with the deadlines set out in Appendix B to draft Metrolinx Network Access Planning Standard with respect to the applicable Rail Corridor Access Permit being sought.
- (p) Project Co shall comply with the radio communications protocol for crossing of the tracks as defined by Metrolinx and its Railway Flag Person. Project Co shall ensure that there is no crossing of the tracks by vehicles or workers without first advising and obtaining permission from the Railway Flag Person using radio communication devices. Project Co acknowledges that hand signals are prohibited.
- (q) The Rule 842 protecting foreman's responsibilities include being in direct communication with train movements, and CROR qualified flagging sub-foreman to ensure the safe Railway Operations and the safety of persons and machinery. In performance of their duties, the Rule 842 foreman requires direct access to their vehicle at all times to communicate with the train crews via a thirty-watt radio. It will be in the sole discretion of the Rule 842 foreman, the flagging manager, or Metrolinx as to whether, based on the scope of work and the amount of train movement, the protecting foreman can also protect any local contracting forces working for Project Co (not applicable during Peak Hours). Otherwise, a flagging sub-foreman will be the person in direct communication with Project Co providing Track Protection. Project Co shall ensure that it does not unnecessarily distract the Rule 842 foreman from performing their duties.
- (r) Metrolinx will provide Project Co with no more than the number of sub-foremen as prescribed in the Canadian Rail Operating Rules with respect to each Rail Corridor Access. For clarity, the number of sub-foremen that Metrolinx provides to Project Co with respect to each Rail Corridor Access shall be determined by Metrolinx on a case by case basis and set out in the Work Event and Protection Request, and in no event shall this Section (r) of this Appendix B be construed to mean that Metrolinx is guaranteeing the provision of any number of sub-foremen to Project Co for a Rail Corridor Access.

APPENDIX D TO SCHEDULE 40

OPERATIONS AND MAINTENANCE PHASE

1. RAIL CORRIDOR ACCESS DURING OPERATIONS AND MAINTENANCE PHASE

1.1 Summary of Alternate Access Framework

- (a) Upon the Substantial Completion Date, the performance of Project Co Services for in respect of Ontario Line Subway System shall be governed under project-specific and alternate access provisions (“**Alternate Access Framework**”) related to any Rail Corridor during a term of the Project deemed to consist of only Project Co Services.
- (b) In accordance with the terms of the Project Agreement, Contracting Authority agrees to grant to Project Co permission to complete any Project Co Services in an unimpeded manner, when such Project Co Services are wholly contained within the delineated Ontario Line Subway System, separate from but adjacent to any Rail Corridor, and Project Co employs mitigation measures consistent with the requirements provided in Attachment 1 (*Required Mitigation Measures for Operations and Maintenance Activities*) to this Appendix D.
- (c) Project Co shall ensure that it has created a Continuous Work Zone (as defined in the then current GO Transit General Engineering Instructions) that delineates the Project Co Services from any Rail Corridor, and has completed and received Metrolinx approval of a Metrolinx Dedicated Risk Assessment Risk Assessment in conformance with Appendix G (*Metrolinx Dedicated Risk Assessment Process*) to this Schedule 40 for Project Co Services that have the potential to foul any Rail Corridor.

2. MATERIALS HANDLING AND MAINTENANCE EQUIPMENT OPERATION

2.1 Project Co Rights and Responsibilities

- (a) Contracting Authority acknowledges and agrees that Project Co and Project Co Parties shall have the right, during the Project Co Services, to handle materials and operate equipment in conducting such Project Co Services adjacent to any Rail Corridor for the purpose of routine operations and maintenance under an Alternate Access Framework, subject to the following terms and conditions:
 - (i) prior to handling materials or use of any boomed equipment that may foul a Rail Corridor or to carry loads over any Rail Corridor, Project Co shall be responsible for obtaining all required Rail Corridor Access Permits to do so, in accordance with this Schedule 40;
 - (ii) in instances where Project Co employs the use of a permanent fence as a Barrier Separation (as defined in the then current GO Transit General Engineering Instructions) to delineate the Project Co Services from the Rail Corridor, Project Co acknowledges and agrees that all materials and equipment shall not Foul of Track, and shall not extend beyond such Barrier Separation;
 - (iii) emergency access shall be granted, in accordance with Emergency Situations identified in the Metrolinx Network Access Planning Standard, including in relation to Emergency Rail

Situations, any Emergency, or conditions that exist that affect the Ontario Line Subway System's revenue service, life safety, security, or potential for property damage;

- (iv) Project Co shall provide all Notices, detailed specifications and operating patterns of any equipment planned to be utilized in completion of the Project Co Services that require a Rail Corridor Access Permit in accordance with the Alternate Access Framework;
- (v) when equipment is not in use, any components or attachments shall be left positioned such that the equipment could not swing, fall or encroach onto any Rail Corridor or become Foul of Track due to wind, poor weather or any other conditions; and
- (vi) Project Co acknowledges and agrees to ensure that Project Co and all Project Co Parties will complete any Project Co Services adjacent to any Rail Corridor in accordance with Good Industry Practice maintenance and operations procedures, to prevent any circumstances that could adversely impact the adjacent Rail Corridor, and other operations that occur thereon or within the vicinity thereof.

ATTACHMENT 1 TO APPENDIX D

**REQUIRED MITIGATION MEASURES FOR OPERATIONS AND MAINTENANCE
ACTIVITIES**

Activity	Rail Corridor Access Permitting Requirements	Mitigation Measures Under Alternative Access Framework
Workers, hand tools, handling of materials (without equipment)	Not applicable	Comply with operations and maintenance safe work plans in accordance with the Output Specifications.
Equipment without booms including vehicles, stationary construction and maintenance support equipment, and vertical elevated platforms that cannot become Foul of Track	Not applicable	Comply with operations and maintenance safe work plans in accordance with the Output Specifications. Comply with Metrolinx Dedicated Risk Assessment, in accordance with Appendix G (<i>Metrolinx Dedicated Risk Assessment Process</i>) to this Schedule 40, demonstrating equipment cannot become Foul of Track.
Equipment with booms including those used for earthworks, lifting, bi-directional elevated platforms, and any equipment that has the ability for multi-direction swing (e.g. commonly employed track construction equipment) that may become Foul of Track.	Rail Corridor Access Permits in accordance with this Schedule 40	Comply with Rail Corridor Access Permits including, where required, an approved Metrolinx Dedicated Risk Assessment in accordance with Appendix G (<i>Metrolinx Dedicated Risk Assessment Process</i>) to this Schedule 40.

APPENDIX F TO SCHEDULE 40**THIRD PARTY OPERATOR RAILWAY OPERATIONS PROVISIONS****1. METROLINX MAINTENANCE INFORMATION**

(a) Metrolinx will perform maintenance works on the Rail Corridor, as follows:

(i) Weekday Inspection

- (A) From Monday to Thursday, between the hours of 0930 and 1400, inspections will be done along the north and south sides of the Rail Corridor, from Clarkson Road (MI 16.09) to Union (MI 0.00); and
- (B) From Tuesday to Friday, between the hours of 0930 and 1400, inspections will be done along the north and south sides of the Rail Corridor, from Burlington Station (MI 31.50) to Clarkson Road (MI 16.09).
- (C) Routine intrusive signals and communications weekday inspections and maintenance will be typically conducted outside of service hours. Non-intrusive signals and communications weekday inspections and maintenance (i.e. work outside of the live corridor) will be conducted from time to time.

(ii) Weekend Inspection

- (A) If the weekday inspection patrols do not complete the network inspections on weekdays, weekend patrols will perform inspection during the weekend, as required.
- (B) Weekend inspections will be typically conducted during the day, during non-peak hours. If there are extreme temperature fluctuations (hot/cold/rain), weekend inspections will be typically done before the start of the peak, on the day of the occurrence.
- (C) Routine intrusive signals and communications weekend inspections and maintenance will be typically conducted outside of service hours. Non-intrusive signals and communications weekend inspections and maintenance (i.e. work outside of the live corridor) will be conducted from time to time.

(iii) Maintenance Frequency

-
- (A) If issues are found during the inspections throughout the Rail Corridor and the required maintenance work is expected to take less than 2 hours to be completed, such work will be performed at that time, under a TOP.
- (B) If issues are found during the inspections throughout the Rail Corridor and the required maintenance work is expected to take more than 2 hours to be completed (such as switch maintenance), such work will be performed typically at night or outside of the peak hours, with the closure of one or more tracks. This type of maintenance work will typically happen every week and could last for up to 3 days.
- (C) There will be two forms of maintenance inspections:
- (I) ultra-sonic testing, occurring 3 times a year, once in the period between the months of March and June, once in the period between the months of June and September, and once in the period between the months of September and December; and
- (II) geometry testing, occurring 3 times a year, once in the period between the months of March and June, once in the period between the months of June and September, and once in the period between the months of September and December, in each case following the corresponding ultra-sonic testing inspection,
- and each form of maintenance inspection work will typically take:
- (III) up to 1 night per track;
- (IV) up to 2 nights per interlocking plant with up to 4 switches; and
- (V) up to 3 nights per interlocking plant with 5 switches or more.
- (D) Signals and communications maintenance will be performed by Metrolinx on the Project Rail Corridor at a frequency as defined in the GO Transit Signals and Communications Standards General Instruction, Section 301 (h) Inspection and Testing Intervals, Table 301(h)-02.
- (iv) Inspection and maintenance work will be performed with a minimal crew compliment.

2. CN RAIL FREIGHT INFORMATION

(a) Information on the passage of CN Rail trains on the Rail Corridor is described in Table 1.

Table 1 – CN Rail freight information Lakeshore West Corridor

Train	Weekly Frequency	Allowable Window		Limits		Comments/Notes
		From Time	To Time	From MI	To MI	
1	5 times per week	20:00	05:00	8.42	19.15	* Mondays, Tuesdays, Thursdays and Sundays: (Start) Oakville Yard (MI 19.15) - spurs M725 and M726 (MI 9.10 and MI 9.12, respectively) - Canpa (MI 8.51) - M747 (MI 8.67) - VIA Yard (MI 8.32) - Oakville Yard (MI 19.15) (Return). * Wednesdays: (Start) Oakville Yard (MI 19.15) - Canpa (MI 8.51) - VIA Yard (MI 8.32) - Union (MI 0) (Return)
2	Daily	11:00	19:00	20.6	31.94	(Start) Oakville Yard (MI 20.57) - OC60 (MI 25.94 and 26.70) - Aldershot East Yard (MI 33.31) - Oakville Yard (MI 20.57) (Return)
3	5 times per week	23:00	05:00	20.6	31.94	Mondays, Tuesdays, Wednesdays, Thursdays and Sundays: (Start) Oakville Yard (MI 20.57) - Brant (MI 31.86) - Oakville Yard MI 20.57 (Return)
4	Daily	10:00	15:00	8.81	31.94	(Start) Oakville Yard (MI 19.15) - OJ 30 (MI 18.87) - Oakville Yard M 19.15 (Return)
5	Daily	9:00	17:00	8.81	31.94	
6	Daily	13:00	21:00	8.81	31.94	
7	Daily	21:00	5:00	16.7	31.94	* (Start) Aldershot East Yard (MI 33.31) - OC 92 (MI 28.64) - OC 81 (MI 27.72) - OC 60 (MI 26.70) - OC 55 (MI 25.65) - OC 31 (MI 24.19) - OH 30, OH 29 and OB 49 (MI 17.48) - CN Oakville Yard (MI 19.15) - OC 40 (MI 25.02) - Aldershot East Yard (MI 33.31) (Return).

						* Occasionally on Wednesdays and Sundays: (Start) Aldershot East Yard (MI 33.31) - OD 50 (M 31.86) - Aldershot East Yard (MI 33.31) (Return) "
8	Daily	21:00	05:00	8.81	31.94	(Start) Canpa (MI 8.51) - Oakville Yard (MI 19.15) - Oakville Yard (MI 20.57) - Aldershot East Yard (MI 33.31) - Canpa (MI 8.51) (Return).

Richmond Hill Rail Corridor

Dow: As required

Operation window: Anytime

Freight traffic: Freight travels from CN’s MacMillian Yard to Oakville Yard, operating via the York Sub to Doncaster, Bala Sub to Cherry Street, USRC to Scott Street and at last the Oakville Sub. This assignment is as required, only operates when needed.

Lakeshore East Rail Corridor

Dow: Saturday

Operation window: 2100 – 0700

Freight traffic: Freight Depart Oshawa Yard and head directly to Scarborough. Then run around their train between Scarborough and Danforth. Any two tracks required for the run-around. 1 track will need to be available west of Danforth in order to clear the controlled location. Once engines are leading the movement again, they will proceed onto the Uxbridge Subdivision.

APPENDIX G TO SCHEDULE 40

METROLINX DEDICATED RISK ASSESSMENT PROCESS

- (a) Without limiting Project Co's obligations to conduct risk assessments pursuant to the Project Agreement and pursuant to Applicable Law, Project Co shall conduct a risk assessment, in accordance with the Metrolinx Safety Department Risk Assessment Guide MX-SMS-G001, for activities with potential to impact Railway Operations (each a "**Metrolinx Dedicated Risk Assessment**").
- (b) The following activities and scenarios shall require a Metrolinx Dedicated Risk Assessment to be approved by Metrolinx, prior to issuance to Project Co of a Rail Corridor Access Permit:
- (i) a request by Project Co to implement a Temporary Barrier Separation, as defined in the then current GO Transit General Engineering Instructions;
 - (ii) a request by Project Co to implement a Continuous Work Zone (CWZ), as defined in the then current GO Transit General Engineering Instructions;
 - (iii) a request by Project Co to implement an Adjacent Line Closure (ALC), as defined in the then current GO Transit General Engineering Instructions;
 - (iv) a request by Project Co to perform the Work from above the Rail Corridor, utilizing a protective structure as Barrier Separation, as defined in the then current GO Transit General Engineering Instructions; and
 - (v) any other activity to be carried out by Project Co during a Rail Corridor Access that, in Contracting Authority's reasonable opinion, may have a Risk Index equal to "Elevated" or "High", in each case as defined in the Metrolinx Safety Department Risk Assessment Guide MX-SMS-G00.
- (c) Metrolinx's approval of a Metrolinx Dedicated Risk Assessment shall be contingent upon Project Co's successful demonstration that adequate mitigation measures or corrective actions are planned to be implemented, such that the risks identified therein are as low as reasonably practical and, in any event, that the Risk Index for any such risk is no greater than "Medium", as defined in the Metrolinx Safety Department Risk Assessment Guide MX-SMS-G00.
- (d) Project Co shall seek approval from Metrolinx for each Metrolinx Dedicated Risk Assessment in accordance with the following process:
- (i) Eighty (80) Business Days prior to the corresponding Rail Corridor Access that requires a Metrolinx Dedicated Risk Assessment, Project Co shall submit for Contracting Authority's review a draft Risk Assessment Worksheet, in accordance with the Metrolinx Safety Department Risk Assessment Guide MX-SMS-G001.
 - (ii) As part of the draft Risk Assessment Worksheet submission, Project Co shall complete the Hazard Table including the following steps:
 - (A) Step 2 – Triggering Circumstances;

- (B) Step 4 – Project Co members of the Risk Assessment Team;
 - (C) Step 5 – Identify Risk Scenarios;
 - (D) Step 6 – Evaluate Risk;
 - (E) Step 7 – Mitigation and Control(s); and
 - (F) Step 8 – Re-evaluate Risk – Determine Residual Risk.
- (iii) No later than five (5) Business Days after the receipt of the draft Risk Assessment Worksheet, Contracting Authority shall confirm to Project Co the parties that will form the Risk Assessment Team, including the Risk Assessment Lead, the Impacted Groups and the Contracting Authority Parties.
 - (iv) No later than ten (10) Business Days after the receipt of the draft Risk Assessment Worksheet (or at a different time as agreed to by the Parties), Project Co shall attend a meeting with the Risk Assessment Team to review the draft Risk Assessment Worksheet and to facilitate the Metrolinx Dedicated Risk Assessment process (the “**Metrolinx Dedicated Risk Assessment Review Meeting**”). At the Metrolinx Dedicated Risk Assessment Review Meeting, Project Co shall present the draft Risk Assessment Worksheet. Contracting Authority shall provide verbal feedback to Project Co on the draft Risk Assessment Worksheet.
 - (v) No later than ten (10) Business Days following the Metrolinx Dedicated Risk Assessment Review Meeting, Contracting Authority shall provide written feedback to Project Co on the draft Risk Assessment Worksheet.
 - (vi) No later than ten (10) Business Days following receipt of written feedback from Contracting Authority, Project Co shall submit an updated Risk Assessment Worksheet for Contracting Authority’s review and approval, including appropriate revisions based on the verbal and written feedback provided by Contracting Authority pursuant to Sections 1.1(d)(iv) and 1.1(d)(v), as well as completion of Step 9 – Comments and Notes and Step 10 – Workshop Review, Communication, Notification and Document Retention of the Hazard Table.
 - (vii) No later than ten (10) Business Days following the receipt of Project Co’s updated Risk Assessment Worksheet, Contracting Authority shall provide written feedback to Project Co.
 - (viii) If Project Co disagrees with critical aspects of the written feedback provided by Contracting Authority pursuant to Section 1.1(d)(vii), Project Co shall give Notice to Contracting Authority of the details of such disagreement. Following the delivery of such Notice, the Parties agree to meet on an expedited basis to resolve any matters of disagreement on the feedback provided by Contracting Authority pursuant to Section 1.1(d)(vii).
 - (ix) Following the meeting between the Parties pursuant to Section 1.1(d)(viii), any persisting Dispute between Contracting Authority and Project Co with respect to the updated

Metrolinx Dedicated Risk Assessment may be referred for resolution in accordance with Schedule 27 – Dispute Resolution Procedure.

- (e) Project Co shall not be granted a Rail Corridor Access Permit in respect of Works that require a Metrolinx Dedicated Risk Assessment, pursuant to Section 1.1(b), unless,
 - (i) Metrolinx has approved the Metrolinx Dedicated Risk Assessment; and
 - (ii) Project Co has confirmed that,
 - (A) Project Co has successfully completed the implementation of all mitigations or corrective actions, in each case in accordance with the Risk Assessment Worksheet approved by Metrolinx; and
 - (B) Project Co has available evidence of the completion of all mitigations or corrective actions, in each case in accordance with the Risk Assessment Worksheet approved by Metrolinx.

ATTACHMENT 1 TO APPENDIX G

ADVANCE DEDICATED RISK ASSESSMENTS

1. ADVANCE METROLINX DEDICATED RISK ASSESSMENT COMPLETED BY CONTRACTING AUTHORITY

1.1 Scope

- (a) Contracting Authority has completed the Advance Metrolinx Dedicated Risk Assessment (as defined below) to accommodate anticipated construction and maintenance activities. This Metrolinx Dedicated Risk Assessment is for the following aspects and activities, provided in the Background Information:
 - (i) [REDACTED]; and
 - (ii) [REDACTED] (“Sponsors Executive Summary”).
- (b) The assessment referenced in Section **Error! Reference source not found.** and the Sponsors Executive Summary (collectively the “**Advance Metrolinx Dedicated Risk Assessments**”), were completed in general conformance with the Metrolinx Dedicated Risk Assessment Process, as outlined in Appendix G to this Schedule 40, and received acceptance by Metrolinx.

1.2 Reliance on Metrolinx Dedicated Risk Assessments by Contracting Authority

- (a) The Advance Metrolinx Dedicated Risk Assessment provides information related to the risks and mitigation measures of the conceptual anticipated construction and maintenance activities, including proposed risk mitigation measures considered reasonable, using commonly employed construction and maintenance means and methods. The Advance Metrolinx Dedicated Risk Assessment outlines acceptable mitigating solutions, risk controls, residual risks and conclusions considered appropriate for a conceptual Category of Access or Subcategory of Access, and to accommodate a conceptual construction and maintenance schedule. Project Co may utilize the contents of the Advance Metrolinx Dedicated Risk Assessments to inform its understanding of permissible construction and maintenance activities and equipment, and corresponding restrictions, opportunities, and mitigations required when working under a form of Barrier Separation, as defined in the GO Transit General Engineering Instructions.
- (b) Project Co shall draft the Metrolinx Dedicated Risk Assessments as required to support its actual construction and maintenance means and methods and submit for Metrolinx approval in accordance with the Metrolinx Dedicated Risk Assessment Process, as outlined in Appendix G to this Schedule 40.

SCHEDULE 41

EARLY WORKS HANDOVER

1. DEFINITIONS

- 1.1** “**Built to Specification and Design**” means, in respect of any Early Works Infrastructure Section or any Early Works Infrastructure comprised therein, that it is built in conformance with the Early Works Technical Specifications applicable thereto, subject to Seasonal Minor Deficiencies.
- 1.2** “**Built to Specification and Design Deficiency**” has the meaning given in Section 3.1(d)(ii)(A) of this Schedule 41.
- 1.3** “**CA Post-Handover Response**” has the meaning given in Section 3.1(d) of this Schedule 41.
- 1.4** “**Early Works Construction Defect**” means any deficiency, defect or error in the Early Works Infrastructure other than to the extent such deficiency, defect or error (i) has arisen as a result of ordinary wear and tear or (ii) was caused or contributed to by Project Co or any Project Co Party.
- 1.5** “**Early Works Construction Latent Defect**” means an Early Works Construction Defect that could not reasonably have been ascertained by a competent person in accordance with Good Industry Practice during a visual inspection of the Early Works Infrastructure if such inspection took place on the last day of the applicable Early Works Construction Defect Warranty Period.
- 1.6** “**Early Works Contract**” means each of the Contracts entered into with the Early Works Contractors in respect of the Early Works.
- 1.7** “**Early Works Design and Construction Data**” has the meaning set out in Section 2.2(b) of this Schedule 41.
- 1.8** “**Early Works Infrastructure Section**” means, in respect of each Early Works Contract, each of the discrete segments of the Early Works Infrastructure listed in the column titled “Early Works Infrastructure Section” in Appendix A of this Schedule 41.
- 1.9** “**Early Works Lands**” means the applicable Lands set out in Part B (*Metrolinx Lands*) of Schedule 35 – Lands.
- 1.10** “**Early Works Section Final Completion**” means, in respect of an Early Works Infrastructure Section, final completion thereof in accordance with the applicable Early Works Contract.
- 1.11** “**Early Works Section Handover**” has the meaning set out in Section 2.1(a) of this Schedule 41.
- 1.12** “**Early Works Section Handover Date**” means, in respect of an Early Works Infrastructure Section, the date determined pursuant to Section 3.1(a) of this Schedule 41.
- 1.13** “**Early Works Section Handover Notice**” has the meaning set out in Section 3.1(a) of this Schedule 41.

- 1.14** “**Early Works Technical Specifications**” means, in respect of each Early Works Contract and the Early Works Infrastructure to be delivered thereunder, the technical specifications applicable thereto, contained in Appendix B to this Schedule 41.
- 1.15** “**Early Works Warranty Period**” means, subject to Section 4.2:
- (a) in respect of an Early Works Construction Defect, the period commencing on the applicable Early Works Section Handover Date and ending on the date that is two (2) years thereafter (the “**Early Works Construction Defect Warranty Period**”); or
 - (b) in respect of an Early Works Construction Latent Defect, the period commencing on the day following the end of the applicable Early Works Construction Defect Warranty Period and ending on the Termination Date.
- 1.16** “**Early Works Warranty Work**” means, in respect of any Early Works Infrastructure, work to correct an Early Works Construction Defect, Early Works Construction Latent Defect or any work to correct any damage to other Project Co Infrastructure caused by such repair or correction work.
- 1.17** “**Handover Data and Equipment**” means, in respect of an Early Works Infrastructure Section, as-built drawings for the applicable Early Works Infrastructure and other applicable Early Works Design and Construction Data and equipment identified in the Early Works Technical Specifications as being necessary to achieve Early Works Section Handover in respect of such Early Works Infrastructure Section.
- 1.18** “**No Earlier Than Date**” means, in respect of an Early Works Infrastructure Section, the corresponding date identified in the column titled “No Earlier Than Date” in Appendix A to this Schedule 41.
- 1.19** “**No Later Than Date**” means, in respect of an Early Works Infrastructure Section, the corresponding date identified in the column titled “No Later Than Date” in Appendix A to this Schedule 41.
- 1.20** “**Project Co Post-Handover Deficiency**” has the meaning set out in Section 3.1(c) of this Schedule 41.
- 1.21** “**Project Co Post-Handover Deficiency List**” has the meaning set out in Section 3.1(c) of this Schedule 41.
- 1.22** “**Post-Handover Inspection Period**” has the meaning given in Section 3.1(b) of this Schedule 41.
- 1.23** “**Seasonal Minor Deficiencies**” means, in respect of any Early Works Infrastructure, any defects, deficiencies and items of outstanding work that are seasonal in nature and could not be completed on or prior to the applicable Early Works Section Handover Date and that would not materially impair (i) Project Co’s use of such Early Works Infrastructure, or (ii) safety or security on the Project Co Infrastructure in any relevant respect.

2. CONTRACTING AUTHORITY OBLIGATIONS

2.1 Handover of Early Works Infrastructure Sections

- (a) Contracting Authority shall cause each Early Works Infrastructure Section to be handed over to Project Co, subject to and in accordance with the provisions of this Schedule 41. Subject to Section 3 of this Schedule 41, each Early Works Infrastructure Section shall be handed over to Project Co on a Built to Specification and Design basis on the applicable Early Works Section Handover Date (each such handover being a “**Early Works Section Handover**”).
- (b) On or before the Early Works Section Handover Date applicable to each Early Works Infrastructure Section, Contracting Authority shall:
 - (i) ensure that the applicable Early Works Contractor and its contractors have vacated the applicable Early Works Infrastructure Section and corresponding Early Works Lands (except as expressly contemplated pursuant to the terms of the Project Agreement); and
 - (ii) provide Project Co with the most recent versions of all Early Works Design and Construction Data received from the applicable Early Works Contractor in respect of the applicable Early Works Infrastructure Section (and Contracting Authority shall provide final versions of such Early Works Design and Construction Data as soon as reasonably practicable thereafter upon receipt thereof from the applicable Early Works Contractor).
- (c) In the event that an Early Works Section Handover occurs on a day prior to the No Earlier Than Date applicable to the relevant Early Works Infrastructure Section, Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation.
- (d) In the event that an Early Works Section Handover has not occurred on or before the No Later Than Date applicable to the relevant Early Works Infrastructure Section, then Project Co shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be entitled to a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be entitled to a Compensation Event.
- (e) Without prejudice to any rights Project Co may have under the Project Agreement, Project Co may, prior to any Early Works Section Handover Date, request to participate with Contracting Authority in, or conduct, an inspection of any Early Works Infrastructure. Contracting Authority may determine, whether to permit Project Co or any Project Co Party to participate in, or conduct, such an inspection, and shall act reasonably in making such determination where it has received at least five (5) Business Days notice from Project Co of such intended inspection. If Contracting Authority permits Project Co or a Project Co Party to participate in, or conduct, such an inspection, then Project Co or the applicable Project Co Party shall comply with all instructions provided by Contracting Authority in respect of such inspection.

- (f) Contracting Authority may, by Notice to Project Co prior to any Early Works Section Handover Date, request that Project Co participate with Contracting Authority in an inspection of any Early Works Infrastructure. If so requested, Project Co (or an applicable Project Co Party) shall participate in such inspection together with Contracting Authority, and Project Co or the applicable Project Co Party shall comply with all instructions provided by Contracting Authority in respect of such inspection.
- (g) In respect of each Early Works Infrastructure Section, following Early Works Section Handover and subject to the terms of Section 4.1, at all times from and after the applicable Early Works Section Handover Date:
 - (i) the applicable Early Works Infrastructure Section shall form part of the Project Co Infrastructure and the Ontario Line Subway and Project Co shall be responsible for such Early Works Infrastructure Section in accordance with the provisions of the Project Agreement; and
 - (ii) the applicable Early Works Lands that such Early Works Infrastructure Section is situated on shall form part of the Lands that Project Co is responsible for under the Project Agreement.

2.2 Handover Data and Equipment, and Early Works Design and Construction Data

- (a) Contracting Authority shall provide Project Co with all Handover Data and Equipment in respect of each applicable Early Works Infrastructure Section on or before the Early Works Section Handover Date thereof.
- (b) Contracting Authority shall provide to Project Co all design and construction related data and information received from the applicable Early Works Contractor in respect of the Early Works Infrastructure and shall update such information from time to time on an ongoing basis upon receipt of such updates from the applicable Early Works Contractor (such data and information, as updated from time to time, referred to as the “**Early Works Design and Construction Data**”).

3. EARLY WORKS INFRASTRUCTURE SECTION HANDOVER

3.1 Early Works Infrastructure Section Handover

- (a) In respect of each Early Works Infrastructure Section, Contracting Authority shall provide written notice (the “**Early Works Section Handover Notice**”) to Project Co of the day on which Early Works Section Handover in respect of such Early Work Infrastructure Section shall occur (the “**Early Works Section Handover Date**”). The Early Works Section Handover Date shall be no earlier than thirty (30) days from the date of the Early Works Section Handover Notice. For clarity, if the Early Works Section Handover Date is a day that is less than thirty (30) days after the date of the Early Works Section Handover Notice then the Early Works Section Handover Date shall be deemed to be the day that is thirty (30) days from the date of the Early Works Section Handover Notice.
- (b) In respect of each Early Works Infrastructure Section, Project Co shall, during the period commencing on the Early Works Section Handover Date and ending thirty (30) days

thereafter (the “**Post-Handover Inspection Period**”) carry out such inspections of the Early Works Infrastructure that has become Project Co Infrastructure as Project Co deems necessary in order to determine (to the extent possible from a visual inspection carried out by a competent person in a manner consistent with Good Industry Practice) whether such Project Co Infrastructure has been Built to Specification and Design and shall invite Contracting Authority to participate in such inspections.

- (c) Project Co shall, no later than the last day of the Post-Handover Inspection Period, provide in writing to Contracting Authority Project Co’s opinion as to whether such Project Co Infrastructure is Built to Specification and Design and, if applicable, a list of all deficiencies (each a “**Project Co Post-Handover Deficiency**”) which, in Project Co’s opinion, prevent such Project Co Infrastructure from being Built to Specification and Design (the “**Project Co Post-Handover Deficiency List**”). Project Co shall identify in the Project Co Post-Handover Deficiency List, in respect of each Project Co Post-Handover Deficiency:
- (i) an explanation of why it constitutes a non conformance to the Built to Specification and Design standard, the modifications that would be required to be made to the applicable Early Works Infrastructure to remove such Project Co Post-Handover Deficiency, with specific reference to the applicable requirements of the applicable Early Works Technical Specifications, and
 - (ii) set out any modifications which Project Co considers necessary to the definition of Built to Specification and Design, including the applicable Early Works Technical Specifications, in the event that such Project Co Post-Handover Deficiency is not corrected.
- (d) Within ten (10) Business Days of receipt of a Project Co Post-Handover Deficiency List, Contracting Authority shall (in case of (i) below) and may (in case of (ii) below), by Notice to Project Co (the “**CA Post-Handover Response**”) indicate:
- (i) whether (notwithstanding any Project Co Post-Handover Deficiency List) Contracting Authority is of the opinion that the applicable Early Works Infrastructure was Built to Specification and Design as of the Early Works Section Handover Date, in which case such Early Works Infrastructure shall be deemed to be Built to Specification and Design as of such Early Works Section Handover Date (subject to the Dispute Resolution Procedure); or
 - (ii) with respect to each Project Co Post-Handover Deficiency, whether Contracting Authority,
 - (A) agrees that such Project Co Post-Handover Deficiency is a deficiency in meeting the Built to Specification and Design standard (a “**Built to Specification and Design Deficiency**”) in which case Contracting Authority may, in its sole discretion, take any one or more of the following actions:

- (i) require Project Co to correct the Built to Specification and Design Deficiency by issuing a Variation subject to and in accordance with Schedule 22 – Variation Procedure;
 - (ii) modify the requirements of the Project Agreement (including the Early Works Technical Specifications) by issuing a Variation subject to and in accordance with Schedule 22 – Variation Procedure in order to eliminate the Built to Specification and Design Deficiency; or
 - (iii) arrange for the correction of the Built to Specification and Design Deficiency by the applicable Early Works Contractor or an Additional Contractor; or
- (B) does not agree that the Project Co Post-Handover Deficiency identified by Project Co is a Built to Specification and Design Deficiency in which case Contracting Authority shall not have any further obligation in respect of such Project Co Post-Handover Deficiency except as may be determined pursuant to the Dispute Resolution Procedure and subject to Section 4.1 of this Schedule 41.

If Contracting Authority does not provide the confirmation set out above in this Section 3.1(d)(ii) in respect of any Project Co Post-Handover Deficiency, it shall be deemed to have provided the response set out in Section 3.1(d)(ii)(B) in respect thereof on that date that is ten (10) Business Days after receipt of a Project Co Post-Handover Deficiency List.

- (e) If Project Co disagrees with any determination made by Contracting Authority in respect of a Project Co Post-Handover Deficiency included in the CA Post-Handover Response then Project Co may, no later than ten (10) Business Days after receipt of the CA Post-Handover Response, refer such matter for resolution in accordance with the Dispute Resolution Procedure. Project Co acknowledges and agrees that if it does not initiate a Dispute within such timeframe with respect to any Project Co Post-Handover Deficiency, it shall be deemed to waive any claim that such Built to Specification and Design Deficiency prevents the applicable Early Works Infrastructure from being Built to Specification and Design (subject to Section 4.1 of this Schedule 41).
- (f) Subject to Section 3.1(e) and Section 4.1 of this Schedule 41, Project Co may not make any claim or commence any Dispute asserting that a Built to Specification and Design Deficiency exists at any time after the end of the Post-Handover Inspection Period unless (i) such Built to Specification and Design Deficiency is included in a Project Co Post-Handover Deficiency List delivered on or prior to such date, (ii) such Built to Specification and Design Deficiency could not reasonably be ascertained by a competent person in accordance with Good Industry Practice during a visual inspection of the Early Works Infrastructure if such inspection took place on the last day of the Post-Handover Inspection Period, or (iii) such Built to Specification and Design Deficiency is also an Early Works Construction Defect or an Early Works Construction Latent Defect.
- (g) Contracting Authority shall provide Notice to Project Co upon completion of all Seasonal Minor Deficiencies.

4. WARRANTY CLAIMS, WARRANTY WORK AND SEASONAL MINOR DEFICIENCIES

- 4.1** During each applicable Early Works Warranty Period, Contracting Authority shall (or shall cause the applicable Early Works Contractor or an Additional Contractor to) promptly, at Contracting Authority's sole cost and expense, correct and Make Good all Early Works Construction Defects and Early Works Construction Latent Defects arising in respect of the Early Works Infrastructure (the "**Early Works Warranty Work**"), subject to Section 4.3 of this Schedule 41.
- 4.2** The applicable Early Works Warranty Period shall be extended for a further two (2) years from the date of the last Early Works Warranty Work completed in respect of the applicable Early Works Infrastructure. For clarity, any extension of an Early Works Warranty Period for the purposes of a correction shall only apply to the relevant Early Works Warranty Work and not the Early Works Infrastructure delivered under any Early Works Contract as a whole nor the whole of any Early Works Infrastructure Section.
- 4.3** Project Co may not make any claim or commence any Dispute asserting that an Early Works Construction Defect exists in respect of any Early Works Infrastructure that has become Project Co Infrastructure in accordance with the terms of this Schedule 41 or that any damage has been caused to any Project Co Infrastructure as a result of any Early Works Warranty Work, in each case at any time after the end of the applicable Early Works Warranty Period.
- 4.4** Project Co shall provide access to the applicable Project Co Infrastructure and Lands to the applicable Early Works Contractor or Additional Contractor, as applicable, and their contractors, for the purpose of carrying out Early Works Warranty Work and completion of Seasonal Minor Deficiencies, subject to Section 4.6 of this Schedule 41 at all times after the applicable Early Works Section Handover Dates, including,
- (a) arranging access to the relevant portion of the Lands during normal working hours;
 - (b) arranging for the applicable Early Works Contractor or Additional Contractor or their contractors to use utilities available on the Site including power and water and toilet facilities; and
 - (c) accommodating reasonable parking for the applicable Early Works Contractor or Additional Contractor or their contractors' labor and material deliveries.
- 4.5** Project Co may, acting reasonably, schedule all Early Works Warranty Work and work to complete Seasonal Minor Deficiencies at times that are convenient to the Works and the Project Co Services and do not cause delay in the performance of the Works and the Project Co Services provided that:
- (a) Project Co shall ensure that its scheduling of Early Works Warranty Work pursuant to this Section 4.5 of this Schedule 41 does not, in any way, worsen the relevant Early Works Construction Defect; and
 - (b) Project Co shall ensure that its scheduling of Early Works Warranty Work and work to complete Seasonal Minor Deficiencies pursuant to this Section 4.5 of this Schedule 41 does not in any way void, or risk voiding, the applicable Early Works Contractor's warranty,
- in each case where Project Co has (or should reasonably have had) knowledge of such impact.

4.6 In connection with any Early Works Contractor accessing any Project Co Infrastructure or Lands after the applicable Early Works Section Handover Date, for any of the purposes contemplated in Section 4.4 of this Schedule 41, Contracting Authority shall require such Early Works Contractor, pursuant to the terms of the applicable Early Works Contract, to:

- (i) comply with all directions of Project Co in respect of any matter regarding health and safety at the applicable Early Works Infrastructure Section;
- (ii) coordinate with Project Co the means of access to the applicable Early Works Infrastructure Section;
- (iii) keep the Early Works Infrastructure Section and all Project Co Infrastructure thereon in a safe and orderly state in accordance with Good Industry Practice; and
- (iv) not materially interfere with or delay the work of Project Co or any Project Co Parties, and not do anything that causes Project Co to be in contravention of its obligations under the Occupational Health and Safety Act (Ontario), and to promptly cease and desist any activity that results or has a likelihood in resulting in such interference or delay or causes such contravention.

4.7 In connection with an Early Works Contractor accessing any Project Co Infrastructure or Lands after the applicable Early Works Section Handover Date, for any of the purposes contemplated in Section 4.4 of this Schedule 41, if:

- (i) such Early Works Contractor causes any damage to the Works;
- (ii) Project Co incurs any additional costs or there is any delay in the Works as a result of such Early Works Contractor not complying with the coordination, scheduling and safety instructions of Project Co; or
- (iii) subject to the performance by Project Co of its obligations under these Sections 4.4 and 4.5 of this Schedule 41 if Project Co incurs any additional costs or there is any delay in the Works as a result of any such access by such Early Works Contractor,

then any such delay in the Works or additional costs in respect of the Works shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement be treated as a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be treated as a Compensation Event.

4.8 If, in connection with an Early Works Contractor accessing any Project Co Infrastructure or Lands after the applicable Early Works Section Handover Date for the purpose of completing Seasonal Minor Deficiencies, Project Co is not able to schedule such work as contemplated in Section 4.5 of this Schedule 41 in a manner which does not materially interfere with or delay the work of Project Co or any Project Co Party pursuant to the Project Agreement, Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation.

EARLY WORKS HANDOVER

[REDACTED]

APPENDIX B TO SCHEDULE 41

EARLY WORKS TECHNICAL SPECIFICATIONS

See attached.

APPENDIX B TO SCHEDULE 41

EARLY WORKS TECHNICAL SPECIFICATIONS

[REDACTED]

SCHEDULE 42

SOUTH CIVIL INFRASTRUCTURE ACCESS AND HANDOVER

1. DEFINITIONS

- 1.1** “Access Readiness Deficiency List” has the meaning given in Section 6.1(a)(iii) of this Schedule 42.
- 1.2** “Access Ready” means, in respect of a South Civil Infrastructure Subsection, that all South Civil Project Infrastructure forming part thereof is Built to Specification and Design in respect of all requirements set out in the applicable Access Ready Checklist, in the opinion of the South Civil Independent Certifier.
- 1.3** “Access Ready Checklist” means, in respect of any South Civil Infrastructure Subsection, the table listing of requirements for access set out in Appendix C to this Schedule 42.
- 1.4** “Access Ready Inspection” has the meaning given in Section 6.1(a)(i) of this Schedule 42.
- 1.5** “Built to Specification and Design” means, in respect of any South Civil Infrastructure Section, any South Civil Project Infrastructure forming part of a South Civil Infrastructure Subsection or any Critical South Civil HVAC Works, that it is built in conformance with
- (a) the South Civil Infrastructure Technical Specifications, and
 - (b) any Critical South Civil Infrastructure Data applicable thereto,
- as modified pursuant to the Design Submittal Review Process, subject to any South Civil Infrastructure Minor Deficiencies.
- 1.6** “Built to Specification and Design Deficiency” means a deficiency in meeting the Built to Specification and Design standard.
- 1.7** “CA Post-Handover Response” has the meaning given in Section 7.3(c) of this Schedule 42.
- 1.8** “Critical Data” means the data and information set out in the column titled “Critical Data” in Part A of Appendix B to this Schedule 42.
- 1.9** “Critical Data Deadline” means the date set out in the column titled “Critical Data Deadline” in Part A of Appendix B to this Schedule 42, as such date may be amended pursuant to Section 40 (*Delay Events*) of the Project Agreement.
- 1.10** “Critical South Civil HVAC Works” means, in respect of a South Civil Infrastructure Section the works to be carried out by South Civil Project Co identified by reference to such South Civil Infrastructure Section in the column titled “Critical South Civil HVAC Works” in Part C of Appendix B to this Schedule 42.

- 1.11** “**Critical South Civil HVAC Works Complete**” means, in respect of any Critical South Civil HVAC Works, that such Critical South Civil HVAC Works have achieved Critical South Civil HVAC Works Completion.
- 1.12** “**Critical South Civil HVAC Works Completion**” means, in respect of any Critical South Civil HVAC Works, completion thereof in compliance with the Built to Specification and Design standard, as confirmed by the South Civil Independent Certifier, as contemplated in Section 7.5 of this Schedule 42.
- 1.13** “**Critical South Civil HVAC Works Completion Date**” has the meaning given in Section 7.5(d) of this Schedule 42.
- 1.14** “**Critical South Civil HVAC Works Completion Deficiency List**” has the meaning given in Section 7.5(c) of this Schedule 42.
- 1.15** “**Critical South Civil HVAC Works Completion Notice**” has the meaning given to it in Section 7.5(a) of this Schedule 42.
- 1.16** “**Critical South Civil HVAC Works Completion Target Date**” has the meaning given in Section 7.5(a) of this Schedule 42.
- 1.17** “**Critical South Civil HVAC Works Deadline**” means, in respect of any Critical South Civil HVAC Works, the applicable date set out in the column titled “Critical South Civil HVAC Works Deadline” in Part C of Appendix B to this Schedule 42.
- 1.18** “**Critical South Civil HVAC Works Deficiency Identification Deadline**” has the meaning given in Section 7.5(c) of this Schedule 42.
- 1.19** “**Critical South Civil HVAC Works Inspection**” has the meaning given in Section 7.5(a) of this Schedule 42.
- 1.20** “**Critical South Civil Infrastructure Data**” means the data and information set out in the column titled “Critical South Civil Infrastructure Data” in Part B of Appendix A to this Schedule 42.
- 1.21** “**Critical South Civil Infrastructure Data Deadline**” means the date set out in the column titled “Critical South Civil Infrastructure Data Deadline” in Part B of Appendix A to this Schedule 42 (as such date may be amended pursuant to Section 40 (*Delay Events*) of the Project Agreement).
- 1.22** “**Critical Works**” means, in respect of a South Civil Infrastructure Section or a South Civil Infrastructure Subsection, the Works identified by reference to such South Civil Infrastructure Section or South Civil Infrastructure Subsection in the column titled “Critical Works” in Part B of Appendix B to this Schedule 42.
- 1.23** “**Critical Works Complete**” means, in respect of any Critical Works, that such Critical Works are built in accordance with the requirements of the Project Agreement, including the Output Specifications, in the opinion of the Independent Certifier, as contemplated in Section 5.1 of this Schedule 42.
- 1.24** “**Critical Works Completion Notice**” has the meaning given to it in Section 5.1(b) of this Schedule 42.

- 1.25 “**Critical Works Deadline**” means, in respect of any Critical Works, the applicable date set out in the column titled “Critical Works Deadline” in Part B of Appendix B to this Schedule 42, as such date may be amended pursuant to Section 40 (*Delay Events*) of the Project Agreement.
- 1.26 “**Critical Works Inspection**” has the meaning given to it in Section 5.1(b) of this Schedule 42.
- 1.27 “**Design Submittal Review Process**” means the process set out in Section 11 of Part A and in Part C of Schedule 10 – Review Procedure.
- 1.28 “**Early Access Noise and Vibration Tests**” means the noise and vibration tests to be conducted by Project Co pursuant to and in accordance with Section 6.5.3.2(c)(ii)(II) (*Prediction and Assessment of Operations Noise and Vibration*) of Schedule 17 – Environmental Obligations.
- 1.29 “**Early Access Tunnel**” means the South Civil Infrastructure Sections identified in the following rows of Part A of Appendix A of this Schedule 42: 7b, 14, 15, 21, 22, 28, 29, 35, 36, 42, 43, 49 and 50, in each case prior to South Civil Infrastructure Section Handover occurring in respect thereof.
- 1.30 “**Early Tunnel Access Commencement Date**” has the meaning set out in Section 6A.1(b) of this Schedule 42.
- 1.31 “**Early Tunnel Access Period**” has the meaning set out in Section 6A.1(b) of this Schedule 42.
- 1.32 “**Elevator Access Period**” has the meaning set out in Section 6B.1(a) of this Schedule 42.
- 1.33 “**Handover Data and Equipment**” means, in respect of a South Civil Infrastructure Section, the applicable South Civil Infrastructure Design and Construction Data and equipment identified in the South Civil Infrastructure Technical Specifications as being necessary to achieve South Civil Infrastructure Section Handover in respect of such South Civil Infrastructure Section.
- 1.34 “**Integration Demerit Point Test Period**” means, in respect of the determination of the South Civil Integration Demerit Points Incurred at any time of determination, as applicable (i) the period commencing on Financial Close and ending on the Initial Demerit Points Period End Date (or, in respect of any determination made prior to the Initial Demerit Points Period End Date, the date of such determination) or (ii) the 6 month period preceding the date of determination.
- 1.35 “**Integration Improvement Workshops**” has the meaning given in Schedule 39A – Form of South Civil Interface Agreement.
- 1.36 “**No Earlier Than Date**” means, in respect of a South Civil Infrastructure Section, Early Access Tunnel or South Civil Infrastructure Subsection, as applicable, the corresponding date identified in the column titled “No Earlier Than Date” in Part A of Appendix A to this Schedule 42.
- 1.37 “**No Later Than Date**” means, in respect of a South Civil Infrastructure Section or South Civil Infrastructure Subsection, as applicable, the corresponding date identified in the column titled “No Later Than Date” in Part A of Appendix A to this Schedule 42.
- 1.38 “**Part A Integration Demerit Point Threshold**” means, in respect of any applicable Integration Demerit Point Test Period, the number which represents [REDACTED]% (rounded upwards to the nearest whole number) of the aggregate number of South Civil Infrastructure Section commissioning activities or inspections or South Civil Infrastructure Subsection inspections taking

place in such Integration Demerit Point Test Period, of which Project Co has received, in each case, at least five (5) Business Days notice from Contracting Authority pursuant to Section 6.1(a) or 7.1(c) of this Schedule 42.

- 1.39 “**Part B Integration Demerit Point Threshold**” means [REDACTED].
- 1.40 “**Part C Integration Demerit Point Threshold**” means [REDACTED].
- 1.41 “**Part D Integration Demerit Point Threshold**” means, in respect of any applicable Integration Demerit Point Test Period, the number which represents [REDACTED]% (rounded upwards to the nearest whole number) of the aggregate number of Integration Works Submittals, DIWG RSSOM Integration Works Submittals (each as defined in the South Civil Interface Agreement) and responses to South Civil Infrastructure Works Submittals (as defined in Schedule 10 – Review Procedure) contemplated in rows 11, 12 and 13 of the table set out in Appendix D to this Schedule 42.
- 1.42 “**Part E Integration Demerit Point Threshold**” means [REDACTED].
- 1.43 “**Part F Integration Demerit Point Threshold**” means [REDACTED].
- 1.44 “**Permitted Elevator Use**” has the meaning set out in Section 2.6 of this Schedule 42.
- 1.45 “**Post Handover Access Tunnel**” means the South Civil Infrastructure Sections identified in the following rows of Part A of Appendix A of this Schedule 42: 7b, 14, 15, 21, 22, 28, 29, 35, 36, 42, 43, 49 and 50, in each case after South Civil Infrastructure Section Handover has occurred in respect thereof.
- 1.46 “**Post Handover Jet Fan Commissioning**” means the commissioning activities to be conducted by South Civil Project Co pursuant to and in accordance with Section 3.1.21.2(d)(viii) (*Fire/Life Safety Systems and Procedures*) of Schedule 15 to the South Civil Project Agreement.
- 1.47 “**Post Handover Tunnel Access Commencement Date**” has the meaning set out in Section 9.1(b) of this Schedule 42.
- 1.48 “**Post Handover Tunnel Access Period**” has the meaning set out in Section 9.1(b) of this Schedule 42.
- 1.49 “**Post Handover Corrective Work**” has the meaning given in Section 8.4 of this Schedule 42.
- 1.50 “**Post-Handover Inspection Period**” has the meaning given in Section 7.3(a) of this Schedule 42.
- 1.51 “**Project Co Handover Deficiency**” has the meaning given in Section 7.2(d) of this Schedule 42.
- 1.52 “**Project Co Handover Deficiency List**” has the meaning given in Section 7.2(d) of this Schedule 42.
- 1.53 “**Project Co Post-Handover Deficiency**” has the meaning given in Section 7.3(a) of this Schedule 42.

- 1.54** “**Project Co Post-Handover Deficiency List**” has the meaning given in Section 7.3(a) of this Schedule 42.
- 1.55** “**RSSOM South Civil Infrastructure Activities**” means, in respect of a South Civil Infrastructure Subsection, the Works identified in the column titled “RSSOM South Civil Infrastructure Activities” in Part A of Appendix A to this Schedule 42.
- 1.56** “**South Civil Construction Integration Working Group**” has the meaning given to the term “Construction Integration Working Group” in the South Civil Interface Agreement.
- 1.57** “**South Civil Current Period Integration Demerit Points**” has the meaning given in Section 3.2(a)(ii) of this Schedule 42.
- 1.58** “**South Civil Design Integration Working Group**” has the meaning given to the term “Construction Integration Working Group” in the South Civil Interface Agreement.
- 1.59** “**South Civil Elevator**” means an elevator located on a South Civil Infrastructure Section in respect of which South Civil Infrastructure Section Handover has not yet occurred.
- 1.60** “**South Civil Independent Certifier**” means the Person appointed as independent certifier under the South Civil Project Agreement.
- 1.61** “**South Civil Infrastructure Initial Warranty Period**” means the South Civil Infrastructure Mechanical System Defects Warranty Period or the South Civil Infrastructure Construction Defects Warranty Period, as applicable.
- 1.62** “**South Civil Infrastructure Construction Defect**” means any deficiency, defect or error in the South Civil Project Infrastructure other than to the extent such deficiency, defect or error (i) has arisen as a result of ordinary wear and tear or (ii) was caused or contributed to by Project Co or any Project Co Party (and for certainty, if Project Co fails to maintain the Project Co Infrastructure in accordance with the terms of the Project Agreement, the Maintenance Plan delivered under the Project Agreement or the applicable instructions of manufacturers, it shall be deemed to have contributed to the applicable South Civil Infrastructure Construction Defect to the extent of such failure).
- 1.63** “**South Civil Infrastructure Construction Latent Defect**” means a South Civil Infrastructure Construction Defect that could not reasonably have been ascertained (i) by a competent person in accordance with Good Industry Practice during a visual inspection of the applicable South Civil Project Infrastructure if such inspection took place on the last day of the applicable South Civil Infrastructure Initial Warranty Period or (ii) by Project Co in the course of carrying out the Project Operations under and in accordance with the Project Agreement, having regard (in case of (ii)) to Project Co’s Maintenance Plan (including such inspections and testing of Project Co Infrastructure to be conducted during Project Operations, as contemplated therein), prior to the last day of the applicable South Civil Infrastructure Initial Warranty Period.
- 1.64** “**South Civil Infrastructure Design and Construction Data**” has the meaning set out in Section 2.3(d) of this Schedule 42.

- 1.65** “**South Civil Infrastructure Health and Safety Plan**” means, in respect of a South Civil Infrastructure Section or a South Civil Infrastructure Subsection, the applicable health and safety plan of South Civil Project Co.
- 1.66** “**South Civil Infrastructure Mechanical Systems**” means the “Mechanical Systems” as defined in the South Civil Project Infrastructure Technical Specifications.
- 1.67** “**South Civil Infrastructure Mechanical Systems Defect**” means a South Civil Infrastructure Construction Defect in respect of any South Civil Infrastructure Mechanical Systems.
- 1.68** “**South Civil Infrastructure Mechanical Systems Latent Defect**” means a South Civil Infrastructure Construction Latent Defect in respect of any South Civil Infrastructure Mechanical Systems.
- 1.69** “**South Civil Infrastructure Minor Deficiencies**” means, in respect of a South Civil Infrastructure Section, any defects, deficiencies, and items of outstanding work arising from or related to the work required to achieve South Civil Infrastructure Section Substantial Completion, which are identified by the South Civil Independent Certifier in a South Civil Infrastructure Minor Deficiencies List.
- 1.70** “**South Civil Infrastructure Minor Deficiencies List**” means, in respect of a South Civil Infrastructure Section, a list of South Civil Infrastructure Minor Deficiencies delivered by the South Civil Independent Certifier in connection with a South Civil Infrastructure Section Substantial Completion Notice, which list was delivered to Project Co pursuant to Section 7.4(a) of this Schedule 42.
- 1.71** “**South Civil Infrastructure Section**” means each of the discrete segments of the South Civil Project Infrastructure listed in the column titled “South Civil Infrastructure Section” in Part A of Appendix A to this Schedule 42 and includes all South Civil Infrastructure Subsections identified as forming part thereof.
- 1.72** “**South Civil Infrastructure Section Commissioning**” has the meaning given in Section 7.1(a) of this Schedule 42.
- 1.73** “**South Civil Infrastructure Section Commissioning Commencement Notice**” has the meaning given in Section 7.1(b) of this Schedule 42.
- 1.74** “**South Civil Infrastructure Section Final Completion Certificate**” has the meaning given in Section 7.4(c) of this Schedule 42.
- 1.75** “**South Civil Infrastructure Section Handover**” has the meaning set out in Section 2.1(a).
- 1.76** “**South Civil Infrastructure Section Handover Date**” means, in respect of a South Civil Infrastructure Section, the date of South Civil Infrastructure Section Substantial Completion identified in the applicable South Civil Infrastructure Section Substantial Completion Certificate.
- 1.77** “**South Civil Infrastructure Section IC Substantial Completion Deliverables Confirmation**” has the meaning set out in Section 7.2(c) of this Schedule 42.

- 1.78** “**South Civil Infrastructure Section Substantial Completion**” means, in respect of a South Civil Infrastructure Section, substantial completion thereof as confirmed by the South Civil Independent Certifier in the applicable South Civil Infrastructure Section Substantial Completion Certificate.
- 1.79** “**South Civil Infrastructure Section Substantial Completion Certificate**” means, in respect of a South Civil Infrastructure Section, the certificate issued by the South Civil Independent Certifier certifying that substantial completion has occurred in respect thereof.
- 1.80** “**South Civil Infrastructure Section Substantial Completion Deliverables**” means the deliverables appended by South Civil Project Co to a South Civil Infrastructure Section Substantial Completion Notice.
- 1.81** “**South Civil Infrastructure Section Substantial Completion Deliverables List**” the list of required South Civil Infrastructure Section Substantial Completion Deliverables identified by the South Civil Independent Certifier as those required to be attached to a South Civil Infrastructure Section Substantial Completion Notice.
- 1.82** “**South Civil Infrastructure Section Substantial Completion Notice**” has the meaning given to it in Section 7.2(b).
- 1.83** “**South Civil Infrastructure Subsection**” means each of the discrete subsections of each applicable South Civil Infrastructure Section, as identified in the column titled ‘South Civil Infrastructure Subsection’ in Part A of Appendix A to this Schedule 42.
- 1.84** “**South Civil Infrastructure Subsection Access Date**” has the meaning given in Section 6.1(a)(v)(A).
- 1.85** “**South Civil Infrastructure Subsection Access Date Notice**” has the meaning give in Section 6.1(a)(i) of this Schedule 42.
- 1.86** “**South Civil Infrastructure Subsection Access Period**” has the meaning given in Section 2.2(a) of this Schedule 42.
- 1.87** “**South Civil Infrastructure Subsection Target Access Date**” has the meaning given in Section 6.1(a)(i) of this Schedule 42.
- 1.88** “**South Civil Infrastructure Technical Specifications**” means, the technical specifications applicable to the South Civil Project Infrastructure contained in Appendix E to this Schedule 42, as may be modified pursuant to Schedule 10 – Review Procedure.
- 1.89** “**South Civil Infrastructure Warranty Period**” means, subject to Section 8.2 of this Schedule 42,
- (a) in respect of a South Civil Infrastructure Mechanical Systems Defect, the period commencing on the applicable South Civil Infrastructure Section Substantial Completion Date and ending on the date that is two (2) years after the South Civil Project Substantial Completion Date (the “**South Civil Infrastructure Mechanical Systems Defect Warranty Period**”)

- (b) in respect of a South Civil Infrastructure Construction Defect that is not a South Civil Infrastructure Mechanical Systems Defect, the period commencing on the applicable South Civil Infrastructure Section Handover Date and ending on the day that is two (2) years after such applicable South Civil Infrastructure Section Handover Date (the “**South Civil Infrastructure Construction Defect Warranty Period**”);
- (c) in respect of a South Civil Infrastructure Mechanical Systems Latent Defect, the period commencing on the end of the South Civil Infrastructure Mechanical Systems Defect Warranty Period and ending on the Termination Date;
- (d) in respect of a South Civil Infrastructure Construction Latent Defect that is not a South Civil Mechanical Systems Latent Defect, the period commencing on the end of the applicable South Civil Infrastructure Construction Defect Warranty Period and ending on the Termination Date.
- 1.90** “**South Civil Infrastructure Warranty Work**” means, in respect of any South Civil Project Infrastructure, work to correct any South Civil Infrastructure Construction Defect or South Civil Infrastructure Construction Latent Defect or any work to correct any damage to other Project Co Infrastructure caused by such repair or correction work.
- 1.91** “**South Civil Initial Period Integration Demerit Points**” has the meaning given in Section 3.2(a)(i) of this Schedule 42.
- 1.92** “**South Civil Initial Demerit Points Period End Date**” means the day that is [REDACTED] months from Financial Close.
- 1.93** “**South Civil Integration Committee**” has the meaning given to the term “Integration Committee” in the South Civil Interface Agreement.
- 1.94** “**South Civil Integration Demerit Event**” means an event identified in the column titled “South Civil Integration Demerit Event” in Appendix D hereto.
- 1.95** “**South Civil Integration Demerit Points**” means, in respect of any South Civil Integration Demerit Event, the number of points set out in the column titled “South Civil Integration Demerit Points” next to such South Civil Integration Demerit Event in Appendix D to this Schedule 42.
- 1.96** “**South Civil Integration Demerit Points Incurred**” has the meaning given in Section 3.2(a) of this Schedule 42.
- 1.97** “**South Civil Integration Demerit Points Threshold**” means (i) in respect of any South Civil Integration Demerit Points identified in Part A of the table in Appendix D, the Part A Integration Demerit Point Threshold, (ii) in respect of any South Civil Integration Demerit Points identified in Part B of the table in Appendix D, the Part B Integration Demerit Point Threshold, (iii) in respect of any South Civil Integration Demerit Points identified in Part C of the table in Appendix D, the Part C Integration Demerit Point Threshold, (iv) in respect of any South Civil Integration Demerit Points identified in Part D of the table in Appendix D, the Part D Integration Demerit Point Threshold, (v) in respect of any South Civil Integration Demerit Points identified in Part E of the table in Appendix D, the Part E Integration Demerit Point Threshold and (vi) in respect of any South Civil Integration Demerit Points identified in Part F of the table in Appendix D, the Part F Integration Demerit Point Threshold, as applicable.

- 1.98 “**South Civil Project Substantial Completion Date**” means the date on which South Civil Infrastructure Section Substantial Completion has been achieved in respect of all South Civil Infrastructure Sections, as confirmed in the South Civil Project Substantial Completion Certificate.
- 1.99 “**South Civil Project Substantial Completion Certificate**” means the certificate of the South Civil Independent Certifier confirming that substantial completion has been achieved in respect of the entirety of the South Civil Project.

2. CONTRACTING AUTHORITY INTEGRATION OBLIGATIONS

2.1 Handover of South Civil Infrastructure Sections

- (a) Contracting Authority shall cause each South Civil Infrastructure Section (and any South Civil Infrastructure Subsections forming part thereof) to be handed over by South Civil Project Co to Project Co, subject to, and in accordance with, the provisions of this Schedule 42. Subject to Section 7 of this Schedule 42, each South Civil Infrastructure Section shall be handed over to Project Co on a Built to Specification and Design basis on the applicable South Civil Infrastructure Section Handover Date (each such handover being a “**South Civil Infrastructure Section Handover**”).
- (b) On or before the South Civil Infrastructure Section Handover Date applicable to each South Civil Infrastructure Section, Contracting Authority shall:
- (i) ensure that South Civil Project Co and all South Civil Project Co Parties have vacated the applicable South Civil Infrastructure Section and corresponding South Civil Project Lands (except as expressly contemplated pursuant to the terms of the Project Agreement); and
 - (ii) provide Project Co with the most recent versions of all South Civil Infrastructure Design and Construction Data received from South Civil Project Co in respect of the applicable South Civil Infrastructure Section (and Contracting Authority shall provide final versions of such South Civil Infrastructure Design and Construction Data as soon as reasonably practicable thereafter upon receipt thereof from South Civil Project Co).
- (c) In the event that a South Civil Infrastructure Section Handover occurs on a day prior to the No Earlier Than Date applicable to the relevant South Civil Infrastructure Section, Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation.
- (d) In the event that a South Civil Infrastructure Section Handover has not occurred on or before the No Later Than Date applicable to the relevant South Civil Infrastructure Section, then, provided the then applicable South Civil Integration Demerit Points Incurred do not exceed the applicable South Civil Integration Demerit Points Threshold, Project Co shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be entitled to a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be entitled to a Compensation Event.
- (e) Without prejudice to any other right Project Co may have under the Project Agreement, Project Co may, prior to any South Civil Infrastructure Handover Date, request to

participate with Contracting Authority in, or conduct, an inspection of any South Civil Infrastructure. Contracting Authority may determine, whether to permit Project Co or any Project Co Party to participate in, or conduct, such an inspection, and shall act reasonably in making such determination where it has received at least five (5) Business Days notice from Project Co of such intended inspection. If Contracting Authority so permits Project Co or a Project Co Party to participate in, or conduct, such an inspection, then Project Co or the applicable Project Co Party shall comply with all instructions provided by Contracting Authority in respect of such inspection. If a requested inspection which has been permitted by Contracting Authority pursuant to this Section 2.1(e) of this Schedule 42 does not take place, Project Co shall reimburse Contracting Authority for any costs incurred in connection with such inspection.

- (f) In respect of each South Civil Infrastructure Section, following South Civil Infrastructure Section Handover, at all times from and after the applicable South Civil Infrastructure Section Handover Date:
 - (i) the applicable South Civil Infrastructure Section shall form part of the Project Co Infrastructure and the Ontario Line Subway and Project Co shall be responsible for such South Civil Infrastructure Section in accordance with the provisions of the Project Agreement; and
 - (ii) the applicable South Civil Project Lands that such South Civil Infrastructure Section is situated on shall form part of the Lands that Project Co is responsible for under the Project Agreement.

2.2 Access to South Civil Infrastructure Subsections

- (a) Contracting Authority shall cause South Civil Project Co to grant Project Co and any Project Co Party access to each South Civil Infrastructure Subsection from the South Civil Infrastructure Subsection Access Date up to the South Civil Infrastructure Section Handover Date applicable to the South Civil Infrastructure Section which such South Civil Infrastructure Subsection is comprised within (the “**South Civil Infrastructure Subsection Access Period**”) for the exclusive purpose of performing the applicable RSSOM South Civil Infrastructure Activities, all subject to, and in accordance with, the provisions of this Schedule 42.
- (b) Subject to Project Co complying with its obligations pursuant to Section 6.1, during the South Civil Infrastructure Subsection Access Period applicable to a South Civil Infrastructure Subsection, Contracting Authority shall cause South Civil Project Co to grant Project Co and any Project Co Party access to such South Civil Infrastructure Subsection, and ensure that South Civil Project Co and all South Civil Project Co Parties do not materially interfere with such access, between 7:00 a.m. and 7:00 p.m. each Business Day.
- (c) In the event that a South Civil Infrastructure Subsection Access Date is a day that is prior to the No Earlier Than Date applicable to the relevant South Civil Infrastructure Subsection, Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation.

- (d) In the event that a South Civil Infrastructure Subsection Access Date has not occurred on or before the No Later Than Date applicable to the relevant South Civil Infrastructure Subsection, provided the then applicable South Civil Integration Demerit Points Incurred do not exceed the applicable South Civil Integration Demerit Points Threshold, Project Co shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be entitled to a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be entitled to a Compensation Event.
- (e) If Project Co or any Project Co Party requires access to a South Civil Infrastructure Subsection in respect of which a South Civil Infrastructure Subsection Access Date has not yet occurred, or a South Civil Infrastructure Section in respect of which a South Civil Infrastructure Section Handover Date has not yet occurred, in order to access (or bring equipment on site to) a South Civil Infrastructure Subsection in respect of which a South Civil Infrastructure Subsection Access Date has occurred, or a South Civil Infrastructure Section in respect of which a South Civil Infrastructure Section Handover Date has occurred, Contracting Authority shall cause South Civil Project Co to grant Project Co or any Project Co Party such reasonable access to the applicable South Civil Project Infrastructure (and the South Civil Project Lands it is situated on) as may be reasonably required by Project Co in order to enable Project Co to so access or bring equipment on site, as may be applicable.

2.3 Critical South Civil Infrastructure Data, Handover Data and Equipment, and South Civil Infrastructure Design and Construction Data

- (a) Contracting Authority shall provide the Critical South Civil Infrastructure Data to Project Co on or before the applicable Critical South Civil Infrastructure Data Deadline.
- (b) If Contracting Authority fails to provide Critical South Civil Infrastructure Data on or before the applicable Critical South Civil Infrastructure Data Deadline then, provided the then applicable South Civil Integration Demerit Points Incurred do not exceed the applicable South Civil Integration Demerit Points Threshold, Project Co shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be entitled to a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be entitled to a Compensation Event.
- (c) Contracting Authority shall provide Project Co with all Handover Data and Equipment in respect of each applicable South Civil Infrastructure Section on or before the South Civil Infrastructure Handover Date thereof.
- (d) Without prejudice to Sections 2.3(a) and (b) of this Schedule 42, Contracting Authority shall provide to Project Co all design and construction related data and information received from South Civil Project Co in respect of the South Civil Project to Project Co and shall update such information from time to time on an ongoing basis upon receipt of such updates from South Civil Project Co (such data and information, as updated from time to time, referred to as the “**South Civil Infrastructure Design and Construction Data**”).

2.4 Critical South Civil HVAC Works

- (a) Contracting Authority shall cause South Civil Project Co to complete the Critical South Civil HVAC Works, such that they are Critical South Civil HVAC Works Complete on or before the applicable Critical South Civil HVAC Works Deadline subject to, and in accordance with, Section 7.5 of this Schedule 42.
- (b) Contracting Authority shall ensure, or cause South Civil Project Co to ensure, that the Critical South Civil HVAC Works perform in accordance with the South Civil Infrastructure Technical Specifications from the date that Critical South Civil HVAC Works Completion is achieved in respect thereof until the date on which the South Civil Infrastructure Section Handover Date has occurred in respect of all South Civil Infrastructure Sections. Project Co shall notify the Contracting Authority immediately upon a failure of any Critical South Civil HVAC Works to perform in accordance with the South Civil Infrastructure Technical Specifications.
- (c) Without prejudice to any other right Project Co may have under the Project Agreement, Project Co may, prior to any applicable Critical South Civil HVAC Works Completion Date, request to participate with Contracting Authority in, or conduct, an inspection of, any Critical South Civil HVAC Works. Contracting Authority may determine whether to permit Project Co or any Project Co Party to participate in, or conduct, such an inspection, and shall act reasonably in making such determination where it has received at least five (5) Business Days notice from Project Co of such intended inspection. If Contracting Authority so permits Project Co or a Project Co Party to participate in, or conduct, such an inspection, then Project Co or the applicable Project Co Party shall comply with all instructions provided by Contracting Authority in respect of such inspection. If a requested inspection which has been permitted by Contracting Authority pursuant to this Section 2.4(c) of this Schedule 42 does not take place, Project Co shall reimburse Contracting Authority for any costs incurred in connection with such inspection.
- (d) In the event that,
 - (i) a Critical South Civil HVAC Works Completion Date has not occurred on or before the Critical South Civil HVAC Works Deadline applicable to the relevant Critical South Civil HVAC Works, or
 - (ii) the applicable Critical South Civil HVAC Works cease to be Critical South Civil HVAC Works Complete thereafter;

then, provided the then applicable South Civil Integration Demerit Points Incurred do not exceed the applicable South Civil Integration Demerit Point Threshold, Project Co shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be entitled to a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be entitled to a Compensation Event.

2.5 Early Access Tunnels – Noise and Vibration Tests

Contracting Authority shall cause South Civil Project Co to grant Project Co and any Project Co Party access to each Early Access Tunnel during each applicable Early Tunnel Access Period between 7:00 p.m. on each Business Day and 7:00 a.m. on the next following Business Day, for

the exclusive purpose of conducting Early Access Noise and Vibration Tests, all in accordance with Section 6A of this Schedule 42 and subject to Project Co complying with its obligations pursuant to Section 6.1(c) of this Schedule 42, and Contracting Authority shall ensure that South Civil Project Co and all South Civil Project Co Parties do not materially interfere with such access.

2.6 Elevator Access

Contracting Authority shall cause South Civil Project Co to grant Project Co and any Project Co Party access to each South Civil Elevator during each applicable Elevator Access Period, between 7:00 a.m. and 7:00 p.m. on each Business Day, for the exclusive purpose of Project Co transporting equipment to South Civil Infrastructure Subsections in respect of which the applicable South Civil Infrastructure Access Date has occurred and/or South Civil Infrastructure Sections in respect of which the South Civil Infrastructure Handover Date has occurred (each a “**Permitted Elevator Use**”), all in accordance with Section 6B of this Schedule 42 and subject to Project Co complying with its obligations pursuant to Section 6.1(c) of this Schedule 42, and Contracting Authority shall ensure that South Civil Project Co and all South Civil Project Co Parties do not materially interfere with such access.

3. INTEGRATION DEMERIT POINT REGIME

3.1 South Civil Integration Demerit Points

- (a) If, at any time prior to the Substantial Completion Date, a South Civil Integration Demerit Event occurs, the corresponding South Civil Integration Demerit Points shall accrue and be assessed against Project Co in accordance with this Section 3.1 of Schedule 42.
- (b) For greater certainty, notwithstanding anything to the contrary in the Project Agreement, including this Schedule 42, any South Civil Integration Demerit Points shall accrue immediately upon the occurrence of the applicable South Civil Integration Demerit Event.

3.2 Calculation of South Civil Integration Demerit Points Incurred

- (a) The “**South Civil Integration Demerit Points Incurred**” at any given time shall be calculated separately in respect of South Civil Integration Demerit Points identified in each of Parts A, B, C and D of the table in Appendix D, in each case as the sum of (1) the applicable South Civil Initial Period Integration Demerit Points; and (2) the applicable South Civil Current Period Integration Demerit Points,

where:

- (i) the applicable “**South Civil Initial Period Integration Demerit Points**” (in respect of South Civil Integration Demerit Points identified in each of Parts A, B, C and D of the table in Appendix D) means the sum of all applicable South Civil Integration Demerit Points incurred from Financial Close to the South Civil Initial Demerit Points Period End Date (or, in respect of any determination made prior to the South Civil Initial Demerit Points Period End Date, incurred up to the date of such determination); and
- (ii) the applicable “**South Civil Current Period Integration Demerit Points**” (in respect of South Civil Integration Demerit Points identified in each of Parts A, B,

C and D of the table in Appendix D) means the sum of all applicable South Civil Integration Demerit Points incurred by Project Co during the previous 6 months provided that:

- (A) on or prior to the South Civil Initial Demerit Point Period End Date, the applicable South Civil Current Period Integration Demerit Points shall be equal to zero; and
- (B) at any time on or before the day that is six (6) months following the South Civil Initial Demerit Point Period End Date, the applicable South Civil Current Period Integration Demerit Points shall equal the sum of all applicable South Civil Integration Demerit Points incurred by Project Co since the South Civil Initial Demerit Point Period End Date.

3.3 Reporting of South Civil Integration Demerit Points

Project Co shall track and set out the South Civil Integration Demerit Points incurred in each monthly Works Report (both on a month by month basis and as a running total), on a separate basis in respect of all South Civil Integration Demerit Points identified in Parts A, B, C and D of the table in Appendix D. If Contracting Authority disagrees with any calculation of the South Civil Integration Demerit Points set out by Project Co in any Works Report, then Contracting Authority shall notify Project Co and the Independent Certifier of such disagreement. If the matter(s) cannot be resolved within fifteen (15) Business Days after Contracting Authority's notification of disagreement (or such other period as may be otherwise agreed by the Parties), then such matter shall be subject to the binding determination of the Independent Certifier, and the Independent Certifier's decision shall be final and shall not be subject to resolution pursuant to Schedule 27 – Dispute Resolution Procedure.

3.4 Relief From South Civil Integration Demerit Points.

Subject to Project Co meeting the obligations set out in Section 40.2 (*Consequences of a Delay Event*) and Section 40.3 (*Mitigation*) of the Project Agreement, if any applicable South Civil Integration Demerit Points,

- (i) have been assessed in accordance with Section 3 and Appendix D of this Schedule 42; and
- (ii) have arisen from a South Civil Integration Demerit Event that has been directly caused by one or more of the events set out in Section 40.1(a) (*Delay Events – Definition*) of the Project Agreement, whether or not such event constitutes a Delay Event or have been caused or contributed to by the Contracting Authority or a Contracting Authority Party;

such South Civil Integration Demerit Points shall not be included in the calculation of South Civil Integration Demerit Points Incurred in accordance with this Section 3 of Schedule 42.

4. CRITICAL DATA

4.1 Project Co to Provide Critical Data

Project Co shall provide Contracting Authority with the Critical Data on or before the applicable Critical Data Deadline.

4.2 Failure to Provide Critical Data

If Project Co does not provide Contracting Authority with the Critical Data on or before the Critical Data Deadline then it shall be liable to pay liquidated damages to Contracting Authority as set out in Section 6.1 (*Failure to Deliver Critical Data or Complete Critical Works or OMSF Works on Time*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime.

4.3 Other Information

Project Co shall provide such other information as Contracting Authority may reasonably require in order to facilitate the development of an integrated Ontario Line Subway System.

5. CRITICAL WORKS

5.1 Project Co to Complete Critical Works

The following terms shall apply in respect of Critical Works to be completed by Project Co on each applicable South Civil Infrastructure Section:

- (a) Project Co shall complete the Critical Works, such that they are Critical Works Complete on or before the applicable Critical Works Deadline.
- (b) Project Co shall provide to Contracting Authority and the Independent Certifier notice (the “**Critical Works Completion Notice**”) twenty-five (25) Business Days prior to the date on which it anticipates the Critical Works will be completed in compliance with the requirements of the Project Agreement, including the Output Specifications. The Critical Works Completion Notice shall include particulars of a scheduled inspection by the Independent Certifier of the applicable Critical Works (the “**Critical Works Inspection**”) which shall take place no earlier than five (5) Business Days after the date of the Critical Works Completion Notice.
- (c) On the date specified in the Critical Works Completion Notice Project Co shall participate, together with Contracting Authority and the Independent Certifier, in the Critical Works Inspection of the Critical Works, with a view to determining whether they have achieved Critical Works Completion. It is acknowledged that pursuant to the South Civil Project Agreement, South Civil Project Co shall participate in the Critical Works Inspection.
- (d) Contracting Authority shall notify Project Co and the Independent Certifier within ten (10) Business days of the completion of the Critical Works Inspection whether it is of the opinion that the Critical Works are completed in compliance with the requirements of the Project Agreement, including the Output Specifications. In determining whether the Critical Works are completed in compliance with the requirements of the Project Agreement, Contracting Authority may, but shall not be obligated to, take account of the views of Project Co expressed during the Critical Works Inspection.
- (e) Within five (5) Business Days after Project Co’s receipt of Contracting Authority’s opinion pursuant to Section 5.1(d) of this Schedule 42 the Parties shall cause the Independent

Certifier to determine whether the Critical Works are completed in compliance with the requirements of the Project Agreement, including the Output Specifications, having regard to the opinions of both Project Co and Contracting Authority.

- (f) If the Independent Certifier determines that the Critical Works are completed in compliance with the requirements of the Project Agreement, including the Output Specifications, the Critical Works shall be deemed Critical Works Complete on the date confirmed by the Independent Certifier, provided that the Independent Certifier may have regard to such confirmation, but shall not be bound by it, for purposes of determining if Substantial Completion has occurred and for purposes of the issuance of the Substantial Completion Certificate pursuant to Section 25 (*Commissioning and Completion*) of the Project Agreement (provided further that the Independent Certifier shall be bound by such confirmation to the extent no change has occurred since the date thereof).
- (g) If the Independent Certifier determines that the Critical Works are not completed in compliance with the requirements of the Project Agreement, including the Output Specifications, the Critical Works Notice shall be deemed rescinded and Project Co may provide a subsequent Critical Works Notice pursuant to Section 5.1(b) of this Schedule 42.
- (h) Project Co shall ensure that all Critical Works are compliant with and function in accordance with all requirements of the Project Agreement, including the Output Specifications, at all times from and after the date that such Critical Works are Critical Works Complete.

5.2 Failure to Provide Critical Works on Time

If the Critical Works are not Critical Works Complete on or before the applicable Critical Works Deadline or if at any time after they are Critical Works Complete but prior to the applicable South Civil Infrastructure Section becoming part of the Project Co Infrastructure pursuant to Section 2.1(f) of this Schedule 42, the Critical Works do not meet the requirements of the Project Agreement, then Project Co shall be liable to pay liquidated damages to Contracting Authority as set out in Section 6.1 (*Failure to Deliver Critical Data or Complete Critical Works or OMSF Works on Time*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime.

6. ACCESS TO SOUTH CIVIL INFRASTRUCTURE SUBSECTIONS

6.1 South Civil Infrastructure Subsection Access

- (a) Project Co shall be granted access pursuant to Section 2.2 of this Schedule 42 to each South Civil Infrastructure Subsection for purposes of carrying out the RSSOM South Civil Infrastructure Activities in accordance with the following procedure:
 - (i) Contracting Authority shall provide to Project Co notice (the “**South Civil Infrastructure Subsection Access Date Notice**”) of the date on which each applicable South Civil Infrastructure Subsection shall be ready to be accessed by Project Co for purposes of Project Co performing the applicable RSSOM South Civil Infrastructure Activities (the “**South Civil Infrastructure Subsection Target Access Date**”), no later than two (2) Business Days after receipt of notice of same from South Civil Project Co, which notice shall include particulars of a scheduled inspection by the South Civil Independent Certifier of the South Civil

Infrastructure Subsection (the “**Access Ready Inspection**”) which shall take place no earlier than three (3) Business Days after the date of the South Civil Infrastructure Subsection Access Notice.

- (ii) On the date specified in the South Civil Infrastructure Subsection Access Notice being provided to Project Co, Project Co shall participate, together with South Civil Independent Certifier, in the Access Ready Inspection of the South Civil Infrastructure Subsection, with a view to determining whether the South Civil Infrastructure Subsection is Access Ready.
- (iii) Project Co shall confirm to Contracting Authority no later than ten (10) Business Days after the date of the Access Ready Inspection whether Project Co is of the opinion that the South Civil Project Infrastructure forming part of such South Civil Infrastructure Subsection is Built to Specification and Design in respect of the requirements set out in the applicable Access Ready Checklist and if it is of the opinion that it is not Built to Specification and Design in respect of any requirements set out in the applicable Access Ready Checklist, Project Co shall, simultaneous with its confirmation, provide to Contracting Authority a list of deficiencies that Project Co considers necessary to be rectified in order for the South Civil Infrastructure Subsection to be Built to Specification and Design in respect of the requirements specified on the applicable Access Ready Checklist (the “**Access Readiness Deficiency List**”).
- (iv) If (1) Project Co does not participate in the Access Ready Inspection of a South Civil Infrastructure Subsection contemplated in Section 6.1(a)(ii) of this Schedule 42 or (2) Project Co participates in such Access Ready Inspection but does not provide the confirmation or Access Readiness Deficiency List contemplated in Section 6.1(c)(iii) of this Schedule 42, Project Co shall be deemed to have accepted that the South Civil Project Infrastructure forming part of such South Civil Infrastructure Subsection is Built to Specification and Design in respect of all requirements set out in the applicable Access Ready Checklist, for purposes of determining if such South Civil Infrastructure Subsection is Access Ready and shall be deemed to have waived any claim to the contrary for purposes of determining whether the applicable South Civil Infrastructure Subsection Access Date has occurred (but for clarity, not for purposes of the determination of any Project Co Handover Deficiencies or Project Co Post-Handover Deficiencies as contemplated in Sections 7.2(d) or 7.3(a) of this Schedule 42 or handover under Section 7 of this Schedule 42, and subject to Section 8.1 of this Schedule 42).
- (v) Contracting Authority shall notify Project Co within twenty-five (25) Business Days of the date of the South Civil Infrastructure Subsection Access Date Notice whether the South Civil Independent Certifier has opined that
 - (A) all South Civil Project Infrastructure in such South Civil Infrastructure Subsection is Built to Specification and Design in respect of all requirements set out in the applicable Access Ready Checklist in which case the South Civil Infrastructure Subsection shall be deemed Access Ready and the date on which Project Co shall be granted access to such South Civil Infrastructure Subsection in order to carry out the applicable

- RSSOM South Civil Infrastructure Activities (the applicable “**South Civil Infrastructure Subsection Access Date**”) shall be the date confirmed by the South Civil Independent Certifier in its notice pursuant to this Section 6.1(a)(v)(A), or
- (B) any South Civil Project Infrastructure in such South Civil Infrastructure Subsection is not Built to Specification and Design in respect of any of the requirements set out in the applicable Access Ready Checklist, in which case the South Civil Infrastructure Access Date Notice shall be deemed rescinded.
- (vi) If, notwithstanding Project Co’s delivery of an Access Readiness Deficiency List pursuant to Section 6.1(a)(iii) of this Schedule 42 Contracting Authority proceeds to issue a notice pursuant to Section 6.1(a)(v)(A) hereof confirming that the relevant South Civil Infrastructure Subsection is Access Ready, Project Co may, no later than five (5) Business Days after receipt of such notice from Contracting Authority, bring a Dispute in respect thereof. Project Co acknowledges and agrees that if it does not initiate a Dispute within such timeframe with respect to any non conformance of any requirements listed in the applicable Access Ready Checklist to the Built to Specification and Design standard, it shall be deemed to waive any claim in relation thereto for purposes of determining whether the applicable South Civil Infrastructure Subsection Access Date has occurred (but for clarity, not for purposes of the determination of any Project Co Handover Deficiencies or Project Co Post-Handover Deficiencies as contemplated in Sections 7.2(d) or 7.3(a) of this Schedule 42 or handover under Section 7 of this Schedule 42, and subject to Section 8.1 of this Schedule 42).
- (vii) If such Dispute is resolved in favour of Project Co, Project Co shall be entitled to a Variation subject to and in accordance with Schedule 22 – Variation Procedure. Such Dispute, if applicable, shall not affect the South Civil Infrastructure Subsection Access Date established pursuant to Section 6.1(a)(v)(A).
- (viii) The process contemplated in Sections 6.1(a)(i)-(vi) of this Schedule 42 shall be repeated in respect of a South Civil Infrastructure Subsection until such time as a South Civil Infrastructure Subsection Access Date is determined in respect thereof.
- (b) Project Co acknowledges and agrees that it shall have the right to access each South Civil Infrastructure Subsection during the applicable South Civil Infrastructure Subsection Access Period:
- (i) for the exclusive purpose of performing the applicable RSSOM South Civil Infrastructure Activities;
- and
- (ii) in accordance with the conditions set out in this Section 6 of Schedule 42.
- (c) In connection with Project Co accessing (A) any South Civil Infrastructure Subsection and the performance of any applicable RSSOM South Civil Infrastructure Activities, (B) any South Civil Project Infrastructure as contemplated in Section 2.2(e) of this Schedule 42,

(C) any Early Access Tunnel as contemplated in Section 2.5 of this Schedule 42, and (D) any South Civil Elevator as contemplated in Section 2.6 of this Schedule 42, Project Co shall, and shall cause any Project Co Party to:

- (i) comply with the South Civil Infrastructure Health and Safety Plan of South Civil Project Co that is applicable to the South Civil Infrastructure Subsection, Early Access Tunnel or South Civil Elevator, as applicable, and which has been provided by Contracting Authority to Project Co and comply with all directions of South Civil Project Co in respect of any matter regarding health and safety at the applicable South Civil Infrastructure Subsection, Early Access Tunnel or South Civil Elevator, as applicable, including, but not limited to:
 - (A) ensuring all employees, contractors, subcontractors and other Project Co Parties report to South Civil Project Co to receive the necessary health and safety training on, or prior to, arrival at the South Civil Infrastructure Section that the South Civil Infrastructure Subsection or Early Access Tunnel is comprised in; and
 - (B) complying with all applicable South Civil Project Co health and safety plans and directions when accessing a South Civil Infrastructure Subsection via the applicable South Civil Infrastructure Section that is still under the care and control of South Civil Project Co;
- (ii) coordinate with South Civil Project Co the means of access to the applicable South Civil Infrastructure Subsection, Early Access Tunnel or South Civil Elevator, as applicable, (or to any South Civil Infrastructure Section to which Project Co may require access solely for the purpose contemplated pursuant to Section 2.2(e) of this Schedule 42);
- (iii) keep the South Civil Infrastructure Subsection, Early Access Tunnel or South Civil Elevator, as applicable, and all South Civil Project Infrastructure thereon in a safe and orderly state in accordance with Good Industry Practice;
- (iv) not materially interfere with or delay the work of South Civil Project Co or any South Civil Project Co Parties, and not do anything that causes South Civil Project Co to be in contravention of its obligations under the Occupational Health and Safety Act (Ontario), and Project Co shall promptly cease and desist any activity that results or has a likelihood in resulting in such interference or delay or causes such contravention; and
- (v) without derogating from the generality of the foregoing, not interfere with or delay South Civil Project Co, any South Civil Project Co Party or the South Civil Independent Certifier in carrying out commissioning activities in respect of a South Civil Infrastructure Section which such South Civil Infrastructure Subsection, Early Access Tunnel, or South Civil Elevator, as applicable, is comprised.

6.2 Damage to South Civil Infrastructure Subsection

- (a) During the South Civil Infrastructure Subsection Access Period, Early Tunnel Access Period or Elevator Access Period, as applicable, Project Co shall, and shall cause any

Project Co Party accessing a South Civil Infrastructure Subsection, Early Access Tunnel or South Civil Elevator, as applicable, to not cause any damage or destruction to the applicable South Civil Infrastructure Subsection or Early Access Tunnel and any South Civil Project Infrastructure contained therein or any South Civil Elevator, as applicable, and shall comply, and cause any such Project Co Party to comply, with any directions of South Civil Project Co as may be required to protect such South Civil Infrastructure Subsection, Early Access Tunnel, South Civil Project Infrastructure or South Civil Elevator from damage or destruction.

- (b) Project Co shall be responsible for any damage caused by Project Co or any Project Co Parties to any South Civil Project Infrastructure or South Civil Elevator during any applicable South Civil Infrastructure Access Period, Early Tunnel Access Period or Elevator Access Period (including, for greater certainty, any damage to South Civil Project Infrastructure outside of the applicable South Civil Infrastructure Subsection or Early Access Tunnel). Upon causing any such damage it shall forthwith notify Contracting Authority and South Civil Project Co. The repair of such damage shall be at the cost and expense of Project Co.
- (c) If Project Co causes any damage referred to in Section 6.2(b) of this Schedule 42 which results in, or could reasonably be expected to result in, a serious threat to the health and safety or security of any person, Project Co shall immediately notify Contracting Authority and stop the RSSOM South Civil Infrastructure Activities, the Early Access Noise and Vibration Tests or access to the South Civil Elevators, as applicable, shall follow the reasonable directions of South Civil Project Co in respect of health and safety compliance and shall vacate the South Civil Infrastructure Subsection, Early Access Tunnel or South Civil Elevator, as applicable, and the South Civil Project Lands it is situated on until such time as Contracting Authority provides Notice to Project Co that the health and safety or security issue identified by Project Co has been addressed and Project Co may return to the South Civil Infrastructure Subsection, Early Access Tunnel or South Civil Elevator, as applicable.
- (d) In respect of any damage to the South Civil Project Infrastructure (including any South Civil Elevator) caused by Project Co or any Project Co Party, Contracting Authority may, but shall not be obligated to
 - (i) request that Project Co repair such damage, in which case Project Co shall repair such damage as directed by Contracting Authority, at the cost and expense of Project Co, or
 - (ii) arrange for the repair of such damage by South Civil Project Co or an Additional Contractor, in which case Contracting Authority shall so notify Project Co and Project Co shall, as may be directed by Contracting Authority (A) stop the applicable RSSOM South Civil Infrastructure Activities, the Early Access Noise and Vibration Tests or access to the South Civil Elevators, as applicable, and/or (B) vacate the South Civil Infrastructure Subsection, the Early Access Tunnel or the South Civil Elevators, as applicable, and the South Civil Project Lands it is situated on until such time as Contracting Authority provides Notice to Project Co that the damage has been repaired and Project Co may return thereto.

- (e) If any damage contemplated in this Section 6.2 of this Schedule 42 is to be repaired by South Civil Project Co or an Additional Contractor, then subject to Section 6.2(d)(ii) of this Schedule 42, (i) at any time prior to an applicable South Civil Infrastructure Handover Date, Project Co shall not and shall ensure all Project Co Parties, do not, interfere with South Civil Project Co's or such Additional Contractor's (as applicable) work in respect of such repair, and (i) at any time after an applicable South Civil Infrastructure Handover Date, Project Co shall grant South Civil Project Co or Additional Contractor, as applicable, access to the South Civil Infrastructure Subsection, Early Access Tunnel or South Civil Elevator in order to repair such damage, and shall not, and shall ensure that all Project Co Parties do not, interfere with such repair work.
- (f) If Project Co causes any damage or destruction referred to in Section 6.2(b) of this Schedule 42, Project Co may not claim any relief pursuant to Section 40 (*Delay Events*) or Section 41 (*Compensation Events*) of the Project Agreement in connection with any RSSOM South Civil Infrastructure Activities or Early Access Noise and Vibration Tests affected by such damage or destruction or any repair thereof.
- (g) The terms of Sections 6.2(a)-(f) of this Schedule 42 shall apply in respect of any South Civil Project Infrastructure at any time that Project Co has access thereto as contemplated in Section 2.2(e) of this Schedule 42.

6.3 Title

In respect of Works performed by Project Co in any South Civil Infrastructure Subsection, title to each item forming part thereof, including any materials, supplies, equipment, facilities, parts and any other deliverable or component items, but not the risk of loss or damage or destruction thereto or thereof, shall pass to Contracting Authority upon the receipt of such item in the South Civil Infrastructure Subsection notwithstanding Section 55.1 (*Title*) of the Project Agreement.

6A. ACCESS TO EARLY ACCESS TUNNELS

6A.1 Access to Early Access Tunnels

The applicable Early Tunnel Access Commencement Date and Early Tunnel Access Period during which Project Co shall be granted access pursuant to Section 2.5 of this Schedule 42 to each Early Access Tunnel for purposes of carrying out the Early Access Noise and Vibration Tests, shall be determined in the following manner:

- (a) Project Co shall provide to Contracting Authority Notice of the proposed date on which Project Co requires access to the applicable Early Access Tunnel for purposes of performing the Early Access Noise and Vibration Tests (which date shall be no earlier than ninety (90) days prior to the No Later Than Date applicable to such Early Access Tunnel) and the proposed time period for access commencing on such date, which Notice shall be provided no later than sixty (60) days prior to the date on which Project Co requires such access. For clarity, more than one (1) Notice may be provided to Contracting Authority in respect of an Early Access Tunnel pursuant to this Section 6A.1(a) of this Schedule 42.
- (b) Contracting Authority shall, no later than thirty (30) Business Days after receipt of Notice pursuant to Section 6A.1(a) of this Schedule 42, confirm by Notice to Project Co the access period (the "**Early Tunnel Access Period**") and commencement date thereof (the "**Early**

Tunnel Access Commencement Date”) in respect of Early Access Noise and Vibration Tests to be conducted in such Early Access Tunnel (which, for clarity, may be the same as, or different from, those proposed by Project Co in its Notice provided pursuant to Section 6A.1(a) of this Schedule 42). Contracting Authority may refer the determination of the Early Tunnel Access Commencement Date and the Early Tunnel Access Period for consideration at the next following meeting of the South Civil Integration Committee pursuant to the South Civil Interface Agreement, in accordance with the terms of Section 3 (*Integration Committee*) of the South Civil Interface Agreement, in which case Contracting Authority shall take into consideration any determination made in respect thereof by the South Civil Integration Committee, provided that the Early Tunnel Access Commencement Date may in no event be earlier than ninety (90) days prior to the applicable No Later Than Date.

6B. SOUTH CIVIL ELEVATOR ACCESS

6B.1 South Civil Elevator Access

- (a) If Project Co requires access to South Civil Elevators for purposes of Permitted Elevator Use, Project Co shall raise such requirements for discussion at the next following meeting of the South Civil Construction Integration Working Group pursuant to Section 5 (*Construction Integration Working Group*) of the South Civil Interface Agreement. If and to the extent South Civil Project Co agrees to provide access to Project Co to South Civil Elevators for purposes of specified Permitted Elevator Use disclosed by Project to the South Civil Construction Integration Working Group (which disclosure shall include identification of the equipment intended to be transported), the access period (the applicable “**Elevator Access Period**”) applicable to such disclosed Permitted Elevator Use shall be the period (if any) agreed to by South Civil Project Co and established by the South Civil Construction Integration Working Group.
- (b) For clarity, Contracting Authority shall not be required to cause South Civil Project Co to provide Project Co with access to South Civil Elevators outside of the applicable Elevator Access Period or for the any purpose other than Permitted Elevator Use disclosed to the South Civil Construction Integration Group in respect thereof.
- (c) Project Co shall comply with the terms of Section 6.1(c) at all times while accessing a South Civil Elevator during an applicable Elevator Access Period.

7. SOUTH CIVIL INFRASTRUCTURE SECTION HANDOVER TO PROJECT CO

7.1 Notice of South Civil Infrastructure Section Commissioning

- (a) Contracting Authority shall give twenty five (25) days’ Notice to Project Co of the proposed commencement of the commissioning of each South Civil Infrastructure Section (the “**South Civil Infrastructure Section Commissioning**”).
- (b) Contracting Authority shall give at least three (3) Business Days’ Notice (the “**South Civil Infrastructure Section Commissioning Commencement Notice**”) to Project Co of the commencement of South Civil Infrastructure Section Commissioning, which shall not be prior to the date of proposed commencement set out in the notice delivered under Section 7.1(a) of this Schedule 42. Contracting Authority shall, together with such Notice, provide

all information that Project Co may reasonably require in relation thereto and which Contracting Authority has received from South Civil Project Co, including (i) tests proposed, (ii) test methodology; and (iii) expected test results. Without prejudice to the preceding sentence, Contracting Authority shall act reasonably in requesting the information contemplated in the preceding sentence from South Civil Project Co.

- (c) Upon receipt of a South Civil Infrastructure Section Commissioning Commencement Notice, Project Co shall participate in the South Civil Infrastructure Section Commissioning activities and South Civil Infrastructure Section inspections contemplated therein. For certainty, Contracting Authority may issue a single South Civil Infrastructure Section Commissioning Commencement Notice in respect of multiple South Civil Infrastructure Sections.

7.2 South Civil Infrastructure Section Substantial Completion and South Civil Infrastructure Section Handover Date

In respect of each South Civil Infrastructure Section:

- (a) Contracting Authority shall deliver to Project Co, promptly upon receipt from South Civil Project Co, South Civil Project Co's notice, delivered under the South Civil Project Agreement, of the anticipated date on which it will deliver the South Civil Infrastructure Section Substantial Completion Notice.
- (b) Contracting Authority shall deliver to Project Co promptly upon receipt thereof from South Civil Project Co, South Civil Project Co's notice, delivered under the South Civil Project Agreement, that all requirements for South Civil Infrastructure Section Substantial Completion have been met (the "**South Civil Infrastructure Section Substantial Completion Notice**"). For certainty, Contracting Authority may provide such South Civil Infrastructure Substantial Completion Notice in respect of multiple South Civil Infrastructure Sections. It is acknowledged that the South Civil Project Agreement requires that the South Civil Infrastructure Section Substantial Completion Notice (i) describe in reasonable detail, the satisfaction of the requirements for South Civil Infrastructure Section Substantial Completion, (ii) include, as appendices all of the South Civil Infrastructure Section Substantial Completion Deliverables described in the South Civil Infrastructure Section Substantial Completion Deliverables List and (iii) include South Civil Project Co's opinion that the conditions for issuance of the South Civil Infrastructure Section Substantial Completion Certificate have been satisfied.
- (c) If, pursuant to the South Civil Project Agreement, the South Civil Independent Certifier has provided notice that the South Civil Infrastructure Section Substantial Completion Deliverables List is incomplete and provides a deficiency list in respect thereof, and South Civil Project Co provides a new and replacement South Civil Infrastructure Section Substantial Completion Notice in response thereto, Contracting Authority shall provide such new South Civil Infrastructure Section Substantial Completion Notice to Project Co, and this process shall be repeated if South Civil Project Co provides any further replacement South Civil Infrastructure Section Substantial Completion Notices pursuant to the South Civil Project Agreement. Contracting Authority shall provide to Project Co the South Civil Independent Certifier's confirmation that the South Civil Infrastructure Section Substantial Completion Certificate includes all of the South Civil Infrastructure Section

Substantial Completion Deliverables described in the South Civil Infrastructure Section Substantial Completion Deliverables List (the “**South Civil Infrastructure Section IC Substantial Completion Deliverables Confirmation**”) on the Business Day on which it receives the same from the South Civil Independent Certifier.

- (d) Project Co shall, within three (3) Business Days after receipt of the South Civil Infrastructure Section IC Substantial Completion Deliverables Confirmation, provide Contracting Authority with Project Co’s opinion as to whether all South Civil Project Infrastructure in such South Civil Infrastructure Section is Built to Specification and Design (to the extent such determination can be made from a visual inspection carried out by a competent person in a manner consistent with Good Industry Practice) or, if applicable, submit a list of all deficiencies (each a “**Project Co Handover Deficiency**”) that, in Project Co’s opinion, prevent such South Civil Infrastructure Section from achieving Built to Specification and Design status (the “**Project Co Handover Deficiency List**”). Project Co shall identify in the Project Co Handover Deficiency List, in respect of each Project Co Handover Deficiency:
- (i) an explanation of why it constitutes a non conformance to the Built to Specification and Design standard, the modifications that would be required to be made to the applicable South Civil Project Infrastructure to remove such Project Co Handover Deficiency, with specific reference to the applicable requirements of the applicable South Civil Technical Specifications; and
 - (ii) set out any modifications which Project Co considers necessary to the definition of Built to Specification and Design, including the applicable South Civil Technical Specifications, in the event that such Project Co Handover Deficiency is not corrected.
- (e) Contracting Authority shall, promptly upon receipt of same from the South Civil Independent Certifier provide to Project Co either:
- (i) the South Civil Section Substantial Completion Certificate (together with the South Civil Infrastructure Minor Deficiencies List) confirming the South Civil Infrastructure Section Substantial Completion Date together with the South Civil Infrastructure Section Minor Deficiencies List; or
 - (ii) the report of the South Civil Independent Certifier detailing the matters that the South Civil Independent Certifier considers are required to be performed by South Civil Project Co to satisfy the conditions for issuance of the applicable South Civil Infrastructure Section Substantial Completion Certificate.
- (f) For greater certainty, the South Civil Infrastructure Section Handover Date in respect of the applicable South Civil Infrastructure Section shall be deemed to occur on the South Civil Infrastructure Section Substantial Completion Date noted in such South Civil Infrastructure Certificate notwithstanding anything set out in Section 7.2(d) including any Project Co Handover Deficiencies identified by Project Co.
- (g) The Parties acknowledge that pursuant to the terms of the South Civil Project Agreement, in the event that the South Civil Infrastructure Section Substantial Completion Certificate

has not been delivered by the South Civil Independent Certifier within thirty (30) days of a South Civil Infrastructure Section Substantial Completion Notice then such South Civil Infrastructure Section Substantial Completion Notice shall be deemed to have been rescinded and South Civil Project Co shall be required to deliver a new South Civil Infrastructure Section Substantial Completion Notice. In such event Contracting Authority shall promptly provide Notice of the same to Project Co and the South Civil Infrastructure Section Substantial Completion Notice delivered by Contracting Authority pursuant to Section 7.2(b) shall be deemed to have been rescinded by Contracting Authority and Contracting Authority shall be required to deliver a new Notice pursuant to Section 7.1(a) of this Schedule 42 in order to initiate a new South Civil Infrastructure Section Commissioning process for the applicable South Civil Infrastructure Section

7.3 Post-Handover Inspection

- (a) In respect of each South Civil Infrastructure Section, Project Co shall, during the period commencing on the South Civil Infrastructure Section Handover Date and ending thirty (30) days thereafter (the “**Post-Handover Inspection Period**”), carry out such inspections of the South Civil Project Infrastructure that has become Project Co Infrastructure as Project Co deems necessary in order to determine whether such Project Co Infrastructure has been Built to Specification and Design and shall invite Contracting Authority to participate in such inspections. Project Co shall, no later than the last day of the Post-Handover Inspection Period, provide Contracting Authority with Project Co’s opinion as to whether such Project Co Infrastructure is Built to Specification and Design and, if applicable, submit a list of all deficiencies (each a “**Project Co Post-Handover Deficiency**”) that, in Project Co’s opinion, prevent such Project Co Infrastructure from being Built to Specification and Design (the “**Project Co Post-Handover Deficiency List**”). For clarity, Project Co may include any Project Co Handover Deficiencies (other than South Civil Infrastructure Minor Deficiencies) in the Project Co Post-Handover Deficiency List.
- (b) Project Co shall identify in the Project Co Post-Handover Deficiency List, in respect of each Project Co Post-Handover Deficiency:
 - (i) an explanation of why it constitutes a non conformance to the Built to Specification and Design standard, the modifications that would be required to be made to the applicable South Civil Project Infrastructure to remove such Project Co Post-Handover Deficiency, with specific reference to the applicable requirements of the applicable South Civil Technical Specifications; and
 - (ii) set out any modifications which Project Co considers necessary to the definition of Built to Specification and Design, including the applicable South Civil Technical Specifications, in the event that such Project Co Post-Handover Deficiency is not corrected.
- (c) Within twenty (20) Business Days of receipt of a Project Co Post-Handover Deficiency List, Contracting Authority may, by Notice to Project Co (the “**CA Post-Handover Response**”) indicate, with respect to each Project Co Post-Handover Deficiency included in the Project Co Post-Handover Deficiency List:

- (A) that such Project Co Post-Handover Deficiency is a South Civil Infrastructure Section Minor Deficiency in which case it shall be rectified pursuant to Section 7.4 of this Schedule 42;
- (B) that Contracting Authority agrees that such Project Co Post-Handover Deficiency is a Built to Specification and Design Deficiency and has not been included in the South Civil Infrastructure Section Minor Deficiency List in which case Contracting Authority may, in its sole discretion take any one or more of the following actions:
 - 1. require Project Co to correct the Built to Specification and Design Deficiency by issuing a Variation subject to and in accordance with Schedule 22 – Variation Procedure;
 - 2. modify the requirements of the Project Agreement (including the South Civil Infrastructure Technical Specifications and the Output Specifications) by issuing a Variation subject to and in accordance with Schedule 22 – Variation Procedure in order to mitigate the effects of the Built to Specification and Design Deficiency; or
 - 3. arrange for the correction of the Built to Specification and Design Deficiency by South Civil Project Co or an Additional Contractor; or
- (C) that Contracting Authority does not agree that the Project Co Post-Handover Deficiency identified by Project Co is a Built to Specification and Design Deficiency in which case Contracting Authority shall not have any further obligation in respect of such Project Co Post-Handover Deficiency except as may be determined pursuant to the Dispute Resolution Procedure, subject to Section 8.1 of this Schedule 42.

If Contracting Authority does not provide the confirmation set out above in this Section 7.3(c) in respect of any Project Co Post-Handover Deficiency, it shall be deemed to have provided the response set out in Section 7.3(c)(C) of this Schedule 42 in respect thereof.

- (d) If Project Co disagrees with any determination made by Contracting Authority in respect of a Project Co Post-Handover Deficiency included in the CA Post-Handover Response then Project Co may, no later than five (5) Business Days after receipt of the CA Post-Handover Response, refer such matter for resolution in accordance with the Dispute Resolution Procedure. Project Co acknowledges and agrees that if it does not initiate a Dispute within such timeframe with respect to any Built to Specification and Design Deficiency, it shall be deemed to waive any claim that such Built to Specification and Design Deficiency prevents the applicable South Civil Project Infrastructure from being Built to Specification and Design (subject to Section 8.1 of this Schedule 42).
- (e) Subject to Sections 7.3(d), 8.1 and 8.3 of this Schedule 42, Project Co may not make any claim or commence any Dispute asserting that a Built to Specification and Design Deficiency exists at any time after the end of the Post-Handover Inspection Period unless
 - (i) such Built to Specification and Design Deficiency is included in a Project Co Post-Handover Deficiency List delivered on or prior to such date, (ii) such Built to Specification

and Design Deficiency could not reasonably be ascertained by a competent person in accordance with Good Industry Practice during a visual inspection of the South Civil Project Infrastructure if such inspection took place on the last day of the Post-Handover Inspection Period or (iii) such Built to Specification and Design Deficiency is also a South Civil Infrastructure Construction Defect or South Civil Infrastructure Construction Latent Defect.

7.4 Minor Deficiencies

- (a) Contracting Authority shall, promptly upon receipt thereof from the South Civil Independent Certifier, deliver to Project Co a copy of any South Civil Infrastructure Minor Deficiencies List.
- (b) Project Co acknowledges that South Civil Project Co is afforded certain time periods after receipt of the South Civil Infrastructure Minor Deficiencies List to rectify the South Civil Infrastructure Minor Deficiencies noted thereon, and shall grant South Civil Project Co and its contractors access (including outside of normal working hours) to the South Civil Infrastructure Section and the Lands it is situated on during such time periods, upon reasonable notice from South Civil Project Co, in order to do so.
- (c) Contracting Authority shall, promptly upon receipt of same from the South Civil Independent Certifier, deliver to Project Co a copy of the South Civil Independent Certifier's certificate confirming that all South Civil Infrastructure Minor Deficiencies have been rectified such that final completion of the applicable South Civil Infrastructure Section has occurred (the "**South Civil Infrastructure Section Final Completion Certificate**").
- (d) If, upon receipt of the South Civil Infrastructure Final Completion Certificate, Project Co is of the opinion that any South Civil Infrastructure Minor Deficiencies have not been fully rectified, Project Co may, within ten (10) Business Days of receipt of the South Civil Infrastructure Final Completion Certificate, commence a Dispute. Project Co acknowledges and agrees that if it did not initiate a Dispute within such timeframe with respect to a South Civil Infrastructure Minor Deficiency, Project Co shall be deemed to waive any claim in relation to such South Civil Infrastructure Minor Deficiency, subject to Section 8.1 of this Schedule 42.
- (e) Project Co shall provide access to the applicable Project Co Infrastructure and Lands to South Civil Project Co and its contractors as may be required for the purpose of correcting Minor Deficiencies in the manner contemplated in Section 8.5 hereof.

7.5 Critical South Civil HVAC Works Completion

Critical South Civil HVAC Works Completion shall be determined in respect of any Critical South Civil HVAC Works in accordance with the following procedure:

- (a) Contracting Authority shall provide to Project Co notice (the "**Critical South Civil HVAC Works Completion Notice**") of the date on which Contracting Authority expects the Critical South Civil HVAC Works to be Critical South Civil HVAC Works Complete (the "**Critical South Civil HVAC Works Completion Target Date**"), no later than two (2) Business Days after receipt of notice of same from South Civil Project Co, which notice

shall include particulars of a scheduled inspection by the South Civil Independent Certifier of the applicable Critical South Civil HVAC Works (the “**Critical South Civil HVAC Works Inspection**”) which shall take place no earlier than three (3) Business Days after the date of the Critical South Civil HVAC Works Completion Notice.

- (b) Upon the Critical South Civil HVAC Works Completion Notice being provided to Project Co, Project Co shall participate, together with South Civil Independent Certifier, in the Critical South Civil HVAC Works Inspection of the Critical South Civil HVAC Works, with a view to determining (to the extent possible from a visual inspection carried out by a competent person in a manner consistent with Good Industry Practice) whether they have achieved Critical South Civil HVAC Works Completion.
- (c) If Project Co is of the opinion that the Critical South Civil HVAC Works are not Built to Specification and Design it shall provide to Contracting Authority a list of deficiencies (the “**Critical South Civil HVAC Works Completion Deficiency List**”) no later than ten (10) Business Days after the date of the Critical South Civil HVAC Works Inspection (the “**Critical South Civil HVAC Works Deficiency Identification Deadline**”). Project Co acknowledges that Contracting Authority may at its discretion take the Critical South Civil HVAC Works Completion Deficiency List into consideration in confirming to the South Civil Independent Certifier and/or South Civil Project Co whether it is of the opinion that the Critical South Civil HVAC Works are Built to Specification and Design and may, but shall not be obligated to, provide the Critical South Civil HVAC Works Completion Deficiency List to South Civil Project Co and/or the South Civil Independent Certifier.

In respect of each deficiency identified on the Critical South Civil HVAC Works Completion Deficiency List Project Co shall:

- (i) explain why it constitutes a non conformance to the Built to Specification and Design standard, and identify the modifications required to be made to the applicable Critical South Civil HVAC Works to remove such non-conformance, with specific reference to the applicable requirements of the South Civil Infrastructure Technical Specifications; and
 - (ii) set out any modifications which Project Co considers necessary to the definition of Built to Specification and Design, including the applicable South Civil Infrastructure Technical Specifications, in the event that such deficiency is not corrected.
- (d) Contracting Authority shall notify Project Co within twenty-five (25) Business Days of the date of the Critical South Civil HVAC Works Notice whether the South Civil Independent Certifier has opined that (1) the Critical South Civil HVAC Works are built in compliance with the requirements of the South Civil Project Agreement in which case the Critical South Civil HVAC Works shall be deemed Critical South Civil HVAC Works Complete on the date (the applicable “**Critical South Civil HVAC Works Completion Date**”) so confirmed by the Independent Certifier and notified by the Contracting Authority, or (2) the relevant Critical South Civil HVAC Works are not built in compliance with the requirements of the South Civil Project Agreement, in which case the Critical South Civil HVAC Works Completion Notice shall be deemed rescinded.

- (e) If, notwithstanding Project Co has delivered a Critical South Civil HVAC Works Deficiency List pursuant to Section 7.5(c) of this Schedule 42 Contracting Authority proceeds to issue a notice pursuant to Section 7.5(d)(1) above hereof confirming that Critical South Civil HVAC Works Completion has occurred, Project Co may, no later than five (5) Business Days after receipt of such notice from the Contracting Authority, bring a Dispute in respect thereof. Project Co acknowledges and agrees that if it does not initiate a Dispute within such timeframe with respect to any non conformance to the Built to Specification and Design standard, it shall be deemed to waive any claim in relation thereto. If such Dispute is resolved in favour of Project Co, Project Co shall be entitled to a Variation subject to and in accordance with Schedule 22 – Variation Procedure. Such Dispute, if applicable, shall not affect the Critical South Civil HVAC Works Completion Date established pursuant to Section 7.5(d)(1) of this Schedule 42.
- (f) Subject to Section 7.5(e) of this Schedule 42, Project Co may not make any claim or commence any Dispute asserting that any Critical South Civil HVAC Works are not Critical South Civil HVAC Works Complete at any time after the Critical South Civil HVAC Works Deficiency Identification Deadline unless (i) such deficiency is included in a Critical South Civil HVAC Works Deficiency List delivered on or prior to the Critical South Civil HVAC Works Deficiency Identification Deadline, (ii) such deficiency could not reasonably be ascertained by a competent person in accordance with Good Industry Practice during a visual inspection of the Critical South Civil HVAC Works if such inspection took place on the Critical South Civil HVAC Works Deficiency Identification Deadline, or (iii) such deficiency is also a South Civil Infrastructure Construction Defect or a South Civil Infrastructure Construction Latent Defect.
- (g) The process contemplated in Sections 7.5(a)-(e) of this Schedule 42 shall be repeated in respect of any Critical South Civil HVAC Works until such time as a Critical South Civil HVAC Works Completion Date is determined in respect thereof.

8. WARRANTY CLAIMS AND WARRANTY WORK

- 8.1 Subject to Section 8.3 of this Schedule 42, during each applicable South Civil Infrastructure Warranty Period, Contracting Authority shall (or shall cause South Civil Project Co or an Additional Contractor to) promptly, at its sole cost and expense, correct and Make Good all South Civil Infrastructure Construction Defects and South Civil Infrastructure Construction Latent Defects arising in respect of the South Civil Infrastructure (the “**South Civil Infrastructure Warranty Work**”).
- 8.2 The applicable South Civil Infrastructure Warranty Period shall be extended for a further two (2) years from the date of the last South Civil Infrastructure Warranty Work completed in respect of the applicable South Civil Project Infrastructure. For clarity, any extension of a South Civil Infrastructure Warranty Period for the purposes of a correction shall only apply to the relevant South Civil Infrastructure Warranty Work and not the South Civil Project Infrastructure as a whole nor the whole of any South Civil Infrastructure Section.
- 8.3 Project Co may not make any claim or commence any Dispute asserting that a South Civil Infrastructure Construction Defect exists in respect of any South Civil Project Infrastructure that has become Project Co Infrastructure in accordance with the terms of this Schedule 42 or that any damage has been caused to any Project Co Infrastructure as a result of any South Civil Infrastructure

Warranty Work, in each case at any time after the end of the applicable South Civil Infrastructure Warranty Period.

8.4 Project Co shall provide access to the applicable Project Co Infrastructure and Lands to South Civil Project Co and any Additional Contractors, as applicable, and their contractors for the purpose of carrying out South Civil Infrastructure Warranty Work, for the purpose of doing repair work as contemplated in Section 6.2(d)(ii) of this Schedule 42, for the purpose of correcting any Built to Specification and Design Deficiency pursuant to Section 7.3(c)(B)3 of this Schedule 42 and (in case of South Civil Project Co) for purposes of correcting South Civil Infrastructure Minor Deficiencies (all such work referred to as the “**Post Handover Corrective Work**”), subject to Section 8.6 of this Schedule 42, at all times after the applicable South Civil Infrastructure Section Handover Dates, including,

- (a) arranging access to the relevant portion of the Lands during normal working hours;
- (b) arranging for South Civil Project Co or Additional Contractor or their contractors to use utilities available on the Site including power and water and toilet facilities; and
- (c) accommodating reasonable parking for South Civil Project Co or Additional Contractor or their contractors’ labor and material deliveries.

8.5 Project Co may, acting reasonably, schedule all South Civil Infrastructure Warranty Work and all other Post Handover Corrective Work at times that are convenient to the Project Operations and do not cause delay in the performance of the Project Operations provided that:

- (a) Project Co shall ensure that its scheduling of any Post Handover Corrective Work pursuant to this Section 8.5 does not, in any way, worsen the relevant South Civil Infrastructure Construction Defect, South Civil Infrastructure Construction Latent Defect or South Civil Infrastructure Minor Deficiency, as applicable; and
- (b) Project Co shall ensure that its scheduling of Post Handover Corrective Work pursuant to this Section 8.5 does not in any way void, or risk voiding, any applicable South Civil Project Co warranty,

in each case where Project Co has (or should reasonably have had) knowledge of such impact.

8.6 In connection with South Civil Project Co accessing any Project Co Infrastructure or Lands after the applicable South Civil Section Handover Date, for purposes of any Post Handover Corrective Work or Post Handover Jet Fan Commissioning, Contracting Authority shall require South Civil Project Co, pursuant to the terms of the South Civil Project Agreement, to:

- (i) comply with all directions of Project Co in respect of any matter regarding health and safety at the applicable South Civil Infrastructure Section;
- (ii) coordinate with Project Co the means of access to the applicable South Civil Infrastructure Section;
- (iii) keep the South Civil Infrastructure Section and all Project Co Infrastructure thereon in a safe and orderly state in accordance with Good Industry Practice; and

- (iv) not materially interfere with or delay the work of Project Co or any Project Co Parties, and not do anything that causes Project Co to be in contravention of its obligations under the Occupational Health and Safety Act (Ontario), and to promptly cease and desist any activity that results or has a likelihood in resulting in such interference or delay or causes such contravention.

8.7 If, in connection with South Civil Project Co accessing any Project Co Infrastructure or Lands after the applicable South Civil Section Handover Date for the purpose of correcting South Civil Infrastructure Minor Deficiencies, Project Co is not able to schedule such Post Handover Corrective Work as contemplated in Section 8.5 of this Schedule 42 in a manner which does not materially interfere with or delay the work of Project Co or any Project Co Party pursuant to the Project Agreement, Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation.

9. POST HANDOVER TUNNEL ACCESS

9.1 Post Handover Access Tunnels – Jet Fan Commissioning

- (a) Project Co shall grant South Civil Project Co and each South Civil Project Co Party access to each Post Handover Access Tunnel during the applicable Post Handover Tunnel Access Period for the exclusive purpose of conducting Post Handover Jet Fan Commissioning, and shall ensure that Project Co and all Project Co Parties do not materially interfere with such access, all subject to Contracting Authority complying with its obligations pursuant to Section 8.6 of this Schedule 42.
- (b) Contracting Authority shall provide Notice to Project Co of the date on which South Civil Project Co requires access to a Post Handover Access Tunnel for the purpose of conducting Post Handover Jet Fan Commissioning, (the “**Post Handover Tunnel Access Commencement Date**”) provided the Post Handover Tunnel Access Commencement Date shall be no earlier than two-hundred and ten (210) days after the Critical Works Deadline applicable to the relevant Post Handover Access Tunnel as identified in Appendix B of this Schedule 42 and the applicable period including hours (the “**Post Handover Tunnel Access Period**”) commencing on such date during which such access is required, provided such Notice shall be provided to Project Co no later than thirty (30) days prior to the Post Handover Tunnel Access Commencement Date identified therein.
- (c) Contracting Authority may refer the determination of the Post Handover Tunnel Access Commencement Date and the Post Handover Tunnel Access Period for consideration at the next following meeting of the South Civil Integration Committee pursuant to the South Civil Interface Agreement, in accordance with the terms of Section 3 (*Integration Committee*) of the South Civil Interface Agreement, in which case it shall take into consideration any determination thereof made by the South Civil Integration Committee, provided that the Post Handover Tunnel Access Commencement Date may in no event be earlier than two-hundred and ten (210) days prior to the applicable Critical Works Deadline.
- (d) If Contracting Authority notifies Project Co that South Civil Project Co requires access to a Post Handover Access Tunnel for purposes of Post Handover Jet Fan Commissioning on a date earlier than the Post Handover Tunnel Access Commencement Date or at a time

other than during the Post Handover Tunnel Access Period determined in accordance with this Section 9 of this Schedule 42, or if South Civil Project Co does not vacate the Post Handover Access Tunnel at the end of such Post Handover Tunnel Access Period, Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation.

APPENDIX A TO SCHEDULE 42

**SOUTH CIVIL INFRASTRUCTURE ACCESS AND HANDOVER AND CRITICAL SOUTH
CIVIL INFRASTRUCTURE DATA**

See attached.

APPENDIX B TO SCHEDULE 42

CRITICAL DATA, CRITICAL WORKS AND CRITICAL SOUTH CIVIL HVAC WORKS

SCHEDULE 43

NORTH CIVIL INFRASTRUCTURE ACCESS AND HANDOVER

1. DEFINITIONS

- 1.1 “**Access Readiness Deficiency List**” has the meaning given in Section 6.1(a)(iii) of this Schedule 43.
- 1.2 “**Access Ready**” means, in respect of a North Civil Infrastructure Subsection, that all North Civil Project Infrastructure forming part thereof is Built to Specification and Design in respect of all requirements set out in the applicable Access Ready Checklist, in the opinion of the North Civil Independent Certifier.
- 1.3 “**Access Ready Checklist**” means, in respect of any North Civil Infrastructure Subsection, the table listing of requirements for access, set out in Appendix D to this Schedule 43.
- 1.4 “**Access Ready Inspection**” has the meaning given in Section 6.1(a)(i) of this Schedule 43.
- 1.5 “**Built to Specification and Design**” means, in respect of any North Civil Infrastructure Section or any North Civil Project Infrastructure forming part of a North Civil Infrastructure Subsection or any Critical North Civil HVAC Works, that it is built in conformance with:
- (a) the North Civil Infrastructure Technical Specifications;
 - (b) any OMSF Condition Report; and
 - (c) any Critical North Civil Infrastructure Data;
- applicable thereto, as modified (in case of (a) and (c) above) pursuant to the Design Submittal Review Process, subject to any North Civil Infrastructure Minor Deficiencies.
- 1.6 “**Built to Specification and Design Deficiency**” means a deficiency in meeting the Built to Specification and Design standard.
- 1.7 “**CA Post-Handover Response**” has the meaning given in Section 7.3(c) of this Schedule 43.
- 1.8 “**Critical Data**” means the data and information set out in the column titled “Critical Data” in Part A of Appendix B to this Schedule 43.
- 1.9 “**Critical Data Deadline**” means the date set out in the column titled “Critical Data Deadline” in Part A of Appendix B to this Schedule 43, as such date may be amended pursuant to Section 40 (*Delay Events*) of the Project Agreement.
- 1.10 “**Critical North Civil HVAC Works**” means, in respect of a North Civil Infrastructure Section the works to be carried out by North Civil Project Co identified by reference to such North Civil Infrastructure Section in the column titled “Critical North Civil HVAC Works” in Part C of Appendix B to this Schedule 43.

- 1.11 “**Critical North Civil HVAC Works Complete**” means, in respect of any Critical North Civil HVAC Works, that such Critical North Civil HVAC Works have achieved Critical North Civil HVAC Works Completion.
- 1.12 “**Critical North Civil HVAC Works Completion**” means, in respect of any Critical North Civil HVAC Works, completion thereof in compliance with the Built to Specification and Design standard, as confirmed by the North Civil Independent Certifier, as contemplated in Section 7.5 of this Schedule 43.
- 1.13 “**Critical North Civil HVAC Works Completion Date**” has the meaning given in Section 7.5(d) of this Schedule 43.
- 1.14 “**Critical North Civil HVAC Works Completion Deficiency List**” has the meaning given in Section 7.5(c) of this Schedule 43.
- 1.15 “**Critical North Civil HVAC Works Completion Notice**” has the meaning given to it in Section 7.5(a) of this Schedule 43.
- 1.16 “**Critical North Civil HVAC Works Completion Target Date**” has the meaning given in Section 7.5(a) of this Schedule 43.
- 1.17 “**Critical North Civil HVAC Works Deadline**” means, in respect of any Critical North Civil HVAC Works, the applicable date set out in the column titled “Critical North Civil HVAC Works Deadline” in Part C of Appendix B to this Schedule 43.
- 1.18 “**Critical North Civil HVAC Works Deficiency Identification Deadline**” has the meaning given in Section 7.5(c) of this Schedule 43.
- 1.19 “**Critical North Civil HVAC Works Inspection**” has the meaning given in Section 7.5(a) of this Schedule 43.
- 1.20 “**Critical North Civil Infrastructure Data**” means the data and information set out in the column titled “Critical North Civil Infrastructure Data” in Part B of Appendix A to this Schedule 43.
- 1.21 “**Critical North Civil Infrastructure Data Deadline**” means the date set out in the column titled “Critical North Civil Infrastructure Data Deadline” in Part B of Appendix A to this Schedule 43 (as such date may be amended pursuant to Section 40 (*Delay Events*) of the Project Agreement)
- 1.22 “**Critical Works**” means, in respect of a North Civil Infrastructure Section or a North Civil Infrastructure Subsection, the Works identified by reference to such North Civil Infrastructure Section or North Civil Infrastructure Subsection in the column titled “Critical Works” in Part B of Appendix B to this Schedule 43.
- 1.23 “**Critical Works Complete**” means, in respect of any Critical Works, that such Critical Works are built in accordance with the requirements of the Project Agreement, including the Output Specifications, in the opinion of the Independent Certifier, as contemplated in Section 5.1 of this Schedule 43.

- 1.24 “**Critical Works Completion Notice**” has the meaning given to it in Section 5.1(b) of this Schedule 43.
- 1.25 “**Critical Works Deadline**” means, in respect of any Critical Works, the applicable date set out in the column titled “Critical Works Deadline” in Part B of Appendix B to this Schedule 43, as such date may be amended pursuant to Section 40 (*Delay Events*) of the Project Agreement.
- 1.26 “**Critical Works Inspection**” has the meaning given to it in Section 5.1(b) of this Schedule 43.
- 1.27 “**Design Submittal Review Process**” means the process set out in Section 11 of Part A and in Part C of Schedule 10 – Review Procedure
- 1.28 “**Early Access Noise and Vibration Tests**” means the noise and vibration tests to be conducted by Project Co pursuant to and in accordance with Section 6.5.3.2(c)(ii)(II) (*Prediction and Assessment of Operations Noise and Vibration*) of Schedule 17 – Environmental Obligations.
- 1.29 “**Early Access Tunnel**” means the North Civil Infrastructure Sections identified in the following rows of Part A of Appendix A of this Schedule 43: 21, 28, 29, 35 and 35a, in each case prior to North Civil Infrastructure Section Handover occurring in respect thereof.
- 1.30 “**Early Tunnel Access Commencement Date**” has the meaning set out in Section 6A.1(b) of this Schedule 43.
- 1.31 “**Early Tunnel Access Period**” has the meaning set out in Section 6A.1(b) of this Schedule 43.
- 1.32 “**Elevator Access Period**” has the meaning set out in Section 6B.1(a) of this Schedule 43.
- 1.33 “**Handover Data and Equipment**” means, in respect of a North Civil Infrastructure Section, the applicable North Civil Infrastructure Design and Construction Data and equipment identified in the North Civil Infrastructure Technical Specifications as being necessary to achieve North Civil Infrastructure Section Handover in respect of such North Civil Infrastructure Section.
- 1.34 “**Integration Demerit Point Test Period**” means, in respect of the determination of the North Civil Integration Demerit Points Incurred at any time of determination, as applicable (i) the period commencing on Financial Close and ending on the Initial Demerit Points Period End Date (or, in respect of any determination made prior to the Initial Demerit Points Period End Date, the date of such determination) or (ii) the 6 month period preceding the date of determination.
- 1.35 “**Integration Improvement Workshops**” has the meaning given in Schedule 39B – Form of North Civil Interface Agreement.
- 1.36 “**No Earlier Than Date**” means, in respect of a North Civil Infrastructure Section, Early Access Tunnel or North Civil Infrastructure Subsection, as applicable, the corresponding date identified in the column titled “No Earlier Than Date” in Part A of Appendix A to this Schedule 43.
- 1.37 “**No Later Than Date**” means, in respect of a North Civil Infrastructure Section or North Civil Infrastructure Subsection, as applicable, the corresponding date identified in the column titled “No Later Than Date” in Part A of Appendix A to this Schedule 43.

- 1.38 “**North Civil Construction Integration Working Group**” has the meaning given to the term “Construction Integration Working Group” in the North Civil Interface Agreement.
- 1.39 “**North Civil Current Period Integration Demerit Points**” has the meaning given in Section 3.2(a)(ii) of this Schedule 43.
- 1.40 “**North Civil Design Integration Working Group**” has the meaning given to the term “Construction Integration Working Group” in the North Civil Interface Agreement.
- 1.41 “**North Civil Elevator**” means an elevator located on a North Civil Infrastructure Section in respect of which North Civil Infrastructure Section Handover has not yet occurred.
- 1.42 “**North Civil Independent Certifier**” means the Person appointed as independent certifier under the North Civil Project Agreement.
- 1.43 “**North Civil Infrastructure Initial Warranty Period**” means the North Civil Infrastructure Mechanical System Defects Warranty Period or the North Civil Infrastructure Construction Defects Warranty Period, as applicable.
- 1.44 “**North Civil Infrastructure Construction Defect**” means any deficiency, defect or error in the North Civil Project Infrastructure other than to the extent such deficiency, defect or error (i) has arisen as a result of ordinary wear and tear or (ii) was caused or contributed to by Project Co or any Project Co Party (and for certainty, if Project Co fails to maintain the Project Co Infrastructure in accordance with the terms of the Project Agreement, the Maintenance Plan delivered under the Project Agreement or the applicable instructions of manufacturers, it shall be deemed to have contributed to the applicable North Civil Infrastructure Construction Defect to the extent of such failure).
- 1.45 “**North Civil Infrastructure Construction Latent Defect**” means a North Civil Infrastructure Construction Defect that could not reasonably have been ascertained (i) by a competent person in accordance with Good Industry Practice during a visual inspection of the applicable North Civil Project Infrastructure if such inspection took place on the last day of the applicable North Civil Infrastructure Initial Warranty Period or (ii) by Project Co in the course of carrying out the Project Operations under and in accordance with the Project Agreement, having regard (in case of (ii)) to Project Co’s Maintenance Plan (including such inspections and testing of Project Co Infrastructure to be conducted during Project Operations as contemplated therein) prior to the last day of the applicable North Civil Infrastructure Initial Warranty Period.
- 1.46 “**North Civil Infrastructure Design and Construction Data**” has the meaning set out in Section 2.4(d) of this Schedule 43.
- 1.47 “**North Civil Infrastructure Health and Safety Plan**” means, in respect of a North Civil Infrastructure Section or a North Civil Infrastructure Subsection, the applicable health and safety plan of North Civil Project Co.
- 1.48 “**North Civil Infrastructure Mechanical Systems**” means the “Mechanical Systems” as defined in the North Civil Project Infrastructure Technical Specifications.

- 1.49 “**North Civil Infrastructure Mechanical Systems Defect**” means a North Civil Infrastructure Construction Defect in respect of any North Civil Infrastructure Mechanical Systems.
- 1.50 “**North Civil Infrastructure Mechanical Systems Latent Defect**” means a North Civil Infrastructure Construction Latent Defect in respect of any North Civil Infrastructure Mechanical Systems.
- 1.51 “**North Civil Infrastructure Minor Deficiencies**” means, in respect of a North Civil Infrastructure Section, any defects, deficiencies, and items of outstanding work arising from or related to the work required to achieve North Civil Infrastructure Section Substantial Completion, which are identified by the North Civil Independent Certifier in a North Civil Infrastructure Minor Deficiencies List.
- 1.52 “**North Civil Infrastructure Minor Deficiencies List**” means, in respect of a North Civil Infrastructure Section, a list of North Civil Infrastructure Minor Deficiencies delivered by the North Civil Independent Certifier in connection with a North Civil Infrastructure Section Substantial Completion Notice, which list was delivered to Project Co pursuant to Section 7.4(a) of this Schedule 43.
- 1.53 “**North Civil Infrastructure Section**” means each of the discrete segments of the North Civil Project Infrastructure listed in the column titled “North Civil Infrastructure Section” in Part A of Appendix A to this Schedule 43 and includes all North Civil Infrastructure Subsections identified as forming part thereof.
- 1.54 “**North Civil Infrastructure Section Commissioning**” has the meaning given in Section 7.1(a) of this Schedule 43.
- 1.55 “**North Civil Infrastructure Section Commissioning Commencement Notice**” has the meaning given in Section 7.1(b) of this Schedule 43.
- 1.56 “**North Civil Infrastructure Section Final Completion Certificate**” has the meaning given in Section 7.4(c) of this Schedule 43.
- 1.57 “**North Civil Infrastructure Section Handover**” has the meaning set out in Section 2.1(a).
- 1.58 “**North Civil Infrastructure Section Handover Date**” means, (i) in respect of a North Civil Infrastructure Section the date of North Civil Infrastructure Section Substantial Completion identified in the applicable North Civil Infrastructure Section Substantial Completion Certificate.
- 1.59 “**North Civil Infrastructure Section IC Substantial Completion Deliverables Confirmation**” has the meaning set out in Section 7.2(c) of this Schedule 43.
- 1.60 “**North Civil Infrastructure Section Substantial Completion**” means, in respect of a North Civil Infrastructure Section, substantial completion thereof as confirmed by the North Civil Independent Certifier in the applicable North Civil Infrastructure Section Substantial Completion Certificate.

-
- 1.61 “**North Civil Infrastructure Section Substantial Completion Certificate**” means, in respect of a North Civil Infrastructure Section, the certificate issued by the North Civil Independent Certifier certifying that substantial completion has occurred in respect thereof.
- 1.62 “**North Civil Infrastructure Section Substantial Completion Deliverables**” means the deliverables appended by North Civil Project Co to a North Civil Infrastructure Section Substantial Completion Notice.
- 1.63 “**North Civil Infrastructure Section Substantial Completion Deliverables List**” the list of required North Civil Infrastructure Section Substantial Completion Deliverables identified by the North Civil Independent Certifier as those required to be attached to a North Civil Infrastructure Section Substantial Completion Notice.
- 1.64 “**North Civil Infrastructure Section Substantial Completion Notice**” has the meaning given to it in Section 7.2(b).
- 1.65 “**North Civil Infrastructure Subsection**” means each of the discrete subsections of each applicable North Civil Infrastructure Section, as identified in the column titled ‘North Civil Infrastructure Subsection’ in Part A of Appendix A to this Schedule 43.
- 1.66 “**North Civil Infrastructure Subsection Access Date**” has the meaning given in Section 6.1(a)(v)(A).
- 1.67 “**North Civil Infrastructure Subsection Access Date Notice**” has the meaning give in Section 6.1(a)(i) of this Schedule 43.
- 1.68 “**North Civil Infrastructure Subsection Access Period**” has the meaning given in Section 2.2(a) of this Schedule 43.
- 1.69 “**North Civil Infrastructure Subsection Target Access Date**” has the meaning given in Section 6.1(a)(i) of this Schedule 43.
- 1.70 “**North Civil Infrastructure Technical Specifications**” means, the technical specifications applicable to the North Civil Project Infrastructure contained in Appendix F to this Schedule 43, as may be modified pursuant to Schedule 10 – Review Procedure.
- 1.71 “**North Civil Infrastructure Warranty Period**” means, subject to Section 10.2 of this Schedule 43,
- (a) in respect of a North Civil Infrastructure Mechanical Systems Defect, the period commencing on the applicable North Civil Infrastructure Section Substantial Completion Date and ending on the date that is two (2) years after the North Civil Project Substantial Completion Date (the “**North Civil Infrastructure Mechanical Systems Defect Warranty Period**”);
 - (b) in respect of a North Civil Infrastructure Construction Defect that is not a North Civil Infrastructure Mechanical Systems Defect, the period commencing on the applicable North Civil Infrastructure Section Handover Date and ending on the day that is two (2)

years after such applicable North Civil Infrastructure Section Handover Date (the “**North Civil Infrastructure Construction Defect Warranty Period**”);

- (c) in respect of a North Civil Infrastructure Mechanical Systems Latent Defect, the period commencing on the end of the North Civil Infrastructure Mechanical Systems Defect Warranty Period and ending on the Termination Date;
 - (d) in respect of a North Civil Infrastructure Construction Latent Defect that is not a North Civil Mechanical Systems Latent Defect, the period commencing on the end of the applicable North Civil Infrastructure Construction Defect Warranty Period and ending on the Termination Date.
- 1.72 “**North Civil Infrastructure Warranty Work**” means, in respect of any North Civil Project Infrastructure, work to correct any North Civil Infrastructure Construction Defect or North Civil Infrastructure Construction Latent Defect, or any work to correct any damage to other Project Co Infrastructure caused by such repair or correction work.
- 1.73 “**North Civil Initial Period Integration Demerit Points**” has the meaning given in Section 3.2(a)(i) of this Schedule 43.
- 1.74 “**North Civil Initial Demerit Points Period End Date**” means the day that is [REDACTED] months from Financial Close.
- 1.75 “**North Civil Integration Committee**” has the meaning given to the term “Integration Committee” in the North Civil Interface Agreement.
- 1.76 “**North Civil Integration Demerit Event**” means an event identified in the column titled “North Civil Integration Demerit Event” in Appendix G hereto.
- 1.77 “**North Civil Integration Demerit Points**” means, in respect of any North Civil Integration Demerit Event, the number of points set out in the column titled “North Civil Integration Demerit Points” next to such North Civil Integration Demerit Event in Appendix G to this Schedule 43.
- 1.78 “**North Civil Integration Demerit Points Incurred**” has the meaning given in Section 3.2(a) of this Schedule 43.
- 1.79 “**North Civil Integration Demerit Points Threshold**” means (i) in respect of any North Civil Integration Demerit Points identified in Part A of the table in Appendix G, the Part A Integration Demerit Point Threshold, (ii) in respect of any North Civil Integration Demerit Points identified in Part B of the table in Appendix G, the Part B Integration Demerit Point Threshold, (iii) in respect of any North Civil Integration Demerit Points identified in Part C of the table in Appendix G, the Part C Integration Demerit Point Threshold, (iv) in respect of any North Civil Integration Demerit Points identified in Part D of the table in Appendix G, the Part D Integration Demerit Point Threshold, (v) in respect of any North Civil Integration Demerit Points identified in Part E of the table in Appendix G, the Part E Integration Demerit Point Threshold and (vi) in respect of any North Civil Integration Demerit Points identified in Part F of the table in Appendix G, the Part F Integration Demerit Point Threshold, as applicable.

- 1.80 “**North Civil Project Substantial Completion Date**” means the date on which North Civil Infrastructure Section Substantial Completion has been achieved in respect of all North Civil Infrastructure Sections, as confirmed in the North Civil Project Substantial Completion Certificate.
- 1.81 “**North Civil Project Substantial Completion Certificate**” means the certificate of the North Civil Independent Certifier confirming that substantial completion has been achieved in respect of the entirety of the North Civil Project.
- 1.82 “**OMSF Condition Report**” has the meaning given in Section 8.3 of this Schedule 43.
- 1.83 “**OMSF Construction Defect**” means any deficiency, defect or error in the OMSF Project Co Infrastructure other than to the extent such deficiency, defect or error (i) has arisen as a result of ordinary wear and tear or (ii) was caused or contributed to by North Project Co or any North Project Co Party).
- 1.84 “**OMSF Early Handback Lands**” means the Lands identified in the column titled “OMSF Early Handback Lands” in Appendix E to this Schedule 43.
- 1.85 “**OMSF Early Handback Lands No Earlier Than Date**” means, in respect of OMSF Early Handback Lands, the corresponding date identified in the column titled “OMSF Early Handback Lands No Earlier Than Date” in Appendix E to this Schedule 43.
- 1.86 “**OMSF Early Handback Lands No Later Than Date**” means, in respect of OMSF Early Handback Lands, the corresponding date identified in the column titled “OMSF Early Handback Lands No Later Than Date” in Appendix E to this Schedule 43.
- 1.87 “**OMSF Lands**” means the Lands identified in the column titled “OMSF Lands” in Part A of Appendix C of this Schedule 43.
- 1.88 “**OMSF Project Co Infrastructure**” means, where applicable, each of the discrete segments of Project Co Infrastructure which are the result of OMSF Works, on the OMSF Lands.
- 1.89 “**OMSF Project Co Infrastructure Handover Date**” means, in respect of any OMSF Project Co Infrastructure, the date on which Project Co is required to hand over such OMSF Project Co Infrastructure, which date is set out in the Notice delivered by Contracting Authority pursuant to Section 9.1 of this Schedule 43.
- 1.90 “**OMSF Project Co Infrastructure Handover Inspection**” has the meaning given in Section 9.1(a) of this Schedule 43.
- 1.91 “**OMSF Project Co Infrastructure Handover Notice**” has the meaning given in Section 9.1(a) of this Schedule 43.
- 1.92 “**OMSF Project Co Infrastructure North Civil Control Period**” has the meaning given to it in Section 9.3(a) of this Schedule 43.

- 1.93 “**OMSF Works**” means, in respect of any OMSF Lands, the Works identified by reference to such OMSF Lands in the column titled “OMSF Works” in Part B of Appendix C to this Schedule 43.
- 1.94 “**OMSF Works Complete**” means, in respect of any OMSF Works, that such OMSF Works are completed in accordance with the requirements of the Project Agreement, including the Output Specifications, in the opinion of the Independent Certifier, as contemplated in Section 8.1(a) of this Schedule 43.
- 1.95 “**OMSF Works Completion Notice**” has the meaning given to it in Section 8.1(b) of this Schedule 43.
- 1.96 “**OMSF Works Deadline**” means, in respect of any OMSF Works, the applicable date set out in the column titled “OMSF Works Deadline” in Part A of Appendix C to this Schedule 43, as such date may be amended pursuant to Section 40 (*Delay Events*) of the Project Agreement.
- 1.97 “**OMSF Works Inspection**” has the meaning given to it in Section 8.1(b) of this Schedule 43.
- 1.98 “**OMSF Works Warranty Work**” has the meaning given in Section 9.3(a) of this Schedule 43.
- 1.99 “**Part A Integration Demerit Point Threshold**” means, in respect of any applicable Integration Demerit Point Test Period, the number which represents [REDACTED]% (rounded upwards to the nearest whole number) of the aggregate number of North Civil Infrastructure Section commissioning activities or inspections or North Civil Infrastructure Subsection inspections taking place in such Integration Demerit Point Test Period, of which Project Co has received, in each case, at least five (5) Business Days notice from Contracting Authority pursuant to Section 6.1(a) or 7.1(c) of this Schedule 43.
- 1.100 “**Part B Integration Demerit Point Threshold**” means [REDACTED].
- 1.101 “**Part C Integration Demerit Point Threshold**” means [REDACTED].
- 1.102 “**Part D Integration Demerit Point Threshold**” means, in respect of any applicable Integration Demerit Point Test Period, the number which represents [REDACTED]% (rounded upwards to the nearest whole number) of the aggregate number of Integration Works Submittals, DIWG RSSOM Integration Works Submittals (each as defined in the North Civil Interface Agreement) and responses to North Civil Infrastructure Works Submittals (as defined in Schedule 10 – Review Procedure), contemplated in rows 11, 12 and 13 of the table set out in Appendix G to this Schedule 43.
- 1.103 “**Part E Integration Demerit Point Threshold**” means [REDACTED].
- 1.104 “**Part F Integration Demerit Point Threshold**” means [REDACTED].
- 1.105 “**Permitted Elevator Use**” has the meaning set out in Section 2.7 of this Schedule 43.
- 1.106 “**Post Handover Access Tunnel**” means the North Civil Infrastructure Sections identified in the following rows of Part A of Appendix A of this Schedule 43: 21, 28, 29, 35 and 35a, in each case after North Civil Infrastructure Section Handover has occurred in respect thereof.

- 1.107 “**Post Handover Jet Fan Commissioning**” means the commissioning activities to be conducted by North Civil Project Co pursuant to and in accordance with Section 3.1.21.2(d)(viii) (*Fire/Life Safety Systems and Procedures*) of Schedule 15 to the North Civil Project Agreement.
- 1.108 “**Post Handover Tunnel Access Commencement Date**” has the meaning set out in Section 11.1(b) of this Schedule 43.
- 1.109 “**Post Handover Tunnel Access Period**” has the meaning set out in Section 11.1(b) of this Schedule 43.
- 1.110 “**Post Handover Corrective Work**” has the meaning given in Section 10.4 of this Schedule 43.
- 1.111 “**Post-Handover Inspection Period**” has the meaning given in Section 7.3(a) of this Schedule 43.
- 1.112 “**Project Co Handover Deficiency**” has the meaning given in Section 7.2(d) of this Schedule 43.
- 1.113 “**Project Co Handover Deficiency List**” has the meaning given in Section 7.2(d) of this Schedule 43.
- 1.114 “**Project Co Post-Handover Deficiency**” has the meaning given in Section 7.3(a) of this Schedule 43.
- 1.115 “**Project Co Post-Handover Deficiency List**” has the meaning given in Section 7.3(a) of this Schedule 43.
- 1.116 “**RSSOM North Civil Infrastructure Activities**” means, in respect of a North Civil Infrastructure Subsection, the Works identified in the column titled “RSSOM North Civil Infrastructure Activities” in Part A of Appendix A to this Schedule 43.

2. CONTRACTING AUTHORITY INTEGRATION OBLIGATIONS

2.1 Handover of North Civil Infrastructure Sections

- (a) Contracting Authority shall cause each North Civil Infrastructure Section (and any North Civil Infrastructure Subsections forming part thereof) to be handed over by North Civil Project Co to Project Co, subject to, and in accordance with, the provisions of this Schedule 43. Subject to Section 7 of this Schedule 43, each North Civil Infrastructure Section shall be handed over to Project Co on a Built to Specification and Design basis on the applicable North Civil Infrastructure Section Handover Date (each such handover being a “**North Civil Infrastructure Section Handover**”).
- (b) On or before the North Civil Infrastructure Section Handover Date applicable to each North Civil Infrastructure Section, Contracting Authority shall:
- (i) ensure that North Civil Project Co and all North Civil Project Co Parties have vacated the applicable North Civil Infrastructure Section and corresponding North Civil Project Lands (except as expressly contemplated pursuant to the terms of the Project Agreement); and

- (ii) provide Project Co with the most recent versions of all North Civil Infrastructure Design and Construction Data received from North Civil Project Co in respect of the applicable North Civil Infrastructure Section (and Contracting Authority shall provide final versions of such North Civil Infrastructure Design and Construction Data as soon as reasonably practicable thereafter upon receipt thereof from North Civil Project Co).
- (c) In the event that a North Civil Infrastructure Section Handover occurs on a day prior to the No Earlier Than Date applicable to the relevant North Civil Infrastructure Section, Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation.
- (d) In the event that a North Civil Infrastructure Section Handover has not occurred on or before the No Later Than Date applicable to the relevant North Civil Infrastructure Section, then, provided the then applicable North Civil Integration Demerit Points Incurred do not exceed the applicable North Civil Integration Demerit Points Threshold, Project Co shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be entitled to a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be entitled to a Compensation Event.
- (e) Without prejudice to any other right Project Co may have under the Project Agreement, Project Co may, prior to any North Civil Infrastructure Handover Date, request to participate with Contracting Authority in, or conduct, an inspection of any North Civil Infrastructure. Contracting Authority may determine, whether to permit Project Co or any Project Co Party to participate in, or conduct, such an inspection, and shall act reasonably in making such determination where it has received at least five (5) Business Days notice from Project Co of such intended inspection. If Contracting Authority so permits Project Co or a Project Co Party to participate in, or conduct, such an inspection, then Project Co or the applicable Project Co Party shall comply with all instructions provided by Contracting Authority in respect of such inspection. If a requested inspection which has been permitted by Contracting Authority pursuant to this Section 2.1(e) of this Schedule 43 does not take place, Project Co shall reimburse Contracting Authority for any costs incurred in connection with such inspection.
- (f) In respect of each North Civil Infrastructure Section, following North Civil Infrastructure Section Handover, at all times from and after the applicable North Civil Infrastructure Section Handover Date:
 - (i) the applicable North Civil Infrastructure Section shall form part of the Project Co Infrastructure and the Ontario Line Subway and Project Co shall be responsible for such North Civil Infrastructure Section in accordance with the provisions of the Project Agreement; and
 - (ii) the applicable North Civil Project Lands that such North Civil Infrastructure Section is situated on shall form part of the Lands that Project Co is responsible for under the Project Agreement.

2.2 Access to North Civil Infrastructure Subsections

- (a) Contracting Authority shall cause North Civil Project Co to grant Project Co and any Project Co Party access to each North Civil Infrastructure Subsection from the North Civil Infrastructure Subsection Access Date up to the North Civil Infrastructure Section Handover Date applicable to the North Civil Infrastructure Section which such North Civil Infrastructure Subsection is comprised within (the “**North Civil Infrastructure Subsection Access Period**”) for the exclusive purpose of performing the applicable RSSOM North Civil Infrastructure Activities, all subject to, and in accordance with, the provisions of this Schedule 43.
- (b) Subject to Project Co complying with its obligations pursuant to Section 6.1, during the North Civil Infrastructure Subsection Access Period applicable to a North Civil Infrastructure Subsection, Contracting Authority shall cause North Civil Project Co to grant Project Co and any Project Co Party access to such North Civil Infrastructure Subsection, and ensure that North Civil Project Co and all North Civil Project Co Parties do not materially interfere with such access, between 7:00 a.m. and 7:00 p.m. each Business Day.
- (c) In the event that a North Civil Infrastructure Subsection Access Date is a day that is prior to the No Earlier Than Date applicable to the relevant North Civil Infrastructure Subsection, Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation.
- (d) In the event that a North Civil Infrastructure Subsection Access Date has not occurred on or before the No Later Than Date applicable to the relevant North Civil Infrastructure Subsection, provided the then applicable North Civil Integration Demerit Points Incurred do not exceed the applicable North Civil Integration Demerit Points Threshold, Project Co shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be entitled to a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be entitled to a Compensation Event.
- (e) If Project Co or any Project Co Party requires access to a North Civil Infrastructure Subsection in respect of which a North Civil Infrastructure Subsection Access Date has not yet occurred, or a North Civil Infrastructure Section in respect of which a North Civil Infrastructure Section Handover Date has not yet occurred, in order to access (or bring equipment on site to) a North Civil Infrastructure Subsection in respect of which a North Civil Infrastructure Subsection Access Date has occurred, or a North Civil Infrastructure Section in respect of which a North Civil Infrastructure Section Handover Date has occurred, Contracting Authority shall cause North Civil Project Co to grant Project Co or any Project Co Party such reasonable access to the applicable North Civil Project Infrastructure (and the North Civil Project Lands it is situated on) as may be reasonably required by Project Co in order to enable Project Co to so access or bring equipment on site, as may be applicable.

2.3 Handback of OMSF Early Handback Lands

- (a) Contracting Authority shall cause all OMSF Early Handback Lands to be handed over to Project Co on a date to be notified by Contracting Authority to Project Co (on no less than thirty (30) days notice) no earlier than the applicable OMSF Early Handback Lands No Earlier Date and no later than the applicable OMSF Early Handback Lands No Later Than Date.
- (b) In the event that the handover to Project Co of any OMSF Early Handback Lands occurs on a day prior to the applicable OMSF Early Handback Lands No Earlier Than Date Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation.
- (c) In the event that the handover to Project Co of any OMSF Early Handback Lands has not occurred on or before the applicable OMSF Early Handback Lands No Later Than Date then, provided the then applicable North Civil Integration Demerit Points Incurred do not exceed the applicable North Civil Integration Demerit Points Threshold, Project Co shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be entitled to a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be entitled to a Compensation Event.
- (d) On or before the date on which handover to Project Co of any OMSF Early Handback Lands occurs, Contracting Authority shall ensure that North Civil Project Co and all North Civil Project Co Parties have vacated the applicable OMSF Early Handback Lands (except as expressly contemplated pursuant to the terms of the Project Agreement).
- (e) Upon handover to Project Co, the applicable OMSF Early Handback Lands shall form part of the Lands that Project Co is responsible for under the Project Agreement.

2.4 Critical North Civil Infrastructure Data, Handover Data and Equipment, and North Civil Infrastructure Design and Construction Data

- (a) Contracting Authority shall provide the Critical North Civil Infrastructure Data to Project Co on or before the applicable Critical North Civil Infrastructure Data Deadline.
- (b) If Contracting Authority fails to provide Critical North Civil Infrastructure Data on or before the applicable Critical North Civil Infrastructure Data Deadline then, provided the then applicable North Civil Integration Demerit Points Incurred do not exceed the applicable North Civil Integration Demerit Points Threshold, Project Co shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be entitled to a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be entitled to a Compensation Event.
- (c) Contracting Authority shall provide Project Co with all Handover Data and Equipment in respect of each applicable North Civil Infrastructure Section on or before the North Civil Infrastructure Handover Date thereof.
- (d) Without prejudice to Sections 2.4(a) and (b) of this Schedule 43, Contracting Authority shall provide to Project Co all design and construction related data and information

received from North Civil Project Co in respect of the North Civil Project to Project Co and shall update such information from time to time on an ongoing basis upon receipt of such updates from North Civil Project Co (such data and information, as updated from time to time, referred to as the “**North Civil Infrastructure Design and Construction Data**”).

2.5 Critical North Civil HVAC Works

- (a) Contracting Authority shall cause North Civil Project Co to complete the Critical North Civil HVAC Works, such that they are Critical North Civil HVAC Works Complete on or before the applicable Critical North Civil HVAC Works Deadline subject to, and in accordance with, Section 7.5 of this Schedule 43.
- (b) Contracting Authority shall ensure, or cause North Civil Project Co to ensure, that the Critical North Civil HVAC Works perform in accordance with the North Civil Infrastructure Technical Specifications from the date that Critical North Civil HVAC Works Completion is achieved in respect thereof until the date on which the North Civil Infrastructure Section Handover Date has occurred in respect of all North Civil Infrastructure Sections. Project Co shall notify the Contracting Authority immediately upon a failure of any Critical North Civil HVAC Works to perform in accordance with the North Civil Infrastructure Technical Specifications.
- (c) Without prejudice to any other right Project Co may have under the Project Agreement, Project Co may, prior to any applicable Critical North Civil HVAC Works Completion Date, request to participate with Contracting Authority in, or conduct, an inspection of, any Critical North Civil HVAC Works. Contracting Authority may determine whether to permit Project Co or any Project Co Party to participate in, or conduct, such an inspection, and shall act reasonably in making such determination where it has received at least five (5) Business Days notice from Project Co of such intended inspection. If Contracting Authority so permits Project Co or a Project Co Party to participate in, or conduct, such an inspection, then Project Co or the applicable Project Co Party shall comply with all instructions provided by Contracting Authority in respect of such inspection. If a requested inspection which has been permitted by Contracting Authority pursuant to this Section 2.5(c) of this Schedule 43 does not take place, Project Co shall reimburse Contracting Authority for any costs incurred in connection with such inspection.
- (d) In the event that,
 - (i) a Critical North Civil HVAC Works Completion Date has not occurred on or before the Critical North Civil HVAC Works Deadline applicable to the relevant Critical North Civil HVAC Works, or
 - (ii) the applicable Critical North Civil HVAC Works cease to be Critical North Civil HVAC Works Complete thereafter;

then, provided the then applicable North Civil Integration Demerit Points Incurred do not exceed the applicable North Civil Integration Demerit Point Threshold, Project Co shall, subject to and in accordance with Section 40 (*Delay Events*) of the Project Agreement, be

entitled to a Delay Event and, subject to and in accordance with Section 41 (*Compensation Events*) of the Project Agreement, be entitled to a Compensation Event.

2.6 Early Access Tunnels – Noise and Vibration Tests

Contracting Authority shall cause North Civil Project Co to grant Project Co and any Project Co Party access to each Early Access Tunnel during each applicable Early Tunnel Access Period between 7:00 p.m. on each Business Day and 7:00 a.m. on the next following Business Day, for the exclusive purpose of conducting Early Access Noise and Vibration Tests, all in accordance with Section 6A of this Schedule 43 and subject to Project Co complying with its obligations pursuant to Section 6.1(c) of this Schedule 43, and Contracting Authority shall ensure that North Civil Project Co and all North Civil Project Co Parties do not materially interfere with such access.

2.7 Elevator Access

Contracting Authority shall cause North Civil Project Co to grant Project Co and any Project Co Party access to each North Civil Elevator during each applicable Elevator Access Period, between 7:00 a.m. and 7:00 p.m. on each Business Day, for the exclusive purpose of Project Co transporting equipment to North Civil Infrastructure Subsections in respect of which the applicable North Civil Infrastructure Access Date has occurred and/or North Civil Infrastructure Sections in respect of which the North Civil Infrastructure Handover Date has occurred (each a “**Permitted Elevator Use**”), all in accordance with Section 6B of this Schedule 43 and subject to Project Co complying with its obligations pursuant to Section 6.1(c) of this Schedule 43, and Contracting Authority shall ensure that North Civil Project Co and all North Civil Project Co Parties do not materially interfere with such access.

3. INTEGRATION DEMERIT POINT REGIME

3.1 North Civil Integration Demerit Points

- (a) If, at any time prior to the Substantial Completion Date, a North Civil Integration Demerit Event occurs, the corresponding North Civil Integration Demerit Points shall accrue and be assessed against Project Co in accordance with this Section 3.1 of Schedule 43.
- (b) For greater certainty, notwithstanding anything to the contrary in the Project Agreement, including this Schedule 43, any North Civil Integration Demerit Points shall accrue immediately upon the occurrence of the applicable North Civil Integration Demerit Event.

3.2 Calculation of North Civil Integration Demerit Points Incurred

- (a) The “**North Civil Integration Demerit Points Incurred**” at any given time shall be calculated separately in respect of North Civil Integration Demerit Points identified in each of Parts A, B, C and D of the table in Appendix G, in each case as the sum of (1) the applicable North Civil Initial Period Integration Demerit Points; and (2) the applicable North Civil Current Period Integration Demerit Points,

where:

- (i) the applicable “**North Civil Initial Period Integration Demerit Points**” (in respect of North Civil Integration Demerit Points identified in each of Parts A, B, C and D of the table in Appendix G) means the sum of all applicable North Civil Integration Demerit Points incurred from Financial Close to the North Civil Initial Demerit Points Period End Date (or, in respect of any determination made prior to the Initial Demerit Points Period End Date, incurred up to the date of such determination); and
- (ii) the applicable “**North Civil Current Period Integration Demerit Points**” (in respect of North Civil Integration Demerit Points identified in each of Parts A, B, C and D of the table in Appendix G) means the sum of all applicable North Civil Integration Demerit Points incurred by Project Co during the previous six (6) months, provided that:
 - (A) on or prior to the North Civil Initial Demerit Point Period End Date, the applicable North Civil Current Period Integration Demerit Points shall be equal to zero; and
 - (B) at any time on or before the day that is six (6) months following the North Civil Initial Demerit Point Period End Date, the applicable North Civil Current Period Integration Demerit Points shall equal the sum of all applicable North Civil Integration Demerit Points incurred by Project Co since the North Civil Initial Demerit Point Period End Date.

3.3 Reporting of North Civil Integration Demerit Points

Project Co shall track and set out the North Civil Integration Demerit Points incurred in each monthly Works Report (both on a month by month basis and as a running total), on a separate basis in respect of all North Civil Integration Demerit Points identified in Parts A, B, C and D of the table in Appendix G. If Contracting Authority disagrees with any calculation of the North Civil Integration Demerit Points set out by Project Co in any Works Report, then Contracting Authority shall notify Project Co and the Independent Certifier of such disagreement. If the matter(s) cannot be resolved within fifteen (15) Business Days after Contracting Authority’s notification of disagreement (or such other period as may be otherwise agreed by the Parties), then such matter shall be subject to the binding determination of the Independent Certifier, and the Independent Certifier’s decision shall be final and shall not be subject to resolution pursuant to Schedule 27 – Dispute Resolution Procedure.

3.4 Relief From North Civil Integration Demerit Points

Subject to Project Co meeting the obligations set out in Section 40.2 (*Consequences of a Delay Event*) and Section 40.3 (*Mitigation*) of the Project Agreement, if any applicable North Civil Integration Demerit Points,

- (a) have been assessed in accordance with Section 3 and Appendix G of this Schedule 43; and

- (b) have arisen from a North Civil Integration Demerit Event that has been directly caused by one or more of the events set out in Section 40.1(a) (*Delay Events – Definition*) of the Project Agreement, whether or not such event constitutes a Delay Event or have been caused or contributed to by the Contracting Authority or a Contracting Authority Party;

such North Civil Integration Demerit Points shall not be included in the calculation of North Civil Integration Demerit Points Incurred in accordance with this Section 3 of Schedule 43.

4. CRITICAL DATA

4.1 Project Co to Provide Critical Data

Project Co shall provide Contracting Authority with the Critical Data on or before the applicable Critical Data Deadline.

4.2 Failure to Provide Critical Data

If Project Co does not provide Contracting Authority with the Critical Data on or before the Critical Data Deadline then it shall be liable to pay liquidated damages to Contracting Authority as set out in Section 6.1 (*Failure to Deliver Critical Data or Complete Critical Works or OMSF Works on Time*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime.

4.3 Other Information

Project Co shall provide such other information as Contracting Authority may reasonably require in order to facilitate the development of an integrated Ontario Line Subway System.

5. CRITICAL WORKS

5.1 Project Co to Complete Critical Works

The following terms shall apply in respect of Critical Works to be completed by Project Co on each applicable North Civil Infrastructure Section:

- (a) Project Co shall complete the Critical Works, such that they are Critical Works Complete on or before the applicable Critical Works Deadline.
- (b) Project Co shall provide to Contracting Authority and the Independent Certifier notice (the “**Critical Works Completion Notice**”) twenty-five (25) Business Days prior to the date on which it anticipates the Critical Works will be completed in compliance with the requirements of the Project Agreement, including the Output Specifications. The Critical Works Completion Notice shall include particulars of a scheduled inspection by the Independent Certifier of the applicable Critical Works (the “**Critical Works Inspection**”) which shall take place no earlier than five (5) Business Days after the date of the Critical Works Completion Notice.
- (c) On the date specified in the Critical Works Completion Notice Project Co shall participate, together with Contracting Authority and the Independent Certifier, in the Critical Works Inspection of the Critical Works, with a view to determining whether they

have achieved Critical Works Completion. It is acknowledged that pursuant to the North Civil Project Agreement, North Civil Project Co shall participate in the Critical Works Inspection.

- (d) Contracting Authority shall notify Project Co and the Independent Certifier within ten (10) Business days of the completion of the Critical Works Inspection whether it is of the opinion that the Critical Works are completed in compliance with the requirements of the Project Agreement, including the Output Specifications. In determining whether the Critical Works are completed in compliance with the requirements of the Project Agreement, Contracting Authority may, but shall not be obligated to, take account of the views of Project Co expressed during the Critical Works Inspection.
- (e) Within five (5) Business Days after Project Co's receipt of Contracting Authority's opinion pursuant to Section 5.1(d) of this Schedule 43 the Parties shall cause the Independent Certifier to determine whether the Critical Works are completed in compliance with the requirements of the Project Agreement, including the Output Specifications, having regard to the opinions of both Project Co and Contracting Authority.
- (f) If the Independent Certifier determines that the Critical Works are completed in compliance with the requirements of the Project Agreement, including the Output Specifications, the Critical Works shall be deemed Critical Works Complete on the date confirmed by the Independent Certifier, provided that the Independent Certifier may have regard to such confirmation, but shall not be bound by it, for purposes of determining if Substantial Completion has occurred and for purposes of the issuance of the Substantial Completion Certificate pursuant to Section 25 (*Commissioning and Completion*) of the Project Agreement (provided further that the Independent Certifier shall be bound by such confirmation to the extent no change has occurred since the date thereof).
- (g) If the Independent Certifier determines that the Critical Works are not completed in compliance with the requirements of the Project Agreement, including the Output Specifications, the Critical Works Notice shall be deemed rescinded and Project Co may provide a subsequent Critical Works Notice pursuant to Section 5.1(b) of this Schedule 43.
- (h) Project Co shall ensure that all Critical Works are compliant with and function in accordance with all requirements of the Project Agreement, including the Output Specifications, at all times from and after the date that such Critical Works are Critical Works Complete.

5.2 Failure to Provide Critical Works on Time

If the Critical Works are not Critical Works Complete on or before the applicable Critical Works Deadline or if at any time after they are Critical Works Complete but prior to the applicable North Civil Infrastructure Section becoming part of the Project Co Infrastructure pursuant to Section 2.1(f) of this Schedule 43, the Critical Works do not meet the requirements of the Project Agreement, then Project Co shall be liable to pay liquidated damages to Contracting Authority as

set out in Section 6.1 (*Failure to Deliver Critical Data or Complete Critical Works or OMSF Works on Time*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime.

6. ACCESS TO NORTH CIVIL INFRASTRUCTURE SUBSECTIONS

6.1 North Civil Infrastructure Subsection Access

- (a) Project Co shall be granted access pursuant to Section 2.2 of this Schedule 43 to each North Civil Infrastructure Subsection for purposes of carrying out the RSSOM North Civil Infrastructure Activities in accordance with the following procedure:
- (i) Contracting Authority shall provide to Project Co notice (the “**North Civil Infrastructure Subsection Access Date Notice**”) of the date on which each applicable North Civil Infrastructure Subsection shall be ready to be accessed by Project Co for purposes of Project Co performing the applicable RSSOM North Civil Infrastructure Activities (the “**North Civil Infrastructure Subsection Target Access Date**”), no later than two (2) Business Days after receipt of notice of same from North Civil Project Co, which notice shall include particulars of a scheduled inspection by the North Civil Independent Certifier of the North Civil Infrastructure Subsection (the “**Access Ready Inspection**”) which shall take place no earlier than three (3) Business Days after the date of the North Civil Infrastructure Subsection Access Notice.
 - (ii) On the date specified in the North Civil Infrastructure Subsection Access Notice being provided to Project Co, Project Co shall participate, together with North Civil Independent Certifier, in the Access Ready Inspection of the North Civil Infrastructure Subsection, with a view to determining whether the North Civil Infrastructure Subsection is Access Ready.
 - (iii) Project Co shall confirm to Contracting Authority no later than ten (10) Business Days after the date of the Access Ready Inspection whether Project Co is of the opinion that the North Civil Project Infrastructure forming part of such North Civil Infrastructure Subsection is Built to Specification and Design in respect of the requirements set out in the applicable Access Ready Checklist and if it is of the opinion that it is not Built to Specification and Design in respect of any requirements set out in the applicable Access Ready Checklist, Project Co shall, simultaneous with its confirmation, provide to Contracting Authority a list of deficiencies that Project Co considers necessary to be rectified in order for the North Civil Infrastructure Subsection to be Built to Specification and Design in respect of the requirements specified on the applicable Access Ready Checklist (the “**Access Readiness Deficiency List**”).
 - (iv) If (1) Project Co does not participate in the Access Ready Inspection of a North Civil Infrastructure Subsection contemplated in Section 6.1(a)(ii) of this Schedule 43 or (2) Project Co participates in such Access Ready Inspection but does not provide the confirmation or Access Readiness Deficiency List contemplated in Section 6.1(c)(iii) of this Schedule 43, Project Co shall be deemed to have accepted that the North Civil Project Infrastructure forming part of such North Civil Infrastructure Subsection is Built to Specification and Design

in respect of all requirements set out in the applicable Access Ready Checklist, for purposes of determining if such North Civil Infrastructure Subsection is Access Ready and shall be deemed to have waived any claim to the contrary for purposes of determining whether the applicable North Civil Infrastructure Subsection Access Date has occurred (but for clarity, not for purposes of the determination of any Project Co Handover Deficiencies or Project Co Post-Handover Deficiencies as contemplated in Sections 7.2(d) or 7.3(a) of this Schedule 43 or handover under Section 7 of this Schedule 43, and subject to Section 10.1 of this Schedule 43).

- (v) Contracting Authority shall notify Project Co within twenty-five (25) Business Days of the date of the North Civil Infrastructure Subsection Access Date Notice whether the North Civil Independent Certifier has opined that
 - (A) all North Civil Project Infrastructure in such North Civil Infrastructure Subsection is Built to Specification and Design in respect of all requirements set out in the applicable Access Ready Checklist, in which case the North Civil Infrastructure Subsection shall be deemed Access Ready and the date on which Project Co shall be granted access to such North Civil Infrastructure Subsection in order to carry out the applicable RSSOM North Civil Infrastructure Activities (the applicable “**North Civil Infrastructure Subsection Access Date**”) shall be the date confirmed by the North Civil Independent Certifier in its notice pursuant to this Section 6.1(a)(v)(A), or
 - (B) any North Civil Project Infrastructure in such North Civil Infrastructure Subsection is not Built to Specification and Design in respect of any of the requirements set out in the applicable Access Ready Checklist, in which case the North Civil Infrastructure Access Date Notice shall be deemed rescinded.
- (vi) If, notwithstanding Project Co’s delivery of an Access Readiness Deficiency List pursuant to Section 6.1(a)(iii) of this Schedule 43 Contracting Authority proceeds to issue a notice pursuant to Section 6.1(a)(v)(A) hereof confirming that the relevant North Civil Infrastructure Subsection is Access Ready, Project Co may, no later than five (5) Business Days after receipt of such notice from Contracting Authority, bring a Dispute in respect thereof. Project Co acknowledges and agrees that if it does not initiate a Dispute within such timeframe with respect to any non conformance of any requirements listed in the applicable Access Ready Checklist to the Built to Specification and Design standard, it shall be deemed to waive any claim in relation thereto for purposes of determining whether the applicable North Civil Infrastructure Subsection Access Date has occurred (but for clarity, not for purposes of the determination of any Project Co Handover Deficiencies or Project Co Post-Handover Deficiencies as contemplated in Sections 7.2(d) or Section 7.3(a) of this Schedule 43 or handover under Section 7 of this Schedule 43, and subject to Section 10.1 of this Schedule 43).
- (vii) If such Dispute is resolved in favour of Project Co, Project Co shall be entitled to a Variation subject to and in accordance with Schedule 22 – Variation Procedure.

Such Dispute, if applicable, shall not affect the North Civil Infrastructure Subsection Access Date established pursuant to Section 6.1(a)(v)(A).

- (viii) The process contemplated in Sections 6.1(a)(i)-(vi) of this Schedule 43 shall be repeated in respect of a North Civil Infrastructure Subsection until such time as a North Civil Infrastructure Subsection Access Date is determined in respect thereof.
- (b) Project Co acknowledges and agrees that it shall have the right to access each North Civil Infrastructure Subsection during the applicable North Civil Infrastructure Subsection Access Period:
 - (i) for the exclusive purpose of performing the applicable RSSOM North Civil Infrastructure Activities;
 - and
 - (ii) in accordance with the conditions set out in this Section 6 of Schedule 43.
- (c) In connection with Project Co accessing (A) any North Civil Infrastructure Subsection and the performance of any applicable RSSOM North Civil Infrastructure Activities, (B) any North Civil Project Infrastructure as contemplated in Section 2.2(e) of this Schedule 43, (C) any Early Access Tunnel as contemplated in Section 2.6 of this Schedule 43, and (D) any North Civil Elevator as contemplated in Section 2.7 of this Schedule 43, Project Co shall, and shall cause any Project Co Party to:
 - (i) comply with the North Civil Infrastructure Health and Safety Plan of North Civil Project Co that is applicable to the North Civil Infrastructure Subsection, Early Access Tunnel or North Civil Elevator, as applicable, and which has been provided by Contracting Authority to Project Co and comply with all directions of North Civil Project Co in respect of any matter regarding health and safety at the applicable North Civil Infrastructure Subsection, Early Access Tunnel or North Civil Elevator, as applicable, including, but not limited to:
 - (A) ensuring all employees, contractors, subcontractors and other Project Co Parties report to North Civil Project Co to receive the necessary health and safety training on, or prior to, arrival at the North Civil Infrastructure Section that the North Civil Infrastructure Subsection or Early Access Tunnel is comprised in; and
 - (B) complying with all applicable North Civil Project Co health and safety plans and directions when accessing a North Civil Infrastructure Subsection via the applicable North Civil Infrastructure Section that is still under the care and control of North Civil Project Co;
 - (ii) coordinate with North Civil Project Co the means of access to the applicable North Civil Infrastructure Subsection, Early Access Tunnel or North Civil Elevator, as applicable, (or to any North Civil Infrastructure Section to which

Project Co may require access solely for the purpose contemplated pursuant to Section 2.2(e) of this Schedule 43);

- (iii) keep the North Civil Infrastructure Subsection, Early Access Tunnel or North Civil Elevator, as applicable, and all North Civil Project Infrastructure thereon in a safe and orderly state in accordance with Good Industry Practice;
- (iv) not materially interfere with or delay the work of North Civil Project Co or any North Civil Project Co Parties, and not do anything that causes North Civil Project Co to be in contravention of its obligations under the Occupational Health and Safety Act (Ontario), and Project Co shall promptly cease and desist any activity that results or has a likelihood in resulting in such interference or delay or causes such contravention; and
- (v) without derogating from the generality of the foregoing, not interfere with or delay North Civil Project Co, any North Civil Project Co Party or the North Civil Independent Certifier in carrying out commissioning activities in respect of a North Civil Infrastructure Section which such North Civil Infrastructure Subsection, Early Access Tunnel or North Civil Elevator, as applicable, is comprised.

6.2 Damage to North Civil Infrastructure Subsection

- (a) During the North Civil Infrastructure Subsection Access Period, Early Tunnel Access Period or Elevator Access Period, as applicable, Project Co shall, and shall cause any Project Co Party accessing a North Civil Infrastructure Subsection, Early Access Tunnel or North Civil Elevator, as applicable, to not cause any damage or destruction to the applicable North Civil Infrastructure Subsection or Early Access Tunnel and any North Civil Project Infrastructure contained therein or any North Civil Elevator, as applicable, and shall comply, and cause any such Project Co Party to comply, with any directions of North Civil Project Co as may be required to protect such North Civil Infrastructure Subsection, Early Access Tunnel, North Civil Project Infrastructure or North Civil Elevator from damage or destruction.
- (b) Project Co shall be responsible for any damage caused by Project Co or any Project Co Parties to any North Civil Project Infrastructure or North Civil Elevator during any applicable North Civil Infrastructure Access Period, Early Tunnel Access Period or Elevator Access Period (including, for greater certainty, any damage to North Civil Project Infrastructure outside of the applicable North Civil Infrastructure Subsection or Early Access Tunnel). Upon causing any such damage it shall forthwith notify Contracting Authority and North Civil Project Co. The repair of such damage shall be at the cost and expense of Project Co.
- (c) If Project Co causes any damage referred to in Section 6.2(b) of this Schedule 43 which results in, or could reasonably be expected to result in, a serious threat to the health and safety or security of any person, Project Co shall immediately notify Contracting Authority and stop the RSSOM North Civil Infrastructure Activities, the Early Access Noise and Vibration Tests or access to the North Civil Elevators, as applicable, shall follow the reasonable directions of North Civil Project Co in respect of health and safety

compliance and shall vacate the North Civil Infrastructure Subsection, Early Access Tunnel or North Civil Elevator, as applicable, and the North Civil Project Lands it is situated on until such time as Contracting Authority provides Notice to Project Co that the health and safety or security issue identified by Project Co has been addressed and Project Co may return to the North Civil Infrastructure Subsection, Early Access Tunnel or North Civil Elevator, as applicable.

- (d) In respect of any damage to the North Civil Project Infrastructure (including any North Civil Elevator) caused by Project Co or any Project Co Party, Contracting Authority may, but shall not be obligated to
 - (i) request that Project Co repair such damage, in which case Project Co shall repair such damage as directed by Contracting Authority, at the cost and expense of Project Co, or
 - (ii) arrange for the repair of such damage by North Civil Project Co or an Additional Contractor, in which case Contracting Authority shall so notify Project Co and Project Co shall, as may be directed by Contracting Authority (A) stop the applicable RSSOM North Civil Infrastructure Activities, the Early Access Noise and Vibration Tests or access to the North Civil Elevators, as applicable, and/or (B) vacate the North Civil Infrastructure Subsection, the Early Access Tunnel or the North Civil Elevators, as applicable, and the North Civil Project Lands it is situated on until such time as Contracting Authority provides Notice to Project Co that the damage has been repaired and Project Co may return thereto.
- (e) If any damage contemplated in this Section 6.2 of this Schedule 43 is to be repaired by North Civil Project Co or an Additional Contractor, then subject to Section 6.2(d)(ii) of this Schedule 43, (i) at any time prior to an applicable North Civil Infrastructure Handover Date, Project Co shall not and shall ensure all Project Co Parties, do not, interfere with North Civil Project Co's or such Additional Contractor's (as applicable) work in respect of such repair, and (i) at any time after an applicable North Civil Infrastructure Handover Date, Project Co shall grant North Civil Project Co or Additional Contractor, as applicable, access to the North Civil Infrastructure Subsection, Early Access Tunnel or North Civil Elevator in order to repair such damage, and shall not, and shall ensure that all Project Co Parties do not, interfere with such repair work.
- (f) If Project Co causes any damage or destruction referred to in Section 6.2(b) of this Schedule 43, Project Co may not claim any relief pursuant to Section 40 (*Delay Events*) or Section 41 (*Compensation Events*) of the Project Agreement in connection with any RSSOM North Civil Infrastructure Activities or Early Access Noise and Vibration Tests affected by such damage or destruction or any repair thereof.
- (g) The terms of Sections 6.2(a)-(f) of this Schedule 43 shall apply in respect of any North Civil Project Infrastructure at any time that Project Co has access thereto as contemplated in Section 2.2(e) of this Schedule 43.

6.3 Title

In respect of Works performed by Project Co in any North Civil Infrastructure Subsection, title to each item forming part thereof, including any materials, supplies, equipment, facilities, parts and any other deliverable or component items, but not the risk of loss or damage or destruction thereto or thereof, shall pass to Contracting Authority upon the receipt of such item in the North Civil Infrastructure Subsection notwithstanding Section 55.1 (*Title*) of the Project Agreement.

6A. ACCESS TO EARLY ACCESS TUNNELS

6A.1 Access to Early Access Tunnels

The applicable Early Tunnel Access Commencement Date and Early Tunnel Access Period during which Project Co shall be granted access pursuant to Section 2.6 of this Schedule 43 to each Early Access Tunnel for purposes of carrying out the Early Access Noise and Vibration Tests, shall be determined in the following manner:

- (a) Project Co shall provide to Contracting Authority Notice of the proposed date on which Project Co requires access to the applicable Early Access Tunnel for purposes of performing the Early Access Noise and Vibration Tests (which date shall be no earlier than ninety (90) days prior to the No Later Than Date applicable to such Early Access Tunnel) and the proposed time period for access commencing on such date, which Notice shall be provided no later than sixty (60) days prior to the date on which Project Co requires such access. For clarity, more than one (1) Notice may be provided to Contracting Authority in respect of an Early Access Tunnel pursuant to this Section 6A.1(a) of this Schedule 43.
- (b) Contracting Authority shall, no later than thirty (30) Business Days after receipt of Notice pursuant to Section 6A.1(a) of this Schedule 43, confirm by Notice to Project Co the access period (the “**Early Tunnel Access Period**”) and commencement date thereof (the “**Early Tunnel Access Commencement Date**”) in respect of Early Access Noise and Vibration Tests to be conducted in such Early Access Tunnel (which, for clarity, may be the same as, or different from, those proposed by Project Co in its Notice provided pursuant to Section 6A.1(a) of this Schedule 43). Contracting Authority may refer the determination of the Early Tunnel Access Commencement Date and the Early Tunnel Access Period for consideration at the next following meeting of the North Civil Integration Committee pursuant to the North Civil Interface Agreement, in accordance with the terms of Section 3 (*Integration Committee*) of the North Civil Interface Agreement, in which case Contracting Authority shall take into consideration any determination made in respect thereof by the North Civil Integration Committee, provided that the Early Tunnel Access Commencement Date may in no event be earlier than ninety (90) days prior to the applicable No Later Than Date.

6B. NORTH CIVIL ELEVATOR ACCESS

6B.1 North Civil Elevator Access

- (a) If Project Co requires access to North Civil Elevators for purposes of Permitted Elevator Use, Project Co shall raise such requirements for discussion at the next following meeting of the North Civil Construction Integration Working Group pursuant to Section 5 (*Construction Integration Working Group*) of the North Civil Interface Agreement. If and

to the extent North Civil Project Co agrees to provide access to Project Co to North Civil Elevators for purposes of specified Permitted Elevator Use disclosed by Project to the North Civil Construction Integration Working Group (which disclosure shall include identification of the equipment intended to be transported), the access period (the applicable “**Elevator Access Period**”) applicable to such disclosed Permitted Elevator Use shall be the period (if any) agreed to by North Civil Project Co and established by the North Civil Construction Integration Working Group.

- (b) For clarity, Contracting Authority shall not be required to cause North Civil Project Co to provide Project Co with access to North Civil Elevators outside of the applicable Elevator Access Period or for the any purpose other than Permitted Elevator Use disclosed to the North Civil Construction Integration Group in respect thereof.
- (c) Project Co shall comply with the terms of Section 6.1(c) at all times while accessing a North Civil Elevator during an applicable Elevator Access Period.

7. NORTH CIVIL INFRASTRUCTURE SECTION HANDOVER TO PROJECT CO

7.1 Notice of North Civil Infrastructure Section Commissioning

- (a) Contracting Authority shall give twenty-five (25) days’ Notice to Project Co of the proposed commencement of the commissioning of each North Civil Infrastructure Section (the “**North Civil Infrastructure Section Commissioning**”).
- (b) Contracting Authority shall give at least three (3) Business Days’ Notice (the “**North Civil Infrastructure Section Commissioning Commencement Notice**”) to Project Co of the commencement of North Civil Infrastructure Section Commissioning, which shall not be prior to the date of proposed commencement set out in the notice delivered under Section 7.1(a) of this Schedule 43. Contracting Authority shall, together with such Notice, provide all information that Project Co may reasonably require in relation thereto and which Contracting Authority has received from North Civil Project Co, including (i) tests proposed, (ii) test methodology; and (iii) expected test results. Without prejudice to the preceding sentence, Contracting Authority shall act reasonably in requesting the information contemplated in the preceding sentence from North Civil Project Co.
- (c) Upon receipt of a North Civil Infrastructure Section Commissioning Commencement Notice, Project Co shall participate in the North Civil Infrastructure Section Commissioning activities and North Civil Infrastructure Section inspections contemplated therein. For certainty, Contracting Authority may issue a single North Civil Infrastructure Section Commissioning Commencement Notice in respect of multiple North Civil Infrastructure Sections.

7.2 North Civil Infrastructure Section Substantial Completion and North Civil Infrastructure Section Handover Date

In respect of each North Civil Infrastructure Section:

- (a) Contracting Authority shall deliver to Project Co, promptly upon receipt from North Civil Project Co, North Civil Project Co’s notice, delivered under the North Civil Project

Agreement, of the anticipated date on which it will deliver the North Civil Infrastructure Section Substantial Completion Notice.

- (b) Contracting Authority shall deliver to Project Co promptly upon receipt thereof from North Civil Project Co, North Civil Project Co's notice, delivered under the North Civil Project Agreement, that all requirements for North Civil Infrastructure Section Substantial Completion have been met (the "**North Civil Infrastructure Section Substantial Completion Notice**"). For certainty, Contracting Authority may provide such North Civil Infrastructure Substantial Completion Notice in respect of multiple North Civil Infrastructure Sections. It is acknowledged that the North Civil Project Agreement requires that the North Civil Infrastructure Section Substantial Completion Notice (i) describe in reasonable detail, the satisfaction of the requirements for North Civil Infrastructure Section Substantial Completion, (ii) include, as appendices all of the North Civil Infrastructure Section Substantial Completion Deliverables described in the North Civil Infrastructure Section Substantial Completion Deliverables List and (iii) include North Civil Project Co's opinion that the conditions for issuance of the North Civil Infrastructure Section Substantial Completion Certificate have been satisfied.
- (c) If, pursuant to the North Civil Project Agreement, the North Civil Independent Certifier has provided notice that the North Civil Infrastructure Section Substantial Completion Deliverables List is incomplete and provides a deficiency list in respect thereof, and North Civil Project Co provides a new and replacement North Civil Infrastructure Section Substantial Completion Notice in response thereto, Contracting Authority shall provide such new North Civil Infrastructure Section Substantial Completion Notice to Project Co, and this process shall be repeated if North Civil Project Co provides any further replacement North Civil Infrastructure Section Substantial Completion Notices pursuant to the North Civil Project Agreement. Contracting Authority shall provide to Project Co the North Civil Independent Certifier's confirmation that the North Civil Infrastructure Section Substantial Completion Certificate includes all of the North Civil Infrastructure Section Substantial Completion Deliverables described in the North Civil Infrastructure Section Substantial Completion Deliverables List (the "**North Civil Infrastructure Section IC Substantial Completion Deliverables Confirmation**") on the Business Day on which it receives the same From the North Civil Independent Certifier.
- (d) Project Co shall, within three (3) Business Days after receipt of the North Civil Infrastructure Section IC Substantial Completion Deliverables Confirmation, provide Contracting Authority with Project Co's opinion as to whether all North Civil Project Infrastructure in such North Civil Infrastructure Section is Built to Specification and Design (to the extent such determination can be made from a visual inspection carried out by a competent person in a manner consistent with Good Industry Practice) or, if applicable, submit a list of all deficiencies (each a "**Project Co Handover Deficiency**") that, in Project Co's opinion, prevent such North Civil Infrastructure Section from achieving Built to Specification and Design status (the "**Project Co Handover Deficiency List**"). Project Co shall identify in the Project Co Handover Deficiency List, in respect of each Project Co Handover Deficiency:
- (i) an explanation of why it constitutes a non conformance to the Built to Specification and Design standard, the modifications that would be required to be made to the applicable North Civil Project Infrastructure to remove such Project

- Co Handover Deficiency, with specific reference to the applicable requirements of the applicable North Civil Technical Specifications; and
- (ii) set out any modifications which Project Co considers necessary to the definition of Built to Specification and Design, including the applicable North Civil Technical Specifications, in the event that such Project Co Handover Deficiency is not corrected.
- (e) Contracting Authority shall, promptly upon receipt of same from the North Civil Independent Certifier provide to Project Co either:
- (i) the North Civil Section Substantial Completion Certificate (together with the North Civil Infrastructure Minor Deficiencies List) confirming the North Civil Infrastructure Section Substantial Completion Date together with the North Civil Infrastructure Section Minor Deficiencies List; or
 - (ii) the report of the North Civil Independent Certifier detailing the matters that the North Civil Independent Certifier considers are required to be performed by North Civil Project Co to satisfy the conditions for issuance of the applicable North Civil Infrastructure Section Substantial Completion Certificate.
- (f) For greater certainty, the North Civil Infrastructure Section Handover Date in respect of the applicable North Civil Infrastructure Section shall be deemed to occur on the North Civil Infrastructure Section Substantial Completion Date noted in such North Civil Infrastructure Certificate notwithstanding anything set out in Section 7.2(d) including any Project Co Handover Deficiencies identified by Project Co.
- (g) The Parties acknowledge that pursuant to the terms of the North Civil Project Agreement, in the event that the North Civil Infrastructure Section Substantial Completion Certificate has not been delivered by the North Civil Independent Certifier within thirty (30) days of a North Civil Infrastructure Section Substantial Completion Notice then such North Civil Infrastructure Section Substantial Completion Notice shall be deemed to have been rescinded and North Civil Project Co shall be required to deliver a new North Civil Infrastructure Section Substantial Completion Notice. In such event Contracting Authority shall promptly provide Notice of the same to Project Co and the North Civil Infrastructure Section Substantial Completion Notice delivered by Contracting Authority pursuant to Section 7.2(b) shall be deemed to have been rescinded by Contracting Authority and Contracting Authority shall be required to deliver a new Notice pursuant to Section 7.1(a) of this Schedule 43 in order to initiate a new North Civil Infrastructure Section Commissioning process for the applicable North Civil Infrastructure Section

7.3 Post-Handover Inspection

- (a) In respect of each North Civil Infrastructure Section, Project Co shall, during the period commencing on the North Civil Infrastructure Section Handover Date and ending thirty (30) days thereafter (the “**Post-Handover Inspection Period**”), carry out such inspections of the North Civil Project Infrastructure that has become Project Co Infrastructure as Project Co deems necessary in order to determine whether such Project Co Infrastructure has been Built to Specification and Design and shall invite Contracting

Authority to participate in such inspections. Project Co shall, no later than the last day of the Post-Handover Inspection Period, provide Contracting Authority with Project Co's opinion as to whether such Project Co Infrastructure is Built to Specification and Design and, if applicable, submit a list of all deficiencies (each a "**Project Co Post-Handover Deficiency**") that, in Project Co's opinion, prevent such Project Co Infrastructure from being Built to Specification and Design (the "**Project Co Post-Handover Deficiency List**"). For clarity, Project Co may include any Project Co Handover Deficiencies (other than North Civil Infrastructure Minor Deficiencies) in the Project Co Post-Handover Deficiency List.

- (b) Project Co shall identify in the Project Co Post-Handover Deficiency List, in respect of each Project Co Post-Handover Deficiency:
 - (i) an explanation of why it constitutes a non conformance to the Built to Specification and Design standard, the modifications that would be required to be made to the applicable North Civil Project Infrastructure to remove such Project Co Post-Handover Deficiency, with specific reference to the applicable requirements of the applicable North Civil Technical Specifications; and
 - (ii) set out any modifications which Project Co considers necessary to the definition of Built to Specification and Design, including the applicable North Civil Technical Specifications, in the event that such Project Co Post-Handover Deficiency is not corrected.
- (c) Within twenty (20) Business Days of receipt of a Project Co Post-Handover Deficiency List, Contracting Authority may, by Notice to Project Co (the "**CA Post-Handover Response**") indicate, with respect to each Project Co Post-Handover Deficiency included in the Project Co Post-Handover Deficiency List:
 - (A) that such Project Co Post-Handover Deficiency is a North Civil Infrastructure Section Minor Deficiency in which case it shall be rectified pursuant to Section 7.4 of this Schedule 43;
 - (B) that Contracting Authority agrees that such Project Co Post-Handover Deficiency is a Built to Specification and Design Deficiency and has not been included in the North Civil Infrastructure Section Minor Deficiency List in which case Contracting Authority may, in its sole discretion take any one or more of the following actions:
 1. require Project Co to correct the Built to Specification and Design Deficiency by issuing a Variation subject to and in accordance with Schedule 22 – Variation Procedure;
 2. modify the requirements of the Project Agreement (including the North Civil Infrastructure Technical Specifications and the Output Specifications) by issuing a Variation subject to and in accordance with Schedule 22 – Variation Procedure in order to mitigate the effects of the Built to Specification and Design Deficiency; or

3. arrange for the correction of the Built to Specification and Design Deficiency by North Civil Project Co or an Additional Contractor.

(C) that Contracting Authority does not agree that the Project Co Post-Handover Deficiency identified by Project Co is a Built to Specification and Design Deficiency in which case Contracting Authority shall not have any further obligation in respect of such Project Co Post-Handover Deficiency except as may be determined pursuant to the Dispute Resolution Procedure, subject to Section 10.1 of this Schedule 43.

If Contracting Authority does not provide the confirmation set out above in this Section 7.3(c) in respect of any Project Co Post-Handover Deficiency, it shall be deemed to have provided the response set out in Section 7.3(c)(C) of this Schedule 43 in respect thereof.

- (d) If Project Co disagrees with any determination made by Contracting Authority in respect of a Project Co Post-Handover Deficiency included in the CA Post-Handover Response then Project Co may, no later than five (5) Business Days after receipt of the CA Post-Handover Response, refer such matter for resolution in accordance with the Dispute Resolution Procedure. Project Co acknowledges and agrees that if it does not initiate a Dispute within such timeframe with respect to any Built to Specification and Design Deficiency, it shall be deemed to waive any claim that such Built to Specification and Design Deficiency prevents the applicable North Civil Project Infrastructure from being Built to Specification and Design (subject to Section 10.1 of this Schedule 43).
- (e) Subject to Sections 7.3(d), 10.1 and 10.3 of this Schedule 43, Project Co may not make any claim or commence any Dispute asserting that a Built to Specification and Design Deficiency exists at any time after the end of the Post-Handover Inspection Period unless (i) such Built to Specification and Design Deficiency is included in a Project Co Post-Handover Deficiency List delivered on or prior to such date, (ii) such Built to Specification and Design Deficiency could not reasonably be ascertained by a competent person in accordance with Good Industry Practice during a visual inspection of the North Civil Project Infrastructure if such inspection took place on the last day of the Post-Handover Inspection Period or (iii) such Built to Specification and Design Deficiency is also a North Civil Infrastructure Construction Defect or North Civil Infrastructure Construction Latent Defect.

7.4 Minor Deficiencies

- (a) Contracting Authority shall, promptly upon receipt thereof from the North Civil Independent Certifier, deliver to Project Co a copy of any North Civil Infrastructure Minor Deficiencies List.
- (b) Project Co acknowledges that North Civil Project Co is afforded certain time periods after receipt of the North Civil Infrastructure Minor Deficiencies List to rectify the North Civil Infrastructure Minor Deficiencies noted thereon, and shall grant North Civil Project Co and its contractors access (including outside of normal working hours) to the North Civil Infrastructure Section and the Lands it is situated on during such time periods, upon reasonable notice from North Civil Project Co, in order to do so.

- (c) Contracting Authority shall, promptly upon receipt of same from the North Civil Independent Certifier, deliver to Project Co a copy of the North Civil Independent Certifier's certificate confirming that all North Civil Infrastructure Minor Deficiencies have been rectified such that final completion of the applicable North Civil Infrastructure Section has occurred (the "**North Civil Infrastructure Section Final Completion Certificate**").
- (d) If, upon receipt of the North Civil Infrastructure Final Completion Certificate, Project Co is of the opinion that any North Civil Infrastructure Minor Deficiencies have not been fully rectified, Project Co may, within ten (10) Business Days of receipt of the North Civil Infrastructure Final Completion Certificate, commence a Dispute. Project Co acknowledges and agrees that if it did not initiate a Dispute within such timeframe with respect to a North Civil Infrastructure Minor Deficiency, Project Co shall be deemed to waive any claim in relation to such North Civil Infrastructure Minor Deficiency, subject to Section 10.1 of this Schedule 43.
- (e) Project Co shall provide access to the applicable Project Co Infrastructure and Lands to North Civil Project Co and its contractors as may be required for the purpose of correcting Minor Deficiencies in the manner contemplated in Section 10.3 hereof.

7.5 Critical North Civil HVAC Works Completion

Critical North Civil HVAC Works Completion shall be determined in respect of any Critical North Civil HVAC Works in accordance with the following procedure:

- (a) Contracting Authority shall provide to Project Co notice (the "**Critical North Civil HVAC Works Completion Notice**") of the date on which Contracting Authority expects the Critical North Civil HVAC Works to be Critical North Civil HVAC Works Complete (the "**Critical North Civil HVAC Works Completion Target Date**"), no later than two (2) Business Days after receipt of notice of same from North Civil Project Co, which notice shall include particulars of a scheduled inspection by the North Civil Independent Certifier of the applicable Critical North Civil HVAC Works (the "**Critical North Civil HVAC Works Inspection**") which shall take place no earlier than three (3) Business Days after the date of the Critical North Civil HVAC Works Completion Notice.
- (b) Upon the Critical North Civil HVAC Works Completion Notice being provided to Project Co, Project Co shall participate, together with North Civil Independent Certifier, in the Critical North Civil HVAC Works Inspection of the Critical North Civil HVAC Works, with a view to determining (to the extent possible from a visual inspection carried out by a competent person in a manner consistent with Good Industry Practice) whether they have achieved Critical North Civil HVAC Works Completion.
- (c) If Project Co is of the opinion that the Critical North Civil HVAC Works are not Built to Specification and Design it shall provide to Contracting Authority a list of deficiencies (the "**Critical North Civil HVAC Works Completion Deficiency List**") no later than ten (10) Business Days after the date of the Critical North Civil HVAC Works Inspection (the "**Critical North Civil HVAC Works Deficiency Identification Deadline**"). Project Co acknowledges that Contracting Authority may at its discretion take the Critical North Civil HVAC Works Completion Deficiency List into consideration in confirming

to the North Civil Independent Certifier and/or North Civil Project Co whether it is of the opinion that the Critical North Civil HVAC Works are Built to Specification and Design and may, but shall not be obligated to, provide the Critical North Civil HVAC Works Completion Deficiency List to North Civil Project Co and/or the North Civil Independent Certifier.

In respect of each deficiency identified on the Critical North Civil HVAC Works Completion Deficiency List Project Co shall:

- (i) explain why it constitutes a non conformance to the Built to Specification and Design standard, and identify the modifications required to be made to the applicable Critical North Civil HVAC Works to remove such non-conformance, with specific reference to the applicable requirements of the North Civil Infrastructure Technical Specifications; and
 - (ii) set out any modifications which Project Co considers necessary to the definition of Built to Specification and Design, including the applicable North Civil Infrastructure Technical Specifications, in the event that such deficiency is not corrected.
- (d) Contracting Authority shall notify Project Co within twenty-five (25) Business Days of the date of the Critical North Civil HVAC Works Notice whether the North Civil Independent Certifier has opined that (1) the Critical North Civil HVAC Works are built in compliance with the requirements of the North Civil Project Agreement in which case the Critical North Civil HVAC Works shall be deemed Critical North Civil HVAC Works Complete on the date (the applicable “**Critical North Civil HVAC Works Completion Date**”) so confirmed by the Independent Certifier and notified by the Contracting Authority, or (2) the relevant Critical North Civil HVAC Works are not built in compliance with the requirements of the North Civil Project Agreement, in which case the Critical North Civil HVAC Works Completion Notice shall be deemed rescinded.
- (e) If, notwithstanding Project Co has delivered a Critical North Civil HVAC Works Deficiency List pursuant to Section 7.5(c) of this Schedule 43 Contracting Authority proceeds to issue a notice pursuant to Section 7.5(d)(1) above hereof confirming that Critical North Civil HVAC Works Completion has occurred, Project Co may, no later than five (5) Business Days after receipt of such notice from the Contracting Authority, bring a Dispute in respect thereof. Project Co acknowledges and agrees that if it does not initiate a Dispute within such timeframe with respect to any non conformance to the Built to Specification and Design standard, it shall be deemed to waive any claim in relation thereto. If such Dispute is resolved in favour of Project Co, Project Co shall be entitled to a Variation subject to and in accordance with Schedule 22 – Variation Procedure. Such Dispute, if applicable, shall not affect the Critical North Civil HVAC Works Completion Date established pursuant to Section 7.5(d)(1) of this Schedule 43.
- (f) Subject to Section 7.5(e) of this Schedule 43, Project Co may not make any claim or commence any Dispute asserting that any Critical North Civil HVAC Works are not Critical North Civil HVAC Works Complete at any time after the Critical North Civil HVAC Works Deficiency Identification Deadline unless (i) such deficiency is included in a Critical North Civil HVAC Works Deficiency List delivered on or prior to the Critical

North Civil HVAC Works Deficiency Identification Deadline, (ii) such deficiency could not reasonably be ascertained by a competent person in accordance with Good Industry Practice during a visual inspection of the Critical North Civil HVAC Works if such inspection took place on the Critical North Civil HVAC Works Deficiency Identification Deadline, or (iii) such deficiency is also a North Civil Infrastructure Construction Defect or a North Civil Infrastructure Construction Latent Defect.

- (g) The process contemplated in Sections 7.5(a)-(e) of this Schedule 43 shall be repeated in respect of any Critical North Civil HVAC Works until such time as a Critical North Civil HVAC Works Completion Date is determined in respect thereof.

8. OMSF WORKS

8.1 Project Co to Complete OMSF Works

The following terms shall apply in respect of OMSF Works to be completed by Project Co on any OMSF Lands:

- (a) Project Co shall complete the OMSF Works, such that they are OMSF Works Complete on or before the applicable OMSF Works Deadline.
- (b) Project Co shall provide to Contracting Authority and the Independent Certifier notice (the “**OMSF Works Completion Notice**”) twenty (20) Business Days prior to the date on which it anticipates the OMSF Works will be completed in compliance with the requirements of the Project Agreement, including the Output Specifications. The OMSF Works Completion Notice shall include particulars of a scheduled inspection by the Independent Certifier of the applicable OMSF Works (the “**OMSF Works Inspection**”) which shall take place no earlier than three (3) Business Days after the date of the OMSF Works Completion Notice.
- (c) On the date specified in the OMSF Works Completion Notice Project Co shall participate, together with Contracting Authority and the Independent Certifier, in the Inspection of the OMSF Works, with a view to determining whether they have achieved OMSF Works Completion. It is acknowledged that pursuant to the North Civil Project Agreement, North Civil Project Co may participate in the OMSF Works Inspection.
- (d) Contracting Authority shall notify Project Co and the Independent Certifier within ten (10) Business days of the completion of the OMSF Works Inspection whether it is of the opinion that the OMSF Works are completed in compliance with the requirements of the Project Agreement, including the Output Specifications. In determining whether the OMSF Works are completed in compliance with the requirements of the Project Agreement, Contracting Authority may, but shall not be obligated to, take account of the views of Project Co expressed during the OMSF Works Inspection.
- (e) Within five (5) Business Days after Project Co’s receipt of Contracting Authority’s opinion pursuant to Section 5.1(d) of this Schedule 43 the Parties shall cause the Independent Certifier to determine whether the OMSF Works are completed in compliance with the requirements of the Project Agreement, including the Output

Specifications, having regard to the opinions of both Project Co and Contracting Authority.

- (f) If the Independent Certifier determines that the OMSF Works are completed in compliance with the requirements of the Project Agreement, including the Output Specifications, the OMSF Works shall be deemed OMSF Works Complete on the date confirmed by the Independent Certifier, provided that the Independent Certifier may have regard to such determination, but shall not be bound by it, for purposes of the confirmation to be provided pursuant to Section 9.1(e) of this Schedule 43, for the purpose of determining if Substantial Completion has occurred and for purposes of the issuance of the Substantial Completion Certificate pursuant to Section 25 (*Commissioning and Completion*) of the Project Agreement (provided further that the Independent Certifier shall be bound by such determination to the extent no change has occurred since the date thereof).
- (g) If the Independent Certifier determines that the OMSF Works are not completed in compliance with the requirements of the Project Agreement, including the Output Specifications, the OMSF Works Notice shall be deemed rescinded and Project Co may provide a subsequent OMSF Works Notice pursuant to Section 5.1(b) of this Schedule 43.

8.2 Failure to Provide OMSF Works on Time

If the OMSF Works are not OMSF Works Complete on or before the applicable OMSF Works Deadline or if at any time after they are OMSF Works Complete but prior to the applicable OMSF Project Co Infrastructure comprising such OMSF Works becoming part of the Project Co Infrastructure pursuant to Section 2.1(f) of this Schedule 43, the OMSF Works do not meet the requirements of the Project Agreement, then Project Co shall be liable to pay liquidated damages to Contracting Authority as set out in Section 6.1 (*Failure to Deliver Critical Data or Complete Critical Works or OMSF Works on Time*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime.

8.3 OMSF Condition Report

Project Co shall deliver to Contracting Authority, no later than ten (10) Business Days after the date that the OMSF Works are deemed OMSF Works Complete pursuant to Section 8.1(f) of this Schedule 43, a report confirming the condition of the OMSF Works and the relevant OMSF Project Co Infrastructure for review by Contracting Authority pursuant to Schedule 10 – Review Procedure. Upon completion of such review, such condition report shall be the “**OMSF Condition Report**”.

9. OMSF PROJECT CO INFRASTRUCTURE HANDOVER

9.1 OMSF Project Co Infrastructure Handover Date

The following terms shall apply in respect of the handover of OMSF Project Co Infrastructure by Project Co on any OMSF Lands (and for clarity, if there is no Project Co Infrastructure on any OMSF Lands, such OMSF Lands shall be vacated by Project Co in the manner contemplated in Schedule 35 – Lands, and shall not be subject to this Section 9 of this Schedule 43:

- (a) Contracting Authority shall provide to Project Co and the Independent Certifier notice (the “**OMSF Project Co Infrastructure Handover Notice**”) thirty (30) days prior to the applicable OMSF Project Co Infrastructure Handover Date, specifying the OMSF Project Co Infrastructure Handover Date. The OMSF Project Co Infrastructure Handover Notice shall include particulars of a scheduled inspection by Contracting Authority and the Independent Certifier of the applicable OMSF Project Co Infrastructure (the “**OMSF Project Co Infrastructure Handover Inspection**”) which shall take place no earlier than three (3) Business Days after the date of the OMSF Project Co Infrastructure Handover Notice.
- (b) On the date specified in the OMSF Project Co Infrastructure Handover Notice Project Co shall participate, together with Contracting Authority and the Independent Certifier, in the Inspection of the OMSF Project Co Infrastructure, with a view to determining whether the OMSF Works relating to such OMSF Project Co Infrastructure remain OMSF Works Complete and whether the OMSF Project Co Infrastructure is in the condition specified in the OMSF Condition Report. It is acknowledged that pursuant to the North Civil Project Agreement, North Civil Project Co may participate in the OMSF Project Co Infrastructure Handover Inspection.
- (c) Contracting Authority shall notify Project Co and the Independent Certifier within ten (10) Business days of the completion of the OMSF Project Co Infrastructure Handover Inspection whether it is of the opinion that (i) the applicable OMSF Works remain completed in compliance with the requirements of the Project Agreement, including the Output Specifications and (ii) the OMSF Project Co Infrastructure is in the condition specified in the OMSF Condition Report. In determining whether the OMSF Works remain completed in compliance with the requirements of the Project Agreement and whether the OMSF Project Co Infrastructure is in the condition specified in the OMSF Condition Report, Contracting Authority may, but shall not be obligated to, take account of the views of Project Co expressed during the OMSF Project Co Infrastructure Handover Inspection.

- (d) Within five (5) Business Days after Project Co's receipt of Contracting Authority's opinion pursuant to Section 9.1(c) of this Schedule 43 the Parties shall cause the Independent Certifier to determine (i) whether the OMSF Works remain completed in compliance with the requirements of the Project Agreement, including the Output Specifications, and (ii) whether the OMSF Project Co Infrastructure is in the condition specified in the OMSF Condition Report, having regard to the opinions of both Project Co and Contracting Authority.
- (e) The Independent Certifier shall determine whether the OMSF Project Co Infrastructure is in the condition specified in the OMSF Condition Report as at the OMSF Project Co Infrastructure Handover Date.
- (f) If the Independent Certifier determines that the OMSF Project Co Infrastructure is not in the condition specified in the OMSF Condition Report, Project Co shall (i) take such steps and actions (including correcting any OMSF Construction Defects) as required to ensure that the OMSF Project Co Infrastructure is in the condition specified in the OMSF Condition Report, and (ii) provide Notice to Contracting Authority and the Independent Certifier upon such requirements of paragraph (i) being satisfied. Upon receipt of such Notice Contracting Authority and Independent Certifier shall participate in an inspection of the OMSF Project Co Infrastructure, and the terms of Sections 9.1(a)-(f) of this Schedule 43 shall apply and be repeated until such time as the Independent Certifier confirms that the OMSF Project Co Infrastructure is in the condition specified in the OMSF Condition Report.
- (g) Project Co shall vacate, and cause all Project Co Parties to vacate, the applicable OMSF Lands on or before the applicable OMSF Project Co Infrastructure Handover Date (other than as expressly contemplated in the Project Agreement).

9.2 Failure to Meet the OMSF Project Co Infrastructure Handover Date

If the Independent Certifier determines, pursuant to Section 9.1(f) of this Schedule 43, that the OMSF Project Co Infrastructure is not in the condition specified in the OMSF Condition Report as of the OMSF Project Co Infrastructure Handover Date, then Project Co shall be liable to pay liquidated damages to Contracting Authority as set out in Section 6.1 (*Failure to Deliver Critical Data or Complete Critical Works or OMSF Works on Time*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime.

9.3 OMSF Construction Defects During OMSF Project Co North Civil Control Period

- (a) At all times after the applicable OMSF Project Co Infrastructure Handover Date but prior to the applicable North Civil Infrastructure Section Handover Date applicable thereto (the “**OMSF Project Co Infrastructure North Civil Control Period**”), Project Co shall, at its sole cost and expense, correct and Make Good any OMSF Construction Defects (the “**OMSF Works Warranty Work**”).
- (b) In connection with Project Co accessing any North Civil Infrastructure Section during the OMSF Works North Civil Project Co Control Period for the purpose of carrying out OMSF Works Warranty Work, Project Co shall:

- (i) comply with all directions of North Civil Project Co in respect of any matter regarding health and safety at the applicable North Civil Infrastructure Section;
- (ii) coordinate with North Civil Project Co the means of access to the applicable North Civil Infrastructure Section;
- (iii) keep the North Civil Infrastructure Section and all North Civil Project Co Infrastructure thereon in a safe and orderly state in accordance with Good Industry Practice; and
- (iv) not materially interfere with or delay the work of North Civil Project Co or any North Civil Project Co Parties, and not do anything that causes North Civil Project Co to be in contravention of its obligations under the Occupational Health and Safety Act (Ontario), and to promptly cease and desist any activity that results or has a likelihood in resulting in such interference or delay or causes such contravention.

10. WARRANTY CLAIMS AND WARRANTY WORK

- 10.1 Subject to Section 10.3 of this Schedule 43, during each applicable North Civil Infrastructure Warranty Period, Contracting Authority shall (or shall cause North Civil Project Co or an Additional Contractor to) promptly, at its sole cost and expense, correct and Make Good all North Civil Infrastructure Construction Defects and North Civil Infrastructure Construction Latent Defects arising in respect of the North Civil Infrastructure (the “**North Civil Infrastructure Warranty Work**”).
- 10.2 The applicable North Civil Infrastructure Warranty Period shall be extended for a further two (2) years from the date of the last North Civil Infrastructure Warranty Work completed in respect of the applicable North Civil Project Infrastructure. For clarity, any extension of a North Civil Infrastructure Warranty Period for the purposes of a correction shall only apply to the relevant North Civil Infrastructure Warranty Work and not the North Civil Project Infrastructure as a whole nor the whole of any North Civil Infrastructure Section.
- 10.3 Project Co may not make any claim or commence any Dispute asserting that a North Civil Infrastructure Construction Defect exists in respect of any North Civil Project Infrastructure that has become Project Co Infrastructure in accordance with the terms hereof or any damage has been caused to any Project Co Infrastructure as a result of any North Civil Infrastructure Warranty Work at any time after the end of the applicable North Civil Infrastructure Warranty Period.
- 10.4 Project Co shall provide access to the applicable Project Co Infrastructure and Lands to North Civil Project Co and any Additional Contractors, as applicable, and their contractors for the purpose of carrying out North Civil Infrastructure Warranty Work, for the purpose of doing repair work as contemplated in Section 6.2(d)(ii) of this Schedule 43, for the purpose of correcting any Built to Specification and Design Deficiency pursuant to Section 7.3(c)(B)3 of this Schedule 43 and (in case of North Civil Project Co) for purposes of correcting North Civil Infrastructure Minor Deficiencies (all such work referred to as the “**Post Handover Corrective Work**”), subject to Section 10.6 of this Schedule 43, at all times after the applicable North Civil Infrastructure Section Handover Dates, including,

- (a) arranging access to the relevant portion of the Lands during normal working hours;
- (b) arranging for North Civil Project Co or Additional Contractor or their contractors to use utilities available on the Site including power and water and toilet facilities; and
- (c) accommodating reasonable parking for North Civil Project Co or Additional Contractor or their contractors' labor and material deliveries.

10.5 Project Co may, acting reasonably, schedule all North Civil Infrastructure Warranty Work and all other Post Handover Corrective Work at times that are convenient to the Project Operations and do not cause delay in the performance of the Project Operations provided that:

- (a) Project Co shall ensure that its scheduling of any Post Handover Corrective Work pursuant to this Section 10.5 does not, in any way, worsen the relevant North Civil Infrastructure Construction Defect, North Civil Infrastructure Construction Latent Defect or North Civil Infrastructure Minor Deficiency, as applicable; and
- (b) Project Co shall ensure that its scheduling of Post Handover Corrective Work pursuant to this Section 10.5 does not in any way void, or risk voiding, any applicable North Civil Project Co warranty,

in each case where Project Co has (or should reasonably have had) knowledge of such impact.

10.6 In connection with North Civil Project Co accessing any Project Co Infrastructure or Lands after the applicable North Civil Section Handover Date, for purposes of any Post Handover Corrective Work or Post Handover Jet Fan Commissioning, Contracting Authority shall require North Civil Project Co, pursuant to the terms of the North Civil Project Agreement, to:

- (i) comply with all directions of Project Co in respect of any matter regarding health and safety at the applicable North Civil Infrastructure Section;
- (ii) coordinate with Project Co the means of access to the applicable North Civil Infrastructure Section;
- (iii) keep the North Civil Infrastructure Section and all Project Co Infrastructure thereon in a safe and orderly state in accordance with Good Industry Practice; and
- (iv) not materially interfere with or delay the work of Project Co or any Project Co Parties, and not do anything that causes Project Co to be in contravention of its obligations under the Occupational Health and Safety Act (Ontario), and to promptly cease and desist any activity that results or has a likelihood in resulting in such interference or delay or causes such contravention.

10.7 If, in connection with North Civil Project Co accessing any Project Co Infrastructure or Lands after the applicable North Civil Section Handover Date for the purpose of correcting North Civil Infrastructure Minor Deficiencies, Project Co is not able to schedule such Post Handover Corrective Work as contemplated in Section 10.5 of this Schedule 43 in a manner which does not materially interfere with or delay the work of Project Co or any Project Co Party pursuant to the

Project Agreement, Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation.

11. POST HANDOVER TUNNEL ACCESS

11.1 Post Handover Access Tunnels – Jet Fan Commissioning

- (a) Project Co shall grant North Civil Project Co and each North Civil Project Co Party access to each Post Handover Access Tunnel during the applicable Post Handover Tunnel Access Period for the exclusive purpose of conducting Post Handover Jet Fan Commissioning, and shall ensure that Project Co and all Project Co Parties do not materially interfere with such access, all subject to Contracting Authority complying with its obligations pursuant to Section 10.6 of this Schedule 43.
- (b) Contracting Authority shall provide Notice to Project Co of the date on which North Civil Project Co requires access to a Post Handover Access Tunnel for the purpose of conducting Post Handover Jet Fan Commissioning, (the “**Post Handover Tunnel Access Commencement Date**”) provided the Post Handover Tunnel Access Commencement Date shall be no earlier than one-hundred and fifty (150) days after the Critical Works Deadline applicable to the relevant Post Handover Access Tunnel as identified in Appendix B of this Schedule 43 and the applicable period including hours (the “**Post Handover Tunnel Access Period**”) commencing on such date during which such access is required, provided such Notice shall be provided to Project Co no later than thirty (30) days prior to the Post Handover Tunnel Access Commencement Date identified therein.
- (c) Contracting Authority may refer the determination of the Post Handover Tunnel Access Commencement Date and the Post Handover Tunnel Access Period for consideration at the next following meeting of the North Civil Integration Committee pursuant to the North Civil Interface Agreement, in accordance with the terms of Section 3 (*Integration Committee*) of the North Civil Interface Agreement, in which case it shall take into consideration any determination thereof made by the North Civil Integration Committee, provided that the Post Handover Tunnel Access Commencement Date may in no event be earlier than one-hundred and fifty (150) days prior to the applicable Critical Works Deadline.
- (d) If Contracting Authority notifies Project Co that North Civil Project Co requires access to a Post Handover Access Tunnel for purposes of Post Handover Jet Fan Commissioning on a date earlier than the Post Handover Tunnel Access Commencement Date or at a time other than during the Post Handover Tunnel Access Period determined in accordance with this Section 11 of this Schedule 43, or if North Civil Project Co does not vacate the Post Handover Access Tunnel at the end of such Post Handover Tunnel Access Period, Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation.

SCHEDULE 44

SYSTEM EXTENSION

ARTICLE 1. DEFINITIONS

1.1 Definitions

- (a) In this Schedule 44, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 44) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:
- (i) “**Contracting Authority Extension Requirements**” has the meaning given in Section 3.1(c).
 - (ii) “**Extension Contractor**” means a person or persons engaged by Contracting Authority to perform any part of a System Extension, which person may or may not be Project Co.
 - (iii) “**Extension Permits, Licences, Approvals and Agreements**” means all permissions, consents, approvals, certificates, permits, licences, statutory agreements and authorizations needed to complete a System Extension described in the Contracting Authority Extension Requirements in accordance with Applicable Law.
 - (iv) “**Extension Services**” means the operation, maintenance and other work to be performed and services to be provided in respect of a System Extension, including those set out in the Contracting Authority Extension Requirements.
 - (v) “**Extension Work**” means the design, construction, installation, testing, commissioning and completion of a System Extension, including rectification of any Extension Work Minor Deficiencies, and any other activities required to enable or facilitate the commencement of the Extension Services.
 - (vi) “**Extension Work Minor Deficiencies**” means any defects, deficiencies and items of outstanding work which would not materially impair Contracting Authority’s use and enjoyment of the System Extension.
 - (vii) “**Integrated System Extension**” means the development, testing, commissioning and certification (including safety recertification in order to satisfy the System Safety Plan) of additional facilities, infrastructure, electrical and mechanical equipment, computer hardware and systems, including communication and control systems, in order to connect with the Ontario Line Subway System, and any System Extension thereof, such that the Vehicles and all other components of the rapid transit line, as extended by the Integrated System Extension, function together using contiguous track works and an integrated service.
 - (viii) “**Minimum Projected Operations Resiliency Ratio**” means, as of Financial Close, [REDACTED]%, which, for greater certainty, is calculated on a pre-tax basis.

- (ix) “**Minimum Projected Senior DSCR**” means, as of Financial Close, [REDACTED], which, for greater certainty, is calculated on a pre-tax basis.
- (x) “**New System Extension Variation Equity Capital**” has the meaning given in Section 3.2(a)(i)(E).
- (xi) “**Non-Integrated System Extension**” means the development, testing, commissioning and certification (including safety recertification in order to satisfy any safety and security management plan in place for the Ontario Line Subway System, and any System Extension thereof) of additional facilities, infrastructure, electrical and mechanical equipment, computer hardware and systems, including communication and control systems, in order to form a transit system that connects with the Ontario Line Subway System, and any System Extension thereof, at a single interchange point such that the Vehicles and other components of the Ontario Line Subway System, and any System Extension thereof, do not form part of a coherent integrated system with the extended transit system.
- (xii) “**Projected Operations Resiliency Ratio**” has the meaning given in [REDACTED].
- (xiii) “**Projected Senior DSCR**” has the meaning given in the Common Terms and Intercreditor Agreement.
- (xiv) “**Reciprocal Agreement**” has the meaning given in Section 4.1(e).
- (xv) “**System Extension**” means either an Integrated System Extension or a Non-Integrated System Extension.
- (xvi) “**System Extension Financial Model**” means a comprehensive and detailed financial model, which shall be an updated version of the most recent version of the Financial Model approved by Contracting Authority under the Project Agreement and suitable for the purposes for which it will be used in this Schedule 44.
- (xvii) “**System Extension Lenders’ Consent**” has the meaning given in Section 3.4(a)(i).
- (xviii) “**System Extension Variation**” has the meaning given in Section 2.1(c).
- (xix) “**System Extension Variation Funding**” has the meaning given in Section 3.2(b)(i).

ARTICLE 2. SYSTEM EXTENSION

2.1 System Extension General

- (a) Contracting Authority shall be entitled to carry out or procure the carrying out of any System Extension at any time during the Project Term and Project Co shall not be entitled to object or prevent the carrying out of any such System Extension, subject to Schedule 22 – Variation Procedure.

- (b) Project Co shall make available those parts of the Metrolinx Lands or the Ontario Line Subway to enable an Extension Contractor to connect the Ontario Line Subway with the System Extension.
- (c) Contracting Authority may pursue any System Extension through (i) one or more Extension Contractors, (ii) a Variation with Project Co in accordance with this Schedule 44 (a “**System Extension Variation**”), or (iii) a combination of both. In the event Contracting Authority elects to engage an Extension Contractor, Contracting Authority may decide which persons are eligible for consideration, and such persons may or may not include Project Co or any of the Project Co Parties, in Contracting Authority’s sole discretion, and Contracting Authority may use any form of competitive procurement or other method of retaining an Extension Contractor that Contracting Authority, in its sole discretion, decides.
- (d) If Contracting Authority elects to pursue a System Extension Variation with Project Co, the Parties shall follow the provisions of Schedule 22 – Variation Procedure except as otherwise provided in this Schedule 44 in respect of such System Extension. Project Co acknowledges and agrees that Contracting Authority’s decisions pursuant to this Section 2.1 are subject to approval by Contracting Authority’s boards of directors and, in some circumstances, the Province, and shall be subject to Applicable Law.
- (e) Contracting Authority may, in its sole discretion, either elect to (A) procure a System Extension through consolidated or separate procurements or (B) pursue a System Extension through System Extension Variations, as the case may be, for the performance of Extension Work and/or Extension Services.
- (f) For clarity, Contracting Authority may pursue a System Extension at any time or times pursuant to any of the options set out in this Section 2.1, in its sole discretion. In the event Contracting Authority has elected to pursue a System Extension in accordance with this Section 2.1, Contracting Authority may, at any time prior to entering into a binding agreement in respect of the System Extension, in its sole discretion, elect to cease pursuing the System Extension under the chosen option and pursue the same System Extension under a different process.
- (g) Additional Cars for any System Extension shall be purchased in accordance with Schedule 38 – Cars.

ARTICLE 3. SYSTEM EXTENSION VARIATION

3.1 System Extension Variation between Contracting Authority and Project Co of Extension Work and/or Extension Services

- (a) In the event that Contracting Authority elects to implement all or part of a System Extension through a System Extension Variation pursuant to this Section 3.1:
 - (i) Contracting Authority shall, as soon as practicable and as a courtesy to Project Co only, provide Notice to Project Co of Contracting Authority’s intention to deliver to Project Co a Variation Enquiry in respect of such System Extension Variation. For greater certainty, following the provision of such Notice, Contracting Authority shall not have any obligation or liability under this Project Agreement to deliver such Variation Enquiry;

- (ii) notwithstanding the provisions of Schedule 22 – Variation Procedure:
 - (A) the fifteen (15) Business Day time period in Section 1.4(a) (*Delivery Estimate*) of Schedule 22 – Variation Procedure shall be one-hundred and fifty (150) days;
 - (B) the fifteen (15) Business Day time period in Section 1.6(d) (*Estimate Requirements*) of Schedule 22 – Variation Procedure shall be sixty (60) Business Days or such longer period as the Parties agree, acting reasonably;
 - (C) the ten (10) Business Day time period in Section 1.6(f) (*Estimate Requirements*) of Schedule 22 – Variation Procedure shall be twenty (20) Business Days or such longer period as the Parties agree, acting reasonably;
 - (D) the overhead and profit rates as provided in Appendix B (*Calculation of Overhead and Profit*) and Appendix C (*Calculation of Overhead For Purposes of Pandemic and Epidemic Change In Law Compensation*) of Schedule 22 – Variation Procedure do not apply to the System Extension Variation. Contracting Authority and Project Co will agree to reasonable overhead and profit rates applicable for any System Extension Variation; and
 - (E) Contracting Authority and Project Co may agree to reasonable fees associated with Project Co obtaining the System Extension Lenders’ Consent.
- (b) The Variation Directive requirements pursuant to Section 1.12 (*Variation Directive*) of Schedule 22 – Variation Procedure shall not apply in respect of any System Extension Variation.
- (c) In addition to the Variation Enquiry, Contracting Authority shall, as soon as practicable, deliver a proposal that includes:
 - (i) a draft heads of terms agreement for the Extension Work and/or the Extension Services, as applicable;
 - (ii) draft output specifications and commissioning processes for the System Extension;
 - (iii) draft “term sheet level” parameters of the payment mechanism to be used in respect of the Extension Work and/or the Extension Services; and
 - (iv) guidelines with respect to the structure of construction or permanent financing to be secured by Project Co,(collectively, the “**Contracting Authority Extension Requirements**”).
- (d) As part of the Estimate prepared in accordance with Section 1.6 (*Estimate Requirements*) of Schedule 22 – Variation Procedure and Section 3.1(a)(ii)(A), Project Co shall deliver to Contracting Authority:
 - (i) a detailed cost estimate and construction schedule in respect of the Extension Work and/or the Extension Services, as applicable;

- (ii) a detailed description of any impact the Extension Work and/or the Extension Services, as applicable, would have on Project Co's activities under the Project Agreement, including, if applicable, any schedule impact on the provision of the Ontario Line Subway System, and any System Extension thereof, and third party infrastructure and completion of the Works;
- (iii) a detailed description of any impact on expected usage of utilities for the current Contract Year and subsequent Contract Years;
- (iv) any contemplated amendments to the Project Agreement to coordinate the Extension Work and/or the Extension Services, as applicable, with Project Co's obligations in respect of the Project Operations;
- (v) the expected Direct Costs of Project Co and each Subcontractor that will be incurred in respect of the Extension Work and/or the Extension Services, as applicable, including:
 - (A) any capital expenditure that will be incurred; and
 - (B) any other costs that will be incurred, reduced or avoided, and the impact on Project Co's cash flows from incurring, reducing or avoiding such costs;
- (vi) preliminary terms of the financing structure specified in the Contracting Authority Extension Requirements;
- (vii) Project Co's confirmation that the projected internal rate of return on any equity capital required in respect of the Extension Work and/or the Extension Services, as applicable, will be the Base Case Equity IRR;
- (viii) Project Co's preliminary indication of the potential increase or decrease, if any, of the Monthly Service Payments, with such amount calculated by reference to the relevant parts of the Financial Model to demonstrate the impact of the Extension Work and/or the Extension Services, as applicable; and
- (ix) any Extension Permits, Licences, Approvals and Agreements that must be obtained or any Permits, Licences, Approvals and Agreements amended for the Extension Work and/or the Extension Services, as applicable, to be implemented,

in each case, together with such supporting information and justification as is reasonably required. All materials submitted by Project Co will be subject to a detailed review where Contracting Authority may, acting reasonably, question any of the submitted documents or consider that Project Co has not provided sufficient materials to justify its position.

- (e) In preparing Project Co's Estimate, Project Co shall include sufficient information to demonstrate to Contracting Authority's satisfaction, acting reasonably, that:
 - (i) Project Co has used or has obliged each Subcontractor (or will oblige any Subcontractor not yet selected) to use commercially reasonable efforts, including the use of competitive quotes or tenders to minimize costs in respect of the System Extension;

- (ii) except as otherwise set out herein, all costs of Project Co and each Subcontractor are limited to Direct Costs;
 - (iii) all costs of completing the Extension Work and/or the Extension Services, as applicable, including Capital Expenditures, reflect labour rates applying in the open market to providers of services similar to those required for the Extension Work and/or the Extension Services, as applicable;
 - (iv) Project Co has mitigated or will mitigate the impact of the Extension Work and/or the Extension Services, as applicable, including on any Project Works Schedule, the performance of the activities within the Project Operations, the expected usage of utilities, and the Direct Costs to be incurred; and
 - (v) Project Co will use commercially reasonable efforts to obtain the best value for money when procuring any work, services, supplies, materials or equipment required in respect of the Extension Work and/or the Extension Services, as applicable, and will comply with all Good Industry Practice in relation to any such procurement, to a standard no less than Project Co would apply if all costs incurred were to its own account without recourse to Contracting Authority, including using commercially reasonable efforts to mitigate such costs.
- (f) As soon as practicable after the receipt of Project Co's Estimate, Contracting Authority and Project Co shall, in good faith and acting reasonably, negotiate the terms of the binding agreement for the performance of the Extension Work and/or Extension Services, as applicable, as well as any necessary amendments to the Project Agreement and any relevant Project Documents, based on the contents of the Contracting Authority Extension Requirements and Project Co's Estimate.

3.2 Additional System Extension Variation Requirements

- (a) In the event that Contracting Authority elects to implement a System Extension Variation pursuant to Section 3.1, then:
- (i) without prejudice or limitation to any provision of Schedule 22 – Variation Procedure (including, for clarity, any provision of Section 1.5(a) (*Project Co Grounds for Objection*) of Schedule 22 – Variation Procedure), the following additional requirements must be satisfied prior to Contracting Authority and Project Co agreeing to an Estimate regarding such System Extension pursuant to Section 1.6(d) (*Estimate Requirements*) of Schedule 22 – Variation Procedure or otherwise agreeing to such System Extension Variation:
 - (A) as part of the Variation, Contracting Authority shall, subject to and in accordance with Sections 3.2(b) to 3.2(f) (inclusive), agree to provide Project Co any System Extension Variation Funding for the purpose of maintaining:
 - (I) the Projected Senior DSCR in the System Extension Financial Model for each relevant period during the remainder of the Project Term at a level that is no less than the Minimum Projected Senior DSCR set out in the most recent version of the Financial Model approved by Contracting Authority under the Project Agreement;

- (II) the Projected Operations Resiliency Ratio in the System Extension Financial Model for each relevant period during the remainder of the Project Term at a level that is no less than the Minimum Projected Operations Resiliency Ratio set out in the most recent version of the Financial Model approved by Contracting Authority under the Project Agreement;
 - (III) the Projected Senior DSCR in the System Extension Financial Model for each relevant period during the remainder of the Project Term at a level that is up to, but no more than, the corresponding Projected Senior DSCR set out in the most recent version of the Financial Model approved by Contracting Authority under the Project Agreement; and
 - (IV) the Projected Operations Resiliency Ratio in the System Extension Financial Model for each relevant period during the remainder of the Project Term at a level that is up to, but no more than, the corresponding Projected Operations Resiliency Ratio set out in the most recent version of the Financial Model approved by Contracting Authority under the Project Agreement;
- (B) the System Extension Variation shall not result in a downgrade, qualification or withdrawal of a rating or application of any negative outlook by a rating agency on any of the then current ratings of Project Co's Senior Debt Amount provided by any of the rating agencies described in the Lending Agreements;
 - (C) at the time the System Extension Variation is contemplated, the Parties are of the reasonable opinion that the System Extension Variation shall not result in a material adverse change to the risk profile of the Project, provided that Project Co shall be informed by the reasonable opinion of the Lenders' Consultant in arriving at Project Co's opinion;
 - (D) the System Extension Variation shall not require any change to the Scheduled Substantial Completion Date or the Scheduled Final Completion Date, unless otherwise agreed by the Parties; and
 - (E) unless otherwise agreed by the Parties, if any new or additional financing will be required by Project Co to implement the System Extension Variation, then, in addition to the requirements of Section 1.6(a)(vii)(B) (*Estimate Requirements*) of Schedule 22 – Variation Procedure, at Contracting Authority's request, Project Co shall exert commercially reasonable efforts to obtain one or more offers in respect of such financing, including, if required by Contracting Authority, an offer of new or additional equity capital as part of such financing ("**New System Extension Variation Equity Capital**"), which offers shall, subject to Sections 3.2(d) to 3.2(f) (inclusive), be on terms and conditions reasonably satisfactory to Project Co and Contracting Authority.

- (b) Unless and until a Variation Enquiry in respect of a System Extension Variation is withdrawn by Contracting Authority pursuant to Schedule 22 – Variation Procedure, Contracting Authority and Project Co shall, in good faith and acting reasonably and without any unreasonable delay, work diligently and cooperatively to:
- (i) subject to Section 3.2(c), determine and agree to the amount of, and the other terms and conditions pursuant to which, Contracting Authority shall provide any necessary funding to Project Co in order to satisfy the requirements of Section 3.2(a)(i)(A), which shall be paid by Contracting Authority to Project Co by way of adjustments to the Monthly Service Payment payable pursuant to Schedule 20 – Payment Mechanism (such adjustments being based on the most recent version of the Financial Model approved by Contracting Authority under the Project Agreement) (“**System Extension Variation Funding**”). Notwithstanding anything to the contrary in this Schedule 44, Contracting Authority shall have no obligation or liability to provide, in whole or in part, any System Extension Variation Funding in the event that Project Co does not obtain any New System Extension Variation Equity Capital in respect of the System Extension Variation; and
 - (ii) ensure that the proposed terms of the System Extension Variation satisfy the requirements of Sections 3.2(a)(i)(B) to 3.2(a)(i)(E) (inclusive).
- (c) If any System Extension Variation Funding is required pursuant to Section 3.2(a)(i)(A):
- (i) Project Co shall (A) demonstrate, to the satisfaction of Contracting Authority, that such funding is no greater than the minimum amount required to satisfy Section 3.2(a)(i)(A), including by using the optimization procedures in the draft System Extension Financial Model; and (B) provide reasonably detailed calculations in support thereof to Contracting Authority; and
 - (ii) for greater certainty, no such funding shall be in duplication of any amounts paid or to be paid by Contracting Authority pursuant Schedule 22 – Variation Procedure as a result of or in connection with the System Extension Variation.
- (d) Notwithstanding Section 1.6(a)(viii) (*Estimate Requirements*) of Schedule 22 – Variation Procedure, in the event that New System Extension Variation Equity Capital is required by Contracting Authority pursuant to Section 3.2(a)(i)(E), then, prior to Contracting Authority and Project Co agreeing to an Estimate regarding such System Extension pursuant to Section 1.6(d) (*Estimate Requirements*) of Schedule 22 – Variation Procedure or otherwise agreeing to such Variation, Project Co shall exert reasonable commercial efforts to obtain an offer for the New System Extension Variation Equity Capital from the Equity Provider and other potential equity providers at a projected rate of return such that all equity capital for the Project (including such New System Extension Variation Equity Capital) in the proposed System Extension Financial Model will be equal to or less than the Base Case Equity IRR.
- (e) If Project Co fails to obtain an offer for New System Extension Variation Equity Capital in accordance with Section 3.2(d) and can demonstrate to the reasonable satisfaction of Contracting Authority that (i) it has exerted the reasonable commercial efforts described in Section 3.2(d); and, unless otherwise agreed by Contracting Authority, in its sole discretion, (ii) market conditions have

materially changed since Financial Close (including as a result of changes in benchmark interest rates since Financial Close) such that, based on the projected internal rate of return of analogous market transactions (including any relevant secondary market transactions) in and around the time of the System Extension Variation, the projected internal rate of return for New System Extension Variation Equity Capital is greater than the Base Case Equity IRR, then, in Contracting Authority's sole discretion, Contracting Authority may direct Project Co to exert reasonable commercial efforts to obtain an offer for New System Extension Variation Equity Capital at a projected internal rate of return greater than the Base Case Equity IRR, which, (A) shall be subject to the approval of Contracting Authority, in its sole discretion; and (B) shall require Project Co to provide evidence to the reasonable satisfaction of Contracting Authority that any increase in the projected internal rate of return for such New System Extension Variation Equity Capital above the Base Case Equity IRR is consistent with changes in benchmark interest rates since Financial Close.

- (f) If Project Co fails to obtain an offer for New System Extension Variation Equity Capital,
- (i) in accordance with Section 3.2(d) and the Parties do not proceed in accordance with Section 3.2(e); or
 - (ii) in accordance with Section 3.2(d), the Parties proceed in accordance with Section 3.2(e), and Project Co does not obtain an offer for New System Extension Variation Equity Capital in accordance with Section 3.2(e), (including as a result of, in accordance with Section 3.2(e), Project Co failing to satisfy Section 3.2(e)(i) or Section 3.2(e)(ii), Contracting Authority not directing Project Co to obtain such offer for New System Extension Variation Equity Capital or Contracting Authority not approving such offer for New System Extension Variation Equity Capital),

then Contracting Authority shall no longer require Project Co to obtain New System Extension Variation Equity Capital in connection with the System Extension Variation, and, in such an event, Contracting Authority and Project Co (both Parties working diligently and cooperatively and acting reasonably, in good faith and without any unreasonable delay) shall exert commercially reasonable efforts to identify and agree upon an alternative funding approach(es), amounts, terms and conditions pursuant to which Contracting Authority shall provide Project Co as part of the Variation Confirmation any necessary funding other than System Extension Variation Funding for Project Co to maintain the ratios described in Section 3.2(a)(i)(A).

3.3 System Extension Financial Model and System Extension Variation Information

- (a) As soon as practicable following Contracting Authority's delivery of the Variation Enquiry in respect of the System Extension Variation but by no later than the date that is the later of (i) the date of the Parties' agreement to any System Extension Variation Funding pursuant to Section 3.2(b) or any alternative funding pursuant to Section 3.2(f); and (ii) the date Project Co delivers an Estimate regarding the System Extension Variation, Project Co shall provide Contracting Authority a copy of the proposed System Extension Financial Model, which shall be subject to the approval of Contracting Authority. For greater certainty, the System Extension Financial Model shall replace the Financial Model following Project Co's obtainment of such approval and on the date the Variation Confirmation in respect of the System Extension becomes effective pursuant to Schedule 22 – Variation Procedure, and, from and after such date during the remainder of the Project Term,

the System Extension Financial Model shall, for the purposes of the Project Agreement, be the Financial Model.

- (b) In the event that Project Co proposes to introduce into the proposed System Extension Financial Model a new item or procedure (including any new optimization procedure) that was not included in the most recent version of the Financial Model approved by Contracting Authority under the Project Agreement, then Project Co shall propose such change to Contracting Authority and Contracting Authority may, in its sole discretion, accept or reject the proposed change.
- (c) Contracting Authority shall, prior to the date the Variation Confirmation in respect of the System Extension Variation becomes effective pursuant to Schedule 22 – Variation Procedure, have unrestricted rights of audit over the System Extension Financial Model and any documentation used by Project Co in connection with the System Extension Variation. Project Co shall promptly, and, in any event, within five (5) Business Days of receiving a written request from Contracting Authority, provide any information in relation to the proposed System Extension Financial Model or such documentation as Contracting Authority may reasonably require.

3.4 Failure to Obtain Lenders' Consent

- (a) In the event that:
 - (i) a System Extension Variation requires the consent or approval of the Lenders under the Lending Agreements, including, for greater certainty, the approval or consent of the Lenders to any amendment, supplement or other modification to the Project Agreement or to the Project Documents required as a consequence of the Variation, (the “**System Extension Lenders' Consent**”);
 - (ii) no Project Co Event of Default, Contracting Authority Event of Default or Enforcement Event (as defined in the Lenders' Direct Agreement) has occurred and is continuing;
 - (iii) the requirements of Schedule 22 – Variation Procedure, Section 3.2(a) and Sections 3.2(d) to 3.2(f) (inclusive) have been satisfied in respect of such Variation (other than the obtainment by Project Co of the System Extension Lenders' Consent); and
 - (iv) Contracting Authority has approved the System Extension Financial Model pursuant to Section 3.3(a),

then, notwithstanding anything to the contrary in Schedule 22 – Variation Procedure, Project Co shall have one-hundred and eighty (180) calendar days (or such longer period of time agreed by the Parties) from the later of (A) the date the Estimate in respect of the System Extension Variation was either agreed to by Contracting Authority and Project Co; or (B) the date any Dispute in respect thereof was determined in accordance with Schedule 27 – Dispute Resolution Procedure, which may be conditional upon the obtainment by Project Co of the System Extension Lenders' Consent or a waiver from the Lenders of the requirement for the System Extension Lenders' Consent under the Lending Agreements, in order for Project Co to complete either the obtainment of the System Extension Lenders' Consent or a waiver from the Lenders of the requirement for the System Extension Lenders' Consent under the Lending Agreements.

- (b) Subject to Section 3.4(c), in the event that Project Co fails to obtain from all Lenders the System Extension Lenders' Consent or a waiver of the requirement for the System Extension Lenders' Consent under the Lending Agreements by the expiry of the period set out in Section 3.4(a), then, upon the delivery of Notice to Project Co and without prejudice or limitation to any other rights or remedies of Contracting Authority under the Project Agreement, Contracting Authority shall, in its sole discretion, be permitted to pay to Project Co amounts necessary to, and to cause Project Co to, (A) prepay in full, without any penalty, "make whole" or other payments, fees, costs or expenses, other than as explicitly provided in (II) below, (I) the outstanding principal amount of debt funded by each of the Lenders that refused to or otherwise failed to provide a consent or approval as part of the System Extension Lenders' Consent under the Lending Agreements on or prior to the date of such Notice (collectively, the "**Prepaid Lenders**"); (II) any net swap breakage costs payable to any applicable Hedge Provider(s) under a Hedging Agreement(s), which amount shall not include any profit element of any swap margin in the computation thereof; and (III) all interest accrued thereon at that time; and (B) cause the cancellation in full under the Lending Agreements of each of the Prepaid Lenders' remaining funding commitments under the Lending Agreements. If Contracting Authority exercises its rights under this Section 3.4(b), the Prepaid Lenders shall be deemed to have released Project Co from all liabilities and obligations under the Lending Agreements and to have waived all rights against Project Co under the Lending Agreements immediately upon the receipt of its prepayment of outstanding principal and interest. Notwithstanding the foregoing, Contracting Authority shall not be permitted to exercise its rights under this Section 3.4(b) unless Contracting Authority agrees with Project Co to provide funds to Project Co in amounts equal to and at the same time and in the same manner as the outstanding commitment under the Lending Agreements which each of the Prepaid Lenders would have otherwise been obligated to fund to Project Co under the Lending Agreements but for such prepayment and cancellation. Project Co acknowledges and agrees that in the event that Contracting Authority exercises its rights under this Section 3.4(b), any amount so paid by Contracting Authority to Project Co pursuant hereto shall only be used by Project Co for the purposes set forth in this Section 3.4(b). Without prejudice or limitation to any other provision of this Section 3.4(b), if Contracting Authority exercises its rights under this Section 3.4(b), Contracting Authority, Project Co and the remaining Lenders, each party acting reasonably and without any unreasonable delay, will enter into a co-funding agreement to implement the intent of this Section 3.4(b) on reasonable commercial terms.
- (c) Before proceeding under Section 3.4(b), Contracting Authority will require that Project Co determine (I) the identity of each of the Prepaid Lenders; and (II) the aggregate prepayment amount determined in accordance with Section 3.4(b), and provide such information to Contracting Authority in writing. Contracting Authority may then, in its sole discretion, determine not to proceed under Section 3.4(b), and, in such an event, upon Notice to Project Co, Contracting Authority may, in its sole discretion and without prejudice or limitation to any other rights or remedies of Contracting Authority under the Project Agreement, proceed to either:
- (i) if the System Extension Variation shall be implemented prior to the Substantial Completion Date, notwithstanding anything to the contrary in the Project Agreement (including, for clarity, in Schedule 22 – Variation Procedure), remove the Project Co Services scope of work from the Project and the Project Agreement by way of a Variation, while allowing for the completion of the Works under the Project Agreement. For greater certainty,

nothing in this Section 3.4(c)(i) shall prejudice or limit Section 1.1(xiv) (*Direct Cost*) of Appendix A of Schedule 22 – Variation Procedure; or

- (ii) if the System Extension Variation shall be implemented after the Substantial Completion Date, following the date Contracting Authority pays the Substantial Completion Payment to Project Co in accordance with Section 34.1(b) (*Payments During the Construction Period*) of the Project Agreement, terminate the Project Agreement by written Notice to Project Co having immediate effect and, in such an event, Contracting Authority shall be obligated to pay to Project Co an amount equal to the compensation Project Co would be entitled to receive pursuant to and in accordance with Schedule 23 – Compensation on Termination if Contracting Authority were to terminate the Project Agreement as a result of a Project Co Event of Default pursuant to Section 45 (*Project Co Default*) of the Project Agreement, save and except that, notwithstanding anything to the contrary in Schedule 23 – Compensation on Termination, such compensation shall include amounts which, if paid on the Termination Date, are necessary for Project Co to pay (A) the Lenders an amount equal to the outstanding principal amount of debt funded by the Lenders under the Lending Agreements on or prior to such date together with any net swap breakage costs payable to any applicable Hedge Provider(s) under a Hedging Agreement(s), which amount shall not include any profit element of any swap margin in the computation thereof, and all interest accrued thereon at that time but without any penalty, “make whole” or other payments, fees, costs or expenses, other than as explicitly provided above; and (B) the Equity Provider an amount equal to the Equity Capital as at Financial Close advanced to Project Co in cash on or prior to the Termination Date less all dividends and other Distributions paid on or made in respect of such Equity Capital on or before the Termination Date (where such amount is negative it shall be deemed instead to be zero). Project Co acknowledges and agrees that in the event that Contracting Authority exercises its rights under this Section 3.4(c)(ii), any amounts described in Sections 3.4(c)(ii)(A) and 3.4(c)(ii)(B) so paid by Contracting Authority to Project Co shall only be used by Project Co for the purposes set out in Sections 3.4(c)(ii)(A) and 3.4(c)(ii)(B).
- (d) In the event that a System Extension Variation requires a System Extension Lenders’ Consent, the Parties agree that, notwithstanding anything to the contrary in Schedule 22 – Variation Procedure (including, for greater certainty, Section 1.8(a) (*Variation Confirmation*) and Section 1.8(c) (*Variation Confirmation*) of Schedule 22 – Variation Procedure), Contracting Authority shall not be required to issue a Variation Confirmation in respect of the System Extension Variation or be deemed to have withdrawn such Variation until the date that is thirty (30) Business Days following the date that it receives and delivers Notice to Project Co that it is satisfied, in its sole discretion, with the System Extension Lenders’ Consent or the waiver from the Lenders of the requirement for the System Extension Lenders’ Consent under the Lending Agreements. For greater certainty, this Section 3.4(d) is without prejudice or limitation to Contracting Authority’s right to withdraw the System Extension Variation at any time pursuant to and in accordance with Schedule 22 – Variation Procedure.
- (e) Project Co represents, warrants and agrees that (i) the provisions of this Article 3 are permitted by and are fully reflected in the Lending Agreements; and (ii) this Article 3 has been acknowledged in writing by the parties to the Lending Agreements within the Lending Agreements.

ARTICLE 4. PROJECT CO COOPERATION

4.1 Project Co Cooperation with Contracting Authority and Interface with an Extension Contractor

- (a) In the event Contracting Authority pursues all or any part of a System Extension with any one or more Extension Contractors, Project Co shall, within a reasonable period of time, use commercially reasonable efforts to provide such assistance to Contracting Authority as Contracting Authority may request, acting reasonably. Such assistance shall include:
- (i) information which Contracting Authority may reasonably require concerning the Ontario Line Subway System, and any System Extension thereof, and the third party infrastructure, or the operation, maintenance and rehabilitation of the Ontario Line Subway System, and any System Extension thereof, and the third party infrastructure necessary for the purposes of Contracting Authority procuring or entering into, or considering procuring or entering into, contracts for the design, construction, operation and/or maintenance of any System Extension and in particular, but without limitation to, for the purposes of compiling and making available any information memorandum, invitation to tender, technical specifications, draft contract or other document connected with such purposes;
 - (ii) the development of technical specifications in respect to the Extension Work and/or the Extension Services, as applicable, and the evaluation of designs proposed by prospective Extension Contractors to ensure compatibility with the OMSF, electrical and mechanical equipment, Vehicles already supplied, and other items as specified by Contracting Authority;
 - (iii) permitting Contracting Authority access to relevant information with respect to the Ontario Line Subway System, and any System Extension thereof, electrical and mechanical equipment, Vehicles already supplied, and other items as specified by Contracting Authority;
 - (iv) advising Contracting Authority on potential modifications to the Extension Work and/or the Extension Services, as applicable, that could result in cost savings or other benefits to Contracting Authority. If Project Co identifies any cost savings to the Project Co Services or the Extension Services, such savings shall be shared equally by Contracting Authority and Project Co by way of an adjustment to the Monthly Service Payments;
 - (v) the development of an interface protocol among Contracting Authority, Project Co and the Extension Contractors;
 - (vi) liaising with Extension Contractors, or any of their consultants and advisors, who are performing any aspect of the design, construction, maintenance or operation of any System Extension, as applicable, in accordance with the reasonable requests of Contracting Authority or any Extension Contractor; and
 - (vii) subject to the prior reasonable Notice and reasonable requirements of Project Co with regard to health and safety, cooperation and coordination with any Extension Contractor, and any of its consultants and advisers, who has been given access by Contracting

Authority to those parts of the Ontario Line Subway System, and any System Extension thereof, and/or third party infrastructure to which access is required for the efficient carrying out of such design, construction, maintenance or operation of any System Extension by any Extension Contractor.

Contracting Authority and Project Co's respective obligations under this Section 4.1(a) shall be subject to and in accordance with Schedule 37 – Intellectual Property.

- (b) Contracting Authority shall pay Project Co reasonable consulting fees in respect of the assistance Project Co provides pursuant to this Section 4.1, and in accordance with requirements of Appendix A (*Calculation of Direct Cost*) of Schedule 22 – Variation Procedure. Such consulting fees shall be paid within thirty (30) days of receipt of an invoice from Project Co. Each Project Co invoice shall set out, in reasonable detail, the nature of assistance provided in the invoice period, the personnel involved and the time committed by Project Co personnel in respect of such assistance.
- (c) As soon as practicable after Contracting Authority provides Notice to Project Co that Contracting Authority has reached a binding agreement with an Extension Contractor, Contracting Authority and Project Co shall meet with the Extension Contractor and, in good faith and acting reasonably, negotiate and execute an interface agreement and/or construction procedures agreement to govern matters relating to the coordination of Project Co's activities in respect of the Project Operations and the Extension Contractor's activities relating to the Extension Work and/or the Extension Services, as applicable. Contracting Authority shall also include, in its agreement with any Extension Contractor, an obligation on the Extension Contractor to negotiate with Contracting Authority and Project Co the terms of the interface agreement and/or construction procedures agreement in good faith and acting reasonably.
- (d) In the event of an Integrated System Extension, the agreement to be negotiated among Contracting Authority, Project Co and each Extension Contractor pursuant to Section 4.1(c) shall include provisions related to:
 - (i) the rights and obligations of Contracting Authority, Project Co and each Extension Contractor in respect of the physical linking, testing and commissioning, safety and system certification of any System Extension and the third party infrastructure, and the Integrated System Extension operations on the Ontario Line Subway System, and any System Extension thereof, at the same time as Project Co;
 - (ii) commissioning requirements with respect to additional Vehicles that are required as a result of the Integrated System Extension and the extended subway line;
 - (iii) a protocol with respect to the testing of the entire Ontario Line Subway System, any System Extension thereof, and Integrated System Extension to ensure integration and ability for the operation of the entire subway line as contemplated in the Output Specifications and the final output specifications developed in respect of the Integrated System Extension; and

- (iv) the sharing of the OMSF if Contracting Authority so requires in which case Project Co shall be entitled to a reasonable fee as negotiated between the parties in good faith and acting reasonably.
- (e) In the event of a Non-Integrated System Extension, Contracting Authority, Project Co and the Extension Contractors shall execute a reciprocal agreement in a form to be agreed to among the parties acting reasonably and negotiating in good faith (the “**Reciprocal Agreement**”). The Reciprocal Agreement shall govern the rights of the parties in respect of the station, infrastructure or other location on the Ontario Line Subway System, and any System Extension thereof, which has an interchange point with the Non-Integrated System Extension, and shall govern matters such as:
 - (i) reciprocal easements or other rights-of-access;
 - (ii) appropriate cost sharing arrangements;
 - (iii) sharing of information;
 - (iv) decision making process regarding matters affecting the interchange among the Ontario Line Subway System, any System Extension thereof, and the Non-Integrated System Extension; and
 - (v) mutual repair obligations of structural or other elements in common among the Ontario Line Subway System, any System Extension thereof, the third party infrastructure and the Non-Integrated System Extension.
- (f) This Article 4 is without prejudice to Contracting Authority’s ability to instruct a Variation in accordance with Schedule 22 – Variation Procedure.

SCHEDULE 45

GEOTECHNICAL BASELINE REPORT

1. DEFINITIONS

In this Schedule 45, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 45) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- 1.1 “**Geotechnical Baseline Statements**” means the statements embedded in the Project GBR that are identified in bold and italics typeface within square brackets;
- 1.2 “**Geotechnical Testing**” has the meaning given in Section 2.3(a)(iii);
- 1.3 “**Geotechnical Testing Boreholes**” has the meaning given in Section 2.4(a)(vi);
- 1.4 “**Geotechnical Testing Requirements**” has the meaning given in Section 2.4(a);
- 1.5 “**Geotechnical Testing Results**” has the meaning given in Section 2.3(a)(iv);
- 1.6 “**Geotechnical Testing Zone**” has the meaning given in Section 2.4(a)(v); and
- 1.7 “**Project GBR**” has the meaning given in Section 2.1(a).

2. GEOTECHNICAL BASELINE REPORT AND GEOTECHNICAL BASELINE STATEMENTS

2.1 Project GBR

- (a) For the purposes of the Project Agreement, “**Project GBR**” shall mean the report entitled [REDACTED] attached as Appendix A to this Schedule 45.
- (b) Project Co acknowledges and agrees that the Geotechnical Baseline Statements contained in the Project GBR are contractually binding, and that all other information in the Project GBR is Background Information only.
- (c) For clarity, notwithstanding that the Project GBR is a Schedule to the Project Agreement, only the Geotechnical Baseline Statements contained in the Project GBR can be used by Project Co to establish a Differing Geotechnical Site Condition or Contracting Authority Contamination as described in Section 2.3.

2.2 Geotechnical Baseline Statements

- (a) The Parties acknowledge and agree that the Geotechnical Baseline Statements shall be interpreted in accordance with the following:

- (i) Geotechnical Baseline Statements are standalone and independent statements and do not rely upon the remaining portions of the Project GBR to either interpret, support, or provide context to a Geotechnical Baseline Statement;
- (ii) if a table, figure or footnote is referenced in the Geotechnical Baseline Statement, the referenced table, figure or footnote is considered to be part of the Geotechnical Baseline Statement;
- (iii) any reference to the stratigraphic profile in a Geotechnical Baseline Statement is considered to be a reference to the computer aided design and drafting (CADD) version of the stratigraphic profile; and
- (iv) in the event of ambiguities, conflicts or inconsistencies between or among one or more of the Geotechnical Baseline Statements, or between or among any Geotechnical Baseline Statement and any other information set out in the Project GBR or other Background Information, the following shall apply:
 - (A) any Geotechnical Baseline Statement(s) establishing a higher risk or level of variability in the applicable Site Condition shall govern and take precedence over all Geotechnical Baseline Statement(s) that establish a lower risk or variability in the applicable Site Conditions; and
 - (B) the Geotechnical Baseline Statements shall govern and take precedence over any other information set out in the Project GBR or other Background Information.

2.3 Evidence for Differing Geotechnical Site Condition and Contamination Claims

- (a) In order to establish whether:
 - (i) a Geotechnical Site Condition experienced by Project Co is a Differing Geotechnical Site Condition pursuant to Section 16.2 (*Geotechnical Site Conditions*) of the Project Agreement; or
 - (ii) Contamination encountered by Project Co is Contracting Authority Contamination pursuant to Section 16.3 (*Contamination*) of the Project Agreement on the basis that it is Contamination that was not described in a Geotechnical Baseline Statement,

for the purposes of a claim for a Delay Event or Compensation Event pursuant to Section 16.2(c) (*Geotechnical Site Conditions*) and Section 16.3(g) (*Contamination*) of the Project Agreement, respectively, Project Co shall provide Contracting Authority with the following information:

- (iii) written evidence of all investigations consisting of subsurface explorations, geological mapping in conjunction with photographs and videos, or a combination thereof, laboratory and field test results, and other construction field reports

conducted by Project Co in accordance with Section 2.4 to this Schedule 45 (the “**Geotechnical Testing**”);

- (iv) comparison of the results of the Geotechnical Testing (the “**Geotechnical Testing Results**”) with the applicable Geotechnical Baseline Statement using statistical and analytical methods, and graphics (including stratigraphic profiles and contours as applicable), on a “like for like” basis of Geotechnical Testing being conducted in an unbiased, systematic manner across the same zone indicated for the Geotechnical Baseline Statement, such as for all or a portion of the Project alignment;
- (v) identification and description of the impact of the alleged Differing Geotechnical Site Condition or Contracting Authority Contamination, as applicable, on production rates, materials, equipment use, labour requirements and other cost and schedule expectations (including as may have been based on the applicable Geotechnical Baseline Statement); and
- (vi) any other information required by the Project Agreement (including pursuant to Section 40 (*Delay Events*) of the Project Agreement and Section 41 (*Compensation Events*) of the Project Agreement).

2.4 Testing Requirements

- (a) Any Geotechnical Testing shall be conducted in accordance with the following requirements (collectively, the “**Geotechnical Testing Requirements**”):
 - (i) Project Co shall comply with the minimum requirements set out in Appendix B to this Schedule 45 for the Geotechnical Baseline Statement against which Project Co is claiming a Differing Geotechnical Site Condition.
 - (ii) Project Co shall notify Contracting Authority at least twenty-four hours in advance of any Geotechnical Testing and Contracting Authority shall have the right to be present at and observe any such Geotechnical Testing.
 - (iii) Project Co shall ensure that Contracting Authority is provided the opportunity to obtain split or duplicate samples or testing measurements as Project Co obtains from such Geotechnical Testing.
 - (iv) All Geotechnical Testing shall be conducted by Project Co in accordance with:
 - (A) Sections 3.1.10.1(a)(vii)(C), 3.1.10.1(a)(vii)(D) and 3.1.10.1(a)(vii)(E) (*Subsurface Investigations and Testing Prior to Final Design and Construction*) of the Output Specifications for advancing boreholes, test holes and subsurface explorations, and testing (field, in situ, and laboratory); and
 - (B) environmental sampling and testing in accordance with applicable Ontario Regulations.

- (v) The minimum investigation zone for any Geotechnical Testing (each such zone a “**Geotechnical Testing Zone**”) shall extend a minimum of ten meters horizontally in all directions beyond the areal extent of each claimed Differing Geotechnical Site Conditions, and a minimum of five meters vertically below the lowest elevation at which the Differing Geotechnical Site Condition is being claimed.
- (vi) All boreholes for Geotechnical Testing (the “**Geotechnical Testing Boreholes**”) shall be performed in accordance with the requirements of the Geotechnical Testing Zone.
- (vii) Project Co shall perform all Geotechnical Testing Boreholes in accordance with Good Industry Practice and Applicable Law, and decommission the Geotechnical Testing Boreholes in accordance with Ontario Regulation 903 (as amended).

2.5 Testing at Project Co Risk

- (a) Contracting Authority will reimburse Project Co for additional costs incurred in relation to Geotechnical Testing as a result of successful Differing Geotechnical Site Condition or Contracting Authority Contamination claims for which compensation is owed to Project Co. All costs of Geotechnical Testing associated with unsuccessful Differing Geotechnical Site Condition or Contracting Authority Contamination claims, and all delays associated with any Geotechnical Testing will remain with Project Co, except to the extent such additional costs or delays are caused or contributed to by Contracting Authority.

APPENDIX A TO SCHEDULE 45

PROJECT GBR

[REDACTED]

APPENDIX B TO SCHEDULE 45

MINIMUM TESTING REQUIREMENTS

1. For the purposes of this Appendix B, a “representative number” of Geotechnical Testing Boreholes, tests, shafts, samples, piezometers, field measurements, or other requirements shall be determined by Contracting Authority based on the nature and areal extent of the claimed Differing Geotechnical Site Condition. The following are examples of how a “representative number” of Geotechnical Testing may be determined, which are provided for illustrative purposes only:
 - (a) For a potential Differing Geotechnical Site Condition caused by the cumulative footprint area of Non-Hazardous Waste, being [REDACTED] m² greater than what is set out in the applicable Geotechnical Baseline Statement, a “representative number” of Geotechnical Testing could include a minimum of one Geotechnical Testing per [REDACTED] m³ of excavated soil, with samples collected from surface of excavation as it progresses.
 - (b) For a potential Differing Geotechnical Site Condition relating to depth of fill material for foundations of a building, a “representative number” of Geotechnical Testing Boreholes and samples could include one Geotechnical Testing Boreholes for every [REDACTED] m² of the area subject of the Differing Geotechnical Site Condition claim or geological mapping of the open excavations (i.e., for footings), or combinations thereof. The boreholes shall have continuous samples from two meters above to two meters below the bottom of the fill soils.
2. Any capitalized terms that are not defined in this Schedule 45 or Schedule 1 – Definitions and Interpretation shall have the meanings set out in the Project GBR.
3. Those Geotechnical Baseline Statements where measurements or evidence will be required to demonstrate a Differing Geotechnical Site Condition have been reproduced in this Appendix B for convenience only. In the event of ambiguities, conflicts or inconsistencies between or among one or more of the Geotechnical Baseline Statements set out in this Appendix B and one or more of the Geotechnical Baseline Statements set out in the Project GBR, the Geotechnical Baseline Statements set out in the Project GBR shall govern and take precedence over the Geotechnical Baseline Statements set out in this Appendix B.
4. The extent of the Geotechnical Testing Zone and/or geographical scope of the minimum testing requirements set out in this Appendix B shall be subject to Project Co being able to secure sufficient access to the relevant lands to perform the relevant Geotechnical Testing or, if Project Co is unable to do so despite using commercially reasonable efforts, Contracting Authority granting such access. If such access is not available, the Parties shall agree on a revised extent of Geotechnical Testing Zone and /or geographical scope of the minimum testing requirements set out in this Appendix B considering the access available to Project Co.

[REDACTED]

SCHEDULE 46

TOC EARLY HANDOVER INCENTIVE REGIME

1. DEFINITIONS

- (a) Unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 46) shall have the meanings given to them in the Project Agreement and the following terms shall have the following meanings:
- (i) “**CA ET Response**” has the meaning given to it in Section 2(c).
 - (ii) “**Early Handover Conditions**” means that all Lands comprising the applicable Early Handover Site are:
 - (A) vacated by Project Co;
 - (B) free and clear of all Project Co equipment and activities;
 - (C) surplus to any further Project requirements, including any further requirement for access by Project Co; and,
 - (D) in substantially the same condition as provided to Project Co, except as permitted by the Project Agreement.
 - (iii) “**Early Handover Days**” has the meaning given to it in Section 2(a)(iii).
 - (iv) “**Early Handover Site**” means Lands for which Contracting Authority has determined that an ET Notice may be given, as identified in the column entitled “Restriction/Requirement” in Schedule 35 – Lands.
 - (v) “**EHI Payment**” has the meaning given to it in Section 2(c).
 - (vi) “**ET Notice**” has the meaning given to it in Section 2(a), as it may be amended in accordance with Section 2(d).
 - (vii) “**New ET Handover Date**” has the meaning given to it in Section 2(a)(ii).
 - (viii) “**Requested EHI Payment**” has the meaning given to it in Section 2(a)(iv).

2. EARLY HANDOVER OF TOC LANDS

- (a) At any time that is prior to twelve (12) months before the Scheduled Substantial Completion Date, and upon at least twelve (12) months written notice of early handover to Contracting Authority (an “**ET Notice**”), Project Co may request that Contracting Authority accept early handover of Lands comprising an Early Handover Site. The ET Notice shall specify:
- (i) the Early Handover Site that is the subject of the ET Notice;

- (ii) the date when the Early Handover Site will satisfy the Early Handover Conditions (the “**New ET Handover Date**”);
 - (iii) the number of days by which completion of the handover of the Early Handover Site will be early in comparison to the Scheduled Substantial Completion Date (the “**Early Handover Days**”);
 - (iv) the amount of any compensation Project Co requests, calculated with reference to the compensation contemplated pursuant to Appendix A to this Schedule 46, pro-rated based on the number of Early Handover Days (by reference to a 365 day calendar year) and the site area and dimensions of the Lands which are the subject of the ET Notice (the “**Requested EHI Payment**”); and
 - (v) that early handover of the Early Handover Site on the New ET Handover Date is not contingent upon any terms or conditions of Project Co.
- (b) Contracting Authority may accept or reject any ET Notice in its sole discretion and subject to such terms (including satisfactory inspection of the Lands comprising the Early Handover Site) as Contracting Authority may determine.
- (c) Within ninety (90) days of receipt of an ET Notice, Contracting Authority shall provide written notice to Project Co (a “**CA ET Response**”) of its decision to (i) accept the ET Notice, (ii) reject the ET Notice, or (iii) accept the ET Notice with a payment that differs from the Requested EHI Payment (an “**EHI Payment**”) or a different early completion date, and subject to any other terms which Contracting Authority may determine in its sole discretion, including with respect to the final site area and dimensions and any related price adjustments.
- (d) In the event that Contracting Authority accepts an ET Notice on a modified basis as contemplated in Section 2(c) above, Project Co shall within ten (10) days of receipt of the applicable CA ET Response provide written notice to Contracting Authority of whether it accepts the terms set out in the applicable CA ET Response. If Project Co does not provide such notice of acceptance of the terms of the CA ET Response within such ten (10) day period, the ET Notice shall be deemed to be rejected. If Project Co accepts the terms of such CA ET Response within such timeframe, the ET Notice shall be deemed amended in accordance with the terms of such CA ET Response.
- (e) Contracting Authority shall, in its sole discretion, determine the amount of any EHI Payment that shall apply in respect of any Early Handover Site based on Appendix A to this Schedule 46, the number of Early Handover Days, and the final site area and dimensions of the Lands which are the subject of the ET Notice. Contracting Authority may in its sole discretion move an Early Handover Site to a higher tier or increase the compensation range set out in Appendix A to this Schedule 46.
- (f) In respect of each Early Handover Site for which an ET Notice has been delivered and accepted (with or without modified terms), Project Co shall complete the handover of the applicable Early Handover Site on the New ET Handover Date in accordance with the applicable ET Notice (as it may be amended pursuant to a CA ET Response), including the Early Handover Conditions, and Contracting Authority shall pay Project Co the applicable EHI Payment, plus any HST applicable thereon, upon Substantial Completion.

- (g) If Project Co fails to complete the handover of the applicable Early Handover Site on the New ET Handover Date in accordance with the ET Notice, including the Early Handover Conditions, no EHI Payment shall be payable to Project Co in respect of such Early Handover Site, and Project Co shall have no further right or entitlement to receive any payment in respect of the early handover of Lands comprising such Early Handover Site from Contracting Authority.

3. GENERAL

- (a) Nothing in this Schedule 46 shall restrict, limit, prejudice or in any other way impair the rights or remedies of the Parties under any other provision of this Project Agreement, including the right of Contracting Authority to require Project Co at any time to handover any Lands earlier than the Scheduled Substantial Completion Date, in which case Project Co shall be, subject to and in accordance with Schedule 22 – Variation Procedure, entitled to a Variation.

APPENDIX A TO SCHEDULE 46

EARLY HANDOVER SITES

[REDACTED]

SCHEDULE 47

PRICE ADJUSTMENT PROCEDURE

1. PREAMBLE AND REPRESENTATION AND WARRANTY

1.1 Background

- (a) The Parties acknowledge and agree that circumstances of this Project are unique, including:
- (i) the length and timing of the Construction Period;
 - (ii) the supply chain challenges and economic circumstances prevailing at the time of the Request for Proposals as a result of the COVID-19 pandemic; and
 - (iii) the unique risk profile of this Project with requirements for integration of this Project with the South Civil Project and the North Civil Project.
- (b) Due to the unique circumstances of this Project, Contracting Authority has determined that limited and targeted adjustments in Project Co's pricing will be permitted after Financial Close for this Project to the extent expressly set out herein, subject to and in accordance with the provisions of this Schedule 47.

1.2 Representation and Warranty

- (a) Project Co represents and warrants to Contracting Authority that as of Commercial Close the scheduled cost values (in Inflation Base Date prices) for any Cost Category and the weighting of any Price Escalation Index for any Cost Category and Construction Year:
- (i) are generally consistent with Project Co's current Project Works Schedule (pursuant to the requirements of Schedule 12 – Works Schedule Requirements);
 - (ii) are generally consistent with Project Co's projection of the Cost of the Works as set out in the Financial Model; and
 - (iii) do not include any purchases previously made or costs incurred by Project Co or any Project Co Party on or before Commercial Close.

2. DEFINITIONS

- 2.1** In this Schedule 47, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 47) shall have the meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) “**Aggregate Price Adjustment**” means the sum of the Price Adjustments for all Cost Categories and all Construction Months applicable to the relevant Price Adjustment Review.

- (b) **“Construction Month”** means a calendar month during the Construction Period, except with respect to:
- (i) the first Construction Month of the Construction Period which runs from the day of Financial Close until the end of the calendar month in which Financial Close was achieved; and
 - (ii) the final Construction Month of the Construction Period, which runs from the first day of the calendar month in the which the Scheduled Substantial Completion Date falls until the Scheduled Substantial Completion Date.
- (c) **“Construction Year”** means the period of twelve (12) calendar months that commences on April 1st of each calendar year and ends March 31st of the next ensuing calendar year, provided that:
- (i) the first Construction Year shall be the period that commences on the day of Financial Close and ends on the next ensuing March 31st; and
 - (ii) the final Construction Year shall be the period that commences on April 1st that precedes the Scheduled Substantial Completion Date.
- (d) **“Cost Category”** means the following level one Standard Cost Categories established by the Federal Transit Administration of the United States Department of Transportation, as set out in the Financial Model in worksheet “Part 2 – Cost Category”:
- (i) SCC 10 (Guideway and Track Elements);
 - (ii) SCC 20 (Stations, Stops, Terminals, Intermodal);
 - (iii) SCC 30 (Support Facilities: Yards, Shops, Admin. Bldgs);
 - (iv) SCC 40 (Sitework and Special Conditions);
 - (v) SCC 50 (Systems); and
 - (vi) SCC 70 (Vehicles).
- (e) **“CPI-XFET”** means the Consumer Price Index excluding food, energy, and the effect of indirect taxes for Canada, as reported by Statistics Canada.
- (f) **“Inflation Base Date”** has the meaning in Schedule 20 – Payment Mechanism.
- (g) **“Lower Price Adjustment Threshold”** is described in Section 3.3(a)(ii) and denoted as “PAT_{lower,m}”.
- (h) **“Maximum Upper Price Adjustment Threshold”** is described in Section 3.3(b)(i) and denoted as “MaxPAT_{upper,m}”.

- (i) “**Minimum Lower Price Adjustment Threshold**” is described in Section 3.3(b)(ii) and denoted as “MinPAT_{lower,m}”
- (j) “**Price Adjustment**” means a positive or negative amount for each relevant Cost Category for each Construction Month applicable to a relevant Price Adjustment Review as calculated in accordance with Section 3.4(a).
- (k) “**Price Adjustment Factor**” has the meaning given in Section 3.2(a).
- (l) “**Price Adjustment Report**” has the meaning given in Section 3.1(b).
- (m) “**Price Adjustment Review**” means the application of this Price Adjustment Review Procedure in respect of any Price Adjustment Review Period, subject to and in accordance with the provisions of this Schedule 47.
- (n) “**Price Adjustment Review Date**” means the annual effective date of each Price Adjustment Review commencing on [REDACTED], being the end of Construction Month [REDACTED], and occurring annually thereafter on each anniversary of the first Price Adjustment Review Date.
- (o) “**Price Adjustment Review Period**” means the twelve (12) calendar month period beginning on Financial Close and each subsequent twelve (12) calendar month period commencing on each anniversary of Financial Close except for the last Price Adjustment Review Period, which shall be a period of twelve (12) calendar months or less ending three (3) months prior to the Scheduled Substantial Completion Date.
- (p) “**Price Adjustment Review Procedure**” means the procedure required for a Price Adjustment as set out in this Schedule 47.
- (q) “**Price Adjustment Threshold**” means the Upper Price Adjustment Threshold or the Lower Price Adjustment Threshold.
- (r) “**Price Adjustment Variation**” means a Variation for which Contracting Authority issues a Variation Confirmation in the amount of the Aggregate Price Adjustment in respect of any Price Adjustment Review.
- (s) “**Price Escalation Index**” or “**PEI**” means each of the following product and labour indices:
 - (i) the following major product group level indices of the industrial product price index, by major product group, for Canada, Table 18-10-0265-01, as reported by Statistics Canada and referenced accordingly in Appendix A to this Schedule 47 and each of which, for clarity, is a separate Price Escalation Index:
 - (A) Plastic and rubber products [P32];
 - (B) Lumber and other wood products [P41];
 - (C) Energy and petroleum products [P51];

- (D) Primary ferrous metal products [P61];
 - (E) Primary non-ferrous metal products [P62];
 - (F) Fabricated metal products and construction materials [P63];
 - (G) Machinery and equipment [P72]; and
 - (H) Cement, glass, and other non-metallic mineral products [P81]; and
- (ii) the industrial aggregate excluding unclassified businesses index for Canada of the fixed-weighted index of average hourly earnings for all employees, by industry, Table 14-10-0213-01, as reported by Statistics Canada and referenced as “Industry Labour” in Appendix A to this Schedule 47.
- (t) **“Price Escalation Index Aggregate Limit”** means the value assigned to the applicable Price Escalation Index for an applicable Cost Category as set out in the column titled “PEI AL” in Appendix A to this Schedule 47 and represents the maximum aggregate assigned weight that is permitted for an applicable Price Escalation Index for an applicable Cost Category, where the aggregate assigned weight for an applicable Price Escalation Index for an applicable Cost Category is calculated as the average of the assigned weights from all Construction Years for such Price Escalation Index and Cost Category.
- (u) **“Price Escalation Index Construction Year Limit”** means the value assigned to the applicable Price Escalation Index for an applicable Cost Category as set out in the column titled “PEI CYL” in Appendix A to this Schedule 47 and represents the maximum assigned weight that is permitted for an applicable Price Escalation Index for an applicable Cost Category in any Construction Year.
- (v) **“Reprofiling”** has the meaning given in Section 3.6(a)(i).
- (w) **“Revised Price Adjustment Report”** has the meaning given in Section 3.1(d).
- (x) **“Revision”** has the meaning given in Section 3.6(a)(ii).
- (y) **“Supplementary Evidence”** has the meaning given in Section 3.5(a).
- (z) **“Target Index”** is described in Section 3.3(c) and denoted as “TI”.
- (aa) **“Target Index Factor”** is described in Section 3.3(b) and denoted as “TIF”.
- (bb) **“Threshold Factor”** is described in Section 3.3(a) and denoted as “TF”.
- (cc) **“Unassigned”** means the value not assigned to the Price Escalation Indices as set out in Appendix A to this Schedule 47.
- (dd) **“Upper Price Adjustment Threshold”** is described in Section 3.3(a)(i) and denoted as “PAT_{upper,m}”.

3. PRICE ADJUSTMENT REVIEW

3.1 Price Adjustment Review

- (a) Project Co shall be entitled to an annual Price Adjustment Review beginning no earlier than the first Price Adjustment Review Date and thereafter on each subsequent Price Adjustment Review Date as follows:

Price Adjustment Review Date	Price Adjustment Review Period
[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]
[REDACTED]	[REDACTED]

- (b) No later than twenty (20) Business Days after an annual Price Adjustment Review Date, Project Co shall submit a report to Contracting Authority (a “**Price Adjustment Report**”) which shall contain the following:
- (i) the calculation of the Price Adjustment Factor for each relevant Cost Category, including detailed calculations of each Price Escalation Index for each Construction Month subject to the relevant Price Adjustment Review and evidence satisfactory to Contracting Authority, acting reasonably, in support of the Price Adjustment Factor;
 - (ii) the calculation of the Price Adjustment Thresholds for each Construction Month subject to the relevant Price Adjustment Review and evidence satisfactory to Contracting Authority, acting reasonably, in support of the Price Adjustment Thresholds;
 - (iii) the calculation of the Price Adjustment for each relevant Cost Category for each Construction Month subject to the relevant Price Adjustment Review;
 - (iv) the Aggregate Price Adjustment for the relevant Price Adjustment Review;
 - (v) any set-off or deduction to be made in respect of any prior Price Adjustment Review pursuant to Section 3.4(e);

- (vi) a summary and the cumulative total of Aggregate Price Adjustments from prior Price Adjustment Reviews, if applicable; and
 - (vii) supplementary evidence in support of the Price Adjustment Factor for each relevant Cost Category for each Construction Month subject to the relevant Price Adjustment Review pursuant to Section 3.5, if applicable.
- (c) Contracting Authority shall within fifteen (15) Business Days of receipt of a Price Adjustment Report provide notice to Project Co of:
- (i) Contracting Authority’s acceptance of such Price Adjustment Report; or
 - (ii) Contracting Authority’s refusal to accept such Price Adjustment Report if, in Contracting Authority’s reasonable opinion, such Price Adjustment Report fails to satisfy the requirements of Section 3.1(b) (including if Contracting Authority is of the view that any of the calculations submitted by Project Co are incorrect) together with a summary of the reasons why such Price Adjustment Report fails to satisfy such requirements.
- (d) If Contracting Authority provides notice to Project Co that a Price Adjustment Report failed to satisfy the requirements of Section 3.1(b), then Project Co shall have fifteen (15) Business Days from the receipt of such notice to submit a revised Price Adjustment Report (a “**Revised Price Adjustment Report**”) that satisfies the requirements of Section 3.1(b).
- (e) In the event Project Co fails to submit a Price Adjustment Report or a Revised Price Adjustment Report before the expiry of the period set out in Sections 3.1(b) and 3.1(d), as applicable, Contracting Authority shall, in its sole discretion, be permitted to calculate the Aggregate Price Adjustment in accordance with the requirements of the Price Adjustment Report or Revised Price Adjustment Report, as applicable, for the relevant Price Adjustment Review Period on behalf of Project Co and provide notice of such calculation to Project Co.
- (f) If Contracting Authority calculates the Aggregate Price Adjustment for a relevant Price Adjustment Review Period pursuant to Section 3.1(e) and such Aggregate Price Adjustment is:
- (i) a positive amount, Project Co shall not be entitled to the Aggregate Price Adjustment for such Price Adjustment Review Period, unless Project Co submits a Price Adjustment Report or Revised Price Adjustment Report, in accordance with Sections 3.1(b) or 3.1(d), as applicable, within one (1) year of the notice provided by Contracting Authority under Section 3.1(e), in which event Project Co shall only be entitled to the lesser of the amount determined in accordance with Section 3.1(e) and the amount determined pursuant to such Price Adjustment Report or Revised Price Adjustment Report, as applicable; or
 - (ii) a negative amount, Contracting Authority shall be entitled to deduct such amount from the Substantial Completion Payment or to set-off or deduct such amount in respect of any subsequent Price Adjustment Review pursuant to Section 3.4(e).

3.2 Price Adjustment Factor

- (a) The Price Adjustment Factor for each relevant Cost Category for each Construction Month applicable to the relevant Price Adjustment Review shall be calculated in accordance with the following formula:

$$PAF_{CC,m} = \frac{\left(\sum_{PEI_m} \frac{(PEI_m * W_{PEI,n})}{(PEI_o)} \right)}{P_{CC,n}}$$

Where:

$PAF_{CC,m}$ Means the Price Adjustment Factor for the relevant Cost Category for Construction Month m ;

\sum_{PEI_m} Summation of all Price Escalation Indices for each relevant Cost Category for Construction Month m ;

PEI_m Means the value of the relevant Price Escalation Index for Construction Month m which shall be equal to a three (3) month average, calculated as the average value of the relevant Price Escalation Index of the calendar month of the relevant Construction Month m and the two (2) calendar months immediately preceding the relevant Construction Month m , to be determined by reference to the most recent available monthly data published by Statistics Canada for the relevant index, or failing such publication, such other index as the Parties may agree, or as may be determined in accordance with Schedule 27 – Dispute Resolution Procedure, which most closely resembles such index;

PEI_o Means the value of the relevant Price Escalation Index for the calendar month in which the Inflation Base Date falls, to be determined by reference to the most recent available monthly data published by Statistics Canada for the relevant index at the Inflation Base Date;

$W_{PEI,n}$ Means the assigned weight for the relevant Price Escalation Index for the relevant Construction Year n as set out in Appendix A of this Schedule 47; and

$P_{CC,n}$ Means the total percentage of the relevant Cost Category with an assigned weight to a Price Escalation Index in Construction Year n , denoted as “ $P_{CC,n}$ ” in Appendix A to this Schedule 47.

- (b) For the purposes of the formula in Section 3.2(a), where $P_{CC,n}$ is equal to [REDACTED], $PAF_{CC,m}$ shall also be equal to [REDACTED].

3.3 Price Adjustment Thresholds

(a) The Price Adjustment Thresholds for each Construction Month applicable to the relevant Price Adjustment Review shall be calculated in accordance with this Section 3.3(a) or determined in accordance with Section 3.3(d):

(i) Subject to Section 3.3(d), the Upper Price Adjustment Threshold for the relevant Construction Month m is equal to:

$$PAT_{upper,m} = \frac{(CPI_m)}{(CPI_o)} + TF$$

(ii) Subject to Section 3.3(d), the Lower Price Adjustment Threshold for the relevant Construction Month m is equal to:

$$PAT_{lower,m} = \frac{(CPI_m)}{(CPI_o)} - TF$$

Where:

$PAT_{upper,m}$ Means the Upper Price Adjustment Threshold for the relevant Construction Month m ;

$PAT_{lower,m}$ Means the Lower Price Adjustment Threshold for the relevant Construction Month m ;

CPI_m Means the value of CPI-XFET for Construction Month m which shall be equal to a three (3) month average, calculated as the average value of CPI-XFET of the calendar month of the relevant Construction Month m and the two (2) calendar months immediately preceding the relevant Construction Month m , to be determined by reference to the most recent available monthly data published by Statistics Canada for the relevant index, or failing such publication, such other index as the Parties may agree, or as may be determined in accordance with Schedule 27 – Dispute Resolution Procedure, which most closely resembles such index;

CPI_o Means the value of CPI-XFET for the calendar month in which the Inflation Base Date falls, to be determined by reference to the most recent available monthly data published by Statistics Canada for the relevant index at the Inflation Base Date; and

TF Means the Threshold Factor and is equal to [REDACTED]%.

(b) The maximum and minimum values of the Price Adjustment Thresholds for each Construction Month applicable to the relevant Price Adjustment Review shall be calculated as follows:

(i) The Maximum Upper Price Adjustment Threshold for the relevant Construction Month m is equal to:

$$MaxPAT_{upper,m} = TI_m + TIF + TF$$

- (ii) The Minimum Lower Price Adjustment Threshold for the relevant Construction Month m is equal to:

$$MinPAT_{lower,m} = TI_m - TIF - TF$$

Where:

$MaxPAT_{upper,m}$ Means the Maximum Upper Price Adjustment Threshold for the relevant Construction Month m ;

$MinPAT_{lower,m}$ Means the Minimum Lower Price Adjustment Threshold for the relevant Construction Month m ;

TI_m Means the value of the Target Index for the relevant Construction Month m calculated in accordance with Section 3.3(c);

TIF Means the Target Index Factor and is equal to [REDACTED]%; and

TF Means the Threshold Factor and is equal to the value in Section 3.3(a).

- (c) The value of the Target Index for each Construction Month applicable to the relevant Price Adjustment Review shall be calculated as follows:

$$TI_m = ((1 + i)^{(1/12)})^x$$

Where:

TI_m Means the value of the Target Index for the relevant Construction Month m ;

i Means the annual inflation rate for the Target Index and is equal to [REDACTED]%; and

x Is equal to the number of calendar months from the Inflation Base Date to the relevant Construction Month m .

- (d) The Price Adjustment Thresholds, calculated in Section 3.3(a), shall be adjusted, if applicable, for each Construction Month applicable to the relevant Price Adjustment Review as follows:

Value of $PAT_{upper,m}$ and $PAT_{lower,m}$	Adjustment to Price Adjustment Thresholds
---	--

If $PAT_{upper,m} > MaxPAT_{upper,m}$, then:	$PAT_{upper,m}$ shall equal $MaxPAT_{upper,m}$
If $PAT_{lower,m} < MinPAT_{lower,m}$, then:	$PAT_{lower,m}$ shall equal $MinPAT_{lower,m}$
If $PAT_{upper,m} \leq MaxPAT_{upper,m}$ then:	No adjustment to $PAT_{upper,m}$
If $PAT_{lower,m} \geq MinPAT_{lower,m}$ then:	No adjustment to $PAT_{lower,m}$
If $PAT_{upper,m} < TI_m$ then:	$PAT_{upper,m}$ shall equal TI_m
If $PAT_{lower,m} > TI_m$ then:	$PAT_{lower,m}$ shall equal TI_m

3.4 Price Adjustment and Aggregate Price Adjustment

(a) The Price Adjustment for each relevant Cost Category for each Construction Month applicable to the relevant Price Adjustment Review shall be calculated in accordance with the following formulas:

(i) If $PAF_{CC,m}$ is greater than $PAT_{upper,m}$, the Price Adjustment is equal to:

$$PA_{CC,m} = (CC_m \times P_{CC,n}) \times (PAF_{CC,m} - PAT_{upper,m})$$

or,

(ii) If $PAF_{CC,m}$ is less than $PAT_{lower,m}$, then the Price Adjustment (which, for clarity, will be a negative amount) is equal to:

$$PA_{CC,m} = -(CC_m \times P_{CC,n}) \times (PAT_{lower,m} - PAF_{CC,m})$$

Where:

$PA_{CC,m}$ Means the Price Adjustment for the relevant Cost Category for Construction Month m ;

CC_m Means the scheduled cost value (in Inflation Base Date prices) for the relevant Cost Category in Construction Month m as set out in the Financial Model in worksheet “Part 2 – Cost Category” or as otherwise amended pursuant to Section 3.6;

$P_{CC,n}$ Means the total percentage of the relevant Cost Category with an assigned weight to a Price Escalation Index in Construction Year n , denoted as “ $P_{CC,n}$ ” in Appendix A to this Schedule 47;

$PAF_{CC,m}$ Means the Price Adjustment Factor for the relevant Cost Category in Construction Month m calculated in accordance with Section 3.2(a);

- PAT*_{upper,m} Means the Upper Price Adjustment Threshold in Construction Month *m* calculated in accordance with Section 3.3(a)(i) or determined in accordance with Section 3.3(d); and
- PAT*_{lower,m} Means the Lower Price Adjustment Threshold in Construction Month *m* calculated in accordance with Section 3.3(a)(ii) or determined in accordance with Section 3.3(d).
- (b) The Aggregate Price Adjustment for the relevant Price Adjustment Review shall be equal to the sum of the Price Adjustments for all Cost Categories and all Construction Months applicable to the relevant Price Adjustment Review calculated in accordance with Section 3.4(a).
- (c) If the Aggregate Price Adjustment is a positive amount, then Project Co shall be entitled to a Price Adjustment Variation, subject to and in accordance with Schedule 22 – Variation Procedure. For certainty, Project Co shall not be entitled to any Direct Costs for a Price Adjustment Variation and Project Co’s sole entitlement to any compensation, payment or other relief in respect of any Price Adjustment shall be the positive amount of any Aggregate Price Adjustment calculated in accordance with this Schedule 47, as set out in the Variation Confirmation issued in respect of such Price Adjustment Variation.
- (d) If the Aggregate Price Adjustment is a negative amount, then Contracting Authority shall be entitled to a Price Adjustment Variation, subject to and in accordance with Schedule 22 – Variation Procedure, and Project Co shall elect, by written notice to Contracting Authority, for any relevant Aggregate Price Adjustment, if:
- (i) the Substantial Completion Payment shall be reduced by the negative amount of any Aggregate Price Adjustment calculated in accordance with this Schedule 47, as set out in the Variation Confirmation issued in respect of such Price Adjustment Variation; or
 - (ii) Project Co intends to make a payment to Contracting Authority equal to the negative amount of any Aggregate Price Adjustment calculated in accordance with this Schedule 47, as set out in the Variation Confirmation issued in respect of such Price Adjustment Variation, in which case Section 3.4(h) shall apply to such payment.
- (e) In the case of the final Price Adjustment Review, Section 3.4(d)(i) shall not apply and, if applicable, Project Co shall be required to make a payment to Contracting Authority equal to the negative amount of any Aggregate Price Adjustment in accordance with Section 3.4(h).
- (f) For clarity, Project Co will not be required to obtain financing in accordance with Schedule 22 – Variation Procedure for any Aggregate Price Adjustment amount.
- (g) At any time or times prior to Substantial Completion in respect of any Price Adjustment Review, Contracting Authority shall also be permitted to set-off against or deduct from any Aggregate Price Adjustment amount owed to Project Co, as a result of any prior Price Adjustment Review pursuant to Section 3.4(c), any amount that Contracting Authority is permitted to deduct from the Substantial Completion Payment pursuant to Section 3.4(d)(i).

- (h) Amounts owed to Project Co from Contracting Authority, pursuant to Section 3.4(c), or amounts owed to Contracting Authority from Project Co, pursuant to Section 3.4(d)(ii), shall be paid no later than sixty (60) days after the finalization and issuance of a Variation Confirmation in respect of any Price Adjustment Variation.

3.5 Supplementary Evidence

- (a) Contracting Authority may require Project Co to provide additional information, details, evidence, verification and proper documentation, such as invoices and proof of payments (collectively, “**Supplementary Evidence**”) in respect of a Price Adjustment Variation, subject to Section 3.5(b).
- (b) If the Price Adjustment Factor for any relevant Cost Category for any Construction Month applicable to the relevant Price Adjustment Review is greater than [REDACTED]% above the Upper Price Adjustment Threshold or greater than [REDACTED]% below the Lower Price Adjustment Threshold for the any Cost Category for the relevant Construction Month, Project Co shall provide Supplementary Evidence satisfactory to Contracting Authority, acting reasonably, demonstrating actual costs incurred in the relevant Cost Category and relevant Construction Month generally reflect a Price Adjustment Factor that is greater than the Upper Price Adjustment Threshold or the Lower Price Adjustment Threshold by the value set out in this Section 3.5(b).

3.6 Periodic Adjustments

- (a) At the time of each annual Price Adjustment Review, and once more annually at any time between each Price Adjustment Review, after the first Price Adjustment Review Date, Project Co may request one or both of the following:
- (i) to reprofile the scheduled cost value (in Inflation Base Date prices) for any Cost Category (a “**Reprofiling**”); and
 - (ii) to revise the weighting of any Price Escalation Index for any Cost Category and Construction Year (a “**Revision**”),

provided that at such time, on a forward looking basis, there is a material misalignment in the scheduled cost value (in Inflation Base Date prices) for any Cost Category or the weighting of any Price Escalation Index for any Cost Category and Construction Year, as applicable.

- (b) Any Reprofiling or Revision shall:
- (i) be on a forward-looking basis from the proposed date of such Reprofiling or Revision, and the Revision of the weighting of any Price Escalation Index shall not include any Revision to the current Construction Year;
 - (ii) take into account:
 - (A) any relevant Variation Confirmation;

- (B) the material effects of any event set out in Section 40 (*Delay Events*) of the Project Agreement, whether or not such event constitutes a Delay Event; and
 - (C) any other material changes to the scheduled cost value (in Inflation Base Date prices) for any Cost Category and the weighting of any Price Escalation Index for any Cost Category and Construction Year,

that have not been accounted for in a previous Reprofiting or Revision;
 - (iii) in the case of a Reprofiting, ensure that the cumulative total of reprofiled scheduled cost values (in Inflation Base Date prices) for any Cost Category across all Construction Months does not exceed the original cumulative total of scheduled cost values (in Inflation Base Date prices) for the same Cost Category across all Construction Months as set out in the Financial Model in worksheet “Part 2 – Cost Category”;
 - (iv) in the case of a Revision, ensure that the revised weighting of any Price Escalation Index for any Cost Category and Construction Year shall not exceed both the Price Escalation Index Construction Year Limit and the Price Escalation Index Aggregate Limit set out for such Cost Category in Appendix A to this Schedule 47;
 - (v) be generally consistent with Project Co’s then current Project Works Schedule (pursuant to the requirements of Schedule 12 – Works Schedule Requirements);
 - (vi) be generally consistent with the Cost of the Works completed to date as set out in any construction progress report certified by the Lenders’ Consultant; and
 - (vii) not include any purchases previously made or costs incurred by Project Co or any Project Co Party on or before the date of the proposed Reprofiting or Revision.
- (c) Project Co shall provide any evidence satisfactory to Contracting Authority, acting reasonably, in support of the need for the Reprofiting or Revision or in respect of any of the requirements set out Section 3.6(b).
 - (d) Contracting Authority may, acting reasonably, accept or reject a request for Reprofiting or Revision provided that Contracting Authority shall be deemed to be acting reasonably if it rejects such request on the basis that the proposed Reprofiting or Revision does not satisfy the requirements set out in Section 3.6(b).
 - (e) If Contracting authority accepts a request for Reprofiting or Revision, then Project Co shall provide a representation and warranty on the same basis as set out in Section 1.2 of this Schedule 47 as of the date of the acceptance of such Reprofiting or Revision.

3.7 Variations

- (a) Notwithstanding Section 3.6(a), following a Variation Confirmation that has material effect on the scheduled cost value (in Inflation Base Date prices) for any Cost Category or the weighting of any

Price Escalation Index for any Cost Category and Construction Year, Project Co may make a request for a Reprofile or Revision subject to and in accordance with Section 3.6.

- (b) Notwithstanding any other provision of the Project Agreement, including Section 39 (*Variations*) and Schedule 22 – Variation Procedure of the Project Agreement, Project Co shall not be entitled to include in any Project Co Variation Notice or Estimate pursuant to a Variation Enquiry any claim or amount, including for any Direct Costs, that duplicates any claim or amount for which Project Co is entitled to request a Variation or other relief under this Schedule 47.

3.8 Contracting Authority Request

- (a) Contracting Authority may, at any time, request a Reprofile or Revision where it is reasonably of the view that at such time, on a forward looking basis, there is a material misalignment in the scheduled cost value (in Inflation Base Date prices) for any Cost Category or the weighting of any Price Escalation Index for any Cost Category and Construction Year, as applicable.
- (b) Where Contracting Authority has made a request pursuant to Section 3.8(a), Project Co shall prepare a proposed Reprofile or Revision, as applicable, on the same basis and in accordance with Section 3.6.
- (c) The Parties shall, acting reasonably, agree upon a Reprofile or Revision in accordance with Section 3.6.

3.9 Limitation

- (a) Project Co's sole right to payment for any amount relating to a Price Adjustment shall be as set out in this Schedule 47.
- (b) Notwithstanding any other provision of the Project Agreement, including Section 40 (*Delay Events*) and Section 41 (*Compensation Events*) of the Project Agreement, Project Co shall not be entitled to seek compensation for or in respect of any amount for which Project Co is entitled to request a Price Adjustment, a Price Adjustment Variation or other relief under this Schedule 47.
- (c) Nothing in this Schedule 47 limits any obligation of Project Co to mitigate any loss under the provisions of the Project Agreement, including Section 64.4 (*General Duty to Mitigate*) of the Project Agreement.

APPENDIX A TO SCHEDULE 47

PRICE ESCALATION INDEX WEIGHTINGS

Table 1: Cost Category – SCC 10 (Guideway and Track Elements)
