THIS PROJECT AGREEMENT is entered into as of the 15th day of November, 2022

BETWEEN:

METROLINX, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency within the meaning of the *Crown Agency Act, R.S.O. 1990, c. 48*, as amended in accordance with Section 3 of the *Metrolinx Act, 2006* (Ontario)

(“**Contracting Authority**”)

AND:

CONNECT 6IX GENERAL PARTNERSHIP, [REDACTED]

(“**Project Co**”)

WHEREAS:

- A. Contracting Authority, with the assistance of IO, intends to develop a new rapid transit line in the City of Toronto with a northern terminus near the intersection of Eglinton Avenue and Don Mills Road and a southern terminus at the Exhibition Place, which includes:
- (a) approximately 15.5 kilometres of new tunneled, elevated, and at-grade sections;
 - (b) 15 Stations;
 - (c) 6 interchanges with other modes of transit;
 - (d) the OMSF, which will be located at the lands more particularly described in Schedule 35 – Lands; and
 - (e) the supply, integration, maintenance, operation and storage of Cars.
- B. Contracting Authority commenced the procurement process for the Project, as hereinafter defined, by issuance of a request for qualifications for the Project on June 2, 2020.
- C. Project Co will provide the Project Operations, which Project Operations include the design, construction, financing, supply, operation, maintenance and rehabilitation of the Ontario Line

Subway System and design, construction and financing of the New Third Party Infrastructure (the “**Project**”). The Project will integrate the South Civil Project, the North Civil Project and the Early Works Infrastructure with the Project Co Infrastructure, which collectively will form the Ontario Line Subway.

- D. Contracting Authority and Project Co wish to enter into this project agreement (the “**Project Agreement**”), which sets out the terms and conditions upon which Project Co shall perform the Project Operations.
- E. This Project is part of the Province of Ontario’s New Subway Transit Plan for the Greater Toronto and Hamilton Area (the “**GTHA**”). Increasing the transit network’s capacity in downtown Toronto, other major employment areas and neighbourhoods throughout the City is critical to unlocking the GTHA’s potential as a leading international metropolitan region and maintaining the GTHA’s appeal to people and major employers.
- F. The Project will proceed as a public-private partnership project approved by the Ministry of Infrastructure (“**MOI**”).
- G. As a result, the Project shall follow 5 fundamental principles which guide the financing and procurement of public infrastructure projects in Ontario:
1. The public interest is paramount.
 2. Value for money must be demonstrable.
 3. Appropriate public control / ownership must be preserved.
 4. Accountability must be maintained.
 5. All processes must be fair, transparent and efficient.
- H. Consistent with the principle of appropriate public ownership / control, public ownership of assets will be preserved in the public sector.
- I. With a view to ensuring that the Parties are able to properly and effectively discharge their respective duties, functions, and responsibilities under Applicable Law, it is the intent that Contracting Authority and Project Co work collaboratively, responsibly and cooperatively throughout the Project Term.
- J. Each of IO and Metrolinx intends to be liable, on a joint and several basis, for all of the obligations of Contracting Authority pursuant to this Project Agreement, save and except as provided for in this Project Agreement.

NOW THEREFORE in consideration of the mutual covenants and agreements of the Parties hereinafter contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties covenant and agree as follows:

1. DEFINITIONS AND INTERPRETATION

1.1 Definitions and Interpretation

- (a) This Project Agreement shall be interpreted in accordance with Schedule 1 – Definitions and Interpretation.
- (b) This Project Agreement is comprised of this executed agreement and the following documents, all of which are hereby incorporated by reference into and form part of this Project Agreement.

Schedule No.	Description
Schedule 1	- Definitions and Interpretation
Schedule 2	- Completion Documents
Schedule 3	- Custody Agreement
Schedule 4	- Lenders' Direct Agreement
Schedule 5	- Direct Agreements
Schedule 6	- Independent Certifier Agreement
Schedule 7	- [Intentionally Deleted]
Schedule 8	- Energy Matters
Schedule 9	- Key Individuals

- (c) The documents comprising this Project Agreement are complementary and what is called for by any one of them shall be interpreted as if called for by all, except in the event of ambiguities, conflicts or inconsistencies, in which case Section 1.2 shall apply.
- (d) Except for the Project Co Proposal Extracts, on Commercial Close, the Request for Proposals and Project Co's proposal shall be superseded entirely by this Project Agreement and rendered null and void, and shall not be relied upon or used by Project Co, Contracting Authority or anyone else (including anyone pursuant to Schedule 27 – Dispute Resolution Procedure or any arbitral body or any court) in any way to interpret or qualify the scope of the Project Operations, any obligations or liabilities of Project Co, or anything else contained in this Project Agreement.
- (e) Unless it is specifically provided that a consent, approval or satisfaction is in the sole discretion of Contracting Authority, no consent, approval or satisfaction of Contracting Authority or the Contracting Authority Representative shall be unreasonably withheld or delayed.
- (f) Unless it is specifically provided that a consent, approval or satisfaction is in the sole discretion of Project Co, no consent, approval or satisfaction of Project Co or the Project Co Representative shall be unreasonably withheld or delayed.
- (g) The organization of the Output Specifications into divisions, sections and parts shall not control Project Co in dividing the Works among Project Co Parties or in establishing the extent of the Works to be performed by a trade.

1.2 Conflict of Terms

- (a) In the event of ambiguities, conflicts or inconsistencies between or among any of the provisions of this Project Agreement, the provisions shall govern in the following order of precedence with each taking precedence over those listed subsequently:

- (i) the provisions of amendments in writing to this Project Agreement signed by the Parties and Variation Confirmations shall govern and take precedence only over those specific provisions of this Project Agreement expressly amended thereby;
- (ii) any provision establishing a higher standard of safety, reliability, durability, performance or service shall take precedence over a provision establishing a lower standard of safety, reliability, durability, performance or service;
- (iii) the body of this Project Agreement;
- (iv) Schedule 1 - Definitions and Interpretation;
- (v) Schedule 34 - Permits, Licences, Approvals and Agreements;
- (vi) Schedule 35 - Lands;
- (vii) Schedule 27 - Dispute Resolution Procedure;
- (viii) Schedule 19 - Liquidated Damages and Construction Enforcement Regime;
- (ix) Schedule 21 - Construction Payment Procedures;
- (x) Schedule 20 - Payment Mechanism;
- (xi) Schedule 40 - Rail Corridor Access and Flagging;
- (xii) Schedule 15 - Output Specifications;
- (xiii) Schedule 17 - Environmental Obligations;
- (xiv) Schedule 25 - Insurance and Performance Security Requirements;
- (xv) Schedule 22 - Variation Procedure;
- (xvi) Schedule 10 - Review Procedure;
- (xvii) Schedule 14 - Commissioning;
- (xviii) Schedule 11 - Quality Management;
- (xix) Schedule 42 - South Civil Infrastructure Access and Handover;
- (xx) Schedule 43 - North Civil Infrastructure Access and Handover;
- (xxi) Schedule 41 - Early Works Handover;
- (xxii) Schedule 28 - Refinancing;

- (xxiii) Schedule 23 - Compensation on Termination;
 - (xxiv) Schedule 26 - Record Provisions;
 - (xxv) Schedule 24 - Expiry Transition Procedure;
 - (xxvi) the other Schedules in the order in which they are listed in Section 1.1(b); and
 - (xxvii) Schedule 13 - Project Co Proposal Extracts.
- (b) Subject to Section 1.2(a), if the ambiguity, conflict or inconsistency is between a provision of general application and a provision that applies only to a specific part of the Project Operations, the provision that applies to the specific part of the Project Operations shall govern for that specific part of the Project Operations.
- (c) If any ambiguity, conflict or inconsistency is not readily resolved by the foregoing provisions of this Section 1.2, then Project Co or Contracting Authority, upon discovery of same, shall immediately give Notice to the Contracting Authority Representative. The Contracting Authority Representative shall, within ten (10) Business Days after such Notice, make a determination of which provision governs and give Notice of such determination, in writing, to Project Co.
- (d) Contracting Authority and Project Co shall comply with the determination of the Contracting Authority Representative pursuant to this Section 1.2 unless Project Co disputes the decision of the Contracting Authority Representative in which event such Dispute may be referred for resolution in accordance with Schedule 27 – Dispute Resolution Procedure.

1.3 Conflict of Documents

- (a) In the event of any ambiguity, conflict or inconsistency between the provisions of this Project Agreement and the Lenders' Direct Agreement, the provisions of the Lenders' Direct Agreement shall prevail and govern to the extent of such ambiguity, conflict or inconsistency. Notwithstanding the foregoing, if there is any right or remedy in favour of Contracting Authority set out in the Lenders' Direct Agreement or any part thereof which is not set out or provided for in the Project Agreement, such additional right or remedy shall not constitute an ambiguity, conflict or inconsistency.
- (b) In the event of any ambiguity, conflict or inconsistency between the provisions of this Project Agreement and a Civil Project Interface Agreement then, as between Project Co and the Contracting Authority, the provisions of this Project Agreement shall prevail and govern to the extent of such ambiguity, conflict or inconsistency.

1.4 Legal Requirements

- (a) Whenever standards of Applicable Law differ, the most stringent shall govern.

2. COMMERCIAL CLOSE AND FINANCIAL CLOSE

2.1 Effective Date

- (a) The provisions of Sections 1 to 11, 13, 15 to 24, 28 to 30, 35, 37 to 39 and 51 to 64, and Schedule 1 – Definitions and Interpretation, Schedule 2 – Completion Documents, Schedule 3 – Custody Agreement, Schedule 8 – Energy Matters, Schedule 9 – Key Individuals, Schedule 10 – Review Procedure, Schedule 11 – Quality Management, Schedule 12 – Works Schedule Requirements, Schedule 13 – Project Co Proposal Extracts, Schedule 16 – Encumbrances, Schedule 17 – Environmental Obligations, Schedule 18 – Communication and Public Engagement Protocol, Schedule 19 – Liquidated Damages and Construction Enforcement Regime, Schedule 22 – Variation Procedure, Schedule 25 – Insurance and Performance Security Requirements, Schedule 26 – Record Provisions, Schedule 27 – Dispute Resolution Procedure, Schedule 34 – Permits, Licences, Approvals and Agreements, Schedule 35 – Lands, Schedule 37 – Intellectual Property, Schedule 41 – Early Works Handover, Schedule 42 – South Civil Infrastructure Access and Handover, Schedule 43 – North Civil Infrastructure Access and Handover, Schedule 44 – System Extension and Schedule 45 – Geotechnical Baseline Report will come into effect on Commercial Close. All other provisions of this Project Agreement will come into effect only on Financial Close. Except to the extent otherwise provided in Section 48.9, the provisions of this Project Agreement will terminate on the Termination Date.

2.2 Standby Letter of Credit

- (a) If Project Co has provided Contracting Authority with multiple standby letters of credit in accordance with section 9.1(2) (*Identification of the Preferred Proponent and the Letter of Credit*) of the RFP, for purposes of this Section 2.2 each of the multiple irrevocable standby letters of credit is referred to as a Standby Letter of Credit for purposes of this Project Agreement.
- (b) Unless a Standby Letter of Credit is drawn by Contracting Authority in accordance with the provisions of this Project Agreement, Contracting Authority shall release and deliver the Standby Letter(s) of Credit to Project Co on Financial Close.
- (c) Project Co shall ensure that the Standby Letter(s) of Credit (and any replacement therefor) is renewed prior to its expiry date if, as at such date, Financial Close will not, or may reasonably be expected not to, have occurred.
- (d) If Project Co delivers multiple Standby Letters of Credit from multiple Letter of Credit Providers in accordance with section 9.1(2) (*Identification of the Preferred Proponent and the Letter of Credit*) of the Request for Proposals, Project Co acknowledges and agrees that:
- (i) Contracting Authority may draw upon any Standby Letter of Credit provided by any Letter of Credit Provider in any specified ratable amount;
 - (ii) Contracting Authority may draw on any Standby Letter of Credit provided by any Letter of Credit Provider in a disproportionate amount to such Letter of Credit Provider's contribution to security;

- (iii) Contracting Authority may draw upon any Standby Letter of Credit provided by any Letter of Credit Provider even in the event that such Letter of Credit Provider is no longer a Project Co Party; and
- (iv) the provision of multiple Standby Letters of Credit shall not in any way prejudice or adversely affect the rights of Contracting Authority to draw on the Standby Letter(s) of Credit in accordance with this Project Agreement, including in a circumstance where the default giving rise to Contracting Authority's right to draw on the Standby Letter(s) of Credit is not the result of any act or omission of the Letter of Credit Provider(s) whose Standby Letter of Credit is drawn upon.

2.3 Financial Close

- (a) If Project Co fails to deliver to Contracting Authority any of the documents referred to in Section 1 (*Documents To Be Delivered By Project Co*) of Schedule 2 – Completion Documents by the Financial Close Target Date (other than as a direct result of a breach by Contracting Authority of its obligations to deliver the documents referred to Section 2 (*Documents To Be Delivered By Contracting Authority*) of Schedule 2 – Completion Documents) and Contracting Authority does not waive such requirement, Contracting Authority will be entitled to draw on the Standby Letter of Credit and to retain the proceeds thereof as liquidated damages and may terminate this Project Agreement in its entirety by written Notice having immediate effect. The Parties agree that such liquidated damages are not a penalty but represent a genuine and reasonable pre-estimate of the damages that Contracting Authority will suffer as a result of the happening of the specified event. Such payment shall constitute full and final settlement of any and all damages that may be claimed by Contracting Authority as a result of Project Co not achieving Financial Close. The Parties agree that such liquidated damages shall be payable whether or not Contracting Authority incurs or mitigates its damages, and that Contracting Authority shall not have any obligation to mitigate any such damages.
- (b) If Contracting Authority fails to deliver to Project Co any of the documents referred to in Section 2 (*Documents To Be Delivered By Contracting Authority*) of Schedule 2 – Completion Documents by the Financial Close Target Date (other than as a direct result of a breach by Project Co of its obligations to deliver the documents referred to in Section 1 (*Documents To Be Delivered By Project Co*) of Schedule 2 – Completion Documents) and Project Co does not waive such requirement, Project Co will be entitled to the return of the Standby Letter of Credit and to terminate this Project Agreement in its entirety by written Notice having immediate effect.
- (c) Project Co shall deliver to Contracting Authority each of the items referred to in Section 3 (*Post-Financial Close Project Co Deliverables*) of Schedule 2 – Completion Documents by the applicable date set out in such Section.

2.4 Disruption in Financial Markets

- (a) If Financial Close cannot be achieved by the Financial Close Target Date by reason solely of a Severe Market Disruption, subject to Project Co's obligation to renew the Standby Letter of Credit pursuant to Section 2.2(c), the Financial Close Target Date will be extended until the date

falling ten (10) Business Days (or such other period as the Parties agree, acting reasonably) after the date on which such Severe Market Disruption ceases.

- (b) If a Severe Market Disruption exists, then, at any time before such Severe Market Disruption ceases and prior to Financial Close, Contracting Authority may in its sole discretion either:
- (i) terminate this Project Agreement in its entirety by written Notice having immediate effect; or
 - (ii) direct Project Co to assign to a designee of Contracting Authority which has agreed to assume:
 - (A) the Project Agreement, and all of Project Co's right, title and interest in the Project Data, the Intellectual Property Rights and the Project Co Permits, Licences, Approvals and Agreements; and
 - (B) those contracts between Project Co and any Project Co Party which Contracting Authority elects to be assigned.
- (c) If Contracting Authority exercises its rights pursuant to Section 2.4(b), and, provided Project Co has, if directed, delivered the assignments provided for in Section 2.4(b)(ii)(A) and (B), Project Co will be entitled to the return of its Standby Letter of Credit and to payment of an amount equal to any unpaid amount of the Proposal Fee pursuant to Section 10.3.2 (*Proposal Fee*) of the Request for Proposals plus [REDACTED]% of the Proposal Fee. Contracting Authority's obligation to return the Standby Letter of Credit and to pay such fee shall be contingent on the receipt of a release, in form and substance satisfactory to Contracting Authority, that such fee represents full and final satisfaction of any obligation or liability of Contracting Authority and any other Government Entity to Project Co and any Project Co Parties in connection with the Project Agreement and the Request for Proposals.

3. SCOPE OF AGREEMENT

3.1 Scope of Agreement

- (a) Project Co shall undertake the Project and perform the Project Operations in accordance with and subject to the provisions of this Project Agreement.
- (b) Project Co shall exercise its rights and perform its obligations at its own cost and risk without recourse to Contracting Authority, except as otherwise provided in this Project Agreement.

4. BUSINESS OPPORTUNITIES, ADVERTISING AND PLANNED CLOSURE EVENTS

4.1 Business Opportunities

- (a) Project Co acknowledges that Contracting Authority:

- (i) may from time to time develop, or permit the development of, commercial and other opportunities on or associated with the Ontario Line Subway and on the Metrolinx Lands, including, for greater certainty, the addition of retail facilities, kiosks, and newsstands, the erection of billboards and other forms of advertising, the granting of naming rights associated with the Ontario Line Subway, and Wi-Fi, radio and public television on the Ontario Line Subway (“**Business Opportunities**”);
 - (ii) reserves the right to all Business Opportunities; and
 - (iii) may, as set out in this Project Agreement, grant rights in the Business Opportunities to Project Co or other parties.
- (b) To the extent that the development or permitting of a Business Opportunity materially adversely interferes with Project Co’s licence rights hereunder or materially adversely interferes with Project Co’s ability to perform the Project Operations, such development shall, subject to and in accordance with Schedule 22 – Variation Procedure, result in a Variation. For greater certainty, a TOC Development shall not be considered to be a Business Opportunity.
- (c) For clarity, except as set out in Section 4.1(b), Project Co acknowledges and agrees that the addition of retail facilities, kiosks, or newsstands, the erection of billboards and other forms of advertising by Contracting Authority or the implementation of other Business Opportunities by Contracting Authority shall not entitle Project Co to any additional compensation or extension of time in relation thereto.
- (d) Project Co shall cooperate with Contracting Authority in Contracting Authority’s implementation of Business Opportunities.
- (e) To encourage the development of Business Opportunities, Project Co may, from time to time, propose Business Opportunities for Contracting Authority’s consideration. All such proposals shall describe the Business Opportunity in full, including the expected financial and other advantages to both Contracting Authority and Project Co. Contracting Authority may accept any such proposal in its sole discretion and subject to such terms and conditions as Contracting Authority may require.
- (f) Notwithstanding that Project Co has proposed a Business Opportunity to Contracting Authority for its consideration, Project Co acknowledges and agrees that:
- (i) Contracting Authority reserves the right to proceed with such Business Opportunity or any similar Business Opportunity with Project Co or with any third party;
 - (ii) Contracting Authority may initiate a separate procurement process for the development of such Business Opportunity; and
 - (iii) Project Co shall not be entitled to receive any payment or compensation from Contracting Authority (in any form) on the basis that Project Co proposed such Business Opportunity to Contracting Authority, even if Contracting Authority proceeds with such Business Opportunity or any similar Business Opportunity with Project Co or with any third party.

5. REPRESENTATIONS AND WARRANTIES

5.1 Project Co Representations and Warranties

- (a) Project Co represents and warrants to Contracting Authority that as of Commercial Close:
- (i)
- (A) Project Co is a [REDACTED] among [REDACTED], [REDACTED], [REDACTED] and [REDACTED] and is formed and validly existing under the laws of the Province of Alberta and has all the requisite power and authority to own its properties and assets, to carry on its business as it is currently being conducted, and to enter into this Project Agreement and to perform its obligations hereunder;
 - (B) [REDACTED] is a [REDACTED] formed and validly existing under the laws of the Province of Ontario and has all the requisite power and authority to own its properties and assets, to carry on its business as it is currently being conducted, and to enter into this Project Agreement and to perform its obligations hereunder;
 - (C) [REDACTED] is a [REDACTED] incorporated and validly existing under the laws of Canada, is in good standing with [REDACTED] with respect to the filing of annual reports, and has all the requisite [REDACTED] power and authority to own its properties and assets, to, in its capacity as [REDACTED] of [REDACTED], carry on the business of [REDACTED] as it is currently being conducted, and to, in its capacity as [REDACTED] of [REDACTED] enter into this Project Agreement and to perform the obligations of [REDACTED] hereunder;
 - (D) [REDACTED] is a [REDACTED] incorporated and validly existing under the laws of the Province of Ontario, is in good standing with [REDACTED] with respect to the filing of annual reports, and has all the requisite [REDACTED] power and authority to own its properties and assets, to carry on its business as it is currently being conducted, and to enter into this Project Agreement and to perform its obligations hereunder;
 - (E) [REDACTED] is a [REDACTED] incorporated and validly existing under the laws of Canada, is in good standing with [REDACTED] with respect to the filing of annual reports, and has all the requisite [REDACTED] power and authority to own its properties and assets, to carry on its business as it is currently being conducted, and to enter into this Project Agreement and to perform its obligations hereunder;
 - (F) [REDACTED] is a [REDACTED] incorporated and validly existing under the laws of the Province of Ontario, is in good standing with [REDACTED] with respect to the filing of annual reports, and has all the requisite [REDACTED] power and authority to own its properties and assets, to carry on its business as it

is currently being conducted, and to enter into this Project Agreement and to perform its obligations hereunder;

- (ii) Project Co and the Project Co Parties, collectively, have extensive experience and are knowledgeable in the design, construction, operation, maintenance and rehabilitation of rapid transit line projects, including the supply, operation and maintenance of rapid transit line vehicles, similar to the Project in scale, scope, type and complexity and have the required ability, experience, skill and capacity to perform the Project Operations in a timely and professional manner as set out in this Project Agreement;
- (iii) Project Co has the requisite power, authority and capacity to execute, deliver and perform this Project Agreement, and to do all acts and things, and execute, deliver and perform all other agreements, instruments, undertakings and documents as are required by this Project Agreement to be done, executed, delivered or performed;
- (iv) no steps or proceedings have been taken or are pending to supersede or amend the constating documents, articles or by-laws of Project Co in a manner that would impair or limit its ability to perform the obligations of Project Co under this Project Agreement;
- (v) this Project Agreement has been duly authorized, executed, and delivered by Project Co and constitutes a legal, valid, and binding obligation of Project Co, enforceable against Project Co in accordance with its terms, subject only to:
 - (A) limitations with respect to the enforcement of remedies by bankruptcy, insolvency, moratorium, winding-up, arrangement, reorganization, fraudulent preference and conveyance and other laws of general application affecting the enforcement of creditors' rights generally; and
 - (B) general equitable principles and the fact that the availability of equitable remedies is in the discretion of a court and that a court may stay proceedings or the execution of judgments;
- (vi) the execution, delivery, and performance by Project Co of this Project Agreement does not and will not violate or conflict with, or constitute a default under:
 - (A) its constating, formation or organizational documents, including any by-laws;
 - (B) any Applicable Law; or
 - (C) any covenant, contract, agreement, or understanding to which it is a party or by which it or any of its properties or assets is bound or affected;
- (vii) no Project Co Event of Default has occurred and is continuing;
- (viii) all of the information regarding Project Co set out in Schedule 31 – Project Co Information is true and correct in all material respects;

- (ix) there are no actions, suits, proceedings, or investigations pending or threatened against Project Co or, to Project Co's knowledge, any Project Co Party at law or in equity before any Governmental Authority or arbitral body (whether or not covered by insurance) that individually or in the aggregate could result in any material adverse effect on the business, properties, or assets, or the condition, financial or otherwise, of Project Co or in any impairment of its ability to perform its obligations under this Project Agreement, and Project Co has no knowledge of any violation or default with respect to any order, writ, injunction, or decree of any Governmental Authority or arbitral body that could result in any such material adverse effect or impairment;
- (x) Project Co has:
- (A) reviewed the Background Information as required in Section 6.1 and conducted the investigations in respect of the Lands as required in Section 14.9, and without affecting anything in Section 6, Section 14 and Section 16, has conducted its own additional investigations (other than in respect of the Background Information and the Lands);
 - (B) carefully reviewed the whole of this Project Agreement, and all other documents made available to Project Co by or on behalf of Contracting Authority;
 - (C) without affecting anything in Section 6, Section 14 and Section 16, as applicable, reviewed and understood general conditions relating to the performance of the Works including the transportation, handling and storage of materials and availability of labour and the character and availability of equipment, materials and facilities needed to perform the Works; and
- to its knowledge, concluded or determined that nothing contained herein or therein inhibits or prevents Project Co from completing the Works or performing the Project Co Services in accordance with this Project Agreement in a good and safe manner so as to achieve and satisfy the requirements of this Project Agreement;
- (xi) Project Co is able to meet its obligations as they generally become due;
- (xii) Project Co is registered under Subdivision D of Division V of Part IX of the *Excise Tax Act* (Canada) and its HST registration number is [REDACTED];
- (xiii) the Scheduled Substantial Completion Date is a realistic date and is achievable by Project Co performing the Works in accordance with this Project Agreement;
- (xiv) Project Co is not a Non-Resident;
- (xv) Project Co has secured the Financing and is in a position to complete the Financing on or before the Financial Close Target Date, subject to the satisfaction of reasonable conditions that are customary in closing financing for projects similar to the Project

- (xvi) no Restricted Person has Direct or Indirect Power or Control over any member of the Project Co Group in relation to the decisions, management, actions or policies of Project Co or in relation to the operation, management and ownership of the Project;
- (xvii) to the knowledge of Project Co, following the exercise of reasonable due diligence, no Restricted Person has directly or indirectly, an Economic Interest in Project Co or the Project;
- (xviii) Project Co is not a Restricted Person; and
- (xix) either:
 - (A) the COR-Certified Construction Project Co Party is in possession of its COR Certification in good standing as required under this Project Agreement and has the ability to maintain such COR Certification in good standing at all times during the performance of the Works in accordance with its terms, provisions and conditions; or
 - (B) the COR-Qualified Construction Project Co Party:
 - (I) is in possession of its OHSAS 18001 Accreditation which remains in good standing and has the ability to maintain such OHSAS 18001 Accreditation in good standing at all times during the performance of the Works; and
 - (II) has made an application to the IHSA for its COR Certification as required under this Project Agreement.

5.2 Contracting Authority Representations and Warranties

- (a) Contracting Authority represents and warrants to Project Co that as of Commercial Close:
 - (i) Contracting Authority is a non-share capital corporation continued under the *Metrolinx Act, 2006* (Ontario) and has all of the requisite corporate power and authority to own its properties and assets, to carry on its business as it is currently being conducted, and to enter into this Project Agreement in its own name as a Crown agency of the Province in accordance with Section 3 of the *Metrolinx Act, 2006* (Ontario);
 - (ii) subject to Sections 5.2(a)(v)(C), (D) and (E), Contracting Authority is entering into this Project Agreement in its own name as a Crown agency of the Province and has the requisite power, authority and capacity to execute and deliver this Project Agreement and to bind itself personally to this Project Agreement and to provide recourse to the Province in accordance with the provisions of the *Metrolinx Act, 2006* (Ontario), including without limitation section 35 thereof, and Project Co is entitled to rely upon Contracting Authority's authority to bind itself and the recourse to the Province on such basis in respect of all other agreements, instruments, undertakings and documents executed and

delivered by Contracting Authority that are required by this Project Agreement to be executed and delivered by Contracting Authority

- (iii) subject to Sections 5.2(a)(v)(C), (D) and (E), Contracting Authority has the requisite power, authority and capacity to perform its obligations under this Project Agreement and to do all acts and things, and execute, deliver and perform all other agreements, instruments, undertakings and documents as are required by this Project Agreement to be done, executed, delivered or performed;
- (iv) Contracting Authority has obtained all necessary approvals to enter into this Project Agreement as a Crown agency;
- (v) this Project Agreement has been duly authorized, executed, and delivered by Contracting Authority and constitutes a legal, valid, and binding obligation of Contracting Authority, enforceable against Contracting Authority, subject to the provisions of the *Metrolinx Act, 2006* (Ontario), in accordance with its terms, subject only to:
 - (A) limitations with respect to the enforcement of remedies by bankruptcy, insolvency, moratorium, winding-up, arrangement, reorganization, fraudulent preference and conveyance and other laws of general application affecting the enforcement of creditors' rights generally;
 - (B) general equitable principles and the fact that the availability of equitable remedies such as specific performance and injunction may not be available against Contracting Authority and the Province and that a court may stay proceedings or the execution of judgments;
 - (C) statutory limitations of general application respecting the enforceability of claims against Contracting Authority or the Province or the property of Contracting Authority or the Province;
 - (D) any terms and conditions set out in the approval that has been provided in connection with this Project Agreement for the purposes of Section 28 of the *Financial Administration Act*, R.S.O. 1990, c. F.12; and
 - (E) with regard to the recourse against the Province, section 35 of the *Metrolinx Act, 2006* (Ontario) and the powers of the Minister of Finance to effect set offs against amounts owing by the Province pursuant to Section 43 of the *Financial Administration Act*, R.S.O. 1990, c. F.12;
- (vi) the execution, delivery, and performance by Contracting Authority of this Project Agreement does not and will not violate or conflict with, or constitute a default under:
 - (A) the *Metrolinx Act, 2006* (Ontario), or any regulations made in respect thereof;
 - (B) any Applicable Law; or

- (C) any covenant, contract, agreement, or understanding relating to the Project or the Lands to which it is a party or by which it or any of its properties or assets is bound or affected;
- (vii) Contracting Authority has, or will have, licence rights of use and access to, on and over the Metrolinx Lands sufficient to enable Contracting Authority to grant or to cause to be granted to Project Co the access rights contemplated in Section 14.1; and
- (viii) no Contracting Authority Event of Default has occurred and is continuing.

6. BACKGROUND INFORMATION

6.1 Review of Background Information

- (a) Without limiting any of its rights under Sections 6.4, 16.2, 16.3, 16.4, 16.5, 16.6, and 16.7, Project Co acknowledges and agrees that it has and shall be deemed to have:
 - (i) conducted its own review, due diligence and analysis of the Background Information in accordance with Good Industry Practice (which, for clarity, does not include any inspections in respect of the Lands beyond what is required pursuant to Section 14.9);
 - (ii) satisfied itself as to the accuracy, completeness and fitness for purpose of any such Background Information upon which it places reliance; and
 - (iii) identified and raised, prior to the Technical Reference Date, any and all ambiguities or issues requiring clarification associated with the Background Information (including the Technical Reports and the Project GBR).

6.2 No Warranty for Background Information

- (a) Except as expressly provided in Sections 6.4, 16.2, 16.3, 16.4, 16.5, 16.6, and 16.7:
 - (i) neither Contracting Authority nor any Province Person or Government Entity gives any warranty or undertaking of whatever nature in respect of the Background Information and, specifically (but without limitation), neither Contracting Authority nor any Province Person or Government Entity warrants that the Background Information represents all of the information in its possession or control (either during the conduct of the procurement process for the Project or at the time of execution and delivery of this Project Agreement) relevant or material to or in connection with the Project or the obligations of Project Co under this Project Agreement or under any of the Project Documents.
 - (ii) neither Contracting Authority nor any other Province Person or Government Entity shall be liable to Project Co or any Project Co Party in respect of any failure, whether before, on or after the execution and delivery of this Project Agreement:
 - (A) to disclose or make available to Project Co or any Project Co Party any information, documents or data;

- (B) to review or update the Background Information; or
- (C) to inform Project Co or any Project Co Party of any inaccuracy, error, omission, defect or inadequacy in the Background Information.

6.3 No Claims or Liability in Respect of Background Information

- (a) Except as expressly provided in Sections 6.4, 16.2, 16.3, 16.4, 16.5, 16.6, and 16.7, none of Contracting Authority, any Province Person, or any Government Entity shall be liable to Project Co or any Project Co Party for, and Project Co or any Project Co Party shall not claim for, or seek to recover from Contracting Authority, any Province Person, or any Government Entity, any damages, losses, costs, liabilities or expenses which may arise (whether in contract, tort or otherwise, including any claim for extensions of time or for additional payments under this Project Agreement) from:
 - (i) the adoption, use or application of the Background Information by, or on behalf of, Project Co or any Project Co Party;
 - (ii) any claim that the Background Information was incorrect, inaccurate, incomplete, insufficient or unfit for purpose;
 - (iii) any misunderstanding or misapprehension in respect of the use of the Background Information by Project Co or any Project Co Party; or
 - (iv) any failure (whether before, on, or after the execution and delivery of this Project Agreement) by Contracting Authority, any Province Person or Government Entity to:
 - (A) disclose or make available to Project Co or any Project Co Party any information, documents or data; or
 - (B) review or update the Background Information.

6.4 Exceptions

- (a) Contracting Authority agrees that, if as of Commercial Close, except as described in any Background Information or as otherwise expressly disclosed by Contracting Authority or any Contracting Authority Party, or known by Project Co or any Project Co Party, any of the information in the Technical Reports or the Project GBR is, to the actual knowledge of Contracting Authority, incorrect or there is relevant information in the possession or control of Contracting Authority that would make any of the information in the Technical Reports or the Project GBR incorrect, to the extent that such incorrect information materially adversely interferes with Project Co's ability to perform the Project Operations or materially adversely affects Project Co's cost of performing the Project Operations, such incorrect information shall, subject to and in accordance with Schedule 22 – Variation Procedure, result in a Variation.

6.5 DSHM Post-RFP Reports

- (a) If, on or before the day that is thirty (30) days prior to Financial Close (the “**DSHM Post-RFP Report Deadline**”), Contracting Authority has delivered additional reports describing any Designated Substances and Hazardous Materials on the Lands (each such report being an “**DSHM Post-RFP Report**” and, collectively, the “**DSHM Post-RFP Reports**”), the provisions of this Section 6.5 shall apply.
- (b) Subject to Section 6.5(c), to the extent that any information contained in any DSHM Post-RFP Report (being information about Designated Substances and Hazardous Materials not described in any DSHM Report) increases Project Co’s costs to perform the Works, Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation for such additional costs (a “**DSHM Variation**”).
- (c) Project Co shall:
- (i) not be entitled to any additional time or schedule relief in respect of any delay to the Works resulting from any new information contained in any DSHM Post-RFP Report (being information about Designated Substances and Hazardous Materials not described in any DSHM Report); and
 - (ii) only be entitled to a DSHM Variation where:
 - (A) the relevant DSHM Post-RFP Report was delivered by Contracting Authority prior to the DSHM Post-RFP Report Deadline; and
 - (B) Project Co has delivered to Contracting Authority a Project Co Variation Notice in respect of such DSHM Variation prior to the date that is thirty (30) days following Financial Close (“**DSHM Post-RFP Report Variation Deadline**”).
- (d) Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation for any additional costs or delay in respect of the Works resulting from any new information disclosed in a DSHM Post-RFP Report that is delivered following the DSHM Post-RFP Report Deadline, provided that Project Co provides a Project Co Variation Notice in respect of such DSHM Post-RFP Report pursuant to and in accordance with Schedule 22 – Variation Procedure.
- (e) The Parties acknowledge and agree that on the earlier of:
- (i) the DSHM Post-RFP Report Variation Deadline, and
 - (ii) the date upon which the applicable Project Co Variation Notice (if any) is submitted,
- the applicable DSHM Post-RFP Report shall be deemed to be DSHM Reports for all purposes of the Project Agreement as though it had been provided prior to the Technical Reference Date (regardless of whether Project Co submitted a Project Co Variation Notice in respect of such DSHM Post-RFP Report).

7. PROJECT DOCUMENTS

7.1 Project Documents

- (a) Project Co shall perform its obligations under, and observe all of the provisions of, each of the Project Documents to which it is a party, and shall ensure that each Project Co Party shall perform its obligations under, and observe all of the provisions of, each of the Project Documents to which such Project Co Party is a party, so as to ensure that other parties to such Project Documents shall not be entitled to terminate same. In the event that Project Co receives a Notice of default under any of the Project Documents, it shall promptly, and, in any event, no later than two (2) Business Days after receipt thereof, deliver a copy of such Notice of default to Contracting Authority.
- (b) Upon the written request of Contracting Authority or the Contracting Authority Representative, Project Co will deliver or cause to be delivered to Contracting Authority or the Contracting Authority Representative a copy of any notices or consents delivered or received by Project Co under any of the Project Documents.

7.2 Ancillary Documents

- (a) Project Co shall not:
 - (i) terminate or agree to the termination of all or part of any Ancillary Document, except pursuant to Sections 32.3, 45.5, 59.3 and 60.2 or otherwise to prevent or cure a Project Co Event of Default (provided that commercially reasonable alternative measures would not prevent or cure such Project Co Event of Default);
 - (ii) make or agree to any amendment, restatement or other modification of any Ancillary Document that materially adversely affects Project Co's ability to perform its obligations under this Project Agreement or that has the effect of increasing any liability of Contracting Authority, whether actual or potential;
 - (iii) breach its obligations (or waive, exercise or allow to lapse any rights it may have) or permit others to breach their obligations (or waive, exercise or allow to lapse any rights they may have) under any Ancillary Document, if any such breach (or waiver, exercise, or lapse) would materially adversely affect Project Co's ability to perform its obligations under this Project Agreement or would have the effect of increasing any liability of Contracting Authority, whether actual or potential; or
 - (iv) enter into, or permit the entry into by any other person of, any agreement replacing all or part of any Ancillary Document, except in the circumstances referenced in Section 7.2(a)(i),

without the prior written consent of Contracting Authority, provided that, where consent is requested pursuant to Section 7.2(a)(i) or 7.2(a)(iv), such consent shall not be withheld, and shall be provided within a reasonable time, where the relevant matter referred to in Section 7.2(a)(i) or 7.2(a)(iv) will not materially adversely affect Project Co's ability to perform its obligations under

this Project Agreement or have the effect of increasing any liability of Contracting Authority, whether actual or potential. In the event of termination or agreement to the termination of all or part of any Ancillary Document as described in Section 7.2(a)(i) or the entering into of any agreement replacing all or part of any Ancillary Document as described in Section 7.2(a)(iv), Project Co shall, to the extent applicable, comply with all provisions herein relating to changes in Subcontractors, including Section 59.3.

7.3 Changes to Lending Agreements and Refinancing

- (a) Subject to the terms of the Lenders' Direct Agreement, Project Co shall not terminate, amend or otherwise modify the Lending Agreements, or waive or exercise any of its rights under the Lending Agreements, if, at the time such action is contemplated and effected, it would materially adversely affect Project Co's ability to perform its obligations under this Project Agreement or the Project Documents or have the effect of increasing any liability of Contracting Authority, whether actual or potential, unless:
 - (i) such action is a Permitted Borrowing; or
 - (ii) such action is a Refinancing, other than a Mandatory Refinancing, effected in accordance with the provisions of Schedule 28 – Refinancing.

7.4 Compliance with Lending Agreements

- (a) Project Co shall keep the Lending Agreements in good standing to the extent necessary to perform its obligations under this Project Agreement and the Project Documents, and shall ensure that none of the terms and conditions of the Lending Agreements shall prevent Project Co from performing its obligations under this Project Agreement or the Project Documents.
- (b) Project Co acknowledges and agrees that the Lending Agreements shall provide financing solely in connection with this Project and not with respect to the South Civil Project or North Civil Project.

8. CONTRACTING AUTHORITY'S RESPONSIBILITIES

8.1 General

- (a) Contracting Authority shall, at its own cost and risk:
 - (i) perform all of its obligations under, and observe all provisions of, this Project Agreement in compliance with Applicable Law; and
 - (ii) cooperate with Project Co in the fulfillment of the purposes and intent of this Project Agreement, provided, however, that Contracting Authority shall not be under any obligation to perform any of Project Co's obligations under this Project Agreement.

- (b) Contracting Authority shall, and shall cause all Contracting Authority Parties to, take reasonable steps to minimize undue interference with the provision of the Project Operations by Project Co or any Project Co Party.
- (c) Nothing in this Project Agreement shall in any way fetter the right, authority and discretion of Contracting Authority or any Province Person or Government Entity in fulfilling its statutory or other functions under Applicable Law, and Project Co understands and agrees that nothing in this Project Agreement shall preclude Contracting Authority's board of directors (or any designate appointed pursuant to Section 63.1 of this Project Agreement) from performing, discharging or exercising its duties, responsibilities, and powers under Applicable Law. Project Co further agrees that, subject to Section 39.1(b), it shall comply, and shall cause all relevant Project Co Parties to comply, with all written directions issued by or on behalf of Contracting Authority's board of directors (or any designate appointed pursuant to Section 63.1 of this Project Agreement) from time to time.
- (d) For greater certainty, Metrolinx shall be liable for all of the obligations of Contracting Authority under this Project Agreement.

8.2 Contracting Authority Permits, Licences, Approvals and Agreements

- (a) Contracting Authority shall comply with all of its obligations set out in Schedule 34 – Permits, Licences, Approvals and Agreements.
- (b) Contracting Authority shall comply with all Permits, Licences, Approvals and Agreements in accordance with their terms.

9. PROJECT CO RESPONSIBILITIES

9.1 Other Business

- (a) Project Co shall not engage in any activities which are not specifically related to, required by and conducted for the purpose of the Project without the prior written consent of Contracting Authority, in its sole discretion.

9.2 General

- (a) Project Co shall, at its own cost and risk:
 - (i) perform all of its obligations under, and observe all provisions of, this Project Agreement in compliance with Applicable Law;
 - (ii) perform all Project Operations:
 - (A) in compliance with Applicable Law;
 - (B) so as to satisfy the Output Specifications;
 - (C) in accordance with Good Industry Practice;

- (D) in a manner consistent with the Quality Plans and the Project Co Proposal Extracts;
 - (E) in a timely and professional manner;
 - (F) with due regard to the health and safety of persons and property;
 - (G) subject to the other provisions of this Project Agreement, in a manner which will not impair the ability of Contracting Authority, any Contracting Authority Party, any Province Persons, or any Government Entity to comply with Applicable Law;
 - (H) subject to the other provisions of this Project Agreement, in a manner which will not impair the performance of the Governmental Activities; and
 - (I) in accordance with all other terms of this Project Agreement.
- (iii) cooperate with Contracting Authority in the fulfillment of the purposes and intent of this Project Agreement, provided however that Project Co shall not be under any obligation to perform any of Contracting Authority's obligations under this Project Agreement;
 - (iv) cooperate with Contracting Authority as reasonably required by Contracting Authority in respect of Contracting Authority's consultations with the City, the Toronto Transit Commission, MTO and each Railway Company in relation to the Project and the Project Operations;
 - (v) cooperate and assist Contracting Authority in any dispute relating to the Project or the Project Agreement arising out of any of the Third Party Agreements, including attending at hearings, providing information, and doing such other things as Contracting Authority may reasonably require to resolve the dispute;
 - (vi) promptly, or immediately in the case of a defect which may result in a health or safety matter, notify the Contracting Authority Representative, to the extent that Project Co becomes aware of any defect in the property or Existing Third Party Infrastructure of:
 - (A) the City of Toronto, excluding the New City Infrastructure;
 - (B) the Toronto Transit Commission, excluding the New TTC Infrastructure; or
 - (C) a Railway Company Owner, excluding New Railway Company Infrastructure;
 - (vii) enter into any agreements that may be required by Utility Companies to complete the Works, subject to and in accordance with Section 9.15;
 - (viii) coordinate with the City, the Toronto Transit Commission, MTO, each Utility Company and each Railway Company all Construction Activities relating to Existing Third Party Infrastructure owned by each such third party and its applicable New Third Party

Infrastructure (including the provision of the Project Works Schedule relating to such infrastructure) so as to minimize the impact of Construction Activities on such third party's operations and the services provided by such third party to the public;

- (ix) promptly, or immediately in the case of anything relating to health or safety, notify Contracting Authority with respect to,
 - (A) any injuries to persons on Lands owned by or leased to the City, the Toronto Transit Commission, MTO or such Railway Company Owner, or damage to any infrastructure or Lands owned by or leased to any of them that occurs during the course of the Project Operations;
 - (B) any significant developments during the Construction Period that affect infrastructure or Lands owned by or leased to the City, the Toronto Transit Commission, MTO, or such Railway Company Owner; and
 - (C) any proposed decision where the effect thereof may reasonably be expected to affect the design, functionality, safety or integrity of any part of any infrastructure that belongs to the City, the Toronto Transit Commission, MTO, or such Railway Company Owner; and
- (x) promptly, or immediately in the case of anything relating to health or safety,
 - (A) notify Contracting Authority upon the receipt or notice of (and provide Contracting Authority with copies of any correspondence received in relation to), any incident report, investigation report, inspection, order, charge or similar correspondence (in each case, whether in draft or final form) issued by the Ministry of Labour or any other Governmental Authority in respect of the Project Operations; and
 - (B) following a request by Contracting Authority, provide Contracting Authority with a copy of any health and safety investigation report completed by Project Co.
- (b) If Metrolinx executes an agreement with the City, the Toronto Transit Commission, a Railway Company, or any third party owner, other than any Civil Contractor or TOC Contractor, of infrastructure which affects this Project, (each, a **"Third Party Agreement"**) and Metrolinx provides a copy of the Third Party Agreement or a template agreement upon which Metrolinx intends to base a Third Party Agreement (each, a **"Template Third Party Agreement"**) to Project Co, then the following shall apply:
 - (i) if, at any time prior to the Technical Reference Date, Metrolinx provided,
 - (A) a copy of an executed Third Party Agreement to Project Co; or
 - (B) a copy of a Template Third Party Agreement to Project Co, and Metrolinx subsequently enters into a Third Party Agreement on terms and conditions that

are inconsistent with the Template Third Party Agreement but that would not result in a material change to the Works (including, for clarity, if Metrolinx enters into the Third Party Agreement following the Technical Reference Date),

then Project Co shall, at Project Co's own cost, ensure that Project Co and the Project Co Parties do not contravene or cause Metrolinx to contravene the applicable Third Party Agreement(s).

- (ii) If, at any time following the Technical Reference Date, Metrolinx provides a copy of a Third Party Agreement to Project Co and either (x) Metrolinx did not provide a copy of the applicable Template Third Party Agreement to Project Co prior to the Technical Reference Date in accordance with Section 9.2(b)(i)(B) or (y) such Third Party Agreement contains terms and conditions that are inconsistent with the applicable Template Third Party Agreement and would result in a material change to the Works, then,
 - (A) Project Co shall, at Project Co's own cost, ensure that Project Co and the Project Co Parties do not contravene or cause Metrolinx to contravene the Third Party Agreement; and
 - (B) to the extent that Project Co's performance of its obligations set out in Section 9.2(b)(ii)(A) requires Project Co to perform any alteration, addition, Demolition, extension or variation to the Works and would not otherwise be required of Project Co under the Project Agreement, then such change shall, subject and in accordance with Schedule 22 – Variation Procedure, result in a Variation.
- (c) Project Co shall enter into an Occupancy Agreement within fifteen (15) Business Days of Financial Close with respect to the Project Office as directed by Contracting Authority, a draft form of which is included in the Background Information. The following shall apply with respect to the Occupancy Agreement:
 - (i) if Contracting Authority directs Project Co to enter into a final form of Occupancy Agreement that is substantially the same as the draft form of Occupancy Agreement included in the Background Information as at the Technical Reference Date, then Project Co shall enter into such Occupancy Agreement and, at Project Co's own cost, ensure that Project Co and the Project Co Parties comply with and do not contravene such Occupancy Agreement; and
 - (ii) if Contracting Authority directs Project Co to enter into a final form of Occupancy Agreement that contains terms and conditions that are inconsistent with and materially different from the draft form of Occupancy Agreement included in the Background Information as at the Technical Reference Date, then Project Co shall enter into such Occupancy Agreement and, at Project Co's own cost, ensure that Project Co and the Project Co Parties comply with and do not contravene such Occupancy Agreement, provided that such changes shall, subject and in accordance with Schedule 22 – Variation Procedure, result in a Variation.

- (d) For greater certainty, the Parties hereby acknowledge and agree that:
- (i) the Early Contractor Activities, if any, form part of the Works; and
 - (ii) any Early Contractor Activities performed or completed by Project Co prior to the date hereof are subject to the terms and provisions of this Project Agreement.

9.3 Liability Unaffected

- (a) Project Co shall not be relieved of any liability or obligation under this Project Agreement by the appointment of any Project Co Party, and Project Co shall cause each Project Co Party, to the extent such Project Co Party performs or is specified hereunder to perform the Project Operations, to comply with the obligations of Project Co hereunder in the same manner and to the same extent as Project Co.
- (b) No inspection, review, comment, approval, verification, confirmation, certification, acknowledgement or audit pursuant to the provisions of this Project Agreement by Contracting Authority, the Contracting Authority Representative, Lenders' Consultant, the City of Toronto, MTO or anyone on their behalf, nor any failure of any of them to do so, shall relieve Project Co from performing or fulfilling any of its obligations under this Project Agreement or be construed as an acceptance of the Works or any part thereof.

9.4 Project Co Permits, Licences, Approvals and Agreements

- (a) Contracting Authority and Project Co shall comply with all of their respective obligations set out in Schedule 34 – Permits, Licences, Approvals and Agreements.
- (b) Project Co shall comply with all Permits, Licences, Approvals and Agreements in accordance with their terms.

9.5 Safety and Security

- (a) Project Co shall until the Substantial Completion Date, and following the Substantial Completion Date solely in relation to Construction Activities:
- (i) comply with the Contractor Site Specific Safety Manual;
 - (ii) subject to Section 9.5(d), keep the Site (including Existing Third Party Infrastructure on the Site), Metrolinx Lands Discrete Parcels (once access to the Metrolinx Lands Discrete Parcels has been granted to Project Co in accordance with Section 14.1(a) and Schedule 35 – Lands), New Third Party Infrastructure and Ontario Line Subway in a safe and orderly state, as appropriate in accordance with the Contractor Site Specific Safety Manual and Good Industry Practice, to avoid danger to persons on the Site (including Existing Third Party Infrastructure on the Site), Metrolinx Lands Discrete Parcels, New Third Party Infrastructure and Ontario Line Subway and in the immediate vicinity of the Site (including Existing Third Party Infrastructure on the Site), Metrolinx Lands Discrete Parcels, New Third Party Infrastructure and Ontario Line Subway;

- (iii) except as set out in Section 9.5(d), take such measures as are reasonable in accordance with Good Industry Practice to maintain and secure the Site (including Existing Third Party Infrastructure on the Site), Metrolinx Lands Discrete Parcels, New Third Party Infrastructure and Ontario Line Subway to prevent access of any persons or creatures not entitled to be there once Project Co has been granted access to the Site or Metrolinx Lands Discrete Parcels, as applicable, or has commenced the Works on the New Third Party Infrastructure and Ontario Line Subway;
 - (iv) comply, and cause each Project Co Party to comply,
 - (A) with Applicable Law relating to health and safety, including the *Occupational Health and Safety Act* (Ontario) and all regulations thereto; and
 - (B) with any direction or instruction (each of which shall be deemed to be Applicable Law) from Transport Canada arising from any contractual arrangement or Board Order involving (I) Transport Canada and Metrolinx or (II) Transport Canada and GO Transit, as applicable, with respect to the Rail Corridor and facilitate and provide cooperation with respect to any inspections by Transport Canada on the Lands;
 - (v) with respect to the Works, identify the Project Co Party that is, or whose partners or members are each, a COR-Certified Construction Project Co Party or, prior to receipt of COR Certification, a COR-Qualified Construction Project Co Party, with the greatest degree of control over the Works' health and safety matters, and cause said Project Co Party to perform, all of the obligations of the "constructor", and indemnify Contracting Authority, each Province Person, and each Government Entity against any and all of the liabilities of the "constructor", under the *Occupational Health and Safety Act* (Ontario) and all regulations thereto;
 - (vi) provide Contracting Authority with a certificate of good standing from WSIB or any successor thereto once every ninety (90) days from Financial Close until Final Completion, and from Final Completion until the Termination Date, at the request of the Contracting Authority Representative from time to time; and
 - (vii) facilitate and provide cooperation with respect to any inquiry or investigation of the MOL with respect to the Project.
- (b) Project Co shall ensure the Project Co Party identified pursuant to Section 9.5(a)(v) above registers the Project with the MOL by way of Notice of Project, pursuant to Applicable Law. Project Co shall ensure the Project Co Party identified pursuant to Section 9.5(a)(v) above shall identify as the "constructor" on the Notice of Project.
- (c) Project Co shall cause the Construction Contractor to deliver at least one copy of the Contractor Site Specific Safety Manual in accordance with Schedule 29 – Safety, System Assurance and Security and maintain the Contractor Site Specific Safety Manual (as it may be amended by the Construction Contractor from time to time) at the Site for the duration of the Construction Period.

- (d) New Third Party Infrastructure shall, for all purposes of this Project Agreement, become Existing Third Party Infrastructure on the earlier of,
 - (i) the date that there is a Handover of that portion of the New Third Party Infrastructure from Project Co to the applicable third party; and
 - (ii) Final Completion.
- (e) During the Operational Term, Project Co shall:
 - (i) cooperate with Contracting Authority and any Governmental Authority, as appropriate, with a view to securing and protecting the security of the Ontario Line Subway and protecting the security of System Users;
 - (ii) notify Contracting Authority of any breach of security or potential breach of security on or off the Ontario Line Subway;
 - (iii) cooperate with Contracting Authority, any Governmental Authority and the Emergency Service Provider in relation to the planning, organisation and control of extraordinary Passenger movements resulting from the holding of special events as contemplated pursuant to the Output Specifications;
 - (iv) cooperate with any special enquiries or investigations carried out by Contracting Authority, Emergency Service Providers or any Governmental Authority as a result of accidents, incidents or changes in Applicable Law, and Project Co shall promptly provide to Contracting Authority, the Emergency Service Providers and any Governmental Authority (as the case may be) all information, resources and facilities within Project Co's control which are reasonably required for such enquiries or investigations;
 - (v) comply with the System Safety Plan, Security Plan and Emergency Response Plan;
 - (vi) follow the safety and security instructions set out in the Subway Rules and Standard Operating Procedures, including any verbal instructions by individuals authorized in accordance with the Subway Rules and Standard Operating Procedures, and comply with all requirements set out in the Output Specifications related to safety and security;
 - (vii) with respect to the OMSF,
 - (A) keep the OMSF in a safe and orderly state, as appropriate in accordance with Good Industry Practice and in accordance with the Output Specifications; and
 - (B) take such measures as are reasonable in accordance with Good Industry Practice and as are required by the Output Specifications to secure the OMSF;
 - (viii) in an Emergency situation or when an urgent security matter arises in respect of the safety or security of the Ontario Line Subway, the System Users or the OMSF, take

instruction from Contracting Authority with respect to maintaining the security and safety of the Ontario Line Subway, the System Users, and the OMSF; and

- (ix) with respect to the Project Co Services, cause a COR-Certified Service Provider Project Co Party or, prior to receipt of COR Certification, a COR-Qualified Service Provider Project Co Party, to perform all Project Co Services and indemnify Contracting Authority and each Province Person against any and all of the liabilities of the “constructor”, under the *Occupational Health and Safety Act* (Ontario) and all regulations thereto.
- (f) At any time that the Works are being carried out in or around the South Civil Project Infrastructure, the North Civil Project Infrastructure, the South Civil Project Lands or the North Civil Project Lands prior to such infrastructure or land being handed over to Project Co pursuant to Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable, the Project Co Party identified pursuant to Section 9.5(a)(v) shall at all times ensure that it complies with all safety requirements set out in the Project Agreement, including those set out in Section 9.5(a) above, and any safety requirements or directions of South Civil Project Co or North Civil Project Co, as applicable.
- (g) If the MOL determines, that the Project Co Party identified pursuant to Section 9.5(a)(v) is not the “constructor” for the Site (including, for certainty, any South Civil Project Lands or North Civil Project Lands that have been handed over to Project Co pursuant to Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable) or any portion thereof, then the following shall apply:
 - (i) All Project Co Parties shall comply with the instructions of the “constructor” relating to matters of health and safety on the Site, methods and manner of construction, and coordination and scheduling of the “constructor’s” works with the Works.
 - (ii) If the activity or presence of Project Co or a Project Co Party on the Site caused, in whole or in part, MOL to determine that the Project Co Party identified pursuant to Section 9.5(a)(v) is not the “constructor” for the Site or any portion thereof, all Project Co Parties will immediately take any necessary remedial action, including vacating the Site to ensure that the MOL determines that the Project Co Party identified pursuant to Section 9.5(a)(v) is the “constructor”.
 - (iii) If a third party is named “constructor” by MOL, no Project Co Party shall interfere with or delay the third party’s work, and shall not do anything whatsoever that causes the third party to be in contravention of its obligations under the *Occupational Health and Safety Act* (Ontario). All Project Co Parties shall immediately cease and desist any activity that results or has a likelihood of resulting in such interference with or delay of the work of the third party.
 - (iv) If the MOL determines that Contracting Authority or a third party contractor (including a Civil Contractor) has been designated as the “constructor” under the *Occupational Health and Safety Act* (Ontario), and such determination by the MOL is caused or contributed to by a failure of any Project Co Party to comply with, or a breach by any Project Co Party of, the provisions of the Project Agreement (but only to the extent of such cause or

contribution), Project Co shall indemnify Contracting Authority and the Province Persons and each of their respective directors, officers, employees, agents and representatives from and against any and all of the liabilities arising from such determination by the MOL, and all Project Co Parties shall follow all directions of Contracting Authority required to fulfil any obligations Contracting Authority may have as a consequence of being designated the “constructor”.

- (v) In the event that a breach by the Project Co Party identified pursuant to Section 9.5(a)(v) of the provisions of the Project Agreement causes or contributes to (but only to the extent of such cause or contribution) an MOL determination that the Project Co Party identified pursuant to Section 9.5(a)(v) is not the “constructor” for the Site or any portion thereof, or if the Project Co Party identified pursuant to Section 9.5(a)(v) is denied access to the Site pursuant to Section 9.5(g)(ii), Project Co will not be eligible for a Delay Event or a Compensation Event.
- (vi) If the MOL determines that Contracting Authority or a third party contractor (including a Civil Contractor) has been designated as the “constructor” under the *Occupational Health and Safety Act* (Ontario), and such determination by the MOL is for a reason other than a failure of any Project Co Party to comply with, or a breach by any Project Co Party of, the provisions of the Project Agreement (but only to the extent of such cause or contribution), then, to the extent that Project Co’s performance of its obligations set out in this Section 9.5(g) would result in a material change to the Works and would not otherwise be required of Project Co under the Project Agreement, such change shall, subject and in accordance with Schedule 22 – Variation Procedure, result in a Variation.
- (h) Subject to the *Occupational Health and Safety Act* (Ontario), the parties agree that with respect to (i) the South Civil Project Lands, South Civil Project Co shall be the “constructor” with respect to any work on any South Civil Infrastructure Section on the South Civil Project Lands (and any South Civil Infrastructure Subsections forming part thereof) until the applicable South Civil Infrastructure Section Handover Date, and the Project Co Party identified pursuant to Section 9.5(a)(v) shall be the “constructor” on such lands following the applicable South Civil Infrastructure Section Handover Date, and (ii) the North Civil Project Lands, North Civil Project Co shall be the “constructor” with respect to any work on any North Civil Infrastructure Section on the North Civil Project Lands (and any North Civil Infrastructure Subsections forming part thereof) until the applicable North Civil Infrastructure Section Handover Date, and the Project Co Party identified pursuant to Section 9.5(a)(v) shall be the “constructor” on such lands following the applicable North Civil Infrastructure Section Handover Date.
- (i) Project Co shall comply with Schedule 29 – Safety, System Assurance and Security.
- (j) Project Co shall comply with the requirements set out in Schedule 40 – Rail Corridor Access and Flagging in respect of the interaction between Project Co, CN Rail, VIA Rail, GO Transit and any other users of the Rail Corridor with respect to the activities to be performed in, on, under and/or adjacent to the Rail Corridor.

9.6 Health and Safety Certification

- (a) Project Co shall, at its own cost and risk, at all times during the performance of the Works cause a COR-Qualified Construction Project Co Party or COR-Certified Construction Project Co Party, as the case may be, to:
- (i) to the extent a COR-Qualified Construction Project Co Party has not obtained COR Certification prior to Financial Close,
 - (A) use best efforts to obtain its COR Certification no later than eighteen (18) months following Financial Close. In the event that Contracting Authority is satisfied, in its sole discretion, that the COR-Qualified Construction Project Co Party has used best efforts to obtain its COR Certification in accordance with this Section 9.6 and the COR-Qualified Construction Project Co Party has not obtained COR Certification by the end of such eighteen (18) month period, then Contracting Authority shall establish a time period during which the COR-Qualified Construction Project Co Party shall obtain its COR Certification, which time period shall not be less than thirty (30) days; and
 - (B) maintain in good standing and, as applicable, renew its OHSAS 18001 Accreditation or ISO 45001 Accreditation;
 - (ii) once the COR-Qualified Construction Project Co Party is certified (hereafter referred to as a “**COR-Certified Construction Project Co Party**”), maintain in good standing, and, as applicable, renew its COR Certification; and
 - (iii) comply with all requirements of its OHSAS 18001 Accreditation or ISO 45001 Accreditation (if a COR-Qualified Construction Project Co Party) or COR Certification (if a COR-Certified Construction Project Co Party), in accordance with its terms.
- (b) Project Co shall, at its own cost and risk, at all times beginning on the date the Substantial Completion Countdown Notice is issued until the end of the Project Term cause the COR-Qualified Service Provider Project Co Party or COR-Certified Service Provider Project Co Party to:
- (i) to the extent a COR-Qualified Service Provider Project Co Party has not obtained its COR Certification prior to the date the Substantial Completion Countdown Notice is issued, use best efforts to obtain its COR Certification no later than six (6) months following the date the Substantial Completion Countdown Notice is issued. In the event that Contracting Authority is satisfied, in its sole discretion, that the COR-Qualified Service Provider Project Co Party has used best efforts to obtain its COR Certification in accordance with this Section 9.6 and the COR-Qualified Service Provider Project Co Party has not obtained its COR Certification by the end of such six (6) month period, then Contracting Authority shall establish a time period during which the COR-Qualified Service Provider Project Co Party shall obtain its COR Certification, which time period shall not be less than thirty (30) days;

- (ii) once the COR-Qualified Service Provider Project Co Party is certified (thereafter referred to as a “**COR-Certified Service Provider Project Co Party**”), maintain in good standing, and, as applicable, renew its COR Certification; and
 - (iii) comply with all requirements of its COR Certification in accordance with its terms.
- (c) Without limiting any other provision of this Project Agreement, if at any time during the performance of the Project Operations:
- (i) a COR-Qualified Construction Project Co Party or a COR-Qualified Service Provider Project Co Party fails to obtain its COR Certification in accordance with this Project Agreement and Contracting Authority determines that the failure to obtain the COR Certification is as a result of such COR-Qualified Construction Project Co Party or such COR-Qualified Service Provider Project Co Party, as the case may be, not using best efforts to obtain such certification and Contracting Authority delivers a Notice to Project Co indicating that a COR-Qualified Construction Project Co Party or a COR-Qualified Service Provider Project Co Party, as the case may be, has failed to obtain its COR Certification in accordance with this Project Agreement; or
 - (ii) a COR-Qualified Construction Project Co Party fails to maintain its OHSAS 18001 Accreditation or ISO 45001 Accreditation in good standing in accordance with its terms or in accordance with this Project Agreement; or
 - (iii) a COR-Certified Construction Project Co Party or a or a COR-Certified Service Provider Project Co Party, as the case may be, fails to maintain its COR Certification in good standing in accordance with its terms or in accordance with this Project Agreement;

(each, an “**H&S Certification Default Event**”); or
 - (iv) Contracting Authority delivers a Notice to Project Co indicating that Contracting Authority is of the opinion that a COR-Qualified Construction Project Co Party will fail to maintain its OHSAS 18001 Accreditation or ISO 45001 Accreditation in good standing in accordance with its terms or in accordance with this Project Agreement; or
 - (v) Contracting Authority delivers a Notice to Project Co indicating that Contracting Authority is of the opinion that a COR-Certified Construction Project Co Party or COR-Certified Service Provider Project Co Party, as the case may be, will fail to maintain its COR Certification in good standing in accordance with its terms or in accordance with this Project Agreement,
- Project Co shall:
- (vi) immediately upon the occurrence of an H&S Certification Default Event, notify Contracting Authority that an H&S Certification Default Event has occurred, and:

- (A) produce and deliver to Contracting Authority a report identifying the reasons for the failure to obtain or maintain in good standing the COR Certification, OHSAS 18001 Accreditation or ISO 45001 Accreditation, as the case may be;
 - (B) produce and deliver to Contracting Authority a plan showing the steps that are to be taken to have the COR Certification, OHSAS 18001 Accreditation or ISO 45001 Accreditation, as the case may be, obtained or reinstated in good standing within a period of not more than thirty (30) days (the “**H&S Certification Reinstatement Plan**”), which H&S Certification Reinstatement Plan shall be subject to review and approval by Contracting Authority and, to the extent Contracting Authority requires any amendments or revisions to be made to the H&S Certification Reinstatement Plan, Project Co shall take, and shall cause the COR-Qualified Construction Project Co Party, the COR-Certified Construction Project Co Party, the COR-Qualified Service Provider Project Co Party, or the COR-Certified Service Provider Project Co Party, as the case may be, to take, all reasonable steps as may be necessary to make all such required amendments and revisions and deliver to Contracting Authority an amended H&S Certification Reinstatement Plan not more than five (5) Business Days from the date on which such request is made by Contracting Authority;
 - (C) no later than five (5) Business Days after the H&S Certification Default Event occurs, arrange to have conducted a complete H&S Construction Inspection or H&S Services Inspection, as the case may be, in accordance with Section 13(b); and
 - (D) arrange to have conducted an H&S Construction Re-Inspection or H&S Services Re-Inspection, as the case may be in accordance with Section 13(f), if required; or
- (vii) within five (5) Business Days of receipt of the Notice from Contracting Authority under Section 9.6(c)(iv) or Section 9.6(c)(v):
- (A) produce and deliver to the Contracting Authority Representative a report identifying the manner in which the COR Certification, OHSAS 18001 Accreditation or ISO 45001 Accreditation, as the case may be, shall be maintained in good standing or obtained, as applicable;
 - (B) produce and deliver to the Contracting Authority Representative a plan showing the steps that are to be taken to ensure that the COR Certification, OHSAS 18001 Accreditation or ISO 45001 Accreditation, as the case may be, will be maintained in good standing without interruption (the “**H&S Certification Maintenance Plan**”), which H&S Certification Maintenance Plan shall be subject to review and approval by Contracting Authority and, to the extent Contracting Authority require any amendments or revisions to be made to the H&S Certification Maintenance Plan, Project Co shall take all reasonable steps as may be necessary to make all such required amendments and revisions and deliver to Contracting Authority an amended H&S Certification Maintenance Plan not more than five

(5) Business Days from the date on which such request is made by Contracting Authority;

- (C) arrange to have conducted a complete H&S Construction Inspection or H&S Services Inspection, as the case may be, in accordance with Section 13(b); and
- (D) arrange to have conducted an H&S Construction Re-Inspection or H&S Services Re-Inspection, as the case may be, in accordance with Section 13(f), if required.

9.7 Protest and Trespass

- (a) Except as otherwise provided in this Project Agreement, Contracting Authority shall not be responsible for the presence of any persons participating in a Protest Action (“**Protesters**”) or any other persons otherwise not entitled to be on or around the Lands (“**Trespassers**”). For greater certainty, the presence of, or interference by, any Protesters or Trespassers on or around the Metrolinx Lands shall not be a breach of the obligation of Contracting Authority to grant licence rights of use and access to Project Co on and over the Metrolinx Lands pursuant to Section 14 nor a breach of any other obligation, representation or warranty under this Project Agreement.
- (b) Subject to Section 9.7(c) and as otherwise set out in this Project Agreement, during the Operational Term, in respect of the public areas of any Station during normal operating hours, Project Co shall follow the instructions of Contracting Authority and the Police Service with respect to the management of Protesters and Trespassers and Project Co shall promptly notify the Contracting Authority Representative of the occurrence of any Protesters or Trespassers on the Operational Term Lands or Ontario Line Subway. If any instructions received by Project Co from Contracting Authority and the Police Service with respect to the management of Protesters and Trespassers conflict, Project Co shall act in accordance with the instructions of the Police Service to the extent of such conflict and, in so doing, shall, to the extent of the such conflict, be deemed to be acting in accordance with this Section 9.7(b) notwithstanding the applicable instructions of Contracting Authority. For clarity, Project Co’s obligations with respect to the Operational Term Lands shall commence only upon the commencement of the Operational Term, and following receipt of the Notice to be delivered by Contracting Authority in accordance with Section 14.1(i).
- (c) The management of any Protesters or Trespassers shall be the responsibility of Project Co,
 - (i) throughout the Construction Period in respect of the Site (including Existing Third Party Infrastructure on the Site), Metrolinx Lands Discrete Parcels (once access to each of the Metrolinx Lands Discrete Parcels has been granted to Project Co in accordance with Section 14.1(a) and Schedule 35 – Lands), New Third Party Infrastructure and Ontario Line Subway; and
 - (ii) throughout the Operational Term in respect of:
 - (A) the Ontario Line Subway other than the public areas of any Station during normal operating hours; and

- (B) the Metrolinx Lands occupied by the OMSF, Emergency Egress Buildings and Emergency Service Buildings,

to the extent such management is not otherwise the responsibility of the Police Service or the Security Provider.

- (d) If, during the periods set out in Section 9.7(c)(i) and Section 9.7(c)(ii), Protesters or Trespassers occupy the Site, lands, facilities or infrastructure referred to in Section 9.7(c)(i) or Section 9.7(c)(ii), or access to such Site, lands, facilities, or infrastructure is prevented or interfered with by Protesters or Trespassers, Project Co shall use all appropriate measures reasonable in the circumstances to manage such Protesters or Trespassers and Project Co shall promptly notify the Contracting Authority Representative of such occurrence and of the action which Project Co proposes to take in respect thereof. Project Co may exercise any legal remedy available to it to remove Protesters or Trespassers from the Site, lands, facilities or infrastructure referred to in Section 9.7(c)(i) or Section 9.7(c)(ii), provided that if Project Co does elect to exercise any such legal remedy, Project Co shall give the Contracting Authority Representative at least 24 hours' Notice prior to commencing any such legal proceeding (except in a case of Emergency, danger to persons or material destruction or material damage to property where, in such circumstances, such Notice may be given to Contracting Authority less than 24 hours prior to the commencement of such legal proceeding) and shall continually update the Contracting Authority Representative as to the status of any such legal proceeding in reasonable detail and at reasonable intervals, and provided further that:
 - (i) Project Co shall not give directly or indirectly to any Protester or Trespasser any inducement, monetary or otherwise, with a view to avoiding, limiting or influencing the manner of protest activities by that Protester or Trespasser or by other Protesters or Trespassers; and
 - (ii) Project Co shall not by virtue of this Section 9.7(d) be prevented from entering into bona fide settlements of claims brought against it by Protesters or Trespassers which provide for reasonable payments in satisfaction of such claims or agreeing to any reasonable cost orders in any proceedings.
- (e) Project Co may request the assistance of Contracting Authority (at the cost of Project Co) to remove Protesters or Trespassers during the periods, and for the Site, lands, facilities or infrastructure, set out in Section 9.7(c)(i) or Section 9.7(c)(ii) if Project Co demonstrates to Contracting Authority's reasonable satisfaction that:
 - (i) Project Co is pursuing all legal remedies available to it to remove the Protesters or Trespassers (provided that for this purpose Project Co may, but shall not be obligated to, prosecute injunctive or other judicial remedies beyond the court of first instance); and
 - (ii) the continued presence of the Protesters or Trespassers is having a material adverse effect on the conduct of the Works or the Project Co Services (as the case may be) that Project Co is unable to mitigate.

Following such request, Contracting Authority shall notify Project Co whether Contracting Authority can lawfully provide any assistance in relation to the removal of the Protesters or Trespassers that is not independently available to Project Co and, to the extent that such assistance can be lawfully provided, Contracting Authority shall provide such assistance (at the cost of Project Co) to the extent it is, in the discretion of Contracting Authority, reasonable and appropriate in the circumstances to do so.

- (f) If, during the Construction Period, Project Co experiences a Protest Action on the Site (including Existing Infrastructure on the Site), Metrolinx Lands, New Third Party Infrastructure or Project Co Infrastructure, or access by Project Co to the Site (including Existing Infrastructure on the Site), Metrolinx Lands, New Third Party Infrastructure or Project Co Infrastructure is prevented or materially interfered with by a Protest Action, then:
- (i) the Protest Action shall, subject to and in accordance with Section 40, be treated as a Delay Event provided that Project Co has exhausted all legal remedies available to it to seek injunctive relief or other judicial remedies from a court of first instance and to enforce such injunction or other remedy granted by such court to remove Protesters and Trespassers in such Protest Action from the Site (including Existing Infrastructure on the Site), Metrolinx Lands, New Third Party Infrastructure and Project Co Infrastructure, provided that Project Co shall not be obligated to prosecute injunctive or other judicial remedies beyond the court of first instance with respect to such removal of Protesters and Trespassers; and
 - (ii) Project Co shall be entitled to a Variation in respect of the Direct Costs incurred by Project Co in connection with such Protest Action, subject to and in accordance with Schedule 22 – Variation Procedure, excluding the first \$[REDACTED] of all Direct Costs incurred by Project Co cumulatively in connection with all Protest Actions throughout the Construction Period which would have been payable to Project Co in accordance with Section 9.7(f)(i),

except to the extent that any delay or Direct Costs incurred by Project Co were caused, or contributed to, by a breach of this Project Agreement by Project Co or any Project Co Party.

- (g) If during the Operational Term, Project Co experiences a Protest Action at any Station or the Guideway, or access by Project Co to any Station or the Guideway is prevented or materially interfered with by a Protest Action, then:
- (i) the Protest Action shall, subject to and in accordance with Section 42, be treated as an Excusing Cause; and
 - (ii) Project Co shall be entitled to a Variation in respect of the Direct Costs incurred by Project Co in connection with such Protest Action, subject to and in accordance with Schedule 22 – Variation Procedure,

except to the extent that any Direct Costs incurred by Project Co were caused, or contributed to, by a breach of this Project Agreement by Project Co or any Project Co Party.

- (h) For the purposes of calculating the first \$[REDACTED] of Direct Costs pursuant to Section 9.7(f)(ii), such amount shall not include any amount or amounts which Project Co or a Project Co Party recovers, or is entitled to recover, under any insurance policy, or would have recovered if it had complied with the requirements of this Project Agreement in respect of insurance or the terms of any policy of insurance required under this Project Agreement, which amount, for greater certainty, shall not include any excess or deductibles or any amount over the maximum amount insured under any such insurance policy.

9.8 Additional Works and Third Party Works

- (a) Project Co shall, having regard to Project Co's obligations set out in Section 15, arrange and carry out all coordination of the Project Operations with the Third Party Works directly with the applicable Third Party Contractor.
- (b) Contracting Authority may, in its sole discretion, carry out Additional Works.
- (c) Contracting Authority may, in its sole discretion, assign the responsibility for directing the methods and manner of construction (where applicable) of the Additional Works, the coordination and scheduling of the Additional Works and the safety training in respect of the Additional Works to Project Co during either or both of the Construction Period or Operational Term.
- (d) In connection with the Additional Works taking place prior to the Substantial Completion Date, or thereafter where Project Co is designated as the "constructor", Contracting Authority shall,
- (i) cause Additional Contractors to comply with the instructions of Project Co relating to matters of health and safety on the Site, methods and manner of construction (where applicable), and coordination and scheduling of the Additional Works with,
 - (A) the Works during the Construction Period; and
 - (B) the Project Co Services during the Operational Term;
 - (ii) enter into separate contracts with Additional Contractors,
 - (A) under conditions of contract which are compatible with the conditions of this Project Agreement;
 - (B) that require Additional Contractors to comply with Section 9.8(e) and all directions of Project Co in respect of any matter regarding health and safety on the Site, and methods and manner of construction (where applicable); and
 - (C) that require Additional Contractors to comply with Project Co's coordination and scheduling of the Additional Works; and
 - (iii) ensure that insurance coverage is provided by each Additional Contractor as would be required by a prudent owner similarly situated and coordinate such insurance with the

insurance coverage of Project Co and in any event, such insurance shall provide for liability insurance of not less than \$[REDACTED].

- (e) In connection with the Additional Works, if Contracting Authority has assigned responsibilities to Project Co pursuant to this Section 9.8, Project Co shall,
- (i) direct the methods and manner of construction (where applicable) of the Additional Works and the coordination and scheduling of the Additional Works with the Works or Project Co Services, as applicable, to be performed under this Project Agreement;
 - (ii) assume overall responsibility for compliance with all aspects of Applicable Law relating to health and safety at the Site, including all the responsibilities of the ‘constructor’ under the *Occupational Health and Safety Act* (Ontario), prior to the Substantial Completion Date and, exercised in a manner consistent with the said Act, at any time that Project Co is acting as a ‘constructor’ on the Site following the Substantial Completion Date;
 - (iii) provide Additional Contractors reasonable opportunity to introduce and store their products and use their construction machinery and equipment to execute the Additional Works, as applicable;
 - (iv) participate with Contracting Authority and Additional Contractors in reviewing the construction schedules of Additional Contractors, when directed to do so by Contracting Authority; and
 - (v) if part of the Works is affected by or depends upon, for its proper execution, the Additional Works, promptly (and in any event within thirty (30) days) report to Contracting Authority in writing and prior to proceeding with that part of the Works any readily apparent deficiencies in the Additional Works. Failure by Project Co to so report shall invalidate any claims against Contracting Authority by reason of such readily apparent deficiencies. Failure by Project Co to report deficiencies that are not readily apparent shall not invalidate claims Project Co may have against Contracting Authority relating to such deficiencies that are not readily apparent.
- (f) In the case of Additional Works carried out prior to Substantial Completion, if:
- (i) any Additional Contractors cause any damage to the Works;
 - (ii) Project Co incurs any additional costs or there is any delay in respect of the Works as a result of any Additional Contractors not complying with the coordination, scheduling and safety instructions of Project Co; or
 - (iii) subject to the performance by Project Co of its obligations under this Section 9.8, if Project Co incurs any additional costs or there is any delay in respect of the Works as a result of any such Additional Works (other than Additional Works that are identified in the Output Specifications and provided such Additional Works are performed by such Additional Contractors by any applicable date set out in the Output Specifications and in

accordance with Good Industry Practice and in accordance with the terms of their respective contracts or engagements with Contracting Authority),

then any such delay or additional costs in respect of the Works shall, subject to and in accordance with Section 40, be treated as a Delay Event and, subject to and in accordance with Section 41, be treated as a Compensation Event.

- (g) Claims, disputes, and other matters in question between Project Co and Additional Contractors shall be dealt with by negotiation, adjudication and/or arbitration in a reasonably similar manner as to what is contemplated in Schedule 27 – Dispute Resolution Procedure provided that the Additional Contractors and Contracting Authority has made commercially reasonable efforts to ensure that provisions similar to Schedule 27 – Dispute Resolution Procedure have been included in the contracts between Contracting Authority and the Additional Contractors. Project Co shall be deemed to have consented to arbitration of any dispute with any Additional Contractor whose contract with Contracting Authority contains a similar agreement to arbitrate.
- (h) In connection with the Additional Works, Project Co may request a Variation as follows:
- (i) Project Co shall have a period of ten (10) Business Days following Notice from Contracting Authority of Contracting Authority's intention to carry out such Additional Works, including a reasonable description of such Additional Works, to request a Variation if such Additional Works are,
 - (A) reasonably expected to make void a warranty made in favour of Project Co from a Project Co Party or equipment supplier and given in accordance with Good Industry Practice; or
 - (B) reasonably expected to have a material negative consequence on Project Co's ability to perform any of the Project Operations (which for certainty, will include any material increased cost to Project Co in performing any Project Operations);
 - (ii) If Contracting Authority assigns responsibilities to Project Co pursuant to Section 9.8(c) and Section 9.8(e) after Substantial Completion, and Project Co demonstrates to Contracting Authority, acting reasonably, that it is unable to carry out such responsibilities without adding additional resources to the resources providing the Project Co Services at the relevant time, Project Co shall have a period of ten (10) Business Days following Notice from Contracting Authority of such an assignment of responsibilities to request a Variation in respect of the cost such additional resources;
 - (iii) If Project Co has made a request for a Variation in accordance with Section 9.8(h)(i) or Section 9.8(h)(ii), Contracting Authority shall, within ten (10) Business Days of such request, either issue a Variation Enquiry or give Notice to Project Co that they do not agree that a Variation is required;
 - (iv) Either Party may refer the question of whether a Variation is required as the result of a warranty risk or risk in the performance of the Project Operations for resolution in accordance with Schedule 27 – Dispute Resolution Procedure; and

- (v) If Contracting Authority has, under Section 9.8(h)(iii), given Notice to Project Co that it does not agree that a Variation is required, Contracting Authority shall, within ten (10) Business Days of a subsequent agreement or of a determination that a Variation is required, issue a Variation Enquiry and the relevant provisions of Schedule 22 – Variation Procedure shall apply except that:
 - (A) Contracting Authority shall not be entitled to withdraw any such Variation Enquiry unless Contracting Authority determines not to proceed with the Additional Works or to proceed only in a manner that the Additional Works will not result in a warranty becoming void or will not result in any material negative consequence on Project Co’s ability to perform any of the Project Operations and Project Co has agreed with such conclusion, or the Parties otherwise agree; and
 - (B) the Parties shall, without prejudice to their respective general obligations to comply with the terms of this Project Agreement, use commercially reasonable efforts to mitigate the adverse effects with respect to any void or voidable warranty and take commercially reasonable steps to minimize any increase in costs arising from any void warranty.
- (i) Placing, installing, applying or connecting the Additional Works performed by Additional Contractors on and to the Works performed by Project Co shall not relieve Project Co from its obligations under the Project Agreement with respect to the Works, except to the extent expressly described in any Variation Confirmation.

9.9 Adjacent Developments

- (a) Project Co acknowledges and agrees that:
 - (i) Metrolinx will, subject to this Section 9.9 and Section 9.9A, be responsible for carrying out reviews of development applications in accordance with the Metrolinx Developer Review Process, including the issuance of any corridor development permits as contemplated under the *Building Transit Faster Act (2020)*;
 - (ii) Contracting Authority will be responsible for providing development applications and any other submittal materials (as set out in Section 9.9(b)(i)) with respect to Adjacent Developments to Project Co for review; and
 - (iii) Project Co will perform its obligations in respect of such applications and reviews as set out in this Section 9.9.
- (b) In respect of Adjacent Developments, Project Co shall:
 - (i) in accordance with the Metrolinx Developer Review Process and the timelines set out in Section 9.9(c), classify, review and comment on, any documents or submission materials provided by Contracting Authority for which Contracting Authority determines, in its sole discretion, could impact the Works or which may be required to integrate such Adjacent Development with the Works (including complete development applications,

- official plan amendments, zoning by-law amendments, site plan applications/amendments, plans of subdivision, plans of condominium, minor variances, corridor development permit applications and accompanying technical studies and plans);
- (ii) upon reasonable notice from Contracting Authority (which for certainty shall include any notice provided three (3) Business Days in advance), attend and participate in any meeting with an Adjacent Developer in respect of an Adjacent Development which Contracting Authority determines, in its sole discretion, could impact the Works or which may be required to integrate with the Works;
 - (iii) provide to Contracting Authority all Project documentation in respect of the design and construction of the Works or any elements of the New Third Party Infrastructure that Contracting Authority determines, in its sole discretion, are relevant to the Adjacent Development, which Project documentation Contracting Authority may provide to the applicable Adjacent Developer, provided the applicable Adjacent Developer has executed a confidentiality agreement and a waiver of liability, each in a form and substance satisfactory to Contracting Authority and Project Co, each acting reasonably;
 - (iv) prepare and provide to Contracting Authority any additional documentation in respect of the Project Operations (including the Works and the New Third Party Infrastructure) as Contracting Authority may request in its sole discretion in connection with any Adjacent Development and provide to and Adjacent Developer subject to the same limitations as set out in Section 9.9(b)(iii); and
 - (v) provide all commercially reasonable assistance to Contracting Authority as may be required to the extent such Adjacent Developments impacts the Works or is required to integrate with the Works as determined by Contracting Authority in its sole discretion.
- (c) As part of the review process described in Section 9.9(b)(i), Project Co shall:
- (i) complete its review of any documents or submission materials provided by Contracting Authority within ten (10) Business Days of receipt of the same (or such other time period as Contracting Authority may permit in its sole discretion), utilizing a standard comment form to be provided by Contracting Authority (as may be amended from time to time, the “**Adjacent Development Comment Form**”); and
 - (ii) using the Adjacent Development Comment Form, identify and describe for Contracting Authority any matter that could negatively impact the Works or the integration of the Works with the applicable Adjacent Development.
- (d) Project Co shall be entitled to compensation for its obligations described in Section 9.9(b) as set out in Section 9.9A.
- (e) In addition to the obligations set out in Section 9.9(b), Project Co shall, at its own cost:
- (i) take such actions as Contracting Authority may reasonably require in order to facilitate development of an Adjacent Development provided that such actions do not result in any

additional cost to the Project Operations or delay to the Works (in which case Contracting Authority may issue a Variation pursuant to Schedule 22 – Variation Procedure for such work);

- (ii) permit the Adjacent Developer to post or affix signage in respect of the Adjacent Development, which signage may identify the Adjacent Development project architect, engineer and lender, and other members of the Adjacent Developer's project team;
- (iii) permit an Adjacent Developer to post or affix signage, as required in connection with a development application; and
- (iv) provide additional copies of Project documentation in respect of the Project Operations (including the Project Co Infrastructure and New Third Party Infrastructure) as Contracting Authority may reasonably require, provided that:
 - (A) the obligation set out in this Section 9.9(e)(iv) shall only apply to documentation that Project Co has prepared, is preparing, will prepare or would otherwise prepare in the ordinary course of the Project Operations; and
 - (B) Contracting Authority may provide such documentation to the applicable Adjacent Developer, subject to the same limitations as set out in Section 9.9(b)(iii).
- (f) Project Co acknowledges and agrees that it shall not be entitled to claim any relief with respect to an Adjacent Development to the extent it failed to carry out any of its obligations in this Section 9.9 (but only to the extent such failure caused or contributed to an applicable claim for relief).

9.9A Adjacent Development Cash Allowance

- (a) Project Co shall open the Cash Allowance Account, deposit the Cash Allowance Amount into the Cash Allowance Account on the dates and in the amounts set out in the Financial Model at Financial Close and manage the Cash Allowance Account in accordance with this Section 9.9A.
- (b) The cash flow process applicable to the Cash Allowance Account will be as follows:
 - (i) Project Co will deposit the Cash Allowance Amount into the Cash Allowance Account on the dates and in the amounts set out in the Financial Model at Financial Close;
 - (ii) Project Co will hold and manage all monies in the Cash Allowance Account in trust for the benefit of and as directed by Contracting Authority;
 - (iii) interest earned on the Cash Allowance Account will accrue in the Cash Allowance Account and will be for the benefit of Contracting Authority;
 - (iv) Project Co shall provide a reconciliation of the Cash Allowance Account to Contracting Authority on a monthly basis, as applicable;

- (v) subject to Project Co's obligation to fund the Cash Allowance Account pursuant to Section 9.9A(b)(i), Contracting Authority shall make deposits into the Cash Allowance Account on agreed upon date(s) in the event that the payment requirements for Cash Allowance Items, including applicable HST, for invoices approved by Contracting Authority, exceed the then balance of the Cash Allowance Account, for clarity, determined on an aggregate basis across all Cash Allowance Items;
 - (vi) if, at Final Completion, there exists a positive balance in the Cash Allowance Account, such balance will be the property of Contracting Authority and will be paid by Project Co to Contracting Authority or as Contracting Authority directs; and
 - (vii) the Parties agree to mutually review the operation of the Cash Allowance Account on a regular basis and make any appropriate modifications to ensure its efficient operation.
- (c) Project Co shall provide monthly reports, as applicable, to the Contracting Authority Representative that include the following information:
- (i) itemized and aggregate amounts committed to date for all Cash Allowance Items;
 - (ii) itemized and aggregate amounts spent to date for all Cash Allowance Items; and
 - (iii) the projected cost of each remaining Cash Allowance Item and the projected effect of such costs on the Cash Allowance Account.
- (d) In addition to the monthly report, as applicable, described in Section 9.9A(c), Project Co shall, on a monthly basis, as applicable, provide to the Contracting Authority Representative a request for payment approval (each, a “**Request for Payment Approval**”) that includes the following information:
- (i) details of all vendor or Project Co Party invoices that are due for payment that month, including relevant supporting documentation;
 - (ii) evidence that the commitment by Project Co to perform the work and activities that constitute Cash Allowance Items has been approved by Contracting Authority. For clarity, any request made by Contracting Authority pursuant to Section 9.9(b) will constitute such approval;
 - (iii) any discounts, rebates, refunds, chargebacks, credits, price adjustments and other allowances available to Project Co in connection with the Cash Allowance Items;
 - (iv) all costs paid or incurred by Project Co related and attributable to such Cash Allowance Items, with each component of the work, services, supplies, materials or equipment utilized in respect thereof separately itemized and setting forth a general description of such component together with the costs thereof or associated therewith; and
 - (v) sufficient information to demonstrate to Contracting Authority’s satisfaction, acting reasonably that Project Co has used commercially reasonable efforts to obtain the best

value for money, and has complied with Good Industry Practice, regarding all costs paid or incurred by Project Co related and attributable to such Cash Allowance Items, including using commercially reasonable efforts to mitigate such costs and to ensure that with respect to any work, services, supplies, materials or equipment procured by Project Co regarding such Cash Allowance Items, Project Co has used commercially reasonable efforts to obtain the best value for money therefor, and has complied with all Good Industry Practice in relation to any such procurement, to a standard no less than Project Co would apply if all costs incurred were to its own account without recourse to Contracting Authority.

- (e) Contracting Authority shall, within ten (10) Business Days of receipt of a Request for Payment Approval, advise Project Co, in writing, whether or not payment of the invoices set out in such Request for Payment Approval is approved. Contracting Authority shall only be permitted to withhold its approval if Contracting Authority determines that the Request for Payment Approval does not contain the information that Contracting Authority requires, acting reasonably, to discharge its obligations under this Section 9.9A. If Contracting Authority withholds its approval pursuant to this Section 9.9A(e) and subsequently receives the information that Contracting Authority requires, acting reasonably, to discharge its obligations under this Section 9.9A, it shall, within ten (10) Business Days of its receipt of such information, provide to Project Co, in writing, Contracting Authority's approval of the invoices set out in the aforementioned Request for Payment Approval.
- (f) If Contracting Authority approves the payment of the invoices set out in a Request for Payment Approval, Project Co shall make payment to the relevant vendors or Project Co Party from the Cash Allowance Account.
- (g) Project Co acknowledges and agrees that:
 - (i) neither it, nor any Project Co Party, shall be entitled to any mark-ups for profit, overhead or other costs associated with the Cash Allowance Items;
 - (ii) all discounts, rebates, refunds, chargebacks, credits, price adjustments and other allowances available to Project Co in connection with the Cash Allowance Items shall be attributed solely to and shall benefit the pricing of the Cash Allowance Items;
 - (iii) all costs and expenses related to the administration of the Cash Allowance Account, including, without limitation, the preparation of Requests for Payment Approval and any required reporting, shall be borne by Project Co and shall not be charged to the Cash Allowance Account; and
 - (iv) the Cash Allowance Amount will be deposited and the Cash Allowance Account will be managed in accordance with the Interim Baseline Works Schedule and the Baseline Works Schedule, if applicable, and any costs, expense or delays related to funding or managing the Cash Allowance Account are the responsibility of Project Co.

9.10 System Extension

- (a) Project Co and Contracting Authority shall comply with Schedule 44 – System Extension in connection with any System Extension considered by Contracting Authority at any time during the Project Term.

9.11 South Civil Project and North Civil Project Interface and Integration

- (a) Project Co and Contracting Authority shall enter into and comply with the South Civil Interface Agreement in connection with the South Civil Project.
- (b) Contracting Authority shall provide thirty (30) days Notice of the date on which the North Civil Interface Agreement shall be entered into in connection with the North Civil Project. Contracting Authority and Project Co shall enter into the North Civil Interface Agreement on such date and shall comply with the terms thereof.
- (c) Project Co and Contracting Authority shall comply with the terms of Schedule 42 – South Civil Infrastructure Access and Handover in connection with any South Civil Project Infrastructure.
- (d) Project Co and Contracting Authority shall comply with the terms of Schedule 43 – North Civil Infrastructure Access and Handover in connection with any North Civil Project Infrastructure.
- (e) Project Co acknowledges that it is the intent of Contracting Authority, notwithstanding anything else set out in this Project Agreement as of Commercial Close, to deliver the North Civil Project as more than one progressive design-build or design-bid-build project and not a single design-build-finance project. Contracting Authority intends to issue one or more Variations in accordance with Schedule 22 – Variation Procedure (and/or to amend the Project Agreement in accordance with its terms) in order to implement this intended change. For certainty, until any such Variations are finalized in accordance with Schedule 22 – Variation Procedure (or the Project Agreement is amended in accordance with its terms), the Parties' rights and obligations in respect of the North Civil Project remain as set out in this Project Agreement as of Commercial Close. Contracting Authority acknowledges that Project Co was not aware of such intended change prior to the Financial Submission Deadline and did not account for such change in its proposal submitted in response to the RFP. The Parties acknowledge that the provisions of Appendix A (*Calculation of Direct Cost*) and Appendix B (*Calculation of Overhead and Profit*) of Schedule 22 – Variation Procedure may not be appropriate in the context of such Variation in order to compensate Project Co for the impact of such Variation and agree that, in connection with the subject Variation, the Parties will agree on reasonable amendments to the Project Documents as may be required (including the definition of Direct Costs) with the common objective of ensuring that Project Co is placed in no better and no worse position than it would have been had Contracting Authority continued with its original intent of delivering the North Civil Project as a single design-build-finance project as contemplated in the Project Agreement as of Commercial Close.

9.12 Demolition Requirements

- (a) Without limiting Project Co's obligation to perform Project Operations at all times in accordance with Applicable Law, in respect of any Demolition, Project Co shall, and shall cause each applicable Project Co Party to, at such person's own cost and risk and at all times during the performance of the Project Operations:
- (i) conduct all work in connection with any Demolition at all times in compliance with section 3 of the Performance Standards Regulation and the Building Code;
 - (ii) ensure that all Project Co Parties having responsibility for the supervision of any such Demolition are qualified as either a Professional Engineer, limited license holder or provisional license holder (as such terms are used in the Performance Standards Regulation) (such person is hereinafter referred to as a "**Demolition Supervisor**"); and
 - (iii) observe and perform the Demolition in a manner that is consistent with the recommendations set forth in the Demolition Guidelines in all material respects,
- (collectively, the "**Demolition Requirements**").
- (b) If at any time while any Demolition is being performed pursuant to this Project Agreement, Project Co or any Project Co Party that is performing any part of any Demolition receives notice from Contracting Authority, any Province Persons or any Governmental Authority that the Demolition is being conducted in a manner that is either not in compliance with the Demolition Requirements or not otherwise in accordance with this Project Agreement (such event referred to as a "**Demolition Default Event**"), Project Co, and any applicable Project Co Party, shall:
- (i) be required immediately upon the occurrence of a Demolition Default Event, to notify Contracting Authority that a Demolition Default Event has occurred, unless Contracting Authority was the person that provided notice of the Demolition Default Event;
 - (ii) cease all work in respect of such Demolition; and
 - (iii) within five (5) Business Days of receipt of a notice of a Demolition Default Event produce and deliver to the Contracting Authority Representative:
 - (A) a report identifying the reasons for the occurrence of the Demolition Default Event; and
 - (B) a Demolition Plan showing the steps that are to be taken to rectify the Demolition Default Event within a period of not more than thirty (30) days from the occurrence of the Demolition Default Event, which Demolition Plan shall be subject to review and approval by Contracting Authority and, to the extent Contracting Authority requires any amendments or revisions to be made to such Demolition Plan, Project Co and the applicable Project Co Parties shall take all reasonable steps as may be necessary to make all such required amendments and revisions and deliver to Contracting Authority an amended and revised

Demolition Plan not more than five (5) Business Days from the date on which such request is made by Contracting Authority.

- (c) No Demolition shall be recommenced at the Site that was the subject of the Demolition Default Event until:
 - (i) Contracting Authority is satisfied that Project Co or the applicable Project Co Party has taken all necessary steps to remediate such Demolition Default Event in accordance with the Demolition Plan; and
 - (ii) Contracting Authority has received a report, in form and substance satisfactory to Contracting Authority, prepared by a Professional Engineer that the Demolition Default Event has been remediated and the Site has been properly prepared for the Demolition to proceed in accordance with the Demolition Plan.

9.13 TOC Developments

- (a) The terms of Schedule 46 – TOC Early Handover Incentive Regime shall apply with respect to incentives relating to each Early Handover Site.
- (b) Project Co shall, at its own cost, provide the assistance described in Sections 9.9(b) and 9.9(e), *mutatis mutandis*, as such applies to the TOC Developments.

9.14 Anti-Racism, Anti-Discrimination and Anti-Harassment Governance Requirements

- (a) Project Co shall, and shall cause the Equity Provider, the Construction Contractor and the Service Provider to each with respect to its activities in Canada, incorporate reasonable processes, policies, controls and procedures in order to establish and maintain a corporate commitment to:
 - (i) Anti-Racism, anti-discrimination and anti-harassment practices;
 - (ii) providing opportunities for equity-deserving groups, including Indigenous, Black, and other racialized communities; and
 - (iii) eliminating workplace hate and intolerance,

and shall impose requirements for Subcontractors to do the same under their Subcontracts in respect of their activities in Canada.

- (b) Contracting Authority may, in its sole discretion from time to time but not more than once in any twelve-month period, require Project Co to, at its sole cost and expense, cause the obtainment of a third party attestation from a reputable, independent consulting firm with expertise in equity and diversity, regarding the presence and design of the internal processes, policies, controls and procedures of Project Co, the Equity Provider, the Construction Contractor and/or the Service Provider, as applicable, in respect of the matters set out in Section 9.14(a). Such consultant shall be retained by Project Co, the Equity Provider, the Construction Contractor or the Service Provider, as applicable, subject to the consent of Contracting Authority (such consent not to be

unreasonably withheld provided that it will not be unreasonable for Contracting Authority to withhold its consent where the proposed consultant (i) is an affiliate of Project Co, the Equity Provider, the Construction Contractor or the Service Provider, as applicable, or (ii) does not have sufficient experience in equity and diversity to undertake the activities described in this Section 9.14(b)).

- (c) Project Co shall, and shall cause the Equity Provider, the Construction Contractor and the Service Provider to each, take reasonable proactive measures to monitor for, and actively strive to, prevent the occurrence of racism, discrimination and harassment (including Systemic Racism and other forms of racial discrimination and harassment), and respond in a prompt and appropriate manner when any issue of racism, discrimination or harassment arises in its work environment, in order to maximize the likelihood that its work environment is and remains free from racism, discrimination and harassment.

9.15 Utility Agreements

- (a) For each Utility Agreement to be entered into between Project Co and the subject Utility Company, the form of which was made available as Background Information on or prior to the Technical Reference Date (each being a “**Form of Utility Agreement**”), Project Co shall, or shall cause a Subcontractor to, execute and deliver each such Utility Agreement no later than ninety (90) days after Financial Close, such Utility Agreement to be substantially in the form of the Form of Utility Agreements.
- (b) Project Co acknowledges and agrees that any revisions to the terms or conditions of a Form of Utility Agreement unilaterally proposed or required by Project Co, or are minor or administrative in nature, shall be at Project Co’s cost and risk.
- (c) In the event that Project Co executes and delivers to the Utility Company a completed Utility Agreement in the Form of Utility Agreement or in a form otherwise agreed to between Project Co and the applicable Utility Company as described in Section 9.15(a) and such Utility Company fails to execute and deliver such Utility Agreement within thirty (30) days of the date of the delivery of the Utility Agreement by Project Co to the Utility Company, then:
 - (i) Project Co shall promptly provide Notice to Contracting Authority; and
 - (ii) such failure shall, subject to and in accordance with Section 40, be treated as a Delay Event and, subject to and in accordance with Section 41, be treated as a Compensation Event.
- (d) In the event that Project Co executes and delivers a completed Utility Agreement in the Form of Utility Agreement or in a form otherwise agreed to between Project Co and the applicable Utility Company as described in Section 9.15(a), and such Utility Company executes and delivers such Utility Agreement containing a Post-CC Utility Agreement Amendment (or communicates to Project Co that it will only enter into a Utility Agreement that incorporates a Post-CC Utility Agreement Amendment), then:

- (i) Project Co shall promptly provide Notice to Contracting Authority informing Contracting Authority that a Post-CC Utility Agreement Amendment has been proposed by the subject Utility Company and providing details regarding such Post-CC Utility Agreement Amendment (a “**Post-CC Utility Agreement Amendment Notice**”);
- (ii) Project Co shall, during the thirty (30) day period following the date upon which Contracting Authority receives the Post-CC Utility Agreement Amendment Notice (or such longer period of time as the Parties may otherwise agree), use commercially reasonable efforts to resolve and settle the Post-CC Utility Agreement Amendment with the subject Utility Company; and
- (iii) if:
 - (A) Project Co has complied with its obligations under Sections 9.15(d)(i) and 9.15(d)(ii); and
 - (B) Project Co and the subject Utility Company are unable to resolve and settle the Post-CC Utility Agreement Amendment resulting in Project Co and such Utility Company failing to enter into the subject Utility Agreement, and such failure to enter into such Utility Agreement will materially adversely interfere with Project Co’s ability to perform the Works or will materially adversely affect Project Co’s cost of performing the Works, then:
 - (i) Project Co shall promptly provide Notice to Contracting Authority of the matters described in Section 9.15(d)(iii)(B); and
 - (ii) subject to and in accordance with Schedule 22 – Variation Procedure, Project Co shall be entitled to a Variation.
- (e) If, pursuant to and in accordance with a Utility Agreement, the subject Utility Company identifies to Project Co, and requires the performance of, any works relating to the Utility Infrastructure that is the subject matter of such Utility Agreement, and in Project Co’s reasonable opinion, such works are unreasonable and unnecessary for Project Co to perform as part of the Works, or are otherwise outside the scope of work contemplated by such Utility Agreement, and if the performance of such works will or is likely to affect the Works so as to cause a delay in achieving Substantial Completion by the Scheduled Substantial Completion Date, in delivering Critical Works by the applicable Critical Works Deadline, in delivering Critical Data by the applicable Critical Data Deadline, in delivering any OMSF Works by the applicable OMSF Works Deadline, or handing over any OMSF Project Co Infrastructure by the OMSF Project Co Infrastructure Handover Date:
 - (i) Project Co shall promptly deliver Notice to Contracting Authority describing such works and providing such opinion; and
 - (ii) without limiting or prejudice to any right of Contracting Authority under the Project Agreement, Project Co may deliver a Project Co Variation Notice to Contracting

Authority pursuant to and in accordance with Schedule 22 – Variation Procedure in respect of such works.

- (f) Where a Utility Agreement requires Project Co to comply with a technical standard in respect of the design or construction of certain Utility Infrastructure as part of the Works, and that standard has changed between Technical Reference Date and the date that such compliance is required, then Project Co shall give Notice to Contracting Authority of such change. If after such Notice, Contracting Authority requires compliance with the changed standard (rather than the standard applicable as of the Technical Reference Date), then, to the extent such change impacts the design or construction of such Utility Infrastructure and would not have otherwise been taken into account by compliance with Good Industry Practice, such changed standard shall, subject to and in accordance with Schedule 22 – Variation Procedure, result in a Variation. If Contracting Authority does not require compliance with the changed standard, then Project Co shall continue to comply with the standard applicable as of the Technical Reference Date, without a Variation therefor. This Section 9.15(f) shall not apply where a change in a technical standard is also a Change in Law.

9.16 Handover, Acceptance and Integration of Early Works Infrastructure

- (a) Project Co and Contracting Authority shall comply with the terms of Schedule 41 – Early Works Handover in connection with any Early Works Infrastructure.

9.17 Pandemic and Epidemic Plan

- (a) Project Co shall implement and comply with the Pandemic and Epidemic Response and Mitigation Plan. All updates to the Pandemic and Epidemic Response and Mitigation Plan shall be subject to review by Contracting Authority pursuant to Schedule 10 – Review Procedure.
- (b) In the event that a specific pandemic or epidemic (including the COVID-19 pandemic or any subsequent outbreak of COVID-19) is reasonably foreseeable and likely to occur and affect the Project Operations or otherwise occurs and affects the Project Operations, Project Co shall, at its cost, promptly (at the request of Contracting Authority or on its volition) update the Pandemic and Epidemic Response and Mitigation Plan on a monthly basis and submit each update with the next Works Report or Quarterly Performance Report, as applicable, until such time as the Parties agree, acting reasonably, that either the pandemic or epidemic will not occur and affect the Project Operations or such epidemic or pandemic has ended, no longer affects the Project Operations and no further updates to such plan are required. Following the review by Contracting Authority of each updated Pandemic and Epidemic Response and Mitigation Plan pursuant to Schedule 10 – Review Procedure, Project Co shall, without limiting any other obligation of Project Co under the Project Agreement or Applicable Law, implement such plan in accordance with Schedule 10 – Review Procedure, at its cost and risk other than as provided for in Section 38.4 and Section 43.1(a)(vii).
- (c) Any Pandemic and Epidemic Response and Mitigation Plan (including any update thereto) or the potential or actual impact of any pandemic or epidemic on the Project Operations may, at the request of a Party, be discussed at any meeting of the Works Committee or System Management Committee, as applicable, or at any other meeting between the Parties reasonably requested by a

Party during the Project Term. Any Party may, acting reasonably, require that any such other meeting be on a “without prejudice basis”.

- (d) Nothing required pursuant to this Section 9.17 in relation to the Pandemic and Epidemic Response Mitigation Plan shall in any way obviate or detract from Project Co’s right to relief under this Project Agreement relation to a Pandemic and Epidemic Change in Law or a Pandemic and Epidemic Supply Chain Delay.

9.18 Vandalism and Graffiti

- (a) Project Co shall be solely responsible for all Response and Rectification in respect of all Events of Vandalism occurring on Ontario Line Subway System during the Operational Term and in accordance with the requirements of the Output Specifications and Schedule 20 – Payment Mechanism during the Operational Term.
- (b) Subject to the maximum limit of the Vandalism Repair Costs Cap set out in Section 9.18(g), Project Co shall be responsible for all Vandalism Repair Costs, which result from an Event of Vandalism that is denoted as “Project Co Capped Cost” under the column entitled “Cost Risk” in the Vandalism and Graffiti Matrix in Table 2.3.6.3-1 (*Vandalism and Graffiti Matrix During Operational Term*) in the Output Specifications.
- (c) Project Co shall be wholly responsible for [REDACTED] percent of the Vandalism Repair Costs, which result from an Event of Vandalism that is denoted as “Project Co Cost” under the column entitled “Cost Risk” in the Vandalism and Graffiti Matrix in Table 2.3.6.3-1 (*Vandalism and Graffiti Matrix During Operational Term*) in the Output Specifications. For clarity, such costs are not subject to the maximum limit of the Vandalism Repair Costs Cap set out in Section 9.18(g).
- (d) Project Co’s Vandalism Repair Costs shall be limited to the following items:
 - (i) Project Co’s Direct Costs as defined in Appendix A (*Calculation of Direct Cost*) to Schedule 22 – Variation Procedure for Rectification of any Event of Vandalism; and
 - (ii) any applicable margin for Overhead and Profit on such Direct Costs, determined in accordance with Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure.
- (e) Project Co’s Vandalism Repair Costs shall be exclusive of any insurance proceeds due to Project Co, or to which Project Co would have been entitled had insurance been maintained in accordance with the requirements of this Project Agreement, which are payable in respect of the relevant Event of Vandalism and for greater certainty, shall not include the amount of any excess or deductibles, or any amount above the maximum insured amount applicable to any such insurance policy. For clarity, any such insurance proceeds shall be subtracted from the amount calculated in Section 9.18(d), to determine the total Vandalism Repair Costs.
- (f) Project Co’s Vandalism Repair Costs shall not include any Deductions applied under Schedule 20 – Payment Mechanism in relation to an Event of Vandalism.

- (g) Project Co's responsibility for Vandalism Repair Costs, which result from an Event of Vandalism that is denoted as Project Co Capped Cost, under the column entitled "Cost Risk" in the Vandalism and Graffiti Matrix in Table 2.3.6.3-1 (*Vandalism and Graffiti Matrix During Operational Term*) in the Output Specifications, shall be limited to a maximum of \$[REDACTED] (index-linked) per calendar year ("**Vandalism Cost Repair Cap**"). For clarity, in the case of any Event of Vandalism which is categorized as Project Co Capped Cost, Project Co shall pay all Vandalism Repair Costs until the Vandalism Cost Repair Cap is reached in a calendar year, after which Contracting Authority shall reimburse Project Co for any further Vandalism Repair Costs resulting from an Event of Vandalism occurring in that calendar year which is categorized as Project Co Capped Cost.
- (h) The Vandalism Cost Repair Cap shall be pro-rated in any partial year, and shall be escalated by applying the Escalation Factor defined in Schedule 20 – Payment Mechanism.
- (i) In the event that Project Co requires reimbursement from Contracting Authority for an Event of Vandalism due to Vandalism Repair Costs in excess of the Vandalism Cost Repair Cap, in accordance with Section 9.18(g), Project Co shall submit to Contracting Authority, no more than once per month, a consolidated request for reimbursement of Vandalism Repair Costs. The request for reimbursement shall include, for each Event of Vandalism subject to reimbursement, the information set out in Sections 2.3.6.3(c)(i)(A) to (D) (*Administration of Vandalism Repair Costs*) to the Output Specifications, as well as disclosure of any insurance proceeds that have been paid or are payable in relation to the Event of Vandalism.

9.19 Station and Tunnel Ventilation Equipment

- (a) Project Co shall be responsible for the design, supply, installation, testing, commissioning, operation, maintenance and lifecycle replacement of Station equipment and Tunnel Ventilation System equipment, as set out in Section 3.1.13.3(b) (*Station Equipment*) of the Output Specifications (the "**Station and Tunnel Ventilation Equipment**"). The aggregate quantity of Station and Tunnel Ventilation Equipment units to be supplied, operated and maintained by Project Co is set out in Section 3.1.13.3(b) (*Station Equipment*) of the Output Specifications. Contracting Authority may, in its sole discretion, increase or decrease the aggregate quantity of any item of Station and Tunnel Ventilation Equipment to be supplied, operated and maintained, as applicable, by Project Co as follows:
 - (i) [REDACTED]% (rounded up to the nearest whole number), for Station and Tunnel Ventilation Equipment denoted as "A" under the column entitled "Category" in Station and Tunnel Ventilation Equipment – Stations in Table 3.1.13.3-2 and in Station and Tunnel Ventilation Equipment – Tunnel Ventilation System in Table 3.1.13.3-3, as applicable, in the Output Specifications; and
 - (ii) [REDACTED]% (rounded up to the nearest whole number) for Station and Tunnel Ventilation Equipment denoted as "B" under the column entitled "Category" in Station and Tunnel Ventilation Equipment – Stations in Table 3.1.13.3-2 and in Station and Tunnel Ventilation Equipment – Tunnel Ventilation System in Table 3.1.13.3-3, as applicable, in the Output Specifications,

based on the quantity of Station and Tunnel Ventilation Equipment units set out in Section 3.1.13.3(b) (*Station Equipment*) of the Output Specifications. In the event that Contracting Authority increases or decreases the quantity of Station and Tunnel Ventilation Equipment units to be supplied, operated and maintained, as applicable, by Project Co, such change shall be deemed to be a Variation and Schedule 22 – Variation Procedure shall apply with respect to such increase or decrease in the quantity of Station and Tunnel Ventilation Equipment units to be supplied, operated and maintained, as applicable, by Project Co. Subject to Section 9.19(b), in the event of an increase in the number of Station and Tunnel Ventilation Equipment units to be supplied, operated and maintained, as applicable, by Project Co, Contracting Authority shall pay Project Co an amount determined in accordance with Appendix D (*Unit Prices For Station and Tunnel Ventilation Equipment*) of Schedule 22 – Variation Procedure, based solely on the per unit price of the applicable Station and Tunnel Ventilation Equipment unit multiplied by the increase in the number of such Station and Tunnel Ventilation Equipment units supplied, operated and maintained, as applicable. Subject to Section 9.19(b), in the event of a decrease in the number of Station and Tunnel Ventilation Equipment units to be supplied, operated and maintained, as applicable, by Project Co, Project Co shall pay Contracting Authority an amount determined in accordance with Appendix D (*Unit Prices For Station and Tunnel Ventilation Equipment*) of Schedule 22 – Variation Procedure, based solely on the per unit price of the applicable Station and Tunnel Ventilation Equipment unit multiplied by the decrease in the number of such Station and Tunnel Ventilation Equipment units supplied, operated and maintained, as applicable. Notwithstanding any other provision of this Project Agreement or Schedule 22 – Variation Procedure, Project Co’s sole entitlement to relief or compensation for an increase in the quantity of Station and Tunnel Ventilation Equipment units to be supplied, operated and maintained, as applicable, by it, is as set out in this Section 9.19(a).

- (b) Project Co shall not be entitled to any extension of time for a Variation, pursuant to Schedule 22 – Variation Procedure, to increase or decrease the quantity of Station and Tunnel Ventilation Equipment units to be supplied, operated and maintained, as applicable, by Project Co.
- (c) The per unit price for each type of Station and Tunnel Ventilation Equipment, as set out in Appendix D (*Unit Prices For Station and Tunnel Ventilation Equipment*) of Schedule 22 – Variation Procedure, shall not apply in the event:
 - (i) the increase or decrease in the aggregate quantity of Station and Tunnel Ventilation Equipment denoted as “A” exceeds the amount set out in Section 9.19(a)(i); or
 - (ii) the increase or decrease in the aggregate quantity of Station and Tunnel Ventilation Equipment denoted as “B” either: (A) exceeds the amount set out in Section 9.19(a)(ii), or (B) any Variation, pursuant to Schedule 22 – Variation Procedure, to increase or decrease the quantity of Station and Tunnel Ventilation Equipment units denoted as “B” is implemented later than four (4) years after Financial Close,

in which case, Contracting Authority may propose a Variation pursuant to Schedule 22 – Variation Procedure, but the per unit price for each type of Station and Tunnel Ventilation Equipment, as set out in Appendix D (*Unit Prices For Station and Tunnel Ventilation Equipment*) of Schedule 22 – Variation Procedure, shall not apply.

9.20 Cybersecurity

- (a) Without limiting any rights of Contracting Authority or obligations of Project Co under this Project Agreement, including as set out in the Output Specifications, Project Co shall monitor the cybersecurity landscape, including evolving and sophisticated cybersecurity threats, and promptly notify Contracting Authority of any need for an Evolutionary Cybersecurity Upgrade by initiating a Project Co Variation Notice subject to, and in accordance with, Section 2 (*Project Co Variations*) of Schedule 22 – Variation Procedure, and the entirety of such Section 2 will apply in respect of any such Project Co Variation. For greater certainty, an Evolutionary Cybersecurity Upgrade will not include any changes that would have been, or will be, included in respect of the replacement, refreshment and/or refurbishment of the Ontario Line Subway during the Operational Term, as required pursuant to the terms of the Project Agreement.

10. REPRESENTATIVES

10.1 The Contracting Authority Representative

- (a) Subject to the limitations set out in Section 10.1(d), the Contracting Authority Representative shall exercise the functions and powers identified in this Project Agreement as functions or powers to be performed by the Contracting Authority Representative and such other functions and powers of Contracting Authority under this Project Agreement as Contracting Authority may notify Project Co from time to time.
- (b) Contracting Authority may, from time to time by written Notice to Project Co, change the Contracting Authority Representative. Such change shall have effect on the later of the date of delivery of such Notice and the date specified in such Notice.
- (c) During any period when no Contracting Authority Representative has been appointed, or when the Contracting Authority Representative is unable, through illness, incapacity or any other reason whatsoever, to perform the Contracting Authority Representative's functions under this Project Agreement, Contracting Authority shall perform or may, by written Notice to Project Co, promptly appoint an alternative Contracting Authority Representative to perform the functions which would otherwise be performed by the Contracting Authority Representative. Upon receipt of such written Notice, Project Co and the Project Co Representative shall be entitled to treat any act of such alternative Contracting Authority Representative which is permitted by this Project Agreement as being authorized by Contracting Authority, and Project Co and the Project Co Representative shall not be required to determine whether authority has in fact been given.
- (d) The Contracting Authority Representative shall not, except as otherwise provided in this Project Agreement, be entitled to modify or waive any provision of this Project Agreement or to authorize a Variation.
- (e) Subject to the limitations set out in Section 10.1(d), unless otherwise notified in writing, Project Co and the Project Co Representative shall be entitled to treat any act of the Contracting Authority Representative which is explicitly authorized by this Project Agreement as being authorized by Contracting Authority, and Project Co and the Project Co Representative shall not be required to determine whether authority has in fact been given.

10.2 The Project Co Representative

- (a) Subject to the limitations set out in Section 10.2(d), the Project Co Representative shall have full authority to act on behalf of Project Co for all purposes of this Project Agreement.
- (b) Project Co may change the Project Co Representative with the prior written consent of Contracting Authority.
- (c) During any period when the Project Co Representative is unable, through illness, incapacity or any other reason whatsoever, to perform the Project Co Representative's functions under this Project Agreement, Project Co shall perform or may, by written Notice to Contracting Authority, promptly appoint an alternative Project Co Representative to perform the functions which would otherwise be performed by the Project Co Representative, provided that, Project Co must seek Contracting Authority's consent in accordance with Section 10.2(b) if such alternative Project Co Representative is in place for more than one-hundred and eighty (180) days. Upon receipt of such written Notice, Contracting Authority and the Contracting Authority Representative shall be entitled to treat any act of such alternative Project Co Representative which is permitted by this Project Agreement as being authorized by Project Co, and Contracting Authority and the Contracting Authority Representative shall not be required to determine whether authority has in fact been given.
- (d) The Project Co Representative shall not, except as otherwise provided in this Project Agreement, be entitled to modify or waive any provision of this Project Agreement.
- (e) Subject to the limitations set out in Section 10.2(d), unless otherwise notified in writing, Contracting Authority and the Contracting Authority Representative shall be entitled to treat any act of the Project Co Representative which is explicitly authorized by this Project Agreement as being authorized by Project Co, and Contracting Authority and the Contracting Authority Representative shall not be required to determine whether authority has in fact been given.

10.3 Communications to Representatives

- (a) At the time that a Party appoints or changes the appointment of the Contracting Authority Representative or the Project Co Representative, as applicable, that Party shall also provide the other Party with contact information for delivery of communications to such representative. Communications to such representative shall not constitute Notices to the Party appointing such representative.

10.4 Key Individuals

- (a) The individuals who are critical to the performance of the Works are identified in Schedule 9 – Key Individuals. The individuals who are critical to the performance of the Project Co Services as described in Schedule 9 – Key Individuals shall be identified by Project Co no later than:
 - (i) twelve (12) months after Financial Close for the Operations Director and the Maintenance Director; and

- (ii) eighteen (18) months prior to Substantial Completion for the Project Co Services General Manager.
- (b) If it becomes necessary for Project Co to replace any individual identified in Schedule 9 – Key Individuals, Project Co shall nominate a competent suitably qualified and experienced permanent replacement or replacements as soon as practicable and provide Contracting Authority with relevant information on the proposed replacement and shall consult with Contracting Authority before finalizing the appointment of such replacement. Project Co shall not replace any of the individuals identified in Schedule 9 – Key Individuals without the prior written consent of Contracting Authority, which consent shall not be withheld or delayed where Project Co is compliant with Section 10.4(c) and the proposed replacement is suitably qualified and experienced.
- (c) If Contracting Authority determines, acting reasonably, that it is in the best interests of Contracting Authority that any individual identified in Schedule 9 – Key Individuals be replaced, Contracting Authority shall notify Project Co (including a detailed explanation of the reasons for such determination), and, within sixty (60) days after receipt by Project Co of such Notice, Project Co shall provide Contracting Authority with relevant information on the proposed replacement and shall consult with Contracting Authority before finalizing the appointment of such replacement.

11. WORKS COMMITTEE

11.1 Establishment

- (a) The Parties shall, within thirty (30) days following Financial Close, establish a committee (the “**Works Committee**”) consisting of:
 - (i) four representatives appointed by Contracting Authority from time to time, one of whom will be the Contracting Authority Representative; and
 - (ii) the following three representatives appointed by Project Co:
 - (A) the Project Co Representative;
 - (B) one representative of the Construction Contractor; and
 - (C) such other representative appointed by Project Co from time to time.
- (b) A representative of each of South Civil Project Co and North Civil Project Co, and any TOC Contractor, may attend meetings as non-voting members of the Works Committee at the request of Contracting Authority or at the request of the applicable Integration Committee pursuant to Section 3.2(a) (*Function and Role*) of the South Civil Interface Agreement or the North Civil Interface Agreement, as applicable. Members of the Works Committee may invite, on prior Notice to all members, such advisors and consultants as they require from time to time to attend meetings as non-voting members (which may include representatives of North Civil Project Co, South Civil Project Co, any TOC Contractor or the Service Provider).

- (c) A representative of the Independent Certifier and a representative of the Service Provider shall each be required to attend meetings as a non-voting member of the Works Committee. The representatives of the CDB shall be entitled to, but are not required to, attend meetings as non-voting members of the Works Committee. Members of the Works Committee may invite, on prior Notice to all members, such advisors and consultants as they require from time to time to attend meetings and to provide briefings to the Works Committee.
- (d) The Contracting Authority Representative shall be the chairperson of the Works Committee.

11.2 Function and Role

- (a) The Works Committee shall assist the Parties by promoting cooperative and effective communication with respect to matters related to the Works. The Works Committee shall interface with the System Management Committee as and when required.
- (b) The Works Committee shall be responsible for receiving and reviewing all matters related to the Works, including:
 - (i) any design, construction and commissioning issues;
 - (ii) the Project Works Schedules, the Basis of Works Schedule Reports, the Works Schedule Reports and any other matter relating to the schedule for completion of the Works;
 - (iii) any issues arising from reports or documents provided by Project Co or the Independent Certifier;
 - (iv) any quality assurance and safety and security issues, including any design, configuration control, interfacing, training, testing, operational impact and other matters creating or giving rise to a safety or security issue or otherwise requiring attention and oversight;
 - (v) any matters relating to the integration, handover, acceptance and commissioning of the South Civil Project or the North Civil Project, and any matters arising from the Civil Project Interface Agreements affecting the Works;
 - (vi) the Works Report;
 - (vii) any special matters referred to the Works Committee by Contracting Authority or Project Co;
 - (viii) any Proceeding at Risk Matters referred to the Works Committee in accordance with Section 11.6;
 - (ix) any community and media relations issues in accordance with Schedule 18 – Communication and Public Engagement Protocol;
 - (x) the development of the North Civil Project output specifications;

- (xi) any issues related to the Traffic and Transit Management Plan and any issues related to the rules, requirements and restrictions relating to access, rail safety and operations and track protection, as set out in the Output Specifications;
 - (xii) monitoring the Project Co Commissioning Plan;
 - (xiii) any issues related to Schedule 19 – Liquidated Damages and Construction Enforcement Regime; and
 - (xiv) any other issues pertaining to the Works.
- (c) Subject to Section 11.2(d), any unanimous decision of the Works Committee shall be final and binding on the Parties. If the Works Committee is unable to reach a unanimous decision, either Party may refer the matter for resolution in accordance with Schedule 27 – Dispute Resolution Procedure.
- (d) The Works Committee shall not have authority to make decisions with respect to or approve:
- (i) any amendment to or waiver of any provision of this Project Agreement;
 - (ii) any change to the Scheduled Substantial Completion Date or the Scheduled Final Completion Date;
 - (iii) any Variation;
 - (iv) any change that may materially adversely affect Project Co’s ability to achieve Substantial Completion by the Scheduled Substantial Completion Date or Final Completion by the Scheduled Final Completion Date; or
 - (v) any matter with respect to which Contracting Authority has a right of consent or in respect of which Contracting Authority may exercise discretion pursuant to this Project Agreement.

11.3 Term of Works Committee

- (a) Unless otherwise agreed by the Parties, the Works Committee shall operate only until the Final Completion Date.

11.4 Replacement of Committee Members

- (a) Contracting Authority shall be entitled to replace any of its representatives on the Works Committee by written Notice to Project Co. Contracting Authority will use commercially reasonable efforts to deliver prior written Notice of any such replacement to Project Co. Project Co may replace any of its representatives on the Works Committee with the prior written consent of Contracting Authority.

11.5 Procedures and Practices

- (a) The members of the Works Committee may:
 - (i) adopt such procedures and practices for the conduct of the activities of the Works Committee as they consider appropriate from time to time;
 - (ii) invite to any meeting of the Works Committee such other persons as the members of the Works Committee may agree;
 - (iii) exclude from any meeting of the Works Committee such persons as the members of the Works Committee may agree; and
 - (iv) receive and review reports from any person or organization agreed to by the members of the Works Committee.
- (b) Once established, the Works Committee shall meet at least once each month from Financial Close until the Final Completion Date, unless otherwise agreed by the members of the Works Committee or the Parties.
- (c) Any one of the Project Co Representative, the Contracting Authority Representative and any of Metrolinx's representatives on the Works Committee may convene a special meeting of the Works Committee at any time. Special meetings of the Works Committee may be convened on not less than five (5) Business Days' Notice to all members of the Works Committee identifying the agenda items to be discussed at the special meeting, provided that, in an Emergency, a meeting may be called at any time on such Notice as may be reasonable in the circumstances.
- (d) Unless otherwise agreed by the members of the Works Committee, the Works Committee shall meet at the Site, the Ontario Line Subway, the New Third Party Infrastructure, or at any other location in the City of Toronto. Meetings of the Works Committee may be held by means of such telephonic, electronic or other communication facilities as permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously. A person participating in a meeting by such means will be deemed to be present at such meeting, provided that each member of the Works Committee must attend in person at least once each calendar quarter.
- (e) Three representatives of Contracting Authority (one of whom shall be the Contracting Authority Representative) and the two representatives of Project Co shall constitute a quorum at any meeting of the Works Committee. A quorum of members may exercise all the powers of the Works Committee. The members shall not transact business at a meeting of the Works Committee unless a quorum is present.
- (f) Minutes of all meetings, recommendations and decisions of the Works Committee, including those made by telephone or other form of communication, shall be recorded and maintained by Project Co. Project Co shall circulate copies of such minutes within five (5) Business Days of the holding of the meeting or the making of the recommendation or decision. Unless Contracting Authority notifies Project Co within five (5) Business Days of receipt of the minutes that

Contracting Authority disagrees with the contents of the minutes, Contracting Authority and Project Co shall be deemed to have approved such minutes. Project Co shall maintain a complete set of all minutes of the meetings of the Works Committee and shall make such minutes available for inspection by Contracting Authority during regular business hours.

11.6 Proceeding at Risk

- (a) If at any time:
- (i) in the reasonable opinion of Contracting Authority, Project Co is performing the Works in a manner that may result in Project Co becoming unable to satisfy the requirements for Substantial Completion; or
 - (ii) the Contracting Authority Representative has noted a Works Submittal as “REVIEWED AS NOTED – MAJOR ISSUES” in accordance with Schedule 10 – Review Procedure (each of the matters described in clauses (i) and (ii) of this Section 11.6(a), a “**Proceeding at Risk Matter**”),

then Contracting Authority may issue to Project Co (with a copy to the Independent Certifier and the CDB) a notice (the “**Proceeding at Risk Notice**”) identifying Contracting Authority’s reasons for issuing the Proceeding at Risk Notice and requesting Project Co to deliver any relevant Design Data and any other information reasonably required by Contracting Authority from Project Co to review the Proceeding at Risk Matter.

- (b) Following the issuance of a Proceeding at Risk Notice, the Contracting Authority Representative and the Project Co Representative, together with the other members of the Works Committee, shall each promptly and diligently make a reasonable *bona fide* effort to resolve the Proceeding at Risk Matter.
- (c) Following the issuance of a Proceeding at Risk Notice, Contracting Authority may, in its sole discretion, give notice to the Lenders’ Agent pursuant to Section 13 (*Proceeding At Risk and Project Co Delay Notices*) of the Lenders’ Direct Agreement of the Proceeding at Risk Matter, together with a copy of the Proceeding at Risk Notice.
- (d) Following the issuance of a Proceeding at Risk Notice, either Party may refer the Proceeding at Risk Matter for resolution in accordance with Schedule 27 – Dispute Resolution Procedure.
- (e) Nothing set out in this Section 11.6 or in a Proceeding at Risk Notice or any act undertaken by a Party or omission of a Party pursuant to this Section 11.6, shall relieve Project Co of the risk and responsibility for the Works under this Project Agreement and for meeting all of Project Co’s obligations under and satisfying all requirements of this Project Agreement, and no such notice, act or omission shall create any new or additional obligations or liabilities for Contracting Authority under this Project Agreement.

12. SYSTEM MANAGEMENT COMMITTEE

12.1 Establishment

- (a) The Parties shall, not later than eighteen (18) months prior to the Scheduled Substantial Completion Date, establish a committee (the “**System Management Committee**”) to serve until the Termination Date consisting of:
- (i) 4 representatives appointed by Contracting Authority from time to time;
 - (ii) 1 senior representative of Project Co; and
 - (iii) 1 senior representative of the Service Provider.
- (b) Until the CDB Expiry Date, representatives of the CDB shall be entitled but not required to attend meetings as non-voting members of the System Management Committee. Members of the System Management Committee may invite, on prior Notice to all members, such advisors and consultants as they require from time to time to attend meetings and provide briefings to the System Management Committee (which may include representatives of North Civil Project or South Civil Project Co).
- (c) One of the representatives of Contracting Authority shall be the chairperson of the System Management Committee.

12.2 Function and Role

- (a) The System Management Committee shall assist the Parties by promoting cooperative and effective communication with respect to matters related to the Project Operations (excluding the Works), both prior to and during the Operational Term. The System Management Committee shall interface with the Works Committee as and when required.
- (b) The System Management Committee shall be responsible for receiving and reviewing all matters related to the Ontario Line Subway and Project Operations (excluding the Works), both prior to and during the Operational Term, including:
- (i) any joint review of the Ontario Line Subway and the Output Specifications;
 - (ii) any performance issues, including with respect to the Ontario Line Subway;
 - (iii) any special matter referred to the System Management Committee by Contracting Authority or Project Co;
 - (iv) any community and media relations issues in accordance with Schedule 18 – Communication and Public Engagement Protocol;
 - (v) the review of Monthly Performance Monitoring Reports and Payment Adjustment Reports;

- (vi) any review conducted pursuant to Schedule 20 – Payment Mechanism; and
 - (vii) any other issues pertaining to the Project Operations (excluding the Works).
- (c) Subject to Section 12.2(d), any unanimous decision of the System Management Committee shall be final and binding on the Parties. If the System Management Committee is unable to reach a unanimous decision, either Party may refer the matter for resolution in accordance with Schedule 27 – Dispute Resolution Procedure.
- (d) The System Management Committee shall not have authority to make decisions with respect to or approve:
- (i) any amendment to or waiver of any provision of this Project Agreement;
 - (ii) any Variation;
 - (iii) any change that may materially adversely affect Project Co’s ability to perform the Project Co Services or the performance by the relevant parties of any Governmental Activities;
 - (iv) any matter with respect to which Contracting Authority has a right of consent or in respect of which Contracting Authority may exercise discretion pursuant to this Project Agreement;
 - (v) any Monthly Performance Monitoring Report or Payment Adjustment Report; or
 - (vi) any review conducted pursuant to Schedule 20 – Payment Mechanism.
- (e) Without limiting any right of Contracting Authority (including pursuant to Section 34.6(k), 34.9 and Part J (*Monitoring and Reporting*) of Schedule 20 – Payment Mechanism) or obligation of Project Co under this Project Agreement, at each meeting of the System Management Committee following Substantial Completion:
- (i) a representative of Project Co on the System Management Committee shall present the Monthly Performance Monitoring Report and Payment Adjustment Report in respect of the Payment Period just ended to the representatives of Contracting Authority and the Service Provider on the System Management Committee;
 - (ii) Contracting Authority shall, following such presentation, provide comments to Project Co, if any, on such Monthly Performance Monitoring Report and Payment Adjustment Report, including with respect to any errors or omissions in such reports that Contracting Authority has identified; and
 - (iii) the System Management Committee shall discuss the Monthly Performance Monitoring Report and Payment Adjustment Report and such comments from Contracting Authority on such reports, if any, and may propose solutions to any issues identified with respect to such reports.

12.3 Replacement of Committee Members

- (a) Contracting Authority shall be entitled to replace any of its representatives on the System Management Committee by written Notice to Project Co. Contracting Authority will use commercially reasonable efforts to deliver prior written Notice of any such replacement to Project Co. Project Co may replace its representative and the representative of the Service Provider on the System Management Committee with the prior written consent of Contracting Authority.

12.4 Procedures and Practices

- (a) The members of the System Management Committee may:
 - (i) adopt such procedures and practices for the conduct of the activities of the System Management Committee as they consider appropriate from time to time;
 - (ii) invite to any meeting of the System Management Committee such other persons as the members of the System Management Committee may agree;
 - (iii) exclude from any meeting of the System Management Committee such persons as the members of the System Management Committee may agree; and
 - (iv) receive and review reports from any person or organization agreed to by the members of the System Management Committee.
- (b) Once established, the System Management Committee shall meet at least once each month during the Operational Term, unless otherwise agreed by the members of the System Management Committee or the Parties.
- (c) Any member of the System Management Committee may convene a special meeting of the System Management Committee at any time. Special meetings of the System Management Committee may be convened on not less than five (5) Business Days' Notice to all members of the System Management Committee identifying the agenda items to be discussed at the special meeting, provided that, in an Emergency, a meeting may be called at any time on such Notice as may be reasonable in the circumstances.
- (d) Unless otherwise agreed by the members of the System Management Committee, the System Management Committee shall meet at the Site, the Ontario Line Subway, or any other location in the City of Toronto. Meetings of the System Management Committee may be held by means of such telephonic, electronic or other communication facilities as permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously. A person participating in a meeting by such means will be deemed to be present at such meeting, provided that each member of the System Management Committee must attend in person at least once each calendar quarter.
- (e) Two representatives of Contracting Authority, one representative of Project Co and one representative of the Service Provider shall constitute a quorum at any meeting of the System Management Committee. A quorum of members may exercise all the powers of the System

Management Committee. The members shall not transact business at a meeting of the System Management Committee unless a quorum is present.

- (f) Minutes of all meetings, recommendations and decisions of the System Management Committee, including those made by telephone or other form of communication, shall be recorded and maintained by Contracting Authority. Contracting Authority shall circulate copies of such minutes within five (5) Business Days of the holding of the meeting or the making of the recommendation or decision. Unless Project Co notifies Contracting Authority within five (5) Business Days of receipt of the minutes that Project Co disagrees with the contents of the minutes, Contracting Authority and Project Co shall be deemed to have approved such minutes. Contracting Authority shall maintain a complete set of all minutes of the meetings of the System Management Committee and shall make such minutes available for inspection by Project Co during regular business hours.

13. QUALITY MANAGEMENT

- (a) Project Co and Contracting Authority shall comply with the provisions of Schedule 11 – Quality Management.
- (b) Subject to Section 13(c), Project Co shall cause (A) the Construction Contractor, at its sole cost and expense, to conduct an inspection of its facilities, its health and safety management systems and construction vehicles on an annual basis until Final Completion or as otherwise required in accordance with Sections 9.6(c)(vi)(C) or 9.6(c)(vii)(C) (each, an “**H&S Construction Inspection**”), and (B) the Service Provider, at its sole cost and expense, to conduct an inspection of its facilities and its health and safety management systems on an annual basis commencing on the first anniversary of the Substantial Completion Date and thereafter until the end of the Project Term or as otherwise required in accordance with Sections 9.6(c)(vi)(C) or 9.6(c)(vii)(C), (each, an “**H&S Services Inspection**”), which H&S Construction Inspection and H&S Services Inspection shall:
- (i) be conducted by a Certified H&S Inspector, and
 - (ii) during the performance of the Works, include, at a minimum:
 - (A) a review of general compliance with all applicable *Occupational Health and Safety Act* (Ontario) requirements, compliance with all safety manuals applicable to any portion of the Lands at which the Works are being conducted including the Contractor Site Specific Safety Manual; and
 - (B) a review of the Construction Contractor’s job hazard analysis documentation on any portion of the Lands which could endanger or put at risk the safety of any Person working on any portion of the Lands; and
 - (iii) during the performance of the Project Co Services, include, at a minimum:

- (A) a review of general compliance with all applicable *Occupational Health and Safety Act* (Ontario) requirements, and compliance with all safety manuals applicable to the provision of the Project Co Services; and
 - (B) a review of the Service Provider’s job hazard analysis documentation relating to the provision of Project Co Services.
- (c) The first H&S Construction Inspection shall occur no later than the 90th day following Financial Close or, if that day is not a Business Day, on the Business Day immediately succeeding such day.
- (d) Project Co shall cause the results of each H&S Construction Inspection (such results referred to as the “**H&S Construction Inspection Report**”) to be delivered to Contracting Authority and the Works Committee not more than five (5) Business Days from the date on which a H&S Construction Inspection is completed. An H&S Construction Inspection Report arising from an H&S Construction Inspection shall be tabled and presented by Project Co for discussion by the Works Committee at the next meeting of the Works Committee that follows the date on which such H&S Construction Inspection Report was issued.
- (e) Project Co shall cause the results of each H&S Services Inspection (such results referred to as the “**H&S Services Inspection Report**”) to be delivered to Contracting Authority and the System Management Committee not more than five (5) Business Days from the date on which a H&S Services Inspection is completed. Any H&S Services Inspection Report arising from an H&S Services Inspection shall be tabled and presented by Project Co for discussion by the System Management Committee at the next meeting of the System Management Committee that follows the date on which such H&S Services Inspection Report was issued.
- (f) To the extent an H&S Construction Inspection Report or H&S Services Inspection Report, as the case may be, discloses any non-compliance by the COR-Qualified Construction Project Co Party, the COR-Certified Construction Project Co Party, the COR-Certified Service Provider Project Co Party, or the COR-Qualified Service Provider Project Co Party, as the case may be, with the terms of the COR Certification or OHSAS 18001 Accreditation, as the case may be, Contracting Authority shall have the right to require Project Co to cause the COR-Qualified Construction Project Co Party, the COR-Certified Construction Project Co Party, the COR-Qualified Service Provider Project Co Party and the COR-Certified Service Provider Project Co Party, as the case may be, at its sole cost and expense:
 - (i) to take any corrective and remedial action required by the H&S Construction Inspection Report or H&S Services Inspection Report, as the case may be, to correct any such non-compliance, and Project Co shall cause the COR-Qualified Construction Project Co Party, the COR-Certified Construction Project Co Party, the COR-Qualified Service Provider Project Co Party and the COR-Certified Service Provider Project Co Party, as the case may be, to comply with all instructions given by the Certified H&S Inspector in respect of actions required to be taken to correct any such non-compliance;
 - (ii) to arrange to have conducted by a Certified H&S Inspector such follow-up H&S Construction Inspections and H&S Services Inspections, as the case may be, of those

facilities and health management systems associated with the non-compliances identified in the relevant H&S Construction Inspection Report (each, an “**H&S Construction Re-Inspection**”) or in the relevant H&S Services Inspection Report (each an “**H&S Services Re-Inspection**”), in each case, within three (3) Business Days from the date on which any such request is made by Contracting Authority, until any and all corrective and remedial actions required by the Certified H&S Inspector with respect to the correction of each identified non-compliance is completed to the satisfaction of the Certified H&S Inspector;

- (iii) to cause the results of each H&S Construction Re-Inspection (such results referred to as the “**H&S Construction Re-Inspection Report**”) to be delivered to Contracting Authority and the Works Committee not more than three (3) Business Days from the date on which a H&S Construction Re-Inspection is completed. An H&S Construction Re-Inspection Report arising from an H&S Construction Re-Inspection shall be tabled and presented by Project Co for discussion by the Works Committee at the next meeting of the Works Committee that follows the date on which such H&S Construction Re-Inspection Report was issued; and
- (iv) to cause the results of each H&S Services Re-Inspection (such results referred to as the “**H&S Services Re-Inspection Report**”) to be delivered to Contracting Authority and the System Management Committee not more than three (3) Business Days from the date on which a H&S Services Re-Inspection is completed. An H&S Services Re-Inspection Report arising from an H&S Services Re-Inspection shall be tabled and presented by Project Co for discussion by the System Management Committee at the next meeting of the System Management Committee that follows the date on which such H&S Services Re-Inspection Report was issued.

14. LAND ACCESS AND INVESTIGATION

14.1 Licence

- (a) Subject to this Section 14 and the provisions of Schedule 35 – Lands and Schedule 40 – Rail Corridor Access and Flagging, including any restrictions on the use and access to the Metrolinx Lands set out in Schedule 35 – Lands or Schedule 40 – Rail Corridor Access and Flagging, Contracting Authority shall grant or have caused to be granted, and shall continuously grant or cause to be granted, to Project Co and the Project Co Parties, non-exclusive licence rights of use and access to, on and over the Metrolinx Lands and the Ontario Line Subway on the Metrolinx Lands (other than the Cars) as are required by Project Co and such Project Co Parties sufficient (subject to Project Co obtaining the Project Co Permits, Licences, Approvals and Agreements and performing its obligations described therein and subject to the timing and extent of the grant of use and access to the Metrolinx Lands set out in Schedule 35 – Lands) to allow Project Co and such Project Co Parties to perform those Project Operations to be performed on the Metrolinx Lands. The rights granted to Project Co pursuant to this Section 14.1(a) shall be effective on the later of,
 - (i) the date of Financial Close; and

- (ii) the commencement date for access to individual parcels of the Metrolinx Lands as set out in Schedule 35 – Lands.
- (b) Subject to this Section 14, from and after the date that Metrolinx has title to a Car pursuant to Section 55.1, Metrolinx shall grant or have caused to be granted, and shall continuously grant or cause to be granted, to Project Co and all Project Co Parties, a non-exclusive licence and right of use and access to such Car as is required by Project Co and such Project Co Parties sufficient to allow Project Co and such Project Co Parties to perform the Project Operations.
- (c) Subject to Project Co's obligation to comply with the other terms and conditions set forth in this Project Agreement and the other Project Documents, Project Co shall ensure that each Project Co Party shall at all times, when entering the Lands or using or accessing the Ontario Line Subway, the TOC Developments, the South Civil Project Infrastructure, the North Civil Project Infrastructure, the New Third Party Infrastructure and the Existing Third Party Infrastructure, act in a manner consistent with the obligations of Project Co under the Project Agreement.
- (d) In consideration for the use and access granted pursuant to Section 14.1(a) and Section 14.1(b), Project Co shall provide the Project Operations subject to and in accordance with this Project Agreement.
- (e) Without derogating from any of Contracting Authority's rights hereunder, in particular, its rights of access to the Metrolinx Lands and the Ontario Line Subway prior to the Substantial Completion Date for the purposes of any Contracting Authority Commissioning, and subject to any restrictions set out in Schedule 35 – Lands and Schedule 40 – Rail Corridor Access and Flagging, Contracting Authority acknowledges that, in respect of the Project Operations, Project Co and the Project Co Parties require, and Contracting Authority shall provide access to the Metrolinx Lands, the Cars, the Ontario Line Subway and the TOC Developments on the Metrolinx Lands without material interference by Contracting Authority or any Province Person for such period of time identified in Section 14.1(a) and Section 14.1(b) applicable thereto.
- (f) None of the rights granted pursuant to this Section 14.1 shall grant access to,
 - (i) any lands beyond the boundaries of the Metrolinx Lands, or to any lands other than Metrolinx Lands, other than easements and similar interests of Contracting Authority which benefit the Metrolinx Lands, obtained after the Technical Reference Date, to the extent the same are necessary for the Project Operations or exceed any restrictions set out in Schedule 35 – Lands; or
 - (ii) any facilities or infrastructure of Contracting Authority, the City, Utility Companies, the Toronto Transit Commission, Railway Companies, or any other third parties, except as set out in Schedule 35 – Lands (which access, if any, is subject to Section 14.2(c)).
- (g) The use and access rights provided in this Section 14.1 shall automatically terminate as of the Termination Date, save and except for the earlier termination of the use and access rights specified in Schedule 35 – Lands.

- (h) For greater certainty, the use and access rights provided in this Section 14.1 shall not entitle Project Co or any Project Co Party to extract any mineral from the Metrolinx Lands for use in the Project Operations.
- (i) Contracting Authority shall acquire use of and access to the Metrolinx Lands described in Schedule 35 – Lands on or prior to the applicable commencement date for access set out in Schedule 35 – Lands. Contracting Authority shall provide Notice to Project Co of the commencement of access rights to the Metrolinx Lands as such access is obtained by Contracting Authority.
- (j) Project Co acknowledges and agrees that Contracting Authority has no authority to and is not obligated to grant the use of or access to any lands that are not Metrolinx Lands, which use and access must be sought by Project Co or the Project Co Parties from each third party owner or rights holder of such lands in accordance with this Project Agreement, Applicable Law, any Permits, Licences, Approvals and Agreements and any other requirements imposed by such third party.
- (k) Project Co shall ensure that no Project Co Party uses or accesses (including trespasses upon) any lands of a third party land owner or rights holder during and for the purpose of the performance of the Project Operations, (i) save and except as otherwise set out in this Project Agreement or permitted by Applicable Law, or (ii) unless Project Co has obtained the permission of such third party for such use or access and, in such an event, only in accordance with any and all terms and conditions of such permission.
- (l) Contracting Authority shall provide Project Co with limited and non-exclusive access to the Existing Metrolinx Infrastructure to the extent necessary to perform the Works and the Project Co Services, and subject to such reasonable conditions as are imposed by Contracting Authority.

14.2 Non-exclusive Licence to Metrolinx Lands / Development of Lands

- (a) Project Co acknowledges and agrees that the rights granted to Project Co and the Project Co Parties hereunder to the Metrolinx Lands and the Ontario Line Subway on the Metrolinx Lands shall be non-exclusive and that Contracting Authority and any person authorized by Contracting Authority may occupy and possess the Metrolinx Lands, the Ontario Line Subway, the New Third Party Infrastructure and the Existing Third Party Infrastructure (in each case on the Metrolinx Lands) without the prior consent of Project Co, including for the purposes of carrying out the Governmental Activities and the Other Works. In exercising its rights Project Co shall not, and shall require that the Project Co Parties shall not, except as permitted under this Project Agreement, disrupt the performance of the Governmental Activities or the Other Works.
- (b) Without limiting Section 14.2(a), Project Co acknowledges that Contracting Authority may, from time to time, use or develop (including by way of subdivision or expansion), or permit the use or development of, or dispose of, portions of the Metrolinx Lands (or interests in the Metrolinx Lands), other than those portions of the Metrolinx Lands (or interests in the Metrolinx Lands) necessary for the performance of the Project Operations. To the extent that such use, development or disposition materially adversely interferes with Project Co's licence rights hereunder or materially adversely interferes with Project Co's ability to perform the Project Operations, such

use, development or disposition shall, subject to and in accordance with Schedule 22 – Variation Procedure, result in a Variation. For greater certainty, but without limiting the generality of the foregoing, Project Co acknowledges and agrees that certain of the Metrolinx Lands, shall be subject to the restrictions set out in Schedule 35 – Lands and Schedule 40 – Rail Corridor Access and Flagging.

- (c) Project Co shall be solely responsible to arrange all access to lands that it requires to access Existing Third Party Infrastructure except in the case of Existing Third Party Infrastructure located on Metrolinx Lands, in which case, access to Metrolinx Lands is provided for in accordance with Schedule 35 – Lands and any Permits, Licences, Approvals and Agreements. Project Co shall be solely responsible to obtain permission from the applicable third party to access the Existing Third Party Infrastructure or any component thereof.

14.3 Naming and Signage

- (a) Project Co acknowledges that Contracting Authority and the applicable owners of the New Third Party Infrastructure and Existing Third Party Infrastructure reserve and retain,
 - (i) all rights to designate the name for the Ontario Line Subway, and any part of the Ontario Line Subway, or any part thereof, the New Third Party Infrastructure and the Existing Third Party Infrastructure and to retain all revenues derived from the sponsorship of such names;
 - (ii) all rights to signage in relation to the Lands and any part of the Ontario Line Subway, the New Third Party Infrastructure and the Existing Third Party Infrastructure; and
 - (iii) all rights, Trademarks, naming or branding regarding the Ontario Line Subway, or any party thereof, the New Third Party Infrastructure and the Existing Third Party Infrastructure.
- (b) Without limiting Contracting Authority’s rights pursuant to Section 14.3(a), with the prior written consent of Contracting Authority, which may take into consideration,
 - (i) any applicable governmental guidelines, including guidelines set out in the Output Specifications, Schedule 18 – Communication and Public Engagement Protocol and Schedule 35 – Lands; and
 - (ii) any provision or restriction set out in Schedule 35 – Lands,

Project Co, the Project Co Parties and the Senior Lenders may, for the period prior to Substantial Completion, erect and maintain signage (which may include such parties’ logos and trade names) at or on the Metrolinx Lands identifying their respective roles in connection with the development and construction of the Project, provided that such signage is erected and maintained in accordance with the requirements and restrictions set out in this Project Agreement, including the Output Specifications and Schedule 18 – Communication and Public Engagement Protocol.

14.4 No Interest in Land, Facilities or Infrastructure

- (a) Project Co acknowledges and agrees that none of Project Co, any Project Co Party or the Lenders shall acquire any estate, right, title or ownership interest in the Lands or any part of the Ontario Line Subway (including, for greater certainty, the Cars following the transfer of title thereto to Contracting Authority in accordance with this Project Agreement), the New Third Party Infrastructure, or the Existing Infrastructure, or any other interest in land, facilities or infrastructure pursuant to this Project Agreement, the Project Documents or otherwise. Notwithstanding any provision herein or in any of the Project Documents to the contrary, all fee simple interest in and freehold title to the Lands, or any part thereof, and the Project, shall at all times remain unencumbered by any interest of Project Co or the Lenders.

14.5 Non-Disturbance Agreement

- (a) If Contracting Authority mortgages, charges or otherwise encumbers the Metrolinx Lands, Contracting Authority shall notify Project Co and, at the request of Project Co, provide Project Co with an agreement, in form satisfactory to Project Co and the Lenders' Agent, acting reasonably, executed by the mortgagee, chargee or other encumbrancer of the Metrolinx Lands permitting Project Co and the Lenders' Agent to access and use the Metrolinx Lands under the use and access granted pursuant to this Section 14 and the Lenders' Direct Agreement, respectively, free from interference from such mortgagee, chargee or other encumbrancer or any person claiming by or through any such person. This Section 14.5 shall not apply in respect of any portion of such Metrolinx Lands used or developed pursuant to Section 14.2(b) if neither the licence granted pursuant to this Section 14 nor the Project Operations pertain to such portion of the Metrolinx Lands.

14.6 Additional Lands / Adjustments to Metrolinx Lands Available to Project Co

- (a) Project Co may propose, by written request to Contracting Authority, that Contracting Authority acquire ownership of, or obtain rights or interests in or to additional lands which, in Project Co's opinion, would improve the efficiency of Project Co's performance of the Project Operations (each an "**Additional Lands Request**").
- (b) Project Co shall include in each Additional Lands Request:
- (i) for each of the Additional Lands requested, supporting reasons, justifications, and detailed plans evidencing, at a minimum:
 - (A) how each of the proposed Additional Lands would improve the efficiency of the delivery of the Project Operations; and
 - (B) that the lands, rights or interests, if acquired, would be sufficient, but not excessive, to achieve the objective described in Section 14.6(b)(i)(A);
 - (ii) the legal description(s) related to the Additional Lands being proposed, together with all relevant parcel register for property identifier documents and, if the Additional Lands cannot be fully legally defined, a sketch depicting the location and limits of the

Additional Lands and a legal survey of such Additional Lands to establish the boundaries. Whenever the Additional Lands are part of a larger lands parcel, the legal survey must define a smaller parcel sufficient for the delivery of the Project Operations;

- (iii) a plan for conducting any necessary investigations of the Additional Lands (a “**Site Investigation Plan**”), including with respect to contamination and other environmental conditions, utilities, geotechnical conditions, fossils, artifacts and other objects having artistic, historic, archaeological or monetary value, including human remains and burial sites, located on, in or under such lands. If required by Contracting Authority, Project Co shall implement the Site Investigation Plan and shall provide all reports prepared or issued (“**Site Investigation Reports**”) in connection with the Site Investigation Plan to Contracting Authority. Contracting Authority shall be an addressee of all such Site Investigation Reports and shall be entitled to rely on the reports; and
 - (iv) where the Additional Lands will contain New Third Party Infrastructure that is for the City of Toronto, written confirmation from the City of Toronto that it will accept: (A) such New Third Party Infrastructure, and (B) in accordance with Section 14.6, conveyance by Contracting Authority of the applicable Additional Lands in connection with the Handover of such New Third Party Infrastructure;
 - (v) any savings in Direct Costs to Project Co that will result in a reduction in the compensation payable to Project Co in accordance with Section 1.11(a) (*Reduction in Project Operations*) of Schedule 22 – Variation Procedure.
- (c) Project Co shall promptly provide such additional information as Contracting Authority may request from time to time in relation to the Additional Lands Request.
- (d) Contracting Authority may, in its sole discretion, accept or reject any Additional Lands Request, or prescribe conditions, restrictions, and requirements in connection with its agreement to an Additional Lands Request. In the event that Contracting Authority agrees to an Additional Lands Request, such acquisition shall become part of the Metrolinx Lands once acquired and shall, subject to and in accordance with this Section 14.6 and Schedule 22 – Variation Procedure, result in a Variation, provided that such additional lands, rights or interest shall become “**Additional Lands**” and part of the Metrolinx Lands only if and when,
- (i) Contracting Authority has issued a Variation Confirmation pursuant to Schedule 22 – Variation Procedure; and
 - (ii) Contracting Authority has successfully acquired or obtained such rights, title or interest in the proposed Additional Lands.
- (e) Project Co acknowledges and agrees that any decision of Contracting Authority subject to Section 14.6(d) shall be final and binding on the Parties and, in the event that Contracting Authority does not agree to an acquisition of Additional Lands pursuant to Section 14.6(d), Project Co acknowledges and agrees that Contracting Authority’s decision or determination shall not be subject to dispute resolution pursuant to Schedule 27 – Dispute Resolution Procedure.

- (f) Additional Lands acquired or obtained by Contracting Authority pursuant to Section 14.6 shall constitute Metrolinx Lands for the purposes of this Project Agreement, provided that, notwithstanding anything to the contrary in this Project Agreement:
- (i) Project Co shall be responsible for and shall indemnify and hold harmless Contracting Authority and the Province Persons from and against all costs, risks, obligations, and liabilities in respect of, or arising in connection with, such Additional Lands (and any portion of such Additional Lands comprising the Site) including claims relating to Site Conditions thereon and therein, including with respect to Geotechnical Site Conditions, Contamination, Items of Interest or Value, Major Existing Infrastructure, Contracting Authority Utility Infrastructure, Mislocated Utility Infrastructure or Species-at-Risk;
 - (ii) Contracting Authority provides no representation or warranty, and shall have no obligation to Project Co, in respect of, or arising in connection with, any Additional Lands (and any portion of Additional Lands comprising a Site), including for certainty and without limitation, pursuant to Sections 5.2, 8.2, 9.7, 16.2, 16.3, 16.4, 16.5, 16.6 and 16.7 other than to grant or cause to be granted to Project Co and the Project Co Parties, non-exclusive license rights of use and access to, on and over the Additional Lands to allow Project Co and such Project Co Parties to carry out those Project Operations to be performed on the Additional Lands;
 - (iii) to the extent related to or arising in connection with the Additional Lands Request or Additional Lands, Project Co shall not be entitled to claim any cost or schedule relief, including any Delay Event, Compensation Event, Excusing Cause, Relief Event or event of Force Majeure. In no event will Contracting Authority be liable for any delay by Contracting Authority, any Contracting Authority Party or any third party in:
 - (A) reviewing or processing Additional Lands Requests; or
 - (B) acquiring or obtaining Additional Lands;pursuant to this Section 14.6; and
 - (iv) Project Co shall be solely responsible for and shall indemnify and hold harmless Contracting Authority from and against all costs and expenses of Contracting Authority in connection with any Additional Lands Request (including, for clarity, any costs incurred by Contracting Authority in acquiring any rights or interests in the Additional Lands) whether or not such Additional Lands Request results in the acquisition or obtainment of Additional Lands.
- (g) Project Co shall be entitled to acquire ownership of or obtain rights or interests in or to any properties at its own cost and expense, however, such properties shall not, for the purposes of this Project Agreement, form part of the Metrolinx Lands and no part of the Ontario Line Subway shall be located on, or rely in any way upon, any properties which Project Co acquires ownership of or obtains rights or interests in or to pursuant to this Section 14.6(g).

14.7 Changes to Lands

- (a) Notwithstanding any other provision in this Project Agreement, the Parties acknowledge and agree that prior to the date on which Project Co is given access to the Metrolinx Lands in accordance with Schedule 35 – Lands, any alteration or variation to or in the Metrolinx Lands described in Schedule 35 – Lands or the dates by which Contracting Authority grants to Project Co access to the Metrolinx Lands pursuant to Section 14.1(a) shall be effected by way of Variation, subject to and in accordance with Schedule 22 – Variation Procedure.

14.8 Adequacy of the Lands

- (a) Without limiting any of Project Co's rights under Sections 6.4, 14.1(e), 16.2, 16.3, 16.4, 16.5, 16.6, and 16.7, Project Co acknowledges and agrees that it has and shall be deemed to have satisfied itself as to:
- (i) the adequacy of the Lands, rights of access to, from and through the Lands and any accommodation it may require for the purposes of fulfilling its obligations under this Project Agreement;
 - (ii) the possibility of interference by persons of any description whatsoever with access to or use of, or rights in respect of, the Lands; and
 - (iii) the precautions, times and methods of working necessary to prevent any nuisance or interference, whether public or private, being caused to any third parties.

14.9 Inspection and Investigation of the Lands

- (a) Without limiting any of its rights under Sections 6.4, 16.2, 16.3, 16.4, 16.5, 16.6, and 16.7, Project Co acknowledges and agrees that it has and shall be deemed to have, as of the Technical Reference Date, conducted a visual inspection of the Lands in accordance with Good Industry Practice (the "**Project Co Land Inspections**"). For greater certainty, the Parties acknowledge and agree that for those Lands which are not publicly accessible and for which Project Co was not provided access to prior to the Technical Reference Date, Project Co shall be deemed only to have (i) conducted its visual inspection from publicly accessible lands adjacent to the Lands and (ii) reviewed any video in respect of such Lands that was provided as Background Information prior to the Technical Reference Date.
- (b) Without limiting any of Project Co's rights under Sections 6.4, 16.2, 16.3, 16.4, 16.5, 16.6, and 16.7 and without affecting the visual inspections deemed to have occurred as part of the Project Co Land Inspections, Project Co acknowledges and agrees that nothing in this Section 14.9 shall relieve Project Co from its obligations, following Financial Close, to conduct all necessary investigations on the Lands in accordance with Good Industry Practice prior to commencing the Works (or any applicable portion of the Works).

14.10 No Warranty in Respect of Lands

- (a) Except as provided in Sections 6.4, 16.2, 16.3, 16.4, 16.5, 16.6, and 16.7, neither Contracting Authority, nor any Province Person or Government Entity gives any warranty or undertaking of any nature whatsoever in respect of the Lands, including:
- (i) the nature or condition of the Lands;
 - (ii) any Existing Infrastructure or other buildings, structures and works, on, over or under the Lands; or
 - (iii) any Site Conditions in respect of the Lands.

14.11 No Claims in Respect of Lands

- (a) Except as expressly provided in Sections 6.4, 16.2, 16.3, 16.4, 16.5, 16.6, and 16.7, Project Co shall not be entitled to make any claim of any nature whatsoever against Contracting Authority or any Province Person on any grounds relating to the Lands, the Existing Infrastructure or the Site Conditions including:
- (i) the fact that Project Co was not provided any opportunity to inspect the Lands prior to the Technical Reference Date, other than the visual inspection conducted pursuant to Section 14.9;
 - (ii) any claim that the Lands are inadequate; or
 - (iii) any claim that incorrect, inaccurate, incomplete or insufficient information on any matter relating to the Lands, the Existing Infrastructure or the Site Conditions was given to it by any person, whether or not Contracting Authority or a Province Person.

15. ENCUMBRANCES

15.1 Project Co Shall Perform Obligations Under Encumbrances

- (a) Project Co's access to and use of the Lands or any part thereof granted in Section 14 shall be subject to the Encumbrances.
- (b) Subject to Section 15.2, Project Co shall perform all obligations of Contracting Authority under all Encumbrances for or on behalf of Contracting Authority, other than:
- (i) obligations which Project Co is not legally capable of performing for or on behalf of Contracting Authority; and
 - (ii) obligations which the applicable counterparty to such Encumbrance formally relieves or waives Project Co from performing, with the consent of Contracting Authority, in its sole discretion (and if such relief or waiver is not consented to by Contracting Authority, and subject to Section 15.1(b)(i), Project Co shall perform such obligations in accordance with this Section 15).

- (c) Project Co, whether before, during or after the completion of the Works, shall not in any manner breach the Encumbrances.

15.2 No Encumbrances

- (a) Project Co shall not create, incur, permit or suffer to exist any Encumbrance to be created, filed, issued or registered upon or against the Lands or any part of them or any interest therein (i) due to an act or omission of Project Co or any Project Co Party, (ii) arising in relation to the Works, or (iii) arising in relation to the Project Co Services.
- (b) Project Co does not have title to the Lands or any interest therein, and no act or omission by Project Co or any Project Co Party shall give rise to a right for any person to obtain title to or any interest in the Lands or any part thereof, except:
- (i) as may be expressly agreed to in writing by Contracting Authority;
 - (ii) as may be expressly permitted by the terms of this Project Agreement; or
 - (iii) as may be permitted under Applicable Law, but without limiting Project Co's obligations under Sections 15.2(c)(i) and 15.3(a).
- (c) In the event that the Lands or any part thereof or any interest therein becomes subject to any Encumbrance following Financial Close:
- (i) due to an act or omission of Project Co or any Project Co Party (which has not been consented to in writing by Contracting Authority), or arising in relation to the Works or in relation to the Project Co Services, Project Co shall immediately take all steps necessary to terminate, remove, vacate or discharge such Encumbrance. If such Encumbrance is not terminated, removed, vacated or discharged within ten (10) Business Days of Project Co becoming aware of the creation, filing, issuance or registration of such Encumbrance, then, without prejudice to any other rights or remedies it may have, Contracting Authority may take whatever steps it deems necessary and appropriate (in its sole discretion) to terminate, remove, vacate or discharge the Encumbrance, including payment of any amount owing or claimed thereunder, and seek immediate recovery from Project Co of the amount of any such payment and any associated costs, including legal costs (on a full indemnity basis), all of which shall be payable on demand, and Project Co hereby appoints Contracting Authority as Project Co's attorney to execute any termination, removal, vacating or discharge of an Encumbrance referred to in this Section 15.2(c)(i), which appointment is coupled with an interest and shall be irrevocable for the Project Term and thereafter so long as any of Project Co's obligations under this Section 15.2(c)(i) are outstanding;
 - (ii) due to an act or omission of Project Co or any Project Co Party (which has been consented to in writing by Contracting Authority), or arising in relation to the Works or in relation to the Project Co Services, Project Co shall perform all obligations under such Encumbrance in accordance with Section 15.1 and 15.3 (as is applicable) and at its sole cost and expense; or

- (iii) which is not due to an act or omission of Project Co or any Project Co Party, or which has not arisen in relation to the Works or in relation to the Project Co Services, prior to performing obligations under any such Encumbrance, Project Co shall promptly notify Contracting Authority of any such Encumbrance and Contracting Authority may elect, in its sole discretion, to:
 - (A) have such Encumbrance be removed, vacated or discharged;
 - (B) perform the required obligations thereunder; or
 - (C) instruct Project Co to perform the required obligations thereunder.
- (d) For the purposes of this Section 15 if,
 - (i) an encumbrance otherwise identified in Sections (b) (vii), (viii) or (ix) of Schedule 16 – Encumbrances has not been complied with (excluding non-compliance by Project Co) and such non-compliance materially interferes with the use of the Lands for the purposes of the Project Operations; or
 - (ii) an encumbrance otherwise identified in Sections (b) (vii), (viii) or (ix) of Schedule 16 – Encumbrances was not disclosed to Project Co, and such encumbrance materially interferes with the use of the Lands for the purposes of Project Operations,Contracting Authority shall be entitled to the same election as set out in Section 15.2(c)(iii), subject to Section 15.2(e). Project Co shall promptly notify Contracting Authority of any such encumbrance upon Project Co becoming aware of such encumbrance.
- (e) If Project Co is instructed to perform obligations under an Encumbrance pursuant to Section 15.2(c)(iii) or Section 15.2(d), which performance imposes costs or delays in the performance of Project Operations, such performance,
 - (i) prior to Substantial Completion shall, subject to and in accordance with Section 40, be treated as a Delay Event and, subject to and in accordance with Section 41, be treated as a Compensation Event; and
 - (ii) following Substantial Completion shall, subject to and in accordance with Schedule 22 – Variation Procedure, result in a Variation.

15.3 Construction Act (Ontario)

- (a) The Parties acknowledge that Section 15.2 shall apply to claims for liens made against the Lands pursuant to the *Construction Act* (Ontario) and shall also apply to claims made against Contracting Authority or the holdback under the *Construction Act* (Ontario) as though such a claim were an Encumbrance against the Lands as referred to therein.
- (b) Project Co shall comply with the holdback requirements under the *Construction Act* (Ontario) with respect to each Subcontractor.

- (c) Project Co shall, as a condition of final payment under any Subcontract for which lien rights or rights in respect of the holdback may be claimed under the *Construction Act* (Ontario), require that a certificate of completion under Section 33(1) of the *Construction Act* (Ontario) for such Subcontract be issued and the relevant Subcontractor provide statutory declarations or other assurances confirming that all those engaged by the Subcontractor have been paid in accordance with Applicable Law.
- (d) Project Co shall promptly provide Contracting Authority with a copy of any materials which are provided to the Lenders to evidence compliance with the *Construction Act* (Ontario).
- (e) Upon request by Contracting Authority, Project Co shall perform and deliver to Contracting Authority a sub-search of title on the Lands or any part thereof. Contracting Authority shall pay the reasonable costs of any such search except (i) a search that reveals Encumbrances that are not permitted by this Project Agreement, (ii) a search requested based on a reasonable suspicion that an Encumbrance that is not permitted by this Project Agreement has been registered on title to the Lands, and (iii) a search requested for the purpose of confirming that an Encumbrance that is not permitted by this Project Agreement has been discharged from title to the Lands.
- (f) Project Co shall cause a Payment Certifier to be appointed under the Construction Contract and shall cause such Payment Certifier to certify the substantial performance of the Construction Contract in accordance with the *Construction Act* (Ontario).

16. SITE CONDITIONS

16.1 Acceptance of Lands, Existing Infrastructure and Site Conditions

- (a) Project Co agrees to accept the Lands and the Existing Infrastructure on an “as is, where is” basis, and shall be responsible for all Site Conditions thereon, except in respect of:
 - (i) Geotechnical Site Conditions;
 - (ii) Contamination;
 - (iii) Items of Interest or Value;
 - (iv) Major Existing Infrastructure;
 - (v) Utility Infrastructure; and
 - (vi) Species-at-Risk,

its responsibility for which shall be only as described in Sections 16.2 to 16.7, respectively.

- (b) For greater certainty, except as expressly set out in this Project Agreement, nothing in this Section 16 shall relieve Project Co from performing any of its obligations hereunder (including its obligations under Section 9.2 and Section 9.5).

16.2 Geotechnical Site Conditions

- (a) **“Differing Geotechnical Site Condition”** means any Geotechnical Site Condition which is the subject of a Geotechnical Baseline Statement to the extent that it differs from such Geotechnical Baseline Statement as determined in accordance with Schedule 45 – Geotechnical Baseline Report, provided that such difference was not:
- (i) within the Knowledge of the Project Manager as of the Financial Submission Deadline;
or
 - (ii) caused or contributed to by Project Co or a Project Co Party.
- (b) Project Co shall be responsible, at its sole cost and expense, for all Geotechnical Site Conditions other than Differing Geotechnical Site Conditions (including any delays, additional costs, or actions required as a result of such Geotechnical Site Conditions).
- (c) Any Differing Geotechnical Site Condition experienced by Project Co shall, subject to and in accordance with Section 40, be treated as a Delay Event and, subject to and in accordance with Section 41, be treated as a Compensation Event.
- (d) Upon the discovery of any Differing Geotechnical Site Condition, Project Co shall immediately inform the Contracting Authority Representative.
- (e) In the event that Contracting Authority wishes Project Co to perform actions in respect of any Differing Geotechnical Site Condition, then Contracting Authority shall issue an instruction to Project Co specifying what action Contracting Authority requires Project Co to take and Project Co shall promptly and diligently comply with all such instructions at Contracting Authority’s cost, subject to and in accordance with Section 16.2(f).
- (f) If Section 16.2(e) requires Project Co to perform any alteration, addition, Demolition, extension or variation in the Works as a result of instructions given by Contracting Authority pursuant to Section 16.2(e), then Project Co shall be entitled to a Variation for any such alteration, addition, Demolition, extension or variation in the Works in accordance with Schedule 22 – Variation Procedure.
- (g) The Parties agree that any Disputes in respect of a claim pursuant to Section 16.2(c) shall be referred to the CDB for a decision pursuant to Section 4.5(a) (*CDB to Resolve Disputes*) of Schedule 27 – Dispute Resolution Procedure.

16.3 Contamination

- (a) **“Project Co Known Contamination”** means any Contamination or Designated Substances and Hazardous Materials that:
- (i) was within the Knowledge of the Project Manager as of the Financial Submission Deadline;

- (ii) is described in any DSHM Report, but only to the extent of Contaminated Materials and Designated Substances and Hazardous Materials described therein;
 - (iii) is an Identified Contaminated Material;
 - (iv) is described in a Geotechnical Baseline Statement;
 - (v) was readily apparent from the Project Co Land Inspections;
 - (vi) is caused or contributed to by Project Co or any Project Co Party but only to the extent of such cause or contribution (“**Project Co Caused Contamination**”); or
 - (vii) is Minor System User Contamination subject to an annual maximum of \$[REDACTED] (index-linked).
- (b) “**Project Co On-Site Contamination**” means any Project Co Known Contamination that is on, in or under the Lands (including any such Project Co Known Contamination while migrating on, in or under the Lands).
- (c) “**Project Co Off-Site Migrating Contamination**” means,
- (i) any Project Co Known Contamination (other than Project Co Caused Contamination) migrating to or from the Lands to the extent such migration to or from the Lands is caused by Project Co or a Project Co Party;
 - (ii) any Project Co Caused Contamination migrating to or from the Lands; and
 - (iii) any Contamination migrating to or from the Lands that is caused by a negligent act or omission of Project Co or a Project Co Party,
- including while each of the above is on the Lands.
- (d) “**Project Co Contamination**” means the Project Co On-Site Contamination and the Project Co Off-Site Migrating Contamination.
- (e) “**Contracting Authority Contamination**” means all Contamination on, in or under the Lands, or migrating to or from the Lands, other than Project Co Contamination provided that, in the case of Contamination that is described in a Geotechnical Baseline Statement, Contracting Authority shall only be responsible for such Contamination to the extent that it differs from such Geotechnical Baseline Statement as determined in accordance with Schedule 45 – Geotechnical Baseline Report.
- (f) Project Co shall be responsible, at its sole cost and expense, for
- (i) the Project Co Contamination; and
 - (ii) any Worsened Contamination.

- (g) Any Contracting Authority Contamination, encountered by Project Co shall, subject to and in accordance with Section 40, be treated as a Delay Event and, subject to and in accordance with Section 41, be treated as a Compensation Event.
- (h) Upon the discovery of any Contamination, Project Co shall immediately inform the Contracting Authority Representative, and shall comply, and ensure compliance by all Project Co Parties, with all Applicable Law and Schedule 17 – Environmental Obligations in respect thereof:
 - (i) at Contracting Authority’s cost pursuant to Section 16.3(g) in respect of any Contracting Authority Contamination; and
 - (ii) at its own cost in respect of all Project Co Contamination or Worsened Contamination.
- (i) Except to the extent required to prevent or mitigate an Emergency or to comply with Applicable Law, Project Co shall not undertake any significant work pursuant to Section 16.3(h) in respect of any Contracting Authority Contamination until the Contracting Authority Representative has been given a reasonable opportunity to review the nature and extent of the Contamination and has instructed Project Co to proceed with such work.
- (j) In the event that Contracting Authority wishes Project Co to perform actions in respect of any Contamination which are in addition to any required pursuant to Section 16.3(h), then Contracting Authority shall issue an instruction to Project Co specifying what action Contracting Authority requires Project Co to take and Project Co shall promptly and diligently comply with all such instructions at Contracting Authority’s cost, pursuant to Section 16.3(k).
- (k) If Section 16.3(j) requires Project Co to perform any alteration, addition, demolition, extension or variation in the Works as a result of any Contracting Authority Contamination, or as a result of any instructions given by Contracting Authority pursuant to Section 16.3(j), then Project Co shall be entitled to a Variation for any such alteration, addition, Demolition, extension or variation in the Works in accordance with Schedule 22 – Variation Procedure.
- (l) The Parties agree that any Disputes in respect of a claim pursuant to Section 16.3(g) shall be referred to the CDB for a decision pursuant to Section 4.5(a) (*CDB to Resolve Disputes*) of Schedule 27 – Dispute Resolution Procedure.

16.4 Items of Geological, Historical Heritage or Archaeological Interest or Value

- (a) As between the Parties, all fossils, artifacts and other objects having artistic, historic, archaeological or monetary value, including human remains and burial sites, which may be found on, in or under the Lands (collectively the “**Items of Interest or Value**”) are or shall be the sole and absolute property of Contracting Authority or the owner of the relevant property, as applicable.
- (b) “**Project Co Items of Interest or Value**” shall mean any Items of Interest or Value that:
 - (i) were within the Knowledge of the Project Manager as of the Financial Submission Deadline; or

- (ii) were described in the Archaeological Reports, the Cultural Heritage Reports or the Environmental Assessments as of the Technical Reference Date.
- (c) **“Contracting Authority Items of Interest or Value”** means all Items of Interest or Value other than the Project Co Items of Interest or Value.
- (d) Project Co shall be responsible, at its sole cost and expense, for the Project Co Items of Interest and Value.
- (e) Any Contracting Authority Items of Interest or Value encountered by Project Co shall, subject to and in accordance with Section 40, be treated as a Delay Event and, subject to and in accordance with Section 41, be treated as a Compensation Event.
- (f) Upon the discovery of any Items of Interest or Value, Project Co shall:
 - (i) promptly inform the Contracting Authority Representative of such discovery; and
 - (ii) take all steps not to disturb the Items of Interest or Value and, if necessary, cease any Works in so far as performing such Works would endanger the Items of Interest or Value or prevent or impede their excavation, take all necessary steps to preserve and ensure the preservation of the Items of Interest or Value in the same position and condition in which it was found, and comply, and ensure that all Project Co Parties comply, with the requirements of Schedule 17 – Environmental Obligations, the Metrolinx Interim Heritage Management Protocol (2013), Applicable Law and all requirements of Governmental Authorities with respect to such discovery, including the *Funeral, Burial and Cremations Services Act, 2002* (Ontario) and the *Standards & Guidelines for Conservation of Provincial Heritage Properties issued under the Ontario Heritage Act* (Ontario):
 - (A) at Contracting Authority’s cost pursuant to Section 16.4(e) in respect of any Contracting Authority Items of Interest or Value; and
 - (B) at its own cost in respect of any Project Co Item of Interest or Value.
- (g) In the event that Contracting Authority wishes Project Co to perform actions in respect of any discovery of any Items of Interest or Value which are in addition to any required pursuant to Section 16.4(f), then Contracting Authority shall issue an instruction to Project Co specifying what action Contracting Authority requires Project Co to take and Project Co shall promptly and diligently comply with all such instructions at Contracting Authority’s cost subject to and in accordance with Section 16.4(h).
- (h) If Section 16.4(g) requires Project Co to perform any alteration, addition, Demolition, extension or variation in the Works, as a result of any instructions given by Contracting Authority pursuant to Section 16.4(g), then Project Co shall be entitled to a Variation for any such alteration, addition, Demolition, extension or variation in the Works in accordance with Schedule 22 – Variation Procedure.

- (i) The Parties agree that any Disputes in respect of a claim pursuant to Section 16.4(e) shall be referred to the CDB for a decision pursuant to Section 4.5(a) (*CDB to Resolve Disputes*) of Schedule 27 – Dispute Resolution Procedure.

16.5 Major Existing Infrastructure Condition

- (a) **“Differing Major Existing Infrastructure Condition”** means any Major Existing Infrastructure Condition to the extent that it differs from the information provided in the applicable Major Existing Infrastructure Condition Report (including any Major Existing Infrastructure Condition that was not described or contained in such Major Existing Infrastructure Report) provided that such difference was not:
 - (i) within the Knowledge of the Project Manager as of the Financial Submission Deadline;
 - (ii) readily apparent from the Project Co Land Inspections; or
 - (iii) caused or contributed to by Project Co or a Project Co Party (a **“Project Co Caused Differing Major Existing Infrastructure Condition”**).
- (b) Project Co shall have no claims against Contracting Authority in respect of any Major Existing Infrastructure or Major Existing Infrastructure Conditions except for Differing Major Existing Infrastructure Conditions.
- (c) Any Differing Major Existing Infrastructure Condition encountered by Project Co shall, subject to and in accordance with Section 40, be treated as a Delay Event, subject to and in accordance with Section 41, be treated as a Compensation Event and subject to and in accordance with Section 42, be treated as an Excusing Cause.
- (d) Upon the discovery of a Differing Major Existing Infrastructure Condition or a Project Co Caused Differing Major Existing Infrastructure Condition, Project Co shall immediately inform the Contracting Authority Representative.
- (e) Except to the extent required to mitigate an Emergency or to comply with Applicable Law, Project Co shall not undertake any work in respect of any Differing Major Existing Infrastructure Condition or Project Co Caused Differing Major Existing Infrastructure Condition until the Contracting Authority Representative has been given a reasonable opportunity to review the nature and extent of the defect and has instructed Project Co to proceed with such work.
- (f) In the event that Contracting Authority wishes Project Co to perform actions in respect of any Differing Major Existing Infrastructure Condition or Project Co Caused Differing Major Existing Infrastructure Condition then Contracting Authority shall issue an instruction to Project Co specifying what action Contracting Authority requires Project Co to take and Project Co shall promptly and diligently comply with all such instructions:
 - (i) at Contracting Authority’s cost subject to and in accordance with Section 16.5(g) in respect of any Differing Major Existing Infrastructure Condition; and

- (ii) at its own cost in respect of any Project Co Caused Differing Major Existing Infrastructure Condition.
- (g) If Section 16.5(f)(i) requires Project Co to perform any alteration, addition, Demolition, extension or variation in the Works, then Project Co shall be entitled to a Variation for any such alteration, addition, Demolition, extension or variation in the Works in accordance with Schedule 22 – Variation Procedure.
- (h) The Parties agree that any Disputes in respect of a claim pursuant to Section 16.5(c) shall be referred to the CDB for a decision pursuant to Section 4.5(a) (*CDB to Resolve Disputes*) of Schedule 27 – Dispute Resolution Procedure.

16.6 Mislocated or Unknown Utility Infrastructure

- (a) **“Project Co Utility Infrastructure”** shall mean all Utility Infrastructure on, in or under the Lands that:
 - (i) was within the Knowledge of the Project Manager, as of the Financial Submission Deadline;
 - (ii) was described in the Subsurface Utility Engineering (SUE) Reports as of the Technical Reference Date other than Mislocated Utility Infrastructure;
 - (iii) was readily apparent from the Project Co Land Inspections;
 - (iv) is a service connection; or
 - (v) is any of the following owned by the City of Toronto or MTO:
 - (A) watermains of nominal diameter less than 150mm;
 - (B) combined sewers or storm sewers of nominal diameter less than 300mm;
 - (C) sanitary sewers of nominal diameter less than 250mm; and
 - (D) street lighting and traffic signal cables.
- (b) **“Contracting Authority Utility Infrastructure”** means:
 - (i) any Mislocated Utility Infrastructure; and
 - (ii) any other Utility Infrastructure on, or in the Lands, other than Project Co Utility Infrastructure.
- (c) Project Co shall be responsible, at its sole cost and expense, for all Project Co Utility Infrastructure.

- (d) Any Contracting Authority Utility Infrastructure encountered by Project Co shall, subject to and in accordance with Section 40, be treated as a Delay Event and, subject to and in accordance with Section 41, be treated as a Compensation Event.
- (e) Project Co shall promptly notify Contracting Authority in writing upon the discovery of any Contracting Authority Utility Infrastructure.
- (f) Project Co shall not undertake any work in respect of any Contracting Authority Utility Infrastructure until the Contracting Authority Representative has been given a reasonable opportunity to review the nature and extent of the Contracting Authority Utility Infrastructure and has instructed Project Co to proceed with such work.
- (g) In the event that Contracting Authority wishes Project Co to perform actions in respect of any Contracting Authority Utility Infrastructure then Contracting Authority shall issue an instruction to Project Co specifying what action Contracting Authority requires Project Co to take and Project Co shall promptly and diligently comply with all such instructions at Contracting Authority's cost, subject to and in accordance with Section 16.6(h).
- (h) If Section 16.6(g) requires Project Co to perform any alteration, addition, Demolition, extension or variation in the Works, then Project Co shall be entitled to a Variation for any such alteration, addition, Demolition, extension or variation in the Works in accordance with Schedule 22 – Variation Procedure.
- (i) The Parties agree that any Disputes in respect of a claim pursuant to Section 16.6(d) shall be referred to the CDB for a decision pursuant to Section 4.5(a) (*CDB to Resolve Disputes*) of Schedule 27 – Dispute Resolution Procedure.

16.7 Species-at-Risk

- (a) **“Project Co Species-at-Risk”** shall mean any Species-at-Risk which may be found on, in, at, or under the Lands:
 - (i) that were Species-at-Risk as of the Technical Submission Deadline and the occurrence of which was described in the Environmental Assessments (including the location in which it was found);
 - (ii) the occurrence of which is caused or contributed to by a failure of Project Co to comply with, or a breach by Project Co of, the provisions of the Project Agreement (but only to the extent of such cause or contribution); or
 - (iii) that are new populations of Species-at-Risk in locations on the Lands caused by a failure of Project Co to comply with, or a breach by Project Co of, the provisions of the Project Agreement and which resulted in the creation of conditions deemed suitable habitat for Species-at-Risk in accordance with Applicable Law.
- (b) **“Contracting Authority Species-at-Risk”** shall mean any Species-at-Risk which may be found on, in, at, or under the Lands other than Project Co Species-at-Risk.

- (c) Project Co shall be responsible, at its sole cost and expense, for all Project Co Species-at-Risk.
- (d) Any Contracting Authority Species-at-Risk encountered by Project Co shall, subject to and in accordance with Section 40, be treated as a Delay Event and, subject to and in accordance with Section 41, be treated as a Compensation Event.
- (e) Upon the discovery of any Species-at-Risk, Project Co shall immediately inform the Contracting Authority Representative, and shall comply, and ensure compliance by all Project Co Parties, with all Applicable Law and the provisions of the Output Specifications and Schedule 17 – Environmental Obligations in respect thereof (including taking all necessary steps to preserve the respective habitat and relocate the Species-at-Risk):
 - (i) at Contracting Authority's cost pursuant to Section 16.7(d) in respect of Contracting Authority Species-at-Risk; and
 - (ii) at its own cost in respect of Project Co Species-at-Risk.
- (f) In the event that Contracting Authority wishes Project Co to perform any actions which are in addition to any required pursuant to Section 16.7(e), then Contracting Authority shall issue an instruction to Project Co specifying what action Contracting Authority requires Project Co to take and Project Co shall promptly and diligently comply with all such instructions at Contracting Authority's cost pursuant to Section 16.7(g).
- (g) If Section 16.7(f) requires Project Co to perform any alteration, addition, Demolition, extension or variation in the Works as a result of any Contracting Authority Species-at-Risk or as a result of any instructions given by Contracting Authority pursuant to Section 16.7(f), then Project Co shall be entitled to a Variation for any such alteration, addition, Demolition, extension or variation in the Works in accordance with Schedule 22 – Variation Procedure.
- (h) The Parties agree that any Disputes in respect of a claim pursuant to Section 16.7(d) shall be referred to the CDB for a decision pursuant to Section 4.5(a) (*CDB to Resolve Disputes*) of Schedule 27 – Dispute Resolution Procedure.

17. INTENTIONALLY DELETED

18. CHANGE IN STANDARDS

- (a) Where this Project Agreement requires Project Co to comply with a technical or operational standard in respect of the design, construction, maintenance, rehabilitation or operations aspects of the Project Operations, and that standard has changed between the Technical Reference Date and the date that such compliance is required, then Project Co shall give Notice to Contracting Authority of such change. If, after such Notice, Contracting Authority requires compliance with the changed standard (rather than the standard applicable as of the date of the Technical Reference Date), then, to the extent such change impacts the design, construction, maintenance, rehabilitation or operations aspects of the Project Operations and would not have otherwise been taken into account by compliance with Good Industry Practice as at the Technical Reference Date, such changed standard shall, subject to and in accordance with Schedule 22 – Variation

Procedure, result in a Variation. If Contracting Authority does not require compliance with the changed standard, then Project Co shall continue to comply with the standard applicable as of the Technical Reference Date, without a Variation therefor. This Section 18 shall not apply where a change in a technical standard is also a Change in Law.

19. COORDINATION AND NO DISRUPTION

- (a) Project Co shall perform the Project Operations so as to coordinate with,
- (i) subject to and in accordance with Section 9.8 (to the extent applicable), the operations of Contracting Authority, any Province Persons, any Governmental Authority and the City;
 - (ii) the construction, operation and maintenance of any System Extension and in accordance with Schedule 44 – System Extension;
 - (iii) the construction of the interface, connection or inter-connection between the Ontario Line Subway and the existing the Toronto Transit Commission network, the existing Railway Company network, the existing GO Transit network, each in accordance with the Output Specifications, and any other Ontario road or roadway;
 - (iv) all TOC Developments, in accordance with Section 30.1, the Output Specifications and any other term or provision set out in this Project Agreement, and
 - (v) all Adjacent Developments, in accordance with Sections 9.9 and 30.1.
- (b) Subject to Section 19(a), Project Co shall use commercially reasonable efforts to minimize:
- (i) any interference with the operations of:
 - (A) Contracting Authority, any Province Person, any Governmental Authority, the City, any Other Contractor, Railway Company or Utility Company, including the performance of the Governmental Activities and the Other Works;
 - (B) the TOC Developments; and
 - (C) the existing City of Toronto network, the existing TTC network, the existing CP Rail network, the existing GO Transit network, and any other Ontario road or roadway;
 - (ii) any interference with the construction or maintenance of:
 - (A) the existing Toronto Transit Commission network;
 - (B) the existing GO Transit network;
 - (C) the existing CP Rail network;
 - (D) any other Ontario road or roadway; and

- (E) the TOC Developments.
- (iii) any lane closures, track closures, traffic diversions, track diversions, traffic restrictions, track restrictions or other impairment of the public's use and enjoyment of the Ontario Line Subway; and
- (iv) any interference with Adjacent Developments.
- (c) Subject to Section 19(a), Project Co shall use commercially reasonable efforts to not interfere with the construction, maintenance or operation of the North Civil Project or the South Civil Project.
- (d) Subject to Section 19(a), Project Co shall, as required by Contracting Authority, provide all commercially reasonable assistance to facilitate the discussion, agreement and any implementation of proposals with respect to TOC Developments.

20. DESIGN AND CONSTRUCTION OBLIGATIONS

20.1 Overall Responsibility

- (a) Project Co shall perform and complete the Works:
 - (i) so as to satisfy the Output Specifications;
 - (ii) in accordance with the Project Co Proposal Extracts;
 - (iii) in accordance with the Design Data;
 - (iv) in accordance with the Project Works Schedules; and
 - (v) in accordance with the other terms and conditions of this Project Agreement.
- (b) Without prejudice to Section 20.1(a) or the obligations of the Contracting Authority under Section 4 (*Warranty Claims, Warranty Work and Seasonal Minor Deficiencies*) of Schedule 41 – Early Works Handover, Section 8 (*Warranty Claims and Warranty Work*) of Schedule 42 – South Civil Infrastructure Access and Handover and Section 10 (*Warranty Claims and Warranty Work*) of Schedule 43 – North Civil Infrastructure Access and Handover, but subject to the provisions of the Project Co Services Requirements, Schedule 20 – Payment Mechanism, and Schedule 24 – Expiry Transition Procedure, if, at any time during the Project Term, any of the Works, or the Ontario Line Subway (other than the New Third Party Infrastructure), or, if at any time prior to handover thereof and subject to Section 25.14, the New Third Party Infrastructure or any parts thereof do not fully satisfy the Output Specifications and/or any other term or condition of this Project Agreement (other than the Project Co Proposal Extracts) Project Co shall, at its own cost and expense, rectify the Works, the Ontario Line Subway, the New Third Party Infrastructure and any part thereof so that:

- (i) the Works, the Ontario Line Subway, the New Third Party Infrastructure and all parts thereof shall, at all times, comply with and satisfy in full the Output Specifications and the other terms and conditions of this Project Agreement (other than the Project Co Proposal Extracts); and
- (ii) the Works, the Ontario Line Subway, the New Third Party Infrastructure and all parts thereof will, at all times, be able to meet all safety and performance standards and other requirements set out in the Output Specifications and the Project Agreement.

20.2 Completion of Ontario Line Subway and New Third Party Infrastructure

- (a) Project Co shall design, engineer and construct the Project Co Infrastructure and New Third Party Infrastructure, and commission the Ontario Line Subway and New Third Party Infrastructure, so as to provide Contracting Authority a complete and operational Ontario Line Subway and complete New Third Party Infrastructure in accordance with the Output Specifications and the Project Co Proposal Extracts, and that will allow Project Co to perform the Project Operations, all in accordance with and subject to the terms of this Project Agreement.

20.3 Development of Design

- (a) Project Co shall, at its own cost, develop and complete the design of the Project Co Infrastructure, New Third Party Infrastructure and all Design Data in accordance with the requirements of this Project Agreement, including Schedule 10 – Review Procedure and this Section 20.3.
- (b) The further development of the design of the Project Co Infrastructure and New Third Party Infrastructure and the process by which such design is progressed must fully comply with the requirements of this Project Agreement.
- (c) In order to develop the detailed design of the Project Co Infrastructure and New Third Party Infrastructure, Project Co shall consult with the Stakeholders (which consultation requirements pursuant to the Environmental Assessments are further described in Schedule 17 – Environmental Obligations) and the Contracting Authority Representative and the Contracting Authority Design Team in an interactive process. The development of the detailed design of the Project Co Infrastructure and New Third Party Infrastructure based on Stakeholder input shall in no way be construed or regarded as a Variation and is not intended to result in a Variation.
- (d) The Parties agree that Appendix A to Schedule 10 – Review Procedure are initial lists of Design Data and other items that will require design review, which Design Data and other items shall include design, procurement and construction documentation (to a scale required by the Contracting Authority Representative) for each of the following:
 - (i) design development drawings, reports, schedules and specifications for the Project Co Infrastructure and New Third Party Infrastructure, progressed from Commercial Close, showing all engineering and non-engineering design information sufficient to allow for the development of working drawing documentation (collectively, the “**Design Development Submittals**”);

- (ii) working drawing documentation, being construction drawings, reports, schedules and specifications progressed from the Design Development Submittals, showing all architectural, engineering and non-engineering design information in accordance with the requirements of this Project Agreement (collectively, the “**Construction Document Submittals**”);
 - (iii) Permits, Licences, Approvals and Agreements drawings (phased, if applicable); and
 - (iv) all other documentation required pursuant to Schedule 10 – Review Procedure.
- (e) Project Co shall submit to the Contracting Authority Representative for review in accordance with Schedule 10 – Review Procedure all Design Data and other items listed in Section 20.3(d).
- (f) The Design Data and other items listed in Section 20.3(d) must contain, at a minimum, the following additional information:
- (i) identification of the stage of design or construction to which the documentation relates;
 - (ii) all design or construction drawings and specifications necessary to enable the Contracting Authority Representative to make an informed decision as to whether Project Co is permitted to proceed pursuant to Schedule 10 – Review Procedure;
 - (iii) for each stage of the design or construction documentation, a schedule identifying all changes to the relevant documentation that has occurred from the previous stage of design or construction documentation; and
 - (iv) where changes have been submitted, an indication of how the changes meet the requirements of this Project Agreement.
- (g) If Project Co commences or permits the commencement of the next level of design or construction of any part or parts of the Project Co Infrastructure prior to being entitled to proceed in accordance with Schedule 10 – Review Procedure and it is subsequently determined in accordance with Schedule 10 – Review Procedure or Schedule 27 – Dispute Resolution Procedure that the design or construction does not comply with this Project Agreement, then Project Co shall forthwith, at its own cost and risk undo, remove from the Project Co Infrastructure, and/or Lands, replace and restore, as applicable, any parts of the design or construction that do not comply with this Project Agreement.
- (h) Project Co shall not commence or permit the commencement of the next level of construction of any part or parts of the New Third Party Infrastructure, unless Project Co has first obtained the applicable written consents of the applicable third party in each case as set out in this Project Agreement. If, after obtaining such written consent, Project Co commences or permits the commencement of the next level of construction of any part or parts of the New Third Party Infrastructure, prior to being entitled to proceed in accordance with this Section 20.3(h) and Schedule 10 – Review Procedure and it is subsequently determined in accordance with Schedule 10 – Review Procedure or Schedule 27 – Dispute Resolution Procedure that the construction does not comply with this Project Agreement, then Project Co shall forthwith, at its own cost and risk,

- (i) obtain written consent from the applicable third party owner of the New Third Party Infrastructure to undo, remove from the New Third Party Infrastructure, and/or Lands, replace and restore, as applicable, any parts of the construction that do not comply with this Project Agreement; and
 - (ii) following the written consent contemplated in Section 20.3(h)(i), undo, remove from the New Third Party Infrastructure, and/or Lands, replace and restore, as applicable, any parts of the construction that do not comply with this Project Agreement.
- (i) Neither Contracting Authority nor any Province Person will have any liability:
- (i) if a document submitted by Project Co and reviewed by Contracting Authority, the Contracting Authority Representative or the Contracting Authority Design Team results in non-compliance with this Project Agreement by Project Co or a breach by Project Co of Applicable Law; or
 - (ii) for any loss or claim arising due to any defect in any documents, drawings, specifications or certificates submitted by Project Co.
- (j) Project Co and Contracting Authority will cooperate with each other in the design review process. Notwithstanding such cooperation by Contracting Authority, such review shall not constitute acceptance of the Works, and Project Co shall remain solely responsible for compliance in full with all requirements of this Project Agreement.
- (k) Project Co shall allow the Contracting Authority Representative and the Contracting Authority Design Team, at any time, a reasonable opportunity to view any items of Design Data, which shall be made available to the Contracting Authority Representative and/or Contracting Authority Design Team, as applicable, as soon as practicable following receipt of a written request from the Contracting Authority Representative.
- (l) Project Co shall cause the Construction Contractor to establish and maintain a computerized design database which Project Co and Contracting Authority may access remotely by computer to view drawings comprised within the Design Data and to electronically store and print copies of such Design Data.

20.4 Start-Up Meeting

- (a) Within twenty (20) Business Days after Commercial Close, Project Co and the Design Team shall attend a start-up meeting (the “**Start-Up Meeting**”) with Contracting Authority to set out the design development process in greater detail.
- (b) The agenda for the Start-Up Meeting shall include the following:
 - (i) Project Co’s plan to develop a successful long-term partnership with Contracting Authority for the purpose of supporting Contracting Authority in achieving its vision, mission and core values;

- (ii) Project Co's plan to ensure that the Works are completed in accordance with the requirements set forth in this Project Agreement;
- (iii) Project Co's process to ensure design quality;
- (iv) Project Co's approach to ensure that all Project Co Parties perform the Works, as applicable, as a fully integrated and coordinated team;
- (v) a proposed schedule of Works Submittals which is consistent with the Interim Baseline Works Schedule which provides for a progressive and orderly flow of Works Submittals from Project Co to the Contracting Authority Representative to allow sufficient time for review of each Works Submittal by the Contracting Authority Representative, and taking into account both the resources available to the Contracting Authority Representative to conduct such review and whether delay in the review of the subject matter of the Works Submittal will have a material impact on Project Co's ability to progress future anticipated Works Submittals and the Works in accordance with the Interim Baseline Works Schedule;
- (vi) Project Co's plan to successfully integrate feedback from consultations with Stakeholders and the Contracting Authority Design Team;
- (vii) Project Co's approach to timing, construction, and adjustment; and
- (viii) a communication process that includes an electronic data room and the use of a computerized document tracking system that has the capacity to report, on request, the status of all design and construction documentation and that takes into account the document security protocol described in Section 52.1(e).

20.5 Design Review Meetings

- (a) In order to obtain input in the preparation of, and prior to submitting, the Design Development Submittals and the Construction Document Submittals, Project Co and the Design Team shall hold design review meetings (the "**Design Review Meetings**") with Contracting Authority and the Contracting Authority Design Team upon the following terms:
 - (i) the Project Co Representative shall arrange the Design Review Meetings in consultation with the Contracting Authority Representative;
 - (ii) unless otherwise agreed to by the Parties, all Design Review Meetings shall take place in the City of Toronto. Meetings of the Design Review Meetings may be held by means of such telephonic, electronic or other communication facilities as permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously. A person participating in a meeting by such means will be deemed to be present at such meeting;

- (iii) the Parties shall cooperate to develop a reasonable schedule for the Design Review Meetings and Project Co shall incorporate such schedule into each of the Project Works Schedules;
- (iv) Project Co shall circulate to Contracting Authority and the Contracting Authority Design Team an agenda for each of the Design Review Meetings no later than ten (10) Business Days prior to the relevant Design Review Meeting;
- (v) in advance of a Design Review Meeting, Project Co may submit to the Contracting Authority Design Team for comment any interim drafts of any designs or plans required under this Project Agreement, which submissions shall be used to inform Contracting Authority on the development of Project Co Infrastructure and New Third Party Infrastructure design and provide an opportunity for dialog on compliance with the requirements of the Project Agreement. If a Proposal Part corresponds to the interim submissions, then Project Co shall ensure that the interim submissions are substantially the same content and level of detail as the corresponding Proposal Part. For greater certainty,
 - (A) interim submissions shall be informal and shall not be reviewed in accordance with Schedule 10 – Review Procedure; and
 - (B) the requirement for Project Co to submit interim submissions that are substantially the same content and level of detail as the corresponding Proposal Part, shall not,
 - (I) lessen, reduce or otherwise modify or amend Contracting Authority’s rights under the Project Agreement to review any Design Development Submittals in accordance with Schedule 10 – Review Procedure; or
 - (II) constitute acceptance by Contracting Authority of the corresponding Proposal Part or any Design Development Submittal in accordance with Schedule 10 – Review Procedure;
- (vi) the Design Review Meetings shall be held in person, except where otherwise agreed by the Parties, acting reasonably;
- (vii) Project Co shall maintain minutes of the Design Review Meetings, including possible design solutions and changes in design, and, within five (5) Business Days after each Design Review Meeting, Project Co shall provide to Contracting Authority and the Contracting Authority Design Team a copy of the minutes, together with a copy of any notes, comments, sketches, drawings, tracings, lay-outs, plans or diagrams prepared at the Design Review Meeting. Unless Contracting Authority notifies Project Co within five (5) Business Days of receipt of the minutes that Contracting Authority disagrees with the contents of the minutes, notes, comments, sketches, drawings, tracings, lay-outs, plans or diagrams, Contracting Authority and Project Co shall be deemed to have approved such minutes; and

- (viii) Contracting Authority and Project Co agree that the subject matter of the Design Review Meetings shall not be regarded as Submittals to which Schedule 10 – Review Procedure applies, and that Contracting Authority shall not be bound by the input provided in connection with the Design Review Meetings.
- (b) The Parties shall, together with the Contracting Authority Design Team, hold Design Review Meetings prior to the submission of:
 - (i) each of the Design Development Submittals; and
 - (ii) each of the Construction Document Submittals.
- (c) The purpose of the Design Review Meetings is to facilitate the incorporation of Contracting Authority input, involvement and feedback into the Design Data prior to submission of such Design Data in accordance with Schedule 10 – Review Procedure.

20.6 Testing

- (a) To the extent and in the manner provided by the Quality Documentation and other terms of this Project Agreement, all testing shall be carried out by a duly accredited and certified testing facility and organization. The Contracting Authority Representative shall be given timely advance Notice (being not less than five (5) Business Days) of the date of such tests, except for categories of tests (if any) in respect of which the Contracting Authority Representative gives written Notice to Project Co that it does not require such Notice. The Contracting Authority Representative and any other Contracting Authority Party at Contracting Authority's option shall be entitled to attend at any test. Any materials or plant which fail such tests shall be rejected.
- (b) Project Co shall develop a test recording system which shall permit ready retrieval of all test readings and shall provide information relating to tests proposed, test methodology and test readings to the Contracting Authority Representative on request.
- (c) With respect to continuous testing operations (such as concrete quality, structural concrete strengths, aggregate quality, compaction tests and bituminous material quality), Project Co shall provide to the Contracting Authority Representative at regular intervals (not to exceed weekly unless otherwise agreed by the Parties) test summary sheets and statistical analyses indicating strength and quality trends.

20.7 Performance of Design Obligations

- (a) In the design and engineering of the Project Co Infrastructure and New Third Party Infrastructure, Project Co, its consultants and the Project Co Parties shall exercise the standard of care normally exercised by licensed or registered professional engineering and architectural personnel and other licensed or registered professionals, as applicable, having knowledge and experience in performing design activities of a similar nature, scope and complexity.
- (b) Project Co shall ensure that all parts of the Works shall, as required by Applicable Law, be performed or reviewed by licensed or registered Professional Engineers and Architects, as

applicable, registered to practice in the Province of Ontario. Such Architects and engineers shall certify and, if required by Applicable Law, sign and seal, all designs, drawings and technical reports confirming that they comply with all prevailing design standards and design practices for such work in the Province of Ontario, and all other applicable standards, specifications and codes, and as otherwise required by Applicable Law.

20.8 General Construction Obligations

- (a) Project Co is solely responsible for all construction means, methods and techniques used to undertake the Works and must provide everything (including labour, plant, equipment and materials) necessary for the construction of the Project Co Infrastructure and New Third Party Infrastructure and commissioning of the Ontario Line Subway and New Third Party Infrastructure, and other performance of the Works.
- (b) Project Co shall in a timely and professional manner and in accordance with the requirements of this Project Agreement:
 - (i) construct the Works diligently, expeditiously and in a thorough and workman-like manner consistent with Schedule 11 – Quality Management;
 - (ii) ensure that,
 - (A) no works other than the Works under this Project Agreement are constructed on the Lands, the Project Co Infrastructure, the New Third Party Infrastructure or the Existing Infrastructure by Project Co, any Project Co Party or any person for whom Project Co is responsible at law; and
 - (B) the Project Co Infrastructure is constructed only on the Metrolinx Lands in accordance with the Output Specifications;
 - (iii) protect the Works from all of the elements, casualty and damage; and
 - (iv) in respect of plant, equipment and materials incorporated in the Works, use plant, equipment and materials that:
 - (A) are of a kind that are consistent with the Output Specifications;
 - (B) are new, of good quality and are used, handled, stored and installed in accordance with Applicable Law and Good Industry Practice with respect to health and safety so as not to be hazardous or dangerous; and
 - (C) where they differ from the Output Specifications, have been substituted with Contracting Authority's prior written consent in accordance with Section 20.9.
- (c) Without limiting Project Co's obligations pursuant to Section 9.5 or Project Co's indemnity pursuant to Section 56.1, and subject to Section 9.7, Project Co shall, at all times prior to the Substantial Completion Date, and thereafter any time Project Co is undertaking Construction

Activities, be responsible for maintaining and securing the Metrolinx Lands to prevent access onto the Metrolinx Lands, the New Third Party Infrastructure and the Existing Infrastructure of any persons not entitled to be there, and the licence granted to Project Co pursuant to Section 14.1 shall include rights for Project Co to do so.

- (d) During the Construction Period, Project Co shall not, and Project Co shall ensure that the Project Co Parties do not, in any way whatsoever, contravene or cause the City to contravene any provision of any labour-related contractual obligation or agreement or any provision of any collective agreement to which the City is a party that: (A) relates to any construction pursuant to this Project Agreement; and (B) was identified by Contracting Authority on or before the Technical Reference Date, as such collective agreements or labour-related agreements may be amended from time to time. To the extent that any such labour-related agreement or any provision of any collective agreement materially changes from the labour-related agreements or collective agreements that were available on the Collective Agreements e-Library Portal or as part of the Background Information as of the Technical Reference Date, then such material change shall, subject and in accordance with Schedule 22 – Variation Procedure, result in a Variation.

20.9 Substitutions

- (a) Whenever equipment, components, materials, supplies, tools, and other items are specified or otherwise described in this Project Agreement by using the name or catalogue or model number of a particular manufacturer, fabricator, vendor or distributor, or any other material name or description, the naming or identification of the item is intended to establish the type and the minimum function and quality required, and equipment, components, materials, supplies, tools, and other items of other manufacturers, fabricators, vendors or distributors shall not be substituted without the prior written consent of Contracting Authority, in its sole discretion.

20.10 Works Submittals

- (a) Any and all items, documents and anything else required or specified by this Project Agreement in respect of the Works to be submitted to, reviewed or otherwise processed by Contracting Authority prior to Substantial Completion, or after Substantial Completion in respect of the completion of Minor Deficiencies, and in respect of the rectification of any Works, the Ontario Line Subway or the New Third Party Infrastructure, including any and all subsequent revisions, amendments and changes thereto, shall be subject to review by Contracting Authority pursuant to Schedule 10 – Review Procedure.

20.11 Liquidated Damages and Construction Enforcement Regime

- (a) Project Co shall comply with Schedule 19 – Liquidated Damages and Construction Enforcement Regime, and shall be liable to Contracting Authority for all liquidated damages and Construction Period Deductions in accordance with the terms of Schedule 19 – Liquidated Damages and Construction Enforcement Regime and the other applicable provisions of this Project Agreement.

20.12 [Intentionally Deleted]

20.13 Executive Project Meetings

- (a) Subject to Sections 20.13(b) and 20.13(c), during the Construction Period and up to and including the second anniversary of the Substantial Completion Date, either Party, may, in its sole discretion and from time to time, schedule and hold meetings with senior executives of Contracting Authority, Project Co and the Project Co Parties for such individuals to provide senior executives of Contracting Authority with an update on the progress of and issues with the Project (each is an “**Executive Project Meeting**”).
- (b) Either Party may, in its sole discretion, elect to schedule and hold an Executive Project Meeting upon the delivery of no fewer than ten (10) Business Days’ prior Notice to the other Party.
- (c) The precise date, time and location of each Executive Project Meeting shall be scheduled by Contracting Authority, acting reasonably.
- (d) Contracting Authority shall have the right to request the attendance of specific employees, officers, directors and other representatives of Project Co or any Project Co Party at each Executive Project Meeting, and, if requested to attend such meeting, Project Co shall use commercially reasonable efforts to ensure all such individuals attend.
- (e) No later than five (5) Business Days prior to the date of each Executive Project Meeting, Project Co shall prepare and submit to Contracting Authority a one page (11” x 17” sized) summary (the “**Executive Project Meeting Document**”), which shall include the following information and be current to such date:
 - (i) the date of the Executive Project Meeting Document (in month and year format);
 - (ii) Project information, including the name of the Project, the name of Project Co and the names of the Project Co Parties, including their respective representatives in attendance;
 - (iii) a high-level Project schedule in respect of the Works, including Commercial Close, Financial Close, the design development phase, the construction phase, the testing and commissioning phases, the Scheduled Substantial Completion Date, the Anticipated Substantial Completion Date if such date is different from the Scheduled Substantial Completion Date, the Scheduled Final Completion Date, and any other material high-level items on the Critical Path of, as applicable, the Interim Baseline Works Schedule or the Baseline Works Schedule;
 - (iv) a brief description of the status of the design process to date, including the number of (A) Submittals submitted to Contracting Authority pursuant to Schedule 10 – Review Procedure; (B) Submittals for which the Contracting Authority Representative has assigned a comment of “NO COMMENT”, “REVIEWED AS NOTED – MINOR ISSUES” or “REVIEWED AS NOTED – MAJOR ISSUES” pursuant to Schedule 10 – Review Procedure; (C) Submittals under review by Contracting Authority pursuant to Schedule 10 – Review Procedure; and (D) Submittals scheduled to be submitted to

Contracting Authority pursuant to Schedule 10 – Review Procedure within six (6) months following the Executive Project Meeting;

- (v) a brief high-level description of the Construction Activities undertaken since the previous Executive Project Meeting, including three distinct progress photos;
 - (vi) Earned Value Metrics progress per construction month;
 - (vii) a brief description of the top five (5) issues Project Co desires to bring to the attention of Contracting Authority, and any other significant issues that Project Co wishes to discuss with Contracting Authority;
 - (viii) the number of total recordable injuries, lost time injuries, and non-lost time injuries per construction month;
 - (ix) the number of Non-Conformance Reports issued since Financial Close for each construction month by type (i.e. Critical Non-Conformance, Major Non-Conformance, and Minor Non-Conformance) and the total Failure Points associated with such Non-Conformance Reports;
 - (x) the number of Project Co Permits, Licenses and Approvals opened and closed with an emphasis on delayed applications; and
 - (xi) any other information requested by Contracting Authority, acting reasonably.
- (f) All discussions at an Executive Project Meeting and documents exchanged between the Parties in respect of an Executive Project Meeting shall be on a without prejudice basis and shall not limit or prejudice any Party's rights or obligations under this Project Agreement, including under Schedule 27 – Dispute Resolution Procedure.

21. ACCESS AND MONITORING

21.1 Access for Province Persons

- (a) Subject to Section 21.1(b), but without limiting any of Contracting Authority's rights in respect of the Lands, the Ontario Line Subway, the New Third Party Infrastructure or the right of any third party in relation to that third party's portion of the Lands or New Third Party Infrastructure, Project Co acknowledges and agrees that throughout the Project Term, Project Co shall not restrict the access of Contracting Authority, the Province Persons, and their respective representatives, to the Lands, the Ontario Line Subway and the New Third Party Infrastructure and any workshop where materials, plant or equipment are being manufactured, prepared or stored at all reasonable times during normal working hours, including for the purposes of general inspection or audit, or of attending any test or study being carried out in respect of the Works, or to fulfill any statutory, public or other duties or functions.

For clarity, nothing in this Section 21.1 shall restrict or impede Contracting Authority's or any other third party owner's right to use and access the Existing Infrastructure or any part of the

Lands not required at that time for Project Co's performance of the Works in accordance with the terms hereof.

- (b) In exercising their access rights under Section 21.1(a), Contracting Authority, the Province Persons and their respective representatives, shall:
 - (i) provide reasonable prior Notice appropriate to the circumstances (other than for any offices or other facilities provided for the use of Contracting Authority and/or Province Persons); and
 - (ii) comply with all relevant safety procedures and any reasonable directions with regard to site safety that may be issued by or on behalf of the Project Co Representative from time to time.

21.2 Increased Monitoring

- (a) If, at any time during the Project Term, Contracting Authority is of the opinion, acting reasonably, that there are defects in the Works or that Project Co has failed to comply, in any material respect, with the requirements of this Project Agreement (including the Output Specifications and the Project Co Proposal Extracts), Contracting Authority may, without prejudice to any other right or remedy available to it, by Notice to Project Co, increase the level of monitoring of Project Co from that set out in this Project Agreement to such level as Contracting Authority considers reasonable taking into account the nature of the relevant defect or failure until such time as Project Co shall have demonstrated, to Contracting Authority's satisfaction, that it is capable of performing and will perform, in all material respects, its obligations under this Project Agreement. Project Co will compensate Contracting Authority for any reasonable costs incurred as a result of such increased monitoring.

21.3 Right to Uncover

- (a) Project Co shall ensure that Contracting Authority is afforded advance notice of, and that Contracting Authority is afforded a full opportunity to witness, all inspection and test activity in accordance with the Inspection and Test Plan. If Project Co does not provide such notice and opportunity, Project Co shall at the request of Contracting Authority uncover any relevant part of the Works which have been covered up or otherwise put out of view or remove any relevant part of the Works that have been proceeded with in order to permit Contracting Authority to witness the relevant inspection or test activity. Project Co shall bear all costs of any such uncovering or removal, regardless of whether or not any defect is discovered in the relevant Works.
- (b) Contracting Authority shall have the right, at any time during the Project Term, to request Project Co to uncover and inspect (or allow Contracting Authority to inspect) any part or parts of the Works, or to require testing of any part or parts of the Works, where Contracting Authority reasonably believes that such part or parts of the Works is or are defective or that Project Co has failed to comply with the requirements of this Project Agreement (including the Output Specifications, the Project Co Proposal Extracts and the Design Data) relevant to such part or parts of the Works, and Project Co shall comply with such request. When Contracting Authority

makes such a request, Contracting Authority shall include reasonably detailed reasons with such request.

- (c) If an inspection shows that the relevant part or parts of the Works is or are defective or that Project Co has failed to comply with the requirements of this Project Agreement (including the Output Specifications, the Project Co Proposal Extracts and the Design Data) relevant to such part or parts of the Works, Project Co shall rectify all such defects and non-compliance diligently and at no cost to Contracting Authority and Project Co shall not be entitled to any additional compensation or extension of time in relation thereto.
- (d) If an inspection shows that the relevant part or parts of the Works is not or are not defective and that Project Co has complied with the requirements of this Project Agreement (including the Output Specifications, the Project Co Proposal Extracts and the Design Data) relevant to such part or parts of the Works, the exercise by Contracting Authority of its rights pursuant to this Section 21.3:
 - (i) prior to Substantial Completion shall, subject to and in accordance with Section 40, be treated as a Delay Event and, subject to and in accordance with Section 41, be treated as a Compensation Event; and
 - (ii) following Substantial Completion shall, subject to and in accordance with Section 42, be treated as an Excusing Cause.

21.4 No Relief from Obligations

- (a) The Parties acknowledge that the exercise by Contracting Authority or the Contracting Authority Representative of the rights under this Section 21 shall in no way affect the obligations of Project Co under this Project Agreement except as set out in this Section 21.

21.5 Access by Others

- (a) Subject to Section 21.5(b) and subject to and in accordance with Section 9.8 (to the extent applicable), Project Co shall ensure that throughout the Project Term, without prejudice to any access rights of any such person as a member of the general public or pursuant to Applicable Law, that it does not restrict access to the Lands, Ontario Line Subway, Existing Third Party Infrastructure, or New Third Party Infrastructure for:
 - (i) the Independent Certifier to the extent required to perform its obligations pursuant to Schedule 6 – Independent Certifier Agreement;
 - (ii) inspectors and other persons authorized to act on behalf of Contracting Authority and owners of New Third Party Infrastructure and Existing Third Party Infrastructure, for inspection and/or acceptance purposes;
 - (iii) all Other Contractors, including the owners or operators of any Third Party Facilities and their agents at all reasonable times to exercise any right or power or perform any duty or obligation under any Applicable Law or the Utility Agreements, Railway Orders or

encroachment permits, provided that, prior to the Substantial Completion Date, and any time after the Substantial Completion Date where Project Co is acting as the “constructor” in accordance with the *Occupational Health and Safety Act* (Ontario), wherever consistent with the requirements of Applicable Law and the requirements of this Project Agreement, Project Co may limit such access so as to not unnecessarily impede or restrict traffic flows or any Project Operations;

- (iv) all Governmental Authorities and Emergency Service Providers in order to carry out any work (including surveys and inspections) in accordance with or to exercise any right or power or perform any duty or obligation under any Applicable Law and provided that, prior to the Substantial Completion Date, and any time after the Substantial Completion Date where Project Co is acting as the “constructor” in accordance with the *Occupational Health and Safety Act* (Ontario), whenever consistent with the applicable requirements of such Governmental Authority, Emergency Service Providers or Applicable Law and the requirements of this Project Agreement (as the case may be), Project Co may limit such access so as to not unnecessarily impede or restrict traffic flows or any Project Operations;
 - (v) any Province Person, Other Contractors, owners or operators of Third Party Facilities, Governmental Authorities, Emergency Service Providers, Utility Companies, the City of Toronto, Railway Companies, and transit systems for the purposes of access to and from any other lands and/or facilities adjacent to or in proximity to the Lands, the Ontario Line Subway, the New Third Party Infrastructure and Existing Third Party Infrastructure owned or operated by such person or in which such person has any interest, provided that, prior to the Substantial Completion Date, and any time after the Substantial Completion Date where Project Co is acting as the “constructor” in accordance with the *Occupational Health and Safety Act* (Ontario), whenever consistent with the requirements of Applicable Law and the requirements of this Project Agreement, Project Co may limit such access so as to not unnecessarily impede or restrict traffic flows or any Project Operations; and
 - (vi) any Province Person to undertake emergency training in relation to the Ontario Line Subway.
- (b) Subject to Section 21.5(c), Contracting Authority shall require persons accessing Site(s) on the Metrolinx Lands in accordance with access rights under Section 21.5(a) to:
- (i) provide reasonable prior Notice to Project Co appropriate to the circumstances;
 - (ii) comply with all relevant health and safety procedures and any reasonable directions with regard to health and safety that may be issued by or on behalf of the Project Co Representative from time to time; and
 - (iii) if reasonably required by Project Co, be accompanied by a representative of Project Co or a Project Co Party.
- (c) Section 21.5(b) shall not apply,

- (i) to Additional Contractors, who shall instead comply with any instructions or procedures made by Project Co pursuant to Section 9.8;
- (ii) in the case of access rights described in Section 21.5(a) for the purpose of responding to an Emergency;
- (iii) for the purposes of responding to an Emergency declared by Contracting Authority or by a Governmental Authority; and
- (iv) in circumstance where the requirements of Section 21.5(b) are inconsistent with the requirements of the applicable Governmental Authority or Emergency Service Provider.

21.6 Public Use

- (a) Project Co shall have no right to grant, to the general public, the right to use either the Ontario Line Subway or the New Third Party Infrastructure. It shall be the right of Contracting Authority to grant the right of use to the general public to the Ontario Line Subway. It shall be the right of,
 - (i) the City of Toronto to grant the right of use to the general public to the New City Infrastructure;
 - (ii) the Toronto Transit Commission to grant the right of use to the general public to the New TTC Infrastructure; and
 - (iii) each applicable Railway Company Owner to grant the right of use to the general public to its New Railway Company Infrastructure.
- (b) Except as explicitly permitted by Contracting Authority or this Project Agreement, and subject to Project Co's compliance with all applicable Permits, Licences, Approvals and Agreements, Project Co shall,
 - (i) minimize interference with all existing transit systems at all times during the Construction Period; and
 - (ii) to the extent that the Project necessitates interference, in any way, with the operation of an existing transit system, including the imposition of any closures or detours on an existing transit system, use commercially reasonable efforts to cooperate with Contracting Authority, the City, the Toronto Transit Commission, and other relevant third parties to ensure the continued operation of such existing transit system.
- (c) Except as otherwise expressly provided in this Project Agreement, Project Co shall not have any claim whatsoever against Contracting Authority, any Province Person, Emergency Service Providers or any other Governmental Authority for, or in respect of, any lane closure or diversion or any track closure or diversion, including any closure or diversion as a result of the exercise of any other rights or powers or the discharge of any other duties or functions by any such authority, affecting all or any part of the Lands, the Ontario Line Subway or the New Third Party Infrastructure, at any time.

- (d) Subject to closures or diversions of traffic flow permitted by this Project Agreement, Project Co shall cause all Works and Project Co Services to be carried on so as not to interfere unnecessarily with, and so as to minimize any necessary interference with, the convenience of the public in respect of, and the access of the public to and use of, any public or private roads or highways or other transportation infrastructure (other than the Ontario Line Subway and the New Third Party Infrastructure), whether under the control or in the possession of Contracting Authority or any other person.

22. WORKS SCHEDULE REQUIREMENTS AND WORKS REPORT REQUIREMENTS

22.1 Completion of the Works

- (a) Project Co shall complete the Works in accordance with this Project Agreement and achieve:
- (i) Substantial Completion by the Scheduled Substantial Completion Date; and
 - (ii) Final Completion by the Scheduled Final Completion Date.

22.2 Works Schedule Requirements

- (a) Project Co and Contracting Authority shall comply with the provisions of Schedule 12 – Works Schedule Requirements.

22.3 Notification of Early Substantial Completion

- (a) Unless Project Co obtains the prior written consent of Contracting Authority, in its sole discretion, Project Co shall not be entitled to a Substantial Completion Certificate prior to, and the Substantial Completion Date and the Payment Commencement Date shall not be earlier than, the Scheduled Substantial Completion Date; or
- (b) If Project Co advises Contracting Authority that it expects to be able to achieve Substantial Completion prior to the Scheduled Substantial Completion Date, the Contracting Authority Representative shall be entitled to require Project Co to produce and submit to the Contracting Authority Representative a revised Progress Works Schedule (or Recovery Works Schedule, as applicable) showing the manner and the periods in which the Works shall be performed and what the revised date for Substantial Completion would be so as to enable Contracting Authority to consider at its sole discretion:
- (i) whether to agree to an earlier Scheduled Substantial Completion Date; and
 - (ii) what modifications, if any, shall be required to this Project Agreement in order to accommodate such earlier Scheduled Substantial Completion Date.

22.4 Works Report

- (a) Project Co shall continuously monitor the progress of the Works in relation to the Baseline Works Schedule and, within fifteen (15) Business Days following the end of each calendar month from

Financial Close until the Final Completion Date, Project Co shall provide to the Contracting Authority Representative and the Independent Certifier a works report (each, a “**Works Report**”), which will include:

- (i) an executive summary describing the general status of the Works and progress made over the relevant month;
- (ii) a narrative description of any Disputes related to the Works, including any action that has taken place over the relevant month to resolve such Disputes;
- (iii) a narrative description of the status of any Proceeding at Risk Matter that has not been resolved pursuant to Section 11.6, in accordance with Schedule 27 – Dispute Resolution Procedure or otherwise;
- (iv) any additional content and an update on those matters set out in Schedule 33 – Works Report Requirements;
- (v) in accordance with Section 23, a LEED progress report;
- (vi) a progress report comparing Project Co’s actual Construction Activities and procurement activities relating to the Project Co Infrastructure with LEED rating requirements;
- (vii) a report on the then applicable South Civil Integration Demerit Points Incurred and North Civil Integration Demerit Points Incurred (in each case, identified by reference to those incurred under Part A, Part B, Part C and Part D of Appendix D (*South Civil Integration Demerit Events and Points*) to Schedule 42 – South Civil Infrastructure Access and Handover and Appendix G (*North Civil Integration Demerit Events and Points*) to Schedule 43 – North Civil Infrastructure Access and Handover, as applicable), each as calculated at the time of the applicable Works Report, if any; and
- (viii) a detailed, narrative description of all issues relating to Warranty Work and the warranties set out in Section 25.14,

all in form and substance satisfactory to Contracting Authority, acting reasonably. For greater certainty, for all updates and revisions to any of the Project Works Schedules, Project Co must provide a revised Critical Path reflecting the updated or revised Project Works Schedule.

- (b) Project Co shall use, and shall ensure that the Construction Contractor uses, the project management software system specified by Contracting Authority. The contract management software system will be Primavera Unifier Version: 20.12.6.1 b-06182021-05.

23. LEED, ENERGY AND ENVIRONMENTAL REQUIREMENTS

23.1 Environmental Management / Contamination and Hazardous Substances

- (a) Project Co shall comply with the provisions of Schedule 17 – Environmental Obligations.

23.2 Energy Matters

- (a) Project Co and Contracting Authority shall comply with the provisions of Schedule 8 – Energy Matters.

23.3 LEED Design and Construction Obligations

- (a) Project Co shall perform the Works in respect of the OMSF so as to achieve the prerequisites and credits required to achieve the LEED Silver Certification and, except as set out in the Output Specifications, Project Co may, in its sole discretion, determine which additional credits to pursue.

23.4 Mandatory Prerequisites and Credits

- (a) Project Co shall, at a minimum, achieve the credits and prerequisites under the LEED Rating System provided for in the Output Specifications.
- (b) Project Co shall, at a minimum, achieve the following credits and points under the LEED Rating System:
 - (i) “Outdoor Water Use Reduction” credit under “Performance Category: Water Efficiency”, and obtain a minimum of 1 point in respect of such credit;
 - (ii) “Indoor Water Use Reduction” credit under “Performance Category: Water Efficiency”, and obtain a minimum of 1 point in respect of such credit; and
 - (iii) “Advanced Metering” credit under “Performance Category: Energy & Atmosphere”.

23.5 LEED Progress Reports

- (a) As part of each Works Report, Project Co shall submit a progress report comparing actual construction and procurement activities with LEED Silver Certification requirements for the OMSF.

23.6 LEED Silver Certification

- (a) Within sixty (60) days following Financial Close, Project Co shall cause the OMSF to be registered with CaGBC on behalf of Contracting Authority, and, promptly following such registration, Project Co shall provide evidence to Contracting Authority that such registration is valid and effective as of the date that it was made.
- (b) If there is a change in the requirements for achievement of LEED Silver Certification under the LEED Rating System for the OMSF, and Project Co is required by the CaGBC to comply with such change, then Project Co shall notify Contracting Authority of such change and such change shall, subject to and in accordance with Schedule 22 – Variation Procedure, result in a Variation.
- (c) Project Co shall apply to the CaGBC to obtain LEED Silver Certification for the OMSF as soon as possible.

- (d) In the event that:
- (i) Project Co fails to obtain the credits and minimum number of points required pursuant to Section 23.4(b) within twenty-four (24) months after the Substantial Completion Date; or
 - (ii) LEED Silver Certification for the OMSF is not obtained within twenty-four (24) months after the Substantial Completion Date,

other than as a direct result of any act or omission of Contracting Authority or any Contracting Authority Party, Project Co shall pay to Contracting Authority liquidated damages as set out in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.

23.7 Greenhouse Gas Credits

- (a) Any greenhouse gas credits which may be guaranteed as a result of the Project shall be owned by Contracting Authority and Project Co shall have no entitlement to any of such credits whatsoever.

24. INDEPENDENT CERTIFIER AND COMBINED DISPUTE RESOLUTION BOARD

24.1 Appointment of Independent Certifier

- (a) On or prior to Financial Close, the Parties shall appoint an independent, suitably qualified and experienced consultant to act as the Independent Certifier for the purposes of this Project Agreement, and shall enter into an agreement with the Independent Certifier substantially in the form of Schedule 6 – Independent Certifier Agreement. If the Parties are unable to agree upon the Independent Certifier within such period of time, then the determination of the Independent Certifier shall be made in the same manner as the identification of a replacement Independent Certifier under Section 24.7(b).
- (b) Neither Party shall, without the prior written consent of the other Party, enter into any agreement with the Independent Certifier in connection with the Project other than the Independent Certifier Agreement, and Project Co shall ensure that no Project Co Party enters into any separate agreement with the Independent Certifier in connection with the Project.

24.2 Role of Independent Certifier

- (a) The general role, obligations and functions of the Independent Certifier are described in Schedule 6 – Independent Certifier Agreement.

24.3 Changes to Terms of Appointment of Independent Certifier

- (a) Neither Contracting Authority nor Project Co shall without the other's prior written approval:
- (i) waive, settle, compromise or otherwise prejudice any rights or claims which the other may from time to time have against the Independent Certifier; or
 - (ii) vary the terms of the Independent Certifier Agreement or the services performed or to be performed by the Independent Certifier.

- (b) The Parties shall perform their respective obligations arising under or in connection with the Independent Certifier Agreement.

24.4 Right to Change Appointment of Independent Certifier

- (a) The Parties agree that the Independent Certifier shall not provide any services or reports or other information to Project Co, the Lenders, the Project Co Parties or any other person other than pursuant to the performance of the functions of the Independent Certifier under this Project Agreement unless agreed to in writing by the Parties. The Parties may agree to terminate the Independent Certifier Agreement upon thirty (30) days' Notice to the Independent Certifier. If such Notice is given, then, pursuant to Section 24.7, a new Independent Certifier will be appointed. The Parties agree that, notwithstanding the thirty (30) days' Notice of termination, the Independent Certifier shall continue on a day-to-day basis thereafter until a new Independent Certifier is appointed.

24.5 Cooperation of Independent Certifier

- (a) The Parties agree to cooperate with each other generally in relation to all matters within the scope of or in connection with the Independent Certifier Agreement. All instructions and representations issued or made by either of the Parties to the Independent Certifier shall be simultaneously copied to the other and the Parties shall be entitled to attend all inspections performed by or meetings involving the Independent Certifier.

24.6 Payment of Independent Certifier

- (a) Project Co and Contracting Authority shall share equally the responsibility for the payment of all fees and costs of the Independent Certifier.

24.7 Replacement of Independent Certifier

- (a) In the event of the Independent Certifier's engagement being terminated otherwise than for full performance, the Parties shall liaise and cooperate with each other in order to appoint a replacement consultant to act as the Independent Certifier as soon as reasonably practicable. The identity of any such replacement shall be as agreed by the Parties and the terms of his/her appointment shall, unless otherwise agreed by the Parties, be as set out in the Independent Certifier Agreement.
- (b) In the event the Parties fail to agree upon the identity of a replacement Independent Certifier within five (5) Business Days of the original Independent Certifier's appointment being terminated, then a replacement Independent Certifier shall be chosen as follows:
 - (i) each Party shall, within five (5) Business Days thereafter, select 3 suitably qualified and experienced replacements that would be acceptable to that Party, and shall provide Notice thereof to the other Party, with a ranking of preference for replacements;
 - (ii) if the Parties have both selected a common replacement, then such common replacement shall be the Independent Certifier, and if there is more than one common replacement,

then the common replacement with the highest overall ranking (calculated by adding together the ordinal rank assigned by the Parties) shall be selected, and in the event of a tie, the lowest-cost of such tied replacements shall be selected; and

- (iii) if the Parties have not selected a common replacement, then the determination of the new replacement may be referred for resolution in accordance with Schedule 27 – Dispute Resolution Procedure.

24.8 Combined Dispute Resolution Board

- (a) The Parties shall:
 - (i) appoint and maintain the appointment of the CDB and ensure that the CDB is kept informed of the performance of the Parties' obligations under this Project Agreement and of any Disputes under this Project Agreement, pursuant to and in accordance with Schedule 27 – Dispute Resolution Procedure;
 - (ii) deliver the reports, notices and other documents to the CDB described in Schedule 27 – Dispute Resolution Procedure; and
 - (iii) resolve Disputes under this Project Agreement using the CDB pursuant to and in accordance with Schedule 27 – Dispute Resolution Procedure.

25. COMMISSIONING AND COMPLETION

25.1 Commissioning Activities

- (a) Project Co shall perform all Commissioning, and shall support and facilitate the performance of all Contracting Authority Commissioning, if any, pursuant to Schedule 14 – Commissioning.

25.2 Commencement of Commissioning

- (a) Project Co shall give thirty (30) days' written Notice to the Independent Certifier, the Contracting Authority Commissioning Agent and the Contracting Authority Representative of the proposed commencement of the Commissioning.
- (b) Project Co shall give at least five (5) Business Days' Notice to, and shall invite, the Independent Certifier, the Contracting Authority Commissioning Agent and the Contracting Authority Representative to witness, and to comment on, each aspect of the Commissioning. Project Co shall, together with such Notice, provide all information that the Independent Certifier, the Contracting Authority Commissioning Agent and the Contracting Authority Representative may reasonably require in relation thereto, including:
 - (i) tests proposed;
 - (ii) test methodology; and
 - (iii) expected test results.

25.3 Substantial Completion Certificate

- (a) Project Co shall give the Independent Certifier and the Contracting Authority Representative at least ten (10) Business Days' Notice prior to the date upon which Project Co anticipates delivering the Substantial Completion Notice (the "**10-Day Notice**").
- (b) Project Co shall deliver Notice to the Independent Certifier and the Contracting Authority Representative upon the satisfaction of all of the requirements for Substantial Completion under this Project Agreement (the "**Substantial Completion Notice**"). The Substantial Completion Notice shall (i) describe, in reasonable detail, the satisfaction of the requirements for Substantial Completion, (ii) include as appendices all of the Substantial Completion Deliverables described in the Substantial Completion Deliverables List, and (iii) include Project Co's opinion that the conditions for issuance of the Substantial Completion Certificate under this Project Agreement have been satisfied.
- (c) Within two (2) Business Days of receiving the Substantial Completion Notice from Project Co, the Independent Certifier shall review the Substantial Completion Notice to determine whether or not the Substantial Completion Notice includes all of the Substantial Completion Deliverables described in the Substantial Completion Deliverables List. For the purposes of this Section 25.3(c), if the Substantial Completion Notice contains a Substantial Completion Deliverable that, in the reasonable opinion of the Independent Certifier, is of such poor quality that it would impede, in a material way, the ability of Contracting Authority and the Independent Certifier to assess whether or not the requirements for Substantial Completion under this Project Agreement have been satisfied, then such Substantial Completion Deliverable shall be deemed to have not been included as part of the Substantial Completion Notice. Following such review and determination by the Independent Certifier and before the expiry of such two (2) Business Day period, the Independent Certifier shall either deliver notice to Project Co and Contracting Authority:
 - (i) confirming that the Substantial Completion Notice includes all of the Substantial Completion Deliverables described in the Substantial Completion Deliverables List (the "**IC Substantial Completion Deliverables Confirmation**"); or
 - (ii) setting out a list of the Substantial Completion Deliverables that were not included in the Substantial Completion Notice (an "**IC Substantial Completion Deliverables Deficiencies List**").

If the Independent Certifier provides a notice to Project Co and Contracting Authority setting out an IC Substantial Completion Deliverables Deficiencies List pursuant to this Section 25.3(c), then Project Co shall subsequently submit a new and replacement version of the Substantial Completion Notice pursuant to Section 25.3(b), which, for greater certainty, includes all of the Substantial Completion Deliverables, and the process described in this Section 25.3(c) shall be repeated until the IC Substantial Completion Deliverables Confirmation is provided by the Independent Certifier to Project Co and Contracting Authority.

- (d) Contracting Authority shall, within seven (7) days after receipt of the IC Substantial Completion Deliverables Confirmation, provide the Independent Certifier and Project Co with Contracting

Authority's opinion as to whether the conditions for issuance of the Substantial Completion Certificate have been satisfied or, if applicable, any reasons as to why Contracting Authority considers that the Substantial Completion Certificate should not be issued.

- (e) Within seven (7) days after Project Co's receipt of Contracting Authority's opinion pursuant to Section 25.3(d), the Parties shall cause the Independent Certifier to determine whether the conditions for issuance of the Substantial Completion Certificate have been satisfied, having regard for the opinions of both Project Co and Contracting Authority, to determine whether any Minor Deficiencies exist, and to issue to Contracting Authority and to Project Co either:
- (i) the Substantial Completion Certificate, confirming the date of issue as the Substantial Completion Date and setting out the Minor Deficiencies List (if applicable) in accordance with Section 25.6; or
 - (ii) a report detailing the matters that the Independent Certifier considers are required to be performed by Project Co to satisfy the conditions for issuance of the Substantial Completion Certificate.
- (f) Where the Independent Certifier has issued a report in accordance with Section 25.3(e)(ii) and Project Co has not referred a Dispute in relation thereto for resolution in accordance with Schedule 27 – Dispute Resolution Procedure, Project Co shall, within five (5) Business Days after receipt of such report, provide the Independent Certifier and the Contracting Authority Representative with:
- (i) a detailed list indicating the rectification actions proposed for all matters raised in such report;
 - (ii) the schedule for completion of all such rectification actions; and
 - (iii) any additional Commissioning that needs to be undertaken as a result of the rectification actions,
- and Project Co shall perform all such additional rectification actions and Commissioning in a timely manner. Upon completion thereof, and for each subsequent application for Substantial Completion, Project Co shall submit a new 10-Day Notice and a new Substantial Completion Notice and the process described in Sections 25.3(c) to (f), inclusive, shall be repeated until the Substantial Completion Certificate has been issued.
- (g) In the event that the Substantial Completion Certificate has not been issued within thirty (30) days after the later of (x) the delivery of a 10-Day Notice or (y) the delivery of a Substantial Completion Notice, such 10-Day Notice or Substantial Completion Notice, as applicable, shall be deemed to have been rescinded by Project Co and Project Co shall be required to deliver a new 10-Day Notice in order to initiate a new application for Substantial Completion.
- (h) For greater certainty, the Independent Certifier's decision to issue the IC Substantial Completion Deliverables Confirmation shall not limit or otherwise affect (i) any of Project Co's obligations under this Project Agreement to satisfy the requirements of Substantial Completion or (ii) the

opinion of Contracting Authority or the determination of the Independent Certifier as to whether the conditions for issuance of the Substantial Completion Certificate have been satisfied pursuant to Section 25.3(d) and Section 25.3(e) respectively.

- (i) The Independent Certifier's decision to issue or not to issue the Substantial Completion Certificate shall be final and binding on the Parties solely in respect of determining the Payment Commencement Date, and a Dispute in relation to the Payment Commencement Date shall not be subject to resolution pursuant to Schedule 27 – Dispute Resolution Procedure, provided, however, that any other Dispute in relation to the Independent Certifier's decision to issue or not to issue the Substantial Completion Certificate may be referred for resolution pursuant to the Dispute Resolution Procedure.
- (j) The submission of the Substantial Completion Notice by Project Co in accordance with Section 25.3(b) shall constitute a waiver by Project Co of all claims whatsoever against Contracting Authority under this Project Agreement, arising prior to the submission of the Substantial Completion Notice, except:
 - (i) without limitation to the specific notice requirements in this Project Agreement, those made in writing by Project Co (either on its own account or arising out of a claim of a Project Co Party) arising prior to the submission of the Substantial Completion Notice and still unsettled; and
 - (ii) any claim which could not reasonably have been known to Project Co or a Project Co Party at such time following due diligence.

25.4 Contracting Authority Commissioning

- (a) The Parties acknowledge that Contracting Authority may perform Contracting Authority Commissioning both before and after the Substantial Completion Date. Prior to Substantial Completion, Project Co shall not restrict Contracting Authority, and any of its employees and subcontractors from full access to the Lands, the Ontario Line Subway and the New Third Party Infrastructure and all relevant parts thereof to enable Contracting Authority to undertake any Contracting Authority Commissioning in accordance with Schedule 14 – Commissioning. Contracting Authority shall comply, and shall ensure that all other Province Persons comply with the directions, procedures and safety guidelines established by Project Co for the Lands, the Ontario Line Subway and the New Third Party Infrastructure and shall use commercially reasonable efforts to minimize disruption to the Project Operations in performing any Contracting Authority Commissioning.
- (b) Contracting Authority acknowledges that, during the Contracting Authority Commissioning Period, Project Co and its Subcontractors will be active on the Lands, the Ontario Line Subway and the New Third Party Infrastructure in both the rectification of Minor Deficiencies and the completion of Commissioning, and Contracting Authority shall take commercially reasonable steps to allow such activities to proceed in accordance with Schedule 14 – Commissioning.
- (c) Project Co acknowledges that, prior to and during the Contracting Authority Commissioning Period, Project Co and its Subcontractors shall cooperate with Contracting Authority and all other

Province Persons and use commercially reasonable efforts to ensure that all requirements, and the timing and sequence of such requirements, of the Contracting Authority Commissioning activities are able to be completed in the timeframe for completion set out in Schedule 14 – Commissioning.

25.5 Substantial Completion Countdown Notice and Substantial Completion Deliverables

- (a) Project Co shall deliver a Notice (a “**Substantial Completion Countdown Notice**”) to Contracting Authority and the Independent Certifier specifying the date on which Project Co anticipates that Substantial Completion will be achieved (the “**Anticipated Substantial Completion Date**”).
- (b) The Substantial Completion Countdown Notice shall be delivered not less than one-hundred and eighty (180) days prior to the Anticipated Substantial Completion Date. If Project Co fails to deliver the Substantial Completion Countdown Notice not less than one-hundred and eighty (180) days prior to the Scheduled Substantial Completion Date, the Anticipated Substantial Completion Date shall be deemed to be the same date as the Scheduled Substantial Completion Date.
- (c) In accordance with Section 22.3(a), the Anticipated Substantial Completion Date shall not be earlier than the Scheduled Substantial Completion Date without the prior written consent of Contracting Authority, in its sole discretion.
- (d) Within fifteen (15) Business Days of the Independent Certifier’s receipt of the Substantial Completion Countdown Notice in accordance with Section 25.5(a), the Independent Certifier, in consultation with Project Co and Contracting Authority, shall prepare and deliver to Project Co and Contracting Authority a list of deliverables (the “**Substantial Completion Deliverables List**”) that (A) are to be appended to and form part of the Substantial Completion Notice to be submitted by Project Co pursuant to Section 25.3(b), and (B) will constitute a minimum amount of evidence necessary for Project Co, in the Substantial Completion Notice, to describe, in reasonable detail, the satisfaction of the requirements for Substantial Completion and to support Project Co’s opinion that the conditions for issuance of the Substantial Completion Certificate have been satisfied (collectively, the “**Substantial Completion Deliverables**”).
- (e) From time to time until the date that is sixty (60) days prior to the Anticipated Substantial Completion Date, the Independent Certifier, in consultation with Project Co and Contracting Authority, may amend the Substantial Completion Deliverables List, including to set out any additional Substantial Completion Deliverables not identified in the Substantial Completion Deliverables List pursuant to Section 25.5(d). Each amended Substantial Completion Deliverables List shall, following its preparation, be deemed to be the Substantial Completion Deliverables List for the purposes of this Project Agreement and be promptly delivered to Project Co and Contracting Authority.
- (f) For greater certainty, nothing in Section 25.5(d) or Section 25.5(e) limits or otherwise affects any of Project Co’s obligations under this Project Agreement to satisfy the requirements of Substantial Completion or to describe, in reasonable detail, the satisfaction of such requirements in the Substantial Completion Notice pursuant to Section 25.3(b).

25.6 Minor Deficiencies

- (a) In the event that Minor Deficiencies exist when Project Co gives the Substantial Completion Notice, the Independent Certifier, in consultation with Project Co and Contracting Authority, shall prepare a list of all Minor Deficiencies (the “**Minor Deficiencies List**”) identified at that time and an estimate of the cost for Contracting Authority and the time for Project Co to complete and rectify such Minor Deficiencies. Contracting Authority may withhold from the Substantial Completion Payment a holdback amount that is [REDACTED]% of the amount estimated by the Independent Certifier for Contracting Authority to complete and rectify all Minor Deficiencies (the “**Completion Holdback**”), which holdback shall be held in an interest bearing account.
- (b) The Minor Deficiencies List will contain the schedule for the completion and rectification of the Minor Deficiencies. In determining the relevant time for rectifying Minor Deficiencies, Project Co shall schedule the completion and rectification of Minor Deficiencies so as to minimize, to the greatest extent reasonably possible, any lane or track closures, traffic diversions or restrictions or other impairment of the public’s use and enjoyment of the Ontario Line Subway, the New Third Party Infrastructure or the relevant portion thereof, or disruption of the Project Operations or of the operations of Contracting Authority, any Province Person, any Governmental Authority or any Other Contractor, including the performance of the Governmental Activities and the Other Works, and otherwise in accordance with the Traffic and Transit Management Plan.
- (c) The Independent Certifier must prepare the Minor Deficiencies List in relation to the Substantial Completion Notice as soon as reasonably practicable and, in any event, before the Substantial Completion Certificate is issued, but shall not withhold the Substantial Completion Certificate by reason solely that there are Minor Deficiencies.
- (d) No later than twenty (20) Business Days prior to the Anticipated Final Completion Date, Contracting Authority may direct the Independent Certifier to amend, in consultation with Project Co and Contracting Authority, the Minor Deficiencies List on one occasion to include a list of any and all Minor Deficiencies that were identified after the preparation of, or not included in, the Minor Deficiencies List pursuant to Section 25.6(a). The Independent Certifier shall prepare the amended Minor Deficiencies List as soon as reasonably practicable and, in any event, within ten (10) Business Days of such direction given by Contracting Authority. The amended Minor Deficiencies List shall, following its preparation, be deemed to be the Minor Deficiencies List for the purposes of this Project Agreement, including for the purposes of Sections 25.6 to 25.8 inclusive. The amount of the Completion Holdback shall not be affected by the amended Minor Deficiencies List.
- (e) Where the Independent Certifier has been directed by Contracting Authority to amend the Minor Deficiencies List pursuant to Section 25.6(d), the Independent Certifier shall specify a completion and rectification time for any newly added Minor Deficiencies that is no greater than ten (10) Business Days from the date of issuance of such amended Minor Deficiencies List.
- (f) Contracting Authority may, in its sole discretion, waive any requirement for Substantial Completion, and the failure to meet any such requirement shall constitute a Minor Deficiency.

- (g) Nothing in this Section 25.6 shall prevent Contracting Authority from making any adjustments to the Monthly Service Payments in accordance with Schedule 20 – Payment Mechanism.

25.7 Rectification of Minor Deficiencies

- (a) Project Co shall, in consultation with the Contracting Authority Representative and so as to minimize, to the greatest extent reasonably possible, any lane or track closures, traffic diversions or restrictions or other impairment of the public's use and enjoyment of the Ontario Line Subway and the New Third Party Infrastructure or any portion thereof or disruption of the Project Operations or of the operations of Contracting Authority, any Province Person, any Governmental Authority or any Other Contractor, including the performance of the Governmental Activities and the Other Works, and otherwise in accordance with the Traffic and Transit Management Plan, complete and rectify all Minor Deficiencies:
- (i) within one-hundred and eighty (180) days of the issuance of the Minor Deficiencies List pursuant to Section 25.6(a) for all Minor Deficiencies where no time for completion and rectification has been specified by the Independent Certifier; or
 - (ii) within the time for completion and rectification of any Minor Deficiency where such a time was specified by the Independent Certifier in the Minor Deficiencies List.
- (b) Project Co acknowledges and agrees that the completion and rectification of Minor Deficiencies may require work outside of normal working hours in order to accommodate the efficient operation of the Ontario Line Subway, the New Third Party Infrastructure or any portion thereof and to ensure compliance with the Traffic and Transit Management Plan.

25.8 Failure to Rectify Minor Deficiencies

- (a) If Project Co fails to complete and rectify any Minor Deficiency within the time for its completion and rectification specified in Section 25.7, Contracting Authority may engage others to perform the work necessary to complete and rectify such Minor Deficiency at the risk and cost of Project Co, and Contracting Authority may deduct such cost from the Completion Holdback and interest accrued thereon.
- (b) Within two (2) Business Days of Final Completion, Contracting Authority shall release to Project Co the Completion Holdback, together with all interest accrued thereon and applicable HST. Where Contracting Authority exercises its rights pursuant to 25.8(a), if the cost of such completion and rectification exceeds the amount of the Completion Holdback and interest, then Project Co shall reimburse Contracting Authority for all such excess cost.

25.9A Final Completion Countdown Notice

- (a) Project Co shall deliver a notice (the "**Final Completion Countdown Notice**") to Contracting Authority and the Independent Certifier specifying the date (which, for greater certainty, will be on or before the Scheduled Final Completion Date) on which Project Co anticipates that Final Completion will be achieved (the "**Anticipated Final Completion Date**").

- (b) The Final Completion Countdown Notice shall be delivered not less than ninety (90) days prior to the Anticipated Final Completion Date. If Project Co fails to deliver the Final Completion Countdown Notice not less than ninety (90) days prior to the Scheduled Final Completion Date, the Anticipated Final Completion Date shall be deemed to be the same date as the Scheduled Final Completion Date.

25.9 Final Completion Certificate

- (a) Project Co shall give the Independent Certifier and the Contracting Authority Representative at least ten (10) Business Days' Notice prior to the date upon which Project Co anticipates delivering the Final Completion Notice.
- (b) Project Co shall give the Independent Certifier and the Contracting Authority Representative Notice (a "**Final Completion Notice**") upon the satisfaction of all requirements for Final Completion, which Final Completion Notice shall describe, in reasonable detail:
- (i) the items of minor work of a seasonal nature that cannot be completed prior to the Final Completion Date, if any, and the time for completion of such work as agreed between Contracting Authority and Project Co, each acting reasonably; and
 - (ii) the satisfaction of the requirements for Final Completion, including the completion and rectification of all Minor Deficiencies other than any outstanding seasonal work identified in the Final Completion Notice together with Project Co's opinion as to whether the conditions for issuance of the Final Completion Certificate have been satisfied.
- (c) Contracting Authority shall, within seven (7) days after receipt of the Final Completion Notice, provide the Independent Certifier and Project Co with Contracting Authority's opinion as to whether the conditions for issuance of Final Completion Certificate have been satisfied and, if applicable, any reasons as to why it considers that the Final Completion Certificate should not be issued.
- (d) Within seven (7) days after Project Co's receipt of Contracting Authority's opinion pursuant to Section 25.9(c), the Parties shall cause the Independent Certifier to determine whether the conditions for issuance of the Final Completion Certificate have been satisfied, having regard for the opinions of both Project Co and Contracting Authority, and to issue to Contracting Authority and to Project Co either:
- (i) the Final Completion Certificate, confirming the date of issue as the Final Completion Date; or
 - (ii) a report detailing the matters that the Independent Certifier considers are required to be performed by Project Co to satisfy the conditions for issuance of the Final Completion Certificate, including any items on the Minor Deficiencies List which remain outstanding.

- (e) Where the Independent Certifier has issued a report in accordance with Section 25.9(d)(ii) and Project Co has not referred a Dispute in relation thereto for resolution in accordance with Schedule 27 – Dispute Resolution Procedure, Project Co shall, within five (5) Business Days after receipt of such report, provide the Independent Certifier and the Contracting Authority Representative with:
- (i) a detailed list indicating the rectification actions proposed for all matters raised in such report;
 - (ii) the schedule for completion of all such rectification actions; and
 - (iii) any additional Commissioning that needs to be undertaken as a result of the rectification actions,

and Project Co shall perform all such additional rectification actions in a timely manner. Upon completion thereof, Project Co may give a further Final Completion Notice and Sections 25.9(c) to (e), inclusive, shall be repeated until the Final Completion Certificate, has been issued.

- (f) Any Dispute in relation to the Independent Certifier’s decision to issue or not to issue the Final Completion Certificate may be referred for resolution in accordance with Schedule 27 – Dispute Resolution Procedure.
- (g) If, within thirty (30) days after the time specified in the Final Completion Notice for completion of seasonal work, Project Co has failed to complete such seasonal work, Contracting Authority may engage others to perform the work necessary to complete the seasonal work, at the risk and cost of Project Co. Project Co shall pay to Contracting Authority the costs incurred by Contracting Authority to complete such seasonal work within ten (10) Business Days of presentation of an invoice for such costs.
- (h) The submission of the Final Completion Notice by Project Co in accordance with Section 25.9(b), shall constitute a waiver by Project Co of all claims whatsoever against Contracting Authority, arising prior to the submission of the Final Completion Notice, except:
- (i) without prejudice to specific notice requirements in this Project Agreement, those made in writing by Project Co (either on its own account or arising out of a claim of a Project Co Party) prior to the submission of the Final Completion Notice and still unsettled; and
 - (ii) any claim which could not reasonably have been known to Project Co or a Project Co Party at such time following due diligence.

25.10 Effect of Certificates/Use

- (a) The issue of the Substantial Completion Certificate or the Final Completion Certificate, the commencement of use by Contracting Authority or the public of any part of the Ontario Line Subway under the terms of this Project Agreement or the commencement of any Governmental Activities shall, in no way:

- (i) limit the obligations of Project Co under this Project Agreement including in respect of any defects, deficiencies or items of outstanding work existing or discovered prior to or after the date of any of such certificates or the date of the Minor Deficiencies List; or
- (ii) be construed as an approval by Contracting Authority of the Works or the way in which they have been carried out.

25.11 Ontario Line Subway Reference Plans and Surveyor's Real Property Reports

- (a) Project Co shall prepare and submit to Contracting Authority the draft and final Reference Plans and Surveyor's Real Property Reports in respect of the Ontario Line Subway as described in Section 3.1.9.7 (*Legal Surveys*) of the Output Specifications.

25.12 Inspection, Commissioning and Handover of New Third Party Infrastructure (other than New TTC Infrastructure)

- (a) Project Co acknowledges and agrees that New City Infrastructure, and New Railway Company Infrastructure will be inspected, commissioned and handed over to the City, each Railway Company Owner, or Contracting Authority, as applicable, on a component by component basis and from time to time during the Construction Period.
- (b) For the purposes of this Section 25.12, Contracting Authority may delegate the responsibility for carrying out interim inspections, final inspections, warranty inspections, and Commissioning and Handover activities, on behalf of Contracting Authority, to:
 - (i) the City of Toronto, in respect of the New City Infrastructure, and
 - (ii) each applicable Railway Company Owner in respect of its New Railway Company Infrastructure,

by providing Notice to Project Co of any such delegation (any such notice referred to as a "**Notice of Delegation**"), and Contracting Authority may, in its sole discretion, and at any time revise such delegation by Notice to Project Co. For clarity, Contracting Authority may delegate the foregoing responsibility in respect of all or any component of any applicable New Third Party Infrastructure, and may delegate the foregoing responsibility in respect of any one or more of the New City Infrastructure and New Railway Company Infrastructure. Project Co acknowledges and agrees that, for the purposes of this Section 25.12, Project Co shall Handover:

- (iii) all New City Infrastructure directly to Contracting Authority unless Contracting Authority has delivered to Project Co a Notice of Delegation in respect of New City Infrastructure, in which case, Project Co shall Handover such New City Infrastructure directly to the City of Toronto; and
- (iv) all New Railway Company Infrastructure directly to Contracting Authority unless Contracting Authority has delivered to Project Co a Notice of Delegation in respect of New Railway Company Infrastructure, in which case, Project Co shall Handover such

New Railway Company Infrastructure directly to the applicable Railway Company Owner.

- (c) No later than five (5) days prior to the anticipated completion of New City Infrastructure or New Railway Company Infrastructure, as applicable, Project Co shall provide Notice to Contracting Authority or, where a Notice of Delegation has been provided to Project Co, Project Co shall provide Notice to the City or the applicable Railway Company Owner, as applicable, of the date on which the New City Infrastructure or New Railway Company Infrastructure, as applicable, will be completed and ready for inspection and testing. Project Co and Contracting Authority, or Project Co and the applicable third party (where a Notice of Delegation has been provided) shall carry out a joint inspection of such New Third Party Infrastructure. Such joint inspection shall occur no later than ninety (90) days after the date of completion of, as applicable, the New City Infrastructure or New Railway Company Infrastructure. The inspection and testing of New City Infrastructure, and New Railway Company Infrastructure, pursuant to this Section 25.12(c) shall follow the inspection and testing requirements set out in the Inspection and Test Plan. Such inspection, shall be for the purposes of:
- (i) assessing whether the New City Infrastructure or the New Railway Company Infrastructure, as applicable, has been constructed in accordance with the Output Specifications and is otherwise in compliance with the requirements in the Project Agreement; and
 - (ii) identifying any defects or deficiencies to the applicable New Third Party Infrastructure that Project Co must correct, repair or restore before Project Co completes the Commissioning of the New City Infrastructure or the New Railway Company Infrastructure before the Handover of the New City Infrastructure or the New Railway Company Infrastructure, as applicable.
- (d) Prior to final inspection of New City Infrastructure, and New Railway Company Infrastructure, Project Co shall:
- (i) prepare a record of the following, and submit it to Contracting Authority for review in accordance with Schedule 10 – Review Procedure at least thirty (30) Business Days before the final inspection:
 - (A) a list of the New City Infrastructure, and New Railway Company Infrastructure, as the case may be, to be inspected;
 - (B) the tests, inspection methods and procedures to be used and performed and the standards that apply in respect of tests, inspection methods and procedures, which test and inspection shall follow the inspection and testing requirements set out in the Inspection and Test Plan;
 - (C) the scheduled date for testing and inspection of the applicable New Third Party Infrastructure;

- (D) a list of the names and employers of persons to represent Project Co and Contracting Authority or, if a Notice of Delegation has been issued in respect of the relevant New Third Party Infrastructure, a list of the names and employers of persons to represent Project Co and the City, or the applicable Railway Company Owner, as the case may be, at the inspection; and
- (E) a list of existing systems that may be impacted by the tests and inspection.
- (ii) Ensure that:
 - (A) all defects and deficiencies that have been identified by Contracting Authority, the City, or the applicable Railway Company Owner, as applicable, during any interim inspections, have been rectified; and
 - (B) any damage to New City Infrastructure or New Railway Company Infrastructure, as applicable, is repaired by Project Co subject to and in accordance with Section 30 of this Project Agreement.
- (e) Project Co shall prepare a record of each inspection carried out pursuant to Section 25.12(c) in inspection report format including: (i) a list of defects or deficiencies to New City Infrastructure, or New Railway Company Infrastructure, as applicable, identified during the inspection; and (ii) actions to be taken by Project Co to correct each defect or deficiency and to rectify the damage. Project Co shall submit the inspection reports to Contracting Authority within three (3) Business Days of each inspection for review in accordance with Schedule 10 – Review Procedure.
- (f) After the inspection of the New City Infrastructure, and New Railway Company Infrastructure pursuant to Section 25.12(c), Project Co shall make all arrangements in respect of the applicable New City Infrastructure, and New Railway Company Infrastructure, as applicable, to,
 - (i) correct all defects and deficiencies to the applicable New Third Party Infrastructure and repair any damage to the applicable New Third Party Infrastructure;
 - (ii) complete Commissioning of the applicable New City Infrastructure, and New Railway Company Infrastructure in accordance with Schedule 14 – Commissioning;
 - (iii) in respect of New City Infrastructure only, comply with all requirements in respect of such infrastructure set out in Appendix B (*New City Infrastructure*) of Schedule 14 – Commissioning (including, for clarity, those set out in Attachment 1 (*Form of New City Infrastructure Certification*) of Appendix B (*New City Infrastructure*)) prior to, and as a pre-condition of Handover of such infrastructure;
 - (iv) complete Handover of,
 - (A) the New City Infrastructure to Contracting Authority or, where Contracting Authority has delivered to Project Co a Notice of Delegation in respect of New City Infrastructure, complete Handover to the City of Toronto; and

- (B) the New Railway Company Infrastructure to Contracting Authority or, where Contracting Authority has delivered to Project Co a Notice of Delegation in respect of New Railway Company Infrastructure, complete Handover to the applicable Railway Company owner;
- (v) seek, receive, and document confirmation from Contracting Authority or, where Contracting Authority has delivered to Project Co a Notice of Delegation in respect of the applicable New Third Party Infrastructure, seek, receive, and document confirmation from the City, or the applicable Railway Company Owner, as applicable, that such Commissioning and Handover has been completed.
- (g) Project Co shall provide Notice to Contracting Authority when any New City Infrastructure, and New Railway Company Infrastructure has been commissioned and has achieved Handover to City, or the applicable Railway Company Owner as applicable. Such Notice to Contracting Authority shall include the following:
 - (i) a clear identification of that portion or component of the New City Infrastructure, or New Railway Company Infrastructure, as applicable that is the subject of the Notice;
 - (ii) the date of Handover of the applicable New City Infrastructure, or New Railway Company Infrastructure (as set out in the written confirmation required by Section 25.12(g)(iii)); and
 - (iii) a written confirmation, signed by an authorized representative of the City, or the applicable Railway Company Owner, as applicable, that Commissioning and Handover of the New City Infrastructure, or New Railway Company Infrastructure, as the case may be, has been completed, including the confirmed date of Handover.
- (h) The City, or each Railway Company Owner, with respect to its respective New Third Party Infrastructure, and Contracting Authority, may,
 - (i) at any time and from time to time, on providing thirty (30) Business Days' Notice to Project Co, require a joint interim inspection of, as applicable, the New City Infrastructure, and / or New Railway Company Infrastructure to be carried out for the purposes of:
 - (A) assessing whether the New City Infrastructure, or New Railway Company Infrastructure, as applicable, has been constructed in accordance with the Output Specifications and is otherwise in compliance with the requirements of the Project Agreement; and
 - (B) identifying any defects or deficiencies to the applicable New Third Party Infrastructure;
 - (ii) at any time and from time to time, on providing thirty (30) Business Days' notice to Project Co, require a joint warranty inspection to be carried out in respect of the New City Infrastructure, or New Railway Company Infrastructure, following final completion

of the New City Infrastructure, or New Railway Company Infrastructure, in each case, for the purpose of identifying any defects or deficiencies.

- (i) In addition to the warranty inspections that may be performed from time to time pursuant to Section 25.12(h), a joint warranty inspection of New City Infrastructure, and New Railway Company Infrastructure shall be carried out no earlier than sixty (60) days and no later than thirty (30) days prior to the end of the applicable warranty period for such New Third Party Infrastructure.
- (j) Prior to any interim inspection or any warranty inspection of New City Infrastructure, or New Railway Company Infrastructure, as applicable, Project Co shall prepare and submit to Contracting Authority, for review in accordance with Schedule 10 – Review Procedure, a record of the following at least twenty (20) Business Days before the applicable interim inspection or warranty inspection, as the case may be:
 - (i) a list of the New City Infrastructure, and New Railway Company Infrastructure, as the case may be, to be inspected;
 - (ii) the tests, inspection methods and procedures to be used and performed and the standards that apply in respect of tests, inspection methods and procedures, which tests and inspections shall follow the inspection and testing requirements set out in the Inspection and Test Plan;
 - (iii) the date for testing and inspection of the applicable New Third Party Infrastructure which shall be no later than forty-five (45) Business Days after the Notice has been provided to Project Co pursuant to Section 25.12(h).
 - (iv) a list of the names and employers of persons to represent Project Co and Contracting Authority or, if a Notice of Delegation has been issued in respect of the relevant New Third Party Infrastructure, a list of the names and employers of persons to represent Project Co, the City, and / or the applicable Railway Company Owner, as the case may be, at the inspection; and
 - (v) a list of existing systems that may be impacted by the tests and inspection.
- (k) Intentionally deleted.
- (l) Project Co shall prepare a record of each interim inspection and each warranty inspection carried out pursuant to Section 25.12(h) and 25.12(i) in inspection report format including: (i) a list of defects or deficiencies to the New City Infrastructure, and New Railway Company Infrastructure, as applicable, identified during the inspection, and (ii) actions to be taken by Project Co to correct each defect or deficiency and to rectify the damage. Project Co shall submit the inspection reports to Contracting Authority for review within three (3) Business Days of the inspection for review in accordance with Schedule 10 – Review Procedure.
- (m) Project Co shall arrange, schedule, and facilitate all inspections, and Commissioning and Handover activities, in respect of the New City Infrastructure, and New Railway Company

Infrastructure directly with Contracting Authority, except where Contracting Authority has provided Notice of Delegation to Project Co in respect of any of the New City Infrastructure, or New Railway Company Infrastructure, in which case Project Co shall arrange, schedule, and facilitate all inspections, and Commissioning and Handover activities with the City, and the applicable Railway Company Owner, as applicable. Project Co acknowledges and agrees that no joint inspection shall proceed unless, where a Notice of Delegation has been provided, the City, and the applicable Railway Company Owner, as applicable, are in attendance at such inspection, and it is Project Co's responsibility to coordinate with and ensure such Person is in attendance at all joint inspections contemplated under this Section 25.12. Project Co shall report to Contracting Authority on the status of all inspections, Commissioning and Handover carried out in accordance with this Section 25.12 as part of the Works Report.

25.13 Final Inspection, Commissioning and Handover of New TTC Infrastructure

- (a) Project Co acknowledges and agrees that New TTC Infrastructure may be inspected, commissioned and handed over to the Toronto Transit Commission on a component by component basis and from time to time during the Construction Period.
- (b) No later than five (5) days prior to the anticipated completion of New TTC Infrastructure, Project Co shall provide Notice to Contracting Authority, and to the Toronto Transit Commission, of the date on which the New TTC Infrastructure will be completed and ready for inspection. Contracting Authority shall inspect the New TTC Infrastructure no later than ninety (90) days after the date of completion of the New TTC Infrastructure. Such inspection shall be for the purposes of,
 - (i) assessing whether the New TTC Infrastructure has been constructed in accordance with the Output Specifications; and
 - (ii) identifying any defects or deficiencies that Project Co must correct before Project Co completes the Commissioning of the New TTC Infrastructure and/or before Project Co completes the Handover of the New TTC Infrastructure to the Toronto Transit Commission.
- (c) For the purposes of this Section 25.13, Contracting Authority shall be deemed to have delegated the responsibility for carrying out interim and final inspections, and Commissioning and Handover activities, on behalf of Contracting Authority, to the Toronto Transit Commission. Contracting Authority may, in its sole discretion, revise such delegation by Notice to Project Co. For clarity, for the purposes of this Section 25.13 Project Co shall Handover all New TTC Infrastructure directly to the Toronto Transit Commission.
- (d) After the inspection of the New TTC Infrastructure, pursuant to Section 25.13(b), Project Co shall make all arrangements in respect of the applicable New TTC Infrastructure to,
 - (i) correct all defects or deficiencies;
 - (ii) complete Commissioning in accordance with Schedule 14 – Commissioning and Handover to the Toronto Transit Commission; and

- (iii) seek, receive, and document confirmation from the Toronto Transit Commission that such Commissioning and Handover has been completed.
- (e) Project Co shall provide Notice to Contracting Authority when the New TTC Infrastructure has been commissioned and has achieved Handover to the Toronto Transit Commission. Such Notice shall include,
 - (i) a clear identification of that portion or component of the New TTC Infrastructure that is the subject of the Notice;
 - (ii) the date of Handover of the applicable New TTC Infrastructure (consistent with the written confirmation required by Section 25.13(e)(iii)); and
 - (iii) a written confirmation, signed by an authorized representative of the Toronto Transit Commission, that Commissioning and Handover of the applicable New TTC Infrastructure has been completed including the confirmed date of Handover.
- (f) The Toronto Transit Commission may,
 - (i) carry out interim inspections of the New TTC Infrastructure and any construction activity within the TTC Zone of Influence and to identify any defects or deficiencies that the Toronto Transit Commission finds in an interim inspection; and
 - (ii) carry out warranty inspections in respect of the New TTC Infrastructure following completion of any New TTC Infrastructure for the purpose of identification of any defects or deficiencies.

Project Co shall arrange, schedule, and facilitate all interim inspection, Commissioning and Handover activities in respect of the New TTC Infrastructure and shall report to Contracting Authority on the status of all such inspections, Commissioning and Handover in accordance with this Section 25.13 and on a regular basis as part of the Works Report.

25.14 Warranties on New Third Party Infrastructure

- (a) Project Co warranties on the New City Infrastructure, New TTC Infrastructure, and New Railway Company Infrastructure, shall be as follows:
 - (i) Project Co warrants that all New City Infrastructure, all New TTC Infrastructure, and all New Railway Company Infrastructure, including all Products, shall conform to the specifications set out in the Project Agreement in all respects and shall be new, of good quality material, of merchantable quality and, as described in the Project Agreement, and free of defects in materials, equipment and workmanship for a period commencing,
 - (A) in the case of the New City Infrastructure, on the date of Handover of the New City Infrastructure, or a portion thereof, to Contracting Authority or to the City of Toronto in accordance with Section 25.12, and ending on the date that is two (2)

- years after such date of Handover of the New City Infrastructure, or a portion thereof;
- (B) in the case of the New TTC Infrastructure, on the date of Handover of the New TTC Infrastructure, or a portion thereof, to the Toronto Transit Commission in accordance with Section 25.14, and ending on the date that is two (2) years after such date of Handover of the New TTC Infrastructure, or a portion thereof; and
 - (C) in the case of New Railway Company Infrastructure, on the date of Handover of the New Railway Company Infrastructure, or a portion thereof, to Contracting Authority or to the applicable Railway Company Owner in accordance with Section 25.12, and ending on the date that is two (2) years after such date of Handover of the New Railway Company Infrastructure, or a portion thereof.
- (ii) The warranties set out in Section 25.14(a)(i) shall each cover labour and material, including the costs of removal and replacement of covering materials. None of the warranties shall limit extended warranties on any items of equipment or material called for elsewhere in the Output Specifications or otherwise provided by any manufacturer of such equipment or material. Project Co shall ensure that all extended warranties specified in the Project Agreement are provided and shall,
- (A) in the case of the New City Infrastructure, assign to the City of Toronto (or to whom the City of Toronto may otherwise direct) all such extended warranties;
 - (B) in the case of the New TTC Infrastructure, assign to the Toronto Transit Commission (or to whom the Toronto Transit Commission may otherwise direct) all such extended warranties; and
 - (C) in the case of New Railway Company Infrastructure, assign to the applicable Railway Company Owner (or to whom the applicable Railway Company Owner may otherwise direct) all such extended warranties.
- (iii) Contracting Authority may, in its sole discretion, assign the Project Co warranties set out in Section 25.14(a) to the City of Toronto (in the case of the New City Infrastructure), to the Toronto Transit Commission (in the case of the New TTC Infrastructure), or to an applicable Railway Company Owner (in the case of the applicable New Railway Company Infrastructure) and shall provide Notice to Project Co of any such assignment of the Project Co warranties.
- (iv) On the commencement of each warranty period set out in Section 25.14(a)(i) for each of the New City Infrastructure, the New TTC Infrastructure, and the New Railway Company Infrastructure or any component thereof, Project Co shall provide at least two copies of full compilations of all warranty documentation related thereto, one compilation for Contracting Authority and the other for the City, the Toronto Transit Commission, and each Railway Company Owner with respect to its New Third Party Infrastructure. Project Co shall update all copies of each compilation from time to time as requested by Contracting Authority or the City, the Toronto Transit Commission, and each Railway

Company Owner with respect to its New Third Party Infrastructure. Each of the compilations shall indicate the start and completion date of each and every warranty.

(b) **Warranty Work**

- (i) Project Co shall carry out all work to satisfy the warranties provided pursuant to Section 25.14(a) promptly and in accordance with the warranty periods set out in Section 25.14(a)(i)(A), 25.14(a)(i)(B), and 25.14(a)(i)(C) and Project Co shall also Make Good any damage to any part of the Ontario Line Subway, New City Infrastructure, New TTC Infrastructure, or New Railway Company Infrastructure, caused by the repairing of such defects, deficiencies or failures to comply (“**Warranty Work**”). All Warranty Work shall be carried out and completed at Project Co’s cost and expense and Warranty Work shall not be the basis for a claim for a Delay Event, a Compensation Event, a Variation, additional compensation, or damages. For clarity, such defect, deficiencies and failures to comply include defects, deficiencies and failures to comply in respect of Products and workmanship.
- (ii) If Project Co fails to carry out Warranty Work in the time specified or subsequently agreed upon, without prejudice to any other right or remedy Contracting Authority may have, Contracting Authority, the City, the Toronto Transit Commission, or the applicable Railway Company Owner may correct such New City Infrastructure, New TTC Infrastructure, or New Railway Company Infrastructure and Contracting Authority shall deduct the cost and expense thereof from any payment then or thereafter due to Project Co, provided the Independent Certifier has certified such cost to Contracting Authority.
- (iii) Project Co acknowledges that the timely performance of Warranty Work is critical to (A) the ability of the City of Toronto to maintain effective operations of the New City Infrastructure, (B) the ability of the Toronto Transit Commission to maintain the effective operations of the New TTC Infrastructure, and (C) the ability of each Railway Company Owner to maintain the effective operations of its New Railway Company Infrastructure. Project Co shall use commercially reasonable efforts to respond to any requirement by Contracting Authority, the City, the Toronto Transit Commission, or a Railway Company Owner, to correct defective, deficient or non-compliant items in the applicable New Third Party Infrastructure within the time periods required by Contracting Authority, the City, the Toronto Transit Commission, or the applicable Railway Company Owner. In relation to critical areas required for effective operations, Project Co shall commence, carry out and complete Warranty Work on an urgent basis with all due haste, taking into account the circumstances and any timelines for commencement and completion as may be communicated by Contracting Authority, the City, the Toronto Transit Commission, or the applicable Railway Company Owner to Project Co.
- (iv) Project Co further acknowledges that if Contracting Authority, the City, the Toronto Transit Commission, or a Railway Company Owner is unable to contact Project Co and/or obtain the Warranty Work promptly, or in the case of urgent Warranty Work within the time period set out in Section 25.14(b)(iii), Contracting Authority, the City, the Toronto Transit Commission, or the applicable Railway Company Owner, as applicable, may take such emergency steps as are reasonable and appropriate to correct such defects,

deficiencies or failures to comply with the Project Agreement, at Project Co's sole cost and expense. Except in the case of damage caused by Contracting Authority, the City, the Toronto Transit Commission, or the applicable Railway Company Owner, to the New City Infrastructure, the New TTC Infrastructure, or the New Railway Company Infrastructure, as applicable, such emergency steps shall not invalidate any Project Co warranties in respect of the New City Infrastructure, the New TTC Infrastructure, or the New Railway Company Infrastructure.

- (v) After the Handover of the New City Infrastructure, the New TTC Infrastructure, or the New Railway Company Infrastructure, or any component thereof, Project Co shall be solely responsible for obtaining access from the City, the Toronto Transit Commission, or the applicable Railway Company Owner, as applicable, for the purpose of carrying out Warranty Work. Project Co acknowledges that such access to the New City Infrastructure, the New TTC Infrastructure, or the New Railway Company Infrastructure may be subject to such limitations as may be imposed by the City, the Toronto Transit Commission, or the applicable Railway Company Owner and that Project Co may be required to obtain any Permits, Licences, Approvals and Agreements to access the New City Infrastructure, the New TTC Infrastructure, or the New Railway Company Infrastructure (or the Lands on which the infrastructure is situate) for the purpose of carrying out Warranty Work. Without limiting Project Co's obligations to carry out the Warranty Work, if Project Co,
 - (A) has made commercially reasonable efforts to access the New City Infrastructure, the New TTC Infrastructure, or the New Railway Company Infrastructure for the purpose of carrying out the Warranty Work and is otherwise complying with all of Project Co's obligations pursuant to the Project Agreement; and
 - (B) is denied access to all or a portion of the New City Infrastructure, the New TTC Infrastructure, or the New Railway Company Infrastructure such that Project Co is unable to perform the Warranty Work,

then Project Co shall refer the matter to Contracting Authority, and Contracting Authority shall not deduct the costs and expenses pursuant to Section 25.14(b)(ii) for Project Co's failure to perform the Warranty Work.

(c) **Remedies Not Exclusive**

- (i) The express warranties set out in this Section 25.14 shall not deprive Contracting Authority, the City, the Toronto Transit Commission, or any Railway Company Owner, of any action, right or remedy otherwise available to any of them at law or in equity and the periods referred to in this Section 25.14, shall not be construed as a limitation on the time in which Contracting Authority, the City, the Toronto Transit Commission, or a Railway Company Owner, may pursue such other action, right or remedy.

25.15 Disputes Regarding Handover of the New Third Party Infrastructure

- (a) In the event of a dispute between Project Co and Contracting Authority (including Contracting Authority as a representative of the interests of the City, the Toronto Transit Commission, and each Railway Company Owner), with respect to final inspection, Commissioning or Handover of the New City Infrastructure, the New TTC Infrastructure, or the New Railway Company Infrastructure pursuant to Section 25.12 or Section 25.13, as applicable, the following shall apply:
- (i) Project Co shall make commercially reasonable efforts to resolve all outstanding concerns of Contracting Authority, the City, the TTC, and each Railway Company Owner in a prompt manner;
 - (ii) any Commissioning or Handover issue that is unresolved after the expiration of ninety (90) days after Project Co and Contracting Authority, or Project Co and the applicable third party owner (where a Notice of Delegation has been provided), have carried out the joint inspection pursuant to Section 25.12(c), shall be referred to the Independent Certifier for final determination on an expedited basis with such final determination being made no later than the earlier of (A) sixty (60) days from the date of the referral; and (B) the Substantial Completion Date; and
 - (iii) any Commissioning or Handover issue that is,
 - (A) unresolved as of the Substantial Completion Countdown Notice issued pursuant to Section 25.5(a); or
 - (B) arises after the issuance of the Substantial Completion Countdown Notice issued pursuant to Section 25.5(a) and is not resolved,shall be referred to the Independent Certifier for final determination prior to the Substantial Completion Date.

26. PROJECT CO SERVICES

26.1 Overall Responsibility

- (a) Project Co shall, following the Substantial Completion Date, perform the Project Co Services:
- (i) so as to satisfy the Output Specifications;
 - (ii) in accordance with the Project Co Proposal Extracts;
 - (iii) in accordance with Good Industry Practice;
 - (iv) in accordance with the Maintenance Plan;
 - (v) in accordance with the Operations Plan;

- (vi) in a manner that does not void, breach or have an adverse effect on any supplier's or manufacturer's warranty or guarantee given in relation to the Vehicles;
- (vii) in accordance with any other reasonable requirements of the manufacturer or supplier of the Vehicles, including any warranty or guarantee requirements so as not to void, breach or adversely affect any warranty or guarantee claims; and
- (viii) in accordance with the other terms of this Project Agreement.

26.2 Commencement of Project Co Services

- (a) Project Co shall commence the Project Co Services on the day immediately after the Substantial Completion Date and shall perform the Project Co Services until the end of the Operational Term.

26.3 Equipment for Project Co Services

- (a) Project Co will procure, deliver, install, commission, maintain, repair, decommission, upgrade and replace any equipment required by Project Co to perform the Project Co Services.

26.4 No Closure of the Ontario Line Subway

- (a) During the Operational Term, Project Co shall not close all or a portion of the Ontario Line Subway in any circumstances other than as directed by Contracting Authority, TTC or Emergency Service Provider, as approved by Contracting Authority acting reasonably, or as otherwise permitted by the provisions of the Project Agreement, including the Output Specifications.

26.5 Maintenance Plans

- (a) By no later than each of the applicable times set out in the Output Specifications, Project Co shall submit to Contracting Authority for review pursuant to Schedule 10 – Review Procedure, the Maintenance Plan, and shall update such plan as and at each of the times provided for in the Output Specifications thereafter.

26.6 Revisions to Maintenance Plan

- (a) If permitted by and by no later than each of the applicable times set out in the Output Specifications, Project Co may submit to Contracting Authority a revision to the applicable Maintenance Plan for the Contract Year showing the effect of the proposed changes. If Project Co is entitled to proceed with such changes pursuant to the Output Specifications and Schedule 10 – Review Procedure, then the Maintenance Plan as so amended shall thereafter become the Maintenance Plan in respect of that Contract Year.

26.7 Operations Services

- (a) In addition to the other requirements set out in this Project Agreement, Project Co shall perform the Operations Services at the times scheduled for such Operations Services as set forth in the Project Co Services Requirements and the Operations Plan.

26.8 Operations Plan

- (a) By no later than each of the applicable times set out in the Output Specifications, Project Co shall submit to Contracting Authority for review pursuant to Schedule 10 – Review Procedure, the Operations Plan, and shall update such plan as and at each of the times provided for in the Output Specifications thereafter.

26.9 Revisions to Operations Plan

- (a) If permitted by and by no later than each of the applicable times set out in the Output Specifications, Project Co may submit to Contracting Authority a revision to the applicable Operations Plan for the Contract Year showing the effect of the proposed changes. If Project Co is entitled to proceed with such changes pursuant to the Output Specifications and Schedule 10 – Review Procedure, then the Operations Plan as so amended shall thereafter become the Operations Plan in respect of that Contract Year.

26.10 Operational Response and Project Co's Obligations

- (a) The Parties acknowledge and agree that the purpose of Operational Response is to take such immediate steps as are prudent in the circumstances to eliminate, mitigate or prevent further adverse impact (including in relation to health and safety) arising from, danger, damage, failure or incident on the Ontario Line Subway and that Operational Response includes the following activities:
 - (i) initial reporting to the Operations Control Centre of the occurrence of a danger, failure, damage or other incident;
 - (ii) attendance by Project Co or a Project Co Party's staff at the Lands or the relevant part of the Ontario Line Subway to assess the cause of the problem;
 - (iii) determination of the appropriate course of action;
 - (iv) where possible and safely within the capabilities immediately available to Project Co, rectification of the problem *in situ*;
 - (v) implementation of measures to overcome or mitigate disruption to the Operations Services and any other impacted Project Co Services;
 - (vi) where possible and safely within Project Co's immediately available capabilities, implementation of temporary repairs; and

(vii) in the case of an Emergency, complying with Section 62.1.

Operational Response does not include the performance of permanent repairs except where these are of a minor or trivial nature.

- (b) Project Co shall initiate an Operational Response to a failure, damage or incident requiring Operational Response (including an Emergency) within 15 minutes of the earlier of:
- (i) Project Co (or any of its Subcontractors) identifying that such danger, failure, damage or incident has occurred; and
 - (ii) Contracting Authority notifying the Operations Control Centre or Project Co directly of such danger, failure, damage or incident,

and shall carry out an Operational Response in a prompt manner.

- (c) Except where Contracting Authority has notified Project Co in accordance with Section 26.10(b)(ii), Project Co shall notify Contracting Authority through means of an electronic log immediately following a report to the Operations Control Centre of the occurrence of a danger, failure, damage or other incident requiring Operational Response. For greater certainty, representatives of Contracting Authority shall be entitled to attend the relevant part of the Lands or the Ontario Line Subway (where the incident has occurred) in order to view the appropriate measures taken or to be taken by Project Co to restore the Ontario Line Subway and the Operations Services to the standard being provided immediately prior to the danger, failure, damage or incident and to observe any actions taken by Project Co. As soon as possible following the incident (but no later than 48 hours after the incident), Project Co shall issue a written report to Contracting Authority describing the incident, its cause (so far as known), its duration, its location, the action taken and any follow-up actions required. In connection with any event requiring an Operational Response, Project Co shall comply with the communications protocol developed in accordance with Schedule 18 – Communication and Public Engagement Protocol.
- (d) The Parties acknowledge and agree that in the event of an occurrence of an Operational Response that constitutes an Emergency, Project Co shall not be entitled to any other form of relief or compensation from Contracting Authority in respect of such Operational Response or its consequences, save as expressly provided for in Section 42 and Section 62.1(b).

26.11 Revenue Service Commencement

- (a) Notwithstanding the issuance of the Substantial Completion Certificate, Project Co shall not commence Revenue Service until directed to do so in a Notice from Contracting Authority. Where the Independent Certifier has issued the Substantial Completion Certificate but Contracting Authority has not directed Project Co to commence Revenue Service:
- (i) Project Co shall not commence Revenue Service, but shall otherwise perform all other aspects of the Project Co Services and the rights and obligations of Contracting Authority and of Project Co in this Project Agreement shall in all other respects remain the same,

including, for greater certainty, (A) the commencement of the Operational Term, and (B) in accordance with Schedule 20 – Payment Mechanism, Contracting Authority’s obligation to make Monthly Service Payments and its right to make Deductions related to Project Co’s failure to provide the Project Co Services or to satisfy the Project Co Services Requirements, other than in respect of Revenue Service until the commencement of Revenue Service in accordance with Section 26.11(a)(ii); and

- (ii) Contracting Authority may at any time after the Substantial Completion Date require Project Co to commence Revenue Service by providing at least five (5) Business Days prior Notice to Project Co stating the date upon which Revenue Service is to commence. Following receipt of such Notice from Contracting Authority, Project Co shall commence Revenue Service on the date specified in such Notice.

27. [INTENTIONALLY DELETED]

28. HUMAN RESOURCES

28.1 Admittance of Personnel

- (a) Contracting Authority shall have the right to order the removal from the Lands, the Ontario Line Subway and the New Third Party Infrastructure of any person employed by (or acting on behalf of) Project Co, or any Project Co Party, whose presence, in the reasonable opinion of Contracting Authority is likely to have an adverse effect on the Other Works or the Governmental Activities or who, in the reasonable opinion of Contracting Authority is not a fit and proper person to be on the Lands, the Ontario Line Subway and the New Third Party Infrastructure for any reason, including a failure to comply with any Contracting Authority policy or any immediate obligation of Contracting Authority to ensure the safety and well-being of persons on the Lands, the Ontario Line Subway and the New Third Party Infrastructure.

28.2 Confirmation of Action

- (a) Any action taken under Section 28.1 shall promptly be confirmed by Contracting Authority in writing to Project Co and, for greater certainty, shall not relieve Project Co of any of its obligations under this Project Agreement.

28.3 Finality as to Admission

- (a) Any decision of Contracting Authority made pursuant to Section 28.1 shall be final and conclusive.

28.4 Staff Competency

- (a) Project Co shall ensure that:
 - (i) there shall at all times be a sufficient number of persons employed or engaged by Project Co or any Project Co Party (including all relevant grades of supervisory staff) engaged in the performance of the Project Operations with the requisite level of skill and experience

to perform the Project Operations in accordance with this Project Agreement. For greater certainty, this obligation shall include ensuring that there are a sufficient number of such skilled and experienced persons employed or engaged by Project Co or any Project Co Party to complete the Works in accordance with the Project Works Schedules and to cover periods of holiday, sickness, other absence, and anticipated and actual peaks in the Project Co Services;

- (ii) all persons employed or engaged by Project Co or any Project Co Party (including all relevant grades of supervisory staff) engaged in the provision of the Project Operations receive such training and supervision as is necessary to ensure the proper performance of this Project Agreement and compliance with all health and safety rules, procedures and requirements, Authority Requirements and the Contracting Authority HR Policy; and
- (iii) it creates and maintains, and causes all Project Co Parties to create and maintain, a process which allows it to assess, monitor and correct, on an ongoing basis, the competency of persons employed or engaged by Project Co or any Project Co Party (including all relevant grades of supervisory staff) engaged in the provision of the Project Operations to ensure the proper performance of this Project Agreement.

28.5 Employee Training

- (a) Project Co shall and shall ensure all Project Co Parties establish and provide formal training programs and certification for the staff of Project Co and of all Project Co Parties required to be certified to perform specific tasks related to the Project Co Services as required by any provincial or federal regulatory body, including training of personnel regarding the operation, maintenance and repair of the Vehicles. All training programs and activities shall be designed, developed, and implemented in accordance with established professional standards. Project Co shall and shall ensure that all Project Co Parties consider all suggestions provided by Contracting Authority to improve the training by Project Co and all Project Co Parties; however, the final decision on any training program is the responsibility of Project Co and the relevant Project Co Parties.
- (b) Project Co shall and shall ensure that the relevant Project Co Parties, upon Contracting Authority's request, provide training program materials to Contracting Authority for filing with regulatory agencies as and when required. All such training program materials or other documentation provided by Project Co and the relevant Project Co Parties shall be provided in both paper and digital formats, and shall be written in English.
- (c) Project Co and all Project Co Parties shall be responsible for the cost of all training and certification for all employees of Project Co and Project Co Party employees.

28.6 Convictions

- (a) Project Co (to the extent permitted by Applicable Law) shall, and shall cause such Project Co Party to, ensure that all potential employees (including, for greater certainty, permanent, temporary, full time and part time employees) and persons who may otherwise perform the Project Co Services:

- (i) are questioned concerning Relevant Convictions; and
 - (ii) are required to complete and deliver to Project Co a criminal records search form.
- (b) To the extent permitted by Applicable Law, Project Co shall, and shall cause each Project Co Party to, ensure that no person who discloses any Relevant Conviction, or who is found to have any Relevant Conviction following the completion of a criminal records search, in either case of which Project Co or a Project Co Party is aware or ought to be aware, is allowed access to the Lands, the Ontario Line Subway or the New Third Party Infrastructure to perform any Project Co Services, without the prior written consent of Contracting Authority, in its sole discretion.
- (c) To the extent permitted by Applicable Law, Project Co shall ensure that Contracting Authority is kept advised at all times of any person employed or engaged by Project Co or any Project Co Party in the provision of any of the Project Co Services or the Works who, subsequent to the commencement of such employment or engagement, (i) has been arrested or detained; (ii) receives a Relevant Conviction; or (iii) is charged with an offence that could lead to a Relevant Conviction (of which Project Co or a Project Co Party becomes aware or whose previous Relevant Convictions become known to Project Co or a Project Co Party). Project Co shall use commercially reasonable efforts to obtain, or to cause all Project Co Parties to obtain, all consents as may be required by Applicable Law or otherwise authorizing the disclosure of such information to Contracting Authority as contemplated in this Section 28.6.

28.7 Disciplinary Action

- (a) Contracting Authority, acting reasonably, may notify Project Co of any Project Co or Project Co Party employee who engages in misconduct or is incompetent or negligent in the performance of duties or whose presence or conduct on the Lands or at work is otherwise considered by Contracting Authority to be undesirable, to constitute a threat to the health and/or safety of any of the users of the Lands and/or System Users or which Contracting Authority consider may potentially compromise (i) Contracting Authority's reputation or integrity, or (ii) the nature of any of the public transit systems within the City of Toronto so as to affect public confidence in any of the public transit systems within such area or the Project. Upon investigation, Project Co may institute, or cause the relevant Project Co Party to institute, disciplinary proceedings, which shall be in accordance with the requirements of Applicable Law, and shall advise Contracting Authority in writing of the outcome of any disciplinary action taken in respect of such person.

28.8 Human Resources Policies

- (a) Project Co shall ensure that there are set up and maintained by it and by all Project Co Parties, human resources policies and procedures covering all relevant matters relating to the Project Operations (including, for example, health and safety). Project Co shall ensure that the terms and the implementation of such policies and procedures comply with Applicable Law, Authority Requirements, the Contracting Authority HR Policy and Good Industry Practice and that they are published in written form and that copies of them (and any revisions and amendments to them) are available to Contracting Authority on a timely basis.

28.9 Management Organizations

- (a) Project Co shall provide, and shall ensure that all Project Co Parties provide, to Contracting Authority, as required to keep such information current, the names of the management teams responsible for the performance of the Project Operations.

28.10 Governmental Authority

- (a) Project Co shall ensure that it and all Project Co Parties comply at all times with any regulations, policies or directions set by any Governmental Authority related to labour, employment and/or human resources.

29. GOODS, EQUIPMENT, CONSUMABLES AND MATERIALS

29.1 Standards

- (a) Project Co shall cause the goods, Vehicles, equipment, consumables and materials used or supplied by it or any Contractor or Subcontractor in connection with the Project Operations, including for clarity the Cars, to be:
 - (i) of good quality, fit for the intended purpose as part of a subway system, and maintained in a safe, serviceable and clean condition, all in accordance with the Output Specifications and Good Industry Practice;
 - (ii) of the type specified in the Output Specifications, if applicable; and
 - (iii) in compliance with all Applicable Law,

and shall, as soon as practicable after receiving a request from the Contracting Authority Representative, supply to the Contracting Authority Representative evidence to demonstrate its compliance with this Section 29.1(a).

29.2 Stocks

- (a) Project Co shall cause sufficient stocks of goods, Vehicles, equipment, consumables and materials (including those in respect of or in connection with the Cars) to be held in compliance with its obligations under this Project Agreement including as may be specified in the Output Specifications.

30. DAMAGE AND DESTRUCTION

30.1 Protection of Works and Property and Reinstatement Work

- (a) Project Co shall protect the Works, including the Ontario Line Subway and the New Third Party Infrastructure prior to Handover of the New Third Party Infrastructure, the property of Contracting Authority and third parties on and adjacent to the Lands (including any TOC Developments and Adjacent Developments) and the Existing Infrastructure from damage or destruction which may arise as a result of Project Co's operations under this Project Agreement,

and Project Co shall be responsible for such damage or destruction, except for any damage or destruction which occurs as a result of acts or omissions by Contracting Authority, any Contracting Authority Party, South Civil Project Co, any South Civil Project Co Party, North Civil Project Co, any North Civil Project Co Party, a TOC Contractor, or a TOC Contractor Party.

- (b) Unless this Project Agreement is terminated in accordance with its terms, if all or any part of
- (i) the Works, including the Ontario Line Subway or the New Third Party Infrastructure (prior to Handover of the New Third Party Infrastructure) is damaged or destroyed at any time during the Project Term; or
 - (ii) the Existing Infrastructure is damaged or destroyed at any time during the Project Term as a result of an act or omission of Project Co or a Project Co Party;
 - (iii) the property of Contracting Authority on or adjacent to the Lands is damaged or destroyed at any time during the Project Term as a result of an act or omission of Project Co or a Project Co Party; or
 - (iv) the property of a third party on or adjacent to the Lands is damaged or destroyed at any time during the Project Term as a result of an act or omission of Project Co or a Project Co Party,
- then,
- (v) in the case of (i), above, subject to Section 30.2 (as applicable), Project Co shall, at its own cost and expense, Make Good such portion of the Works, including the Ontario Line Subway, the New Third Party Infrastructure, the property of Contracting Authority on or adjacent to the Lands, including the Existing Infrastructure (the “**CA Reinstatement Work**”); and/or
 - (vi) in the case of (ii), (iii) or (iv) above, subject to Section 30.2 (as applicable), Project Co shall, at its own cost and expense, upon written notice from Contracting Authority, Make Good such property (the “**Other Reinstatement Work**” and together with the CA Reinstatement Work, the “**Reinstatement Works**”).
- (c) Project Co shall carry out any Reinstatement Works promptly and, in any event, as soon as practicable in the circumstances.
- (d) Except as otherwise expressly provided in this Project Agreement, damage to or destruction of all or any part of the Works, including the Ontario Line Subway or the New Third Party Infrastructure, shall not terminate this Project Agreement or relieve Project Co of any of its obligations hereunder (including indemnity obligations) or entitle Project Co to any compensation from Contracting Authority. For clarity, after Handover of New Third Party Infrastructure, damage or destruction to such New Third Party Infrastructure shall be dealt with pursuant to the Project Agreement as damage or destruction to the property of third parties.

- (e) Project Co shall not undertake to Make Good any damage or destruction whatsoever to the property of Contracting Authority or a third party on or adjacent to the Lands (other than to the Ontario Line Subway or the New Third Party Infrastructure prior to Handover of the New Third Party Infrastructure) or Existing Third Party Infrastructure, without first consulting Contracting Authority and receiving written instructions from Contracting Authority as to the course of action to be followed.
- (f) Notwithstanding Sections 30.1(a) and 30.2, Reinstatement Work carried out by Project Co in respect of Existing Third Party Infrastructure New Third Party Infrastructure that is not owned by the City or the TTC, shall be planned and implemented by Project Co in consultation with the applicable third party.

30.2 Reinstatement Plan

- (a) If the Reinstatement Work is reasonably estimated to cost more than \$[REDACTED] (index linked) or in any other case where the Contracting Authority Representative, having regard to the nature of the damage or destruction, notifies Project Co that a Reinstatement Plan is required (excluding where the damage or destruction occurs before the Final Completion Date and the Contracting Authority Representative acting reasonably considers that the continued application of the Design and Construction Certification Procedure would be able to adequately address the Reinstatement Work without the need for a separate Reinstatement Plan), Project Co shall, as soon as practicable and in any event within twenty (20) Business Days after the occurrence of the damage or destruction or receipt of notification from the Contracting Authority Representative, as the case may be, (or if, with the exercise of all due diligence more than twenty (20) Business Days is reasonably required for such purposes, then within such longer period of time after the occurrence of such damage or destruction or receipt of notification from the Contracting Authority Representative, as the case may be, as may be reasonably required with the exercise of all due diligence, provided Project Co exercises and continues to exercise all such due diligence) submit to the Contracting Authority Representative pursuant to Schedule 10 – Review Procedure a plan (a “**Reinstatement Plan**”) prepared by Project Co for carrying out the Reinstatement Work setting out, in reasonable detail, *inter alia*:
 - (i) a description of the Reinstatement Work required to Make Good the damage or destruction;
 - (ii) Project Co’s proposed schedule for the execution of the Reinstatement Work; and
 - (iii) the information required pursuant to Schedule 22 – Variation Procedure as if such plan were an Estimate;

and the Reinstatement Work must not be commenced until the Contracting Authority Representative consents thereto in accordance with Schedule 10 – Review Procedure except to the extent necessary to address any Emergency or public safety needs.

30.3 Conduct of Reinstatement Work

- (a) Project Co shall cause all Reinstatement Work to be carried out in accordance with the Output Specifications (other than Reinstatement Work with respect to the property of Contracting Authority or a third party on or adjacent to the Lands that is not Ontario Line Subway or New Third Party Infrastructure) and all other applicable requirements under this Project Agreement and, where applicable, in accordance with the Reinstatement Plan consented to by the Contracting Authority Representative in accordance with Schedule 10 – Review Procedure. All designs, plans and specifications in respect of the Reinstatement Work shall be subject to the Design and Construction Certification Procedure. If requested by the Contracting Authority Representative, the persons (and if applicable, a suitable parent entity thereof acceptable to Contracting Authority) retained by Project Co to design and carry out any Reinstatement Work shall, as a condition to their retainer and prior to commencing any Reinstatement Work or design work in connection therewith, enter into a construction contract with Project Co and a direct agreement with Contracting Authority in substantially the same forms as the Construction Contract and the Construction Contractor’s Direct Agreement.
- (b) In the event any Insurance Proceeds under Insurance Policies as referred to in Schedule 30 – Insurance Trust Agreement are available to carry out the Reinstatement Work, such Insurance Proceeds shall be paid into the Insurance Trust Account and shall be dispensed in accordance with the provisions of the Insurance Trust Agreement to carry out the Reinstatement Work.

31. MONITORING AND PERFORMANCE AUDITS

31.1 Performance Audits

- (a) If Contracting Authority reasonably believes that Project Co is in breach of its obligations with respect to the Project Co Services, including:
 - (i) under Section 26;
 - (ii) under the Output Specifications; or
 - (iii) in respect of any defects, deficiencies or items of outstanding work that should have been completed as part of the Works,

then Contracting Authority may cause to be performed, by an arm’s length consultant appointed by Contracting Authority, a performance audit, inspection and survey of the Ontario Line Subway to assess whether the Ontario Line Subway has been and is being maintained by Project Co in accordance with Project Co’s obligations (the “**Performance Audit**”).

- (b) Contracting Authority shall notify Project Co in writing at least ten (10) Business Days prior to the date that Contracting Authority wishes to cause a Performance Audit to be undertaken. Contracting Authority shall, acting in good faith, consider any reasonable request by Project Co for the Performance Audit to be performed on an alternative date if such request is made by Project Co in writing at least five (5) Business Days prior to the date originally requested by Contracting Authority, on the basis that performing the Performance Audit on the date originally

requested by Contracting Authority would materially prejudice Project Co's ability to provide the Project Co Services.

- (c) When causing any Performance Audit to be undertaken, Contracting Authority shall use commercially reasonable efforts to minimize any disruption caused to the provision of the Project Co Services. The cost of a Performance Audit, except where Section 31.1(e) applies, shall be borne by Contracting Authority. Project Co shall provide Contracting Authority, at no additional cost or charge, with any reasonable assistance required by Contracting Authority from time to time during the Performance Audit.
- (d) If a Performance Audit shows that Project Co has not performed or is not performing its obligations in any material respect, Contracting Authority shall:
 - (i) provide Project Co with a written Notice of non-compliance;
 - (ii) provide Project Co with instructions regarding rectification or Project Co Services, as the case may be, required to be performed by Project Co in order for Project Co to perform its obligations;
 - (iii) specify a reasonable period of time within which Project Co must perform such rectification or Project Co Services; and
 - (iv) be entitled to exercise all rights pursuant to Section 32.
- (e) If a Performance Audit shows that Project Co has not performed or is not performing its obligations in any material respect, Project Co shall:
 - (i) perform any rectification or Project Co Services, as the case may be, required by Contracting Authority within a reasonable period of time specified by Contracting Authority, and be responsible for any costs incurred in performing such rectification or Project Co Services, as the case may be; and
 - (ii) pay or reimburse Contracting Authority for the costs of the Performance Audit and any administrative costs incurred by Contracting Authority in relation to the Performance Audit.
- (f) Nothing in this Section 31.1 shall limit or restrict Contracting Authority's rights hereunder to perform any other performance audits, inspections and surveys at its own cost and expense.
- (g) Contracting Authority's right to cause a Performance Audit to be undertaken may not be exercised more than once every one-hundred and eighty (180) days unless any Performance Audit performed in the preceding twelve (12) month period shows that Project Co has not performed or is not performing its obligations in any material respect.

31.2 Monitoring of Performance

- (a) Project Co shall monitor the performance of the Project Co Services in the manner and at the frequencies set out in the Output Specifications and the Payment Mechanism, and shall compile and at all times maintain records which are accurate and complete of such monitoring and performance. In addition to Project Co's obligations as set out in the Output Specifications and the Payment Mechanism, Project Co shall, as reasonably requested by Contracting Authority, provide the Contracting Authority Representative with relevant particulars of any aspects of Project Co's performance which fail to meet the requirements of this Project Agreement.
- (b) Contracting Authority may, at any and all reasonable times, observe, inspect, monitor, audit and take any steps reasonably necessary to satisfy itself as to the adequacy of the monitoring, including performing sample checks.

31.3 Failure Points

- (a) In each Payment Period, Project Co shall measure the performance of the Project Co Services, and based on the performance of the Project Co Services in the applicable Payment Period, Failure Points may be awarded, as applicable, in accordance with the Payment Mechanism.

31.4 Warning Notices

- (a) Without prejudice to Contracting Authority's rights under Section 45 and any other rights under this Project Agreement, if Project Co accrues the following number of Failure Points or more in any one Payment Period, then Contracting Authority may give written Notice (a "**Warning Notice**") to Project Co setting out the matter or matters giving rise to such Notice and stating that it is a "Warning Notice":
 - (i) [REDACTED] Failure Points in respect of Trip Availability Failures;
 - (ii) [REDACTED] Failure Points in respect of Station Availability Failures;
 - (iii) [REDACTED] Failure Points in respect of All Availability Failures combined; or
 - (iv) [REDACTED] Failure Points in respect of Performance Failures and Heavy Civil Failures, combined.

31.5 Monitoring Notices

- (a) Without prejudice to Contracting Authority's rights under Section 45 and any other rights under this Project Agreement, if Project Co accrues the following number of Failure Points or more in any rolling three Payment Periods, Contracting Authority may, by Notice (a "**Monitoring Notice**") to Project Co require Project Co to increase the level of Project Co's monitoring of its own performance of its obligations under this Project Agreement until such time as Project Co shall have demonstrated to the reasonable satisfaction of Contracting Authority that it is performing, and is capable of continuing to perform, its obligations under this Project Agreement in respect of the relevant Project Co Services:

- (i) [REDACTED] Failure Points in respect of Trip Availability Failures;
 - (ii) [REDACTED] Failure Points in respect of Station Availability Failures;
 - (iii) [REDACTED] Failure Points in respect of All Availability Failures combined; or
 - (iv) [REDACTED] Failure Points in respect of Performance Failures and Heavy Civil Failures, combined.
- (b) Contracting Authority may give a Warning Notice pursuant to Section 31.4 despite the issuance of a Monitoring Notice in respect of the same matter where a further breach occurs or the original breach has not been remedied within a reasonable period, and whether or not the previous Monitoring Notice remains in effect.
- (c) If a Monitoring Notice is given, then:
- (i) such Monitoring Notice shall specify in reasonable detail the additional measures to be taken by Project Co in monitoring its own performance;
 - (ii) if Project Co, acting reasonably, objects to any of the specified measures on the grounds that they are excessive or that Contracting Authority was not entitled to give the Monitoring Notice, Project Co shall, within three (3) Business Days of the receipt of the Monitoring Notice, provide Notice to Contracting Authority's setting out matters objected to and any changes necessary in order to prevent prejudice to Project Co's performance of its obligations under this Project Agreement;
 - (iii) if Project Co provides Contracting Authority a Notice under Section 31.5(c)(ii), the measures to be taken by Project Co shall be agreed between the Parties or, in the absence of agreement within ten (10) Business Days of Contracting Authority's receipt of such Notice, may be referred for resolution in accordance with Schedule 27 – Dispute Resolution Procedure;
 - (iv) if Project Co fails to increase Project Co's monitoring as provided herein, Contracting Authority may perform such monitoring save where Project Co, acting in good faith, is pursuing a Dispute pursuant to Section 31.5(c)(iii);
 - (v) if it is determined in accordance with Schedule 27 – Dispute Resolution Procedure that Contracting Authority was entitled to give the applicable Monitoring Notice, Project Co shall bear its own costs and reimburse Contracting Authority for any reasonable costs and expenses incurred by or on behalf of Contracting Authority in relation to the giving of such Monitoring Notice; and
 - (vi) if it is determined in accordance with Schedule 27 – Dispute Resolution Procedure that Contracting Authority was not entitled to give the applicable Monitoring Notice, Contracting Authority shall bear its own costs and reimburse Project Co for any reasonable costs and expenses incurred by or on behalf of Project Co in relation to the giving of such Monitoring Notice.

- (d) In respect of any Monitoring Notice, if Project Co shall have demonstrated to the reasonable satisfaction of Contracting Authority that Project Co has performed its obligations under this Project Agreement for a period of ninety (90) consecutive days and during such period has not received a Warning Notice or Monitoring Notice in respect of the same or similar Project Co Services, as applicable, Project Co may apply for the withdrawal of such Monitoring Notice. If Contracting Authority is satisfied, acting reasonably, that Project Co has satisfied the aforesaid requirements, it shall, within ten (10) Business Days of receipt of such application, withdraw such Monitoring Notice and cease to perform or require the performance of the increased monitoring implemented in respect of such Monitoring Notice.
- (e) If it is determined in accordance with Schedule 27 – Dispute Resolution Procedure that Contracting Authority was not entitled to give any Monitoring Notice, Contracting Authority shall promptly withdraw such Monitoring Notice and cease to perform or require the performance of the increased monitoring implemented in respect of such Monitoring Notice.

32. CONTRACTING AUTHORITY'S REMEDIAL RIGHTS

32.1 Exercise of Remedial Rights

- (a) Contracting Authority may exercise all rights set out in this Section 32 at any time and from time to time if:
 - (i) Contracting Authority, acting reasonably, considers that a breach by Project Co of any obligation under this Project Agreement, or any act or omission on the part of Project Co or any Project Co Party:
 - (A) does or can reasonably be expected to create a serious threat to the health, safety or security of any person, including any System User or Province Person;
 - (B) does or can reasonably be expected to result in a materially adverse interruption in the Project Co Services or the availability of the Ontario Line Subway to System Users;
 - (C) does or can reasonably be expected to materially prejudice the performance of any Governmental Activities;
 - (D) does or can reasonably be expected to materially prejudice the construction of the South Civil Project in a manner for which this Project Agreement does not otherwise provide a remedy;
 - (E) does or can reasonably be expected to materially prejudice the construction of the North Civil Project in a manner for which this Project Agreement does not otherwise provide a remedy; or
 - (F) may potentially compromise (I) Contracting Authority's reputation or integrity, or (II) the nature of any of the public transit systems within the City of Toronto

so as to affect public confidence in any of the public transit systems within such area or the Project,

provided that:

- (G) in respect of a breach by Project Co of any obligation under this Project Agreement, or any act or omission on the part of Project Co or any Project Co Party, which can reasonably be expected to cause any of the consequences set out in Sections 32.1(a)(i)(A), 32.1(a)(i)(B), 32.1(a)(i)(C), 32.1(a)(i)(D) and 32.1(a)(i)(E), Contracting Authority shall not exercise its rights under this Section 32 unless Project Co has failed to cure the relevant breach, act or omission within five (5) Business Days of Notice from Contracting Authority or, if such breach, act or omission cannot reasonably be cured within such five (5) Business Day period, Project Co thereafter fails to diligently and continuously pursue such cure and to cure such breach, act or omission within a reasonable period thereafter, provided that Project Co shall not be entitled to a cure period if any of the consequences set out in Sections 32.1(a)(i)(A), 32.1(a)(i)(B), 32.1(a)(i)(C), 32.1(a)(i)(D) and 32.1(a)(i)(E) actually occur; and
 - (H) in respect of Section 32.1(a)(i)(F), Contracting Authority shall not exercise its rights under this Section 32 unless Project Co has failed to cure the relevant breach, act or omission within five (5) Business Days of Notice from Contracting Authority or, if such breach, act or omission cannot reasonably be cured within such five (5) Business Day period, Project Co thereafter fails to diligently and continuously pursue such cure and to cure such breach, act or omission within a reasonable period thereafter;
- (ii) Project Co accrues the following number of Failure Points or more in any one Payment Period:
 - (A) [REDACTED] Failure Points in respect of Trip Availability Failures;
 - (B) [REDACTED] Failure Points in respect of Station Availability Failures;
 - (C) [REDACTED] Failure Points in respect of All Availability Failures combined;
or
 - (D) [REDACTED] Failure Points in respect of Performance Failures and Heavy Civil Failures, combined.
 - (iii) while a Monitoring Notice is in effect that is not being disputed by Project Co, acting in good faith, Project Co receives a Warning Notice in respect of the same or similar Project Co Services;
 - (iv) pursuant to Schedule 11 – Quality Management, a Quality Audit that is not being disputed by Project Co, acting in good faith, shows that Project Co has not performed or

is not performing its obligations and Project Co has failed to perform the rectification or Project Co Services, as applicable, as provided in the Output Specifications;

- (v) a labour dispute materially affects or can reasonably be expected to materially affect the Project Operations, the Governmental Activities or the availability of the Ontario Line Subway to System Users;
- (vi) Contracting Authority has received a notice under the Service Provider's Direct Agreement that entitles Contracting Authority to exercise step-in rights thereunder;
- (vii) Project Co has failed to comply with any written direction issued by or on behalf of Contracting Authority;
- (viii) Project Co has not caused the COR-Qualified Construction Project Co Party or the COR-Certified Construction Project Co Party, as the case may be, to perform its obligations with respect to its COR Certification or OHSAS 18001 Accreditation, as the case may be, in accordance with Section 9.6, or Project Co has not caused the COR-Qualified Construction Project Co Party or the COR-Certified Construction Project Co Party, as the case may be, to perform its obligations with respect to H&S Construction Inspections in accordance with Section 13(b), or to perform its obligations to rectify any non-compliance noted in any H&S Construction Inspection Report in accordance with Section 13(f); or
- (ix) Project Co has not caused the COR-Qualified Service Provider Project Co Party or the COR-Certified Service Provider Project Co Party, as the case may be, to perform its obligations with respect to its COR Certification in accordance with Section 9.6, or Project Co has not caused the COR-Qualified Service Provider Project Co Party or the COR-Certified Service Provider Project Co Party, as the case may be, to perform its obligations with respect to H&S Services Inspections in accordance with Section 13(b), or to perform its obligations to rectify any non-compliance noted in any H&S Services Inspection Report in accordance with Section 13(f).

32.2 Emergency

- (a) Notwithstanding that Project Co is not in breach of its obligations under this Project Agreement, Contracting Authority may exercise all of the rights set out in this Section 32 at any time and from time to time during the Operational Term if Contracting Authority, acting reasonably, considers the circumstances to constitute an Emergency.

32.3 Rectification

- (a) Without prejudice to Contracting Authority's rights under Section 45 and any other rights under this Project Agreement, in any of the circumstances set out in Sections 32.1 or 32.2, Contracting Authority may, by written Notice, require Project Co to take such steps as Contracting Authority, acting reasonably, considers necessary or expedient to mitigate, rectify or protect against such circumstance, including, if applicable, the termination and replacement of Subcontractors or a limited suspension of the performance of the Works, and Project Co shall use commercially

reasonable efforts to comply with Contracting Authority's requirements as soon as reasonably practicable.

- (b) If Contracting Authority gives Notice to Project Co pursuant to Section 32.3(a) and either:
- (i) Project Co does not either confirm, within five (5) Business Days of such Notice or such shorter period as is appropriate in the case of an Emergency or in the event Contracting Authority is entitled to exercise step-in rights under the Service Provider's Direct Agreement that it is willing to take the steps required in such Notice or present an alternative plan to Contracting Authority to mitigate, rectify and protect against such circumstances that Contracting Authority may accept or reject acting reasonably; or
 - (ii) Project Co fails to take the steps required in such Notice or accepted alternative plan within such time as set out in such Notice or accepted alternative plan or within such longer time as Contracting Authority, acting reasonably, shall think fit,

then Contracting Authority may take such steps as it considers to be appropriate, acting reasonably, including, if applicable, exercising step-in rights under the Service Provider's Direct Agreement and requiring the termination and replacement of Subcontractors, either itself or by engaging others (including a third party) to take any such steps, and may perform or obtain the performance of the relevant Project Co Services to the standards required by this Project Agreement, and the provisions of Section 42, including Section 42.1(a)(iv) and Section 42.1(a)(xiii), shall apply.

- (c) Notwithstanding the foregoing provisions of this Section 32.3, in the event of an Emergency, the Notice under Section 32.3(a) shall be given as promptly as possible having regard to the nature of the Emergency and Contracting Authority may, prior to Project Co's confirmation under Section 32.3(b)(i), take such steps as are appropriate having regard to the nature of the Emergency.
- (d) Where Contracting Authority considers it to be necessary to do so, the steps which Contracting Authority may take pursuant to this Section 32.3 subsequent to the provision of the Notice under Section 32.3(a) unless the Notice is given at a later time as provided in Section 32.3(c), may, at Contracting Authority's option, include the partial or total suspension of Project Co's right and obligation to perform any Project Co Services having regard to the circumstances in question (without any extension of the Project Term or suspension of any other Project Co Services), and the provisions of Section 42, including Section 42.1(a)(iv) and Section 42.2, shall apply, but such suspension shall be only for so long as, as applicable:
- (i) the circumstances referred to in Section 32.1 or 32.2 subsist; or
 - (ii) in respect of any such circumstances relating to Project Co's performance of the Project Co Services, until such time as Project Co shall have demonstrated to the reasonable satisfaction of Contracting Authority that, notwithstanding such circumstances, Project Co has taken such steps, including, if applicable, the termination and replacement of Subcontractors, as are required pursuant to this Section 32.3 and as are necessary to be capable of performing its obligations in respect of the relevant Project Co Services to the

required standard in accordance with this Project Agreement, and thereafter Project Co shall perform its obligations as aforesaid.

32.4 Costs and Expenses

- (a) Subject to Contracting Authority's obligations pursuant to Sections 32.5 and 32.6:
- (i) Project Co shall bear all costs and expenses incurred by Project Co in relation to the exercise of Contracting Authority's rights pursuant to this Section 32; and
 - (ii) Project Co shall reimburse Contracting Authority for all reasonable costs and expenses incurred by Contracting Authority in relation to the exercise of Contracting Authority's rights pursuant to this Section 32.

32.5 Reimbursement Events

- (a) In this Section 32.5, a "**Reimbursement Event**" means:
- (i) an act or omission of Project Co or any Project Co Party or a breach by Project Co or any Project Co Party of any obligation under this Project Agreement, but only to the extent such act, omission or breach is caused by Contracting Authority, a Province Person, South Civil Project Co, a South Civil Project Co Party, North Civil Project Co, a North Civil Project Co Party, a TOC Contractor or any TOC Contractor Party;
 - (ii) a labour dispute involving employees of any Province Person that materially affects or can reasonably be expected to materially affect the Project Operations; or
 - (iii) an Emergency, except to the extent that such Emergency is caused or contributed to by an act or omission of Project Co or any Project Co Party or a breach by Project Co or any Project Co Party of any obligation under this Project Agreement.
- (b) If Contracting Authority either takes steps itself or requires Project Co to take steps in accordance with this Section 32 as a result of a Reimbursement Event:
- (i) Contracting Authority shall reimburse Project Co for the reasonable costs and expenses incurred by Project Co in relation to the exercise of Contracting Authority's rights pursuant to this Section 32 that would not otherwise have been incurred by Project Co in the proper performance of its obligations under this Project Agreement; and
 - (ii) subject to Section 32.5(c), Contracting Authority shall bear all costs and expenses incurred by Contracting Authority in relation to the exercise of Contracting Authority's rights pursuant to this Section 32.
- (c) If, in exercising its rights pursuant to this Section 32, Contracting Authority performs any part of the Project Co Services either itself or by engaging others, Contracting Authority shall be entitled to deduct from any Monthly Service Payment the reasonable cost of performing such Project Co

Services. If Contracting Authority makes such a deduction, then Project Co shall be relieved of its reimbursement obligations under Section 32.4(a)(ii) up to the amount equal to the deduction.

32.6 Reimbursement if Improper Exercise of Rights

- (a) If Contracting Authority exercises its rights pursuant to this Section 32, but Contracting Authority was not entitled to do so, Contracting Authority shall reimburse Project Co for the reasonable costs and expenses directly incurred by Project Co over and above those that would otherwise have been incurred by Project Co in the proper performance of its obligations under this Project Agreement and that are directly and reasonably incurred by Project Co in complying with those written requirements of Contracting Authority issued as a result of Contracting Authority having exercised such rights.
- (b) Project Co acknowledges and agrees that Project Co has no right to require a determination of whether or not Contracting Authority is entitled to exercise its rights pursuant to this Section 32 before taking any such action that Contracting Authority may require and Project Co shall comply with all of Contracting Authority's requirements. Only concurrently with or after complying with Contracting Authority's requirements shall Project Co be entitled to refer any Dispute for resolution in accordance with Schedule 27 – Dispute Resolution Procedure.

33. CARS

33.1 General Requirements

- (a) Project Co and Contracting Authority shall comply with the provisions of Schedule 38 – Cars.

34. PAYMENT

34.1 Payments During the Construction Period

- (a) Contracting Authority shall pay to Project Co the Milestone Payments, plus, for clarity, applicable HST in accordance with Section 34A.
- (b) Contracting Authority shall pay to Project Co the Substantial Completion Payment (i) plus, for clarity, applicable HST, and (ii) minus any Property Access Closure Adjustment on the Substantial Completion Payment Date in accordance with Schedule 19 – Liquidated Damages and Construction Enforcement Regime and this Project Agreement.
- (c) Contracting Authority and Project Co each acknowledge and agree that the purpose of the Milestone Payments and the Substantial Completion Payment is to assist Project Co with costs of construction incurred by Project Co in respect of the Ontario Line Subway and the New Third Party Infrastructure.
- (d) Contracting Authority shall pay to Project Co any amount it is obligated to pay in accordance with Schedule 47 – Price Adjustment Procedure in the amounts and in the manner set out therein.
- (e) Details of payment procedures are set out in Schedule 21 – Construction Payment Procedures.

34.2 Monthly Service Payments

- (a) Subject to and in accordance with this Project Agreement, including this Section 34.2(a) and Schedule 20 – Payment Mechanism, Contracting Authority shall pay to Project Co the Monthly Service Payments, plus, for clarity, any applicable HST.

34.3 Payment Adjustments

- (a) Project Co acknowledges and agrees that:
 - (i) the amount of any Monthly Service Payment may be adjusted pursuant to Schedule 20 – Payment Mechanism; and
 - (ii) such adjustments are integral to the provisions of this Project Agreement.
- (b) If, for any reason, any adjustment (including a Deduction) made pursuant to Schedule 20 – Payment Mechanism is invalid and unenforceable, and an Applicable Law that is a Change in Law is enacted that permits Contracting Authority to recover or to cause such adjustment to be enforceable, such Change in Law (only to the extent that it permits Contracting Authority to recover or to cause such adjustment to be enforceable) shall be deemed to not be a Relevant Change in Law and Project Co shall not be entitled to any compensation hereunder for such Change in Law.

34.4 Payment Commencement

- (a) Subject to and in accordance with this Project Agreement, Contracting Authority shall pay Project Co the Monthly Service Payments calculated as being due to Project Co in respect of each Payment Period following the Payment Commencement Date in accordance with Schedule 20 – Payment Mechanism.
- (b) Project Co shall not be entitled to any Monthly Service Payments for any period prior to the Payment Commencement Date.

34.5 Adjustments to Payment Periods

- (a) The Monthly Service Payment payable in respect of each of the first Contract Month and the last Contract Month shall be adjusted in accordance with Schedule 20 – Payment Mechanism.

34.6 Invoicing and Payment Arrangements

- (a) Within five (5) Business Days following the end of each Payment Period, Project Co shall issue to Contracting Authority an invoice for the amount of the Monthly Service Payment owing by Contracting Authority to Project Co for such Payment Period, with such adjustments as provided in the Payment Adjustment Report issued in the previous Payment Period.

- (b) Project Co shall comply with all requirements of Schedule 20 – Payment Mechanism in respect of invoices and shall include with each invoice such supporting documentation as Contracting Authority may reasonably require in connection with payments hereunder.
- (c) Each invoice shall be in a form agreed by the Parties, acting reasonably, and shall include as a minimum:
 - (i) the Monthly Service Payment payable in respect of the applicable Payment Period;
 - (ii) any adjustments set out in the Payment Adjustment Report issued in the previous Payment Period;
 - (iii) any other adjustments to reflect overpayments and underpayments, as agreed between the Parties or determined in accordance with Schedule 27 – Dispute Resolution Procedure;
 - (iv) any amount owing to Contracting Authority under this Project Agreement;
 - (v) any amount owing to Project Co under this Project Agreement;
 - (vi) the net amount owing by Contracting Authority to Project Co, or by Project Co to Contracting Authority, as applicable; and
 - (vii) a statutory declaration in form and in substance satisfactory to Contracting Authority with respect to *Construction Act* (Ontario) compliance and payment to all lien claimants:
 - (A) from Project Co, and
 - (B) upon request by Contracting Authority, from any Project Co Party.
- (d) Each monthly invoice delivered during the period from the Substantial Completion Date until sixty (60) days following the Final Completion Date shall include up-to-date copies of the parcel registers for the Lands.
- (e) HST shall be shown separately on all invoices from Project Co, together with Project Co's HST registration number.
- (f) Upon agreement of the Parties, the form of invoice may be changed from time to time.
- (g) The Contracting Authority Representative shall review each invoice submitted in accordance with this Section 34.6. Contracting Authority shall pay the amount stated in such invoice on the first Business Day of the Payment Period next following the Payment Period in which the invoice is received. Any such payment shall be subject to adjustment pursuant to Section 34.6(j).
- (h) Contracting Authority shall not be obligated to make any payment to Project Co unless all conditions precedent applicable to such payment under this Project Agreement have been satisfied by Project Co. Further, Contracting Authority shall not be obligated to pay an invoice delivered by Project Co after the second Payment Period following the Payment Commencement Date until Project Co has delivered the Monthly Performance Monitoring Report and the Payment

Adjustment Report referred to in Section 34.6(i) for the previous Payment Period. In the event that Project Co delivers any Monthly Performance Monitoring Report or Payment Adjustment Report later than the stipulated date in Section 34.6(i), Contracting Authority's obligation to pay the invoice issued by Project Co for the immediately following Payment Period shall be extended by the number of days by which Project Co was late in delivering the applicable Monthly Performance Monitoring Report or Payment Adjustment Report to Contracting Authority.

- (i) Within five (5) Business Days following the end of each Payment Period, Project Co shall submit to Contracting Authority:
 - (i) a Monthly Performance Monitoring Report in respect of the Payment Period just ended (as further described in Schedule 11 – Quality Management), which, without limiting any provision of this Project Agreement, shall be the primary source of the factual information regarding the performance of the Project Co Services during such Payment Period used to calculate the relevant Monthly Service Payment and the number of Failure Points awarded to Project Co pursuant to Schedule 20 – Payment Mechanism; and
 - (ii) a report (a “**Payment Adjustment Report**”) setting out any adjustments required between the actual Monthly Service Payments determined by Project Co to be owing by Contracting Authority to Project Co in respect of the Payment Period just ended and the amount that was paid by Contracting Authority during such Payment Period, including details of:
 - (A) all Deductions in relation to Availability Failures;
 - (B) all Deductions in relation to Performance Failures;
 - (C) all Deductions in relation to Heavy Civil Failures;
 - (D) all Deductions in relation to Energy Failures; and
 - (E) all Deductions in relation to Initial Traction Power Performance Test Failures and Traction Power Performance Test Failures.
- (j) No later than three-hundred and sixty-five (365) days prior to the Scheduled Substantial Completion Date, the Parties shall, acting reasonably, agree to the form of Monthly Performance Monitoring Report and the form of Payment Adjustment Report to be used during the Operational Term, which forms, for greater certainty, shall, at a minimum, reflect and satisfy all of the applicable requirements of this Project Agreement. If the Parties fail to agree to such forms by such date, then either Party may at any time refer such matter for resolution in accordance with Schedule 27 – Dispute Resolution Procedure. Upon agreement of the Parties, acting reasonably, the form of Monthly Performance Monitoring Report and the form of Payment Adjustment Report may be changed from time to time.
- (k) Contracting Authority shall review each Monthly Performance Monitoring Report and Payment Adjustment Report submitted by Project Co pursuant to Section 34.6(i) within five (5) Business Days of Contracting Authority's receipt of such Monthly Performance Monitoring Report or

Payment Adjustment Report, as applicable, provided that no review by Contracting Authority of a Monthly Performance Monitoring Report or a Payment Adjustment Report shall constitute acceptance or approval by Contracting Authority of such Monthly Performance Monitoring Report or Payment Adjustment Report. Subject to Section 34.9 and Part J (*Monitoring and Reporting*) of Schedule 20 – Payment Mechanism, the adjustments set out in a Payment Adjustment Report shall be reflected by Project Co in the Monthly Service Payment invoice next issued by Project Co.

- (l) Project Co shall (i) include with each Monthly Performance Monitoring Report and Payment Adjustment Report submitted by Project Co pursuant to Section 34.6(i) such supporting documentation as is reasonably required to substantiate and confirm the contents of such Monthly Performance Monitoring Report or Payment Adjustment Report (including the adjustments set out in each Payment Adjustment Report); and (ii), upon the request of Contracting Authority from time to time, provide to Contracting Authority additional supporting documentation that Contracting Authority reasonably considers is necessary to substantiate and confirm the contents of a Monthly Performance Monitoring Report or Payment Adjustment Report.

34.7 Electronic Invoicing

- (a) Project Co shall cooperate with the reasonable requirements of Contracting Authority, and shall submit its invoices and all other documentation relating to this Project Agreement in a form and with the structure and content as is reasonably required to be compatible with Contracting Authority's information systems.

34.8 Final Payment Periods

- (a) At the beginning of each of the final three Payment Periods immediately prior to the Expiry Date, Contracting Authority shall estimate, acting reasonably, the adjustments to the Monthly Service Payments for each such Payment Period. Contracting Authority may withhold the amounts that it has reasonably estimated for such adjustments from amounts paid to Project Co during each of the final three Payment Periods.
- (b) Within ten (10) Business Days of receipt by Contracting Authority of the applicable Payment Adjustment Report for each of the final three Payment Periods, the Contracting Authority Representative shall either:
 - (i) review the Payment Adjustment Report and perform a reconciliation between the amount payable based on such Payment Adjustment Report and the amount Contracting Authority previously paid in respect of the applicable Payment Period. Based on such reconciliation, either Contracting Authority or Project Co shall pay to the other Party the amount properly owing in accordance with such reconciliation; or
 - (ii) if Contracting Authority disputes Project Co's entitlement to any part of the amounts set out therein, notify Project Co in writing of that part of the amounts (insofar as at the time of such Notice Contracting Authority is reasonably able to quantify it) which Contracting Authority disputes and submits to Project Co such supporting documentation as is reasonably required to substantiate and confirm such claim. In such event, the

Contracting Authority Representative shall perform a reconciliation between the undisputed amount payable based on such Payment Adjustment Report and the amount Contracting Authority previously paid in respect of the applicable Payment Period. Based on such reconciliation, either Contracting Authority or Project Co shall pay to the other Party the amount properly owing in accordance with such reconciliation, provided that Contracting Authority shall withhold payment of any disputed amount pending agreement or determination of Project Co's entitlement to the disputed amount in accordance with Section 34.9.

34.9 Monthly Performance Monitoring Report and Payment Adjustment Report Disputes

- (a) In the event that Contracting Authority, acting in good faith, disputes all or any part of a Monthly Performance Monitoring Report, then, unless the Parties otherwise agree, Project Co and Contracting Authority shall use commercially reasonable efforts to agree to the necessary amendments to such Monthly Performance Monitoring Report as soon as possible, provided that either Party may at any time refer the matter for resolution in accordance with Schedule 27 – Dispute Resolution Procedure.
- (b) In the event that Contracting Authority, acting in good faith, disputes all or any part of a Payment Adjustment Report or the Monthly Service Payment payable thereunder, Contracting Authority shall (i) notify Project Co in writing of that part of the amounts (insofar as at the time of such Notice Contracting Authority is reasonably able to quantify it) which Contracting Authority disputes and submit to Project Co such supporting documentation as is reasonably required to substantiate and confirm such claim; and (ii) withhold payment (by issuance of a Notice of Non-Payment) of any disputed amount pending agreement or determination of Project Co's entitlement to the disputed amount. Unless the Parties otherwise agree, the Parties shall use commercially reasonable efforts to resolve the dispute in question as soon as possible, provided that either Party may at any time refer such dispute for resolution in accordance with Schedule 27 – Dispute Resolution Procedure. Following resolution of the dispute, any amount which has been paid by Contracting Authority that is determined not to have been payable shall be paid forthwith by Project Co to Contracting Authority, and Project Co shall indemnify and hold harmless Contracting Authority from and against any damages suffered or incurred resulting from such overpayment by Contracting Authority as provided for at Section 56.1(e) on the basis that the due date was the date of the overpayment by Contracting Authority. Following resolution of the dispute, any amount that has been withheld or set off by Contracting Authority that is determined to have been payable shall be paid forthwith by Contracting Authority to Project Co and Contracting Authority shall indemnify and hold harmless Project Co from and against any damages suffered or incurred resulting from such withholding or set off by Contracting Authority as provided for at Section 56.2(c) on the basis that the due date was the date upon which such amount became payable to Project Co.

34.10 Payments

- (a) Unless specific timeframes are stipulated for payment of any amounts owing or payable by one Party to the other Party under this Project Agreement, such amounts shall be due within the time period prescribed by the *Construction Act* following receipt or deemed receipt of an invoice therefor.

- (b) Project Co shall maintain or cause to be maintained all holdbacks required pursuant to the *Construction Act* (Ontario) and shall only release holdbacks on being satisfied that no claims for lien can be claimed in respect of the Subcontracts for which holdbacks are to be released.

34.11 Manner of Payment

- (a) All payments under this Project Agreement shall be made in Canadian dollars and shall be electronically transferred, quoting the invoice number or description against which payment is made, in immediately available funds on the due date to a single bank account located in Canada as may be designated by the recipient from time to time (subject to the provisions of the Lenders' Direct Agreement) by written Notice to the other Party.
- (b) If an invoice is received by Contracting Authority after 5:00 PM on a Business Day or at any time on a non-Business Day, the invoice shall be deemed to be received by Contracting Authority on the following Business Day. If the due date is not a Business Day, then the electronic transfer shall be made on the Business Day immediately succeeding such day.

34.12 Set-Off

- (a) The Parties agree that their rights of set-off at law or in equity are limited to the right of:
 - (i) Contracting Authority to set off against any amounts otherwise due to Project Co pursuant to the terms of this Project Agreement (other than any Milestone Payments), any amounts (including any amounts payable in accordance with Section 56 or any amounts payable as liquidated damages pursuant to Schedule 19 – Liquidated Damages and Construction Enforcement Regime) that
 - (A) are due to Contracting Authority by Project Co pursuant to the terms of this Project Agreement; or
 - (B) are being disputed in accordance with Schedule 27 – Dispute Resolution Procedure; and
 - (ii) Project Co to set off against any amounts otherwise due to Contracting Authority pursuant to the terms of this Project Agreement, any amounts (including any amounts payable in accordance with Section 56) that
 - (A) are due to Project Co by Contracting Authority pursuant to the terms of this Project Agreement; or
 - (B) are being disputed in accordance with Schedule 27 – Dispute Resolution Procedure.

34.13 Effect of Payment

- (a) No payment hereunder shall be construed as an acceptance or approval of incomplete, defective or improper performance by Project Co of any of its obligations under this Project Agreement,

nor shall it operate to relieve Project Co from the performance of any of its obligations under this Project Agreement which have not been performed.

34.14 Audit of Performance and Payment

- (a) Without limiting Contracting Authority's rights and Project Co's obligations pursuant to Section 37.2, and subject to Part J (*Monitoring and Reporting*) of Schedule 20 – Payment Mechanism, at any time and from time to time until three-hundred and sixty-five (365) days after the Termination Date, Contracting Authority may give Notice to Project Co requiring an audit of any matter relating to performance of the Project Operations and payments by or to Contracting Authority within the seven (7) year period prior to the date of such Notice, including any Monthly Performance Monitoring Reports, Payment Adjustment Reports, and any other records, reports, information, documents or data relating to performance and payments to verify their accuracy, correctness and completeness.
- (b) Contracting Authority shall appoint an auditor to perform and complete such audit at Contracting Authority's cost and expense and pursuant to terms of reference determined by Contracting Authority.
- (c) Within a reasonable time following receipt of a Notice referred to in Section 34.14(a), Project Co shall make available to Contracting Authority's auditor, any Monthly Performance Monitoring Reports, Payment Adjustment Reports, and any other records, reports, information, documents or data relating to performance and payments.
- (d) Contracting Authority shall notify Project Co of the results of the audit, and if Contracting Authority's auditor discovers any inaccuracy, incorrectness or incompleteness, then, subject to Project Co's right to dispute the same in accordance with Schedule 27 – Dispute Resolution Procedure:
 - (i) Project Co shall:
 - (A) remedy any such inaccuracy, incorrectness or incompleteness and issue a revision to the applicable Monthly Performance Monitoring Report, Payment Adjustment Report or other record, report, information, document or data; and
 - (B) where the inaccuracy, incompleteness or incorrectness has resulted in any material overpayment by Contracting Authority, reimburse Contracting Authority for all costs relating to the auditor and audit to a maximum amount that is the lesser of:
 - (I) the actual costs relating to the auditor and audit; or
 - (II) an amount equal to the amount of any overpayment;
 - (ii) where the inaccuracy, incompleteness or incorrectness has resulted in any overpayment, whether or not material, by Contracting Authority, Project Co shall reimburse Contracting Authority for the amount of such overpayment and, further, shall indemnify

and hold harmless Contracting Authority from and against any damages suffered or incurred resulting from such overpayment by Contracting Authority as provided for at Section 56.1(e) on the basis that the due date was the date of the overpayment by Contracting Authority; and

- (iii) where the inaccuracy, incompleteness or incorrectness has resulted in any underpayment by Contracting Authority, whether or not material, Contracting Authority shall pay Project Co the amount of such underpayment and, further, shall indemnify and hold harmless Project Co from and against any damages suffered or incurred resulting from such underpayment by Contracting Authority as provided for at Section 56.2(c) on the basis that the due date was the date of the underpayment by Contracting Authority.

34.15 No Other Entitlement

- (a) Project Co shall not be entitled to any payments, compensation, rights, remedies, benefits or entitlements under or in connection with this Project Agreement, except as specifically and expressly set out in this Project Agreement.

34A. MILESTONE PAYMENTS

(a) Milestone Payment Completion Countdown Notice

- (i) For each of the First Milestone Payment, Second Milestone Payment, Third Milestone Payment and Fourth Milestone Payment, Project Co shall deliver a notice (the “**Milestone Payment Completion Countdown Notice**”) to Contracting Authority and the Independent Certifier specifying the date on which Project Co anticipates the applicable requirements for Milestone Payment Completion shall be satisfied (the “**Anticipated Milestone Payment Completion Date**”).
- (ii) Each Milestone Payment Completion Countdown Notice shall be delivered no later than ninety (90) days prior to the applicable Scheduled Milestone Payment Completion Date. If Project Co fails to deliver a Milestone Payment Completion Countdown Notice not less than ninety (90) days prior to the Scheduled First Milestone Payment Completion Date, the Scheduled Second Milestone Payment Completion Date, the Scheduled Third Milestone Payment Completion Date or the Scheduled Fourth Milestone Payment Completion Date, the applicable Anticipated Milestone Payment Completion Date shall be deemed to be the same date as the Scheduled First Milestone Payment Completion Date, the Scheduled Second Milestone Payment Completion Date, the Scheduled Third Milestone Payment Completion Date or the Scheduled Fourth Milestone Payment Completion Date, as applicable.
- (iii) Project Co acknowledges and agrees that Contracting Authority requires a minimum of ninety (90) days’ notice prior to each applicable Anticipated Milestone Payment Completion Date.

(b) Certification of Milestone Payments

- (i) Project Co shall give Contracting Authority and the Independent Certifier at least ten (10) Business Days' notice prior to the date upon which Project Co anticipates the applicable requirements for Milestone Payment Completion shall be satisfied.
- (ii) Project Co shall give Contracting Authority and the Independent Certifier notice (the "**Milestone Payment Completion Notice**"), upon the satisfaction of the applicable requirements for Milestone Payment Completion which shall:
 - (A) describe, in reasonable detail, the satisfaction of requirements for Milestone Payment Completion, together with Project Co's opinion as to whether the conditions for Milestone Payment Completion have been satisfied;
 - (B) in the case of Debt Financing, evidence that Private Capital Invested amounts have been drawn, advanced, paid, funded or released, as the case may be, to Project Co. Acceptable evidence would include wire transfer statements, bank statements or any other acceptable form of certification or document that is agreed among Contracting Authority, Project Co and the Independent Certifier in writing;
 - (C) in the case of Equity Capital, evidence that Private Capital Invested amounts have been advanced, paid, funded or released, as the case may be, to Project Co for each Milestone Payment, as applicable. Acceptable evidence would include advances, releases, transfer of funds or payments to Project Co together with a certification of an officer of Project Co certifying that Project Co has received the same amount in cash; and
 - (D) include all construction progress reports relating to the applicable requirements for Milestone Payment Completion for the First Milestone Payment, the Second Milestone Payment, the Third Milestone Payment and the Fourth Milestone Payment, as applicable, certified by the Lenders' Consultant.
- (iii) Project Co shall, and shall cause the Lenders' Consultant to, co-operate with the Independent Certifier to permit the Independent Certifier to verify the Lenders' Consultant's construction progress reports.
- (iv) Contracting Authority shall, within seven (7) days after receipt of each Milestone Payment Completion Notice, provide Project Co and the Independent Certifier with Contracting Authority's opinion as to whether Project Co has satisfied the applicable requirement for Milestone Payment Completion for the First Milestone Payment, the Second Milestone Payment, the Third Milestone Payment or the Fourth Milestone Payment, as applicable, and, if applicable, any reasons as to why it considered that Project Co has not satisfied the applicable requirements for Milestone Payment Completion for the First Milestone Payment, the Second Milestone Payment, the Third Milestone Payment or the Fourth Milestone Payment, as applicable.
- (v) Within seven (7) days after Project Co's receipt of Contracting Authority's opinion pursuant to Section 34A(b)(iv), the Parties shall cause the Independent Certifier to

determine whether the applicable requirements for Milestone Payment Completion for the First Milestone Payment, the Second Milestone Payment, the Third Milestone Payment or the Fourth Milestone Payment, as applicable, have been met, having regard to the opinions of both Project Co and Contracting Authority, and to issue to Contracting Authority and Project Co either:

- (A) a notice that the requirements for Milestone Payment Completion for the First Milestone Payment, the Second Milestone Payment, the Third Milestone Payment or the Fourth Milestone Payment, as applicable, have been met (the **“First Milestone Payment Completion Date”**, the **“Second Milestone Payment Completion Date”**, the **“Third Milestone Payment Completion Date”** or the **“Fourth Milestone Payment Completion Date”**, as applicable); or
 - (B) a report setting out the percentage of the Funded Capital Costs that the Independent Certifier considers remains to be completed in order to satisfy the applicable requirements for Milestone Payment Completion for the First Milestone Payment, the Second Milestone Payment, the Third Milestone Payment or the Fourth Milestone Payment, as applicable.
- (vi) Where the Independent Certifier has issued a report in accordance with Section 34A(b)(v)(B), Project Co shall, within five (5) Business Days after receipt of such report, provide the Independent Certifier and Contracting Authority with a letter which acknowledges the percentage of the Funded Capital Costs that remains to be completed (as set out in the Independent Certifier’s report) to achieve the applicable requirements for Milestone Payment Completion and includes a schedule for completing such Work as it relates to the percentage of the Funded Capital Costs that remains to be completed. Upon completion thereof, Project Co may give a further Milestone Payment Completion Notice and then Sections 34A(b)(iv) to 34A(b)(vi), inclusive, shall be repeated until the Independent Certifier issues a notice pursuant to Section 34A(b)(v)(A).
- (vii) The Independent Certifier’s decision to issue or not issue a notice that the requirements for Milestone Payment Completion for the First Milestone Payment, the Second Milestone Payment, the Third Milestone Payment or the Fourth Milestone Payment, as applicable, have been met shall be final and binding on the Parties solely in respect of determining the applicable Milestone Payment Completion Date and no Dispute in relation to a Milestone Payment Completion Date shall be subject to resolution pursuant to Schedule 27 – Dispute Resolution Procedure.
- (viii) Where the Independent Certifier has issued a notice in accordance with Section 34A(b)(v)(A), Contracting Authority shall make the First Milestone Payment, the Second Milestone Payment, the Third Milestone Payment or the Fourth Milestone Payment on the applicable Milestone Payment Date.

35. TAXES

35.1 Taxes

- (a) All amounts specified in this Project Agreement are expressed exclusive of HST, but inclusive of all other Taxes payable pursuant to Applicable Law. If Project Co is required by Applicable Law to collect any such HST from Contracting Authority, Contracting Authority shall pay such HST to Project Co simultaneously with the amount to which such applicable HST relates or applies. If Contracting Authority is required by Applicable Law to collect any such HST from Project Co, Project Co shall pay such HST to Contracting Authority simultaneously with the amount of consideration to which such applicable HST relates or applies.
- (b) Contracting Authority shall pay, when due and payable, all property taxes or payments in lieu of property taxes that are assessed in respect of ownership or use of the Metrolinx Lands, the Ontario Line Subway or the New Third Party Infrastructure.
- (c) The Parties agree that the conditions set out in paragraph 168(3)(c) of the *Excise Tax Act* (Canada) are not satisfied at the time of Substantial Completion hereunder and, unless otherwise required by Applicable Law, any HST payable by Contracting Authority hereunder shall be calculated solely by reference to the amount of the payment, without any deductions or adjustments on account of paragraph 168(3)(c) of the *Excise Tax Act* (Canada).
- (d) Contracting Authority shall not be required to pay any interest and/or penalties that are imposed on or assessed against Project Co or any Project Co Party for non-compliance with Applicable Law.
- (e) If the Canada Revenue Agency, or the Parties, acting reasonably, determine that section 182 of the *Excise Tax Act* (Canada) applies to a payment, or a portion of a payment, made by either Contracting Authority or Project Co: (i) the payor of such a payment or such portion of a payment shall pay such additional amounts as may be necessary in order that the net amount that the payee receives will equal the amount that the payee would have received if section 182 of the *Excise Tax Act* (Canada) had not applied to such payment or such portion of a payment; and (ii) each of Contracting Authority and Project Co shall complete their respective HST returns for the applicable period on the basis that section 182 of the *Excise Tax Act* (Canada) applied to such payment or such portion of a payment.

35.2 Changes in Scope of Taxation

- (a) If, as a result of a Change in Law, the application of Taxes under Part IX of the *Excise Tax Act* (Canada) or any provincial sales tax legislation changes with respect to the provision of any property or services by Project Co in connection with the performance of the Works, Contracting Authority and Project Co agree to cooperate to determine how such change affects their respective obligations under this Project Agreement to the extent not already addressed in this Project Agreement.

35.3 Changes in Recoverability of Tax Credits

- (a) Contracting Authority will pay to Project Co from time to time, as the same is incurred by Project Co, amounts equal to any Irrecoverable Tax to the extent such Irrecoverable Tax results from a Change in Law. Project Co will pay to Contracting Authority from time to time, as the same is incurred by Project Co, amounts equal to any Recoverable Tax to the extent such Recoverable Tax results from a Change in Law.
- (b) For the purposes of this Section 35.3, the term “**Irrecoverable Tax**” means HST or an irrecoverable sales tax levied by the Province in lieu of all or a portion of HST incurred by Project Co in respect of the supply of any property or service to Contracting Authority which is consumed, used or supplied, or to be consumed, used or supplied, exclusively by Project Co in the course of carrying out the Works or otherwise performing the Project Operations to the extent that Project Co is unable to recover or be credited with input tax credits, refunds, rebates or exemptions for such HST.
- (c) For the purposes of this Section 35.3, the term “**Recoverable Tax**” means HST incurred by Project Co in respect of the supply of any property or service to Contracting Authority which is consumed, used or supplied, or to be consumed, used or supplied, exclusively by Project Co in the course of carrying out the Works or otherwise performing the Project Operations to the extent that Project Co is able to recover or be credited with input tax credits, refunds, rebates or exemptions for such HST.

35.4 Information and Assistance Provided by Project Co

- (a) Project Co shall, at Contracting Authority’s request and cost, assist Contracting Authority in applying for and obtaining all remissions and credits of Taxes to which Contracting Authority is entitled.
- (b) Contracting Authority may apply for a global or general exemption, waiver, remission, or refund of some or all Taxes which may otherwise be applicable in relation to this Project Agreement. Project Co shall, at Contracting Authority’s cost, assist Contracting Authority in making any applications for such global or general exemption, waiver, remission or refund and shall provide Contracting Authority with such documentation as Contracting Authority may reasonably require to support such application and, in any event, shall provide such consent as Contracting Authority may require. Any exemption, waiver, remission, refund or other recovery of Taxes obtained by Contracting Authority through such application shall accrue to the sole benefit of Contracting Authority.
- (c) Project Co will provide Contracting Authority with any information reasonably requested by Contracting Authority from time to time in relation to any Taxes chargeable in accordance with this Project Agreement and payable by Contracting Authority to Project Co from time to time.

35.5 Residency – *Income Tax Act* (Canada)

- (a) Project Co shall not undertake any action or transaction that, if undertaken, would cause or result in Project Co becoming a Non-Resident without Contracting Authority's prior written consent, which consent may be withheld in Contracting Authority's sole discretion.

35.6 Taxes – General

- (a) Project Co shall not, without the prior written consent of Contracting Authority (which consent may be withheld in its sole discretion), undertake any action or transaction that, if undertaken, would cause Contracting Authority or any Contracting Authority Party to have (or result in Contracting Authority or any Contracting Authority Party having) any obligation to deduct, withhold or remit any Taxes that are required by Applicable Law to be deducted, withheld or remitted from any amounts paid or credited to Project Co or any Project Co Party under this Project Agreement or under any other Project Document.

35.7 Taxes – Indemnity

- (a) If:
- (i) Project Co becomes a Non-Resident, or
 - (ii) Contracting Authority or any Contracting Authority Party is or becomes required by Applicable Law to deduct or withhold any amount in respect of Taxes on or in respect of any amounts paid or credited to Project Co or a Project Co Party by Contracting Authority or any Contracting Authority Party under this Project Agreement or under any of the Project Documents,

then Contracting Authority or any Contracting Authority Party shall be entitled to make any applicable deductions or withholdings required by Applicable Law from any amount paid or credited or to be paid or credited to Project Co or a Project Co Party on or after the date on which:

- (iii) Project Co or the Project Co Party becomes a Non-Resident and at all times while it remains a Non-Resident; or
- (iv) Contracting Authority or any Contracting Authority Party is required by Applicable Law to deduct or withhold amounts in respect of any such amounts,

in each case, in respect of all Taxes that are required by Applicable Law to be deducted or withheld from amounts paid or credited to a Non-Resident or otherwise as required by Applicable Law; and all amounts paid or credited by Contracting Authority or any Contracting Authority Party under this Project Agreement or under any other Project Document to Project Co or a Project Co Party shall be paid or credited net of such deductions or withholdings.

- (b) If:
- (i) Project Co becomes a Non-Resident, or

- (ii) Contracting Authority or any Contracting Authority Party is or becomes required by Applicable Law to deduct and withhold any amount in respect of Taxes on or in respect of any amounts paid or credited to Project Co or a Project Co Party by Contracting Authority or any Contracting Authority Party under this Project Agreement or under any of the Project Documents,

Project Co shall, in each case, indemnify and hold harmless Contracting Authority and the Contracting Authority Parties for:

- (iii) the full amount of all Taxes (“**Indemnifiable Taxes**”) that arise, are imposed on or are required to be paid by Contracting Authority or any Contracting Authority Party in respect of any amounts paid or credited by Contracting Authority or any Contracting Authority Party to Project Co or any Project Co Party under this Project Agreement or under any other Project Document as a result of either of the foregoing items less any amount withheld or deducted by Contracting Authority or any Contracting Authority Party in respect of such Taxes, and
- (iv) any liability payable or incurred in connection with Indemnifiable Taxes (including penalties, interest and reasonable expenses associated with Tax compliance, reporting and contesting such liability for Indemnifiable Taxes, including reasonable professional expenses payable or incurred in connection therewith) arising from or with respect to Indemnifiable Taxes, whether or not they were correctly or legally asserted (“**Associated Liabilities**”).

Payment under this indemnification shall be made within thirty (30) days from the date Contracting Authority makes written demand for it. A certificate containing reasonable detail as to the amount of Indemnifiable Taxes and Associated Liabilities submitted to Project Co by Contracting Authority shall be conclusive evidence, absent manifest error, of the amount due from Project Co to Contracting Authority. Contracting Authority shall be entitled to exercise its rights of set-off under Section 34.12 against any amounts owing under this indemnification.

36. FINANCIAL MODEL

36.1 Appointment of Custodian

- (a) On or prior to Financial Close, the Parties shall appoint a suitably qualified and experienced person to act as the Custodian for the purposes of this Project Agreement, and shall enter into the Custody Agreement.

36.2 Delivery and Use of Financial Model

- (a) Project Co shall deliver copies of the Financial Model to (i) Contracting Authority in accordance with Schedule 2 – Completion Documents, and (ii) the Custodian in accordance with the Custody Agreement, which shall be held by the Custodian on the terms and conditions set out in the Custody Agreement.

- (b) Following the approval by Contracting Authority of any amendment to the Financial Model, Project Co shall promptly deliver copies of the revised Financial Model, in the same form as the original Financial Model (or such other form as may be agreed by the Parties from time to time), to Contracting Authority and the Custodian.
- (c) The Parties shall instruct the Custodian to keep both a hard copy and an electronic copy of all versions of the Financial Model.
- (d) Project Co hereby grants to Contracting Authority an irrevocable, royalty free, perpetual, non-exclusive and transferable licence, including the right to grant sub-licences, to use the Financial Model or any revised Financial Model for any purpose in connection with this Project Agreement, whether during or after the Project Term.
- (e) For greater certainty, Project Co acknowledges and agrees that Contracting Authority shall not be liable to Project Co for, and Project Co shall not seek to recover from Contracting Authority or any Contracting Authority Party, any damages, losses, costs, liabilities or expenses which may arise (whether in contract, tort or otherwise) as a result of any errors in the Financial Model.

37. RECORDS, INFORMATION, AUDIT AND CLAIMS MANAGEMENT

37.1 Records Provisions

- (a) Project Co shall comply with Schedule 26 – Record Provisions.

37.2 Information and General Audit Rights

- (a) Project Co shall provide and shall cause each Subcontractor to provide to Contracting Authority all information, reports, documents, records and the like, including as referred to in Schedule 26 – Record Provisions, in the possession of, or available to, Project Co as Contracting Authority may reasonably require from time to time for any purpose in connection with this Project Agreement, other than, subject to Section 37.4, Sensitive Information. Project Co shall use commercially reasonable efforts to ensure that, for such purpose, all such information, reports, documents, records and the like in the possession of, or available to, the Contractors shall be available to Project Co and Project Co shall include relevant terms in all Subcontracts to this effect.
- (b) Project Co shall also provide to Contracting Authority, and shall require each Subcontractor, including the Contractors, to provide to Contracting Authority (at Contracting Authority's reasonable cost), all information, reports, documents, records and the like required to be provided pursuant to Section 37.2(a) which subsequently come into the possession of, or become available to, Project Co or each Subcontractor, as Contracting Authority may reasonably require from time to time to enable Contracting Authority to provide reports, notices, returns and the like pursuant to Applicable Law, including information and documentation pertaining to the physical condition of the Ontario Line Subway and the New Third Party Infrastructure, security, health and safety, fire safety, emergency preparedness, environmental matters, employees and human resources related matters, other than, subject to Section 37.4, Sensitive Information.

- (c) Project Co shall promptly after receipt provide Contracting Authority with a copy of any material notice, order, direction, requirement or other similar communication received by it or by any Subcontractor from any Governmental Authority in relation to any of the Project Operations or the Ontario Line Subway or the New Third Party Infrastructure, and Project Co shall include relevant terms in all Subcontracts to this effect.
- (d) Project Co shall promptly notify Contracting Authority of any actions, suits, proceedings, or investigations commenced, pending or threatened against Project Co or, to Project Co's knowledge, any Subcontractor at law or in equity before any Governmental Authority or arbitral body (whether or not covered by insurance) that individually or in the aggregate could result in any material adverse effect on the business, properties, or assets or the condition, financial or otherwise, of Project Co or in any impairment of its ability to perform its obligations under this Project Agreement.
- (e) All information, reports, documents and records in the possession of, or available to, Project Co, including as referred to in Schedule 26 – Record Provisions, which are required to be provided to or available to Contracting Authority hereunder, shall be subject and open to inspection and audit by Contracting Authority at any time and from time to time, which inspection and audit shall take place during normal business hours and at Project Co's normal places of business unless Contracting Authority and Project Co otherwise agree. Contracting Authority shall also have the right to monitor and audit the performance of any and all parts of the Project Operations wherever located, and Project Co shall cooperate with, and shall require each Subcontractor to cooperate with, and provide access to the representatives of Contracting Authority monitoring and auditing such parts of the Project Operations, including providing them with access and copies (at Contracting Authority's reasonable cost) of all relevant information, reports, documents and records pertaining to the performance of such parts of the Project Operations. Except as otherwise provided herein, all of Contracting Authority's costs for the inspections, audits and monitoring shall be borne by Contracting Authority.
- (f) In conducting an audit of Project Co under Section 37.2(e) or as otherwise provided under this Project Agreement, Contracting Authority shall have all rights necessary or incidental to conducting an audit, including the right to have access to and inspect and take copies (at Contracting Authority's reasonable cost) of all books and records of Project Co required to be provided to or available to Contracting Authority hereunder, upon reasonable Notice and at reasonable times. Project Co shall fully cooperate with Contracting Authority and its auditors in the conduct of any audits, including by making available all such records and accounts (other than Sensitive Information) in existence at that time as they may require to perform a full and detailed audit, and Project Co further agrees to promptly review and settle with Contracting Authority all matters arising from such audits, including the refunding of monies to Contracting Authority where applicable. At the reasonable request of Contracting Authority's auditors, Project Co shall provide such information, reports, documents and records as Contracting Authority's auditors may reasonably require, other than Sensitive Information.
- (g) Contracting Authority's rights pursuant to this Section 37.2 shall be in addition to, and shall not limit, any other audit, information, inspection or similar rights under this Project Agreement.

- (h) Contracting Authority's rights pursuant to this Section 37.2 shall not limit or restrict any Governmental Authority's right of review, audit, information or inspection under Applicable Law. Contracting Authority's right pursuant to this Section 37.2 may also be exercised by the Auditor General of Ontario, His Majesty the King in right of Canada and the Auditor General of Canada without the requirement for further action on the part of Contracting Authority.
- (i) Without limiting the generality of Section 37.2(a) and subject to Section 52.4, in the event that Contracting Authority is required to provide information, including financial information, in relation to the Project, to the Province for corporate or financial reporting purposes, Project Co shall provide such information to Contracting Authority as Contracting Authority may reasonably require in order to comply with its corporate or financial reporting obligations. Project Co acknowledges and agrees that such information may include Sensitive Information.

37.3 Delivery of Reports to Contracting Authority

- (a) During the Operational Term, in addition to Project Co's obligations pursuant to this Section 37, Project Co shall provide Contracting Authority with a copy of all reports required pursuant to the Project Agreement including the Monthly Performance Monitoring Report, the Energy Analysis Report, the Payment Adjustment Report, the Annual Insurance Report and any other reports which are required to be delivered to Contracting Authority pursuant to this Project Agreement and which are requested by Contracting Authority.

37.4 Right to Disclose Intellectual Property

- (a) Nothing in this Section 37 shall prevent Contracting Authority from exercising any right granted to Contracting Authority pursuant to Schedule 37 – Intellectual Property.
- (b) Notwithstanding any other provision of this Section 37, and subject to Section 52, Project Co shall provide all information, reports, documents, records and the like in the possession of, or available to Project Co or to any Subcontractor, including financial information in relation to or in respect of the Project to Contracting Authority as Contracting Authority may request or require in its sole discretion from time to time, for purposes not specific to the Project, but for other general governmental purposes, including such governmental purposes as:
 - (i) the development of Contracting Authority's alternate procurement and financing policies and framework; or
 - (ii) any procurement or tendering process to be carried out by Contracting Authority prior to the Termination Date with a view to entering into an agreement with a person(s) for one or more services, which services may be similar to any one or more of the Project Co Services.
- (c) Project Co acknowledges and agrees that any information, reports, documents, records and the like in the possession of, or available to Project Co or to any Subcontractor, including financial information in relation to or in respect of the Project provided by Project Co to Contracting Authority pursuant to this Section 37.4 may include Sensitive Information.

37.5 Claims Management

- (a) In addition to Project Co's obligations pursuant to Sections 37.2(d), 52.12, 54 and 56, Project Co shall promptly notify Contracting Authority of all actions, suits, proceedings, or investigations commenced, pending or threatened against Project Co or, to Project Co's knowledge, the Construction Contractor or the Service Provider by any third party (other than any Project Co Party) at law or in equity before any Governmental Authority or arbitral body (whether or not covered by insurance) (each, for the purposes of this Section 37.4, a "Public Claim") and shall provide Contracting Authority with details of the same.
- (b) Project Co may, at any time, propose a process for the timely and efficient exchange of the information required in Section 37.5(a) subject to Contracting Authority's approval, not to be unreasonably withheld.
- (c) Project Co shall, at all times, respond to any Public Claim in a timely manner and so as not to compromise (i) Contracting Authority's reputation or integrity, or (ii) the nature of the public transit system in the City of Toronto or the Province of Ontario, so as to affect public confidence in that system or the Project.
- (d) Contracting Authority may, at any time and in its sole discretion, upon written notice to Project Co, defend, dispute or otherwise take conduct of such Public Claim in the name of Project Co at Contracting Authority's own expense in which case Contracting Authority shall indemnify Project Co for all losses it may incur in connection with such Public Claim (except to the extent that such losses were caused by a breach of this Project Agreement by Project Co, including a breach of Section 37.5(c), above).
- (e) In the event Contracting Authority takes conduct of a Public Claim pursuant to this Section 37.5, Project Co shall give Contracting Authority all reasonable cooperation, access and assistance in respect of such Public Claim, and the provisions of Section 56.3 shall apply as if Project Co is the Beneficiary and Contracting Authority is the Indemnifier.

38. CHANGES IN LAW

38.1 Performance after Change in Law

- (a) Following any and all Changes in Law, Project Co shall perform the Project Operations in accordance with the terms of this Project Agreement, including in compliance with Applicable Law.

38.2 Works Change in Law

- (a) On the occurrence of a Works Change in Law:
 - (i) either Party may give Notice to the other of the need for a Variation as a result of such Works Change in Law;

- (ii) the Parties shall meet within ten (10) Business Days of such Notice to consult with respect to the effect of the Works Change in Law and to reach an agreement on whether a Variation is required as a result of such Works Change in Law, and, if the Parties have not, within ten (10) Business Days of this meeting, reached an agreement, either Party may refer the question of whether a Works Change in Law has occurred or the effect of any Works Change in Law for resolution in accordance with Schedule 27 – Dispute Resolution Procedure; and
- (iii) Contracting Authority shall, within ten (10) Business Days of agreement or determination that a Variation is required, issue a Variation Enquiry and the relevant provisions of Schedule 22 – Variation Procedure shall apply except that:
 - (A) Project Co may only object to any such Variation Enquiry on the grounds that the implementation of the Variation would not enable it to comply with the Works Change in Law;
 - (B) Project Co shall be responsible for obtaining all Project Co Permits, Licences, Approvals and Agreements required in respect of the Variation;
 - (C) Contracting Authority shall not be entitled to withdraw any such Variation Enquiry unless the Parties otherwise agree;
 - (D) Project Co shall proceed to implement the Variation within such period as will enable it to comply with the Works Change in Law as soon as reasonably practicable; and
 - (E) Project Co shall not be entitled to any payment or other compensation or relief from performance of its obligations under this Project Agreement in respect of any Works Change in Law or associated Variation other than as established pursuant to Schedule 22 – Variation Procedure.

38.3 Relevant Change in Law

- (a) On the occurrence of a Relevant Change in Law, either Party shall be entitled to seek compensation for any increase or decrease (as the case may be) in the net cost to Project Co of performing the Project Operations in accordance with Schedule 22 – Variation Procedure. Any such compensation shall be calculated in accordance with this Section 38.3.
- (b) On the occurrence of a Relevant Change in Law:
 - (i) either Party may give Notice to the other of the need for a Variation as a result of such Relevant Change in Law;
 - (ii) the Parties shall meet within ten (10) Business Days of such Notice to consult with respect to the effect of the Relevant Change in Law and to reach an agreement on whether a Variation is required as a result of such Relevant Change in Law, and, if the Parties have not, within ten (10) Business Days of this meeting, reached an agreement,

either Party may refer the question of whether a Relevant Change in Law has occurred or the effect of any Relevant Change in Law for resolution in accordance with Schedule 27 – Dispute Resolution Procedure; and

- (iii) Contracting Authority shall, within ten (10) Business Days of agreement or determination that a Variation is required, issue a Variation Enquiry and the relevant provisions of Schedule 22 – Variation Procedure shall apply except that:
- (A) Project Co may only object to any such Variation Enquiry on the grounds that the implementation of the Variation would not enable it to comply with the Relevant Change in Law;
 - (B) Project Co shall be responsible for obtaining all Development Approvals and Project Co Permits, Licences, Approvals and Agreements required in respect of the Variation;
 - (C) Contracting Authority shall not be entitled to withdraw any such Variation Enquiry unless the Parties otherwise agree;
 - (D) Project Co shall proceed to implement the Variation within such period as will enable it to comply with the Relevant Change in Law as soon as reasonably practicable;
 - (E) the Parties shall, without prejudice to their respective general obligations to comply with the terms of this Project Agreement:
 - (I) use commercially reasonable efforts to mitigate the adverse effects of any Relevant Change in Law and take commercially reasonable steps to minimize any increase in costs arising from such Relevant Change in Law; and
 - (II) use commercially reasonable efforts to take advantage of any positive or beneficial effects of any Relevant Change in Law and take commercially reasonable steps to maximize any reduction in costs arising from such Relevant Change in Law; and
 - (F) any entitlement to compensation payable shall be in accordance with this Section 38.3, and any calculation of compensation shall take into consideration, *inter alia*:
 - (I) any failure by a Party to comply with Section 38.3(b)(iii)(E);
 - (II) the extent to which a Party has been, or shall be, compensated in respect of such Relevant Change in Law as a result of any indexation or adjustment of the Monthly Service Payments under this Project Agreement;

- (III) any increase or decrease in its costs resulting from such Relevant Change in Law; and
 - (IV) any amount which Project Co recovers under any insurance policy (or would recover if it complied with its obligations to insure under this Project Agreement or the terms of any policy of insurance required under this Project Agreement) which amount, for greater certainty, shall not include the amount of any excess or deductibles or any amount above the maximum insured amount applicable to any such insurance policy.
- (c) Project Co shall not be entitled to any payment or compensation or, except as provided in Section 40 or otherwise in this Project Agreement, relief in respect of any Relevant Change in Law, or the consequences thereof, other than in accordance with this Section 38.3, and Section 41 shall be construed accordingly.
- (d) In relation to a Relevant Change in Law that results in a net increase or decrease in costs incurred by Project Co in delivery of the Project Operations, taking into consideration, *inter alia*, Section 38.3(b)(iii)(E), if the cost impact of such Relevant Change in Law in a given Contract Year (in aggregate with all other such Relevant Changes in Law that have a cost impact in the same Contract Year) amounts to less than \$[REDACTED] (index linked) in that Contract Year, neither Contracting Authority nor Project Co shall be entitled to any payment or compensation pursuant to this Section 38.3 or otherwise in respect of the cost impact of that Relevant Change in Law in that Contract Year or, except as provided in Section 40 or otherwise in this Project Agreement, any other relief in respect of such Relevant Change in Law in that Contract Year.

38.4 Pandemic and Epidemic Change in Law

- (a) Subject to Section 38.4(e) on the occurrence of a Pandemic and Epidemic Change in Law, either Party shall be entitled to seek compensation for any increase or decrease (as the case may be) in the net cost to Project Co of performing the Project Operations (“**Pandemic and Epidemic Change in Law Compensation**”). Any such compensation shall be calculated in accordance with this Section 38.4.
- (b) On the occurrence of a Pandemic and Epidemic Change in Law:
- (i) either Party may give notice to the other of the need for a Variation as a result of such Pandemic and Epidemic Change in Law;
 - (ii) the Parties shall meet within ten (10) Business Days of such notice (or such longer period of time agreed to between the Parties, acting reasonably) to consult with respect to the effect of the Pandemic and Epidemic Change in Law and to reach an agreement on whether a Variation is required as a result of such Pandemic and Epidemic Change in Law, and, if the Parties have not, within ten (10) Business Days (or such longer period of time agreed to between the Parties, acting reasonably) of this meeting, reached an agreement, either Party may refer the question of whether a Pandemic and Epidemic Change in Law has occurred or the effect of any Pandemic and Epidemic Change in Law for resolution in accordance with Schedule 27 – Dispute Resolution Procedure; and

- (iii) Contracting Authority shall, within ten (10) Business Days (or such longer period of time agreed to between the Parties, acting reasonably) of agreement or determination that a Variation is required, issue a Variation Enquiry and the relevant provisions of Schedule 22 – Variation Procedure shall apply except that:
- (A) no profit shall be payable to Project Co, the Construction Contractor, the Service Provider, or any Subcontractor as Pandemic and Epidemic Change in Law Compensation and accordingly:
 - (I) any Pandemic and Epidemic Change in Law Compensation shall include Overhead calculated in accordance with Appendix C (*Calculation of Overhead For Purposes of Pandemic And Epidemic Change In Law Compensation*) to Schedule 22 – Variation Procedure; and
 - (II) Overhead and Profit pursuant to Appendix B (*Calculation of Overhead and Profit*) to Schedule 22 – Variation Procedure shall not apply;
 - (B) Project Co may only object to any such Variation Enquiry on the grounds that the implementation of the Variation would not enable it to comply with the Pandemic and Epidemic Change in Law;
 - (C) Contracting Authority shall not be entitled to withdraw any such Variation Enquiry unless the Parties otherwise agree;
 - (D) without limiting any requirement of this Project Agreement, including Schedule 22 – Variation Procedure, Project Co shall provide Contracting Authority with any evidence and proper documentation Contracting Authority may reasonably require in order to assess the reasonableness of the Pandemic and Epidemic Change in Law Compensation. The Parties agree that evidence and proper documentation shall include:
 - (I) proof of the Pandemic and Epidemic Change in Law;
 - (II) any proposed changes to the Critical Path of the Works or any proposed changes to the Project Co Services;
 - (III) detailed information quantifying the change in costs incurred or to be incurred by Project Co and its Subcontractors in performing the Project Operations related to the Pandemic and Epidemic Change in Law, including information on the financial impact of the Pandemic and Epidemic Change in Law on Project Co and its Subcontractors, invoices, proof of payments, and information setting out overhead, labour rates, unit rates, and other prices and quantities for materials, products, supplies, equipment, services, facilities and transportation and any other Direct Cost described in Appendix A (*Calculation of Direct Cost*) of Schedule 22 – Variation Procedure; and

- (IV) information confirming any amounts described in Section 38.4(b)(iii)(G)(III) received or that will or are likely to be received by Project Co and its Subcontractors.
- (E) Project Co shall proceed to implement the Variation within such period as will enable it to comply with the Pandemic and Epidemic Change in Law as soon as reasonably practicable;
- (F) the Parties shall, without prejudice to their respective general obligations to comply with the terms of this Project Agreement:
 - (I) use commercially reasonable efforts to mitigate the adverse effects of any Pandemic and Epidemic Change in Law and take commercially reasonable steps to minimize any increase in costs arising from such Pandemic and Epidemic Change in Law; and
 - (II) use commercially reasonable efforts to take advantage of any positive or beneficial effects of any Pandemic and Epidemic Change in Law and take commercially reasonable steps to maximize any reduction in costs arising from such Pandemic and Epidemic Change in Law;
- (G) any entitlement to Pandemic and Epidemic Change in Law Compensation payable shall be in accordance with this Section 38.4, and any calculation of such compensation shall take into consideration, *inter alia*:
 - (I) any failure by a Party to comply with Section 38.4(b)(iii)(D) or Section 38.4(b)(iii)(F);
 - (II) any increase or decrease in its costs resulting from such Pandemic and Epidemic Change in Law; and
 - (III) any amount which Project Co or a Subcontractor:
 - 1) recovers under any insurance policy (or would recover if it complied with its obligations to insure under this Project Agreement or the terms of any policy of insurance required under this Project Agreement), which amount, for greater certainty, shall not include the amount of any excess or deductibles or any amount above the maximum insured amount applicable to any such insurance policy; or
 - 2) receives as financial relief or support from a Governmental Authority; and
- (H) with respect to a Pandemic and Epidemic Change in Law during the Operational Term, Project Co shall not receive any compensation:

- (I) for any costs related to a change in the number of Scheduled Trips other than as provided for in Schedule 20 – Payment Mechanism, provided that Contracting Authority changed the number of Scheduled Trips in accordance with the Booking Process; or
 - (II) for any Deductions applied under Schedule 20 – Payment Mechanism for failing to meet any applicable performance standards.
- (c) Notwithstanding Section 38.4(b), in the event a Pandemic and Epidemic Change in Law occurs more than six (6) months prior to the Scheduled Substantial Completion Date, Contracting Authority shall issue a Variation Enquiry in respect of the Works only, in accordance with Section 38.4(b)(iii) upon the determination that a Variation is required with respect to such Pandemic and Epidemic Change in Law, and shall issue a separate Variation Enquiry with respect to such Pandemic and Epidemic Change in Law in respect of the Project Co Services in accordance with Section 38.4(b)(iii) on the commencement of the Operational Term.
- (d) Project Co shall not be entitled to any payment or compensation or, except as expressly provided in Section 40 or otherwise in this Project Agreement, relief in respect of any Pandemic and Epidemic Change in Law, or the consequences thereof, other than in accordance with this Section 38.4, and Section 41 shall be construed accordingly.
- (e) Project Co shall not be entitled to any relief under this Section 38.4 for a Pandemic and Epidemic Supply Chain Delay that may result from a Pandemic and Epidemic Change in Law. Any relief or compensation for Project Co for any Pandemic and Epidemic Supply Chain Delay shall be addressed under Section 43 of this Project Agreement.

39. VARIATIONS

39.1 Variation Procedure

- (a) Except as otherwise expressly provided in this Project Agreement, Schedule 22 – Variation Procedure shall apply in respect of Variations and Small Works.
- (b) For greater certainty, Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation if a written direction issued by or on behalf of Contracting Authority to Project Co or any Project Co Party results in a variation, addition, reduction, substitution, omission, modification, deletion, removal or other change to the whole or any part of the Project Operations, including in relation to the whole or any part of the Works or the Project Co Services.
- (c) Without limiting Project Co’s obligations pursuant to Section 9.3 and Schedule 22 – Variation Procedure, Project Co shall include in each Subcontract, and shall cause each Project Co Party to comply with, the Variation Procedure, to the extent that the Variation Procedure requires Project Co to minimize the cost and impact of Variations, including Variations as to scope of the Works or the Project Co Services.

39.2 Innovation and Value Engineering

- (a) Project Co acknowledges that Contracting Authority at all times desires to reduce the Monthly Service Payments and the overall cost to Contracting Authority of the Works and the Project Co Services, and Project Co agrees to cooperate, explore and work with Contracting Authority in investigating and considering innovation and value engineering and other cost saving measures.
- (b) If an innovation and value engineering proposal is at any time and from time to time originated and initiated solely by Project Co, Project Co may make a proposal (the “**Innovation Proposal**”) by Notice to Contracting Authority.
- (c) The Parties agree that the subject of an Innovation Proposal shall not include:
 - (i) any Variation Enquiry initiated by Contracting Authority;
 - (ii) any Variation resulting from a Change in Law; or
 - (iii) any change to the Contracting Authority Activities.
- (d) The Innovation Proposal must:
 - (i) set out sufficient detail to enable Contracting Authority to evaluate the Innovation Proposal in full;
 - (ii) specify Project Co’s reasons and justification for proposing the Innovation Proposal;
 - (iii) request Contracting Authority to consult with Project Co with a view to deciding whether to agree to the Innovation Proposal and, if so, what consequential changes Contracting Authority requires as a result;
 - (iv) indicate any implications of the Innovation Proposal, including a difference between the existing and the proposed requirements of this Project Agreement, and the comparative advantages of each to Project Co and Contracting Authority;
 - (v) indicate, in particular, whether an increase or decrease to the Monthly Service Payments is proposed, and, if so, give a detailed cost estimate of such proposed change;
 - (vi) indicate if there are any dates by which a decision by Contracting Authority must be made;
 - (vii) indicate the capital cost of the Innovation Proposal, including the cost of financing; and
 - (viii) include such other information and documentation as may be reasonably requested by Contracting Authority to fully evaluate and consider the Innovation Proposal.
- (e) Contracting Authority shall, acting in good faith, evaluate the Innovation Proposal, taking into account all relevant issues, including whether:

- (i) a change in the Monthly Service Payments will occur;
 - (ii) the Innovation Proposal affects the quality of the Works, the Project Co Services, or the likelihood of successful completion of the Works or performance of the Project Co Services;
 - (iii) the Innovation Proposal will benefit or interfere with the efficient operation of the Ontario Line Subway or the New Third Party Infrastructure;
 - (iv) the Innovation Proposal will interfere with the relationship between Contracting Authority and third parties;
 - (v) the financial strength of Project Co is sufficient to deliver the changed Works or perform the changed Project Co Services, as applicable;
 - (vi) the residual value of the Ontario Line Subway or the New Third Party Infrastructure is affected;
 - (vii) the Innovation Proposal will change the Monthly Service Payment;
 - (viii) the Innovation Proposal materially affects the risks or costs to which Contracting Authority is exposed; or
 - (ix) any other matter Contracting Authority considers relevant.
- (f) Contracting Authority may request clarification or additional information regarding the Innovation Proposal, and may request modifications to the Innovation Proposal.
- (g) Contracting Authority may, in its sole discretion, accept or reject any Innovation Proposal.
- (h) If Contracting Authority accepts the Innovation Proposal, with or without modification, the relevant Innovation Proposal shall be documented and evidenced by a written Variation Confirmation, together with any other documents necessary to amend this Project Agreement or any relevant Project Documents to give effect to the Innovation Proposal.
- (i) Unless Contracting Authority specifically agrees to an increase in the Monthly Service Payments in accepting an Innovation Proposal pursuant to Section 39.2(h), there shall be no increase in the Monthly Service Payments as a result of an Innovation Proposal.
- (j) If, after taking into account the agreed implementation and reasonably allocated development costs incurred by Project Co in connection with the Innovation Proposal and any other uses of the Innovation Proposal by Project Co, the Innovation Proposal causes or will cause the costs of Project Co and/or of a Subcontractor to decrease, the net savings in the costs of Project Co and/or the Subcontractor will be shared equally by Project Co and Contracting Authority, and Contracting Authority's share of the net savings shall, as agreed by the Parties, be reflected in either a lump sum payment or in a reduction of the Monthly Service Payments.

- (k) If an Innovation Proposal causes or will cause the costs of Contracting Authority to decrease, the net savings in the costs of Contracting Authority will be shared as follows:
- (i) equally by Project Co and Contracting Authority for the first five (5) years following the implementation of the Innovation Proposal; and
 - (ii) thereafter, Contracting Authority shall be entitled to the full benefit of the net savings in costs (if applicable),

and Project Co's share of the net savings shall, at Contracting Authority's sole option, be reflected in either a lump sum payment or in an increase in the Monthly Service Payments.

40. DELAY EVENTS

40.1 Definition

- (a) For the purposes of this Project Agreement, "**Delay Event**" means any of the following events or circumstances only to the extent, in each case, that it affects the Works so as to cause a delay in achieving Substantial Completion by the Scheduled Substantial Completion Date, in delivering Critical Works by the applicable Critical Works Deadline, in delivering Critical Data by the applicable Critical Data Deadline, in delivering OMSF Works by the applicable OMSF Works Deadline or in handing over OMSF Project Co Infrastructure by the applicable OMSF Project Co Infrastructure Handover Date:
- (i) the implementation of a Variation to the extent Project Co has identified such delay in its Estimate and such delay has been documented in the Variation Confirmation;
 - (ii) any breach by Contracting Authority of any of Contracting Authority's obligations under this Project Agreement (including, subject to Section 14.7, any delay by Contracting Authority in giving access to the Metrolinx Lands pursuant to Section 14.1(a), any obstruction of the rights afforded to Project Co under Section 14.1(a), or any delay by Contracting Authority in carrying out its obligations set forth in Schedule 10 – Review Procedure), except to the extent that any such breach is caused, or contributed to, by Project Co or any Project Co Party;
 - (iii) an uncovering of the Works pursuant to Section 21.3 where such Works are not subsequently found to be defective or not in compliance with the requirements of this Project Agreement (including the Output Specifications, the Project Co Proposal Extracts and the Design Data), unless such uncovering of the Works was reasonable in the light of other defects or non-compliance previously discovered by Contracting Authority in respect of the same or a similar component of the Works or subset of the Works;
 - (iv) any Differing Geotechnical Site Condition pursuant to Section 16.2(c);
 - (v) any Contracting Authority Contamination pursuant to Section 16.3(g);
 - (vi) any Contracting Authority Items of Interest or Value pursuant to Section 16.4(e);

- (vii) any Differing Major Existing Infrastructure Condition pursuant to Section 16.5(c);
- (viii) any Contracting Authority Utility Infrastructure pursuant to Section 16.6(d);
- (ix) any Contracting Authority Species-at-Risk pursuant to Section 16.7(d);
- (x) subject to compliance by Project Co with the provisions of Section 9.8, damage, costs or delays from the execution of Additional Works on the Lands by Additional Contractors, as applicable, in the circumstances described in Section 9.8(f), as applicable;
- (xi) a requirement pursuant to Schedule 27 – Dispute Resolution Procedure for Project Co to proceed in accordance with the written instructions of Contracting Authority during the pendency of a Dispute, to the extent that the Dispute is subsequently determined in Project Co’s favour;
- (xii) an event of Force Majeure;
- (xiii) a Relief Event;
- (xiv) a Relevant Change in Law;
- (xv) a Pandemic and Epidemic Change in Law;
- (xvi) [intentionally deleted];
- (xvii) a stop work order issued by a Governmental Authority in respect of the Ontario Line Subway or the Works, provided that such order was not issued as a result of a Relief Event, an act of Force Majeure, or as a result of an act, omission or fault of Project Co or a Project Co Party;
- (xviii) a requirement that Project Co perform obligations under an Encumbrance pursuant to Section 15.2(c)(iii) or Section 15.2(d), which performance imposes costs or delays in the performance of Project Operations;
- (xix) subject to and in accordance with Section 9.15, a failure of a Utility Company to execute and deliver a completed Utility Agreement in the Form of Utility Agreement applicable to such Utility Company or in a form otherwise agreed to between Project Co and such Utility Company;
- (xx) a failure by:
 - (A) Contracting Authority to complete or to cause the completion of the Utilities Preparatory Activities on or before the dates set out in Appendix Q (*Utilities Preparatory Activities*) of the Output Specifications, subject to and in accordance with the terms and conditions of Section 3.1.12.7(i) (*Preparatory Activities*) of the Output Specifications; or

- (B) a Utility Company to perform any such Utility Company's obligations set out in Section 3.1.12.7(h) (*Specific Requirements*), provided Project Co has complied with the provisions of Section 3.1.12.7(h) (*Specific Requirements*) of the Output Specifications;
- (xxi) subject to and in accordance with Schedule 34 – Permits, Licences, Approvals and Agreements,
 - (A) the occurrence of any Additional PLAA Completion Requirements, as set out in Section 8.1(d) (*Pre-Submission Consultation*) of Schedule 34 – Permits, Licences, Approvals and Agreements;
 - (B) an Issuing Authority rejects a Listed Project Co PLAA Application solely due to a failure by Project Co to include documentation and information, or satisfy an obligation, that was not set out in the applicable Completion Checklist or the Additional PLAA Completion Requirements, as set out in Section 9.2(d) (*Rejection by Issuing Authority of Listed Project Co PLAA Application*) of Schedule 34 – Permits, Licences, Approvals and Agreements;
 - (C) if an Issuing Authority fails to issue a Listed Project Co PLAA or notify Project Co that it refuses to issue a Listed Project Co PLAA on or before the Listed Project Co PLAA Deadline, as set out in Section 9.4(a) (*Failure to Make a Determination*) of Schedule 34 – Permits, Licences, Approvals and Agreements;
 - (D) if an Issuing Authority has refused to issue a Listed Project Co PLAA for any reason other than Project Co failing to comply with the applicable Listed Project Co PLAA Requirements, as set out in Section 9.5(d) (*Refusal to Issue a Listed Project Co PLAA*) of Schedule 34 – Permits, Licences, Approvals and Agreements;
 - (E) if an Issuing Authority has issued a Listed Project Co PLAA with terms and conditions that are inconsistent with Listed Project Co PLAA Requirements, as set out in Section 9.6(c) (*Issuance of Listed Project Co PLAAs*) of Schedule 34 – Permits, Licences, Approvals and Agreements; or
 - (F) Contracting Authority's failure to obtain or renew a Contracting Authority Permit, Licence, Approval or Agreement on or before the date listed in Appendix A (*Contracting Authority Permits, Licences, Approvals and Agreements*) of Schedule 34 – Permits, Licences, Approvals and Agreements;
- (xxii) provided the then applicable South Civil Integration Demerit Points Incurred do not exceed any applicable South Civil Integration Demerit Points Threshold,
 - (A) a South Civil Infrastructure Subsection Access Date does not occur on or prior to the applicable No Later Than Date;

- (B) a South Civil Infrastructure Section Handover Date does not occur on or prior to the applicable No Later Than Date;
- (C) Contracting Authority fails to provide any Critical South Civil Infrastructure Data on or prior to the applicable Critical South Civil Infrastructure Data Deadline;
- (D) any Critical South Civil HVAC Works are not Critical South Civil HVAC Works Complete on or prior to the applicable Critical South Civil HVAC Works Deadline, or cease to be Critical South Civil HVAC Works Complete thereafter;
or
- (E) damage, costs or delays arising from any act or omission of South Civil Project Co or a South Civil Project Co Party (unless such act is expressly contemplated in this Project Agreement),

except, in each case, to the extent caused or contributed to by an act or omission of Project Co or a Project Co Party;

(xxiii) provided the then applicable North Civil Integration Demerit Points Incurred do not exceed any applicable North Civil Integration Demerit Points Threshold,

- (A) a North Civil Infrastructure Subsection Access Date does not occur on or prior to the applicable No Later Than Date;
- (B) a North Civil Infrastructure Section Handover Date does not occur on or prior to the applicable No Later Than Date;
- (C) Contracting Authority fails to provide any Critical North Civil Infrastructure Data on or prior to the applicable Critical North Civil Infrastructure Data Deadline;
- (D) any Critical North Civil HVAC Works are not Critical North Civil HVAC Works Complete on or prior to the applicable Critical North Civil HVAC Works Deadline, or cease to be Critical North Civil HVAC Works Complete thereafter;
- (E) damage, costs or delays arising from any act or omission of North Civil Project Co or a North Civil Project Co Party (unless such act is expressly contemplated in the Project Agreement); or
- (F) the handover to Project Co of any OMSF Early Handback Lands does not occur on or prior to the OMSF Early Handback Lands No Later Than Date,

except, in each case, to the extent caused or contributed to by an act or omission of Project Co or a Project Co Party;

- (xxiv) a South Civil Infrastructure Construction Defect which Project Co may claim pursuant to the terms of Schedule 42 – South Civil Infrastructure Access and Handover, except to the extent caused or contributed to by an act or omission of Project Co or a Project Co Party;
- (xxv) a North Civil Infrastructure Construction Defect which Project Co may claim pursuant to the terms of Schedule 43 – North Civil Infrastructure Access and Handover, except to the extent caused or contributed to by an act or omission of Project Co or a Project Co Party;
- (xxvi) an Early Works Section Handover Date occurring on a day after the applicable No Later Than Date;
- (xxvii) an Early Works Construction Defect which Project Co may claim pursuant to the terms of Schedule 41 – Early Works Handover, except to the extent caused or contributed to by an act or omission of Project Co or a Project Co Party;
- (xxviii) a stop work order issued by a Governmental Authority in respect of the New Third Party Infrastructure or the Works, provided that such order was not issued as a result of a Relief Event, an act of Force Majeure, or as a result of an act, omission or fault of Project Co or a Project Co Party;
- (xxix) a Protest Action, subject to and in accordance with Section 9.7(f);
- (xxx) an amendment to the Access Opportunities Calendar to take into account changes to Railway Operations that are not Planned Railway Operations Changes, in accordance with Section 3.2(c) (*Access Opportunities Calendar*) of Schedule 40 – Rail Corridor Access and Flagging;
- (xxxi) for all Categories of Access and Subcategories of Access except for a Major Track Closure, a reduction to the length of time that Project Co will be allowed for a Permitted Rail Corridor Access after the issuance of a Rail Corridor Access Permit, if the reduction is equal to or exceeds the greater of fifteen minutes in total or ten percent of the total planned duration for Rail Corridor Access under the applicable Rail Corridor Access Permit (measured from the date and time the Railway Flag Person was scheduled to arrive at the location of the applicable Works on the Rail Corridor), in accordance with Section 8.1(a)(i)(B) (*Reduction in the Time Allocated for a Permitted Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging;
- (xxxii) for Major Track Closures, a reduction to the length of time that Project Co will be allowed for a Permitted Rail Corridor Access after the issuance of a Rail Corridor Access Permit, if the reduction is for greater than two hours in total, in accordance with Section 8.1(a)(ii)(B) (*Reduction in the Time Allocated for a Permitted Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging;
- (xxxiii) for Non-Disruptive Accesses or White Period Accesses, subject to Section 4.3(d) (*Booking Requests*) of Schedule 40 – Rail Corridor Access and Flagging, a delay to the date or time for any requested Rail Corridor Access after the submission by Project Co of a Booking Request (but in any event prior to the issuance by Metrolinx of a Rail Corridor

Access Permit), if Metrolinx fails to give Project Co at least twenty (20) Business Days' prior Notice of the delay or if the delay is for more than seven (7) days, in accordance with Section 8.2(a)(i)(B) (*Delay of a Requested Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging;

- (xxxiv) for Platform Closures or Minor Track Closures, subject to Section 4.3(d) (*Booking Requests*) of Schedule 40 – Rail Corridor Access and Flagging, a delay to the date or time for any requested Rail Corridor Access after the submission by Project Co of a Booking Request (but in any event prior to the issuance by Metrolinx of a Rail Corridor Access Permit), if Metrolinx fails to give Project Co at least eighty (80) Business Days' prior Notice of the delay or if the delay is for more than seven (7) days, in accordance with Section 8.2(a)(ii)(B) (*Delay of a Requested Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging;
- (xxxv) an evacuation or shutdown of the Rail Corridor as a result of an Emergency Rail Situation, provided that the Emergency Rail Situation did not arise as a result of an act or omission of Project Co or a Project Co Party, in accordance with Section 10.1(c) (*General – Rail Corridor Safety*) of Schedule 40 – Rail Corridor Access and Flagging;
- (xxxvi) if Metrolinx, in its sole discretion, elects not to implement any or any portion of the Planned Railway Operation Changes in accordance with Section 3.2(d)(i) (*Access Opportunities Calendar*) of Schedule 40 – Rail Corridor Access and Flagging;
- (xxxvii) for all Categories of Access and Subcategories of Access except for a Major Track Closure, if Metrolinx reduces more than twenty-five percent of the total number of Permitted Rail Corridor Accesses, each by less than ten percent of the total planned duration for Rail Corridor Access under the applicable Rail Corridor Access Permit (measured from the date and time the Railway Flag Person was scheduled to arrive at the location of the applicable Works on the Rail Corridor), in accordance with Section 8.1(a)(i)(C) (*Reduction in the Time Allocated for a Permitted Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging;
- (xxxviii) for all Categories of Access and Subcategories of Access except for a Major Track Closure, if Metrolinx reduces more than seventy-five percent of the total number of Permitted Rail Corridor Accesses, each by less than fifteen minutes, in accordance with Section 8.1(a)(i)(D) (*Reduction in the Time Allocated for a Permitted Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging;
- (xxxix) for Major Track Closures, subject to Section 4.3(d) (*Booking Requests*) of Schedule 40 – Rail Corridor Access and Flagging, if Metrolinx delays the date or time for any requested Rail Corridor Access after the submission by Project Co of a Booking Request (but in any event prior to the issuance by Metrolinx of a Rail Corridor Access Permit), if Metrolinx fails to give Project Co at least one-hundred and fifty-five (155) Business Days' prior Notice of the delay or if the delay is for more than seven (7) days, in accordance with Section 8.2(a)(iii)(B) (*Delay of a Requested Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging;

- (xl) for all Categories of Access and Subcategories of Access, subject to Section 4.3(d) (*Booking Requests*) of Schedule 40 – Rail Corridor Access and Flagging, if Metrolinx delays a requested Rail Corridor Access in a Booking Request pursuant to Sections 8.2(a)(i)(A), 8.2(a)(ii)(A) or 8.2(a)(iii)(A) (*Delay of a Requested Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging, as applicable, without identifying an alternative date and time for the Rail Corridor Access in accordance with the time period set out in Section 8.2(a)(iv) (*Delay of a Requested Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging, in accordance with Section 8.2(a)(iv) (*Delay of a Requested Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging; or
- (xli) subject to compliance by Project Co with the provisions of Sections 4.4 and 4.5 (*Warranty Claims, Warranty Work and Seasonal Minor Deficiencies*) of Schedule 41 – Early Works Handover, damage, costs or delays caused by an act or omission of an Early Works Contractor while performing Early Works Warranty Work or completing Seasonal Minor Deficiencies (each as defined in Schedule 41 – Early Works Handover) in the circumstances described in Section 4.7 (*Warranty Claims, Warranty Work and Seasonal Minor Deficiencies*) of Schedule 41 – Early Works Handover.

40.2 Consequences of a Delay Event

- (a) Project Co shall provide written Notice to the Contracting Authority Representative, the CDB and the Independent Certifier within five (5) Business Days of becoming aware of the occurrence of any event or circumstances described in Sections 40.1(a)(ii), 40.1(a)(iii), 40.1(a)(iv), 40.1(a)(v), 40.1(a)(vi), 40.1(a)(vii), 40.1(a)(viii), 40.1(a)(ix), 40.1(a)(x), 40.1(a)(xi), 40.1(a)(xvii), 40.1(a)(xviii), 40.1(a)(xix), 40.1(a)(xx), 40.1(a)(xxi), 40.1(a)(xxii), 40.1(a)(xxiii), 40.1(a)(xxiv), 40.1(a)(xxv), 40.1(a)(xxvi), 40.1(a)(xxvii), 40.1(a)(xxviii), 40.1(a)(xxix), 40.1(a)(xxx), 40.1(a)(xxxi), 40.1(a)(xxxii), 40.1(a)(xxxiii), 40.1(a)(xxxiv), 40.1(a)(xxxv), 40.1(a)(xxxvi), 40.1(a)(xxxvii), 40.1(a)(xxxviii), 40.1(a)(xxxix), 40.1(a)(xl) or 40.1(a)(xli), or which, at the time of its occurrence, is reasonably likely to form the basis of a future claim by Project Co for relief under Section 40.2(e) as a Delay Event.
- (b) Project Co shall, within ten (10) Business Days (or such longer period of time as the Parties may agree) after delivering such notification under Section 40.2(a), provide further written details to the Contracting Authority Representative, the CDB and the Independent Certifier which shall include:
 - (i) identification of the category of Delay Event on which Project Co's future claim for relief would be based if such event or circumstances were to form the basis of a claim for relief as a Delay Event;
 - (ii) details of the event or circumstances forming the basis of Project Co's notification under Section 40.2(a);
 - (iii) details of the contemporary records which Project Co shall thereafter maintain to substantiate its claim for extra time if the event or circumstances detailed in accordance

- with Section 40.2(b)(ii) forms the basis of a future claim by Project Co for relief as a Delay Event;
- (iv) details of the consequences (whether direct or indirect, financial or non-financial) that such event or circumstances may have upon the Scheduled Substantial Completion Date, any Critical Works Deadline, any Critical Data Deadline, any OMSF Works Deadline or any OMSF Project Co Infrastructure Handover Date, if such event or circumstances forms the basis of a future claim by Project Co for relief as a Delay Event;
 - (v) details of any measures that Project Co proposes to adopt to prevent such event or circumstances from forming the basis of a future claim by Project Co for relief as a Delay Event or to mitigate the consequences of such claim if such event or circumstances were to become a Delay Event; and
 - (vi) in respect of the circumstances described in Section 40.1(a)(iv) or Section 40.1(a)(v), such additional information as may be required by Schedule 45 – Geotechnical Baseline Report.
- (c) As soon as possible but in any event within three (3) Business Days of Project Co receiving, or becoming aware of, any supplemental information pertaining to the event or circumstances disclosed in Section 40.2(a), Project Co shall submit further particulars based on such information to the Contracting Authority Representative, the CDB and the Independent Certifier.
 - (d) The Contracting Authority Representative shall, after receipt of written details under Section 40.2(b), or of further particulars under Section 40.2(c), be entitled by written notice to require Project Co to provide such further supporting particulars as the Contracting Authority Representative may reasonably consider necessary. Project Co shall comply with such further requests and afford the Contracting Authority Representative, the CDB and the Independent Certifier reasonable facilities for their investigations, including on-site inspection.
 - (e) In addition to complying with its obligations under Sections 40.2(a) and 40.2(b), Project Co shall provide written notice to the Contracting Authority Representative, the CDB and the Independent Certifier within five (5) Business Days of: (A) becoming aware that an event or circumstances has satisfied, or will satisfy, in the opinion of Project Co, the applicable definition of Delay Event, or (B) becoming aware of the occurrence of an event to which Section 40.2(k) applies. Project Co shall, within ten (10) Business Days after such notification, provide further written details of the Delay Event or the event to which Section 40.2(k) applies to the Contracting Authority Representative, the CDB and the Independent Certifier, including, if and as applicable, to substitute or supplement the information given in Sections 40.2(a), 40.2(b), and 40.2(c), to further substantiate or support Project Co's claim which shall include, to the extent not previously provided:
 - (i) a statement of which Delay Event (or event pursuant to Section 40.2(k)) upon which the claim is based;
 - (ii) details of the circumstances from which the Delay Event (or event pursuant to Section 40.2(k)) arises;

- (iii) details of the contemporary records which Project Co shall maintain to substantiate its claim for extra time or pursuant to Section 40.2(k);
 - (iv) details of the consequences (whether direct or indirect, financial or non-financial) which such Delay Event may have upon the Scheduled Substantial Completion Date, any Critical Works Deadline, any Critical Data Deadline, any OMSF Works Deadline or any OMSF Project Co Infrastructure Handover Date, including a Critical Path analysis of the event or circumstance indicating the impact on the Scheduled Substantial Completion Date, any Critical Works Deadline, any Critical Data Deadline, any OMSF Works Deadline or any OMSF Project Co Infrastructure Handover Date; and
 - (v) details of any measures which Project Co proposes to adopt to mitigate the consequences of such Delay Event or event pursuant to Section 40.2(k).
- (f) As soon as possible but in any event within three (3) Business Days of Project Co receiving, or becoming aware of, any supplemental information which may further substantiate or support Project Co's claim under Section 40.2(e), Project Co shall submit further particulars based on such information to the Contracting Authority Representative, the CDB and the Independent Certifier.
- (g) The Contracting Authority Representative shall, after receipt of written details under Section 40.2(e), or of further particulars under Section 40.2(f), be entitled by written Notice to require Project Co to provide such further supporting particulars as the Contracting Authority Representative may reasonably consider necessary. Project Co shall afford the Contracting Authority Representative, the CDB and the Independent Certifier reasonable facilities for investigating the validity of Project Co's claim, including on-site inspection.
- (h) Subject to the provisions of this Section 40, the Contracting Authority Representative shall allow Project Co an extension of time equal to the delay to the Scheduled Substantial Completion Date, any Critical Works Deadline, any Critical Data Deadline, any OMSF Works Deadline or any OMSF Project Co Infrastructure Handover Date, caused by the Delay Event and shall fix a revised Scheduled Substantial Completion Date, Critical Works Deadline, Critical Data Deadline, any OMSF Works Deadline or any OMSF Project Co Infrastructure Handover Date, as applicable, as soon as reasonably practicable and in any event within ten (10) Business Days of the later of:
- (i) the date of receipt by the Contracting Authority Representative of Project Co's Notice given in accordance with Section 40.2(e) and the date of receipt of adequate further particulars (if such are required under Section 40.2(f)), whichever is later; and
 - (ii) the date of receipt by the Contracting Authority Representative of any supplemental information supplied by Project Co or requested by Contracting Authority in accordance with Section 40.2(f) and the date of receipt of any further particulars (if such are required under Section 40.2(g)), whichever is later.
- (i) For greater certainty:

- (i) no Delay Event shall extend the Project Term; and
 - (ii) each Delay Event shall delay the commencement of the Operational Term and reduce the length of the Operational Term as a result of the delay in the achievement of Substantial Completion.
- (j) If:
- (i) the Contracting Authority Representative declines to fix a revised Scheduled Substantial Completion Date, Critical Works Deadline, Critical Data Deadline, any OMSF Works Deadline or any OMSF Project Co Infrastructure Handover Date;
 - (ii) Project Co considers that a different Scheduled Substantial Completion Date, Critical Works Deadline, Critical Data Deadline, any OMSF Works Deadline or any OMSF Project Co Infrastructure Handover Date should be fixed;
 - (iii) there is a dispute as to whether a Delay Event (or event pursuant to Section 40.2(k)) has occurred; or
 - (iv) there is a dispute as to whether Project Co is entitled to the relief set out in Section 40.2(k),
- then Project Co shall be entitled to refer the matter for resolution in accordance with Schedule 27 – Dispute Resolution Procedure.
- (k) Subject to Project Co meeting the obligations set out in Section 40.2 and Section 40.3, if,
- (i) a Property Access Closure is directly caused or extended by one or more of the events set out in Section 40.1(a), whether or not such event constitutes a Delay Event, such Property Access Closure or extension thereof shall not be included in the Aggregate Actual Property Access Closures or the Aggregate Actual Property Access Closures Cost for the relevant Property Access Area for the purposes of calculating the Property Access Closure Adjustment in accordance with the process set out in Schedule 36 – Property Access Matters;
 - (ii) for clarity, Section 40.2(k)(i) shall apply only to the extent that a Property Access Closure was not contemplated by the Aggregate Target Property Access Closures and not merely because a Property Access Closure has been deferred; and
 - (iii) a Construction Period Quality Failure,
 - (A) has been assessed in accordance with Schedule 19 – Liquidated Damages and Construction Enforcement Regime; and
 - (B) has arisen from a Non-Conformance that has been directly caused by one or more of the events set out in Section 40.1(a), whether or not such event constitutes a Delay Event,

such Construction Period Quality Failure shall not be applied as part of the Construction Period Deduction in accordance with Section 7 (*Construction Enforcement Regime*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime.

- (l) To the extent Project Co does not comply with its obligations under Sections 40.2(a), 40.2(b), 40.2(c), 40.2(d), 40.2(e), 40.2(f), 40.2(g) or 40.2(m), and subject to Section 40.2(m), such failure shall be taken into account in determining Project Co's entitlement to an extension of time pursuant to this Section 40.
- (m) If Project Co does not provide further written details to the Contracting Authority Representative, the CDB and the Independent Certifier as required under Section 40.2(b) within the ten (10) Business Day period referred to in such Section, Project Co acknowledges and agrees that, after a further ten (10) Business Days, Project Co shall not be entitled to rely upon, and Contracting Authority shall not be obligated to consider, the notice given under Section 40.2(a) for the purposes of determining Project Co's entitlement to relief under this Section 40.
- (n) Where there are concurrent delays, some of which are caused by Contracting Authority or others for whom Contracting Authority is responsible, and some of which are caused by Project Co or others for whom Project Co is responsible, Project Co shall not be entitled to an extension in the Scheduled Substantial Completion Date, any applicable Critical Works Deadline, any applicable Critical Data Deadline, any applicable OMSF Works Deadline or any applicable OMSF Project Co Infrastructure Handover Date, to the extent of the concurrent delays. Concurrent delays are those that are caused by two or more independent events, and which each affect the Scheduled Substantial Completion Date, or the same Critical Works Deadline, the same Critical Data Deadline, the same OMSF Works Deadline or the same OMSF Project Co Infrastructure Handover Date, as applicable, where the time period over which such delays occur overlap in time, but only for the duration of the overlap.
- (o) For greater certainty, this Section 40.2, is subject to the provisions of Section 7 (*Failure to Submit a Baseline Works Schedule by the Submission Deadline and Delay Events*) of Schedule 12 – Works Schedule Requirements.
- (p) In no event shall the extension of time for a Delay Event be more than the necessary extension of the Critical Path as a result of the Delay Event.

40.3 Mitigation

- (a) If Project Co is (or claims to be) affected by a Delay Event or an event pursuant to Section 40.2(k), Project Co shall, and shall require all Project Co Parties to, take and continue to take commercially reasonable steps:
 - (i) to eliminate or mitigate the consequences of such event upon the performance of its obligations under this Project Agreement;
 - (ii) to continue to perform its obligations under this Project Agreement to the extent possible notwithstanding the Delay Event or event pursuant to Section 40.2(k); and

- (iii) to resume performance of its obligations under this Project Agreement affected by the Delay Event (or event pursuant to Section 40.2(k)) as soon as practicable.
- (b) To the extent that Project Co does not comply with its obligations under this Section 40.3, such failure shall be taken into account in determining,
 - (i) Project Co's entitlement to an extension of time pursuant to this Section 40; and
 - (ii) Project Co's entitlement to the relief contemplated in Section 40.2(k).

41. COMPENSATION EVENTS

41.1 Definition

- (a) For the purposes of this Project Agreement, "**Compensation Event**" means any event referred to in Sections 40.1(a)(ii), 40.1(a)(iii), 40.1(a)(iv), 40.1(a)(v), 40.1(a)(vi), 40.1(a)(vii), 40.1(a)(viii), 40.1(a)(ix), 40.1(a)(x), 40.1(a)(xi), 40.1(a)(xvii), 40.1(a)(xviii), 40.1(a)(xix), 40.1(a)(xx), 40.1(a)(xxi), 40.1(a)(xxii), 40.1(a)(xxiii), 40.1(a)(xxiv), 40.1(a)(xxv), 40.1(a)(xxvi), 40.1(a)(xxvii), 40.1(a)(xxviii), 40.1(a)(xxx), 40.1(a)(xxxi), 40.1(a)(xxxii), 40.1(a)(xxxiii), 40.1(a)(xxxiv), 40.1(a)(xxxv), 40.1(a)(xxxvi), 40.1(a)(xxxvii), 40.1(a)(xxxviii), 40.1(a)(xxxix), 40.1(a)(xl) or 40.1(a)(xli) as a direct result of which Project Co has incurred loss or expense, whether or not any of these events has also caused a delay.

41.2 Consequences of a Compensation Event

- (a) If a Compensation Event occurs, Project Co's sole right to compensation shall be as set out in this Section 41. For greater certainty, except as aforesaid, no other Delay Event shall entitle Project Co to receive any compensation, except as otherwise provided in:
 - (i) Schedule 22 – Variation Procedure, in the case of a Delay Event referred to in Section 40.1(a)(i);
 - (ii) Section 44, in the case of a Delay Event referred to in Section 40.1(a)(xii);
 - (iii) Section 43, in the case of a Delay Event referred to in Section 40.1(a)(xiii);
 - (iv) Section 38, in the case of a Delay Event referred to in Section 40.1(a)(xiv);
 - (v) Section 38.4, in the case of a Delay Event referred to in Section 40.1(a)(xv); and
 - (vi) Section 9.7(f)(ii) in the case of a Delay Event referred to in Section 40.1(a)(xxix).
- (b) Subject to Sections 41.3 and 41.4, if it is agreed, or determined in accordance with Schedule 27 – Dispute Resolution Procedure, that there has been a Compensation Event, Project Co shall be entitled to such compensation as would place Project Co in no better and no worse position than it would have been in had the relevant Compensation Event not occurred. For greater certainty, in respect of a Compensation Event that is also a Delay Event, such compensation will include amounts which, but for the Delay Event, would have been paid by Contracting Authority to

Project Co. Project Co shall promptly provide the Contracting Authority Representative with any information the Contracting Authority Representative may require in order to determine the amount of such compensation.

- (c) If Contracting Authority is required to compensate Project Co pursuant to this Section 41.2, then Contracting Authority may either pay such compensation as a lump sum payment or payments at times and in a manner to be agreed with Project Co, acting reasonably, or, alternatively, Contracting Authority may request Project Co to agree to an adjustment to the Monthly Service Payments. If Project Co agrees to an adjustment to the Monthly Service Payments, then the provisions of Schedule 22 – Variation Procedure shall apply.
- (d) To the extent that Project Co does not comply with its obligations under Sections 40.2(a), 40.2(b), 40.2(c), 40.2(d), 40.2(e), 40.2(f), 40.2(g), or 40.2(m), and subject to Section 40.2(m), such failure shall be taken into account in determining Project Co's entitlement to relief pursuant to this Section 41.
- (e) If an event listed in Section 40.1(a)(i) to Section 40.1(a)(xli) caused Project Co to be delayed as of the time of the applicable Scheduled Milestone Payment Completion Date, when delay is measured in accordance with Section 40.2, and such delay resulted in Project Co failing to achieve Milestone Payment Completion for any Milestone Payment, and to the extent that such failure was not caused, or contributed to, by Project Co or any Project Co Party,
 - (i) in the case of the First Milestone Payment, Contracting Authority shall pay an amount equal to the increase in the Cost of the Financing in respect of the First Milestone Payment arising from the applicable period of delay, subject to Section 41.3 and without duplication of any amounts already paid by Contracting Authority in accordance with Section 41.2;
 - (ii) in the case of the Second Milestone Payment, Contracting Authority shall pay an amount equal to the increase in the Cost of the Financing in respect of the Second Milestone Payment arising from the applicable period of delay, subject to Section 41.3 and without duplication of any amounts already paid by Contracting Authority in accordance with Section 41.2 including any amounts already paid pursuant to Section 41.2(e)(i);
 - (iii) in the case of the Third Milestone Payment, Contracting Authority shall pay an amount equal to the increase in the Cost of the Financing in respect of the Third Milestone Payment arising from the applicable period of delay, subject to Section 41.3 and without duplication of any amounts already paid by Contracting Authority in accordance with Section 41.2 including any amounts already paid pursuant to Sections 41.2(e)(i) and 41.2(e)(ii);
 - (iv) in the case of the Fourth Milestone Payment, Contracting Authority shall pay an amount equal to the increase in the Cost of the Financing in respect of the Fourth Milestone Payment arising from the applicable period of delay, subject to Section 41.3 and without duplication of any amounts already paid by Contracting Authority in accordance with Section 41.2 including any amounts already paid pursuant to Sections 41.2(e)(i), 41.2(e)(ii) and 41.2(e)(iii);

- (v) all compensation owed to Project Co arising from Sections 41.2(e)(i), 41.2(e)(ii), 41.2(e)(iii) and 41.2(e)(iv) shall be calculated:
 - (A) as of the applicable Milestone Payment Completion Date; or
 - (B) if the delay continues for more than six (6) months, at six month intervals from the commencement of the delay upon Project Co providing written notice to Contracting Authority of the amount owing by Contracting Authority for the applicable six month period,and, in either case, shall be limited to only the compensation set out in Sections 41.2(e)(i), 41.2(e)(ii), 41.2(e)(iii) and 41.2(e)(iv);
- (vi) any amount payable by Contracting Authority pursuant to Section 41.2(e) shall be payable on the earlier of (i) the applicable Milestone Payment Completion Date and (ii) if the delay continues for more than six (6) months, within twenty (20) Business Days of Project Co notifying Contracting Authority in accordance with Section 41.2(e)(v) provided that Contracting Authority does not dispute the calculation of any amount owing under Section 41.2(e)(v)(B); and
- (vii) in the event that Contracting Authority disputes the calculation of any amount owing in whole or in part under Section 41.2(e)(v)(B),
 - (A) Contracting Authority may refuse to pay all or any portion of such amount and shall no later than ten (10) Business Days after receiving the notice described in Section 41.2(e)(v)(B) notify Project Co of its determination to not pay such amount and the reasons therefor;
 - (B) Project Co shall resubmit the calculation of any compensation owing under Section 41.2(e)(v)(B) within ten (10) Business Days of receiving Contracting Authority's notice under Section 41.2(e)(vii)(A) and Contracting Authority shall accept or reject such resubmitted calculation within five (5) Business Days; and
 - (C) if Contracting Authority accepts such resubmitted calculation, Contracting Authority shall pay such amount to Project Co within ten (10) Business Days.

41.3 Mitigation

- (a) If Project Co is (or claims to be) affected by a Compensation Event, Project Co shall, and shall require all Project Co Parties to, take and continue to take commercially reasonable steps to minimize the amount of compensation due in accordance with this Section 41 in relation to any Compensation Event.
- (b) To the extent that Project Co does not comply with its obligations under this Section 41.3, such failure shall be taken into account in determining Project Co's entitlement to relief pursuant to this Section 41.

41.4 Insured Exposure

- (a) The compensation payable to Project Co pursuant to this Section 41 shall be reduced by any amount which Project Co or a Project Co Party recovers, or is entitled to recover, under any insurance policy, or would have recovered if it had complied with the requirements of this Project Agreement in respect of insurance or the terms of any policy of insurance required under this Project Agreement, which amount, for greater certainty, shall not include any excess or deductibles or any amount over the maximum amount insured under any such insurance policy.

42. EXCUSING CAUSES

42.1 Definition

- (a) For the purposes of this Project Agreement, “**Excusing Cause**” means any of the following events or circumstances if it occurs after the Substantial Completion Date and to the extent, in each case, that it interferes adversely with, or causes a failure of, the performance of the Project Co Services:
- (i) the implementation of a Variation to the extent Project Co has identified any impact on the Project Co Services in its Estimate and such impact has been documented in the Variation Confirmation;
 - (ii) any breach by Contracting Authority of any of Contracting Authority’s obligations under this Project Agreement (including any obstruction of the rights afforded to Project Co under Section 14.1), except to the extent that any such breach is caused, or contributed to, by Project Co or any Project Co Party;
 - (iii) any deliberate or negligent act or omission of any Province Person or any failure by any Province Person (having regard to the interactive nature of the activities of Contracting Authority and Project Co) to take commercially reasonable steps to perform its activities in a manner which minimizes undue interference with Project Co’s performance of the Project Co Services, except to the extent:
 - (A) any such act, omission or failure is caused, or contributed to, by Project Co or any Project Co Party;
 - (B) the Province Person is acting in accordance with a recommendation or instruction of Project Co or any Project Co Party;
 - (C) any such act, omission or failure was contemplated in the Output Specifications or was otherwise provided for in this Project Agreement; or
 - (D) the consequences of any such act, omission or failure would have been prevented by the proper performance of Project Co’s obligations under this Project Agreement;

- (iv) the implementation of any action taken by Contracting Authority, or any suspension of Project Co's obligation to deliver all or any part of the Project Co Services, or the compliance by Project Co with instructions given by Contracting Authority, in each case in the circumstances referred to in Section 32;
- (v) the performance of any Small Works in accordance with the terms of this Project Agreement during the period of time agreed between Contracting Authority and Project Co;
- (vi) any official or unofficial strike, lockout, work to rule or other labour-related action involving employees of any Province Person, except to the extent that any such labour-related action is caused, or contributed to, by Project Co or any Project Co Party;
- (vii) the occurrence of any Protest Action in the circumstances described in Section 9.7(g);
- (viii) subject to and in accordance with Schedule 34 – Permits, Licences, Approvals and Agreements,
 - (A) the occurrence of any Additional PLAA Completion Requirements, as set out in Section 8.1(d) (*Pre-Submission Consultation*) of Schedule 34 – Permits, Licences, Approvals and Agreements;
 - (B) an Issuing Authority rejects a Listed Project Co PLAA Application solely due to a failure by Project Co to include documentation and information, or satisfy an obligation, that was not set out in the applicable Completion Checklist or the Additional PLAA Completion Requirements, as set out in Section 9.2(d) (*Rejection by Issuing Authority of Listed Project Co PLAA Application*) of Schedule 34 – Permits, Licences, Approvals and Agreements;
 - (C) if an Issuing Authority fails to issue a Listed Project Co PLAA or notify Project Co that it refuses to issue a Listed Project Co PLAA on or before the Listed Project Co PLAA Deadline, as set out in Section 9.4(a) (*Failure to Make a Determination*) of Schedule 34 – Permits, Licences, Approvals and Agreements;
 - (D) if an Issuing Authority has refused to issue a Listed Project Co PLAA for any reason other than Project Co failing to comply with the applicable Listed Project Co PLAA Requirements, as set out in Section 9.5(d) (*Refusal to Issue a Listed Project Co PLAA*) of Schedule 34 – Permits, Licences, Approvals and Agreements;
 - (E) if an Issuing Authority has issued a Listed Project Co PLAA with terms and conditions that are inconsistent with Listed Project Co PLAA Requirements, as set out in Section 9.6(c) (*Issuance of Listed Project Co PLAAs*) of Schedule 34 – Permits, Licences, Approvals and Agreements; or
 - (F) Contracting Authority's failure to obtain or renew a Contracting Authority Permit, Licence, Approval or Agreement on or before the date listed in Appendix

*A (Contracting Authority Permits, Licences, Approvals and Agreements) of
Schedule 34 – Permits, Licences, Approvals and Agreements;*

- (ix) the occurrence of any Contamination for which Contracting Authority is responsible pursuant to Section 16.3;
- (x) the occurrence of any Differing Major Existing Infrastructure Condition encountered by Project Co pursuant to Section 16.5;
- (xi) the discovery of any Species-at-Risk for which Contracting Authority is responsible pursuant to Section 16.7;
- (xii) an uncovering of the Works pursuant to Section 21.3 where such Works are not subsequently found to be defective or not in compliance with the requirements of this Project Agreement (including the Output Specifications, the Project Co Proposal Extracts and the Design Data), unless such uncovering of the Works was reasonable in the light of other defects or non-compliance previously discovered by Contracting Authority in respect of the same or a similar component of the Works or subset of the Works;
- (xiii) a derailment, collision, or any other accident involving the exterior of a Car, except to the extent that any such derailment, collision, or other accident is caused, or contributed to, by Project Co or any Project Co Party;
- (xiv) a collision or any other accident involving both any non Project Co vehicle (including road and other rail vehicles) and an element of Fixed Infrastructure (as defined in the Output Specifications), except to the extent that any such collision or accident is caused, or contributed to, by Project Co or any Project Co Party;
- (xv) a South Civil Infrastructure Construction Defect which Project Co may claim pursuant to the terms of Schedule 42 – South Civil Infrastructure Access and Handover, except to the extent caused or contributed to by an act or omission of Project Co or a Project Co Party;
- (xvi) a North Civil Infrastructure Construction Defect which Project Co may claim pursuant to the terms of Schedule 43 – North Civil Infrastructure Access and Handover, except to the extent caused or contributed to by an act or omission of Project Co or a Project Co Party;
- (xvii) an Early Works Construction Defect which Project Co may claim pursuant to the terms of Schedule 41 – Early Works Handover, except to the extent caused or contributed to by an act or omission of Project Co or a Project Co Party;
- (xviii) an amendment to the Access Opportunities Calendar to take into account changes to Railway Operations that are not Planned Railway Operations Changes, in accordance with Section 3.2(c) (*Access Opportunities Calendar*) of Schedule 40 – Rail Corridor Access and Flagging;
- (xix) for all Categories of Access and Subcategories of Access except for a Major Track Closure, a reduction to the length of time that Project Co will be allowed for a Permitted

Rail Corridor Access after the issuance of a Rail Corridor Access Permit, if the reduction is equal to or exceeds the greater of fifteen minutes in total or ten percent of the total planned duration for Rail Corridor Access under the applicable Rail Corridor Access Permit (measured from the date and time the Railway Flag Person was scheduled to arrive at the location of the applicable Works on the Rail Corridor), in accordance with Section 8.1(a)(i)(B) (*Reduction in the Time Allocated for a Permitted Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging;

- (xx) for Non-Disruptive Accesses or White Period Accesses, subject to Section 4.3(d) (*Booking Requests*) of Schedule 40 – Rail Corridor Access and Flagging, a delay to the date or time for any requested Rail Corridor Access after the submission by Project Co of a Booking Request (but in any event prior to the issuance by Metrolinx of a Rail Corridor Access Permit), if Metrolinx fails to give Project Co at least twenty (20) Business Days' prior Notice of the delay or if the delay is for more than seven (7) days, in accordance with Section 8.2(a)(i)(B) (*Delay of a Requested Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging;
- (xxi) an evacuation or shutdown of the Rail Corridor as a result of an Emergency Rail Situation, provided that the Emergency Rail Situation did not arise as a result of an act or omission of Project Co or a Project Co Party, in accordance with Section 10.1(c) (*General – Rail Corridor Safety*) of Schedule 40 – Rail Corridor Access and Flagging;
- (xxii) for all Categories of Access and Subcategories of Access except for a Major Track Closure, if Metrolinx reduces more than twenty-five percent of the total number of Permitted Rail Corridor Accesses, each by less than ten percent of the total planned duration for Rail Corridor Access under the applicable Rail Corridor Access Permit (measured from the date and time the Railway Flag Person was scheduled to arrive at the location of the applicable Works on the Rail Corridor), in accordance with Section 8.1(a)(i)(C) (*Reduction in the Time Allocated for a Permitted Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging; and
- (xxiii) for all Categories of Access and Subcategories of Access except for a Major Track Closure, if Metrolinx reduces more than seventy-five percent of the total number of Permitted Rail Corridor Accesses, each by less than fifteen minutes, in accordance with Section 8.1(a)(i)(D) (*Reduction in the Time Allocated for a Permitted Rail Corridor Access*) of Schedule 40 – Rail Corridor Access and Flagging.

42.2 Consequences of an Excusing Cause

- (a) Provided that the effect of an Excusing Cause is claimed by Project Co, in writing, within ten (10) Business Days of the date on which Project Co or any Project Co Party became aware of the occurrence of such Excusing Cause, then (subject to Sections 42.3 and 42.4):
 - (i) any failure by Project Co to perform, and any poor performance of, any affected Project Co Services shall not constitute a breach of this Project Agreement by Project Co, no Failure Points shall accrue in respect of such failure and Project Co shall be relieved of its

obligations to perform such Project Co Services for the duration and to the extent prevented by such Excusing Cause;

- (ii) any interference shall be taken into account in measuring the performance of any affected Project Co Services in accordance with the Performance Monitoring Program, which shall be operated as though the relevant Project Co Services had been performed free from such adverse interference;
- (iii) any interference shall be taken into account in operating the Payment Mechanism, which shall be operated as though any Availability Failure, Performance Failure or Heavy Civil Failure resulting from such interference had not occurred, so that Project Co shall be entitled to payment under this Project Agreement as if there had been no such interference with the Project Co Services, provided however that Project Co shall not be entitled to any additional compensation, except as may be provided hereunder for compensation on termination of this Project Agreement, if this Project Agreement is terminated as provided herein;
- (iv) this Section 42.2 shall not limit Contracting Authority's entitlement to reimbursement pursuant to Section 32.4;
- (v) Contracting Authority shall reimburse Project Co for all incremental Direct Costs (including all applicable Taxes and all legal or professional services, legal costs being on a full indemnity basis) incurred by Project Co, as a result of any Excusing Cause referred to in Section 42.1(a)(ii), 42.1(a)(iii), 42.1(a)(vi), 42.1(a)(vii), 42.1(a)(ix), 42.1(a)(x), 42.1(a)(xi), 42.1(a)(xii), or 42.1(a)(xvii) including costs arising from any steps taken to cure or mitigate against such events, together with any applicable margin for Overhead and Profit on such Direct Costs as set out in Schedule 22 – Variation Procedure; and
- (vi) the Monthly Service Payments payable by Contracting Authority shall be reduced by any savings in Direct Costs arising from Project Co being relieved of its obligations to perform the Project Co Services, as otherwise provided herein, together with any applicable margin for Overhead and Profit on such Direct Costs as set out in Schedule 22 – Variation Procedure.

42.3 Mitigation

- (a) If Project Co is (or claims to be) affected by an Excusing Cause, Project Co shall, and shall require all Project Co Parties to, take and continue to take commercially reasonable steps:
 - (i) to eliminate or mitigate the consequences of such event upon the performance of its obligations under this Project Agreement;
 - (ii) to continue to perform its obligations under this Project Agreement to the extent possible notwithstanding the Excusing Cause; and
 - (iii) to resume performance of its obligations under this Project Agreement affected by the Excusing Cause as soon as practicable.

- (b) To the extent that Project Co does not comply with its obligations under this Section 42.3, such failure shall be taken into account in determining Project Co's entitlement to relief pursuant to this Section 42.

42.4 Insured Exposure

- (a) The compensation payable to Project Co pursuant to this Section 42 shall be reduced by any amount which Project Co or a Project Co Party recovers, or is entitled to recover, under any insurance policy, or would have recovered if it had complied with the requirements of this Project Agreement in respect of insurance or the terms of any policy of insurance required under this Project Agreement, which amount, for greater certainty, shall not include any excess or deductibles or any amount over the maximum amount insured under any such insurance policy.

43. RELIEF EVENTS

43.1 Definition

- (a) For the purposes of this Project Agreement, "**Relief Event**" means any of the following events or circumstances to the extent, in each case, that it causes any failure by a Party to perform any of its obligations under this Project Agreement:
- (i) fire, explosion, lightning, storm, tempest, hurricane, tornado, flood, bursting or overflowing water tanks, apparatus or pipes, ionizing radiation (to the extent it does not constitute Force Majeure) or earthquake;
 - (ii) failure by any Utility Company, local authority or other like body to provide services or to perform works, (solely in its role as utility service provider or similar service provider to the Project), provided, however, that such a failure shall not, in any event, be cause for a Relief Event, unless Project Co:
 - (A) has performed its obligations under any applicable agreement with the Utility Company with respect to the provision of such services and the relevant Utility Company has failed to meet its obligations thereunder; and
 - (B) has made all, and is continuing to make all, commercially reasonable efforts to diligently enforce its legal rights under any applicable agreement in respect of such services and otherwise cause the Utility Company to perform those works or services;

For clarity, Section 43.1(a)(ii) shall apply only in circumstances where the Utility Company is providing services to Project Co of the type provided by the Utility Company in the normal course of its business. For further clarity, Section 43.1(a)(ii) shall not apply in circumstances where Project Co has entered into a Utility Agreement for the design and construction of Utility Infrastructure and the applicable Utility Company has failed to comply with its obligations under such an agreement;

- (iii) accidental loss or damage to the Works and/or the Ontario Line Subway or any roads servicing the Lands;
- (iv) without prejudice to any obligation of Project Co to provide stand-by power facilities in accordance with this Project Agreement, failure or shortage of power, fuel or transport;
- (v) blockade or embargo that is not a Protest Action and that falls short of an event of Force Majeure;
- (vi) any official or unofficial strike, lockout, work to rule or other labour-related action generally affecting the Ontario Line Subway, the New Third Party Infrastructure, the construction or facility operation or maintenance industry (or a significant sector of that industry) in the Province of Ontario or the operation of subway or metro systems in the Province of Ontario; or
- (vii) the occurrence of a Pandemic and Epidemic Supply Chain Delay.

43.2 Consequences of a Relief Event

(a) Subject to Section 43.3:

- (i) no right of termination, other than either Party's right to terminate this Project Agreement pursuant to Section 47.1, shall arise under this Project Agreement by reason of any failure by a Party to perform any of its obligations under this Project Agreement; and
- (ii) as soon as the events or circumstances constituting a Relief Event have ceased any Failure Points accrued in respect of any failure by Project Co to perform any of its obligations under this Project Agreement shall be cancelled and any related Warning Notices and Monitoring Notices shall be withdrawn,

but only to the extent that such failure to perform, is caused by the occurrence of a Relief Event (it being acknowledged and agreed by the Parties that all other rights and obligations of the Parties under this Project Agreement remain unaffected by the occurrence of a Relief Event). For greater certainty, Contracting Authority shall be entitled to make Deductions in accordance with Schedule 20 – Payment Mechanism notwithstanding the cancellation of Failure Points pursuant to Section 43.2(a)(ii). Any Deduction to Project Co as a result of Relief Events referred to in Section 43.1(a)(v), 43.1(a)(vi) or 43.1(a)(vii) shall not exceed, in the aggregate, the amount that would be necessary to reduce payments to Project Co to an amount below the Senior Debt Service Amount.

(b) In respect of a Relief Event that is also a Delay Event pursuant to Section 40.1(a)(xiii):

- (i) Project Co shall only be relieved of its obligations under this Project Agreement to the extent, if any, provided for in Section 40; and
- (ii) in respect of a Relief Event occurring prior to the Substantial Completion Date affected by that Delay Event and referred to in Section 43.1(a)(ii) (but only in respect of failure by a Utility Company to perform works or provide services), 43.1(a)(v), 43.1(a)(vi) or

43.1(a)(vii), on the earlier of (A) the Substantial Completion Date and (B) the date of payment of the Contracting Authority Default Termination Sum, Non-Default Termination Sum or Breach of Refinancing Termination Sum (and as a part thereof) in accordance with Schedule 23 – Compensation on Termination, Contracting Authority shall pay to Project Co an amount equal to the Senior Debt Service Amount accrued and paid or which became payable in accordance with the Lending Agreements during the period of the delay by Project Co or any Project Co Party to the Senior Lenders up to and including the Scheduled Substantial Completion Date or the date of payment of the Contracting Authority Default Termination Sum, Non-Default Termination Sum or Breach of Refinancing Termination Sum, as applicable, together with interest thereon at the rate payable on the Senior Debt Amount, which, but for the Delay Event, would not have been paid by Project Co to the Senior Lenders.

- (c) If a Relief Event occurs and the effects of the Relief Event continue for one-hundred and eighty (180) days from the date on which the Party affected gives Notice to the other Party pursuant to Section 43.3(c) and provided:
- (i) the effects of the Relief Event continue during such period to prevent Project Co from performing a material part of its obligations under this Project Agreement; and
 - (ii) neither Party has terminated the Project Agreement pursuant to Section 47.1,

then, commencing after such one-hundred and eighty (180) day period, such Relief Event shall be treated as a Compensation Event pursuant to Section 41.1(a). For greater clarity, the entitlement to compensation shall only apply with respect to the period of time after such one-hundred and eighty (180) days during which the conditions set out in this Section 43.2(c) are met.

- (d) If a Relief Event occurs prior to the Substantial Completion Date, Project Co shall not be entitled to receive any compensation other than as expressly provided in Sections 43.2(b)(ii), 43.2(c) and 49.
- (e) During a Relief Event which occurs on or after the Substantial Completion Date, the provisions of Schedule 20 – Payment Mechanism will continue to be in full force and effect, subject to Section 43.2(a).
- (f) Subject to Section 49, Project Co's sole right to payment or otherwise in relation to the occurrence of a Relief Event shall be as provided in this Section 43.

43.3 Mitigation and Process

- (a) Where a Party is (or claims to be) affected by a Relief Event, such Party shall take commercially reasonable steps to mitigate the consequences of the Relief Event upon the performance of its obligations under this Project Agreement, shall resume performance of its obligations affected by the Relief Event as soon as practicable and shall use commercially reasonable efforts to remedy its failure to perform.

- (b) To the extent that the Party claiming relief does not comply with its obligations under this Section 43.3, such failure shall be taken into account in determining Project Co's entitlement to relief pursuant to this Section 43.
- (c) The Party claiming relief shall give written Notice to the other Party within five (5) Business Days of such Party becoming aware of the relevant Relief Event. Such initial Notice shall give sufficient details to identify the particular event claimed to be a Relief Event.
- (d) A subsequent written Notice shall be given by the Party claiming relief to the other Party within a further five (5) Business Days of the initial Notice, which Notice shall contain such relevant information relating to the failure to perform (or delay in performing) as is available, including the effect of the Relief Event on the ability of the Party to perform, the action being taken in accordance with Section 43.3(a), the date of the occurrence of the Relief Event, and an estimate of the period of time required to overcome the Relief Event and/or its effects.
- (e) The Party claiming relief shall notify the other as soon as the consequences of the Relief Event have ceased and of when performance of its affected obligations can be resumed.
- (f) If, following the issue of any Notice referred to in Section 43.3(d), the Party claiming relief receives or becomes aware of any further information relating to the Relief Event and/or any failure to perform, such Party shall submit such further information to the other Party as soon as reasonably possible.

43.4 Insured Exposure

- (a) The compensation payable to Project Co pursuant to this Section 43 shall be reduced by any amount which Project Co or a Project Co Party recovers, or is entitled to recover, under any insurance policy, or would have recovered if it had complied with the requirements of this Project Agreement in respect of insurance or the terms of any policy of insurance required under this Project Agreement, which amount, for greater certainty, shall not include any excess or deductibles or any amount over the maximum amount insured under any such insurance policy.

44. FORCE MAJEURE

44.1 Definition

- (a) For the purposes of this Project Agreement, "**Force Majeure**" means any of the following events or circumstances which directly causes either Party to be unable to perform all or a material part of its obligations under this Project Agreement:
 - (i) war, civil war, armed conflict, terrorism, acts of foreign enemies or hostilities;
 - (ii) nuclear or radioactive contamination of the Works, the Ontario Line Subway and/or the Lands, unless Project Co or any Project Co Party is the source or cause of the contamination;

- (iii) chemical or biological contamination of the Works, the Ontario Line Subway and/or the Lands from any event referred to in Section 44.1(a)(i);
- (iv) pressure waves caused by devices traveling at supersonic speeds; or
- (v) the discovery of any Species-at-Risk, or Items of Interest or Value, which, as a result of Applicable Law, requires the Works to be abandoned.

44.2 Consequences of Force Majeure

- (a) Subject to Section 44.3, the Party claiming relief shall be relieved from liability under this Project Agreement to the extent that, by reason of the Force Majeure, it is not able to perform its obligations under this Project Agreement.
- (b) In respect of an event of Force Majeure that is also a Delay Event pursuant to Section 40.1(a)(xii):
 - (i) Project Co shall only be relieved of its obligations under this Project Agreement to the extent, if any, provided for in Section 40; and
 - (ii) on the earlier of (A) the Substantial Completion Date and (B) the date of payment of the Contracting Authority Default Termination Sum, Non-Default Termination Sum or Breach of Refinancing Termination Sum (and as a part thereof) in accordance with Schedule 23 – Compensation on Termination, Contracting Authority shall pay to Project Co an amount equal to the Senior Debt Service Amount and the Junior Debt Service Amount accrued and paid or which became payable in accordance with the Lending Agreements during the period of delay by Project Co or any Project Co Party to the Lenders up to and including the Scheduled Substantial Completion Date or the date of payment of the Contracting Authority Default Termination Sum, Non-Default Termination Sum or Breach of Refinancing Termination Sum, as applicable, together with interest thereon at the rate or rates payable on the principal amount of debt funded under the Lending Agreements, which, but for the Delay Event, would not have been paid by Project Co to the Lenders.
- (c) If an event of Force Majeure occurs prior to the Substantial Completion Date, Project Co shall not be entitled to receive any compensation other than as expressly provided in Sections 44.2(b)(ii) and 49.
- (d) During an event of Force Majeure which occurs on or after the Substantial Completion Date, the provisions of Schedule 20 – Payment Mechanism will be suspended, and Contracting Authority shall pay to Project Co, for each Payment Period, the Senior Debt Service Amount, the Junior Debt Service Amount and an amount which reflects the cost to Project Co of the Project Co Services performed, provided that, during such Payment Period, the amount paid to Project Co pursuant to this Section 44.2(d) shall never be more than the Maximum Service Payment.
- (e) Subject to the provisions of this Section 44, and with respect to an event of Force Majeure that is not a Delay Event and that arises prior to the Substantial Completion Date, a Property Access

Closure that is directly caused or extended by the occurrence of an event of Force Majeure shall not be included in the Aggregate Actual Property Access Closures or the Aggregate Actual Property Access Closures Cost for the relevant Property Access Area for the purposes of calculating the Property Access Closure Adjustment in accordance with the process set out in Schedule 36 – Property Access Matters.

- (f) Subject to Section 49, Project Co's sole right to payment or otherwise in relation to the occurrence of an event of Force Majeure shall be as provided in this Section 44.

44.3 Mitigation and Process

- (a) Where a Party is (or claims to be) affected by an event of Force Majeure, such Party shall take commercially reasonable steps to mitigate the consequences of such event of Force Majeure upon the performance of its obligations under this Project Agreement, shall resume performance of its obligations affected by the event of Force Majeure as soon as practicable and shall use commercially reasonable efforts to remedy its failure to perform.
- (b) To the extent that the Party claiming relief does not comply with its obligations under this Section 44.3, such failure shall be taken into account in determining such Party's entitlement to relief pursuant to this Section 44.
- (c) The Party claiming relief shall give written Notice to the other Party within five (5) Business Days of such Party becoming aware of the relevant event of Force Majeure. Such initial Notice shall give sufficient details to identify the particular event claimed to be an event of Force Majeure.
- (d) A subsequent written Notice shall be given by the Party claiming relief to the other Party within a further five (5) Business Days of the initial Notice, which Notice shall contain such relevant information relating to the failure to perform (or delay in performing) as is available, including the effect of the event of Force Majeure on the ability of the Party to perform, the action being taken in accordance with Section 44.3(a), the date of the occurrence of the event of Force Majeure, and an estimate of the period of time required to overcome the event of Force Majeure and its effects.
- (e) The Party claiming relief shall notify the other as soon as the consequences of the event of Force Majeure have ceased and of when performance of its affected obligations can be resumed.
- (f) If, following the issue of any Notice referred to in Section 44.3(d), the Party claiming relief receives or becomes aware of any further information relating to the event of Force Majeure and/or any failure to perform, such Party shall submit such further information to the other Party as soon as reasonably possible.

44.4 Insured Exposure

- (a) The compensation payable to Project Co pursuant to this Section 44 shall be reduced by any amount which Project Co or a Project Co Party recovers, or is entitled to recover, under any insurance policy, or would have recovered if it had complied with the requirements of this Project

Agreement in respect of insurance or the terms of any policy of insurance required under this Project Agreement, which amount, for greater certainty, shall not include any excess or deductibles or any amount over the maximum amount insured under any such insurance policy.

44.5 Modifications

- (a) The Parties shall use commercially reasonable efforts to agree to any modifications to this Project Agreement which may be equitable having regard to the nature of an event or events of Force Majeure. Schedule 27 – Dispute Resolution Procedure shall not apply to a failure of Contracting Authority and Project Co to reach agreement pursuant to this Section 44.5.

45. PROJECT CO DEFAULT

45.1 Project Co Events of Default

- (a) Subject to Section 45.1(b), for the purposes of this Project Agreement, “**Project Co Event of Default**” means any one or more of the following events or circumstances:
- (i) the occurrence of any of the following events other than as a consequence of a breach by Contracting Authority of its payment obligations hereunder:
- (A) Project Co admits in writing its inability to pay its debts generally as they become due, or makes a general assignment for the benefit of creditors, or a receiver, manager, administrator, administrative receiver, receiver and manager, trustee, custodian or other similar official or any other like person is appointed by or on behalf of or at the instance of a creditor of Project Co with respect to Project Co or any of the property, assets or undertaking of Project Co, or any creditor of Project Co takes control, or takes steps to take control, of Project Co or any of Project Co’s assets, or any proceedings are instituted against Project Co that result in Project Co being declared or ordered bankrupt or in administration, liquidation, winding-up, reorganization, compromise, arrangement, adjustment, protection, relief or composition of it or with respect to it or its debts or obligations, or any such proceedings are instituted by Project Co seeking any such result, or any such proceedings are instituted by a person other than Project Co, Contracting Authority, a Contracting Authority Party or a person related to any of them seeking such result and such proceedings have or will have a material adverse effect on the Governmental Activities or the availability of the Ontario Line Subway to System Users (where such proceedings have not been withdrawn, stayed, discharged, or are otherwise of no further effect, within ninety (90) days of being instituted), under any Applicable Law (including the *Bankruptcy and Insolvency Act* (Canada) and the *Companies’ Creditors Arrangement Act* (Canada)) relating to bankruptcy, insolvency or reorganization of or relief with respect to debtors or debtors’ obligations or assets or other similar matters, or seeking the appointment of a receiver, manager, administrator, administrative receiver, receiver and manager, trustee, custodian or other similar official or like person for it or with respect to any of its assets, or any resolutions

- are passed or other corporate actions of Project Co are taken to authorize any of the actions set forth in this Section 45.1(a)(i)(A);
- (B) Project Co ceases performing a substantial portion of its business, or a substantial portion of such business is suspended or is not being performed, whether voluntarily or involuntarily, that has or will have a material adverse effect on Project Co's ability to perform its obligations under this Project Agreement;
 - (C) if any execution, sequestration, extent, garnishment or other process of or order by any court becomes enforceable against Project Co or if a distress or analogous process is levied against any property of Project Co that materially adversely affects Project Co's ability to perform its obligations hereunder; or
 - (D) Project Co suffers any event, or any event or set of circumstances occurs or comes about, analogous to the foregoing events or sets of circumstances set out in this Section 45.1(a)(i) in any jurisdiction in which it is incorporated or resident and such event or set of circumstances would, if set out in Section 45.1(a)(i)(A), (B) or (C), constitute a Project Co Event of Default;
- (ii) Project Co failing to achieve Substantial Completion within three-hundred and sixty-five (365) days after the Scheduled Substantial Completion Date (the "**Longstop Date**");
 - (iii) Project Co either:
 - (A) failing to deliver a Recovery Works Schedule under Section 14.1(b) (*Failure to Maintain Schedule for the Works*) of Schedule 12 – Works Schedule Requirements;
 - (B) delivering a Recovery Works Schedule under Section 14.1(b) (*Failure to Maintain Schedule for the Works*) of Schedule 12 – Works Schedule Requirements that indicates that Project Co will not achieve Substantial Completion by the Longstop Date; or
 - (C) delivering a Recovery Works Schedule under Section 14.1(b) (*Failure to Maintain Schedule for the Works*) of Schedule 12 – Works Schedule Requirements that is not acceptable to the Independent Certifier, acting reasonably, as to the matters set out in Section 14.1(c) (*Failure to Maintain Schedule for the Works*) of Schedule 12 – Works Schedule Requirements;
 - (iv) Project Co making any representation or warranty herein that is false or misleading when made, and that has or will have at any time a material adverse effect on the performance of Project Operations, the Governmental Activities or the availability of the Ontario Line Subway to System Users, or that may compromise (A) Contracting Authority's reputation or integrity, or (B) the nature of any of the public transit systems within the City of Toronto so as to affect public confidence in any of the public transit systems within such area or the Project and, in the case of a false or misleading representation or warranty that

is capable of being remedied, such breach is not remedied within ten (10) Business Days of receipt of Notice of the same from Contracting Authority;

- (v) Project Co committing a breach of Section 52 or Section 53 or a breach of its obligations under this Project Agreement (other than a breach that is referred to in Sections 45.1(a)(i) to (iv) inclusive or 45.1(a)(vi) to (xx) inclusive) which has or will have a material adverse effect on the Governmental Activities or the availability of the Ontario Line Subway to System Users, other than where such breach is a consequence of a breach by Contracting Authority of its obligations under this Project Agreement, and upon becoming aware of such breach Project Co failing to remedy such breach in accordance with all of the following:
 - (A) Project Co shall:
 - (I) immediately commence and thereafter diligently continue to remedy the breach and to mitigate any adverse effects on Contracting Authority and the Governmental Activities or the availability of the Ontario Line Subway to System Users;
 - (II) put forward, within seven (7) Business Days of receipt of Notice of such breach from Contracting Authority, a reasonable plan and schedule for diligently remedying the breach and mitigating its effect, which plan and schedule shall specify in reasonable detail the manner in which, and the latest date by which, such breach is proposed to be remedied, which latest date shall in any event be within ninety (90) days of Notice of such breach, or if such breach is not capable of being rectified in such period then such longer period as is reasonable in the circumstances; and
 - (III) thereafter perform its obligations to achieve all elements of such plan and schedule in accordance with its terms within the time for the performance of its obligations thereunder; and
 - (B) upon Project Co failing to comply with any of the provisions of Section 45.1(a)(v)(A):
 - (I) Project Co shall continue to diligently remedy the breach and to mitigate any adverse effects on Contracting Authority and the Governmental Activities or the availability of the Ontario Line Subway to System Users;
 - (II) Project Co shall, within five (5) Business Days after Notice from Contracting Authority, submit a plan and schedule, which Contracting Authority shall have no obligation to accept, for remedying the breach and mitigating its effect within such period, if any, acceptable to Contracting Authority, in its sole discretion, and thereafter perform its obligations to achieve all elements of such plan and schedule in

accordance with its terms within the time for the performance of its obligations thereunder; and

- (III) for greater certainty, Project Co failing to comply with any of the provisions of this Section 45.1(a)(v)(B), or Contracting Authority, in its sole discretion, not accepting the plan and schedule submitted by Project Co pursuant to Section 45.1(a)(v)(B)(II), shall constitute a Project Co Event of Default;
- (vi) Project Co wholly abandoning the Works for a period which exceeds three (3) Business Days from receipt by Project Co of a written request to return to the Site, other than as a consequence of a breach by Contracting Authority of its obligations under this Project Agreement;
- (vii) Project Co ceasing to perform any Project Co Services in accordance with this Project Agreement which is necessary for the Governmental Activities or the availability of the Ontario Line Subway to System Users, other than as a consequence of a breach by Contracting Authority of its obligations under this Project Agreement;
- (viii) Project Co failing to comply with Sections 59.1 or 59.3;
- (ix) the occurrence of any Change in Ownership or Change in Control which is prohibited by Section 59.4;
- (x) Project Co being awarded a total of [REDACTED] or more Failure Points in any rolling three Payment Periods;
- (xi) Project Co being awarded a total of [REDACTED] or more Failure Points in any rolling six Payment Periods;
- (xii) Project Co being awarded a total of [REDACTED] or more Failure Points in any rolling 12 Payment Periods;
- (xiii) Project Co failing to remove an Encumbrance that arose (I) due to an act or omission of Project Co or any Project Co Party, (II) in relation to the Works, or (III) in relation to the Project Co Services (other than any Encumbrance derived through Contracting Authority) within forty-five (45) days of the earlier of:
 - (A) the registration of such Encumbrance against title to the Lands or any part thereof; and
 - (B) the date on which Project Co or any Project Co Party knew, or ought to have known, about the existence of the Encumbrance;
- (xiv) Project Co failing to pay any sum or sums due to Contracting Authority under this Project Agreement, which sum or sums are not being disputed in accordance with Schedule 27 – Dispute Resolution Procedure or have not been set off by Project Co pursuant to Section

34.12(a)(ii), and which sum or sums, either singly or in aggregate, exceed(s) \$[REDACTED] (index linked), and such failure continues for forty-five (45) days from receipt by Project Co of a Notice of Non-Payment from Contracting Authority;

- (xv) Project Co failing to comply with Section 60;
- (xvi) Project Co failing to comply with Section 7.3 or Schedule 28 – Refinancing;
- (xvii) Project Co failing to obtain any bond, security or insurance required to be obtained by or on behalf of Project Co pursuant to this Project Agreement or any such bond, security or insurance being vitiated or otherwise ceasing to be in full force and effect or in material compliance with the requirements set out in this Project Agreement, other than as a consequence of a breach by Contracting Authority of its obligations under this Project Agreement, and:
 - (A) in respect of insurance, such breach by Project Co is not remedied within ten (10) Business Days of the occurrence of the breach; and
 - (B) in respect of a bond or security, such breach by Project Co is not remedied within five (5) Business Days of Project Co becoming aware of such breach;
- (xviii) Project Co failing to comply with any determination, decision, order or award made against Project Co in accordance with Schedule 27 – Dispute Resolution Procedure;
- (xix) at any time after the Substantial Completion Date, Project Co committing a breach of its obligations under this Project Agreement (other than as a consequence of a breach by Contracting Authority of its obligations under this Project Agreement) which results in a health and safety related criminal conviction or a conviction under the *Occupational Health and Safety Act* (Ontario) against Project Co or any Project Co Party or Contracting Authority (an “**H&S Conviction**”) provided however that:
 - (A) an H&S Conviction against Project Co, a Project Co Party or Contracting Authority shall not constitute a Project Co Event of Default if, within ninety (90) days from the date of the H&S Conviction (whether or not the H&S Conviction is subject to an appeal or any further judicial process), the involvement in the Project Operations of each relevant Project Co Party (which in the case of an individual director, officer or employee shall be deemed to include the Project Co Party of which that person is a director, officer or employee) is terminated in accordance with Section 59.3 or Project Co takes such other disciplinary action against each such Project Co Party as is acceptable to Contracting Authority, in its sole discretion; and
 - (B) in determining whether to exercise any right of termination for a Project Co Event of Default pursuant to this Section 45.1(a)(xix), Contracting Authority shall:

- (I) act in a reasonable and proportionate manner having regard to such matters as the gravity of any offence and the identity of the person committing the act leading to the H&S Conviction; and
 - (II) give consideration, where appropriate, to action other than termination of this Project Agreement; and
- (xx) Project Co failing to comply with Section 28.4 and Section 28.8.
- (b) Contracting Authority shall not exercise any rights under this Section 45 (except its rights under Section 45.5(a)(i)) as a result of a Project Co Event of Default referred to in Sections 45.1(a)(vii), 45.1(a)(x), 45.1(a)(xi) and 45.1(a)(xii) until the day following the Substantial Completion Payment Date. For greater certainty, if Contracting Authority is prevented from exercising any rights under this Section 45 by the terms of the immediately preceding sentence, then, notwithstanding the passage of time or any intervening event (including that Contracting Authority may have exercised its rights under Section 45.5(a)), on and after the day following the Substantial Completion Payment Date, Contracting Authority may exercise any such rights.

45.2 Notification of Occurrence

- (a) Project Co shall, promptly upon Project Co becoming aware of the occurrence, notify Contracting Authority of the occurrence, and details, of any Project Co Event of Default and of any event or circumstance which is likely, with the passage of time, giving of Notice, determination of any condition, or otherwise, to constitute or give rise to a Project Co Event of Default.

45.3 Right to Termination

- (a) On the occurrence of a Project Co Event of Default, or at any time after Contracting Authority becomes aware of a Project Co Event of Default (and, if the occurrence of a Project Co Event of Default is disputed by Project Co in good faith, then following confirmation that a Project Co Event of Default has occurred in accordance with Schedule 27 – Dispute Resolution Procedure or the Integration Dispute Resolution Procedure, as applicable), Contracting Authority may, subject to Section 45.4, terminate this Project Agreement in its entirety by written Notice having immediate effect, such Notice to be given to Project Co, and to any person specified in the Lenders' Direct Agreement to receive such Notice.
- (b) Notwithstanding Section 45.3(a) above, on the occurrence of a Project Co Event of Default set out in Sections 45.1(a)(i), 45.1(a)(ix) (but only in respect of a breach of Sections 59.4(a) or 59.4(b)(i)), 45.1(a)(xv) or 45.1(a)(xix), Contracting Authority may, subject to Section 45.4, terminate this Project Agreement in its entirety by written Notice having immediate effect, prior to and without the need to obtain confirmation through Schedule 27 – Dispute Resolution Procedure, such Notice to be given to Project Co, and to any person specified in the Lenders' Direct Agreement to receive such Notice.

45.4 Remedy Provisions

- (a) In the case of a Project Co Event of Default referred to in Sections 45.1(a)(i)(B), 45.1(a)(i)(C), 45.1(a)(i)(D) (where the Project Co Event of Default referred to in Section 45.1(a)(i)(D) is analogous to a Project Co Event of Default referred to in Section 45.1(a)(i)(B) or 45.1(a)(i)(C)), 45.1(a)(iii), 45.1(a)(iv), 45.1(a)(vi), 45.1(a)(vii), 45.1(a)(viii), 45.1(a)(ix) (where the Project Co Event of Default referred to in Section 45.1(a)(ix) is capable of being remedied), 45.1(a)(xiv), 45.1(a)(xvi), 45.1(a)(xvii) (where the Project Co Event of Default referred to in Section 45.1(a)(xvii) is not in respect of insurance), 45.1(a)(xviii), 45.1(a)(xix), or 45.1(a)(xx), Contracting Authority shall, prior to being entitled to terminate this Project Agreement, give Notice of default to Project Co, and to any person specified in the Lenders' Direct Agreement to receive such Notice, and Project Co shall:
- (i) within seven (7) Business Days of such Notice of default, put forward a reasonable plan and schedule for diligently remedying the Project Co Event of Default, which schedule shall specify in reasonable detail the manner in, and the latest date by which, such Project Co Event of Default is proposed to be remedied, which latest date shall, in any event, be within forty-five (45) days of the Notice of default, or if such breach is not capable of being remedied in such period then such longer period as is acceptable to Contracting Authority, acting reasonably; and
 - (ii) thereafter, perform its obligations to achieve all elements of such plan and schedule in accordance with its terms within the time for the performance of its obligations thereunder.
- (b) Where Project Co puts forward a plan and schedule in accordance with Section 45.4(a)(i) that has a date for the Project Co Event of Default to be remedied that is beyond forty-five (45) days from the Notice of default, Contracting Authority shall have five (5) Business Days from receipt of the same within which to notify Project Co that Contracting Authority does not accept such longer period in the plan and schedule and that the forty-five (45) day limit will apply, failing which Contracting Authority shall be deemed to have accepted the longer period in the plan and schedule.
- (c) If a Project Co Event of Default, of which a Notice of default was given under Section 45.4(a), occurs and:
- (i) Project Co fails to immediately commence and thereafter diligently continue to remedy the Project Co Event of Default and to mitigate any adverse effects on Contracting Authority and the Governmental Activities or the availability of the Ontario Line Subway to System Users; or
 - (ii) Project Co fails to put forward a plan and schedule pursuant to Section 45.4(a)(i); or
 - (iii) such Project Co Event of Default is not remedied within forty-five (45) days of such Notice of default or such longer period as is established pursuant to the plan and schedule established pursuant to Sections 45.4(a) and (b); or

- (iv) where Project Co puts forward a plan and schedule pursuant to Section 45.4(a)(i) and Project Co fails to perform its obligations thereunder necessary to achieve all elements of such plan and schedule in accordance with its terms within the time for the performance of its obligations,

then Contracting Authority may terminate this Project Agreement in its entirety by written Notice with immediate effect, such Notice to be given to Project Co, and to any person specified in the Lenders' Direct Agreement to receive such Notice.

- (d) Notwithstanding that Contracting Authority may give the Notice referred to in Section 45.4(a), and without prejudice to the other rights of Contracting Authority in this Section 45.4, at any time during which a Project Co Event of Default is continuing, Contracting Authority may, at Project Co's risk and expense, take such steps as Contracting Authority considers appropriate, either itself or by engaging others (including a third party) to take such steps, to perform or obtain the performance of Project Co's obligations under this Project Agreement or to remedy such Project Co Event of Default.
- (e) Upon the occurrence of a Project Co Event of Default that Project Co has remedied pursuant to this Section 45.4, such occurrence of a Project Co Event of Default shall thereafter cease to be a Project Co Event of Default and Contracting Authority shall not be entitled to terminate this Project Agreement for that occurrence of a Project Co Event of Default.

45.5 Replacement of Non-Performing Service Provider

- (a) Contracting Authority may, acting reasonably, require Project Co to terminate the Service Provider and ensure that a replacement Service Provider is appointed in accordance with Section 59.3 to provide the Project Co Services within sixty (60) days:
- (i) as an alternative to termination of this Project Agreement pursuant to Sections 45.3 or 45.4, in any circumstance in which Contracting Authority could exercise such right of termination, if the Project Co Event of Default was caused, or substantially contributed to, by the Service Provider or otherwise relates to the Project Co Services; or
- (ii) if Project Co accrues, in any rolling six Payment Periods more than:
- (A) [REDACTED] Failure Points in respect of Trip Availability Failures;
- (B) [REDACTED] Failure Points in respect of Station Availability Failures;
- (C) [REDACTED] Failure Points in respect of All Availability Failures combined;
or
- (D) [REDACTED] Failure Points in respect of Performance Failures and Heavy Civil Failures, combined,

provided that this Section 45.5 shall not give rise to partial termination of either the obligation to provide the Project Operations or this Project Agreement.

- (b) If Contracting Authority exercises its rights under this Section 45.5, Project Co shall, within five (5) Business Days, put forward a proposal for the interim management or performance of the Project Co Services until such time as a replacement Service Provider can be engaged by Project Co. If Project Co fails to do so, or if its proposal is not reasonably likely to give adequate performance of the Project Co Services and the Parties cannot agree within a further three (3) Business Days to a plan for the interim management or performance of the Project Co Services, then, without prejudice to the other rights of Contracting Authority in this Section 45.5, Contracting Authority itself may perform, or engage others (including a third party) to perform, the Project Co Services and Section 32.4 shall apply, *mutatis mutandis*, to the Project Co Services. Any Dispute in respect of the interim management or provision of the Project Co Services may be referred for resolution in accordance with Schedule 27 – Dispute Resolution Procedure.
- (c) If Project Co fails to terminate, or secure the termination of, the Service Provider and to secure a replacement Service Provider in accordance with this Section 45.5, Contracting Authority shall be entitled to exercise its termination rights in accordance with Sections 45.3 and 45.4, as applicable.
- (d) Where a replacement Service Provider is appointed in accordance with this Section 45.5, [REDACTED]% of the Failure Points accrued by Project Co prior to such replacement shall be cancelled.

45.6 Contracting Authority's Costs

- (a) Project Co shall reimburse Contracting Authority for all reasonable costs (including all applicable Taxes and all legal or professional services, legal costs being on a full indemnity basis) properly incurred by Contracting Authority in exercising its rights under this Section 45, including any relevant increased administrative expenses. Contracting Authority shall take commercially reasonable steps to mitigate such costs.

45.7 No other Rights to Terminate

- (a) Contracting Authority shall have no right or entitlement to terminate this Project Agreement, or to accept any repudiation of this Project Agreement, and shall not purport to exercise any such right or entitlement except as set forth in Sections 45 and 47.

46. CONTRACTING AUTHORITY'S DEFAULT

46.1 Contracting Authority Events of Default

- (a) For the purposes of this Project Agreement, “**Contracting Authority Event of Default**” means any one or more of the following events or circumstances:
 - (i) Contracting Authority failing to pay any sum or sums due to Project Co under this Project Agreement, which sum or sums are not being disputed in accordance with Schedule 27 – Dispute Resolution Procedure or have not been set off by Contracting Authority pursuant to Section 34.12(a)(i), and which sum or sums, either singly or in aggregate, exceed(s) \$[REDACTED] (index linked), and:

- (A) in respect of the Substantial Completion Payment, such failure continues for thirty (30) Business Days;
- (B) in respect of the First Milestone Payment, Second Milestone Payment, Third Milestone Payment or Fourth Milestone Payment, such failure continues for a period of thirty (30) days;
- (C) subject to Section 46.1(a)(i)(D), in respect of any Monthly Service Payment, such failure continues for thirty (30) days;
- (D) in respect of any three Monthly Service Payments in any rolling nine (9) month period, such failure continues for fifteen (15) Business Days in respect of each such Monthly Service Payment; or
- (E) in respect of any other payment due and payable by Contracting Authority to Project Co under this Project Agreement, such failure continues for ninety (90) days,

in any such case, from receipt by Contracting Authority of a Notice of Non-Payment from or on behalf of Project Co;

- (ii) Contracting Authority committing a material breach of its obligations under Section 14 (other than as a consequence of a breach by Project Co of its obligations under this Project Agreement), which breach materially adversely affects the ability of Project Co to perform all or substantially all of its remaining obligations under this Project Agreement for a continuous period of not less than sixty (60) days, and after receipt of a Notice of such breach from Project Co, Contracting Authority failing to remedy such breach in accordance with all of the following:

- (A) Contracting Authority shall:
 - (I) immediately commence and thereafter diligently continue to remedy the breach and to use commercially reasonable efforts to mitigate any adverse effects on Project Co;
 - (II) put forward, within five (5) Business Days of receipt of the Notice referred to in this Section 46.1(a)(ii), a reasonable plan and schedule for diligently remedying the breach and mitigating its effect, which plan and schedule shall specify in reasonable detail the manner in which, and the latest date by which, such breach is proposed to be remedied, which latest day shall in any event be within sixty (60) days of such Notice, or if such breach is not capable of being rectified in such period, then such longer period as is reasonable in the circumstances; and
 - (III) thereafter, perform its obligations to achieve all elements of such plan and schedule in accordance with its terms within the time for the performance of its obligations thereunder; or

- (iii) an act of any Governmental Authority which renders it impossible for Project Co to perform all or substantially all of its remaining obligations under this Project Agreement (other than as a consequence of a breach by Project Co of its obligations under this Project Agreement) for a continuous period of not less than sixty (60) days (for greater certainty, the non-issuance of, or the imposition of any conditions or limitations in, any of the Project Co Permits, Licences, Approvals and Agreements shall not constitute an “act of any Governmental Authority”).

46.2 Project Co’s Options

- (a) On the occurrence of a Contracting Authority Event of Default and while the same is continuing, Project Co may give Notice to Contracting Authority of the occurrence of such Contracting Authority Event of Default, which Notice will specify the details thereof. If Project Co gives such Notice and the applicable Contracting Authority Event of Default has not been remedied within thirty (30) days of receipt by Contracting Authority of Notice of the occurrence of such Contracting Authority Event of Default, at Project Co’s option and without prejudice to its other rights and remedies under this Project Agreement, Project Co may:
 - (i) suspend performance of the Works and the Project Co Services until such time as Contracting Authority has remedied such Contracting Authority Event of Default; or
 - (ii) terminate this Project Agreement in its entirety by Notice in writing having immediate effect.

46.3 Project Co’s Costs

- (a) Contracting Authority shall reimburse Project Co for all reasonable costs (including all applicable Taxes and all legal or professional services, legal costs being on a full indemnity basis) properly incurred by Project Co in exercising its rights under this Section 46, including any relevant increased administrative expenses. Project Co shall take commercially reasonable steps to mitigate such costs.

46.4 No Other Rights to Terminate

- (a) Project Co shall have no right or entitlement to terminate this Project Agreement, nor to accept any repudiation of this Project Agreement, and shall not exercise, nor purport to exercise, any such right or entitlement except as expressly set forth in this Project Agreement.

47. RELIEF EVENT AND NON-DEFAULT TERMINATION

47.1 Termination for Relief Event

- (a) Subject to Section 47.1(b), if a Relief Event occurs and the effects of the Relief Event continue for one-hundred and eighty (180) days from the date on which the Party affected gives Notice to the other Party pursuant to Section 43.3(c), either Party may, at any time thereafter, terminate this Project Agreement by written Notice to the other Party having immediate effect, provided that the

effects of the Relief Event continue during such period to prevent either Party from performing all or substantially all of its obligations under this Project Agreement.

- (b) Neither Party shall be entitled to exercise its right to terminate this Project Agreement in accordance with Section 47.1(a) if Project Co or a Project Co Party recovers, or is entitled to recover, under any insurance policy, or would have recovered if it had complied with the requirements of this Project Agreement in respect of insurance or the terms of any policy of insurance required under this Project Agreement, an amount which, together with the Monthly Service Payment, is equal to or greater than [REDACTED]% of the Maximum Service Payment for the relevant Payment Period.

47.2 Termination for Force Majeure

- (a) If an event of Force Majeure occurs and the Parties, having used commercially reasonable efforts, have failed to reach agreement on any modification to this Project Agreement pursuant to Section 44.5 within one-hundred and eighty (180) days from the date on which the Party affected gives Notice to the other Party as set out therein, either Party may, at any time thereafter, terminate this Project Agreement by written Notice to the other Party having immediate effect, provided that the effects of the event of Force Majeure continue during such period to prevent either Party from performing all or substantially all of its obligations under this Project Agreement.

47.3 Termination for Convenience

- (a) Contracting Authority shall, in its sole discretion and for any reason whatsoever, be entitled to terminate this Project Agreement at any time on one-hundred and eighty (180) days' written Notice to Project Co.
- (b) In the event of Notice being given by Contracting Authority in accordance with this Section 47.3, Contracting Authority shall, at any time before the expiration of such Notice, be entitled to direct Project Co to refrain from commencing, or allowing any third party to commence, the Works, or any part or parts of the Works, or the Project Co Services, or any element of the Project Co Services, where such Works or Project Co Services have not yet been commenced.

47.4 Automatic Expiry on Expiry Date

- (a) This Project Agreement shall terminate automatically on the Expiry Date.
- (b) Project Co shall not be entitled to any compensation due to termination of this Project Agreement on expiry of the Project Term on the Expiry Date.

47.5 Termination for Failure to Obtain System Extension Lenders' Consent

- (a) Project Co acknowledges Contracting Authority's right to terminate the Project Agreement pursuant to and in accordance with Section 3.4(c)(ii) (*Failure to Obtain Lenders' Consent*) of Schedule 44 – System Extension as a result of a failure of Project Co to obtain from all Lenders the System Extension Lenders' Consent or a waiver of the requirement for the System Extension Lenders' Consent under the Lending Agreements.

47.6 Termination for Site Condition Event

- (a) If a Site Condition Event occurs which entitles Project Co to Delay Event relief pursuant to Section 40, and the effects on the Site Condition Event continue for one-hundred and eighty (180) days from the date on which either Party becomes aware of such event, Contracting Authority may, at any time thereafter, terminate this Project Agreement by written notice to Project Co having immediate effect, provided that the effects of the Site Condition Event continue during such period to prevent either Party from performing a material part of its obligations under the Project Agreement.

47.7 Termination due to Protest Action

- (a) If a Protest Action occurs which entitles Project Co to Delay Event relief pursuant to Section 40 and the effects of such Protest Action continue for one-hundred and eighty (180) days from the date on which Project Co gives Notice to Contracting Authority pursuant to Section 40.2(a), Contracting Authority may, at any time thereafter, terminate this Project Agreement by written Notice to Project Co having immediate effect, provided that the effects of such Protest Action continue during such period.

48. EFFECT OF TERMINATION AND TRANSITIONAL ARRANGEMENTS

48.1 Termination

- (a) Notwithstanding any provision of this Project Agreement, upon the service of a Notice of termination or termination on the Expiry Date pursuant to Section 47.4, this Section 48 shall apply in respect of such termination.

48.2 Continued Effect – No Waiver

- (a) Notwithstanding any breach of this Project Agreement by a Party, the other Party may elect to continue to treat this Project Agreement as being in full force and effect and to enforce its rights under this Project Agreement without prejudice to any other rights which such other Party may have in relation to such breach. The failure of either Party to exercise any right under this Project Agreement, including any right to terminate this Project Agreement and any right to claim damages, shall not be deemed to be a waiver of such right for any continuing or subsequent breach.

48.3 Continuing Performance

- (a) Subject to any exercise by Contracting Authority of its rights to perform, or to seek, pursuant to this Project Agreement, a third party to perform, the obligations of Project Co, the Parties shall continue to perform their obligations under this Project Agreement (including, if applicable, pursuant to Schedule 23 – Compensation on Termination) notwithstanding the giving of any Notice of default or Notice of termination, until the termination of this Project Agreement becomes effective in accordance with this Section 48.

48.4 Effect of Notice of Termination

- (a) On the service of a Notice of termination, or termination on the Expiry Date pursuant to Section 47.4:
- (i) if termination is prior to the Substantial Completion Date, in so far as any transfer shall be necessary to fully and effectively transfer such property to Contracting Authority as shall not already have been transferred to Contracting Authority pursuant to Section 55.1, Project Co shall transfer to, and there shall vest in, Contracting Authority, free from all Encumbrances (other than the Encumbrances caused or consented to by Contracting Authority), such part of the Works, the Ontario Line Subway, the New City Infrastructure, the New TTC Infrastructure, the New Railway Company Infrastructure, and the TOC Infrastructure as shall have been constructed and such items of plant, infrastructure and equipment as shall have been procured by Project Co, and, if Contracting Authority so elects:
 - (A) all plant, equipment and materials (other than those referred to in Section 48.4(a)(i)(B)) on or near to the Site shall remain available to Contracting Authority for the purposes of completing the Works; and
 - (B) all construction plant and equipment shall remain available to Contracting Authority for the purposes of completing the Works, subject to payment by Contracting Authority of the Construction Contractor's reasonable charges;
 - (ii) if termination is prior to the Substantial Completion Date, Project Co shall deliver to Contracting Authority (to the extent such items have not already been delivered to Contracting Authority) one complete set of all Project Data and Intellectual Property relating to the design, construction and completion of the Works, the Ontario Line Subway, the New City Infrastructure, the New TTC Infrastructure, the New Railway Company Infrastructure, and the TOC Infrastructure;
 - (iii) in so far as title shall not have already passed to Contracting Authority pursuant to Section 55.1 or Section 48.4(a)(i), Project Co shall hand over to, and there shall vest in, Contracting Authority, free from all Encumbrances (other than any Encumbrances caused or consented to by Contracting Authority), the Ontario Line Subway, the New City Infrastructure, the New TTC Infrastructure, the New Railway Company Infrastructure, and TOC Infrastructure, together with all other assets and rights capable of being transferred that are necessary for the performance of the Project and the Project Operations and all facilities and equipment including, notwithstanding that termination may occur prior to the Expiry Date, the verification and transfer of inventory as set forth in Part 5 (Expiry Date Requirements) of the Project Co Services Requirements, and to the extent that any such assets or rights are not capable of being transferred by Project Co to Contracting Authority, Project Co shall enter into agreements or make other arrangements in order to permit the use of the assets or rights by Contracting Authority in order to enable it, or its designated agents or subcontractors, to continue to perform the activities which would have otherwise been performed by Project Co if this Project Agreement had not been terminated;

- (iv) if Contracting Authority so elects, Project Co shall ensure that any of the Subcontracts between Project Co and a Subcontractor (including the Construction Contract and the Service Contract), and any other instrument entered into between any such Subcontractor and Project Co for securing the performance by such Subcontractor of its obligations in respect of the Project Operations or to protect the interests of Project Co, shall be novated or assigned to Contracting Authority or its nominee, provided that where termination occurs other than as a result of a Project Co Event of Default, the consent of the relevant Subcontractor shall be required, and further provided that any such novation or assignment of a Subcontract with any Contractor shall be made to Contracting Authority pursuant to, and subject to, the terms of the applicable Direct Agreement;
- (v) Project Co shall, or shall ensure that any Project Co Party shall, offer to sell (and if Contracting Authority so elects, execute such sale) to Contracting Authority at a fair value (determined as between a willing vendor and willing purchaser, with any Disputes as to such fair value being resolved in accordance with Schedule 27 – Dispute Resolution Procedure), free from all Encumbrances (other than any Encumbrances caused or consented to by Contracting Authority), all or any part of the stocks of material and other assets, Road Vehicles, construction equipment, spare parts and other moveable property owned by Project Co or any Project Co Parties and dedicated to or predominantly used in respect of the Ontario Line Subway, and reasonably required by Contracting Authority in connection with the operation of the Ontario Line Subway or the performance of the Project Co Services;
- (vi) Project Co shall deliver to Contracting Authority (to the extent such items have not already been delivered to Contracting Authority) one complete set of:
 - (A) the most recent Record Drawings in the format that Contracting Authority, acting reasonably, considers most appropriate at the time showing all alterations made to the Ontario Line Subway since the Substantial Completion Date;
 - (B) the most recent maintenance, operation and training manuals for the Ontario Line Subway; and
 - (C) current regulations and standards governing the Ontario Line Subway.
- (vii) Project Co shall use commercially reasonable efforts to assign, or otherwise transfer, to Contracting Authority, free from all Encumbrances (other than any Encumbrances caused or consented to by Contracting Authority), the benefit of all manufacturers' warranties, including all documentation in respect thereof, in respect of mechanical and electrical plant and equipment used or made available by Project Co under this Project Agreement and included in the Ontario Line Subway, the New City Infrastructure, the New TTC Infrastructure, the New Railway Company Infrastructure, and the TOC Infrastructure;
- (viii) Project Co shall deliver to Contracting Authority all information, reports, documents, records and the like referred to in Section 37, including as referred to in Schedule 26 – Record Provisions, except where such are required by Applicable Law to be retained by

Project Co or the Project Co Parties (in which case complete copies shall be delivered to Contracting Authority);

- (ix) in the case of the termination of this Project Agreement on the Expiry Date in accordance with Section 47.4, the Ontario Line Subway and elements of the Ontario Line Subway shall be in the condition required in accordance with Section 50 and Schedule 24 – Expiry Transition Procedure; and
- (x) in the case of termination prior to the Expiry Date, Project Co shall implement the requirements set out in Section 2.4 (*Expiry Date Requirements*) of the Output Specifications, taking into account the circumstances of termination occurring prior to the Expiry Date, and meet any timeframes set out in the notice of termination for the implementation of such requirements.

48.5 Ownership of Information

- (a) Subject to Section 51, all information obtained by Project Co, including the Record Drawings and other technical drawings and data, supplier agreements and contracts, utilities consumption information, environmental and technical reports, lease, licence and subletting data and contracts, asset condition data, standard operating procedures, processes and manuals and all other information directly related to the Project Operations accumulated over the course of the Project Term shall be the property of Contracting Authority and upon termination of this Project Agreement shall be provided or returned to Contracting Authority, as applicable, in electronic format acceptable to Contracting Authority, acting reasonably, where it exists in electronic format, and in its original format, when not in electronic format.

48.6 Provision in Subcontracts

- (a) Project Co shall make provision in all Subcontracts to which it is a party (including requiring the relevant Project Co Parties to make such provision and to require other Project Co Parties to make such provision) to ensure that Contracting Authority shall be in a position to exercise its rights, and Project Co shall be in a position to perform its obligations, under this Section 48.

48.7 Transitional Arrangements

- (a) On the termination of this Project Agreement for any reason, for a reasonable period both before and after any such termination, Project Co shall, subject to the continued performance of Project Co Services pursuant to Sections 3.2 (*Retendering Election*) and 3.3 (*Retendering Procedure*) of Schedule 23 – Compensation on Termination if applicable:
 - (i) cooperate fully with Contracting Authority and any successors providing services in the nature of any of the Project Co Services and any part of the Project Co Services in order to achieve a smooth transfer of the manner in which the Project Co Services are performed and to avoid or mitigate, in so far as reasonably practicable, any inconvenience or any risk to the health and safety of any System Users;

- (ii) as soon as practicable remove from the Lands all property belonging to Project Co or any Project Co Party that is not acquired by Contracting Authority pursuant to Section 48.4 or otherwise, and, if Project Co has not done so within sixty (60) days after any Notice from Contracting Authority requiring it to do so, Contracting Authority may, without being responsible for any loss, damage, costs or expenses, remove and sell any such property and shall hold any proceeds, less all costs incurred to the credit of Project Co;
 - (iii) forthwith deliver to the Contracting Authority Representative:
 - (A) all keys to, and any pass cards and other devices used to gain access to any part of the Ontario Line Subway; and
 - (B) to the extent transferable and without prejudice to Contracting Authority's rights pursuant to Section 51, any Copyright licences for any computer programs, or licences to use the same, used in connection with the operation of the Ontario Line Subway; and
 - (iv) as soon as practicable vacate the Lands and, without limiting Project Co's obligations under Schedule 24 – Expiry Transition Procedure, shall leave the Lands and the Ontario Line Subway in a safe, clean and orderly condition.
- (b) If Contracting Authority wishes to conduct a competition or procurement prior to the Expiry Date with a view to entering into an agreement for the provision of services, which may or may not be the same as, or similar to the Project Co Services or any part of the Project Co Services, following the expiry of this Project Agreement, Project Co shall, subject to payment of Project Co's reasonable costs, cooperate with Contracting Authority fully in such competition process, including by:
- (i) providing any information which Contracting Authority may reasonably require to conduct such competition or procurement, including all information contained in any asset management system maintained by Project Co not otherwise transferred to Contracting Authority and including any information which may be Sensitive Information for such purpose (and subject to Section 52); and
 - (ii) assisting Contracting Authority by allowing any or all participants in such competition process unrestricted access to the Metrolinx Lands and the Ontario Line Subway.

48.8 Termination upon Aforesaid Transfer

- (a) On completion of Project Co's obligations pursuant to this Section 48, this Project Agreement shall terminate and, except as provided in Section 48.9, all rights and obligations of Contracting Authority and Project Co under this Project Agreement shall cease and be of no further force and effect.

48.9 Survival

- (a) Except as otherwise provided in this Project Agreement, termination of this Project Agreement shall be without prejudice to, and shall not affect:
- (i) all representations, warranties and indemnities under this Project Agreement;
 - (ii) Sections 1, 5, 6, 7, 14.4, 15.2, 15.3(a), 15.3(b), 16.1, 16.2, 16.3(a), 16.3(f), 16.4(a), 16.4(d), 16.5(a), 16.5(b), 16.6(a), 16.6(c), 16.7(a), 16.7(c), 20.11, 24.6, 25.10, 25.14, 25.15, 31.1, 31.5, 32, 34.6, 34.8, 34.12, 34.13, 34.14, 34.15, 35, 36, 37, 45.6, 46.3, 47.4, 48, 49, 50, 51 with the exception of 51.4(b), 52, 53, 55, 56, 57, 60.3, 61.1, 61.5, 64.4, 64.8, 64.9, 64.10, 64.11 and 64.12 of this Project Agreement, Schedule 1 – Definitions and Interpretations, Schedule 8 – Energy Matters, Schedule 14 – Commissioning, Schedule 19 – Liquidated Damages and Construction Enforcement Regime, Schedule 23 – Compensation on Termination, Sections 2 (*Condition of The Ontario Line Subway On Expiry*), 4 (*Payments To and From Escrow Account*) and 5 (*Project Co Not Relieved of Obligations*) of Schedule 24 – Expiry Transition Procedure, Sections 1.2 to 1.8 (*General Requirements*) of Schedule 26 – Record Provisions, Schedule 27 – Dispute Resolution Procedure, Sections 1 (*Interpretation*) and 2 (*Ownership*), and 3.2 to 3.9 (*Licences*) of Schedule 37 – Intellectual Property, Schedule 44 – System Extension; and
 - (iii) any other provisions of this Project Agreement which are expressed to survive termination or which are required to give effect to or to interpret such provisions which survive termination or which apply to such termination or the consequences of such termination,

all of which shall survive the termination of this Project Agreement, including for termination on the Expiry Date pursuant to Section 47.4.

49. COMPENSATION ON TERMINATION

49.1 Compensation on Termination

- (a) If this Project Agreement is terminated in accordance with the terms hereof, then Schedule 23 – Compensation on Termination shall apply and Contracting Authority shall pay Project Co any applicable compensation on termination.

49.2 Full and Final Settlement

- (a) Except as otherwise provided in Section 49.2(b), any compensation paid pursuant to this Section 49, including pursuant to Schedule 23 – Compensation on Termination in the total amount owing thereunder, shall be in full and final settlement of any claims, demands and proceedings of Project Co and Contracting Authority, and each shall be released from all liability to the other in relation to any breaches or other events leading to such termination of this Project Agreement, and the circumstances leading to such breach or termination, and Project Co and Contracting Authority shall be precluded from exercising all other rights and remedies in respect of any such breach or termination whether in contract, tort, restitution, statute, at common law or otherwise.

- (b) Section 49.2(a) shall be without prejudice to:
- (i) any liability of either Party to the other, including under the indemnities contained in this Project Agreement, that arose prior to the Termination Date (but not from the termination itself or the events leading to such termination) to the extent such liability has not already been set off pursuant to Section 34.12 or taken into account pursuant to Schedule 23 – Compensation on Termination in determining or agreeing upon the Contracting Authority Default Termination Sum, Adjusted Highest Qualifying Tender Price, Adjusted Estimated Fair Value, Non-Default Termination Sum, Breach of Refinancing Termination Sum or any other termination sum, as the case may be;
 - (ii) any liabilities arising under or in respect of any breach by either Party of their obligations under Section 48.9 of this Project Agreement, or the Sections referred to therein, which did not lead to such termination and which arises or continues after the Termination Date; and
 - (iii) any amount owing to Contracting Authority in relation to:
 - (A) Taxes or tax withholdings, including workers’ compensation levies;
 - (B) fines, penalties or restitution orders by a court under any Federal or Provincial statute;
 - (C) any order made by a court under the *Civil Remedies Act* (Ontario); and
 - (D) any fraud or other criminal offence committed against Contracting Authority.

50. EXPIRY TRANSITION PROCEDURE

50.1 Expiry Transition

- (a) Project Co and Contracting Authority shall each comply with the requirements of Schedule 24 – Expiry Transition Procedure.

51. INTELLECTUAL PROPERTY

51.1 Ownership of Intellectual Property

- (a) Subject to Section 51.4, the Ownership of Intellectual Property shall be as set out in Schedule 37 – Intellectual Property. Project Co and Contracting Authority shall each comply with the requirements of Schedule 37 – Intellectual Property.

51.2 Licenses to Intellectual Property

- (a) Schedule 37 – Intellectual Property sets out the terms on which Intellectual Property used or supplied in connection with the Project will be licenced.

51.3 Representation and Warranty

- (a) Project Co represents, warrants and covenants to Contracting Authority that:
- (i) Project Co has and shall have the full and unencumbered right to provide all rights and licenses granted to, and to confirm the extension of all waivers of moral rights waived in favour of, Contracting Authority in this Project Agreement and to make all assignments of Intellectual Property as contemplated in this Project Agreement and to otherwise fully comply with the terms and requirements of Schedule 37 – Intellectual Property and its obligations therein;
 - (ii) any Intellectual Property licenced or assigned to Contracting Authority pursuant to this Project Agreement does not and shall not infringe, and is not and shall not be misappropriation of, any third party Intellectual Property rights;
 - (iii) as of Commercial Close:
 - (A) Project Co has not received any alleged infringement or misappropriation notices from third parties regarding any Intellectual Property Rights; and
 - (B) no fact is known to Project Co (including in respect of any actual, pending or threatened disputes, claims, suits, actions or proceedings or any other circumstance or event) that will, or could reasonably, effect, limit or prevent Project Co from fully complying Section 51.1(a) and Schedule 37 – Intellectual Property.

51.4 Jointly Developed Materials

- (a) To the extent any data, documents, drawings, reports, plans, software, formulae, calculations or designs or any other materials or Intellectual Property are developed jointly by,
- (i) Project Co or any Subcontractor and Contracting Authority to the exclusion of any other party pursuant to this Project Agreement or in relation to the Ontario Line Subway, the Metrolinx Lands or the Project Operations (the “**Contracting Authority Jointly Developed Materials**”);
 - (ii) Project Co or any Subcontractor and the City of Toronto to the exclusion of any other party in relation to the New City Infrastructure or the City of Toronto’s lands (the “**City Jointly Developed Materials**”);
 - (iii) Project Co or any Subcontractor and the Toronto Transit Commission to the exclusion of any other party in relation to the New TTC Infrastructure or the TTC Lands (the “**TTC Jointly Developed Materials**”); or
 - (iv) Project Co or any Subcontractor and each Railway Company Owner to the exclusion of any other party in relation to the Railway Company Owner’s New Railway Company Infrastructure (the “**Railway Company Owner Jointly Developed Materials**”),

(together, the “**Jointly Developed Materials**”), then the Parties hereby acknowledge and agree that,

- (v) Contracting Authority shall be the sole and exclusive owner of all right, title and interest in and to the Contracting Authority Jointly Developed Materials, any Intellectual Property associated therewith and any and all Modifications thereto and Project Co shall, at the request of Contracting Authority, execute such further agreements and cause the Subcontractors to execute any and all assignments, waivers of moral rights and other documents as may be reasonably required to fulfill the intent of this provision;
 - (vi) the City of Toronto shall be the sole and exclusive owner of all right, title and interest in and to the City Jointly Developed Materials, any Intellectual Property associated therewith and any and all Modifications thereto and that Project Co shall, at the request of the City of Toronto, execute such further agreements and cause the Subcontractors to execute any and all assignments, waivers of moral rights and other documents as may be reasonably required to fulfill the intent of this provision;
 - (vii) the Toronto Transit Commission shall be the sole and exclusive owner of all right, title and interest in and to the TTC Jointly Developed Materials, any Intellectual Property associated therewith and any and all Modifications thereto and that Project Co shall, at the request of the Toronto Transit Commission, execute such further agreements and cause the Subcontractors to execute any and all assignments, waivers of moral rights and other documents as may be reasonably required to fulfill the intent of this provision; and
 - (viii) each Railway Company Owner shall be the sole and exclusive owner of all right, title and interest in and to its Railway Company Owner Jointly Developed Materials, any Intellectual Property associated therewith and any and all Modifications thereto and that Project Co shall, at the request of each Railway Company Owner, execute such further agreements and cause the Subcontractors to execute any and all assignments, waivers of moral rights and other documents as may be reasonably required to fulfill the intent of this provision.
- (b) Contracting Authority hereby grants Project Co a royalty free, non-exclusive and non-transferable licence, with a right to grant sub-licences to each Subcontractor, to use the Contracting Authority Jointly Developed Materials during the Project Term for the sole purposes of Project Co or any Subcontractor performing its obligations under this Project Agreement or its Subcontract, as applicable. For clarity, the licence granted to Project Co in accordance with this Section 51.4(b) shall not extend to any City Jointly Developed Materials, TTC Jointly Developed Materials, or Railway Company Owner Jointly Developed Materials.
- (c) Upon termination of this Project Agreement, all rights and licences whatsoever granted to Project Co in the Jointly Developed Materials shall automatically terminate, and Project Co shall return any and all Jointly Developed Materials in the custody or possession of Project Co to,
- (i) Contracting Authority, in the case of the Contracting Authority Jointly Developed Materials;

- (ii) the City of Toronto, in the case of the City Jointly Developed Materials;
 - (iii) the Toronto Transit Commission, in the case of the TTC Jointly Developed Materials;
and
 - (iv) each Railway Company Owner in the case of its Railway Company Owner Jointly Developed Materials.
- (d) In the event of any inconsistency between this Section 51.4 and any provision of Schedule 37 – Intellectual Property, the wording of this Section 51.4 shall prevail.

51.5 Maintenance of Data

- (a) To the extent that any of the data, materials and documents referred to in this Section 51 or Schedule 37 – Intellectual Property are generated by, or maintained on, a computer or similar system, Project Co shall procure for the benefit of Contracting Authority, either at no charge or at the lowest reasonable fee, the grant of a licence or sub-licence for any relevant software to enable Contracting Authority or its nominee to access and otherwise use, (subject to the payment by Contracting Authority of any relevant fee) such data, materials and documents in accordance with rights granted pursuant to Schedule 37 – Intellectual Property.
- (b) For the purposes of Section 51.5(a), “use” has the meaning set out in Schedule 37 – Intellectual Property, and includes the Limited Modification Rights.
- (c) Without limiting the obligations of Project Co under Section 51.5(a), Project Co shall ensure the back-up and storage in safe custody of the data, materials and documents referred to in this Section 51 in accordance with Good Industry Practice. Project Co shall submit to the Contracting Authority Representative Project Co’s proposals for the back-up and storage in safe custody of such data, materials and documents and Contracting Authority shall be entitled to object if the same is not in accordance with Good Industry Practice. Project Co shall comply, and shall cause all Project Co Parties to comply, with all procedures to which the Contracting Authority Representative has not objected. Project Co may vary its procedures for such back-up and storage subject to submitting its proposals for change to the Contracting Authority Representative, who shall be entitled to object on the basis set out above. Any Disputes in connection with the provisions of this Section 51.5(c) may be referred for resolution in accordance with Schedule 27 – Dispute Resolution Procedure with reference to Good Industry Practice.

51.6 Contracting Authority Trademarks

- (a) Project Co shall not:
 - (i) use any Contracting Authority Trademarks without obtaining a trademark licence on terms and conditions mutually satisfactory to Contracting Authority and Project Co, each acting reasonably; or

- (ii) use the names or any identifying logos or otherwise of Contracting Authority or the Contracting Authority Representative in any advertising or permit them so to be used except with the prior written consent of Contracting Authority.

51.7 Confidential Information

- (a) It is expressly acknowledged and agreed that nothing in this Section 51 shall be deemed to create or convey to a Party any right, title, or interest in and/or to the Confidential Information of the other Party.

51.8 Government Use of Documents

- (a) Project Co hereby disclaims any right, title or interest of any nature whatsoever it may have in or to this Project Agreement that might prohibit or otherwise interfere with Contracting Authority's or IO's ability to use this Project Agreement in any manner desired by Contracting Authority or IO.
- (b) Project Co hereby consents to the use by Contracting Authority and/or IO of this Project Agreement, and any portion thereof, subject to compliance with FIPPA and to the removal by Contracting Authority (in consultation with Project Co) of any information supplied in confidence to Contracting Authority and/or IO by Project Co in circumstances where disclosure may be refused under Sections 17(1) or 21(1) of FIPPA.

51.9 Restrictions

- (a) The Parties hereby agree that either Party may use the Project Know-How for any purpose, provided, however, that neither Project Co nor any Subcontractor shall use the Project Know-How to the extent that such Project Know-How incorporates, references or is otherwise based on the Project Data, the Intellectual Property Rights, the Jointly Developed Material, the Intellectual Property of Contracting Authority, the Intellectual Property of any Contracting Authority Party or any third party provided by Contracting Authority, the Confidential Information of Contracting Authority or the Confidential Information of any Contracting Authority Party or any third party provided by Contracting Authority, including the Output Specifications unless such use is otherwise permitted pursuant to this Project Agreement in order to enable Project Co and the Project Co Parties to meet Project Co's obligations under this Project Agreement.
- (b) Project Co hereby covenants and agrees that it will not make any commercial use, including use in any other request for proposal or similar procurement process, of the Project Data, the Intellectual Property Rights, the Jointly Developed Material, the Intellectual Property of Contracting Authority, the Intellectual Property of any Contracting Authority Party or any third party provided by Contracting Authority, the Confidential Information of Contracting Authority or the Confidential Information of any Contracting Authority Party or any third party provided by Contracting Authority, including the Output Specifications, or any other drawings, reports, documents, plans, formulae, calculations, manuals, or other data that was created specifically for the Project or was based upon the Project Data, the Intellectual Property Rights, the Jointly Developed Material, the Intellectual Property of Contracting Authority, the Intellectual Property of any Contracting Authority Party provided by Contracting Authority, the Confidential

Information of Contracting Authority or the Confidential Information of any Contracting Authority Party provided by Contracting Authority, including the Output Specifications.

- (c) Nothing in this Section 51.9 shall be deemed to grant to any party (including any Subcontractor or any personnel thereof) any right or license in respect of any other party's or other persons' Intellectual Property.

52. CONFIDENTIALITY/COMMUNICATIONS

52.1 Restrictions on Use and Disclosure

- (a) Except as otherwise expressly authorized hereunder, a Receiving Party may only use Confidential Information as reasonably required for the purposes of enabling that Receiving Party to perform its obligations or enforce its rights under this Project Agreement.
- (b) Except as otherwise expressly authorized hereunder, and subject to Section 52.1(c), a Receiving Party may only disclose or grant access to Confidential Information to:
 - (i) those agents, directors, officers, employees and professional advisors of that Receiving Party (including the Delivery Partner, where Contracting Authority is the Receiving Party) who need to use that Confidential Information to enable that Receiving Party to perform its obligations or enforce its rights under this Project Agreement; or
 - (ii) such persons as Disclosing Party may specifically consent in writing.
- (c) The Receiving Party must ensure that any recipient of Confidential Information pursuant to Sections 52.1, 52.2 or 52.3(b)(iii) and 52.3(b)(iv) is bound by written obligations regarding the Handling of that Confidential Information that are substantially similar to those set out in this Project Agreement (including, in particular, Section 52 and, to the extent applicable, Section 53).
- (d) The Receiving Party will remain fully liable for any breach of the obligations regarding the Handling of that Confidential Information that is attributable to any person to whom Receiving Party has disclosed or granted access to such Confidential Information pursuant to Sections 52.1, 52.2 or 52.3.
- (e) Without limiting the generality of this Section 52, Project Co shall comply with the document control and security protocol submitted by Project Co in accordance with Schedule 10 – Review Procedure; such protocol shall prescribe limitations on the use, disclosure and storage of this Project Agreement and any other Confidential Information of Contracting Authority specified by Contracting Authority, (the “**Document Control and Security Protocol**”). The Document Control and Security Protocol shall be the first document submitted by Project Co pursuant to Schedule 10 – Review Procedure and, in any event, shall be submitted within five (5) Business Days following Financial Close.

52.2 Confidentiality Exceptions – Project Co

- (a) Subject to Sections 52.1(c) and 52.1(d), Project Co may disclose the Confidential Information of Contracting Authority to:
- (i) the Lenders and prospective Lenders, including any trustee or agent of the Lenders, the Lenders' Agent and their respective professional advisors, to the extent reasonably required in connection with the raising or syndication of the financing or any sub-participation in the financing of the Project Operations or which Project Co is obliged to supply by the terms of the Lending Agreements; and
 - (ii) any Project Co Party and their professional advisors, to the extent necessary for the performance by that Project Co Party of obligations under this Project Agreement.

52.3 Confidentiality Exceptions – Contracting Authority

- (a) Notwithstanding any other provision of this Project Agreement that restricts the use of information, Contracting Authority and/or IO may use the Confidential Information of Project Co for purposes not specific to the Project, but for other general governmental purposes, including but not limited to:
- (i) the development by Contracting Authority or the Province of alternate procurement and financing policies and frameworks; and
 - (ii) any procurement or tendering process to be carried out by Contracting Authority prior to the Termination Date with a view to entering into an agreement with a person(s) for one or more services, which services may be similar to any one or more of the Project Co Services.

Contracting Authority and/or IO will advise Project Co prior to using any Confidential Information of Project Co for non-Project purposes contemplated by this Section 52.3(a).

- (b) Notwithstanding any other provision of this Project Agreement that restricts the use or disclosure of information, and subject to Section 52.1(d), Contracting Authority may disclose:
- (i) any Confidential Information of Project Co (including the Financial Model) to any Government Entity for any governmental purpose whatsoever;
 - (ii) any Confidential Information of Project Co (excluding the Financial Model, but, for greater certainty, including the breakdown of any Monthly Service Payment) to any Governmental Authority for budgetary purposes or in connection with the negotiation or performance of any funding or other agreements with a Governmental Authority;
 - (iii) any Confidential Information of Project Co (excluding the Financial Model and any Sensitive Information) to South Civil Project Co or any South Civil Project Co Party or North Civil Project Co or a North Civil Project Co Party for the purpose of designing, constructing, operating or maintaining the Ontario Line Subway System (for greater

certainty, Project Co acknowledges and agrees that any Confidential Information that is required to be disclosed to South Civil Project Co or North Civil Project Co pursuant to the applicable requirements of the Project Agreement, including Schedule 10 – Review Procedure, the Output Specifications, Schedule 42 – South Civil Infrastructure Access and Handover, Schedule 43 – North Civil Infrastructure Access and Handover, the South Civil Interface Agreement (including the South Civil Integration Dispute Resolution Procedure) and the North Civil Interface Agreement (including the North Civil Integration Dispute Resolution Procedure) shall not be considered Sensitive Information), subject to Section 52.1(c); and

- (iv) any Confidential Information of Project Co (excluding the Financial Model and any Sensitive Information) to a TOC Contractor or TOC Contractor Party for the purposes of facilitating TOC Developments, subject to Section 52.1(c).

52.4 Certain Voluntary Disclosures

- (a) As a separate disclosure right from Contracting Authority's other disclosure rights set out in this Section 52 or otherwise in this Project Agreement, but notwithstanding anything else in this Project Agreement to the contrary, Project Co acknowledges and agrees that Contracting Authority and IO have a right to disclose or publish (including on websites) this Project Agreement, any or all terms hereof, including any or all contractual submissions and other records kept in accordance with this Project Agreement, any information related to the performance of Project Co (or any Project Co Party) or any information derived from this Project Agreement or the information related to the performance of Project Co (or any Project Co Party) as Contracting Authority, in its sole discretion, may consider appropriate, provided that:
 - (i) in determining what to disclose under this Section 52.4(a), Contracting Authority will be guided by the relevant principles in FIPPA, and Contracting Authority will not disclose any information if (had an access request under FIPPA been made for such information) that information would be exempt from disclosure under section 17(1) of FIPPA, provided that Contracting Authority may override the notional application of section 17(1) of FIPPA if it determines that there is a compelling public interest in the disclosure of the information which clearly outweighs the public interest in limiting the disclosure of that information; and
 - (ii) prior to disclosing or publishing such information under this Section 52.4(a):
 - (A) Contracting Authority shall provide to Project Co a redacted version of this Project Agreement or other documents or information to be disclosed or published, on the basis that the information so redacted constitutes information which should not be disclosed based on a notional application of section 17(1) of FIPPA (and taking into account the foregoing public interest override); and
 - (B) if Project Co, acting in good faith, contends that any of the information not redacted constitutes information that (if an access request under FIPPA been made for such information) that information would be exempt from disclosure under section 17(1) of FIPPA and not subject to a compelling public interest

override, the dispute may be referred for resolution in accordance with Schedule 27 – Dispute Resolution Procedure, and Contracting Authority shall not disclose any information in dispute under this Section 52.4(a) until a determination is made.

52.5 Legally Compelled Disclosure

- (a) If a Receiving Party is legally compelled to disclose any Confidential Information, it shall:
 - (i) provide the Disclosing Party with prompt Notice (unless prohibited by Applicable Law from doing so) to allow the Disclosing Party to seek any appropriate remedies and cooperate with the Disclosing Party and its legal counsel in connection therewith; and
 - (ii) disclose only that portion of the Confidential Information that it is legally required to disclose by Applicable Law.
- (b) This Section 52.5 shall not apply to a requirement for Contracting Authority to disclose records pursuant to Section 52.6(a) or Section 52.7(a).

52.6 Digital and Data Directive

- (a) Notwithstanding anything else in this Project Agreement to the contrary, Project Co acknowledges and agrees that this Project Agreement and any or all of the terms thereof are subject to the Digital and Data Directive, which requires Ontario ministries and agencies to disclose or publish certain data.

52.7 Freedom of Information and Protection of Privacy Act (Ontario)

- (a) The Parties acknowledge and agree that FIPPA applies to Contracting Authority and IO, and that Contracting Authority and IO are required to fully comply with FIPPA. Contracting Authority shall, within the applicable time periods provided in FIPPA for a party to exercise rights to prevent disclosure of information, advise Project Co of any request for access to the Confidential Information of Project Co (or any Project Co Party) under FIPPA.
- (b) If a request is made to Project Co under FIPPA for access to any records, Project Co shall immediately refer that request to Contracting Authority.
- (c) Where requested by Contracting Authority to enable Contracting Authority to respond to an access request under FIPPA, Project Co shall compile all responsive records in its custody or control that are under the control of Contracting Authority for the purposes of FIPPA, and shall provide copies of all such responsive records within three (3) Business Days of receipt of Contracting Authority's request. If Contracting Authority has extended the time to respond to the access request under FIPPA, Contracting Authority shall provide Project Co with a reasonable extension to the foregoing three (3) Business Day period.

52.8 Safeguards

- (a) A Receiving Party shall protect all Confidential Information from loss, theft, or other unauthorized Handling (and, where Project Co or a Project Co Party is the Receiving Party, the unavailability or loss of integrity of the Confidential Information of Contracting Authority), with the same degree of care as it uses to protect its own confidential information of a similar nature or character from such occurrences, but in no event with less than a reasonable degree of care.
- (b) A Receiving Party shall:
 - (i) promptly notify the Disclosing Party in writing of any incident of loss, theft or unauthorized Handling of Confidential Information (and where the Receiving Party is Project Co, the unavailability or loss of integrity of the Confidential Information), or any attempt to effect any of the foregoing, of which it becomes aware;
 - (ii) promptly give the Disclosing Party details of such incident or attempt, and assist the Disclosing Party in investigating or preventing the recurrence of same;
 - (iii) cooperate with the Disclosing Party in any litigation and investigation involving third parties deemed necessary by the Disclosing Party to protect its Confidential Information, to the extent such litigation or investigation is related to this Project Agreement;
 - (iv) take all actions necessary or requested by the Disclosing Party to mitigate the effects and to minimize any damage resulting from any such incident or attempt (including taking all commercially reasonable steps to enforce against any person that is engaging in any such activities any rights the Receiving Party has to require such person to cease such activities); and
 - (v) promptly use best efforts to prevent a recurrence of any such incident or attempt.

52.9 Delivery

- (a) Receiving Party shall provide the Confidential Information to the Disclosing Party upon demand by the Disclosing Party. This Section 52.9 shall not apply to Confidential Information in relation to which a Party has been provided a licence pursuant to Schedule 37 – Intellectual Property provided that the use of such Confidential Information is in accordance with Schedule 37 – Intellectual Property.

52.10 Exceptions to Confidential Information

- (a) Information of a Disclosing Party, other than Personal Information, will not be considered to be Confidential Information in the following circumstances:
 - (i) the Disclosing Party advises the Receiving Party that the information is not required to be treated as Confidential Information;

- (ii) the information is as of Commercial Close, or becomes at any time thereafter, generally available to or accessible by the public through no fault or wrongdoing of the Receiving Party;
 - (iii) the information is a matter of public record or in the public domain;
 - (iv) the information was in the possession of the Receiving Party prior to its disclosure by the Disclosing Party, as evidenced by written records, and the Receiving Party came into possession of such information without being in breach of this Project Agreement or any other agreement with the Disclosing Party;
 - (v) the information is received by the Receiving Party on a non-confidential basis from a source other than the Disclosing Party, as evidenced by written records, provided that to the best of the Receiving Party's knowledge such source is not bound by a confidentiality agreement with the Disclosing Party or otherwise prohibited from disclosing the information to the Receiving Party by a contractual, legal or fiduciary obligation;
 - (vi) the information was independently developed by the Receiving Party without access to the Confidential Information, as evidenced by written records; or
 - (vii) the information is disclosed to Contracting Authority upon a termination of this Project Agreement, pursuant to Section 48 or is otherwise required by Contracting Authority for the purposes of performing (or having performed) the Project Operations, including the design or construction of the Ontario Line Subway, the operation, maintenance or improvement of the Ontario Line Subway, or any other operations or services the same as, or similar to, the Project Operations, or to exercise any right granted pursuant to Schedule 37 – Intellectual Property that survives the termination of this Project Agreement.
- (b) Subject to Section 52.3(b), the Parties acknowledge and agree that any Monthly Service Payment, but not the breakdown thereof, is not the Confidential Information of Project Co and may be disclosed by Contracting Authority.

52.11 Survival of Confidentiality

- (a) The obligations in Section 52 will cease on the date that is seven (7) years after the Termination Date and accordingly shall survive the termination of the Project Agreement.

52.12 Communication and Public Engagement Protocol

- (a) The Parties shall comply with the provisions of Schedule 18 – Communication and Public Engagement Protocol.

52.13 Confidentiality of Intellectual Property

- (a) Nothing in this Section 52 shall prevent Contracting Authority from exercising any right granted to Contracting Authority pursuant to Schedule 37 – Intellectual Property. Contracting Authority

shall have the right to disclose Confidential Information of Project Co Parties when exercising the rights granted pursuant to Schedule 37 – Intellectual Property in accordance therewith.

53. PERSONAL INFORMATION

53.1 Handling Personal Information

- (a) Project Co acknowledges the importance of maintaining the privacy of Personal Information and compliance with Applicable Privacy Law.
- (b) Project Co shall not subcontract or delegate to any third party any of the Project Operations that involve or may involve the Handling of Personal Information without the express consent of Contracting Authority and without obtaining written contractual commitments of such third party substantially the same as those hereunder (including, for greater certainty, Sections 52 and 53).
- (c) Project Co shall, and shall require each Project Co Party to, only Handle Personal Information: (i) with the prior consent of Contracting Authority; and (ii) to the extent necessary to perform Project Co's obligations under this Project Agreement.
- (d) Project Co shall, and shall require each Project Co Party to, at all times comply with all applicable requirements of the Output Specifications and Applicable Privacy Law when Handling or supporting the Handling of Personal Information.

53.2 Protection of Personal Information

- (a) Project Co shall implement and use, and shall require each Project Co Party to implement and use, appropriate technical, organizational and physical security measures to protect Personal Information against loss, theft and unauthorized Handling, unavailability or loss of integrity in accordance with this Project Agreement (including, for greater certainty, Sections 52 and 53).
- (b) Project Co shall and shall cause each Project Co Party to restrict access to Personal Information to only those authorized employees and permitted Project Co Parties that require access to such Personal Information to fulfil their job requirements in connection with the Project Operations and that are subject to binding obligations to protect Personal Information no less stringent than those hereunder (including, for greater certainty, those imposed by Sections 52 and 53).
- (c) Project Co shall take all necessary and appropriate action, and shall require each Project Co Party to take all necessary and appropriate action, against any person who fails to comply with this Section 53.
- (d) Contracting Authority may from time to time require that Project Co and any Project Co Party, or member of its or their staff, execute and deliver within two (2) Business Days after such request an agreement satisfactory to Contracting Authority, acting reasonably, requiring such person to protect Personal Information in accordance with this Project Agreement (including, for greater certainty, Sections 52 and 53).

53.3 Return or Destruction of Personal Information

- (a) Upon termination of this Project Agreement or upon request of Contracting Authority, whichever comes first, Project Co shall immediately cease all use of and return to Contracting Authority or, at the direction of Contracting Authority, dispose of, destroy or render permanently anonymous all Personal Information, in each case using appropriate technical, organizational and physical security measures to protect Personal Information against loss, theft and unauthorized Handling (and, in the event of a return of Personal Information, loss of availability or loss of integrity).
- (b) To the extent that any of the Project Operations involve or may involve destruction or disposal of Personal Information, including any disposal or destruction pursuant to Section 53.3(a), such activities shall include, at a minimum, irreversible destruction, shredding or pulverizing of all documents, records or media containing Personal Information to a size or state that ensures that the document, record or other medium is permanently destroyed and that no information contained therein can be read, reconstructed or deciphered.

53.4 Privacy Incidents, Inspections, Investigations, Audits, Inquiries

- (a) Project Co shall allow Contracting Authority on reasonable Notice to inspect any Personal Information in the custody of Project Co or a Project Co Party and to audit Project Co and each Project Co Party's compliance with this Section 53 including the measures and systems used by Project Co and each Project Co Party to protect Personal Information, and otherwise promptly and properly respond to all reasonable inquiries of Contracting Authority with respect to Project Co or each Project Co Party's Handling of Personal Information.
- (b) Project Co shall provide, and shall cause each Project Co Party to provide, in a timely manner, all necessary and reasonable information and co-operation to Contracting Authority and to any Governmental Authority with jurisdiction or oversight over Applicable Privacy Law in connection with any investigations, audits or inquiries made under Applicable Privacy Law.

53.5 Conflict and Survival

- (a) To the extent of any conflict or inconsistency between this Section 53 and any other provision of the Project Agreement, this Section 53 shall prevail.
- (b) The obligations in this Section 53 shall survive the termination of this Project Agreement.

54. INSURANCE AND PERFORMANCE SECURITY

54.1 General Requirements

- (a) Project Co and Contracting Authority shall comply with the provisions of Schedule 25 – Insurance and Performance Security Requirements.

54.2 No Relief from Liabilities and Obligations

- (a) Neither compliance nor failure to comply with the insurance provisions of this Project Agreement shall relieve Project Co or Contracting Authority of their respective liabilities and obligations under this Project Agreement.

55. TITLE

55.1 Title

- (a) Subject to Section 6.3 (*Title*) of Schedule 42 – South Civil Infrastructure Access and Handover and Section 6.3 (*Title*) of Schedule 43 – North Civil Infrastructure Access and Handover, title to each item and part of the Ontario Line Subway (except the Cars) or the New Third Party Infrastructure, including any materials, supplies, equipment, facilities, parts and any other deliverable or component items, but not the risk of loss or damage or destruction thereto or thereof, shall pass to Contracting Authority (or as Contracting Authority may direct) upon the receipt of such item on the Lands, provided however that title to items of tangible personal property (personal property that can be seen, weighed, measured, felt or touched or that is in any way perceptible to the senses and includes computer programs, natural gas and manufactured gas) that comprise the Ontario Line Subway and the New Third Party Infrastructure or are to be affixed or attached to the Ontario Line Subway and the New Third Party Infrastructure prior to Substantial Completion, including Cars, shall pass to Contracting Authority (or as Contracting Authority may direct) at the time that such items are included in the Ontario Line Subway and the New Third Party Infrastructure or are affixed or attached to the Ontario Line Subway and the New Third Party Infrastructure. Title to each Car shall pass to Contracting Authority upon the achievement by Project Co of Acceptance for such Car in accordance with Schedule 38 – Cars.

56. INDEMNITIES

56.1 Project Co Indemnities to Contracting Authority

- (a) Project Co shall indemnify and save harmless Contracting Authority and the Province Persons and each of their respective directors, officers, employees, agents and representatives from and against any and all Direct Losses which may be suffered, sustained, incurred or brought against them as a result of, in respect of, or arising out of any one or more of the following:
 - (i) a failure by Project Co to achieve Substantial Completion by the Scheduled Substantial Completion Date;
 - (ii) any physical loss of or damage to all or any part of the Lands, lands owned by Metrolinx that are adjacent to the Lands (but that are not Metrolinx Lands), the Ontario Line Subway or any part of the New Third Party Infrastructure, or to any equipment, assets or other property forming part thereof;
 - (iii) the death or personal injury of any person;

- (iv) any physical loss of or damage to property or assets of any third party (other than any Civil Contractor) including, for clarity, any physical loss of or damage to Existing Third Party Infrastructure, or New Third Party Infrastructure after Handover to the applicable third party;
- (v) save to the extent relating to a claim for Injurious Affection (without prejudice to Section 56.1(a)(viii)) any other loss or damage of any third party (other than any Civil Contractor);
- (vi) any physical loss of or damage to property or assets of any Civil Contractor including, for clarity, any physical loss of or damage to any South Civil Project Infrastructure or North Civil Project Infrastructure (including, for certainty, any South Civil Project Infrastructure or North Civil Project Infrastructure that forms part of the Project Co Infrastructure from and after any South Civil Infrastructure Section Handover Date or North Civil Infrastructure Section Handover Date, as applicable);
- (vii) any loss or damage of any Civil Contractor resulting from a third party claim against a Civil Contractor; or
- (viii) Injurious Affection claims made by third parties,

in the case of Section 56.1(a)(i) to Section 56.1(a)(v), arising, directly or indirectly, out of, or in consequence of, or involving or relating to, the performance or any breach of this Project Agreement by Project Co or any act or omission of Project Co or any Project Co Party, and in the case of Sections 56.1(a)(vi) to 56.1(a)(viii) arising, directly or indirectly, out of, or in consequence of, or involving or relating to, any breach of this Project Agreement by Project Co or any Project Co Party or, or by Project Co or any person for whom Project Co is in law responsible for failing to carry out the Works strictly in accordance with Project Co's obligations under this Project Agreement, or arising pursuant to Section 56.1(f), except, in all cases, to the extent caused, or contributed to, by:

- (ix) the breach of this Project Agreement by Contracting Authority; or
- (x) in respect of Section 56.1(a)(i), deliberate or negligent act or omission of Contracting Authority or any Province Person; or
- (xi) in respect of Sections 56.1(a)(ii), 56.1(a)(iii), 56.1(a)(iv), 56.1(a)(v), 56.1(a)(vi) or 56.1(a)(vii), any act or omission of Contracting Authority or any Province Person; or
- (xii) a deliberate or negligent act or omission of a System User that results in undue interference with Project Co's performance of the Project Co Services and Project Co has been unable to take commercially reasonable steps necessary to prevent, negate or mitigate the undue interference due to acting in accordance with a recommendation or instruction of Contracting Authority or an appropriate Province Person, except to the extent:

- (A) any such deliberate or negligent act or omission is caused or contributed to by Project Co or any Project Co Party; or
 - (B) the System User is acting in accordance with a direction, recommendation or instruction of Project Co or any Project Co Party.
- (b) Project Co shall indemnify and save harmless Contracting Authority and each of its directors, officers, employees, agents and representatives from and against any and all Direct Losses which may be suffered, sustained, incurred or brought against them as a result of, in respect of, or arising out of any breach of a representation or warranty by Project Co herein.
- (c) Project Co shall indemnify and save harmless Contracting Authority and each of its directors, officers, employees, agents and representatives from and against any and all Direct Losses which may be suffered, sustained, incurred or brought against them as a result of, in respect of, arising out of, or involving or relating to any one or more of the following:
 - (i) the performance by Project Co of this Project Agreement not in accordance with or in breach of the requirements of any Permits, Licences, Approvals and Agreements, Applicable Law or requirements of Governmental Authorities, or the failure of Project Co to obtain all necessary Project Co Permits, Licences, Approvals and Agreements in accordance with this Project Agreement;
 - (ii) any Project Co On-Site Contamination that is Project Co Caused Contamination, any Project Co Off-Site Migrating Contamination or any Worsened Contamination; or
 - (iii) the provision of assistance by Contracting Authority to Project Co pursuant to Section 9.7(e),except to the extent that such Direct Losses are caused, or contributed to, by the breach of this Project Agreement by Contracting Authority or by any act or omission of Contracting Authority or any Contracting Authority Party.
- (d) Without prejudice to Contracting Authority's rights under Section 45 and any other rights under this Project Agreement, if Contracting Authority exercises its step-in rights under any Direct Agreement, Project Co shall indemnify Contracting Authority for all obligations of Project Co assumed by Contracting Authority under the Contracts, and for all reasonable costs and expenses incurred by Contracting Authority in relation to the exercise of Contracting Authority's rights.
- (e) Project Co shall indemnify Contracting Authority for damages suffered or incurred on account of:
 - (i) any payment not duly made by Project Co pursuant to the terms of this Project Agreement on the due date; (ii) any overpayment to or underpayment by Project Co; or (iii) an amount determined as payable by Project Co to Contracting Authority under Schedule 27 – Dispute Resolution Procedure, by payment of an amount equal to the Payment Compensation Amount calculated from the day after the date on which payment was due, the day on which overpayment was made by Contracting Authority, or from the date identified (if any) applicable to an amount determined as payable by Project Co to Contracting Authority under Schedule 27 – Dispute Resolution Procedure, up to and including the date of payment.

- (f) The Project Co indemnity set out in Section 56.1(a)(viii) shall also apply in the event of a third party Injurious Affection claim to the extent arising from Project Co's failure to comply with its obligation set out in Section 3.8 (*Procedures For Determining and Reporting Property Access Closures and Property Access Closure Adjustments*) of Schedule 36 – Property Access Matters. For clarity,
- (i) this Section 56.1(f) shall apply only to the extent that the third party Injurious Affection claim is in respect of the specific property or properties that were affected by Project Co's failure to comply with its obligation set out in Section 3.8 (*Procedures For Determining and Reporting Property Access Closures and Property Access Closure Adjustments*) of Schedule 36 – Property Access Matters; and
 - (ii) to the extent that Project Co is obliged to pay a Property Access Closure Adjustment in respect of the specific property or properties that gave rise to the third party Injurious Affection claim that is the subject of the indemnity pursuant to this Section 56.1(f), such Property Access Closure Adjustment amount shall be applied to decrease the quantum of Project Co's indemnity to Contracting Authority in respect of the corresponding third party Injurious Affection claim.
- (g) Project Co shall defend, in accordance with the procedures of Section 56.3, and indemnify and save harmless Contracting Authority and the Province Persons and each of their respective directors, officers, employees, agents and representatives from and against any and all Direct Losses which may be suffered, sustained, incurred or brought against them as a result of, in respect of, or arising out of any one or more of the following:
- (i) any breach of Section 51.3;
 - (ii) any claim, suit, action or proceeding by a Person alleging that (x) any Intellectual Property licensed or assigned to and used by Contracting Authority pursuant to this Project Agreement; or (y) any Intellectual Property or other materials used by Project Co or any Project Co Party or any Subcontractor in the performance of the Project Operations and the Project, infringes or misappropriates any Intellectual Property rights of that Person, other than where such claim, suit, action or proceeding is directly caused by,
 - (A) the use of such Intellectual Property by Contracting Authority not in accordance with this Project Agreement or the applicable Technical Information; or
 - (B) the use of such Intellectual Property by Contracting Authority in combination with other products, software or equipment not supplied by or on behalf of Project Co or the Subcontractors and not authorized by any of them; and
 - (iii) any claim, suit, action or proceeding by any Licensor alleging that Project Co or any Project Co Party or any Subcontractor has used any Contracting Authority Supplied Third Party Intellectual Property in breach of Sections 3.1(a)(ii), 3.1(b), 3.1(c) or 3.1(d) (*Licences*) of Schedule 37 – Intellectual Property.

- (h) Without limiting and in addition to the obligations in Section 56.1(g), if, as a result of a claim under Section 56.1(g)(i) or Section 56.1(g)(ii), all or any part of any Intellectual Property licensed or assigned to and used by Contracting Authority pursuant to this Project Agreement; or any Intellectual Property or other materials used by Project Co or any Subcontractor in the performance of the Project Operations and the Project (any or all of the foregoing the “**Infringing Material**”) becomes, or in Project Co’s opinion is likely to be, enjoined from use, Project Co will:
- (i) give notice to Contracting Authority of the same; and
 - (ii) at its sole option and expense, either:
 - (A) procure for itself and Contracting Authority, to the extent required, the right to continue to use the infringing element or component of the Infringing Material as contemplated in this Project Agreement; or
 - (B) modify the infringing element or component of the Infringing Material so that it is non-infringing without materially affecting the quality, performance and functionality of such infringing element or component, or replace the infringing element or component with a substitute of materially equivalent quality, performance and functionality.

56.2 Contracting Authority Indemnities to Project Co

- (a) Contracting Authority shall indemnify and save harmless Project Co and the Project Co Parties and each of their respective directors, officers, employees, agents and representatives from and against any and all Direct Losses which may be suffered, sustained, incurred or brought against them as a result of, in respect of, or arising out of any one or more of the following:
- (i) the death or personal injury of any person arising, directly or indirectly, out of, or in consequence of, or involving or relating to, the performance or breach of this Project Agreement by Contracting Authority or any act or omission of any Province Person, or any act or omission of any Civil Contractor or TOC Contractor (but only where such act or omission of such TOC Contractor is in connection with it carrying out work on a TOC Development), except to the extent caused, or contributed to, by the breach of this Project Agreement by Project Co or by any act or omission of Project Co or any Project Co Party;
 - (ii) any physical loss of or damage to all or any part of any property or assets of Project Co or any Project Co Party, arising, directly or indirectly, out of, or in consequence of, or involving or relating to, breach of this Project Agreement by Contracting Authority or any deliberate or negligent act or omission of any Province Person, or any deliberate or negligent act or omission of any Civil Contractor or TOC Contractor (but only where such act or omission of such TOC Contractor is in connection with it carrying out work on a TOC Development), except to the extent caused, or contributed to, by the breach of this Project Agreement by Project Co or by any act or omission of Project Co or any Project Co Party;

- (iii) any loss or damage of any third party (other than a Civil Contractor or TOC Contractor (but only where such loss or damage of such TOC Contractor is in connection with it carrying out work on a TOC Development)), arising, directly or indirectly, out of, or in consequence of, or involving or relating to, breach of this Project Agreement by Contracting Authority, any deliberate or negligent act or omission of any other Province Person, or any act or omission of any other Civil Contractor or any TOC Contractor (but only where such act or omission of such TOC Contractor is in connection with it carrying out work on a TOC Development), except to the extent caused, or contributed to, by the breach of this Project Agreement by Project Co or by any act or omission of Project Co or any Project Co Party;
- (iv) any Direct Losses or Indirect Losses of CN Rail or any person claiming through CN Rail, arising, directly or indirectly, out of, or in consequence of, or involving or relating to, a CN Rail Train Delay; and
- (v) any Nuisance Claim made by a TOC Contractor, a TOC Contractor Party, owner of a TOC Development, an Adjacent Developer, or owner of an Adjacent Development against Project Co or a Project Co Party except to the extent that such Nuisance Claim was caused or contributed to directly or indirectly, out of, or in consequence of, or involving or relating to, any breach of this Project Agreement by Project Co or any Project Co Party or by Project Co or any person for whom Project Co is in law responsible for failing to carry out the Works strictly in accordance with Project Co's obligations under this Project Agreement,

provided that there shall be excluded from the indemnity given by Contracting Authority any liability for the occurrence of risks against which Project Co is required to insure under this Project Agreement to the extent of the proceeds available or that should have been available but for a failure by Project Co to comply with its obligations to properly insure under this Project Agreement.

- (b) Contracting Authority shall indemnify and save harmless Project Co and its directors, officers, employees, agents and representatives from and against any and all Direct Losses which may be suffered, sustained, incurred or brought against them as a result of, in respect of, or arising out of any breach of a representation or warranty by Contracting Authority herein.
- (c) Contracting Authority shall indemnify Project Co for damages suffered or incurred on account of:
 - (i) any payment not duly made by Contracting Authority pursuant to the terms of this Project Agreement on the due date; (ii) any overpayment to or underpayment by Contracting Authority; or (iii) an amount determined as payable by Contracting Authority to Project Co under Schedule 27 – Dispute Resolution Procedure, by payment of an amount equal to the Payment Compensation Amount calculated from the day after the date on which payment was due, the day on which overpayment was made by Project Co, or from the date identified (if any) applicable to an amount determined as payable by Contracting Authority to Project Co under Schedule 27 – Dispute Resolution Procedure, up to and including the date of payment.
- (d) Contracting Authority shall indemnify and save harmless Project Co and its directors, officers, employees, agents and representatives from and against any and all Direct Losses which may be

suffered, sustained, incurred or brought against them as a result of, in respect of, or arising out of any breach of a representation or warranty by Contracting Authority set out in Section 5.2(a).

56.3 Conduct of Claims

- (a) This Section 56.3 shall apply to the conduct of claims, made by a third person against a Party having, or claiming to have, the benefit of an indemnity pursuant to this Project Agreement. The Party having, or claiming to have, the benefit of the indemnity is referred to as the “**Beneficiary**” and the Party giving the indemnity is referred to as the “**Indemnifier**”.
- (b) If the Beneficiary receives any Notice, demand, letter or other document concerning any claim for which it appears that the Beneficiary is, or may become entitled to, indemnification under this Section 56, the Beneficiary shall give written Notice to the Indemnifier as soon as reasonably practicable and in any event within ten (10) Business Days of receipt of the same. Such Notice shall specify with reasonable particularity, to the extent that information is available, the factual basis for the claim and the amount of the claim.
- (c) Subject to Sections 56.3(d), 56.3(e) and 56.3(f), on the giving of such Notice by the Beneficiary, where it appears that the Beneficiary is or may be entitled to indemnification from the Indemnifier in respect of all, but not part only, of the liability arising out of the claim, the Indemnifier shall (subject to providing the Beneficiary with a secured indemnity to the Beneficiary’s reasonable satisfaction against all costs and expenses that the Beneficiary may incur by reason of such action) be entitled to dispute the claim in the name of the Beneficiary at the Indemnifier’s own expense and take conduct of any defence, dispute, compromise, or appeal of the claim and of any incidental negotiations. The Beneficiary shall give the Indemnifier all reasonable cooperation, access and assistance for the purposes of considering and resisting such claim. The Beneficiary shall have the right to employ separate counsel in respect of such claim and the reasonable fees and expenses of such counsel shall be to the account of the Indemnifier only where representation of both the Indemnifier and Beneficiary by common counsel would be inappropriate due to any actual or potential conflicting interests between the Indemnifier and Beneficiary.
- (d) With respect to any claim conducted by the Indemnifier:
 - (i) the Indemnifier shall keep the Beneficiary fully informed and consult with it about material elements of the conduct of the claim;
 - (ii) the Indemnifier shall not bring the name or reputation of the Beneficiary into disrepute;
 - (iii) the Indemnifier shall not pay, compromise or settle such claims without the prior consent of the Beneficiary, such consent not to be unreasonably withheld or delayed;
 - (iv) the Indemnifier shall not admit liability or fault to any third party without the prior consent of the Beneficiary, such consent not to be unreasonably withheld or delayed; and

- (v) the Indemnifier shall use commercially reasonable efforts to have the Beneficiary named as a beneficiary under any release given by the persons bringing the claim to which this Section 56.3 relates.
- (e) The Beneficiary shall be free to pay or settle any such claim on such terms as it thinks fit and without prejudice to its rights and remedies under this Project Agreement if:
 - (i) the Indemnifier is not entitled to take conduct of the claim in accordance with Section 56.3(c);
 - (ii) the Indemnifier fails to notify the Beneficiary of its intention to take conduct of the relevant claim within ten (10) Business Days of the Notice from the Beneficiary under Section 56.3(b) or notifies the Beneficiary that the Indemnifier does not intend to take conduct of the claim; or
 - (iii) the Indemnifier fails to comply in any material respect with Section 56.3(d).
- (f) The Beneficiary shall be free at any time to give Notice to the Indemnifier that the Beneficiary is retaining or taking over, as the case may be, the conduct of any defence, dispute, compromise or appeal of any claim, or of any incidental negotiations, to which Section 56.3(c) applies. For greater certainty, Project Co acknowledges and agrees that where Contracting Authority is the Beneficiary, Contracting Authority may retain or take over such conduct in any matter involving Personal Information or any matter involving public policy. On receipt of such Notice the Indemnifier shall promptly take all steps necessary to transfer the conduct of such claim to the Beneficiary, and shall provide to the Beneficiary all relevant documentation and all reasonable cooperation, access and assistance for the purposes of considering and resisting such claim. If the Beneficiary gives any Notice pursuant to this Section 56.3(f), then the Indemnifier shall be released from any liabilities arising under the applicable indemnity hereunder in respect of the applicable claim.
- (g) If the Indemnifier pays to the Beneficiary an amount in respect of an indemnity and the Beneficiary subsequently recovers, whether by payment, discount, credit, saving, relief or other benefit or otherwise, a sum or anything else of value (the “**Recovery Amount**”) which is directly referable to the fact, matter, event or circumstances giving rise to the claim under the indemnity, the Beneficiary shall forthwith repay to the Indemnifier whichever is the lesser of:
 - (i) an amount equal to the Recovery Amount less any out-of-pocket costs and expenses properly incurred by the Beneficiary in recovering the same; and
 - (ii) the amount paid to the Beneficiary by the Indemnifier in respect of the claim under the relevant indemnity,

provided that there shall be no obligation on the Beneficiary to pursue any Recovery Amount and that the Indemnifier is repaid only to the extent that the Recovery Amount, aggregated with any sum recovered from the Indemnifier, exceeds the loss sustained by the Beneficiary except, however, that if the Beneficiary elects not to pursue a Recovery Amount, the Indemnifier shall be entitled to require an assignment to it of the right to do so.

- (h) Any person taking any of the steps contemplated by this Section 56.3 shall comply with the requirements of any insurer who may have an obligation to provide an indemnity in respect of any liability arising under this Project Agreement.

56.4 Mitigation – Indemnity Claims

- (a) For greater certainty, Section 64.4 applies to any indemnity given under this Project Agreement and any such indemnity shall not extend to Direct Losses which could have been reduced or avoided by the Beneficiary complying with such Section.

56.5 Integration Disputes

- (a) Despite any provision in this Section 56 to which Schedule 27 – Dispute Resolution Procedure applies, the provisions of the Integration Dispute Resolution Procedure in the form attached as Appendix A (*Integration Dispute Resolution Procedure*) to Schedule 39A – Form of South Civil Interface Agreement and Appendix A (*Integration Dispute Resolution Procedure*) to Schedule 39B – Form of North Civil Interface Agreement, as applicable, apply and shall govern in respect of all Integration Disputes under:
 - (i) Sections 56.1(a)(vi) or 56.1(a)(vii); or
 - (ii) Sections 56.2(a)(i), 56.2(a)(ii) or 56.2(a)(iii) arising, directly or indirectly, out of, or in consequence of, or involving or relating to any act or omission or any deliberate or negligent act or omission (as applicable) of a Civil Contractor.

57. LIMITS ON LIABILITY

57.1 Indirect Losses

- (a) Subject to Section 57.1(b), without prejudice to Contracting Authority’s rights under the Payment Mechanism, or the Parties’ rights in respect of payments provided for herein, the indemnities under this Project Agreement shall not apply and there shall be no right to claim damages for breach of this Project Agreement, in tort or on any other basis whatsoever, to the extent that any loss claimed by either Party is:
 - (i) for punitive, exemplary or aggravated damages;
 - (ii) for loss of profits, loss of use, loss of production, loss of business or loss of business opportunity;
 - (iii) a claim for consequential loss or for indirect loss of any nature suffered or allegedly suffered by either Party;
 - (iv) for damages sustained by Contracting Authority or any Contracting Authority Party in respect of delay claims arising from delay to any project that is managed or controlled by Contracting Authority that is caused by Project Co failing to achieve Substantial Completion by the Scheduled Substantial Completion Date; or

- (v) without prejudice to Sections 57.1(a)(i) to 57.1(a)(iv), with respect to the indemnity in Section 56.1(a)(vii), a claim for:
 - (A) loss of profits, loss of use, loss of production, loss of business or loss of business opportunity of any Civil Contractor or Civil Contractor Party; or
 - (B) Civil Contractor Debt Service Amounts,(collectively, “**Indirect Losses**”).
- (b) With respect to the indemnity in Section 56.1(a)(i), the exceptions in Sections 57.1(a)(ii) (insofar as it relates to loss of use) and 57.1(a)(iii) shall not apply as a result of, or in relation to, Contracting Authority’s loss of use of the Ontario Line Subway or the New Third Party Infrastructure or a portion thereof, which for the purposes of Section 56.1(a)(i), shall be Direct Losses (but for greater certainty, nothing in this Section 57.1(b) shall apply to Contracting Authority’s loss of profits, loss of production, loss of business or loss of business opportunity which shall remain Indirect Losses).
- (c) With respect to the indemnity in Section 56.1(a)(v) only, the exceptions in Sections 57.1(a)(ii) and 57.1(a)(iii) shall not apply as a result of, or in relation to, CP Rail’s loss of use of the CP Rail Corridor Lands, which, for the purposes of Section 56.1(a)(v), shall be Direct Losses.

57.2 No Liability in Tort

- (a) Subject to the indemnities provided herein, neither Contracting Authority nor any Province Persons shall be liable in tort to Project Co or any Project Co Party, and neither Project Co nor any Project Co Party shall be liable in tort to Contracting Authority or any Province Person in respect of any negligent act or omission of any such person relating to or in connection with this Project Agreement and no such person shall bring such a claim.

57.3 Sole Remedy

- (a) Subject to:
 - (i) any other rights of Contracting Authority expressly provided for in this Project Agreement; and
 - (ii) Contracting Authority’s right to claim, on or after termination of this Project Agreement, the amount of its reasonable costs, losses, damages and expenses suffered or incurred by it as a result of rectifying or mitigating the effects of any breach of this Project Agreement by Project Co except to the extent that the same has already been recovered by Contracting Authority pursuant to this Project Agreement or has been taken into account to reduce any compensation payable by Contracting Authority pursuant to Section 49,

the sole remedy of Contracting Authority in respect of a failure to perform the Project Co Services in accordance with this Project Agreement shall be the operation of the Payment Mechanism.

- (b) Nothing in Section 57.3(a) shall prevent or restrict the right of Contracting Authority to seek injunctive relief or a decree of specific performance or other discretionary remedies of a court of competent jurisdiction.
- (c) Notwithstanding any other provision of this Project Agreement, and except to the extent recovered under any of the insurances required pursuant to Schedule 25 – Insurance and Performance Security Requirements, neither Party shall be entitled to recover compensation or make a claim under this Project Agreement, or any other agreement in relation to the Project, in respect of any loss that it has incurred (or any failure of the other Party) to the extent that the Party has already been compensated in respect of that loss or failure pursuant to this Project Agreement, or otherwise.
- (d) For clarity, the following shall apply with respect to the following deductions and liquidated damages set out in the Project Agreement:
 - (i) the liquidated damages paid by Project Co pursuant to Section 2.3(a) shall be the sole remedy of Contracting Authority for Project Co’s failure to deliver to Contracting Authority any of the documents referred to in Section 1 (*Documents To Be Delivered By Project Co*) of Schedule 2 – Completion Documents by the Financial Close Target Date (other than as a direct result of a breach by Contracting Authority of its obligations under Section 2 (*Documents To Be Delivered By Contracting Authority*) of Schedule 2 – Completion Documents)) if Contracting Authority does not waive such requirement;
 - (ii) the liquidated damages paid by Project Co pursuant to Section 3.1(a) (*Train Delay*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime shall be Contracting Authority’s sole remedy for any individual Train Delay or any Incident of Train Delay contemplated in such Section 3.1(a);
 - (iii) the liquidated damages paid by Project Co pursuant to Section 3.1(c) (*Train Delay*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime shall be Contracting Authority’s sole remedy for any actual Incident of Train Delay which has caused an individual Train Cancellation contemplated in such Section 3.1(c);
 - (iv) the liquidated damages paid by Project Co pursuant to Section 3.1(d) (*Train Delay*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime shall be Contracting Authority’s sole remedy for Alternative Transportation Events contemplated in such Section 3.1(d);
 - (v) the liquidated damages paid by Project Co pursuant to Section 3.2 (*Rail Corridor Access*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime shall be Contracting Authority’s sole remedy for a Failure to Vacate contemplated in such Section 3.2;

- (vi) the liquidated damages paid by Project Co pursuant to Section 4(a) (*Liquidated Damages – Lane Closures and TTC Station Weekend Closures*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime shall be Contracting Authority’s sole remedy for Lane Closures contemplated in such Section 4(a), provided that Project Co’s obligation to indemnify Contracting Authority pursuant to Section 56.1(a) shall remain unaffected by, and shall apply in addition to, any liquidated damages payable by Project Co pursuant such Section 4(a);
- (vii) subject and without prejudice to the other remedies of Contracting Authority in the Project Agreement (including remedies for termination for a Project Co Event of Default) (other than in respect of Specified Costs), the liquidated damages paid by Project Co pursuant to Section 5.1 (*Failure to Achieve Substantial Completion*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime shall be the sole remedy of Contracting Authority and the Province Persons for Specified Costs that may be claimed by Contracting Authority and the Province Persons as a result of Project Co failing to achieve the requirements for the Substantial Completion Certificate and a Substantial Completion Certificate not being issued on or before the Substantial Completion LD Commencement Date, but shall not be Contracting Authority’s sole remedy with respect to amounts that are not Specified Costs in connection with Project Co failing to achieve the requirements for the Substantial Completion Certificate and a Substantial Completion Certificate not being issued on or before the Substantial Completion LD Commencement Date;
- (viii) the liquidated damages paid by Project Co pursuant to Section 5.2 (*Failure to Satisfy LEED Silver Certification Requirements*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime shall be the sole remedy in respect of Project Co’s failure to obtain the minimum number of points required pursuant to Section 23.4(b) or obtain the LEED Silver Certification for the OMSF twenty-four (24) months after the Substantial Completion Date (where such failure is not as a direct result of any act or omission of Contracting Authority or any Contracting Authority Party);
- (ix) the amounts deducted from the Substantial Completion Payment pursuant to Schedule 19 – Liquidated Damages and Construction Enforcement Regime shall not be Contracting Authority’s sole remedy in respect of Project Co’s failure to perform in accordance with the Project Agreement;
- (x) the liquidated damages paid by Project Co pursuant to Section 6.1 (*Failure to Deliver Critical Data or Complete Critical Works or OMSF Works on Time*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime shall be Contracting Authority’s sole remedy for the all costs and losses for an Integration Milestone Delay; and
- (xi) the liquidated damages paid by Project Co pursuant to Section 4(b) (*Liquidated Damages – Lane Closures and TTC Station Weekend Closures*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime shall be Contracting Authority’s sole remedy for Project Co cancelling any TTC Station Weekend Closure in the circumstances described in such Section 4(b).

- (e) For certainty, the unavailability of relief pursuant to Section 40 and Section 41 as a result of any action or omission by Project Co or a Project Co Party shall not be considered a remedy for purposes of this Section 57.3 and the determination of the sole remedy available in the relevant circumstances.

57.4 Maximum Liability

- (a) Subject to Section 57.4(b), the maximum aggregate liability of each Party, shall,
 - (i) in respect of all claims under Section 56 which arise during or are in respect of the Construction Period or are related to the Works, not exceed \$[REDACTED] (the “**Construction Period Limit**”); and
 - (ii) in respect of all claims under Section 56 which arise during or are in respect of the Operational Term or are related to the Project Operations other than the Works, not exceed \$[REDACTED] (the “**Operational Term Limit**”),

provided that the Construction Period Limit and the claims associated therewith shall be exclusive of the Operational Term Limit and the claims associated therewith. The Construction Period Limit and Operational Term Limit shall be index linked and shall be exclusive of any insurance or Performance Security proceeds (other than any parent company performance guarantee) received or which will be received pursuant to Performance Security or policies maintained in accordance with Schedule 25 – Insurance and Performance Security Requirements. Neither the Construction Period Limit nor the Operational Term Limit shall apply in cases of wilful misconduct or deliberate acts of wrongdoing.

- (b) Project Co’s maximum aggregate liability in respect of all claims under Section 56.1(a)(i) shall not exceed \$[REDACTED]. This limit shall be index linked and shall be exclusive of any insurance or Performance Security proceeds (other than any parent company performance guarantee) received or which will be received pursuant to policies maintained in accordance with Schedule 25 – Insurance and Performance Security Requirements. This limit shall not apply in cases of wilful misconduct or deliberate acts of wrongdoing.
- (c) Nothing in this Section 57.4 shall restrict, limit, prejudice or in any other way impair the rights and/or remedies of the Parties under any other provision of this Project Agreement.
- (d) For clarity, nothing in this Section 57.4 shall restrict or limit, or establish any maximum liability, in respect of any amount payable, by Project Co to Contracting Authority, as the Property Access Closure Adjustments pursuant to Schedule 36 – Property Access Matters.

57.5 Maximum Liability for Liquidated Damages and Total Construction Period Deductions

- (a) Project Co’s maximum aggregate liability in respect of its obligations to pay the liquidated damages described in Section 3 (*Liquidated Damages – Train Delays*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime shall not exceed \$[REDACTED].

- (b) Project Co's maximum aggregate liability in respect of its obligations to pay the liquidated damages described in (i) Section 5.1 (*Failure to Achieve Substantial Completion*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime, (ii) Section 5.2 (*Failure to Satisfy LEED Silver Certificated Requirements*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime; and (iii) Section 7.2 (*Calculation of the Construction Period Deductions*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime, shall not exceed \$[REDACTED].
- (c) Project Co's maximum aggregate liability in respect of its obligations to pay the liquidated damages described in Section 6.1 (*Failure to Deliver Critical Data or Complete Critical Works or OMSF Works on Time*) of Schedule 19 – Liquidated Damages and Construction Enforcement Regime shall not exceed \$[REDACTED].
- (d) The limit set out in Sections 57.5(a) shall be index linked and shall be exclusive of any insurance or Performance Security proceeds (other than any parent company performance guarantee) received or which will be received pursuant to policies maintained in accordance with Schedule 25 – Insurance and Performance Security Requirements. None of those limits shall apply in cases of wilful misconduct or deliberate acts of wrongdoing.
- (e) Nothing in this Section 57.5 shall restrict, limit, prejudice or in any other way impair the rights and/or remedies of the Parties under any other provision of this Project Agreement.

58. DISPUTE RESOLUTION PROCEDURE

- (a) All Disputes shall be resolved in accordance with, and the Parties shall comply with, Schedule 27 – Dispute Resolution Procedure.
- (b) The applicable terms of any Civil Project Interface Agreement between Contracting Authority, Project Co and a Civil Contractor shall also apply to the resolution of any Disputes which are subject to such Civil Project Interface Agreement.

59. ASSIGNMENT, SUBCONTRACTING AND CHANGES IN CONTROL

59.1 Project Co Assignment

- (a) Project Co shall not assign, transfer, charge, dispose of or otherwise alienate any interest in this Project Agreement, any of the Contracts or any agreement entered into in connection with this Project Agreement without the prior written consent of Contracting Authority, which shall not be unreasonably withheld or delayed, and which shall, in any event, be conditional upon Project Co paying to Contracting Authority any amount calculated under Section 59.6(a)(ii) and that no assignment, transfer, charge, disposition or other alienation shall be permitted to a person where that person or its Affiliate is a Restricted Person or a person whose standing or activities may compromise (i) Contracting Authority's reputation or integrity, or (ii) the nature of any of the public transit systems within the City of Toronto so as to affect public confidence in any of the public transit systems within such area or the Project.

- (b) Section 59.1(a) shall not apply to the grant of any security for any loan made to Project Co under the Lending Agreements provided that any grantee of such security shall enter into the Lenders' Direct Agreement in relation to the exercise of its rights, if Contracting Authority so requires.

59.2 Contracting Authority Assignment

- (a) Contracting Authority may assign, transfer, dispose of or otherwise alienate any interest in this Project Agreement or any agreement in connection with this Project Agreement to which Project Co and Contracting Authority are parties:
- (i) to the Province;
 - (ii) as may be required to comply with Applicable Law;
 - (iii) to any minister of the Province;
 - (iv) to an agency of the Province having the legal capacity, power, authority and ability to become a party to and to perform the obligations of Contracting Authority under this Project Agreement provided that such person confirms in writing to Project Co that it will perform all of Contracting Authority's obligations hereunder and under the other Project Documents to which Contracting Authority is party in respect of the period from and after the assignment; and
 - (v) in circumstances other than those described in Sections 59.2(a)(i) to 59.2(a)(iv), with the prior written consent of Project Co; provided that the person to whom any such assignment, transfer, disposition or other alienation is made has the capacity to perform, and confirms in writing to Project Co that it will perform all the obligations of Contracting Authority hereunder and under any agreement in connection with this Project Agreement to which Project Co and Contracting Authority are parties in respect of the period from and after the assignment.
- (b) Contracting Authority shall not be released of any of its obligations under this Project Agreement except upon an assignment, transfer, disposition or other alienation of its interest in this Project Agreement in accordance with this Section 59.2.

59.3 Subcontractors

- (a) Project Co shall not subcontract any interest in this Project Agreement, or any of the Contracts, and shall not permit the Contractors to subcontract any interest in any of the Contracts to a Restricted Person, or any Affiliate thereof, or a person whose standing or activities may compromise (i) Contracting Authority's reputation or integrity, or (ii) the nature of any of the public transit systems within the City of Toronto so as to affect public confidence in any of the public transit systems within such area or the Project.
- (b) Project Co shall not terminate, agree to the termination of or replace any Contractor unless Project Co has complied with Sections 7.2(a), 59.3(c) and 59.3(d) or received the prior written consent of Contracting Authority.

- (c) Subject to Section 59.3(d), if any of the Contracts shall at any time lapse, terminate or otherwise cease to be in full force and effect, whether by reason of expiry, default or otherwise, with the effect that the Contractor, shall cease to act in relation to the Project, Project Co shall forthwith appoint a replacement, subject to Contracting Authority's prior written consent, acting reasonably, as to the suitability of the replacement.
- (d) It is a condition of replacement of the Construction Contractor, the Service Provider or [REDACTED] that, and Project Co shall require that, any replacement enter into a contract upon the same or substantially similar terms as the person so replaced and into a direct agreement on the same terms as the Direct Agreement entered into by the person so replaced, unless any material variations are approved by Contracting Authority, acting reasonably.

59.4 Changes in Ownership and Control

- (a) No Restricted Person or a person whose standing or activities are inconsistent with the Province's reputation or integrity shall be permitted to have at any time or acquire, Direct or Indirect Power or Control over any member of the Project Co Group in relation to the decisions, management, actions or policies of Project Co or in relation to the operation, management and ownership of the Project.
- (b) No Change in Ownership of Project Co, or of any Control Party, shall be permitted:
 - (i) where the person acquiring the ownership interest is a Restricted Person;
 - (ii) where the person acquiring the ownership interest is a person whose standing or activities may compromise (A) Contracting Authority's reputation or integrity, or (B) the nature of any of the public transit systems within the City of Toronto so as to affect public confidence in any of the public transit systems within such area or the Project; or
 - (iii) if such Change in Ownership would have a material adverse effect on the performance of the Project Operations, the Governmental Activities or the availability of the Ontario Line Subway to System Users.
- (c) In the event that:
 - (i) a person having Direct or Indirect Power or Control over any member of the Project Co Group in relation to the decisions, management, actions or policies of Project Co or in relation to the operation, management and ownership of the Project becomes a Restricted Person, or
 - (ii) a person who, directly or indirectly, has an Economic Interest in Project Co or the Project becomes a Restricted Person as set out in paragraph (a)(i) of the definition of Restricted Person,

Contracting Authority may:

- (iii) in the case of an individual who becomes a Restricted Person, require that such Restricted Person be divested of his or her Direct or Indirect Power or Control or Economic Interest, as applicable; or
- (iv) in any other circumstance, require a Change in Ownership so that the Restricted Person shall be divested of its Direct or Indirect Power or Control,

in each case, on such terms as are satisfactory to Contracting Authority, in its discretion.

- (d) Project Co shall provide notice to Contracting Authority of any Change in Ownership of Project Co or of any Control Party, as the case may be, that is not a Change in Control within five (5) Business Days after such Change in Ownership, and such notice shall include:
 - (i) a statement identifying all persons with an ownership interest in Project Co or the relevant Control Party, as the case may be, and their respective holdings of such ownership interests, in each case prior to and following such Change in Ownership; and
 - (ii) a statement identifying the Excess Equity Gain arising from such Change in Ownership together with supporting calculations and documents.
- (e) Subject to Sections 59.4(a), 59.4(b) and 59.4(c) and to the payment by Project Co of any Excess Equity Gain under Section 59.6(a)(i), no Change in Control of Project Co, or of any Control Party, shall be permitted without the prior written consent of Contracting Authority, not to be unreasonably withheld or delayed.
- (f) Project Co shall provide notice to Contracting Authority of any proposed Change in Control of Project Co or of any Control Party, as the case may be, not less than twenty (20) Business Days prior to such proposed Change in Control, and such notice shall include:
 - (i) a statement identifying all persons with an ownership interest in Project Co or the relevant Control Party, as the case may be, and their respective holdings of such ownership interests in each case prior to and following any such proposed Change in Control;
 - (ii) as applicable, the legal name, registered address, directors and officers of, and nature of the business and activities carried on by, the person who would acquire control over Project Co or the relevant Control Party pursuant to such Change in Control; and
 - (iii) a statement identifying the Excess Equity Gain which would arise from such proposed Change in Control together with supporting calculations and documents.

Following the delivery to Contracting Authority of the notice referred to in this Section 59.4(f), Project Co shall provide Contracting Authority with such other information pertaining to the proposed Change in Control as Contracting Authority may reasonably request.

- (g) Upon request by Project Co and delivery of the information required by Contracting Authority, Contracting Authority shall advise Project Co whether the person described in such particulars is

a Restricted Person or a person whose standing or activities may compromise (A) Contracting Authority's reputation or integrity, or (B) the nature of any of the public transit systems within the City of Toronto so as to affect public confidence in the public transit systems within such area or the Project.

- (h) This Section 59.4 shall not apply to a Change in Ownership or Change in Control or acquisition of Direct or Indirect Power or Control of persons whose equity securities, ownership units or any other ownership interests are listed on a recognized stock exchange.
- (i) Section 59.4(d) shall not apply to a Change in Ownership of a Control Party that arises from a change in the shareholdings of such Control Party or an Affiliate of such Control Party (the "**Relevant Entity**") owned by an employee of such Relevant Entity, unless such changes (i) individually or in the aggregate determined since the date of this Project Agreement, would result in a Change in Control of Project Co, in which case Section 59.4(f) shall apply; or (ii) would result in an obligation to compensate Contracting Authority in accordance with Section 59.6 of this Project Agreement, in which case Section 59.4(d) and Section 59.6 shall apply.

59.5 Contracting Authority's Due Diligence

- (a) Project Co shall promptly reimburse Contracting Authority for Contracting Authority's reasonable due diligence costs (including fees of professional advisors) in connection with any consent required of Contracting Authority pursuant to, or Contracting Authority's determination of Project Co's compliance with, Sections 59.1, 59.3 or 59.4, whether or not such consent is granted.

59.6 Gain Share

- (a) Contracting Authority shall be entitled to receive a **[REDACTED]**% share of:
 - (i) any Excess Equity Gain arising from a Change in Ownership of Project Co; and
 - (ii) the amount from the proceeds of a sale of any of Project Co's assets to a third party, which sale includes an assignment, transfer, disposition of or other alienation of an interest in the Project Agreement by Project Co made in accordance with Section 59.1, that is equal to the amount that would have been payable in accordance with Section 59.6(a)(i) if such sale had proceeded as a Change in Ownership of Project Co

60. PROHIBITED ACTS

60.1 Definition

- (a) The term "**Prohibited Act**" means:
 - (i) offering, giving or agreeing to give to Contracting Authority or any public body (or anyone employed by or acting on their behalf), or to any family member of such person, any gift or consideration of any kind as an inducement or reward:

- (A) for doing or not doing, or for having done or not having done, any act in relation to the obtaining or performance of this Project Agreement or any other agreement with Contracting Authority or any public body in connection with the Project; or
- (B) for showing or not showing favour or disfavour to any person in relation to this Project Agreement or any other agreement with Contracting Authority or any public body in connection with the Project;

provided that this Section 60.1(a)(i) shall not apply to Project Co or any Project Co Party (or anyone employed by or acting on their behalf) providing consideration to Contracting Authority or any public body in the ordinary course, or as reasonably necessary, to fulfill or comply with the obligations and liabilities of Project Co under this Project Agreement or any other agreement with Contracting Authority or any public body in connection with the Project;

- (ii) entering into this Project Agreement or any other agreement with Contracting Authority or any public body in connection with the Project if a commission or a fee has been paid or has been agreed to be paid by Project Co, or on its behalf or to its knowledge, to Contracting Authority or any public body (or anyone employed by or acting on their behalf), or to any family member of such person, unless, before the relevant agreement is entered into, particulars of any such commission or fee have been disclosed in writing to Contracting Authority, provided that this Section 60.1(a)(ii) shall not apply to a fee or commission paid by Project Co or any Project Co Party (or anyone employed by or acting on their behalf) to Contracting Authority or any public body pursuant to an agreement where such fee or commission is paid in the ordinary course, or as reasonably necessary, to fulfill or comply with the obligations and liabilities of Project Co under this Project Agreement or any other agreement with Contracting Authority or any public body in connection with the Project without contravening the intent of this Section 60;
- (iii) breaching or committing any offence under Applicable Law in respect of corrupt or fraudulent acts in relation to this Project Agreement or any other agreement with Contracting Authority or any public body in connection with the Project; or
- (iv) defrauding or attempting to defraud or conspiring to defraud Contracting Authority or any other public body.

60.2 Remedies

- (a) If Project Co or any Project Co Party (or anyone employed by or acting on their behalf) commits any Prohibited Act, then Contracting Authority shall be entitled to act in accordance with the following:
 - (i) if the Prohibited Act is committed by Project Co or by an employee acting under the direction of a director or officer of Project Co, then Contracting Authority may give written Notice to Project Co and Section 45 shall apply;

- (ii) if the Prohibited Act is committed by an employee of Project Co acting independently of a direction of a director or officer of Project Co, then Contracting Authority may give written Notice to Project Co and Section 45 shall apply, unless, within thirty (30) days of receipt of such Notice, Project Co terminates the employee's employment and ensures that the relevant part of the Project Operations shall be performed by another person;
 - (iii) if a Prohibited Act is committed by a Project Co Party or by an employee of that Project Co Party not acting independently of a direction of a director or officer of that Project Co Party, then Contracting Authority may give written Notice to Project Co and Section 45 shall apply, unless, within thirty (30) days of receipt of such Notice, Project Co terminates the relevant Subcontract and ensures that the relevant part of the Project Operations shall be performed by another person, where relevant, in accordance with Section 59.3;
 - (iv) if the Prohibited Act is committed by an employee of a Project Co Party acting independently of a direction of a director or officer of that Project Co Party, then Contracting Authority may give Notice to Project Co and Section 45 shall apply, unless, within thirty (30) days of receipt of such Notice, Project Co causes the termination of the employee's employment and ensures that the relevant part of the Project Operations shall be performed by another person; and
 - (v) if the Prohibited Act is committed on behalf of Project Co or a Project Co Party by a person not specified in Sections 60.2(a)(i) to 60.2(a)(iv), then Contracting Authority may give Notice to Project Co and Section 45 shall apply, unless, within thirty (30) days of receipt of such Notice, Project Co causes the termination of such person's employment or the appointment of their employer and, if necessary, ensures that the relevant part of the Project Operations shall be performed by another person.
- (b) Any Notice of termination under this Section 60.2 shall specify:
- (i) the nature of the Prohibited Act;
 - (ii) the identity of the person whom Contracting Authority believes has committed the Prohibited Act; and
 - (iii) the date of termination in accordance with the applicable provisions of this Project Agreement.
- (c) Without prejudice to its other rights or remedies under this Section 60.2, Contracting Authority shall be entitled to recover from Project Co any Direct Loss sustained in consequence of any breach of this Section 60.

60.3 Permitted Payments

- (a) Nothing contained in this Section 60 shall prevent Project Co or any other person from paying any proper commission, fee or bonus whether to its employees within the agreed terms of their

employment or otherwise, and such commission fee or bonus shall not constitute a Prohibited Act.

60.4 Notification

- (a) Project Co shall notify Contracting Authority of the occurrence and details of any Prohibited Act promptly on Project Co becoming aware of its occurrence.

60.5 Replacement of Project Co Party

- (a) Where Project Co is required to replace any Project Co Party pursuant to this Section 60, the party replacing such Project Co Party shall from the time of the replacement be deemed to be a Project Co Party and the provisions of this Project Agreement shall be construed accordingly.

61. NOTICES

61.1 Notices to Parties

- (a) All notices, requests, demands, instructions, certificates, consents and other communications (each being a “Notice”) required or permitted under this Project Agreement shall be in writing (whether or not “written notice” or “notice in writing” is specifically required by the applicable provision of this Project Agreement) and served by sending the same by registered mail, by hand (in each case with a copy by electronic submission to the Contracting Authority Representative), or by electronic submission as follows:

If to Project Co:

[REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

with a copy to:

[REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

and:

[REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

and:

[REDACTED]

Attn.: [REDACTED]
Email: [REDACTED]

If to Contracting Authority: Metrolinx
2 Queen Street East, 11th Floor
Toronto, Ontario, M5C 3G7

Attn.: [REDACTED]
Email: [REDACTED]

61.2 Notices to Representatives

- (a) In addition to the notice requirements set out in Section 61.1, where any Notice is to be provided or submitted to the Contracting Authority Representative or the Project Co Representative it shall be provided or submitted by sending the same by registered mail, by hand by hand (in each case with a copy by electronic submission to the Contracting Authority Representative), or by electronic submission, as follows:

If to Project Co Representative: [REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

If to the Contracting Authority
Representative: Metrolinx
2 Queen Street East, 11th Floor
Toronto, Ontario, M5C 3G7

Attn.: [REDACTED]

Email: [REDACTED]

with a copy to: Ontario Infrastructure and Lands
Corporation
1 Dundas Street West, 20th Floor
Toronto, Ontario, M5G 1Z3

Email: [REDACTED]

61.3 Electronic Submission

- (a) Where any Notice is provided or submitted to a Party via electronic submission, an original of the Notice sent via electronic submission shall promptly be sent by regular mail or registered mail. For greater certainty, a Notice given via electronic submission shall not be invalid by reason only of a Party's failure to comply with this Section 61.3.

61.4 Change of Address

- (a) Either Party to this Project Agreement may, from time to time, change any of its contact information set forth in Sections 61.1 or 61.2 by prior Notice to the other Party, and such change shall be effective on the Business Day that next follows the recipient Party's receipt of such Notice unless a later effective date is given in such Notice.

61.5 Deemed Receipt of Notices

- (a) Subject to Sections 61.5(b), 61.5(c) and 61.5(d):
- (i) a Notice given by registered mail shall be deemed to have been received on the third (3rd) Business Day after mailing;
 - (ii) a Notice given by hand delivery shall be deemed to have been received on the day it is delivered; and
 - (iii) a Notice given by electronic submission shall be deemed to have been received on the day it is transmitted by electronic submission.
- (b) If the Party giving the Notice knows or ought reasonably to know of difficulties with the postal system which might affect negatively the delivery of mail, any such Notice shall not be mailed but shall be made or given by personal delivery or by electronic submission in accordance with this Section 61.
- (c) If any Notice delivered by hand or transmitted by electronic submission is so delivered or transmitted, as the case may be, either on a day that is not a Business Day or on a Business Day after 4:00 p.m. (recipient's local time), then such Notice shall be deemed to have been received by such recipient on the next Business Day.
- (d) A Notice given by electronic submission shall be deemed to have been received by the recipient on the day it is transmitted only if an electronic submission report (maintained by the sender) indicates that the transmission of such Notice was successful.

61.6 Service on Contracting Authority

- (a) Where any Notice is required to be served on Contracting Authority, the obligation to serve such Notice shall be fulfilled by serving it on Contracting Authority in accordance with the provisions of this Section 61.

62. EMERGENCY MATTERS

62.1 Emergency

- (a) From Financial Close until the completion of the Works, upon the occurrence of an Emergency, Project Co shall comply with the Emergency Response Plan and the Contractor Site Specific Safety Manual.
- (b) If, in respect of any Emergency, Contracting Authority notifies Project Co that it requires compliance with any additional or overriding procedures as may be determined by Contracting Authority or any other statutory body, then Project Co shall, subject to Schedule 22 – Variation Procedure (if compliance with such procedures constitutes a Variation), comply with such procedures (whether such procedures are specific to the particular Emergency or of general application and on the basis that such procedures shall take precedence to the extent that they overlap with the procedures mentioned in Section 62.1(a)).

63. CONTRACTING AUTHORITY'S DESIGNATE

63.1 Right to Designate

- (a) At any time and from time to time, the Crown may designate any ministry, branch, agency, division, department or office of the Government of Ontario to carry out administrative responsibility for the rights and obligations of Contracting Authority under this Project Agreement (including review of all documentation submitted by Project Co, a Project Co Representative or a Project Co Party to Contracting Authority for review, approval, comment, evaluation or otherwise as described in this Project Agreement, engagement in discussions, consultations and meetings with Project Co, submission of notices and documentation to Contracting Authority, issuances of notices, documentation, Variation Confirmations and related matters) and Project Co may deal exclusively with the designated person in respect of all such matters and is entitled to rely on the actions, directions, requests, notices, consents, approvals, waivers, and comments relating to the review of documentation and other administrative matters and decisions determined by such designated person from time to time, until the Crown has notified Project Co in writing that such designated person is no longer the person designated by the Crown hereunder and such notice shall have effect on the later of the date of delivery of such notice and the date specified in the written notice. The Crown shall advise Project Co in writing of any designation hereunder. The rights and obligations of the parties to this Project Agreement shall be in no way affected by reason of any such designation. Project Co acknowledges the right of the Crown to delegate administrative responsibilities hereunder as set forth in this Section 63.1(a).
- (b) At any time and from time to time, Contracting Authority may designate the Delivery Partner or IO, as applicable, to carry out any of Contracting Authority's rights or obligations relating to the Works and Project Co may deal with the Delivery Partner or IO, as applicable, in respect of all such matters and is entitled to rely on the actions, directions, requests, notices, consents, approvals, waivers, and comments relating to such construction oversight and management matters and decisions determined by the Delivery Partner or IO, as applicable, from time to time, until Contracting Authority has notified Project Co in writing that such designated Delivery

Partner or IO, as applicable, is no longer the person designated by Contracting Authority hereunder in respect of such matters and such notice shall have effect on the later of the date of delivery of such notice and the date specified in the written notice. Contracting Authority shall advise Project Co in writing of any designation hereunder. The rights and obligations of the parties to this Project Agreement shall be in no way affected by reason of any such designation. Project Co acknowledges the right of Contracting Authority to delegate responsibilities hereunder as set forth in this Section 63.1(b).

64. GENERAL

64.1 Amendments

- (a) This Project Agreement may not be varied, amended or supplemented except by an agreement in writing signed by duly authorized representatives of the Parties and stating on its face that it is intended to be an amendment, restatement or other modification, as the case may be, to this Project Agreement.

64.2 Waiver

- (a) No waiver made or given by a Party under or in connection with this Project Agreement shall be binding or effective unless the waiver is in writing, signed by an authorized representative of the Party giving such waiver, and delivered by such Party to the other Party. No waiver made with respect to any right, power or remedy in one instance will be deemed to be a waiver with respect to any other instance involving the exercise of such right, power, or remedy or with respect to any other right, power, or remedy. No further waiver in writing is required in order to give effect to the waivers provided for in accordance with the terms of Sections 25.3(j) and 25.9(h).
- (b) Failure by either Party to exercise any of its rights, powers or remedies hereunder or its delay to do so shall not constitute a waiver of those rights, powers or remedies. The single or partial exercise of a right, power or remedy shall not prevent its subsequent exercise or the exercise of any other right, power or remedy.

64.3 Relationship Between the Parties

- (a) The Parties are independent contractors. This Project Agreement is not intended to and does not create or establish between the Parties, or between Contracting Authority and any Project Co Party, any relationship as partners, joint venturers, employer and employee, master and servant, or (except as provided in this Project Agreement), of principal and agent, and does not create or establish any relationship whatsoever between Contracting Authority and any representative or employee of Project Co or the Project Co Parties.
- (b) The Parties further agree that:
 - (i) except as expressly provided in this Project Agreement, neither Party shall be, or be deemed to be, an agent of the other Party, and neither Party shall have authority hereunder to represent that it is an agent of the other Party, or to accept any order, or enter into any contract or agreement, or make any representations or warranties of any

kind to any person, or to assume or create any obligation, express or deemed, on behalf of or binding, or purportedly binding upon, the other Party;

- (ii) neither Party shall be required to make or pay employment benefits, contributions for Employment Insurance, Canada Pension Plan, Workers' Compensation Board or other similar levies with respect to any persons employed or engaged by the other Party;
- (iii) except as otherwise expressly provided in this Project Agreement, each Party shall be free from the control of the other Party as to the manner in which it shall perform its obligations, or cause same to be performed, under this Project Agreement; and
- (iv) any person which a Party may engage as an agent, employee, subcontractor or otherwise, to perform such Party's obligations under this Project Agreement, as permitted hereby, shall, unless the Parties otherwise agree in writing, be engaged by such Party to act solely on behalf of such Party, and such person shall not act, or be deemed to act, on behalf of the Party that did not engage its services.

64.4 General Duty to Mitigate

- (a) Contracting Authority and Project Co shall at all times take commercially reasonable steps to minimize and mitigate any loss for which the relevant Party is entitled to bring a claim against the other Party pursuant to this Project Agreement.

64.5 Actual Knowledge

- (a) Except where limited to actual knowledge and/or such knowledge which they, at law, may from time to time, be deemed to have, Project Co and Contracting Authority shall, for all purposes of this Project Agreement, be deemed to have such knowledge in respect of the Project as is actually held (or ought reasonably to be held) by the directors, officers and senior management of Project Co and in the case of Contracting Authority, its directors, officers and senior management, and the Contracting Authority Representative or the Project Co Representative, as applicable. For clarity, except as expressly set out to the contrary, a reference in this Project Agreement to the "knowledge" of Project Co or of Contracting Authority shall be construed in a manner consistent with the foregoing sentence.

64.6 Entire Agreement

- (a) Except where provided otherwise in this Project Agreement, this Project Agreement constitutes the entire agreement between the Parties in connection with its subject matter and supersedes all prior representations, communications, negotiations and understandings, whether oral, written, express or implied, concerning the subject matter of this Project Agreement.

64.7 No Reliance

- (a) Each of the Parties acknowledge that:

- (i) it has not entered into this Project Agreement on the basis of and does not rely, and has not relied, upon any statement or representation, whether negligent or innocent, or warranty or other provision, whether oral, written, express or implied, made or agreed to by any person, whether a Party to this Project Agreement or not, except those expressly made, given or repeated in this Project Agreement and the only remedy or remedies available in respect of any misrepresentation or untrue statement made to it shall be those expressly provided for in this Project Agreement; and
- (ii) this Section 64.7 shall not apply to any statement, representation or warranty made fraudulently, or to any provision of this Project Agreement which was induced by fraud, for which the remedies available shall be all those available under the law governing this Project Agreement.

64.8 Severability

- (a) Each provision of this Project Agreement shall be valid and enforceable to the fullest extent permitted by law. If any provision of this Project Agreement is declared invalid, unenforceable or illegal by the courts of a competent jurisdiction, such provision may be severed and such invalidity, unenforceability or illegality shall not prejudice or affect the validity, enforceability and legality of the remaining provisions of this Project Agreement. If any such provision of this Project Agreement is invalid, unenforceable or illegal, the Parties shall, acting in good faith, promptly negotiate new provisions to eliminate such invalidity, unenforceability or illegality and to restore this Project Agreement as near as possible to its original intent and effect.

64.9 Enurement

- (a) This Project Agreement and any other agreement entered into in connection with the Project to which Contracting Authority and Project Co are parties shall enure to the benefit of, and be binding on, Contracting Authority and Project Co and their respective successors and permitted transferees and assigns.

64.10 Governing Law and Jurisdiction

- (a) This Project Agreement, and each of the documents contemplated by or delivered under or in connection with this Project Agreement, shall be governed by and construed in accordance with the laws of Ontario and the laws of Canada applicable therein and shall be treated in all respects as an Ontario contract, without regard to conflict of laws principles.
- (b) Subject to Schedule 27 – Dispute Resolution Procedure, the Parties hereby irrevocably attorn to the exclusive jurisdiction of the courts of the Province of Ontario and all courts competent to hear appeals therefrom.
- (c) Nothing in this Project Agreement affects the rights, protections and immunities of the Crown under the *Crown Liability and Proceedings Act* (Ontario).

64.11 Cumulative Remedies

- (a) Except as otherwise set forth in this Project Agreement, the rights, powers and remedies of each Party set forth in this Project Agreement are cumulative and are in addition to and without prejudice to any other right, power or remedy that may be available to such Party under this Project Agreement.

64.12 Further Assurance

- (a) Each Party shall do all things, from time to time, and execute all further documents necessary to give full effect to this Project Agreement.

64.13 Costs

- (a) Each Party shall be responsible for paying its own costs and expenses incurred in connection with the negotiation, preparation and execution and delivery of this Project Agreement.

64.14 Language of Agreement

- (a) Each of the parties acknowledges having requested and being satisfied that this Project Agreement and related documents be drawn in English. Chacune des parties reconnaît avoir demandé que ce document et ses annexes soient rédigés en anglais et s'en déclare satisfaite.
- (b) For greater certainty, all correspondence, notices, drawings, test reports, certificates, specifications, information, operating and maintenance instructions, name plates, identification labels, instructions and notices to the public and staff and all other written, printed or electronically readable matter required in accordance with, or for purposes envisaged by, this Project Agreement shall be in English.

64.15 Proof of Authority

- (a) Contracting Authority and Project Co each reserve the right to require any person executing this Project Agreement on behalf of the other Party to provide proof, in a form acceptable to Contracting Authority or Project Co, as applicable, that they have the requisite authority to execute this Project Agreement on behalf of and to bind Contracting Authority or Project Co, as applicable.

64.16 Counterparts

- (a) This Project Agreement may be executed in one or more counterparts. Any single counterpart or a set of counterparts executed, in either case, by all of the Parties shall constitute a full, original and binding agreement for all purposes. Delivery of an executed counterpart by sending a copy by electronic mail or other electronic transmission shall be as effective as the manual delivery of an executed counterpart.

64.17 Province Persons as Third Party Beneficiaries

- (a) The provisions of Sections 6.2(a), 8.1(c), 9.2(a)(i), 9.2(a)(ii), 9.5(a)(v), 20.3(g), 21.1, 35.7, 36.2(e), 56.1, and 57.2(a) and each other provision of this Project Agreement which is expressed to be for the benefit of a Province Person or a Contracting Authority Party, as applicable, are:
- (i) intended for the benefit of each Province Person, or Contracting Authority Party, as applicable and, if so set out in the relevant Section, each Province Person's or Contracting Authority Party's, as applicable, directors, officers employees, board appointees, agents and representatives, and shall be enforceable by each of such persons and his or her heirs, executors, administrators and other legal representatives (collectively, in respect of each Province Person, the "**Province Person Third Party Beneficiaries**", and in respect of each Contracting Authority Party, the "**Contracting Authority Third Party Beneficiaries**"); and
 - (ii) are in addition to, and not in substitution for, any other rights that the Province Person Third Party Beneficiaries may have in contract or otherwise.
- (b) Contracting Authority shall hold the rights and benefits of Sections 6.2(a), 8.1(c), 9.2(a)(i), 9.2(a)(ii), 9.5(a)(v), 20.3(g), 21.1, 35.7, 36.2(e), 56.1, and 57.2(a) and each other provision of this Project Agreement which is to the benefit of each Province Person or Contracting Authority Party, as applicable, in trust for and on behalf of the Province Person Third Party Beneficiaries or Contracting Authority Third Party Beneficiaries, as applicable, and Contracting Authority hereby accepts such trust and agree to hold the benefit of and enforce performance of such covenants on behalf of the Province Person Third Party Beneficiaries or Contracting Authority Third Party Beneficiaries, as applicable.

64.18 Copyright Notice

- (a) The Parties acknowledge that the King's Printer for Ontario is the exclusive owner of the Copyright in the Project Agreement.

SCHEDULE 1

DEFINITIONS AND INTERPRETATION

1. **Definitions.** In the Project Agreement, unless the context otherwise requires:
 - 1.1 “**10-Day Notice**” has the meaning given in Section 25.3(a) (*Substantial Completion Certificate*) of the Project Agreement.
 - 1.2 “**Acceptance**” has the meaning given in Schedule 38 – Cars.
 - 1.3 “**Access Opportunities Calendar**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
 - 1.4 “**Access Ready Checklist**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable.
 - 1.5 “**Accessibility for Ontarians with Disabilities Act (Ontario)**” means the Accessibility for Ontarians with Disabilities Act, S.O. 2005, c. 11, as amended from time to time.
 - 1.6 “**Account Trustee**” has the meaning given in Schedule 30 – Insurance Trust Agreement.
 - 1.7 “**Actual Relevant Insurance Cost**” has the meaning given in Schedule 25 – Insurance and Performance Security Requirements.
 - 1.8 “**Additional Base Trip**” has the meaning given in the Output Specifications.
 - 1.9 “**Additional Car**” has the meaning given in Schedule 38 – Cars.
 - 1.10 “**Additional Car Acceptance Schedule**” has the meaning given in Schedule 38 – Cars.
 - 1.11 “**Additional Contractor**” means any independent contractor (not being, for the avoidance of doubt, any of the Early Works Contractors, Third Party Contractors, a Civil Contractor or Project Co) or Contracting Authority’s own forces, engaged by Contracting Authority to carry out the Additional Works. For greater certainty, (i) an Extension Contractor who is not Project Co may, if applicable, be an Additional Contractor and (ii) a TOC Contractor and TOC Contractor Party shall be considered to be an Additional Contractor when carrying out Additional Works.
 - 1.12 “**Additional Lands**” has the meaning given in Section 14.6(d) (*Additional Lands/Adjustments to Metrolinx Lands Available to Project Co*) of the Project Agreement.
 - 1.13 “**Additional Lands Request**” has the meaning given in Section 14.6(a) (*Additional Lands/Adjustments to Metrolinx Lands Available to Project Co*) of the Project Agreement.
 - 1.14 “**Additional Operations Noise and Vibration Sensitive Receptor Performance Requirements**” has the meaning given in Schedule 17 – Environmental Obligations.

- 1.15 “**Additional PLAA Completion Requirements**” has the meaning given in Schedule 34 – Permits, Licences, Approvals and Agreements.
- 1.16 “**Additional Trip**” has the meaning given in the Output Specifications.
- 1.17 “**Additional Works**” means those works or services, in relation to any part of the Ontario Line Subway, in relation to any New Third Party Infrastructure or in relation to any TOC Development, which are not Works or Project Co Services and which are to be carried out by an Additional Contractor, including works or services to be performed either before or after Substantial Completion.
- 1.18 “**Adjacent Developer**” means a developer or applicant in respect of any Adjacent Development who, or whose lands, is subject to the *Building Transit Faster Act (2020)*.
- 1.19 “**Adjacent Development Comment Form**” has the meaning given in Section 9.9(c)(i) (*Adjacent Developments*) of the Project Agreement.
- 1.20 “**Adjacent Developments**” means any development works or like activity, which is subject to the *Building Transit Faster Act (2020)*, carried out during the Project Term by or on behalf of any third party adjacent to the Lands, Ontario Line Subway or New Third Party Infrastructure and which otherwise affects or may potentially affect any part of the Works, the Project Co Services, the Lands, the Ontario Line Subway or the New Third Party Infrastructure, other than the TOC Developments, the North Civil Project or the South Civil Project.
- 1.21 “**Adjudication**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.
- 1.22 “**Adjudicator**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.
- 1.23 “**Adjusted Estimated Fair Value**” has the meaning given in Schedule 23 – Compensation on Termination.
- 1.24 “**Adjusted Highest Qualifying Tender Price**” has the meaning given in Schedule 23 – Compensation on Termination.
- 1.25 “**Affiliate**” means an “**affiliate**” as that term is used in the *Business Corporations Act* (Ontario) and any successor legislation thereto, and, in the case of Project Co, shall include each of its unitholders, shareholders, partners or owners as the case may be.
- 1.26 “**Aggregate Actual Property Access Closures**” has the meaning given in Schedule 36 – Property Access Matters.
- 1.27 “**Aggregate Actual Property Access Closures Cost**” has the meaning given in Schedule 36 – Property Access Matters.
- 1.28 “**Aggregate Target Property Access Closures**” has the meaning given in Schedule 36 – Mobility Matters.

- 1.29 “**Aggregate Target Property Access Closures Cost**” has the meaning given in Schedule 36 – Property Access Matters.
- 1.30 “**All Availability Failures**” means Trip Availability Failures and Station Availability Failures.
- 1.31 “**Alternative Transportation Event**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.32 “**Ancillary Documents**” means:
- (a) the Construction Contract;
 - (b) the Service Contract;
 - (c) the Performance Security;
 - (d) [REDACTED];
 - (e) [REDACTED];
 - (f) [REDACTED];
 - (g) [REDACTED];
 - (h) [REDACTED];
 - (i) [REDACTED]; and
 - (j) [REDACTED].
- 1.33 “**Annual Environmental Compliance Monitoring Report**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.34 “**Annual Insurance Report**” has the meaning given in Schedule 25 – Insurance and Performance Security Requirements.
- 1.35 “**Anti-Racism**” means a process, a systematic method of analysis, and a proactive course of action rooted in the recognition of the existence of racism, including Systemic Racism, which actively seeks to identify, challenge, prevent, and mitigate racially inequitable outcomes and power imbalances between groups and change the structures that sustain inequities.
- 1.36 “**Anticipated COVID-19 Impact End Date**” means [REDACTED].
- 1.37 “**Anticipated Final Completion Date**” has the meaning given in Section 25.9A(a) (*Final Completion Countdown Notice*) of the Project Agreement.

- 1.38 “**Anticipated Milestone Payment Completion Date**” has the meaning given in Section 34A(a)(i) (*Milestone Payment Completion Countdown Notice*) of the Project Agreement.
- 1.39 “**Anticipated Substantial Completion Date**” has the meaning given in Section 25.5(a) (*Substantial Completion Countdown Notice and Substantial Completion Deliverables*) of the Project Agreement.
- 1.40 “**Applicable Law**” means:
- (a) any statute or proclamation or any delegated or subordinate legislation including regulations and by-laws;
 - (b) any Authority Requirement; and
 - (c) any judgment of a relevant court of law, board, arbitrator or administrative agency which is a binding precedent in the Province of Ontario,
- in each case, in force in the Province of Ontario, or otherwise binding on Project Co, any Project Co Party, Contracting Authority, any Contracting Authority Party or any other Province Person.
- 1.41 “**Appropriate Persons**” has the meaning given in Schedule 11 – Quality Management.
- 1.42 “**Applicable Privacy Law**” means any Applicable Law that relates to the Handling of Personal Information, including FIPPA.
- 1.43 “**Arbitration Act, 1991 (Ontario)**” means the *Arbitration Act, 1991*, S.O. 1991, c. 17, as amended from time to time.
- 1.44 “**Archaeological Reports**” means the archaeological reports set out in Appendix B to Schedule 17 – Environmental Obligations.
- 1.45 “**Archaeological Risk Management Plan**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.46 “**Architect**” means an architect licensed by the Ontario Association of Architects to practice in the Province of Ontario.
- 1.47 “**As-Built Drawings**” means drawings prepared by Project Co to reflect the installed, constructed or commissioned condition of the Works, in a format and with content and details that, as applicable, Contracting Authority, the City, the Toronto Transit Commission, any Railway Company or Utility Company, acting reasonably, considers appropriate.
- 1.48 “**Asset Information System**” has the meaning given in the Output Specifications.
- 1.49 “**Asset Management Plan**” has the meaning given in the Output Specifications.

- 1.50 “**Associated Liabilities**” has the meaning given in Section 35.7(b)(iv) (*Taxes – Indemnity*) of the Project Agreement.
- 1.51 “**ATMS**” has the meaning given in the Output Specifications.
- 1.52 “**Audit of Temporary Traffic Management**” means an audit of the Traffic and Transit Management Plan using the sample site report, or equivalent, set out in Appendix G of Schedule 11 – Quality Management.
- 1.53 “**Authority Requirements**” means any order, direction, directive, request for information, policy, administrative interpretation, guideline or rule of or by any Governmental Authority and includes, for clarity, any direction or instruction from Transport Canada arising from any contractual arrangement or Board Orders involving Transport Canada and MTO.
- 1.54 “**Auxiliary Facilities**” has the meaning given in the Output Specifications.
- 1.55 “**Auxiliary Facilities Occupants**” has the meaning given in the Output Specifications.
- 1.56 “**Availability Failure**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.57 “**Background Information**” means, other than any Critical South Civil Infrastructure Data, South Civil Infrastructure Technical Specifications, Critical North Civil Infrastructure Data or North Civil Infrastructure Technical Specifications, any and all drawings, reports (including the Environmental Reports, the Archaeological Reports, the Cultural Heritage Reports, the Environmental Assessments, the Subsurface Utility Engineering Reports, the Project GBR, except to the extent set out in Schedule 45 – Geotechnical Baseline Report (and any other report given or otherwise referred to in the Output Specifications)), as well as studies, plans, data, documents, or other information, given or made available to Project Co or any Project Co Party by Contracting Authority or any Contracting Authority Party, or which was obtained from or through any other sources prior to the date of the Project Agreement.
- 1.58 “**Backup Operations Control Centre**” or “**BOCC**” has the meaning given in the Output Specifications.
- 1.59 “**BACS**” has the meaning given in the Output Specifications.
- 1.60 “**Bank**” has the meaning given in Schedule 30 – Insurance Trust Agreement.
- 1.61 “**Bank Act (Canada)**” means the *Bank Act*, S.C. 1991, c. 46, as amended from time to time.
- 1.62 “**Bankruptcy and Insolvency Act (Canada)**” means the *Bankruptcy and Insolvency Act*, R.S.C. 1985, c. B-3, as amended from time to time.
- 1.63 “**Base Case Equity IRR**” means a blended rate based on:

- (a) **[REDACTED]**% with respect to the Equity Capital set out in the Financial Model at Financial Close and any additional Equity Capital contributed to finance the capital costs of construction of any System Extensions where Contracting Authority does not agree to a different rate of return for such additional Equity Capital under Section 3.2(d) (*Additional System Extension Variation Requirements*) of Schedule 44 – System Extension; and
- (b) the rate of return agreed by Contracting Authority for any additional Equity Capital contributed to finance the capital costs of construction of any System Extension where Contracting Authority agrees to a different rate of return for such additional Equity Capital under Section 3.2(e) (*Additional System Extension Variation Requirements*) of Schedule 44 – System Extension,

derived using a revised Financial Model approved by Contracting Authority that takes into account the relative weighting of the Equity Capital in (a) above and the additional Equity Capital in (b) above, all of which, for greater certainty, is calculated on a pre-tax basis. Any adjustments to the Base Case Equity IRR from **[REDACTED]**% will be at the sole discretion of Contracting Authority in accordance with Section 3.2(e) (*Additional System Extension Variation Requirements*) of Schedule 44 – System Extension.

- 1.64 “**Base Relevant Insurance Cost**” has the meaning given in Schedule 25 – Insurance and Performance Security Requirements.
- 1.65 “**Baseline Works Schedule**” has the meaning given in Schedule 12 – Works Schedule Requirements.
- 1.66 “**Basis of Works Schedule Report**” has the meaning given in Schedule 12 – Works Schedule Requirements.
- 1.67 “**Beneficiary**” has the meaning given in Section 56.3(a) (*Conduct of Claims*) of the Project Agreement.
- 1.68 “**Bill of Sale**” has the meaning given in Schedule 38 – Cars.
- 1.69 “**BIM**” has the meaning given in the Output Specifications.
- 1.70 “**Board Order**” means a legal order issued by the Canadian Transportation Agency imposing a constraint on the operation of the railway.
- 1.71 “**Bonds**” means, collectively, the Performance Bond and the Labour and Material Payment Bond.
- 1.72 “**Booking Process**” has the meaning given in the Output Specifications.
- 1.73 “**Booking Request**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.

- 1.74 “**Breach of Refinancing Termination Sum**” has the meaning given in Schedule 23 – Compensation on Termination.
- 1.75 “**Building Code**” means *Building Code Act*, S.O. 1992, c.23 (Ontario) and its associated regulations, as amended from time to time.
- 1.76 “**Building Transit Faster Act (2020)**” means the Building Transit Faster Act, 2020, S.O. 2020, c. 12, and the regulations enacted thereunder, all as amended from time to time.
- 1.77 “**Built to Specification and Design**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable.
- 1.78 “**Business Corporations Act (Ontario)**” means that *Business Corporations Act*, R.S.O. 1990, c. B.16, as amended from time to time.
- 1.79 “**Business Day**” means any day other than Saturday, Sunday, a statutory holiday in the Province of Ontario or any day on which banks are not open for business in the City of Toronto, Ontario.
- 1.80 “**Business Opportunities**” has the meaning given in Section 4.1(a)(i) (*Business Opportunities*) of the Project Agreement.
- 1.81 “**CA Reinstatement Work**” has the meaning given in Section 30.1(b)(v) (*Protection of Works and Property and Reinstatement Work*) of the Project Agreement.
- 1.82 “**CaGBC**” means the Canadian Green Building Council.
- 1.83 “**Canadian and Industry Standards**” means, at the applicable time, those standards, practices, methods and procedures applicable to Good Industry Practice.
- 1.84 “**Canadian GAAP**” shall be deemed to be the generally accepted accounting principles from time to time approved by the Canadian Institute of Chartered Accountants, or any successor institute, applicable as at the date on which such calculation is made or required to be made in accordance with generally accepted accounting principles, as such principles may be amended or varied by International Financial Reporting Standards then in effect in Canada, in any case consistently applied from one period to the next.
- 1.85 “**Capacity Level**” has the meaning given in the Output Specifications.
- 1.86 “**Capacity Level 1**” has the meaning given in the Output Specifications.
- 1.87 “**Capacity Level 2**” has the meaning given in the Output Specifications.
- 1.88 “**Capital Expenditure**” means capital expenditure as interpreted in accordance with Canadian GAAP.

- 1.89 “**Car**” means any subway or metro car used to carry passengers on the Ontario Line Subway System and which can be moved on its own or by external motive power, as further described in the Output Specifications, to be supplied by Project Co in accordance with the Project Agreement, non-exhaustive examples of which are set out in Appendix B to this Schedule 1.
- 1.90 “**Cash Allowance Account**” means Account No. [REDACTED] at [REDACTED].
- 1.91 “**Cash Allowance Amount**” means \$[REDACTED] for the Cash Allowance Items.
- 1.92 “**Cash Allowance Items**” means the work and activities to be performed by Project Co pursuant to Section 9.9(b) (*Adjacent Developments*) of the Project Agreement.
- 1.93 “**Category of Access**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.94 “**CDB**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.
- 1.95 “**CDB Chair**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.
- 1.96 “**CDB Expiry Date**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.
- 1.97 “**CDB Member Agreement**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.
- 1.98 “**CDB Member Statement**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.
- 1.99 “**Centre Platform**” has the meaning given in the Output Specifications.
- 1.100 “**Certificate of Recognition**” means the certification issued by IHSA to a person confirming that the health and safety management systems of such person comply with the terms, provisions and conditions of the COR Program.
- 1.101 “**Certification Services**” has the meaning given in the Independent Certifier Agreement.
- 1.102 “**Certification Services Variation**” has the meaning given in the Independent Certifier Agreement.
- 1.103 “**Certified H&S Inspector**” means an individual who is an employee or contractor of the IHSA and has the necessary credentials recognized by the COR Program for the purpose of such individual performing any inspections as may be required to be performed in accordance with Section 13(b) (*Quality Management*) of the Project Agreement.
- 1.104 “**CFD**” has the meaning given in the Output Specifications.
- 1.105 “**Change in Control**” means, with respect to a person:

- (a) any Change in Ownership, where the effect of such change is to result in control of the decisions made by or on behalf of such person subsequently being with a different entity or entities than prior to such change;
 - (b) any other change in respect of the power to elect a majority of the directors of the person or otherwise control the decisions made on behalf of such person; or
 - (c) any other change of direct or indirect power or authority through any contractual right or other power or interest with or over a person to influence, direct, cause to change or prevent from changing the approval of a decision, direction of the management, actions or policies of such person, to direct or cause the direction of the management, actions or policies of such person.
- 1.106 “**Change in Law**” means the coming into effect or repeal (without re-enactment or consolidation) in Ontario of any Applicable Law, or any amendment or variation of any Applicable Law, including any judgment of a relevant court of law which changes binding precedent in Ontario in each case after the Technical Reference Date.
- 1.107 “**Change in Ownership**” means, with respect to a person, any change in ownership, whether beneficial or otherwise, of any of the shares or units of ownership of such person, or in the direct or indirect power to vote or transfer any of the shares or units of ownership of such person.
- 1.108 “**CIDB Chair**” has the meaning given in Appendix A of Schedule 39A – Form of South Civil Interface Agreement or Appendix A of Schedule 39B – Form of North Civil Interface Agreement, as applicable.
- 1.109 “**CIDB Member Agreement**” has the meaning given in Appendix A of Schedule 39A – Form of South Civil Interface Agreement or Appendix A of Schedule 39B – Form of North Civil Interface Agreement, as applicable.
- 1.110 “**CIDB Member Statement**” has the meaning given in Appendix A of Schedule 39A – Form of South Civil Interface Agreement or Appendix A of Schedule 39B – Form of North Civil Interface Agreement, as applicable.
- 1.111 “**CIDB Technical Member**” has the meaning given in Appendix A of Schedule 39A – Form of South Civil Interface Agreement or Appendix A of Schedule 39B – Form of North Civil Interface Agreement, as applicable.
- 1.112 “**City**” or “**City of Toronto**” means The Corporation of the City of Toronto, and its successors.
- 1.113 “**City Jointly Developed Materials**” has the meaning given in Section 51.4(a)(ii) (*Jointly Developed Materials*) of the Project Agreement.
- 1.114 “**City Road Allowance**” has the meaning given in Schedule 35 – Lands.
- 1.115 “**City Standards**” has the meaning given in the Output Specifications.

- 1.116 “**City Utility Work**” means the temporary and permanent installation, relocation, upgrading, reinstatement, restoration, downsizing, designing and/or building Works by Project Co relating to the Utility Infrastructure for the City, carried out in connection with or as part of the Project Operations.
- 1.117 “**Civil Contractor**” means each of North Civil Project Co and South Civil Project Co, and “**Civil Contractors**” means both of them.
- 1.118 “**Civil Contractor Debt Service Amounts**” means, for any period, the principal, interest, commitment fees, makewhole payments, breakage fees, penalties and all other fees, costs and expenses payable by a Civil Contractor or any Civil Contractor Party to any third party arm’s length lenders providing financing to such Civil Contractor or such Civil Contractor Party (or any amounts payable to hedge providers in respect of any such interest).
- 1.119 “**Civil Contractor Party**” means each of North Civil Project Co Party and South Civil Project Co Party, and “**Civil Contractor Parties**” means both of them.
- 1.120 “**Civil Project Contract**” means the North Civil Project Agreement or the South Civil Project Agreement.
- 1.121 “**Civil Project Interface Agreement**” means each of the North Civil Interface Agreement and the South Civil Interface Agreement, and “**Civil Project Interface Agreements**” means both of them.
- 1.122 “**Civil Remedies Act (Ontario)**” means the *Civil Remedies Act*, S.O. 2001, c.28, as amended from time to time.
- 1.123 “**Civil Structure**” has the meaning given in the Output Specifications.
- 1.124 “**CN Rail**” means the Canadian National Railway Company, and its successors.
- 1.125 “**Collective Agreements e-Library Portal**” means the website found at the following link: https://sp.ltc.gov.on.ca/sites/mol/drs/ca/Pages/default_en.aspx, as may be amended from time to time.
- 1.126 “**Commercial Close**” means the date of the Project Agreement.
- 1.127 “**Commissioning**” has the meaning given in Schedule 14 – Commissioning.
- 1.128 “**Commissioning Brief**” has the meaning given in Schedule 14 – Commissioning.
- 1.129 “**Commissioning Submittals**” has the meaning given in Schedule 14 – Commissioning.
- 1.130 “**Commissioning Tests**” means all commissioning tests:
- (a) described in Schedule 14 – Commissioning;

- (b) required by Applicable Law, Canadian and Industry Standards or CSA Standards; and
 - (c) recommended by the manufacturer of any part of the Ontario Line Subway or the New Third Party Infrastructure.
- 1.131 “**Common Terms and Intercreditor Agreement**” means the common terms and intercreditor agreement entered into in respect of the Project among, *inter alios*, Project Co, as borrower, [REDACTED], [REDACTED], [REDACTED], [REDACTED], [REDACTED], in its capacity as revolving administrative agent, [REDACTED], in its capacity as term administrative agent, [REDACTED], in its capacity as indenture trustee and [REDACTED], in its capacity as collateral trustee.
- 1.132 “**Communications and Public Engagement Lead**” has the meaning given in Schedule 9 – Key Individuals.
- 1.133 “**Communication and Public Engagement Protocol**” means Schedule 18 – Communication and Public Engagement Protocol.
- 1.134 “**Communications Calendar**” has the meaning given in Schedule 18 – Communication and Public Engagement Protocol.
- 1.135 “**Communications System**” has the meaning given in the Output Specifications.
- 1.136 “**Companies’ Creditors Arrangement Act (Canada)**” means the *Companies’ Creditors Arrangement Act*, R.S.C. 1985, c. C-36, as amended from time to time.
- 1.137 “**Compensation Event**” has the meaning given in Section 41.1(a) (*Compensation Events – Definition*) of the Project Agreement.
- 1.138 “**Complaints Protocol**” has the meaning given in Schedule 18 – Communication and Public Engagement Protocol.
- 1.139 “**Completed Trips**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.140 “**Completion Checklist**” has the meaning given in Schedule 34 – Permits, Licences, Approvals and Agreements.
- 1.141 “**Completion Holdback**” has the meaning given in Section 25.6(a) (*Minor Deficiencies*) of the Project Agreement.
- 1.142 “**Confidential Information**” means all confidential and proprietary information which is supplied by or on behalf of one Party (the “**Disclosing Party**”) to the other Party (the “**Receiving Party**”) (directly or indirectly), whether before or after Commercial Close.
- 1.143 “**Construction Act (Ontario)**” means the *Construction Act*, R.S.O. 1990, c.C.30 and regulations enacted thereunder, all as amended from time to time and subject to the application of the transition provisions in s. 87.3 of the *Construction Act (Ontario)*.

- 1.144 “**Construction Activities**” means construction, demolition, rehabilitation, Reinstatement Work, rectification work, and any other aspect of the Works that:
- (a) comprises the alteration, augmenting, upgrading, construction, completion, supply, delivery, inspection, calibration, testing or commissioning of any part of the Ontario Line Subway and the New Third Party Infrastructure;
 - (b) comprises the assessment of any part of the Ontario Line Subway or New Third Party Infrastructure;
 - (c) may affect the structural integrity of any part of the Ontario Line Subway or New Third Party Infrastructure, and including any such aspect of the Works carried out as part of any Force Majeure event, Relief Event, Variation, or Innovation Proposal accepted by Contracting Authority; or
 - (d) comprises Construction Clearing and Grubbing.
- 1.145 “**Construction Air Quality Management Plan**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.146 “**Construction Certificate**” means a certificate with contents described in Attachment 2 to Appendix A of Schedule 10 – Review Procedure.
- 1.147 “**Construction Clearing and Grubbing**” means the stage of the Works in which vegetation and debris is cleared from the Lands (clearing) and a root rake or similar device is employed to remove roots remaining in the soil (grubbing).
- 1.148 “**Construction Contract**” means the construction contract between Project Co and the Construction Contractor dated on or about Financial Close.
- 1.149 “**Construction Contractor**” means [REDACTED], engaged by Project Co to perform the Works and any substitute construction contractor engaged by Project Co as may be permitted by the Project Agreement.
- 1.150 “**Construction Contractor’s Direct Agreement**” means the direct agreement between Contracting Authority, Project Co, the Construction Contractor and the Construction Guarantors in the form set out in Schedule 5-1 – Construction Contractor’s Direct Agreement.
- 1.151 “**Construction Document Submittals**” has the meaning given in Section 20.3(d)(ii) (*Development of Design*) of the Project Agreement.
- 1.152 “**Construction Guarantors**” means [REDACTED], [REDACTED] and [REDACTED] and “**Construction Guarantor**” means any one of them.
- 1.153 “**Construction Integration Working Group**” has the meaning given in Schedule 39A – Form of South Civil Interface Agreement or Schedule 39B – Form of North Civil Interface Agreement, as applicable.

- 1.154 “**Construction Management Plan**” has the meaning given in the Output Specifications.
- 1.155 “**Construction Noise and Vibration Management Plan**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.156 “**Construction Period**” means the period of time commencing on Financial Close to and including the Final Completion.
- 1.157 “**Construction Period Deduction**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.158 “**Construction Period Lands**” has the meaning given in Schedule 35 – Lands.
- 1.159 “**Construction Period Limit**” has the meaning given in Section 57.4(a)(i) (*Maximum Liability*) of the Project Agreement.
- 1.160 “**Construction Period Quality Failure**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.161 “**Construction Quality Management Plan**” or “**CQMP**” has the meaning given in Schedule 11 – Quality Management.
- 1.162 “**Construction Quality Manager**” has the meaning given in Schedule 11 – Quality Management.
- 1.163 “**Construction Safety Management Plan**” has the meaning given in the Output Specifications.
- 1.164 “**Contamination**” means the presence of any (a) Hazardous Substance in the environment, except Hazardous Substances present in the environment in concentrations below applicable standards as set by Applicable Laws or (b) Contaminated Materials. If Contamination is present in soil, surface water, sediment or groundwater, then the soil, surface water, sediment or groundwater, as applicable, containing the Contamination shall also be deemed to be Contamination for the purposes of the Project Agreement.
- 1.165 “**Contaminated Materials**” means any equipment, tank, container, conduit, structure, or thing that contains, is associated with, or is impacted by any Hazardous Substance.
- 1.166 “**Contamination Management Plan**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.167 “**Contract Month**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.168 “**Contract Year**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.169 “**Contracting Authority**” means Metrolinx.

- 1.170 “**Contracting Authority Activities**” means all governmental services and activities provided in connection or otherwise associated with the Ontario Line Subway System, or Contracting Authority’s work with respect to the Province of Ontario’s New Subway Transit Plan.
- 1.171 “**Contracting Authority Commissioning**” means the commissioning activities to be carried out by Contracting Authority or any other person on behalf of Contracting Authority.
- 1.172 “**Contracting Authority Commissioning Agent**” means the person appointed by Contracting Authority as its commissioning agent.
- 1.173 “**Contracting Authority Commissioning Period**” means the period during which Contracting Authority, or any other person on behalf of Contracting Authority, is performing the Contracting Authority Commissioning.
- 1.174 “**Contracting Authority Contamination**” has the meaning given in Section 16.3(e) (*Contamination*).
- 1.175 “**Contracting Authority Default Termination Sum**” has the meaning given in Schedule 23 – Compensation on Termination.
- 1.176 “**Contracting Authority Design Team**” means any of Contracting Authority, its agents, contractors and subcontractors of any tier and its or their directors, officers and employees, and other persons engaged in respect of design reviews, design evaluation, or design consultation processes with respect to the Ontario Line Subway or the New Third Party Infrastructure or the Contracting Authority Activities, but excluding Project Co and any Project Co Party.
- 1.177 “**Contracting Authority Event of Default**” has the meaning given in Section 46.1(a) (*Contracting Authority Events of Default*) of the Project Agreement.
- 1.178 “**Contracting Authority HR Policy**” means Contracting Authority’s human resources policies and guidelines, as they may be amended from time to time and provided to Project Co in writing.
- 1.179 “**Contracting Authority Intellectual Property**” has the meaning given in Schedule 37 – Intellectual Property.
- 1.180 “**Contracting Authority Items of Interest or Value**” has the meaning given in Section 16.4(c) (*Items of Geological, Historical Heritage or Archaeological Interest or Value*) of the Project Agreement.
- 1.181 “**Contracting Authority Jointly Developed Materials**” has the meaning given in Section 51.4(a)(i) (*Jointly Developed Materials*) of the Project Agreement.
- 1.182 “**Contracting Authority Party**” means any of Contracting Authority’s agents, contractors and subcontractors of any tier (including the Delivery Partner) engaged with respect to the

Project Operations and its or their directors, officers and employees, but excluding Project Co and any Project Co Party, South Civil Project Co and any South Civil Project Co Party, North Civil Project Co and any North Civil Project Co Party, and any TOC Contractor, and “**Contracting Authority Parties**” shall be construed accordingly.

- 1.183 “**Contracting Authority Permits, Licences, Approvals and Agreements**” has the meaning given in Schedule 34 – Permits, Licences, Approvals and Agreements.
- 1.184 “**Contracting Authority Representative**” means the person designated as such by Contracting Authority on or prior to Commercial Close and any permitted replacement.
- 1.185 “**Contracting Authority Species-at-Risk**” has the meaning given in Section 16.7(b) (*Species-at-Risk*) of the Project Agreement.
- 1.186 “**Contracting Authority Supplied Third Party Intellectual Property**” has the meaning given in Schedule 37 – Intellectual Property.
- 1.187 “**Contracting Authority Taxes**” means taxes, or payments in lieu of taxes, imposed on Contracting Authority and HST and property taxes for which Contracting Authority is responsible pursuant to Section 35 (*Taxes*) of the Project Agreement.
- 1.188 “**Contracting Authority Third Party Beneficiaries**” has the meaning given in Section 64.17(a)(i) (*Province Persons as Third Party Beneficiaries*) of the Project Agreement.
- 1.189 “**Contracting Authority Trademarks**” has the meaning given in Schedule 37 – Intellectual Property.
- 1.190 “**Contracting Authority Utility Infrastructure**” has the meaning given in Section 16.6(b) (*Mislocated or Unknown Utility Infrastructure*) of the Project Agreement.
- 1.191 “**Contractor Site Specific Safety Manual**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- 1.192 “**Contractors**” means, collectively, the Construction Contractor and Service Provider.
- 1.193 “**Contracts**” means the Construction Contract and the Service Contract.
- 1.194 “**Control Party**” means:
- (a) any person with any form of direct ownership interest in Project Co;
 - (b) [REDACTED];
 - (c) [REDACTED];
 - (d) [REDACTED]; and
 - (e) [REDACTED].

- 1.195 “**Copyrights**” means all copyrights (registered or otherwise) and registrations and applications for registration thereof, and all rights therein provided by multinational treaties or conventions.
- 1.196 “**COR Certification**” means, in respect of a person, receipt by such person of its: (i) Certificate of Recognition; and (ii) Letter of Good Standing.
- 1.197 “**COR-Certified Construction Project Co Party**” has the meaning given in Section 9.6(a)(ii) (*Health and Safety Certification*) of the Project Agreement.
- 1.198 “**COR-Certified Service Provider Project Co Party**” has the meaning given in Section 9.6(b)(ii) (*Health and Safety Certification*) of the Project Agreement.
- 1.199 “**COR Program**” means the national safety program known as “The Certificate of Recognition (COR™)”, being a safety program that enables persons to assess their health and safety management systems to manage risks, establish controls, and minimize the incidence of injury and illness to their workers, and being nationally trademarked and endorsed by participating members of the Canadian Federation of Construction Safety Associations, or such other national safety program approved by Contracting Authority.
- 1.200 “**COR-Qualified Construction Project Co Party**” means one of the following:
- (a) where the Construction Contractor is a single legal entity, the Construction Contractor; or
 - (b) where the Construction Contractor is a joint venture, each member of the joint venture; or
 - (c) where the Construction Contractor is a partnership, each partner of the partnership, provided that each such person has current OHSAS 18001 Accreditation in good standing.
- 1.201 “**COR-Qualified Service Provider Project Co Party**” means one of the following:
- (a) where the Service Provider is a single legal entity, the Service Provider; or
 - (b) where the Service Provider is a joint venture, each member of the joint venture other than the Operator; or
 - (c) where the Service Provider is a partnership, each partner of the partnership other than the Operator.
- 1.202 “**Corrective Action**” has the meaning given in Schedule 11 – Quality Management.
- 1.203 “**Corrective Actions Plan**” has the meaning given in Schedule 11 – Quality Management.
- 1.204 “**Cost of the Financing**” means all costs and expenses incurred in connection with the Financing pursuant to the Lending Agreements, including all interest, fees, expense

reimbursements, pre-payment and breakage costs and all other costs and expenses, as set out in Schedule 32 – Financial Model Extracts, as it relates to the Cost of the Works.

- 1.205 “**Cost of the Works**” means the cost to Project Co of performing the Works as set out in Schedule 32 – Financial Model Extracts and shall include all amounts to be included in the Cost of the Works set out in the Project Agreement.
- 1.206 “**COVID-19 Change in Law Reference Date**” means the date that is seven (7) days prior to the Technical Submission Deadline.
- 1.207 “**COVID-19 Emergency Public Health Physical Distancing Requirements**” means the requirements under the applicable regulations and orders made under the *Reopening Ontario (A Flexible Response to COVID-19) Act, 2020*, S.O. 2020, c. 17 in effect as of the COVID-19 Change in Law Reference Date or any substantially similar Applicable Law with respect to COVID-19 regarding physical distancing requirements of at least two meters.
- 1.208 “**CP Rail**” means Canadian Pacific Railway Company Ltd., and its successors.
- 1.209 “**CP Rail Corridor Lands**” has the meaning given in Schedule 35 – Lands.
- 1.210 “**CPI**” means CPI-XFET for Canada, as published by Statistics Canada from time to time, or failing such publication, such other index as the Parties may agree, or as may be determined in accordance with Schedule 27 – Dispute Resolution Procedure, which most closely resembles such index.
- 1.211 “**CPI-XFET**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.212 “**CPI_n**” is the value of CPI on April 1 of the relevant Contract Year “n”, to be determined by reference to the relevant index in the month immediately preceding the indexation date.
- 1.213 “**CPI₀**” is the value of CPI on the Inflation Base Date, to be determined by reference to the relevant index in the month immediately preceding the Inflation Base Date.
- 1.214 “**CPTED**” has the meaning given in the Output Specifications.
- 1.215 “**Crisis Communication Plan**” has the meaning given in Schedule 18 – Communication and Public Engagement Protocol.
- 1.216 “**Critical Data**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable.
- 1.217 “**Critical Data Deadline**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable.

- 1.218 “**Critical Non-Conformance**” means any Non-Conformance or combination of Major Non-Conformances that:
- (a) In the reasonable opinion of Contracting Authority, demonstrates that Project Co is performing the Works in a manner that may result in Project Co becoming unable to satisfy the requirements for Substantial Completion;
 - (b) Is persistent, ongoing or repeated; or
 - (c) In the reasonable opinion of Contracting Authority, by its continued existence or through the process of rectification, would:
 - (i) result in a Critical Qualifying NCR;
 - (ii) result or is reasonably expected to result in material disruption to the public or a materially adverse disruption to traffic flow or the public transit system in the City of Toronto;
 - (iii) prejudice or is reasonably expected to materially prejudice the performance of any Governmental Activities;
 - (iv) create or is reasonably expected to create a serious threat to the health, safety or security of any person, including any System User or Province Person;
 - (v) materially increase Contracting Authority’s risk or risk transfer to Contracting Authority or any Contracting Authority Party;
 - (vi) materially adversely affect the ability of any Contracting Authority Party or Other Contractor to perform their activities as permitted or contemplated by the Project Agreement;
 - (vii) materially adversely affect or change the Critical Path of the Project as defined in the Progress Works Schedule, adversely affect Project Co’s ability to achieve Substantial Completion by the Scheduled Substantial Completion Date, require a material resequencing of the Works or cause any delay in achieving Substantial Completion;
 - (viii) potentially compromise (A) the reputation or integrity of Contracting Authority and/or any Contracting Authority Party; or (B) the nature of the public transit system in the City of Toronto so as to affect public confidence in the public transit system in the City or the Project; or
 - (ix) materially adversely affect the ability of the Contracting Authority to achieve the dates set out in Appendix A of Schedule 42 – South Civil Infrastructure Access and Handover or Appendix A of Schedule 43 – North Civil Infrastructure Access and Handover.

- 1.219 “**Critical North Civil Infrastructure Data**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.220 “**Critical North Civil Infrastructure Data Deadline**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.221 “**Critical North Civil HVAC Works**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.222 “**Critical North Civil HVAC Works Complete**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.223 “**Critical North Civil HVAC Works Deadline**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.224 “**Critical Path**” has the meaning given in Schedule 12 – Works Schedule Requirements.
- 1.225 “**Critical Qualifying NCR**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.226 “**Critical South Civil Infrastructure Data**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.227 “**Critical South Civil Infrastructure Data Deadline**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.228 “**Critical South Civil HVAC Works**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.229 “**Critical South Civil HVAC Works Complete**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.230 “**Critical South Civil HVAC Works Deadline**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.231 “**Critical Works**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable.
- 1.232 “**Critical Works Complete**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable.
- 1.233 “**Critical Works Deadline**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable.
- 1.234 “**Crown**” means His Majesty the King in right of Ontario.

- 1.235 “**Crown Agency Act (Ontario)**” means the *Crown Agency Act*, R.S.O. 1990, c.48, as amended from time to time.
- 1.236 “**Crown Liability and Proceedings Act (Ontario)**” means the *Crown Liability and Proceedings Act*, 2019, R.S.O. 1990, c. P.27, as amended from time to time.
- 1.237 “**CSA**” means the Canadian Standards Association.
- 1.238 “**CSA Standards**” means, at the applicable time, the Canadian Standards Association standards.
- 1.239 “**Cultural Heritage Reports**” means the cultural heritage reports set out in Appendix B to Schedule 17 – Environmental Obligations.
- 1.240 “**Currency Act (Canada)**” means the *Currency Act*, R.S.C., 1985, c. C-52, as amended from time to time.
- 1.241 “**Custodian**” means the person appointed as the Custodian pursuant to the Custody Agreement and as may be permitted pursuant to the Project Agreement.
- 1.242 “**Custody Agreement**” means the custody agreement between Project Co, Contracting Authority, the Custodian and the Lenders’ Agent in the form set out in Schedule 3 – Custody Agreement.
- 1.243 “**Debt Financing**” means Senior Debt Amount and Junior Debt Amount provided by Lenders to finance the costs of the Project pursuant to the Lending Agreements, excluding any acceleration penalty, default interest, and enforcement costs imposed under any of the Lending Agreements.
- 1.244 “**Deduction**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.245 “**Default Notice**” has the meaning given in Schedule 4 – Lenders’ Direct Agreement.
- 1.246 “**Delay Event**” has the meaning given in Section 40.1(a) (*Delay Events – Definition*) of the Project Agreement.
- 1.247 “**Delivery Partner**” means a third party designated by the Crown to provide construction oversight and management services on behalf of the Contracting Authority.
- 1.248 “**Demolition**” means the removal of a building or structure, as the case may be, or of any material part of a building or structure.
- 1.249 “**Demolition Default Event**” has the meaning given in Section 9.12(b) (*Demolition Requirements*) of the Project Agreement.
- 1.250 “**Demolition Guidelines**” means those guidelines set forth in the document entitled “Professional Engineers Providing Services for Demolition of Buildings and other

Structures” published by the Professional Standards Committee established by the Professional Engineers of Ontario and having a publication date of April 2011.

- 1.251 “**Demolition Plan**” means a plan or other document prepared by a Professional Engineer, limited licence holder or provisional licence holder in accordance with subsection (3) of the Performance Standards Regulation with respect to the Demolition of a building or structure, and includes any changes to the plan or other document that are made by a Professional Engineer, limited licence holder or provisional licence holder.
- 1.252 “**Demolition Requirements**” has the meaning given in Section 9.12(a) (*Demolition Requirements*) of the Project Agreement.
- 1.253 “**Demolition Supervisor**” has the meaning given in Section 9.12(a)(ii) (*Demolition Requirements*) of the Project Agreement.
- 1.254 “**Design and Construction Certification Procedure**” means the procedures set out in Section 2.3(a) (*Design and Construction Certification*) Schedule 11 – Quality Management.
- 1.255 “**Design and Construction Requirements**” means the relevant specifications, standards, procedures and other requirements for the design and construction of the Ontario Line Subway and the New Third Party Infrastructure as set out in the Output Specifications.
- 1.256 “**Design Certificate**” means a certificate with contents described in Attachment 1 to Appendix A of Schedule 10 – Review Procedure.
- 1.257 “**Design Data**” means all drawings, reports, documents, plans, software, formulae, calculations, and other data prepared or obtained by Project Co relating to the design, construction, supply, delivery, testing or monitoring of the Ontario Line Subway and the New Third Party Infrastructure, but excluding Intellectual Property Rights of third parties, such as CAD software, that is used only in the process of design and construction.
- 1.258 “**Design Development Submittals**” has the meaning given in Section 20.3(d)(i) (*Development of Design*) of the Project Agreement.
- 1.259 “**Design Integration Working Group**” has the meaning given in Schedule 39A – Form of South Civil Interface Agreement or Schedule 39B – Form of North Civil Interface Agreement, as applicable.
- 1.260 “**Design Manager**” has the meaning given in Schedule 9 – Key Individuals.
- 1.261 “**Design Quality Management Plan**” or “**DQMP**” has the meaning given in Schedule 11 – Quality Management.
- 1.262 “**Design Quality Manager**” has the meaning given in Schedule 11 – Quality Management.
- 1.263 “**Design Review Meetings**” has the meaning given in Section 20.5(a) (*Design Review Meetings*) of the Project Agreement.

- 1.264 “**Design Team**” means [REDACTED] and [REDACTED], engaged by Project Co to design the Ontario Line Subway and the New Third Party Infrastructure and any substitute design team engaged by Project Co as may be permitted by the Project Agreement.
- 1.265 “**Designated Substances and Hazardous Materials**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.266 “**Designated Substances and Hazardous Materials Management Plan**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.267 “**Destination Terminus**” has the meaning given Schedule 20 – Payment Mechanism.
- 1.268 “**Development Approval**” means development permits, building permits, zoning approvals and any other planning or development permit, consent or applicable Permits, Licences, Approvals and Agreements required from time to time for construction of the Ontario Line Subway and the New Third Party Infrastructure.
- 1.269 “**Differing Geotechnical Site Condition**” has the meaning given in Section 16.2(a) (*Geotechnical Site Conditions*) of the Project Agreement.
- 1.270 “**Differing Major Existing Infrastructure Condition**” has the meaning given in Section 16.5(a) (*Major Existing Infrastructure Condition*) of the Project Agreement.
- 1.271 “**Digital and Data Directive**” means the Management Board of Cabinet’s Digital and Data Directive dated February 1, 2021 as may be amended or superseded from time to time.
- 1.272 “**Direct Agreements**” means, collectively, the Construction Contractor’s Direct Agreement and the Service Provider’s Direct Agreement.
- 1.273 “**Direct Cost**” has the meaning given in Schedule 22 – Variation Procedure.
- 1.274 “**Direct Losses**” means all damage, losses, liabilities, penalties, fines, assessments, claims, actions, costs, expenses (including the cost of legal or professional services, legal costs being on a substantial indemnity basis), proceedings, demands and charges whether arising under statute, contract or at common law, except Indirect Losses.
- 1.275 “**Direct or Indirect Power or Control**” means the direct or indirect power or control over the decisions, management, actions or policies of a person, including through the direct or indirect power or control over the decisions, management, actions or policies of any persons having direct or indirect power or control over the decisions, management, actions or policies of any other person, whether through:
- (a) ownership, beneficial or otherwise, of greater than [REDACTED] percent of any of the shares, units or equity interests of a person;
 - (b) the direct or indirect power to vote any of the shares, units or equity interests of a person where an individual’s ownership, beneficial or otherwise, is equal to or

exceeds [REDACTED] percent of the voting securities, units or equity interests of such person; or

- (c) the direct or indirect power or authority to influence or direct the approval of a decision, the management, actions or policies of a person or to prevent the approval of a decision, the management, actions or policies of a person through any contractual right or other power or interest with or over a person.

1.276 “**Disclosing Party**” has the meaning given in the definition of Confidential Information.

1.277 “**Discount Rate**” has the meaning given in Schedule 23 – Compensation on Termination.

1.278 “**Discriminatory Change in Law**” means any Change in Law which applies expressly to:

- (a) transit systems, including subways or metros whose design, construction, financing, maintenance, operation and rehabilitation and facilities management are procured by a contract similar to the Project Agreement and not to other similar transit systems;
- (b) the Ontario Line Subway or New Third Party Infrastructure and not to other transit systems, including subways or metros;
- (c) Project Co and not to other persons; or
- (d) Persons undertaking projects for design, construction, financing, operation, maintenance and rehabilitation and facilities management that are procured by a contract similar to the Project Agreement and not to other persons undertaking similar projects procured on a different basis,

except that such Change in Law shall not be a Discriminatory Change in Law:

- (e) where it is in response to any act or omission on the part of Project Co which contravenes Applicable Law (other than an act or omission rendered illegal by virtue of the Discriminatory Change in Law itself);
- (f) solely on the basis that its effect on Project Co is greater than its effect on other companies; or
- (g) where such Change in Law affects companies generally.

1.279 “**Dispute**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.

1.280 “**Dispute Resolution Procedure**” means the procedure set out in Schedule 27 – Dispute Resolution Procedure.

1.281 “**Distribution**” has the meaning given in Schedule 28 – Refinancing.

- 1.282 “**Document Control and Security Protocol**” has the meaning given in Section 52.1(e) (*Restrictions on Use and Disclosure*) of the Project Agreement.
- 1.283 “**Drainage**” has the meaning given in the Output Specifications.
- 1.284 “**DSHM Post-RFP Report Deadline**” has the meaning given in Section 6.5(a) (*DSHM Post-RFP Reports*) of the Project Agreement.
- 1.285 “**DSHM Post-RFP Report Variation Deadline**” has the meaning given in Section 6.5(c)(ii)(B) (*DSHM Post-RFP Reports*) of the Project Agreement.
- 1.286 “**DSHM Post-RFP Reports**” has the meaning given in Section 6.5(a) (*DSHM Post-RFP Reports*) of the Project Agreement.
- 1.287 “**DSHM Reports**” means the Designated Substances and Hazardous Materials reports set out in Appendix B to Schedule 17 – Environmental Obligations.
- 1.288 “**DSHM Variation**” has the meaning given in Section 6.5(b) (*DSHM Post-RFP Reports*) of the Project Agreement.
- 1.289 “**Dynamic Envelope**” has the meaning given in the Output Specifications.
- 1.290 “**E&M**” means all electrical and mechanical equipment, machinery and computer hardware and systems comprised or contained within, or included in the Cars together with all Project Intellectual Property as provided for in the Output Specifications.
- 1.291 “**Early Contractor Activities**” has the meaning given in the Request for Proposals.
- 1.292 “**Early Handover Site**” has the meaning given in Schedule 46 – TOC Early Handover Incentive Regime.
- 1.293 “**Early Works Construction Defect**” has the meaning set out in Schedule 41 – Early Works Handover.
- 1.294 “**Early Works Contractor**” means each of the contractors delivering the Early Works Infrastructure.
- 1.295 “**Early Works Infrastructure**” means the infrastructure that each Early Works Contractor designs, constructs, installs, tests, supplies, delivers and commissions and hands over to Project Co as contemplated in Schedule 41 – Early Works Handover.
- 1.296 “**Early Works Infrastructure Section**” has the meaning set out in Schedule 41 – Early Works Handover.
- 1.297 “**Early Works Section Handover**” has the meaning given in Schedule 41 – Early Works Handover.

- 1.298 “**Early Works Section Handover Date**” has the meaning set out in Schedule 41 – Early Works Handover.
- 1.299 “**Earned Value Metrics**” has the meaning given in Schedule 12 – Works Schedule Requirements.
- 1.300 “**Economic Interest**” means any right to receive, directly or indirectly and whether in cash or in kind, a payment, repayment, fee, interest, dividend, distribution, redemption or any other consideration of benefit or value to the recipient of any nature whatsoever, but excluding wages, salaries or other employment-related benefits.
- 1.301 “**EMC**” has the meaning given in the Output Specifications.
- 1.302 “**Emergency**” means any situation, event, occurrence, multiple occurrences or circumstances:
- (a) that:
 - (i) constitutes or may constitute a hazard to or jeopardizes or may jeopardize or pose a threat to health and safety of any persons (including System Users and Province Persons) or any part of or the whole of the Ontario Line Subway or New Third Party Infrastructure;
 - (ii) causes or may cause damage or harm to property, buildings and/or equipment;
 - (iii) constitutes a hostage situation or state of emergency declared as such by the Contracting Authority Representative or Contracting Authority (acting reasonably);
 - (iv) materially interferes with or prejudices or may materially interfere with or prejudice the safe operation of the Ontario Line Subway or New Third Party Infrastructure, any part of the Lands, the conduct of Project Operations, or the conduct of Governmental Activities; or
 - (v) constitutes a period of transition to or from war;and which, in the opinion of Contracting Authority, requires immediate action to prevent and/or mitigate the occurrence (or risk of the occurrence) of the foregoing; or
 - (b) which gives rise to an emergency, as determined by any statutory body including (notwithstanding the generality of the foregoing) an Emergency Service Provider.
- 1.303 “**Emergency Condition Assessments**” has the meaning given in the Output Specifications.

- 1.304 “**Emergency Egress Building**” or “**EEB**” has the meaning given in the Output Specifications.
- 1.305 “**Emergency Rail Situation**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.306 “**Emergency Response Plan**” means the plan to be prepared, submitted and implemented by Project Co in accordance with the Output Specifications.
- 1.307 “**Emergency Service Building**” or “**ESB**” has the meaning given in the Output Specifications.
- 1.308 “**Emergency Service Providers**” means any Police Service, firefighting service, ambulance service, armed forces or other authority with emergency service authority pursuant to Applicable Law which may require access to the Ontario Line Subway or New Third Party Infrastructure from time to time.
- 1.309 “**EMI**” has the meaning given in the Output Specifications.
- 1.310 “**Encumbrances**” means the Encumbrances listed in Schedule 16 – Encumbrances and any other encumbrances deemed to be Encumbrances as described in and for the purposes set out in Section 15.2(d) (*No Encumbrances*) of the Project Agreement.
- 1.311 “**Energy Failure**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.312 “**Energy Failure Deduction**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.313 “**Energy Model**” has the meaning given in Schedule 8 – Energy Matters.
- 1.314 “**Energy Target Letter**” has the meaning given in Schedule 8 – Energy Matters.
- 1.315 “**Engineering Safety and Assurance Case**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- 1.316 “**Environmental Approvals**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.317 “**Environmental Assessments**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.318 “**Environmental Audit Report**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.319 “**Environmental Law**” has the meaning given in Schedule 17 – Environmental Obligations.

- 1.320 “**Environmental Management Plans**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.321 “**Environmental Reports**” means, collectively, (a) each report set out in Appendix B to Schedule 17 – Environmental Obligations and (b) the Environmental Assessments.
- 1.322 “**Environmental Specialists Qualifications Plan**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.323 “**Erosion and Sediment Control Plan**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.324 “**Equity Capital**” means, at any time, the aggregate (without double counting) of all subscribed share or partnership capital, shareholder or partner loans, loans made or capital contributed to Project Co by any Affiliate of Project Co, any Project Co Party or any Affiliate of a Project Co Party, and other contributed capital of Project Co as set out in the Financial Model at such time, to the extent applied for the purposes of the Project.
- 1.325 “**Equity Gain**” means an amount equal to the greater of zero and the difference between:
- (a) the amount paid in consideration of the percentage of Equity Capital (as at Financial Close) sold in a particular sale of Equity Capital; and
 - (b) the amount, calculated on a pre-tax basis, paid in consideration of the percentage of Equity Capital (as at Financial Close) sold in a particular sale of Equity Capital received in full on the day of the sale of Equity Capital, taken together with all Distributions paid in respect of the Equity Capital, and taking account of the actual timing of payment of all such amounts.
- 1.326 “**Equity IRR**” means the projected internal rate of return to the Equity Provider over the full term of this Project Agreement, taking into account the aggregate of all its investments and of all Distributions made and projected to be made.
- 1.327 “**Equity Provider**” means [REDACTED], [REDACTED], [REDACTED] and [REDACTED].
- 1.328 “**Equity Sale Amount**” means the gross amount, without taking into account any transaction costs and fees, received in consideration of a percentage of Equity Capital.
- 1.329 “**Equity Sale IRR**” means the annualized internal rate of return realized by the seller on a sale of any percentage Equity Capital, between the date on which such seller initially invests in or acquires such percentage of Equity Capital, and the date on which the sale of such percentage of Equity Capital occurs. Equity Sale IRR shall be calculated using the XIRR function in Excel, by taking into account the Equity Sale Amount, together with all Distributions received by the seller with respect to such percentage of Equity Capital, and the amount initially paid by the same seller to invest in or acquire the percentage of the Equity Capital in question, as well as the actual timing of payment and/or receipt of all such amounts.

- 1.330 “**ESA**” means the Endangered Species Act, 2007 (Ontario).
- 1.331 “**Escalation Factor**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.332 “**Escrow Account**” has the meaning given in Schedule 24 – Expiry Transition Procedure.
- 1.333 “**Estimate**” has the meaning given in Schedule 22 – Variation Procedure.
- 1.334 “**Estimated Fair Value**” has the meaning given in Schedule 23 – Compensation on Termination.
- 1.335 “**Event of Vandalism**” means any incident of Vandalism occurring on the Ontario Line Subway.
- 1.336 “**Evolutionary Cybersecurity Upgrade**” means an unanticipated major upgrade of the cybersecurity technologies and practices deployed by Project Co, necessary to meet its obligations under this Project Agreement, including the Output Specifications, to address a cybersecurity threat that represents a significant evolutionary change in the then-current cybersecurity landscape, and which will involve costs to Project Co in excess of \$[REDACTED].
- 1.337 “**Excess Equity Gain**” means an amount equal to the greater of zero and the difference between:
- (a) the Equity Sale Amount; and
 - (b) the Threshold Equity Sale Amount.
- 1.338 “**Excise Tax Act (Canada)**” means the *Excise Tax Act*, R.S.C., 1985, c. E-15, as amended from time to time.
- 1.339 “**Excusing Cause**” has the meaning given in Section 42.1(a) (*Excusing Causes – Definition*) of the Project Agreement.
- 1.340 “**Executive Project Meeting**” has the meaning given in Section 20.13(a) (*Executive Project Meetings*) of the Project Agreement.
- 1.341 “**Executive Project Meeting Document**” has the meaning given in Section 20.13(e) (*Executive Project Meetings*) of the Project Agreement.
- 1.342 “**Existing Adjacent Structures**” or “**EAS**” has the meaning given in the Output Specifications.
- 1.343 “**Existing COVID-19 Laws Extension**” means the continuation in force of the COVID-19 Emergency Public Health Physical Distancing Requirements beyond the Anticipated COVID-19 Impact End Date.

- 1.344 “**Existing Infrastructure**” means the Existing Metrolinx Infrastructure and the Existing Third Party Infrastructure.
- 1.345 “**Existing Metrolinx Infrastructure**” means existing infrastructure located on the Metrolinx Lands that is owned by Metrolinx.
- 1.346 “**Existing Stations**” means those TTC subway stations known as Queen station, Osgoode station, Pape station, Exhibition and Science Centre.
- 1.347 “**Existing Third Party Infrastructure**” means existing public realm, road, highway, Utility Infrastructure, bus and railway infrastructure, or any other infrastructure situated on the Lands, owned by the City of Toronto, Utility Companies, Railway Companies, or any other third party.
- 1.348 “**Existing TTC Infrastructure**” means any asset, improvement, facility or infrastructure situated on the Lands, operated by the TTC, including but not limited to subway stations, subway tunnels, bus terminals, signals and electrical equipment, entrances, ventilation shafts and commuter parking lots.
- 1.349 “**Expiry Date**” means the 30th anniversary of the Scheduled Substantial Completion Date and in no event will the Expiry Date be adjusted.
- 1.350 “**Expiry Rehabilitation Costs**” has the meaning given in Schedule 24 – Expiry Transition Procedure.
- 1.351 “**Expiry Transition Amount**” has the meaning given in Schedule 24 – Expiry Transition Procedure.
- 1.352 “**Expiry Transition Procedure**” means the procedure for expiry transition described in Schedule 24 – Expiry Transition Procedure.
- 1.353 “**Expiry Transition Process Asset Preservation Work Schedule**” has the meaning given in the Output Specifications.
- 1.354 “**Expiry Transition Requirements**” has the meaning given in Schedule 24 – Expiry Transition Procedure.
- 1.355 “**Expiry Transition Security**” has the meaning given in Schedule 24 – Expiry Transition Procedure.
- 1.356 “**Expiry Transition Works**” has the meaning given in Schedule 24 – Expiry Transition Procedure.
- 1.357 “**Expiry Transition Works Costs**” has the meaning given in Schedule 24 – Expiry Transition Procedure.
- 1.358 “**Expropriations Act (Ontario)**” means the Expropriations Act, R.S.O. 1990, c. E.26, as amended from time to time.

- 1.359 “**Extension Contractor**” has the meaning given in Schedule 44 – System Extension.
- 1.360 “**External Quality Audit**” has the meaning given in Schedule 11 – Quality Management.
- 1.361 “**Facilities**” has the meaning given in the Output Specifications.
- 1.362 “**Failure Points**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.363 “**Failure to Vacate**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.364 “**Fare Collection Device**” has the meaning given in the Output Specifications.
- 1.365 “**Fare Collection System**” has the meaning given in the Output Specifications.
- 1.366 “**FCS**” has the meaning given in the Output Specifications.
- 1.367 “**Final Completion**” means the completion of the Works in accordance with the Project Agreement, including the completion and rectification of all Minor Deficiencies, other than any minor work that is seasonal in nature and cannot be completed by the Final Completion Date.
- 1.368 “**Final Completion Certificate**” means the certificate to be issued by the Independent Certifier in accordance with Section 25.9 (*Final Completion Certificate*) of the Project Agreement.
- 1.369 “**Final Completion Countdown Notice**” has the meaning given in Section 25.9A(a) (*Final Completion Countdown Notice*) of the Project Agreement.
- 1.370 “**Final Completion Date**” means the date on which Final Completion is achieved as evidenced by the Final Completion Certificate, as such date shall be stated therein.
- 1.371 “**Final Completion Notice**” has the meaning given in Section 25.9(b) (*Final Completion Certificate*) of the Project Agreement.
- 1.372 “**Final Incident Report**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- 1.373 “**Final Ontario Line Subway Condition Report**” has the meaning given in Schedule 24 – Expiry Transition Procedure.
- 1.374 “*Financial Administration Act, R.S.O. 1990, c. F.12*” means the *Financial Administration Act, R.S.O. 1990, c. F.12*, as amended from time to time.
- 1.375 “**Financial Close**” means the first date that funding is available under the Lending Agreements.

- 1.376 “**Financial Close Target Date**” means November 17, 2022, as such date may be extended in accordance with the provisions of the Project Agreement.
- 1.377 “**Financial Model**” means, at any time, the computer spreadsheet model for the Project incorporating statements of Project Co’s cashflows including all expenditure, revenues, financing and taxation of the Project Operations together with the profit and loss accounts and balance sheets for Project Co throughout the Project Term accompanied by details of all assumptions, calculations and methodology used in their compilation and any other documentation necessary or desirable to operate the model as at Financial Close as attached to the Project Agreement as Schedule 32 – Financial Model Extracts as amended to such time with approval of Contracting Authority in accordance with Section 2.4 (*Refinancing*) of Schedule 28 – Refinancing with respect to any Refinancing and in accordance with Section 3.3(a) (*System Extension Financial Model and System Extension Variation Information*) of Schedule 44 – System Extension with respect to any capital costs of construction of any System Extensions. If “Financial Model” is used without any reference to a particular time, it means the Financial Model at or as at the time the applicable calculation is being made.
- 1.378 “**Financial Obligations**” means the obligation to pay any application fees, third party fees, costs or charges (including all applicable Taxes thereon), the provision of any letters of credit, instruments of guarantee, bonds or security deposits, or any other financial security obligations.
- 1.379 “**Financial Submission Deadline**” means [REDACTED].
- 1.380 “**Financing**” means the financing with the Lenders, that is consistent in all material respects with Schedule 32 – Financial Model Extracts and the Project Agreement, to finance the Project.
- 1.381 “**FIPPA**” means the *Freedom of Information and Protection of Privacy Act* (Ontario).
- 1.382 “**First Milestone Payment**” means \$[REDACTED].
- 1.383 “**First Milestone Payment Completion Date**” has the meaning given in Section 34A(b)(v)(A) (*Certification of Milestone Payments*) of the Project Agreement.
- 1.384 “**Fisheries Act Authorizations**” means the authorization(s) issued by Fisheries and Oceans Canada in connection with the Project, and any amendment or supplement to the authorization(s) as may be issued after Commercial Close or required in connection with the Project from time to time during the Project Term.
- 1.385 “**Fixed Infrastructure**” has the meaning given in the Output Specifications.
- 1.386 “**Force Majeure**” has the meaning given in Section 44.1(a) (*Force Majeure – Definition*) of the Project Agreement.
- 1.387 “**Form of Utility Agreement**” has the meaning given in Section 9.15(a) (*Utility Agreements*) of the Project Agreement.

- 1.388 “**Fourth Milestone Payment**” means \$[REDACTED].
- 1.389 “**Fourth Milestone Payment Completion Date**” has the meaning given in Section 34A(b)(v)(A) (*Certification of Milestone Payments*) of the Project Agreement.
- 1.390 “**Freedom of Information and Protection of Privacy Act (Ontario)**” means the *Freedom of Information and Protection of Privacy Act*, R.S.O. 1990, c. F.31, as amended from time to time.
- 1.391 “**Funded Capital Costs**” is equal to the sum of the Cost of the Works and the Cost of the Financing, less the Legislative Holdback amount.
- 1.392 “**Funeral, Burial and Cremations Services Act, 2002 (Ontario)**” means the *Funeral, Burial and Cremations Services Act*, S.O. 2002, c. 33, as amended from time to time.
- 1.393 “**Furnishing and Planting Zone**” has the meaning given in the Output Specifications.
- 1.394 “**Gainshare Adjustment**” has the meaning given in Schedule 8 – Energy Matters.
- 1.395 “**Geotechnical Baseline Statement**” has the meaning given in Schedule 45 – Geotechnical Baseline Report.
- 1.396 “**Geotechnical Site Condition**” means any Site Condition under the Lands other than any,
- (a) Contamination;
 - (b) Items of Interest or Value;
 - (c) Major Existing Infrastructure;
 - (d) Utility Infrastructure; or
 - (e) Species-at-Risk.
- 1.397 “**GO Transit**” means GO Transit, an operating division of Contracting Authority and its successors.
- 1.398 “**Good Industry Practice**” means using standards, practices, methods and procedures to a good commercial standard, conforming to Applicable Law and exercising that degree of skill and care, diligence, prudence and foresight which would reasonably and ordinarily be expected from a qualified, skilled and experienced person engaged in a similar type of undertaking under the same or similar circumstances, including professionals, manufacturers, contractors and trades who are experienced in work on infrastructure that is comparable to the Project Co Infrastructure as part of the Ontario Line Subway and New Third Party Infrastructure.
- 1.399 “**Government Entity**” means any one or more of the Province, IO, MTO and MOI.

- 1.400 “**Government Sensitive Information**” means any information which is designated as such by Contracting Authority from time to time, or which a reasonable person, having regard to the circumstances, would regard as sensitive, including (i) all confidential information that is designated as such by Applicable Law, and (ii) any record, the disclosure of which could be injurious to the interests of Contracting Authority.
- 1.401 “**Governmental Activities**” means the provision of all governmental services and the conduct of all activities provided in connection or otherwise associated with the Lands, Ontario Line Subway and New Third Party Infrastructure by any Governmental Authority or Emergency Service Provider, and includes the Contracting Authority Activities.
- 1.402 “**Governmental Authority**” means any federal, provincial, territorial, regional, municipal or local governmental authority, quasi-governmental authority, court, government or self-regulatory organization, commission, board, tribunal, organization, or any regulatory, administrative or other agency, or any political or other subdivision, department, or branch of any of the foregoing, having legal jurisdiction in any way over Contracting Authority (including the Management Board of Cabinet), any aspect of the performance of the Project Agreement, the operation of the Project Co Infrastructure or the Governmental Activities, in each case to the extent it has or performs legislative, judicial, regulatory, administrative or other functions within its jurisdiction, including for clarity, the Toronto Transit Commission.
- 1.403 “**Graffiti**” means the visual or physical defacement of any component of the Ontario Line Subway by drawing, painting, spraying, scratching, or inscribing.
- 1.404 “**Groundwater Management and Dewatering Plan**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.405 “**GTHA**” has the meaning given in the recitals to the Project Agreement.
- 1.406 “**Guarantors**” means the Construction Guarantors and the Service Guarantors.
- 1.407 “**Guideway**” has the meaning given in the Output Specifications.
- 1.408 “**Guideway Intrusion Detection System**” has the meaning given in the Output Specifications.
- 1.409 “**H&S Certification Default Event**” has the meaning given in Section 9.6(c)(iii) (*Health and Safety Certification*) of the Project Agreement.
- 1.410 “**H&S Certification Maintenance Plan**” has the meaning given in Section 9.6(c)(vii)(B) (*Health and Safety Certification*) of the Project Agreement.
- 1.411 “**H&S Certification Reinstatement Plan**” has the meaning given in Section 9.6(c)(vi)(B) (*Health and Safety Certification*) of the Project Agreement.
- 1.412 “**H&S Construction Inspection**” has the meaning given in Section 13(b) (*Quality Management*) of the Project Agreement.

- 1.413 “**H&S Construction Inspection Report**” has the meaning given in Section 13(d) (*Quality Management*) of the Project Agreement.
- 1.414 “**H&S Construction Re-Inspection**” has the meaning given in Section 13(f)(ii) (*Quality Management*) of the Project Agreement.
- 1.415 “**H&S Construction Re-Inspection Report**” has the meaning given in Section 13(f)(iii) (*Quality Management*) of the Project Agreement.
- 1.416 “**H&S Conviction**” has the meaning given in Section 45.1(a)(xix) (*Project Co Events of Default*) of the Project Agreement.
- 1.417 “**H&S Services Inspection**” has the meaning given in Section 13(b) (*Quality Management*) of the Project Agreement.
- 1.418 “**H&S Services Inspection Report**” has the meaning given in Section 13(e) (*Quality Management*) of the Project Agreement.
- 1.419 “**H&S Services Re-Inspection**” has the meaning given in Section 13(f)(ii) (*Quality Management*) of the Project Agreement.
- 1.420 “**H&S Services Re-Inspection Report**” has the meaning given in Section 13(f)(iv) (*Quality Management*) of the Project Agreement.
- 1.421 “**Handback**” has the meaning given in the Output Specifications.
- 1.422 “**Handling**” means any collection, use or disclosure of information, including, for greater certainty, any access, modification, retention, safeguarding, permitted de-identification or anonymization, destruction of information (whether or not by automatic means) or any other handling of information. “**Handled**” and “**Handle**” have a corresponding meaning.
- 1.423 “**Handover**” means, as applicable, the successful handover, by Project Co of,
- (a) the New City Infrastructure, or a component thereof, to Contracting Authority or, where a Notice of Delegation has been provided by Contracting Authority in respect of New City Infrastructure, to the City, in accordance with Section 25.12 (*Inspection, Commissioning and Handover of New Third Party Infrastructure (Other than New TTC Infrastructure)*) of the Project Agreement, including, for clarity, the receipt of Contracting Authority’s or the City’s (as the case may be) confirmation that Handover has been successfully achieved and the provision of the Notice to Contracting Authority in accordance with Section 25.12(g) (*Inspection, Commissioning and Handover of New Third Party Infrastructure (Other than New TTC Infrastructure)*) of the Project Agreement;
 - (b) the New TTC Infrastructure, or a component thereof, to Contracting Authority or, where a Notice of Delegation has been provided by Contracting Authority in respect of New TTC Infrastructure, to the Toronto Transit Commission, in accordance with Section 25.13 (*Final Inspection, Commissioning and Handover*) of the Project Agreement;

of New TTC Infrastructure) of the Project Agreement, including, for clarity, the receipt of Contracting Authority’s or the Toronto Transit Commission’s (as the case may be) confirmation that Handover has been successfully achieved and the provision of the Notice to Contracting Authority in accordance with Section 25.13(g) (*Final Inspection, Commissioning and Handover of New TTC Infrastructure*) of the Project Agreement; or

- (c) the New Railway Company Infrastructure, or a component thereof, to Contracting Authority or, where a Notice of Delegation has been provided by Contracting Authority in respect of New Railway Company Infrastructure, to the applicable Railway Company Owner, in accordance with Section 25.12 (*Inspection, Commissioning and Handover of New Third Party Infrastructure (Other than New TTC Infrastructure)*) of the Project Agreement, including, for clarity, the receipt of Contracting Authority’s or the applicable Railway Company Owner’s (as the case may be) confirmation that Handover has been successfully achieved and the provision of the Notice to Contracting Authority in accordance with Section 25.12(g) (*Inspection, Commissioning and Handover of New Third Party Infrastructure (Other than New TTC Infrastructure)*) of the Project Agreement.

- 1.424 “**Hazardous Substances**” means any contaminant, pollutant, mould, dangerous substance, toxic substance, liquid Waste, industrial Waste, gaseous Waste, hauled liquid Waste, hazardous material, or hazardous substance as defined in or identified pursuant to any Applicable Law.
- 1.425 “**Headway Measuring Station**” has the meaning given in the Output Specifications.
- 1.426 “**Heavy Civil Failure**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.427 “**Hedge Provider**” means a person that has entered into a Hedging Agreement with Project Co pursuant to the Lending Agreements, together with their successors and permitted assigns.
- 1.428 “**Hedging Agreement**” means an agreement relating to interest rate risk entered into by Project Co and the Hedge Provider(s) pursuant to the Lending Agreements.
- 1.429 “**Highway Traffic Act (Ontario)**” means the *Highway Traffic Act*, R.S.O. 1990, c. H.8, as amended from time to time.
- 1.430 “[REDACTED]” has the meaning given in Schedule 5-1 – Construction Contractor’s Direct Agreement.
- 1.431 “**HST**” means the value-added tax imposed pursuant to Part IX of the *Excise Tax Act* (Canada), and any successor legislation thereto.
- 1.432 “**IC Substantial Completion Deliverables Confirmation**” has the meaning given in Section 25.3(c)(i) (*Substantial Completion Certificate*) of the Project Agreement.

- 1.433 “**IC Substantial Completion Deliverables Deficiencies List**” has the meaning given in Section 25.3(c)(ii) (*Substantial Completion Certificate*) of the Project Agreement.
- 1.434 “**Identified Contaminated Materials**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.435 “**IHSA**” means Infrastructure Health and Safety Association, a not-for-profit occupational safety organization formed on January 1, 2010 that provides health and safety training material and services to Ontario construction, electrical utilities and transportation industries, and is accredited in Ontario to issue and grant Certificates of Recognition and Letters of Good Standing, or such other person so accredited in Ontario to issue and grant Certificates of Recognition and Letters of Good Standing.
- 1.436 “**Incident of Train Delay**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.437 “**Income Tax Act (Canada)**” means the *Income Tax Act*, R.S.C., 1985, c. 1, as amended from time to time.
- 1.438 “**Income Tax Act (Ontario)**” means the *Income Tax Act*, R.S.O. 1990, c. I.2, as amended from time to time.
- 1.439 “**Indemnifiable Taxes**” has the meaning given in Section 35.7(b)(iii) (*Taxes – Indemnity*) of the Project Agreement.
- 1.440 “**Indemnifier**” has the meaning given in Section 56.3(a) (*Conduct of Claims*) of the Project Agreement.
- 1.441 “**Independent Certifier**” means the person appointed as the Independent Certifier pursuant to the Independent Certifier Agreement and as may be permitted pursuant to the Project Agreement.
- 1.442 “**Independent Certifier Agreement**” means the contract entered into between Project Co, Contracting Authority and the Independent Certifier in substantially the form attached hereto as Schedule 6 – Independent Certifier Agreement.
- 1.443 “**Independent Inspector**” has the meaning given in Schedule 24 – Expiry Transition Procedure.
- 1.444 “**Independent Quality Audit**” has the meaning given in Schedule 11 – Quality Management.
- 1.445 “**Independent Safety Assessor**” or “**ISA**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- 1.446 “**Indigenous Entities**” means organizations and/or businesses that are Indigenous run and/or represent Indigenous interests as identified by Contracting Authority.

- 1.447 “**Indigenous Nations**” means, collectively, the First Nations, Métis and Inuit communities in Canada.
- 1.448 “**Indirect Losses**” has the meaning given in Section 57.1(a) (*Indirect Losses*) of the Project Agreement.
- 1.449 “**Inflation Base Date**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.450 “**Information and Advertising Display System**” has the meaning given in the Output Specifications.
- 1.451 “**Infringing Material**” has the meaning given in Section 56.1(h) (*Project Co Indemnities to Contracting Authority*) of the Project Agreement.
- 1.452 “**Initial Traction Power Performance Test Failure**” has the meaning given in Schedule 8 – Energy Matters.
- 1.453 “**Injurious Affection**” has the meaning given in the *Expropriations Act*, R.S.O. 1990, c. E. 26, as amended from time to time.
- 1.454 “**Innovation Proposal**” has the meaning given in Section 39.2(b) (*Innovation and Value Engineering*) of the Project Agreement.
- 1.455 “**Inspection and Test Plan**” has the meaning given in Schedule 11 – Quality Management.
- 1.456 “**Insurance**” means the insurance contemplated in Schedule 25 – Insurance and Performance Security Requirements.
- 1.457 “**Insurance Policies**” has the meaning given in Schedule 30 – Insurance Trust Agreement.
- 1.458 “**Insurance Proceeds**” has the meaning given in Schedule 30 – Insurance Trust Agreement.
- 1.459 “**Insurance Review Period**” has the meaning given in Schedule 25 – Insurance and Performance Security Requirements.
- 1.460 “**Insurance Trust Account**” means Account No. [REDACTED] at [REDACTED].
- 1.461 “**Insurance Trust Agreement**” means the insurance trust agreement to be entered into between Contracting Authority, the Lenders’ Agent, Project Co and the Account Trustee in the form set out in Schedule 30 – Insurance Trust Agreement.
- 1.462 “**Integrated Commissioning Plan**” has the meaning given in Schedule 14 – Commissioning.
- 1.463 “**Integrated System Extension**” has the meaning given in Schedule 44 – System Extension.

- 1.464 “**Integration Committee**” has the meaning given in Schedule 39A – Form of South Civil Interface Agreement or Schedule 39B – Form of North Civil Interface Agreement, as applicable.
- 1.465 “**Integration Dispute**” has the meaning given in Appendix A to Schedule 39A – Form of South Civil Interface Agreement or Appendix A to Schedule 39B – Form of North Civil Interface Agreement, as applicable.
- 1.466 “**Integration Dispute Resolution Procedure**” has the meaning given in Appendix A to Schedule 39A – Form of South Civil Interface Agreement or Appendix A to Schedule 39B – Form of North Civil Interface Agreement, as applicable.
- 1.467 “**Integration Milestone Delay**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.468 “**Intellectual Property**” means all intellectual and industrial property, including without limitation: (i) Trademarks; (ii) Patents; (iii) Copyrights; (iv) inventions, whether or not patentable, whether or not reduced to practice or whether or not yet made the subject of a pending patent application or applications; (v) ideas and conceptions of potentially patentable subject matter, including, without limitation, any patent disclosures, whether or not reduced to practice and whether or not yet made the subject of a pending patent application or applications; (vi) trade secrets and confidential, technical or business information (including ideas, formulas, compositions, designs, inventions, and conceptions of inventions whether patentable or unpatentable and whether or not reduced to practice); (vii) whether or not confidential, technology (including know-how and show-how), manufacturing and production processes and techniques, methodologies, research and development information, drawings, specifications, designs, plans, proposals, technical data, copyrightable works, marketing and business data, pricing and cost information, business and marketing plans; (viii) copies and tangible embodiments of all the foregoing, in whatever form or medium; (ix) all rights to obtain and rights to apply for any of the foregoing and all rights therein provided by multinational treaties or conventions; (x) all rights under any agreements or instruments with respect to items in (i) to (ix) above; and (xi) all rights to sue and recover and retain damages and costs and attorneys’ fees for present and past infringement or other violation of any of the intellectual property rights hereinabove set out.
- 1.469 “**Intellectual Property Rights**” means all right, title and interest in, to and under the Intellectual Property in or associated with the Project Data, any deliverables and all Intellectual Property which, or the subject matter of which, is at any time before or after Commercial Close created, brought into existence, acquired, used or intended to be used by Project Co, any Subcontractor or by other third parties (for such third parties’ use by or on behalf of or for the benefit of Project Co) for any or all of the purposes of:
- (a) the Works, including the design and construction of the Ontario Line Subway and the New Third Party Infrastructure (excluding Intellectual Property Rights of third parties, such as CAD software, that is used only in the process of design and construction);

- (b) the Project Co Services, including the maintenance, improvement, testing and rehabilitation of the Ontario Line Subway;
 - (c) any other Project Operations; or
 - (d) the Project Agreement.
- 1.470 “**Interchange Station**” has the meaning given in the Output Specifications.
- 1.471 “**Interchange Station Services Providers**” has the meaning given in the Output Specifications.
- 1.472 “**Interim Baseline Works Schedule**” has the meaning given in Schedule 12 – Works Schedule Requirements.
- 1.473 “**Internal Quality Audit**” has the meaning given in Schedule 11 – Quality Management.
- 1.474 “**Intrusion Access Control System**” has the meaning given in the Output Specifications.
- 1.475 “**IO**” or “**Infrastructure Ontario**” means Ontario Infrastructure and Lands Corporation, a non-share capital corporation continued and amalgamated under the *Ontario Infrastructure and Lands Corporation Act, 2011, S.O. 2011, c. 9, Schedule 32*, as amended and includes any successors thereto or persons exercising delegated power and the Minister’s authority, as agent for His Majesty the King in right of Ontario, as represented by the Minister of Infrastructure.
- 1.476 “**IPFP Framework**” means the alternative financing and procurement project framework which complies with the principles set out in *MOI’s Building a Better Tomorrow: An Infrastructure Planning, Financing and Procurement Framework for Ontario’s Public Sector*.
- 1.477 “**IRO**” means the Indigenous Relations Office, or the division of Contracting Authority primarily responsible for managing Indigenous relations and/or outreach.
- 1.478 “**Irrecoverable Tax**” has the meaning given in Section 35.3(b) (*Changes in Recoverability of Tax Credits*) of the Project Agreement.
- 1.479 “**Issuing Authority**” means the issuing authorities set out in Appendix A and Appendix B, as applicable, to Schedule 34 – Permits, Licences, Approvals and Agreements.
- 1.480 “**Items of Interest or Value**” has the meaning given in Section 16.4(a) (*Items of Geological, Historical Heritage or Archaeological Interest or Value*) of the Project Agreement.
- 1.481 “**Jointly Developed Materials**” has the meaning given in Section 51.4(a) (*Jointly Developed Materials*) of the Project Agreement.

- 1.482 “**Junior Debt Amount**” means, at any time, the then outstanding principal amount of debt funded under the terms of the Lending Agreements by the Junior Lenders to Project Co, together with all interest accrued thereon at that time, to the extent applied for the purposes of the Project and excluding the Junior Debt Makewhole, which has a fixed return without equity participation, step-up rights or rights to share in Project Co’s excess cash flow and a coupon equal to or less than [REDACTED]% of the coupon payable to the Senior Lenders and a right to a makewhole amount equal to or less than a market makewhole amount. For clarity, amounts that do not meet such criteria will not be included in Junior Debt Amount.
- 1.483 “**Junior Debt Makewhole**” means, at any time, any amount (other than the Junior Debt Amount) then due and payable to the Junior Lenders under the Lending Agreements, including any “makewhole” payments, breakage fees (less any breakage benefits) and all other fees, costs and expenses reasonably and properly incurred which Project Co is obligated to pay to the Junior Lenders pursuant to the Lending Agreements.
- 1.484 “**Junior Debt Service Amount**” means, for any period, the principal and interest payable by Project Co or any Project Co Party to the Junior Lenders in the normal course under the Lending Agreements.
- 1.485 “**Junior Lenders**” means, at any time, any lenders to Project Co which are subordinate in interest to the Senior Lenders, and any additional lenders financing any Refinancing or capital costs of construction of System Extensions which is shown as Junior Debt Amount in the Financial Model at such time. For greater clarity, Junior Lenders excludes:
- (a) the Hedge Provider(s) or any other hedge providers and their respective permitted successors and assigns; and
 - (b) any Affiliate of Project Co, any Project Co Party or any Affiliate of a Project Co Party.
- 1.486 “**Key Individual**” means those Project Co Parties listed in Schedule 9 – Key Individuals.
- 1.487 “**Key Individual Category A**” means those Key Individuals who are indicated as being in Category “A” in Schedule 9 – Key Individuals.
- 1.488 “**Knowledge of the Project Manager**” means knowledge that is actually held by the person who was identified as the project manager (or analogous position) for the Project in Project Co’s proposal in response to the Request for Proposals, but does not include any knowledge obtained as a result of the review of Background Information pursuant to Section 6.1 (*Review of Background Information*) of the Project Agreement, including the Project GBR.
- 1.489 “**Labour and Material Payment Bond**” means, collectively, the Labour and Material Payment Bond and the Multiple Obligee Rider to Labour and Material Payment Bond in the form attached as Appendix C to Schedule 25 – Insurance and Performance Security Requirements.

- 1.490 “**Lands**” has the meaning given in Schedule 35 – Lands, and includes South Civil Project Lands and North Civil Project Lands that have been handed over to Project Co pursuant to Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable.
- 1.491 “**Lane Closure**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.492 “**LEED**” means Leadership in Energy & Environmental Design.
- 1.493 “**LEED Rating System**” means CaGBC’s Leadership in Energy and Environmental Design (LEED) for Building Design and Construction (BD+C) New Construction and Major Renovations latest v4 with Addenda, including optional Canadian Alternative Compliance Paths (ACPs).
- 1.494 “**LEED Silver Certification**” means the achievement of a “Silver” certification from the CaGBC, with respect to the LEED Rating System.
- 1.495 “**LEED Silver Certification Liquidated Damages**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.496 “**Legislative Holdback**” means the basic holdback to be retained pursuant to section 22(1) of the *Construction Act* (Ontario).
- 1.497 “**Lenders**” means all or any of the persons acting at all times at arm’s length to Project Co and each Project Co Party who provide Financing to Project Co in respect of the Project Operations under the Lending Agreements, including the Senior Lenders and the Junior Lenders, and, where the context so permits, prospective financiers or lenders, and for greater clarity, excludes any Affiliate of Project Co or a Project Co Party.
- 1.498 “**Lenders’ Agent**” has the meaning given in Schedule 4 – Lenders’ Direct Agreement.
- 1.499 “**Lenders’ Consultant**” means [REDACTED].
- 1.500 “**Lenders’ Direct Agreement**” means the direct agreement to be entered into between Contracting Authority, the Lenders’ Agent and Project Co in the form set out in Schedule 4 – Lenders’ Direct Agreement.
- 1.501 “**Lending Agreements**” means any or all of the agreements or instruments to be entered into by Project Co or any of its Affiliates with Senior Lenders or Junior Lenders relating to the Financing of the Project Operations, including, for greater certainty, the Security Documents, the Hedging Agreements and any agreements or instruments to be entered into by Project Co or any of its Affiliates relating to (i) any change to the financing terms or conditions of any investment instrument related to the financing of the Project Operations, or (ii) the rescheduling of their indebtedness in respect of the financing of the Project Operations or the Refinancing of the Project Operations. Without limitation, Lending Agreements includes any agreements or instruments described above with any of the

Lenders and includes those related to any Refinancing or the financing of the capital costs of construction of Systems Extensions set out in the Financial Model at the applicable time.

- 1.502 “**Letter of Credit Provider**” has the meaning given in the Request for Proposals.
- 1.503 “**Letter of Good Standing**” means the document issued by IHSA to a person confirming that the internal maintenance audit performed by such person regarding its health and safety management systems has been approved by IHSA, and that such person has successfully completed such internal audit pursuant to the terms and conditions of the COR Program.
- 1.504 “**Licensor**” has the meaning given in Schedule 37 – Intellectual Property.
- 1.505 “**Limitations Act, 2002 (Ontario)**” means the *Limitations Act, 2002*, S.O. 2002, c. 24, Sch. B, as amended from time to time.
- 1.506 “**Limited Modification Rights**” has the meaning given in Schedule 37 – Intellectual Property.
- 1.507 “**Line Station**” has the meaning given in the Output Specifications.
- 1.508 “**Liquid Market**” has the meaning given in Schedule 23 – Compensation on Termination.
- 1.509 “**Listed Project Co PLAA**” has the meaning given in Schedule 34 – Permits, Licences, Approvals and Agreements.
- 1.510 “**Listed Project Co PLAA Application**” has the meaning given in Schedule 34 – Permits, Licences, Approvals and Agreements.
- 1.511 “**Listed Project Co PLAA Deadline**” has the meaning given in Schedule 34 – Permits, Licences, Approvals and Agreements.
- 1.512 “**Listed Project Co PLAA Requirements**” has the meaning given in Schedule 34 – Permits, Licences, Approvals and Agreements.
- 1.513 “**Load Flow Analysis**” has the meaning given in the Output Specifications.
- 1.514 “**Load-Path Diagram**” means a graphically illustrated diagram that indicates in all relevant detail (including by use of colour-coded arrows indicating the directions of forces caused by dead loads, live loads, vertical loads and lateral loads) how the structural loads are transferred throughout a building or structure that is to be the subject of a Demolition.
- 1.515 “**Longstop Date**” has the meaning given in Section 45.1(a)(ii) (*Project Co Events of Default*) of the Project Agreement.
- 1.516 “**Mainline Track**” has the meaning given in the Output Specifications.
- 1.517 “**Maintenance Concept Plan**” has the meaning given in the Output Specifications.

- 1.518 “**Maintenance Implementation Plan**” has the meaning given in the Output Specifications.
- 1.519 “**Maintenance Management System**” has the meaning given in the Output Specifications.
- 1.520 “**Maintenance Plan**” has the meaning given in the Output Specifications.
- 1.521 “**Maintenance Services**” has the meaning given in the Output Specifications.
- 1.522 “**Maintenance Vehicles**” has the meaning given in the Output Specifications.
- 1.523 “**Major Existing Infrastructure**” means the infrastructure set out in the column titled “Major Existing Infrastructure” in Appendix A to this Schedule 1, each of which are within the Project Zone of Influence.
- 1.524 “**Major Existing Infrastructure Condition**” means the condition of the Major Existing Infrastructure, including its geographic location and physical and structural condition.
- 1.525 “**Major Existing Infrastructure Condition Reports**” means the documents, assessments, surveys and other reports set out in the column titled “Major Existing Infrastructure Condition Reports” in Appendix A to this Schedule 1.
- 1.526 “**Major Maintenance Shutdown Period**” has the meaning given in the Output Specifications.
- 1.527 “**Major Non-Conformance**” means any Non-Conformance that:
- (a) contains significant deficiencies or does not generally conform with the requirements of the Project Agreement;
 - (b) is reasonably expected to result in a Medium Qualifying NCR; or
 - (c) the continued existence of which is reasonably expected to result in Project Co being unable to satisfy the requirements of Substantial Completion.
- 1.528 “**Major Track Closure**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.529 “**Make Good**”, “**Made Good**” and derivatives thereof, means repairing, restoring, replacing, refurbishing, rehabilitating or performing filling operation on the Works as required under the Project Agreement or any existing components disturbed due to the Works, to at least the condition existing at the commencement of the Works, in terms of construction integrity, finishes, alignment with existing adjoining surfaces, compatibility of materials, sound attenuation criteria, exfiltration/infiltration requirements, air/vapour barrier and thermal continuity and including with respect to Cars, the criteria and specifications set forth in the Output Specifications.

- 1.530 “**Management Board of Cabinet**” has the meaning set out in the *Management Board of Cabinet Act* (Ontario), R.S.O, 1990, c. M.1.
- 1.531 “**Mandatory Refinancing**” has the meaning given in Schedule 28 – Refinancing.
- 1.532 “**Maximum Journey Time**” has the meaning given in the Output Specifications.
- 1.533 “**Maximum Service Payment**” has the meaning given in Schedule 23 – Compensation on Termination.
- 1.534 “**Measurement and Verification of Energy Use Plan**” has the meaning given in Schedule 8 – Energy Matters.
- 1.535 “**Measurement and Verification of Water Use Plan**” has the meaning given in Schedule 8 – Energy Matters.
- 1.536 “**MECP**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.537 “**Medium Qualifying NCR**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.538 “**Member**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.
- 1.539 “**Metrolinx**” means Metrolinx; a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c.16 and a Crown agency in accordance with the *Crown Agency Act*, R.S.O. 1990, c.48 and includes any successors thereto.
- 1.540 “**Metrolinx Act, 2006 (Ontario)**” means the *Metrolinx Act, 2006*, S.O. 2006, c.16, as amended from time to time.
- 1.541 “**Metrolinx Developer Review Process**” means the process and requirements set out in the:
- (a) Metrolinx Developer’s Guide – Corridor Adjacent Developments;
 - (b) Metrolinx Developer’s Guide – Corridor Utility and Roadway Work; and
 - (c) Metrolinx Developer’s Guide – Railway Corridors.
- 1.542 “**Metrolinx Developer’s Guide – Corridor Adjacent Developments**” means the guideline titled “*Corridor Development Permit Guidelines for Adjacent Development*” and dated May 2021, as may be amended from time to time.
- 1.543 “**Metrolinx Developer’s Guide – Corridor Utility and Roadway Work**” means the guideline titled “*Corridor Development Permit Guideline for Utility and Roadway Work*” and dated June 2021, as may be amended from time to time.

- 1.544 “**Metrolinx Developer’s Guide – Railway Corridors**” means the guideline titled “*Metrolinx - GO Transit Adjacent Development Guidelines*” and dated April 1, 2013, as may be amended from time to time.
- 1.545 “**Metrolinx Easement Lands**” has the meaning given in Schedule 35 – Lands.
- 1.546 “**Metrolinx Lands**” has the meaning given in Schedule 35 – Lands.
- 1.547 “**Metrolinx Lands Discrete Parcels**” means all Metrolinx Lands, other than those Metrolinx Lands that are located on the City Road Allowance.
- 1.548 “**Milestone Payment**” means the First Milestone Payment, the Second Milestone Payment, the Third Milestone Payment or the Fourth Milestone Payment, as applicable, and “**Milestone Payments**” means each of the First Milestone Payment, the Second Milestone Payment, the Third Milestone Payment and the Fourth Milestone Payment.
- 1.549 “**Milestone Payment Completion**” means,
- (a) for the First Milestone Payment,
 - (i) cumulative Private Capital Invested being no less than [REDACTED]% of the Funded Capital Costs;
 - (b) for the Second Milestone Payment,
 - (i) cumulative Private Capital Invested being no less than [REDACTED]% of the Funded Capital Costs;
 - (c) for the Third Milestone Payment,
 - (i) cumulative Private Capital Invested being no less than [REDACTED]% of the Funded Capital Costs; and
 - (d) for the Fourth Milestone Payment,
 - (i) cumulative Private Capital Invested being no less than [REDACTED]% of the Funded Capital Costs.
- 1.550 “**Milestone Payment Completion Countdown Notice**” has the meaning given in Section 34A(a)(i) (*Milestone Payment Completion Countdown Notice*) of the Project Agreement.
- 1.551 “**Milestone Payment Completion Date**” means the First Milestone Payment Completion Date, the Second Milestone Payment Completion Date, the Third Milestone Payment Completion Date or the Fourth Milestone Payment Completion Date, as applicable, and the term “**Milestone Payment Completion Dates**” means each of the First Milestone Payment Completion Date, the Second Milestone Payment Completion Date, the Third Milestone Payment Completion Date and the Fourth Milestone Payment Completion Date.

- 1.552 “**Milestone Payment Completion Notice**” has the meaning given in Section 34A(b)(ii) (*Milestone Payment Completion Countdown Notice*) of the Project Agreement.
- 1.553 “**Milestone Payment Date**” means the date that is two (2) Business Days after the applicable Milestone Payment Completion Date.
- 1.554 “**Minimum Doors Open Time**” has the meaning given in the Output Specifications.
- 1.555 “**Minor Deficiencies**” means any defects, deficiencies and items of outstanding work (including in relation to seasonal work) arising from or related to the work required to achieve Substantial Completion, and that would not materially impair:
- (a) the public’s, System Users’, or Contracting Authority’s use and enjoyment of the Ontario Line Subway or any third parties use and enjoyment of their respective New Third Party Infrastructure (including any Contracting Authority Commissioning);
 - (b) the performance of the Governmental Activities;
 - (c) the performance of the Project Co Services by Project Co;
 - (d) safety, security, or traffic flow on the Ontario Line Subway or New Third Party Infrastructure in any relevant respect.
- 1.556 “**Minor Deficiencies List**” has the meaning given in Section 25.6(a) (*Minor Deficiencies*) of the Project Agreement.
- 1.557 “**Minor Non-Conformance**” means any Non-Conformance that:
- (a) generally conforms to the requirements of the Project Agreement, but in which immaterial deficiencies have been found; or
 - (b) the continued existence of which is not reasonably expected to result in Project Co becoming unable to satisfy the requirements for Substantial Completion but may result in a Minor Deficiency.
- 1.558 “**Minor System User Contamination**” means Contamination where the costs of clean up or remediation shall not exceed \$[REDACTED] on a per occurrence basis (and not in the aggregate).
- 1.559 “**Minor Track Closure**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.560 “**Mislocated Utility Infrastructure**” means
- (a) [REDACTED],

provided, however, that the following shall be excluded from the definition of “Mislocated Utility Infrastructure”:

- (i) any relocations of Utility Infrastructure pursuant to (a) through (f) above, carried out at the Site subsequent to the applicable dates specified in the Subsurface Utility Engineering (SUE) Report, including with respect to,
 - (A) the Works; and
 - (B) Third Party Works and Additional Works, including the preparatory activities.

- 1.561 “**Modification**” has the meaning given in Schedule 37 – Intellectual Property.
- 1.562 “**MOI**” means His Majesty the King in right of Ontario as represented by the Minister of Infrastructure and includes any successors thereto or persons exercising delegated power under the Minister’s authority.
- 1.563 “**MOL**” means His Majesty the King in right of Ontario as represented by the Ministry of Labour, Training and Skills Development, and includes any successors thereto or persons exercising delegated power under the Minister’s authority.
- 1.564 “**Monitoring Notice**” has the meaning given in Section 31.5(a) (*Monitoring Notices*) of the Project Agreement.
- 1.565 “**Monthly Environmental Report**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.566 “**Monthly Non-Conformance Report**” has the meaning given in Schedule 11 – Quality Management.
- 1.567 “**Monthly Performance Monitoring Report**” has the meaning given in Schedule 11 – Quality Management.
- 1.568 “**Monthly Service Payment**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.569 “**MTO**” means His Majesty the King in right of Ontario, as represented by the Minister of Transportation, and includes any successors thereto or persons exercising delegate power and such Minister’s authority.
- 1.570 “**Multiple Obligee Rider to Labour and Material Payment Bond**” means the Multiple Obligee Rider amending the Labour and Material Payment Bond to add Contracting Authority and Lenders as additional named Obligees, in the form attached as Rider No. 2 to Appendix C of Schedule 25 – Insurance and Performance Security Requirements.
- 1.571 “**Multiple Obligee Rider to Performance Bond**” means the Multiple Obligee Rider amending the Performance Bond to add Contracting Authority and Lender as additional

named Obligees, in the form attached as Rider No. 2 to Appendix B of Schedule 25 – Insurance and Performance Security Requirements.

- 1.572 “**Municipal Consent Requirements**” has the meaning given in the Output Specifications.
- 1.573 “**New Agreement**” has the meaning given in Schedule 23 – Compensation on Termination.
- 1.574 “**New City Infrastructure**” means the New Third Party Infrastructure to be installed, relocated, upgraded, reinstated, restored, refurbished, downsized, designed and/or built by Project Co for the City of Toronto in accordance with the Project Agreement (including, for greater certainty, in accordance with the City Standards), which, for clarity, includes the New City Utility Infrastructure. For the purposes of Sections 25.12 (*Inspection, Commissioning and Handover of New Third Party Infrastructure (other than New TTC Infrastructure)*), 25.14 (*Warranties on New Third Party Infrastructure*) and 25.15 (*Disputes Regarding Handover of the New Third Party Infrastructure*) of the Project Agreement and Schedule 14 – Commissioning, “New City Infrastructure” means New City Infrastructure, or a component thereof.
- 1.575 “**New City Utility Infrastructure**” means the Utility Infrastructure to be installed, relocated, upgraded, reinstated, downsized, restored, refurbished, designed and/or built by Project Co for the City of Toronto in accordance with the Project Agreement (including, for greater certainty, in accordance with the City Standards).
- 1.576 “**New Railway Company Infrastructure**” means the New Third Party Infrastructure to be installed, relocated, upgraded, reinstated, refurbished, downsized, restored, designed and/or built by Project Co for a Railway Company in accordance with the Project Agreement. For the purposes of Sections 25.12 (*Inspection, Commissioning and Handover of New Third Party Infrastructure (other than New TTC Infrastructure)*), 25.14 (*Warranties on New Third Party Infrastructure*) and 25.15 (*Disputes Regarding Handover of the New Third Party Infrastructure*) of the Project Agreement and Schedule 14 – Commissioning, “New Railway Company Infrastructure” means New Railway Company Infrastructure, or a component thereof.
- 1.577 “**New Third Party Infrastructure**” means new highway, utility, parking facility, bus, railway infrastructure as described in the Output Specifications, to be installed, relocated, upgraded, abandoned, reinstated, restored, refurbished, designed and/or built by Project Co for third parties, in accordance with the Project Agreement. For clarity, New Third Party Infrastructure includes all of the New City Infrastructure, the New TTC Infrastructure and the New Railway Company Infrastructure.
- 1.578 “**New TTC Infrastructure**” means the New Third Party Infrastructure to be installed, relocated, upgraded, reinstated, downsized, restored, refurbished, designed and built by Project Co for the Toronto Transit Commission in accordance with the Project Agreement. For the purposes of Sections 25.13 (*Final Inspection, Commissioning and Handover of New TTC Infrastructure*), 25.14 (*Warranties on New Third Party Infrastructure*) and 25.15 (*Disputes Regarding Handover of the New Third Party Infrastructure*) of the Project

Agreement and Schedule 14 – Commissioning, “New TTC Infrastructure” means New TTC Infrastructure or any component thereof.

- 1.579 “**No Comment**” has the meaning given in Section 4.2(a) (*Comments*) of Part A or Section 3.2(a) (*Comments*) of Part B, as applicable, of Schedule 10 – Review Procedure.
- 1.580 “**No Later Than Date**” has the meaning given in Schedule 41 – Early Works Handover, Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable.
- 1.581 “**Noise and Vibration Survey**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.582 “**Non-Conformance**” means any failure by Project Co to perform any of its obligations under the Project Agreement in respect of any aspect of the Works or Project Co Services and which failure is not rectified by Project Co within the applicable time period, if any, stipulated in the Project Agreement.
- 1.583 “**Non-Conformance Report**” or “**NCR**” has the meaning given in Schedule 11 – Quality Management.
- 1.584 “**Non-Conformance Tracking System**” has the meaning given in Schedule 11 – Quality Management.
- 1.585 “**Non-Default Termination Sum**” has the meaning given in Schedule 23 – Compensation on Termination.
- 1.586 “**Non-Disruptive Access**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.587 “**Non-Hazardous Waste**” means Waste that is not defined as “Hazardous Waste” pursuant to Ontario Regulation 347 under the Ontario *Environmental Protection Act*.
- 1.588 “**Non-Project Co Cause**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.589 “**Non-Resident**” means a person that is, at the relevant time, a non-resident of Canada for the purposes of the *Income Tax Act* (Canada).
- 1.590 “**North Civil Infrastructure Construction Defect**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.591 “**North Civil Infrastructure Section**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.592 “**North Civil Infrastructure Section Substantial Completion**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.

- 1.593 “**North Civil Infrastructure Section Handover**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.594 “**North Civil Infrastructure Section Handover Date**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.595 “**North Civil Infrastructure Subsection**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.596 “**North Civil Infrastructure Subsection Access Date**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.597 “**North Civil Infrastructure Technical Specifications**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.598 “**North Civil Integration Demerit Points Incurred**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.599 “**North Civil Integration Demerit Points Threshold**” has the meaning given to the term “Integration Demerit Points Relief Threshold” in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.600 “**North Civil Integration Dispute Resolution Procedure**” has the meaning given to “Integration Dispute Resolution Procedure” in Schedule 39B – Form of North Civil Interface Agreement.
- 1.601 “**North Civil Interface Agreement**” means the interface agreement entered into among Contracting Authority, Project Co and North Civil Project Co in substantially the form of Schedule 39B – Form of North Civil Interface Agreement.
- 1.602 “**North Civil Project**” means the design, construction, financing and handover of all tunnels, stations and civil works between Gerrard Station and Science Centre Station and the design, construction, financing and handover of Leslieville Station, and includes tunnel and station ventilation systems with respect thereto.
- 1.603 “**North Civil Project Agreement**” means the contract between the Contracting Authority and North Civil Project Co.
- 1.604 “**North Civil Project Co**” means the party entering into the North Civil Project Agreement with Contracting Authority.
- 1.605 “**North Civil Project Co Party**” means any person engaged by North Civil Project Co in connection with the North Civil Project, and/or any of its contractors, and their subcontractors of any tier, agents, employees, officers and directors, and “**North Project Co Parties**” shall be construed accordingly.
- 1.606 “**North Civil Project Infrastructure**” means the infrastructure that North Civil Project Co designs, constructs, installs, tests, supplies, delivers and commissions pursuant to the

North Civil Project Agreement, and hands over to Project Co in accordance with Schedule 43 – North Civil Infrastructure Access and Handover, including any early works infrastructure delivered to North Civil Project Co pursuant to the North Civil Project Agreement.

- 1.607 “**North Civil Project Infrastructure Design**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.608 “**North Civil Project Lands**” means the Lands set out in Table 1.2 (*North Civil Lands*) of Part B (*Metrolinx Lands*) to Schedule 35 – Lands.
- 1.609 “**North Civil Project Substantial Completion Date**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.610 “**Notice**” has the meaning given in Section 61.1(a) (*Notices to Parties*) of the Project Agreement.
- 1.611 “**Notice of Completed Review**” means a notice issued by the City of Toronto to Project Co, following completion of review of a final site plan review submittal, pursuant to Schedule 34 – Permits, Licences, Approvals and Agreements.
- 1.612 “**Notice of Delegation**” has the meaning given in Section 25.12(b) (*Inspection, Commissioning and Handover of New Third Party Infrastructure (other than New TTC Infrastructure)*) of the Project Agreement.
- 1.613 “**Notice of Dispute**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.
- 1.614 “**Notice of Non-Payment**” has the meaning given in Schedule 21 – Construction Payment Procedures.
- 1.615 “**Notice Period**” has the meaning given in Schedule 4 – Lenders’ Direct Agreement.
- 1.616 “**Nuisance Claim**” means a claim for damages or other relief for private nuisance, public nuisance or injurious affection in relation to the construction of the Project Co Infrastructure or the operation of the Ontario Line Subway, but excluding any such claim pursuant to which the plaintiff or claimant makes or asserts a claim for any physical loss or damage to the plaintiff’s or claimant’s property.
- 1.617 “**OCC**” has the meaning given in the Output Specifications.
- 1.618 “**Occupancy Agreement**” means an agreement to be entered into between Project Co and the Delivery Partner, with respect to Project Co’s use and occupancy of the Project Office.
- 1.619 “**Occupational Health and Safety Act (Ontario)**” or “**OHSA**” means the *Occupational Health and Safety Act*, R.S.O. 1990, c. O.1, as amended from time to time.
- 1.620 “**Off-Peak Period**” has the meaning given in the Output Specifications.

- 1.621 “**OHSAS 18001**” means the international standard for occupational health and safety management systems developed by the Occupational Health and Safety Advisory Services Project Group, a British body formed to develop the standard.
- 1.622 “**OHSAS 18001 Accreditation**” means, in respect of a person, such person having received certification in respect of its health and safety management systems that such systems comply with the requirements of OHSAS 18001.
- 1.623 “**OMSF**” or “**Operations, Maintenance and Storage Facility**” has the meaning given in the Output Specifications.
- 1.624 “**OMSF Condition Report**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.625 “**OMSF Early Handback Lands**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.626 “**OMSF Early Handback Lands No Later Than Date**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.627 “**OMSF Project Co Infrastructure**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.628 “**OMSF Project Co Infrastructure Handover Date**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.629 “**OMSF Works**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.630 “**OMSF Works Deadline**” has the meaning given in Schedule 43 – North Civil Infrastructure Access and Handover.
- 1.631 “*Ontario Heritage Act (Ontario)*” means the *Ontario Heritage Act*, R.S.O. 1990, c. O.18, as amended from time to time.
- 1.632 “*Ontario Infrastructure and Lands Corporation Act, 2011, S.O. 2011*” means the *Ontario Infrastructure and Lands Corporation Act, 2011*, S.O. 2011, c. 9, Sch. 32, as amended from time to time.
- 1.633 “**Ontario Line Subway**” means the Project Co Infrastructure, the Early Works Infrastructure subject to and in accordance with Section 2.1(g) (*Handover of Early Works Infrastructure Sections*) of Schedule 41 – Early Works Handover, the South Civil Project Infrastructure subject to and in accordance with Section 2.1(f) (*Handover of South Civil Infrastructure Sections*) of Schedule 42 – South Civil Infrastructure Access and Handover, and the North Civil Project Infrastructure subject to and in accordance with Section 2.1(f) (*Handover of North Civil Infrastructure Sections*) of Schedule 43 – North Civil Infrastructure Access and Handover.

- 1.634 “**Ontario Line Subway Condition Report**” has the meaning given in Schedule 24 – Expiry Transition Procedure.
- 1.635 “**Ontario Line Subway Performance Demonstration**” has the meaning given in Schedule 24 – Expiry Transition Procedure.
- 1.636 “**Ontario Line Subway System**” means the integrated passenger subway or metro system comprised of the (a) Ontario Line Subway and (b) Project Co Services.
- 1.637 “**Operational Response**” means the initial response to a failure of, damage to, danger or other incident, occurring on the Ontario Line Subway (including an Emergency) which actually or, in Contracting Authority’s or Project Co’s reasonable opinion, may potentially interrupt or delay the Revenue Service or adversely affects safety in performance of the Operations Services.
- 1.638 “**Operational Term**” means the period from the Substantial Completion Date and expiring at midnight on the Termination Date.
- 1.639 “**Operational Term Lands**” has the meaning given in Schedule 35 – Lands.
- 1.640 “**Operational Term Limit**” has the meaning given in Section 57.4(a)(ii) (*Maximum Liability*) of the Project Agreement.
- 1.641 “**Operations Control Centre**” or “**OCC**” has the meaning given in the Output Specifications.
- 1.642 “**Operations Noise and Vibration Management Plan**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.643 “**Operations Plan**” has the meaning given in the Output Specifications.
- 1.644 “**Operations Service Plan**” has the meaning given in the Output Specifications.
- 1.645 “**Operations Services**” has the meaning given in the Output Specifications.
- 1.646 “**Operator**” means any person directly engaged by Project Co or the Service Provider to carry out the Operations Services and any substitute person engaged by Project Co or the Service Provider to perform such activities and services as may be permitted by the Project Agreement.
- 1.647 “**Optional Lands**” means the lands owned or to be acquired by Metrolinx or lands in respect of which Metrolinx has acquired or will acquire certain rights, all as set out in the table in Part B of Schedule 35 – Lands, and as indicated by “Optional Land” in the “Restriction / Requirement” column.
- 1.648 “**Order**” has the meaning given in Schedule 30 – Insurance Trust Agreement.
- 1.649 “**Origin Terminus**” has the meaning given in the Output Specifications.

- 1.650 “**Other Contractor**” means an Additional Contractor or a Third Party Contractor.
- 1.651 “**Other Reinstatement Work**” has the meaning given in Section 30.1(b)(vi) (*Protection of Works and Property and Reinstatement Work*) of the Project Agreement.
- 1.652 “**Other Works**” means the Additional Works and the Third Party Works.
- 1.653 “**Output Specifications**” means Schedule 15 – Output Specifications and includes Schedule 15-0 – General, Schedule 15-1 – Project Introduction, Schedule 15-2 – Operation and Maintenance Requirements and Schedule 15-3 – Design and Construction Requirements.
- 1.654 “**Overhead**” has the meaning given in Schedule 22 – Variation Procedure.
- 1.655 “**Overhead and Profit**” has the meaning given in Schedule 22 – Variation Procedure.
- 1.656 “**Overhead Contact System**” or “**OCS**” has the meaning given in the Output Specifications.
- 1.657 “**Ownership**” has the meaning given in Schedule 37 – Intellectual Property.
- 1.658 “**PA**” has the meaning given in the Output Specifications.
- 1.659 “**PA Parties**” or “**PA Party**” has the meaning given in Schedule 6 – Independent Certifier Agreement.
- 1.660 “**PAI**” has the meaning given in the Output Specifications.
- 1.661 “**Painshare Adjustment**” has the meaning given in Schedule 8 – Energy Matters.
- 1.662 “**Pandemic and Epidemic Change in Law**” means any Change in Law that:
- (a) came into effect after the COVID-19 Change in Law Reference Date, including any changes to the COVID-19 Emergency Public Health Physical Distancing Requirements;
 - (b) is directly the result of and is directly related to the occurrence, increase or decrease in severity, or ending of a pandemic (including COVID-19) or epidemic;
 - (c) directly affects (i) the performance of the Works or the Project Co Services, as applicable, or (ii) the cost to Project Co of performing the Works or the Project Co Services, as applicable; and
 - (d) is not a Works Change in Law or a Relevant Change in Law.
- For the purposes of this Project Agreement, this definition shall:
- (e) include:

- (i) any new, amendment or other modification to or repeal or replacement of any Applicable Law that satisfies the foregoing requirements of Sections (a) to (d) (inclusive); and
 - (ii) any Existing COVID-19 Laws Extension from and after the Anticipated COVID-19 Impact End Date; and
 - (f) apply only to a Change in Law in respect of Applicable Laws in the Province of Ontario and the laws of Canada applicable therein that satisfies such requirements.
- 1.663 **“Pandemic and Epidemic Change in Law Compensation”** has the meaning given in Section 38.4(a) (*Pandemic and Epidemic Changes in Law*) of the Project Agreement.
- 1.664 **“Pandemic and Epidemic Response and Mitigation Plan”** means the pandemic and epidemic response and mitigation plan included in the Project Co Proposal Extracts.
- 1.665 **“Pandemic and Epidemic Supply Chain Delay”** means a delay in the performance of the Works or Project Co Services directly arising from a delay in the delivery of material or supplies in support of the Construction Activities or Project Co Services, as applicable, to the extent such delay in delivery:
- (a) directly results from the occurrence of:
 - (i) a pandemic or epidemic other than the COVID-19 pandemic; or
 - (ii) a material increase in the spread of COVID-19 after the COVID-19 Change in Law Reference Date,which directly and adversely affects the delivery of such materials or supplies by a Supplier or Subcontractor; and
 - (b) prevents, delays or otherwise interferes with the performance of the Construction Activities or the Project Co Services, as applicable.
- 1.666 **“Party”** means either Contracting Authority or Project Co, and **“Parties”** means, collectively, Contracting Authority and Project Co, but, for greater certainty, such definitions do not include IO or MOI.
- 1.667 **“Party Representative”** and **“Party Representatives”** have the meanings given in Schedule 27 – Dispute Resolution Procedure.
- 1.668 **“Passenger”** means a natural person using any segment of the Ontario Line Subway.
- 1.669 **“Passenger Interface Provider”** has the meaning given in the Output Specifications.
- 1.670 **“Patents”** includes all national (including the United States and Canada), regional and multinational statutory invention registrations, patents, patent registrations, patent applications, provisional patent applications, industrial designs, industrial models,

including all reissues, divisions, continuations, continuations-in-part, extensions and re-examinations, and all rights therein provided by multinational treaties or conventions and all improvements to the inventions disclosed in each such registration, patent or application.

- 1.671 “**Payment Adjustment Report**” has the meaning given in Section 34.6(i)(ii) (*Invoicing and Payment Arrangements*) of the Project Agreement.
- 1.672 “**Payment Certifier**” means the professional architect of record or engineer of record for the Project.
- 1.673 “**Payment Commencement Date**” means the date that is two (2) Business Days after the Substantial Completion Date.
- 1.674 “**Payment Compensation Amount**” means, with respect to an amount and a specified period of time, such amount multiplied by (i) such period of time in days divided by the actual number of days in the current year multiplied by (ii) the rate of interest per annum in effect on each such day equal to [REDACTED]% over the rate of interest per annum quoted by [REDACTED] from time to time as its reference rate for Canadian Dollar demand loans made to its commercial customers in Canada and which it refers to as its “prime rate”, as such rate may be changed by it from time to time.
- 1.675 “**Payment Mechanism**” means the payment mechanism set out in Schedule 20 – Payment Mechanism.
- 1.676 “**Payment Periods**” means the payment periods of one calendar month (as adjusted in this definition) established by Contracting Authority for each Contract Year, provided that the first Payment Period in the first Contract Year and the last Payment Period in the last Contract Year may be a shorter period as a result of the timing of the Payment Commencement Date and the Expiry Date within the Payment Periods otherwise established in accordance with the foregoing.
- 1.677 “**Peak Period**” has the meaning given in the Output Specifications.
- 1.678 “**Performance Audit**” has the meaning given in Section 31.1(a) (*Performance Audits*) of the Project Agreement.
- 1.679 “**Performance Bond**” means, collectively, the Performance Bond and the Multiple Obligee Rider to Performance Bond in the form attached as Appendix B to Schedule 25 – Insurance and Performance Security Requirements.
- 1.680 “**Performance Criteria**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.681 “**Performance Dashboard**” has the meaning given in the Output Specifications.
- 1.682 “**Performance Failure**” has the meaning given in Schedule 20 – Payment Mechanism.

- 1.683 “**Performance Failure Deductions**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.684 “**Performance Guarantees**” means the guarantees to Project Co in respect of the Construction Contract provided by the Construction Guarantors and the Service Contract provided by the Service Guarantors, respectively.
- 1.685 “**Performance Information**” has the meaning given in the Output Specifications.
- 1.686 “**Performance Monitoring Program**” means the monitoring of performance by Project Co through the Non-Conformance reporting process detailed in Schedule 11 – Quality Management and the Monthly Performance Monitoring Reports prepared and submitted in accordance with Schedule 11 – Quality Management.
- 1.687 “**Performance Reporting System**” has the meaning given in the Output Specifications.
- 1.688 “**Performance Security**” has the meaning given in Schedule 25 – Insurance and Performance Security Requirements.
- 1.689 “**Performance Standards Regulation**” means Ontario Regulation 260/08 made under the *Professional Engineers Act* (Ontario).
- 1.690 “**Period**” has the meaning given in the Output Specifications.
- 1.691 “**Permit to Take Water**” or “**PTTW**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.692 “**Permits, Licences, Approvals and Agreements**” has the meaning given in Schedule 34 – Permits, Licences, Approvals and Agreements.
- 1.693 “**Permitted Borrowing**” means:
- (a) any advance to Project Co under the Lending Agreements;
 - (b) any additional financing approved by Contracting Authority in accordance with Section 1.9 (*Financing*) of Schedule 22 – Variation Procedure to the Project Agreement; and
 - (c) any amendment, waiver or exercise of a right under the Lending Agreements made during the Step-In Period that does not increase Contracting Authority’s liabilities under the Project Agreement whether actual or contingent, present or future, known or unknown.
- 1.694 “**Permitted Rail Corridor Access**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.

- 1.695 “**Personal Information**” means all information about an identified or identifiable individual that is Handled (directly or indirectly) by Project Co or any Project Co Party on behalf of Contracting Authority as part of the Project Operations.
- 1.696 “**Personal Information Protection and Electronic Documents Act (Canada)**” means the *Personal Information Protection and Electronic Documents Act*, S.C. 2000, c. 5, as amended from time to time.
- 1.697 “**Phase 1 ESA Reports**” means the Phase 1 Environmental Site Assessment reports set out in Appendix B to Schedule 17 – Environmental Obligations.
- 1.698 “**Physical Damage**” means damage deliberately caused to the structure or physical integrity of any component of the Ontario Line Subway that requires repair or replacement, and includes breakage and cracking, indentations, impacts to a structure that disable the functionality of a component, dislocation of a component, or other similar forms of harm that would commonly be understood as physical damage.
- 1.699 “**Planned Condition Assessments**” has the meaning given in the Output Specifications.
- 1.700 “**Planned Railway Operations Changes**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.701 “**Platform Closure**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.702 “**Police Service**” means the Royal Canadian Mounted Police, the Ontario Provincial Police, the Toronto Police Service and any other law enforcement agency with jurisdiction pursuant to Applicable Law, as applicable.
- 1.703 “**Portal**” has the meaning given in the Output Specifications.
- 1.704 “**Post-CC Utility Agreement Amendment**” means any amendment or modification to the Form of Utility Agreement (or to the form of Utility Agreement otherwise agreed between Project Co and the subject Utility Company) unilaterally initiated by the subject Utility Company (other than minor or administrative revisions or revisions to complete any schedules to such Form of Utility Agreement) related to the specific work to be performed under such agreement, such amendment or modification not having been caused by or contributed to by Project Co or a Project Co Party.
- 1.705 “**Post-CC Utility Agreement Amendment Notice**” has the meaning given in Section 9.15(d)(i) (*Utility Agreements*) of the Project Agreement.
- 1.706 “**Pre-Existing Environmental Site Conditions**” means the environmental condition of the Lands as set out in the Environmental Reports.
- 1.707 “**Private Capital Invested**” means as at any date the total amount of Debt Financing advanced to Project Co and/or certified by the Lenders’ Consultant and authorized for release to Project Co by a collateral trustee (or an equivalent entity) and Equity Capital

advanced to Project Co in cash on or prior to the relevant date. Amounts advanced to Project Co or certified by the Lenders' Consultant to be deposited into a reserve or retention account, construction delay account (including in respect of liquidated damages) or any similar restricted account or an investment instrument shall not be considered Private Capital Invested. Amounts certified by the Lenders' Consultant and authorized for release to Project Co from a retention account, construction delay account or any similar restricted account, including interest from an investment instrument, shall be considered Private Capital Invested.

- 1.708 “**Private Utility Work**” means Utility Work which is not City Utility Work.
- 1.709 “**Proceeding at Risk Matter**” has the meaning given in Section 11.6(a)(ii) (*Proceeding at Risk*) of the Project Agreement.
- 1.710 “**Proceeding at Risk Notice**” has the meaning given in Section 11.6(a) (*Proceeding at Risk*) of the Project Agreement.
- 1.711 “**Product**” or “**Products**” means material, machinery, equipment and fixtures forming the New City Infrastructure, the New TTC Infrastructure, or the New Railway Company Infrastructure, as applicable, but does not include machinery and equipment used to prepare, fabricate, convey or erect the New City Infrastructure, or the New Railway Company Infrastructure, as applicable, which is referred to as construction machinery and equipment.
- 1.712 “**Professional Engineer**” means a professional engineer licensed by Professional Engineers Ontario to practice in the Province of Ontario.
- 1.713 “**Progress Works Schedule**” has the meaning given in Schedule 12 – Works Schedule Requirements.
- 1.714 “**Prohibited Act**” has the meaning given in Section 60.1(a) (*Prohibited Acts – Definition*) of the Project Agreement.
- 1.715 “**Project**” has the meaning given in the recitals to the Project Agreement.
- 1.716 “**Project Agreement**” has the meaning given in the recitals to the Project Agreement.
- 1.717 “**Project Agreement Arbitration**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.
- 1.718 “**Project Co**” means [REDACTED], and any successor or permitted assign.
- 1.719 “**Project Co Capped Cost**” means Vandalism Repair Costs which result from an Event of Vandalism that is denoted as “Project Co Capped Cost” under the column entitled “Cost Risk” in Table 2.3.6.3-1 (*Vandalism and Graffiti Matrix During Operational Term*) of the Output Specifications.

- 1.720 “**Project Co Caused Contamination**” has the meaning given in Section 16.3(a)(vi) (*Contamination*) of the Project Agreement.
- 1.721 “**Project Co Caused Differing Major Existing Infrastructure Condition**” has the meaning given in Section 16.5(a)(iii) (*Major Existing Infrastructure Condition*) of the Project Agreement.
- 1.722 “**Project Co Commissioning Plan**” has the meaning given in Schedule 14 – Commissioning.
- 1.723 “**Project Co Communications Protocol**” has the meaning given in Schedule 18 – Communication and Public Engagement Protocol.
- 1.724 “**Project Co Construction Communications Plan**” has the meaning given in Schedule 18 – Communication and Public Engagement Protocol.
- 1.725 “**Project Co Contamination**” has the meaning given in Section 16.3(d) (*Contamination*) of the Project Agreement.
- 1.726 “**Project Co Deviation Report**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.727 “**Project Co Event of Default**” has the meaning given in Section 45.1(a) (*Project Co Events of Default*) of the Project Agreement.
- 1.728 “**Project Co Group**” means Project Co together with any person or group of persons, who, either individually or collectively, have Direct or Indirect Power or Control of Project Co.
- 1.729 “**Project Co Independent Safety Assessor**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- 1.730 “**Project Co Infrastructure**” means the infrastructure of the passenger subway or metro system in respect of the Project, including the Guideway, the Facilities, the Civil Structure, the Systems, the Vehicles, and the OMSF, and all associated and/or related data, records, drawings, plans, reports and systems, all as described and specified in the Output Specifications.
- 1.731 “**Project Co Intellectual Property**” has the meaning given in Schedule 37 – Intellectual Property.
- 1.732 “**Project Co Items of Interest or Value**” has the meaning given in Section 16.4(b) (*Items of Geological, Historical Heritage or Archaeological Interest or Value*) of the Project Agreement.
- 1.733 “**Project Co Known Contamination**” has the meaning given in Section 16.3(a) (*Contamination*) of the Project Agreement.

- 1.734 “**Project Co Land Inspections**” has the meaning given in Section 14.9(a) (*Inspection and Investigation of the Lands*) of the Project Agreement.
- 1.735 “**Project Co Off-Site Migrating Contamination**” has the meaning given in Section 16.3(c) (*Contamination*) of the Project Agreement.
- 1.736 “**Project Co On-Site Contamination**” has the meaning given in Section 16.3(b) (*Contamination*) of the Project Agreement.
- 1.737 “**Project Co Party**” means:
- (a) the Construction Contractor;
 - (b) the Service Provider;
 - (c) any person engaged by Project Co, and/or any of the Contractors from time to time as may be permitted by the Project Agreement to procure or manage the provision of the Project Operations (or any of them); and
 - (d) in respect of each of the above, their subcontractors of any tier, agents, employees, officers and directors,
- and “**Project Co Parties**” shall be construed accordingly.
- 1.738 “**Project Co Permits, Licences, Approvals and Agreements**” has the meaning given in Schedule 34 – Permits, Licences, Approvals and Agreements.
- 1.739 “**Project Co Proposal Extracts**” has the meaning given in Schedule 13 – Project Co Proposal Extracts.
- 1.740 “**Project Co Quality Audit Report**” has the meaning given in Schedule 11 – Quality Management.
- 1.741 “**Project Co Representative**” means the person designated as such by Project Co on or prior to Commercial Close and any permitted replacement.
- 1.742 “**Project Co Safety Management System**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- 1.743 “**Project Co Services**” means the works and services to be performed by Project Co during and related to the Operational Term, including the provision of:
- (a) the Maintenance Services; and
 - (b) the Operations Services,

as described the Output Specifications, as such works and services may from time to time be varied in accordance with the Project Agreement, but specifically excluding Governmental Activities.

- 1.744 “**Project Co Services Quality Management Plan**” or “**PSQMP**” has the meaning given in Schedule 11 – Quality Management.
- 1.745 “**Project Co Services Requirements**” means Schedule 15-2 – Operation and Maintenance Requirements.
- 1.746 “**Project Co Species-at-Risk**” has the meaning given in Section 16.7(a) (*Species-at-Risk*) of the Project Agreement.
- 1.747 “**Project Co Utility Infrastructure**” has the meaning given in Section 16.6(a) (*Mislocated or Unknown Utility Infrastructure*) of the Project Agreement.
- 1.748 “**Project Co Variation Notice**” has the meaning given in Schedule 22 – Variation Procedure.
- 1.749 “**Project Data**” has the meaning given in Schedule 37 – Intellectual Property.
- 1.750 “**Project Documents**” means the Ancillary Documents and the Lending Agreements.
- 1.751 “**Project GBR**” has the meaning given in Schedule 45 – Geotechnical Baseline Report.
- 1.752 “**Project Intellectual Property**” has the meaning given in Schedule 37 – Intellectual Property.
- 1.753 “**Project Know-How**” means all ideas, concepts, alternatives, methodologies, processes, recommendations and suggestions developed by or through Project Co or any Project Co Party and revealed to or discovered by Contracting Authority, whether before or after Commercial Close, which may be connected in any way to:
- (a) the Works, including the design and construction of the Ontario Line Subway and the New Third Party Infrastructure;
 - (b) the Project Co Services, including the operations, maintenance, rehabilitation, improvement and testing of the Ontario Line Subway;
 - (c) any other Project Operations; or
 - (d) the Project Agreement.
- 1.754 “**Project Office**” means the office described in Section 3.2.7 (*Project Office*) of the Output Specifications.
- 1.755 “**Project Operations**” means:

- (a) the performance of the Works;
 - (b) the performance of the Project Co Services; and
 - (c) the performance of all other obligations of Project Co under the Project Agreement.
- 1.756 “**Project Scheduler**” means the manager responsible for developing and maintaining the Project Works Schedules and related reports.
- 1.757 “**Project Term**” means the period commencing on Commercial Close and expiring at midnight on the Termination Date.
- 1.758 “**Project Website and Social Media Calendar**” has the meaning given in Schedule 18 – Communication and Public Engagement Protocol.
- 1.759 “**Project Works Schedule**” has the meaning given in Schedule 12 – Works Schedule Requirements.
- 1.760 “**Project Zone of Influence**” has the meaning given in the Output Specifications.
- 1.761 “**Property Access Area**” has the meaning given in Schedule 36 – Property Access Matters.
- 1.762 “**Property Access Closure**” has the meaning given in Schedule 36 – Property Access Matters.
- 1.763 “**Property Access Closure Adjustment**” or “**PACA**” has the meaning given in Schedule 36 – Property Access Matters.
- 1.764 “**Property Access Closure Target Letter**” has the meaning given in Schedule 36 – Property Access Matters.
- 1.765 “**Proponent**” has the meaning given in the Request for Proposals.
- 1.766 “**Proposal Fee**” has the meaning given in the Request for Proposals.
- 1.767 “**Proposal Part**” means a part of Project Co’s proposal submitted in response to the RFP, including any revisions to such part of the submission that were agreed upon by Contracting Authority and Project Co as part of the RFP process.
- 1.768 “**Proposed Works Schedule**” has the meaning given in Schedule 12 – Works Schedule Requirements.
- 1.769 “**Protest Action**” means any civil disobedience, protest action, riot, civil commotion or demonstration, including any action taken or threatened to be taken by any person or persons protesting or demonstrating against the carrying out of any part of the Project Operations, or against the construction or operation of rail transit systems in general, occurring or continuing after Financial Close, but excluding any labour dispute or any other

strike, lockout or industrial relations dispute or job action by, of or against workers carrying out any part of the Project Operations.

- 1.770 “**Protesters**” has the meaning given in Section 9.7(a) (*Protest and Trespass*) of the Project Agreement.
- 1.771 “**Province**” means His Majesty the King in right of Ontario.
- 1.772 “**Province Person Third Party Beneficiaries**” has the meaning given in Section 64.17(a)(i) (*Province Persons as Third Party Beneficiaries*) of the Project Agreement.
- 1.773 “**Province Persons**” means the Contracting Authority Parties and, while attending in their official capacity at the Lands, Ontario Line Subway or New Third Party Infrastructure, the following:
- (a) any person to which authority is designated pursuant to Section 63.1 (*Right to Designate*) of the Project Agreement and any agents and employees of any such person;
 - (b) contractors of Contracting Authority (not including South Civil Project Co and any South Civil Project Co Party, and North Civil Project Co and any North Civil Project Co Party) or of any person to which authority is delegated pursuant to Section 63.1(*Right to Designate*) of the Project Agreement and subcontractors of any tier and its or their directors, officers and employees,
- but excluding Project Co and any Project Co Party.
- 1.774 “**Public Boulevard**” has the meaning given in the Output Specifications.
- 1.775 “**Public Claim**” has the meaning given in Section 37.5(a) (*Claims Management*) of the Project Agreement.
- 1.776 “**Public Transit Specific Change in Law**” means any Change in Law which principally affects or principally relates only to the design, construction, maintenance, operation or rehabilitation of public transit systems.
- 1.777 “**PVIS**” has the meaning given in the Output Specifications.
- 1.778 “**Qualifying Tender**” has the meaning given in Schedule 23 – Compensation on Termination.
- 1.779 “**Quality Audit**” has the meaning given in Schedule 11 – Quality Management.
- 1.780 “**Quality Audit Program Plan**” has the meaning given in Schedule 11 – Quality Management.
- 1.781 “**Quality Director**” has the meaning given in Schedule 11 – Quality Management.

- 1.782 “**Quality Documentation**” has the meaning given in Schedule 11 – Quality Management.
- 1.783 “**Quality Management Plan**” has the meaning given in Schedule 11 – Quality Management.
- 1.784 “**Quality Management System**” has the meaning given in Schedule 11 – Quality Management.
- 1.785 “**Quality Manuals**” has the meaning given in Schedule 11 – Quality Management.
- 1.786 “**Quality Plans**” means (i) the Quality Manual; (ii) the Design Quality Management Plan; (iii) the Construction Quality Management Plan; (iv) the Project Co Services Quality Management Plan; (v) the Corrective Actions Plan; (vi) the Quality Audit Program Plan and Quality Audit Program Plan updates; and (vii) the list of Inspection and Test Plans and production timelines for submittal required by Appendix C (*Construction Quality Management Plan*) to Schedule 11 – Quality Management.
- 1.787 “**Quarterly Performance Report**” has the meaning given in the Output Specifications.
- 1.788 “**Rail Corridor**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.789 “**Rail Corridor Access**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.790 “**Rail Corridor Access Permit**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.791 “**Rail Corridor Access Plan**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.792 “**Railway Approvals**” means all consents, approvals, permissions and agreements, and amendments thereto, required to be obtained from a Railway Company pursuant to a Railway Order or Applicable Laws, for the carrying out of Works on land or improvements of a Railway Company, but does not include any Railway Orders.
- 1.793 “**Railway Company**” means CP Rail and any other railway company that owns a railway, any part of which is on any part of the Lands during the Project Term.
- 1.794 “**Railway Company Owner**” means CP Rail and any other railway company that owns a railway, any part of which is on any part of the Lands during the Project Term.
- 1.795 “**Railway Company Owner Jointly Developed Materials**” has the meaning given in Section 51.4(a)(iv) (*Jointly Developed Materials*) of the Project Agreement.
- 1.796 “**Railway Flag Person**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.

- 1.797 “**Railway Operations**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.798 “**Railway Order**” means any order of the Canadian Transportation Agency:
- (a) granted in favour of Contracting Authority allowing or providing for:
 - (i) infrastructure comprising or to comprise Ontario Line Subway or New Third Party Infrastructure to be located upon and across land or improvements of a Railway Company; and
 - (ii) the construction, maintenance and use of such infrastructure upon and across such land or improvements; or
 - (b) for the carrying out of any Works on land or improvements of a Railway Company; and all amendments thereto.
- 1.799 “**RAMS**” has the meaning given in the Output Specifications.
- 1.800 “**Receiving Party**” has the meaning given in the definition of Confidential Information.
- 1.801 “**Record Drawings**” means signed and sealed drawings prepared by the inspecting Professional Engineer, using as-built information, after verifying in detail the actual conditions of the completed project or applicable components as they are constructed, including any changes that were initiated due to Site Conditions or other causes and where all such changes are clearly identified through redlines or by means of any other format agreed to by Contracting Authority.
- 1.802 “**Records**” has the meaning given in the Output Specifications.
- 1.803 “**Recoverable Tax**” has the meaning given in Section 35.3(c) (*Changes in Recoverability of Tax Credits*) of the Project Agreement.
- 1.804 “**Recovery Amount**” has the meaning given in Section 56.3(g) (*Conduct of Claims*) of the Project Agreement.
- 1.805 “**Recovery Works Schedule**” has the meaning given in Schedule 12 – Works Schedule Requirements.
- 1.806 “**Rectification**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.807 “**Rectification Time**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.808 “**Reference Plan**” has the meaning given in the Output Specifications.
- 1.809 “**Refinancing**” has the meaning given in Schedule 28 – Refinancing.

- 1.810 “**Reimbursement Event**” has the meaning given in Section 32.5(a) (*Reimbursement Events*) of the Project Agreement.
- 1.811 “**Reinstatement Plan**” has the meaning given in Section 30.2(a) (*Reinstatement Plan*) of the Project Agreement.
- 1.812 “**Reinstatement Works**” has the meaning given in Section 30.1(b)(vi) (*Protection of Works and Property and Reinstatement Work*) of the Project Agreement.
- 1.813 “**Relevant Change in Law**” means a Discriminatory Change in Law or a Public Transit Specific Change in Law.
- 1.814 “**Relevant Conviction**” means a charge or conviction, at any time within the previous six (6) years, of any offense: (i) of moral turpitude in Canada or elsewhere; (ii) for which records exist under the *Criminal Records Act*; or (iii) otherwise designated as a Relevant Conviction by Contracting Authority from time to time, and that conviction remains in effect at that time and is one for which a pardon has not been granted.
- 1.815 “**Relevant Entity**” has the meaning given in Section 59.4(i) (*Changes in Ownership and Control*) of the Project Agreement.
- 1.816 “**Relevant Insurance**” has the meaning given in Schedule 25 – Insurance and Performance Security Requirements.
- 1.817 “**Relief Event**” has the meaning given in Section 43.1(a) (*Relief Events – Definition*) of the Project Agreement.
- 1.818 “**Remaining Service Life**” has the meaning given in the Output Specifications.
- 1.819 “**Remedial Period**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.820 “**Representative Construction Noise and Vibration Sensitive Receptor**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.821 “**Representative Operations Noise and Vibration Sensitive Receptor**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.822 “**Request for Proposals**” or “**RFP**” means the request for proposals issued in respect of the Project on December 14, 2020, as amended from time to time.
- 1.823 “**Request for Payment Approval**” has the meaning given in Section 9.9A(d) (*Adjacent Development Cash Allowance*) of the Project Agreement.
- 1.824 “**Requirements Management Plan**” has the meaning given in the Output Specifications.
- 1.825 “**Response**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.826 “**Response Time**” has the meaning given in Schedule 20 – Payment Mechanism.

- 1.827 “**Restricted Person**” means any person who, or any member of a group of persons acting together, any one of which:
- (a) (i) is subject to any economic or political sanctions imposed by Canada or Ontario, or (ii) has, directly or indirectly, its principal or controlling office in a country that is subject to any economic or political sanctions imposed by Canada or Ontario;
 - (b) has as its primary business the illegal manufacture, sale, distribution or promotion of narcotics substances or arms, or is or has been involved in terrorism;
 - (c) (i) is subject to a final order (including being subject to conditions or undertakings prescribed by the order) issued under Part IV.1 of the Investment Canada Act (Investments Injurious to National Security) that would prevent such person from undertaking the Project in whole or in part in a manner which Contracting Authority considers unacceptable in its sole discretion or (ii) is currently, or could become, subject to a review of an investment by a non-Canadian under Part IV.1 of the Investment Canada Act (Investments Injurious to National Security) that could result in an order described in (i) being issued (as determined by Contracting Authority in its sole discretion);
 - (d) in the case of an individual, (i) he or she has been convicted of any indictable offence less than five (5) years prior to the date at which the consideration of whether such individual is a “Restricted Person” is made hereunder, whether or not such person received a custodial sentence; or (ii) he or she has been sentenced to a custodial sentence, other than a suspended sentence, for any regulatory offence other than under the *Highway Traffic Act* (Ontario) or corresponding legislation in any other jurisdiction less than five (5) years prior to the date at which the consideration of whether such individual is a “Restricted Person” is made hereunder;
 - (e) in the case of a person other than an individual, (i) it or any of the members of its (or its general partner’s) board of directors or its senior executive managers has been convicted of any indictable offence less than five (5) years prior to the date at which the consideration of whether such person is a “Restricted Person” is made hereunder, whether or not such person received a custodial sentence; or (ii) any of the members of its (or its general partner’s) board of directors or its senior executive managers has been sentenced to a custodial sentence, other than a suspended sentence, for any regulatory offence other than under *the Highway Traffic Act* (Ontario) or corresponding legislation in any other jurisdiction less than five (5) years prior to the date at which the consideration of whether such person is a “Restricted Person” is made hereunder;
 - (f) has as its primary business the acquisition of distressed assets or investments in companies or organizations which are or are believed to be insolvent or in a financial standstill situation or potentially insolvent;

- (g) is subject to a material claim of Contracting Authority under any proceedings (including regulatory proceedings) which have been concluded or are pending at the time at which the consideration of whether such person is a “Restricted Person” is made hereunder, and which (in respect of any such pending claim, if it were to be successful) would, in Contracting Authority’s view, in either case, be reasonably likely materially to affect the ability of Project Co to perform its obligations under the Project Agreement; or
- (h) has a material interest in the production of tobacco products.
- 1.828 “**Revenue Service**” has the meaning given in the Output Specifications.
- 1.829 “**Revenue Service Demonstration**” has the meaning given in Schedule 14 – Commissioning.
- 1.830 “**Revenue Service Hours**” has the meaning given in the Output Specifications.
- 1.831 “**Review Procedure**” means the procedure set out in Schedule 10 – Review Procedure.
- 1.832 “**Review Procedure Activities Register**” means a register of all activities associated with the implementation of Schedule 10 – Review Procedure of the Project Agreement during the Project Term, including the submission dates for all Submittals and the time periods required to review such Submittals in accordance with, as applicable, Section 3.2 (*General Requirements For Works Submittals*) of Part A of Schedule 10 – Review Procedure and Section 2.2 (*General Requirements For Service Submittals*) of Part B of Schedule 10 – Review Procedure.
- 1.833 “**Reviewed As Noted – Major Issues**” has the meaning given in Section 4.2(c) (*Comments*) of Part A or Section 3.2(c) (*Comments*) of Part B, as applicable, of Schedule 10 – Review Procedure.
- 1.834 “**Reviewed As Noted – Minor Issues**” has the meaning given in Section 4.2(b) (*Comments*) of Part A or Section 3.2(b) (*Comments*) of Part B, as applicable, of Schedule 10 – Review Procedure.
- 1.835 “**Revised Ontario Line Subway Condition Report**” has the meaning given in Schedule 24 – Expiry Transition Procedure.
- 1.836 “**Road Vehicles**” has the meaning given in the Output Specifications.
- 1.837 “**S&TCS**” has the meaning given in the Output Specifications.
- 1.838 “**Safety Improvement Plan**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- 1.839 “**Safety Work Plan**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.

- 1.840 “**Saturday Late Evening Period**” means the Period for Saturday Late Evening as described in the Output Specifications.
- 1.841 “**SCADA**” has the meaning given in the Output Specifications.
- 1.842 “**Schedule**” means a schedule to the Project Agreement.
- 1.843 “**Scheduled Base Trips**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.844 “**Scheduled Headway**” has the meaning given in the Output Specifications.
- 1.845 “**Scheduled Final Completion Date**” means [REDACTED].
- 1.846 “**Scheduled First Milestone Payment Completion Date**” means [REDACTED].
- 1.847 “**Scheduled Fourth Milestone Payment Completion Date**” means [REDACTED].
- 1.848 “**Scheduled Milestone Payment Completion Date**” means the Scheduled First Milestone Payment Completion Date, the Scheduled Second Milestone Payment Completion Date, the Scheduled Third Milestone Payment Completion Date or the Scheduled Fourth Milestone Payment Completion Date, as applicable, and the term “**Scheduled Milestone Payment Completion Dates**” means each of the Scheduled First Milestone Payment Completion Date, the Scheduled Second Milestone Payment Completion Date, the Scheduled Third Milestone Payment Completion Date and the Scheduled Fourth Milestone Payment Completion Date.
- 1.849 “**Scheduled Second Milestone Payment Completion Date**” means [REDACTED].
- 1.850 “**Scheduled Special Trips**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.851 “**Scheduled Station Hours**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.852 “**Scheduled Substantial Completion Date**” means [REDACTED], as such date may be amended pursuant to Section 40 (*Delay Events*) of the Project Agreement.
- 1.853 “**Scheduled Third Milestone Payment Completion Date**” means [REDACTED].
- 1.854 “**Scheduled Trips**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.855 “**Scheduler**” means Project Co’s schedule specialist who is responsible to create and maintain the Project Works Schedules.
- 1.856 “**Second Milestone Payment**” means \$[REDACTED].
- 1.857 “**Second Milestone Payment Completion Date**” has the meaning given in Section 34A(b)(v)(A) (*Certification of Milestone Payments*) of the Project Agreement.
- 1.858 “**Security**” has the meaning given in Schedule 4 – Lenders’ Direct Agreement.

- 1.859 “**Security Documents**” has the meaning given in Schedule 4 – Lenders’ Direct Agreement.
- 1.860 “**Security Plan**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- 1.861 “**Security Provider**” has the meaning given in the Output Specifications.
- 1.862 “**Security Risk Assessment**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- 1.863 “**Senior Debt Amount**” means, at any time, the then outstanding principal amount of debt funded under the terms of the Lending Agreements by the Senior Lenders to Project Co, together with all interest accrued thereon at that time, provided that at any time where any portion of the interest payable to the Senior Lenders is subject to the Hedging Agreement(s), accrued interest in respect of such portion of the interest payable to the Senior Lenders shall be calculated based on the fixed rate payable by Project Co under the Hedging Agreement(s) without regard to whether such fixed rate is payable directly to a Senior Lender or to the Hedge Provider(s) under the Hedging Agreement(s) and all references to interest payable to the Senior Lenders under the Project Agreement shall be construed accordingly. For greater certainty, the Senior Debt Amount is only to the extent applied for the purposes of the Project and excludes the Senior Debt Makewhole.
- 1.864 “**Senior Debt Makewhole**” means, (i) at any time, any amount (other than the Senior Debt Amount) then due and payable to the Senior Lenders under the Lending Agreements with respect to the Senior Debt Amount, including any “makewhole” payments, breakage costs (less any breakage benefits) and all other fees, costs and expenses reasonably and properly incurred which Project Co is obligated to then pay to the Senior Lenders pursuant to the Lending Agreements with respect to the Senior Debt Amount; and (ii) any swap breakage costs (less breakage benefits), if any, then due and payable to the Hedge Provider(s) under the Hedging Agreement(s) entered into with respect to the Senior Debt Amount.
- 1.865 “**Senior Debt Service Amount**” means, for any period, the scheduled payments of principal, interest and commitment fees payable by Project Co or any Project Co Party to the Senior Lenders with respect to the Senior Debt Amount under the Lending Agreements, provided that at any time where any portion of the interest payable to the Senior Lenders under the Lending Agreements is subject to the Hedging Agreement(s), interest payable on account of such portion of interest shall be calculated based on the fixed rate payable by Project Co as specified under the Hedging Agreement(s), whether the fixed amounts with respect to such fixed rate are payable to a Senior Lender or the Hedge Provider(s) and all references to interest payable to the Senior Lenders under this Agreement shall be construed accordingly.
- 1.866 “**Senior Lenders**” means, at any time, the financial institutions from time to time listed as Lenders in Schedule A to the Common Terms and Intercreditor Agreement and the registered or beneficial holders from time to time of the bonds issued by Project Co pursuant to the Trust Indenture (as defined in the Common Terms and Intercreditor Agreement) and any supplemental indenture in relation thereto, together with their

successors and permitted assigns, and any additional lenders financing any Refinancing or capital costs of construction of System Extensions which is shown as Senior Debt Amount in the Financial Model at such time. For greater clarity, Senior Lenders excludes:

- (a) the Hedge Provider(s) or any other hedge providers and their respective permitted successors and assigns; and
 - (b) any Affiliate of Project Co, any Project Co Party or any Affiliate of a Project Co Party.
- 1.867 “**Sensitive Information**” means proprietary technical, financial or commercial information which would, if disclosed to a competitor of Project Co or any Project Co Party, give that competitor a competitive advantage over Project Co or such Project Co Party and thereby prejudice the business of Project Co or such Project Co Party.
- 1.868 “**Service Contract**” means the agreement between Project Co and the Service Provider or such other party as shall be approved by Contracting Authority to perform the Project Co Services with respect to the Ontario Line Subway.
- 1.869 “**Service Guarantors**” means [REDACTED] and [REDACTED] and “**Service Guarantor**” means any one of them.
- 1.870 “**Service Payment Adjustment**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.871 “**Service Provider**” means [REDACTED], engaged by Project Co to perform the Project Co Services and any substitute person engaged by Project Co to perform such work and services as may be permitted by the Project Agreement.
- 1.872 “**Service Provider’s Direct Agreement**” means the direct agreement to be entered into amongst Contracting Authority, the Service Provider and the Service Guarantors, in the form set out in Schedule 5-2 – Service Provider’s Direct Agreement.
- 1.873 “**Service Submittals**” has the meaning given in Schedule 10 – Review Procedure.
- 1.874 “**Severe Insurance Market Price Increase**” has the meaning given in Schedule 25 – Insurance and Performance Security Requirements.
- 1.875 “**Severe Market Disruption**” means any occurrence of exceptional circumstances in financial markets in Europe, the United States of America and/or Canada which:
- (a) results in the suspension or cessation of all or substantially all lending activity in national or relevant international capital or interbank markets; and
 - (b) adversely affect access by Project Co to such markets.
- 1.876 “**Shaft**” has the meaning given in the Output Specifications.

- 1.877 “**Side Platform**” has the meaning given in the Output Specifications.
- 1.878 “**Signage and Hoarding Coverage Plan**” has the meaning given in Schedule 18 – Communication and Public Engagement Protocol.
- 1.879 “**Signaling and Train Control System**” has the meaning given in the Output Specifications.
- 1.880 “**Site**” means, at any time and from time to time, that portion of the Lands,
- (a) on which Project Co or any Project Co Party is engaged in any construction or demolition activities or is otherwise engaged in completing the Works;
 - (b) on which any of the Works have been commenced but not completed in their entirety;
 - (c) that are hoarded, cordoned, or otherwise fenced off by Project Co, and any Lands immediately surrounding such hoarding, cordons or fencing; or
 - (d) within the active construction footprint of the Works.
- 1.881 “**Site Acceptance Test**” has the meaning given in Schedule 14 – Commissioning.
- 1.882 “**Site Condition Event**” means the events set out in Sections 40.1(a)(iv), 40.1(a)(v), 40.1(a)(vi), 40.1(a)(vii), 40.1(a)(viii) and 40.1(a)(ix) (*Delay Events – Definition*) of the Project Agreement, and any Variations related to such events (each, a “**Site Condition Event**”).
- 1.883 “**Site Conditions**” means the condition of the Lands and the Existing Infrastructure, including the physical, geophysical, climatic, ecological, environmental, geotechnical and archaeological conditions.
- 1.884 “**Site Integration Test – static (SIT1)**” has the meaning given in Schedule 14 – Commissioning.
- 1.885 “**Site Investigation Plan**” has the meaning given in Section 14.6(b)(iii) (*Additional Lands/Adjustments to Metrolinx Lands Available to Project Co*) of the Project Agreement.
- 1.886 “**Site Investigation Reports**” has the meaning given in Section 14.6(b)(iii) (*Additional Lands/Adjustments to Metrolinx Lands Available to Project Co*) of the Project Agreement.
- 1.887 “**Small Works**” means any works, including facilities and equipment, of a minor nature that are requested by Contracting Authority to be performed having an individual cost or aggregate cost with other linked works, including facilities and equipment, of a minor nature, not exceeding \$[REDACTED] (index linked), or as otherwise agreed from time to time, but excluding any works, including facilities and equipment, which will increase the likelihood of an Availability Failure or Performance Failure, will increase the cost to

Project Co of performing the Project Operations or will materially hinder Project Co in the performance of the Project Co Services.

- 1.888 **“Soil and Excavated Material Management Plan”** has the meaning given in Schedule 17 – Environmental Obligations.
- 1.889 **“SOO”** has the meaning given in the Output Specifications.
- 1.890 **“South Civil Infrastructure Construction Defect”** has the meaning set out in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.891 **“South Civil Infrastructure Section”** has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.892 **“South Civil Infrastructure Section Substantial Completion”** has the meaning set out in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.893 **“South Civil Infrastructure Section Handover”** has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.894 **“South Civil Infrastructure Section Handover Date”** has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.895 **“South Civil Infrastructure Subsection”** has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.896 **“South Civil Infrastructure Subsection Access Date”** has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.897 **“South Civil Infrastructure Technical Specifications”** has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.898 **“South Civil Integration Demerit Points Incurred”** has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.899 **“South Civil Integration Demerit Points Threshold”** has the meaning given to the term “Integration Demerit Points Relief Threshold” in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.900 **“South Civil Integration Dispute Resolution Procedure”** has the meaning given to “Integration Dispute Resolution Procedure” in Schedule 39A – Form of South Civil Interface Agreement.
- 1.901 **“South Civil Interface Agreement”** means the interface agreement entered into among Contracting Authority, Project Co and South Civil Project Co substantially in the form of Schedule 39A – Form of South Civil Interface Agreement.

- 1.902 “**South Civil Project**” means the design, construction, financing and handover of all tunnels, stations and civil works between Exhibition Station and a portal location within the Don Yard.
- 1.903 “**South Civil Project Agreement**” means the contract between the Contracting Authority and South Civil Project Co dated November 8, 2022.
- 1.904 “**South Civil Project Co**” means [REDACTED], [REDACTED], and any successor or permitted assign.
- 1.905 “**South Civil Project Co Party**” means any person engaged by South Civil Project Co in connection with the South Civil Project, and/or any of its contractors, and their subcontractors of any tier, agents, employees, officers and directors, and “**South Project Co Parties**” shall be construed accordingly.
- 1.906 “**South Civil Project Infrastructure**” means the infrastructure that South Civil Project Co designs, constructs, installs, tests, supplies, delivers and commissions pursuant to the South Civil Project Agreement, and hands over to Project Co in accordance with Schedule 42 – South Civil Infrastructure Access and Handover, including any early works infrastructure delivered to South Civil Project Co pursuant to the South Civil Project Agreement.
- 1.907 “**South Civil Project Lands**” means the Lands set out in Table 1.1 (*South Civil Lands*), except the OMSF, of Part B (*Metrolinx Lands*) to Schedule 35 – Lands.
- 1.908 “**South Civil Project Substantial Completion Date**” has the meaning given in Schedule 42 – South Civil Infrastructure Access and Handover.
- 1.909 “**Special Trackwork**” has the meaning given in the Output Specifications.
- 1.910 “**Species-at-Risk**” means any member of a species, subspecies, variety or genetically or geographically distinct population of animal, plant or other organism that is listed in the Species at Risk in Ontario List maintained pursuant to the ESA and any analogous federal list under the *Species at Risk Act* (Canada), and any other species that has been classified as being threatened or endangered under Applicable Law.
- 1.911 “**Species at Risk Act (Canada)**” means the Species at Risk Act, S.C. 2002, c. 29, as amended from time to time.
- 1.912 “**Species at Risk Handover Report**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.913 “**Specified Costs**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.914 “**Spill Prevention and Response Plan**” has the meaning given in Schedule 17 – Environmental Obligations.

- 1.915 “**Stakeholders**” means individuals and organizations with an interest in the Project, including those listed in the Output Specifications, but excluding Contracting Authority.
- 1.916 “**Standard Operating Procedures**” has the meaning given in the Output Specifications.
- 1.917 “**Standards & Guidelines for Conservation of Provincial Heritage Properties**” means the Standards & Guidelines for Conservation of Provincial Heritage Properties issued under the *Ontario Heritage Act* (Ontario) on April 28, 2010, as amended from time to time.
- 1.918 “**Standby Letter of Credit**” means the letter of credit delivered in accordance with Section 9.1(2) (*Identification of the Preferred Proponent and the Letter of Credit*) of the Request for Proposals.
- 1.919 “**Start-Up Meeting**” has the meaning given in Section 20.4(a) (*Start-Up Meeting*) of the Project Agreement.
- 1.920 “**Station**” has the meaning given in the Output Specifications.
- 1.921 “**Station Availability Failure**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.922 “**Station and Tunnel Ventilation Equipment**” has the meaning given in Section 9.19(a) (*Station and Tunnel Ventilation Equipment*) of the Project Agreement.
- 1.923 “**Station Event**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.924 “**Station Availability Failure Hours**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.925 “**Step-In Period**” has the meaning given in Schedule 4 – Lenders’ Direct Agreement.
- 1.926 “**Stormwater Management**” has the meaning given in the Output Specifications.
- 1.927 “**Stormwater Management Plan**” has the meaning given in the Output Specifications.
- 1.928 “**Subcategory of Access**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.929 “**Subcontractor**” means any subcontractor of Project Co engaged by or through Project Co to perform any of the Project Operations, including any of the Contractors, any Supplier or consultant, and any subcontractor of any other subcontractor at any tier.
- 1.930 “**Subcontractor Losses**” has the meaning given in Schedule 23 – Compensation on Termination.
- 1.931 “**Subcontracts**” means the contracts entered into by or between Project Co and any Subcontractor or between any Subcontractor at any tier, including any of the Contractors, and any other Subcontractor at any tier in relation to any aspect of the Project Operations.

- 1.932 “**Submittal**” means a Works Submittal or a Service Submittal.
- 1.933 “**Subsequent Indebtedness Notice**” has the meaning given in Schedule 4 – Lenders’ Direct Agreement.
- 1.934 “**Substantial Completion**” means the point at which (i) the Ontario Line Subway and the New Third Party Infrastructure have been completed in accordance with the Project Agreement; (ii) the Payment Certifier appointed pursuant to Section 15.3(f) (*Construction Act (Ontario)*) of the Project Agreement has certified the substantial performance of the Construction Contract and the related certificate of substantial performance of the Works is published pursuant to section 32(1) of the *Construction Act (Ontario)*; and (iii) all requirements for Substantial Completion described in Schedule 14 – Commissioning, other than in respect of Minor Deficiencies, have been satisfied in respect of the Ontario Line Subway and the New Third Party Infrastructure as a whole.
- 1.935 “**Substantial Completion Certificate**” means the certificate to be issued by the Independent Certifier in accordance with Section 25.3(e) (*Substantial Completion Certificate*) of the Project Agreement.
- 1.936 “**Substantial Completion Countdown Notice**” has the meaning given in Section 25.5(a) (*Substantial Completion Countdown Notice and Substantial Completion Deliverables*) of the Project Agreement.
- 1.937 “**Substantial Completion Date**” means the date on which Substantial Completion is achieved as evidenced by the Substantial Completion Certificate, as such date shall be stated therein.
- 1.938 “**Substantial Completion Deliverables**” has the meaning given in Section 25.5(d) (*Substantial Completion Countdown Notice and Substantial Completion Deliverables*) of the Project Agreement.
- 1.939 “**Substantial Completion Deliverables List**” has the meaning given in Section 25.5(d) (*Substantial Completion Countdown Notice and Substantial Completion Deliverables*) of the Project Agreement.
- 1.940 “**Substantial Completion LD Commencement Date**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.941 “**Substantial Completion Notice**” has the meaning given in Section 25.3(b) (*Substantial Completion Certificate*) of the Project Agreement.
- 1.942 “**Substantial Completion Payment**” means \$[REDACTED].
- 1.943 “**Substantial Completion Payment Date**” means the date that is two (2) Business Days after the Substantial Completion Date.
- 1.944 “**Substitute**” has the meaning given in the applicable Direct Agreement.

- 1.945 “**Subsurface Utility Engineering (SUE) Reports**” means the following reports:
- (a) Ontario Line Subsurface Utility Engineering (SUE) Report by Planview dated November 5, 2021; and
 - (b) TTC Osgoode-Queen Relief Lien Subsurface Utility Engineering Services Report by T2 Utility Engineers dated May 29, 2020.
- 1.946 “**Subway Rules**” has the meaning given in the Output Specifications.
- 1.947 “**Subway Rules and Standard Operating Procedures**” has the meaning given in the Output Specifications.
- 1.948 “**Suitable Substitute**” has the meaning given in Schedule 4 – Lenders’ Direct Agreement.
- 1.949 “**Supplier**” means a person who supplies to Project Co, or to any Subcontractor, any equipment, materials, supplies or services as part of, or for, the Project Operations.
- 1.950 “**Support of Excavation**” or “**SOE**” has the meaning given in the Output Specifications.
- 1.951 “**Surety**” means the person issuing the Bonds.
- 1.952 “**Surveyor’s Real Property Report**” has the meaning given in the Output Specifications.
- 1.953 “**System Engineering Management Plan**” has the meaning given in the Output Specifications.
- 1.954 “**System Event**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.955 “**System Extension**” has the meaning given in Schedule 44 – System Extension.
- 1.956 “**System Extension Lenders’ Consent**” has the meaning given in Schedule 44 – System Extension.
- 1.957 “**System Integration Management Plan**” has the meaning given in the Output Specifications.
- 1.958 “**System Inventory**” has the meaning given in the Output Specifications.
- 1.959 “**System Management Committee**” has the meaning given in Section 12.1(a) (*System Management Committee – Establishment*) of the Project Agreement.
- 1.960 “**System Relief Trip**” has the meaning given in the Output Specifications.
- 1.961 “**System Safety Plan**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.

- 1.962 “**System Security Plan**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- 1.963 “**System Security Submission**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- 1.964 “**System User**” means any member of the public, any Province Person and any other person that is on or about the Ontario Line Subway or is otherwise making use of the Ontario Line Subway for any purpose.
- 1.965 “**Systemic Racism**” means organizational and institutional culture, biases, policies, directives, practices or procedures that may appear neutral on their surface but have the effect of disadvantaging, excluding displacing, or marginalizing Indigenous, Black and other racialized groups or creating unfair barriers for them to access valuable benefits and opportunities.
- 1.966 “**Systems**” has the meaning given in the Output Specifications.
- 1.967 “**Tax**” or “**Taxes**” means any and all taxes, levies, imposts, duties, fees, withholdings, assessments, deductions or charges whatsoever, imposed, assessed, levied or collected by any Governmental Authority, together with interest thereon and penalties with respect thereto, and includes all HST except where stated to the contrary, provided however that, except for purposes of Section 35.4 (*Information and Assistance Provided by Project Co*) of this Project Agreement, “**Taxes**” shall not include Contracting Authority Taxes.
- 1.968 “**Technical Information**” has the meaning given in Schedule 37 – Intellectual Property.
- 1.969 “**Technical Member**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.
- 1.970 “**Technical Reference Date**” means [REDACTED].
- 1.971 “**Technical Reports**” means the Environmental Reports and the Archaeological Reports.
- 1.972 “**Technical Submission Deadline**” means [REDACTED].
- 1.973 “**Template Third Party Agreement**” has the meaning given in Section 9.2(b) (*General – Project Co Responsibilities*) of the Project Agreement.
- 1.974 “**Temporary Works**” means works that are performed to serve a specific temporary function in the execution of the Works and in respect of which any resulting infrastructure is removed at such time when its temporary use is no longer required.
- 1.975 “**Terminal Station**” has the meaning given in the Output Specifications.
- 1.976 “**Termination Date**” means the earlier of the Expiry Date and such other date, if any, on which termination of the Project Agreement takes effect in accordance with its terms.

- 1.977 “**Third Milestone Payment**” means \$[REDACTED].
- 1.978 “**Third Milestone Payment Completion Date**” has the meaning given in Section 34A(b)(v)(A) (*Certification of Milestone Payments*) of the Project Agreement.
- 1.979 “**Third Party Agreement**” has the meaning given in Section 9.2(b) (*General – Project Co Responsibilities*) of the Project Agreement.
- 1.980 “**Third Party Arbitration**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.
- 1.981 “**Third Party Contractors**” means any person (not being, for the avoidance of doubt, Project Co or any Project Co Party or Additional Contractors) that carries out any Third Party Works, provided that no Civil Contractor or TOC Contractor shall be deemed to be a Third Party Contractor.
- 1.982 “**Third Party Facilities**” means transit shelters, telephone facilities, infrastructure and other property of Utility Companies and Railway Companies and other public facilities and associated equipment, plant, materials and apparatus installed and operated or to be installed and operated on the Lands by any transit authority, communications provider, Utility Company, Railway Company or other third party (not including, for the avoidance of doubt, Project Co or any Project Co Party).
- 1.983 “**Third Party Lands**” has the meaning given in Schedule 35 – Lands.
- 1.984 “**Third Party Litigation**” has the meaning given in Schedule 27 – Dispute Resolution Procedure.
- 1.985 “**Third Party Operators**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.986 “**Third Party Works**” means any work performed by a Third Party Contractor on the Lands, including works in relation to,
- (a) an Encumbrance;
 - (b) Existing Third Party Infrastructure;
 - (c) Third Party Facilities; and
 - (d) Utility Work and work pursuant to a Utility Agreement, Railway Order or an encroachment permit or other permitting authority of any Governmental Authority under Applicable Law.
- 1.987 “**Three Week Look-Ahead Schedule**” has the meaning given in Schedule 12 – Works Schedule Requirements.

- 1.988 “**Threshold Equity Sale Amount**” means an Equity Sale Amount that would result in an Equity Sale IRR equal to the Base Case Equity IRR.
- 1.989 “**TOC Contractor**” means any party to an agreement with Contracting Authority for or in respect of a TOC Development.
- 1.990 “**TOC Contractor Party**” means any person engaged by a TOC Contractor in connection with a TOC Development, and/or any of its contractors, and their subcontractors of any tier, agents, employees, officers and directors, and “**TOC Contractor Parties**” shall be construed accordingly.
- 1.991 “**TOC Developments**” means a development project of any nature or kind and for any usage in connection with the construction or operation of a Station that is part of a priority transit project, and includes a development project located on transit corridor land within the meaning of the *Building Transit Faster Act, 2020*.
- 1.992 “**TOC Infrastructure**” means any infrastructure relating to a TOC Development.
- 1.993 “**Toronto Transit Commission**” or “**TTC**” means the Toronto Transit Commission and its successors.
- 1.994 “**Total Construction Period Deduction**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.995 “**Total Headway Service Delay Seconds**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.996 “**Total Journey Time Service Delay Seconds**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.997 “**Total Service Delay Seconds**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.998 “**TPSS**” has the meaning given in the Output Specifications.
- 1.999 “**Track Protection Forecast**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.1000 “**Trackwork**” has the meaning given in the Output Specifications.
- 1.1001 “**Traction Power Performance Test Failure**” has the meaning given in Schedule 8 – Energy Matters.
- 1.1002 “**Traction Power System**” has the meaning given in the Output Specifications.
- 1.1003 “**Trademarks**” means all trademarks, service marks, trade dress, logos, distinguishing guises and indicia, trade names, corporate names, business names, domain names, whether or not registered, including all common law rights, and registrations, applications for

registration and renewals thereof, including, but not limited to, all marks registered in the Canadian Intellectual Property Office and the trademark offices of other nations throughout the world, and all rights therein provided by multinational treaties or conventions.

- 1.1004 “**Traffic and Transit Management Plan**” or “**TTMP**” has the meaning given in the Output Specifications.
- 1.1005 “**Traffic Control Plan**” has the meaning given in the Output Specifications.
- 1.1006 “**Train**” means two or more coupled Cars, with open gangways between all Cars, that can move together without any additional external motive power for the Operations Service Plan, examples of which are set out in Appendix B to this Schedule 1.
- 1.1007 “**Train Cancellation**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.1008 “**Train Delay**” has the meaning given in Schedule 19 – Liquidated Damages and Construction Enforcement Regime.
- 1.1009 “**Transport Canada**” means Transport Canada and its successors and assigns.
- 1.1010 “**TRCA**” has the meaning given in the Output Specifications.
- 1.1011 “**Tree Preservation and Protection Plans and Arborist Report**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.1012 “**Tree Tracker**” has the meaning given in Schedule 17 – Environmental Obligations.
- 1.1013 “**Trespasser**” has the meaning given in Section 9.7(a) (*Protest and Trespass*) of the Project Agreement.
- 1.1014 “**Trial Running Resilience Tests**” has the meaning given in Schedule 14 – Commissioning.
- 1.1015 “**Trip**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.1016 “**Trip Availability Failure**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.1017 “**Trip Capacity Failure**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.1018 “**Trip Punctuality Failure**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.1019 “**TTC**” means the Toronto Transit Commission and its successors.
- 1.1020 “**TTC Jointly Developed Materials**” has the meaning given in Section 51.4(a)(iii) (*Jointly Developed Materials*) of the Project Agreement.
- 1.1021 “**TTC Lands**” has the meaning given in Schedule 35 – Lands.

- 1.1022 “**TTC Station Weekend Closure**” has the meaning given in the Output Specifications.
- 1.1023 “**TTC Zone of Influence**” means all areas within 60 meters of any Existing TTC Infrastructure (other than minor surface infrastructure, including bus stops, streetcar tracks and associated streetcar infrastructure), within which all Works in respect of Existing TTC Infrastructure, New TTC Infrastructure, or Ontario Line Subway is subject to review by the TTC in accordance with Schedule 10 – Review Procedure and the Output Specifications.
- 1.1024 “**Tunnel**” has the meaning given in the Output Specifications.
- 1.1025 “**Tunnel Ventilation System**” has the meaning given in the Output Specifications.
- 1.1026 “**UP Express**” means Union Pearson Express, an operating division of Metrolinx, and its successors.
- 1.1027 “**UPS**” has the meaning given in the Output Specifications.
- 1.1028 “**Utilities**” means energy/power supplies, communications, data transmission and Waste recovery, including electricity, natural gas/fuel oil, water, sanitary Waste and storm water.
- 1.1029 “**Utilities Preparatory Activities**” means the activities set out in Appendix Q (*Utilities Preparatory Activities*) to the Output Specifications.
- 1.1030 “**Utility Agreement**” means any agreement entered into by Project Co with a Utility Company in connection with the design removal, construction, installation, repair, preservation, relocation or maintenance of Utility Infrastructure in, on, under, over or adjacent to the Lands, and includes any site or other permits issued thereunder or pursuant thereto, all as amended, supplemented or replaced from time to time.
- 1.1031 “**Utility Company**” means the owner or operator of any Utility Infrastructure.
- 1.1032 “**Utility Infrastructure**” means privately, publicly or cooperatively owned lines, facilities or systems for transmitting or distributing electricity, lighting, data, communications, gas, oil and petroleum products, water, storm water or sewage, wireless, or other similar commodity or substance which serve the public directly or indirectly, including underground, surface and overhead facilities as well as facilities which use common poles, ducts or conduits on a shared basis, and all related infrastructure.
- 1.1033 “**Utility Infrastructure Relocation Plan**” has the meaning given in the Output Specifications.
- 1.1034 “**Utility Work**” means temporary and permanent installation, protection, removal, relocation, upgrading, reinstatement, restoration, downsizing, designing, and/or building works relating to Utility Infrastructure carried out in connection with or as part of the Project Operations, including design, construction, installation, commissioning, protection, removal and relocation of poles, pole lines, conduits, gas pipes, oil pipes, sewers and tile

lines, and related and ancillary works. For clarity, “Utility Work” shall include all City Utility Work and Private Utility Work.

- 1.1035 “**Vandalism**” means the deliberate destruction, defacement, or damage of any component of Ontario Line Subway, and includes Graffiti, Physical Damage, and any other form of deliberate destruction, defacement, or damage.
- 1.1036 “**Vandalism Cost Repair Cap**” has the meaning given in Section 9.18(g) (*Vandalism and Graffiti*) of the Project Agreement.
- 1.1037 “**Vandalism Matrix**” means the responsibility matrix defining specific categories of Vandalism, set out in Table 2.3.6.3-1 (*Vandalism and Graffiti Matrix During Operational Term*) of the Output Specifications.
- 1.1038 “**Vandalism Repair Costs**” means costs determined in accordance with Section 9.18(d) (*Vandalism and Graffiti*) of the Project Agreement.
- 1.1039 “**Variation**” has the meaning given in Schedule 22 – Variation Procedure.
- 1.1040 “**Variation Confirmation**” has the meaning given in Schedule 22 – Variation Procedure.
- 1.1041 “**Variation Directive**” has the meaning given in Schedule 22 – Variation Procedure.
- 1.1042 “**Variation Enquiry**” has the meaning given in Schedule 22 – Variation Procedure.
- 1.1043 “**Variation Procedure**” means the procedure set out in Schedule 22 – Variation Procedure.
- 1.1044 “**Vehicles**” means, collectively, the Trains and the Maintenance Vehicles but, for clarity, excludes the Road Vehicles.
- 1.1045 “**VIA Rail**” means Via Rail Canada and its successors.
- 1.1046 “**Warning Notice**” has the meaning given in Section 31.4(a) (*Warning Notices*) of the Project Agreement.
- 1.1047 “**Warranty Work**” is defined in Section 25.14(b)(i) (*Warranty Work*) of the Project Agreement.
- 1.1048 “**Waste**” means any substances or materials that are defined as “designated wastes” under, or regulated or governed by Ontario Regulation 347 under the Ontario *Environmental Protection Act*.
- 1.1049 “**White Period Access**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.1050 “**Witness and Hold Point**” has the meaning given in Schedule 11 – Quality Management.

- 1.1051 “**Work Plan Methodology Template**” has the meaning given in Schedule 40 – Rail Corridor Access and Flagging.
- 1.1052 “**Workplace Safety and Insurance Act, 1997 (Ontario)**” means the *Workplace Safety and Insurance Act, 1997*, S.O. 1997, c. 16, Sch. A, as amended from time to time.
- 1.1053 “**Works**” means the design and construction of the Project Co Infrastructure and the New Third Party Infrastructure, and the installation, testing, supply, delivery, commissioning and completion of the Ontario Line Subway and the New Third Party Infrastructure, including for clarity, the Trains and the integration of the Trains into and with the other parts or components of the Ontario Line Subway, the integration of the South Civil Project Infrastructure, North Civil Project Infrastructure, and the Early Works Infrastructure with the Project Co Infrastructure in accordance with the terms of the Project Agreement, rectification of any Minor Deficiencies, Warranty Work, and any other activities required to enable or facilitate the commencement of the Project Co Services, and all other work under the Permits, Licences, Approvals and Agreements, except for (i) all work which is expressly described in Schedule 34 – Permits, Licences, Approvals and Agreements as being the responsibility of Contracting Authority, and (ii) any Contracting Authority Commissioning, and including, for clarity, the Early Contractor Activities.
- 1.1054 “**Works Activity**” has the meaning given in Schedule 12 – Works Schedule Requirements.
- 1.1055 “**Works Change in Law**” means any Change in Law that:
- (a) is not a Relevant Change in Law;
 - (b) occurs after the Technical Reference Date;
 - (c) requires Project Co to perform any work of alteration, addition, demolition, extension or variation in the quality or function of the Ontario Line Subway or the New Third Party Infrastructure which is similar in nature to the Works but is not Works or capital replacement work which Project Co would otherwise be required to perform in order to comply with its obligations under the Project Agreement; and
 - (d) was not reasonably foreseeable at the Technical Reference Date by an experienced contractor carrying out activities and/or performing design and/or other operations similar to those to be carried out and/or performed by any Project Co Party in relation to the Project.
- 1.1056 “**Works Committee**” has the meaning given in Section 11.1(a) (*Works Committee – Establishment*) of the Project Agreement.
- 1.1057 “**Works Micro-Schedule**” has the meaning given in Schedule 12 – Works Schedule Requirements.
- 1.1058 “**Works Report**” has the meaning given in Section 22.4(a) (*Works Report*) of the Project Agreement.

- 1.1059 “**Works Schedule Report**” has the meaning given in Schedule 12 – Works Schedule Requirements.
- 1.1060 “**Works Submittal**” has the meaning given in Schedule 10 – Review Procedure.
- 1.1061 “**Worsened Contamination**” means any Worsened Project Co Contamination and any Worsened Contracting Authority Contamination.
- 1.1062 “**Worsened Contracting Authority Contamination**” means the Worsening of any Contracting Authority Contamination,
- (a) which was caused:
 - (i) directly or indirectly by Project Co or a Project Co Party; or
 - (ii) by a failure of Project Co or any Project Co Party to comply with its obligations under the Project Agreement; and
 - (b) in respect of which Project Co did not comply with its obligations pursuant to Sections 16.3(h) and 16.3(i) (*Contamination*) of the Project Agreement,
- but only to the extent of the Worsening.
- 1.1063 “**Worsened Project Co Contamination**” means the Worsening of any Project Co Contamination which was caused:
- (a) directly or indirectly by Project Co or a Project Co Party; or
 - (b) by a failure of Project Co or any Project Co Party to comply with its obligations under the Project Agreement,
- but only to the extent of the Worsening.
- 1.1064 “**Worsens**” means any act or omission of Project Co or any Project Co Party which, other than as required by Applicable Law, Good Industry Practice or the terms of the Project Agreement (including the Output Specifications or Schedule 17 – Environmental Obligations), excavates, disturbs, exposes, spills, releases or otherwise affects (directly or indirectly) any Contamination with the effect of aggravating, exacerbating, migrating, diverting or otherwise increasing the area, volume, impact or costs of dealing with such Contamination, and “**Worsened**” and “**Worsening**” shall have the corresponding meanings wherever used in Section 16.3 (*Contamination*) of the Project Agreement.
- 1.1065 “**WSIB**” means the Ontario Workplace Safety and Insurance Board that is responsible for administering the *Workplace Safety and Insurance Act, 1997* (Ontario).

2. **Interpretation.** The Project Agreement shall be interpreted according to the following provisions, unless the context requires a different meaning:
- 2.1 The tables of contents, headings, marginal notes and references to them in the Project Agreement are for convenience of reference only, shall not constitute a part of the Project Agreement, and shall not be taken into consideration in the interpretation of, or affect the meaning of, the Project Agreement.
 - 2.2 Except where the context requires otherwise (irrespective of whether some, but not all, references in a Schedule specifically refer to that Schedule or to other portions of the Project Agreement) references to specific Sections, Clauses, Paragraphs, Subparagraphs, Schedules, and other divisions of the Project Agreement are references to such Sections, Clauses, Paragraphs, or Subparagraphs of, Schedules to, or divisions of the Project Agreement and the terms “Section” and “Clause” are used interchangeably and are synonymous.
 - 2.3 Except where the context requires otherwise, references to specific Sections, Clauses, Paragraphs, Subparagraphs, Schedules, and other divisions of the Project Agreement followed by a number are references to the whole of the Section, Clause, Paragraph, Subparagraphs, Schedule or other division of the Project Agreement as applicable, bearing that number, including all subsidiary provisions containing that same number as a prefix.
 - 2.4 Except where the context requires otherwise, references in the Output Specifications to specific Parts, Sections, Clauses, Paragraphs, Subparagraphs, Schedules, and other divisions of the Output Specifications shall be construed such that each such reference on a page of the Output Specifications will be read to be preceded by and to include the prefix Section number or other reference at the top of the applicable page, and all cross-references to any Section in the Output Specifications shall be interpreted to include the applicable prefix Section number or other reference.
 - 2.5 The Schedules to the Project Agreement are an integral part of the Project Agreement and a reference to the Project Agreement includes a reference to the Schedules.
 - 2.6 All references in the Project Agreement to a Schedule shall be to a Schedule of the Project Agreement.
 - 2.7 All capitalized terms used in a Schedule shall have the meanings given to such terms in Schedule 1 – Definitions and Interpretation, unless stated otherwise in a particular Schedule in which case such definition shall have the meaning given to it in that Schedule solely for the purposes of that Schedule.
 - 2.8 The language of the Output Specifications and other documents comprising the Project Agreement is in many cases written in the imperative for brevity. Clauses containing instructions, directions or obligations are directed to Project Co and shall be construed and interpreted as if the words “Project Co shall” immediately preceded the instructions, directions or obligations.

- 2.9 Words importing persons or parties are to be broadly interpreted and include an individual, corporation, limited liability company, joint stock company, firm, partnership, joint venture, trust, unincorporated organization, Governmental Authority, unincorporated body of persons or association and any other entity having legal capacity, and the heirs, beneficiaries, executors, administrators or other legal representatives of a person in such capacity.
- 2.10 Unless the context otherwise requires, wherever used herein the plural includes the singular, the singular includes the plural, and each of the masculine, feminine and neuter genders include all other genders.
- 2.11 Unless otherwise provided in the Project Agreement, all accounting and financial terms used in the Project Agreement shall be interpreted and applied in accordance with Canadian GAAP.
- 2.12 References to any standard, principle, agreement or document include (subject to all relevant approvals and any other provisions of the Project Agreement concerning amendments) a reference to that standard, principle, agreement or document as amended, supplemented, restated, substituted, replaced, novated or assigned.
- 2.13 References to any Applicable Law, including any statutes or other Applicable Law specifically referred to herein, whether or not amendments or successors to such Applicable Law are referred to herein, are to be construed as references to that Applicable Law as from time to time amended or to any Applicable Law covering the same or similar subject matter from time to time replacing, extending, consolidating or amending the same.
- 2.14 References to a statute shall include all regulations, by-laws, ordinances and orders made under or pursuant to the statute.
- 2.15 References to persons shall include their successors and assigns. References to a public organization shall include their successors and assigns, and if a public organization ceases to exist or ceases to perform its functions without a successor or assign, references to such public organization shall be deemed to include a reference to any public organization or any organization or entity which has taken over either or both the functions and responsibilities of such public organization.
- 2.16 A reference in the Project Agreement or in any Project Document to any right, power, obligation or responsibility of any Governmental Authority shall be deemed to be a reference to the Governmental Authority that, pursuant to Applicable Laws has such right, power, obligation or responsibility at the relevant time.
- 2.17 References to a deliberate act or omission or deliberate or negligent act or omission of any Province Person shall be construed having regard to the interactive nature of the activities of the Province Person and Project Co and further having regard to:
- (a) acts contemplated by the Output Specifications;

- (b) acts or omissions in the ordinary course of the Governmental Activities and expressly or reasonably inferred from the Output Specifications to be taken into account by Project Co in the performance of the Project Co Services; or
 - (c) acts otherwise provided for in the Project Agreement.
- 2.18 The words in the Project Agreement shall bear their natural meaning.
- 2.19 Each of Project Co's and Contracting Authority's respective obligations shall be construed as separate obligations owed to the other.
- 2.20 References containing terms such as:
 - (a) "hereof", "herein", "hereto", "hereinafter", and other terms of like import are not limited in applicability to the specific provision within which such references are set forth but instead refer to the Project Agreement taken as a whole; and
 - (b) "includes" and "including", whether or not used with the words "without limitation" or "but not limited to", shall not be deemed limited by the specific enumeration of items but shall, in all cases, be deemed to be without limitation and construed and interpreted to mean "includes without limitation" and "including without limitation".
- 2.21 In construing the Project Agreement, the rule known as the *ejusdem generis* rule shall not apply nor shall any similar rule or approach apply to the construction of the Project Agreement and, accordingly, general words introduced or followed by the word "other" or "including" or "such as" or "in particular" shall not be given a restrictive meaning because they are followed or preceded (as the case may be) by particular examples intended to fall within the meaning of the general words.
- 2.22 Where the Project Agreement states that an obligation shall be performed "no later than" or "within" or "by" a stipulated date or event which is a prescribed number of days after a stipulated date or event, the latest time for performance shall be 5:00 p.m. on the last day for performance of the obligation concerned, or, if that day is not a Business Day, 5:00 p.m. on the next Business Day.
- 2.23 Where the Project Agreement states that an obligation shall be performed "no later than" or "by" a prescribed number of days before a stipulated date or event or "by" a date which is a prescribed number of days before a stipulated date or event, the latest time for performance shall be 5:00 p.m. on the last day for performance of the obligation concerned, or if that day is not a Business Day, 5:00 p.m. on the next Business Day.
- 2.24 Where the Project Agreement states that an obligation shall be performed "on" a stipulated date, the latest time for performance shall be 5:00 p.m. on that day, or, if that day is not a Business Day, 5:00 p.m. on the next Business Day.

- 2.25 Any reference to time of day or date means the local time or date in Toronto, Ontario. Any reference to a stipulated “day” which is not specifically referred to as a “Business Day” shall be deemed to be a calendar day measured from midnight to midnight.
- 2.26 Unless otherwise indicated, time periods will be strictly construed.
- 2.27 Whenever the terms “will” or “shall” are used in the Project Agreement in relation to Project Co or Contracting Authority they shall be construed and interpreted as synonymous and to read “Project Co shall” or “Contracting Authority shall” as the case may be.
- 2.28 Any reference to currency is to Canadian currency and any amount advanced, paid or calculated is to be advanced, paid or calculated in Canadian currency.
- 2.29 Unless otherwise identified in the Project Agreement, all units of measurement in any documents submitted by Project Co to Contracting Authority shall be in accordance with the SI system of units.
- 2.30 Terms not defined herein and used in the Project Agreement which have a technical meaning commonly understood by the transit system construction and maintenance industry in Ontario will be construed as having that meaning unless the context otherwise requires.
- 2.31 Save where expressly stated otherwise, references to amounts or sums expressed to be “indexed” or “index linked” are references to amounts or sums which require adjustment to reflect the effects of inflation. Such adjustment shall be calculated in accordance with the following formula:

$$\text{Adjusted amount or sum} = \text{Amount or sum} \times \frac{\text{CPI}_n}{\text{CPI}_0}$$

- 2.32 The terms “properly inferable”, “readily apparent” and “readily discoverable” as used in the Project Agreement, shall be interpreted by taking into consideration Project Co’s and any Project Co Party’s experience and the investigations, inspections and examinations of the Background Information and in respect of the Lands carried out by Project Co or by any Project Co Party during the Request for Proposals process or other due diligence; and by taking into consideration reasonable, normal course and industry standard investigations, inspections or other due diligence; in each case in accordance with Good Industry Practice.
- 2.33 In construing the Project Agreement, the rule known as the *contra proferentem* rule shall not apply, and the Parties waive the application of any such rule of law which otherwise would be applicable in connection with the construction of this Project Agreement that ambiguous or conflicting terms or provisions should be construed against the Party who (or whose counsel) drafted the Project Agreement.

SCHEDULE 2

COMPLETION DOCUMENTS

1. DOCUMENTS TO BE DELIVERED BY PROJECT CO

Unless an original document is specifically required, a copy of each of the following documents (in each case, executed by the parties to such agreement other than Contracting Authority, and in form and substance satisfactory to Contracting Authority, acting reasonably) is to be delivered by Project Co to Contracting Authority on or prior to the Financial Close Target Date:

- 1.1 the Project Agreement;
- 1.2 the Custody Agreement;
- 1.3 the Lenders' Direct Agreement;
- 1.4 the Construction Contractor's Direct Agreement;
- 1.5 the Service Provider's Direct Agreement;
- 1.6 intentionally deleted;
- 1.7 the Independent Certifier Agreement;
- 1.8 the CDB Member Statement for the Technical Member put forward by Project Co, the CDB Member Statement for the CDB Chair, and each of the CDB Member Agreements;
- 1.9 the CIDB Member Statement for the CIDB Technical Member put forward by Project Co and the CIDB Member Agreement in accordance with Appendix A of Schedule 39A – Form of South Civil Interface Agreement;
- 1.10 the Insurance Trust Agreement;
- 1.11 a Notice of appointment of the Project Co Representative;
- 1.12 the undertaking and acknowledgement in the form attached as Appendix A to this Schedule 2;
- 1.13 the Lending Agreements;
- 1.14 the Construction Contract;
- 1.15 the Service Contract;
- 1.16 a certificate of insurance and draft policies of insurance for the insurances required to be taken out by Project Co or the Construction Contractor for the period prior to the Substantial Completion Date in accordance with the Project Agreement;

- 1.17 the Financial Model in electronic form;
- 1.18 a certificate of an officer of Project Co certifying:
 - (a) a true copy of the Financial Model audit report dated [REDACTED], prepared by [REDACTED]; and
 - (b) that the Financial Model algorithms have not changed from the audit report referred to in (a) above;
- 1.19 a certificate of an officer of Project Co substantially in the form attached as Appendix B to this Schedule 2;
- 1.20 the Interim Baseline Works Schedule in accordance with the requirements set out in Schedule 12 – Works Schedule Requirements;
- 1.21 a digital copy of each of Bonds in sealed form, as required in accordance with the Project Agreement or as Contracting Authority may direct in accordance with the Insurance Trust Agreement;
- 1.22 a certificate of an officer of each Contractor substantially in the form attached as Appendix B to this Schedule 2;
- 1.23 a certificate of an officer of each Guarantor substantially in the form attached as Appendix B to this Schedule 2;
- 1.24 the opinion from counsel to Project Co, each of the Contractors, each of the Guarantors and such other Project Co Parties as Contracting Authority may reasonably require substantially in the form attached as Appendix C to this Schedule 2 and otherwise acceptable to Contracting Authority and its counsel;
- 1.25 a final Energy Target Letter and supporting Energy Model;
- 1.26 intentionally deleted;
- 1.27 written confirmation that the list of Key Individuals with respect to the Works submitted by Project Co as part of its proposal in the RFP process, is unchanged;
- 1.28 evidence that the COR-Certified Construction Project Co Party has its COR Certification in good standing (or to the extent that the COR-Qualified Construction Project Co Party does not have its COR Certification by Financial Close, evidence that the COR-Qualified Construction Project Co Party has its current OHSAS 18001 Accreditation in good standing and has made an application to IHSA for its COR Certification);
- 1.29 in respect of the Construction Contractor (and where the Construction Contractor is a partnership or joint venture, in respect of each partner of the partnership or member of the joint venture, as applicable), a WSIB clearance certificate, or if a WSIB clearance certificate is not available, equivalent documentation from another jurisdiction, current to the date of Commercial Close;

- 1.30 in respect of the Construction Contractor (and where the Construction Contractor is a partnership or joint venture, in respect of each partner of the partnership or member of the joint venture, as applicable), a listing of any construction accidents incurred that have caused Lost Time Injuries (“LTIs”, as defined by the WSIB) or, if a LTI listing is not available, equivalent documentation from another jurisdiction, current to the date of Commercial Close;
- 1.31 in respect of the Construction Contractor (and where the Construction Contractor is a partnership or joint venture, in respect of each partner of the partnership or member of the joint venture, as applicable), a Workplace Injury Summary Report (WISR) or, if a WISR is not available, equivalent documentation from another jurisdiction, current to the date of Commercial Close;
- 1.32 the South Civil Interface Agreement, executed by Project Co;
- 1.33 a certificate of an officer of Project Co certifying the corporate structure of Project Co as of the date hereof;
- 1.34 intentionally deleted;
- 1.35 the equity contribution agreement among Project Co, [REDACTED] by [REDACTED], [REDACTED], [REDACTED] and [REDACTED], dated as of the date hereof;
- 1.36 the interface agreement among Project Co, the Construction Contractor and the Service Provider, dated as of the date hereof;
- 1.37 the management services agreement between Project Co and [REDACTED], dated as of the date hereof;
- 1.38 the management services agreement between Project Co and [REDACTED], dated as of the date hereof;
- 1.39 the management services agreement between Project Co and [REDACTED], dated as of the date hereof;
- 1.40 the management services agreement between Project Co and [REDACTED], dated as of the date hereof; and
- 1.41 such other documents as the Parties may agree, each acting reasonably.

2. DOCUMENTS TO BE DELIVERED BY CONTRACTING AUTHORITY

Unless an original document is specifically required, a copy of each of the following documents (in each case, where an entity comprising Contracting Authority is a party to such document, executed by such Contracting Authority entity and, if applicable, any Contracting Authority Party or Governmental Authority) is to be delivered by Contracting Authority to Project Co on or prior to the Financial Close Target Date:

- 2.1 the Project Agreement;

- 2.2 the Custody Agreement;
- 2.3 the Lenders' Direct Agreement;
- 2.4 the Construction Contractor's Direct Agreement;
- 2.5 the Service Provider's Direct Agreement;
- 2.6 intentionally deleted;
- 2.7 the Independent Certifier Agreement;
- 2.8 the CDB Member Statement for the Technical Member put forward by Contracting Authority, the CDB Member Statement for the CDB Chair, and each of the CDB Member Agreements;
- 2.9 the CIDB Member Statement for the CIDB Chair put forward by Contracting Authority and the CIDB Member Agreement in accordance with Appendix A of Schedule 39A – Form of South Civil Interface Agreement;
- 2.10 the Insurance Trust Agreement;
- 2.11 a Notice of appointment of the Contracting Authority Representative;
- 2.12 a certificate of an officer of Metrolinx signed by an officer of Metrolinx substantially in the form attached as Appendix D to this Schedule 2;
- 2.13 the South Civil Interface Agreement, executed by Contracting Authority and South Civil Project Co;
- 2.14 receipt for repayment of the Proposal Fee by the Preferred Proponent (as defined in the RFP); and
- 2.15 such other documents as the Parties may agree, each acting reasonably.

3. POST-FINANCIAL CLOSE PROJECT CO DELIVERABLES

Project Co shall deliver to Contracting Authority each of the following items:

- 3.1 within five (5) Business Days following Financial Close, two electronic copies of the Financial Model, each on a USB key; and
- 3.2 within fifteen (15) Business Days following Financial Close, two (2) USB keys, each containing electronic copies of all of the documents described in Sections 1 and 2 of this Schedule 2 (other than the Financial Model which will be provided pursuant to (a) above).

APPENDIX A TO SCHEDULE 2

FORM OF UNDERTAKING AND ACKNOWLEDGEMENT

TO: **METROLINX**, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency in accordance with the *Crown Agency Act*, R.S.O. 1990, c. 48
 (“**Contracting Authority**”)

AND TO: **THE MINISTER OF INFRASTRUCTURE (“MOI”)**

RE: Project agreement (as amended, supplemented or modified from time to time, the “**Project Agreement**”) dated the 15th day of November, 2022 between Contracting Authority and Connect 6ix General Partnership (“**Project Co**”)

1. The undersigned acknowledges that:
 - (a) The Project will proceed as a public-private partnership project under the MOI’s *ReNew Ontario* infrastructure investment plan and complies with the principles which guide the financing and procurement of public infrastructure projects in Ontario.
 - (b) The 5 fundamental principles which guide the financing and procurement of public infrastructure projects in Ontario:
 - (i) The public interest is paramount.
 - (ii) Value for money must be demonstrable.
 - (iii) Appropriate public control/ownership must be preserved.
 - (iv) Accountability must be maintained.
 - (v) All processes must be fair, transparent and efficient.
 - (c) Consistent with the principle of appropriate public ownership/control, public ownership of assets will be preserved in the public sector.
2. Capitalized terms used but not defined herein have the respective meanings ascribed thereto in the Project Agreement.

AND TO: THE MINISTER OF INFRASTRUCTURE

AND TO: [REDACTED]

AND TO: [REDACTED]

AND TO: [REDACTED]

I, [●], being the [●] of the Corporation and an authorized signatory of the Corporation and being duly authorized by the Corporation to deliver this certificate, hereby make the following certifications and confirmations for and on behalf of the Corporation and without incurring personal liability and that the same may be relied upon by you without further inquiry:

1. **Constating Documents**

- (a) The Corporation is a subsisting corporation duly incorporated under the laws of **[the Province of Ontario]**.
- (b) Attached hereto as **Schedule “A”** are true and complete copies of the articles, together with all amendments thereto, of the Corporation (the “**Articles**”). The Articles are in full force and effect on the date hereof and no other articles have been issued and no proceeding has been taken or is contemplated to the date hereof to authorize the Corporation to amend, surrender or cancel the Articles.
- (c) Attached hereto as **Schedule “B”** are true and complete copies of the by-laws of the Corporation (the “**By-laws**”) enacted on or before the date hereof. The By-laws have been in full force and effect from and after the date thereof as set out therein and are in full force and effect, unamended as of the date hereof. No proceeding has been taken to the date

hereof to authorize the Corporation to amend the By-laws and neither the directors nor the shareholders of the Corporation have passed, confirmed or consented to any resolutions amending or varying the By-laws.

- (d) Attached hereto as **Schedule “C”** is a true and complete copy of a unanimous shareholders’ agreement between the shareholders of the Corporation and the Corporation (the **“Unanimous Shareholders’ Agreement”**) executed on or before the date hereof. The Unanimous Shareholders’ Agreement has been in full force and effect from and after the date thereof as set out therein and is in full force and effect, unamended as of the date hereof.
- (e) The minute books and corporate records of the Corporation made available to [●] are the original minute books and corporate records of the Corporation and contain all minutes of meetings, resolutions and proceedings of the shareholders and directors of the Corporation to the date hereof and there have been no meetings, resolutions or proceedings authorized or passed by the shareholders or directors of the Corporation to the date hereof not reflected in such minute books and corporate records. Such minute books and corporate records are true, complete and correct in all material respects and there are no changes, additions or alterations necessary to be made thereto to make such minute books and corporate records true, complete and correct in all material respects.
- (f) At the date hereof, no winding-up, liquidation, dissolution, insolvency, bankruptcy, amalgamation, arrangement, reorganization or continuation proceedings in respect of the Corporation have been commenced or are being contemplated by the Corporation, and the Corporation has no knowledge of any such proceedings having been commenced or contemplated in respect of the Corporation by any other party.
- (g) At the date hereof, the Corporation is up-to-date in the filing of all returns and other documents required to be filed by it by governmental authorities, including under corporate, securities and tax legislation, and no notice of any proceedings to cancel its certificate of incorporation or otherwise to terminate its existence has been received by the Corporation.
- (h) Pursuant to the Unanimous Shareholders’ Agreement, the powers of the directors of the Corporation to manage the business and affairs of the Corporation, whether such powers arise from the [**Business Corporations Act (Ontario) (the “Act”)**], the Articles or the By-laws of the Corporation, or otherwise, are restricted to the fullest extent permitted by law, and, in accordance with the Act and the Unanimous Shareholders’ Agreement, the shareholders of the Corporation have and enjoy and may exercise and perform all the rights, powers, and duties of the directors of the Corporation to manage the business and affairs of the Corporation.
- (i) There are no provisions in the Articles, By-laws, Unanimous Shareholders’ Agreement or in any other agreement binding on the Corporation which:
 - (i) restrict or limit the powers of the Corporation to enter into:

- (1) a certain project agreement with Contracting Authority made as of November 15, 2022 (as the same may be amended, supplemented, restated or otherwise modified from time to time, the “**Project Agreement**”) pursuant to which the Corporation will design, build, finance, operate and maintain a new subway or metro system;
- (2) a lenders’ direct agreement between the Corporation, Contracting Authority and the Lenders’ Agent;
- (3) direct agreements between the Contractors, the Corporation, the Guarantors and Contracting Authority;
- (4) *[Note to Completion: List other documents delivered at Financial Close.]*,

(collectively, the “**Documents**”); or

- (ii) restrict or limit the authority of the directors or shareholders of the Corporation by resolution to delegate the powers set out in subparagraph (i) to a director or an officer of the Corporation.

2. Resolutions

- (a) Annexed hereto, forming part hereof and marked as **Schedule “D”** are true and complete copies of the resolutions of the **[directors/shareholders]** of the Corporation (the “**Resolutions**”), which have been duly and validly passed in accordance with applicable law, constituting authority and approval for the Corporation, *inter alia*, to enter into the Documents. The Resolutions are the only resolutions of the Corporation pertaining to the subject matter thereof and the same are in full force and effect, unamended as of the date hereof.
- (b) The authorization, execution and delivery of each Document contemplated in the Resolutions, and the performance by the Corporation of its obligations thereunder, do not constitute or result in a violation or breach or default under:
 - (i) the Articles, By-laws or the Unanimous Shareholders’ Agreement;
 - (ii) to the best of my knowledge and belief after due diligence, any order of any Canadian or **[Ontario]** governmental body by which it is bound;
 - (iii) to the best of my knowledge and belief after due diligence, the terms of any agreement or instrument under which any of its property or assets is bound; or
 - (iv) to the best of my knowledge and belief after due diligence, any writ, judgment, injunction, determination or award which is binding on the Corporation or any of its properties.

- (c) To the best of my knowledge and belief after due diligence, there are no actions, suits, proceedings, or investigations pending or threatened in writing against the Corporation at law or in equity before any Governmental Authority or arbitral body (whether or not covered by insurance) of which the Corporation has received written notice and that individually or in the aggregate could result in any material adverse effect on the business, properties, or assets, or the condition, financial or otherwise, of the Corporation or in any impairment of its ability to perform its obligations under the Documents, and the Corporation has no knowledge of any violation or default with respect to any order, writ, injunction, or decree of any Governmental Authority or arbitral body that could result in any such material adverse effect or impairment.
- (d) To the best of my knowledge and belief after due diligence, no consent, approval or other order of any Canadian or **[Ontario]** Governmental Authority which has not been obtained is required to permit the Corporation to execute and deliver the Documents.

3. No Breach or Default

Neither the execution and delivery by the Corporation of the Documents nor the consummation of the transactions therein contemplated nor the fulfilment or compliance with the terms thereof will contravene or result in a breach of any of the terms, conditions or provisions of, or constitute a default under the Articles, By-laws, Unanimous Shareholders’ Agreement or under any other agreement binding on the Corporation.

4. Specimen Signatures

The persons whose names are set forth below are, at the date hereof, officers and/or directors of the Corporation, duly elected or appointed to the office or offices set forth opposite their respective names and authorized to execute the Documents on behalf of the Corporation. The signatures set forth opposite their respective names are the true signatures of those persons:

<u>NAME</u>	<u>POSITION</u>	<u>SIGNATURE</u>

5. Capital

Listed below are all of the issued and outstanding shares in the capital of the Corporation and the registered owner of such shares:

<u>ISSUED SHARES</u>	<u>REGISTERED OWNER</u>
----------------------	-------------------------

Attached hereto as **Schedule “E”** are true copies of all certificates in respect of such issued and outstanding shares. The Corporation has issued no securities, including securities convertible or exchangeable into shares and/or securities in respect of debt, other than such issued and outstanding shares as are listed above.

Toronto, Ontario M2N 6L9

[•] LLP
[•]

Dear Sirs/Mesdames:

Re: Ontario Line Subway Rolling Stock, Systems, Operations and Maintenance Project

We have acted as counsel to Connect 6ix General Partnership (“**Project Co**”), [REDACTED] (the “**Construction Contractor**”), [REDACTED] (the “**Service Provider**”), [REDACTED], [REDACTED] and [REDACTED] (the “**Construction Guarantors**”) and [REDACTED] and [REDACTED] (the “**Service Provider Guarantors**”) in connection with the public-private partnership transaction whereby Project Co has agreed to enter into a design, build, finance, operate and maintain agreement for a new subway or metro system in the City of Toronto, Ontario.

[Note to Completion: Additional parties, including guarantors, to be added depending on consortium structure and/or the financing package.]

This opinion is being delivered to Metrolinx, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency in accordance with the *Crown Agency Act*, R.S.O. 1990, c. 48 (“**Contracting Authority**”), Ontario Infrastructure and Lands Corporation, a Crown agent continued under the Ontario Infrastructure and Lands Corporation Act, 2011 and their counsel pursuant to Section 1.24 of Schedule 2 to the project agreement made as of November 15, 2022 between Contracting Authority and Project Co (as the same may be amended, supplemented, restated or otherwise modified from time to time, the “**Project Agreement**”).

All capitalized terms used but not otherwise defined in this opinion shall have the respective meanings ascribed thereto in the Project Agreement.

In our capacity as counsel to Project Co, the Construction Contractor and the Service Provider, we have participated in the preparation and negotiation, and have examined an executed copy, of each of the following documents (unless otherwise indicated, all documents are dated as of November 15, 2022):

1. the Project Agreement; and

2. the following project documents (collectively, the “**Implementation Documents**”):
- (a) the Construction Contract;
 - (b) the Service Contract;
 - (c) the Lenders’ Direct Agreement;
 - (d) the Construction Contractor’s Direct Agreement;
 - (e) the Service Provider’s Direct Agreement;
 - (f) the Lending Agreements;
 - (g) the Insurance Trust Agreement;
 - (h) the Performance Bond;
 - (i) the Multiple Obligee Rider to the Performance Bond;
 - (j) the Labour and Material Payment Bond;
 - (k) the Multiple Obligee Rider to the Labour and Material Payment Bond;
 - (l) the Custody Agreement;
 - (m) the Independent Certifier Agreement;
 - (n) the Civil Project Interface Agreements; and
 - (o) the Performance Guarantees.
 - (p) *[Note to Completion: List other documents delivered at the date of the Project Agreement.]*

The Project Agreement and the Implementation Documents are hereinafter collectively referred to as the “**Documents**”, and each is individually referred to as a “**Document**”. *[Note to Completion: Additional documents to be added depending on consortium structure and/or the financing package.]*

We are qualified to practise law in the Province of Ontario. We have made no investigation of the laws of any jurisdiction other than Ontario, and the opinions expressed below are confined to the laws of Ontario and the federal laws of Canada applicable therein as at the date hereof.

We do not act as corporate counsel to [**Project Co, the Construction Contractor or the Service Provider**], nor have we participated in the general maintenance of their corporate records and corporate proceedings. Therefore, in expressing certain of the opinions below, we have, where indicated, relied exclusively, and without any independent investigation or enquiry, on certificates of public officials and a

certificate of an officer of each of Project Co, the Construction Contractor and the Service Provider dated as of the date hereof (the “**Officer’s Certificates**”) as to certain factual matters.

Searches and Reliance

We have conducted, or have caused to be conducted, the searches identified in Schedule “A” (the “**Searches**”) for filings or registrations made in those offices of public record listed in Schedule “A”. The Searches were conducted against the current name and all former names of Project Co, the Construction Contractor and the Service Provider (including, in each case, both the English and French versions, if any). The results of the Searches are set out in Schedule “A”.

We have also made such investigations and examined originals or copies, certified or otherwise identified to our satisfaction, of such certificates of public officials and of such other certificates, documents and records as we have considered necessary or relevant for purposes of the opinions expressed below, including the Officer’s Certificates.

We have relied exclusively, and without any independent investigation or enquiry, on the Officer’s Certificates and the certificates of public officials with respect to certain factual matters.

In connection with the opinions set forth in paragraphs 1, 2 and 3 below, we have relied exclusively on Certificates of Status issued by the [**Ministry of Government Services (Ontario)**] of even date, copies of which are attached as Schedule “B”.

Assumptions

For the purposes of the opinions expressed herein, we have assumed:

1. The genuineness of all signatures, the authenticity of all documents submitted to us as originals, the conformity to originals of all documents submitted to us as certified, true, conformed, photostatic or notarial copies or facsimiles thereof and the authenticity of the originals of such certified, true, conformed, photostatic or notarial copies or facsimiles.
2. Each of the parties (other than Project Co, the Construction Contractor and the Service Provider) to each of the Documents is and was, at all relevant times, a subsisting corporation, partnership, limited partnership, limited liability company or trust, as applicable, under the laws of its jurisdiction of formation.
3. Each of the parties (other than Project Co, the Construction Contractor and the Service Provider) has (and had) the corporate power, authority and capacity to own its property and assets and to carry on its business as such business is now (or as was then) being carried on by it, has (or had) all requisite corporate power, authority and capacity to execute and deliver each Document to which it is party and to perform its obligations thereunder, has taken all necessary corporate action, as applicable, to authorize the execution and delivery of each Document to which it is a party and the performance of its obligations thereunder, and has duly executed and delivered each Document to which it is a party and each Document to which it is a party is a legal, valid and binding obligation of such party enforceable against it in accordance with its terms.
4. The completeness, truth and accuracy of all facts set forth in the Officer’s Certificates.

5. The completeness, truth and accuracy of all facts set forth in official public records and certificates and other documents supplied by public officials.
6. Value has been given by each of the parties (other than Project Co, the Construction Contractor and the Service Provider) to Project Co, the Construction Contractor and the Service Provider.

Opinions

Based upon and subject to the foregoing, and to the qualifications, exceptions and limitations hereinafter expressed, we are of the opinion that, as of the date hereof:

INCORPORATION AND EXISTENCE

7. Project Co is a [REDACTED] formed under the laws of Alberta and has not been dissolved.
8. The Construction Contractor is an [REDACTED] between [REDACTED] and [REDACTED], an [REDACTED] between [REDACTED] and [REDACTED].
9. The Service Provider is an [REDACTED] between [REDACTED] and [REDACTED].

CORPORATE POWER AND CAPACITY

10. Project Co has the corporate power and capacity to own or lease its properties and assets, to carry on its business as it is currently being conducted and as it is contemplated to be conducted under the Project Agreement, and to enter into and perform its obligations under each of the Documents to which it is a party.
11. The Construction Contractor has the corporate power and capacity to own or lease its properties and assets, to carry on its business as it is currently being conducted and as it is contemplated to be conducted under the Documents, and to enter into and perform its obligations under each of the Documents to which it is a party.
12. The Service Provider has the corporate power and capacity to own or lease its properties and assets, to carry on its business as it is currently being conducted and as it is contemplated to be conducted under the Documents, and to enter into and perform its obligations under each of the Documents to which it is a party.

CORPORATE AUTHORIZATION

13. Project Co has taken all necessary corporate action to authorize the execution and delivery of, and the performance of its obligations under, each of the Documents to which it is a party.
14. The Construction Contractor has taken all necessary corporate action to authorize the execution and delivery of, and the performance of its obligations under, each of the Documents to which it is a party.

15. The Service Provider has taken all necessary corporate action to authorize the execution and delivery of, and the performance of its obligations under, each of the Documents to which it is a party.

EXECUTION AND DELIVERY

16. Project Co has duly executed and delivered each of the Documents to which it is a party.
17. The Construction Contractor has duly executed and delivered each of the Documents to which it is a party.
18. The Service Provider has duly executed and delivered each of the Documents to which it is a party.

ENFORCEABILITY

19. Each of the Documents to which Project Co is a party constitutes a legal, valid and binding obligation of Project Co, enforceable against it in accordance with its terms.
20. Each of the Documents to which the Construction Contractor is a party constitutes a legal, valid and binding obligation of the Construction Contractor, enforceable against it in accordance with its terms.
21. Each of the Documents to which the Service Provider is a party constitutes a legal, valid and binding obligation of the Service Provider, enforceable against it in accordance with its terms.

NO BREACH OR DEFAULT

22. The execution and delivery by Project Co of the Documents to which it is a party does not, and the performance by Project Co of its obligations under each such Document in accordance with its terms will not, breach or constitute a default under (i) its articles, by-laws or unanimous shareholders' agreement, or (ii) the provisions of any law, statute, rule or regulation to which Project Co is subject.
23. The execution and delivery by the Construction Contractor of the Documents to which it is a party does not, and the performance by the Construction Contractor of its obligations under each such Document in accordance with its terms will not, breach or constitute a default under (i) its articles, by-laws or unanimous shareholders' agreement, or (ii) the provisions of any law, statute, rule or regulation to which the Construction Contractor is subject.
24. The execution and delivery by the Service Provider of the Documents to which it is a party does not, and the performance by the Service Provider of its obligations under each such Document in accordance with its terms will not, breach or constitute a default under (i) its articles, by-laws or unanimous shareholders' agreement, or (ii) the provisions of any law, statute, rule or regulation to which the Service Provider is subject.

REGULATORY APPROVALS

25. No authorization, consent, permit or approval of, or other action by, or filing with or notice to, any governmental agency or authority, regulatory body, court, tribunal or other similar entity having jurisdiction is required in connection with the execution and delivery by Project Co of the Documents to which it is a party and the performance of its obligations thereunder.
26. No authorization, consent, permit or approval of, or other action by, or filing with or notice to, any governmental agency or authority, regulatory body, court, tribunal or other similar entity having jurisdiction is required in connection with the execution and delivery by the Construction Contractor of the Documents to which it is a party and the performance of its obligations thereunder.
27. No authorization, consent, permit or approval of, or other action by, or filing with or notice to, any governmental agency or authority, regulatory body, court, tribunal or other similar entity having jurisdiction is required in connection with the execution and delivery by the Service Provider of the Documents to which it is a party and the performance of its obligations thereunder.

Qualifications

Our opinions herein are subject to the following qualifications and reservations, namely:

1. The enforceability of any Document and the rights and remedies set out therein or any judgment arising out of or in connection therewith is subject to and may be limited by any applicable bankruptcy, reorganization, winding-up, insolvency, moratorium or other laws of general application affecting creditors' rights from time to time in effect.
2. The enforceability of each of the Documents and the rights and remedies set out therein is subject to and may be limited by general principles of equity, and no opinion is given as to any specific remedy that may be granted, imposed or rendered, including equitable remedies such as those of specific performance and injunction, or the availability of equitable defences.
3. The enforceability of any Document will be subject to the limitations contained in the *Limitations Act, 2002* (Ontario), and we express no opinion as to whether a court may find any provision of any Document to be unenforceable as an attempt to vary or exclude a limitation period under that Act.
4. Pursuant to the *Currency Act* (Canada), a judgment in money rendered by a Court in the Province of Ontario must be awarded in Canadian currency and such judgment may be based on a rate of exchange in effect other than the day of payment of the judgment.
5. To the extent that a particular contractual provision is characterized by a Court as a penalty and not as a genuine pre-estimate of damages, it will not be enforceable.
6. A Court may not treat as conclusive those certificates and determinations which the Documents state are to be so treated.

7. A receiver or receiver and manager appointed pursuant to the provisions of any Document, for certain purposes, may not be treated by a Court as being solely the agent of Project Co notwithstanding any agreement to the contrary.
8. The ability to recover or claim for certain costs or expenses may be subject to judicial discretion.
9. With respect to any provisions of the Documents pursuant to which the parties to such Documents are permitted or required to submit a dispute arising out of such Documents to arbitration, we express no opinion as to the enforceability of such arbitration provisions in all circumstances since under the *Arbitration Act, 1991* (Ontario) a court of competent jurisdiction in Ontario may, in its discretion and upon certain grounds, refuse to stay judicial proceedings in which event an arbitration under such arbitration provisions may not be commenced or continued. In addition, the *Arbitration Act, 1991* (Ontario) provides that a court may hear an appeal of an arbitration award on a question of law or set aside an arbitration award or declare it invalid, in each case on certain prescribed grounds.
10. Any requirement in any of the Documents that interest be paid at a higher rate after than before default may not be enforceable.
11. The effectiveness of provisions which purport to relieve a person from a liability or duty otherwise owed may be limited by law, and provisions requiring indemnification or reimbursement may not be enforced by a Court, to the extent that they relate to the failure of such person to perform such duty or liability.
12. No opinion is expressed as to the enforceability of any provision contained in any Document which purports to sever from the Document any provision therein which is prohibited or unenforceable under applicable law without affecting the enforceability or validity of the remainder of the document.
13. No opinion is expressed regarding any waiver of service of process, presentment, demand, protest or notice of dishonour which may be contained in any of the Documents.
14. Any award of costs is in the discretion of a Court of competent jurisdiction.
15. The enforceability of rights of indemnity set out in the Documents may be limited under applicable law to the extent that they directly or indirectly relate to liabilities imposed by law on Contracting Authority for which it would be contrary to public policy to require Project Co to indemnify Contracting Authority or to the extent that they constitute the indirect enforcement of a foreign revenue or penal law.
16. We express no opinion as to the enforceability by any person who is not a party to the Documents of any provision therein that purports to bind or affect or confer a benefit on such person.

This opinion is being delivered solely in connection with the transaction addressed herein and may not be relied upon by any person other than the addressees, and their successors and permitted assigns, or for any purpose other than the transaction addressed herein.

Yours very truly,

Confidential

SCHEDULE 3

CUSTODY AGREEMENT

THIS AGREEMENT is made as of the 15th day of November, 2022

BETWEEN:

METROLINX, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency in accordance with the *Crown Agency Act*, R.S.O. 1990, c. 48

(“**Contracting Authority**”)

AND:

[REDACTED]

(the “**Custodian**”)

AND:

[REDACTED]

(the “**Lenders’ Agent**”)

AND:

CONNECT 6IX GENERAL PARTNERSHIP, [REDACTED]

(“**Project Co**”)

WHEREAS:

- A. Contracting Authority and Project Co (collectively, the “**PA Parties**” and each, a “**PA Party**”) have entered into the Project Agreement.
- B. Pursuant to the terms of the Project Agreement, the PA Parties wish to appoint the Custodian, and the Custodian wishes to accept such appointment, to perform certain services in connection with the Project Agreement.
- C. The PA Parties and the Custodian wish to enter into this Custody Agreement in order to record the terms by which the Custodian shall perform such services.

NOW THEREFORE in consideration of the mutual covenants and agreements of the PA Parties and the Custodian herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the PA Parties and the Custodian covenant and agree as follows:

1. DEFINITIONS

In this Custody Agreement, including the recitals and appendices, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Custody Agreement) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) **“Contracting Authority”** has the meaning given in the preamble.
- (b) **“Contracting Authority Signatories”** has the meaning given in Section 6(a)(i).
- (c) **“Custodian”** has the meaning given in the preamble.
- (d) **“Custody Agreement”** has the meaning given in the Project Agreement.
- (e) **“Lenders’ Agent”** has the meaning given in the preamble.
- (f) **“Material”** means hard and electronic copies of the Financial Model.
- (g) **“PA Parties”** means Contracting Authority and Project Co, and **“PA Party”** means Contracting Authority or Project Co, as the context requires.
- (h) **“Party”** means Contracting Authority, the Custodian, Project Co or the Lenders’ Agent, and **“Parties”** means Contracting Authority, the Custodian, Project Co and the Lenders’ Agent.
- (i) **“Project Agreement”** means the project agreement made on or about November 15, 2022 between Contracting Authority and Project Co.
- (j) **“Project Co”** has the meaning given in the preamble.
- (k) **“Project Co Signatory”** has the meaning given in Section 6(a)(ii).
- (l) **“Step-Out Date”** has the meaning given in Section 14(e).

2. Interpretation

This Custody Agreement shall be interpreted according to the following provisions, unless the context requires a different meaning:

- (a) The headings in this Custody Agreement are for convenience of reference only, shall not constitute a part of this Custody Agreement, and shall not be taken into consideration in the interpretation of, or affect the meaning of, this Custody Agreement.

- (b) Unless the context otherwise requires, references to specific Sections, Paragraphs, Subparagraphs, and other divisions are references to such Sections, Paragraphs, Subparagraphs, or divisions of this Custody Agreement and the terms “Section” and “Clause” are used interchangeably and are synonymous.
- (c) Words importing persons or parties are to be broadly interpreted and include an individual, corporation, firm, partnership, joint venture, trust, unincorporated organization, Governmental Authority, unincorporated body of persons or association and any other entity having legal capacity, and the heirs, beneficiaries, executors, administrators or other legal representatives of a person in such capacity.
- (d) Unless the context otherwise requires, wherever used herein the plural includes the singular, the singular includes the plural, and each of the masculine, feminine and neuter genders include all other genders.
- (e) References to any standard, principle, agreement or document include (subject to all relevant approvals and any other provisions of this Custody Agreement concerning amendments) a reference to that standard, principle, agreement or document as amended, supplemented, restated, substituted, replaced, novated or assigned.
- (f) The words in this Custody Agreement shall bear their natural meaning.
- (g) References containing terms such as:
 - (i) “hereof”, “herein”, “hereto”, “hereinafter”, and other terms of like import are not limited in applicability to the specific provision within which such references are set forth but instead refer to this Custody Agreement taken as a whole; and
 - (ii) “includes” and “including”, whether or not used with the words “without limitation” or “but not limited to”, shall not be deemed limited by the specific enumeration of items but shall, in all cases, be deemed to be without limitation and construed and interpreted to mean “includes without limitation” and “including without limitation”.
- (h) In construing this Custody Agreement, the rule known as the *ejusdem generis* rule shall not apply nor shall any similar rule or approach to the construction of this Custody Agreement and, accordingly, general words introduced or followed by the word “other” or “including” or “in particular” shall not be given a restrictive meaning because they are followed or preceded (as the case may be) by particular examples intended to fall within the meaning of the general words.
- (i) Where this Custody Agreement states that an obligation shall be performed “no later than” or “within” or “by” a stipulated date or event which is a prescribed number of days after a stipulated date or event, the latest time for performance shall be 5:00 p.m. on the last day for performance of the obligation concerned, or, if that day is not a Business Day, 5:00 p.m. on the next Business Day.
- (j) Where this Custody Agreement states that an obligation shall be performed “on” a stipulated date, the latest time for performance shall be 5:00 p.m. on that day, or, if that day is not a Business Day, 5:00 p.m. on the next Business Day.

- (k) Any reference to time of day or date means the local time or date in Toronto, Ontario.
- (l) Unless otherwise indicated, time periods will be strictly construed.
- (m) Whenever the terms “will” or “shall” are used in this Custody Agreement they shall be construed and interpreted as synonymous and to read “shall”.

3. Project Co’s Duties and Warranties

- (a) Contracting Authority will, together with Project Co, verify the identity and consistency of one copy of the Material, which shall be delivered by Project Co to the Custodian within five (5) Business Days following Financial Close under the Project Agreement.
- (b) Project Co shall at all times ensure that the Material as delivered to the Custodian is capable of being used to generate the latest version of the Financial Model issued to Contracting Authority and shall deliver further copies of the Material to the Custodian as and when necessary.
- (c) Upon creation of any new versions of the Financial Model and within thirty (30) days from receipt of a notice served upon it by the Custodian under the provisions of Section 4(a)(v), the replacement copy of the Material shall be verified by the PA Parties in accordance with Section 3(a) and delivered by Project Co to the Custodian.
- (d) Project Co warrants that:
 - (i) it owns the Intellectual Property Rights in the Material and has authority to enter into this Custody Agreement;
 - (ii) the use of the Materials by Contracting Authority under the terms of this Custody Agreement shall not infringe any Intellectual Property Rights of any person; and
 - (iii) the Material delivered under Section 3(a) shall contain all information in human-readable form and on suitable media to enable a reasonably skilled programmer or analyst to understand, maintain and correct the Material without the assistance of any other person.

4. Custodian’s Duties

- (a) The Custodian shall:
 - (i) hold in safe custody all versions of the Financial Model delivered to it pursuant to the terms hereof, and the provisions of this Custody Agreement shall apply (with any necessary changes being made) to any revised Financial Model;
 - (ii) hold the Material in a safe and secure environment;
 - (iii) inform Project Co and Contracting Authority of the receipt of any copy of the Material;
 - (iv) at all times retain a copy of the latest verified deposit of the Material; and

- (v) promptly notify Project Co and Contracting Authority if it becomes aware at any time during the term of this Custody Agreement that any copy of the Material held by it has been lost, damaged or destroyed.
- (b) The Custodian shall not be responsible for procuring the delivery of the Material in the event of failure by Project Co to do so.
- (c) In accordance with Section 10, the Custodian shall allow the PA Parties, the Lenders' Agent and the auditor retained by the Lenders' Agent to inspect and audit the Financial Model from time to time.

5. Payment

- (a) In consideration of the Custodian performing the services contemplated by this Custody Agreement, Project Co shall pay the Custodian's fees as agreed from time to time between the Custodian and Project Co.

6. Release Events

- (a) The Custodian shall hold the Material to the order of the PA Parties and shall honour the instructions and signatures of:
 - (i) each President & CEO and designated signing officers of Contracting Authority or such other persons nominated by it and notified to the Custodian and Project Co in writing (the "**Contracting Authority Signatories**"); and
 - (ii) the President & CEO and designated signing officers of Project Co or such other person nominated by it and notified to the Custodian and Contracting Authority in writing (the "**Project Co Signatory**"),

and shall, subject to Section 6(b), upon receiving signed joint instructions from the Contracting Authority Signatories and the Project Co Signatory, release one copy of the Material to the person either named in such instructions or previously identified in writing by the Contracting Authority Signatories and the Project Co Signatory.

- (b) The PA Parties each agree that they shall give joint instructions to the Custodian for the release of the Material, in accordance with Section 6(a), on each occasion that the Material is required to be released pursuant to the Project Agreement or that the Material must be released to allow the Material to be maintained and/or corrected.
- (c) The Custodian shall release the Material to a duly authorized representative of Contracting Authority on any termination of the Project Agreement prior to the Expiry Date.

7. Records

- (a) The PA Parties shall be entitled, at reasonable hours and upon giving the Custodian reasonable notice, to inspect any records kept by the Custodian in accordance with this Custody Agreement.

8. Confidentiality

- (a) The Material shall remain the confidential property of Project Co and, in the event that the Custodian provides a copy of the Material to Contracting Authority, Contracting Authority shall be permitted to use the Material only in accordance with the intellectual property and confidentiality obligations in the Project Agreement.
- (b) The Custodian agrees for itself, its directors, officers, employees, sub-contractors and agents, to maintain all information and/or documentation in whatever form coming into its possession or to its knowledge under or in connection with this Custody Agreement in strictest confidence and secrecy. The Custodian further agrees not to make use of such information and/or documentation other than for the purposes of this Custody Agreement and will not disclose or release it other than in accordance with the terms of this Custody Agreement.
- (c) In the event that the Material is released under Section 6, Contracting Authority shall:
 - (i) use the Material only for the purpose of understanding, maintaining and correcting the Financial Model exclusively on behalf of Contracting Authority;
 - (ii) not use the Material for any other purpose nor disclose it to any person, save such of its employees or contractors who need to know the same in order to understand, maintain and correct the Financial Model exclusively on behalf of Contracting Authority;
 - (iii) hold all media containing the Material in a safe and secure environment when not in use; and
 - (iv) forthwith destroy the same should Contracting Authority cease to be entitled to use the Financial Model.

9. Intellectual Property Rights

- (a) The release of the Material to Contracting Authority and to the Custodian will not act as an assignment of any Intellectual Property Rights that Project Co possesses in the Material.

10. Inspection

- (a) Subject to the following provisions of this Section 10, the Custodian shall bear no obligation or responsibility to any person, firm, company or entity whatsoever to determine the existence, relevance, completeness, accuracy, effectiveness or any other aspect of the Financial Model.
- (b) The PA Parties shall be entitled, at reasonable hours and upon giving the Custodian reasonable notice, to inspect and audit or to procure the inspection and audit of the Financial Model in accordance with this Section 10.
- (c) The Custodian shall, upon receiving duly signed instructions from both of the PA Parties (but only upon receiving such instructions), provide facilities for Contracting Authority and/or Project Co and/or such person identified in the duly signed written instructions to inspect and audit the Financial Model.

- (d) The Custodian shall maintain a record of any inspection and audit made pursuant to Section 10(b), including details of the person who made the inspection and/or audit and the date of the same.

11. Custodian's Liability

- (a) The Custodian shall not be liable for any loss or damage caused to Project Co or Contracting Authority either jointly or severally except to the extent that such loss or damage is caused by the negligent acts or omissions of or a breach of any contractual duty by the Custodian, its employees, agents or sub-contractors, and in such event, the Custodian's total liability in respect of all claims arising under or by virtue of this Custody Agreement shall not (except in the case of claims for personal injury or death) exceed the sum of \$[REDACTED] (index-linked).
- (b) The Custodian shall in no circumstances be liable to Project Co or Contracting Authority for indirect or consequential loss of any nature whatsoever whether for loss of profit, loss of business or otherwise.
- (c) Subject to complying with the provisions of Section 6, and save in the case of manifest error, the Custodian shall be protected in acting upon any written request, waiver, consent, receipt or other document furnished to it pursuant to this Custody Agreement, not only in assuming its due execution and the validity and effectiveness of its provisions but also as to the truth and acceptability of any information contained in it, which the Custodian in good faith believes to be genuine and what it purports to be.
- (d) The duties, responsibilities and obligations of the Custodian shall be limited to those expressly set forth herein and no duties, responsibilities or obligations shall be inferred or implied. The Custodian shall not be subject to, nor required to comply with, any other agreement between or among any or all of the other Parties or to which any Party is a party, even though reference thereto may be made herein, or to comply with any direction or instruction (other than those contained herein or delivered in accordance herewith). The Custodian shall not be required to expend or risk any of its own funds or otherwise incur any financial liability in the performance of any of its duties hereunder except ordinary corporate costs incurred in the performance of such duties.
- (e) If at any time the Custodian is served with any judicial or administrative order, judgment, decree, writ or other form of judicial or administrative process which in any way affects the Material (including, but not limited to, orders of attachment or garnishment or other forms of levies or injunctions or stays relating to the transfer of property), the Custodian is authorized to comply therewith in any manner as it or its legal counsel deems appropriate, acting reasonably; provided that the Custodian, when so served, shall promptly notify Project Co and Contracting Authority, in writing, of such process and the Custodian's intended action in order to provide Project Co and Contracting Authority a reasonable opportunity to intervene or challenge such process in a court or tribunal of competent jurisdiction.
- (f) The Custodian may consult with legal counsel at the expense of Project Co and Contracting Authority as to any matter relating to this Custody Agreement, and the Custodian shall not incur any liability in acting in good faith in accordance with any advice from such counsel. All reasonable fees and disbursements incurred by the Custodian shall be added to the fees otherwise payable hereunder.

- (g) The Custodian shall not incur any liability for not performing any act or fulfilling any duty, obligation or responsibility hereunder by reason of any occurrence beyond the control of the Custodian (including, but not limited to, any act or provision of any present or future law or regulation or governmental authority, any act of God or war, or the unavailability of any wire or communication facility).
- (h) The Custodian shall not be responsible in any respect for the form or content of the Material delivered to it hereunder.
- (i) In the event of any ambiguity or uncertainty hereunder or in any notice, instruction or other communication received by the Custodian hereunder, the Custodian shall notify Project Co and Contracting Authority in writing of such ambiguity or uncertainty and request instructions to eliminate such ambiguity or uncertainty. The Custodian may, acting reasonably, refrain from taking any action other than to retain possession of the Material, unless the Custodian receives written instructions, signed by Project Co and Contracting Authority, which eliminates such ambiguity or uncertainty.
- (j) In the event of any dispute between or conflicting claims by or among the PA Parties and/or any other person or entity with respect to the Material, the Custodian shall be entitled, acting reasonably, to refuse to comply with any and all claims, demands or instructions with respect to the Material so long as such dispute or conflict shall continue, and the Custodian shall promptly notify Project Co and Contracting Authority of its intention to do so. In such circumstances, the Custodian shall not be or become liable in any way to Project Co or Contracting Authority for failure or refusal to comply with such conflicting claims, demands or instructions. The Custodian shall be entitled to refuse to act until, acting reasonably, either (i) such conflicting or adverse claims or demands shall have been determined by a final order, judgment or decree of a court of competent jurisdiction, which order, judgment or decree is not subject to appeal, or settled by agreement between the conflicting parties as evidenced in writing satisfactory to the Custodian or (ii) the Custodian shall have received security or an indemnity satisfactory to it acting reasonably sufficient to hold it harmless from and against any and all losses which it may incur by reason of so acting. The Custodian may, in addition, elect, acting reasonably, to commence an interpleader action or seek other judicial relief or orders as it may deem, acting reasonably, necessary, including, without limiting the generality of the foregoing, depositing all or any part of the Material into court. The costs and expenses (including reasonable attorneys' fees and expenses) incurred in connection with such proceeding shall be paid by, and shall be deemed a joint and several obligation of, Project Co and Contracting Authority.
- (k) Each of Project Co and Contracting Authority shall provide to the Custodian an incumbency certificate setting out the names and sample signatures of persons authorized to give instructions to the Custodian hereunder. The Custodian shall be entitled to rely on such certificate until a revised certificate is provided to it hereunder. The Custodian shall be entitled to refuse to act upon any instructions given by a party which are signed by any person other than a person described in the incumbency certificate provided to it pursuant to this Section 11.
- (l) The Custodian shall be entitled to rely, and act upon, on any direction, order, instruction, notice or other communication provided to it hereunder which is sent to it by electronic transmission.
- (m) This Section 11 shall survive the termination of this Custody Agreement.

12. Indemnity

- (a) Save for any claim falling within the provisions of Section 11(a), Project Co and Contracting Authority, on a joint and several basis, shall be liable for and shall indemnify and hold harmless the Custodian, and its officers, directors and employees, from and against any and all claims, losses, liabilities, costs, damages or expenses (including reasonable attorneys' fees and expenses) arising from or in connection with or related to this Custody Agreement or acting as Custodian hereunder (including, but not limited to, losses incurred by the Custodian in connection with its successful defense of any claim of negligence or willful misconduct on its part), provided, however, that nothing contained herein shall require the Custodian to be indemnified for losses caused by its negligence or willful misconduct.
- (b) Claims made by a third person against a party having, or claiming to have, the benefit of an indemnity pursuant to this Custody Agreement, shall be conducted in accordance with the conduct of claims procedure described in Appendix A – Conduct of Claims to this Custody Agreement.

13. Termination

- (a) The Custodian may terminate this Custody Agreement for failure by Project Co to pay any outstanding fee provided for herein within thirty (30) days of receipt of written notice in respect thereof.
- (b) The Custodian may terminate this Custody Agreement by giving one-hundred and twenty (120) days' prior written notice to Project Co and Contracting Authority. In that event, Project Co and Contracting Authority shall appoint a mutually acceptable new custodian on terms similar to those contained in this Custody Agreement.
- (c) If the Custodian is not notified of the new custodian within the notice period given in Section 13(b), the Custodian will destroy the Material.
- (d) Contracting Authority may terminate this Custody Agreement by giving thirty (30) days' prior written notice to the Custodian and Project Co.
- (e) Project Co may, with the prior written consent of Contracting Authority, terminate this Custody Agreement by giving thirty (30) days' prior written notice to the Custodian and Contracting Authority.
- (f) This Custody Agreement shall terminate upon release of the Material to Contracting Authority in accordance with Section 6(c).
- (g) Upon termination under the provisions of Sections 13(d) or 13(e), the Custodian will deliver the Material to Project Co. If the Custodian is unable to trace Project Co within sixty (60) days of writing to the last registered address notified by Project Co to the Custodian, the Custodian will destroy the Material.
- (h) Upon termination under the provisions of Section 13(a), the Material will be available for collection by Project Co from the Custodian for sixty (60) days from the date of termination. After such sixty (60) day period, the Custodian will destroy the Material.

- (i) The Custodian may forthwith terminate this Custody Agreement and destroy the Material if it is unable to trace Project Co within sixty (60) days of writing to the last registered address notified by Project Co to the Custodian having used all reasonable endeavours to do so.
- (j) The provisions of Sections 8, 11 and 12 shall continue in full force and effect after termination of this Custody Agreement.
- (k) The Agreement shall terminate on the Expiry Date, at which time Project Co will write to the Custodian requesting the release of the Materials to it. The Custodian agrees that it will notify Contracting Authority of Project Co's request and, failing receipt of any notice of objection from Contracting Authority within thirty (30) days of the receipt of the notice by Contracting Authority, it shall release the Materials to Project Co.
- (l) On termination of this Custody Agreement, Project Co shall remain liable to the Custodian for payment in full of any fee which has become due but which has not been paid as at the date of termination.

14. Step-In Rights

- (a) The Custodian shall, from time to time:
 - (i) permit Contracting Authority to perform or discharge any obligation of Project Co under this Custody Agreement, where Project Co is in breach of the same;
 - (ii) permit Project Co to perform or discharge any obligation of Contracting Authority under this Custody Agreement, where Contracting Authority is in breach of the same; and
 - (iii) following notification by the Lenders' Agent (who at the same time shall provide a copy of any such notification to Contracting Authority), permit the Lenders' Agent or another person specified in such notice with effect from the date specified in the same to perform or discharge all the obligations of Project Co under this Custody Agreement, provided that the Lenders' Agent shall have the benefit of and be entitled to enforce against the Custodian any and all of the Custodian's obligations to Project Co under this Custody Agreement and the Custodian undertakes to perform such obligations in favour of the Lenders' Agent.
- (b) Project Co consents to the performance or discharge of its obligations by Contracting Authority pursuant to Section 14(a)(i).
- (c) Contracting Authority consents to the performance or discharge of its obligations by Project Co pursuant to Section 14(a)(ii).
- (d) The PA Parties consent to the performance or discharge of Project Co's obligations by the Lenders' Agent pursuant to Section 14(a)(iii).
- (e) Contracting Authority or the Lenders' Agent shall be entitled to terminate the Lenders' Agent's obligations pursuant to Section 14(a)(iii) on giving the Custodian prior notice (Contracting Authority or the Lenders' Agent at the same time shall provide a copy of any such notification to the other party) of at least fifteen (15) Business Days. On and from the date of expiry of such notice

(the “**Step-Out Date**”), the Lenders’ Agent shall be automatically released from all obligations pursuant to this Custody Agreement, except for any which have fallen due for performance or discharge on or before the Step-Out Date and which have not been fully and unconditionally performed or discharged.

- (f) The occurrence of the Step-Out Date shall not affect the continuation of Project Co’s obligations towards the Custodian under this Custody Agreement.
- (g) The Lenders’ Agent is a Party to this Custody Agreement solely for the purposes of taking the benefit of its rights under Section 4(c) and this Section 14 and shall have no rights or obligations or liabilities hereunder, except pursuant to the operation of Section 4(c) and this Section 14.

15. Assignment

- (a) This Custody Agreement shall be binding on, and enure to the benefit of, the Custodian, Project Co and Contracting Authority and their respective successors and permitted transferees and assigns.
- (b) Project Co may assign, transfer or otherwise dispose of the benefit of this Custody Agreement to any person to whom Project Co assigns, transfers or otherwise disposes of its interest in the Project Agreement pursuant to Section 59.1 (*Project Co Assignment*) of the Project Agreement.
- (c) Contracting Authority may assign, transfer or otherwise dispose of the benefit of this Custody Agreement to any person to whom Contracting Authority assigns, transfers or otherwise disposes of its interest in the Project Agreement pursuant to Section 59.2 (*Contracting Authority Assignment*) of the Project Agreement.
- (d) The Custodian shall not, without the prior written consent of the PA Parties assign, transfer or otherwise dispose of the benefit of this Custody Agreement to any person.
- (e) The Custodian acknowledges that Project Co has granted a security interest over its rights under this Custody Agreement to the Lenders’ Agent.

16. Notices

- (a) All notices, requests, demands, instructions, certificates, consents and other communications required or permitted under this Custody Agreement shall be in writing (whether or not “written notice” or “notice in writing” is specifically required by the applicable provision of this Custody Agreement) and served by sending the same by registered mail, by hand (in each case, with a copy by electronic submission to the Contracting Authority Representative), or by electronic submission, as follows:

If to Contracting Authority or
Contracting Authority
Representative:

Metrolinx
2 Queen Street East, 11th Floor
Toronto, Ontario
M5C 3G7

Attn.: [REDACTED]

Email: [REDACTED]

If to Project Co: [REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

with a copy to:

[REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

and:

[REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

and:

[REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

If to the Custodian: [REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

If to the Lenders' Agent: [REDACTED]

Attn.: [REDACTED]

Email: [REDACTED]

- (b) Where any notice is provided or submitted to a Party via electronic submission, an original of the notice sent via electronic submission shall promptly be sent by regular mail or registered mail. For greater certainty, a notice given via electronic submission shall not be invalid by reason only of a Party's failure to comply with this Section 16(b).
- (c) Any Party to this Custody Agreement may, from time to time, change any of its contact information set forth in Section 16(a) by prior notice to the other Parties, and such change shall be effective on the Business Day that next follows the recipient Party's receipt of such notice unless a later effective date is given in such notice.

- (d) Subject to Sections 16(e), 16(f) and 16(g):
 - (i) a notice given by registered mail shall be deemed to have been received on the third (3rd) Business Day after mailing;
 - (ii) a notice given by hand delivery shall be deemed to have been received on the day it is delivered; and
 - (iii) a notice given by electronic submission shall be deemed to have been received on the day it is transmitted by electronic submission.
- (e) If the Party giving the notice knows or ought reasonably to know of difficulties with the postal system which might affect negatively the delivery of mail, any such notice shall not be mailed but shall be made or given by personal delivery or by electronic submission in accordance with this Section 16.
- (f) If any notice delivered by hand or transmitted by electronic submission is so delivered or transmitted, as the case may be, either on a day that is not a Business Day or on a Business Day after 4:00 p.m. (recipient's local time), then such notice shall be deemed to have been received by such recipient on the next Business Day.
- (g) A notice given by electronic submission shall be deemed to have been received by the recipient on the day it is transmitted only if an electronic submission report (maintained by the sender) indicates that the transmission of such notice was successful.

17. Right to Designate

- (a) At any time and from time to time, the Crown may designate any ministry, branch, agency, division, department or office of the Government of Ontario to carry out administrative responsibility for the rights and obligations of Contracting Authority under this Custody Agreement and Project Co, the Custodian and the Lenders' Agent may deal exclusively with the designated person in respect of all such matters and are entitled to rely on the actions, directions, requests, notices, consents, approvals, waivers, comments relating to the review of documentation and other administrative matters and decisions determined by such designated person from time to time, until the Crown has notified Project Co, the Custodian and the Lenders' Agent in writing that such designated person is no longer the person designated by the Crown hereunder and such notice shall have effect on the later of the date of delivery of such notice and the date specified in the written notice. The Crown shall advise Project Co, the Custodian and the Lenders' Agent in writing of any designation hereunder. The rights and obligations of the Parties to this Custody Agreement shall be in no way affected by reason of any such designation. Project Co, the Custodian and the Lenders' Agent acknowledge the right of the Crown to delegate administrative responsibilities hereunder as set forth in this Section 17.

18. Amendments

- (a) This Custody Agreement may not be varied, amended or supplemented except by an agreement in writing signed by duly authorized representatives of the Parties and stating on its face that it is

intended to be an amendment, restatement or other modification, as the case may be, to this Custody Agreement.

19. Waiver

- (a) No waiver made or given by a Party under or in connection with this Custody Agreement shall be binding or effective unless the waiver is in writing, signed by an authorized representative of the Party giving such waiver, and delivered by such Party to the other Parties. No waiver made with respect to any right, power or remedy in one instance will be deemed to be a waiver with respect to any other instance involving the exercise of such right, power, or remedy or with respect to any other right, power, or remedy.
- (b) Failure by any Party to exercise any of its rights, powers or remedies hereunder or its delay to do so shall not constitute a waiver of those rights, powers or remedies. The single or partial exercise of a right, power or remedy shall not prevent its subsequent exercise or the exercise of any other right, power or remedy.

20. Relationship Between the Parties

- (a) The Parties are independent contractors. This Custody Agreement is not intended to and does not create or establish between the Parties any relationship as partners, joint venturers, trustee and beneficiary, employer and employee, master and servant, or principal and agent.

21. Entire Agreement

- (a) Except where provided otherwise in this Custody Agreement, this Custody Agreement and the Project Agreement constitute the entire agreement between the Parties in connection with the subject matter of this Custody Agreement and supersede all prior representations, communications, negotiations and understandings, whether oral, written, express or implied, concerning the subject matter of this Custody Agreement.

22. Severability

- (a) Each provision of this Custody Agreement shall be valid and enforceable to the fullest extent permitted by law. If any provision of this Custody Agreement is declared invalid, unenforceable or illegal by the courts of a competent jurisdiction, such provision may be severed and such invalidity, unenforceability or illegality shall not prejudice or affect the validity, enforceability and legality of the remaining provisions of this Custody Agreement. If any such provision of this Custody Agreement is invalid, unenforceable or illegal, the Parties shall, acting in good faith, promptly negotiate new provisions to eliminate such invalidity, unenforceability or illegality and to restore this Custody Agreement as near as possible to its original intent and effect.

23. Enurement

- (a) This Custody Agreement shall enure to the benefit of, and be binding on, each of the Parties and their respective successors and permitted transferees and assigns.

24. Governing Law and Jurisdiction

- (a) This Custody Agreement shall be governed by and construed in accordance with the laws of Ontario and the laws of Canada applicable therein and shall be treated in all respects as an Ontario contract, without regard to conflict of laws principles.
- (b) The Parties agree that the courts of the Province of Ontario and all courts competent to hear appeals therefrom shall have exclusive jurisdiction to hear and settle any action, suit, proceeding or dispute in connection with this Custody Agreement and hereby irrevocably attorn to the exclusive jurisdiction of such courts.
- (c) Nothing in this Custody Agreement affects the rights, protections and immunities of the Crown under the *Crown Liability and Proceedings Act* (Ontario).

25. Further Assurance

- (a) Each Party shall do all things, from time to time, and execute all further documents necessary to give full effect to this Custody Agreement.

26. Language of Agreement

- (a) Each Party acknowledges having requested and being satisfied that this Custody Agreement and related documents be drawn in English. *Chacune des parties reconnaît avoir demandé que ces documents soient rédigés en anglais et s'en declare satisfaite.*

27. Proof of Authority

- (a) Contracting Authority reserves the right to require any person executing this Custody Agreement on behalf of Project Co or the Lenders' Agent to provide proof, in a form acceptable to Contracting Authority, that such person has the requisite authority to execute this Custody Agreement on behalf of and to bind Project Co or the Lenders' Agent, respectively.

28. Counterparts

- (a) This Custody Agreement may be executed in one or more counterparts. Any single counterpart or a set of counterparts executed, in either case, by all of the Parties shall constitute a full, original and binding agreement for all purposes. Delivery of an executed counterpart by sending a copy by electronic mail or other electronic transmission shall be as effective as the manual delivery of an executed counterpart.

29. Liability

- (a) Metrolinx, as Crown agency, shall be liable for all of the obligations of Contracting Authority under this Custody Agreement.

30. Copyright Notice

- (a) The Parties acknowledge that the King’s Printer for Ontario is the exclusive owner of the copyright in the Project Agreement and this Custody Agreement.

[REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF the Parties have executed this Custody Agreement as of the date first above written.

APPENDIX A TO SCHEDULE 3

CONDUCT OF CLAIMS

This Appendix A shall apply to the conduct of claims, made by a third person against a party having, or claiming to have, the benefit of an indemnity pursuant to this Custody Agreement. The party having, or claiming to have, the benefit of the indemnity is referred to as the “**Beneficiary**” and Contracting Authority and Project Co are referred to, collectively, as the “**Indemnifier**”.

- (1) If the Beneficiary receives any notice, demand, letter or other document concerning any claim for which it appears that the Beneficiary is, or may become entitled to, indemnification under Section 12 of the Custody Agreement, the Beneficiary shall give written notice to the Indemnifier as soon as reasonably practicable and in any event within ten (10) Business Days of receipt of the same. Such notice shall specify with reasonable particularity, to the extent that information is available, the factual basis for the claim and the amount of the claim.
- (2) Subject to Sections (3), (4) and (5) of this Appendix A, on the giving of such notice by the Beneficiary, where it appears that the Beneficiary is or may be entitled to indemnification from the Indemnifier in respect of all, but not part only, of the liability arising out of the claim, the Indemnifier shall be entitled to dispute the claim in the name of the Beneficiary at the Indemnifier’s own expense and take conduct of any defence, dispute, compromise, or appeal of the claim and of any incidental negotiations. In such case, Contracting Authority may, but shall not be obligated to, assume (on prior written notice to Project Co) control of any such defence for and on behalf of itself and Project Co, and Project Co hereby consents to such assumption. The Beneficiary shall give the Indemnifier all reasonable cooperation, access and assistance for the purposes of considering and resisting such claim. The Beneficiary shall have the right to employ separate counsel in respect of such claim at its own cost and expense.
- (3) With respect to any claim conducted by the Indemnifier:
 - (i) the Indemnifier shall keep the Beneficiary fully informed and consult with it about material elements of the conduct of the claim;
 - (ii) the Indemnifier shall not bring the name or reputation of the Beneficiary into disrepute;
 - (iii) the Indemnifier shall not pay, compromise or settle such claims without the prior consent of the Beneficiary, such consent not to be unreasonably withheld or delayed;
 - (iv) the Indemnifier shall not admit liability or fault to any third party without the prior consent of the Beneficiary, such consent not to be unreasonably withheld or delayed; and
 - (v) the Indemnifier shall use commercially reasonable efforts to have the Beneficiary named as a beneficiary under any release given by the persons bringing the claim to which Section (3) of this Appendix A relates.
- (4) The Beneficiary shall be free to pay or settle any such claim on such terms as it thinks fit and without prejudice to its rights and remedies under this Custody Agreement if:

- (i) the Indemnifier is not entitled to take conduct of the claim in accordance with Section (2) of this Appendix A; or
 - (ii) the Indemnifier fails to notify the Beneficiary of its intention to take conduct of the relevant claim as soon as reasonably practicable and in any event within ten (10) Business Days of the notice from the Beneficiary under Section (1) of this Appendix A or the Indemnifier notifies the Beneficiary that the Indemnifier does not intend to take conduct of the claim.
- (5) The Beneficiary shall be free at any time to give notice to the Indemnifier that the Beneficiary is retaining or taking over, as the case may be, the conduct of any defence, dispute, compromise or appeal of any claim, or of any incidental negotiations, to which Section (2) of this Appendix A applies. On receipt of such notice the Indemnifier shall promptly take all steps necessary to transfer the conduct of such claim to the Beneficiary, and shall provide to the Beneficiary all relevant documentation and all reasonable cooperation, access and assistance for the purposes of considering and resisting such claim. If the Beneficiary gives any notice pursuant to this Section (5) of this Appendix A, then the Indemnifier shall be released from any liabilities arising under the applicable indemnity hereunder in respect of the applicable claim.
- (6) If the Indemnifier pays to the Beneficiary an amount in respect of an indemnity and the Beneficiary subsequently recovers, whether by payment, discount, credit, saving, relief or other benefit or otherwise, a sum or anything else of value (the “**Recovery Amount**”), the Beneficiary shall forthwith repay to the Indemnifier whichever is the lesser of:
- (i) an amount equal to the Recovery Amount less any out-of-pocket costs and expenses properly incurred by the Beneficiary in recovering the same; and
 - (ii) the amount paid to the Beneficiary by the Indemnifier in respect of the claim under the relevant indemnity,
- provided that there shall be no obligation on the Beneficiary to pursue any Recovery Amount and that the Indemnifier shall be repaid only to the extent that the Recovery Amount, aggregated with any sum recovered from the Indemnifier, exceeds the loss sustained by the Beneficiary except, however, that if the Beneficiary elects not to pursue a Recovery Amount, the Indemnifier shall be entitled to require an assignment to it of the right to do so.
- (7) Any person taking any of the steps contemplated by this Appendix A shall comply with the requirements of any insurer who may have an obligation to provide an indemnity in respect of any liability arising under this Custody Agreement.

SCHEDULE 4

LENDERS' DIRECT AGREEMENT

THIS AGREEMENT is made as of the 15th day of November, 2022

BETWEEN:

METROLINX, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency in accordance with the *Crown Agency Act*, R.S.O. 1990, c. 48

(“**Contracting Authority**”)

AND:

[REDACTED], acting as agent for and on behalf of the Lenders and the Hedge Providers

(the “**Lenders' Agent**”)

AND:

CONNECT SIX GENERAL PARTNERSHIP, [REDACTED]

(“**Project Co**”)

WHEREAS:

- A. Contracting Authority and Project Co have entered into the Project Agreement.
- B. Under the Lending Agreements, financing is to be provided to Project Co by the Lenders to finance the Project Operations, conditional on, among other things, Project Co granting the Security to the Lenders' Agent.
- C. The Lenders' Agent has agreed to enter into this Lenders' Direct Agreement with Contracting Authority in relation to the Security, the exercise of its rights under the Security Documents and the remedying of breaches by Project Co under the Project Agreement.
- D. With a view to ensuring that Contracting Authority is able to properly and effectively discharge its duties, functions and responsibilities under Applicable Law, Project Co, the Lenders' Agent and the Lenders commit to working collaboratively, responsibly and cooperatively with Contracting Authority throughout the Project Term.

NOW THEREFORE in consideration of the mutual covenants and agreements of the Parties hereinafter contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties covenant and agree as follows:

1. DEFINITIONS

In this Lenders' Direct Agreement, including the recitals and appendices, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Lenders' Direct Agreement) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) “**Affiliate**” has the meaning given in the Project Agreement.
- (b) “**Appointed Representative**” means any of the following to the extent so identified in an Appointed Representative Notice:
 - (i) the Lenders' Agent, any Lender or any of their Affiliates;
 - (ii) a receiver or receiver and manager of Project Co appointed under the Security Documents;
 - (iii) a trustee in bankruptcy or court-appointed receiver of Project Co;
 - (iv) an administrator of Project Co;
 - (v) a person directly or indirectly owned or controlled by the Lenders' Agent and/or any of the Lenders; or
 - (vi) any other person approved by Contracting Authority (such approval not to be unreasonably withheld or delayed).
- (c) “**Appointed Representative Notice**” has the meaning given in Section 8(b).
- (d) “**Business Day**” has the meaning given in the Project Agreement.
- (e) “**Change in Control**” has the meaning given in the Project Agreement.
- (f) “**Change in Ownership**” has the meaning given in the Project Agreement.
- (g) “**Confidential Information**” has the meaning given in the Project Agreement.
- (h) “**Contracting Authority**” has the meaning given in the preamble.
- (i) “**Contracting Authority Project Documents**” means the Project Agreement and all other documents to which Contracting Authority and Project Co are parties pursuant to or in connection with the Project Agreement.
- (j) “**Contractors**” has the meaning given in the Project Agreement.
- (k) “**Contracts**” has the meaning given in the Project Agreement.
- (l) “**Crown**” has the meaning given in the Project Agreement.

- (m) “**Cure Period**” means the period starting on the date of delivery of a Default Notice and ending on the later of the expiry of (i) the Notice Period and (ii) the Remedial Plan Period.
- (n) “**Deduction**” has the meaning given in the Project Agreement.
- (o) “**Default Notice**” has the meaning given in Section 7(b)(i).
- (p) “**Direct Agreements**” has the meaning given in the Project Agreement.
- (q) “**Enforcement Action**” means any acceleration of amounts due and owing to any of the Lenders under any of the Lending Agreements and/or any enforcement proceeding or enforcement action commenced or taken under any of the Security Documents.
- (r) “**Enforcement Event**” means an event of default as defined in the Lending Agreements which permits an Enforcement Action, or any other event which permits an Enforcement Action.
- (s) “**Equity Capital**” has the meaning given in the Project Agreement.
- (t) “**Exercise Date**” has the meaning given in Section 12(b).
- (u) “**Extension Period**” has the meaning given in Section 7(g)(iii).
- (v) “**Failure Points**” has the meaning given in the Project Agreement.
- (w) “**Financial Close**” has the meaning given in the Project Agreement.
- (x) “**Governmental Authority**” has the meaning given in the Project Agreement.
- (y) “**Indebtedness Notice**” has the meaning given in Section 7(b)(ii).
- (z) “**Lender Representative**” means a representative (which may be the Lenders’ Agent) acting as agent or trustee for and on behalf of all of the Lenders lending to a Suitable Substitute.
- (aa) “**Lenders**” has the meaning given in the Project Agreement.
- (bb) “**Lenders’ Agent**” has the meaning given in the preamble.
- (cc) “**Lenders’ Consultant**” has the meaning given in the Project Agreement.
- (dd) “**Lenders’ Direct Agreement**” means this lenders’ direct agreement.
- (ee) “**Lending Agreements**” has the meaning given in the Project Agreement.
- (ff) “**Monitoring Notice**” has the meaning given in the Project Agreement.
- (gg) “**Notice Period**” means the period starting on the date of delivery of a Default Notice and expiring on the latest of:

- (i) thirty (30) days from the start of the Notice Period;
- (ii) ninety (90) days from the start of the Notice Period, provided that the Lenders' Agent provides notice to Contracting Authority within thirty (30) days from the start of the Notice Period (A) confirming that the Lenders' Agent has delivered the Default Notice to the Lenders and (B) identifying each of the Lenders; or
- (iii) on the applicable expiry date as specified in Section 7(g), provided that the Lenders' Agent:
 - (A) within thirty (30) days from the start of the Notice Period, provides the notice to Contracting Authority in Section 1(gg)(ii) above;
 - (B) within sixty (60) days from the start of the Notice Period, provides notice to Contracting Authority confirming that the Lenders, in consultation with the Lenders' Consultant, intend to develop a Remedial Plan within; and
 - (C) within seventy-five (75) days from the start of the Notice Period, delivers such Remedial Plan to Contracting Authority.
- (hh) "**Novation Date**" has the meaning given in Section 10(a).
- (ii) "**Novation Notice**" has the meaning given in Section 10(a).
- (jj) "**Party**" means any of Contracting Authority, Project Co or the Lenders' Agent, and "**Parties**" means all of Contracting Authority, Project Co and the Lenders' Agent.
- (kk) "**Project**" has the meaning given in the Project Agreement.
- (ll) "**Project Agreement**" means the project agreement made on or about the date hereof between Contracting Authority and Project Co.
- (mm) "**Project Co**" has the meaning given in the preamble.
- (nn) "**Project Co Party**" has the meaning given in the Project Agreement.
- (oo) "**Project Operations**" has the meaning given in the Project Agreement.
- (pp) "**Remedial Plan**" means a plan specifying the remedial action to be taken in respect of the relevant Project Co Event of Default, including a schedule for diligently remedying the Project Co Event of Default, which schedule shall specify in reasonable detail the manner in, and the latest date by which, such Project Co Event of Default is proposed to be remedied.
- (qq) "**Remedial Plan Period**" means the period starting on the date of acceptance by Contracting Authority of a Remedial Plan and ending on the earliest of:
 - (i) the date the Project Co Event of Default(s) to which such Remedial Plan relates is remedied; and

- (ii) the date set out in such Remedial Plan by which the relevant Project Co Event of Default(s) is proposed to be remedied.
- (rr) “**Restricted Person**” has the meaning given in the Project Agreement.
- (ss) “**Security**” means the Performance Security, the Insurance and any security interests granted to the Lenders’ Agent pursuant to the Security Documents.
- (tt) “**Security Documents**” means all security granted by Project Co or others to the Lenders (or any trustee or agent thereof, including the Lenders’ Agent) pursuant to or in connection with the Lending Agreements, including but not limited to:
 - (i) the general security agreement made on or about the date hereof among Project Co, [REDACTED], [REDACTED], [REDACTED], [REDACTED] and [REDACTED] and the Lenders’ Agent;
 - (ii) the limited recourse guarantee and pledge agreement made on or about the date hereof among [REDACTED], [REDACTED] and the Lenders’ Agent;
 - (iii) the limited recourse guarantee and pledge agreement made on or about the date hereof between [REDACTED] and the Lenders’ Agent;
 - (iv) the limited recourse guarantee and pledge agreement made on or about the date hereof between [REDACTED] and the Lenders’ Agent;
 - (v) the deed of hypothec made on or about the date hereof between [REDACTED] and the Lenders’ Agent;
 - (vi) the account control agreement made on or about the date hereof among Project Co, the Lenders’ Agent and [REDACTED], as account bank; and
 - (vii) the Direct Agreements.
- (uu) “**Step-In Date**” means the date on which Contracting Authority receives a Step-In Notice from the Lenders’ Agent.
- (vv) “**Step-In Notice**” means the notice given by the Lenders’ Agent to Contracting Authority pursuant to Section 8(a) stating that the Lenders’ Agent is exercising its step-in rights under this Lenders’ Direct Agreement.
- (ww) “**Step-In Period**” means the period from the Step-In Date up to and including the earliest of:
 - (i) the Step-Out Date;
 - (ii) the Termination Date (provided that Contracting Authority has complied with its obligations in Section 7);

- (iii) the date that a transfer of Project Co’s rights and obligations under the Contracting Authority Project Documents to a Suitable Substitute pursuant to Section 10 becomes effective; and
- (iv) the date falling twelve (12) months after the Step-In Date.
- (xx) “**Step-Out Date**” means the date falling thirty (30) days after the date on which Contracting Authority receives a Step-Out Notice.
- (yy) “**Step-Out Notice**” has the meaning given in Section 9(a).
- (zz) “**Subsequent Indebtedness Notice**” has the meaning given in Section 7(c).
- (aaa) “**Substantial Completion Date**” has the meaning given in the Project Agreement.
- (bbb) “**Suitable Substitute**” means a person, approved in writing by Contracting Authority in accordance with Sections 10(b) and 10(c), which:
 - (i) has the legal capacity, power and authority to become a party to and perform the obligations of Project Co under the Contracting Authority Project Documents; and
 - (ii) employs individuals having the appropriate qualifications, experience and technical competence and has the resources available to it (including committed financial resources and subcontracts) that are sufficient to enable it to perform the obligations of Project Co under the Contracting Authority Project Documents.
- (ccc) “**Termination Date**” has the meaning given in the Project Agreement.
- (ddd) “**Warning Notice**” has the meaning given in the Project Agreement.

2. INTERPRETATION

This Lenders’ Direct Agreement shall be interpreted according to the following provisions, unless the context requires a different meaning:

- (a) The headings in this Lenders’ Direct Agreement are for convenience of reference only, shall not constitute a part of this Lenders’ Direct Agreement, and shall not be taken into consideration in the interpretation of, or affect the meaning of, this Lenders’ Direct Agreement.
- (b) Unless the context otherwise requires, references to specific Sections, Clauses, Paragraphs, Subparagraphs, and other divisions are references to such Sections, Clauses, Paragraphs, Subparagraphs, or divisions of this Lenders’ Direct Agreement and the terms “Section” and “Clause” are used interchangeably and are synonymous.
- (c) Words importing persons or parties are to be broadly interpreted and include an individual, corporation, limited liability company, joint stock company, firm, partnership, joint venture, trust, unincorporated organization, Governmental Authority, unincorporated body

of persons or association and any other entity having legal capacity, and the heirs, beneficiaries, executors, administrators or other legal representatives of a person in such capacity.

- (d) Unless the context otherwise requires, wherever used herein the plural includes the singular, the singular includes the plural, and each of the masculine, feminine and neuter genders include all other genders.
- (e) References to any standard, principle, agreement or document include (subject to all relevant approvals and any other provisions of this Lenders' Direct Agreement concerning amendments) a reference to that standard, principle, agreement or document as amended, supplemented, restated, substituted, replaced, novated or assigned.
- (f) The words in this Lenders' Direct Agreement shall bear their natural meaning.
- (g) Unless otherwise specifically provided, references containing terms such as:
 - (i) "hereof", "herein", "hereto", "hereinafter" and other terms of like import are not limited in applicability to the specific provision within which such references are set forth but instead refer to this Lenders' Direct Agreement taken as a whole; and
 - (ii) "includes" and "including", whether or not used with the words "without limitation" or "but not limited to", shall not be deemed limited by the specific enumeration of items but shall, in all cases, be deemed to be without limitation and construed and interpreted to mean "includes without limitation" and "including without limitation".
- (h) In construing this Lenders' Direct Agreement, the rule known as the *ejusdem generis rule* shall not apply nor shall any similar rule or approach to the construction of this Lenders' Direct Agreement and, accordingly, general words introduced or followed by the word "other" or "including" or "in particular" shall not be given a restrictive meaning because they are followed or preceded (as the case may be) by particular examples intended to fall within the meaning of the general words.
- (i) Where this Lenders' Direct Agreement states that an obligation shall be performed "no later than" or "within" or "by" a stipulated date or event which is a prescribed number of days after a stipulated date or event, the latest time for performance shall be 5:00 p.m. on the last day for performance of the obligation concerned, or, if that day is not a Business Day, 5:00 p.m. on the next Business Day.
- (j) Where this Lenders' Direct Agreement states that an obligation shall be performed "on" a stipulated date, the latest time for performance shall be 5:00 p.m. on that day, or, if that day is not a Business Day, 5:00 p.m. on the next Business Day.
- (k) Any reference to time of day or date means the local time or date in Toronto, Ontario.
- (l) Unless otherwise indicated, time periods will be strictly construed.

- (m) Whenever the terms “will” or “shall” are used in this Lenders’ Direct Agreement they shall be construed and interpreted as synonymous and to read “shall”.

3. CONFLICT OF DOCUMENTS

In the event of any ambiguity, conflict or inconsistency between the provisions of this Lenders’ Direct Agreement, the Project Agreement and either of the Direct Agreements, the provisions of this Lenders’ Direct Agreement shall prevail and govern to the extent of such ambiguity, conflict or inconsistency.

4. TERM

- (a) This Lenders’ Direct Agreement shall terminate automatically on the earliest of:
 - (i) the date on which all amounts which may be or become owing to the Lenders under the Lending Agreements have been irrevocably paid in full;
 - (ii) the Termination Date (provided that Contracting Authority has complied with its obligations in Section 7); and
 - (iii) the date that any transfer of Project Co’s rights and obligations under the Contracting Authority Project Documents to a Suitable Substitute pursuant to Section 10 becomes effective and the agreements contemplated in Section 10(e)(iii) are executed and delivered by the parties thereto.
- (b) Within thirty (30) days following its occurrence, the Lenders’ Agent shall provide notice to Contracting Authority of the date referred to in Section 4(a)(i).

5. AGREEMENTS AND SECURITY

- (a) Project Co, the Lenders and the Lenders’ Agent shall not amend or modify the Lending Agreements, or any of them, except where Project Co is permitted to do so pursuant to Section 7.3(a) (*Changes to Lending Agreements and Refinancing*) of the Project Agreement.
- (b) Project Co represents and warrants that the Lending Agreements have been entered into and negotiated on an arms’ length basis.
- (c) Project Co acknowledges and consents to the arrangements set out in this Lenders’ Direct Agreement, and agrees not to do or omit to do anything that may prevent any other Party from enforcing its rights under this Lenders’ Direct Agreement.
- (d) The Lenders’ Agent acknowledges having received a copy of the Contracting Authority Project Documents as at the date of Financial Close.
- (e) Contracting Authority acknowledges having received copies of the Lending Agreements as at the date of Financial Close, and confirms that they are in form and substance satisfactory to Contracting Authority as at the date of Financial Close.

- (f) Contracting Authority acknowledges notice of and consents to the Security, and confirms that it has not received notice of any other security interest granted over Project Co's rights under any of the Contracting Authority Project Documents.
- (g) Contracting Authority agrees that any enforcement by the Lenders' Agent of a security interest in the Equity Capital of Project Co granted in favour of the Lenders' Agent as part of the Security following an Enforcement Event shall not constitute a Change in Ownership, Change in Control or Project Co Event of Default under the Project Agreement provided that, if such Equity Capital is disposed of as part of such enforcement, the provisions of Section 59.4 (*Changes in Ownership and Control*) of the Project Agreement are complied with.
- (h) Any agreement provided to Project Co pursuant to Section 14.5(a) (*Non-Disturbance Agreement*) of the Project Agreement shall be in form satisfactory to the Lenders' Agent, acting reasonably.
- (i) Subject to the next sentence, Project Co and the Lenders' Agent hereby authorize and instruct Contracting Authority (and Contracting Authority agrees) to pay,
- (i) the Milestone Payments and the Substantial Completion Payment to Account No. [REDACTED] at [REDACTED]; and
 - (ii) all other sums payable to Project Co under the Project Agreement to Account No. [REDACTED] at [REDACTED],
- and Project Co and Contracting Authority agree that upon the occurrence of an Enforcement Event, if so directed in writing by the Lenders' Agent upon giving reasonable notice, Contracting Authority shall pay any sum which it is obliged to pay to Project Co under the Project Agreement to a bank account specified by the Lenders' Agent.
- (j) Contracting Authority shall provide the Lenders' Agent with copies of any Warning Notice, Monitoring Notice or notice of a Project Co Event of Default given to Project Co under the Project Agreement at the same time such notice is given to Project Co.
- (k) Prior to the irrevocable payment in full of all amounts owing to the Lenders under the Lending Agreements, Contracting Authority shall not take any action to wind-up, liquidate, dissolve or appoint a receiver or receiver and manager of Project Co or to institute or sanction a voluntary arrangement or any other bankruptcy or insolvency proceedings in relation to Project Co.
- (l) The Lenders' Agent represents and warrants to Contracting Authority that it is the duly authorized agent of the Lenders to enter into this Lenders' Direct Agreement and act on their behalf in connection with this Lenders' Direct Agreement and that, pursuant to the Lending Agreements, the Lenders' Agent has full power and authority to bind the Lenders under this Lenders' Direct Agreement.

6. ENFORCEMENT OF SECURITY BY LENDERS' AGENT

- (a) The Lenders' Agent shall promptly notify Contracting Authority of any Enforcement Event, any Enforcement Action, any notice from the Lenders or Lenders' Agent to Project Co accelerating the maturity of any amounts owing by Project Co to the Lenders under the Lending Agreements and any notice from the Lenders or Lenders' Agent to Project Co demanding repayment of any amounts owing by Project Co to the Lenders under the Lending Agreements.
- (b) The Lenders' Agent may assign, transfer or otherwise dispose of any right, title or interest it may have in, or rights or obligations it may have pursuant to, the Security Documents to a successor agent in accordance with the terms of the Lending Agreements except where the person to whom such assignment, transfer or other disposition is to be made, or an Affiliate of such person, is a Restricted Person or a person whose standing or activities may compromise (i) Contracting Authority's reputation or integrity, or (ii) the nature of the public transit system within the City of Toronto or the Province of Ontario so as to affect public confidence in the public transit system within the City of Toronto or the Province of Ontario or the Project.
- (c) Any Lender may assign, transfer or otherwise dispose of any right, title or interest it may have in, or rights or obligations it may have pursuant to, the Lending Agreements in accordance with the terms of the Lending Agreements except where the person to whom such assignment, transfer or other disposition is to be made, or an Affiliate of such person, is a Restricted Person.

7. TERMINATION OF PROJECT AGREEMENT BY CONTRACTING AUTHORITY

- (a) Subject only to the rights expressly afforded to the Lenders' Agent pursuant to, and the restrictions expressly set forth in, this Section 7 relating to termination of the Project Agreement for a Project Co Event of Default, Contracting Authority may, at any time, serve Notice terminating the Project Agreement if it is entitled to do so under the terms of the Project Agreement.
- (b) Subject to Section 7(e), at any time other than during the Step-In Period (with the restriction on termination during the Step-In Period set out in Section 7(d)), Contracting Authority shall not exercise any right it may have to terminate or serve Notice terminating the Project Agreement for a Project Co Event of Default unless:
 - (i) Contracting Authority promptly delivers notice (a "**Default Notice**") to the Lenders' Agent setting out the Project Co Event of Default(s) in reasonable detail;
 - (ii) as soon as possible and not later than thirty (30) days after the date of a Default Notice, Contracting Authority delivers notice (an "**Indebtedness Notice**") to the Lenders' Agent setting out:
 - (A) all amounts owed by Project Co to Contracting Authority and any other existing liabilities and obligations of Project Co to Contracting Authority of which Contracting Authority is aware (having made reasonable

enquiry), in each case, as of the date on which Contracting Authority sent the Default Notice; and

(B) all amounts which will become owing by Project Co to Contracting Authority and any other liabilities and obligations of Project Co to Contracting Authority of which Contracting Authority is aware (having made reasonable enquiry), in each case, on or before the end of the Notice Period; and

(iii) the Notice Period has expired and the Lenders' Agent has not delivered a Step-In Notice.

(c) At any time after the expiry of the time to send an Indebtedness Notice but no later than three (3) Business Days after receipt by Contracting Authority of the Appointed Representative Notice, if Contracting Authority discovers:

(i) amounts owed by Project Co to Contracting Authority and any other existing liabilities and obligations of Project Co to Contracting Authority as of the date on which Contracting Authority sent the Default Notice; or

(ii) amounts which will become owing by Project Co to Contracting Authority and any other liabilities and obligations of Project Co to Contracting Authority on or before the end of the Cure Period,

but which were not included in the Indebtedness Notice, Contracting Authority shall deliver notice (a "**Subsequent Indebtedness Notice**") to the Lenders' Agent setting out those amounts, liabilities or obligations.

(d) Subject to Section 7(e), during the Step-In Period, Contracting Authority shall not terminate the Project Agreement on grounds:

(i) that the Lenders' Agent has served a Step-In Notice or enforced any Security Document; or

(ii) arising prior to the Step-In Date of which Contracting Authority was aware prior to the Step-In Date (having made due inquiry) and whether or not continuing at the Step-In Date unless:

(A) the grounds arose prior to the Substantial Completion Date, and the Substantial Completion Date does not occur on or before the date falling one-hundred and eighty (180) days after the Longstop Date; or

(B) the grounds arose after the Substantial Completion Date, and neither the Appointed Representative nor Project Co is diligently proceeding to cure any breach of the Project Agreement that:

(1) arose prior to the Step-In Date;

- (2) is continuing and capable of being cured; and
 - (3) would have entitled Contracting Authority to terminate the Project Agreement; or
 - (C) the grounds (whenever they first arose) did not give rise to any right to terminate the Project Agreement until after the Step-In Date; or
- (iii) arising solely in relation to Project Co.
- (e) Notwithstanding anything herein, Contracting Authority shall be entitled to terminate the Project Agreement by Notice to Project Co and the Appointed Representative at any time:
 - (i) if any amount referred to in Section 7(b)(ii)(A) has not been paid to Contracting Authority on or before the Step-In Date;
 - (ii) if any amount, liability or obligation referred to in Section 7(b)(ii)(B) has not been paid or performed, as applicable, on or before the later of:
 - (A) last day of the Cure Period (provided that in the case of any amount owing, such amount has become due and payable in accordance with the terms of the Project Agreement); or
 - (B) the lapse of any cure period that would otherwise be applicable thereto under the Project Agreement;
 - (iii) if any amount, liability or obligation included in a Subsequent Indebtedness Notice has not been paid or performed, as applicable, on or before the later of:
 - (A) last day of the Cure Period (provided that in the case of any amount owing, such amount has become due and payable in accordance with the terms of the Project Agreement);
 - (B) the lapse of any cure period that would otherwise be applicable thereto under the Project Agreement; or
 - (C) the date falling thirty (30) days after the date on which the Subsequent Indebtedness Notice is delivered to the Lenders' Agent;
 - (iv) on grounds arising after the Step-In Date in accordance with the terms of the Project Agreement, provided that, except as otherwise provided in Section 10, Failure Points and/or Warning Notices that arose prior to the Step-In Date shall not be taken into account during the Step-In Period but such Failure Points and Warning Notices (to the extent applicable under the terms of the Project Agreement) shall be taken into account after the Step-Out Date; or
 - (v) during the Remedial Plan Period, Contracting Authority determines, in its sole discretion, that the obligations under a Remedial Plan necessary to achieve all

elements of such Remedial Plan have not been performed in accordance with its terms.

- (f) Notwithstanding anything in this Lenders' Direct Agreement, Contracting Authority may at any time (including during a Step-In Period) exercise its right under Section 47.3 (*Termination for Convenience*) of the Project Agreement.
- (g) If the Lenders' Agent has delivered to Contracting Authority a Remedial Plan within seventy-five (75) days from the start of the Notice Period, then Contracting Authority shall, acting in its sole discretion and, within fifteen (15) days of receipt of such Remedial Plan, provide notice to the Lenders' Agent either:
 - (i) rejecting such Remedial Plan, in which case the Notice Period will expire on the date that is the later of: (A) ninety (90) days from the start of the Notice Period or (B) ten (10) Business Days after receipt by Lenders' Agent of such notice of rejection; or
 - (ii) advising that Contracting Authority has accepted such Remedial Plan; or
 - (iii) advising that Contracting Authority is willing to negotiate such Remedial Plan in order to arrive at a final Remedial Plan acceptable to Contracting Authority, in which case, the Notice Period shall be extended for a further period of fifty-five (55) days from the date of such notice or such longer period of time as Contracting Authority may agree in its sole discretion (the "**Extension Period**").

If Contracting Authority does not provide any notice in subsection (i), (ii) or (iii) above, Contracting Authority shall be deemed to have rejected such Remedial Plan on the date that is fifteen (15) days of receipt of such Remedial Plan, in which case the Notice Period will expire on the date that is the later of: (A) ninety (90) days from the start of the Notice Period or (B) ten (10) Business Days after the date of such deemed rejection.

If Contracting Authority does provide the notice set out in subsection (iii) above, and Contracting Authority and the Lenders' Agent have not reached an agreement on a final Remedial Plan acceptable to Contracting Authority, acting in its sole discretion, by the end of the Extension Period, then the Notice Period shall expire ten (10) Business Days thereafter.

8. STEP-IN RIGHTS

- (a) Subject to Section 8(b) and without prejudice to rights of the Lenders' Agent to enforce the Security, the Lenders' Agent may give Contracting Authority a Step-In Notice at any time:
 - (i) during which a Project Co Event of Default is subsisting (whether or not a Default Notice has been served), other than during a Remedial Plan Period;
 - (ii) during the Notice Period; or

- (iii) during which an Enforcement Event is subsisting.
- (b) At least five (5) Business Days before the Lenders' Agent delivers a Step-In Notice, the Lenders' Agent shall deliver notice (an "**Appointed Representative Notice**") to Contracting Authority of:
 - (i) its intention to deliver a Step-In Notice; and
 - (ii) the identity of the Lenders' Agent's proposed Appointed Representative.

There can only be one Appointed Representative at any one time.

- (c) Upon issuance of a Step-In Notice, the Appointed Representative shall assume, jointly with Project Co, all of Project Co's rights under the Contracting Authority Project Documents.
- (d) During the Step-In Period, Contracting Authority shall deal with the Appointed Representative instead of Project Co in connection with all matters related to the Contracting Authority Project Documents. Project Co agrees to be bound by all such dealings between Contracting Authority and the Appointed Representative to the same extent as if they had been between Contracting Authority and Project Co.
- (e) No later than sixty (60) days before the date of a transfer of Project Co's rights and obligations under the Contracting Authority Project Documents to a Suitable Substitute pursuant to Section 10 becomes effective, or on a date otherwise agreed to, acting reasonably, Contracting Authority and the Appointed Representative shall determine, acting reasonably, if any extension to the Scheduled Substantial Completion Date or the Longstop Date is required.

9. STEP-OUT RIGHTS

- (a) The Appointed Representative may, at any time during the Step-In Period, deliver notice (a "**Step-Out Notice**") to Contracting Authority to terminate the Step-In Period on the Step-Out Date.
- (b) On expiry of the Step-In Period:
 - (i) the rights and obligations of the Appointed Representative in relation to Contracting Authority under the Contracting Authority Project Documents will be assumed by Project Co to the exclusion of the Appointed Representative;
 - (ii) Contracting Authority will no longer deal with the Appointed Representative and will deal with Project Co in connection with all matters related to the Contracting Authority Project Documents; and
 - (iii) the Appointed Representative and Contracting Authority shall be and hereby are released from all obligations and liabilities to one another under the Contracting Authority Project Documents.

- (c) There will not be more than one Step-In Period in respect of any one Default Notice.

10. NOVATION TO SUITABLE SUBSTITUTE

- (a) Subject to Section 10(b), at any time:
 - (i) after an Enforcement Event has occurred;
 - (ii) during the Notice Period; or
 - (iii) during the Step-In Period,

the Lenders' Agent may deliver to Contracting Authority and the Appointed Representative (if any) notice (a "**Novation Notice**") that it wishes to transfer Project Co's rights and obligations under the Contracting Authority Project Documents to a proposed transferee, together with all information reasonably necessary for Contracting Authority to decide whether the proposed transferee is a Suitable Substitute. The Novation Notice shall specify a Business Day not less than thirty (30) days from the date on which Contracting Authority receives the Novation Notice ("**Novation Date**") for the transfer of Project Co's rights and obligations under the Contracting Authority Project Documents to the proposed transferee in accordance with the provisions of Section 10(e).

- (b) Contracting Authority shall promptly notify the Lenders' Agent of any additional information it requires in order to assess whether the proposed transferee is a Suitable Substitute. Contracting Authority shall notify the Lenders' Agent, in writing, as to whether the person to whom the Lenders' Agent proposes to transfer Project Co's rights and obligations under the Contracting Authority Project Documents is approved by Contracting Authority as a Suitable Substitute, on or before the date falling thirty (30) days after the later of the date of receipt by Contracting Authority of the Novation Notice and the date of receipt of any additional information requested by Contracting Authority. For greater certainty, if Contracting Authority fails to respond within such period, Contracting Authority shall be deemed not to have approved the proposed transferee.
- (c) Contracting Authority shall not unreasonably withhold or delay its approval of a proposed transferee as a Suitable Substitute, but it shall, without limitation, be reasonable for Contracting Authority to withhold its approval if:
 - (i) the proposed transferee does not meet the requirements set out in the definition of Suitable Substitute;
 - (ii) there are unremedied breaches under the Project Agreement which are capable of being remedied by the Appointed Representative or the Suitable Substitute and there is no rectification plan acceptable to Contracting Authority, acting reasonably, in respect of such breaches;
 - (iii) the proposed transferee is a Restricted Person or other person who is not permitted to be a Project Co Party pursuant to the Project Agreement; or

- (iv) the terms of any proposed lending agreements or proposed security interests to be granted by the Suitable Substitute to the Lender Representative could reasonably be expected to materially and adversely affect (A) the ability of the Suitable Substitute to perform under the Contracting Authority Project Documents, or (B) the interests of Contracting Authority, including having the effect of increasing any liability of Contracting Authority, whether actual or potential.
- (d) If Contracting Authority withholds its approval of a proposed transferee as a Suitable Substitute in accordance with Section 10(c), the Lenders' Agent may give one or more subsequent Novation Notices pursuant to the provisions of Section 10(a) containing changed particulars relating to the same proposed transferee or particulars relating to another proposed transferee which the Lenders' Agent has good cause to believe will be acceptable to Contracting Authority, acting reasonably, provided that only one Novation Notice may be outstanding at any one time.
- (e) If the proposed transferee is approved by Contracting Authority as a Suitable Substitute, then on the Novation Date:
 - (i) Project Co and Contracting Authority will be released from their obligations under the Contracting Authority Project Documents to each other, and the Suitable Substitute and Contracting Authority will assume those same obligations towards each other;
 - (ii) each of the rights of Project Co against Contracting Authority under the Contracting Authority Project Documents and the rights of Contracting Authority against Project Co under the Contracting Authority Project Documents will be cancelled, and the Suitable Substitute and Contracting Authority will acquire those same rights against each other;
 - (iii) the Parties will enter into, and the Lenders' Agent shall cause the Suitable Substitute and the Lender Representative to enter into, all such agreements or other documents as are reasonably necessary to give effect to the foregoing, including:
 - (A) an agreement between Contracting Authority and the Suitable Substitute, on substantially the same terms as each Contracting Authority Project Document; and
 - (B) an agreement among Contracting Authority, the Suitable Substitute and the Lender Representative on substantially the same terms as this Lenders' Direct Agreement;
 - (iv) any Failure Points and Warning Notices that arose prior to the Novation Date shall be cancelled, provided that, where Contracting Authority was entitled to make Deductions under Schedule 20 – Payment Mechanism to the Project Agreement arising from such Failure Points and Warning Notices and those Deductions have not yet been made against any payments to Project Co preceding the Novation Date, those outstanding Deductions shall still apply and bind the Suitable Substitute; and

- (v) any subsisting ground for termination by Contracting Authority of the Project Agreement for a Project Co Event of Default will be deemed to have no effect and any subsisting Default Notice will be automatically revoked.

11. TRANSFERS

Contracting Authority shall, at Project Co's cost and expense, take whatever action the Lenders' Agent, the Appointed Representative, the Suitable Substitute or the Lender Representative may reasonably require for perfecting any assumption or transfer of or release pursuant to Sections 8, 9 or 10, including the execution of any transfer or assignment, and the giving of any notice, order or direction and the making of any registration which, in each case, the Lenders' Agent, the Appointed Representative, the Suitable Substitute or the Lender Representative reasonably requires.

12. DIRECT AGREEMENTS

- (a) Notwithstanding any provision in the Direct Agreements, Contracting Authority hereby undertakes that it will not exercise any rights it may have under or arising out of any of the Direct Agreements, except as provided in Sections 12(b) to 12(f) inclusive.
- (b) Following termination of the Project Agreement (other than as a result of a novation to a Suitable Substitute pursuant to this Lenders' Direct Agreement) in accordance with this Lenders' Direct Agreement, Contracting Authority shall from such date (the "**Exercise Date**") be entitled to exercise its rights under the Direct Agreements to step into and/or novate the Contracts in accordance with the Direct Agreements.
- (c) Following the Exercise Date, Contracting Authority shall not do anything to prejudice the rights under the Contracts which are not transferred to it pursuant to the Direct Agreements.
- (d) Where all amounts which may be or become owing by Project Co to the Lenders under the Lending Agreements have been irrevocably paid in full, the Lenders' Agent shall promptly release and discharge all Security in respect of any Contract assumed or novated by Contracting Authority pursuant to a Direct Agreement.
- (e) Notwithstanding the terms of the Direct Agreements and any other provisions of this Section 12, each of the Contractors (and any guarantors thereof) shall remain responsible, and be liable, to Project Co in respect of all costs, claims, damages, losses and liabilities which shall have arisen out of or in connection with the Contracts or any one of them in respect of the period prior to the Exercise Date.
- (f) Without prejudice to Sections 12(a) to 12(e) inclusive, Contracting Authority shall not, prior to the date on which this Lenders' Direct Agreement terminates:
 - (i) claim, recover, retain or receive (or seek to claim, recover, retain or receive) any amount under the Direct Agreements (and/or any of the Contracts) from the applicable Contractor;
 - (ii) take any action to wind-up, liquidate, dissolve or appoint a receiver or receiver and manager of the applicable Contractor or to institute or sanction a voluntary

arrangement or any other bankruptcy or insolvency proceedings in relation to the applicable Contractor; or

- (iii) compete with the rights of the Lenders' Agent on a winding-up or other insolvency or bankruptcy of the applicable Contractor, nor claim to be subrogated to any rights of the Lenders' Agent or any Lender.

Contracting Authority agrees and undertakes that if it receives any amount in contravention of the provisions of this Section 12(f), it will immediately turn the same over to the Lenders' Agent for the account of the Lenders' Agent and the Lenders and, pending such payment, hold the same in trust for the Lenders' Agent and the Lenders.

13. PROCEEDING AT RISK AND PROJECT CO DELAY NOTICES

- (a) The Parties acknowledge that Contracting Authority may, in its sole discretion, give notice to the Lenders' Agent of any Proceeding at Risk Matter following the issuance of the Proceeding at Risk Notice issued pursuant to Section 11.6(a) (*Proceeding at Risk*) of the Project Agreement, together with a copy of such notice.
- (b) The Parties acknowledge that, if Contracting Authority delivers notice to Project Co pursuant to Section 14 (*Recovery Works Schedules*) of Schedule 12 – Works Schedule Requirements, Contracting Authority may, acting reasonably, give notice to the Lenders' Agent that Project Co is failing to maintain the schedule, together with the relevant information supporting Contracting Authority's opinion that Project Co is failing to maintain the schedule.

14. ASSIGNMENT

- (a) No Party to this Lenders' Direct Agreement may assign, transfer or otherwise dispose of any part of its rights or obligations under this Lenders' Direct Agreement save as provided in this Section 14.
- (b) Project Co may assign, transfer or otherwise dispose of the benefit of this Lenders' Direct Agreement to any person (in this Section 14(b), the "assignee") to whom Project Co assigns, transfers or otherwise disposes of its interest in the Project Agreement pursuant to Section 59.1 (*Project Co Assignment*) of the Project Agreement and the provisions of the Lending Agreements, and shall provide Notice to Contracting Authority and the Lenders' Agent of such assignment, transfer or other disposition. Such assignee, as a condition precedent to any such assignment, transfer or other disposition, shall assume the obligations and acquire the rights of Project Co under this Lenders' Direct Agreement pursuant to an assumption agreement with, and in form and substance satisfactory to, Contracting Authority and the Lenders' Agent, each acting reasonably. Contracting Authority, the Lenders' Agent, Project Co and the assignee shall, at Project Co's cost and expense, do all things and execute all further documents as may be necessary in connection therewith.
- (c) Contracting Authority may assign, transfer or otherwise dispose of the benefit of the whole or part of this Lenders' Direct Agreement to any person (in this Section 14(c), the

“assignee”) to whom Contracting Authority assigns, transfers or otherwise disposes of its interest in the Project Agreement pursuant to Section 59.2 (*Contracting Authority Assignment*) of the Project Agreement, and shall provide Notice to Project Co and the Lenders’ Agent of such assignment, transfer or other disposition.

- (d) The Lenders’ Agent may only assign, transfer or otherwise dispose of any interest in this Lenders’ Direct Agreement to any person (in this Section 14(d), the “assignee”) as permitted by the Lending Agreements, and shall provide notice to Project Co and Contracting Authority of such assignment, transfer or other disposition; provided that, notwithstanding any provision to the contrary in the Lending Agreements, the Lenders’ Agent may not assign, transfer or otherwise dispose of any interest in this Lenders’ Direct Agreement to a Restricted Person. The Lenders’ Agent, as a condition precedent to any such assignment, transfer or other disposition, shall cause the assignee to enter into a new agreement with Project Co and Contracting Authority on substantially the same terms as this Lenders’ Direct Agreement and Project Co and Contracting Authority shall enter into such new agreement with the assignee. Project Co, Contracting Authority, the Lenders’ Agent and the assignee shall, at the Lenders’ Agent’s cost and expense, do all things and execute all further documents as may be necessary in connection therewith.

15. NOTICES

- (a) All notices, requests, demands, instructions, certificates, consents and other communications required or permitted under this Lenders’ Direct Agreement shall be in writing (whether or not “written” or “in writing” is specifically required by the applicable provision of this Lenders’ Direct Agreement) and given by sending the same by registered mail, by hand (in each case with a copy by electronic transmission to the Contracting Authority Representative at the email address set out below), or by electronic transmission as follows:

If to Contracting Authority or Contracting Authority Representative:

- (b) Where any notice is given to a Party via electronic transmission, an original of the notice sent via electronic transmission shall promptly be sent by regular mail or registered mail. For greater certainty, a notice given via electronic transmission shall not be invalid by reason only of a Party's failure to comply with this Section 15(b) and the time of deemed receipt of such notice shall be based on the time of the electronic transmission.
- (c) Any Party to this Lenders' Direct Agreement may, from time to time, change any of its contact information set forth in Section 15(a) by prior notice to the other Parties, and such change shall be effective on the Business Day that next follows the recipient Party's receipt or deemed receipt of such notice unless a later effective date is given in such notice.
- (d) Subject to Sections 15(f) and 15(g):
 - (i) a notice given by registered mail shall be deemed to have been received on the third (3rd) Business Day after mailing;
 - (ii) a notice given by hand delivery shall be deemed to have been received on the day it is delivered; and

- (iii) a notice given by electronic transmission shall be deemed to have been received on the day it is transmitted by electronic transmission.
- (e) If the Party giving the notice knows or ought reasonably to know of difficulties with the postal system which might affect negatively the delivery of mail, any such notice shall not be mailed but shall be given by hand delivery or by electronic transmission in accordance with this Section 15.
- (f) If any notice given by hand delivery or electronic transmission is so delivered or transmitted, as the case may be, either on a day that is not a Business Day or on a Business Day after 4:00 p.m. (recipient's local time), then such notice shall be deemed to have been received by such recipient on the next Business Day.
- (g) A notice given by electronic transmission shall be deemed to have been received by the recipient on the day it is transmitted or, if applicable, the later date set out in Section 15(f) only if an electronic transmission report (maintained by the sender) indicates that the transmission of such notice was successful.

16. CONTRACTING AUTHORITY DESIGNATE

At any time and from time to time, the Crown may designate any ministry, branch, agency, division, department or office of the Government of Ontario to carry out administrative responsibility for the rights and obligations of Contracting Authority under this Lenders' Direct Agreement and Project Co and the Lenders' Agent may deal exclusively with the designated person in respect of all such matters and is entitled to rely on the actions, directions, requests, notices, consents, approvals, waivers, comments relating to the review of documentation and other administrative matters and decisions determined by such designated person from time to time, until the Crown has notified Project Co and the Lenders' Agent in writing that such designated person is no longer the person designated by the Crown hereunder and such notice shall have effect on the later of the date of delivery of such notice and the date specified in the notice. The Crown shall advise Project Co and the Lenders' Agent in writing of any designation hereunder. The rights and obligations of the Parties to this Lenders' Direct Agreement shall be in no way affected by reason of any such designation. Project Co and the Lenders' Agent acknowledge the right of the Crown to delegate administrative responsibilities hereunder as set forth in this Section 16.

17. AMENDMENTS

This Lenders' Direct Agreement may not be varied, amended or supplemented except by an agreement in writing signed by duly authorized representatives of the Parties and stating on its face that it is intended to be an amendment, restatement or other modification, as the case may be, to this Lenders' Direct Agreement.

18. WAIVER

- (a) No waiver made or given by a Party under or in connection with this Lenders' Direct Agreement shall be binding or effective unless the waiver is in writing, signed by an authorized representative of the Party giving such waiver, and delivered by such Party to the other Parties. No waiver made with respect to any right, power or remedy in one

instance will be deemed to be a waiver with respect to any other instance involving such right, power or remedy or with respect to any other right, power, or remedy.

- (b) Failure by any Party to exercise any of its rights, powers or remedies hereunder or its delay to do so shall not constitute a waiver of those rights, powers or remedies. The single or partial exercise of a right, power or remedy shall not prevent its subsequent exercise or the exercise of any other right, power or remedy.

19. RELATIONSHIP BETWEEN THE PARTIES

The Parties are independent contractors. This Lenders' Direct Agreement is not intended to and does not create or establish between the Parties any relationship as partners, joint venturers, employer and employee, master and servant, or, except as provided in this Lenders' Direct Agreement, of principal and agent.

20. ENTIRE AGREEMENT

Except where provided otherwise in this Lenders' Direct Agreement, this Lenders' Direct Agreement constitutes the entire agreement between the Parties in connection with its subject matter and supersedes all prior representations, communications, negotiations and understandings, whether oral, written, express or implied, concerning the subject matter of this Lenders' Direct Agreement.

21. SEVERABILITY

Each provision of this Lenders' Direct Agreement shall be valid and enforceable to the fullest extent permitted by law. If any provision of this Lenders' Direct Agreement is declared invalid, unenforceable or illegal by the courts of a competent jurisdiction, such provision may be severed and such invalidity, unenforceability or illegality shall not prejudice or affect the validity, enforceability and legality of the remaining provisions of this Lenders' Direct Agreement. If any provision of this Lenders' Direct Agreement is so declared invalid, unenforceable or illegal, the Parties shall, acting in good faith, promptly negotiate new provisions to eliminate such invalidity, unenforceability or illegality and to restore this Lenders' Direct Agreement as near as possible to its original intent and effect.

22. ENUREMENT

This Lenders' Direct Agreement shall enure to the benefit of, and be binding on, each of the Parties and their respective successors and permitted transferees and assigns.

23. GOVERNING LAW AND JURISDICTION

- (a) This Lenders' Direct Agreement shall be governed by and construed in accordance with the laws of Ontario and the laws of Canada applicable therein and shall be treated in all respects as an Ontario contract, without regard to conflict of laws principles.
- (b) The Parties agree that the courts of the Province of Ontario and all courts competent to hear appeals therefrom shall have exclusive jurisdiction to hear and settle any action, suit, proceeding or dispute in connection with this Lenders' Direct Agreement and hereby irrevocably attorn to the exclusive jurisdiction of such courts.

- (c) Nothing in this Lenders' Direct Agreement affects the rights, protections and immunities of the Crown under the *Crown Liability and Proceedings Act* (Ontario).

24. DISPUTE RESOLUTION PROCEDURE

The Parties agree that the dispute resolution procedure provided for in Schedule 27 – Dispute Resolution Procedure to the Project Agreement shall not apply to any dispute under this Lenders' Direct Agreement.

25. FURTHER ASSURANCE

Each Party shall do all things, from time to time, and execute all further documents necessary to give full effect to this Lenders' Direct Agreement.

26. LANGUAGE OF AGREEMENT

Each Party acknowledges having requested and being satisfied that this Lenders' Direct Agreement and related documents be drawn in English. *Chacune des parties reconnaît avoir demandé que ce document et ses annexes soient rédigés en anglais et s'en déclare satisfaite.*

27. COUNTERPARTS

This Lenders' Direct Agreement may be executed in one or more counterparts. Any single counterpart or a set of counterparts executed, in either case, by all of the Parties shall constitute a full, original and binding agreement for all purposes. Delivery of an executed counterpart by sending a copy by electronic mail or other electronic transmission shall be as effective as the manual delivery of an executed counterpart.

28. LIABILITY

Metrolinx, as Crown agency, shall be liable for all of the obligations of Contracting Authority under this Lenders' Direct Agreement.

29. CONFIDENTIALITY

The Lenders' Agent agrees to comply with the obligations imposed on Project Co by the provisions of Section 52 (*Confidentiality/Communications*) of the Project Agreement, *mutatis mutandis*, provided that the Lenders' Agent will be permitted to disclose to any relevant regulatory authority only such Confidential Information as is necessary for the Lenders' Agent to comply with Applicable Law.

30. COPYRIGHT NOTICE

The Parties acknowledge that King's Printer for Ontario is the exclusive owner of copyright in the Project Agreement and this Lenders' Direct Agreement.

[REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF the Parties have executed this Lenders' Direct Agreement as of the date first above written.

SCHEDULE 5-1

CONSTRUCTION CONTRACTOR’S DIRECT AGREEMENT

THIS AGREEMENT is made as of the 15th day of November, 2022

BETWEEN:

METROLINX, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency in accordance with the *Crown Agency Act*, R.S.O. 1990, c. 48

(“**Contracting Authority**”)

- AND -

CONNECT SIX GENERAL PARTNERSHIP, [REDACTED]

(“**Project Co**”)

- AND -

[REDACTED]

(the “**Construction Contractor**”)

- AND -

[REDACTED]

- AND -

[REDACTED]

- AND -

[REDACTED]

(each of **[REDACTED]**, **[REDACTED]** and **[REDACTED]**, a “**Construction Guarantor**” and collectively, the “**Construction Guarantors**”)

WHEREAS:

- A. Contracting Authority and Project Co have entered into the Project Agreement, which requires Project Co to enter into, and to cause the Construction Contractor and the Construction Guarantors to enter into, this Construction Contractor’s Direct Agreement with Contracting Authority.

- B. Project Co and the Construction Contractor have entered into the Construction Contract, which requires the Construction Contractor and the Construction Guarantors to enter into this Construction Contractor's Direct Agreement with Contracting Authority.

NOW THEREFORE in consideration of the mutual covenants and agreements of the Parties hereinafter contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties covenant and agree as follows:

1. DEFINITIONS

In this Construction Contractor's Direct Agreement, including the recitals and appendices, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Construction Contractor's Direct Agreement) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) **“Contracting Authority”** has the meaning given in the preamble.
- (b) **“Construction Contractor”** has the meaning given in the preamble.
- (c) **“Construction Guarantors”** has the meaning given in the preamble.
- (d) **“Default Notice”** has the meaning given in Section 5(a).
- (e) **“[REDACTED]”** means [REDACTED].
- (f) **“[REDACTED]”** means [REDACTED].
- (g) **“Party”** means Contracting Authority, the Construction Contractor, the Construction Guarantors or Project Co, and **“Parties”** means, collectively, Contracting Authority, the Construction Contractor, the Construction Guarantors and Project Co.
- (h) **“Project Agreement”** means the project agreement made on or about the date hereof between Contracting Authority and Project Co.
- (i) **“Project Co”** has the meaning given in the preamble.
- (j) **“Step-In Notice”** has the meaning given in Section 6(a).
- (k) **“Substitute”** has the meaning given in Section 6(a).

2. INTERPRETATION

This Construction Contractor's Direct Agreement shall be interpreted according to the following provisions, unless the context requires a different meaning:

- (a) The headings in this Construction Contractor's Direct Agreement are for convenience of reference only, shall not constitute a part of this Construction Contractor's Direct

Agreement, and shall not be taken into consideration in the interpretation of, or affect the meaning of, this Construction Contractor's Direct Agreement.

- (b) Unless the context otherwise requires, references to specific Sections, Clauses, Paragraphs, Subparagraphs, and other divisions are references to such Sections, Clauses, Paragraphs, Subparagraphs, or divisions of this Construction Contractor's Direct Agreement and the terms "Section" and "Clause" are used interchangeably and are synonymous.
- (c) Words importing persons or parties are to be broadly interpreted and include an individual, corporation, limited liability company, joint stock company, firm, partnership, joint venture, trust, unincorporated organization, Governmental Authority, unincorporated body of persons or association and any other entity having legal capacity, and the heirs, beneficiaries, executors, administrators or other legal representatives of a person in such capacity.
- (d) Unless the context otherwise requires, wherever used herein the plural includes the singular, the singular includes the plural, and each of the masculine, feminine and neuter genders include all other genders.
- (e) References to any standard, principle, agreement or document include (subject to all relevant approvals and any other provisions of this Construction Contractor's Direct Agreement concerning amendments) a reference to that standard, principle, agreement or document as amended, supplemented, restated, substituted, replaced, novated or assigned.
- (f) The words in this Construction Contractor's Direct Agreement shall bear their natural meaning.
- (g) References containing terms such as:
 - (i) "hereof", "herein", "hereto", "hereinafter", and other terms of like import are not limited in applicability to the specific provision within which such references are set forth but instead refer to this Construction Contractor's Direct Agreement taken as a whole; and
 - (ii) "includes" and "including", whether or not used with the words "without limitation" or "but not limited to", shall not be deemed limited by the specific enumeration of items but shall, in all cases, be deemed to be without limitation and construed and interpreted to mean "includes without limitation" and "including without limitation".
- (h) In construing this Construction Contractor's Direct Agreement, the rule known as the *ejusdem generis* rule shall not apply nor shall any similar rule or approach to the construction of this Construction Contractor's Direct Agreement and, accordingly, general words introduced or followed by the word "other" or "including" or "in particular" shall not be given a restrictive meaning because they are followed or preceded (as the case may be) by particular examples intended to fall within the meaning of the general words.

- (i) Where this Construction Contractor’s Direct Agreement states that an obligation shall be performed “no later than” or “within” or “by” a stipulated date or event which is a prescribed number of days after a stipulated date or event, the latest time for performance shall be 5:00 p.m. on the last day for performance of the obligation concerned, or, if that day is not a Business Day, 5:00 p.m. on the next Business Day.
- (j) Where this Construction Contractor’s Direct Agreement states that an obligation shall be performed “on” a stipulated date, the latest time for performance shall be 5:00 p.m. on that day, or, if that day is not a Business Day, 5:00 p.m. on the next Business Day.
- (k) Any reference to time of day or date means the local time or date in Toronto, Ontario.
- (l) Unless otherwise indicated, time periods will be strictly construed.
- (m) Whenever the terms “will” or “shall” are used in this Construction Contractor’s Direct Agreement they shall be construed and interpreted as synonymous and to read “shall”.

3. CONFLICT IN DOCUMENTS

- (a) In the event of ambiguities, conflicts or inconsistencies between or among this Construction Contractor’s Direct Agreement, the Project Agreement and the Construction Contract, this Construction Contractor’s Direct Agreement shall prevail.
- (b) In the event of ambiguities, conflicts or inconsistencies between or among this Construction Contractor’s Direct Agreement and the Lenders’ Direct Agreement, the Lenders’ Direct Agreement shall prevail.

4. AGREEMENTS

- (a) Project Co and the Construction Contractor shall not amend, modify, or depart from the terms of the Construction Contract without the prior written consent of Contracting Authority, acting reasonably, which consent shall not be withheld or delayed where such amendment, modification or departure does not materially and adversely affect the ability of Project Co to perform its obligations under this Construction Contractor’s Direct Agreement and does not have the effect of increasing any liability of Contracting Authority, whether actual or potential. Project Co and the Construction Contractor shall provide to Contracting Authority a written copy of all such amendments, modifications or departures. The Parties acknowledge and agree that this Section 4(a) shall not apply to Variations provided for under the Project Agreement.
- (b) Each of the Parties acknowledges having received a copy of the Project Agreement and the Construction Contract.
- (c) If the Construction Contractor gives Project Co any notice of any default(s) under the Construction Contract that may give the Construction Contractor a right to terminate the Construction Contract or to treat it as having been repudiated by Project Co or to discontinue the Construction Contractor’s performance thereunder, then the Construction

Contractor shall concurrently provide Contracting Authority with a copy of such notice and set out in reasonable detail the default(s).

5. NO TERMINATION BY CONSTRUCTION CONTRACTOR WITHOUT DEFAULT NOTICE

The Construction Contractor shall not exercise any right it may have to terminate the Construction Contract or to treat it as having been repudiated by Project Co or to discontinue the Construction Contractor's performance thereunder unless:

- (a) the Construction Contractor first delivers a written notice (a "**Default Notice**") to Contracting Authority setting out in reasonable detail the default(s) on which the Construction Contractor intends to rely in terminating the Construction Contract or to treat it as having been repudiated by Project Co or to discontinue the Construction Contractor's performance thereunder; and
- (b) within a period of five (5) Business Days of Contracting Authority receiving the Default Notice:
 - (i) the default(s) on which the Construction Contractor intends to rely in terminating the Construction Contract or to treat it as having been repudiated by Project Co or to discontinue the Construction Contractor's performance thereunder have not been remedied; and
 - (ii) the Construction Contractor has not received a Step-In Notice from Contracting Authority,

provided that if, within such period of five (5) Business Days, Contracting Authority agrees to pay the Construction Contractor's reasonable costs of continued performance, such period of five (5) Business Days shall be extended to forty-five (45) days.

6. STEP-IN RIGHTS

- (a) Contracting Authority may at any time:
 - (i) within five (5) Business Days or, if such period has been extended in accordance with Section 5, forty-five (45) days of Contracting Authority receiving a Default Notice; or
 - (ii) if Contracting Authority has not received a Default Notice and if Contracting Authority's right to terminate the Project Agreement has arisen and is continuing,

deliver a notice (a "**Step-In Notice**") electing to replace Project Co under the Construction Contract either with Contracting Authority or a third party designated by Contracting Authority in the Step-In Notice (the "**Substitute**"), provided that Contracting Authority can demonstrate to the Construction Contractor, acting reasonably, that the Substitute shall have sufficient financial resources, or shall be supported by a satisfactory guarantee, to carry out the obligations of the Substitute under the Construction Contract.

- (b) Subject to Section 6(d), upon receipt by the Construction Contractor of a Step-In Notice:
- (i) Project Co and the Construction Contractor will be deemed to be released from their existing and future obligations under the Construction Contract to each other (except with respect to any and all indemnities from Project Co or the Construction Contractor to the other in respect of the period prior to the receipt of the Step-In Notice), and Contracting Authority or the Substitute, as applicable, and the Construction Contractor will be deemed to assume those same existing and future obligations towards each other (except in respect of the aforesaid indemnities);
 - (ii) the existing and future rights of Project Co against the Construction Contractor under the Construction Contract and vice versa will be deemed to be cancelled (except with respect to any and all indemnities from Project Co or the Construction Contractor to the other in respect of the period prior to the receipt of the Step-In Notice), and Contracting Authority or the Substitute, as applicable, and the Construction Contractor will be deemed to acquire those same existing and future rights against each other (except in respect of the aforesaid indemnities), subject to any applicable credit from the Construction Contractor to Contracting Authority if Contracting Authority pays for the Construction Contractor's reasonable costs of continued performance pursuant to Section 5;
 - (iii) any guarantee, bond, covenant, letter of credit or similar performance security in favour of Project Co from any third party in respect of any term, provision, condition, obligation, undertaking or agreement on the part of the Construction Contractor to be performed, observed or carried out by the Construction Contractor as contained in, referred to, or inferred from the Construction Contract shall be assigned, novated or granted, as required by Contracting Authority or the Substitute, as applicable, each acting reasonably, to Contracting Authority or the Substitute, as applicable, and the Construction Contractor shall cause such assignment, novation or grant on substantially the same terms and conditions as the original guarantee, bond, covenant, letter of credit or similar performance security, provided however that where Project Co shall continue to hold, or shall continue to be entitled to or have rights under, such guarantee, bond, covenant, letter of credit or similar performance security as security for any obligations of the Construction Contractor, the assignment, novation or grant of the guarantee, bond, covenant, letter of credit or similar performance security to the extent of any such obligations to Project Co shall be conditional on the satisfaction of those obligations to Project Co; and
 - (iv) at Contracting Authority's request, the Construction Contractor shall enter into, and shall cause the Construction Guarantors and any other guarantor, covenantor or surety under any guarantee, bond or covenant referred to in Section 6(b)(iii) to enter into, and Contracting Authority shall or shall cause the Substitute to enter into, as applicable, all such agreements or other documents as reasonably necessary to give effect to the foregoing, including an agreement between Contracting Authority or the Substitute, as applicable, and the Construction Contractor, acceptable to Contracting Authority and the Construction Contractor, each acting reasonably, on substantially the same terms as the Construction Contract.

- (c) Subject to Section 6(d), Project Co shall, at its own cost, cooperate fully with Contracting Authority and the Substitute in order to achieve a smooth transfer of the Construction Contract to Contracting Authority or the Substitute, as applicable, and to avoid or mitigate in so far as reasonably practicable any inconvenience, including the administration of the Construction Contract, ongoing supervisory activities and scheduling.
- (d) The rights granted by Sections 6(b) and 6(c) shall be of no force or effect if, at any time the Construction Contractor receives a Step-In Notice, the Construction Contractor has already received notice in writing from another entity entitled to the benefit of step-in rights relating to the Construction Contract that it is or has validly exercised those step-in rights. If the Construction Contractor receives any such notice on the same day as a Step-In Notice, the Step-In Notice shall be effective, except where the other notice is given by the Lenders, in which case such other notice and not the Step-In Notice shall be effective.
- (e) If Contracting Authority gives a Step-In Notice within the time provided hereunder at any time after the Construction Contractor has terminated the Construction Contract or treated it as having been repudiated by Project Co or discontinued the Construction Contractor's performance thereunder in accordance with the terms of this Construction Contractor's Direct Agreement, the Construction Contractor agrees that the Construction Contract shall be reinstated and deemed to have continued despite any termination or treatment as having been repudiated, and Contracting Authority shall pay the Construction Contractor's reasonable costs for re-commencing the obligations it has under the Construction Contract and the Construction Contractor shall be entitled to reasonable compensation and/or relief for re-commencing such obligations, having regard to the additional costs and delays incurred as a result of having terminated the Construction Contract or having treated it as being repudiated by Project Co or having discontinued its performance thereunder.

7. CONSTRUCTION CONTRACTOR LIABILITY

- (a) The liability of the Construction Contractor hereunder shall not be modified, released, diminished or in any way affected by:
 - (i) any independent inspection, investigation or enquiry into any matter which may be made or carried out by or for Contracting Authority, or by any failure or omission to carry out any such inspection, investigation or enquiry; or
 - (ii) the appointment by Contracting Authority of any other person to review the progress of or otherwise report to Contracting Authority in respect of the Project, or by any action or omission of such person whether or not such action or omission might give rise to any independent liability of such person to Contracting Authority,

provided always that nothing in this Section 7 shall modify or affect any rights which the Construction Contractor might have otherwise had to claim contribution from any other person whether under statute or common law.

- (b) In the event Contracting Authority delivers a Step-In Notice, the Construction Contractor shall have no greater liability to Contracting Authority or any Substitute than it would have

had to Project Co under the Construction Contract, and the Construction Contractor shall be entitled in any proceedings by Contracting Authority or any Substitute to rely on any liability limitations in the Construction Contract.

8. PROJECT CO AS PARTY

Project Co acknowledges and agrees that the Construction Contractor shall not be in breach of the Construction Contract by complying with its obligations hereunder.

9. CONSTRUCTION GUARANTORS AS PARTY

Each Construction Guarantor agrees with Contracting Authority it has entered into a guarantee or covenant referred to in Section 6(b)(iii), hereby consents to the assignment, novation or grant (including any conditional assignment, novation or grant) as provided herein immediately upon receipt by the Construction Contractor of a Step-In Notice and without the requirement of any further action on the part of Contracting Authority, and agrees that it shall in accordance with Section 6 enter into all such agreements or other documents as reasonably necessary to give effect to the foregoing. The Construction Guarantors are entering into this Construction Contractor's Direct Agreement solely for the purposes of this Section 9.

10. ASSIGNMENT

- (a) Project Co shall not, without the prior written consent of Contracting Authority, assign, transfer, charge, subcontract, subparticipate or otherwise dispose of any interest in this Construction Contractor's Direct Agreement except to the extent entitled to do so under the Project Agreement.
- (b) Contracting Authority may assign or otherwise dispose of the benefit of the whole or part of this Construction Contractor's Direct Agreement to any person to whom Contracting Authority may assign or otherwise dispose of its interest in the Project Agreement pursuant to Section 59.2 (*Contracting Authority Assignment*) of the Project Agreement but only in conjunction therewith, and shall provide written notice to Project Co and the Construction Contractor of such assignment or disposition.
- (c) The Construction Contractor and the Construction Guarantors shall not, without the prior written consent of Contracting Authority and Project Co, assign, transfer, charge, subcontract, subparticipate or otherwise dispose of any interest in this Construction Contractor's Direct Agreement except as may be permitted under the Construction Contract.

11. NOTICES

- (a) All notices, requests, demands, instructions, certificates, consents and other communications required or permitted under this Construction Contractor's Direct Agreement shall be in writing (whether or not "written notice" or "notice in writing" is specifically required by the applicable provision of this Construction Contractor's Direct Agreement) and served by sending the same by registered mail, by hand (in each case, with a copy by electronic submission to the Contracting Authority Representative), or by electronic submission as follows:

If to Contracting Authority or Contracting Authority Representative:

Metrolinx

- (b) Where any notice is provided or submitted to a Party via electronic submission, an original of the notice sent via electronic submission shall promptly be sent by regular mail or registered mail. For greater certainty, a notice given via electronic submission shall not be invalid by reason only of a Party's failure to comply with this Section 11(b).
- (c) Any Party to this Construction Contractor's Direct Agreement may, from time to time, change any of its contact information set forth in Section 11(a) by prior notice to the other Parties, and such change shall be effective on the Business Day that next follows the recipient Party's receipt of such notice unless a later effective date is given in such notice.

- (d) Subject to Sections 11(e), 11(f) and 11(g):
 - (i) a notice given by registered mail shall be deemed to have been received on the third (3rd) Business Day after mailing;
 - (ii) a notice given by hand delivery shall be deemed to have been received on the day it is delivered; and
 - (iii) a notice given by electronic submission shall be deemed to have been received on the day it is transmitted by electronic submission.
- (e) If the Party giving the notice knows or ought reasonably to know of difficulties with the postal system which might affect negatively the delivery of mail, any such notice shall not be mailed but shall be made or given by personal delivery or by electronic submission in accordance with this Section 11.
- (f) If any notice delivered by hand or transmitted by electronic submission is so delivered or transmitted, as the case may be, either on a day that is not a Business Day or on a Business Day after 4:00 p.m. (recipient's local time), then such notice shall be deemed to have been received by such recipient on the next Business Day.
- (g) A notice given by electronic submission shall be deemed to have been received by the recipient on the day it is transmitted only if an electronic submission report (maintained by the sender) indicates that the transmission of such notice was successful.

12. AMENDMENTS

This Construction Contractor's Direct Agreement may not be varied, amended or supplemented except by an agreement in writing signed by duly authorized representatives of the Parties and stating on its face that it is intended to be an amendment, restatement or other modification, as the case may be, to this Construction Contractor's Direct Agreement.

13. WAIVER

- (a) No waiver made or given by a Party under or in connection with this Construction Contractor's Direct Agreement shall be binding or effective unless the waiver is in writing, signed by an authorized representative of the Party giving such waiver, and delivered by such Party to the other Parties. No waiver made with respect to any right, power or remedy in one instance will be deemed to be a waiver with respect to any other instance involving the exercise of such right, power, or remedy or with respect to any other right, power, or remedy.
- (b) Failure by any Party to exercise any of its rights, powers or remedies hereunder or its delay to do so shall not constitute a waiver of those rights, powers or remedies. The single or partial exercise of a right, power or remedy shall not prevent its subsequent exercise or the exercise of any other right, power or remedy.

14. RELATIONSHIP BETWEEN THE PARTIES

The Parties are independent contractors. This Construction Contractor's Direct Agreement is not intended to and does not create or establish between the Parties any relationship as partners, joint venturers, employer and employee, master and servant, or, except as provided in this Construction Contractor's Direct Agreement, of principal and agent.

15. ENTIRE AGREEMENT

Except where provided otherwise in this Construction Contractor's Direct Agreement, this Construction Contractor's Direct Agreement constitutes the entire agreement between the Parties in connection with its subject matter and supersedes all prior representations, communications, negotiations and understandings, whether oral, written, express or implied, concerning the subject matter of this Construction Contractor's Direct Agreement.

16. SEVERABILITY

Each provision of this Construction Contractor's Direct Agreement shall be valid and enforceable to the fullest extent permitted by law. If any provision of this Construction Contractor's Direct Agreement is declared invalid, unenforceable or illegal by the courts of a competent jurisdiction, such provision may be severed and such invalidity, unenforceability or illegality shall not prejudice or affect the validity, enforceability and legality of the remaining provisions of this Construction Contractor's Direct Agreement. If any such provision of this Construction Contractor's Direct Agreement is invalid, unenforceable or illegal, the Parties shall, acting in good faith, promptly negotiate new provisions to eliminate such invalidity, unenforceability or illegality and to restore this Construction Contractor's Direct Agreement as near as possible to its original intent and effect.

17. ENUREMENT

This Construction Contractor's Direct Agreement shall enure to the benefit of, and be binding on, each of the Parties and their respective successors and permitted transferees and assigns.

18. GOVERNING LAW AND JURISDICTION

- (a) This Construction Contractor's Direct Agreement shall be governed by and construed in accordance with the laws of Ontario and the laws of Canada applicable therein and shall be treated in all respects as an Ontario contract, without regard to conflict of laws principles.
- (b) The Parties agree that the courts of the Province of Ontario and all courts competent to hear appeals therefrom shall have exclusive jurisdiction to hear and settle any action, suit, proceeding or dispute in connection with this Construction Contractor's Direct Agreement and hereby irrevocably attorn to the exclusive jurisdiction of such courts.
- (c) Nothing in this Construction Contractor's Direct Agreement affects the rights, protections and immunities of the Crown under the *Crown Liability and Proceedings Act* (Ontario).

19. CONTRACTING AUTHORITY DESIGNATE

At any time and from time to time, the Crown may designate any ministry, branch, agency, division, department or office of the Government of Ontario to carry out administrative responsibility for the rights and obligations of Contracting Authority under this Construction Contractor's Direct Agreement and Project Co, the Construction Contractor and the Construction Guarantors may deal exclusively with the designated person in respect of all such matters and is entitled to rely on the actions, directions, requests, notices, consents, approvals, waivers, comments relating to the review of documentation and other administrative matters and decisions determined by such designated person from time to time, until the Crown has notified Project Co, the Construction Contractor and the Construction Guarantors in writing that such designated person is no longer the person designated by the Crown hereunder and such notice shall have effect on the later of the date of delivery of such notice and the date specified in the written notice. The Crown shall advise Project Co, the Construction Contractor and the Construction Guarantors in writing of any designation hereunder. The rights and obligations of the Parties to this Construction Contractor's Direct Agreement shall be in no way affected by reason of any such designation. Project Co, the Construction Contractor and the Construction Guarantors acknowledge the right of the Crown to delegate administrative responsibilities hereunder as set forth in this Section 19.

20. FURTHER ASSURANCE

Each Party shall do all things, from time to time, and execute all further documents necessary to give full effect to this Construction Contractor's Direct Agreement.

21. LANGUAGE OF AGREEMENT

Each Party acknowledges having requested and being satisfied that this Construction Contractor's Direct Agreement and related documents be drawn in English. *Chacune des parties reconnaît avoir demandé que ce document et ses annexes soient rédigés en anglais et s'en déclare satisfaite.*

22. COUNTERPARTS

This Construction Contractor's Direct Agreement may be executed in one or more counterparts. Any single counterpart or a set of counterparts executed, in either case, by all of the Parties shall constitute a full, original and binding agreement for all purposes. Delivery of an executed counterpart by sending a copy by electronic mail or other electronic transmission shall be as effective as the manual delivery of an executed counterpart.

23. LIABILITY

Metrolinx, as Crown agency, shall be liable for all of the obligations of Contracting Authority under this Construction Contractor's Direct Agreement.

24. COPYRIGHT NOTICE

The Parties acknowledge that King's Printer for Ontario is the exclusive owner of the copyright in the Project Agreement and this Construction Contractor's Direct Agreement.

25. SUPPLY OF CARS

In the event that the Project Agreement is terminated (resulting in the termination of the Construction Contract in accordance with its terms), Contracting Authority may, within ten (10) Business Days following the date of termination of the Project Agreement (and corresponding termination of the Construction Contract) by written notice to the [REDACTED] (the “Contracting Authority Notice”) require the [REDACTED] to enter into a new contract (the “New Contract”) either with Contracting Authority or with a third party designated by Contracting Authority (the “Project Co Cars Substitute”) on the same terms and conditions with respect to the remaining Cars and Additional Cars as the Construction Contract and as otherwise set out in this Section 25, with the intent being that the entering into of the New Contract, with respect to the remaining Cars and Additional Cars only, will place [REDACTED] in the same position as if the Construction Contract had not been terminated. In addition, Contracting Authority or the Project Co Cars Substitute shall pay the reasonable costs of the [REDACTED] in accordance with the Construction Contract induced by the prior termination of the Construction Contract to the extent that such termination was not caused, or contributed to, by the [REDACTED]. Notwithstanding the foregoing, Contracting Authority must demonstrate to the [REDACTED], acting reasonably, that the Project Co Cars Substitute shall have sufficient financial resources, or shall be supported by a satisfactory guarantee, to carry out the obligations of the Project Co Cars Substitute under the New Contract before the [REDACTED] enters into the New Contract. If the [REDACTED] fails to notify Contracting Authority in writing within fifteen (15) Business Days of receipt of the Contracting Authority Notice that it is not satisfied, acting reasonably, that the proposed Project Co Cars Substitute has sufficient financial resources or is supported by a satisfactory guarantee, the Project Co Cars Substitute shall be deemed to have been approved. The New Contract shall require the [REDACTED] to provide to the Contracting Authority or the Project Co Cars Substitute, as the case may be, performance support on the same or substantially similar terms as the performance support provided in favour of Project Co under the Construction Contract, including a guarantee from the [REDACTED] of the obligations of the [REDACTED] under the New Contract, but sized accordingly for the performance of the remaining Cars and Additional Cars only and any other elements of the Work to be performed under the New Contract, unless any material variations are approved by Contracting Authority, acting reasonably.

[REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF the Parties have executed this Construction Contractor’s Direct Agreement as of the date first above written.

SCHEDULE 5-2

SERVICE PROVIDER’S DIRECT AGREEMENT

THIS AGREEMENT is made as of the 15th day of November, 2022

BETWEEN:

METROLINX, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency in accordance with the *Crown Agency Act*, R.S.O. 1990, c. 48

(“**Contracting Authority**”)

- AND -

CONNECT 6IX GENERAL PARTNERSHIP, [REDACTED]

(“**Project Co**”)

- AND -

[REDACTED]

(the “**Service Provider**”)

- AND -

[REDACTED]

(“**[REDACTED]**”)

- AND -

[REDACTED]

(“**[REDACTED]**”)

- AND -

[REDACTED]

(“**[REDACTED]**” and together with **[REDACTED]** and **[REDACTED]** the “**Service Guarantors**” and each a “**Service Guarantor**”)

WHEREAS:

- A. Contracting Authority and Project Co have entered into the Project Agreement, which requires Project Co to enter into, and to cause the Service Provider and the Service Guarantors to enter into, this Service Provider’s Direct Agreement with Contracting Authority.
- B. Project Co and the Service Provider have entered into the Service Contract, which requires the Service Provider and the Service Guarantors to enter into this Service Provider’s Direct Agreement with Contracting Authority.

NOW THEREFORE in consideration of the mutual covenants and agreements of the Parties hereinafter contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties covenant and agree as follows:

1. DEFINITIONS

In this Service Provider’s Direct Agreement, including the recitals and appendices, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Service Provider’s Direct Agreement) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) “**Contracting Authority**” has the meaning given in the preamble.
- (b) “**Default Notice**” has the meaning given in Section 5(a).
- (c) “**Party**” means Contracting Authority, the Service Provider, the Service Guarantors or Project Co, and “**Parties**” means, collectively, Contracting Authority, the Service Provider, the Service Guarantors and Project Co.
- (d) “**Project Agreement**” means the project agreement made on or about the date hereof between Contracting Authority and Project Co.
- (e) “**Project Co**” has the meaning given in the preamble.
- (f) “**Service Guarantors**” has the meaning given in the preamble.
- (g) “**Service Provider**” has the meaning given in the preamble.
- (h) “**Step-In Notice**” has the meaning given in Section 6(a).
- (i) “**Substitute**” has the meaning given in Section 6(a).

2. INTERPRETATION

This Service Provider’s Direct Agreement shall be interpreted according to the following provisions, unless the context requires a different meaning:

- (a) The headings in this Service Provider’s Direct Agreement are for convenience of reference only, shall not constitute a part of this Service Provider’s Direct Agreement, and shall not

be taken into consideration in the interpretation of, or affect the meaning of, this Service Provider's Direct Agreement.

- (b) Unless the context otherwise requires, references to specific Sections, Clauses, Paragraphs, Subparagraphs, and other divisions are references to such Sections, Clauses, Paragraphs, Subparagraphs, or divisions of this Service Provider's Direct Agreement and the terms "Section" and "Clause" are used interchangeably and are synonymous.
- (c) Words importing persons or parties are to be broadly interpreted and include an individual, corporation, firm, partnership, joint venture, trust, unincorporated organization, Governmental Authority, unincorporated body of persons or association and any other entity having legal capacity, and the heirs, beneficiaries, executors, administrators or other legal representatives of a person in such capacity.
- (d) Unless the context otherwise requires, wherever used herein the plural includes the singular, the singular includes the plural, and each of the masculine, feminine and neuter genders include all other genders.
- (e) References to any standard, principle, agreement or document include (subject to all relevant approvals and any other provisions of this Service Provider's Direct Agreement concerning amendments) a reference to that standard, principle, agreement or document as amended, supplemented, restated, substituted, replaced, novated or assigned.
- (f) The words in this Service Provider's Direct Agreement shall bear their natural meaning.
- (g) References containing terms such as:
 - (i) "hereof", "herein", "hereto", "hereinafter", and other terms of like import are not limited in applicability to the specific provision within which such references are set forth but instead refer to this Service Provider's Direct Agreement taken as a whole; and
 - (ii) "includes" and "including", whether or not used with the words "without limitation" or "but not limited to", shall not be deemed limited by the specific enumeration of items but shall, in all cases, be deemed to be without limitation and construed and interpreted to mean "includes without limitation" and "including without limitation".
- (h) In construing this Service Provider's Direct Agreement, the rule known as the *ejusdem generis* rule shall not apply nor shall any similar rule or approach to the construction of this Service Provider's Direct Agreement and, accordingly, general words introduced or followed by the word "other" or "including" or "in particular" shall not be given a restrictive meaning because they are followed or preceded (as the case may be) by particular examples intended to fall within the meaning of the general words.
- (i) Where this Service Provider's Direct Agreement states that an obligation shall be performed "no later than" or "within" or "by" a stipulated date or event which is a prescribed number of days after a stipulated date or event, the latest time for performance

shall be 5:00 p.m. on the last day for performance of the obligation concerned, or, if that day is not a Business Day, 5:00 p.m. on the next Business Day.

- (j) Where this Service Provider's Direct Agreement states that an obligation shall be performed "on" a stipulated date, the latest time for performance shall be 5:00 p.m. on that day, or, if that day is not a Business Day, 5:00 p.m. on the next Business Day.
- (k) Any reference to time of day or date means the local time or date in Toronto, Ontario.
- (l) Unless otherwise indicated, time periods will be strictly construed.
- (m) Whenever the terms "will" or "shall" are used in this Service Provider's Direct Agreement they shall be construed and interpreted as synonymous and to read "shall".

3. CONFLICT IN DOCUMENTS

- (a) In the event of ambiguities, conflicts or inconsistencies between or among this Service Provider's Direct Agreement, the Project Agreement and the Service Contract, this Service Provider's Direct Agreement shall prevail.
- (b) In the event of ambiguities, conflicts or inconsistencies between or among this Service Provider's Direct Agreement and the Lenders' Direct Agreement, the Lenders' Direct Agreement shall prevail.

4. AGREEMENTS

- (a) Project Co and the Service Provider shall not amend, modify, or depart from the terms of the Service Contract without the prior written consent of Contracting Authority, acting reasonably, which consent shall not be withheld or delayed where such amendment, modification or departure does not materially and adversely affect the ability of Project Co to perform its obligations under this Service Provider's Direct Agreement and does not have the effect of increasing any liability of Contracting Authority, whether actual or potential. Project Co and the Service Provider shall provide a written copy of all such amendments, modifications or departures. The Parties acknowledge and agree that this Section 4(a) shall not apply to Variations provided for under the Project Agreement.
- (b) Each of the Parties acknowledges having received a copy of the Project Agreement and the Service Contract.
- (c) If the Service Provider gives Project Co any notice of any default(s) under the Service Contract that may give the Service Provider a right to terminate the Service Contract or to treat it as having been repudiated by Project Co or to discontinue the Service Provider's performance thereunder, then the Service Provider shall concurrently provide Contracting Authority with a copy of such notice and set out in reasonable detail the default(s).

5. NO TERMINATION BY SERVICE PROVIDER WITHOUT DEFAULT NOTICE

The Service Provider shall not exercise any right it may have to terminate the Service Contract or to treat it as having been repudiated by Project Co or to discontinue the Service Provider's performance thereunder unless:

- (a) the Service Provider first delivers a written notice (a “**Default Notice**”) to Contracting Authority setting out in reasonable detail the default(s) on which the Service Provider intends to rely in terminating the Service Contract or to treat it as having been repudiated by Project Co or to discontinue the Service Provider's performance thereunder; and
- (b) within the period ending thirty (30) days after the Service Provider notifies Contracting Authority of the expiry of any relevant period for the exercise of step-in or similar rights by the Lenders, or, if the Lenders have no such step-in or similar rights, then thirty (30) days after the later of Contracting Authority receiving Default Notice or the expiry of the applicable cure period under the Service Contract:
 - (i) the default(s) on which the Service Provider intends to rely in terminating the Service Contract or to treat it as having been repudiated by Project Co or to discontinue the Service Provider's performance thereunder have not been remedied; and
 - (ii) the Service Provider has not received a Step-In Notice from Contracting Authority,

provided that, until such time as Contracting Authority gives the Service Provider a notice that Contracting Authority will not be exercising its step-in rights, Contracting Authority shall pay the Service Provider's reasonable costs of continued performance.

6. STEP-IN RIGHTS

- (a) Contracting Authority may at any time:
 - (i) within the period referred to in Section 5(b); or
 - (ii) if Contracting Authority has not received a Default Notice and if Contracting Authority's right to terminate the Project Agreement has arisen and is continuing, deliver a notice (a “**Step-In Notice**”) electing to replace Project Co under the Service Contract either with Contracting Authority or a third party designated by Contracting Authority in the Step-In Notice (the “**Substitute**”), provided that Contracting Authority can demonstrate to the Service Provider, acting reasonably, that the Substitute shall have sufficient financial resources, or shall be supported by a satisfactory guarantee, to carry out the obligations of the Substitute under the Service Contract.
- (b) Subject to Section 6(d), upon receipt by the Service Provider of a Step-In Notice:
 - (i) Project Co and the Service Provider will be deemed to be released from their existing and future obligations under the Service Contract to each other (except

- with respect to any and all indemnities from Project Co or the Service Provider to the other in respect of the period prior to the receipt of the Step-In Notice), and Contracting Authority or the Substitute, as applicable, and the Service Provider will be deemed to assume those same existing and future obligations towards each other (except in respect of the aforesaid indemnities);
- (ii) the existing and future rights of Project Co against the Service Provider under the Service Contract and vice versa will be deemed to be cancelled (except with respect to any and all indemnities from Project Co or the Service Provider to the other in respect of the period prior to the receipt of the Step-In Notice), and Contracting Authority or the Substitute, as applicable, and the Service Provider will be deemed to acquire those same existing and future rights against each other (except in respect of the aforesaid indemnities), subject to any applicable credit from the Service Provider to Contracting Authority if Contracting Authority pays for the Service Provider's reasonable costs of continued performance pursuant to Section 5;
 - (iii) any guarantee, bond, covenant, letter of credit or similar performance security in favour of Project Co from any third party in respect of any term, provision, condition, obligation, undertaking or agreement on the part of the Service Provider to be performed, observed or carried out by the Service Provider as contained in, referred to, or inferred from the Service Contract shall be assigned, novated or granted, as required by Contracting Authority or the Substitute, as applicable, each acting reasonably, to Contracting Authority or the Substitute, as applicable, and the Service Provider shall cause such assignment, novation or grant on substantially the same terms and conditions as the original guarantee, bond, covenant, letter of credit or similar performance security, provided however that where Project Co shall continue to hold, or shall continue to be entitled to have rights under, such guarantee, bond, covenant, letter of credit or similar performance security as security for any obligations of the Service Provider, the assignment, novation or grant of the guarantee, bond, covenant, letter of credit or similar performance security to the extent of any such obligations to Project Co shall be conditional on the satisfaction of those obligations to Project Co; and
 - (iv) at Contracting Authority's request, the Service Provider shall enter into, and shall cause the Service Guarantors and any other guarantor, covenantor or surety under any guarantee, bond or covenant referred to in Section 6(b)(iii) to enter into, and Contracting Authority shall or shall cause the Substitute to enter into, as applicable, all such agreements or other documents as reasonably necessary to give effect to the foregoing, including an agreement between Contracting Authority or the Substitute, as applicable, and the Service Provider, acceptable to Contracting Authority and the Service Provider, each acting reasonably, on substantially the same terms as the Service Contract.
- (c) Subject to Section 6(d), Project Co shall, at its own cost, cooperate fully with Contracting Authority and the Substitute in order to achieve a smooth transfer of the Service Contract to Contracting Authority or the Substitute, as applicable, and to avoid or mitigate in so far

as reasonably practicable any inconvenience, including the administration of the Service Contract, ongoing supervisory activities and scheduling.

- (d) The rights granted by Sections 6(b) and 6(c) shall be of no force or effect if, at any time the Service Provider receives a Step-In Notice, the Service Provider has already received notice in writing from another entity entitled to the benefit of step-in rights relating to the Service Contract that it is or has validly exercised those step-in rights. If the Service Provider receives any such notice on the same day as a Step-In Notice, the Step-In Notice shall be effective, except where the other notice is given by the Lenders, in which case such other notice and not the Step-In Notice shall be effective.
- (e) If Contracting Authority gives a Step-In Notice within the time provided hereunder at any time after the Service Provider has terminated the Service Contract or treated it as having been repudiated by Project Co or discontinued the Service Provider's performance thereunder in accordance with the terms of this Service Provider's Direct Agreement, the Service Provider agrees that the Service Contract shall be reinstated and deemed to have continued despite any termination or treatment as having been repudiated, and Contracting Authority shall pay the Service Provider's reasonable costs for re-commencing the obligations it has under the Service Contract and the Service Provider shall be entitled to reasonable compensation and/or relief for re-commencing such obligations, having regard to the additional costs and delays incurred as a result of having terminated the Service Contract or having treated it as being repudiated by Project Co or having discontinued its performance thereunder.

7. SERVICE PROVIDER LIABILITY

- (a) The liability of the Service Provider hereunder shall not be modified, released, diminished or in any way affected by:
 - (i) any independent inspection, investigation or enquiry into any matter which may be made or carried out by or for Contracting Authority, or by any failure or omission to carry out any such inspection, investigation or enquiry; or
 - (ii) the appointment by Contracting Authority of any other person to review the progress of or otherwise report to Contracting Authority in respect of the Project, or by any action or omission of such person whether or not such action or omission might give rise to any independent liability of such person to Contracting Authority,

provided always that nothing in this Section 7 shall modify or affect any rights which the Service Provider might have otherwise had to claim contribution from any other person whether under statute or common law.

- (b) In the event Contracting Authority delivers a Step-In Notice, the Service Provider shall have no greater liability to Contracting Authority or any Substitute than it would have had to Project Co under the Service Contract, and the Service Provider shall be entitled in any proceedings by Contracting Authority or any Substitute to rely on any liability limitations in the Service Contract.

8. PROJECT CO AS PARTY

Project Co acknowledges and agrees that the Service Provider shall not be in breach of the Service Contract by complying with its obligations hereunder.

9. SERVICE GUARANTORS AS PARTY

Each of [REDACTED] and [REDACTED] agrees with Contracting Authority that such Service Guarantor has entered into a guarantee or covenant of the joint and several obligations of its affiliated subsidiary as a member of the Service Provider joint venture referred to in Section 6(b)(iii), hereby consents to the assignment, novation or grant (including any conditional assignment, novation or grant) as provided herein immediately upon receipt by the Service Provider of a Step-In Notice and without the requirement of any further action on the part of Contracting Authority, and agrees that such Service Guarantor shall in accordance with Section 6 enter into all such agreements or other documents as reasonably necessary to give effect to the foregoing. [REDACTED] agrees with Contracting Authority that [REDACTED] has entered into a guarantee or covenant of the obligations of [REDACTED] under its guarantee or covenant referenced in the foregoing sentence, hereby consents to the assignment, novation or grant (including any conditional assignment, novation or grant) as provided herein immediately upon receipt by the Service Provider of a Step-In Notice and without the requirement of any further action on the part of Contracting Authority, and agrees that it shall in accordance with Section 6 enter into all such agreements or other documents as reasonably necessary to give effect to the foregoing. The Service Guarantors enter into this Service Provider's Direct Agreement solely for the purposes of this Section 9.

10. ASSIGNMENT

- (a) Project Co shall not, without the prior written consent of Contracting Authority, assign, transfer, charge, subcontract, subparticipate or otherwise dispose of any interest in this Service Provider's Direct Agreement except to the extent entitled to do so under the Project Agreement.
- (b) Contracting Authority may assign or otherwise dispose of the benefit of the whole or part of this Service Provider's Direct Agreement to any person to whom Contracting Authority may assign or otherwise dispose of its interest in the Project Agreement pursuant to Section 59.2 (*Contracting Authority Assignment*) of the Project Agreement but only in conjunction therewith, and shall provide written notice to Project Co and the Service Provider of such assignment or disposition.
- (c) The Service Provider and the Service Guarantors shall not, without the prior written consent of Contracting Authority and Project Co, assign, transfer, charge, subcontract, subparticipate or otherwise dispose of any interest in this Service Provider's Direct Agreement, except as may be permitted under the Service Contract.

11. NOTICES

- (a) All notices, requests, demands, instructions, certificates, consents and other communications required or permitted under this Service Provider's Direct Agreement shall be in writing (whether or not "written notice" or "notice in writing" is specifically required by the applicable provision of this Service Provider's Direct Agreement) and

served by sending the same by registered mail, by hand (in each case, with a copy by electronic submission to the Contracting Authority Representative), or by electronic submission as follows:

- (b) Where any notice is provided or submitted to a Party via electronic submission, an original of the notice sent via electronic submission shall promptly be sent by regular mail or

registered mail. For greater certainty, a notice given via electronic submission shall not be invalid by reason only of a Party's failure to comply with this Section 11(b).

- (c) Any Party to this Service Provider's Direct Agreement may, from time to time, change any of its contact information set forth in Section 11(a) by prior notice to the other Parties, and such change shall be effective on the Business Day that next follows the recipient Party's receipt of such notice unless a later effective date is given in such notice.
- (d) Subject to Sections 11(e), 11(f) and 11(g):
 - (i) a notice given by registered mail shall be deemed to have been received on the third (3rd) Business Day after mailing;
 - (ii) a notice given by hand delivery shall be deemed to have been received on the day it is delivered; and
 - (iii) a notice given by electronic submission shall be deemed to have been received on the day it is transmitted by electronic submission.
- (e) If the Party giving the notice knows or ought reasonably to know of difficulties with the postal system which might affect negatively the delivery of mail, any such notice shall not be mailed but shall be made or given by personal delivery or by electronic submission in accordance with this Section 11.
- (f) If any notice delivered by hand or transmitted by electronic submission is so delivered or transmitted, as the case may be, either on a day that is not a Business Day or on a Business Day after 4:00 p.m. (recipient's local time), then such notice shall be deemed to have been received by such recipient on the next Business Day.
- (g) A notice given by electronic submission shall be deemed to have been received by the recipient on the day it is transmitted only if an electronic submission report (maintained by the sender) indicates that the transmission of such notice was successful.

12. AMENDMENTS

This Service Provider's Direct Agreement may not be varied, amended or supplemented except by an agreement in writing signed by duly authorized representatives of the Parties and stating on its face that it is intended to be an amendment, restatement or other modification, as the case may be, to this Service Provider's Direct Agreement.

13. WAIVER

- (a) No waiver made or given by a Party under or in connection with this Service Provider's Direct Agreement shall be binding or effective unless the waiver is in writing, signed by an authorized representative of the Party giving such waiver, and delivered by such Party to the other Parties. No waiver made with respect to any right, power or remedy in one instance will be deemed to be a waiver with respect to any other instance involving the

exercise of such right, power, or remedy or with respect to any other right, power, or remedy.

- (b) Failure by any Party to exercise any of its rights, powers or remedies hereunder or its delay to do so shall not constitute a waiver of those rights, powers or remedies. The single or partial exercise of a right, power or remedy shall not prevent its subsequent exercise or the exercise of any other right, power or remedy.

14. RELATIONSHIP BETWEEN THE PARTIES

The Parties are independent contractors. This Service Provider's Direct Agreement is not intended to and does not create or establish between the Parties any relationship as partners, joint venturers, employer and employee, master and servant, or, except as provided in this Service Provider's Direct Agreement, of principal and agent.

15. ENTIRE AGREEMENT

Except where provided otherwise in this Service Provider's Direct Agreement, this Service Provider's Direct Agreement constitutes the entire agreement between the Parties in connection with its subject matter and supersedes all prior representations, communications, negotiations and understandings, whether oral, written, express or implied, concerning the subject matter of this Service Provider's Direct Agreement.

16. SEVERABILITY

Each provision of this Service Provider's Direct Agreement shall be valid and enforceable to the fullest extent permitted by law. If any provision of this Service Provider's Direct Agreement is declared invalid, unenforceable or illegal by the courts of a competent jurisdiction, such provision may be severed and such invalidity, unenforceability or illegality shall not prejudice or affect the validity, enforceability and legality of the remaining provisions of this Service Provider's Direct Agreement. If any such provision of this Service Provider's Direct Agreement is invalid, unenforceable or illegal, the Parties shall, acting in good faith, promptly negotiate new provisions to eliminate such invalidity, unenforceability or illegality and to restore this Service Provider's Direct Agreement as near as possible to its original intent and effect.

17. ENUREMENT

This Service Provider's Direct Agreement shall enure to the benefit of, and be binding on, each of the Parties and their respective successors and permitted transferees and assigns.

18. GOVERNING LAW AND JURISDICTION

- (a) This Service Provider's Direct Agreement shall be governed by and construed in accordance with the laws of Ontario and the laws of Canada applicable therein and shall be treated in all respects as an Ontario contract, without regard to conflict of laws principles.
- (b) The Parties agree that the courts of the Province of Ontario and all courts competent to hear appeals therefrom shall have exclusive jurisdiction to hear and settle any action, suit,

proceeding or dispute in connection with this Service Provider's Direct Agreement and hereby irrevocably attorn to the exclusive jurisdiction of such courts.

- (c) Nothing in this Service Provider's Direct Agreement affects the rights protections and immunities of the Crown under the *Crown Liability and Proceedings Act* (Ontario).

19. CONTRACTING AUTHORITY

At any time and from time to time, the Crown may designate any ministry, branch, agency, division, department or office of the Government of Ontario to carry out administrative responsibility for the rights and obligations of Contracting Authority under this Service Provider's Direct Agreement and Project Co, the Service Provider and the Service Guarantors may deal exclusively with the designated person in respect of all such matters and is entitled to rely on the actions, directions, requests, notices, consents, approvals, waivers, comments relating to the review of documentation and other administrative matters and decisions determined by such designated person from time to time, until the Crown has notified Project Co, the Service Provider and the Service Guarantors in writing that such designated person is no longer the person designated by the Crown hereunder and such notice shall have effect on the later of the date of delivery of such notice and the date specified in the written notice. The Crown shall advise Project Co, the Service Provider and the Service Guarantors in writing of any designation hereunder. The rights and obligations of the Parties to this Service Provider's Direct Agreement shall be in no way affected by reason of any such designation. Project Co, the Service Provider and the Service Guarantors acknowledge the right of the Crown to delegate administrative responsibilities hereunder as set forth in this Section 19.

20. FURTHER ASSURANCE

Each Party shall do all things, from time to time, and execute all further documents necessary to give full effect to this Service Provider's Direct Agreement.

21. LANGUAGE OF AGREEMENT

Each Party acknowledges having requested and being satisfied that this Service Provider's Direct Agreement and related documents be drawn in English. *Chacune des parties reconnaît avoir demandé que ce document et ses annexes soient rédigés en anglais et s'en déclare satisfaite.*

22. COUNTERPARTS

This Service Provider's Direct Agreement may be executed in one or more counterparts. Any single counterpart or a set of counterparts executed, in either case, by all of the Parties shall constitute a full, original and binding agreement for all purposes. Delivery of an executed counterpart by sending a copy by electronic mail or other electronic transmission shall be as effective as the manual delivery of an executed counterpart.

23. LIABILITY

Metrolinx, as Crown agency, shall be liable for all of the obligations of Contracting Authority under this Service Provider's Direct Agreement.

24. COPYRIGHT NOTICE

The Parties acknowledge that King's Printer for Ontario is the exclusive owner of the copyright in the Project Agreement and this Service Provider's Direct Agreement.

[REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF the Parties have executed this Service Provider’s Direct Agreement as of the date first above written.

SCHEDULE 6

INDEPENDENT CERTIFIER AGREEMENT

THIS AGREEMENT is made as of the 15th day of November, 2022

BETWEEN:

METROLINX, a non-share capital corporation continued under the *Metrolinx Act, 2006*, S.O. 2006, c. 16 and a Crown agency in accordance with the *Crown Agency Act*, R.S.O. 1990, c. 48

(“**Metrolinx**” or “**Contracting Authority**”)

AND:

CONNECT SIX GENERAL PARTNERSHIP, [REDACTED]

(“**Project Co**”)

AND:

[REDACTED]

(the “**Independent Certifier**”)

WHEREAS:

- A. Contracting Authority and Project Co (collectively, the “**PA Parties**” and each, a “**PA Party**”) have entered into the Project Agreement.
- B. Pursuant to the terms of the Project Agreement, the PA Parties wish to appoint the Independent Certifier, and the Independent Certifier wishes to accept such appointment, to perform certain services in connection with the Project Agreement.
- C. The PA Parties and the Independent Certifier wish to enter into this Independent Certifier Agreement in order to record the terms by which the Independent Certifier shall perform such services.
- D. Canada will enter into the Funding Agreement with the Province with respect to the Project and pursuant to that agreement will agree to pay to the Province, for remission to Metrolinx, a portion of Eligible Expenditures incurred by Metrolinx with respect to the Project.
- E. Canada has requested that the Independent Certifier provide to Canada certain assurances as to its role and status with respect to the Project and certifications as to Eligible Expenditures incurred by Metrolinx with respect to each Milestone Payment and with respect to Substantial Completion.

NOW THEREFORE in consideration of the mutual covenants and agreements of the PA Parties and the Independent Certifier herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the PA Parties and the Independent Certifier covenant and agree as follows:

1. DEFINITIONS

1.1 Definitions

- (a) In this Independent Certifier Agreement, including the recitals and appendices, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Independent Certifier Agreement) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:
- (i) “**Adjudication Fee**” means the fee payable by Contracting Authority and Project Co to the Independent Certifier for the Independent Certifier conducting Adjudications as such fees are specified and made payable in accordance with Appendix B to this Independent Certifier Agreement.
 - (ii) “**Canada**” means His Majesty the King in right of Canada, as represented by the Minister of Infrastructure and Communities or such other ministry, department or agency of the federal government which may be responsible for administering the Funding Agreement on behalf of the federal government from time to time.
 - (iii) “**Certification Services**” means:
 - (A) all of the functions and obligations described in the Project Agreement as being the responsibility of the Independent Certifier;
 - (B) all of the functions and obligations conferred on the Independent Certifier under this Independent Certifier Agreement, including the functions described in Appendix A to this Independent Certifier Agreement; and
 - (C) all other functions or tasks which the Independent Certifier must do to comply with its obligations under this Independent Certifier Agreement.
 - (iv) “**Certification Services Variation**” means any change to the Certification Services.
 - (v) “**Contract Material**” means all material:
 - (A) provided to the Independent Certifier or created or required to be created by either PA Party; and
 - (B) provided by or created or required to be created by the Independent Certifier as part of, or for the purpose of, performing the Certification Services,including documents, equipment, reports, technical information, plans, charts, drawings, calculations, tables, schedules and data (stored and recorded by any means).

- (vi) “**Contracting Authority**” has the meaning given in the preamble.
- (vii) “**Contracting Authority ISA**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- (viii) “**Eligible Expenditures**” has the meaning set out in the Funding Agreement.
- (ix) “**Fee**” means the fees payable by Contracting Authority and Project Co to the Independent Certifier for the Certification Services, as such fees are specified and made payable in accordance with Appendix B to this Independent Certifier Agreement.
- (x) “**Funding Agreement**” means a funding agreement to be entered into between Canada and the Province for the Project, as it may be supplemented, amended, restated or replaced from time to time.
- (xi) “**Hourly Rate**” means the rate charged by each Independent Certifier team member per hour as listed in Appendix B to this Independent Certifier Agreement for Certification Services identified in item (bb) of Appendix A to this Independent Certifier Agreement, including any certification services required to provide additional work and any Adjudication performed by Independent Certifier personnel pursuant to Schedule 27 – Dispute Resolution Procedure.
- (xii) “**IC Monthly Report**” has the meaning given in Appendix A to this Independent Certifier Agreement.
- (xiii) “**IC Quarterly Report**” has the meaning given in Appendix A to this Independent Certifier Agreement.
- (xiv) “**Independent Certifier**” has the meaning given in the preamble.
- (xv) “**Installed Equipment**” has the meaning given in Appendix A to this Independent Certifier Agreement.
- (xvi) “**Intellectual Property**” means any and all intellectual property rights, whether subsisting now or in the future, including rights of any kind in inventions, patents, copyright, trademarks, service marks, industrial designs, integrated circuit topography rights, applications for registration of any of the foregoing, and know-how, trade secrets, confidential information and trade or business names.
- (xvii) “**Other Advice**” has the meaning given in Appendix A to this Independent Certifier Agreement.
- (xviii) “**PA Parties**” means both Contracting Authority and Project Co, and “**PA Party**” means either Contracting Authority or Project Co, as the context requires.
- (xix) “**Project Agreement**” means the project agreement made on or about the date hereof between Contracting Authority and Project Co.
- (xx) “**Project Co**” has the meaning given in the preamble.

- (xxi) “**Province**” means His Majesty the King in right of Ontario, as represented by the Minister of Transportation or such other ministry, department or agency of the Ontario government which may be responsible for administering the Funding Agreement on behalf of the Ontario government from time to time.
- (xxii) “**Total Fixed Fee**” means the Fee for all Certification Services, other than those identified in item (bb) of Appendix A to this Independent Certifier Agreement, which shall not exceed the amount specified in Appendix B to this Independent Certifier Agreement.

2. INTERPRETATION

2.1 Interpretation

- (a) In this Independent Certifier Agreement, unless the context indicates a contrary intention:
 - (i) words denoting the singular number include the plural and vice versa;
 - (ii) words denoting individuals include corporations and vice versa;
 - (iii) headings are for convenience only and do not affect interpretation;
 - (iv) references to Clauses, Sections or Parts are references to Clauses, Sections or Parts of this Independent Certifier Agreement;
 - (v) references to this Independent Certifier Agreement or any contract, agreement or instrument are deemed to include references to this Independent Certifier Agreement or such other contract, agreement or instrument as amended, novated, supplemented, varied or replaced from time to time;
 - (vi) references to any party to this Independent Certifier Agreement includes its successors or permitted assigns;
 - (vii) words denoting any gender include all genders;
 - (viii) references to any legislation or to any section or provision of any legislation include any statutory modification or re-enactment of any statutory provision substituted for legislation, section or provision, and ordinances, by laws, regulations and other statutory instruments issued under that legislation, section or provision;
 - (ix) a reference to “\$” is to Canadian currency;
 - (x) the terms “including” and “include” mean “including” or “include” (as applicable) without limitation;
 - (xi) if a word or phrase is defined, then other parts of speech and grammatical forms of that word or phrase have a corresponding meaning; and
 - (xii) unless otherwise indicated, all time periods will be strictly construed.

2.2 Obligations and Exercise of Rights by PA Parties

- (a) The obligations of the PA Parties under this Independent Certifier Agreement shall be several.
- (b) Except as specifically provided for in this Independent Certifier Agreement or the Project Agreement, the rights of the PA Parties under this Independent Certifier Agreement shall be jointly exercised by the PA Parties.

3. ROLE OF THE INDEPENDENT CERTIFIER

3.1 Engagement

- (a) The PA Parties hereby appoint the Independent Certifier, and the Independent Certifier hereby accepts such appointment, to carry out the Certification Services in accordance with this Independent Certifier Agreement. The Independent Certifier shall perform the Certification Services in accordance with this Independent Certifier Agreement.
- (b) Nothing in this Independent Certifier Agreement will be interpreted as giving the Independent Certifier any responsibility for performance of the design or construction, or for the certifications of the professionals of record.
- (c) Neither PA Party shall, without the prior written consent of the other PA Party, enter into any separate agreement with the Independent Certifier in connection with the Project, and Project Co shall ensure that no Project Co Party enters into any separate agreement with the Independent Certifier in connection with the Project.
- (d) The Independent Certifier shall make such observations and evaluations of any Works pursuant to a Variation in order to certify any monthly progress payment to Project Co of the value of work performed, provided the Independent Certifier shall be entitled to a “Certification Services Variation Order” pursuant to Sections 9.4 and 9.5.
- (e) The PA Parties acknowledge and agree that the Independent Certifier shall rely on an assessment report prepared by the Contracting Authority ISA with respect to the safety certification of the Ontario Line Subway. The Independent Certifier acknowledges and agrees that, in carrying out the Certification Services, it shall be bound to such assessment report and shall consider the Contracting Authority ISA’s views with respect to the safety of the Ontario Line Subway in making its determination as to whether Project Co has satisfied the conditions of Substantial Completion.

3.2 Duty of Care to Canada

- (a) The Independent Certifier acknowledges that it will review the Funding Agreement and the project cash flow set out in the Funding Agreement once the Funding Agreement is executed and delivered.
- (b) Once the Funding Agreement has been executed and delivered, the Independent Certifier shall promptly execute and deliver a letter to Canada in the form of Appendix F to this Independent Certifier Agreement.
- (c) Once the Funding Agreement has been executed and delivered, the Independent Certifier shall provide to Canada a “Declaration of Completion – Milestone” with respect to each Milestone and

with respect to Substantial Completion, in the form of Appendix G to this Independent Certifier Agreement, as required by the terms of the Funding Agreement.

- (d) The right of Project Co to receive any payment due to it under the Project Agreement is independent of and shall not be affected in any way by any declaration made, not made or made in any amended form, by the Independent Certifier to Canada as to any matter referred to in Appendix G to this Independent Certifier Agreement, including whether the costs reflected in such payment are, or are not, in whole or in part, Eligible Expenditures.

3.3 Acknowledgement of Independent Certifier

- (a) The Independent Certifier hereby acknowledges in favour of the PA Parties that it has received a copy of the Project Agreement.

3.4 Standard of Care

- (a) The Independent Certifier must exercise the standard and skill, care and diligence in the performance of the Certification Services that would be expected of an expert professional experienced in providing services in the nature of the Certification Services for projects similar to the Project.

3.5 Duty of Independent Judgment

- (a) In exercising its Certification Services, the Independent Certifier must:
 - (i) act impartially, honestly and independently in representing the interests of both PA Parties in accordance with the terms of the Project Agreement and this Independent Certifier Agreement;
 - (ii) act reasonably and professionally;
 - (iii) act in a timely manner:
 - (A) in accordance with the times prescribed in this Independent Certifier Agreement and the Project Agreement; or
 - (B) where no times are prescribed, within ten (10) days or such earlier time so as to enable the PA Parties to perform their respective obligations under the Project Agreement; and
 - (iv) act in accordance with the joint directions of the PA Parties provided that the directions are not inconsistent with the other terms of this Independent Certifier Agreement or the terms of the Project Agreement and do not vary or prejudice the Independent Certifier's authority or responsibilities or the exercise by the Independent Certifier of its professional judgment under this Independent Certifier Agreement.
- (b) Although the Independent Certifier may take account of any opinions or representations made by the PA Parties, the Independent Certifier shall not be bound to comply with any opinions or

representations made by either of them in connection with any matter on which the Independent Certifier is required to exercise its professional judgment.

- (c) The Independent Certifier acknowledges that the PA Parties may rely on the Certification Services, including determinations, findings and certifications made by the Independent Certifier, and accordingly, the Independent Certifier will use its best skill and judgment in providing the Certification Services.

3.6 Authority to Act

- (a) The Independent Certifier:
- (i) is an independent consultant and is not, and must not purport to be, a partner, joint venturer or agent of either PA Party;
 - (ii) other than as expressly set out in this Independent Certifier Agreement or the Project Agreement, has no authority to give any directions to a PA Party or its officers, directors, members, employees, contractors, consultants or agents; and
 - (iii) has no authority to waive or alter any terms of the Project Agreement, nor to discharge or release a party from any of its obligations under the Project Agreement unless jointly agreed by the PA Parties in writing.

3.7 Knowledge of the PA Parties' Requirements

- (a) The Independent Certifier warrants that:
- (i) it has informed and will be deemed to have informed itself fully of the requirements of the Project Agreement;
 - (ii) it will inform itself fully of the requirements of such other documents and materials as may become relevant from time to time to the performance of the Certification Services;
 - (iii) without limiting Sections 3.7(a)(i) or 3.7(a)(ii), it has and will be deemed to have informed itself fully of all time limits and other requirements for any Certification Service which the Independent Certifier carries out under the Project Agreement and this Independent Certifier Agreement;
 - (iv) it has and will be deemed to have informed itself completely of the nature of the work necessary for the performance of the Certification Services and the means of access to and facilities at the Ontario Line Subway, the New Third Party Infrastructure and the Lands including restrictions on any such access or protocols that are required; and
 - (v) it has satisfied itself as to the correctness and sufficiency of its proposal for the Certification Services and that the Fee covers the cost of complying with all of the obligations under this Independent Certifier Agreement and of all matters and things necessary for the due and proper performance and completion of the Certification Services.

3.8 Co-ordination and Information by Independent Certifier

- (a) The Independent Certifier must:
- (i) fully cooperate with the PA Parties and their consultants and advisors;
 - (ii) carefully co-ordinate the Certification Services with the work and services performed by the PA Parties;
 - (iii) carefully co-ordinate the Certification Services with the safety assessment performed by the Contracting Authority ISA;
 - (iv) without limiting its obligations under Sections 3.5 and 3.8(a)(ii), perform the Certification Services so as to avoid unreasonably interfering with, disrupting or delaying the work and services performed by the PA Parties;
 - (v) include both PA Parties in all discussions, meetings, or any other communications regarding the Project; and
 - (vi) provide copies to the PA Parties of all reports, communications, certificates and other documentation that it provides to either PA Party.

3.9 Conflict of Interest

- (a) The Independent Certifier warrants that:
- (i) at the date of this Independent Certifier Agreement, no conflict of interest exists or is likely to arise in the performance of its obligations under this Independent Certifier Agreement, and the Independent Certifier further warrants that it has not been retained as a technical advisor to the Lenders or as an advisor to either of the PA Parties or any of their respective related entities in respect of the Project Agreement (including, but not limited to, acting as a transaction advisor to either PA Party); and
 - (ii) if, during the term of this Independent Certifier Agreement, any such conflict or risk of conflict of interest arises, the Independent Certifier will notify the PA Parties immediately in writing of that conflict or risk of conflict and take such steps as may be required by either of the PA Parties to avoid or mitigate that conflict or risk.

3.10 Independent Certifier Personnel

- (a) The Independent Certifier shall make reasonable efforts to ensure that the individuals listed in Appendix C remain involved in the performance of the Certification Services and, in particular, will not, for the duration of this Independent Certifier Agreement, require any such person to be involved in any other project on behalf of the Independent Certifier if, in the reasonable opinion of the PA Parties, such involvement would have a material adverse effect on the performance of the Certification Services.
- (b) Any replacement of any of the individuals listed in Appendix C is subject to the PA Parties' prior written approval.

- (c) The Independent Certifier shall ensure that its personnel providing the Certification Services in respect of the Works shall:
- (i) possess a current professional designation of not less than membership in Professional Engineers Ontario (PEO), the Ontario Association of Certified Engineering Technicians and Technologists or such similar professional or consulting designation recognized in North America for mechanical, electrical, civil, structural, transportation, geotechnical, mining, tunnels, environmental, utilities, rail systems, vehicles and industrial leads;
 - (ii) possess a current professional designation of not less than Professional Quantity Surveyors (PQS) for the Cost Estimator and any individuals who will prepare and evaluate construction and development information for the cost control and Works measurements for payment;
 - (iii) with respect to the “Dispute Resolution Lead” required by Appendix C, have no less than ten (10) years of experience with construction claims, contractual interpretation and dispute resolution relating to projects of similar size, scope, complexity and delivery model as the Project;
 - (iv) have demonstrated competence in the planning, design, construction and commissioning of comparable and complex facilities and in having completed or monitored the planning, design, construction and commissioning of facilities and infrastructure comparable to the those included in the Project;
 - (v) have an understanding of the appropriate standards, guidelines and policies related to planning, design, construction and commissioning of facilities and infrastructure comparable to the those included in the Project;
 - (vi) have an understanding of the commissioning process, the reports and any documentation to be provided pursuant to this Independent Certifier Agreement and the Project Agreement, including not only the start-up procedures but the pre-commissioning and post-commissioning activities; and
 - (vii) have the relevant qualifications for their specified area of expertise and membership to the relevant professional bodies which licences them to give their opinions and carry out the relevant works as detailed within this Independent Certifier Agreement.
- (d) The Independent Certifier shall furnish Contracting Authority with evidence satisfactory to Contracting Authority of any such personnel’s compliance with the foregoing requirements within a reasonable time prior to the proposed commencement of the Certification Services in respect of the Works.
- (e) The Independent Certifier shall engage the personnel listed in Appendix C in all day-to-day activities relevant to their area of expertise for the Certification Services.

3.11 Minimize Interference

- (a) The Independent Certifier shall perform the Certification Services in such a way as to minimize any undue interference with the progress of the Works.

4. ROLE OF THE PA PARTIES

4.1 Assistance

- (a) The PA Parties agree to cooperate with and provide reasonable assistance to the Independent Certifier to familiarize the Independent Certifier with all necessary aspects of the Project to enable the Independent Certifier to carry out its obligations under this Independent Certifier Agreement.

4.2 Instructions in Writing

- (a) Unless otherwise provided in this Independent Certifier Agreement or the Project Agreement, all instructions to the Independent Certifier by the PA Parties shall be given in writing and accepted or endorsed by both of the PA Parties.

4.3 Information and Services

- (a) The PA Parties shall make available to the Independent Certifier, as soon as practicable from time to time, all information, documents and particulars necessary for the Independent Certifier to carry out the Certification Services, including such information, documents and particulars required in order for the Independent Certifier to determine whether Milestone Payment Completion, Substantial Completion and Final Completion has occurred, and shall provide copies of all such information, documents and particulars to the other party hereto.
- (b) Contracting Authority shall promptly provide all information received from the Contracting Authority ISA, including the assessment report, required in order for the Independent Certifier to determine whether Substantial Completion and Final Completion has occurred.

4.4 Additional Information

- (a) If any information, documents or particulars are reasonably required to enable the Independent Certifier to perform the Certification Services and have not been provided by the PA Parties, then:
 - (i) the Independent Certifier must give notice in writing to the Project Co Representative or the Contracting Authority Representative, as the case may be, of the details of the information, documents or particulars demonstrating the need and the reasons why they are required; and
 - (ii) Project Co or Contracting Authority, as the case may be, must arrange the provision of the required information, documents or particulars.

4.5 Right to Enter and Inspect

- (a) Upon giving reasonable notice to the Project Co Representative, the Independent Certifier (and any person authorized by it) may enter and inspect the Metrolinx Lands, the Ontario Line Subway, the New Third Party Infrastructure, Existing Third Party Infrastructure, Existing TTC Infrastructure or the Works at any reasonable time in connection with the exercise or proposed exercise of rights under this Independent Certifier Agreement, subject to:

- (i) observance of the reasonable rules of Project Co as to safety and security for the Metrolinx Lands, the Ontario Line Subway, the New Third Party Infrastructure, Existing Third Party Infrastructure, Existing TTC Infrastructure and the Works;
- (ii) not causing unreasonable delay to the carrying out of the Works by reason of its presence on the Metrolinx Lands, the Ontario Line Subway, the New Third Party Infrastructure, Existing Third Party Infrastructure, Existing TTC Infrastructure or the Works; and
- (iii) not causing any damage to the Metrolinx Lands, the Ontario Line Subway, the New Third Party Infrastructure, Existing Third Party Infrastructure, Existing TTC Infrastructure or the Works.

4.6 PA Parties Not Relieved

- (a) Neither PA Party shall be relieved from performing or observing its obligations, or from any other liabilities, under the Project Agreement as a result of either the appointment of, or any act or omission by, the Independent Certifier.

4.7 PA Parties not Liable

- (a) On no account will a PA Party be liable to another PA Party for any act or omission by the Independent Certifier whether under or purportedly under a provision of the Project Agreement, this Independent Certifier Agreement or otherwise, provided that any such act or omission shall not extinguish, relieve, limit or qualify the nature or extent of any right or remedy of either PA Party against or any obligation or liability of either PA Party to the other PA Party which would have existed regardless of such act or omission.

5. CERTIFICATION QUALITY PLAN

5.1 Certification Quality Plan

- (a) The Independent Certifier must:
 - (i) develop and implement a certification quality plan identifying the processes and outcomes of the Certification Services, including but not limited to timelines, deliverables and input required from the PA Parties, that complies with all requirements of the Independent Certifier's quality assurance accreditation, and is otherwise satisfactory to each of the Contracting Authority Representative and the Project Co Representative;
 - (ii) within thirty (30) days after the date of this Independent Certifier Agreement, provide a draft of such certification quality plan to each of the Contracting Authority Representative and the Project Co Representative;
 - (iii) within sixty (60) days after the date of this Independent Certifier Agreement, provide the final certification quality plan to each of the Contracting Authority Representative and the Project Co Representative;
 - (iv) if satisfactory to each of the Contracting Authority Representative and the Project Co Representative, implement such certification quality plan; and

- (v) if not satisfactory to each of the Contracting Authority Representative and the Project Co Representative, within seven (7) days after receiving notice thereof from either PA Party to that effect, revise and resubmit the certification quality plan to each of the Contracting Authority Representative and the Project Co Representative, and implement it if satisfactory to each of the Contracting Authority Representative and the Project Co Representative.

5.2 Certification Quality Plan not to Relieve Independent Certifier

- (a) The Independent Certifier will not be relieved of any responsibilities or obligations in respect of the performance of the Certification Services and will remain solely responsible for them notwithstanding:
 - (i) the obligation of the Independent Certifier to develop and implement a certification quality plan; or
 - (ii) any comment or direction upon, review or acceptance of, approval to proceed with or request to vary any part of the certification quality plan by either the Contracting Authority Representative or the Project Co Representative.

6. SUSPENSION

6.1 Notice

- (a) The Certification Services (or any part) may be suspended at any time by the PA Parties:
 - (i) if the Independent Certifier fails to comply with its obligations under this Independent Certifier Agreement, immediately by the PA Parties giving joint notice in writing to the Independent Certifier; or
 - (ii) in any other case, by the PA Parties giving seven (7) days' joint notice in writing to the Independent Certifier.

6.2 Costs of Suspension

- (a) The Independent Certifier will:
 - (i) subject to the Independent Certifier complying with Section 9, be entitled to recover the extra costs incurred by the Independent Certifier by reason of a suspension directed under Section 6.1(a)(ii) valued as a Certification Services Variation under Section 9; and
 - (ii) have no entitlement to be paid any costs, expenses, losses or damages arising from a suspension under Section 6.1(a)(i).

6.3 Recommencement

- (a) The Independent Certifier must immediately recommence the carrying out of the Certification Services (or any part) on receipt of a joint written notice from the PA Parties requiring it to do so.

7. INSURANCE AND LIABILITY

7.1 Independent Certifier's Insurance

- (a) The Independent Certifier must have in place at all times during the term of this Independent Certifier Agreement:
- (i) professional liability insurance:
 - (A) in the amount of \$[REDACTED] per claim and \$[REDACTED] in the aggregate, a deductible of not more than \$[REDACTED] per claim and from an insurer and on terms satisfactory to each of the PA Parties; and
 - (B) covering liability which the Independent Certifier might incur as a result of a breach by it of its obligations owed by the Independent Certifier in a professional capacity to the PA Parties, or either of them, under or in connection with this Independent Certifier Agreement or the provision of the Certification Services; and
 - (ii) commercial general liability insurance in the amount of \$[REDACTED] per claim and in the aggregate, no deductible for personal injury or bodily injury, a deductible of not more than \$[REDACTED] per occurrence for property damage and from an insurer and on terms satisfactory to each of the PA Parties.
- (b) The Independent Certifier must provide copies of its insurance policies to each of the PA Parties upon execution of this Independent Certifier Agreement, and, at least five (5) Business Days prior to the expiry date of any such insurance policy, the Independent Certifier must provide evidence of the renewal of any such insurance policy satisfactory to the PA Parties, acting reasonably.

7.2 Workers' Compensation Insurance

- (a) The Independent Certifier must, at its own cost and at all times during the term of this Independent Certifier Agreement, insure its liability (including its common law liability) as required under any applicable workers compensation statute or regulation in relation to its employees engaged in the Certification Services.

8. PAYMENT FOR SERVICES

8.1 Payment of Fee and Adjudication Fee

- (a) In consideration of the Independent Certifier performing the Certification Services in accordance with this Independent Certifier Agreement, each PA Party shall pay [REDACTED] of the Fee to the Independent Certifier in accordance with the invoicing process specified in Section D of Appendix B to this Independent Certifier Agreement.
- (b) In consideration of a representative of the Independent Certifier conducting Adjudications if required pursuant to Schedule 27 – Dispute Resolution Procedure, and subject to an alternative determination regarding payment of costs being made by the Adjudicator, each PA Party shall pay [REDACTED] of the Adjudication Fee for each Adjudication conducted based on the rates set out in Appendix B to this Independent Certifier Agreement.

- (c) The obligation of each PA Party to pay to the Independent Certifier [REDACTED] of the Fee, or one half of the Adjudication Fee (or other portion of the Adjudication Fee as determined by the Adjudicator) is a several obligation, and neither PA Party shall have any liability in respect of the non payment by the other PA Party of any fees or costs payable by such other PA Party under this Independent Certifier Agreement.
- (d) The Fee and Adjudication Fee include all taxes (except for HST), overhead and profit, all labour and materials, insurance costs, travel, hospitality, and incidental expenses (except for food expenses which are to be excluded), and all other overhead including any fees or other charges required by law to perform the Certification Services and conduct the Adjudications, subject to Appendix B to this Independent Certifier Agreement.
- (e) The PA Parties acknowledge and agree that if any approved amount due and payable by the PA Parties to the Independent Certifier in excess of \$[REDACTED] is outstanding for more than 60 days, the Independent Certifier shall not have any obligation to make any certification under the Project Agreement.

9. CERTIFICATION SERVICES VARIATIONS

9.1 Notice of Certification Services Variation

- (a) If the Independent Certifier believes, other than a “Certification Services Variation Order” under Section 9.4(c), that any direction by the PA Parties constitutes or involves a Certification Services Variation it must:
 - (i) within seven (7) days after receiving the direction and before commencing work on the subject matter of the direction, give notice to the PA Parties that it considers the direction constitutes or involves a Certification Services Variation; and
 - (ii) within twenty-one (21) days after giving the notice under Section 9.1(a)(i), submit a written claim to each of the Contracting Authority Representative and the Project Co Representative which includes detailed particulars of the claim, the amount of the claim and how it was calculated.
- (b) Regardless of whether the Independent Certifier considers that such a direction constitutes or involves a Certification Services Variation, the Independent Certifier must continue to perform the Certification Services in accordance with this Independent Certifier Agreement and all directions, including any direction in respect of which notice has been given under this Section 9.1.

9.2 No Adjustment

- (a) If the Independent Certifier fails to comply with Section 9.1, the Fee will not be adjusted as a result of the relevant direction.

9.3 External Services

- (a) In the event that external personnel or consultants are required for expert opinion with respect to a Certification Services Variation, then, with the prior written approval of the PA Parties, any

additional fees relating to such external personnel or consultants will be payable by the PA Parties at the agreed upon amount.

9.4 Certification Services Variation Procedure

- (a) The Contracting Authority Representative and the Project Co Representative may jointly issue a document titled “Certification Services Variation Price Request” to the Independent Certifier which will set out details of a proposed Certification Services Variation which the PA Parties are considering.
- (b) Within seven (7) days after the receipt of a “Certification Services Variation Price Request”, the Independent Certifier must provide each of the Contracting Authority Representative and the Project Co Representative with a written notice in which the Independent Certifier sets out the effect which the proposed Certification Services Variation will have on the Fee.
- (c) Each of the Contracting Authority Representative and the Project Co Representative may then jointly direct the Independent Certifier to carry out a Certification Services Variation by written document titled “Certification Services Variation Order” which will state either that:
 - (i) the Fee is adjusted as set out in the Independent Certifier’s notice; or
 - (ii) the adjustment (if any) to the Fee will be determined under Section 9.5.

9.5 Cost of Certification Services Variation

- (a) Subject to Section 9.2, the Fee will be adjusted for all Certification Services Variations or suspensions under Section 6.1(a)(ii) carried out by the Independent Certifier by:
 - (i) the amount (if any) stated in the “Certification Services Variation Order” in accordance with Section 9.4(c);
 - (ii) if Section 9.5(a)(i) is not applicable, an amount determined pursuant to the fee schedule in Appendix B; or
 - (iii) where such rates or prices are not applicable, a reasonable amount to be agreed between the PA Parties and the Independent Certifier or, failing agreement, determined by the Contracting Authority Representative and the Project Co Representative jointly.
- (b) Any reductions in the Fee shall be calculated on the same basis as any increases.

10. TERM AND TERMINATION

10.1 Term

- (a) Subject to earlier termination, this Independent Certifier Agreement will commence on the date of the Project Agreement and continue in full force until:
 - (i) the completion of the Works and the performance of the Certification Services set forth herein; or

- (ii) such other date as may be mutually agreed between the PA Parties and the Independent Certifier.

10.2 Notice of Breach

- (a) If the Independent Certifier commits a breach of this Independent Certifier Agreement, the PA Parties may give written notice to the Independent Certifier:
 - (i) specifying the breach; and
 - (ii) directing its rectification in the period specified in the notice being a period not less than seven (7) days from the date of service of the notice.

10.3 Termination for Breach

- (a) If the Independent Certifier fails to rectify the breach within the period specified in the notice issued under Section 10.2, the PA Parties may, without prejudice to any other rights of the PA Parties or either of them, immediately terminate this Independent Certifier Agreement.

10.4 Termination for Financial Difficulty or Change in Control

- (a) The PA Parties may, without prejudice to any other rights which the PA Parties or either of them may have, terminate this Independent Certifier Agreement immediately if:
 - (i) events have occurred or circumstances exist which, in the opinion of the PA Parties, may result in or have resulted in an insolvency or a Change in Control of the Independent Certifier; or
 - (ii) the Independent Certifier has communications with its creditors with a view to entering into, or enters into, any form of compromise, arrangement or moratorium of any debts whether formal or informal, with its creditors.

10.5 Termination for Convenience

- (a) Notwithstanding anything to the contrary in this Independent Certifier Agreement, the PA Parties may, at any time, jointly terminate this Independent Certifier Agreement upon thirty (30) days written notice to the Independent Certifier. The PA Parties and the Independent Certifier agree that, notwithstanding the thirty (30) days' notice of termination, the Independent Certifier shall continue on a day-to-day basis thereafter until a new Independent Certifier is appointed.

10.6 Independent Certifier's Rights upon Termination for Convenience

- (a) Upon a termination under Section 10.5, the Independent Certifier will:
 - (i) be entitled to be reimbursed by the PA Parties for the value of the Certification Services performed by it to the date of termination; and
 - (ii) not be entitled to any damages or other compensation in respect of the termination and (without limitation) any amount in respect of:

- (A) the lost opportunity to earn a profit in respect of the Certification Services not performed at the date of termination; and
- (B) any lost opportunity to recover overheads from the turnover which would have been generated under this Independent Certifier Agreement but for it being terminated.

10.7 Procedure upon Termination

- (a) Upon completion of the Independent Certifier's engagement under this Independent Certifier Agreement or earlier termination of this Independent Certifier Agreement (whether under Sections 10.3, 10.4 or 10.5 or otherwise), the Independent Certifier must:
 - (i) cooperate with the PA Parties with respect to the transition of the Certification Services to a replacement certifier;
 - (ii) deliver to the PA Parties all Contract Material and all other information concerning the Project held or prepared by the Independent Certifier during the execution of work under this Independent Certifier Agreement; and
 - (iii) as and when required by the PA Parties, meet with them and such other persons nominated by them with a view to providing them with sufficient information to enable the PA Parties to execute the Project or the persons nominated to provide the Certification Services.

10.8 Effect of Termination

- (a) Except as otherwise expressly provided in this Independent Certifier Agreement, termination of this Independent Certifier Agreement shall be without prejudice to any accrued rights and obligations under this Independent Certifier Agreement as at the date of termination (including the right of the PA Parties to recover damages from the Independent Certifier).

10.9 Survival

- (a) Termination of this Independent Certifier Agreement shall not affect the continuing rights and obligations of the PA Parties and the Independent Certifier under Sections 7, 8, 10.6, 10.7, 10.8, 11, 12.7, 12.8 and this Section 10.9 or under any other provision which is expressed to survive termination or which is required to give effect to such termination or the consequences of such termination.

11. INDEMNITY

11.1 PA Parties to Save Independent Certifier Harmless

- (a) The PA Parties hereby indemnify and save the Independent Certifier completely harmless from any actions, causes of action, suits, debts, costs, damages, expenses, claims and demands whatsoever, at law or in equity, arising directly or indirectly in whole or in part out of any action taken by the Independent Certifier within the scope of its duties or authority hereunder.

- (b) However, Project Co shall not indemnify and save the Independent Certifier completely harmless from any actions, causes of action, suits, debts, costs, damages, expenses, claims and demands whatsoever, at law or in equity, arising directly or indirectly in whole or in part out of any action taken or not taken by the Independent Certifier under or in respect of the Funding Agreement.
- (c) The indemnity provided under this Section 11.1 shall not extend:
 - (i) to any breach of this Independent Certifier Agreement, or any part or parts hereof, by the Independent Certifier, its employees, servants, agents or persons for whom it is in law responsible, or any negligent or unlawful act or omission or willful misconduct of the Independent Certifier, its employees, servants or persons for whom it is in law responsible (in respect of which the Independent Certifier shall indemnify the PA Parties, as referred to in Section 11.2);
 - (ii) to any action taken by the Independent Certifier outside the scope of authority set forth in this Independent Certifier Agreement, or any part or parts hereof; or
 - (iii) to any debt, cost, expense, claim or demand for which insurance proceeds are recoverable by the Independent Certifier.
- (d) This indemnity shall survive the termination of this Independent Certifier Agreement.

11.2 Independent Certifier to Save PA Parties Harmless

- (a) Subject to Section 11.2(b), the Independent Certifier hereby indemnifies and saves the PA Parties, and their affiliated entities, subsidiaries and their respective directors, officers, employees, agents, permitted successors and assigns, completely harmless from any actions, causes of action, suits, debts, costs, damages, expenses, claims and demands whatsoever, at law or in equity, arising directly or indirectly in whole or in part out of any breach of this Independent Certifier Agreement, or any part or parts hereof, by the Independent Certifier, its employees, servants, agents or persons for whom it is in law responsible, or any negligent or unlawful act or omission or willful misconduct of the Independent Certifier, its employees, servants or persons for whom it is in law responsible.
- (b) No action or other proceeding shall be commenced by any PA Party against the Independent Certifier or the Independent Certifier's representative acting as an Adjudicator pursuant to Schedule 27 – Dispute Resolution Procedure, for any act done, or any alleged neglect or default in the execution or intended execution of the Adjudicator's duties or powers in connection with such Adjudication, unless the act or omission is shown to have been in bad faith.
- (c) The indemnity provided under this Section 11.2 to a PA Party shall not extend:
 - (i) to any negligent or unlawful act or omission or willful misconduct of such PA Party, its employees, servants or persons for whom it is in law responsible (in respect of which such PA Parties shall indemnify the Independent Certifier, as referred to in Section 11.1); or
 - (ii) to any debt, cost, expense, claim or demand for which insurance proceeds are recoverable by such PA Party.
- (d) This indemnity shall survive the termination of this Independent Certifier Agreement.

11.3 Conduct of Claims

- (a) Claims made by a third person against a party having, or claiming to have, the benefit of an indemnity pursuant to this Independent Certifier Agreement shall be conducted in accordance with the conduct of claims procedure described in Appendix D – Conduct of Claims to this Independent Certifier Agreement.

12. GENERAL

12.1 Entire Agreement

- (a) Except where provided otherwise in this Independent Certifier Agreement, this Independent Certifier Agreement constitutes the entire agreement between the parties in connection with its subject matter and supersedes all prior representations, communications, negotiations and understandings, whether oral, written, express or implied, concerning the subject matter of this Independent Certifier Agreement.

12.2 Negation of Employment

- (a) The Independent Certifier, its officers, directors, members, employees, servants and agents and any other persons engaged by the Independent Certifier in the performance of the Certification Services will not by virtue of this Independent Certifier Agreement or the performance of the Certification Services become in the service or employment of the PA Parties for any purpose.
- (b) The Independent Certifier will be responsible for all matters requisite as employer or otherwise in relation to such officers, directors, members, employees, servants and agents and other persons who are engaged by the Independent Certifier.

12.3 Waiver

- (a) No waiver made or given by a party under or in connection with this Independent Certifier Agreement shall be binding or effective unless the waiver is in writing, signed by an authorized representative of the party giving such waiver, and delivered by such party to the other parties. No waiver made with respect to any right, power or remedy in one instance will be deemed to be a waiver with respect to any other instance involving the exercise of such right, power, or remedy or with respect to any other right, power, or remedy.
- (b) Failure by any party to exercise any of its rights, powers or remedies hereunder or its delay to do so shall not constitute a waiver of those rights, powers or remedies. The single or partial exercise of a right, power or remedy shall not prevent its subsequent exercise or the exercise of any other right, power or remedy.

12.4 Notices

- (a) All notices, requests, demands, instructions, certificates, consents and other communications required or permitted under this Independent Certifier Agreement shall be in writing (whether or not “written notice” or “notice in writing” is specifically required by the applicable provision of this Independent Certifier Agreement) and served by sending the same by registered mail, by hand,

(in each case, with a copy by electronic submission to the Contracting Authority Representative), or by electronic submission as follows:

If to Contracting Authority or
Contracting Authority
Representative: Metrolinx
2 Queen Street East, 11th Floor
Toronto, Ontario
M5C 3G7

Attn.: [REDACTED]
Email: [REDACTED]

and:

[REDACTED]

Attn.: [REDACTED]
Email: [REDACTED]

If to Independent Certifier: [REDACTED]

Attn.: [REDACTED]
Email: [REDACTED]

- (b) Where any notice is provided or submitted to a party via electronic submission an original of the notice sent via electronic submission shall promptly be sent by regular mail or registered mail. For

greater certainty, a notice given via electronic submission shall not be invalid by reason only of a party's failure to comply with this Section 12.4(b).

- (c) Any party to this Independent Certifier Agreement may, from time to time, change any of its contact information set forth in Section 12.4(a) by prior notice to the other parties, and such change shall be effective on the Business Day that next follows the recipient party's receipt of such notice unless a later effective date is given in such notice.
- (d) Subject to Sections 12.4(e), 12.4(f) and 12.4(g):
 - (i) a notice given by registered mail shall be deemed to have been received on the third (3rd) Business Day after mailing;
 - (ii) a notice given by hand delivery shall be deemed to have been received on the day it is delivered; and
 - (iii) a notice given by electronic submission shall be deemed to have been received on the day it is transmitted by electronic submission.
- (e) If the party giving the notice knows or ought reasonably to know of difficulties with the postal system which might affect negatively the delivery of mail, any such notice shall not be mailed but shall be made or given by personal delivery or by electronic submission in accordance with this Section 12.4.
- (f) If any notice delivered by hand or transmitted by electronic submission is so delivered or transmitted, as the case may be, either on a day that is not a Business Day or on a Business Day after 4:00 p.m. (recipient's local time), then such notice shall be deemed to have been received by such recipient on the next Business Day.
- (g) A notice given by electronic submission shall be deemed to have been received by the recipient on the day it is transmitted only if an electronic submission report (maintained by the sender) indicates that the transmission of such notice was successful.

12.5 Transfer and Assignment

- (a) The Independent Certifier:
 - (i) must not assign, transfer, mortgage, charge or encumber any right or obligation under this Independent Certifier Agreement without the prior written consent of the PA Parties and Canada, which each PA Party and Canada may give or withhold in its absolute discretion; and
 - (ii) agrees that any assignment, transfer, mortgage, charge or encumbrance will not operate to release or discharge the Independent Certifier from any obligation or liability under this Independent Certifier Agreement.
- (b) For the purposes of this Section 12.5, an assignment will be deemed to have occurred where there is a Change in Control of the Independent Certifier after the date of this Independent Certifier Agreement.

- (c) Each of the PA Parties may assign, transfer, mortgage, charge or encumber any right or obligation under this Independent Certifier Agreement in accordance with the terms of the Project Agreement, provided that in addition, Contracting Authority may not do so without the prior written consent of Canada.
- (d) The consent rights of Canada under this Section 12.5 shall be held in trust by Contracting Authority on behalf of Canada and may be enforced by Contracting Authority on behalf of Canada.

12.6 Governing Laws and Jurisdictions

- (a) This Independent Certifier Agreement shall be governed by and construed in accordance with the laws of Ontario and the laws of Canada applicable therein and shall be treated in all respects as an Ontario contract, without regard to conflict of laws principles.
- (b) The PA Parties and the Independent Certifier agree that the courts of the Province of Ontario and all courts competent to hear appeals therefrom shall have exclusive jurisdiction to hear and settle any action, suit, proceeding or dispute in connection with this Independent Certifier Agreement and hereby irrevocably attorn to the exclusive jurisdiction of such courts.
- (c) Nothing in this Independent Certifier Agreement affects the rights, protections and immunities of the Crown under the *Crown Liability and Proceedings Act* (Ontario).

12.7 Contracting Authority Designate

- (a) At any time and from time to time, the Crown may designate any ministry, branch, agency, division, department or office of the Government of Ontario to carry out administrative responsibility for the rights and obligations of Contracting Authority under this Independent Certifier Agreement and Project Co and the Independent Certifier may deal exclusively with the designated person in respect of all such matters and is entitled to rely on the actions, directions, requests, notices, consents, approvals, waivers, comments relating to the review of documentation and other administrative matters and decisions determined by such designated person from time to time, until the Crown has notified Project Co and the Independent Certifier in writing that such designated person is no longer the person designated by the Crown hereunder and such notice shall have effect on the later of the date of delivery of such notice and the date specified in the written notice. The Crown shall advise Project Co and the Independent Certifier in writing of any designation hereunder. The rights and obligations of the parties to this Independent Certifier Agreement shall be in no way affected by reason of any such designation. Project Co and the Independent Certifier acknowledge the right of the Crown to delegate administrative responsibilities hereunder as set forth in this Section 12.7.

12.8 Confidentiality

- (a) The Independent Certifier must ensure that:
 - (i) neither it nor any of its officers, directors, members, employees, servants and agents disclose, or otherwise make public, any Contract Material or any other information or material acquired in connection with or during the performance of the Certification Services without prior written approval of the PA Parties; and

- (ii) no Contract Material is used, copied, supplied or reproduced for any purpose other than for the performance of the Certification Services under this Independent Certifier Agreement.
- (b) The PA Parties may at any time require the Independent Certifier to give and to arrange for its officers, directors, members, employees, servants and agents engaged in the performance of the Certification Services to give written undertakings, in the form of confidentiality agreements on terms required by the PA Parties, relating to the non-disclosure of confidential information, in which case the Independent Certifier must promptly arrange for such agreements to be made.

12.9 Contract Material

- (a) The PA Parties and the Independent Certifier agree that the Independent Certifier does not and will not have any rights, including any Intellectual Property, in any Contract Material provided to the Independent Certifier or created or required to be created by either PA Party.
- (b) As between the PA Parties and the Independent Certifier, all title and ownership, including all Intellectual Property, in and to the Contract Material created or required to be created by the Independent Certifier as part of, or for the purposes of performing the Certification Services, is hereby assigned jointly to the PA Parties on creation, or where such title, ownership and Intellectual Property cannot be assigned before creation of the Contract Material, it will be assigned to the PA Parties on creation. In addition, to the extent that copyright may subsist in such Contract Material so created by the Independent Certifier, the Independent Certifier hereby waives all past, present and future moral rights therein and the Independent Certifier shall ensure that any agent or employee of Independent Certifier shall have waived all such moral rights. The PA Parties acknowledge and agree that as between the PA Parties, title, ownership and other rights to the foregoing shall be governed by the Project Agreement.
- (c) The Independent Certifier will do all such things and execute all such documents as reasonably requested by either of the PA Parties in order to confirm or perfect the assignment of Intellectual Property in the Contract Material referred to in Section 12.9(b).

12.10 Amendment

- (a) This Independent Certifier Agreement may not be varied, amended or supplemented except by an agreement in writing signed by duly authorized representatives of the PA Parties and the Independent Certifier and stating on its face that it is intended to be an amendment, restatement or other modification, as the case may be, to this Independent Certifier Agreement. No such amendment, restatement or other modification shall be made without the prior written consent of Canada. The consent right of Canada under this Section 12.10(a) shall be held in trust by Contracting Authority on behalf of Canada and may be enforced by Contracting Authority on behalf of Canada.

12.11 Severability

- (a) Each provision of this Independent Certifier Agreement shall be valid and enforceable to the fullest extent permitted by law. If the courts of a competent jurisdiction shall declare any provision of this Independent Certifier Agreement invalid, unenforceable or illegal, such provision may be severed and such invalidity, unenforceability or illegality shall not prejudice or affect the validity, enforceability and legality of the remaining provisions of this Independent Certifier Agreement. If

any such provision of this Independent Certifier Agreement is invalid, unenforceable or illegal, the parties shall, acting in good faith, promptly negotiate new provisions to eliminate such invalidity, unenforceability or illegality and to restore this Independent Certifier Agreement as near as possible to its original intent and effect.

12.12 Enurement

- (a) This Independent Certifier Agreement shall enure to the benefit of, and be binding on, each of the parties and their respective successors and permitted transferees and assigns.

12.13 Counterparts

- (a) This Independent Certifier Agreement may be executed in one or more counterparts. Any single counterpart or a set of counterparts executed, in either case, by all of the Parties shall constitute a full, original and binding agreement for all purposes. Delivery of an executed counterpart by sending a copy by electronic mail or other electronic transmission shall be as effective as the manual delivery of an executed counterpart.

12.14 Liability

- (a) Metrolinx, as Crown agency, shall be liable for all of the obligations of Contracting Authority under this Independent Certifier Agreement.

12.15 Copyright Notice

- (a) The parties acknowledge that the King's Printer for Ontario is the exclusive owner of the copyright in the Project Agreement and this Independent Certifier Agreement.

[REMAINDER OF THIS PAGE IS INTENTIONALLY LEFT BLANK]

IN WITNESS WHEREOF the parties have executed this Independent Certifier Agreement as of the date first above written.

APPENDIX A

CERTIFICATION SERVICES

The Independent Certifier shall perform the tasks, provide the services and discharge the obligations which it is required to perform, provide or discharge under this Independent Certifier Agreement and the Project Agreement, which, without limiting the generality of the foregoing, include the following:

- (a) Develop and implement a certification quality plan identifying the processes and outcomes of the Certification Services including timelines, deliverables and a description of the input required from the PA Parties to carry out the Certification Services.
- (b) Receive, monitor and review all relevant Project documentation including drawings, plans, reports, certifications, schedules, letters, notices and test results as necessary for the Independent Certifier to be informed as to the progress of the Works (including, for certainty, the schedules and reports described in Schedule 12 – Works Schedule Requirements to the Project Agreement). The Independent Certifier personnel listed in Appendix C shall be up-to-date with all Project documentation relevant to their area of expertise.
- (c) Review information relating to Construction Period Quality Failures, Delay Events and the events described in Section 40.2 (*Consequences of a Delay Event*) of the Project Agreement and Compensation Events.
- (d) Review information relating to Variation Enquiries, Project Co Variation Notices, Variations, Estimates, claims for extension of time and compensation and consultation with the relevant party.
- (e) In accordance with Section 11.1(c) (*Works Committee – Establishment*) of the Project Agreement, attend all meetings and deliberations of and participate, as necessary, in the activities of the Works Committee.
- (f) Identify any risks that may impede the issuance of a Milestone Payment Completion notice (pursuant to Section 34A.(b)(v)(A) (*Certification of Milestone Payments*) of the Project Agreement), the Substantial Completion Certificate or the Final Completion Certificate and inform the PA Parties thereof.
- (g) Provide the report regarding Funded Capital Costs pursuant to Section 34A(b)(v)(B) (*Certification of Milestone Payments*) of the Project Agreement.
- (h) In accordance with Section 25.14(b)(ii) (*Warranty Work*) of the Project Agreement, certify the cost of remediation and correction of Warranty Work related to New Third Party Infrastructure.
- (i) Review the draft Commissioning Submittals and the detailed test, test methodology and expected test results proposed by Project Co, including any review comments from Contracting Authority, and provide a report on the effectiveness of the Commissioning activities, to identify any errors or omissions and to report any risks.
- (j) Monitor, and report on, the implementation of the Integrated Commissioning Plan and the Project Co Commissioning Plan and other tests, including re-tests, to be performed as set out in Schedule

- 14 – Commissioning or as otherwise required for Project Co to achieve Milestone Payment Completion, Substantial Completion and Final Completion.
- (k) Witness the implementation of a sample of the Commissioning Tests and a sample of the other testing and commissioning procedures at random times, locations and frequencies, in each case to the extent required for the Independent Certifier to verify that the requirements of Milestone Payment Completion, Substantial Completion and Final Completion have been met.
 - (l) In accordance with Sections 25.15(a)(ii) and 25.15(a)(iii) (*Disputes Regarding Handover of the New Third Party Infrastructure*) of the Project Agreement, make a determination with respect to unresolved Commissioning or Handover issues.
 - (m) Prior to any certification, consider the views and comments of Project Co, Contracting Authority (including its consultants and advisors) and the Contracting Authority ISA, as applicable, in relation to the satisfaction of the conditions for certification.
 - (n) Employ the relevant personnel, conduct regular inspections of the Works and attend site progress meetings at a minimum on a monthly basis or more regularly as deemed necessary for the Independent Certifier to be satisfied that the Works are proceeding in accordance with the requirements of the Project Agreement. Report on the observations, findings and potential risks to certification as a result of the regular inspections as part of the IC Monthly Report.
 - (o) Upon receipt of Milestone Payment Completion Notice from Project Co pursuant to Section 34A(b)(ii) (*Certification of Milestone Payments*) of the Project Agreement, perform the activities with respect to such notice which are required to be performed by the Independent Certifier and which are set out in such Section 34A(b) (*Certification of Milestone Payments*) of the Project Agreement.
 - (p) Upon receipt of a Substantial Completion Notice from Project Co pursuant to Section 25.3(b) (*Substantial Completion Certificate*) of the Project Agreement, perform the activities with respect to such notice which are required to be performed by the Independent Certifier and which are set out in Section 25.3 (*Substantial Completion Certificate*) of the Project Agreement.
 - (q) Upon receipt of a Final Completion Notice from Project Co pursuant to Section 25.9(b) (*Final Completion Certificate*) of the Project Agreement, perform the activities with respect to such notice which are required to be performed by the Independent Certifier and which are set out in Section 25.9 (*Final Completion Certificate*) of the Project Agreement.
 - (r) In accordance with Sections 25.6 (*Minor Deficiencies*), 25.7 (*Rectification of Minor Deficiencies*) and 25.8 (*Failure to Rectify Minor Deficiencies*) of the Project Agreement, perform all responsibilities of the Independent Certifier in connection with the Minor Deficiencies regime.
 - (s) After Substantial Completion, reconcile Project Co invoices for expenditure recovery against the budgets of Contracting Authority.
 - (t) Review and monitor the installation of all equipment, fixtures, information technology, communication equipment, telephone equipment and anything similar to the foregoing (collectively, the “**Installed Equipment**”) into the Ontario Line Subway or the New Third Party Infrastructure by Contracting Authority or any agent or contractor of Contracting Authority either

before or after Substantial Completion and provide a report to Contracting Authority and Project Co identifying any damage to the Ontario Line Subway or the New Third Party Infrastructure which has been caused as a result of the installation of such Installed Equipment into the Ontario Line Subway or the New Third Party Infrastructure by Contracting Authority, its contractors and/or agents.

- (u) Provide any determinations contemplated in the Project Agreement, which determinations may be subject to final resolution between the PA Parties pursuant to Schedule 27 – Dispute Resolution Procedure of the Project Agreement.
- (v) Participate in and give the PA Parties and their counsel reasonable cooperation, access and assistance (including providing or making available documents, information and witnesses for attendance at hearings and other proceedings) in connection with any proceedings between the PA Parties that relate to the Certification Services.
- (w) Provide periodic reports to the PA Parties, as follows:
 - (i) a progress report within fifteen (15) Business Days after each month's end of the Construction Period in respect of the previous month or as otherwise agreed by the PA Parties (the "**IC Monthly Report**") which includes the following:
 - (A) summary of activities carried out by the Independent Certifier, making specific reference to each of the Independent Certifier's obligations;
 - (B) the status of any risks that may impede the issuance of a Milestone Payment Completion notice pursuant to Section 34A(b)(v)(A) (*Certification of Milestone Payments*) of the Project Agreement, the Substantial Completion Certificate or the Final Completion Certificate;
 - (C) an opinion on Non-Conformances, if any, and whether or not such Non-Conformances are of the extent and nature that would normally be expected on projects of this kind;
 - (D) progress on all aspects of the Works; and
 - (E) commencing no less than one-hundred and eighty (180) days prior to Scheduled Substantial Completion Date, the IC Monthly Report shall contain specific reference to and listing of the work that needs to be done before the Substantial Completion Certificate or Final Completion Certificate can be issued; and
 - (ii) accompanying the IC Monthly Reports delivered for the months of May, August, November and February, a quarterly report (the "**IC Quarterly Report**") for the quarters ending March 31st, June 30th, September 30th and December 31st respectively, in substantially the form as that in Appendix E and that contains the following information certified in accordance with the standard of care set out in Section 3.3(a) of the Independent Certifier Agreement:
 - (A) the extent (expressed as a percentage) of completion of the Works as of the last day of the applicable quarter;

- (B) the value of the Works completed as of the last day of the applicable quarter;
 - (C) the forecasted extent (expressed as a percentage) of completion of the Works as of the last day of the applicable quarter and for the next four quarters; and
 - (D) the forecasted value of the Works anticipated to be completed as of the last day of the applicable quarter and for the next four quarters.
- (x) Participate in meetings with the PA Parties as required for the Independent Certifier to perform Certification Services.
 - (y) Acknowledge receipt of all Design Certificates and Construction Certificates delivered by Project Co in accordance with Schedule 10 – Review Procedure to the Project Agreement.
 - (z) Provide any determinations contemplated in Schedule 19 – Liquidated Damages and Construction Enforcement Regime to the Project Agreement.
 - (aa) Provide the Certification Services set out in the Project Agreement with respect to Vehicles.
 - (bb) Provide advice on other matters that may arise that both PA Parties may jointly require (“**Other Advice**”).
 - (cc) Prepare the Substantial Completion Deliverables List pursuant to Section 25.5(d) (*Substantial Completion Countdown Notice and Substantial Completion Deliverables*) of the Project Agreement and, if applicable, amend such list pursuant to Section 25.5(e) (*Substantial Completion Countdown Notice and Substantial Completion Deliverables*) of the Project Agreement.
 - (dd) Perform Adjudications pursuant to Schedule 27 – Dispute Resolution Procedure to the Project Agreement.
 - (ee) Provide the letter to Canada and the Declarations of Completion to Canada, required pursuant to Section 3.2(b) and Section 3.2(c), respectively, of this Independent Certifier Agreement.
 - (ff) Copy Canada with all reports and certificates delivered to the Province as directed by Contracting Authority.
 - (gg) Perform the tasks set out in Schedule 42 – South Civil Infrastructure Access and Handover to the Project Agreement and Schedule 43 – North Civil Infrastructure Access and Handover to the Project Agreement.
 - (hh) Attend meetings of the Integration Committee as required by Section 3.1(b) (*Establishment*) of Schedule 39A – Form of South Civil Interface Agreement to the Project Agreement and comply with the similar provision of Schedule 39B – Form of North Civil Interface Agreement to the Project Agreement.

APPENDIX B

INDEPENDENT CERTIFIER FEE

A. Disbursements and Expenses

If the Independent Certifier, in its capacity as Adjudicator, obtains the assistance of a person in an Adjudication in accordance with the *Construction Act*, the Independent Certifier as Adjudicator may fix the remuneration of the person in accordance with section 13.12(3) of the *Construction Act* (Ontario) and such remuneration shall be invoiced together with the Adjudicator Fee and shall be payable by the Adjudicator or the Parties in accordance with the *Construction Act* (Ontario). In fixing the remuneration of such person, the Adjudicator shall comply with, and shall ensure that any person assisting the Adjudicator complies with, any applicable disbursement and reimbursement policies of Contracting Authority and Project Co.

B. Total Fixed Fee for all Certification Services (other than Certification Services identified in item (bb) of Appendix A to this Independent Certifier Agreement)

The Total Fixed Fee for all Certification Services (other than the Certification Services identified in item (bb) of Appendix A to this Independent Certifier Agreement) shall not exceed, in aggregate, the total fixed fee of \$[REDACTED] Canadian Dollars, excluding HST.

C. Hourly Rates for Other Advice and Adjudications

The Hourly Rates are for (1) Other Advice and for all certification services, labour and materials required to provide additional work; and (2) performing Adjudications pursuant to Schedule 27 – Dispute Resolution Procedure to the Project Agreement as identified in item (dd) of Appendix A to this Independent Certifier Agreement.

The provision of Other Advice and of any additional work must be pre-approved by the PA Parties, in their sole discretion and in writing.

If the PA Parties, in their sole and absolute discretion, decide to proceed with the Certification Services identified in item (bb) of Appendix A, any Adjudications performed by Independent Certifier personnel or additional work, the Independent Certifier will be reimbursed at the following hourly rates, excluding HST:

Role	Hourly Rate
IC Team Lead	\$[REDACTED]
Backup Team Lead	\$[REDACTED]
Certification Manager/Architectural and Construction Lead	\$[REDACTED]
Scheduling Lead	\$[REDACTED]

Certification Support/Cost Estimating Lead	[\$REDACTED]
Mechanical Engineering Lead	[\$REDACTED]
Electrical and Communications Engineering Lead	[\$REDACTED]
T&C Vehicle Systems Lead	[\$REDACTED]
Design & Construction Lead/Civil Engineering Lead	[\$REDACTED]
Utilities and Transportation Engineering Lead	[\$REDACTED]
IC Coordinator	[\$REDACTED]
Vehicle Subject Matter Expert	[\$REDACTED]
Scheduler	[\$REDACTED]
Certification Support	[\$REDACTED]
Certification Manager	[\$REDACTED]
Adjudicator	[\$REDACTED]

D. Invoicing

The Fee for the Certification Services and the Adjudication Fee shall be payable monthly in arrears, subject to the PA Parties’ receipt of invoices from the Independent Certifier reflecting the performance of the Certification Services and/or the conduct of any Adjudications, as applicable, which is in form and substance satisfactory to the PA Parties, and subject to any applicable requirements of the *Construction Act* (Ontario) with respect to the payment of the Adjudication Fee.

APPENDIX C

INDEPENDENT CERTIFIER PERSONNEL

The following personnel shall be involved in the performance of the Certification Services:

Name	Position
[REDACTED]	IC Team Lead
[REDACTED]	Backup Team Lead/Dispute Resolution Lead (Adjudicator)
[REDACTED]	Certification Manager/Architectural and Construction Lead
[REDACTED]	Scheduling Lead
[REDACTED]	Certification Support/Cost Estimating Lead
[REDACTED]	Mechanical Engineering Lead
[REDACTED]	Electrical and Communications Engineering Lead
[REDACTED]	T&C Vehicle Systems Lead
[REDACTED]	Design & Construction Lead/Civil Engineering Lead
[REDACTED]	Utilities and Transportation Engineering Lead
[REDACTED]	IC Coordinator
[REDACTED]	IC Coordinator
[REDACTED]	Scheduler
[REDACTED]	Certification Support
[REDACTED]	Certification Support
[REDACTED]	Certification Support
[REDACTED]	Certification Manager
[REDACTED]	Certification Manager

APPENDIX D

CONDUCT OF CLAIMS

This Appendix D shall apply to the conduct of claims, made by a third person against a party having, or claiming to have, the benefit of an indemnity pursuant to this Independent Certifier Agreement. The party having, or claiming to have, the benefit of the indemnity is referred to as the “Beneficiary” and a party giving the indemnity is referred to as an “Indemnifier”.

- (1) If the Beneficiary receives any notice, demand, letter or other document concerning any claim for which it appears that the Beneficiary is, or may become entitled to, indemnification under Section 11 of the Independent Certifier Agreement, the Beneficiary shall give written notice to each Indemnifier potentially obligated in respect thereof, as soon as reasonably practicable and in any event within ten (10) Business Days following receipt of the same. Such notice shall specify with reasonable particularity, to the extent that information is available, the factual basis for the claim and the amount of the claim.
- (2) Subject to Sections (3), (4) and (5) of this Appendix D, on the giving of such notice by the Beneficiary, where it appears that the Beneficiary is or may be entitled to indemnification from an Indemnifier in respect of all, but not part only, of the liability arising out of the claim, such Indemnifier shall (subject to providing the Beneficiary with a secured indemnity to the Beneficiary’s reasonable satisfaction against all costs and expenses that the Beneficiary may incur by reason of such action) be entitled to dispute the claim in the name of the Beneficiary at the Indemnifier’s own expense and take conduct of any defence, dispute, compromise, or appeal of the claim and of any incidental negotiations. The Beneficiary shall give such Indemnifier all reasonable cooperation, access and assistance for the purposes of considering and resisting such claim. The Beneficiary shall have the right to employ separate counsel in respect of such claim and the reasonable fees and expenses of such counsel shall be to the account of the Indemnifier only where representation of both the Indemnifier and the Beneficiary by common counsel would be inappropriate due to any actual or potential conflicting interests between the Indemnifier and the Beneficiary. If and to the extent that both Contracting Authority and Project Co are given notice in respect of the same claim, they shall cooperate in the conduct of the claim and give each other such reasonable access and assistance as may be necessary or desirable for purposes of considering, resisting and defending such claim.
- (3) With respect to any claim conducted by an Indemnifier:
 - (i) the Indemnifier shall keep the Beneficiary fully informed and consult with it about material elements of the conduct of the claim;
 - (ii) the Indemnifier shall not bring the name or reputation of the Beneficiary into disrepute;
 - (iii) the Indemnifier shall not pay, compromise or settle such claims without the prior consent of the Beneficiary, such consent not to be unreasonably withheld or delayed;

- (iv) the Indemnifier shall not admit liability or fault to any third party without the prior consent of the Beneficiary, such consent not to be unreasonably withheld or delayed; and
 - (v) the Indemnifier shall use commercially reasonable efforts to have the Beneficiary named as a beneficiary under any release given by the persons bringing the claim to which Section (3) of this Appendix D relates.
- (4) The Beneficiary shall be free to pay or settle any such claim on such terms as it thinks fit and without prejudice to its rights and remedies under this Independent Certifier Agreement if:
- (i) none of the Indemnifiers is entitled to take conduct of the claim in accordance with Section (2) of this Appendix D;
 - (ii) none of the Indemnifiers notifies the Beneficiary of its intention to take conduct of the relevant claim as soon as reasonably practicable and in any event within ten (10) Business Days following the notice from the Beneficiary under Section (1) of this Appendix D or each of the Indemnifiers notifies the Beneficiary that it does not intend to take conduct of the claim; or
 - (iii) none of the Indemnifiers complies in any material respect with Section (3) of this Appendix D.
- (5) The Beneficiary shall be free at any time to give notice to the applicable Indemnifier that the Beneficiary is retaining or taking over, as the case may be, the conduct of any defence, dispute, compromise or appeal of any claim, or of any incidental negotiations, to which Section (2) of this Appendix D applies. For greater certainty, the Independent Certifier acknowledges and agrees that where Contracting Authority is the Beneficiary, Contracting Authority may retain or take over such conduct in any matter involving Personal Information or any matter involving public policy. On receipt of such notice the applicable Indemnifier shall promptly take all steps necessary to transfer the conduct of such claim to the Beneficiary, and shall provide to the Beneficiary all relevant documentation and all reasonable cooperation, access and assistance for the purposes of considering and resisting such claim. If the Beneficiary gives any notice pursuant to Section (5) of this Appendix D, then the applicable Indemnifier shall be released from any liabilities arising under the applicable indemnity hereunder in respect of the applicable claim.
- (6) If an Indemnifier pays to the Beneficiary an amount in respect of an indemnity and the Beneficiary subsequently recovers, whether by payment, discount, credit, saving, relief or other benefit or otherwise, a sum or anything else of value (the “**Recovery Amount**”) which is directly referable to the fact, matter, event or circumstances giving rise to the claim under the indemnity, the Beneficiary shall forthwith repay to that Indemnifier whichever is the lesser of:
- (i) an amount equal to the Recovery Amount less any out-of-pocket costs and expenses properly incurred by the Beneficiary in recovering the same; and

- (ii) the amount paid to the Beneficiary by such Indemnifier in respect of the claim under the relevant indemnity,

provided that there shall be no obligation on the Beneficiary to pursue any Recovery Amount and that the Indemnifier shall be repaid only to the extent that the Recovery Amount, aggregated with any sum recovered from the Indemnifier, exceeds the loss sustained by the Beneficiary except, however, that if the Beneficiary elects not to pursue a Recovery Amount, the Indemnifier shall be entitled to require an assignment to it of the right to do so.

- (7) Any person taking any of the steps contemplated by this Appendix D shall comply with the requirements of any insurer who may have an obligation to provide an indemnity in respect of any liability arising under this Independent Certifier Agreement.

APPENDIX E

FORM OF IC QUARTERLY REPORT

[ON THE INDEPENDENT CERTIFIER'S LETTERHEAD]

[date]

Metrolinx
2 Queen Street East, 11th Floor
Toronto, ON M5C 3G7
Attention: [REDACTED]

and to:

Connect Six General Partnership

[REDACTED]

and:

[REDACTED]

and:

[REDACTED]

and:

[REDACTED]

Dear [•], [•] and [•]:

This report, for the quarter ending [•], is delivered to you pursuant to Section (w)(ii) of Appendix A – Certification Services to the Independent Certifier Agreement among Metrolinx and Project Co, and is dated November 15, 2022 (the “**IC Agreement**”). Terms not otherwise defined herein have the meaning ascribed to them in the IC Agreement.

All values stated herein are based on the Cost of the Works and are exclusive of HST. This report has taken into account the following information: **[insert particulars of sources of information (e.g., works reports, site visits) used to prepare the report]**.

Based on our analysis of the foregoing, we confirm the following to the best of our professional knowledge and judgment:

- As of the date hereof, the value of the Works is \$[•] and the Works are [•]% complete.
- At the end of this quarter, the estimated value of the Works will be \$[•] and the Works are forecasted to be [•]% complete.

We estimate that the value of the Works and the extent of their completion will be as follows for the next four quarters (not including the present quarter):

	[quarter end date]	[quarter end date]	[quarter end date]	[quarter end date]
\$				
%				

We have prepared this report for the specific use of Metrolinx and **[Project Co]**. This letter is not intended for general circulation, publication or reproduction for any other person or purpose without express written permission to each specific instance.

Yours truly,

**[Name and Signature of Independent
Certifier]**

APPENDIX F

FORM OF LETTER TO CANADA

[INSERT ON INDEPENDENT CERTIFIER LETTERHEAD]

HIS MAJESTY THE KING IN RIGHT OF CANADA,
as represented by the Minister of Infrastructure and Communities
1100 - 180 Kent Street
Ottawa, Ontario K1P 0B6

Attention: **[REDACTED]**

[DATE]

Re: The Agreement for the Ontario Line Subway Rolling Stock, Systems, Operations and Maintenance Project (the “**Project**”) dated [●] between HIS MAJESTY THE KING IN RIGHT OF CANADA, as represented by the Minister of Infrastructure and Communities (“**Canada**”) and HIS MAJESTY THE KING IN RIGHT OF THE PROVINCE OF ONTARIO, as represented by the Minister of Transportation (the “**MTO**”).

Dear Sir or Madam:

This letter is being delivered to Canada by **[REDACTED]** (the “**IC**”) at the request of the MTO in accordance with Section 10(b) of the Canada-Ontario Building Canada Fund – Major Transit Infrastructure Component Agreement for the Ontario Line Subway Rolling Stock, Systems, Operations and Maintenance Project (“**the Agreement**”).

The IC hereby confirms that it has been retained as the Independent Certifier in respect of the Project and has entered into an Independent Certifier Agreement dated November 15, 2022 with Metrolinx (“**Contracting Authority**”) and Connect 6ix General Partnership (“**Project Co**”) further thereto. The IC further confirms that:

- (i) the IC has professionals duly licensed in the Province of Ontario, or qualified and duly licensed professionals otherwise approved by Canada, with expertise in cost estimating and inspecting infrastructure projects of similar size and scope to the Project;
- (ii) the IC is committed to be independent of the Contracting Authority and Project Co, and any of their respective subcontractors;
- (iii) the IC owes a professional duty of skill, care and diligence in favour of Canada equal to that of the Contracting Authority and Project Co when making or issuing determination, findings and certifications;
- (iv) the IC will be responsible for evaluating each payment milestone described in Schedule [●] (P3 Procurement Milestones) and [●] (Cashflow for P3 Procurement Milestones) under the Agreement and will provide to Canada, in respect of each payment milestone, an

Independent Certifier Declaration of Completion – Milestone in the prescribed form (a copy of which has been provided to the Independent Certifier);

- (v) the IC represents and warrants that all information provided or submitted to Contracting Authority, Project Co, or both, is true and accurate, and prepared in good faith to the best of the IC's skill, judgment and knowledge;
- (vi) the IC will in all instances prepare reports, declarations, certificates, and any other relevant document relating to the Project, for the specific use of Canada, and that Canada may use these reports, declarations, certificates and any other relevant document for the purpose of flowing funding in accordance with the Agreement, and consents to, authorizes and permits such use by Canada;
- (vii) the IC has provided to Contracting Authority, MTO, and any other applicable person or entity, all necessary permissions, consents and authorizations, including its express written permission, to copy, share and circulate to Canada, for the purpose of flowing funding in accordance with the Agreement, all reports, declarations, certificates, and any other relevant document, prepared, made or issued by the IC for the Project.
- (viii) Canada is entitled to rely on the determinations, findings, reports, declarations and certifications prepared, made or issued by the IC;
- (ix) the IC will maintain accurate and complete records related to all work performed under the Independent Certifier Agreement for at least six years after the project closure date, defined as up to eighteen (18) months after the Project's substantial completion date, and such records will be made available to Canada upon request and reasonable notice;
- (x) the IC hereby represents and warrants that all information provided or submitted, or both, in the letter is true and accurate, and is prepared in good faith to the best of the IC's judgment and knowledge;
- (xi) Canada will be able to inquire or request that certain issues be reviewed by the IC from time to time in order to clarify certain information related to the Project's requirements; and
- (xii) Canada will be entitled to receive any documents prepared by the IC resulting from such information, requests and communications upon request and following reasonable notice.

Yours very truly,

[REDACTED]

APPENDIX G

INDEPENDENT CERTIFIER DECLARATION OF COMPLETION – MILESTONE

In the matter of the CANADA – ONTARIO BUILDING CANADA FUND – MAJOR INFRASTRUCTURE COMPONENT AGREEMENT FOR THE ONTARIO LINE SUBWAY ROLLING STOCK, SYSTEMS, OPERATIONS AND MAINTENANCE PROJECT (the “**Agreement**”) entered into between His Majesty the King in right of Canada, as represented by the Minister of Infrastructure and Communities (Canada) and His Majesty the King in right of the Province of Ontario, as represented by the Minister of Transportation (Ontario), concerning the Ontario Line Subway Rolling Stock, Systems, Operations and Maintenance Project.

I, _____, a Registered Professional Engineer in the Province of Ontario or a qualified and duly licensed professional approved by Canada, with expertise in cost estimating and inspecting infrastructure projects of similar size and scope to the Ontario Line Subway Rolling Stock, Systems, Operations and Maintenance Project declare as follows:

1. That I am the Independent Certifier for the Ontario Line Subway Rolling Stock, Systems, Operations and Maintenance Project and as such have knowledge of the matters set forth in this declaration.

2. That the work identified as Milestone # _____ under Schedule [●] (Cashflow for P3 Procurement Milestones) of the Ontario Line Subway Rolling Stock, Systems, Operations and Maintenance Project, as described in the Agreement, has been completed as of the _____ day of 20____, (Completion Date - P3 Procurement - Milestone) in accordance with Schedule [●] (The Project) of the Agreement.

3. That the Milestone has not changed in scope, unless such scope change has been approved in advance and in writing by the Parties.

4. That the costs claimed in respect of the Milestone claim are Eligible Expenditures and reasonably reflect the value of the work performed, as evidenced in the attached Independent Certifier quarterly report, which I have prepared and certified in accordance with the terms of the Independent Certifier Agreement between Metrolinx and Connect 6ix General Partnership (“**Independent Certifier Agreement**”).

5. That I have prepared and certified the attached construction period payment certificates in support of this Milestone.

6. I have received the following documents and based on these documents and representations made to me by the professionals identified below, I declare to the best of my knowledge and belief that the work for this Milestone has been completed in accordance with prevailing industry standards for such design and construction, all applicable building and design codes, and all applicable guidelines. In making this declaration, I have received, reviewed, and relied upon the following documents:

(i) **[LIST NAME OF RELEVANT DOCUMENT(S)]** signed by _____ (Name), a _____ (Profession, e.g. professional engineer) for the Primary Contractor;

(ii) **[ADD SAME TEXT AS IN (i) FOR EACH DOCUMENT]**

7. That all information provided or submitted, or both, to Ontario or the Ultimate Recipient relating to the certification with respect to the claim is true and accurate, and prepared in good faith to the best of my skill, judgment and knowledge.

[If work has been substantially completed, include the following]

8. That the work identified under the P3 Procurement Contract as described in the Agreement has been substantially completed as of the _____ day of _____, 20____, in accordance with Schedule [●] (Project Cashflow) of the Agreement.

Declared at _____ (City), in _____ (Province/Territory) this
_____ day of _____, 20____.

(Signature)

[INSERT TABLE OF PROJECT CASH FLOW BASED ON MILESTONES]

SCHEDULE 7
INTENTIONALLY DELETED

SCHEDULE 8

ENERGY MATTERS

1. DEFINITIONS

In this Schedule 8, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 8) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- 1.1 **“Actual Energy Consumption”** means the sum of the actual, unadjusted, consumption of the following Energy Utilities for the Project as reported on the applicable invoice by the suppliers of Energy Utilities, converted to gigajoules, for each Contract Year,
- (a) Hydro Use;
 - (b) Natural Gas; and
 - (c) other applicable Energy Utilities.
- 1.2 **“Annual Energy Report”** has the meaning given in Section 4.6(a).
- 1.3 **“Annual Energy Summary Report”** has the meaning given in Section 4.5(b).
- 1.4 **“Annual Traction Power Performance Test”** means either an Initial Annual Traction Power Performance Test or a Final Annual Traction Power Performance Test.
- 1.5 **“Annual Traction Power Performance Test Variance”** means the difference between the results of the Initial Annual Traction Power Performance Test or Final Annual Traction Power Performance Test, as applicable, and the relevant Target Energy Consumption for the applicable Energy Test Period defined by Project Co in the Energy Target Letter, as calculated in Section 3.5(f).
- 1.6 **“Capacity Level”** has the meaning given in the Output Specifications.
- 1.7 **“Developed Intellectual Property”** has the meaning given in Schedule 37 – Intellectual Property.
- 1.8 **“EN 50463”** means EN 50463 railway applications – requirements for energy measurement on board trains.
- 1.9 **“Energy Audit”** means a systematic audit of energy use and consumption within a scope defined by Project Co or Contracting Authority, as applicable, in order to identify, quantify and report on existing energy consumption and the opportunities for improved Energy Performance, and as further described in Section 4.7.
- 1.10 **“Energy Auditor”** has the meaning given in Section 4.7(b).
- 1.11 **“Energy Failure”** has the meaning given in Schedule 20 – Payment Mechanism.

- 1.12 “**Energy Management System**” has the meaning given in Section 4.3(a).
- 1.13 “**Energy Model**” means the Traction Power Model or the OMSF Energy Model, and “**Energy Models**” means the Traction Power Model and the OMSF Energy Model.
- 1.14 “**Energy Performance**” means measurable result(s) related to energy efficiency, energy use, and energy consumption.
- 1.15 “**Energy Performance Indicators**” has the meaning given in Section 4.4(a).
- 1.16 “**Energy Policy**” has the meaning given in Section 4.2(a).
- 1.17 “**Energy Stored**” means the Energy stored (e.g. wayside battery storage or onboard battery storage) for consumption by the Traction Power System.
- 1.18 “**Energy Target Letter**” means the letter setting out the Proponent’s Target Energy Consumptions for the various Periods and Capacity Levels attached as Appendix C to this Schedule 8.
- 1.19 “**Energy Test Period**” means for the applicable Capacity Level, the Period, as set out in the Energy Target Letter, selected by Contracting Authority for the purposes of conducting the Annual Traction Power Performance Test.
- 1.20 “**Energy Utilities**” means energy or power including electricity, natural gas, fuel, oil and any other energy source used, including water, sustainable or renewable energy.
- 1.21 “**Escalation Factor**” has the meaning given in Schedule 20 – Payment Mechanism.
- 1.22 “**Final Annual Traction Power Performance Test**” has the meaning given in Section 3.5(c).
- 1.23 “**Final Annual Traction Power Performance Test Consumption**” has the meaning given in Section 3.5(d).
- 1.24 “**Hydro Use**” means metered electricity that is drawn from Utility Company’s power grid, measured in megawatts (MW) and megawatt hours (MWh) and converted to gigajoules (GJ) using a conversion factor of $1\text{kWh} = 0.0036\text{GJ}$.
- 1.25 “**Initial Annual Traction Power Performance Test**” has the meaning given in Section 3.4(a).
- 1.26 “**Initial Annual Traction Power Performance Test Consumption**” has the meaning given in Section 3.4(a)(i).
- 1.27 “**Internal Audit**” has the meaning given in Section 4.7(a).
- 1.28 “**Initial Traction Power Performance Test Failure**” has the meaning given in Section 3.5(a).
- 1.29 “**ISO 50001**” has the meaning given in Section 2.1(a)(i).

- 1.30 “**ISO 50003**” has the meaning given in Section 2.1(a)(iii).
- 1.31 “**Level 1 Traction Power Performance Test Failure**” means a Traction Power Performance Test Failure designed as a “Level 1 Traction Power Performance Test Failure” in accordance with Section 3.5(f).
- 1.32 “**Level 2 Traction Power Performance Test Failure**” means a Traction Power Performance Test Failure designed as a “Level 2 Traction Power Performance Test Failure” in accordance with Section 3.5(f).
- 1.33 “**Level 3 Traction Power Performance Test Failure**” means a Traction Power Performance Test Failure designed as a “Level 3 Traction Power Performance Test Failure” in accordance with Section 3.5(f).
- 1.34 “**Level 4 Traction Power Performance Test Failure**” means a Traction Power Performance Test Failure designed as a “Level 3 Traction Power Performance Test Failure” in accordance with Section 3.5(f).
- 1.35 “**Measurement and Verification of Water Use Plan**” has the meaning given in Section 5.2(a).
- 1.36 “**Natural Gas**” means natural gas as drawn for the energy service provider measured in cubic metres and converted to gigajoules using a conversion factor of $1\text{m}^3_{\text{Natural Gas}} = 0.0373\text{GJ}$.
- 1.37 “**OMSF Energy Model**” means the Energy Model for OMSF Power but excluding Traction Power.
- 1.38 “**OMSF Power**” means the power used as metered at the primary side of the transformer(s) used for providing energy to the Facilities and Trains for auxiliary power and propulsion power in the OMSF yard, or workshops, and any power drawn from the secondary side of such transformer(s).
- 1.39 “**Operations Service Plan**” has the meaning given in the Output Specifications.
- 1.40 “**Period**” has the meaning given in the Output Specifications.
- 1.41 “**Project Co Energy Management System Plan**” has the meaning given in Section 4.1(a).
- 1.42 “**Project Co Energy Management System Software Solution**” has the meaning given in Section 4.8(a).
- 1.43 “**Real-Time**” means, at a minimum, available within 24 hours and updated daily.
- 1.44 “**Real-Time Energy Summary Report**” has the meaning given in Section 4.5(a)(i).
- 1.45 “**Scheduled Headway**” has the meaning given in the Output Specifications.
- 1.46 “**Significant Energy Use**” means an energy use that,

- (a) accounts for substantial energy consumption as defined in ISO 50001 and ISO 50003; and/or
 - (b) offers considerable potential for Energy Performance improvement.
- 1.47 “**Simple Payback**” means the number of years after which an investment will have paid for itself. Simple Payback is calculated by dividing the initial cost of the retrofit by the energy cost savings per year. Those projects with the shortest paybacks are assumed to be the most cost effective. For clarity, Simple Payback = initial cost of energy retrofit ÷ annual energy savings.
- 1.48 “**Target Energy Consumption**” means Project Co’s target energy consumption for the Annual Traction Power Performance Test, as set out in the Energy Target Letter for the applicable Period.
- 1.49 “**Third Party Auditor**” means a consultant with experience in the modelling of building and Traction Power energy use or water use, as applicable.
- 1.50 “**Traction Power**” means power used as metered at the primary side of the transformer(s) used for providing energy to the Trains for auxiliary power and propulsion power on the mainline, yard, or workshops, and any power drawn from the secondary side of such transformer(s).
- 1.51 “**Traction Power Model**” means the Energy Model used to determine the consumption of the Traction Power System during the Annual Traction Power Performance Test.
- 1.52 “**Traction Power Model Parameters**” means the parameters of the Traction Power Model as defined or requested by Contracting Authority in Appendix A to this Schedule 8.
- 1.53 “**Traction Power Performance Test Failure**” means a failure of Project Co to “pass” the Final Annual Traction Power Performance Test whereby the Annual Traction Power Performance Test Variance is greater than the lowest variance range set out in the table in Section 3.5(f).
- 1.54 “**Traction Power Substation**” has the meaning given in the Output Specifications.
- 1.55 “**Traction Power System**” has the meaning given in the Output Specifications.
- 1.56 “**Trip Capacity Ratio**” has the meaning given in Schedule 20 – Payment Mechanism.

2. GENERAL

2.1 Standards

- (a) Project Co shall comply with the following standards:
 - (i) Canadian Standards Association International Organization for Standardization (ISO) 50001 – Energy management systems – Requirements with guidance for use (“**ISO 50001**”);

- (ii) Canadian Standards Association International Organization for Standardization (ISO) 50002 – Energy audits – Requirements with guidance for use;
- (iii) International Organization for Standardization (ISO) 50003 – Energy management systems – Requirements for bodies providing audit and certification of energy management systems (“**ISO 50003**”);
- (iv) Canadian Standards Association International Organization for Standardization (ISO) 50006 – Energy management systems – Measuring energy performance using energy baselines (EnB) and energy performance indicators (EnPI) – General principles and guidance;
- (v) Canadian Standards Association International Organization for Standardization (ISO) 50015 – Energy management systems – Measurement and verification of energy performance of organizations – General principles and guidance; and
- (vi) Canadian Standards Association International Organization for Standardization (ISO) ISO 50047 – Energy savings – Determination of energy savings in organizations.

3. ENERGY TARGET LETTER AND ENERGY MODELS

3.1 Energy Models at the Technical Submission Deadline

- (a) The Traction Power Model must be compliant with the “IEEE Guide for Rail Transit Traction Power Systems Modeling”, by IEEE Vehicular Technology Society; IEEE Standard 1653.3.
- (b) The OMSF Energy Model must be compliant with the standardized methodology provided in ASHRAE Standard 209, “Energy Simulation Aided Design for Buildings except Low Rise Residential Buildings”, in the Guidance for Energy Modelling Compliance Documentation in LEED® Canada when preparing energy models and energy model reports and in Appendix B to this Schedule 8 and the Output Specifications.
- (c) In connection with the Traction Power Model delivered at Commercial Close:
 - (i) Project Co shall use the Traction Power Model Parameters defined by Contracting Authority in Appendix A to this Schedule 8 to produce the Energy Model and the Target Energy Consumption;
 - (ii) Project Co shall provide to Contracting Authority the Traction Power Model Parameters not defined by Contracting Authority in Appendix A to this Schedule 8 used to produce the Traction Power Model and the Target Energy Consumption; and

- (iii) Project Co shall provide in its Traction Power Model the calculations of the Target Energy Consumption for each scenario defined in Appendix C to this Schedule 8 and shall provide all supplementary documentation necessary to illustrate how any or all of the parameters (including Traction Power Model Parameters) are used in its calculations of the Target Energy Consumption.

3.2 Energy Target Letter at Commercial Close

- (a) At Commercial Close, Project Co shall deliver to Contracting Authority the Energy Target Letter.

3.3 Energy Models in Construction Period and prior to Substantial Completion

- (a) Project Co shall submit revised Traction Power Models and OMSF Energy Model in accordance with Schedule 10 – Review Procedure for review by Contracting Authority. These Energy Models submissions in the Construction Period shall in no way affect the Target Energy Consumption.

3.4 Annual Traction Power Performance Test in Operational Term

- (a) Outside of any Revenue Service Hours (as defined in the Output Specifications) within the first twenty one (21) days of July in each Contract Year, Project Co shall conduct an Annual Traction Power Performance Test (the “**Initial Annual Traction Power Performance Test**”) that:
 - (i) measures the net energy consumption (expressed in kWh) of the Traction Power System (the “**Initial Annual Traction Power Performance Test Consumption**”) during the applicable Energy Test Period, including energy consumption related to movement of Trains for Revenue Service but excluding Traction Power in the OMSF yard and workshops which shall be calculated in accordance with the following formula:

$$ITPPTC_n = EC + ES_s - ESe$$

Where:

$ITPPTC_n$ Means the Initial Annual Traction Power Performance Test Consumption of the Contract Year n , determined in accordance with Section 3;

EC Means the energy consumption during the test (as defined by Section 3.4(a)(vii) at the primary side of the traction power substation (in kWh)

ES_s

Means the Energy Stored (in kWh) at the start *s*, of the ATPPT (as defined by Section 3.4(a)(vii))

ES_e Means the Energy Stored (in kWh) at the end, *e* of the ATPPT (as defined by Section 3.4(a)(vii))

- (ii) has empty carriages (i.e. no Passengers) that are a randomized selection of regular in-service Trains, provided that:
 - a) Contracting Authority reserves the right to select the Trains used for the Annual Traction Power Performance Test; and
 - b) Trains that are actively undergoing maintenance or rehabilitation at the time of the test shall be excluded from selection for the test.
 - (iii) fully reflects the characteristics of applicable Period and Capacity Level defined by Project Co in the Energy Target Letter and Appendix C to this Schedule 8;
 - (iv) fully complies with the requirements of the Ontario Line Subway System;
 - (v) has all the functional and calibrated metering and submetering devices required for the Annual Traction Power Performance Test;
 - (vi) tests the Ontario Line Subway System continuously for a minimum of one (1) hour starting once the Period's Scheduled Headway is established;
 - (vii) measures the lowest continuous 60 minute period of energy consumption within the duration of the test once Trip Capacity Ratio of [REDACTED]%, pursuant to Schedule 20 – Payment Mechanism, for the chosen Period has been achieved; and
 - (viii) does not impact the Operations Services.
- (b) Contracting Authority may, in its sole discretion, forgo the Annual Traction Power Performance Test.

3.5 Annual Traction Power Performance Test Results

- (a) In the event that:
 - (i) the Annual Traction Power Performance Test Variance, as calculated in Section 3.5(f), but using the Initial Annual Traction Power Performance Test Consumption

instead of the Final Annual Traction Power Performance Test Consumption, is greater than [REDACTED]%,

- (ii) Project Co fails to complete the Initial Annual Traction Power Performance Test within the first twenty-one (21) days of July in any Contract Year as set out in Section 3.4(a), subject to the right of Contracting Authority to forgo the Initial Annual Traction Power Performance Test in accordance with Section 3.4(b), or
- (iii) Project Co fails to provide written notice to Contracting Authority of the results of an Initial Annual Traction Power Performance Test within two (2) Business Days of the date such test is required to be performed in accordance with Section 3.4(a).

(each an “**Initial Traction Power Performance Test Failure**”)

Contracting Authority may notify Project Co in writing that an Initial Traction Power Performance Test Failure has occurred.

- (b) If the Annual Traction Power Performance Test Variance, as calculated in Section 3.5(f), but using the Initial Annual Traction Power Performance Test Consumption instead of the Final Annual Traction Power Performance Test Consumption, is equal to or less than [REDACTED]% then Project Co shall be deemed to have “passed” the Initial Annual Traction Power Performance Test and Contracting Authority shall not be entitled to make any Energy Failure Deduction with respect to such Initial Annual Traction Power Performance Test.
- (c) In the event that Contracting Authority notifies Project Co that an Initial Traction Power Performance Test Failure has occurred, Project Co shall be entitled to request a second Annual Traction Power Performance Test (“**Final Annual Traction Power Performance Test**”) within ten (10) Business Days of receiving written notice from the Contracting Authority of the occurrence of the applicable Initial Traction Power Performance Test Failure date, the results of which shall be the “**Final Annual Traction Power Performance Test Consumption**”. The Final Annual Transaction Power Performance Test shall be completed within sixty (60) days of the date of the Initial Annual Traction Power Performance Test.
- (d) If Project Co receives notification from Contracting Authority of an Initial Traction Power Performance Test Failure in accordance with Section 3.5(a)(i) and does not exercise its rights in accordance with Section 3.5(c), then the Initial Annual Traction Power Performance Test Consumption shall be deemed to be the Final Traction Power Performance Test Consumption and be used to determine the Annual Traction Power Performance Test Variance for the purposes of determining a Traction Power Performance Test Failure. Where both an Initial Annual Traction Power Performance Test and Final Annual Traction Power Performance Test have been performed, the results showing lower energy consumption shall be used to calculate the Annual Traction Power Performance Test Variance for the purposes of determining a Traction Power Performance Test Failure.

- (e) Contracting Authority may, at its own cost and expense, audit the results of any Annual Traction Power Performance Test.
- (f) Contracting Authority shall determine the level of Traction Power Performance Test Failure, based on the ranges of Annual Traction Power Performance Test Variance set out in the following table:

Annual Traction Power Performance Test Variance	Traction Power Performance Test Failure
> [REDACTED]%	Level 1 Traction Power Performance Test Failure
> [REDACTED]%	Level 2 Traction Power Performance Test Failure
> [REDACTED]%	Level 3 Traction Power Performance Test Failure
> [REDACTED]%	Level 4 Traction Power Performance Test Failure

where, the Annual Traction Power Performance Test Variance shall be calculated in accordance with the following formula:

$$ATPPTV_n = \frac{FATPPTC_n - ETL_P}{ETL_P}$$

Where:

- $ATPPTV_n$ Means the Annual Traction Power Performance Test Variance for the relevant Contract Year n for which the formula is to be applied, expressed as a percentage;
- $FATPPTC_n$ Means the Final Annual Traction Power Performance Test Consumption for the relevant Contract Year n , determined in accordance with Section 3.5, as applicable.
- ETL_P Means the relevant Target Energy Consumption defined by Project Co in the Energy Target Letter.

3.6 Energy Failure Deductions for Initial Traction Power Performance Test Failure and Traction Power Performance Test Failures

- (a) In the event Project Co is assessed an Initial Traction Power Performance Test Failure in accordance with Section 3.5(a)(i), Contracting Authority shall be entitled to make an Energy Failure Deduction from the next Monthly Service Payment in an amount equal to \$[REDACTED], index-linked using the Escalation Factor as referred to in Section 7.1 (*Escalation Factor*) of Schedule 20 – Payment Mechanism. In the event of an Initial Traction Power Performance Test Failure described in Section 3.5(a)(i), if the Final Annual

Traction Power Performance Test results in an Annual Traction Power Performance Test Variance of [REDACTED]% or less, Project Co will be entitled to receive [REDACTED]% of the Energy Failure Deduction assessed for the Initial Traction Power Performance Test Failure by way of a positive adjustment to the Monthly Service Payment following the Final Annual Traction Power Performance Test.

- (b) In the event Project Co is assessed an Initial Traction Power Performance Test Failure in accordance with Section 3.5(a)(ii) or 3.5(a)(iii) and Project Co does not exercise its rights in accordance with Section 3.5(c), Contracting Authority shall be entitled to assess a Level 4 Traction Power Performance Test Failure and make an Energy Failure Deduction as set out in Section 3.6(c)(iv).
- (c) In the event Project Co is assessed a Traction Power Performance Test Failure in accordance with Section 3.5(f), Contracting Authority shall be entitled to make an Energy Failure Deduction from the next Monthly Service Payment as follows:
 - (i) in the case of a Level 1 Traction Power Performance Test Failure, an amount equal to \$[REDACTED],
 - (ii) in the case of a Level 2 Traction Power Performance Test Failure, an amount equal to \$[REDACTED];
 - (iii) in the case of a Level 3 Traction Power Performance Test Failure, an amount equal to \$[REDACTED]; and
 - (iv) in the case of a Level 4 Traction Power Performance Test Failure, an amount equal to \$[REDACTED].
- (d) The Energy Failure Deductions for Traction Power Performance Test Failures above shall be index-linked using the Escalation Factor as referred to in Section 7.1 (*Escalation Factor*) of Schedule 20 – Payment Mechanism.

4. ENERGY MANAGEMENT SYSTEM

4.1 Energy Management System Plan

- (a) No later than ninety (90) days following Financial Close, Project Co shall develop a plan for its Energy Management System (“**Project Co Energy Management System Plan**”). The Project Co Energy Management System Plan shall be submitted in accordance with Schedule 10 – Review Procedure.
- (b) The Project Co Energy Management System Plan shall, at minimum:
 - (i) meet all planning requirements set out in ISO 50001;

- (ii) include a description of the scope and boundaries for the Energy Management System which shall include the entirety of the Ontario Line Subway System;
- (iii) include a description of the organizational roles, responsibilities and authorities related to energy management for the Project;
- (iv) include a description of the objectives and energy targets for the Energy Management System;
- (v) include a description of the phases of implementation of the Energy Management System that reflects,
 - (A) the progression of responsibility and accountability assumed by Project Co for the Operations Services and Maintenance Services as set out in the Output Specifications.
 - (B) the achievement of each South Civil Infrastructure Section Handover and North Civil Infrastructure Section Handover and the associated impacts on Operations Services and Maintenance Services; and
 - (C) the remainder of the Operational Term;
- (vi) include a description of the tasks to be undertaken by Project Co Parties as it relates to the development and implementation of the Energy Management System and a description of the corresponding resources and timelines for the execution of such tasks, including:
 - (A) the development and implementation of the Project Co Energy Management System Software Solution;
 - (B) the development of standard operating procedures where the absence of effective processes may adversely impact Energy Performance;
 - (C) the development and implementation of any training required to ensure that any Parties that have an impact on Energy Performance are aware of the Energy Management System, the Energy Policy, and their responsibilities to achieve the Energy Management System objectives; and
 - (D) execution of Internal Audits on an annual basis;
- (vii) include a description of Project Co's process for energy review for the Project, including the process for,
 - (A) analyzing the use and consumption of energy;
 - (B) assessing Energy Performance;

- (C) prioritizing energy improvements; and
 - (D) making projections about future energy use and consumption;
 - (viii) describe in detail the proposed Energy Performance Indicators, including the Energy Performance Indicators as defined in Section 4.4; and
 - (ix) provide the sources of data that will be used to support the Energy Management System, measure all Significant Energy Uses and other metering and submetering.
- (c) No later than thirty (30) days following completion of each Internal Audit as set out in in Section 4.7(a), Project Co shall submit an updated Project Co Energy Management System Plan in accordance with Schedule 10 – Review Procedure.
- (d) The first version of the Project Co Energy Management System Plan that has been reviewed in accordance with Schedule 10 – Review Procedure and achieved a No Comment or Reviewed As Noted – Minor Issues designation shall be the “Project Co Energy Management System Plan – Version 1 – [Date]”. Thereafter, each updated Project Co Energy Management System Plan that is submitted to Contracting Authority and that achieves a No Comment or Reviewed As Noted – Minor Issues designation shall become the next version number and shall be dated as of the applicable date of completion of the review procedure and shall replace the then current Project Co Energy Management System Plan.

4.2 Energy Policy

- (a) No later than ninety (90) days following Financial Close, Project Co shall submit to Contracting Authority in accordance with Schedule 10 – Review Procedure an energy policy that complies with all of the requirements for an energy policy as set out in ISO 50001 and that is signed by the Project Co Representative confirming the commitment of Project Co to the Energy Policy and the accountability of the Project Co Representative for the Energy Management System (the “**Energy Policy**”).
- (b) No later than thirty (30) days following the completion of each Internal Audit as set out in in Section 4.7(a), Project Co shall submit an updated Energy Policy to Contracting Authority in accordance with Schedule 10 – Review Procedure.
- (c) The first version of the Energy Policy that has been reviewed in accordance with Schedule 10 – Review Procedure and achieved a No Comment or Reviewed As Noted – Minor Issues designation shall be the “Energy Policy – Version 1 – [Date]”. Thereafter, each updated Energy Policy that is submitted to Contracting Authority and that achieves a No Comment or Minor-Non-Conformance Designation shall become the next version number and shall be dated as of the applicable date of completion of the review procedure and shall replace the then current Energy Policy.

4.3 Establishment of ISO 50001 Energy Management System

- (a) No later than twelve (12) months following Substantial Completion, Project Co shall establish, implement and maintain for the duration of the Operational Term an energy management system in accordance with ISO 50001 that is certified by a certification body accredited by the Standards Council of Canada or by an agency with which the Standards Council of Canada has executed a Mutual Recognition Agreement for the duration of the Operational Term (the “**Energy Management System**”).
- (b) For the purposes of complying with ISO 50001, Project Co shall be the “organization” as defined in ISO 50001.
- (c) Project Co’s Energy Management System shall comply with the following:
 - (i) the Energy Management System shall be designed to integrate energy monitoring systems into the Energy Management System database, including:
 - (A) power metering data sourced from each Train;
 - (B) power metering and submetering data sourced from South Civil Project Infrastructure and North Civil Project Infrastructure;
 - (C) power metering data sourced from Maintenance Vehicles;
 - (D) electricity metering and submetering data sourced from each Traction Power Substation;
 - (E) all water consumption metering and submetering sourced from across the Ontario Line Subway; and
 - (F) all other Significant Energy Uses.
 - (ii) data maintained in the Energy Management System shall be accessible to Contracting Authority, at all times, on a Real-Time basis and shall be collected, managed and maintained by Project Co throughout the Operational Term;
 - (iii) the Energy Management System shall capture all Energy Performance Indicators; and
 - (iv) the Energy Management System and all associated data, including all historical data, shall be handed over by Project Co to Contracting Authority no later than the Expiry Date, in accordance with Schedule 24 – Expiry Transition Procedure.
- (d) Project Co shall identify additional measurable energy targets for other Significant Energy Uses, in accordance with ISO 50001.

4.4 Energy Performance Indicators

- (a) Project Co shall determine a set of Energy Performance indicators in accordance with section 6.4 of ISO 50001 (collectively, the “**Energy Performance Indicators**”), which shall include at minimum those specified in Appendix E to this Schedule 8.

4.5 Energy Management System Performance Monitoring and Reporting

- (a) At Substantial Completion, Project Co shall provide a fully functional Energy Management System that includes the following:
 - (i) a Real-Time dashboard summary (the “**Real-Time Energy Summary Report**”) in the graphical user interface showing total energy consumption by day for the Actual Energy Consumption, including,
 - (A) Traction Power energy consumption;
 - (B) OMSF energy consumption;
 - (C) Station energy consumption; and
 - (D) Station and OMSF water consumption;
 - (ii) Energy Performance Indicators; and
 - (iii) any changes in pattern of use, consumption or demand in excess of plus or minus 10 per cent compared to that recorded in any previous monthly summary reports for the same month in the immediately preceding five years.
- (b) Project Co shall ensure that the Energy Management System includes a cumulative annual dashboard summary report in the graphical user interface (the “**Annual Energy Summary Report**”) showing:
 - (i) the total annual energy consumption to date of the Actual Energy Consumption, including,
 - (A) for Car energy:
 - (I) electricity in megawatt-hours;
 - (B) for Station and OMSF energy:
 - (I) total monthly electrical energy consumption in megawatt-hours, calculated as the aggregate amount of all hourly electrical energy consumption amounts;

- (II) diesel in litres and megajoules;
 - (III) any other liquid fuels in litres and megajoules; and
 - (IV) any other gaseous fuels in standard cubic metres and megajoules;
- (ii) Energy Performance Indicators for the year.
- (c) Project Co shall ensure that the energy consumption is metered at the primary side of the Traction Power Substation transformer for the purpose of measuring energy consumption in accordance with this Schedule 8.

4.6 Annual Energy Report

- (a) Project Co shall prepare and submit to Contracting Authority, in accordance with Schedule 10 – Review Procedure, an annual energy report for each year of the Operational Term no later than January 31st of the immediately following year (the “**Annual Energy Report**”). The Annual Energy Report shall include,
- (i) the monthly energy summary reports for the applicable year;
 - (ii) the Annual Energy Summary Report for the applicable year;
 - (iii) an analysis of the Annual Traction Power Performance Test(s);
 - (iv) a comparison of actual Energy Performance against the Energy Performance Indicators;
 - (v) identification of potential opportunities for cost savings in respect of the Actual Energy Consumption and an associated estimate of potential energy consumption savings broken down by implementation costs, Simple Payback periods and projected savings; and
 - (vi) a detailed summary of potential risks associated with each proposed cost savings measure described in Section 4.6(a)(v), and corresponding risk mitigation measures.

4.7 Energy Audits

- (a) In accordance with the requirements of ISO 50001, Project Co shall conduct an internal audit of the Energy Management System on an annual basis (each, an “**Internal Audit**”), which, in addition to the requirements set out in ISO 50001, shall include, a review of the Project Co Energy Management System Plan and a review of the Energy Policy to ensure to ensure that the Project Co Energy Management System Plan and the Energy Policy reflects the progressive scope of Project Co’s obligations under the Project Agreement.

- (b) Project Co shall retain a third party energy auditor, accredited by the Standards Council of Canada or by an agency with which Standards Council of Canada has executed a Mutual Recognition Agreement (each, an “**Energy Auditor**”), to undertake Energy Audits in accordance with the following:
- (i) Project Co shall retain the Energy Auditor to carry out a surveillance Energy Audit for each Contract Year, in accordance with ISO 50003;
 - (ii) Project Co shall retain the Energy Auditor to undertake a recertification Energy Audit every three (3) years following the achievement of initial ISO 50001 certification, in accordance with ISO 50003;
 - (iii) the Energy Auditor shall complete its Energy Audit no later than thirty (30) days after the day the Energy Audit commences;
 - (iv) all Energy Audits shall comply with ISO 50003 and the Energy Auditor shall take into account the following when determining whether or not continual Energy Performance improvement has been demonstrated:
 - (A) all Energy Performance Indicators; and
 - (B) the provisions of the then current Asset Management Plan, Maintenance Concept Plan, Operations Plan and Project Co Energy Management System Plan; and
 - (v) the results of all Energy Audits shall be submitted to Contracting Authority no later than thirty (30) days following the completion of the Energy Audit report by the Energy Auditor for review in accordance with Schedule 10 – Review Procedure.
- (c) In the event that the Energy Auditor concludes as an outcome of a surveillance Energy Audit undertaken in accordance with Section 4.7(b)(i) or a recertification Energy Audit undertaken in accordance with Section 4.7(b)(ii) that continual Energy Performance improvement has not been demonstrated, Project Co shall, no later than fourteen (14) days after receiving the Energy Audit report by the Energy Auditor submit to Contracting Authority in accordance with Schedule 10 – Review Procedure a detailed remediation plan setting out how Project Co will achieve continual Energy Performance improvement provided that, to the extent achieving such Energy Performance improvement requires modifications or additions to the Project Co Services or the Ontario Line Subway, and such modifications or additions are not contemplated in the then current version of the Asset Management Plan, Maintenance Concept Plan, Operations Plan, Project Co Energy Management System Plan or Energy Policy, then Project Co shall give Notice to Contracting Authority of such modifications or additions. If, after such Notice, Contracting Authority requires Project Co to implement such modifications or additions, to the extent such modifications or additions impacts the then current version of the Asset Management Plan, Maintenance Concept Plan, Operations Plan, Project Co Energy Management System Plan or Energy Policy and would not have otherwise been taken into account by

compliance with Good Industry Practice, then such modification or addition shall, subject to and in accordance with Schedule 22 – Variation Procedure, result in a Variation.

- (d) At Contracting Authority’s expense, Contracting Authority may, from time to time and in its sole discretion, carry out Energy Audits or retain an Energy Auditor to carry out Energy Audits in addition to those carried out by Project Co pursuant to Section 4.7(a), including an audit of the Energy Management System. For clarity, only the additional Energy Audits carried out by Contracting Authority or an Energy Auditor retained by Contracting Authority pursuant to this Section 4.7(d) shall be at Contracting Authority’s expense.
- (e) In the event that Contracting Authority carries out an additional Energy Audit pursuant to Section 4.7(d), Project Co shall, in good faith, provide all information and assistance as may be requested by Contracting Authority or by the Energy Auditor.
- (f) Contracting Authority shall promptly provide Notice to Project Co that it has retained an Energy Auditor setting out the information that the Energy Auditor requires from Project Co.

4.8 Project Co EMS Software Solution

- (a) No later than the ninety (90) days prior to Substantial Completion and prior to the commencement of in-situ Traction Power commissioning, Project Co shall provide a software solution for the administration of the Energy Management System (the “**Project Co Energy Management System Software Solution**”), which shall have achieved acceptance in accordance with the Output Specifications. The Project Co Energy Management System Software Solution shall comply with Appendix D to this Schedule 8.

4.9 Amendment of Target Energy Consumption

- (a) Project Co and Contracting Authority shall, acting reasonably, agree to make amendments to the Target Energy Consumption, but only in the event of a Variation that has (a) been initiated by Contracting Authority and (b) affects one or more of the Traction Power Model Parameters in Appendix A to this Schedule 8. Any such Variation shall require the resubmission, at no cost or expense to the Contracting Authority and in accordance with Schedule 10 – Review Procedure, of the Traction Power Model and an accompanying detailed report quantifying the expected change in Target Energy Consumption.

4.10 Energy Failures

- (a) Project Co shall be assessed a “Medium Energy Failure” for each instance where the Project Co Energy Management System Software Solution or the energy meter on the primary side of any substation fails to meet the requirements of EnPI-02, as defined in Appendix E to this Schedule 8.

- (b) Project Co shall be assessed a “Minor Energy Failure” for each instance where all other energy meters not covered by Section 4.10(a) fail to meet the requirements of EnPI-02, as defined in Appendix E to this Schedule 8.

For clarity, Energy Failures included in this Section 4.10 shall only apply for the failure of meters to meet the requirements of EnPI-02, and shall not apply to quantity of energy consumption of such meters.

5. WATER CONSUMPTION

5.1 Water Consumption

- (a) Project Co shall comply with the requirement WPI-01 and WPI-02 included in Appendix E to this Schedule 8.
- (b) Project Co shall be assessed a “Minor Energy Failure” for each instance where a meter fails to meet the requirements of WPI-02, as defined in Appendix E to this Schedule 8.

For clarity, this Energy Failure shall only apply for the failure of meters to meet the requirements of EnPI-02, and shall not apply to the quantity of water consumption of such meters.

5.2 Planning for Measurement and Verification for Water Consumption

- (a) Project Co shall prepare a measurement and verification of water use plan (the “**Measurement and Verification of Water Use Plan**”) that is compliant with IPMVP and including:
 - (i) calculations used for water consumption as part of the submission to obtain any LEED credits under the performance category: “Water Efficiency”;
 - (ii) description of the water consumption portion of the measurement and verification plan and process used to achieve the LEED credit “Advanced Energy Metering” under performance category: “Energy & Atmosphere”; and
 - (iii) identification of all sub-metering provided at the OMSF.
- (b) At Final Completion, Project Co shall submit the Measurement and Verification of Water Use Plan in accordance with Schedule 10 – Review Procedure to Contracting Authority.

5.3 Measurement and Reporting for Water Consumption

- (a) Project Co shall measure in Real-Time the amount of actual water consumed in respect of each Contract Month at each metered connection for water consumption.

- (b) Project Co shall integrate water monitoring into the Project Co Energy Management System Software Solution and provide a summary of the data within the Real-Time Energy Summary Report.

6. SUPPLY OF ENERGY

- 6.1 Contracting Authority shall from time to time as required enter into contracts with Energy Utilities suppliers for the supply of Energy Utilities and shall be responsible for all payments due pursuant to such supply contracts.
- 6.2 The Parties agree that it is important to maintain an appropriate balance between:
 - (a) ensuring the efficient use of energy and minimizing the level of emissions of greenhouse gases and harmful substances caused by the use of energy (regardless of where the energy is generated); and
 - (b) minimizing the monetary cost of energy usage.
- 6.3 Any design alterations due to technology changes that will potentially change the proportions of Energy Utilities, increase the cost to Contracting Authority of purchasing Energy Utilities (i.e. natural gas, electricity, or other energy source) and will have negative impact on lifecycle costing, increase maintenance issue, shall be approved by Contracting Authority.

7. ENERGY MODEL INTELLECTUAL PROPERTY OWNERSHIP AND LIABILITIES

7.1 Intellectual Property

- (a) For greater certainty, all Energy Models and energy reports delivered to Contracting Authority or Project Co pursuant to this Schedule 8 shall be deemed to be Developed Intellectual Property.
- (b) For greater certainty, Project Co acknowledges and agrees that Contracting Authority shall not be liable to Project Co for, and Project Co shall not seek to recover from Contracting Authority, any Governmental Authority or any Contracting Authority Party, any damages, losses, costs, liabilities or expenses which may arise (whether in contract, tort or otherwise) as a result of any errors in the Energy Models or the energy reports.

APPENDIX A TO SCHEDULE 8

TRACTION POWER MODEL PARAMETERS AND METERING REQUIREMENTS

1.1 Metering Requirements

- (a) Metering shall be provided in order to facilitate the accurate energy consumption measurement during the Annual Traction Power Performance Test and shall include, at a minimum, independent metering for the following:
 - i. OMSF Power with, at minimum, submetering for Traction Power within the OMSF yard and for the OMSF facilities.
 - ii. Traction Power but excluding OMSF Power; and
 - iii. in each Train.
- (b) Train energy consumption shall be monitored to a tolerance of plus or minus 10 percent.

1.2 Approved Software for Traction Power

- (a) Proprietary load flow simulation tools shall be used to simulate/model the annual energy consumption and power demand of all traction power (vehicle auxiliary power and vehicle locomotion power), including mainline, yard, and workshops.
- (b) The software shall be capable of modeling the Traction Power Model Parameters including voltage and voltage drop values, current magnitudes, power flows, power demands, equipment energy consumption, losses, and temperature changes.

TABLE A-1: Traction Power Model Inputs and Requirements

Parameter	Defined by Contracting Authority	Value	Units
Auxiliary Power of Train	No	To be provided by Project Co	kW
Axle Spacing for Curve Resistance	No	To be provided by Project Co	m
Curve radius (horizontal alignment)	Yes	As defined in Appendix K (<i>Alignment Geometry Tables</i>) of the Output Specifications	m (vs km)
Driving style including coasting points (if any) / Automated Train Operator (ATO)	No	To be provided by Project Co	-

Dwell time at each Station	No	To be provided by Project Co	
Gradient (vertical alignment)	Yes	As defined in Appendix K (<i>Alignment Geometry Tables</i>) of the Output Specifications	% (vs km)
Length of Train	No	To be provided by Project Co	m
Light load voltage	No	To be provided by Project Co	V
Location and number of Substations	Yes	As defined in the Output Specifications. If Project Co modifies (reduces) the number of Substations, this should be indicated as part of this submission.	
Mass of Power Car	No	To be provided by Project Co	kg
Mass of Trailer Car	No	To be provided by Project Co	kg
Maximum Acceleration Rate	Yes	Actual acceleration rates used in the Traction Power Model to be provided by Project Co	m/s ²
Maximum Deceleration Rate	Yes	Actual deceleration rates used in the Traction Power Model to be provided by Project Co	m/s ²
Max electrical braking effort Curves versus voltage	No	To be provided by Project Co	N vs km/h vs V
Max Jerk Rate	Yes	As defined in the Output Specifications	m/s ³
Max Regenerative Voltage	No	To be provided by Project Co	V
Max tractive effort curves	No	To be provided by Project Co	N vs km/h vs V
No. of Power Cars per Train	No	To be provided by Project Co	-
No. of Trailer Cars per Train	No	To be provided by Project Co in the Energy Target Letter	-
Nominal supply voltage	Yes	As defined in the Output Specifications	V
On-board Energy Storage (OESS)	No	To be provided by Project Co	Mass of OESS: kg Rated power of OESS: kW energy storage capacity: kWh

			Charge/discharge characteristic: A vs V Efficiency (over full cycle): %
Power conductor (overhead conductors, running rails, etc.) electrical Resistance	No	To be provided by Project Co and electrical resistances shall be determined in accordance with the weather data file	ohm/m
Rail to Earth Resistance	Yes	As defined in the Output Specifications	ohm/m
Train Rolling Resistance	No	To be provided by Project Co	Expressed as a quadratic function of speed: $R [N] = C*v^2 + B*v + A$
Train Rotating Mass Factor	No	To be provided by Project Co	-
Maximum Journey Time	Yes	As defined in the Output Specifications Actual Journey Time used in the Traction Power Model to be provide by Project Co.	hh:mm
Signalling (ATO)	No	To be provided by Project Co	-
Simulation time step	No	To be provided by Project Co	s
Speed limits	No	To be provided by Project Co	km/h (vs km)
Split or couple Trains	No	To be provided by Project Co	-
Station location	Yes	As defined in the Output Specifications.	km
Substation characteristics (rating, presence of inverters, etc.)	No	To be provided by Project Co	Rating: kW
Operational Service Plan	No	To be provided by Project Co	mm:ss
TPSS Breaker Configuration	No	To be provided by Project Co	-
Track Feeder Resistance/Impedance	No	To be provided by Project Co and electrical resistance shall be determined in accordance with the weather data file.	ohm/m
Train Traction Power Conversion Efficiency	No	To be provided by Project Co	% vs speed

Variations of maximum power with line voltage when braking	No	To be provided by Project Co	kW vs V
Variations of maximum power with line voltage when motoring	No	To be provided by Project Co	kW vs V
Train Loading	Yes	AW0 (for the purposes of aligning with the Annual Traction Power Performance Test)	
Wayside Energy Storage System (if any)	No	To be provided by Project Co	Rated power of WESS: kW energy storage capacity: kWh Charge/discharge characteristic: A vs V Efficiency (over full cycle): %
Weather File Data	Yes	July 1 st in Canadian Weather Year for Energy Calculation (CWEC) file name CAN_ON_Toronto.716240_CWEC.epw Increase temperature by 4 deg C to account for Climate Change	

APPENDIX B TO SCHEDULE 8

OMSF ENERGY MODEL AND OMSF POWER METERING REQUIREMENTS

1.1 Approved Software

- (a) The energy models shall be prepared using EnergyPlus v8.8.0, IES Virtual Environment 2017, or eQuest v3.6.5 or later in general accordance with the rules of the “LEED® Canada Reference Guide for Green Building Design and Construction Version 4”, available from the Canada Green Building Council.
- (b) The energy models shall be prepared using the latest LEED® Canada Supplementary Energy Modelling Guidelines to supplement and/or clarify the energy modelling guidance provided for LEED Canada for New Construction and Major Renovations and LEED Canada for Core and Shell Development EA Prerequisite 2 and EA Credit 1, Option 1 – Whole Building Energy Simulation.
- (c) Modifications to the code generated by prescribed software are permitted for the purposes of modeling systems and energy efficiency measures not handled by prescribed software; however, any such changes shall be fully described and justified in the energy modeling reports submitted with the models.
- (d) Other software may be used to determine the energy savings for specific energy efficiency measures not handled by EnergyPlus, IES Virtual Environment, or eQuest (e.g. renewable energy technologies). If software other than EnergyPlus, IES Virtual Environment, or eQuest is used, the complete software files shall be submitted and the methodology and procedures used shall be fully described and justified in the energy modeling reports submitted with the models. This baseline Energy Model is required to be submitted based on output from the EnergyPlus, IES Virtual Environment, or eQuest model.

1.2 Take-Offs

- (a) The area used for energy intensity calculations is to be the gross conditioned building floor area as measured from the outside of exterior walls and including elevator shafts, occupied tenant areas, common areas, meeting areas, break rooms, restrooms, elevator shafts, mechanical equipment areas, and storage rooms and vertical duct chases.
- (b) Exteriors (such as balconies, loading docks, driveways), unconditioned or interstitial plenum space between floors, which may house pipes and ventilation should not be included.

- (c) Wall heights shall be full floor-to-floor height.
- (d) Window areas shall represent the total area of the rough opening.

1.3 Simulation “Building Level” Parameters

- (a) The selected location shall be “Toronto, Ontario” and the weather file shall be used as set out in Section 3.1.5 (*Sustainability*) of the Output Specifications.

1.4 Operating Schedules

- (a) The Energy Model shall be reflective of the Operational Term.
- (b) Fan Schedules
 - (i) For all zones, fan schedules are to be set to “on” for all hours (i.e. schedule value equals 100% for all hours), except as noted in Section 1.4(b)(ii) of this Appendix B.
 - (ii) Fan schedules may be edited to represent demand-controlled ventilation schemes for OMSF areas where demand control is permitted.
- (c) Cooling Thermostat Setpoint Schedules
 - (i) Except as noted in the Output Specifications, cooling thermostat set-point schedules for all zones are to be set at 24°C. This shall be applied for all hours other than the scheduled set-back outlined in Section 1.4(c)(vi) of this Appendix B.
 - (ii) For the UPS room, the cooling thermostat set-point schedules are to be set at 27°C for all hours.
 - (iii) The spaces that do not require mechanical cooling (such as boiler room, diesel generator room, transformer room etc.), may be modeled without mechanical cooling if none is provided in the proposed design.
 - (iv) Zones without cooling should be modeled with a cooling thermostat set-point schedule set to 99°C for all hours.

- (v) Where modeled zones contain spaces with different cooling set-points (based on the above requirements), the zone shall be modeled using the set-point for the space requiring the lowest set-point temperature.
- (vi) For the purposes of these simulations, “set-back” of cooling temperatures (e.g. during unoccupied hours) shall follow the operating schedule defined in COMNET Appendix C for the appropriate space type.
- (d) Heating Thermostat Setpoint Schedules
 - (i) Except as noted in the Output Specifications, heating thermostat set-point schedules for all zones are to be set at 22°C. This shall be applied for all hours other than the scheduled set-back as outlined in Section 1.4(d)(iv) of this Appendix B.
 - (ii) For the spaces where heating is not required (such as transformer room), the heating thermostat set-point schedule is to be set at 4°C for all hours.
 - (iii) Where modeled zones contain spaces with different heating set-points (based on the above requirements), the zone shall be modeled using the set-point for the space requiring the highest set-point temperature.
 - (iv) For the purposes of these simulations, “set-back” of heating temperatures (e.g. during unoccupied hours) shall follow the operating schedule and defined in COMNET Appendix C for the appropriate space type.
- (e) Lighting, Occupancy, Receptacle, and Service Water Heating (“SWH”) Schedules
 - (i) For all zones, the lighting, occupancy, receptacle, and SWH schedules are to be set based on the proposed operation. Where unknown default values from the COMNET Appendix C shall be used.

1.5 Equipment Loads

- (a) Proponent shall use information regarding Equipment to be in use at the OMSF provided in the Output Specifications to model the effect of Equipment on energy usage.

1.6 Ventilation Rates

- (a) The design shall comply with ASHRAE 62.1 ventilation requirements (in accordance with LEED rules) and the ventilation requirements listed on the room data sheets.

- (b) Designs that utilize excessive ventilation rates (i.e. 30% or more above the required rates as defined in the LEED® Canada Reference Guide for Green Building Design and Construction Version 4 Reference Guide) shall be modeled as per LEED modeling rules indicated in the latest LEED Canada Supplementary Energy Modelling Guidelines.
- (c) Demand controlled ventilation shall only be used as an energy efficiency measure where permitted in the Output Specifications.

1.7 Entered Parameters

- (a) The entered parameters that shall conform to the Output Specifications (i.e. items that must be entered by the simulator into the simulation file) are as follows:
 - (i) wall and roof floor areas and construction type: (I) assemblies must be entered layer-by-layer; (II) directly entering U-values is not permitted; and (III) “exempt” walls may not be used;
 - (ii) window and skylight areas U-values and SHGC;
 - (iii) door area and U-value;
 - (iv) total connected lighting power for all spaces;
 - (v) automatic lighting controls (e.g. occupancy sensors; daylight sensors);
 - (vi) HVAC system type and parameters (heating capacity, efficiency, fan power);
 - (vii) humidification/dehumidification must be modeled if it is provided in the design;
 - (viii) plant type and parameters (boilers, chiller, cooling towers, pumps); and
 - (ix) service water heating maximum flows for showers and faucets.

1.8 Fixed Parameters

- (a) Fixed parameters that shall conform to the Output Specifications (i.e. inputs that the simulator may not modify in the simulation) are as follows:

- (i) zone type;
- (ii) zone principal heating source;
- (iii) lighting area factor (must be 1.00);
- (iv) space use;
- (v) occupant density (refer to COMNET Appendix B for appropriate space type);
- (vi) service water heating loads (refer to COMNET Appendix B for appropriate space type);
- (vii) receptacle loads (when unknown refer to COMNET Appendix B for appropriate space type);
- (viii) desired winter temperature; and
- (ix) desired summer temperature.

1.9 Miscellaneous modeling requirements

- (a) Where redundant equipment capacity has been provided, only model the number of pieces of Equipment intended to operate under normal conditions.
- (b) Traction Power shall not be included in the OMSF Energy Model.
- (c) Exterior lighting shall be included in the OMSF Energy Model.
- (d) For simulation purposes only, no zone is permitted to have unmet cooling load hours in excess of 300 per year (excluding zones with no cooling requirements).

Table B1 OMSF Modeling and Metering Requirements

Regulated Load	Energy Use	Energy Utility		Description	Sub-Metering
	OMSF Power	Electricity	Natural Gas		
Plug loads	Yes	■		Personal computers, task lighting	Included
Interior lighting	Yes	■		Luminaires and lighting controls	Included
Space heating	Yes	■	■	Boilers and radiant heating within shelters	Included
Steam plant (if any)	Yes		■	Boilers	Included
Humidification	Yes	■	■	Electric humidifiers, gas humidifier	Included
Space cooling (air conditionings, chiller)	Yes	■		Chillers	Included
Dehumidification	Yes	■		Chillers	Included
Heat rejection (cooling tower, dry cooling)	Yes	■		Cooling tower fans and pumps	Included
Ventilation fans (roof top unit, energy recovery ventilator)	Yes	■	■	Energy recovery ventilators, air handling units, exhaust fans, gas-fired units	Included
Exterior lighting	Yes	■		Luminaires and lighting controls	Included

Regulated Load	Energy Use	Energy Utility		Description	Sub-Metering
	OMSF Power	Electricity	Natural Gas		
Escalators	No	■		Escalators	Included
Workshop equipment	Yes	■		Electrical loads	Included
HVAC pumps (domestic cold water, domestic hot water, heating and cooling circulation)	Yes	■		Heating, chilled water and domestic water circulation	Included
Service water heating	Yes	■	■	Water heater	Included
Traction Power and Train auxiliary power on mainline	No	■		Traction Power for mainline, including propulsion power, lighting, receptacle, heating, air conditioner, air compressor, emergency panel.	Included
Traction Power and Train auxiliary power at OMSF	No	■		Traction Power at OMSF including propulsion power, lighting, receptacle, heating, air conditioner, air compressor, emergency panel.	Included

Process Load	Energy Use	Energy Utility		Description	Sub-Metering
	OMSF Power	Electricity	Natural Gas		
Emergency generators	Yes	■	■	Emergency Generators and Ancillary Equipment	Included
Elevators	Yes	■		Electric motors	Included
Sump pumps	Yes	■		Pump motor	Included
Irrigation system pumps	Yes	■		Pump motor	Included
Life safety/ fire safety system energy	Yes	■		Electrical loads	Included
Security system	Yes	■		Electrical loads	Included
Communication/BACS/emergency systems	Yes	■		Electrical loads	Included
Signage, billboard, pylon sign	Yes	■		Electrical loads	Included
Retail Facilities	Yes	■	■	Restaurant gas appliances; retail electric appliances	Included
Data server, information technology equipment, (e.g. UPS loads), cooling and ventilation electrical loads for data/information	Yes	■		Electrical loads	Included

Process Load	Energy Use	Energy Utility		Description	Sub-Metering
	OMSF Power	Electricity	Natural Gas		
technology server room, air conditioning.					
Food service, kitchen, server	Yes	■	■	Cafeteria/kitchen gas and electrical appliance	Included
Stations		■		Electrical loads	Included
Interchange(s) Emergency Ventilation		■		Electrical loads	Included
Receptacle loads for signage/ PVIS/ SCADA/ PA system/ FCS/ PAI		■		Various electrical loads	Included
Metered provision of Traction Power other than propulsion power and Train auxiliary power not fed from the onboard Train power system.		■		S&TCS for mainline and OMSF yard, including equipment at the OCC.	Included
Switch heaters and air blowers	Yes	■		Electrically-powered switch heaters and air blowers	Included

APPENDIX C TO SCHEDULE 8

ENERGY TARGET LETTER AND ENERGY MODEL

[REDACTED]

APPENDIX D TO SCHEDULE 8

**TECHNICAL SPECIFICATIONS FOR PROJECT CO ENERGY MANAGEMENT SYSTEM
SOFTWARE SOLUTION**

- (a) The Project Co Energy Management System Software Solution shall:
- (i) be cloud-based;
 - (ii) allow multiple users to remotely log in and access the solution with single sign-on capability, but with individually set access permissions (i.e. read only, read-write and similar permissions);
 - (iii) allow users to upload user documents against any individual record contained within the database;
 - (iv) be equipped with document control capabilities that enable users to track versions and revisions and that ensure that the latest revision of documents is being employed by users;
 - (v) allow easy access to data, dashboarding features and business analytics features to enable the monitoring and reporting of the Energy Performance Indicators determined in accordance with this Schedule 8;
 - (vi) include a central repository for all historical and current versions of the documents required to be managed in the Project Co Energy Management System Plan, organized in a manner that promotes efficient access to the documents;
 - (vii) include a database that accurately and effectively records and tracks all data required to be managed in accordance with the Project Co Energy Management System Plan; and
 - (viii) comply with the requirements of Section 37 (*Records, Information, Audit and Claims Management*) of the Project Agreement and Schedule 26 – Record Provisions.
- (b) Throughout the Operational Term, Project Co shall ensure that,
- (i) the Project Co Energy Management System Software Solution is, at all times, the most current vendor-supported version of the cloud-based software selected by Project Co; and
 - (ii) the Project Co Energy Management System Software Solution and all data and documents contained therein are electronically accessible to Contracting Authority, at all times, on a Real-Time basis through the single sign-on capability, and Project Co shall ensure that all Contracting Authority users' permissions include "read" and "download".

- (c) If, at any time during the Operational Term, the Project Co Energy Management System Software Solution vendor is no longer in business or otherwise no longer supports the Project Co Energy Management System Software Solution and the Project Co Energy Management System Software Solution is not supported by another vendor, then Project Co shall, subject to the prior written approval of Contracting Authority, select and implement an alternative cloud-based software solution for the Project Co Energy Management System Plan that meets the requirements of this Schedule 8.

APPENDIX E TO SCHEDULE 8

ENERGY PERFORMANCE INDICATORS

Reference	Measurement	Unit	Formula	Thresholds
EnPI-01	Traction Power Consumption at the TPSS over the best 60 minute period during the Annual Traction Power Performance Test	kWh / hr	N/A	Within [REDACTED]% above Energy Target
EnPI-02	<p>Functional Meters and Reporting:</p> <p>Project Co shall ensure that the Real-Time Energy Summary Report real time dashboard is accurate, up to date and accessible at least [REDACTED]% of days of the year.</p> <p>Project Co shall ensure each meter and sub-meter is functional at all times at least [REDACTED]% of operational hours per year and during the Annual Traction Power Performance Test.</p> <p>Non function meters are defined as:</p> <ul style="list-style-type: none"> • No data readings • Inaccurate data • Readings show a greater change than +/- [REDACTED]% comparing current year data to previous year same time period(s) • Intermittent data, missing data • If data is missing for more than 48 consecutive hours 	%	N/A	>[REDACTED]% and all relevant meters during Annual Traction Power Performance Test

Reference	Measurement	Unit	Formula	Thresholds
EnPI-04	Train Net Energy during Revenue Service defined by: E: Net Train energy (while in Revenue Service) P: The number of Passengers transported D: Travelled distance while in Revenue Service	kWh / [passenger * km]	$E / [P * D]$	To be defined by Project Co and not subject to any Energy Failures
EnPI-05	Substation Net Energy in Revenue Service defined by: E: Traction substation energy (at primary side) P: The number of passengers transported D: Travelled distance while in Revenue Service	kWh / [passenger * km]	$E / [P * D]$	To be defined by Project Co and not subject to any Energy Failures
EnPI-06	Traction power network efficiency defined by Ep: Traction substation energy (primary) Et: Net energy at trains	%	$([Ep - Et] / Ep) * 100$	To be defined by Project Co and not subject to any Energy Failures
EnPI-07	Energy recuperation defined by the Eout: Energy regenerated by a train Ein: Energy sunk by a train OR An alternative to Ein could be dynamic braking energy dissipated as heat in resistors (Er):	%	$(Eout / Ein) * 100$ Or $(Eout / [Eout + Eresistor]) * 100$	To be defined by Project Co and not subject to any Energy Failures
EnPI-08	Maintenance Energy defined as: Ep: Energy consumed by parked Trains (non-revenue) Eo: Energy consumed by operating Trains	%	$Ep / [Ep + Eo] * 100$	To be defined by Project Co and not subject to any Energy Failures

Reference	Measurement	Unit	Formula	Thresholds
EnPI-09	Station Total Energy Consumption at each station	kWh/sq.m	N/A	To be defined by Project Co and not subject to any Energy Failures
WPI-01	Actual total water consumption per day in each Station and in the OMSF	L/day	N/A	To be defined by Project Co and not subject to any Energy Failures
WPI-02	<p>Functional Meters: Project Co shall ensure that the Real-Time Energy Summary Report real time dashboard is accurate, up to date and accessible at least [REDACTED]% of days of the year.</p> <p>Project Co shall ensure each meter and sub-meter is functional at all times at least [REDACTED]% of operational hours per year and during the Annual Traction Power Performance Test.</p> <p>Non function meters are defined as:</p> <ul style="list-style-type: none"> • No data readings • Inaccurate data • Readings show a greater change than +/- [REDACTED]% comparing current year data to previous year same time period(s) • Intermittent data, missing data <p>If data is missing for more than 48 consecutive hours</p>	%	N/A	>[REDACTED]%

SCHEDULE 9

KEY INDIVIDUALS

Project Co may propose multiple Key Individuals if multiple Key Individuals are allowed, as set out in this Schedule 9. If multiple Key Individuals are allowed for a position, Project Co shall identify the lead individual for each position. The lead individual for that position shall be responsible for all functions of each Key Individual listed for that position. The functions listed below for each Key Individual position are not intended to be an exhaustive list of the functions expected to be performed by that Key Individual.

A. Key Individuals – Works

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
Construction Contractor ([REDACTED])	Design Build Director	The Design Build Director shall be responsible for ensuring that all activities with respect to the Works are fully integrated with each other.	No.	[REDACTED]
Construction Contractor ([REDACTED])	Design Manager	The Design Manager shall be responsible for: <ul style="list-style-type: none"> (i) coordinating all designs produced by the Design Team; (ii) ensuring the schedule for Design Development Submittals is reflected in each update of the Project Works Schedules; (iii) coordinating with the Contracting Authority Representative, or its designate, to prioritize the review of each of the Works Submittals, if necessary; and (iv) ensuring obligations set out in Schedule 10 – Review Procedure are satisfied for each Works Submittal. 	No.	[REDACTED]

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
Construction Contractor ([REDACTED])	Construction Manager(s)	<p>The Construction Manager(s) shall be responsible for all Construction Activities and for ensuring Project Co’s compliance with respect to all Construction Activities under the Project Agreement.</p> <p>Project Co shall appoint individual Construction Managers to align with how the Works shall be delivered, including but not limited to the OMSF and by respective sub systems, such as train control, electrical systems and track.</p>	Yes.	[REDACTED]
Construction Contractor ([REDACTED])	System Integration Manager	<p>The System Integration Manager shall be responsible for:</p> <ul style="list-style-type: none"> (i) integration of Project Co’s design to ensure all obligations of the Output Specifications are satisfied; (ii) coordinating and supporting the integration of Project Co’s design with the design developed by South Civil Project Co, North Civil Project Co and the Early Works Contractor; and (iii) ensuring all obligations in accordance with the Project Agreement in respect of interfaces with third parties, including the TOC Contractor, are coordinated and satisfied. 		[REDACTED]

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
Construction Contractor ([REDACTED])	Construction Health and Safety Manager	The Construction Health and Safety Manager shall be responsible for all activities required to satisfy Project Co’s obligations in Schedule 29 – Safety, System Assurance and Security.	No.	[REDACTED]
Construction Contractor ([REDACTED])	Design Quality Manager	The Design Quality Manager shall be responsible for the Design Quality Management Plan.	No.	[REDACTED]
Construction Contractor ([REDACTED])	Construction Quality Manager	The Construction Quality Manager shall be responsible for the Construction Quality Management Plan.	No.	[REDACTED]
Construction Contractor ([REDACTED])	Construction Quality Control Manager	The Construction Quality Control Manager shall have the responsibilities set out in Section 3.4 (<i>Construction Quality Control Manager</i>) of Schedule 11 – Quality Management.	No.	[REDACTED]

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
Construction Contractor ([REDACTED])	Project Co Commissioning Manager	<p>The Project Co Commissioning Manager shall be responsible for:</p> <ul style="list-style-type: none"> (i) coordinating all aspects of Commissioning of the Project Co Infrastructure, including planning, scheduling, coordinating and executing the commissioning of the Ontario Line Subway and Cars; (ii) ensuring Project Co’s Commissioning of all New Third Party Infrastructure in accordance with the approval procedures and design requirements of the City of Toronto, and other third parties, as applicable; (iii) ensuring all obligations of Project Co in Schedule 14 – Commissioning are satisfied, including compliance with the Output Specifications; and (iv) coordinating with the Contracting Authority Representative, Independent Certifier and third parties to prioritize the review of each Commissioning Submittal. 	No.	[REDACTED]

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
Construction Contractor ([REDACTED])	Systems Design Manager	The Systems Design Manager shall be responsible for: <ul style="list-style-type: none"> (i) coordinating all aspects of the Systems design; (ii) supporting the System Integration Manager by coordinating Project Co’s integration of the Project Co Infrastructure with the Ontario Line Subway System and subsystems as required, including Cars; (iii) ensuring all obligations and requirements in the design of the Systems required for the Project in accordance with the Output Specification are satisfied; and (iv) ensuring all obligations in accordance with the Output Specification are satisfied for systems integration. 	No.	[REDACTED]
Construction Contractor ([REDACTED])	Rolling Stock Manager	The Rolling Stock Manager shall be responsible for satisfying Project Co’s obligations with respect to the design, procurement, manufacture, testing and commission of the Cars in accordance with Schedule 14 – Commissioning and the Output Specification.	No.	[REDACTED]
[REDACTED]	Architecture, Landscape Architecture and Urban Design Lead	The Architecture, Landscape Architecture and Urban Design Lead shall be responsible for all architectural design, landscape and urban design aspects of the Project, specifically the OMSF, including design,	No.	[REDACTED]

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
		coordination, preparation of Works Submittals, and interface with Governmental Authorities.		
[REDACTED]	Permits, Licences, Approvals and Agreements Manager	Permits, Licences, Approvals and Agreements Manager shall be responsible for all activities required to satisfy Project Co’s obligations set out in Schedule 34 – Permits, Licences, Approvals and Agreements, including: <ul style="list-style-type: none"> (i) ensuring that external Stakeholder agencies (including the City of Toronto, TTC, MECP, TRCA, MTO and GO Transit) are engaged when appropriate to obtain feedback as necessary; (ii) coordinating internal and external regulatory approval processes; (iii) managing relationships with external Stakeholder agencies, including Governmental Authorities; and leading the coordination and the scheduling of meetings with Stakeholders, as needed. 	No.	[REDACTED]
Construction Contractor ([REDACTED])	Project Scheduler	The Project Scheduler shall be required to satisfy Project Co’s obligations set out in Schedule 12 – Works Schedule Requirements.	No	[REDACTED]

B. Key Individuals – Project Co Services

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
To be identified pursuant to Section 10.4(a) (<i>Key Individuals</i>) of the Project Agreement.	Project Co Services General Manager	<p>The Project Co Services General Manager shall:</p> <ul style="list-style-type: none"> (i) provide leadership over the operations and maintenance organization delivering the Project Co Services; (ii) direct internal and contracted resources for the Project Co Services; (iii) ensuring that the Project Co Services are delivered in accordance with the Project Agreement; (iv) direct improvements to Project Co Services in response to issues from the performance of the Project Co Services; (v) manage relationships with the Contracting Authority, Passenger Interface Provider, Security Provider, Interchange Station Service Providers, other transit agencies, Governmental Authorities, Stakeholders and other 	No.	To be identified pursuant to Section 10.4(a) (<i>Key Individuals</i>) of the Project Agreement.

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
		sub-contracting entities third parties; (vi) coordinating with the System Integration Manager, Operations Director, Maintenance Director and Health and Safety Director with respect to the preparation and submission to Contracting Authority of all required reports, and (vii) direct the preparation and submission to Contracting Authority of any additional verbal or written reports that may be required under the terms of the Project Agreement.		
To be identified pursuant to Section 10.4(a) (<i>Key Individuals</i>) of the Project Agreement.	Operations Director	The Operations Director shall be responsible for developing and executing the Operations Plan as set out in the Output Specifications, including: <ul style="list-style-type: none"> (i) safety and security of passengers and workers; (ii) directing resources to fulfilling all aspects of the Operations Services; and (iii) monitoring and reporting of the Operations Services as required for 	No.	To be identified pursuant to Section 10.4(a) (<i>Key Individuals</i>) of the Project Agreement.

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
		<p>the Output Specification and Schedule 20 – Payment Mechanism.</p> <p>The Operations Director shall engage in the design and construction of the Project to ensure that the requirements of the Operations Plan are incorporated into the Ontario Line Subway.</p>		
<p>To be identified pursuant to Section 10.4(a) (<i>Key Individuals</i>) of the Project Agreement.</p>	<p>Maintenance Director</p>	<p>The Maintenance Director shall be responsible for custodianship over all assets of the Ontario Line Subway and directing all aspects of the Maintenance Services including:</p> <ul style="list-style-type: none"> (i) developing and executing the Asset Management Plan and the Maintenance Implementation Plan; (ii) scheduling all maintenance activities and resources required to undertake the Maintenance Services; (iii) maintain the Maintenance Management System including the provision of data and reports to the Contracting Authority in accordance with the Project Agreement; (iv) capture and analyze opportunities for performance improvements 	<p>No.</p>	<p>To be identified pursuant to Section 10.4(a) (<i>Key Individuals</i>) of the Project Agreement.</p>

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
		<p>related to maintenance of the assets; and (v) monitoring and reporting of the Maintenance Services as required for the Output Specification and Schedule 20 – Payment Mechanism.</p> <p>The Maintenance Director shall engage in the design and construction of the Project to ensure that the requirements of the Asset Management Plan, including those required to meet the asset preservation obligations, are incorporated into the Ontario Line Subway.</p>		

C. Key Individuals – Works and Project Co Services

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
Project Co	Project Co Representative	The Project Co Representative shall have the applicable responsibilities set out in the Project Agreement and each Civil Project Interface Agreement.	No.	[REDACTED]
Construction Contractor ([REDACTED])	Chief Safety Officer	<p>The Chief Safety Officer shall be responsible for the safety of the Project, including,</p> <ul style="list-style-type: none"> (i) all activities to satisfy Project Co’s safety obligations in Schedule 29 – Safety, System Assurance and Security; (ii) the development and implementation of the System Safety Plan, Project Co Safety Management System and Emergency Response Plan; (iii) the delivery of all Engineering Safety and Assurance Cases; (iv) coordinating with the Contracting Authority, Emergency Service Providers, Railway 	No.	[REDACTED]

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
		Companies, Project Co Independent Safety Assessor and the Civil Contractors on all aspects of system safety and assurance; and (v) acting as the point of contact with Contracting Authority in respect of the system safety and assurance activities.		
Construction Contractor ([REDACTED])	Chief Security Officer	The Chief Security Officer shall be responsible for the security of the Project, including, <ul style="list-style-type: none"> (i) all activities required to satisfy Project Co’s security obligations in Schedule 29 – Safety, System Assurance and Security; (ii) the development and implementation of the System Security Plan and Security Risk Assessment; (iii) the delivery of all System Security Submissions; (iv) the management of cybersecurity; 	No.	[REDACTED]

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
		(v) coordinating with the Contracting Authority, Emergency Service Providers, Security Provider, Project Co Independent Safety Assessor and the Civil Contractors on all aspects of system security; and (vi) acting as the point of contact with Contracting Authority in respect of the system security activities.		
[REDACTED]	Quality Director	The Quality Director shall have the responsibilities set out in Section 3.2 (<i>Quality Director</i>) of Schedule 11 – Quality Management.	No.	[REDACTED]

Project Co Party	Position	Function	Multiple Key Individuals Allowed	Name and Contact Information
Construction Contractor ([REDACTED])	Health and Safety Director	The Health and Safety Director shall be responsible for developing safety, security, health and environmental policies, standards and programs for employee and passenger activities; regulatory affairs; and emergency preparedness and ensuring business continuity systems are in place.	No.	[REDACTED]
Construction Contractor ([REDACTED])	Communications and Public Engagement Lead	The Communications and Public Engagement Lead shall be responsible for all activities required to satisfy Project Co’s obligations in Schedule 18 – Communication and Public Engagement Protocol.	No.	[REDACTED]
[REDACTED]	Environmental Director	The Environmental Director shall have the responsibilities set out in Schedule 17 – Environmental Obligations.	No.	[REDACTED]
[REDACTED]	Environmental Manager(s)	The Environmental Manager(s) shall have the responsibilities set out in Section 4.3 (<i>Environmental Manager(s)</i>) of Schedule 17 – Environmental Obligations	Yes. Lead:	[REDACTED]

SCHEDULE 10

REVIEW PROCEDURE

PART A – WORKS

1. WORKS SUBMITTALS

- 1.1 The provisions of Part A of this Schedule 10 shall apply to the Design Development Submittals, the Construction Document Submittals, the Design Data and any and all items, documents and anything else required or specified by the Project Agreement, in respect of the Works to be submitted to, reviewed or otherwise processed by Contracting Authority in accordance with the Review Procedure prior to Substantial Completion, or after Substantial Completion in respect of the completion of Minor Deficiencies, and in respect of the rectification of any Works, the Ontario Line Subway and the New Third Party Infrastructure, including any and all subsequent revisions, amendments and changes thereto (individually, “**Works Submittal**” or collectively “**Works Submittals**” as applicable in this Schedule 10). For greater certainty and without limiting the generality of any of the foregoing, Works Submittals shall include any and all items, documents and anything else required or specified by Appendix A to this Schedule 10.
- 1.2 For clarity, the provisions of Part A of this Schedule 10, including any deadlines for submission or review set out herein, shall not apply to any processing or review of any Permit, Licence, Approval, or Agreement.
- 1.3 Subject to Section 1.2, if the City of Toronto or the TTC fails to meet the timelines set out in this Schedule 10 with respect to its review of any Works Submittals, such failure shall be deemed to be a failure by Contracting Authority to comply with the timelines set out in this Schedule 10.
- 1.4 Project Co may submit an advanced Works Submittal with respect to item A-101 (*OMSF – Foundations*) as set out in Appendix A to this Schedule 10 (an “**Advanced Works Submittal**”). An Advanced Works Submittal shall be used for a discrete element of Project Co Infrastructure that must be constructed in advance of the remaining Project Co Infrastructure in order to achieve the Proposed Works Schedule.
- 1.5 Where an Advanced Works Submittal is used, Project Co shall still complete a Design Development Submittal and a Construction Document Submittal for the remaining associated Project Co Infrastructure prior to commencing the remaining Works.
- 1.6 For each Advanced Works Submittal, Project Co shall provide a description of the submittal content to Contracting Authority for review and agreement prior to the submittal.
- 1.7 Each Advanced Works Submittal shall follow the relevant provision for Works Submittals of this Schedule 10 unless stated otherwise, including those set out in Appendix A to this Schedule 10.

2. SCHEDULE FOR WORKS SUBMITTALS

- 2.1 The Baseline Works Schedule shall allow:

- (a) for each Works Submittal relating to Project Co Infrastructure, a period of twenty (20) Business Days (or such longer period as may be agreed between Contracting Authority and Project Co) from the date of receipt, for Contracting Authority's review of and response to such Works Submittal;
- (b) for each Works Submittal relating to New City Infrastructure, a period of twenty (20) Business Days (beginning five (5) Business Days after receipt of such Works Submittal, provided that Contracting Authority has determined, with assistance from the City of Toronto, and notified Project Co that such Works Submittal is complete within such five (5) Business Days), plus an additional five (5) Business Days (or such longer period as may be agreed between Contracting Authority and Project Co) for Contracting Authority's review of and response (in concert with the City of Toronto) to each Works Submittal for New City Infrastructure;
- (c) for each Works Submittal relating to New TTC Infrastructure, a period of twenty (20) Business Days (beginning five (5) Business Days after receipt of such Works Submittal, provided that Contracting Authority has determined, with assistance from the TTC, and notified Project Co that such Works Submittal is complete within such five (5) Business Days), plus an additional five (5) Business Days (or such longer period as may be agreed between Contracting Authority and Project Co) for Contracting Authority's review of and response (in concert with the TTC) to each Works Submittal for New TTC Infrastructure;
- (d) for each Works Submittal for New Third Party Infrastructure that is not New City Infrastructure or New TTC Infrastructure, a period of twenty (20) Business Days (or such longer period as may be agreed between Contracting Authority and Project Co) following receipt of the applicable Works Submittal for Contracting Authority's review of and response to the applicable Works Submittal;
- (e) for all other Works Submittals that are not captured in Sections 2.1(a), 2.1(b), 2.1(c) and 2.1(d) (including, for clarity, each Project Works Schedule, Quality Plan, the environmental submittals listed in item S-172 (*Environmental Submittals*) of Appendix A to this Schedule 10, System Safety Plan, System Security Plan, Emergency Response Plan, Stormwater Management Plan and Traffic and Transit Management Plan), twenty (20) Business Days (or such longer period as the Parties may agree) following receipt thereof for each other Works Submittal;
- (f) for each Advanced Works Submittal, the period of ten (10) Business Days prior to any submission (or such longer period as may be agreed between Contracting Authority and Project Co) for Contracting Authority to review the content of the Advanced Works Submittal, to determine that the submittal will contain sufficient information to complete the review. Project Co may engage with the Contracting Authority at any time prior to this period to agree on the content of an Advanced Works Submittal; and
- (g) for each Works Submittal relating to Works within the HONI Hydro Corridor Lands (as defined in the Output Specifications), a period of eighty (80) Business Days (beginning five (5) Business Days after receipt of such Works Submittal, provided that Contracting Authority has determined, with assistance from HONI (as defined in the Output Specifications), and notified Project Co that such Works Submittal is complete within such

five (5) Business Days), plus an additional five (5) Business Days (or such longer period as may be agreed between Contracting Authority and Project Co) for Contracting Authority's review of and response (in concert with HONI) to each Works Submittal for Works within the HONI Hydro Corridor Lands.

2.2 If, at any time,

- (a) Project Co submits an unusually large number or volume of Works Submittals not contemplated by the Baseline Works Schedule; or
- (b) a Works Submittal was, or Works Submittals were, received for review later than indicated in the Baseline Works Schedule, such that the Contracting Authority Representative cannot review the Works Submittal or Works Submittals within the time permitted in the Baseline Works Schedule,

then the Contracting Authority Representative shall, within five (5) Business Days following receipt of such Works Submittal or Works Submittals, provide Project Co with a reasonable estimate of the time necessary for processing such Works Submittal or Works Submittals.

2.3 If, pursuant to Sections 2.1(b), 2.1(c) or 2.1(g), Contracting Authority fails to notify Project Co that a Works Submittal is complete, or notifies Project Co that a Works Submittal is incomplete, within five (5) Business Days of receipt, such Works Submittal shall be deemed to have been assigned a "REVIEWED AS NOTED – MAJOR ISSUES" comment, and the provisions of this Schedule 10 relating to any Works Submittal that has been assigned a "REVIEWED AS NOTED – MAJOR ISSUES" comment shall apply.

3. GENERAL REQUIREMENTS FOR WORKS SUBMITTALS

3.1 Unless otherwise specified by the Contracting Authority Representative, Project Co shall issue three printed copies of all Works Submittals to Contracting Authority together with an electronic copy in the format set out in Appendix A to this Schedule 10, or as prescribed by Contracting Authority acting reasonably, including an electronic copy in native file format if requested by the Contracting Authority Representative and one printed copy of each Works Submittal to the Independent Certifier.

3.2 Project Co shall, at its own cost and risk, compile and maintain a Review Procedure Activities Register, to track the status of each Works Submittal through every stage of preparation, submission, review by Contracting Authority, and approval by the applicable third party. Project Co shall submit documentation on the proposed design, functionality, and usage of the Review Procedure Activities Register to the Contracting Authority Representative in accordance with Schedule 10 – Review Procedure no later than Financial Close. The Review Procedure Activities Register shall:

- (a) be updated on a daily basis by Project Co and be accessible by Contracting Authority, each applicable third party and any other entity as requested by Contracting Authority and Project Co, in real time, through a web-based interface, unless otherwise permitted by Contracting Authority;

- (b) be operational no later than the date upon which the first Works Submittal is submitted; and
 - (c) address the requirements of the “Review Procedure Activities Register” set forth in the definition of Review Procedure Activities Register and include identification of each of the following:
 - (i) the submittal date and contents of all Works Submittals;
 - (ii) the date of receipt and content of all returned Works Submittals;
 - (iii) status of comments on all Works Submittals in accordance with Section 4.1; and
 - (iv) log numbers or tracking ID’s (in a format determined by Contracting Authority) supporting the requirements of Section 3.7; and
 - (d) other items as requested by Contracting Authority.
- 3.3 All Works Submittals shall be in English.
- 3.4 All Works Submittals required by the Project Agreement or by Applicable Law to be signed or sealed by persons with professional designations (including, where applicable, by registered Professional Engineers, professional geo-scientists, Architects or Landscape Architects (as defined in the Output Specifications) shall be so signed and sealed.
- 3.5 All Works Submittals shall:
- (a) include copies of all documents to be reviewed; and
 - (b) clearly identify the purpose of the Works Submittal, Project Co’s proposed course of action relating to the Works Submittal and the Project Operations that are the subject of the Works Submittal.
- 3.6 All Works Submittals shall, where applicable, refer to and be in accordance with:
- (a) the relevant provisions of the Output Specifications, any other applicable Schedule to the Project Agreement and to any Design Data that has previously been subject to review; and
 - (b) the relevant provisions of Appendix A to this Schedule 10 for Design Development Submittals and Construction Document Submittals.
- 3.7 Each Works Submittal shall be clearly identified as a Works Submittal and shall be delivered with appropriate covering documentation, submitted in both soft copy and hard copy which shall include a list of all attached Works Submittals and, for each Works Submittal:
- (a) identification of whether the Works Submittal refers to parts of the Ontario Line Subway, New City Infrastructure and/or other New Third Party Infrastructure;

- (b) identification of whether the City of Toronto Submittal has been submitted pursuant to Appendix C to this Schedule 10;
 - (c) identification of whether the Works Submittal has been submitted pursuant to Appendix A to this Schedule 10;
 - (d) the document number(s) or drawing number(s);
 - (e) revision numbers;
 - (f) document or drawing title(s);
 - (g) name of entity that prepared the Works Submittal;
 - (h) name and signature of the Key Individual(s) responsible for content of the Works Submittal;
 - (i) the Works Submittal history, including reviewer and checker initials, date and delivery information, log number of all previous submissions of that Works Submittal, Project Agreement provisions, comments from reviewers from the previous Works Submittal, all outstanding comments, and responses to addressing those comments, all submitted in a format determined by Contracting Authority; and
 - (j) identification of any previous Works Submittal superseded by the current Works Submittal.
- 3.8 To facilitate Contracting Authority’s distribution of Works Submittals to the City of Toronto, all Works Submittals that are to be reviewed by the City of Toronto, in accordance with Appendix B, shall be separated accordingly and submitted individually, to the extent possible. Project Co shall ship any required printed copies directly to each reviewing recipient’s identified point of contact.
- 3.9 Each Works Submittal shall be organized and shall have indexes and sectional dividers. Each Works Submittal shall contain pertinent correspondence, shall be arranged by subject matter in chronological order, and shall include the final calculations, reports and backup information. All Works Submittals shall include copies of all final approvals by the applicable third party, design reports, correspondence and calculations, in both electronic and hard copy.
- 3.10 All Works Submittals shall include sufficient information to demonstrate that Project Co has met its obligations with respect to the Output Specifications, including:
- (a) information that demonstrates that the Design Development Submittals and Construction Document Submittals meet the Project Co Services Requirements; and
 - (b) information that Design Development Submittals and Construction Document Submittals have taken into account the needs of the Service Provider.
- 3.11 If a Proposal Part corresponds to a Works Submittal, then Project Co shall ensure that its initial submission of such Works Submittal in accordance with this Schedule 10 is substantially the same

content and level of detail as the corresponding Proposal Part. For clarity, this requirement shall not,

- (a) lessen, reduce or otherwise modify or amend Contracting Authority’s rights under the Project Agreement to review each Works Submittal in accordance with this Schedule 10; or
- (b) constitute acceptance or comment by Contracting Authority of any Proposal Part or any Works Submittal in accordance with this Schedule 10.

4. COMMENTS

4.1 The Contracting Authority Representative shall respond to each Works Submittal within the time periods set out in Section 2.1 by assigning one of the following comments and returning each Works Submittal to Project Co with a copy to the Independent Certifier:

- (a) “NO COMMENT”;
- (b) “REVIEWED AS NOTED – MINOR ISSUES”; or
- (c) “REVIEWED AS NOTED – MAJOR ISSUES”.

4.2 The Contracting Authority Representative shall assign a comment to each Works Submittal in accordance with the following rules:

- (a) The Contracting Authority Representative shall assign a “NO COMMENT” to each Works Submittal in which Contracting Authority has not identified any deficiencies or non-conformances during the course of its review of the Works Submittal.
- (b) The Contracting Authority Representative shall assign a “REVIEWED AS NOTED – MINOR ISSUES” to each Works Submittal that, in the opinion of Contracting Authority, considering the totality of the Works Submittal, generally conforms to the requirements of the Project Agreement but contains one or more insignificant deficiencies or insignificant non-conformances. Contracting Authority shall provide reasons for the comment, with reference to the applicable Section(s) of the Project Agreement.
- (c) The Contracting Authority Representative shall assign a “REVIEWED AS NOTED – MAJOR ISSUES” to each Works Submittal that, in the opinion of Contracting Authority, considering the totality of the Works Submittal, either or both does not generally conform to the requirements of the Project Agreement and/or contains one or more significant deficiencies or significant non-conformances. Contracting Authority shall provide reasons for the comment, with reference to the applicable Section(s) of the Project Agreement.

4.3 Following receipt of a “REVIEWED AS NOTED – MINOR ISSUES” for a Works Submittal, Project Co shall correct the Works Submittal to ensure that the Works Submittal conforms to the requirements of the Project Agreement prior to implementing the Works Submittal. If the Contracting Authority Representative assigns to a Works Submittal the additional comment “RE-

- SUBMIT”, Project Co shall correct and re-submit such Works Submittal to the Contracting Authority Representative,
- (a) no later than ten (10) Business Days after the comment has been provided to Project Co;
 - (b) within the time period set out in Schedule 12 – Works Schedule Requirements in the case of a resubmission of a Progress Works Schedule; or
 - (c) within such longer time period as determined by the Contracting Authority Representative, acting reasonably and as set out in writing.
- 4.4 If, a Works Submittal that has been assigned a “REVIEWED AS NOTED – MAJOR ISSUES” comment,
- (a) Project Co shall carry out the correction and re-submittal process set out in Section 4.3 until the Works Submittal has been assigned a “NO COMMENT” or a “REVIEWED AS NOTED – MINOR ISSUES”; and
 - (b) Project Co shall not implement any Works Submittal that has been assigned a “REVIEWED AS NOTED – MAJOR ISSUES” comment until Project Co has corrected such Works Submittal in accordance with this Section 4.
- 4.5 If, at any time, it is discovered that Project Co is advancing or has implemented a Works Submittal that has been assigned a “REVIEWED AS NOTED – MAJOR ISSUES” comment and that has not been corrected by Project Co in accordance with Section 4, then,
- (a) this circumstance shall be a Proceeding at Risk Matter in accordance with Section 11.6(a)(ii) (*Proceeding at Risk*) of the Project Agreement; and
 - (b) Project Co shall be solely responsible for modifying and correcting the associated Works, including any parts of the Ontario Line Subway or New Third Party Infrastructure, to ensure that the Works comply with the Project Agreement.
- 4.6 If, at any time after assigning a comment to a Works Submittal, Contracting Authority or Project Co discovers any deficiencies or any failure to conform to the requirements of the Project Agreement, the Contracting Authority Representative may revise the comment assigned to any Works Submittal. If the Parties agree or if it is determined in accordance with Section 5 that the revised comment is correct, Project Co shall make all such corrections to the Works Submittals and the Project Operations in accordance with this Section 4.
- 4.7 For the purpose of facilitating and expediting the review and correction of Works Submittals, the Contracting Authority Representative and the Project Co Representative shall meet as may be mutually agreed to discuss and review any outstanding Works Submittals and any comments thereon.
- 4.8 If a Works Submittal is voluminous, the Contracting Authority Representative at his or her discretion may elect to issue the appropriate comment only to the cover page or first sheet of the Works Submittal, if any, and return to Project Co the cover page or first page together with

individual pages or sheets on which comments are made, together with an explanation of the status of all pages not returned to Project Co. Any pages returned without such an explanation as to their status shall be deemed to be “NO COMMENT” by Contracting Authority.

- 4.9 In lieu of returning a Works Submittal, the Contracting Authority Representative may, by letter, notify Project Co of the comment assigned to the Works Submittal and if such comment is a “REVIEWED AS NOTED – MINOR ISSUES” or a “REVIEWED AS NOTED – MAJOR ISSUES”, the letter shall contain comments in sufficient detail for Project Co to identify the correction sought.
- 4.10 Project Co shall perform the Works in accordance with Works Submittals that have been reviewed by Contracting Authority in accordance with this Schedule 10, provided that Project Co has corrected all deficiencies and non-conformances contained in such Works Submittals prior to implementation.
- 4.11 For clarity, no extension of time will be given or additional compensation paid with respect to any of the processes set out in this Section 4.

5. DISPUTES

- 5.1 If Project Co disputes any act of Contracting Authority or the Contracting Authority Representative in respect of a Works Submittal under Part A of this Schedule 10, Project Co shall promptly notify the Contracting Authority Representative, the CDB and the Independent Certifier of the details of such Dispute and shall submit the reasons why Project Co believes a different comment should be assigned, together with appropriate supporting documentation. The Contracting Authority Representative shall review the Works Submittal, the reasons and supporting documentation and within five (5) Business Days after receipt thereof shall either confirm the original comment or notify Project Co of a revised comment. If the Contracting Authority Representative confirms the original comment, Project Co may refer the matter for determination in accordance with Schedule 27 – Dispute Resolution Procedure.
- 5.2 Notwithstanding the provisions of Section 5.1, the Contracting Authority Representative may direct that Project Co revise the Works Submittals in accordance with the comments of the Contracting Authority Representative and proceed to perform and complete the Works on the basis of such revised Works Submittals. For clarity, Project Co may refer such direction for resolution as a Dispute in accordance with Schedule 27 – Dispute Resolution Procedure.

6. EFFECT OF REVIEW

- 6.1 Any review and comment by Contracting Authority or the Contracting Authority Representative of any Works Submittals are for general conformity to the obligations and requirements of the Project Agreement, and any such review and comment shall not relieve Project Co of the risk and responsibility for the Project Operations and for meeting all of Project Co’s obligations under and requirements of the Project Agreement, and shall not create any new or additional obligations or liabilities for Contracting Authority. Without limiting the generality of the foregoing any and all errors or omissions in Works Submittals or of any review and comment shall not exclude or limit Project Co’s obligations or liabilities in respect of the Works under the Project Agreement or

exclude or limit Contracting Authority's rights in respect of the Works under the Project Agreement.

7. WORKS SUBMITTAL EXPLANATION

7.1 At any time, the Contracting Authority Representative may, acting reasonably, require Project Co or any Project Co Parties, including Project Co's consultants and any other relevant personnel, at no additional cost to Contracting Authority, to explain to the Contracting Authority Representative and Contracting Authority's advisors the intent of Project Co's Works Submittals, including in relation to any design and any associated documentation and as to its satisfaction of the Output Specifications or any other Schedule to the Project Agreement, as applicable. Project Co shall provide the explanation to the Contracting Authority Representative within five (5) Business Days (or such longer period as the Parties may agree) from the date of receipt of the request from the Contracting Authority Representative.

8. REVISIONS

8.1 Project Co shall ensure that Works Submittals keep the same, unique reference number throughout the review process, and that subsequent revisions of the same Works Submittal are identified by a sequential revision number. Correspondence related to such Works Submittal shall reference the reference number and revision number.

8.2 Re-submittals shall clearly show all revisions from the previous Works Submittal. For printed copies, bound documents, including reports and manuals, shall contain a preface that clearly states how revisions are marked and the previous revision number against which the revisions have been marked. Project Co shall use a consistent format for mark-ups of documents (for example, deletions struck out and additions underscored). Project Co shall clearly mark revised portions of drawings (with appropriate means to visually distinguish between the parts of the drawing that are revised and the parts that are not revised) and shall include the revision number and description of the revision on the drawing.

8.3 Re-submittals shall include all required revised documents, all documents submitted in the previous Works Submittal that do not require revisions and all responses to comments provided by Contracting Authority associated with the Works Submittal.

8.4 Project Co shall ensure that all revisions on print media be initialled by hand by the individual designer, design checker and, where applicable, by the drafter and the drafting checker and identify the persons who initialled the Works Submittal. Electronic versions of the Works Submittal shall identify the persons who initialled the revisions to the printed version of the Works Submittal. All such revisions must be able to be integrated into the Record Drawings.

8.5 Project Co shall keep all Design Data current, including a current set of the most recently issued submittal documents available on Site in the construction trailer for use by Contracting Authority and the Contracting Authority Representative. If any Design Data is revised as part of a Works Submittal, all other Design Data relying on or based on that Design Data shall also be revised accordingly. All such revised Design Data shall also be submitted with the Works Submittal to which it relates.

8.6 Works Submittals that are replacements in kind shall keep the original submittal number with the next sequential revision number.

9. AUDIT OF WORKS SUBMITTAL IMPLEMENTATION

9.1 Without limiting any other right under the Project Agreement, the Contracting Authority Representative shall have the right to audit all Works Submittals, including comparing all Works Submittals to previous Works Submittals.

9.2 If during an audit or at any other time it is discovered by Contracting Authority or Project Co (or resolved pursuant to Section 9.3) that any Works Submittals were not correctly implemented, Project Co shall at its sole cost immediately take all necessary steps to correct and modify the applicable Works Submittals and the Project Operations to which they relate and shall advise the Contracting Authority Representative of all such corrections and modifications.

9.3 Any Dispute concerning the implementation of a Works Submittal, subject to Section 5.1, shall be referred for resolution in accordance with Schedule 27 – Dispute Resolution Procedure.

10. VARIATIONS

10.1 No alteration or modification to the design, quality and quantity of the Project Operations arising from the development of detailed design or from the co-ordination of the design in connection with any Works Submittal shall be construed or regarded as a Variation.

10.2 If, having received comments from the Contracting Authority Representative on any Works Submittal, Project Co considers that compliance with those comments would amount to a Variation, Project Co shall, within fifteen (15) Business Days following receipt of and before complying with the comments, provide written Notice to Contracting Authority of the same and, if it is agreed by the Parties that a Variation would arise if the comments were complied with, Contracting Authority may, at their election,

- (a) issue a Variation Enquiry (and it shall be dealt with in accordance with Schedule 22 – Variation Procedure); or
- (b) amend their comment on the Works Submittal.

If the Parties do not agree that a Variation would arise if the comments were complied with, either Party may proceed to resolve the matter in accordance with Section 5.2, including for clarity, the exercise by Contracting Authority of its rights under Section 5.2. Subject to the foregoing sentence, any failure by Project Co to notify Contracting Authority in accordance with this Section 10.2 that Project Co considers that compliance with any comments of the Contracting Authority Representative would amount to a Variation shall constitute an irrevocable acceptance by Project Co that any compliance with the Contracting Authority Representative's comments shall be without cost to Contracting Authority and without any extension of time.

11. **INTEGRATION WORKS SUBMITTAL REVIEW PROCEDURE**

- 11.1 The following additional provisions shall apply to the Works Submittals of Project Co designated in Appendix A to this Schedule 10, which Contracting Authority intends to provide to a Civil Contractor to be reviewed for integration purposes (“**Integration Works Submittals**”, and each an “**Integration Works Submittal**”), including any further Works Submittals referred to in or arising from, all items and documents set out in, and any subsequent revisions, amendments and changes to such Integration Works Submittals.
- 11.2 Each Integration Works Submittal shall:
- (a) reference any provisions set out in Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable, which Project Co considers relevant to Contracting Authority’s review of such Integration Works Submittal;
 - (b) set out any amendments to be made to the Output Specifications if such Integration Works Submittal is finalized as submitted and assigned a “NO COMMENT” by Contracting Authority in accordance with Section 11.8, without limiting the amendments that will be deemed to be made pursuant to Section 11.8; and
 - (c) specify the requirements which Project Co will incorporate into the Requirements Management database, pursuant to Section 11.14 if such Integration Works Submittal is finalized as submitted and assigned a “NO COMMENT” by Contracting Authority.
- 11.3 Each Integration Works Submittal shall be clearly identified as an Integration Works Submittal and shall be delivered with appropriate covering documentation, submitted in both soft copy and hard copy. All Integration Works Submittals shall be separated accordingly and submitted individually, to the extent possible.
- 11.4 Project Co acknowledges and agrees that Contracting Authority may provide Integration Works Submittals in confidence to a Civil Contractor for review and take any comments made by a Civil Contractor into account in determining Contracting Authority’s response to such Integration Works Submittals.
- 11.5 Each Integration Works Submittal shall be submitted no later than the date specified for such Integration Works Submittal in the Baseline Works Schedule or deemed to be included in the Baseline Works Schedule, pursuant to the ICDs and other Integration Works Submittals, after a “NO COMMENT” has been assigned by Contracting Authority.
- 11.6 Nothing in this Section 11 limits the obligations of Project Co to participate in Design Review Meetings under Section 20.5 (*Design Review Meetings*) of the Project Agreement or to participate in the Design Integration Working Group and the Construction Integration Working Group under the South Civil Interface Agreement or the North Civil Interface Agreement, as applicable, prior to the commencement and until the completion of the review of each Integration Works Submittal, for the purpose of facilitating and expediting the review of such Integration Works Submittal by Contracting Authority and by Civil Contractors.

- 11.7 Project Co shall continue to submit each Integration Works Submittal for review by Contracting Authority until a “NO COMMENT” has been assigned to such Integration Works Submittal by Contracting Authority or it is determined, pursuant to the Dispute Resolution Procedure, that a “NO COMMENT” should have been assigned to the applicable Integration Works Submittal.
- 11.8 The then current requirements of Schedule 12 – Works Schedule Requirements, the Output Specifications and any other applicable requirements of the Project Agreement (as they may have been previously amended or changed pursuant to the Project Agreement, including the provisions of this Section 11 or Schedule 22 – Variation Procedure) shall be deemed to be amended consistent with each Integration Works Submittal to which a “NO COMMENT” has been assigned, without cost to Contracting Authority and without any extension of time. Each such Integration Works Submittal shall be deemed to form part of the Output Specifications and, in the event of any ambiguity, conflict or inconsistency between the provisions of any such Integration Works Submittal and the Output Specifications, the provisions of such Integration Works Submittal shall govern to the extent of such ambiguity, conflict or inconsistency.
- 11.9 Section 11.8 shall not apply (and Contracting Authority shall not be bound by its provisions) to the extent that any Integration Works Submittal to which a “NO COMMENT” has been assigned was not in conformity with, or was outside the scope of, the requirements of Schedule 12 – Works Schedule Requirements, the Output Specifications or any other applicable requirements of the Project Agreement as of the date the applicable Integration Works Submittal was submitted.
- 11.10 Project Co may dispute any failure of Contracting Authority to assign a “NO COMMENT” to an Integration Works Submittal pursuant to Section 5.1 of this Part A of this Schedule 10 on the basis that such Integration Works Submittal satisfies the applicable requirements of Schedule 42 – South Civil Infrastructure Access and Handover or Schedule 43 – North Civil Infrastructure Access and Handover, as applicable.
- 11.11 If Project Co disputes any failure of Contracting Authority to assign a “NO COMMENT” to an Integration Works Submittal pursuant to Section 5.1 of this Part A of this Schedule 10, the Contracting Authority Representative shall have five (5) Business Days in addition to the period set out in Section 5.1 to review the Integration Works Submittal, the reasons and supporting documentation provided by Project Co, and Contracting Authority may, in its sole discretion, request a Civil Contractor to participate in any such review. Within a total of ten (10) Business Days after receipt of such Project Co dispute, Contracting Authority shall either assign a “NO COMMENT” or continue to withhold the assignment of a “NO COMMENT”. If the Contracting Authority Representative continues to withhold the assignment of a “NO COMMENT”, Project Co may refer the failure of Contracting Authority to assign a “NO COMMENT” to such Integration Works Submittal for determination pursuant to Section 5.1, provided that any such Dispute may be designated as an Integration Dispute and decided in accordance with the Integration Dispute Resolution Procedure, including where such Dispute arises from a comment made by a Civil Contractor.
- 11.12 Any Dispute pursuant to Section 5.2 of this Part A of this Schedule 10 with respect to an Integration Works Submittal may be designated as an Integration Dispute and decided in accordance with the Integration Dispute Resolution Procedure, including where the Dispute arises from a comment made by a Civil Contractor.

- 11.13 Without limiting any other rights of Contracting Authority under Schedule 22 – Variation Procedure, Contracting Authority may at any time, in its sole discretion, initiate a Variation and require Project Co to execute a Variation Confirmation, or issue a Variation Directive, confirming the manner in which the requirements of Schedule 12 – Works Schedule Requirements, the Output Specifications and any other applicable requirements of the Project Agreement are deemed to have been amended pursuant to Section 11.8, without cost to Contracting Authority and without any extension of time.
- 11.14 For any Integration Works Submittal to which a “NO COMMENT” has been assigned which has been deemed to amend the then current requirements of Schedule 12 – Works Schedule Requirements, the Output Specifications or any other applicable requirements of the Project Agreement (as they may have been previously amended or changed pursuant to the Project Agreement) pursuant to Section 11.8, Project Co shall promptly incorporate into the Requirements Management database any requirements specified in such Integration Works Submittal in accordance with Section 11.2(c), including details with respect to the manner in which the requirements of the Project Agreement have been deemed to be amended.
- 11.15 In addition to Integration Works Submittals, Contracting Authority may provide other Works Submittals to a Civil Contractor to be reviewed for integration purposes, including the following Items in Appendix A to this Schedule 10:
- (a) S-133, S-137, S-138, S-139, S-147, S-148, S-149, S-150, S-166, S-253, S-198, S-201 and S-207.
- 11.16 Contracting Authority may take into account any comments received from a Civil Contractor in determining Contracting Authority’s response to any Works Submittals.
- 11.17 Without limitation, Contracting Authority may assign a “REVIEWED AS NOTED – MAJOR ISSUES” to any Works Submittal which will have a material adverse impact on South Civil Project Infrastructure or North Civil Project Infrastructure, as applicable, or the successful integration of the Ontario Line Subway System.
12. **GENERAL**
- 12.1 Any capitalized terms used in the appendices to this Schedule 10, that are not defined in this Schedule 10 or in Schedule 1 – Definitions and Interpretation, shall have the meanings given to them in the Output Specifications or Schedule 17 – Environmental Obligations.

PART B – OPERATIONAL TERM – PROJECT CO SERVICES

1. SERVICE SUBMITTALS

- 1.1 The provisions of Part B of this Schedule 10 shall apply to any and all items, documents and anything else required or specified by the Project Agreement (other than the Design Development Submittals, the Construction Document Submittals and the Design Data) to be submitted to, reviewed or otherwise processed by Contracting Authority in accordance with the Review Procedure in respect of the Project, after Substantial Completion, except in respect of the completion of Minor Deficiencies, including any and all subsequent revisions, amendments and changes thereto (collectively and individually, “**Service Submittal**” or “**Service Submittals**” as applicable in Part B of this Schedule 10). For greater certainty and without limiting the generality of any of the foregoing, Service Submittals includes any and all of the items, documents and anything else required or specified by Appendix B to this Schedule 10.
- 1.2 For clarity, the provisions of Part B of this Schedule 10, including any deadlines for submission or review set out herein, shall not apply to any processing or review of any Permit, Licence, Approval, or Agreement.
- 1.3 Project Co shall allow a period of fifteen (15) Business Days (or such longer period as the Parties may agree) from the date of receipt by Contracting Authority for the review of and response to each Service Submittal by Contracting Authority, except that the Business Days during the period beginning on December 23 in a year and ending on January 1 in the following year are not to be included in the computation of time for the review of and response to any Service Submittal by Contracting Authority.
- 1.4 For each Service Submittal that includes an interface with the operations of the TTC or Metrolinx, Project Co shall allow for the period of time set out in Section 1.3, plus an additional five (5) Business Days (or such longer period as may be agreed between Contracting Authority and Project Co) for Contracting Authority’s review of and response (in concert with the other parties) to each Service Submittal.
- 1.5 Project Co shall, in scheduling Service Submittals and in the performance of the Project Operations, allow adequate time prior to performing the Project Operations that are the subject of the Service Submittals, for review of the Service Submittals and for Project Co to make changes to Service Submittals that may be required if comments are received on the Service Submittals, such review and required changes to be in accordance with Part B of this Schedule 10.

2. GENERAL REQUIREMENTS FOR SERVICE SUBMITTALS

- 2.1 Unless otherwise specified by the Contracting Authority Representative, Project Co shall issue three (3) printed copies of all Service Submittals to Contracting Authority, together with an electronic copy in a format agreed by the Parties acting reasonably.
- 2.2 Project Co shall utilize the Review Procedure Activities Register provided in accordance with the requirements of Section 3.2 of Part A of this Schedule 10, to track the status of each Service Submittal through every stage of preparation, submission, review by Contracting Authority, and

approval by the applicable third party. The Review Procedure Activities Register shall be maintained in respect of Service Submittals at all times during the Operational Term and shall:

- (a) be maintained up-to-date by Project Co and be accessible by Contracting Authority, each applicable third party, any other entity as requested by Contracting Authority and Project Co in real time, through a web-based interface, unless otherwise permitted by Contracting Authority;
- (b) include identification of the following:
 - (i) the submittal date and contents of all Service Submittals;
 - (ii) the date of receipt and content of all returned Service Submittals;
 - (iii) the status of comments on all Service Submittals in accordance with Section 3.1;
 - (iv) log numbers or tracking ID's (in a format determined by Contracting Authority) supporting the requirements of Section 2.7; and
 - (v) other items as requested by Contracting Authority.

2.3 All Service Submittals shall be in English.

2.4 All Service Submittals required by the Project Agreement or by Applicable Law to be signed or sealed by persons with professional designations (including, where applicable, by registered Professional Engineers or Architects) shall, where applicable, be so signed and sealed.

2.5 All Service Submittals shall:

- (a) include copies of all documents to be reviewed; and
- (b) shall clearly identify the purpose of the Service Submittal, Project Co's proposed course of action relating to the Service Submittal and the Project Operations that are the subject of the Service Submittal.

2.6 All Service Submittals shall, where applicable, refer to the relevant provisions of the Output Specifications and/or any other applicable Schedule to the Project Agreement.

2.7 All Service Submittals shall be clearly identified as a Service Submittal and shall be delivered with appropriate covering documentation, which shall include a list of all attached Service Submittals, and for each Service Submittal:

- (a) the document number(s) or drawing number(s);
- (b) revision numbers;
- (c) document or drawing title(s);

- (d) name of entity that prepared the Service Submittal;
 - (e) name and signature of the Operations Director, Maintenance Director and/or other Key Individual(s) responsible for content of the Service Submittal;
 - (f) the Service Submittal history showing date and delivery information and/or log number of all previous submissions of that Service Submittal; and
 - (g) identification of any previous Service Submittal superseded by the current Service Submittal.
- 2.8 All Service Submittals shall be organized and shall have indexes and sectional dividers. The Service Submittals shall contain pertinent correspondence, shall be arranged by subject matter in chronological order, and shall include the final calculations, reports and backup information. Submissions shall include, without limitation, copies of all final approvals by the applicable third party, design reports, correspondence and calculations.
- 2.9 If a Proposal Part corresponds to a Service Submittal, then Project Co shall ensure that its initial submission of such Service Submittal in accordance with this Schedule 10 is substantially the same content and level of detail as the corresponding Proposal Part. For clarity, this requirement shall not,
- (a) lessen, reduce or otherwise modify or amend Contracting Authority’s rights under the Project Agreement to review each Service Submittal in accordance with this Schedule 10; or
 - (b) constitute acceptance or comment by Contracting Authority of any Proposal Part or any Service Submittal in accordance with Schedule 10 – Review Procedure.
3. **COMMENTS**
- 3.1 The Contracting Authority Representative shall respond to each Service Submittal within the time periods set out in Sections 1.3 or 1.4, as applicable, by assigning one of the following comments and returning each Service Submittal to Project Co:
- (a) “NO COMMENT”;
 - (b) “REVIEWED AS NOTED – MINOR ISSUES”; or
 - (c) “REVIEWED AS NOTED – MAJOR ISSUES”.
- 3.2 The Contracting Authority Representative shall assign a comment to each Service Submittal in accordance with the following rules:
- (a) The Contracting Authority Representative shall assign a “NO COMMENT” to each Service Submittal in which Contracting Authority has not identified any deficiencies or non-conformances during the course of its review of the Service Submittals.

- (b) The Contracting Authority Representative shall assign a “REVIEWED AS NOTED – MINOR ISSUES” to each Service Submittal that, in the opinion of Contracting Authority, considering the totality of the Service Submittals, generally conforms to the requirements of the Project Agreement but contains one or more insignificant deficiencies or insignificant non-conformances. Contracting Authority shall provide reasons for the comment, with reference to the applicable Section(s) of the Project Agreement.
 - (c) The Contracting Authority Representative shall assign a “REVIEWED AS NOTED – MAJOR ISSUES” to each Service Submittal that, in the opinion of Contracting Authority, considering the totality of the Service Submittals, does not generally conform to the requirements of the Project Agreement but contains one or more significant deficiencies or significant non-conformances. Contracting Authority shall provide reasons for the comment, with reference to the applicable Section(s) of the Project Agreement.
- 3.3 Following receipt of a “REVIEWED AS NOTED – MINOR ISSUES” or a “REVIEWED AS NOTED – MAJOR ISSUES” for a Service Submittal, Project Co shall correct the Service Submittals to ensure that the Service Submittals conforms to the requirements of the Project Agreement prior to implementing the Service Submittals. If the Contracting Authority Representative assigns to a Service Submittal the additional comment “RE-SUBMIT”, Project Co shall correct and re-submit such Service Submittal to the Contracting Authority Representative,
- (a) no later than ten (10) Business Days after the comment has been provided to Project Co; or
 - (b) within such longer time period as determined by the Contracting Authority Representative, acting reasonably and as set out in writing.
- 3.4 If, a Service Submittal that has been assigned a “REVIEWED AS NOTED – MAJOR ISSUES” comment,
- (a) Project Co shall carry out the correction and re-submittal process set out in Section 3.3 until the Service Submittals has been assigned a “NO COMMENT” or a “REVIEWED AS NOTED – MINOR ISSUES”; and
 - (b) Project Co shall not implement any Service Submittal that has been assigned a “REVIEWED AS NOTED – MAJOR ISSUES” comment until Project Co has corrected such Service Submittal in accordance with this Section 3.
- 3.5 If, at any time, it is discovered that Project Co has implemented a Service Submittal that has been assigned a “REVIEWED AS NOTED – MAJOR ISSUES” comment and that has not been corrected by Project Co in accordance with Section 3, then Project Co shall be solely responsible for modifying and correcting the associated Project Co Services to ensure that the Project Co Services comply with the Project Agreement.
- 3.6 If, at any time after assigning a comment to a Service Submittal, Contracting Authority or Project Co discovers any deficiencies or any failure to conform to the requirements of the Project Agreement, the Contracting Authority Representative may revise the comment assigned to any Service Submittal. If the Parties agree or if it is determined in accordance with Section 4 that the

revised comment is correct, Project Co shall make all such corrections to the Service Submittals and the Project Co Services in accordance with this Section 3.

- 3.7 For the purpose of facilitating and expediting the review and correction of Service Submittals, the Contracting Authority Representative and the Project Co Representative shall meet as may be mutually agreed to discuss and review any outstanding Service Submittals and any comments thereon.
- 3.8 If a Service Submittal is voluminous, the Contracting Authority Representative at his or her discretion may elect to issue the appropriate comment only to the cover page or first sheet of the Service Submittal, if any, and return to Project Co the cover page or first page together with individual pages or sheets on which comments are made, together with an explanation of the status of all pages not returned to Project Co. Any pages returned without such an explanation as to their status shall be deemed to be “NO COMMENT” by Contracting Authority.
- 3.9 In lieu of returning a Service Submittal, the Contracting Authority Representative may, by letter, notify Project Co of the comment assigned to the Service Submittal and if such comment is a “REVIEWED AS NOTED – MINOR ISSUES” or a “REVIEWED AS NOTED – MAJOR ISSUES”, the letter shall contain comments in sufficient detail for Project Co to identify the correction sought.
- 3.10 Project Co shall perform the Project Co Services in accordance with Service Submittals that have been reviewed by Contracting Authority in accordance with this Schedule 10, provided that Project Co has corrected all deficiencies and non-conformances contained in such Service Submittals prior to implementation.
- 3.11 For clarity, no extension of time will be given or additional compensation paid with respect to any of the processes set out in this Section 3.
- 3.12 In addition to the above, a Service Submittal with a “REVIEWED AS NOTED – MAJOR ISSUES” comment shall be escalated to the System Management Committee.

4. DISPUTES

- 4.1 If Project Co disputes any act of Contracting Authority or the Contracting Authority Representative in respect of a Service Submittal under Part B of this Schedule 10, Project Co shall promptly notify the Contracting Authority Representative of the details of such Dispute and shall submit the reasons why Project Co believes a different comment should be assigned, together with appropriate supporting documentation. The Contracting Authority Representative shall review the Service Submittal, the reasons and supporting documentation and within five (5) Business Days after receipt thereof shall either confirm the original comment or notify Project Co of a revised comment.
- 4.2 If after such review by the Contracting Authority Representative Project Co disputes the comment on a Service Submittal, subject to Section 9.1 Project Co may refer the matter for determination in accordance with Schedule 27 – Dispute Resolution Procedure.

5. EFFECT OF REVIEW

- 5.1 Any review and comment by Contracting Authority or the Contracting Authority Representative of any Service Submittals are for general conformity to the obligations and requirements of the Project Agreement, and any such review and comment shall not relieve Project Co of the risk and responsibility for the Project Operations and for meeting all of its obligations under and requirements of the Project Agreement, and shall not create any new or additional obligations or liabilities for Contracting Authority. Without limiting the generality of the foregoing any and all errors or omissions in Service Submittals or of any review and comment shall not exclude or limit Project Co's obligations or liabilities under the Project Agreement in respect of matters related to the Service Submittal or exclude or limit Contracting Authority's rights under the Project Agreement in respect of matters related to the Service Submittal.

6. SERVICE SUBMITTAL EXPLANATION

- 6.1 At any time, the Contracting Authority Representative may, acting reasonably, require Project Co or any Project Co Parties at no additional cost to Contracting Authority, to explain to the Contracting Authority Representative and Contracting Authority's advisors the intent of Project Co's Service Submittals, including as to its satisfaction of the Output Specifications and its impact on the Project Operations.

7. REVISIONS

- 7.1 Project Co shall ensure that Service Submittals keep the same, unique reference number throughout the review process, and that subsequent revisions of the same Service Submittal are identified by a sequential revision number. Correspondence related to such Service Submittal shall reference the reference number and revision number.
- 7.2 Re-submittals shall clearly show all revisions from the previous Service Submittal. For printed copies, bound documents, including reports and manuals, shall contain a preface that clearly states how revisions are marked and the previous revision number against which the revisions have been marked. Project Co shall use a consistent format for mark-ups of documents (e.g. deletions struck out and additions underscored). Project Co shall clearly mark revised portions of drawings (with appropriate means to visually distinguish between the parts of the drawing that are revised and the parts that are not revised) and shall include the revision number and description of the revision on the drawing.
- 7.3 Re-submittals shall include all required revised documents, all documents submitted in the previous Service Submittal that do not require revisions and all responses to comments provided by Contracting Authority associated with the Service Submittal.
- 7.4 Project Co shall ensure that all revisions on print media be initialled by hand by the individual designer, design checker and, where applicable, by the drafter and the drafting checker and shall identify the persons who initialled the Service Submittal. Electronic versions of the Service Submittal shall identify the persons who initialled the revisions to the printed version of the Service Submittal.

8. AUDIT BY THE CONTRACTING AUTHORITY REPRESENTATIVE

- 8.1 Without limiting any other right under the Project Agreement, the Contracting Authority Representative shall have the right to audit all Service Submittals, including comparing all Service Submittals to previous Service Submittals.
- 8.2 If during an audit or at any other time it is discovered by Contracting Authority or Project Co that any Service Submittals were not correctly implemented, Project Co shall at its sole cost immediately take all necessary steps to correct and modify the applicable Service Submittals and the Project Operations to which they relate and shall advise the Contracting Authority Representative of all such corrections and modifications.

9. VARIATIONS

- 9.1 If, having received comments from the Contracting Authority Representative on any Service Submittal, Project Co considers that compliance with those comments would amount to a Variation, Project Co shall, within ten (10) Business Days of receipt of and before complying with the comments, provide written Notice to Contracting Authority of the same and, if it is agreed by the Parties, or is determined pursuant to Schedule 27 – Dispute Resolution Procedure, that a Variation would arise if the comments were complied with, Contracting Authority may at its election, either issue a Variation Enquiry and it shall be dealt with in accordance with Schedule 22 – Variation Procedure or amend their comment on the Service Submittal. Any failure by Project Co to notify Contracting Authority in accordance with this Section 9.1 that Project Co considers compliance with any comments of the Contracting Authority Representative would amount to a Variation shall constitute an irrevocable acceptance by Project Co that any compliance with the Contracting Authority Representative’s comments shall be without cost to Contracting Authority and without any extension of time.

10. GENERAL

- 10.1 Any capitalized terms used in the appendices to this Schedule 10 – Review Procedure, that are not defined in this Schedule 10 – Review Procedure or in Schedule 1 – Definitions and Interpretation, shall have the meanings given to them in the Output Specifications.

**PART C – REVIEW OF SOUTH CIVIL INFRASTRUCTURE DESIGN AND CONSTRUCTION
DATA**

1. SOUTH CIVIL INFRASTRUCTURE WORKS SUBMITTALS

1.1 The review procedure set out in this Part C of this Schedule 10 (“**South Civil Infrastructure Works Submittal Review Procedure**”) shall apply to the review by Project Co of the items and documents set out in Appendix E to this Schedule 10 to be prepared by South Civil Project Co and provided to Project Co by Contracting Authority and includes any and all subsequent revisions, amendments and changes thereto (“**South Civil Infrastructure Works Submittals**”) for the purpose of providing comments to Contracting Authority on the conformity between such South Civil Infrastructure Works Submittals and the requirements for the applicable South Civil Infrastructure Section to be Built to Specification and Design in accordance with Schedule 42 – South Civil Infrastructure Access and Handover.

2. SCHEDULE FOR SOUTH CIVIL INFRASTRUCTURE WORKS SUBMITTALS

2.1 Contracting Authority shall provide each South Civil Infrastructure Works Submittal not later than the applicable date set out in Appendix E of this Schedule 10, and Project Co shall include all such dates in the Baseline Works Schedule.

2.2 The Baseline Works Schedule shall allow a period of twenty (20) Business Days from the date of receipt by Project Co for Project Co’s review of and response to each South Civil Infrastructure Works Submittal.

2.3 Contracting Authority may, at any time and in its sole discretion, extend the time for Project Co to review any South Civil Infrastructure Works Submittal, and Project Co shall complete its review within such time. For clarity, Project Co shall not be entitled to any claims for additional costs or delay in respect of an extension of time for review of any South Civil Infrastructure Works Submittals pursuant to this Section 2.3.

3. GENERAL REQUIREMENTS FOR SOUTH CIVIL INFRASTRUCTURE WORKS SUBMITTALS

3.1 Unless otherwise specified by the Contracting Authority Representative, Contracting Authority shall provide the following to Project Co in respect of each South Civil Infrastructure Works Submittal.

3.2 All South Civil Infrastructure Works Submittals shall be in English.

3.3 All South Civil Infrastructure Works Submittals shall:

- (a) include copies of all documents to be reviewed by Project Co that are received by Contracting Authority from South Civil Project Co; and
- (b) clearly identify the South Civil Infrastructure Works Submittal that is the subject of the review.

4. COMMENTS

- 4.1 The Project Co Representative shall respond to each South Civil Infrastructure Works Submittal within the time period set out in Section 2 by assigning one of the following comments and returning such South Civil Infrastructure Works Submittal to Contracting Authority:
- (a) “NO COMMENT”; or
 - (b) “REVIEWED AS NOTED”.
- 4.2 The Project Co Representative shall assign a comment to each South Civil Infrastructure Works Submittal in accordance with the following rules:
- (a) The Project Co Representative shall assign a “NO COMMENT” to each South Civil Infrastructure Works Submittal in which Project Co has not identified any deficiency or non-conformance which, in the opinion of Project Co, would result in the applicable South Civil Infrastructure Section not being Built to Specification and Design if such South Civil Infrastructure Section is built in accordance with such South Civil Infrastructure Works Submittal (“**SC BSD Non-Conformance**”).
 - (b) The Project Co Representative shall assign a “REVIEWED AS NOTED” to each South Civil Infrastructure Works Submittal that, in the opinion of Project Co, contains one or more SC BSD Non-Conformances. Project Co shall:
 - (i) provide reasons for the comment, including the changes that would be required in such South Civil Infrastructure Works Submittal to remove such SC BSD Non-Conformances, with specific reference to the applicable requirements of Schedule 42 – South Civil Infrastructure Access and Handover of the Project Agreement, including the applicable South Civil Infrastructure Technical Specifications, Access Ready Checklist and Critical South Civil Infrastructure Data; and
 - (ii) set out any changes which Project Co considers necessary to the applicable South Civil Infrastructure Technical Specifications, Access Ready Checklist or Critical South Civil Infrastructure Data in the event that changes are not made to such South Civil Infrastructure Works Submittal.
- 4.3 Project Co acknowledges and agrees that Contracting Authority may provide any comments received from Project Co to South Civil Project Co for review and take any comments made by South Civil Project Co into account in determining Contracting Authority’s response to Project Co.
- 4.4 Following receipt of a “REVIEWED AS NOTED” for a South Civil Infrastructure Works Submittal, Contracting Authority may re-submit such South Civil Infrastructure Works Submittal to the Project Co Representative with revisions, amendments or changes thereto,
- (a) no later than thirty (30) Business Days after the comment was provided to Contracting Authority; or

- (b) within such longer time period as the Contracting Authority Representative may determine, acting reasonably, and set out by Notice in writing.
- 4.5 Contracting Authority may continue the re-submittal process set out in Section 4.4 for any South Civil Infrastructure Works Submittal, in Contracting Authority’s sole discretion, and Project Co shall continue to respond to each such re-submittal in accordance with Sections 4.1 and 4.2.
- 4.6 Nothing in this South Civil Infrastructure Works Submittal Review Procedure limits the obligations of Project Co to participate in the Construction Integration Working Group and the Design Integration Working Group, as required by the South Civil Interface Agreement, prior to the commencement and until the completion of the South Civil Infrastructure Works Submittal Review Procedure for each South Civil Infrastructure Works Submittal, for the purpose of facilitating and expediting the review of South Civil Infrastructure Works Submittals. The Contracting Authority Representative and the Project Co Representative shall also meet, as may be mutually agreed, to discuss and review any outstanding South Civil Infrastructure Works Submittals and any comments thereon.
- 4.7 If a South Civil Infrastructure Works Submittal is voluminous, the Project Co Representative may, with the consent of the Contracting Authority Representative, issue the appropriate comment only to the cover page or first sheet of the South Civil Infrastructure Works Submittal, if any, and return to Contracting Authority the cover page or first page together with individual pages or sheets on which comments are made. Any pages returned without comments shall be deemed to be a “NO COMMENT” by Project Co.
- 4.8 In lieu of returning a South Civil Infrastructure Works Submittal, the Project Co Representative may, by letter, notify Contracting Authority of the comment assigned to the South Civil Infrastructure Works Submittal and if such comment is a “REVIEWED AS NOTED, the letter shall contain comments in sufficient detail for Contracting Authority to identify the information required pursuant to Section 4.2.
- 4.9 For clarity, no extension of time will be given or additional compensation paid with respect to any of the processes set out in this Section 4.
- 4.10 If the Project Co Representative fails to respond to a South Civil Infrastructure Works Submittal in accordance with this South Civil Infrastructure Works Submittal Review Procedure within the time period set out in Section 2, such South Civil Infrastructure Works Submittal shall be deemed to be assigned a “NO COMMENT”. Such deemed assignment of a “NO COMMENT” to a South Civil Infrastructure Works Submittal shall be final and not subject to the Dispute Resolution Procedure.
- 5. DISPUTES**
- 5.1 Contracting Authority, in its sole discretion, may refuse to accept any “REVIEWED AS NOTED” comment assigned by the Project Co Representative in respect of any South Civil Infrastructure Works Submittal and give written Notice to Project Co that such South Civil Infrastructure Works Submittal is deemed to be assigned a “NO COMMENT”.
- 5.2 Within ten (10) Business Days after receipt of such Notice from Contracting Authority, Project Co may refer the matter for determination in accordance with Schedule 27 – Dispute Resolution

Procedure, provided that any such Dispute may be designated as an Integration Dispute and decided in accordance with the Integration Dispute Resolution Procedure.

- 5.3 Any failure by Project Co to Dispute deemed assignment of a “NO COMMENT” to a South Civil Infrastructure Works Submittal shall constitute an irrevocable acceptance by Project Co that such South Civil Infrastructure Works Submittal contains no SC BSD Non-Conformances and that compliance with such South Civil Infrastructure Works Submittal shall be without cost to Contracting Authority and without any extension of time.

6. EFFECT OF REVIEW OF SOUTH CIVIL INFRASTRUCTURE WORKS SUBMITTALS

- 6.1 For South Civil Infrastructure Works Submittal Items set out in Table E-1 of Appendix E to this Schedule 10, upon completion of this South Civil Infrastructure Works Submittal Review Procedure for a South Civil Infrastructure Works Submittal, the assignment or deemed assignment of a “NO COMMENT” for such South Civil Infrastructure Works Submittal by the Project Co Representative or pursuant to a Dispute under Section 5 shall constitute an irrevocable acceptance by Project Co that:

- (a) the applicable South Civil Infrastructure Technical Specifications, Access Ready Checklist or Critical South Civil Infrastructure Data shall be deemed to be amended consistent with such South Civil Infrastructure Works Submittal, without cost to Contracting Authority and without any extension of time;
- (b) such South Civil Infrastructure Works Submittal shall be deemed to form part of the South Civil Infrastructure Technical Specifications, Access Ready Checklist and Critical South Civil Infrastructure Data and, in the event of any ambiguity, conflict or inconsistency between the provisions of any such South Civil Infrastructure Works Submittal and the South Civil Infrastructure Technical Specifications, Access Ready Checklist and Critical South Civil Infrastructure Data, the provisions of such South Civil Infrastructure Works Submittal shall govern to the extent of such ambiguity, conflict or inconsistency;
- (c) such amended South Civil Infrastructure Technical Specifications, Access Ready Checklist and Critical South Civil Infrastructure Data shall apply for the purposes of any Dispute by Project Co under Schedule 42 – South Civil Infrastructure Access and Handover, including any Dispute as to whether the applicable South Civil Infrastructure Section is Built to Specification and Design, and Project Co shall not be entitled to claim in any such Dispute that such South Civil Infrastructure Works Submittal contained SC BSD Non-Conformances; and
- (d) Project Co shall be required to perform the Works on the basis that the definition of Built to Specification and Design has been amended, and the South Civil Infrastructure Technical Specifications, Access Ready Checklist and Critical South Civil Infrastructure Data have been modified, in accordance with such South Civil Infrastructure Works Submittal.

- 6.2 Section 6.1 shall not apply (and the Parties shall not be bound by its provisions) to the extent that any South Civil Infrastructure Works Submittal was not in conformity with or was outside the scope of the requirements of the South Civil Infrastructure Technical Specifications, Access

Ready Checklist or Critical South Civil Infrastructure Data, as of date the applicable South Civil Infrastructure Works Submittal was submitted.

- 6.3 For South Civil Infrastructure Works Submittal Items set out in Table E-2 of Appendix E to this Schedule 10 only:
- (a) Sections 4.2, 5.3, 6.1 and 8.2 of this South Civil Infrastructure Works Submittal Review Procedure shall not apply.
 - (b) Without limiting any other rights or obligations of Project Co under the Project Agreement, including Schedule 42 – South Civil Infrastructure Access and Handover, Project Co shall review such South Civil Infrastructure Works Submittals for the purposes of identifying the following for Contracting Authority’s consideration:
 - (i) any conflicts or inconsistencies between such South Civil Infrastructure Works Submittal and,
 - (A) any South Civil Infrastructure Works Submittal Item set out in Table E-1 of Appendix E to this Schedule 10; or
 - (B) any other South Civil Infrastructure Works Submittal Item set out in Table E-2 of Appendix E to this Schedule 10,to which a “NO COMMENT” has been assigned or deemed to be assigned; and
 - (ii) any material adverse impacts which the implementation of such South Civil Infrastructure Works Submittal could have on:
 - (A) Project Co Infrastructure, New Third Party Infrastructure or Project Co Services;
 - (B) the successful integration of the Ontario Line Subway System; or
 - (C) the ability of Project Co to perform the Works or Project Co Services.
 - (c) The Project Co Representative shall assign a comment to such South Civil Infrastructure Works Submittals in accordance with the following rules:
 - (i) the Project Co Representative shall assign a “NO COMMENT” to each South Civil Infrastructure Works Submittal in which Project Co has not identified any concerns pursuant to Section 6.3(b) of this South Civil Infrastructure Works Submittal Review Procedure; and
 - (ii) the Project Co Representative shall assign a “REVIEWED AS NOTED” to each South Civil Infrastructure Works Submittal in which Project Co has identified any concerns pursuant to Section 6.3(b) of this South Civil Infrastructure Works Submittal Review Procedure and shall:

- (A) provide reasons for the comment;
- (B) include any changes that would be required in such South Civil Infrastructure Works Submittal to address the concerns that Project Co has identified pursuant to Section 6.3(b) of this South Civil Infrastructure Works Submittal Review Procedure, with specific reference to any applicable requirements of Schedule 42 – South Civil Infrastructure Access and Handover, including the applicable South Civil Infrastructure Technical Specifications, Access Ready Checklist and Critical South Civil Infrastructure Data; and
- (C) set out any changes which Project Co considers necessary to the applicable South Civil Infrastructure Technical Specifications, Access Ready Checklist or Critical South Civil Infrastructure Data in the event that changes are not made to such South Civil Infrastructure Works Submittal.

7. ADDITIONAL INFORMATION

- 7.1 At any time, the Project Co Representative may request Contracting Authority to provide further information as to the intent of a South Civil Infrastructure Works Submittal, including in relation to any requirements of Schedule 42 – South Civil Infrastructure Access and Handover, as applicable. Contracting Authority may provide such explanation to the Project Co’s Representative (directly or in concert with South Civil Project Co) in Contracting Authority’s sole discretion.
- 7.2 At any time, the Contracting Authority Representative may, acting reasonably, require Project Co or any Project Co Parties, including Project Co’s consultants and any other relevant personnel, at no additional cost to Contracting Authority, to explain to the Contracting Authority Representative and Contracting Authority’s advisors the intent of Project Co’s comments on South Civil Infrastructure Works Submittals, including in relation to any requirements of Schedule 42 – South Civil Infrastructure Access and Handover, as applicable. Within five (5) Business Days (or such longer period as the Parties may agree) from the date of receipt of such request from the Contracting Authority Representative, Project Co shall provide such explanation to the Contracting Authority Representative (which may be shared with South Civil Project Co, in Contracting Authority’s sole discretion).

8. VARIATIONS

- 8.1 Project Co shall not be entitled to any Variation in connection with South Civil Infrastructure Works Submittals to which Project Co or the Project Co Representative has assigned or is deemed to have assigned a “NO COMMENT” and no alteration or modification to the design, quality and quantity of the Project Operations arising from the development of detailed design or from the co-ordination of the design in connection with any such South Civil Infrastructure Works Submittal shall be construed or regarded as a Variation.
- 8.2 To the extent that it is determined pursuant to a Dispute under Section 5 that any South Civil Infrastructure Works Submittal contains a SC BSD Non-Conformance, Project Co shall be entitled to a Variation subject to and in accordance with Schedule 22 – Variation Procedure

unless Contracting Authority withdraws such South Civil Infrastructure Works Submittal, in its sole discretion.

- 8.3 Without limiting any other rights of Contracting Authority under Schedule 22 – Variation Procedure, Contracting Authority may at any time, in its sole discretion, initiate a Variation and require Project Co to execute a Variation Confirmation, or issue a Variation Directive, confirming the manner in which the requirements of the applicable South Civil Infrastructure Technical Specifications, Access Ready Checklist or Critical South Civil Infrastructure Data are deemed to have been amended pursuant to Section 6.1, without cost to Contracting Authority and without any extension of time.

9. **GENERAL**

- 9.1 Except as expressly set out herein, nothing in this Part C of this Schedule 10 shall modify any of the obligations or rights of the Parties under the Project Agreement.

**PART D – REVIEW OF NORTH CIVIL INFRASTRUCTURE DESIGN AND CONSTRUCTION
DATA**

1. NORTH CIVIL INFRASTRUCTURE WORKS SUBMITTALS

1.1 The review procedure set out in this Part D of this Schedule 10 (“**North Civil Infrastructure Works Submittal Review Procedure**”) shall apply to the review by Project Co of the items and documents set out in Appendix F to this Schedule 10 to be prepared by North Civil Project Co and provided to Project Co by Contracting Authority and includes any and all subsequent revisions, amendments and changes thereto (“**North Civil Infrastructure Works Submittals**”) for the purpose of providing comments to Contracting Authority on the conformity between such North Civil Infrastructure Works Submittals and the requirements for the applicable North Civil Infrastructure Section to be Built to Specification and Design in accordance with Schedule 43 – North Civil Infrastructure Access and Handover.

2. SCHEDULE FOR NORTH CIVIL INFRASTRUCTURE WORKS SUBMITTALS

2.1 Contracting Authority shall provide each North Civil Infrastructure Works Submittal not later than the applicable date set out in Appendix F of this Schedule 10, and Project Co shall include all such dates in the Baseline Works Schedule.

2.2 The Baseline Works Schedule shall allow a period of twenty (20) Business Days from the date of receipt by Project Co for Project Co’s review of and response to each North Civil Infrastructure Works Submittal.

2.3 Contracting Authority may, at any time and in its sole discretion, extend the time for Project Co to review any North Civil Infrastructure Works Submittal, and Project Co shall complete its review within such time. For clarity, Project Co shall not be entitled to any claims for additional costs or delay in respect of an extension of time for review of any North Civil Infrastructure Works Submittals pursuant to this Section 2.3.

3. GENERAL REQUIREMENTS FOR NORTH CIVIL INFRASTRUCTURE WORKS SUBMITTALS

3.1 Unless otherwise specified by the Contracting Authority Representative, Contracting Authority shall provide the following to Project Co in respect of each North Civil Infrastructure Works Submittal.

3.2 All North Civil Infrastructure Works Submittals shall be in English.

3.3 All North Civil Infrastructure Works Submittals shall:

- (a) include copies of all documents to be reviewed by Project Co that are received by Contracting Authority from North Civil Project Co; and
- (b) clearly identify the North Civil Infrastructure Works Submittal that is the subject of the review.

4. COMMENTS

- 4.1 The Project Co Representative shall respond to each North Civil Infrastructure Works Submittal within the time period set out in Section 2 by assigning one of the following comments and returning such North Civil Infrastructure Works Submittal to Contracting Authority:
- (a) “NO COMMENT”; or
 - (b) “REVIEWED AS NOTED”.
- 4.2 The Project Co Representative shall assign a comment to each North Civil Infrastructure Works Submittal in accordance with the following rules:
- (a) The Project Co Representative shall assign a “NO COMMENT” to each North Civil Infrastructure Works Submittal in which Project Co has not identified any deficiency or non-conformance which, in the opinion of Project Co, would result in the applicable North Civil Infrastructure Section not being Built to Specification and Design if such North Civil Infrastructure Section is built in accordance with such North Civil Infrastructure Works Submittal (“**NC BSD Non-Conformance**”).
 - (b) The Project Co Representative shall assign a “REVIEWED AS NOTED” to each North Civil Infrastructure Works Submittal that, in the opinion of Project Co, contains one or more NC BSD Non-Conformances. Project Co shall:
 - (i) provide reasons for the comment, including the changes that would be required in such North Civil Infrastructure Works Submittal to remove such NC BSD Non-Conformances, with specific reference to the applicable requirements of Schedule 43 – North Civil Infrastructure Access and Handover of the Project Agreement, including the applicable North Civil Infrastructure Technical Specifications, Access Ready Checklist and Critical North Civil Infrastructure Data; and
 - (ii) set out any changes which Project Co considers necessary to the applicable North Civil Infrastructure Technical Specifications, Access Ready Checklist or Critical North Civil Infrastructure Data in the event that changes are not made to such North Civil Infrastructure Works Submittal.
- 4.3 Project Co acknowledges and agrees that Contracting Authority may provide any comments received from Project Co to North Civil Project Co for review and take any comments made by North Civil Project Co into account in determining Contracting Authority’s response to Project Co.
- 4.4 Following receipt of a “REVIEWED AS NOTED” for a North Civil Infrastructure Works Submittal, Contracting Authority may re-submit such North Civil Infrastructure Works Submittal to the Project Co Representative with revisions, amendments or changes thereto,
- (a) no later than thirty (30) Business Days after the comment was provided to Contracting Authority; or

- (b) within such longer time period as the Contracting Authority Representative may determine, acting reasonably, and set out by Notice in writing.
- 4.5 Contracting Authority may continue the re-submittal process set out in Section 4.4 for any North Civil Infrastructure Works Submittal, in Contracting Authority’s sole discretion, and Project Co shall continue to respond to each such re-submittal in accordance with Sections 4.1 and 4.2.
- 4.6 Nothing in this North Civil Infrastructure Works Submittal Review Procedure limits the obligations of Project Co to participate in the Construction Integration Working Group and the Design Integration Working Group, as required by the North Civil Interface Agreement, prior to the commencement and until the completion of the North Civil Infrastructure Works Submittal Review Procedure for each North Civil Infrastructure Works Submittal, for the purpose of facilitating and expediting the review of North Civil Infrastructure Works Submittals. The Contracting Authority Representative and the Project Co Representative shall also meet, as may be mutually agreed, to discuss and review any outstanding North Civil Infrastructure Works Submittals and any comments thereon.
- 4.7 If a North Civil Infrastructure Works Submittal is voluminous, the Project Co Representative may, with the consent of the Contracting Authority Representative, issue the appropriate comment only to the cover page or first sheet of the North Civil Infrastructure Works Submittal, if any, and return to Contracting Authority the cover page or first page together with individual pages or sheets on which comments are made. Any pages returned without comments shall be deemed to be a “NO COMMENT” by Project Co.
- 4.8 In lieu of returning a North Civil Infrastructure Works Submittal, the Project Co Representative may, by letter, notify Contracting Authority of the comment assigned to the North Civil Infrastructure Works Submittal and if such comment is a “REVIEWED AS NOTED, the letter shall contain comments in sufficient detail for Contracting Authority to identify the information required pursuant to Section 4.2.
- 4.9 For clarity, no extension of time will be given or additional compensation paid with respect to any of the processes set out in this Section 4.
- 4.10 If the Project Co Representative fails to respond to a North Civil Infrastructure Works Submittal in accordance with this North Civil Infrastructure Works Submittal Review Procedure within the time period set out in Section 2, such North Civil Infrastructure Works Submittal shall be deemed to be assigned a “NO COMMENT”. Such deemed assignment of a “NO COMMENT” to a North Civil Infrastructure Works Submittal shall be final and not subject to the Dispute Resolution Procedure.
- 5. DISPUTES**
- 5.1 Contracting Authority, in its sole discretion, may refuse to accept any “REVIEWED AS NOTED” comment assigned by the Project Co Representative in respect of any North Civil Infrastructure Works Submittal and give written Notice to Project Co that such North Civil Infrastructure Works Submittal is deemed to be assigned a “NO COMMENT”.
- 5.2 Within ten (10) Business Days after receipt of such Notice from Contracting Authority, Project Co may refer the matter for determination in accordance with Schedule 27 – Dispute Resolution

Procedure, provided that any such Dispute may be designated as an Integration Dispute and decided in accordance with the Integration Dispute Resolution Procedure.

- 5.3 Any failure by Project Co to Dispute deemed assignment of a “NO COMMENT” to a North Civil Infrastructure Works Submittal shall constitute an irrevocable acceptance by Project Co that such North Civil Infrastructure Works Submittal contains no NC BSD Non-Conformances and that compliance with such North Civil Infrastructure Works Submittal shall be without cost to Contracting Authority and without any extension of time.

6. EFFECT OF REVIEW OF NORTH CIVIL INFRASTRUCTURE WORKS SUBMITTALS

- 6.1 For North Civil Infrastructure Works Submittal Items set out in Table F-1 of Appendix F to this Schedule 10, upon completion of this North Civil Infrastructure Works Submittal Review Procedure for a North Civil Infrastructure Works Submittal, the assignment or deemed assignment of a “NO COMMENT” for such North Civil Infrastructure Works Submittal by the Project Co Representative or pursuant to a Dispute under Section 5 shall constitute an irrevocable acceptance by Project Co that:

- (a) the applicable North Civil Infrastructure Technical Specifications, Access Ready Checklist or Critical North Civil Infrastructure Data shall be deemed to be amended consistent with such North Civil Infrastructure Works Submittal, without cost to Contracting Authority and without any extension of time;
- (b) such North Civil Infrastructure Works Submittal shall be deemed to form part of the North Civil Infrastructure Technical Specifications, Access Ready Checklist and Critical North Civil Infrastructure Data and, in the event of any ambiguity, conflict or inconsistency between the provisions of any such North Civil Infrastructure Works Submittal and the North Civil Infrastructure Technical Specifications, Access Ready Checklist and Critical North Civil Infrastructure Data, the provisions of such North Civil Infrastructure Works Submittal shall govern to the extent of such ambiguity, conflict or inconsistency;
- (c) such amended North Civil Infrastructure Technical Specifications, Access Ready Checklist and Critical North Civil Infrastructure Data shall apply for the purposes of any Dispute by Project Co under Schedule 43 – North Civil Infrastructure Access and Handover, including any Dispute as to whether the applicable North Civil Infrastructure Section is Built to Specification and Design, and Project Co shall not be entitled to claim in any such Dispute that such North Civil Infrastructure Works Submittal contained NC BSD Non-Conformances; and
- (d) Project Co shall be required to perform the Works on the basis that the definition of Built to Specification and Design has been amended, and the North Civil Infrastructure Technical Specifications, Access Ready Checklist and Critical North Civil Infrastructure Data have been modified, in accordance with such North Civil Infrastructure Works Submittal.

- 6.2 Section 6.1 shall not apply (and the Parties shall not be bound by its provisions) to the extent that any North Civil Infrastructure Works Submittal was not in conformity with or was outside the scope of the requirements of the North Civil Infrastructure Technical Specifications, Access Ready

Checklist or Critical North Civil Infrastructure Data, as of date the applicable North Civil Infrastructure Works Submittal was submitted.

- 6.3 For North Civil Infrastructure Works Submittal Items set out in Table F-2 of Appendix F to this Schedule 10 only:
- (a) Sections 4.2, 5.3, 6.1 and 8.2 of this North Civil Infrastructure Works Submittal Review Procedure shall not apply.
 - (b) Without limiting any other rights or obligations of Project Co under the Project Agreement, including Schedule 43 – North Civil Infrastructure Access and Handover, Project Co shall review such North Civil Infrastructure Works Submittals for the purposes of identifying the following for Contracting Authority’s consideration:
 - (i) any conflicts or inconsistencies between such North Civil Infrastructure Works Submittal and,
 - (C) any North Civil Infrastructure Works Submittal Item set out in Table F-1 of Appendix F to this Schedule 10; or
 - (D) any other North Civil Infrastructure Works Submittal Item set out in Table F-2 of Appendix F to this Schedule 10,to which a “NO COMMENT” has been assigned or deemed to be assigned; and
 - (ii) any material adverse impacts which the implementation of such North Civil Infrastructure Works Submittal could have on:
 - (D) Project Co Infrastructure, New Third Party Infrastructure or Project Co Services;
 - (E) the successful integration of the Ontario Line Subway System; or
 - (F) the ability of Project Co to perform the Works or Project Co Services.
 - (c) The Project Co Representative shall assign a comment to such North Civil Infrastructure Works Submittals in accordance with the following rules:
 - (i) the Project Co Representative shall assign a “NO COMMENT” to each North Civil Infrastructure Works Submittal in which Project Co has not identified any concerns pursuant to Section 6.3(b) of this North Civil Infrastructure Works Submittal Review Procedure; and
 - (ii) the Project Co Representative shall assign a “REVIEWED AS NOTED” to each North Civil Infrastructure Works Submittal in which Project Co has identified any concerns pursuant to Section 6.3(b) of this North Civil Infrastructure Works Submittal Review Procedure and shall:

- (D) provide reasons for the comment;
- (E) include any changes that would be required in such North Civil Infrastructure Works Submittal to address the concerns that Project Co has identified pursuant to Section 6.3(b) of this North Civil Infrastructure Works Submittal Review Procedure, with specific reference to any applicable requirements of Schedule 43 – North Civil Infrastructure Access and Handover, including the applicable North Civil Infrastructure Technical Specifications, Access Ready Checklist and Critical North Civil Infrastructure Data; and
- (F) set out any changes which Project Co considers necessary to the applicable North Civil Infrastructure Technical Specifications, Access Ready Checklist or Critical North Civil Infrastructure Data in the event that changes are not made to such North Civil Infrastructure Works Submittal.

7. ADDITIONAL INFORMATION

- 7.1 At any time, the Project Co Representative may request Contracting Authority to provide further information as to the intent of a North Civil Infrastructure Works Submittal, including in relation to any requirements of Schedule 43 – North Civil Infrastructure Access and Handover, as applicable. Contracting Authority may provide such explanation to the Project Co’s Representative (directly or in concert with North Civil Project Co) in Contracting Authority’s sole discretion.
- 7.2 At any time, the Contracting Authority Representative may, acting reasonably, require Project Co or any Project Co Parties, including Project Co’s consultants and any other relevant personnel, at no additional cost to Contracting Authority, to explain to the Contracting Authority Representative and Contracting Authority’s advisors the intent of Project Co’s comments on North Civil Infrastructure Works Submittals, including in relation to any requirements of Schedule 43 – North Civil Infrastructure Access and Handover, as applicable. Within five (5) Business Days (or such longer period as the Parties may agree) from the date of receipt of such request from the Contracting Authority Representative, Project Co shall provide such explanation to the Contracting Authority Representative (which may be shared with North Civil Project Co, in Contracting Authority’s sole discretion).

8. VARIATIONS

- 8.1 Project Co shall not be entitled to any Variation in connection with North Civil Infrastructure Works Submittals to which Project Co or the Project Co Representative has assigned or is deemed to have assigned a “NO COMMENT” and no alteration or modification to the design, quality and quantity of the Project Operations arising from the development of detailed design or from the co-ordination of the design in connection with any such North Civil Infrastructure Works Submittal shall be construed or regarded as a Variation.
- 8.2 To the extent that it is determined pursuant to a Dispute under Section 5 that any North Civil Infrastructure Works Submittal contains a BSD NC Non-Conformance, Project Co shall be entitled to a Variation subject to and in accordance with Schedule 22 – Variation Procedure unless

Contracting Authority withdraws such North Civil Infrastructure Works Submittal, in its sole discretion.

- 8.3 Without limiting any other rights of Contracting Authority under Schedule 22 – Variation Procedure, Contracting Authority may at any time, in its sole discretion, initiate a Variation and require Project Co to execute a Variation Confirmation, or issue a Variation Directive, confirming the manner in which the requirements of the applicable North Civil Infrastructure Technical Specifications, Access Ready Checklist or Critical North Civil Infrastructure Data are deemed to have been amended pursuant to Section 6.1, without cost to Contracting Authority and without any extension of time.

9. **GENERAL**

- 9.1 Except as expressly set out herein, nothing in this Part D of this Schedule 10 shall modify any of the obligations or rights of the Parties under the Project Agreement.

APPENDIX A TO SCHEDULE 10

MINIMUM WORKS SUBMITTALS

1. FORMAT FOR WORKS SUBMITTALS

1.1 The following is a breakdown of the contents of each Works Submittal as well as the format for each. Project Co shall submit each Works Submittal in accordance with the following:

- (a) three sets of all Works Submittals shall be submitted in hard copy, and included in 3-hole ring binders;
- (b) large format drawings (ANSI D size) shall be provided separately (bound) in reduced format (11” x 17”), and included in a 3-hole ring binders. Unless otherwise noted below under the heading “Format”, all drawings shall be provided in half size format. All other Works Submittals that are not drawings shall be submitted in 8.5” x 11” black and white format, unless otherwise specifically noted below;
- (c) all Works Submittals shall be uploaded to Contracting Authority’s Common Data Environment (CDE);
- (d) all Works Submittals shall be forwarded to Contracting Authority at the same time that the Submittals are uploaded to Contracting Authority’s Common Data Environment (CDE); and
- (e) All Works Submittals shall be provided in accordance with Appendix W – Exchange Information Requirements (EIR) of the Output Specifications.

1.2 All Works Submittals shall also be provided in the format and Works Submittals breakdown set out in Section 2 of this Appendix A.

2. SUBMITTALS

2.1 The following is a detailed list of the minimum Works Submittals that Project Co is required to provide to Contracting Authority for review and comment in accordance with this Schedule 10. Each Works Submittals shall be delivered with appropriate covering documentation in the format set out in Section 3.7 of Part A of this Schedule 10.

Prefix:

A – Advance Works Submittal

I/S – Works Submittal

- 2.2 Additional Works Submittals may be requested by the Contracting Authority Representative at any time in order to understand the Works, and Project Co shall be required to provide same to Contracting Authority for review in accordance with this Schedule 10. A description of the minimum content of each Works Submittal provided is set out in this Section 2 of this Appendix A.
- 2.3 Works Submittal deliverables that are applicable to satisfying the requirements of multiple Works Submittal items are permitted to be re-used in other Works Submittals, provided that such re-used deliverables meet all the requirements of each Works Submittal item they are applied to.

DESIGN CERTIFICATE (GENERAL)

In respect of: **[Provide
submittal details]**

Project Agreement between Contracting Authority and Project Co dated XX, XXXX (“the Project Agreement”) relating to the Project. Defined terms and expressions used in the Project Agreement have the same meanings in this Certificate.

Form of Certificate to be used by the Design Team for certifying the design of the Works in accordance with [the Output Specifications].

1. We certify that we have the requisite professional qualifications, skill and experience to prepare the Design Data referred to herein in accordance with the requirements of the Project Agreement and all relevant Output Specifications.
2. We certify that we have prepared the Design Data for [.....] listed in the Schedule hereto in accordance with all applicable requirements contained in the **[Design Quality Management Plan]** and utilizing the standards of care, skill and diligence that, in accordance with the standards of our profession, are required of experienced professionals undertaking the preparation of such Design Data, and that in our professional opinion such Design Data:
 - (a) complies with all applicable Output Specifications, as amended by the following:
 - (i) **[List, if any, the changes made by the issue of Variation(s)]**;
 - (b) complies with all applicable design requirements of the Project Agreement;
 - (c) complies with all applicable standards, codes and current Good Industry Practice;
and
 - (d) accurately describes and depicts the Works to be undertaken.

DESIGN CERTIFICATE (ENVIRONMENTAL)

Project Agreement between Contracting Authority and Project Co dated XX XX, XXXX (“the Project Agreement”) relating to the Project. Defined terms and expressions used in the Project Agreement have the same meanings in this Certificate.

Form of certificate to be used by the Design Team and the Environmental Director for certifying the design of environmental works incorporated in the Works in accordance with the Project Agreement.

1. We certify that we have the requisite professional qualifications, skill and experience to prepare the Design Data referred to herein in accordance with the requirements of the Project Agreement and all relevant Output Specifications.
2. We certify that we have prepared the Design Data for [.....] [**Name and list of all elements of the environmental works**] in the Schedule hereto in accordance with all applicable requirements contained in the [**Design Quality Management Plan**] and utilizing the standards of care, skill and diligence that, in accordance with the standards of our profession, are required of experienced professionals undertaking the preparation of such Design Data, and that in our professional opinion:
 - (a) the said Design Data complies with all applicable Output Specifications, as amended by the following:
 - (i) [**List, if any, the changes made by the issue of Variation(s)**];
 - (b) the said Design Data complies with all applicable design requirements of the Project Agreement;
 - (c) the said Design Data complies with all applicable standards, codes and current Good Industry Practice; and

the said Design Data accurately describes and depicts the Works to be undertaken.

ATTACHMENT 2 TO APPENDIX A
SAMPLE CONSTRUCTION CERTIFICATE

Certificate Ref No. []

CONSTRUCTION CERTIFICATE

Project Agreement between Contracting Authority and Project Co dated XX XX, XXXX (“the Project Agreement”) relating to the Project. Defined terms and expressions used in the Project Agreement have the same meanings in this Certificate.

Form of Certificate to be used by the Design Team for certifying, as applicable:

- (a) **[Intentionally deleted];**
- (b) the Substantial Completion of Construction Activities in respect of those components of the Works set out in paragraph 1 of this Construction Certificate;
- (c) the total completion of Construction Activities in respect of the Works, including Minor Deficiencies; or
- (d) the total completion of Construction Activities in respect of any Reinstatement Work carried out by the Construction Contractor pursuant to Section 30.1 (*Protection of Works and Property and Reinstatement Work*) of the Project Agreement, in accordance with a Reinstatement Plan.

in accordance with **[the Output Specifications]**.

Construction Contractor’s Statement

We certify that **[name and element of the Works in respect of the Substantial Completion Certificate][the Works in respect of the Final Completion Certificate][the Works in respect of the Final Completion Certificate (Reinstatement Work)]** has been designed, constructed, **[substantially completed]**, **[totally completed]**, commissioned and tested in all respects in accordance with: *[Note: Inapplicable language to be deleted.]*

- (a) the relevant Design Data and Design Certificates in each case to which there has been no objection under the Review Procedure; and
- (b) the provisions of the Project Agreement, including all applicable Output Specifications, as amended by the following Variation(s):
 - (i) **[List, if any, the changes made by the issue of Variation(s)];**

APPENDIX B TO SCHEDULE 10

MINIMUM SERVICE SUBMITTAL REQUIREMENTS

1. FORMAT FOR SERVICE SUBMITTALS

The following is a breakdown of the contents of each Service Submittal as well as the format for each.

- 1.1 All Service Submittals are to be submitted to Contracting Authority in hard copy and electronic format in accordance with the following requirements:
- (a) all hard copy Service Submittals in reduced format drawings (11” x 17”, foldouts folded to 8.5” x 11”) and included in a 3-hole ring binder;
 - (b) all hard copy Service Submittals in large format drawings (A0 or A1 size) shall be bound for Record Drawings and shall be provided separately;
 - (c) all hard copy Service Submittals which are not drawings shall be submitted in 8.5” x 11” black and white format, unless otherwise specifically noted in this Appendix B (or as requested by Contracting Authority, acting reasonably);
 - (d) submit Service Submittals in electronic format as text searchable portable document format (pdf) and in their native format;
 - (e) all Service Submittals provided in CAD format shall be in accordance with Metrolinx CADD/BIM Standards Manual; and
 - (f) all Service Submittals shall be uploaded to Contracting Authority’s Web Based Project Management System in portable document format (pdf) and in their native format at the same time the Submittals are forwarded to Contracting Authority.

2. SUBMITTALS

- 2.1 The following is a detailed, non-exhaustive list of Service Submittals that Project Co is required to provide to Contracting Authority for review and comment in accordance with this Schedule 10. Additional Service Submittals may be requested by the Contracting Authority Representative at any time in order to understand the Project Co Services, and Project Co shall be required to provide same to Contracting Authority for review in accordance with this Schedule 10. A description of the minimum content of each Service Submittal provided is set forth in Section 2 of this Appendix B.
- 2.2 Service Submittal deliverables which are applicable to satisfying the requirements of multiple Service Submittal sections are permitted to be reused, provided that they meet all the requirements of each Service Submittal section they are applied to.

- 2.3 Unless otherwise specified in the table below, or an alternate date is mutually agreed with Contracting Authority and confirmed in writing by Contracting Authority in advance, the following definitions apply in the table below:
- (a) “**Annually in advance**” means:
 - (i) submit at least ninety (90) calendar days prior to the commencement of Commissioning; and
 - (ii) re-submitted at least sixty (60) calendar days prior to the commencement of each Contract Year;
 - (b) “**Annually in retrospect**” means submitted within thirty (30) calendar days of the final day of each Contract Year;
 - (c) “**Monthly**” means submitted within seven (7) calendar days of the end of each month; and
 - (d) “**Quarterly**” means submitted within thirty (30) calendar days of the final day of each consecutive period of three months, starting from Substantial Completion.

[REDACTED]

APPENDIX C TO SCHEDULE 10

CITY OF TORONTO WORKS SUBMITTALS

1. DEFINITIONS

1.1 Unless the context indicates a contrary intention, terms which are defined in the Project Agreement and not otherwise defined in this Schedule 10 shall have the meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) “**City of Toronto Design Management Plan**” has the meaning given in Section 3.2 of this Appendix C.

2. OVERVIEW

2.1 The purpose of Appendix C is to facilitate the City of Toronto review of technical submittals related to the Works listed in Section 3.1, or as defined by this Appendix C. Appendix C captures design review submittal requirements for the Works in regards to Site Plan Review, Works that impact City of Toronto infrastructure, or New City Infrastructure. The focus of this technical review is to ensure submittal compliance.

2.2 Where there is a conflict between this Appendix C and Appendix A with respect to City of Toronto review of Project Co submittals related to items listed in Section 3.1, this Appendix C shall take precedence.

3. COT DESIGN MANAGEMENT PLAN

3.1 The requirements of this Appendix C shall apply to all Design Development Submittals and Construction Document Submittals related to Works that:

- (a) are subject to Site Plan Review as set out in Attachment 1; or
- (b) impact City of Toronto infrastructure or that are New City Infrastructure, which includes but are not limited to, Works identified in Attachment 2.

3.2 Project Co shall prepare and submit an appendix to the Design Management Plan for all areas listed in Section 3.1 (the “**City of Toronto Design Management Plan**”) to Contracting Authority and the City of Toronto for review (concurrent with the review of the Design Management Plan), in accordance with the Review Procedure.

3.3 The City of Toronto Design Management Plan shall supplement the information provided in the Design Management Plan with the following:

- (a) identification of all components of the Works to which the requirements of the City of Toronto Design Management Plan will extend, in accordance with Section 3.1 of this Appendix C;

- (b) identification of the Design Development Submittals and Construction Document Submittals to which COT Design Management Plan will extend, specific to Works in accordance with Section 3.1 and the City of Toronto design submittal requirements presented in this Appendix C;
 - (c) a design review and audit schedule, consistent with the Design Quality Management Plan and the Project Works Schedule, indicating dates that Project Co plans to undertake Technical Review Meetings with City of Toronto and Contracting Authority, in accordance with Sections 7 and 8 of this Appendix C; and
 - (d) a drawing tree indicating the organization and hierarchy of all drawings to which City of Toronto Design Management Plan applies.
- 3.4 Project Co shall submit any subsequent amendments or updates to the City of Toronto Design Management Plan to Contracting Authority and City of Toronto in accordance with the Review Procedure and this Appendix C.
- 3.5 Project Co shall implement and comply with the City of Toronto Design Management Plan and any subsequent amendments or updates to the initial City of Toronto Design Management Plan made following review by Contracting Authority and COT in accordance with the Review Procedure, including but not limited to requirements per the Output Specifications, and any other requirements within the items listed in Section 3.1.
- 4. DESIGN DEVELOPMENT SUBMITTALS**
- 4.1 Project Co shall ensure that Design Development Submittals for items listed in Section 3.1 are submitted in accordance with the City of Toronto Design Management Plan and the requirements of the Review Procedure, and are:
- (a) corrected as required in response to the comments provided by Contracting Authority and City of Toronto for any previous submittals, as required in order to comply with the time periods for such corrections described in Schedule 10 – Review Procedure.
- 4.2 Project Co shall ensure that all Design Development Submittals for the items listed in Section 3.1 are submitted in accordance with the City of Toronto design submittal requirements presented in this Appendix C, as appropriate.
- 5. CONSTRUCTION DOCUMENT SUBMITTALS**
- 5.1 Project Co shall ensure that Construction Document Submittals for items listed in Section 3.1 are submitted in accordance with the City of Toronto Design Management Plan and the requirements of the Review Procedure, and are:
- (a) corrected as required in response to the comments provided by Contracting Authority and COT for any previous submittals, as required in order to comply with the time periods for such corrections described in Schedule 10 – Review Procedure.

5.2 Project Co shall ensure that all Construction Document Submittals for the items listed in Section 3.1 are submitted in accordance with the City of Toronto design submittal requirements presented in this Appendix C, as appropriate.

6. FORMAT FOR CITY OF TORONTO WORKS SUBMITTALS

6.1 The following is a breakdown of the contents of each City of Toronto submittal (individually, “**COT Submittal**” or collectively “**COT Submittals**”) as well as the format for each.

6.2 All COT Submittals are to be submitted to Contracting Authority in hard copy and electronic format in accordance with the following requirements:

- (a) all hard copy COT Submittals in reduced format drawings (11” x 17”, foldouts folded to 8.5” x 11”) and included in a 3-hole ring binder;
- (b) all hard copy COT Submittals in large format drawings (A0 or A1 size) shall be bound for Record Drawings and shall be provided separately;
- (c) all hard copy COT Submittals which are not drawings shall be submitted in 8.5” x 11” black and white format, unless otherwise specifically noted in this Appendix C (or as requested by Contracting Authority, acting reasonably);
- (d) submit COT Submittals in electronic format as text searchable portable document format (pdf) and in their native format;
- (e) all COT Submittals provided in CAD format shall be in accordance with Metrolinx CADD/BIM Standards Manual; and
- (f) all COT Submittals shall be uploaded to Contracting Authority’s Web Based Project Management System in portable document format (pdf) and in their native format at the same time the Submittals are forwarded to Contracting Authority.

7. CITY OF TORONTO REVIEW PROCESS

7.1 Project Co shall include all engineering disciplines in one package, as applicable, for submissions of documents listed in Section 3.1 for City of Toronto technical review. Submission requirements are indicated at their earliest submittal and may also be required at subsequent submittals.

7.2 For COT Submittals in accordance with Attachment 1, Site Plan Review, such submittals would be made following Project Co submitting a ‘place holder’ site plan review application to begin the site plan review process for Project Co Infrastructure in accordance with Appendix B to Schedule 34 – Permits, Licences, Approvals and Agreements.

7.3 For COT Submittals in accordance with Attachment 2, COT Submittals would be made such that the COT technical review can be completed in advance of the scheduled timing of any associated applications for Permits, Licences, Approvals and Agreements.

- 7.4 Upon completion of the City of Toronto technical review, comments will be provided to Contracting Authority for response by Project Co. Project Co shall carry out the correction and re-submit process set out in Section 4.3 of Part A of this Schedule 10 until the Works Submittal has been assigned a “NO COMMENT” or a “REVIEWED AS NOTED – MINOR ISSUES”.
- 7.5 Following assignment of a “NO COMMENT” or a “REVIEWED AS NOTED – MINOR ISSUES” by Contracting Authority on items related to Attachment 1, Site Plan Review, Project Co shall proceed through the subsequent steps of the Site Plan Review process as identified in Item No. 1 in Appendix B to Schedule 34 – Permits, Licences, Approvals and Agreements.
- 7.6 Following assignment of a “NO COMMENT” or a “REVIEWED AS NOTED – MINOR ISSUES” by Contracting Authority on items related to Works that impact City of Toronto infrastructure, for items identified in Attachment 2, Project Co shall proceed with the relevant Permits, Licences, Approvals and Agreements requirements as identified in Schedule 34 – Permits, Licences, Approvals and Agreements.
- 7.7 Assignment of “NO COMMENT” for a submittal by the City of Toronto does not exempt Project Co from compliance with applicable codes and standards, local by-laws, and other governing regulations. City of Toronto will not accept any responsibility for the accuracy and adequacy of the design, which will remain the sole responsibility of Project Co.
- 7.8 The content or result of any City of Toronto technical review does not absolve Project Co of its responsibility to obtain all related Permits, Licences, Approvals and Agreements required to implement the Works.
- 8. CITY OF TORONTO TECHNICAL MEETINGS**
- 8.1 Project Co shall prepare for and present at City of Toronto Technical Meetings with Contracting Authority and City of Toronto during the development of the Design Development Submittals and Construction Document Submittals, for the purposes of observing compliance with applicable requirements.
- 8.2 The City of Toronto Technical Meetings shall, at a minimum, occur at the following:
- (a) one City of Toronto Technical Meeting prior to submission of the Design Development Submittals applicable to the Works listed in Section 3.1;
 - (b) one City of Toronto Technical Meeting, prior to submission of all Construction Document Submittals, and after submission of all Design Developmental Submittals, applicable to the Works listed in Section 3.1.
- 8.3 Contracting Authority, City of Toronto, or Project Co may request additional City of Toronto Technical Meetings, as required. For any additional COT technical reviews requested by Contracting Authority or City of Toronto, Contracting Authority will notify Project Co of any such request.
- 8.4 Contracting Authority and City of Toronto may, at their sole discretion, waive the requirement for some or all City of Toronto Technical Meetings.

- 8.5 For each City of Toronto Technical Meeting, Project Co shall:
- (a) advise Contracting Authority and City of Toronto of the intention to hold each City of Toronto Technical Meeting, or respond to a request from Contracting Authority for an additional COT Technical Meeting, a minimum of fifteen (15) Business Days prior to the proposed City of Toronto Technical Meeting date;
 - (b) submit an agenda for each City of Toronto Technical Meeting to Contracting Authority a minimum of five (5) Business Days prior to the proposed City of Toronto Technical Meeting date; and
 - (c) submit interim Design Development Submittals or interim Construction Document Submittals, as applicable and as required to facilitate the discussion at each City of Toronto Technical Meeting, to Contracting Authority a minimum of ten (10) Business Days prior to the proposed City of Toronto Technical Meeting date.
- 8.6 Project Co shall ensure that the content of the Design Development Submittals and the Construction Document Submittals, presented at any City of Toronto Technical Meetings, are appropriate to the subject and discipline, that the information provided is adequate to show that the design is proceeding in compliance with the Project Agreement for all disciplines, and that the content has been developed in consideration of the relevant Construction Activities.

ATTACHMENT 1 TO APPENDIX C

SITE PLAN REVIEW CHECKLIST

1. SITE PLAN REVIEW

- 1.1 As identified in Item No. 1 in Appendix B to Schedule 34 – Permits, Licences, Approvals and Agreements, Project Co shall prepare and submit all documentation and materials that the City of Toronto will require to complete site plan review of Project Co Infrastructure for which site plan review is applicable.
- 1.2 The following is a detailed, non-exhaustive list of Site Plan Review Submittals (individually, “**SPR Submittal**” or collectively “**SPR Submittals**”) as well as the format for each, that Project Co is required to provide to Contracting Authority for review and comment in accordance with this Schedule 10. A description of the minimum content of each COT Submittal provided is set forth in this Attachment 1.
- 1.3 The Works Submittals delivered pursuant to Appendix A to this Schedule 10 which have equivalent content to satisfy the requirements of SPR Submittals are permitted to be reused in accordance with the table below, provided that they meet all the requirements of each SPR Submittal section they are applied to.
- 1.4 Project Co shall modify as appropriate the Works Submittals delivered pursuant to Appendix A to address the relevant sections of the Application Support Material: Terms of Reference (Application Support Material: Terms of Reference – City of Toronto).
- 1.5 For each of the SPR Submittals that Project Co is required to provide to Contracting Authority for review and comment in accordance with this Schedule 10 for a specific location (e.g. Station), the site plan areas indicated in those submittals shall be consistent across all SPR Submittals for that location. This would include those Works Submittal deliverables pursuant to Appendix A to this Schedule 10 which have equivalent content to satisfy the requirements of SPR Submittals that are permitted to be re-used.

[REDACTED]

ATTACHMENT 2 TO APPENDIX C

CITY OF TORONTO WORKS SUBMITTALS

1. COT WORKS SUBMITTALS

- 1.1 The following is a detailed, non-exhaustive list of City of Toronto Works Submittals (individually, “**COT Works Submittal**” or collectively “**COT Works Submittals**”) as well as the format for each, that Project Co is required to provide to Contracting Authority for review and comment in accordance with this Schedule 10. A description of the minimum content of each COT Works Submittal provided is set forth in this Attachment 2.
- 1.2 The Works Submittals delivered pursuant to Appendix A to this Schedule 10 which have equivalent content to satisfy the requirements of COT Works Submittals are permitted to be reused in accordance with the table below, provided that they meet all the requirements of each COT Works Submittal section they are applied to.
- 1.3 For each of the COT Works Submittals that Project Co is required to provide to Contracting Authority for review and comment in accordance with this Schedule 10 for a specific location, the areas indicated in those submittals shall be consistent across all COT Works Submittals for that location. This would include those Works Submittal deliverables pursuant to Appendix A to this Schedule 10 which have equivalent content to satisfy the requirements of COT Works Submittals that are permitted to be re-used.

[REDACTED]

APPENDIX D TO SCHEDULE 10

TTC SUBMITTALS REQUIREMENTS

1. DEFINITIONS

1.1 Unless the context indicates a contrary intention, terms which are defined in the Project Agreement and not otherwise defined in this Schedule 10 shall have the meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) “**TTC Design Management Plan**” has the meaning given in Section 3.2 of this Appendix D.

2. OVERVIEW

2.1 The purpose of Appendix D is to facilitate the TTC review of technical submittals related to the Works listed in Section 3.1 of this Appendix D, or as defined by this Appendix D. Whereas Appendix A includes submittals of interest to multiple parties (including the TTC), this Appendix D captures additional submittal requirements for the Works in regards to New TTC Infrastructure. The focus of this technical review is to ensure conformance to the Output Specifications and this Schedule 10.

2.2 Where there is a conflict between this Appendix D and Appendix A with respect to TTC review of Works Submittals related to items listed in Section 3.1 of this Appendix D, this Appendix D shall take precedence.

3. TTC DESIGN MANAGEMENT PLAN

3.1 The requirements of this Appendix D shall apply to all Design Development Submittals and Construction Document Submittals related to the Works impacting Interchange Stations.

3.2 Project Co shall prepare and submit an appendix to the Design Management Plan for the Works impacting Interchange Stations (the “**TTC Design Management Plan**”) to Contracting Authority and TTC for review (concurrent with the review of the Design Management Plan), in accordance with the Review Procedure.

3.3 The TTC Design Management Plan shall supplement the information provided in the Design Management Plan with the following:

- (a) identification of all components of the Works to which the requirements of the TTC Design Management Plan will extend, in accordance with Section 3.1 of this Appendix D;
- (b) identification of all Design Development Submittals and Construction Document Submittals to which TTC Design Management Plan will extend;
- (c) a design review and audit schedule, consistent with the Design Quality Management Plan and the Project Works Schedule, indicating dates that Project Co plans to undertake

Technical Review Meetings with TTC and Contracting Authority, in accordance with Sections 6 and 7 of this Appendix D; and

- (d) a drawing tree indicating the organization and hierarchy of all drawings to which TTC Design Management Plan applies.
- 3.4 Project Co shall submit any subsequent amendments or updates to the TTC Design Management Plan to Contracting Authority and TTC in accordance with the Review Procedure and this Appendix D.
- 3.5 Project Co shall implement and comply with the TTC Design Management Plan and any subsequent amendments or updates to the initial TTC Design Management Plan made following review by Contracting Authority and TTC in accordance with the Review Procedure, including but not limited to requirements per the Output Specifications, and any other requirements within the items listed in Section 3.1 of this Appendix D.
- 3.6 In addition to the applicable items listed in Section 3.7 of Part A of this Schedule 10, Project Co shall submit to Contracting Authority and TTC, for each New TTC Infrastructure:
- (a) log of all previous submissions with dates, reference numbers, TTC review submission numbers and list of documents in each submission;
 - (b) spreadsheet summarizing responses to and status of comments of all previous submissions; and
 - (c) all relevant references, meeting minutes, record of discussions, calculations, drawings and documents (including extracts of related documents in previous submissions) quoted or referred to in the current submission for reviewer's reference.

4. DESIGN DEVELOPMENT SUBMITTALS

- 4.1 Project Co shall ensure that Design Development Submittals for items listed in Section 3.1 of this Appendix D are submitted in accordance with the TTC Design Management Plan and the requirements of the Review Procedure, and are:
- (a) submitted commensurate with the design submission for such submittals described in Appendix A to this Schedule 10; and
 - (b) corrected as required in response to the comments provided by Contracting Authority and TTC for any previous submittals, as required in order to comply with the time periods for such corrections described in this Schedule 10.
- 4.2 Project Co shall ensure that all Design Development Submittals for the items listed in Section 3.1 of this Appendix D are submitted in accordance with the Works Submittals presented in this Appendix D.

5. CONSTRUCTION DOCUMENT SUBMITTALS

- 5.1 Project Co shall ensure that Construction Document Submittals for items listed in Section 3.1 of this Appendix D are submitted in accordance with the TTC Design Management Plan and the requirements of the Review Procedure, and are:
- (a) submitted commensurate with the Design Development Submittal described in Appendix A to this Schedule 10; and
 - (b) corrected as required in response to the comments provided by Contracting Authority and TTC for any previous submittals, as required in order to comply with the time periods for such corrections described in this Schedule 10.

6. TTC REVIEW PROCESS

- 6.1 Project Co shall include all engineering disciplines in one package, as applicable, for submissions of documents listed in Section 3.1 of this Appendix D for TTC technical review. Submission requirements are indicated at their earliest submittal and may also be required at subsequent submittals, including construction and post-construction stages of work. For clarity, submission requirements and submittal are captured in the table below, in this Appendix D.
- 6.2 Upon completion of the TTC technical review, comments will be provided to Contracting Authority for response by Project Co and the provisions of Section 4 of Part A of this Schedule shall apply.
- 6.3 Assignment of a “NO COMMENT” for a submittal by Contracting Authority and TTC does not exempt Project Co from compliance with applicable codes and standards, local by-laws, and other governing regulations. TTC will not accept any responsibility for the accuracy and adequacy of the design, which will remain the sole responsibility of Project Co.
- 6.4 The content or result of any TTC technical review does not absolve Project Co of its responsibility to obtain all related Permits, Licences, Approvals and Agreements required to implement the Works.
- 6.5 The technical submissions shall include, where applicable:
- (a) calculations,
 - (b) a complete set of drawings, and
 - (c) specifications and technical documentation.
- 6.6 Project Co shall submit the following number of documents at each submission:
- (a) Plans & Surveys (Control / Topographic / Utility / Property):
 - (i) two (2) complete sets of full size plans and surveys; and
 - (ii) seven (7) complete sets of half size plans and surveys.

- (b) Specifications:
 - (i) seven (7) complete sets (hard copies).
- (c) Reports:
 - (i) nine (9) copies of all required reports.
- (d) Electronic Format:
 - (i) one (1) CD or USB containing all plans, property surveys, drawings, specifications and reports in PDF format; and
 - (ii) one (1) CD or USB containing digital files of the property surveys in Microstation (.dgn) format.

7. TTC TECHNICAL MEETINGS

- 7.1 Project Co shall prepare for and present at TTC Technical Meetings with Contracting Authority and TTC during the development of the Design Development Submittals and Construction Document Submittals, for the purposes of observing compliance with applicable requirements in the Output Specifications and this Schedule 10.
- 7.2 The TTC Technical Meetings shall occur at the following:
- (a) one TTC Technical Meeting prior to submission of the Design Development Submittals applicable to the Works listed in Section 3.1 of this Appendix D; and
 - (b) one TTC Technical Meeting, prior to submission of all Construction Document Submittals, and after submission of all Design Developmental Submittals, applicable to the Works listed in Section 3.1 of this Appendix D.
- 7.3 Contracting Authority, TTC or Project Co may request additional TTC Technical Meetings, as required. For any additional TTC technical reviews requested by Contracting Authority or TTC, Contracting Authority will notify Project Co of any such request.
- 7.4 Contracting Authority and TTC may, at their sole discretion, waive the requirement for some or all TTC Technical Meetings.
- 7.5 For each TTC Technical Meeting, Project Co shall:
- (a) advise Contracting Authority of the intention to hold each TTC Technical Meeting, or respond to a request from Contracting Authority for an additional TTC Technical Meeting, a minimum of fifteen (15) Business Days prior to the proposed TTC Technical Meeting date;
 - (b) submit an agenda for each TTC Technical Meeting to Contracting Authority a minimum of five (5) Business Days prior to the proposed TTC Technical Meeting date; and

- (c) submit interim Design Development Submittals or interim Construction Document Submittals, as applicable and as required to facilitate the discussion at each TTC Technical Meeting, to Contracting Authority a minimum of ten (10) Business Days prior to the proposed TTC Technical Meeting date.

7.6 Project Co shall ensure that the content of the Design Development Submittals and the Construction Document Submittals, presented at any TTC Technical Meetings, are appropriate to the subject and discipline, that the information provided is adequate to show that the design is proceeding in compliance with the Project Agreement for all disciplines, and that the content has been developed in consideration of the relevant Construction Activities.

[REDACTED]

APPENDIX E TO SCHEDULE 10

SOUTH CIVIL INFRASTRUCTURE WORKS SUBMITTALS

1. SOUTH CIVIL INFRASTRUCTURE WORKS SUBMITTALS

1.1 The following is a list of South Civil Infrastructure Works Submittals.

1.2 For each South Civil Infrastructure Works Submittal, Project Co is responsible for commenting on the conformity to Project Co Infrastructure in accordance with Part C – Review of South Civil Infrastructure Design and Construction Data of this Schedule 10.

[REDACTED]

APPENDIX F TO SCHEDULE 10

NORTH CIVIL INFRASTRUCTURE WORKS SUBMITTALS

1. NORTH CIVIL INFRASTRUCTURE WORKS SUBMITTALS

1.1 The following is a list of North Civil Infrastructure Works Submittals.

1.2 For each North Civil Infrastructure Works Submittal, Project Co is responsible for commenting on the conformity to Project Co Infrastructure in accordance with Part D – Review of North Civil Infrastructure Design and Construction Data of this Schedule 10.

Appendix C Construction Quality Management Plan
Appendix D Project Co Services Quality Management Plan

PART 1 DEFINITIONS

1.1 Definitions

In this Schedule 11, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 11) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) “**Appropriate Persons**” has the meaning given in Section 2.3(c).
- (b) “**CAIT Manual Requirements**” or “**Construction Administration and Inspection Task Manual Requirements**” means, at the applicable time, the Construction Administration and Inspection Task Manual Requirements developed by the MTO.
- (c) “**Closing Meeting**” has the meaning given in Section 5.8(a).
- (d) “**Construction Quality Control Manager**” means an individual construction quality control manager responsible for each of the quality control requirements as set out in the CQMP as described in Section 3.4.
- (e) “**Construction Quality Management Plan**” or “**CQMP**” means the plan for the quality management of the Works prepared by Project Co in accordance with Appendix C.
- (f) “**Construction Quality Manager**” has the meaning given in Section 3.3(e).
- (g) “**Corrective Action**” means an action to eliminate the cause of an existing Non-Conformance, defect or other undesirable situation and to prevent its recurrence.
- (h) “**Corrective Action Date**” means the date by which Project Co shall complete the implementation of a Corrective Action in accordance with this Schedule 11.
- (i) “**Corrective Actions Plan**” has the meaning given in Section 5.3(a)(iv).
- (j) “**Design Quality Management Plan**” or “**DQMP**” means the plan for the quality management of the design of the project prepared by Project Co in accordance with Appendix B.
- (k) “**Design Quality Manager**” has the meaning given in Section 3.3(d).
- (l) “**Disposition**” means the applicable decision made from the outcome of a review process in response to a Non-Conformance Report described in Table 7.1 of Section 7.1 provided by the Quality Director pursuant to Section 7.1(a)(iv) or Section 7.1(a)(v), as applicable.
- (m) “**External Quality Audit**” means either or both:
 - (i) a second party Quality Audit conducted by parties having an interest in Project Co or the relevant Project Co Party, such as parties with commercial contracts with Project Co or a

relevant Project Co Party or customers/clients of Project Co or a relevant Project Co Party;
and

- (ii) a third party Quality Audit conducted by an external independent organization such as a certification or registration body.
- (n) **“Independent Quality Audit”** means a third party audit of the Quality Management System conducted by an independent quality auditor certified by an accredited auditors’ registration body such as International Register for Certified Auditors, Registrar Accreditation Board, National Quality Institute, or other equivalent body.
- (o) **“Inspection and Test Plan”** or **“ITP”** means the plan prepared in accordance with Section C.1(f)(i) of Appendix C.
- (p) **“Internal Quality Audit”** means a first party Quality Audit of Project Co’s or a Project Co Party’s own processes conducted by or on behalf of the relevant organization.
- (q) **“ISO 9001:2015 Lead Auditor”** means a quality auditor who has successfully completed an ISO 19011 accredited course for lead auditors.
- (r) **“ISO 9001:2015 Lead Auditor Training Course”** means an accredited ISO 19001:2015 training course for lead auditors who meet the training portion of the requirements for current certification of individual quality system auditors with the International Register of Certified Auditors or similar certifying bodies such as Chartered Quality Institute, Exemplar Global or other equivalent body.
- (s) **“ISO 9001:2015 Standard”** means the ISO 9001:2015 standard, as amended, updated or replaced from time to time.
- (t) **“ISO/IEC”** International Organization for Standardization / International Electrotechnical Commission.
- (u) **“ISO/IEC 17025 Standard”** means the ISO/IEC 17025 standard, as amended, updated or replaced from time to time.
- (v) **“ITP Two-Week Look-Ahead”** has the meaning given in Section C.1(e)(vi) of Appendix C.
- (w) **“Monthly Performance Monitoring Report”** has the meaning given in Section 8.1(a).
- (x) **“NC Remedy Date”** has the meaning given in Table 7.1 of Section 7.1.
- (y) **“Non-Conformance Report”** means a document issued by either Contracting Authority or Project Co pursuant to Section 7.1 detailing the description of an identified Non-Conformance, the remedial action taken or proposed to be taken to eliminate the Non-Conformance, and the date by which the remedial action was completed or proposed to be completed.
- (z) **“Non-Conformance Tracking System”** means a system to track Non-Conformance Reports issued by Contracting Authority or Project Co as set out in Section 7.2.

- (aa) **“Ontario Provincial Standards Specifications”** or **“OPSS”** means the Ontario Provincial Standards for roads and public works, as amended from time to time.
- (bb) **“Performance Failure Category”** means the failure category described in Section 9.2.
- (cc) **“Project Co Quality Audit Report”** has the meaning given in Section 5.2(a)(vii).
- (dd) **“Project Co Services Quality Management Plan”** or **“PCSQMP”** means the plan for the quality management of the Project Co Services prepared by Project Co in accordance with Appendix D.
- (ee) **“Project Schedules Management Plan”** has the meaning given in Schedule 12 – Works Schedule Requirements.
- (ff) **“Project Schedules Quality Manager”** has the meaning given in Section 3.3(g).
- (gg) **“Quality Audit”** means a systematic, independent and documented process for obtaining audit evidence and evaluating it objectively to determine the extent to which audit criteria are fulfilled.
- (hh) **“Quality Audit Program Plan”** means Project Co’s audit program plan defining the Internal Quality Audits, External Quality Audits and Independent Quality Audits that Project Co shall perform or cause to be performed on its own processes and the processes of Project Co Parties.
- (ii) **“Quality Director”** has the meaning given in Section 3.2.
- (jj) **“Quality Documentation”** has the meaning given in Section 6.3.
- (kk) **“Quality Key Performance Indicators”** has the meaning given in Section 8.1(d)(ii).
- (ll) **“Quality Management Plans”** or **“QMPs”** includes the DQMP, CQMP, PCSQMP and any other quality management plan required for the purposes of undertaking any material and substantial aspect of the Works and the Project Co Services. All such plans are subject to the Quality Management System.
- (mm) **“Quality Management System”** has the meaning given in Section 2.1(a).
- (nn) **“Quality Managers”** means individual quality managers responsible for each of the Quality Management Plans.
- (oo) **“Quality Manual”** means Project Co’s quality manual meeting the requirements set out in Appendix A.
- (pp) **“Quality Objectives”** means the objectives related to quality that are measurable and consistent with the Quality Policy and which are to be formally expressed and recorded in the Quality Manual in accordance with this Schedule 11, provided that, alternatively, each Quality Management Plan may have its own Quality Objectives which are directly related to the applicable Quality Policy expressed or recorded in the Quality Manual.

- (qq) **“Quality Policy”** means the overall intentions and direction of Project Co related to quality applicable to Project Co and all Project Co Parties involved in performing the Works which are to be formally expressed and recorded in the Quality Manual in accordance with this Schedule 11, provided that, alternatively, each Quality Manual may have its own Quality Policy which is directly related to applicable Quality Objectives expressed or recorded in the Quality Manual.
- (rr) **“Quality Records”** has the meaning given in Section 6.8(a).
- (ss) **“Surveillance Quality Audits”** means Quality Audits conducted by or on behalf of Contracting Authority as contemplated in Section 5.3(c)(i)(A).
- (tt) **“Traffic Quality Manager”** has the meaning given in Section 3.3(f).
- (uu) **“Witness and Hold Point”** means (A) a point of time in the construction process when it would be unreasonably onerous or impossible, to confirm conformance to or compliance with the Output Specifications with respect to either materials or workmanship once work proceeds past this point and (B) any other witness and hold point that is required by Project Co.

PART 2
QUALITY MANAGEMENT SYSTEM

2.1 Quality Management System

- (a) Project Co shall develop and implement a quality management system in accordance with the requirements of this Schedule 11 (the “**Quality Management System**”) for the Works and the Project Co Services. The Quality Management System shall include, at a minimum, processes for quality assurance and quality control, testing, auditing, equipment commissioning and performance measurement for all Works, including design, construction, materials, warranties on systems, workmanship and services. Project Co acknowledges and agrees that Project Co is solely responsible for the quality of the Works and the Project Co Services and that a comprehensive Quality Management System is critical for the proper and timely completion of the Works and the Project Co Services.

2.2 Project Co Responsibilities

- (a) Project Co is responsible for all quality assurance and quality control activities set out in this Schedule 11 that are required to manage its own processes as well as those of the Project Co Parties throughout the Project Term. Project Co shall ensure that all aspects of the Project are the subject of a Quality Management System that complies with the provisions of this Schedule 11, and shall comply with and cause all Project Co Parties to comply with the requirements of such Quality Management System. For greater certainty and without limiting Project Co’s ability to contractually assign responsibilities and obligations to Project Co Parties in accordance with the Project Agreement, Project Co shall not be relieved of any of Project Co’s responsibilities or obligations set out in this Schedule 11 by the assignment of such responsibilities or obligations to Project Co Parties.

2.3 Design and Construction Certification

- (a) Project Co shall implement and enforce the procedures set out in this Section 2.3 throughout the Project Term.
- (b) The procedures set out in this Section 2.3 shall apply to all Design Data prepared or adopted in connection with the Works.
- (c) Project Co shall ensure that all certification procedures referred to in this Section 2.3 are complied with by the appropriate persons referred to therein, including the Design Team, and any independent team or engineer within the Design Team, as the case may be (together, the “**Appropriate Persons**”), and that all Appropriate Persons are at all relevant times duly authorized and qualified to carry out such procedures and to sign the relevant certificates. Any failure by any Appropriate Person to fulfil the obligations required of them under this Section 2.3 shall be a breach of the Project Co’s obligations under the Project Agreement.
- (d) Project Co shall submit all Design Certificates and Construction Certificates, Permits, Licences, Approvals and Agreements and other regulatory process documents from Governmental Authorities, together with the supporting documentation, to the Contracting Authority Representative for review, acting reasonably, in accordance with Schedule 10 – Review Procedure.

The submitted Design Certificates and Construction Certificates shall have original signatures, seals and registration numbers, and shall be in such form as to allow the Contracting Authority Representative to perform its review function in respect of such Design Certificate or Construction Certificate without delay.

- (e) Project Co shall submit Construction Certificates to the Contracting Authority Representative for review, acting reasonably, in accordance with Schedule 10 – Review Procedure, for each:
 - (i) substantially completed components; and
 - (ii) entirely completed components.

2.4 Quality Management System Requirements

- (a) The Quality Management System shall be applicable to all Project Co Parties, including each Subcontractor.
- (b) The Quality Management System shall, at a minimum, include the Quality Documentation described in Part 6, including:
 - (i) Inspection and Test Plans for all components of the Works;
 - (ii) processes for:
 - (A) assessing and tracking training requirements;
 - (B) providing all staff with Quality Management System requirements of the Project Agreement;
 - (C) updating training; and
 - (D) maintaining all training records,applicable to all Project Co Parties, including each Subcontractor;
 - (iii) methods to ensure compliance with the Quality Management System by each Project Co Party;
 - (iv) techniques for integration between all of the Works and the Project Co Services;
 - (v) documentation and verification procedures;
 - (vi) defined roles and responsibilities for all members of the Quality Management System team;
 - (vii) testing and commissioning; and
 - (viii) determining and applying the criteria and methods (including monitoring, measurements and related performance indicators) needed to ensure the effective operation and control of these processes.

- (c) The Quality Management System shall comply with:
 - (i) the requirements and principles of the ISO 9001:2015 Standard and any other applicable standards specified in this Schedule 11;
 - (ii) Good Industry Practice; and
 - (iii) all other requirements set out in this Schedule 11 and the Project Agreement.

2.5 Compliance of Quality Management System

- (a) Specific Requirements
 - (i) The Quality Management System must be fully compliant with ISO 9001:2015 Standard no later than one-hundred and eighty (180) days following Financial Close. For clarity, the submission deadlines for the Quality Manual and all Quality Management Plans are set out in Table 2.6.
 - (ii) Compliance shall be subject to review and must be accepted by Contracting Authority, which compliance shall be maintained by Project Co throughout the Project Term.
 - (iii) The scope of compliance for the Quality Management System should be clearly defined to address the Works, including traffic management and environmental considerations in respect of the Project.
 - (iv) Project Co shall update its Quality Management System and all Quality Documentation as required to ensure that the Quality Management System and all Quality Documentation are and at all times remain in full compliance with the ISO 9001:2015 Standard and the requirements of this Schedule 11. All Quality Documentation shall be made available to Contracting Authority upon request.
- (b) Compliance with Quality Management System
 - (i) Project Co shall ensure that any Project Co Party who performs any portion of the Works or the Project Co Services shall comply with the Quality Management System as it relates to that portion of the Works or the Project Co Services in connection with the activities covered by that party's contract with Project Co.

2.6 Documentation Deliverables

- (a) Deliverables
 - (i) Without limiting the generality of Section 2.4, Project Co shall provide to Contracting Authority, by the dates shown in Table 2.6, each of the following:

Table 2.6 – Schedule of Plans and Reports

Deliverable Name	Schedule 11 Specification Reference	Submission Deadline	Submitted under the Review Procedure
Quality Manual	Appendix A	Submitted within thirty (30) days following Financial Close	Yes
Design Quality Management Plan	Appendix B	Submitted within forty-five (45) days following Financial Close	Yes
Construction Quality Management Plan	Appendix C	Submitted within ninety (90) days following Financial Close	Yes
Project Co Services Quality Management Plan	Appendix D	Submitted within ninety (90) days following Financial Close	Yes
List of ITPs and production timelines for submittal	Appendix C	Submitted within ninety (90) days following Financial Close	Yes
Quality Audit Program Plan	Section 5.1	Submitted within thirty (30) days following Financial Close	Yes
Quality Audit Program Plan updates	Section 5.1	At quarterly intervals following Quality Audit Program Plan submittal	Yes
Monthly Quality Management System reports	Section 8.1	Within ten (10) Business Days of each month (in respect of previous month)	Yes
Project Co Quality Audit Reports	Section 5.2	Each submitted within ten (10) Business Days following the applicable Closing Meeting	Yes
Corrective Actions Plans	Section 5.3	Each submitted as per Table 7.1	Yes

- (ii) Where specified in Table 2.6, Project Co shall submit all deliverables of the Quality Management System to Contracting Authority for review in accordance with Schedule 10 – Review Procedure.

(b) Specific Requirements

- (i) Project Co shall prepare and submit a Quality Management Plan for the Construction Contractor and the Service Provider, in each case in respect of the activities covered by that party's contract with Project Co and meeting the requirements of the Quality Manual, and Project Co shall cause all other contractors engaged by Project Co for the purposes of undertaking any material or substantial aspect of the Works or the Project Co Services to comply with the Quality Manual.

(c) Timing of Implementation

- (i) The Quality Management System must be fully compliant with ISO 9001:2015 Standard no later than one-hundred and eighty (180) days following Financial Close. Project Co shall not commence or permit the commencement of any aspect of the Works before those parts of the Quality Documentation that concern such aspect of the Works have been submitted to and reviewed by Contracting Authority in accordance with this Schedule 11, unless otherwise agreed in advance between Project Co and Contracting Authority.

2.7 Continuous Improvement in Quality Management System

- (a) Project Co shall implement a program and shall have mechanisms in place, such as management reviews and Quality Audit Program Plans, to allow all identified opportunities for improvement of the effectiveness of the Quality Management System to be recorded, tracked and implemented or closed out.
- (b) Project Co shall ensure that all Project Co Parties are aware of the importance of continuous improvement and are actively engaged in the implementation of the Quality Management System in connection with the performance of the Works and the Project Co Services.

PART 3
QUALITY PERSONNEL

3.1 General

- (a) Project Co shall provide separate personnel with the required qualifications in a full time role in support of the Quality Management System as set out in this Part 3.

3.2 Quality Director

- (a) Appointment and General Responsibilities

- (i) At all times during the Project Term, Project Co shall employ, or otherwise engage by sub-contract, a Quality Director who shall,
- (A) irrespective of such person's other responsibilities, have defined authority for ensuring the establishment and maintenance of the Quality Management System and auditing and reporting on the status of, and compliance with the Quality Management System, including the requirements set forth in this Section 3.2(a);
 - (B) have experience in a similar quality management representative role on a project of similar size, complexity and contractual value, and be a certified ISO 9001:2015 Lead Auditor or have successfully completed a certified ISO 9001:2015 Lead Auditor Training Course from a recognized certification body;
 - (C) be an independent organizational structure, demonstrated through reporting and communication lines to that of the Design Team, the Construction Contractor's production and supervision staff and the Service Provider; and
 - (D) have full access to all Quality Documentation described in the Quality Management System held with Project Co Parties.
- (ii) The identity of the Quality Director (and any replacement thereof) and his/her job specification and responsibilities shall be subject to the approval of Contracting Authority (such approval not to be unreasonably withheld or delayed), and the Quality Director shall be a Key Individual.

- (b) Specific Responsibilities

- (i) Without limiting the generality of the foregoing, the job specification and responsibilities of the Quality Director shall include the following:
- (A) developing, implementing and maintaining, and ensuring the effective operation of, the Quality Management System;
 - (B) initiating management reviews, not less frequently than annually, and taking other actions necessary to ensure the effective operation and continuous improvement of the Quality Management System across all Project Co Parties;

- (C) preparing the annual Quality Audit Program Plan and quarterly updating, scheduling and coordinating Internal Quality Audits and External Quality Audits of key processes with the relevant Project Co Parties;
 - (D) scheduling and coordinating Independent Quality Audits with the independent quality auditor;
 - (E) ensuring that all Quality Audits required under Section 5.2 and under the Quality Documentation are conducted, and reporting the findings of such audits to Contracting Authority;
 - (F) having the authority to immediately stop any work or activity which is not being performed or carried out in accordance with the Quality Documentation applicable thereto;
 - (G) liaising with Contracting Authority and acting as the primary representative for Project Co on all matters relating to quality management;
 - (H) coordinating all activities that demonstrate to Project Co and Contracting Authority that the Quality Management System meets the requirements of this Schedule 11;
 - (I) preparing and submitting to Contracting Authority monthly Quality Management System reports;
 - (J) ensuring that relevant Quality Records are retained in accordance with the Quality Management System and the requirements of Schedule 26 – Record Provisions;
 - (K) developing and implementing a program for Corrective Actions for Non-Conformances irrespective of the cause of the Non-Conformance;
 - (L) approve and sign off on the action taken in close out of Non-Conformance Reports; and
 - (M) carrying out any other matters which, in accordance with the Project Agreement, are the responsibility of the Quality Director.
- (c) Project Co shall not assign the responsibilities and obligations of the Quality Director to any other Project Co Party.

3.3 Quality Managers

- (a) Project Co shall appoint Quality Managers, who shall report directly to the Quality Director and shall not be directed by the Service Provider’s staff who perform and supervise the Operations Services and Maintenance Services, the Design Team’s production and supervision staff who perform the design and engineering services in respect of the Works and the Construction Contractor’s production and supervision staff, who perform the Works.

- (b) The Quality Managers shall be responsible for following the Quality Management Plans developed by Project Co including the DQMP, CQMP, and PCSQMP, and shall be responsible for supporting quality control and quality assurance awareness and implementation within the management plans identified in Schedule 10 – Review Procedure as well as the close-out of Non-Conformance Reports for their respective areas of responsibility.
- (c) The Quality Managers shall be certified as quality professionals from certifying bodies, as a minimum successful completion of an ISO 9001:2015 Lead Auditor Training Course.
- (d) The Quality Manager for the DQMP shall be responsible to ensure that reviews, checking and verification are undertaken for all designs, and be a Professional Engineer with experience overseeing the quality of the design of a project within the field of rail and transit, transportation and infrastructure projects of similar size, complexity and contractual value to this Project (the “**Design Quality Manager**”).
- (e) The Quality Manager for the CQMP shall have experience overseeing the construction quality of a project within the field of rail and transit, transportation and infrastructure projects of similar size, complexity and contractual value to this Project (the “**Construction Quality Manager**”).
- (f) The Quality Manager for the TTMP shall be a traffic management professional with experience in traffic management for roads and transit of a Project of similar size, complexity and contractual value (the “**Traffic Quality Manager**”).
- (g) The Quality Manager for the Project Schedules Management Plan shall be a scheduling professional with experience in scheduling and project planning on a project within the field of rail and transit, transportation and infrastructure projects of similar size, complexity and contractual value to this Project (the “**Project Schedules Quality Manager**”).
- (h) Project Co shall ensure that distinct, qualified individual(s) are appointed to each of the following roles:
 - (i) Design Quality Manager;
 - (ii) Construction Quality Manager;
 - (iii) Traffic Quality Manager; and
 - (iv) Project Schedules Quality Manager.

Project Co shall ensure that no single individual occupies more than one of these roles, unless Project Co has obtained the prior written consent of Contracting Authority, acting reasonably.

3.4 Construction Quality Control Manager

- (a) Project Co shall appoint a Construction Quality Control Manager who shall be responsible for quality control requirements as set out in the CQMP for the Works.

- (b) The Construction Quality Control Manager shall be certified as a quality professional from a certifying body, as a minimum successful completion of an ISO 9001:2015 Lead Auditor Training Course.
- (c) The Construction Quality Control Manager shall be responsible for the preparation, review and implementation of the Inspection and Test Plans.
- (d) The responsibilities of the Construction Quality Control Manager shall include supervision of quality inspection staff and ensuring that individuals have the required qualifications and experience to undertake the quality control requirements as set out in the CQMP.
- (e) The Construction Quality Control Manager, as identified in Schedule 9 – Key Individuals, shall have experience as a quality manager or quality control manager for the construction within the field of rail and transit, transportation and infrastructure projects of similar size, complexity and contractual value to this Project in addition to CAIT Manual Requirements and Ontario Provincial Standards Specifications.
- (f) The Construction Quality Control Manager shall be independent of the Construction Contractor’s production and supervision staff and shall report directly to the Construction Quality Manager.

3.5 Construction Quality Control Staff

- (a) Project Co’s construction quality control staff shall be responsible for the inspection and testing requirements as set out in the CQMP, and shall be trained to fully understand the CQMP, have access to quality documents, Quality Records, and issued for construction drawings. Failure of construction quality control staff to show knowledge of the requirements and work shall be considered a Non-Conformance.
- (b) Project Co’s construction quality control staff responsible for quality control inspection and testing for the Works shall have the qualifications demonstrated by certificates of training and experience on transit construction projects.
- (c) The construction quality control staff shall be independent of the Construction Contractor’s production and supervision staff and shall report directly to the Construction Quality Control Manager.

PART 4 TESTING

4.1 Testing Requirements

- (a) Where Project Co is required by the Project Agreement or any Quality Documentation to carry out any calibration, sample, test or trial, such calibration, sample, test or trial shall be carried out in accordance with the provisions of this Part 4 and the provisions of the relevant Quality Documentation, which shall reference applicable standards and Good Industry Practice.
- (b) Project Co shall ensure that all materials meet and comply with the Province of Ontario's occupational health and safety regulations.
- (c) Prior to the commencement of Works and during the Project Term, Project Co shall maintain a list of Safety Data Sheets (SDS) of all hazardous materials proposed for use and shall update Project Co's Construction Quality Management Plan accordingly.

4.2 Accreditation Standards

- (a) All on and off-Site calibrations, samples, tests and trials shall be carried out by laboratories that are duly accredited for the carrying out of such calibrations, samples, tests and trials.
- (b) Laboratory accreditation for the Works shall be in accordance with the ISO/IEC 17025 Standard, as amended, updated or replaced from time to time, provided that, for specific activities, Contracting Authority may accept other industry-recognized accreditation in lieu of the ISO/IEC 17025 Standard.
- (c) Project Co may request the approval of Contracting Authority to use other industry-recognized accreditations, which approval shall not be unreasonably withheld or delayed if such other accreditation is applicable to the Works or the Project Co Services for which it is proposed and meets the intent of the ISO/IEC 17025 Standard.
- (d) Project Co shall ensure that valid calibration certificates for measuring and testing equipment are available and present during all relevant inspections and tests.
- (e) Project Co shall establish and maintain a log of all measuring and testing equipment, which shall include, at a minimum, equipment identification numbers, equipment descriptions, dates of last calibration, and dates of next scheduled calibration.
- (f) Project Co shall ensure that clear and unambiguous traceability exists between each inspection and test record and the measuring and test equipment log for traceability and audit purposes.
- (g) Where a material, component or assembly is required to be fire rated, the fire rating shall be in accordance with Good Industry Practice and acceptable to governing authorities.

4.3 Remedial Work

- (a) Project Co shall be responsible at its own cost for any remedial work required as a result of any failure to pass any calibration, sample, test or trial required in accordance with the Project Agreement or any Quality Documentation or as a result of any laboratory not being duly accredited as required by Section 4.2.

4.4 Inspection and Testing by Third Parties

- (a) Within the Quality Management Plan, Project Co Parties shall include as a minimum, testing and inspection of the following elements of the Works by qualified third party inspection and testing companies:
 - (i) structural inspection and testing, including,
 - (A) strip and spread footing;
 - (B) cast in place concrete reinforcement;
 - (C) prestressed/post tensioned concrete;
 - (D) structural steel; and
 - (E) steel deck;
 - (ii) civil testing, including testing of,
 - (A) earth work and subgrade;
 - (B) manholes, pipes, conduits;
 - (C) waterproofing for underground structures;
 - (D) re-bar, concrete and precast manufacture; and
 - (E) utilities-trenching, installation and sub base; and
 - (iii) electrical testing, including,
 - (A) testing and commissioning of lighting systems.

PART 5
QUALITY AUDITS AND MONITORING

5.1 Quality Audit Program Plans

- (a) Specific Requirements
 - (i) Project Co shall provide a Quality Audit Program Plan to Contracting Authority in accordance with the timing set out in Table 2.6.
 - (ii) The Quality Audit Program Plan shall detail the Internal Quality Audits and the External Quality Audits that will be conducted by Project Co on its own processes and those of Project Co Parties, and the planned dates of such Quality Audits.
 - (iii) The Quality Audit Program Plan shall describe the audit procedure and process that will be followed from start to finish to conduct effective Internal Quality Audits and External Quality Audits.
 - (iv) The Quality Audit Program Plan shall detail the Independent Quality Audits that will be conducted by the independent quality auditor on Project Co and Project Co Parties, and the planned dates of such Independent Quality Audits.
- (b) Project Co shall provide an updated Quality Audit Program Plan in accordance with the timing set out in Table 2.6 following submission of the initial Quality Audit Program Plan.
- (c) The Quality Director shall update the schedule of the Internal Quality Audits and External Quality Audits at least quarterly or as agreed upon with Contracting Authority.
- (d) The Quality Director shall schedule external Independent Quality Audits at least annually or as agreed upon with Contracting Authority.

5.2 Project Co's Quality Audits

- (a) General
 - (i) Project Co shall conduct Internal Quality Audits and External Quality Audits of its own processes and those of Project Co Parties in accordance with the requirements of this Schedule 11, and the Quality Documentation, including the Quality Audit Program Plan.
 - (ii) The audit cycle shall be planned annually with audits being executed at least quarterly or as agreed upon with Contracting Authority. The quarterly audit scope shall cover the processes applicable to the Works and the Project Co Services of the preceding quarter as well as processes identified in the Non-Conformance Reports.
 - (iii) The audits shall be conducted by individuals independent from the planning, execution, warranty, or rehabilitation of all elements of the Works and the Project Co Services.

- (iv) The purpose of Project Co’s quality auditing process shall be to confirm that all activities comprising the Works and the Project Co Services are in compliance with the Quality Manual and Quality Management Plans, to identify all Non-Conformances and necessary Corrective Actions and to facilitate continuous improvement.
 - (v) Project Co shall notify Contracting Authority of all audits described in Section 5.2(a)(i) and the Independent Quality Audits and Contracting Authority may choose to be present during such audits as a witness.
 - (vi) The Quality Director shall schedule a Closing Meeting in respect of each Internal Quality Audit, External Quality Audit and Independent Quality Audit in accordance with Section 5.8(a).
 - (vii) Within ten (10) Business Days of the Closing Meeting in respect of each Internal Quality Audit, External Quality Audit and Independent Quality Audit (or such longer period of time agreed to by the Parties), Project Co shall document, or cause to be documented, the results of such Quality Audit in an audit report (each, a “**Project Co Quality Audit Report**”), and deliver a copy of such Project Co Quality Audit Report to Contracting Authority. With respect to each Independent Quality Audit, Project Co shall cause the independent quality auditor to deliver the Project Co Quality Audit Report to Contracting Authority at the same time such Project Co Quality Audit Report is submitted to Project Co.
 - (viii) Each Project Co Quality Audit Report shall, without limitation, set out (A) all of the Non-Conformances identified during the underlying Quality Audit, (B) all of the Corrective Actions to be implemented as a result of such Quality Audit, (C) subject to Section 5.2(a)(ix), all of the associated Corrective Action Dates, and (D) Project Co’s plan for implementing and completing all of the Corrective Actions by such Corrective Action Dates.
 - (ix) Each Corrective Action Date set out in a Project Co Quality Audit Report shall be a date that is set out in Table 7.1 following the date the Project Co Quality Audit Report is delivered to Contracting Authority in accordance with Section 5.2(a)(vii).
 - (x) Project Co shall implement and complete the implementation of each Corrective Action set out in a Project Co Quality Audit Report by the associated Corrective Action Date set out in such Project Co Quality Audit Report.
- (b) Specific Requirements
- (i) The Quality Director shall schedule Internal Quality Audits, External Quality Audits and Independent Quality Audits to ensure that all key processes are reviewed at least annually or as agreed upon with Contracting Authority.
 - (ii) Where necessary, follow-up audits shall be scheduled to ensure that identified Corrective Actions have been carried out by the applicable Corrective Action Dates.

- (iii) Internal Quality Audits, External Quality Audits and Independent Quality Audits shall be scheduled taking into account the status and importance of the processes being audited as well as the results of previous audits.
- (iv) Contracting Authority reserves the right to conduct follow up reviews, acting reasonably, but with Notice of not less than three (3) Business Days to Project Co to determine if the Corrective Actions set out in Project Co's Project Co Quality Audit Report have been implemented and completed.
- (v) For the purpose of facilitating the conduct of Internal Quality Audits and External Quality Audits relating to the Works and the Project Co Services, Project Co shall develop and implement checklists acceptable to Contracting Authority, for use by each of Project Co and Contracting Authority that itemizes requirements as specified in the respective Quality Management Plans.

5.3 Contracting Authority's Quality Audits

(a) General

- (i) Contracting Authority shall, following the submission of the Quality Documentation in accordance with this Schedule 11, review the Quality Documentation to identify the critical activities and processes described in the Quality Manual and Quality Management Plans on which Contracting Authority's auditing efforts and resources should be directed. Contracting Authority shall determine the frequency of auditing through regular and ongoing review of Project Co's performance and management systems. Procedures and activities relating to the Works and the Project Co Services that show good audit performance may have the frequency of auditing decreased, while those that show poor performance or increased risk of Non-Conformances may have the frequency of auditing increased. Without limiting Project Co's obligations under the Project Agreement, Project Co shall provide and shall ensure Project Co Parties provide Contracting Authority's auditors with all documentation, records, access, facilities and assistance requested in connection with Contracting Authority's Quality Audit activities.
- (ii) Project Co shall provide Contracting Authority electronic access to all Inspection and Test Plans, including supporting quality documentation, on a real time basis in order for Contracting Authority to undertake Quality Audits.
- (iii) Contracting Authority shall schedule a Closing Meeting in respect of each Quality Audit carried out by Contracting Authority pursuant to this Part 5 in accordance with Section 5.8.
- (iv) Following the Closing Meeting in respect of any Quality Audit carried out by Contracting Authority pursuant to this Part 5, Project Co shall (A) document, or cause to be documented, all of the Corrective Actions to be implemented as a result of such Quality Audit, all of the associated Corrective Action Dates, and Project Co's plan for implementing and completing all of the Corrective Actions by such Corrective Action Dates (each, a "**Corrective Actions Plan**"), and (B) deliver a copy of such Corrective Actions Plan to Contracting Authority in accordance with the requirements provided in

Part 7 and in addition, responding accordingly to findings related to opportunities for improvement.

(b) Specific Requirements

- (i) Where necessary, follow-up audits shall be scheduled to ensure that identified Corrective Actions are implemented and completed by the applicable Corrective Action Dates.
- (ii) Contracting Authority reserves the right to conduct follow up reviews, acting reasonably, but with notice of not less than three (3) Business Days to Project Co to determine if Project Co's Corrective Actions Plan has been implemented and completed in accordance with the Corrective Actions Plan.

(c) Types of Quality Audits

- (i) The following two types of Quality Audits may be conducted by, or on behalf of, Contracting Authority in its discretion:
 - (A) Surveillance Quality Audits – scheduled or unscheduled field audits conducted on a random basis or on specific areas of interest throughout the Project Term. The objective of these surveillance audits is to monitor Project Co's activities involving the Works and the Project Co Services, including but not limited to workmanship, performance measures and general quality of materials. Contracting Authority shall, during the performance of Surveillance Quality Audits, record any observations and inform Project Co of any deficiencies that require further evaluation. Any noted deficiencies shall be resolved to the satisfaction of Contracting Authority through evidence of Project Co's deficiency evaluation findings, the Corrective Actions process set forth in this Section 5.3, or the Non-Conformance process set forth in Part 7; and
 - (B) Quality Management System Audits – scheduled audits conducted at specific times to assess the performance of and compliance with the Quality Management System. Contracting Authority's lead auditor shall contact the Quality Director and confirm the scope and schedule of the audit, and schedule for associated audit meetings. At the audit opening meeting with Project Co, Contracting Authority's lead auditor shall review the audit scope and objectives. Contracting Authority's auditors shall conduct audit interviews and document any observations on prepared checklists. At the end of the audit interviews, Contracting Authority's lead auditor shall evaluate the observations and observed procedural or performance Non-Conformances that require Corrective Action.
- (ii) Contracting Authority's Quality Audits may include scheduled and unscheduled External Quality Audits.
- (iii) Additional information relating to Contracting Authority's Quality Audits with respect to particular Quality Management Plans is identified in the appendices to this Schedule 11.

5.4 Contracting Authority's Monitoring

- (a) In addition to carrying out any scheduled and unscheduled External Quality Audits of the Quality Management System (including audits relating to compliance with all Quality Documentation) as provided in Section 5.3, Contracting Authority may, at its discretion, carry out Quality Audits to monitor and verify the operation of the Quality Management System by, inter alia, carrying out spot checks and making independent inspections and tests of any Works, Project Co Services, or material including any Works, Project Co Services, or material which fails any test or is suspected by Contracting Authority of not complying with the requirements of the Project Agreement.

5.5 Deficient Quality Audits

- (a) If either:
- (i) Contracting Authority reasonably believes that Project Co is failing to conduct Quality Audits of its Quality Management System as required by the Project Agreement in any material respect or if such Quality Audits are not conducted in compliance with the ISO 9001:2015 Standard by personnel competent to conduct such Quality Audits; or
 - (ii) any auditing, monitoring or spot-checks of the Quality Management Systems reveals material deficiencies in the Quality Management System or the implementation thereof,

Contracting Authority may carry out increased levels of External Quality Audits (whether in number, duration or detail) of all or any aspect of the Quality Management System until such time as Contracting Authority is reasonably satisfied that none of the circumstances described in this Section 5.5(a) continue to exist.

5.6 Costs of Audits

- (a) If Contracting Authority carries out any audit pursuant to Section 5.3, Section 5.4 or Section 5.5, and the results of such audit shows any Non-Conformance that materially interferes with the delivery of the Works or the Project Co Services in accordance with the Output Specifications, Quality Manual and Quality Management Plans, then without limiting any other rights and remedies of Contracting Authority, Project Co shall compensate Contracting Authority for all costs incurred in carrying out such audit (including the relevant administrative expenses of Contracting Authority, including an appropriate sum in respect of general staff costs and overheads). All other audits carried out by Contracting Authority pursuant to Section 5.3, Section 5.4 or Section 5.5 shall be at Contracting Authority's cost.

5.7 Independent Quality Audits

- (a) In addition to the Internal Audits and External Audits, Project Co shall cause the Independent Quality Audits to be undertaken during the Works and the Project Co Services. These independent audits shall be conducted by a certified auditor who is qualified to audit the full scope of the Quality Management System, as acceptable to Contracting Authority and Project Co. The independent audit shall, at a minimum, ensure that all input requirements, as required by the Project Agreement, are included in the Quality Management System and adhered to in the performance of the Project Operations.

- (b) A full quality audit on each of the individual Quality Plans within the Quality Management System shall be completed within one (1) year after Financial Close and thereafter at least once per year during the Project Term.
- (c) Project Co shall cause the Independent Quality Audit report to be submitted to Contracting Authority concurrent to when such report is submitted to Project Co.

5.8 Quality Audit Closing Meetings

- (a) Within five (5) Business Days of the completion of any Quality Audit (or such longer period of time agreed to by the Parties), Project Co and Contracting Authority shall carry out a closing meeting in respect of such Quality Audit (each, a “**Closing Meeting**”) in accordance with Good Industry Practice.
- (b) The purpose of each Closing Meeting shall, without limitation, be for the auditor to present and for the Parties to discuss the Quality Audit and the findings and conclusions of the Quality Audit, including any Non-Conformances identified during the Quality Audit, proposed Corrective Actions, and their respective Corrective Action Dates. Without prejudicing any Party’s ability to initiate a Non-Conformance discovery at an earlier time, for the purposes of addressing Non-Conformances, the Closing Meeting shall be determined to be the date of discovery of a Non-Conformance arising from the Quality Audit.
- (c) Following the conclusion of the Closing Meeting, any Non-Conformances discovered shall be initiated and addressed pursuant to Part 7.

PART 6 QUALITY DOCUMENTATION

6.1 Principles

- (a) The minimum requirements and principles which apply to the Quality Documentation are set out in appendices A to D inclusive to this Schedule 11. Project Co's Quality Management System shall also comply with the requirements and principles of the ISO 9001:2015 Standard and this Schedule 11.

6.2 ISO Reference Documents

- (a) Without limiting the requirement of the Quality Management System to comply with the ISO 9001:2015 Standard, Project Co's Quality Management System shall also incorporate the requirements of the following reference documents:
- (i) ISO 9001:2015 Quality Management Systems – Requirements;
 - (ii) ISO 9000:2015 Quality Management Systems – Fundamentals and Vocabulary; and
 - (iii) ISO 19011:2018 Guidelines for Auditing Management Systems.

6.3 Quality Documentation Requirements

- (a) The minimum documentation requirements for the Quality Management System are:
- (i) the Quality Manual as required pursuant to Section 2.6;
 - (ii) the Quality Management Plans for all aspects of the Works and the Project Co Services as required pursuant to Section 2.6;
 - (iii) that each Quality Management Plan includes quality system procedures and process flow diagrams documenting who performs the Works, what they do, and what evidence shall be generated that they have performed quality related aspects of the Works correctly;
 - (iv) the Quality Audit Program Plan required pursuant to Section 5.1, including:
 - (A) the planned Quality Audits; and
 - (B) the Quality Audit checklists required pursuant to Section 5.2; and
 - (v) the Quality Records required pursuant to Section 6.8,
- (together, the “**Quality Documentation**”).

6.4 Submission of Quality Documentation

- (a) If any Quality Documentation relies on or incorporates any supporting Quality Documentation then such supporting Quality Documentation or the relevant parts thereof shall (unless Contracting

Authority otherwise agrees) be submitted to Contracting Authority at the time that the relevant Quality Documentation or part thereof or change, addition or revision to the Quality Documentation is submitted in accordance with the Schedule 10 – Review Procedure and the contents of such supporting Quality Documentation shall be taken into account in the consideration of the relevant Quality Documentation or part thereof or change, addition or revision to the Quality Documentation in accordance with Schedule 10 – Review Procedure. Contracting Authority may require the amendment of any such supporting Quality Documentation to the extent necessary to enable the relevant Quality Documentation to satisfy the requirements of this Schedule 11.

6.5 Project Co Obligation to Update

- (a) Project Co shall be responsible for proactively updating its Quality Management System and all Quality Documentation from time to time, in accordance with the procedures set forth in the Project Agreement, to ensure that the Quality Management System and all Quality Documentation are, and at all times remain, in full compliance with the ISO 9001:2015 Standard and the requirements of the Project Agreement. All testing, inspections, pass and fail conditions must be highlighted, and maintained for records.

6.6 Changes to Quality Documentation

- (a) Project Co shall submit to Contracting Authority in accordance with Schedule 10 – Review Procedure any proposed changes or additions to or revisions of any of the Quality Documentation.
- (b) If Project Co does not propose any change, pursuant to Section 6.6(a), which Contracting Authority determines to be required then Contracting Authority may propose such change and it shall be dealt with as though it had been proposed by Project Co pursuant to Section 6.6(a) and shall not be treated as a Variation. Any dispute between the Parties in respect of any such change shall be resolved in accordance with the Dispute Resolution Procedure.

6.7 Amendment of Quality Documentation

- (a) If there is no unresolved objection by Contracting Authority under Schedule 10 – Review Procedure to a part of the Quality Documentation pursuant to Section 6.4 or to a change, addition or revision proposed pursuant to Section 6.6(a), then the Quality Documentation shall be amended to incorporate such part, change, addition or revision.

6.8 Quality Records

- (a) Project Co shall establish and maintain complete and accurate quality management records (the “Quality Records”).
- (b) The Quality Records shall provide objective evidence of conformance with all requirements of the Project Agreement, compliance with the ISO 9001:2015 Standard and the effective operation of the Quality Management System.

6.9 Additional Information

- (a) Notwithstanding any other provision of this Schedule 11, Project Co shall provide Contracting Authority with such information as Contracting Authority may request from time to time to demonstrate compliance with this Schedule 11.

PART 7
NON-CONFORMANCES

7.1 Non-Conformance Reporting Process

- (a) The Non-Conformance reporting process, from initial discovery through to closeout of a Non-Conformance, shall follow the process outlined below:
- (i) Project Co shall develop a comprehensive procedure for the management of Non-Conformance, from initial discovery through to closeout of a Non-Conformance. This procedure shall address Non-Conformance Reports initiated by both Project Co and Contracting Authority and shall follow the process outlined below. If Project Co or Contracting Authority discover a Non-Conformance, they shall initiate a Non-Conformance Report in compliance with the ISO 9001:2015 Standard as follows:
 - (A) Project Co initiated Non-Conformance Reports – Project Co shall provide a Non-Conformance Report identifying the Non-Conformance to Contracting Authority within three (3) Business Days of discovery of the Non-Conformance; or
 - (B) Contracting Authority initiated Non-Conformance Reports – If at any time Contracting Authority is notified, or otherwise become aware, that there is any Non-Conformance relating to the Works or the Project Co Services, Contracting Authority may issue a Non-Conformance Report, without prejudice to any other right or remedy available to Contracting Authority, including the assignment of Performance Failures pursuant to Schedule 20 – Payment Mechanism.
 - (ii) A Non-Conformance Report initiated by either Party is issued to the Quality Director, thereby activating the Non-Conformance Report. The date of issue shall be recorded denoting the commencement of the time period for which the Non-Conformance Report has an ‘open’ status.
 - (iii) The Non-Conformance Report shall indicate a classification for each Non-Conformance, which classification shall be Minor Non-Conformance, Major Non-Conformance or Critical Non-Conformance.
 - (iv) For any Non-Conformance Report initiated for Project Co Services, the Quality Director shall in response to the Non-Conformance Report provide a Disposition in respect of the Non-Conformance in compliance with the ISO 9001:2015 Standard, and Table 7.1 of this Section 7.1, for:
 - (A) the discovery of a Non-Conformance, in the case of a Non-Conformance discovered by Project Co; or
 - (B) the notification (whether via written notification or a Non-Conformance Report) of a Non-Conformance discovered by Contracting Authority.

- (v) For any Non-Conformance Report initiated that is not for Project Co Services, the Quality Director shall, in response to the Non-Conformance Report, provide a Disposition in respect of the Non-Conformance and a Corrective Action in compliance with the ISO 9001:2015 Standard, and Table 7.1 of this Section 7.1, for:
 - (A) the discovery of a Non-Conformance in the case of a Non-Conformance discovered by Project Co; or
 - (B) the notification (whether via written notification or a Non-Conformance Report) of a Non-Conformance discovered by Contracting Authority.
- (vi) Project Co shall respond to a Non-Conformance described in a Non-Conformance Report:
 - (A) using one of the two responses listed under the heading “Status of Non-Conformance” as set out in Table 7.1; and
 - (B) satisfying all of the requirements listed under the headings “Disposition” and “Corrective Action” as set out in Table 7.1 for the applicable status of Non-Conformance.

Table 7.1 – Non-Conformance Disposition and Corrective Action Requirements

Status of Non-Conformance	Disposition	Corrective Action
Remedial action proposed	Project Co shall provide a plan to remedy the Non-Conformance, no later than fifteen (15) Business days following NCR notification (or other such time as agreed by the parties) which shall include, at a minimum: <ul style="list-style-type: none"> (a) a description of the remedy to be completed; (b) the actions that will need to be implemented to complete the remedy; (c) the applicable qualified individual that is responsible for verifying and confirming the completion of the remedy; and (d) the date by which the Non-Conformance shall 	Project Co shall describe the root cause of and the planned improvements to the delivery process to prevent the recurrence of the Non-Conformance, which shall include a Corrective Action Date, which, unless otherwise agreed by the Parties, shall not be a date that is later than fifteen (15) Business Days following the date of the Disposition.

Status of Non-Conformance	Disposition	Corrective Action
	<p>be remedied, which, unless otherwise agreed by the Parties or a different remedy date in respect of the Non-Conformance is expressly to be determined by any other provision of the Project Agreement, shall not be a date that is later than ten (10) Business Days following the date of the Disposition (the “NC Remedy Date”).</p>	
<p>Remedial action completed</p>	<p>Project Co shall provide:</p> <ul style="list-style-type: none"> (a) evidence that the Non-Conformance has been remedied; (b) the date by which it was remedied; and (c) the acceptance by the responsible professional who confirmed the Non-Conformance has been remedied. 	<p>Project Co shall</p> <ul style="list-style-type: none"> (a) describe the root cause of the Non-Conformance; (b) describe the planned improvements to the delivery process to prevent the recurrence of the Non-Conformance; and (c) provide a Corrective Action Date, by which the improvements shall be implemented which, unless otherwise agreed by the Parties, shall not be a date that is later than fifteen (15) Business Days following the date of approval of the

Status of Non-Conformance	Disposition	Corrective Action
		applicable Disposition.

- (vii) Project Co shall investigate and respond to all Non-Conformance Reports.
- (viii) Project Co may object to the issuance or severity category of any Non-Conformance Report by Contracting Authority. If such objection has not been resolved by mutual agreement between Contracting Authority and Project Co within five (5) Business Days of delivery by Project Co to Contracting Authority of a Notice of the objection, then either Party may refer the matter to the Dispute Resolution Procedure for determination.
- (ix) If Project Co fails to object to the severity category by Contracting Authority of a Non-Conformance Report within five (5) Business Days, Project Co is deemed to have accepted that Non-Conformance Report.
- (x) Contracting Authority may object to the severity category of any Non-Conformance Report initiated by Project Co. If such objection has not been resolved by mutual agreement between Contracting Authority and Project Co within five (5) Business Days of delivery by Contracting Authority to Project Co of a Notice of the objection, then either Party may refer the matter to the Dispute Resolution Procedure for determination.
- (xi) If Contracting Authority fails to object to the severity category of any Non-Conformance Report initiated by Project Co within five (5) Business Days of receipt of such Non-Conformance Report, Contracting Authority is deemed to have not objected to that Non-Conformance Report severity category.
- (xii) The Quality Director shall change the status of the Non-Conformance Report to ‘in progress’ once a Disposition has been submitted.
- (xiii) The Quality Director shall change the status of the Non-Conformance Report to ‘closed’ once:
 - (A) the Non-Conformance has been remedied and verified by both Project Co and Contracting Authority; and
 - (B) the Corrective Action has been implemented, completed and verified by both Project Co and Contracting Authority.
- (xiv) The Quality Director shall confirm in writing to Contracting Authority the date that a Non-Conformance Report has entered the status of ‘closed’, within three (3) Business Days of it entering that status.

7.2 Non-Conformance Report Tracking System

- (a) Project Co shall implement and maintain a Non-Conformance Tracking System to monitor the status of all Non-Conformance Reports initiated by Contracting Authority and Project Co.
- (b) The Non-Conformance Tracking System shall be fully operational within ninety (90) days from Financial Close, with the following minimum requirements, so as to:
 - (i) comprise a single, secure, searchable and auditable database repository containing both Project Co and Contracting Authority initiated Non-Conformance Reports;
 - (i) maintain a full history of all opened Non-Conformance Reports, irrespective of status (open/closed, accepted/in dispute, etc.) ensuring no record is lost,
 - (ii) have the ability to attach supporting material such as photos and documents;
 - (iii) provide live access to the current Non-Conformance Report status to both Project Co and Contracting Authority; and
 - (iv) record Deductions and Failure Points for Performance Failures pursuant to Schedule 20 – Payment Mechanism.

7.3 Non-Conformance Measures (Action)

- (a) Project Co shall remedy each Non-Conformance set out in a Non-Conformance Report before the NC Remedy Date for that Non-Conformance.
- (b) Project Co shall implement and complete the implementation of each Corrective Action identified in accordance with Table 7.1 of Section 7.1 before the expiry of the associated Corrective Action Date identified in accordance with such Table.

7.4 Non-Conformance Records

- (a) In addition to the maintenance of the Non-Conformance Tracking System under Section 7.2, Project Co shall maintain and make available to Contracting Authority upon request, records of:
 - (i) each Non-Conformance;
 - (ii) the reference numbers of all Non-Conformance Reports;
 - (iii) a severity classification for each Non-Conformance, which shall be “Minor Non-Conformance”, “Major Non-Conformance” or “Critical Non-Conformance”;
 - (iv) a description of all Non-Conformance Reports;
 - (v) the proposed actions by Project Co to rectify each Non-Conformance;
 - (vi) the date at which each Non-Conformance was identified;

- (vii) the date and time at which a Non-Conformance specified in a Non-Conformance Report was remedied;
- (viii) the date at which Contracting Authority was notified of Non-Conformance identification;
- (ix) the date at which the Disposition of the Non-Conformance was issued to the Contracting Authority;
- (x) the date at which the Disposition of the Non-Conformance was agreed by the parties;
- (xi) the mutually agreed Corrective Action Date for the Non-Conformance;
- (xii) the date of Non-Conformance achieving ‘closed’ status; and
- (xiii) the date of Non-Conformance ‘closed’ status notifications to Contracting Authority.

PART 8
PERFORMANCE REPORTING

8.1 Obligation to Report

- (a) Project Co shall prepare a report (a “**Monthly Performance Monitoring Report**”) in respect of each Payment Period. The Monthly Performance Monitoring Report shall be submitted to Contracting Authority no later than the deadline set out in Section 34.6(i) (*Invoicing and Payment Arrangements*) of the Project Agreement, and shall describe performance of the Project Co Services for the purposes of Schedule 20 – Payment Mechanism in respect of the relevant Payment Period. The Monthly Performance Monitoring Report shall set out Project Co’s calculation of each of the following (each stated separately), and shall contain and be reconcilable with information set out in the daily recording of the applicable Performance Information in the Performance Reporting System and Performance Dashboard, as applicable, for the relevant Payment Period:
- (i) In respect of Trip Capacity Failures, to calculate the Trip Availability Failure for the relevant Payment Period:
 - (A) Total of all Scheduled Trips and Additional Trips for the relevant Payment Period, for the Peak Period and Off-Peak Period and further broken down by each Period;
 - (B) Total of all Completed Trips for the relevant Payment Period, for the Peak Period and Off-Peak Period and further broken down by each Period; and
 - (C) Total of all Scheduled Trips and Additional Trips credited to Project Co for the relevant Payment Period due to a Non-Project Co Cause, for the Peak Period and Off-Peak Period and further broken down by each Period, including details of the issue or event that resulted in the Non-Project Co Cause;
 - (ii) In respect of Trip Punctuality Failures, to calculate the Trip Availability Failure for the relevant Payment Period:
 - (A) Total of all Maximum Journey Times for all Scheduled Base Trips, Additional Base Trips and System Relief Trips for the relevant Payment Period, for both Peak Period and Off-Peak Period;
 - (B) Total Service Delay Seconds accumulated for the relevant Payment Period, broken down by Total Headway Service Delay Seconds and Total Journey Time Service Delay Seconds, for both Peak Period and Off-Peak Period; and
 - (C) All Total Service Delay Seconds, broken down by Total Headway Service Delay Seconds and Total Journey Time Service Delay Seconds, credited to Project Co for the relevant Payment Period due to a Non-Project Co Cause, for both Peak Period and Off-Peak Periods, including details of the issue or event that resulted in the Non-Project Co Cause;
 - (iii) In respect of Station Availability Failures for the relevant Payment Period:

- (A) Total of all Scheduled Station Hours for the relevant Payment Period, for both Peak Period and Off-Peak Period and broken down by Station name and group;
- (B) Total of all Station Availability Failure Hours, for both Peak Period and Off-Peak Period and broken down by Station name and group; and
- (C) Total of all Scheduled Station Hours credited to Project Co for the relevant Payment Period due to a Non-Project Co Cause, for both Peak Period and Off-Peak Period and broken down by Station name and group, including details of the issue or event that resulted in the Non-Project Co Cause;
- (iv) Total number of System Events for the relevant Payment Period, including details of the triggering event for each System Event;
- (v) Total number of Station Events for the relevant Payment Period, including details of the triggering event for each Station Event;
- (vi) Total of all Failure Points assigned due to the occurrence of any and all Trip Availability Failures, Station Availability Failures, System Events and Station Events for the relevant Payment Period;
- (vii) Total number of Performance Failures and associated Failure Points for the relevant Payment Period;
- (viii) Total number of Heavy Civil Failures and associated Failure Points for the relevant Payment Period;
- (ix) Total of all Performance Failures and Heavy Civil Failures that Project Co was entitled to relief for a Non-Project Co Cause for the relevant Payment Period, including details of the issue or event that resulted in the Non-Project Co Cause; and
- (x) Total number of Energy Failures for the relevant Payment Period.
- (b) The following aspects of Monthly Performance Monitoring Reports are addressed in Schedule 20 – Payment Mechanism:
 - (i) the applicability of Monthly Performance Monitoring Reports to the Payment Mechanism;
 - (ii) claims regarding errors or omissions in a Monthly Performance Monitoring Report; and
 - (iii) failure by Project Co to monitor or report.
- (c) For each month of the Project Term, Project Co shall prepare, and submit to Contracting Authority a comprehensive Quality Management System report as indicated in Table 2.6.
- (d) Specific Requirements

- (i) Each monthly Quality Management System report shall address all quality management activities under each of the Quality Management Plans for that month and any outstanding quality issues from prior months.
- (ii) Each monthly Quality Management System report shall, at a minimum, include the following information separately identified for the Quality Manual and for each Quality Management Plan:
 - (A) a Non-Conformance Report log summarizing all Non-Conformance Reports opened, closed, or still open from the previous report, in the relevant month and providing the following: “date open”, “date closed”, “status” (open, pending, closed), “classification” (Minor Non-Conformance, Major Non-Conformance, Critical Non-Conformance), “disposition” (repair, rework, reject) and “description of status” which describes the current status of the Non-Conformance Report and if closed, when and how it was closed;
 - (B) Corrective Action logs providing details of the Corrective Actions performed during the month and their close-out status;
 - (C) a summary of any inspection and testing activities conducted during the month;
 - (D) Internal Quality Audits and External Quality Audits performed during the month and a four (4) month look-ahead schedule for planned future Quality Audits;
 - (E) any continual improvement initiatives taken during the month;
 - (F) the number of Performance Failure Deductions in each Performance Failure Category accrued within the last month pursuant to Schedule 20 – Payment Mechanism;
 - (G) the number of Failure Points for Performance Failures in each Performance Failure Category accrued within the last month pursuant to Schedule 20 – Payment Mechanism;
 - (H) summary of statistics and historic trends since Financial Close for:
 - (I) the number of Non-Conformance Reports with the following status each month since Financial Close: ‘open’, ‘in progress’ and ‘closed’; and
 - (II) the number of Performance Failure Deductions in each Performance Failure Category each month pursuant to Schedule 20 – Payment Mechanism;
 - (I) the number of Failure Points for Performance Failures in each Performance Failure Category each month pursuant to Schedule 20 – Payment Mechanism;

- (J) any other information required to be included in the monthly Quality Management System reports pursuant to any of the appendices to this Schedule 11 or the terms of the relevant Quality Management Plan;
 - (K) any changes made to the Quality Management System or the Quality Documentation in compliance with the provisions of the Project Agreement;
 - (L) status of Quality Management System documentation; and
 - (M) graphical presentation of performance data analysis (current and forecasted), including:
 - (I) percentage and number of Non-Conformance Reports closed on or before Corrective Action Date and Non-Conformance Reports due for closure to the end of reporting month;
 - (II) percentage and cumulative number of Non-Conformance Reports in “open” status and cumulative total of all Non-Conformance Reports issued to the end of reporting month;
 - (III) percentage and number of audits performed versus planned;
 - (IV) percentage and number of audit reports issued within ten (10) Business Days and completed audits in total and for that period;
 - (V) percentage and number of documents submitted for review requiring more than five (5) revision cycles prior to approval versus total number of documents accepted; and
 - (VI) percentage and number of documents submitted and accepted within target date versus total number of documents submitted,
- (together, the “**Quality Key Performance Indicators**”).

**PART 9
PERFORMANCE MEASURES**

9.1 Application of Performance Criteria

- (a) The Performance Failures set out below and associated payment penalties shall not be applicable until following Substantial Completion.

9.2 Performance Criteria

- (a) Performance Criteria have been established in accordance with Schedule 20 – Payment Mechanism. Project Co shall achieve the following Performance Criteria during the Operational Term.

Performance Failure Category	Response, Rectification, Remediation	Record Frequency
<p>“Critical” means a Critical Failure category. “Major” means a Major Failure Category. “Medium” means a Medium Failure Category. “Minor” means a Minor Failure Category.</p>	<p>“Resp. Time” means Response Time. “Rect. Time” means Rectification Time. “Rem. Time” means Rem Time. “I” means Immediately. “N/A” means not applicable. “NOD” means before the next start of revenue service.</p>	<p>“PR” means per request. “PE” means per Event. “D” means daily. “W” means weekly. “M” means monthly. “Q” means quarterly. “B” means bi-annually. “A” means annually. “R” means randomly.</p>

Reference	Requirement to be met	Performance Failure Category	Resp. Time	Rect. or Rem. Time	Record Frequency	Application (Maximum Project Co Exposure)
5.1(b)	Project Co shall provide an updated Quality Audit Program Plan at quarterly intervals following submission of the initial Quality Audit Program Plan.	Major	NA	1 Month	Q	1 per Contract Month
5.2(a)(ii)	The Quality Director shall schedule Internal Quality Audits and External Quality Audits at least quarterly or as agreed upon with Contracting Authority.	Major	NA	1 day	Q	1 per day
5.2(a)(vii)	Project Co shall deliver to Contracting Authority the Project Co Quality Audit Report within ten (10) Business Days of the applicable Closing Meeting.	Major	NA	1 day	PE	1 per day
5.2(a)(ix)	Project Co shall implement and complete the implementation of each Corrective Action by the applicable Corrective Action Date.	Major	NA	1 day	PE	1 per day

Reference	Requirement to be met	Performance Failure Category	Resp. Time	Rect. or Rem. Time	Record Frequency	Application (Maximum Project Co Exposure)
5.3(a)(iv)	Project Co shall deliver to Contracting Authority a Corrective Actions Plan within fifteen (15) Business Days of the applicable Closing Meeting.	Major	NA	1 day	PE	1 per day
Table 7.1	Project Co shall implement and complete the implementation of each Corrective Action by the applicable Corrective Action Date.	Major	NA	1 day	PE	1 per day
7.3(a)	Project Co shall eliminate each Non-Conformance before the date set out in the Non-Conformance Report for that Non-Conformance.	Major	NA	1 day	PE	1 per day per Non-Conformance
8.1(a)	The Monthly Performance Monitoring Report shall be submitted to Contracting Authority within five (5) Business Days following the end of each Payment Period.	Major	NA	1 day	PE	1 per day
8.1(c)	For each month of the Project Term, Project Co shall prepare and submit to Contracting Authority within ten (10) Business Days of the start of the following month, a comprehensive Quality Management System report.	Major	NA	1 day	PE	1 per day

APPENDIX A TO SCHEDULE 11

QUALITY MANUAL

A.1 Quality Manual

- (a) Project Co shall provide a comprehensive Quality Manual that describes the Quality Management System for all aspects of the Works and the Project Co Services. The Quality Manual shall establish the Quality Policy and Quality Objectives for all aspects of the Works and the Project Co Services and, in compliance with the requirements of the ISO 9001:2015 Standard, shall describe the processes that shall be established, implemented, controlled, and continually improved to achieve the established Quality Objectives.
- (b) The Quality Objectives shall be measurable, consistent with the Quality Policy and linked to meeting the needs and performance expectations of Contracting Authority in respect of the Project. The Quality Management System described in the Quality Manual shall include all the activities required to achieve these Quality Objectives, including project controls such as scope, cost, schedule and general document control management activities. All of these activities shall be subject to Internal Quality Audits and External Quality Audits.
- (c) The Quality Manual shall describe the Project Co Parties involved in performing the Works and the Project Co Services and how key management activities (such as project controls, traffic management, design management, Construction Activities, the Project Co Services and environmental matters) shall interface with each other. The Quality Manual shall also provide the organization chart identifying the authority and responsibilities of all Key Individuals and other key personnel involved with the aforementioned aspects of the Project. The Quality Manual shall also show how the various levels of Quality Management System documentation are linked together.
- (d) The Quality Manual shall clearly define the reporting function and authority of Project Co's Quality Director who shall liaise with Contracting Authority and act as the single point representative of Project Co for all matters relating to quality management.
- (e) The Quality Manual shall be supported by Quality Management Plans that describes a specific Quality Management System for the respective scope of work. Refer to Appendices B to D to this Schedule 11 for requirements of the Quality Management Plans.
- (f) The Quality Manual shall include a matrix showing traceability (with references to respective sections of the Quality Manual or other documents) of compliance to each section of the ISO 9001:2015 Standard and this Schedule 11.

APPENDIX B TO SCHEDULE 11

DESIGN QUALITY MANAGEMENT PLAN

B.1 Design Quality Management Plan

- (a) Project Co shall implement and comply with a comprehensive Design Quality Management Plan that describes how it intends to manage the design processes for the Project in compliance with the ISO 9001:2015 Standard, its Quality Manual and the provisions of the Project Agreement. The DQMP is to apply throughout the Works and for Project Co Services throughout the Project Term.
- (b) The DQMP shall contain an organizational chart identifying Key Individuals and other key personnel responsible for design management and their relationship with the Quality Director for Project Co's overall Quality Management System as documented in Project Co's Quality Manual. It shall also contain a description of the responsibilities, qualifications, and authority of the above personnel and the organizational interfaces between those responsible for design management and other engineering and construction management disciplines.
- (c) The DQMP shall, at a minimum, include or reference detailed Quality Management System procedures and process flow diagrams for the following processes:
 - (i) design development and planning;
 - (ii) design input and output review;
 - (iii) design verification to ensure that design input requirements have been met;
 - (iv) design validation to ensure that the completed project is capable of meeting its intended use;
 - (v) design changes, including the review, acceptance, and documented confirmation by the professional responsible for the applicable Project element or component;
 - (vi) design risk identifications and mitigation processes;
 - (vii) design coordination;
 - (viii) design interface management;
 - (ix) design communications and protocol during design phase;
 - (x) control of outsource processes and products;
 - (xi) quality assessment and procurement of Project Co Parties responsible for design, including competence, awareness and training needs, identification, assessment and provision;

- (xii) scheduling and preparation of construction stage quality control activities inspection, testing, third party testing, and scheduling of inspection and testing of long lead equipment, systems and components;
 - (xiii) certification of Design in accordance with the requirements of Section 2.3;
 - (xiv) certification of Works in accordance with the requirements of Section 2.3;
 - (xv) External Quality Audits of Project Co Parties responsible for design;
 - (xvi) Internal Quality Audits;
 - (xvii) Corrective Actions, and opportunities for improvement;
 - (xviii) document management;
 - (xix) Works Submittal scheduling and Project Works Schedule audits;
 - (xx) control of revisions to issued for construction documentation during construction; and
 - (xxi) control of Quality Records.
- (d) The above procedures and flow diagrams shall document who does the work, what they do, and what evidence is generated that they have done the work correctly.
- (e) The above processes are already covered as part of the Quality Manual or in other Quality Documentation. The process heading is still required to be identified as part of the DQMP. However, the details can be minimized by providing a reference to the other applicable Quality Documentation. Notwithstanding the above, processes that fall within the specific requirements of the DQMP must have detailed quality system procedures and process flow diagrams covered in the DQMP.

APPENDIX C TO SCHEDULE 11

CONSTRUCTION QUALITY MANAGEMENT PLAN

C.1 Construction Quality Management Plan

- (a) Project Co shall provide a comprehensive Construction Quality Management Plan that describes how it intends to manage the Construction Activities in compliance with the ISO 9001:2015 Standard, its Quality Manual and the provisions of the Project Agreement. The CQMP is to apply throughout the Project Term.
- (b) The CQMP shall contain an organizational chart identifying Key Individuals and other key personnel responsible for construction management and their relationship with the Quality Director for Project Co's overall Quality Management System as documented in Project Co's Quality Manual. It shall also contain a description of the responsibilities, qualifications, and authority of the above personnel and the organizational interfaces between those responsible for construction management and other disciplines such as design management, Project Co Services, environmental management and traffic management.
- (c) The CQMP shall address the manner in which the construction, instrumentation and monitoring requirements described in the Output Specifications relate to design and construction of the Works, including pre-construction activities, construction staging, existing road service disruption avoidance measures, and post-construction activities.
- (d) The CQMP shall, at a minimum, include or reference detailed procedures and process flow diagrams for the following processes:
 - (i) Project Works Schedule management and audits;
 - (ii) inspection, testing and monitoring;
 - (iii) design support and involvement during construction, assessment of constructed works, and acceptance by the design professionals responsible for all Project elements and components;
 - (iv) materials identification and traceability;
 - (v) quality assessment and procurement of Project Co Parties responsible for construction;
 - (vi) External Quality Audits of Project Co Parties responsible for construction;
 - (vii) Internal Quality Audits;
 - (viii) control of nonconforming product and how they will be tracked in relation to Non-Conformances;
 - (ix) Corrective Actions, and opportunities for improvement;

- (x) document management;
- (xi) control of “issued for construction” drawing mark ups to reflect the as-built condition including capture of the reasons for any changes from the issued for construction documents and any necessary authorizations and the preparation of As-Built Drawings and Record Drawings;
- (xii) construction interface management;
- (xiii) change management during construction;
- (xiv) certification of Works in accordance with the requirements of Section 2.3;
- (xv) control of records; and,

if the above processes are already covered as part of another Quality Management Plan or procedure, the process heading is still required to be identified as part of the CQMP. However, reference may be made to the other applicable plan to satisfy this requirement. Notwithstanding the above, processes that fall within the specific requirements of the construction must have detailed procedures and process flow diagrams covered in the CQMP.

- (e) The above procedures and flow diagrams shall document which role is responsible for performing the work, what requirements they must follow, and what evidence is generated that they have performed the work correctly.
- (f) Inspection and Test Plan
 - (i) Project Co shall provide the Inspection and Test Plan all on-Site and off-Site inspection and test activities for Works performed by Project Co and the Project Co Parties.
 - (ii) The CQMP shall include a listing of the Inspection and Test Plan.
 - (iii) Project Co shall submit specific Inspection and Test Plan, each addressing the discrete element of the Works as described in the Output Specifications, and which may require reference to completed design requirements and drawings, separately from the CQMP,
 - (A) at least six (6) weeks prior to the scheduled start of each applicable element of the Works, as described in the Output Specifications, is to be undertaken; and
 - (B) Project Co shall not commence or permit the commencement of any aspect of the Works before the corresponding Inspection and Test Plan has been submitted to and reviewed by Contracting Authority in accordance to this Appendix C.
 - (iv) The scope of the Inspection and Test Plan shall be at the level of the particular element of the Works, as described in the Output Specifications, that is:
 - (A) discrete;

- (B) in its final position, or can be placed in its final position without modification; and
- (C) ready for its intended use.
- (v) The Inspection and Test Plan shall include a progressive and step-wise series of inspection and testing activities for each discrete element of the Works, including a progressive and step-wise series of Witness and Hold Points leading to scheduled close out of Project Co's inspection and testing activity. For clarity, Contracting Authority may attend these Witness and Hold Points in its oversight function, but the Witness and Hold Points are for the sole purpose of Project Co meeting its obligations under the Project Agreement.
- (vi) At the commencement of each week, Project Co shall issue a two-week look-ahead schedule (the "**ITP Two-Week Look-Ahead**") of all planned Witness and Hold Points for the following:
 - (A) scheduled timing of Witness and Hold Points for fabrication or manufacture of elements of the Works at a location that is not on the Lands;
 - (B) scheduled timing of Witness and Hold Points for Works activities that will occur at, and between, the hours of 8:00 a.m. and 5:00 p.m., Monday to Friday; and
 - (C) scheduled timing of Witness and Hold Points for Works activities that will occur outside of hours 8:00 a.m. and 5:00 p.m. Monday to Friday and any activities occurring on Saturday, Sundays or statutory holidays.
- (vii) Project Co shall alert Contracting Authority to any alterations to the scheduled timings in the ITP Two-Week Look-Ahead in a timely manner.
- (viii) No later than close of business five (5) Business Days prior to the scheduled timing of any Witness and Hold Point, Project Co shall provide the Contracting Authority Representative with advance written Notice stating the time and date of the Witness and Hold Point. For changes to scheduled timings that occur with less than two (2) Business Days of Notice Project Co shall ensure the local Site monitoring staff of Contracting Authority is made aware of the change as soon as possible and are provided an opportunity to be present for the Witness and Hold Points.
- (ix) For clarity, Project Co may proceed with the activity past any Witness and Hold Point if Contracting Authority is not in attendance within two hours of the scheduled time.
- (x) The Inspection and Test Plan shall, at a minimum, include:
 - (A) a description of the inspection, testing and monitoring activity;
 - (B) frequency of inspections, tests and monitoring;
 - (C) reference to standards, codes, specifications, and acceptance criteria;
 - (D) reports and checklists required;

- (E) personnel responsible for inspection, testing and monitoring activity;
 - (F) Witness and Hold Points for inspection activities where the responsible Design Team member is to be present to assess the conformance of the work with the applicable design, and to identify any Non-Conformances or potential Non-Conformances that must be remedied;
 - (G) description and frequency of geotechnical instrumentation monitoring and adherence to acceptance criteria;
 - (H) a description of the process of how Project Co will conduct and document its quality control and sign off for each Witness and Hold Point and close out of each Inspection and Test Plan; and
 - (I) a description of the process by which Project Co will notify Contracting Authority in advance of any inspection, testing, monitoring, quality assurance review, Witness and Hold Points, and reports that allows Contracting Authority to carry out the auditing or monitoring contemplated in Sections 5.3 and 5.4 of this Schedule 11.
- (g) The personnel identified in the Inspection and Test Plan for implementing the inspection, testing and monitoring activities, as well as the quality assurance review, Witness and Hold Points against any inspection or test activities, shall be demonstrated to be qualified in such inspection or review.
- (h) In addition to the Witness and Hold Points specified in the Inspection and Test Plan, Contracting Authority retains the right to specify additional Witness and Hold Points against any inspection or test activity that Contracting Authority requires the opportunity to observe.
- (i) Project Co shall report on the status of the ITPs on a monthly basis and include the following:
- (i) list of the ITPs completed and signed off;
 - (ii) list of measuring devices with their serial numbers utilized during the reporting month and their associated calibration status with applicable dates;
 - (iii) lab test results completed during reporting month; and
 - (iv) mill test certificates of base materials received during reporting month.

APPENDIX D TO SCHEDULE 11

PROJECT CO SERVICES QUALITY MANAGEMENT PLAN

D.1 Project Co Services Quality Management Plan

- (a) Project Co shall provide a comprehensive Project Co Services Quality Management Plan that describes how it intends to monitor and measure its performance of the Project Co Services in compliance with the ISO 9001:2015 Standard, the Quality Manual and the provisions of the Project Agreement. The PCSQMP shall also be aligned with all relevant Project Agreement performance measures. The PCSQMP is to apply following Substantial Completion.
- (b) The PCSQMP shall contain an organizational chart identifying Key Individuals and other key personnel responsible for management of Project Co Services and their relationship with the Quality Director for Project Co's Quality Management System as documented in Project Co's Quality Manual. It shall also contain a description of the responsibilities, qualifications, and authority of the above personnel and the organizational interfaces between those responsible for management of Project Co Services and other disciplines such as design management, construction management, environmental management and traffic management.
- (c) Project Co shall develop documented quality system procedures and process flow diagrams to ensure that all Project Agreement requirements in respect of the Project Co Services are met or exceeded. These procedures and flow diagrams shall document who does the work, what they do, and what evidence is generated that they have done the work correctly.
- (d) The PCSQMP shall include a compliance monitoring process to track compliance with all performance measures. The performance measures compliance monitoring process must clearly describe the approach taken in assessing compliance and define the frequency and method of monitoring and reporting such compliance. Contracting Authority shall review Project Co's performance measures compliance monitoring process and may request changes that Contracting Authority considers appropriate to facilitate the accurate and appropriate monitoring and reporting of compliance with the performance measures and otherwise to meet the requirements of the Project Agreement. Project Co shall promptly implement any such changes requested by Contracting Authority. Project Co's performance measures compliance monitoring process shall be subject to ongoing review by Contracting Authority throughout the Project Term.

SCHEDULE 12

WORKS SCHEDULE REQUIREMENTS

1. DEFINITIONS AND INTERPRETATION

1.1 Definitions

In this Schedule 12, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 12) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) “**Baseline Works Schedule**” has the meaning given in Section 9.1(a).
- (b) “**Basis of Works Schedule Report**” has the meaning given in Section 12.1(a).
- (c) “**Change Log**” has the meaning given in Section 13.1(b)(ix)(A).
- (d) “**Close-out Activity**” means any activity of the Works and any associated Milestone Event that immediately precedes Substantial Completion or Final Completion of the Works, including:
 - (i) all inspections of the Works by Contracting Authority, third parties, and the Independent Certifier required by the Project Agreement;
 - (ii) identification and rectification of Minor Deficiencies;
 - (iii) finalization and issuance of Record Drawings;
 - (iv) Commissioning Activities; and
 - (v) Handover Activities (New Third Party Infrastructure),and “**Close-Out Activities**” means all such activities and associated Milestone Events.
- (e) “**Commissioning Activity**” means any commissioning activity and associated Milestone Event contemplated in the Project Agreement, including each commissioning activity and associated Milestone Event contemplated in Schedule 14 – Commissioning and the Output Specifications; and “**Commissioning Activities**” means all such activities and associated Milestone Events.
- (f) “**Corrected Works Schedule**” has the meaning given in Section 4(d)(i)(B).
- (g) “**Cost Performance Index**” has the meaning as set out in the Project Management Institute’s *Practice Standard for Earned Value Management – Second Edition*.
- (h) “**Critical Path**” has the meaning given in Section 1.9(a) of Appendix A to this Schedule 12.

- (i) **“Data Date”** means the date of the activity and schedule data on which a Project Works Schedule is based. For the Proposed Works Schedule, Interim Baseline Works Schedule and the Baseline Works Schedule, the Data Date shall equal the Financial Close date. For the Progress Works Schedule, the Data Date is the cut-off date for the reporting period. For the Revised Baseline Works Schedule, Recovery Works Schedule(s) and Works Micro-Schedule(s), Contracting Authority shall determine the Data Date.
- (j) **“Design Activity”** means any activity and associated Milestone Event required to complete the design of the Project and **“Design Activities”** means all such activities and associated Milestone Events.
- (k) **“Earned Value”** has the meaning as set out in the Project Management Institute’s *Practice Standard for Earned Value Management – Second Edition*.
- (l) **“Earned Value Metrics”** has the meaning given in Section 13.1(b)(vi)(A).
- (m) **“Handover Activity (New Third Party Infrastructure)”** means any activity and associated Milestone Events required to achieve Handover of any New Third Party Infrastructure to the applicable owner of the New Third Party Infrastructure, including:
 - (i) all inspections of the New Third Party Infrastructure required by the Project Agreement including inspections by Contracting Authority and the relevant third party;
 - (ii) identification and resolution of any construction defects, deficiencies and damage to the New Third Party Infrastructure;
 - (iii) finalization and issuance of the applicable Record Drawings; and
 - (iv) provision of training to the applicable third party staff,and **“Handover Activities (New Third Party Infrastructure)”** means all such activities and associated Milestone Events.
- (n) **“Interim Baseline Works Schedule”** has the meaning given in Section 8(a).
- (o) **“Labour Resources”** means planned person-hours employed to achieve each of the Works Activities.
- (p) **“Late Schedule Submission Deduction”** has the meaning given in Section 7(a).
- (q) **“Milestone Event”** means, for each of the Works Activities,
 - (i) the start and completion of each deliverable and the identification of any external constraints which are associated with the applicable activity;
 - (ii) interfaces with Stakeholders associated with the applicable activity;
 - (iii) closures on the CP Rail Corridor Lands (track or signaling) associated with the applicable activity;

- (iv) closures on the Rail Corridor associated with the applicable activity; and
- (v) Witness and Hold Points.
- (r) **“No Comment or Reviewed As Noted – Minor Issues Designation”** means a designation, determined by Contracting Authority after review of a Project Works Schedule in accordance with Schedule 10 – Review Procedure, of either,
 - (i) **“NO COMMENT”** on the applicable Project Works Schedule; or
 - (ii) **“REVIEWED AS NOTED – MINOR ISSUES”** on the applicable Project Works Schedule, with no **“RESUBMIT”** requirement, and provided that all non-conformances noted in the review have been corrected.
- (s) **“PLAA Activity”** means for each Permit, Licence or Approval, any of the activities or Milestone Events associated with that Permit, Licence or Approval, including:
 - (i) consultation and/or coordination activities with the applicable Governmental Authority and, if applicable, property owners;
 - (ii) preparation of documentation for the Permit, Licence or Approval request, including pre-submission co-ordination and consultation; and
 - (iii) review and approval of the Permit, Licence or Approval, including all activities and Milestone Events commencing on the date the initial submission for the Permit, Licence or Approval and ending on the anticipated date of decision of the third party with respect to that Permit, Licence or Approval, which anticipated date of decision shall, with respect to a Listed Project Co PLAA, be consistent with the applicable Listed Project Co PLAA Deadline,and **“PLAA Activities”** means all such activities and Milestone Events.
- (t) **“Planned Value”** has the meaning as set out in the Project Management Institute’s *Practice Standard for Earned Value Management – Second Edition*.
- (u) **“Planned Value Curve”** means a graphical and tabular representation of the cost loaded schedule showing the cost per month and the cumulative curve.
- (v) **“Procurement Activity”** means any activity or Milestone Event required for the timely purchase, set-up, manufacture, installation and use of long-lead items (for example, prefabricated or preassembled structures or structural elements, elevator and fibre-optic cabling, and other similar long-lead items) as required by the Project Agreement including:
 - (i) issuance of purchase order or contract finalization including,
 - (A) coordination of the procurement with the Works;
 - (B) establishment of procurement processes and bundling strategies; and

- (C) validation of technical requirements of the long-lead item;
- (ii) setup and certification of plant associated with the long-lead item;
- (iii) manufacturing or assembly of the long-lead item;
- (iv) approval of shop drawings;
- (v) factory acceptance testing;
- (vi) receipt of first and last deliveries;
- (vii) installation the long-lead item(s); and
- (viii) commencement and completion of inspection, integration, testing, commissioning, certification, and training,

and “**Procurement Activities**” means all such activities and Milestone Events.

- (w) “**Progress Works Schedule**” means Project Co’s working schedule that is:
 - (i) Traceable to and progressed from the Baseline Works Schedule, or the Revised Baseline Works Schedule, as applicable;
 - (ii) Traceable to and progressed from the Progress Works Schedule of the immediately previous month; and
 - (iii) prepared, maintained, updated, and submitted by Project Co, on a monthly basis, in accordance with this Schedule 12.
- (x) “**Project Control Schedule**” has the meaning given in the AACE International Recommended Practice entitled, “*Schedule Levels of Detail – As Applied in Engineering, Procurement and Construction*”.
- (y) “**Project Schedules Management Plan**” means the plan to audit the Project Works Schedules prepared by Project Co in accordance with Section 15(a).
- (z) “**Project Works Schedule**” means any schedule required pursuant to this Schedule 12, including the Proposed Works Schedule, Corrected Works Schedule, Interim Baseline Works Schedule, Baseline Works Schedule, Revised Baseline Works Schedule, Progress Works Schedule, Works Micro-Schedule or Recovery Works Schedule, and “**Project Works Schedules**” means all such Works schedules.
- (aa) “**Project Works Schedule Submission Register**” has the meaning given in Section 1.1(e) of Appendix A to this Schedule 12.
- (bb) “**Proposed Works Schedule**” means the schedule in respect of the Works submitted by Project Co, as the preferred proponent, in the Request for Proposals process that preceded this Project Agreement, as amended and updated prior to Commercial Close.

- (cc) “**Quantity**” means material resources with an assigned unit of measure in accordance with Good Industry Practice, which is substantiated by Project Co.
- (dd) “**Recovery Works Schedule**” has the meaning given in Section 14.1(a).
- (ee) “**Recovery Works Schedule Report**” has the meaning given in Section 14.1(a).
- (ff) “**Review Procedure Activities**” means all activities associated with the implementation of Schedule 10 – Review Procedure to the Project Agreement.
- (gg) “**Review Procedure Activities Register**” means a register that contains all information about a review of a Works Submittal including submission date, Contracting Authority response due date, Contracting Authority response date, resubmission date, revision number, status of review, and conformance comment from Contracting Authority.
- (hh) “**Revised Baseline Works Schedule**” has the meaning given in Section 9.2(a).
- (ii) “**S-Curve**” has the meaning as set out in the Project Management Institute’s *Practice Standard for Earned Value Management – Second Edition*.
- (jj) “**Schedule Performance Index**” has the meaning as set out in the Project Management Institute’s *Practice Standard for Earned Value Management – Second Edition*.
- (kk) “**Stakeholder Consultation Activity**” means any of the following activities or Milestone Events:
- (i) Stakeholder partnering sessions;
 - (ii) Design Development Submittals and Construction Document Submittals development and finalization;
 - (iii) consultation, submission, review and approval process of any municipal, provincial, federal, or any other Governmental Authority;
 - (iv) milestones noting decisions that support final design integration between Contracting Authority’s systems and Project Co’s systems;
 - (v) design review meetings;
 - (vi) presentations or workshops on design topics expected to involve multiple Stakeholders, or any other activities required to satisfy and demonstrate design conformance; and
 - (vii) any additional activities as required by Project Co to fulfill the requirements of the Project Agreement with respect to Stakeholder consultation,
- and “**Stakeholder Consultation Activities**” means, collectively, all such activities and Milestone Events.

- (ll) “**Traceable**” means prepared in accordance with Good Industry Practice such that Contracting Authority has the ability to maintain, track and trace all activities and milestones including activity identification numbers, descriptions, activity codes, logical sequences, interdependencies and data consistency between and/or within all Project Works Schedules.
- (mm) “**Tracking Milestone**” is a schedule milestone that is linked to the applicable Works Activities, Works Milestones, and Milestone Events; and “**Tracking Milestones**” means all such scheduled milestones.
- (nn) “**Utility Relocation or Protection Activity**” means, for each system per phase or section of the Works, any of the following activities:
- (i) approvals by Utility Companies;
 - (ii) relocation for each specific occurrence of a Utility Infrastructure; and
 - (iii) inspection, acceptance and hand-back of the Utility Infrastructure to the owner of that applicable Utility Infrastructure,
- and “**Utility Relocation or Protection Activities**” means, collectively, all such activities and associated Milestone Events.
- (oo) “**Variance Analysis Report**” means a narrative submitted in the Works Schedule Report that details the cumulative and monthly Earned Value Metrics and provides an explanation for all trends and variances in the Earned Value Metrics.
- (pp) “**Witness and Hold Points**” has the meaning given in Schedule 11 – Quality Management.
- (qq) “**Working Day**” means, for the purposes of this Schedule 12, a day on which Project Co has scheduled specific Works Activities to be carried out, as set out in the Planned Working Calendar required by Section 12.1(c)(iv).
- (rr) “**Working Hours**” means, for the purposes of this Schedule 12, an hour on which Project Co has scheduled specific Works Activities to be carried out in a Working Day.
- (ss) “**Works Activity**” means any of the following:
- (i) Close-out Activities;
 - (ii) Commissioning Activities;
 - (iii) Construction Activities;
 - (iv) Design Activities;
 - (v) PLAA Activities;
 - (vi) Procurement Activities;

- (vii) Stakeholder Consultation Activities;
- (viii) Utility Relocation or Protection Activities;
- (ix) Review Procedure Activities;
- (x) activities required pursuant to Schedule 41 – Early Works Handover;
- (xi) activities required pursuant to Schedule 42 – South Civil Infrastructure Access and Handover;
- (xii) activities required pursuant to Schedule 43 – North Civil Infrastructure Access and Handover; or
- (xiii) activities to be performed:
 - (A) that cannot be started or finished without the involvement of Contracting Authority or one or more Stakeholders; or
 - (B) that must be started or finished before a Contracting Authority activity or a Stakeholder activity can be started or finished,

and “**Works Activities**” means all such activities.

(tt) “**Works Micro-Schedule**” has the meaning given in Section 11(a).

(uu) “**Works Micro-Schedule Activity**” means any of the following activities:

- (i) any Project Co activity in respect of the Works that Contracting Authority determines, acting reasonably, is required to be included within a Works Micro-Schedule;
- (ii) any activity required pursuant to Schedule 11 – Quality Management;
- (iii) any activity required pursuant to Schedule 14 – Commissioning;
- (iv) any activity required pursuant to Schedule 41 – Early Works Handover;
- (v) any activity required pursuant to Schedule 42 – South Civil Infrastructure Access and Handover; or
- (vi) any activity required pursuant to Schedule 43 – North Civil Infrastructure Access and Handover,

and “**Works Micro-Schedule Activities**” means all such activities.

(vv) “**Works Micro-Schedule Milestone**” means any of the following Milestone Events in respect of the Works:

- (i) any milestone signifying a critical handover of work between:

(A) Project Co and Contracting Authority; or

(B) Project Co and any owner of New Third Party Infrastructure; and

(ii) any additional milestone as requested by Contracting Authority, acting reasonably,

and “**Works Micro-Schedule Milestones**” means all such Milestone Events.

(ww) “**Works Milestone**” means any of the following Milestone Events:

(i) Commercial Close;

(ii) Financial Close;

(iii) submission by Project Co of all Design Development Submittals;

(iv) submission by Project Co of all Construction Document Submittals;

(v) completion of the Utility Work;

(vi) completion of all Works on the CP Rail Corridor Lands;

(vii) completion of the Ontario Line Subway;

(viii) completion by Project Co of any applicable obligations pursuant to Schedule 41 – Early Works Handover;

(ix) completion by Project Co of any applicable obligations pursuant to Schedule 42 – South Civil Infrastructure Access and Handover;

(x) completion by Project Co of any applicable obligations pursuant to Schedule 43 – North Civil Infrastructure Access and Handover;

(xi) completion of the New Third Party Infrastructure;

(xii) submission by Project Co of all Commissioning Submittals, pursuant to Schedule 14 – Commissioning;

(xiii) Scheduled Substantial Completion Date;

(xiv) Scheduled Final Completion Date; and

(xv) the Longstop Date,

and “**Works Milestones**” means all such Milestone Events.

(xx) “**Works Schedule Report**” has the meaning given in Section 13.1(a).

1.2 Interpretation

- (a) The Parties acknowledge and agree that, where the term “Baseline Works Schedule” is used in the Project Agreement, other than in this Schedule 12, such term means,
 - (i) the Interim Baseline Works Schedule before the establishment of a Baseline Works Schedule in accordance with Section 4(b); and
 - (ii) the Baseline Works Schedule following the establishment of a Baseline Works Schedule in accordance with Section 4(b).

2. DOCUMENTS COMPRISING THIS SCHEDULE 12 – WORKS SCHEDULE REQUIREMENTS

- (a) This Schedule 12 is comprised of the following documents:
 - (i) these general provisions of this Schedule 12;
 - (ii) Appendix A – Project Works Schedule Technical Requirements;
 - (iii) Appendix B – EVM Reporting Requirements; and
 - (iv) Appendix C – Works Micro-Schedule.

3. DEVELOPMENT OF PROJECT WORKS SCHEDULES

3.1 Types and Purposes of Project Works Schedules

- (a) Project Co acknowledges and agrees that it will develop and maintain three types of Project Works Schedules as follows:
 - (i) baseline schedules consisting of the Proposed Works Schedule, Interim Baseline Works Schedule, the Baseline Works Schedule and, if required, a Revised Baseline Works Schedule(s), each of which is required to demonstrate Project Co’s intended schedule to complete the Works and from which progress will be measured;
 - (ii) monthly Progress Works Schedules and, if applicable, Works Micro-Schedules, each of which are required to demonstrate Project Co’s actual progress of the Works up to and including the applicable Data Date; and
 - (iii) if requested by Contracting Authority, a Recovery Works Schedule(s) which meets the requirements set out in Section 14 and is required to demonstrate Project Co’s schedule to mitigate delay and accelerate the Works.

3.2 Sequence of Project Works Schedules

- (a) Subject to the terms and conditions of this Schedule 12, Project Co acknowledges and agrees that the progression and development of the Project Works Schedules shall be as follows:

- (i) Project Co shall develop the Interim Baseline Works Schedule, which shall be Traceable to the Proposed Works Schedule and in accordance with this Schedule 12. Project Co shall submit the Interim Baseline Works Schedule to Contracting Authority prior to Financial Close for review, which review shall take place after Financial Close and in accordance with Schedule 10 - Review Procedure;
- (ii) Once the Interim Baseline Works Schedule has been finalized in accordance with Section 4(b) it shall become the Interim Baseline Works Schedule applicable to the Works until replaced by the finalized Baseline Works Schedule;
- (iii) Project Co shall submit the Baseline Works Schedule in accordance with this Schedule 12 for review in accordance with Schedule 10 – Review Procedure;
- (iv) Once the Baseline Works Schedule has been finalized in accordance with Section 4(b) it shall become the Baseline Works Schedule that is applicable to the Works until Final Completion, unless it is replaced by a Revised Baseline Works Schedule in accordance with Section 9.2;
- (v) For every month, from the month after Financial Close until Final Completion, Project Co shall submit an updated Progress Works Schedule in accordance with Section 10 and Schedule 10 – Review Procedure. Project Co shall progress each updated Progress Works Schedule from the previous month’s Progress Works Schedule and shall,
 - (A) for the period prior to the finalization of the Baseline Works Schedule, ensure that the Progress Works Schedule is Traceable to and progressed from the Interim Baseline Works Schedule and the immediately previous Progress Works Schedule;
 - (B) for the period after the finalization of the Baseline Works Schedule, ensure that the Progress Works Schedule is Traceable to and progressed from the Baseline Works Schedule and the immediately previous Progress Works Schedule; and
 - (C) label the Progress Works Schedule(s) in sequence as Project Works Schedule Revision 1, Progress Works Schedule Revision 2, and so on; and;
- (vi) Once each Progress Works Schedule (Progress Works Schedule Revision 1, 2, etc.) has been finalized and considered acceptable in accordance with Section 4(b), the applicable revision of the Progress Works Schedule shall become the active Progress Works Schedule for the Project and shall replace the immediately previous Progress Works Schedule.

4. SUBMISSION AND REVIEW OF PROJECT WORKS SCHEDULES

- (a) Each Project Works Schedule shall be submitted to Contracting Authority, in draft, and shall be reviewed by Contracting Authority and, if applicable, the Independent Certifier and other third parties, in accordance with Schedule 10 – Review Procedure.

- (b) No Project Works Schedule shall be finalized or considered an acceptable Project Works Schedule to Contracting Authority until it has received a No Comment or Reviewed As Noted – Minor Issues Designation. For clarity, Project Co is still obliged to correct all non-conformances in each Project Works Schedule.
- (c) Contracting Authority may, in its sole discretion and at any time, convene a meeting or meetings with Project Co to review any matter relating to a Project Works Schedule, including the non-conformances and deficiencies in a Project Works Schedule and identify those Project Co Parties that are required to attend the meeting.
- (d) If a Project Works Schedule submitted by Project Co receives a “RESUBMIT”, “REVIEWED AS NOTED – MINOR ISSUES” or a “REVIEWED AS NOTED – MAJOR ISSUES” comment from Contracting Authority the following shall apply:
 - (i) Contracting Authority may, acting reasonably, and at any time, require Project Co to submit:
 - (A) additional information (including draft versions of an updated Project Works Schedule) to supplement the information originally provided in the Project Works Schedule or the Works Schedule Report and such information shall be provided within a reasonable time by Project Co; and
 - (B) one or more corrected versions of the applicable Project Works Schedule (each a “**Corrected Works Schedule**”) and such Corrected Works Schedule shall be provided by Project Co promptly;
 - (ii) For clarity:
 - (A) any information provided pursuant to Section 4(d)(i)(A) is not a Works Submittal;
 - (B) a Corrected Works Schedule is a Works Submittal, and the requirements of Schedule 10 – Review Procedure apply to each Corrected Works Schedule; and
 - (C) all liquidated damages and Non-Conformance Reports associated with the submission and review of Project Works Schedules do not apply to the submission and review of Corrected Works Schedules.
 - (iii) In addition to complying with the Corrected Works Schedule requirements set out in Section 4(d)(iv) and notwithstanding the time period for resubmission of Works Submittals set out in Schedule 10 – Review Procedure, Project Co shall correct all non-conformances and deficiencies in a Progress Works Schedule in the next monthly submission of the Progress Works Schedule and shall provide detail in the Works Schedule Report setting out how the non-conformances and deficiencies have been corrected; and
 - (iv) For the purpose of ensuring that a Progress Works Schedule is finalized for each month of the Project from Financial Close to Final Completion, Contracting

Authority may, in its sole discretion, require Project Co to continue to submit one or more Corrected Works Schedules for a particular month (even after the deadline for the next monthly submission of the Progress Works Schedule) until the Corrected Works Schedule for that particular month receives a No Comment or Reviewed As Noted – Minor Issues Designation.

5. PROJECT WORKS SCHEDULE REQUIREMENTS

5.1 General Requirements for Project Works Schedules and Works Schedule Reports

- (a) Project Co shall ensure that all Project Works Schedules and Works Schedule Reports,
- (i) are developed in accordance with Good Industry Practice, are compliant with the requirements of the Project Agreement, include appropriate schedule activities, logic, and sequencing with achievable production rates and realistic assumptions;
 - (ii) demonstrate, in a clear and detailed way, Project Co's planned execution of the Works and, in the case of Works Schedule Reports, the actual progress of the Works from Financial Close until Final Completion;
 - (iii) include all Works Activities as they are defined in this Schedule 12;
 - (iv) include all Tracking Milestones;
 - (v) include cost values, Quantities and Labour Resources for all Works Activities to enable the calculation of the required Earned Value Metrics;
 - (vi) contain sufficient detail to enable Contracting Authority to,
 - (A) monitor the planned schedule for the Works and the progress to complete the Works, and determine whether Project Co is likely to achieve the requirements of Schedule 41 – Early Works Handover, Schedule 42 – South Civil Infrastructure Access and Handover and Schedule 43 – North Civil Infrastructure Access and Handover;
 - (B) monitor the planned schedule for the Works and the progress to complete the Works, and determine whether Project Co is likely to achieve Substantial Completion by the Scheduled Substantial Completion Date; and
 - (C) manage Contracting Authority interfaces and analyze the schedule impacts of any potential delay, Delay Event or Variation;
 - (vii) take into account, and, subject to Section 40 (*Delay Events*) of the Project Agreement, are consistent with, all dates and timelines that are pre-established in the Project Agreement;
 - (viii) in the case of Progress Works Schedules, are progressed from and are Traceable to the Interim Baseline Works Schedule or the Baseline Works Schedule, as applicable, and that each successive monthly Progress Works Schedule is

updated from and Traceable to the immediately previous Progress Works Schedule; and

- (ix) activities within the Progress Works Schedules and Earned Value Metrics shall be organized according to a work breakdown structure (WBS) which will also relate to the updates of budget, financial status and risks as described in Schedule 33 – Works Report Requirements.
- (b) Project Co shall immediately give Notice to the Contracting Authority Representative of a change to a Works Activity promptly becoming aware of any impact on the activities of Contracting Authority or Additional Contractors. Project Co shall include in its report an update on the status of all Works Activities or milestones for a handover event (including each South Civil Infrastructure Section Handover and each North Civil Infrastructure Section Handover) or interface activity, indicating the baseline date, remaining float, forecast date and changes to float or changes to forecast date from the last report.
- (c) Project Co shall in its report to Contracting Authority Representative highlight if the amount of total float on a Works Activity that is within sixty (60) Business Days of the Critical Path changes by five (5) Business Days from the amount of total float shown in the previous submission of a Proposed Works Schedule, Interim Baseline Works Schedule, Baseline Works Schedule or Revised Baseline Works Schedule, as appropriate. Thereafter, Project Co shall also include in its report an update of each time the remaining total float on the applicable Works Activity is reduced by five (5) Business Days from the amount of total float previously reported to Contracting Authority.
- (d) If Project Co is obliged to provide any kind of notification (or Notice) to Contracting Authority or the Contracting Authority Representative pursuant to the Project Agreement, the submission of that notification (or Notice) by way of information included in a Project Works Schedule, Works Report and Works Schedule Report shall not constitute the provision of such Notice or notification by Project Co.
- (e) Project Co shall identify and give Notice to Contracting Authority of any opportunities for schedule acceleration or improvements.

6. RESTRICTIONS ON PROJECT WORKS SCHEDULES

- (a) Project Co shall only be permitted to show in a Project Works Schedule the commencement of a Construction Activity if Project Co has submitted all Works Submittals (including all Design Development Submittals and all Construction Document Submittals) related to such Construction Activity pursuant to Schedule 10 – Review Procedure, except for Works Activities that occurred prior to the Data Date.
- (b) Notwithstanding Section 6(a), enabling Construction Activities that are subcomponents of larger Construction Activities (e.g. footings of a structure) may be shown to commence in a Project Works Schedule, provided that Project Co obtains the prior agreement of Contracting Authority, acting reasonably, and Project Co has submitted all Design Development Submittals and all Construction Document Submittals pursuant to Schedule 10 – Review Procedure for that enabling subcomponent and Design Development Submittals and Construction Document Submittals pursuant to Schedule 10 – Review Procedure for the larger Construction Activity.

- (c) Notwithstanding Section 6(a), Project Co shall not be permitted to show the commencement of any Construction Activity in a Progress Works Schedule, other than,
- (i) Construction Activities related to topographical surveys, subsurface investigations or vegetation removal required to complete the Works, provided that Project Co has completed its Contractor Site Specific Safety Manual; and
 - (ii) Construction Activities other than those identified in Sections 6(b) and 6(c)(i), provided that Project Co has,
 - (A) submitted all Works Submittals (including, for clarity, all Design Development Submittals and Construction Document Submittals) related to such Construction Activities pursuant to Schedule 10 – Review Procedure;
 - (B) submitted each Quality Management Plan in accordance with Schedule 11 – Quality Management and Schedule 10 – Review Procedure;
 - (C) developed and implemented its Quality Management System in accordance with Schedule 11 – Quality Management; and
 - (D) completed its Contractor Site Specific Safety Manual.

7. FAILURE TO SUBMIT A BASELINE WORKS SCHEDULE BY THE SUBMISSION DEADLINE AND DELAY EVENTS

- (a) If Project Co successfully claims, in accordance with the Project Agreement, that it has experienced one or more Delay Events and,
- (i) Project Co was late submitting its Baseline Works Schedule measured by the deadline for submission established by Section 9.1(a); and/or
 - (ii) Project Co failed to achieve a No Comment or Reviewed As Noted – Minor Issues Designation before the expiration of seventy-five (75) Business Days after the deadline for submission established by Section 9.1(a) for Project Co's submission of the Baseline Works Schedule,

then, subject to Section 7(b), both:

- (iii) the number of days that Project Co was late submitting its Baseline Works Schedule; and
- (iv) the number of Business Days in excess of seventy-five (75) that it took Project Co to achieve a No Comment or Reviewed As Noted – Minor Issues Designation,

shall be deducted from the number of days of delay that the Parties determine (or is determined through the Dispute Resolution Procedure) that Project Co has experienced due to a Delay Event or Delay Events (the “**Late Schedule Submission Deduction**”) provided that no Late Schedule Submission Deduction will be made in respect of any

Delay Event which occurred after Project Co achieved a No Comment or Reviewed As Noted – Minor Issues Designation on the Baseline Works Schedule. For clarity, in respect of a Compensation Event, Relief Event or Force Majeure event that is also a Delay Event, any Late Schedule Submission Deduction shall be taken into account in determining the amount of compensation that Project Co is entitled to pursuant to Section 41.2 (*Consequences of a Compensation Event*), Section 43.2 (*Consequences of a Relief Event*), or Section 44.2 (*Consequences of Force Majeure*), respectively.

- (b) The Late Schedule Submission Deduction shall be reduced by an amount equal to the number of days for which Contracting Authority failed to meet its obligations with respect to reviewing Project Co’s Baseline Works Schedule as set out in Section 4(a) of this Schedule or Section 4.1 (*Comments*) of Schedule 10 – Review Procedure.
- (c) If Project Co disputes Contracting Authority’s assignment of a “RE-SUBMIT” or “REVIEWED AS NOTED – MAJOR ISSUES” comment to the Baseline Works Schedule submitted pursuant to Schedule 10 – Review Procedure in accordance with Section 5 (*Disputes*) of Part A (*Works*) to Schedule 10 – Review Procedure, then the number of days equal to the period between: (i) the date Contracting Authority notified Project Co of the assignment of such comment; and (ii) the date the matter was resolved by (A) agreement of the Parties, (B) a determination made pursuant to Section 5 (*Disputes*) of Part A (*Works*) to Schedule 10 – Review Procedure that Project Co does not dispute, or (C) a determination made pursuant to the Dispute Resolution Procedure under Schedule 27 – Dispute Resolution Procedure, as applicable, will be:
 - (i) added to the number of days included in the calculation of the Late Schedule Submission Deduction under Section 7(a) if such Dispute is resolved in favour of Contracting Authority; or
 - (ii) omitted from the number of days included in the calculation of the Late Schedule Submission Deduction under Section 7(a) if such Dispute is resolved in favour of Project Co.
- (d) If Project Co includes a claim, assertion or inference that Project Co has experienced a Delay Event or Delay Events in any Project Works Schedule,
 - (i) such claim, assertion or inference shall not constitute the provision of Notice by Project Co of a Delay Event pursuant to Section 40.2(a) or Section 40.2(e) (*Consequences of a Delay Event*) of the Project Agreement; and
 - (ii) no comment, question or other response (or lack of a comment, question or other response) by Contracting Authority with respect to the Project Works Schedule shall constitute any acknowledgment or acceptance by Contracting Authority of the Delay Event or Delay Events.
- (e) Contracting Authority may refuse to evaluate any notice of a Delay Event received from Project Co pursuant to Section 40.2(b) (*Consequences of a Delay Event*) of the Project Agreement until Project Co has achieved a No Comment or Reviewed As Noted – Minor Issues Designation in respect of the Baseline Works Schedule.

8. INTERIM BASELINE WORKS SCHEDULE

- (a) Prior to Financial Close, Project Co shall submit an interim baseline works schedule (the “**Interim Baseline Works Schedule**”) to Contracting Authority for its review, which review shall take place after Financial Close and in accordance with Schedule 10 – Review Procedure.
- (b) The Interim Baseline Works Schedule shall:
- (i) have activities, including all Works Activities, that are Traceable to the activities in the Proposed Works Schedule;
 - (ii) supplement the Proposed Works Schedule by adding cost values to all Works Activities to comply with this Schedule 12;
 - (iii) include cost values that are assigned to Works Activities within the Interim Baseline Works Schedule and shall add up to and incorporate all costs included in the Financial Model;
 - (iv) conform to this Schedule 12, including, for clarity, Appendix A to this Schedule 12;
 - (v) commence from the earlier of (A) the day upon which the Early Contractor Activities commenced and (B) date of Financial Close, and in each case shall show no progress;
 - (vi) include a Data Date that is equal to the date set out in Section 8(b)(v);
 - (vii) address any comments provided by Contracting Authority to Project Co prior to Financial Close;
 - (viii) conform to Schedule 41 – Early Works Handover;
 - (ix) conform to Schedule 42 – South Civil Access and Handover, including, for clarity, Appendix B, Part B to Schedule 42; and
 - (x) conform to Schedule 43 – North Civil Access and Handover, including, for clarity, Appendix B, Part B to Schedule 43.
- (c) The Parties acknowledge and agree that notwithstanding that the Interim Baseline Works Schedule is based upon the Proposed Works Schedule and provided to Contracting Authority prior to Financial Close, the Interim Baseline Works Schedule shall remain subject to review by Contracting Authority in accordance with Schedule 10 – Review Procedure, and the treatment of the Interim Baseline Works Schedule as set out in this Section 8 shall not, in any way,
- (i) diminish, reduce or otherwise modify or amend Contracting Authority’s rights under the Project Agreement to review the Interim Baseline Works Schedule in accordance with Schedule 10 – Review Procedure; or

- (ii) constitute acceptance or comment by Contracting Authority of the Interim Baseline Works Schedule in accordance with Schedule 10 – Review Procedure.
- (d) For the purpose of Contracting Authority deadlines for review of the Interim Baseline Works Schedule provided by Project Co prior to Financial Close, Project Co will be deemed to have submitted the Interim Baseline Works Schedule on the first (1st) Business Day after Financial Close.

9. BASELINE WORKS SCHEDULE

9.1 Baseline Works Schedule

- (a) No later than one-hundred and twenty (120) Business Days following Financial Close, Project Co shall submit a baseline schedule in respect of the Works (the “**Baseline Works Schedule**”) to Contracting Authority for its review in accordance with Schedule 10 – Review Procedure.
- (b) The Baseline Works Schedule submitted by Project Co shall:
 - (i) have activities, including all Works Activities, which are Traceable to those that appeared in the Interim Baseline Works Schedule;
 - (ii) have cost values for all Works Activities comply with this Schedule 12;
 - (iii) include cost values that are assigned to Works Activities within the Baseline Works Schedule and shall add up to and incorporate all costs included in the Financial Model;
 - (iv) conform to the requirements of this Schedule 12, for clarity, including Appendix A to this Schedule 12;
 - (v) commence from the earlier of (A) the day upon which the Early Contractor Activities commenced and (B) date of Financial Close, and in each case shall demonstrate any progress that occurred from the day upon which the Early Contractor Activities commenced or the date of Financial Close, as applicable, until the date that such Baseline Works Schedule is submitted;
 - (vi) include a Data Date that is equal to the date set out in Section 9.1(b)(v);
 - (vii) address any comments on the Interim Baseline Works Schedule provided by Contracting Authority;
 - (viii) identify all differences between the Interim Baseline Works Schedule and the Baseline Works Schedule;
 - (ix) not change any activity reference numbers from activity reference numbers set out in the Interim Baseline Works Schedule;
 - (x) conform to Schedule 41 – Early Works Handover;

- (xi) conform to Schedule 42 – South Civil Access and Handover, including, for clarity, Appendix B, Part B to Schedule 42; and
- (xii) conform to Schedule 43 – North Civil Access and Handover, including, for clarity, Appendix B, Part B to Schedule 43.
- (c) In its review of the Baseline Works Schedule pursuant to Schedule 10 – Review Procedure, Contracting Authority may, acting reasonably (having regard, without limitation, to the expiry of the seventy-five (75) day period applicable under Section 7(a)), request that additional milestones or activities be incorporated into the Progress Works Schedule included in the Baseline Works Schedule. Upon such request, Project Co shall provide a revised Baseline Works Schedule to include the additional milestones and activities within a reasonable time.

9.2 Revised Baseline Works Schedule

- (a) If Contracting Authority is of the opinion, acting reasonably, that, as a result of an amendment to the Project Agreement, a Delay Event, a Variation Confirmation, or a Variation Directive, the scope, means, methods and/or schedule of the Works has changed significantly since the finalization of the Baseline Works Schedule, Contracting Authority may require Project Co to replace the Baseline Works Schedule with a revised and updated Baseline Works Schedule (a “**Revised Baseline Works Schedule**”). If Contracting Authority gives Notice to Project Co that it requires a Revised Baseline Works Schedule, Project Co shall prepare and submit a Revised Baseline Works Schedule (as a Works Submittal), no later than fifteen (15) Business Days after Project Co receives such Notice, or such longer period as the Parties agree acting reasonably, for review pursuant to Schedule 10 – Review Procedure.
- (b) If Project Co is of the opinion, acting reasonably, that, as a result of an amendment to the Project Agreement, a Delay Event, a Variation Confirmation, or a Variation Directive, the scope, means, methods or schedule of the Works has changed significantly since the finalization of the Baseline Works Schedule, Project Co may prepare a Revised Baseline Works Schedule for review in accordance with Schedule 10 – Review Procedure. As part of its review of Project Co’s Revised Baseline Works Schedule, Contracting Authority may, acting reasonably, determine whether a Revised Baseline Works Schedule is necessary or appropriate.
- (c) The Revised Baseline Works Schedule submitted by Project Co shall:
 - (i) have all requirements as those listed for the Baseline Works Schedule
 - (ii) have activities which are Traceable to those that appeared in the Baseline Works Schedule;
 - (iii) identify all differences between the Baseline Works Schedule and the Revised Baseline Works Schedule;
 - (iv) have cost values for all Works Activities comply with this Schedule 12;

- (v) conform to the requirements of this Schedule 12, for clarity, including Appendix A to this Schedule 12;
 - (vi) have a Data Date which corresponds to the date the Revised Baseline Works Schedule was requested by Contracting Authority or a date that is otherwise required by Contracting Authority;
 - (vii) document the progress of the Works for all Works Activities, Works Milestones and Tracking Milestones that have occurred, progressed up to the Data Date described in Section 9.2(c)(vi); and
 - (viii) not change any activity reference numbers from activity reference numbers set out in the Interim Baseline Works Schedule.
- (d) If the Revised Baseline Works Schedule is finalized pursuant to this Section 9.2, the Revised Baseline Works Schedule shall become the Baseline Works Schedule.

10. PROGRESS WORKS SCHEDULE

- (a) Starting on the first (1st) month after Financial Close and by no later than five (5) Business Days after the last day of each month until Final Completion, Project Co shall submit to Contracting Authority an updated Progress Works Schedule for review by Contracting Authority in accordance with Schedule 10 – Review Procedure. For clarity, the submission of any Progress Works Schedule shall not amend either the Interim Baseline Works Schedule or the Baseline Works Schedule.
- (b) Where a Progress Works Schedule update includes:
- (i) a change to the Critical Path;
 - (ii) a change to the dates of Works Milestones; or
 - (iii) a change to the Planned Value Curve by more than \$[REDACTED] for any given month,

then Project Co shall provide an update to such Progress Works Schedule which shall be carried out in accordance with the method implementation protocol 3.4 as defined within AACE Forensic Schedule Analysis in production of a bi-furcation update that has a separate schedule submission (.xer and .pdf) for progress achieved. Prior to inclusion of mitigations associated with a delay, such changes shall then be incorporated into subsequent Progress Works Schedule submissions in accordance with Section 10(a).

- (c) All Progress Works Schedules submitted by Project Co shall:
- (i) have activities that are progressed from and Traceable to those that appeared in the Interim Baseline Works Schedule or the Baseline Works Schedule, as applicable, and the immediately previous Progress Works Schedule;
 - (ii) conform to this Schedule 12, including Appendix A to this Schedule 12;

- (iii) include cost values for all Works Activities to comply with this Schedule 12;
- (iv) have a Data Date which is the first (1st) Business Day of the successive month to which the Progress Works Schedule applies;
- (v) document the progress of the Works for all Works Activities and Works Milestones (via three distinct sets of activity bars) and progressed up to the end of the relevant month, measured relative to the Baseline Works Schedule and the Progress Works Schedule of the previously reported month; to clarify, activity bars are as follows:
 - (A) current Progress Works Schedule (updated to month end);
 - (B) Progress Works Schedule of the previously reported month; and
 - (C) Baseline Works Schedule;
- (vi) include any applicable obligations pursuant to Schedule 41 – Early Works Handover;
- (vii) include any applicable obligations pursuant to Schedule 42 – South Civil Access and Handover;
- (viii) include any applicable obligations pursuant to Schedule 43 – North Civil Access and Handover;
- (ix) include all Tracking Milestones clearly indicating the variance between baseline date and current dates of the corresponding Tracking Milestone;
- (x) include updated forecasted dates required to complete the Works for all previously noted Works Activities and Works Milestones;
- (xi) include additional milestones or activities that are requested by Contracting Authority, acting reasonably;
- (xii) include any additional Works Activities and Works Milestones, and/or updates to sequencing, activity durations, and logic, permitted under Appendix A to this Schedule 12, which are required to complete the Works (such additional Works Activities and/or Works Milestones, and/or updates to sequencing, activity durations, and logic shall be reported within the corresponding monthly Works Schedule Report, in accordance with this Schedule 12); and
- (xiii) Project Co shall ensure that all Project Works Schedules and Works Schedule Reports align and integrate with all other Project Co reporting deliverables and documents including the work breakdown structure (WBS), Estimates, Variations, cost reports, Earned Value analysis, and CPI and SPI calculations.

11. WORKS MICRO-SCHEDULE

- (a) If, in the opinion of Contracting Authority, acting reasonably, a Project Co activity is a Works Micro-Schedule Activity, Contracting Authority may request that Project Co provide a sub-schedule of a Progress Works Schedule that focuses on that Works Micro-Schedule Activity (each, a “**Works Micro-Schedule**”). Each Works Micro-Schedule shall include the elements set out in Sections 11(c)(i) to 11(c)(v). For an indicative listing of micro-schedules, refer to Appendix C to Schedule 12.
- (b) For any activity in the Progress Works Schedule that Project Co determines must be completed without disruption, Contracting Authority will require that Project Co provide a Works Micro-Schedule.
- (c) No later than ten (10) Business Days following a request by Contracting Authority (or longer as determined by the Contracting Authority Representative, acting reasonably), Project Co shall submit to Contracting Authority, for review in accordance with Schedule 10 – Review Procedure, a Works Micro-Schedule that includes:
 - (i) a title which includes the name “Works Micro-Schedule”, a descriptor of the portion of the Works for which the Works Micro-Schedule is applicable, and the date range for the Works Micro-Schedule;
 - (ii) all elements required to be included in the Progress Works Schedule;
 - (iii) all Works Micro-Schedule Milestones;
 - (iv) all Works Micro-Schedule Activities; and
 - (v) any other activities to support day-by-day or hour-by-hour coordination with certain Contracting Authority Activities that have been identified by Contracting Authority or any other required high level of involvement by Contracting Authority or any other third party or authority as contemplated in the Project Agreement.
- (d) Every two (2) weeks following the initial Works Micro-Schedule, Project Co shall submit an updated Works Micro-Schedule until the Works contemplated in the Works Micro-Schedule are complete. Project Co shall clearly illustrate in each updated Works Micro-Schedule, the actual progress of each Works Micro-Schedule Activity in comparison to the planned progress of such Works Micro-Schedule Activity.
- (e) Project Co shall ensure that Works Micro-Schedule Milestones dates and the Works Micro-Schedule Activities dates and durations indicated on the Works Micro-Schedule correspond to the Works Milestone dates and Works Activity dates and durations of the then current Progress Works Schedule.
- (f) Upon Contracting Authority’s request, Project Co shall provide a drawing of the affected Works, which shall clearly illustrate the sequence and timing of the Construction Activities depicted in any Works Micro-Schedule.

- (g) Project Co may request, for consideration by Contracting Authority, acting reasonably, that Project Co be permitted to provide a Works Micro-Schedule in Excel or MS Project.
- (h) Works Micro-Schedule Activities shall be an amplification of and be compatible with the Progress Works Schedule. That is, each activity in the Works Micro-Schedule shall include the activity identification number of its corresponding activity in the Progress Works Schedule. One activity in the Progress Works Schedule may be represented in detail by more than one (1) activity in the Works Micro-Schedule.

12. REPORT ON BASIS OF WORKS SCHEDULE

12.1 Contents of the Report

- (a) With each of the Interim Baseline Works Schedule, the Baseline Works Schedule, the Revised Baseline Works Schedule (if applicable) and each Recovery Works Schedule (if applicable), Project Co shall submit a report on the basic principles underlying the applicable Interim Baseline Works Schedule, the Baseline Works Schedule, the Revised Baseline Works Schedule or the Recovery Works Schedule (each a “**Basis of Works Schedule Report**”).
- (b) Project Co shall ensure that each Basis of Works Schedule Report submitted by Project Co includes a black-lined document comparing the then current version to the immediately previous version of the Basis of Works Schedule Report clearly indicating the changes made by Project Co to the Basis of Works Schedule Report from the immediately previous version.
- (c) Project Co shall ensure that each Basis of Works Schedule Report includes at least the following content and sections:
 - (i) a cover page including the title “Report on the Basis of Works Schedule”, the Project title, date of the report, issuance date, version date, and the version number of the associated Project Works Schedule, and the signature of the Project Co Representative who has approved the report;
 - (ii) “Section 1 – Implementation Strategy”, including a written narrative with sufficient details to describe the overall approach, proposed sequencing and work plan to complete the Works to achieve Substantial Completion and Final Completion. For clarity, the first Basis of Works Schedule Report shall explain the basis of development of the schedule and the means and methods that Project Co plans to deploy in order to meet the Project milestones and completion date requirements. This section shall include diagrams to clarify intent and shall be written to identify the strategy or approach to:
 - (A) complete any additional site investigations and other due diligence;
 - (B) complete the design developments and review process;
 - (C) obtain any required major Project Co Permits, Licences, Approvals, and Agreements;

- (D) procurement strategy for suppliers and critical components of the Works;
 - (E) testing and commissioning of the Works and Final Completion and Close-out Activities, including asset handover and development of final As-Built Drawings and manuals;
 - (F) key assumptions and exclusions;
 - (G) access requirements, restrictions or Works limits as described in permits or otherwise and any corresponding calendars which have been applied in the schedule submitted by Project Co;
 - (H) any activities required pursuant to Schedule 41 – Early Works Handover;
 - (I) any activities required pursuant to Schedule 42 – South Civil Access and Handover; and
 - (J) any activities required pursuant to Schedule 43 – North Civil Access and Handover;
- (iii) “Section 2 – Critical Path Risk”, including a narrative in tabular form describing the risks to completing the Critical Path activities to achieve Substantial Completion, and Project Co’s strategy to mitigate or avoid these risks;
 - (iv) “Section 3 – Planned Working Calendar” including a table defining each of the schedule calendars. For each schedule calendar, include the Working Days (days of the week), normal Working Hours, number and hours of any shifts, and a list of all assumed non-Working Days for any part of the Works (such as holidays, environment restricted work windows, and other similar concepts);
 - (v) “Section 4 – Means and Methods”, including an executive summary of the intended means and methods for all Works Activities and include for each a short narrative on the type of work, any constructability issues and if the work will be self-performed by the Construction Contractor or sub-contracted, and if sub-contracted, how the schedules of Subcontractors will be integrated in applicable Project Works Schedule submitted to Contracting Authority;
 - (vi) “Section 5 – Resource Plan”, including for all Works Activities:
 - (A) number of teams and team composition (that is, staffing requirements), including subcontractor work;
 - (B) number and type of heavy machinery or equipment, to be summarized by main area;
 - (C) anticipated resource constraints (such as union related constraints and limits to the number of any specific heavy machinery available in the region);

- (D) anticipated resource constraints (such as pandemic related constraints, union related constraints, material supply constraints and limits to the number of any specific heavy machinery available in the region); and
 - (E) a written narrative with sufficient details to describe how Project Co intends to meet the resource requirements;
- (vii) “Section 6 – Planned Production Rates”, including a table listing each Works Activity (Level 3) and indicating for each:
- (A) the assumed production rate for each activity expressed as a quantity per Working Day (units/day, ton/day, m/day, m²/day, or m³/day); and
 - (B) the intended schedule calendar or any variance to the normal Working Hours, such as “restricted to night work” or “Monday to Saturday, 3 x 8 hour shifts”.

For clarity, each Works Activity shall only be listed once in the table, even though more than one instance of the activity type is indicated in the applicable Project Works Schedule unless more than one team or calendar configuration is intended;

- (viii) “Section 7 – General Assumptions”, including any other assumptions used by Project Co to generate the schedule including any known or foreseeable constraints or restrictions such as weather, traffic, environmental, utilities, and other similar concepts;
- (ix) “Section 8 – Planned Value Curve”, including a graphical and tabular representation of the cost loaded schedule showing the cost per month and the cumulative curve;
- (x) “Section 9 – Planned Labour Resource Curve”, including a graphical and tabular representation of the resource loaded schedule showing the hours per month per trade and the cumulative curve; and
- (xi) “Section 10 – Pandemic and Epidemic response”, including a written narrative of no less than 1000 words:
- (A) describing Project Co’s plans and processes for addressing and implementing the COVID-19 Emergency Public Health Physical Distancing Requirements;
 - (B) describing the detailed steps Project Co intends to take to prepare for and respond to the effects of the COVID-19 Emergency Public Health Physical Distancing Requirements;
 - (C) demonstrating the effects of the COVID-19 Emergency Public Health Physical Distancing Requirements on the Project Works Schedule generally, and specifically with reference to the following areas of the Basis of Works Schedule Report:

- (I) Section 5 – Planned Working Calendar;
- (II) Section 8 – Resource Plan; and
- (III) Section 9 – Planned Production Rates;
- (D) outlining Project Co's strategy to mitigate the effects described in Section 12.1(c)(xi)(C); and
- (E) how the processes described in Section 12.1(c)(xi)(A) and Section 12.1(c)(xi)(B) and will affect the Project Works Schedules.

13. WORKS SCHEDULE REPORT

13.1 Content of the Works Schedule Reports

- (a) Project Co shall submit a report with each Progress Works Schedule (except for the Works Micro-Schedule) for review by Contracting Authority in accordance with Schedule 10 – Review Procedure (each a “**Works Schedule Report**”).
- (b) Project Co shall ensure that each Works Schedule Report includes at least the following content and sections:
 - (i) a cover page including the title “Works Schedule Report”, the Project title, date of the report, issuance date, version date, the version number of the relevant Progress Works Schedule, and the signature of the Project Co Representative approving the report;
 - (ii) “Section 1 – Executive Summary”, including an executive summary of progress of the Works, noteworthy milestones achieved, schedule variances, and issues and risks that have or that may impact the schedule;
 - (iii) “Section 2 – Schedule Analysis” including a schedule analysis, as it exists for the Progress Works Schedule that the Works Schedule Report is applicable to, that includes:
 - (A) the forecasted Handover dates;
 - (B) each applicable date pursuant to Schedule 41 – Early Works Handover;
 - (C) each applicable date pursuant to Schedule 42 – South Civil Access and Handover;
 - (D) each applicable date pursuant to Schedule 43 – North Civil Access and Handover;
 - (E) the forecasted Substantial Completion Date compared to the then current Scheduled Substantial Completion Date;

- (F) total float, calculated as the difference between the then current Scheduled Substantial Completion Date and the date of Substantial Completion of the last Works Activity on the Critical Path of the Progress Works Schedule to achieve Substantial Completion, expressed in calendar days;
 - (G) a total float graph showing the historically calculated total float value for each month from Financial Close up to the applicable reporting period, including the total float for the applicable Progress Works Schedule;
 - (H) a table showing the total float for each Works Milestone available in the current month, the preceding month and identifying any variances in float;
 - (I) list of all Works Activities that are within twenty (20) Business Days of the Critical Path;
 - (J) a summary schedule indicating the then current Critical Path calculated using the applicable Progress Works Schedule; and
 - (K) a description of the calendars and their applicability in the Progress Works Schedule. Project Co shall include a narrative on shifts and shift hours in each Basis of Works Schedule Report;
- (iv) “Section 3 – Variances” that includes the following information, as it exists for the Progress Works Schedule that the Works Schedule Report is applicable to:
- (A) a narrative explaining the basis for any required changes to the sequencing of the Works, interdependencies, original activity durations as set out in the Progress Works Schedule;
 - (B) a table entitled “Milestone and Critical Path Variances” listing all Works Milestones and all Critical Path activities and, for each Works Milestone and Critical Path activity where the variance exceeds five (5) Business Days from the immediately previous Progress Works Schedule, the following information:
 - (I) the activity or milestone identification number and name;
 - (II) the baseline start and end date in accordance with the Interim Baseline Works Schedule, the Baseline Works Schedule, the Revised Baseline Works Schedule or each Recovery Works Schedule, as applicable;
 - (III) the planned start and end date set out in the immediately previous Progress Works Schedule;
 - (IV) the forecast start and end date, or, if applicable, the actual start and end date, as set out in the associated Progress Works

- Schedule and a clear identification of any Works Milestones to be achieved by Project Co in the next twelve (12) week period;
- (V) the physical percentage completion, or status;
 - (VI) the total variance calculated as the forecast end date minus the end date shown in the immediately previous Progress Works Schedule, expressed in Working Days;
 - (VII) the reporting period variance calculated as the forecast end date minus the end date shown in the immediately previous Progress Works Schedule, expressed in Working Days; and
 - (VIII) a brief narrative on any actual or forecasted delays or problems that might have an impact on the scheduled completion dates of the Works in the Progress Works Schedule and a discussion of the measures being (or to be) adopted by Project Co to overcome them;
- (C) the total number of near-critical activities, together with a table entitled “New Near-Critical Activities”, listing all Works Activities that have become near critical with a float of less than ten (10) Working Days during the last reporting period; and
- (D) a table entitled “Schedule Logic Changes” listing any:
- (I) addition, deletion or changes to activity relationships;
 - (II) addition or deletion of activities;
 - (III) changes to activity durations;
 - (IV) changes to milestones, and any other changes; and
 - (V) changes to activity descriptions;
- (v) “Section 4 – Labour Resource”, including
- (A) a graphical and tabular presentation by Labour Resource of the utilization of Labour Resources in the Works clearly showing the baseline planned resources hours and earned hours based on baseline planned work completed and estimate to complete hours; and
 - (B) a report on the availability of Labour Resources for the Works noting the percentage of resources secured versus the peak requirement from the baseline and current forecast to complete of each resource;

- (vi) “Section 5 – Progress Performance Management”, including
- (A) a report, in the form set out in Appendix B to this Schedule 12, of each of the following in tabular and graphical form:
- (I) S-Curve showing Planned Value vs. Earned Value;
 - (II) Schedule Performance Index “SPI” trend over time;
 - (III) Cost Performance Index “CPI” trend over time; and
 - (IV) a Variance Analysis Report,
- (collectively, the “**Earned Value Metrics**”) in accordance with the Project Management Institute’s *Practice Standard for Earned Value Measurement – Second Edition*; and
- (B) a report of each of the Earned Value Metrics,
- (I) for the entire Project;
 - (II) for each Works location, as described in Appendix B to this Schedule 12 or as requested by Contracting Authority, acting reasonably; and
 - (III) for each major type of Works Activity, as described in Appendix B to this Schedule 12.
- (vii) “Section 6 – Potential Delay Events”, including a register of all potential Delay Events pursuant to Section 40.2(a) (*Consequences of a Delay Event*) of the Project Agreement and including for each potential Delay Event a description of the circumstance and nature of the claim, the date on which the Notice required pursuant to Section 40.2(a) (*Consequences of a Delay Event*) of the Project Agreement was given by Project Co, and the date on which the details required by Sections 40.2(b) and 40.2(c) (*Consequences of a Delay Event*) of the Project Agreement, the mitigation strategy implemented by Project Co, and the current status of mitigation measures;
- (viii) “Section 7 – Contracting Authority Submittal Review”, including an updated Review Procedure Activities Register pursuant to Schedule 10 – Review Procedure; and
- (ix) “Section 8 – Change Log”, including the following information, as it exists for the Progress Works Schedule that the Works Schedule Report is applicable to:
- (A) Project Co shall create and maintain a change log register (the “**Change Log**”) detailing all changes made between an immediately previous Progress Works Schedule and the Baseline Works Schedule or revised Baseline Works Schedule, including any of the following changes:

- (I) addition, deletion or changes to activity relationships;
 - (II) Labour Resources addition, deletion or changes to the project calendars;
 - (III) addition or retiring of Works Activities or Works Milestones or changing the description of activities;
 - (IV) changes to Works Activity durations;
 - (V) changes to Works Activity assigned cost value;
 - (VI) changes to Works Activity assigned Labour Resource (person-hour);
 - (VII) changes to Works Activity assigned Quantity;
 - (VIII) changes to the assigned calendar determining the Working Days for the Works Activity; and
 - (IX) any other change that impacts the logic of the schedule.
- (B) For each change, Project Co shall provide:
- (I) the unique document identifier number, as shown in the Project Works Schedule Submission Register, for both the updated Project Works Schedule in which the change has been made, and the previous version of the Progress Works Schedule that has changed;
 - (II) the activity identification number or milestone identification number and name;
 - (III) any changes to Primavera P6 scheduling options and settings;
 - (IV) the type of change;
 - (V) a discrete explanation for circumstances and reasons leading to the change. Project Co shall not provide a general blanket explanation, for example similar to “change in strategy” or “according to recent market conditions”, but shall diligently explain in detail the strategy change or the specific conditions that led to that change, including a description of the change including the previous configuration or value, and the updated configuration or value, and
 - (VI) the updated Change Log for the Project Works Schedule shall be included with each Project Works Schedule submission.

14. RECOVERY WORKS SCHEDULES

14.1 Failure to Maintain Schedule for the Works

- (a) Without limiting any other provision of this Project Agreement but subject to Section 40 (*Delay Events*) of the Project Agreement, if, at any time, Contracting Authority is of the opinion that:
- (i) the actual progress of the Works has fallen significantly behind progress of the Works set out in the Baseline Works Schedule;
 - (ii) Project Co will not achieve Substantial Completion by the Scheduled Substantial Completion Date; or
 - (iii) Project Co will not achieve Substantial Completion by the Longstop Date,
- then Contracting Authority may give Notice to Project Co that Contracting Authority requires Project Co to submit a schedule to recover the delay (each a “**Recovery Works Schedule**”) and a report supporting the Recovery Works Schedule (a “**Recovery Works Schedule Report**”) in accordance with Section 14.1(b).
- (b) No later than five (5) Business Days after the last day of the month (or such longer period as the Parties agree, acting reasonably) in which Project Co receives a Notice from Contracting Authority pursuant to Section 14.1(a), Project Co shall, in lieu of submitting a Progress Works Schedule for the applicable month or a Works Schedule Report for that month, prepare and submit to each of the Contracting Authority Representative and the Independent Certifier:
- (i) a Recovery Works Schedule in accordance with the requirements of Section 14.1(d); and
 - (ii) a Recovery Works Schedule Report, in accordance with the requirements of Section 14.1(e).
- (c) Project Co shall ensure that the Recovery Works Schedule and the Recovery Works Schedule Report, taken together, explain the causes of the delay in the progress of the Works (irrespective of whether such delays are Delay Events) and set out a strategy that is compliant with the Project Agreement and will be implemented by Project Co to eliminate or reduce the delay and,
- (i) achieve Substantial Completion by the Scheduled Substantial Completion Date; or
 - (ii) if Substantial Completion cannot be achieved by the Scheduled Substantial Completion Date, achieve Substantial Completion before or by the Longstop Date.
- (d) Project Co’s Recovery Works Schedule shall,
- (i) be based on the terms and conditions of the Project Agreement;

- (ii) comply with the Progress Works Schedule requirements set out in Section 10(c);
- (iii) be entitled “Recovery Works Schedule”;
- (iv) have activities which are Traceable to those that appeared in the Baseline Works Schedule and in the immediately previous Progress Works Schedule; and
- (v) indicate the variance between the Recovery Works Schedule and,
 - (A) the immediately previous Progress Works Schedule; and
 - (B) the Baseline Works Schedule.
- (e) Project Co’s Recovery Works Schedule Report shall,
 - (i) comply with the requirements of a Works Schedule Report as set out in Section 13.1;
 - (ii) be entitled “Recovery Works Schedule Report”;
 - (iii) set out, in detail and in narrative form, the delays experienced by Project Co in carrying out the Works, including both delays which are and are not Delay Events;
 - (iv) set out, in detail and in narrative form, the commercially reasonable mitigation measures being taken by Project Co to mitigate the delay and Project Co’s plan to continue the mitigation measures until Substantial Completion;
 - (v) provide, in narrative form, an explanation of the variances between the Recovery Works Schedule and,
 - (A) the immediately previous Progress Works Schedule; and
 - (B) the Baseline Works Schedule; and
 - (vi) provide a revised Basis of Works Schedule Report detailing the assumptions used to generate the Recovery Works Schedule being submitted.
- (f) For clarity, Contracting Authority may require Project Co to meet the requirements of Sections 14.1(b), 14.1(c), 14.1(d) and 14.1(e) each time Contracting Authority reaches the opinion set out in Section 14.1(a).
- (g) Project Co shall notify the Contracting Authority Representative if, at any time Project Co is aware of any development relating to the Project that may reasonably be expected to affect
 - (i) Project Co’s ability to achieve Substantial Completion by the Scheduled Substantial Completion Date; or
 - (ii) the functionality or the cost of the Project.

- (h) Contracting Authority may, acting reasonably, give notice to the Lenders' Agent pursuant to Section 13 (*Proceeding At Risk and Project Co Delay Notices*) of the Lenders' Direct Agreement that Project Co is failing to maintain the schedule, together with the relevant information supporting Contracting Authority's opinion that Project Co is failing to maintain the schedule.
- (i) For greater certainty, provided that Project Co has complied with this Section 14 and is not in default under Section 45.1(a)(iii) (*Project Co Events of Default*) of the Project Agreement, the failure to achieve Substantial Completion by the Scheduled Substantial Completion Date, on its own, shall not be a Project Co Event of Default for the purposes of Section 45.1(a)(v) (*Project Co Events of Default*) of the Project Agreement.
- (j) Once the Recovery Works Schedule has been accepted by Contracting Authority in accordance with this Schedule 12, it shall be considered the Progress Works Schedule for the month for which it replaced the Progress Works Schedule.

15. PROJECT SCHEDULES MANAGEMENT PLAN

- (a) Project Co shall, within thirty (30) days of Financial Close, provide a comprehensive project schedules management plan that describes how it manages Project Works Schedules in connection with the Project in compliance with the provisions of the Project Agreement (the "**Project Schedules Management Plan**"). The Project Schedules Management Plan shall apply throughout the Project Term.
- (b) The Project Schedules Management Plan shall contain an organizational chart identifying Key Individuals and other key personnel responsible for Project Works Schedule management. It shall also contain a description of the responsibilities, qualifications, and authority of the above personnel and the organizational interfaces between those responsible for project schedule management and other engineering and construction management disciplines.
- (c) The Project Schedules Management Plan shall include quality control and quality assurance completeness and correctness criteria for both scheduling deliverables and the scheduling processes, proposed standards, schedule health and reliability checklists and reporting structures.
- (d) The Project Schedules Management Plan shall, at a minimum, include or reference detailed procedures and process flow diagrams for the following processes:
 - (i) Project Co's Works planning procedure;
 - (ii) integration of Project Co Parties' Works planning;
 - (iii) description of how the requirements of this Schedule will be implemented and monitored;
 - (iv) Scheduling software and tools to be used; and
 - (v) version control, access and security of Project Works Schedules.
- (e) The above procedures and flow diagrams collectively shall document who is responsible for performing the work, what requirements they must follow, and what evidence is generated that they have performed the work correctly.

APPENDIX A TO SCHEDULE 12

PROJECT WORKS SCHEDULE TECHNICAL REQUIREMENTS

1.0 PROJECT WORKS SCHEDULE TECHNICAL REQUIREMENTS

1.1 Software Requirements

- (a) Project Co shall identify all Works Activities in,
 - (i) a graphical, time-scaled, horizontal bar chart format; and
 - (ii) a geographic, time-location schedule.
- (b) Project Co shall generate the Project Works Schedules using Primavera P6 Professional Release: 8.3.0 or newer and Trimble TILOS, to the satisfaction of Contracting Authority to support the completion of the Works in accordance with Section 22.1 (*Completion of the Works*) of the Project Agreement. If Project Co recommends, and Contracting Authority approves, the use of scheduling software other than Primavera or Trimble TILOS, Project Co shall provide four licences and all software updates for the duration of the Project Term for use by Contracting Authority. If software-specific terminology is used in this Schedule 12 to define specific requirements, Project Co shall implement measures to achieve a similar or higher level of scheduling control, quality, content and output regardless of the software used to generate the schedules.
- (c) Project Co shall ensure that each Project Works Schedule submitted to Contracting Authority shall be submitted in the following file formats:
 - (i) the native file format of the software used to generate and manage the Project Works Schedules, which shall be the exported .XER file for Primavera and .HSP files for Trimble TILOS, fully compliant with all requirements of this Project Agreement. The native file shall be fully calculated and in a stable state; and
 - (ii) two, word searchable high-resolution colour Portable Document Format (.PDF) version of each Project Works Schedule with one showing all content to demonstrate conformance with the Project Agreement, showing each start date, finish date, and duration, and the other only showing the critical and near Critical Path activities.
- (d) Project Co shall submit all graphs and tabular information, as required as part of the Basis of Works Schedule Report and Works Schedule Report pursuant to this Schedule 12, including any registers, logs, curves, numerical data or calculations, in two electronic soft copy file formats. The first format shall be in the native form such as the Microsoft Excel file format that would allow Contracting Authority to review the data and formulas for the purpose of evaluation and the second format shall be a high resolution PDF version.
- (e) Project Co shall create and maintain a register detailing the submission of each of the Project Works Schedule document sets (the “**Project Works Schedule Submission Register**”). The register shall include the Project Works Schedule document title,

submission date, publish date, Data Date, revision and version number. The updated register shall be included with each Project Works Schedule submission.

- (f) Upon Contracting Authority’s request, Project Co shall provide the details of the software and any additional software plug-ins used by Project Co, a copy of any templates, and the details for any software settings it has used in its scheduling software, such as calendar settings, user and administrative preferences, schedule settings, and any other information required to enable Contracting Authority to replicate the Project Works Schedules submitted by Project Co using the native file formats provided by Project Co.

1.2 Title Block Requirements

- (a) Project Co shall include in the title-block of each of the Project Works Schedules:
 - (i) Project title;
 - (ii) unique project identifier number;
 - (iii) unique document identifier number;
 - (iv) title of the document (i.e. “the type of Project Works Schedule being submitted”);
 - (v) Project Works Schedule (baseline) version number, and the date on which the Project Works Schedule was agreed; If the Project Works Schedule has not been agreed, state “not-agreed”;
 - (vi) Data Date (with the format YYYYMMDD);
 - (vii) version and revision number;
 - (viii) author name;
 - (ix) date on which the document was published for distribution (PDF date); and
 - (x) any other information as required pursuant to the Project Agreement.

1.3 Guides and Standards

- (a) In addition to complying with the provisions of the Project Agreement and this Schedule 12, Project Co shall provide all Project Works Schedules in accordance with the following:
 - (i) A Guide to the Project Management Body of Knowledge) – Sixth Edition; for use in the definition of “Critical Path”
 - (ii) AACE International Recommended Practice No. 29R-03 “Forensic Schedule Analysis”;
 - (iii) AACE International Recommended Practice, “Schedule Levels of Detail – As Applied in Engineering, Procurement and Construction”;

- (iv) Metrolinx Capital Projects Group Cost Guidelines on Cost Breakdown Structure - CKH-CM-GDE-001 (and successor documents) as supplemented by ‘Ontario Line Code of Accounts 3-Mar-21’ (and successor documents);
- (v) Metrolinx Ontario Line Work Breakdown Structure Guideline (and successor documents);
- (vi) Metrolinx Capital Projects Group P6 Data Dictionary for Contractors – Subways’, CKH-SCHD-RFD-003 Rev.01 (and successor documents);
- (vii) PMI “The Practice Standard for Scheduling” – Second Edition; and
- (viii) PMI “The Practice Standard for Earned Value Management” – Second Edition.

1.4 Dates

- (a) Project Co shall include the following dates in each of the Project Works Schedules:
 - (i) if access to any part of the Lands is projected to be needed for longer/later than provided in Schedule 35 – Lands, the date that Project Co will cease to need access to such part of the Lands (for clarity, this will not entitle Project Co to such access);
 - (ii) the dates any acceptances are required by Contracting Authority;
 - (iii) the dates Project Co will provide equipment or assets to Contracting Authority; and
 - (iv) the dates that Project Co requires specific information is needed from third parties.

1.5 General Requirements for Project Works Schedules

- (a) For each Works Activity, Works Milestones or any other activity or Milestone Event included in the Project Works Schedules, the Project Works Schedules shall, at a minimum, provide:
 - (i) a unique activity identification number (ID) and name or description using consistent and intuitive terminology that would be understandable to Contracting Authority and only using activity descriptions that begin with a verb or work function followed by an object, where the description shall not include percentages and shall, where applicable, contain a location and physical dimension;
 - (ii) early and late start dates, each with a starting time set as the intended work start time for each Working Day;
 - (iii) early and late finish dates, each with a finish time set as the intended work finish time for each Working Day;

- (iv) original planned duration as defined by the Baseline Works Schedule, indicated as Working Days and not calendar days, which duration shall be the most-likely duration and used for the Critical Path calculation and shall be at least one Working Day long. Zero duration activities shall be coded as milestones and not activities;
- (v) for every Works Activity on the Critical Path or any Works Activity with a total float less than sixty (60) Working Days, shortest expected activity duration;
- (vi) for every Works Activity on the Critical Path or any Works Activity with a total float less than sixty (60) Working Days, longest expected duration;
- (vii) physical per cent completion with all activities using the same percentage completion type representing the physical completion of the activity (activities shall not use any other completion type such as duration completion or payment percentage);
- (viii) remaining duration, manually entered or calculated when entering the physical per cent completion and the expected finish date;
- (ix) forecasted finish date, manually entered or calculated when entering the physical per cent completion and the remaining duration;
- (x) actual duration for all completed activities;
- (xi) calendar assigned;
- (xii) total float or slack (i.e. the amount of time that the activity can be delayed without delaying the Substantial Completion Date);
- (xiii) free float (that is, the amount of time that the activity can be delayed without delaying the early start of its successor activity);
- (xiv) relationship with other activities and milestones;
- (xv) activity or milestone lag;
- (xvi) Quantity representing the primary physical dimension of the Works element resulting from the activity as agreed with Contracting Authority (for example, linear meter of wall, square meter of tiles or concrete paving, number of doors) in accordance with the following:
 - A. each activity with a cost value shall have an associated Quantity, where no definable dimension exists, the unit type shall be “sum” and the Quantity shall be set to “1”; and
 - B. the Quantity shall be used as an indicator of level of efforts and production rate estimated and is not to be used for Earned Value calculations;

- (xvii) Quantity unit, which shall include: “units”, “m”, “m²”, “m³”, “ton” or “sum”;
 - (xviii) Labour Resources employed to achieve the activity;
 - (xix) user-defined field “Responsible” to indicate the related activity code defining the entity responsible to complete the Works Activity or Works Milestone, including Contracting Authority, any third party, Project Co self-performance, or Subcontractor;
 - (xx) user-defined fields, in a format and referencing system agreed to with Contracting Authority, including the required geographic location data for each Construction Activity to allow Project Co and/or Contracting Authority to link the Construction Activity information to a geographic information system or building information system as may be applicable, to enable geographic based analysis and/or to present the schedule information in a time-location format;
 - (xxi) any other user-defined fields, as needed to comply with the requirements of the Project Agreement; and
 - (xxii) Earned Value data of the Works Activities to satisfy the Earned Value Metrics by location and work type as per Schedule 12.
- (b) Project Co shall use the activity codes set out in the ‘Capital Projects Group Cost Management – Cost Breakdown Structure, CKH-CM-GDE-001 (and successor documents), as supplemented by ‘Ontario Line Code of Accounts 3-Mar-21’ (and successor documents) and ‘P6 Data Dictionary for Contractors – Subways’, CKH-SCHD-RFD-003 Rev.01 (and successor documents).

1.6 Sequencing Logic

- (a) Project Co shall use unconstrained sequencing logic and shall not use imposed date constraints to replace or limit sequencing logic for any Works Activity or Works Milestone, except for the first starting milestone defining the Financial Close date unless it is not feasible to sequence the Works otherwise, Project Co shall sequence the Works in accordance with the following:
- (i) When a constraint is used it shall only be of the “start-no-earlier than” or “finish-no-later than” constraint types;
 - (ii) For every imposed date constraint used Project Co shall provide a narrative in the Basis of Works Schedule Report detailing the reason for using the imposed date constraint and the scheduling methodology used to prevent inaccuracy when calculating the Critical Path and available total float; and
 - (iii) Project Co shall refrain from the “Expected Finish”, “Start On”, “Finish On”, “Mandatory Start”, “Mandatory Finish”, or any other similar constraint type, nor any other constraint type that would impact on the total float calculations to determine the Critical Path;

- (b) include inter-relationships and logic dependencies between all Works Activities, Works Milestones or any other activities or milestones included in the Project Works Schedules, and Project Co shall:
 - (i) use closed-sequence logic, each Works Activity shall have at least one predecessor and at least one successor, and each Works Activity shall have a start and a finish relationship;
 - (ii) use closed-sequence logic for each Works Milestone shall have at least one predecessor except for the first Works Milestone denoting Financial Close, and have at least one successor except for the last Works Milestone denoting the Final Completion Date, and each Works Milestone except for the first and last shall have a start and a finish relationship;
 - (iii) not use the start-to-finish (SF) activity relationship type between activities unless otherwise agreed to by Contracting Authority;
 - (iv) not use a negative lag between any Works Activities and/or Works Milestones;
 - (v) only use positive lag between Works Activities and/or Works Milestones to model a specific waiting duration for a process directly related to the preceding Works Activity (e.g. concrete curing time);
 - (vi) for any two Works Activities or Works Milestones with a start-to-start (SS) relations define a lag no longer than the duration of the predecessor duration;
 - (vii) not use reverse logic, a Works Activity shall not have a finish-to-finish relationship with a predecessor, and a Works Activity shall not have a start-to-start (SS) relationship with a successor; and
 - (viii) only define one relationship per activity or milestone pair, except for the finish-to-finish (FF) and start-to-start (SS) relationship pair that may be used together for an activity or milestone pair; and
- (c) Project Co shall ensure that Project Works Schedule shall reflect the constraints related to allowable hours of work on the Site, inclement weather, environmental work windows, or any other schedule related restrictions in establishing the calendars, logical relationships and durations for the activities.

1.7 Calendars

- (a) Project Co shall define and use appropriate non-global project level activity based calendars, and for each calendar define:
 - (i) a descriptive calendar name using intuitive terminology that would be understandable to Contracting Authority;
 - (ii) the intended Working Days and Working Hours conforming to the requirements of the Project Agreement and any other governing approvals and permits that are used as the basis for Critical Path calculations, and all non-Working Days;

- (iii) all non-Working Days including all public holidays, winter shut-down, any environmental restricted time periods for the full project timeframe; and
- (iv) the first (1st) day of each work week as a Monday.
- (b) Project Co shall not use global calendars.
- (c) For each calendar, Project Co shall include all statutory holidays in the Province of Ontario and shall use days as the planning unit for each activity.
- (d) Project Co shall specify activity durations using only full Working Days and shall not use fractional durations (for example, Project Co shall not use 5.5 days).
- (e) Project Co shall assign a calendar to each activity, based on when such activity is planned to occur, and in accordance with the requirements of the Project Agreement.
- (f) Project Co may define and use additional calendars that are necessary for the completion of the Works, in accordance with the requirements of the Project Agreement.
- (g) Project Co shall include a narrative on shifts and shift hours in each Basis of Works Schedule Report.

1.8 Works Activity Level of Detail

- (a) Project Co shall ensure that the Project Works Schedules define the Works Activities to a level of detail that would limit any Works Activity value to a value no greater than the lesser of \$[REDACTED] or [REDACTED]% of the total Construction Contract value.
- (b) Subject to the Parties otherwise agreeing, Project Co shall ensure that durations for any Works Activity, except for single process-step activities (such as manufacturing time, and design and delivery periods, and other linear repetitive tasks that have no interface with other activities), and “hammock” activities are as follows:
 - (i) any Works Activity within one-hundred and eighty (180) calendar days of the Data Date, shall be no less than one calendar day and no more than thirty (30) calendar days;
 - (ii) any Works Activity that is not within one-hundred and eighty (180) calendar days of the Data Date, shall be no less than one calendar day and no more than ninety (90) calendar days; and
 - (iii) any Works Micro-Schedule Activities duration shall be no more than five (5) Working Days.
- (c) Project Co shall ensure that the Project Works Schedules provide the crewing or equipment resource levels for the activities and the dependency logic that is governed by or represents crewing or equipment availability.

1.9 Critical Path

- (a) The sequence of activities that represents the longest path through a project, which determines the shortest possible project duration as set out in the *PMBOK – 6.6.2.2 – CPM* (the “**Critical Path**”), Project Co shall determine and indicate the Critical Path applicable to achieve Substantial Completion in each Project Works Schedule.
- (b) The Critical Path shall:
 - (i) be calculated using the “retained-logic” scheduling methodology and shall not use a progress override option;
 - (ii) not include any “level of effort” type activities, all activities on the Critical Path shall be either task-dependent activities or milestones;
 - (iii) be the result of an unmodified software calculation of the Critical Path using the Critical Path method. Project Co shall not employ any additional filters or any other manual manipulation whatsoever to calculate the Critical Path;
 - (iv) be continuous and logic driven;
 - (v) not contain negative float (due to Primavera® calendars it is anticipated that on the Critical Path there may be activities with small positive total float); and
 - (vi) in situations where the same Critical Path is not identified as calculated using the software’s various standard Critical Path filters (default filter for the “Longest Path”), and multiple Critical Paths exist due to various project constraints, provide all Critical Path alternatives together with Project Co’s narrative on which Critical Path is most representative of the Works and also include a narrative for each of the other Critical Path.
- (c) If required to do so by Contracting Authority, Project Co shall indicate all activities with a total float of up to ten (10) Business Days.

APPENDIX B TO SCHEDULE 12

EVM REPORTING REQUIREMENTS

- (a) For each month following submittal of the Baseline Works Schedule, Project Co shall submit as part of the Works Schedule Report, in a tabular format and diagram illustration (S curve), a time-phased distribution of Earned Value Metrics for the Project.
- (b) The report shall include the Earned Value Metrics for the each of the following:
 - (i) the overall Project;
 - (ii) for each major geographical subdivision of the Project, or as agreed with Contracting Authority:
 - (A) Ontario Line Alignment – Area Wide;
 - (B) Science Centre Station;
 - (C) Flemingdon Park Station;
 - (D) Thorncliffe Park Station;
 - (E) Cosburn Station;
 - (F) Cosburn Portal Extraction Site;
 - (G) Pape Station;
 - (H) Gerrard Station;
 - (I) Leslieville Station;
 - (J) East Harbour Station;
 - (K) Corktown Station;
 - (L) Techumseh Launch Site;
 - (M) Moss Park Station;
 - (N) Queen Station;
 - (O) Osgoode Station;
 - (P) OL-Queen / Spadina Station;
 - (Q) OL-King / Bathurst Station;
 - (R) OL-Exhibition Station;

- (S) Exhibition Station to King Bathurst Station;
 - (T) King Bathurst Station to Queen Spadina Station;
 - (U) Queen Station to Osgoode Station;
 - (V) Osgoode Station to Queen Station;
 - (W) Queen Station to Moss Park Station;
 - (X) Moss Park Station to Corktown Station;
 - (Y) Corktown Station to Don Yard Portal;
 - (Z) Don Yard Portal to East Harbour Station;
 - (AA) East Harbour Station to Leslieville Station;
 - (BB) Leslieville Station to Gerrard Station;
 - (CC) Gerrard Station to Pape Station;
 - (DD) Pape Station to Cosburn Station;
 - (EE) Cosburn Station to Thorncliffe Park; and
 - (FF) Thorncliffe Park to Science Center; and
- (ii) for each major type of Works activity within the scope of Project Co, or as agreed with Contracting Authority:
- (A) design (each design/engineering discipline to be reported separately);
 - (B) Site investigation;
 - (C) Utility Work;
 - (D) drainage;
 - (E) pavement work and streetscaping;
 - (F) concrete work;
 - (G) mechanical and electrical work;
 - (H) steel work;
 - (I) track work;
 - (J) train controls and signalling;

- (K) traction power supply;
 - (L) traction power distribution;
 - (M) communications;
 - (N) rolling stock procurement, delivery, testing and commissioning;
 - (O) Operational readiness
 - (P) testing and commissioning; and
 - (Q) architectural work;
- (c) The report shall include:
- (i) area weighting, defining the assigned value of the work for the Project, or geographical subdivision or work type within the Project;
 - (ii) progress chart, a graphical representation of time phased distribution of Planned Value (%), Earned Value (%) and forecast (%) by period and cumulatively;
 - (iii) Planned Value to date; the value of the work planned to be completed by the data date;
 - (iv) Planned Value this period; the value of the work planned to be completed in the preceding month up to the data date;
 - (v) Planned Value to date (%); the value of the work planned to be completed by the data date, as a proportion of the total value of the work, to be shown in tabular and graphical format;
 - (vi) Planned Value this period (%); the value of the work planned to be completed in the preceding month up to the data date, as a proportion of the total value of the work, to be shown in tabular and graphical format;
 - (vii) Earned Value to date; sum of the value of work completed by the data date;
 - (viii) Earned Value this period; the value of the work completed in the preceding month up to the data date;
 - (ix) Earned Value to date (%); sum of the value of work completed by the data date, as a proportion of the total value of the work, to be shown in tabular and graphical format;
 - (x) Earned Value this period (%); the value of the work completed in the preceding month up to the data date, as a proportion of the total value of the work, to be shown in tabular and graphical format;

- (xi) forecast (%); the distribution of the value of work completed to date and the time-phased distribution of the value of the work not completed, to be shown in tabular and graphical format;
 - (xii) Schedule Performance Index (SPI); the ratio of work completed by the data date to work planned to be completed by the data date, calculated as $SPI = EV / PV$, to be shown in tabular format;
 - (xiii) Schedule Performance Index (SPI) this period; the ratio of work completed in the preceding month to work planned to be completed in the preceding month, calculated as $SPI \text{ this period} = EV \text{ this period} / PV \text{ this period}$, to be shown in tabular format;
 - (xiv) schedule variance (SV); the difference between the work completed by the data date and the work planned to be completed by the data date, calculated as $SV = EV - PV$, to be shown in tabular format;
 - (xv) activities started this period vs forecast (%); the proportion of activities which were actually commenced in the reporting period, as a proportion of the activities which were forecasted to commence in the period, as reported in the immediately preceding period;
 - (xvi) activities started this period vs baseline (%); the proportion of activities which were actually commenced in the reporting period, as a proportion of the activities which were forecasted to commence in the period, as reported in the baseline;
 - (xvii) activities completed this period vs forecast (%); the proportion of activities which were actually completed in the reporting period, as a proportion of the activities which were forecasted to be completed in the period, as reported in the immediately preceding period;
 - (xviii) activities completed this period vs baseline (%); the proportion of activities which were actually completed in the reporting period, as a proportion of the activities which were forecasted to be completed in the period, as reported in the baseline; and
 - (xix) a narrative analysis describing the results of the EV metrics, identifying variances from plan, and outlining corrective actions as necessary.
- (d) The Earned Value Metrics will reconcile to the progress shown in the Project Works Schedules.

The EVM reporting requirements are outlined in the table below:

Work Area/Type	Eg. Station A				
Area Weighting:	Eg. \$[REDACTED]				
	<p>Progress Chart: S-curve of Cumulative Plan %, Earned Value % and Forecast % Histogram of Period Plan %, Earned Value % and Forecast %</p>

APPENDIX C TO SCHEDULE 12

WORKS MICRO-SCHEDULE

- (a) Without limiting Contracting Authority's rights under Section 11 of this Schedule 12, Contracting Authority may request that Project Co provide Works Micro-Schedules in the following instances:
- (i) work requiring a shutdown, closure or significant disruption of Third Party Works, including, but not limited to:
 - (A) any public or private utilities or services including power, water, communications, gas or other;
 - (B) disruption or closure of public buildings or infrastructure;
 - (C) disruption of normal TTC light rail transit, streetcar or subway infrastructure or operations; or
 - (D) disruption of Metrolinx GO light rail transit or rail infrastructure or operations;
 - (ii) activities which will be undertaken in the zone of work under the control of a Third Party Contractor under Metrolinx;
 - (iii) activities immediately preceding a Handover event;
 - (iv) heavy lift or heavy haul operations, including movement of tunnel boring machinery;
 - (v) works activities which must be completed without interruption, including significant concrete placement; or
 - (vi) any instance in which Contracting Authority, acting reasonably, requests a Works Micro-Schedule.

SCHEDULE 13

PROJECT CO PROPOSAL EXTRACTS

1. For the purposes of the Project Agreement, the “**Project Co Proposal Extracts**” means, collectively, the following documents:
 - a) those portions of Project Co’s proposal for the Project delivered in response to the Request for Proposals (“**Project Co’s RFP Proposal**”) identified and annotated in and, for greater certainty, not excluded by Part A of Table 1 – Applicable Portions of Project Co’s Proposal of this Schedule 13 (collectively, the “**Project Co Proposal Documents**”); and
 - b) the ancillary documents identified in Part B of Table 1 – Applicable Portions of Project Co’s Proposal of this Schedule 13 (collectively, the “**Ancillary Extract Documents**”).

For greater certainty, the term “Project Co Proposal Extracts” shall also be interpreted by taking into account the provisions of Section 2.

2. The Parties acknowledge and agree that:
 - a) the Project Co Proposal Extracts are in the nature of clarifications, interpretations and/or enhancements to the Project Agreement (including, for clarity, the Output Specifications) and, as such, are not intended to and do not conflict with, reduce, amend or otherwise modify the Project Agreement;
 - b) in the event of any ambiguity, conflict or inconsistency between or among any of the documents comprising the Project Co Proposal Documents and the Ancillary Extract Documents, the Ancillary Extract Documents shall prevail to the extent of such ambiguity, conflict or inconsistency;
 - c) intentionally deleted;
 - d) in the event of any ambiguity, conflict or inconsistency between or among any of the documents comprising the Project Co Proposal Extracts, the provisions contained in any subsequently finalized or dated document shall prevail to the extent of such ambiguity, conflict or inconsistency. For greater certainty, where any element, sketch, feature or other document or item contained in any part of the Project Co Proposal Extracts is modified, superseded, qualified, conflicts with or is otherwise amended by a subsequently finalized or dated part of the Project Co Proposal Extracts, the subsequently finalized or dated part of the Project Co Proposal Extracts shall prevail; and
 - e) the inclusion of a document or other item within the Project Co Proposal Extracts is not intended to and does not affect, diminish or otherwise alter Project Co’s obligation to submit the subject matter of such document or other item to Contracting Authority, or Contracting Authority’s right to review such document or other item, in accordance with Schedule 10 – Review Procedure. For greater certainty, the inclusion of a document or other item within the Project Co Proposal Extracts does not constitute the review of or acceptance by Contracting Authority of the subject matter of

such document or other item pursuant to the Project Agreement, including in accordance with Schedule 10 – Review Procedure.

SCHEDULE 14

COMMISSIONING

1. DEFINITIONS

1.1 In this Schedule 14, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 14) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

- (a) **“Asset Information System”** has the meaning given in the Output Specifications.
- (b) **“Backup Operations Control Centre (BOCC)”** has the meaning given in the Output Specifications.
- (c) **“Capacity Level 1”** has the meaning given in the Output Specifications.
- (d) **“Capacity Level 2”** has the meaning given in the Output Specifications.
- (e) **“Consent to Operate Revenue Service”** has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- (f) **“Consent to Operate Revenue Service Safety Submission”** has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- (g) **“Consent to Operate Revenue Service Security Submission”** has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- (h) **“Consent to Operate System Safety Submission”** has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- (i) **“Consent to Operate System Security Submission”** has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- (j) **“Consent to Test Safety Submission”** has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- (k) **“Consent to Test Security Submission”** has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- (l) **“Commissioning”** means all activities and requirements of Project Co to prove compliance to the requirements in the Project Agreement, including commissioning obligations as set out in this Schedule 14 – Commissioning and in the Output Specifications, which, according to the Verification and Validation process of Project Co, must be proven through the act of testing.
- (m) **“Commissioning Brief”** has the meaning given in Section 7.2(a).
- (n) **“Commissioning Flow Chart”** has the meaning given in Section 4.4(a).

- (o) “**Commissioning Requirement Traceability Matrix**” is defined as the matrix containing the requirements that are part of the Commissioning activities. In the Verification and Validation process the requirements that need to prove compliance through the act of testing and commissioning are identified from the requirements of the Output Specifications and all derived requirements.
- (p) “**Commissioning Steering Group**” has the meaning given in Section 8.2.
- (q) “**Commissioning Submittals**” has the meaning given in Section 7.1(a).
- (r) “**Dwell Time**” has the meaning given in the Output Specifications.
- (s) “**Engineering Safety and Assurance Case**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- (t) “**Factory Acceptance Test (FAT)**” has the meaning given in Section 5.2.
- (u) “**Factory Integration Test (FIT)**” has the meaning given in Section 5.3.
- (v) “**Factory Performance Test (FPT)**” has the meaning given in Section 5.4.
- (w) “**Headway Buffer**” has the meaning given in Schedule 20 – Payment Mechanism.
- (x) “**Initial Train Fleet**” has the meaning given in the Output Specifications.
- (y) “**Integrated Commissioning Plan**” has the meaning given in Section 7.3
- (z) “**Integrated Commissioning Report**” has the meaning given in Section 7.4
- (aa) “**integrated Process Acceptance Test (iPAT)**” is defined as the tests to prove that the Standard Operating Procedure comply with operation and maintenance requirements of the Output Specifications.
- (bb) “**Interchange Station Service Providers**” has the meaning given in the Output Specifications.
- (cc) “**Maintenance Management System**” has the meaning given in the Output Specifications.
- (dd) “**Minimum Doors Open Time**” has the meaning given in the Output Specifications.
- (ee) “**Network Control Centre**” has the meaning given in the Output Specifications.
- (ff) “**Off-Peak Periods**” has the meaning given to in the Output Specifications.
- (gg) “**Operational Readiness**” has the meaning given in Section 2.2(a)(ii).
- (hh) “**Operations Control Centre (OCC)**” has the meaning given in the Output Specifications.
- (ii) “**Operations Plan**” has the meaning given in the Output Specifications.

- (jj) “**Operations, Maintenance and Storage Facility (OMSF)**” has the meaning given in the Output Specifications.
- (kk) “**Organizational Readiness**” has the meaning given in Section 2.2(a)(iii).
- (ll) “**Peak Periods**” has the meaning given in the Output Specifications.
- (mm) “**Performance Information**” has the meaning given in the Output Specifications.
- (nn) “**Performance Readiness**” has the meaning given in Section 2.2(a)(i).
- (oo) “**Performance Reporting System**” has the meaning given in the Output Specifications.
- (pp) “**Period**” has the meaning given in the Output Specifications.
- (qq) “**Post-Installation Check-Out Test (PICO)**” has the meaning given in Section 5.5.
- (rr) “**Pre-Site Acceptance Testing (Pre-SAT)**” is defined as the tests performed for systems and subsystems before testing the complete system in the Site Acceptance Test.
- (ss) “**Project Co Commissioning Manager**” has the meaning given in Section 9.1.
- (tt) “**Project Co Commissioning Plan**” has the meaning given in Section 7.5.
- (uu) “**Project Co Commissioning Report**” has the meaning given in Section 7.6.
- (vv) “**Project Co Commissioning Team**” has the meaning given in Section 8.3.
- (ww) “**Release**” is defined as a group of one or more commissioning tests which are grouped together because of a shared location, functionality and timeframe, and managed like a project within the larger Project Co framework, having one or more phases to group the testing activities within the Release.
- (xx) “**Release Management Plan**” has the meaning given in Section 7.7.
- (yy) “**Release Manager**” has the meaning given in Section 10.1.
- (zz) “**Release Report**” has the meaning given in Section 7.8.
- (aaa) “**Release Strategy**” has the meaning given in Section 3.1.
- (bbb) “**Revenue Service**” has the meaning given in the Output Specifications.
- (ccc) “**Revenue Service Demonstration**” has the meaning given in Section 5.10.
- (ddd) “**Scheduled Headway**” has the meaning given in the Output Specifications.

- (eee) “**Section Handover**” means each of South Civil Infrastructure Section Handover, North Civil Infrastructure Section Handover and Early Works Section Handover, and collectively, the “**Section Handovers**”.
- (fff) “**Signaling and Train Control System**” has the meaning given in the Output Specifications.
- (ggg) “**Site Acceptance Test**” has the meaning given in Section 5.7(a).
- (hhh) “**Site Integration Test – dynamic (SIT2)**” is the integration testing of Ontario Line Subway on site with moving Trains.
- (iii) “**Site or System Acceptance Testing (SAT)**” has the meaning given in Section 5.7.
- (jjj) “**Support Teams**” has the meaning given in Section 5.9(f).
- (kkk) “**Site Integration Test – static (SIT1)**” is the integration testing of Ontario Line Subway on site in the static and dynamic state without moving Trains.
- (lll) “**System of Interest**” is defined as that part of the system or subsystem that is the focus of a specific test or series of tests, including not only the technical aspects of the system or subsystem, but also the people (and their knowledge, skills and training) involved in its operation and maintenance, as well as the organization necessary to enable such people to operate and maintain it.
- (mmm) “**System Safety Case**” has the meaning given in Schedule 29 – Safety, System Assurance and Security.
- (nnn) “**Terminal Stations**” has the meaning given in the Output Specifications.
- (ooo) “**Test Plan**” has the meaning given in Section 7.9.
- (ppp) “**Test Report**” has the meaning given in Section 7.10.
- (qqq) “**Test Tier**” is defined as a specific phase in the testing sequence as part of the Commissioning hierarchy.
- (rrr) “**Tree of Tests**” has the meaning given in Section 4.3(a).
- (sss) “**Trial Operations**” means the final phase of Commissioning, consisting of Test Tier 9, 10 and 11, as described in Section 5.10, Section 5.11 and Section 5.12.
- (ttt) “**Trial Running**” means Test Tier 9 and Test Tier 10 combined, as described in Section 5.10 and Section 5.11.
- (uuu) “**Trial Running, Resilience Tests (Trial-RT)**” has the meaning given in Section 5.10.
- (vvv) “**Trial Running, Scenario Tests (Trial-ST)**” has the meaning given in Section 5.10.
- (www) “**Trip Capacity Ratio**” has the meaning given in Section 11.3 (*Trip Failure Deductions*) of Schedule 20 – Payment Mechanism.

- (xxx) “**Trip Punctuality Ratio**” has the meaning given in Section 11.8 (*Trip Failure Deductions*) of Schedule 20 – Payment Mechanism.
- (yyy) “**Tunnel Ventilation System**” has the meaning given in the Output Specifications.
- (zzz) “**Verification and Validation**” has the meaning given in the Output Specifications.

PART 1: PRINCIPLES OF COMMISSIONING

2. GOAL OF COMMISSIONING ACTIVITIES

2.1 Goal of commissioning activities

- (a) Project Co shall use the commissioning process to prove compliance to all requirements in the Output Specifications which need to be provided through the act of testing and commissioning, and shall identify such requirements from other requirements in its Verification and Validation process using the Commissioning Requirements Traceability Matrix.
- (b) Project Co shall set up its commissioning process using the release management approach to clearly distinguish amongst evidence of readiness as defined in Section 2.2(a).

2.2 Readiness and compliance

- (a) Project Co shall provide evidence of readiness and verification and/or validation with the Commissioning Requirements Traceability Matrix set up through Project Co's Verification and Validation process, by successfully carrying out commissioning tests and reporting on these using the following four definitions:
 - (i) performance readiness by providing evidence as per the Commissioning Requirements Traceability Matrix, meaning that there is sufficient evidence that the system or subsystem undergoing the test is ready to fully function and perform according to all its allocated requirements, in its intended operating environment, and will be able to do so throughout its intended life cycle, and the intended operating environment shall include all expected normal, degraded, maintenance and emergency modes of operation, ("**Performance Readiness**");
 - (ii) operational readiness by providing evidence of compliance with the operation and maintenance requirements as per the Commissioning Requirements Traceability Matrix, meaning that sufficient evidence exists that the intended processes which support the operation and maintenance of the system or subsystem, are implemented and compliant with its operational and maintenance requirements, complete and ready to accompany the system or subsystem in operational and maintenance states ("**Operational Readiness**");
 - (iii) organizational readiness, meaning that sufficient evidence exists that the organization that should support the operation and maintenance of the system or subsystem under test, is ready to do so, under all expected normal, degraded, maintenance and emergency modes of operation, according to relevant requirements as per the Commissioning Requirements Traceability Matrix ("**Organizational Readiness**"); and
 - (iv) readiness to support the required principles of safety and security by providing evidence of compliance with the safety and security requirements as per the Commissioning Requirements Traceability Matrix.

2.3 Sufficient evidence

- (a) Project Co shall be responsible for determining whether the evidence gathered by successful commissioning tests is sufficient or not, making appropriate use of Engineers of Record. Project Co's Verification and Validation activities shall contribute to the decision of sufficiency of evidence.
- (b) Project Co shall gather sufficient evidence of commissioning success throughout the Project, through the process of successfully scoping, planning, executing and reporting on the commissioning tests as described in this Schedule 14.
- (c) Decisions about sufficiency of evidence which were generated by Commissioning Managers of Civil Contractors, shall be included in this traceability where the Commissioning activities cuts across the boundaries of Project Co and Civil Contractors. For clarity, this includes, among others, decisions about interfaces, safety certification and handovers.

3. RELEASE MANAGEMENT

3.1 The Release Strategy

- (a) Project Co shall use Release management to structure, organize and execute its Commissioning.
- (b) Project Co shall identify all Releases required to deliver the commissioning tests.
- (c) Project Co shall develop a release strategy which shall contain the intended sequence of Releases, the grouping of commissioning tests, the rationale for this grouping and its sequence, (the “**Release Strategy**”).
- (d) The Release Strategy shall act as a framework for the Release Management Plan.
- (e) Project Co shall integrate the Release Strategy with the Civil Contractors’ release strategies, using the Commissioning Steering Group as a forum.
- (f) Releases may run concurrently.
- (g) Project Co shall distinguish between Releases for learning and Releases for proving readiness:
 - (i) Releases for learning focus on proving concepts, process, subsystems or other stated learning goals. Project Co shall treat these Releases with a stage-gate method focussed on the learning goals and not on the elements of functional performance or other results of the commissioning tests which might not yet be ready.
 - (ii) Releases for proving applied learning, or successful integration, which are generally located later in the project life cycle.

3.2 General release management requirements

- (a) Project Co shall include in the Release planning, execution and reporting for the specific System of Interest.
- (b) Project Co shall include the Operations Director and Maintenance Director (as such are roles set out in Schedule 9 – Key Individuals) in the planning and execution of the Releases.
- (c) Project Co shall structure its Release planning, execution and reporting so that relevant evidence of:
 - (i) Performance Readiness can be achieved;
 - (ii) Operational Readiness can be achieved;
 - (iii) Organizational Readiness can be achieved;
 - (iv) Schedule 29 – Safety, System Assurance and Security on safety and security management is gathered; and

- (v) LEED accreditation is gathered.
- (d) Project Co shall include at least two readiness gate reviews in advance of all Releases to ensure that Releases will start on time with a stable set of entry criteria and show these readiness reviews in the Project Works Schedule.

3.3 Entry and exit criteria

- (a) Every Release shall contain a list of entry criteria, using all four definitions of readiness as described in Section 2.2(a).
- (b) Every Release shall contain a list of exit criteria, using the four definitions of readiness, as applicable for the Release, as described in Section 2.2(a).
- (c) Entry and exit criteria shall contain project management aspects of the tests and technical details within the Release scope.
- (d) Exit criteria shall include, at a minimum:
 - (i) a link between the test results within the Release or Release phase with Project Co's Verification and Validation process to unambiguously measure compliance with requirements,
 - (ii) a narrative on the approach to and execution of the Release to capture lessons learned, and
 - (iii) a reference to the updated Release planning.
- (e) Project Co shall obtain agreement within the Commissioning Steering Group of the entry and exit criteria of the Release if South Civil Project Co and/or North Civil Project Co are involved in the Release or is reliant upon the results of the Release. For all other Releases, Project Co shall inform the Commissioning Steering Group.
- (f) Project Co shall not start the Release until the Commissioning Steering Group has agreed on the entry and exit criteria of the Release.
- (g) Project Co shall maintain a singular database to trace and manage entry and exit criteria for all Releases, including the Releases owned by the Civil Contractors.
- (h) The database shall be directly accessible for the entire Release team, the Civil Contractors and the Contracting Authority.
- (i) The Civil Contractors shall be able to insert, trace and manage the entry and exit criteria of the Releases owned by the Civil Contractors directly in the database.
- (j) Project Co shall be responsible for purchasing software licenses as required for their activities in the database.

3.4 Release phases and numbering

- (a) Project Co shall use a nomenclature for Releases which is common for Project Co and Civil Contractors. The Commissioning Steering Group shall agree this nomenclature.
- (b) Project Co shall develop Releases in accordance with the following requirements:
 - (i) Releases which follow each other in time, shall have a number and a descriptive title, such as *Release 7 Pape station control systems*;
 - (ii) within each Release, the different types of readiness tests as per Section 2.2(a) shall be split up into Release phase; and
 - (iii) within the Release, the order of sequence of proving readiness shall be performance (including functional), operational and then organizational readiness.

3.5 General rules for the ownership of Releases

- (a) The Commissioning Steering Group shall appoint an owner of a Release to Project Co or to a Civil Contractor.
- (b) If Project Co is an owner of a Release, Project Co shall provide the Release Manager for that specific Release.
- (c) If Project Co is not the owner of a Release, Project Co shall actively participate in the Release insofar as this is required from the definition of the System of Interest.

4. SYSTEMATIC BUILD-UP OF TESTING

4.1 Tiers of commissioning tests

- (a) Project Co shall systematically build up the complexity, and prove the readiness of, the system or subsystem under review from simple to complex, by following the generic sequence of proving readiness and integration defined in Section 5.

4.2 Stage gates

- (a) Project Co shall define and utilize a strict stage-gate approach to ensure that the proof of readiness obtained by testing on any specific Test Tier includes that non-conformances and deficiencies are closed before commencing with testing within a higher Test Tier. Minor deficiencies that have no impact on the function of the system shall be an exception to this.

4.3 The Tree of Tests

- (a) Project Co shall structure all testing into a logical build-up of tests, using the Test Tiers defined in this document (a “**Tree of Tests**”). For an example see Appendix A.
- (b) Project Co shall combine the Tree of Tests of its own scope with the Trees of Tests from the Civil Contractors and set up and maintain an integrated Tree of Tests for the Ontario Line Subway, using the Commissioning Steering Group.
- (c) The Tree of Tests shall include the use of Releases and a breakdown of subsystems for early testing, where applicable.
- (d) The Tree of Tests shall be defined from a functional breakdown perspective, so that interfacing amongst systems and subsystems is also explicitly shown in the Tree of Tests.
- (e) Project Co shall include the location for FAT, FIT and FPT testing in the Tree of Tests.

4.4 Commissioning Flow chart

- (a) Project Co shall develop a diagram (the “**Commissioning Flow Chart**”) that shows groups of tests and integration test dependencies over time, integrating the commissioning flow charts of the Civil Contractors.
- (b) Project Co shall ensure that the overall Commissioning Flow Chart aligns with the Project Works Schedule.

4.5 Keep parallel developments in step with each other

- (a) Project Co shall use Releases and commissioning tests to provide evidence that the operation and maintenance systems are developed in step with Project Co Infrastructure.
- (b) Project Co shall specifically include timely readiness and decommissioning of temporary systems to enable the realization of the core systems.

- (c) Project Co shall use Releases as evidence that the activities of the Additional Contractors are developing in step with each other.

4.6 Software integration testing

- (a) Project Co shall test and integrate software in data integration environment, taking into account the need for data protection throughout the Project Term.
- (b) Project Co shall define the required software test hierarchy and include this in the Project Co Commissioning Plan.
- (c) Project Co shall use formal software configuration and acceptance procedures to integrate, through Releases, including the software from the Civil Contractors.
- (d) Project Co shall prove software integration before commencing physical integration testing with components or systems which use this firmware or software.

4.7 Interface testing during the Operational Term

- (a) During the Operational Term, Project Co shall be able to prove the interfaces amongst the Train on-board systems and the hardware of all relevant wayside systems, without impacting the Revenue Service.
- (b) Project Co shall be able to do Signaling and Train Control System regression testing with the Trains accelerating to the maximum speed required in the Output Specification and stopping at a platform equipped with platform screen doors.

4.8 Handovers

- (a) Project Co shall regard each Section Handover as Releases.
- (b) Without limiting any other obligation set out in this Schedule 14, Project Co shall conduct and complete all applicable SATs preceding each Section Handover.

4.9 Commissioning and Handover of New Third Party Infrastructure

- (a) Project Co shall use the Commissioning process to prove compliance to all requirements in the Output Specifications for all New Third Party Infrastructure which need to be provided through the act of testing and commissioning, and shall identify such requirements from other requirements in its Verification and Validation process using the Commissioning Requirements Traceability Matrix.
- (b) Project Co shall execute the Commissioning of all New Third Party Infrastructure in accordance with the Project Agreement, this Schedule 14 and in accordance with the specifications of the relevant third parties.
- (c) Prior to achievement of Handover of New City Infrastructure, and as a pre-condition of Handover, Project Co shall submit to Contracting Authority or the City of Toronto (if a Notice of Delegation has been issued in respect of the New City Infrastructure) written certification of the New City

Infrastructure in the form attached as Attachment 1 of Appendix B to this Schedule 14. Each certificate shall be stamped, signed and dated by professionals licensed in the Province of Ontario qualified to certify the specific type of work and equipment being certified.

- (d) Prior to achievement of Handover of each component of New TTC Infrastructure, if applicable, and as a pre-condition of Handover, Project Co shall submit to Contracting Authority a Project Co Commissioning Plan for Handover of each component New TTC Infrastructure for review.
- (e) Project Co shall execute the Commissioning of New TTC Infrastructure in accordance with section 00 91 00 of the TTC master specification as part of the TTC Design Standards (as defined in the Output Specifications).

5. GENERAL COMMISSIONING HIERARCHY

5.1 General requirements

- (a) Project Co shall follow the Commissioning hierarchy structure from the below Figure 1.

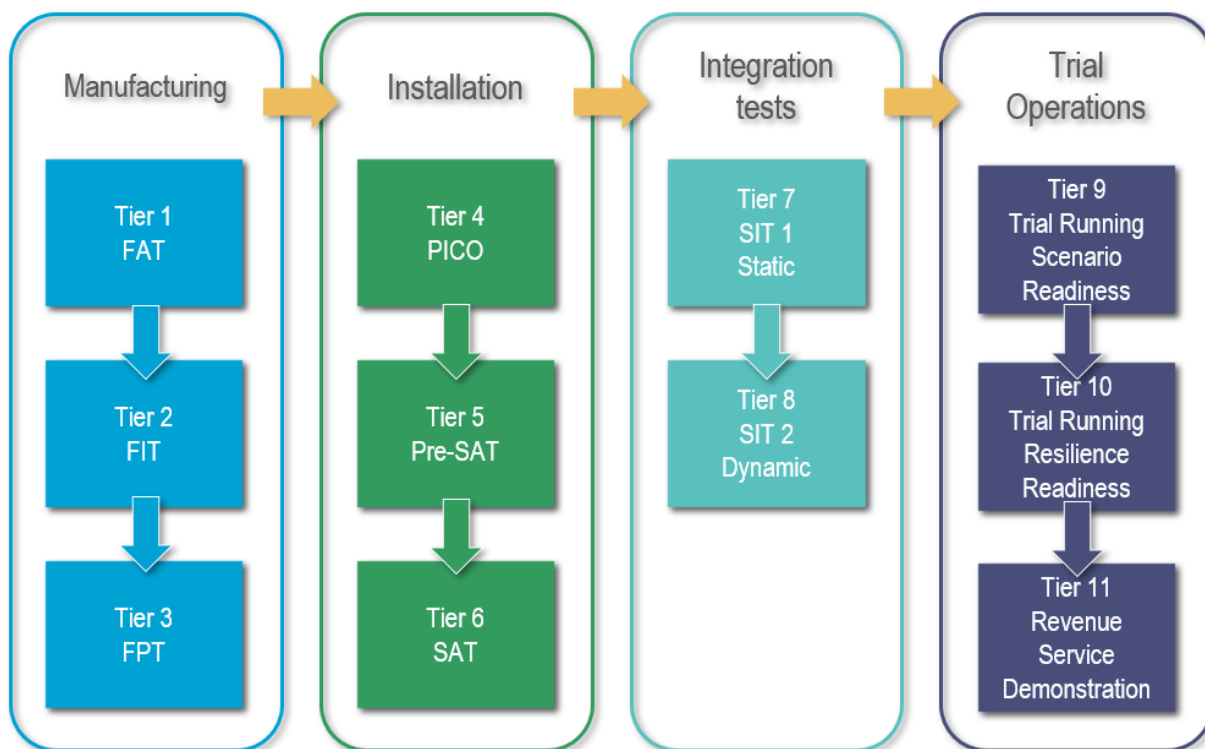

Figure 1: Commissioning hierarchy

- (b) Project Co shall provide all necessary labour, materials, equipment, testing apparatus and incidentals necessary to complete all Commissioning tests for Ontario Line Subway and New Third Party Infrastructure.
- (c) Project Co shall perform tests on all systems or subsystems for which the relevant Engineer(s) of Record requires such tests for the Ontario Line Subway.
- (d) Project Co shall carry out FAT, FIT and FPT testing at the facilities of system assembly, prior to shipping/relocation for final installation or configuration on site. Tests in a data integration environment or at the OMSF before final installation or configuration on site are part of FAT, FIT and FPT testing.

5.2 Tier 1 – FAT (Factory Acceptance Test)

- (a) The goal of factory acceptance tests is to evaluate discrete systems or subsystems, to prove during and after assembly that the System of Interest complies with the relevant performance specifications (the “**Factory Acceptance Test**”).

5.3 Tier 2 – FIT (Factory Integration Test)

- (a) The goal of factory integration tests is to evaluate the interfacing amongst discrete systems or subsystems and any emergent functionality arising from the combination of these discrete systems or subsystems, to prove during and after assembly that the System of Interest complies with the relevant performance specifications (a “**Factory Integration Test**”).
- (b) Project Co shall conduct FITs after successful completion of the FAT of the System of Interest.
- (c) FITs shall be static in nature but may be energised for the duration of the test.

5.4 Tier 3 – FPT (Factory Performance Test)

- (a) The goal of factory performance tests is to evaluate partial Performance Readiness and Operational Readiness of the System of Interest, to prove during and after assembly that the System of Interest complies with the relevant performance specifications (a “**Factory Performance Test**”).
- (b) Project Co shall conduct FPTs after successful completion of the FAT and FIT (if applicable) of the System of Interest.
- (c) FPTs shall be static and dynamic in nature, insofar the facilities at the place of assembly allows for such tests to also be dynamic.

5.5 Tier 4 – PICO (Post Installation Check-Out)

- (a) The goal of post installation check-out tests is to prove successful installation of a system on site to start Pre-SAT and SAT tests and are tests on a system in a non-energized state, (each a “**Post Installation Check-Out Test**”).
- (b) Project Co shall conduct PICO tests after installation on site.

5.6 Tier 5 – Pre-SAT (Pre-Site Acceptance Testing)

- (a) Project Co shall use Pre-SAT tests, or pre-commissioning tests all systems or subsystems for which the relevant Engineer(s) of Record requires such tests.
- (b) The completion of Pre-SAT tests on subsystems of a system, does not constitute a valid SAT on the entire system.

5.7 Tier 6 – SAT (Site Acceptance Test)

- (a) Project Co shall perform site acceptance tests to prove the performance and functionality of the system in compliance with its allocated requirements, after the System of Interest is installed on site, and working as a standalone system (a “**Site Acceptance Test**”).
- (b) Project Co shall conduct SATs after:
 - (i) successfully completing the PICO for the system;
 - (ii) successfully completing the Pre-SAT for the system, if Pre-SATs were used;
 - (iii) Contracting Authority has approved all Consent to Test Safety Submissions related to that “System” in accordance with Schedule 29 – Safety, System Assurance and Security; and
 - (iv) all non-conformances and deficiencies of the previous Test Tiers have been addressed. Minor deficiencies that have no impact on the function of the system shall be an exception to this.
- (c) After completing the SAT of a system, Project Co shall conduct Process Acceptance Tests (PATs) to prove that applicable maintenance and operations processes associated with the System of Interest are also ready.
- (d) Project Co shall successfully complete all PATs before the start of Tier 7 – SIT1.
- (e) Project Co shall include relevant components of its operations and maintenance systems in the SAT testing, including the recording and/or analysis of asset performance and asset health.

5.8 Tier 7 – SIT1 (Site Integration Test 1) Static

- (a) Project Co shall conduct Site Integration Tests – static (SIT1s) after:
 - (i) successful SATs of all the discrete systems within the System of Interest of the SIT1 test;
 - (ii) successful SATs of relevant operation and maintenance systems, including but not limited to a system for the recording and/or analysis of asset performance and asset health; and
 - (iii) all non-conformances and deficiencies arising from previous testing phases have been closed out. Minor deficiencies that have no impact on the function of the system shall be an exception to this.
- (b) The objectives of the SIT1 tests are:
 - (i) prove Performance Readiness of Ontario Line Subway, including the OCC, up to the readiness level required to start SIT2 testing, including but not limited to:
 - (A) support the Civil Contractors to prove full Performance Readiness of all Stations as integrated systems, including Tunnel Ventilation Systems, and obtaining the

- authority to occupy permit for each Station. For clarity, the Civil Contractors will be responsible to obtain the authority to occupy for each Station;
- (B) prove that the software systems architecture and integrated software systems function as a unit with full compliance to its performance specifications, up to such a level of detail that it is fully ready to handle SIT2 testing;
 - (C) prove Performance Readiness of the Trains as standalone units, with at least partial Signaling and Train Control System integration; and
 - (D) prove Signaling and Train Control System integrated readiness up to the level required in IEEE 1474.1-2004 before commencement of the dynamic testing with moving Trains;
- (ii) prove Performance Readiness of all New Third Party Infrastructure and interfaces with Existing Third Party Infrastructure, insofar these were not already covered in SATs;
 - (iii) prove that applicable operations and maintenance processes of the systems part of the SIT1 tests meet the relevant requirements in the Commissioning Requirements Traceability Matrix;
 - (iv) prove that the Maintenance Management System for the systems part of the SIT1 tests, meet the performance requirements and operations and maintenance process requirements in the Commissioning Requirements Traceability Matrix;
 - (v) prove that key asset performance indicators are ready for testing the asset management processes with moving Trains and that there are enough competent staff able to measure, use and interpret these indicators; and
 - (vi) prove readiness of the Ontario Line Subway to start testing with moving Trains.
- (c) Project Co shall use the integrated Process Acceptance Test (iPAT) within the SIT1 and SIT2 testing tiers to provide proof that the Standard Operating Procedures comply with the relevant requirements, as preparation for the Trial-SR and Trial-RT testing tiers, including:
- (i) normal operations, including interfaces with Interchange Station Service Providers, Passenger Interface Provider, Network Control Centre and Security Provider;
 - (ii) degraded operations, including responses to unplanned maintenance and failure management;
 - (iii) maintenance operations and the maintenance concept; and
 - (iv) emergency operations, including efficiently executing emergency response, recovery and incident investigation including interfaces with Emergency Service Providers, Interchange Station Service Providers, Passenger Interface Provider, Network Control Centre and Security Provider.

- (d) iPAT testing shall be conducted after completion of the functional and performance testing.
- (e) Project Co shall successfully complete all iPAT testing before the start of Tier 9 – Trial-ST.
- (f) Project Co shall perform SIT1 tests with energized systems but not with Trains moving on the Guideway under Signaling and Train Control System control.
- (g) Project Co shall order, structure and sequence the test contents of the SIT1 tests as a Release with various phases.
- (h) Project Co shall, based on the completed SIT1 tests, provide evidence of compliance with the safety and security requirements relevant to the System of Interest in the Commissioning Requirements Traceability Matrix as input to the System Safety Case in terms of technical safety.

5.9 Tier 8 – SIT2 (Site Integration Test 2) Dynamic

- (a) Project Co shall conduct Site Integration Test – dynamic (SIT2) after:
 - (i) successful completion of the SIT1 phase of the Ontario Line Subway; and
 - (ii) Contracting Authority has approved all Consent to Operate System Safety Submissions related to that “System” in accordance with Schedule 29 – Safety, System Assurance and Security.
- (b) Project Co shall only commence a Release for SIT2 testing after all tests that are part of the Tree of Tests for the SIT1 testing are completed successfully, including all SIT1 testing completed by Civil Contractors.
- (c) If the entire Mainline Track is not ready to commence SIT2 testing, Project Co may commence SIT2 testing on a portion of the Ontario Line Subway, after agreement with the Contracting Authority.
- (d) The objective of the SIT2 tests is to:
 - (i) prove functionality and Performance Readiness of the Ontario Line Subway with moving Trains;
 - (ii) complete iPAT testing;
 - (iii) prove readiness of the Ontario Line Subway to start Trial Operations;
 - (iv) provide proof required for Consent to Test Safety Submissions and Consent to Test Security Submissions for Trains; and
 - (v) provide all proof required from testing activities to support the System Safety Case, Engineering Safety and Assurance Case for the Consent to Operate System Safety Submissions and the Consent to Operate System Security Submissions for the Ontario Line Subway.

- (e) Project Co shall split the SIT2 in at least the following phases:
 - (i) Signaling and Train Control System testing with:
 - (A) one or two Trains; and
 - (B) Signaling and Train Control System testing with more than two Trains, running simultaneously on the Mainline Track under Signaling and Train Control System control culminating in ATO (GOA4) performance, including all Standard Operating Procedures;
 - (ii) Ontario Line Subway testing with Trains, including Maintenance Management System;
 - (iii) Trains;
 - (iv) Maintenance Vehicles; and
 - (v) technical testing of operational scenarios based on the Standard Operating Procedures, with a full set of timetables.
- (f) Each of South Civil Project Co and North Civil Project Co will provide support staff consisting of mechanical, electrical and Tunnel Ventilation System experts (the “**Support Teams**”) during the SIT2 testing period and Trial Running.
 - (i) On days that the Project Co conducts tests the Support Teams will be on site between 6:00 a.m. and 6:00 p.m., and the Support Teams will be available on call between 6:00 p.m. and 6:00 a.m.
 - (ii) On other days the Support Teams will be available on call for 24 hours per day.
 - (iii) The Support Teams will be available for a maximum period of the lesser of:
 - (A) fifteen (15) months after the last South Civil Infrastructure Section Handover and the last North Civil Infrastructure Section Handover, as applicable; and
 - (B) Project Co’s commencement of Revenue Service Demonstration (Tier 11).
- (g) For clarity, the Support Teams will support Project Co in case of:
 - (i) knowledge gaps or unclarity in Standard Operating Procedures and OEM manual; and
 - (ii) issues in relation to South Civil Project Infrastructure or North Civil Project Infrastructure.
- (h) For clarity, the Support Teams will not provide maintenance services for the South Civil Project Infrastructure or North Civil Project Infrastructure.

5.10 Tier 9 – Trial-ST (Trial running, Scenario Tests)

- (a) Project Co shall commence Trial Operations testing after:

- (i) successfully completing the SIT2 dynamic tests; and
 - (ii) Contracting Authority has approved all Consent to Operate System Safety Submissions related to the Ontario Line Subway, in accordance with Schedule 29 – Safety, System Assurance and Security.
- (b) Project Co shall use Trial Operations testing to prove:
- (i) Operational Readiness of the operating and maintenance staff with the operation of the Standard Operating Procedures (“**Trial Running Scenario Tests**”);
 - (ii) resilience of the Ontario Line Subway System, operational and maintenance processes and organization to meet the reliability targets (“**Trial Running Resilience Tests**”); and
 - (iii) readiness to commence Revenue Service (“**Revenue Service Demonstration**”).
- (c) The Trial Operations (Test Tiers 9, 10 and 11) performance shall be reviewed daily by the Commissioning Steering Group.
- (d) Project Co shall develop and perform exercise-based scenarios to demonstrate Project Co’s readiness to operate and maintain the Ontario Line Subway System.
- (e) Project Co shall demonstrate the competency to operate the Ontario Line Subway System in accordance with Standard Operating Procedures, including:
- (i) normal operations, including interfaces with Interchange Station Service Providers, Passenger Interface Provider, Network Control Centre and Security Provider;
 - (ii) degraded operations, including responses to unplanned maintenance and management of failures; and
 - (iii) emergency operations, including efficiently executing emergency response, recovery and incident investigation including interfaces with Emergency Service Providers, Interchange Station Service Providers, Passenger Interface Provider, Network Control Centre and Security Provider.
- (f) Project Co shall demonstrate the readiness to safely operate and maintain the Ontario Line Subway and provide proof required for Consent to Test Safety Submissions and Consent to Test Security Submissions for Trains.
- (g) Project Co shall provide the proof of the scenario testing to support the System Safety Case, Engineering Safety and Assurance Case for the Consent to Operate Revenue Service Safety Submissions and the Consent to Operate Revenue Service Security Submissions for the Ontario Line Subway System.
- (h) Project Co shall demonstrate that Maintenance Management System and Asset Information System are fit for purpose by proving compliance with the relevant requirements. This shall include

measurements, recordings and interpretations of asset key performance indicators using the Maintenance Management System and Asset Information System.

- (i) Project Co shall include the developed scenarios with measurable pass/fail criteria in the Project Co Commissioning Plan.
- (j) For the successful completion of the Trial Running Scenario Tests, Project Co shall obtain acknowledgement of “no objection” for each scenario test from all involved third parties in each scenario, including but not limited to the Emergency Service Providers, Interchange Station Service Providers, Passenger Interface Provider, Network Control Centre and Security Provider.
- (k) For clarity, the Support Teams will be available on call 24 hours per day and 7 days per week during the Trial-ST period.

5.11 Tier 10 – Trial-RT (Trial Running, Resilience Tests)

- (a) Project Co shall commence Trial Running Resilience Tests after:
 - (i) successful completion of the Trial Running Scenario Tests phase; and
 - (ii) successful completion of the tests with the entire Initial Train Fleet running simultaneously on the Mainline Track under Signaling and Train Control System control in ATO (GOA4).
- (b) During Trial Running Resilience Tests, Project Co shall demonstrate:
 - (i) the ability of the Ontario Line Subway to meet the capacity requirements of Section 2.2.2.2 (*System Capacity*) of the Output Specifications within the limits of the Initial Train Fleet; and
 - (ii) the ability of the Ontario Line Subway System to recover from major disruption events set in stage by scenario testing with use cases.
- (c) Project Co shall submit the scenarios of disruption events with measurable pass/fail criteria as part of the Project Co Commissioning Plan.
- (d) Project Co shall provide the proof of the resilience testing to support the System Safety Case, Engineering Safety and Assurance Case for the Consent to Operate Revenue Service Safety Submissions and the Consent to Operate Revenue Service Security Submissions for the Ontario Line Subway System.
- (e) Project Co shall simulate Train AW Loading for Trial Running Resilience Tests, based on Train performance from previous tests, to represent expected Passenger loading at the Peak Period including variability between Trains. For greater clarity, Project Co shall not be required to load the Trains during Trial Running Resilience Tests.
- (f) Project Co shall develop a Trial Running Resilience Tests timetable based on a maximum Scheduled Headway of 90 seconds operating between Terminal Stations, with all Trains of the Initial Train Fleet. If the limit of the Initial Train Fleet does not allow for a 40 Trains per hour

timetable, the Trial Running Resilience Tests timetable shall include as many subsequent Trains with a maximum Scheduled Headway of 90 seconds to demonstrate the ability to meet the 90 second Scheduled Headway target.

- (g) The Trial Running Resilience Tests timetable shall include the Dwell Time for each Station for Capacity Level 2.
- (h) The Trial Running Resilience Tests timetable shall include the service ramp-up and ramp-down, demonstrating resilience of service ramp-up and ramp-down between Peak Periods and Off-Peak Periods.
- (i) During the Trial Running Resilience Tests, Project Co shall operate the Ontario Line Subway continuously as if in normal operations (without Passengers) in accordance with the Trial Running Resilience Tests timetable, Subway Rules and Standard Operating Procedures until the following performance requirements are achieved over a continuous 8-hour operating period:
 - (i) Trip Punctuality Ratio of [REDACTED]%, pursuant to Schedule 20 – Payment Mechanism, with Scheduled Headways of [REDACTED] (including, for clarity, use of the Headway Buffer for Scheduled Headways of [REDACTED]); and
 - (ii) Trip Capacity Ratio of [REDACTED]%, pursuant to Schedule 20 – Payment Mechanism.
- (j) Project Co shall operate the Ontario Line Subway to demonstrate operation of turnback services:
 - (i) in accordance with Scheduled Headways for turnback services in the Operations Plan;
 - (ii) to provide a Scheduled Headway of 90 seconds at the Terminal Stations; and
 - (iii) over a continuous 3-hour operating period for each turnback service.
- (k) Project Co shall develop Dwell Time tests to confirm the Dwell Time in the Operations Plan are correct.
- (l) Project Co shall conduct Dwell Time tests for Capacity Level 2 for all Interchange Stations, Terminal Stations and Stations where the Dwell Time exceeds the Minimum Doors Open Time in Section 2.2.2.1(c) (*Dwell Times*) of the Output Specifications.
- (m) For clarity, the Support Teams will be available on call 24 hours per day and 7 days per week during the Trial-ST period.

5.12 Tier 11 – Revenue Service Demonstration

- (a) Project Co shall commence Revenue Service Demonstration after:
 - (i) the successful completion of the Trial Running Resilience Tests; and
 - (ii) Contracting Authority has approved the draft Consent to Operate Revenue Service Safety Submissions of the Ontario Line Subway System in accordance with Schedule 29 – Safety, System Assurance and Security.

- (b) The Revenue Service Demonstration is required as a condition of achieving Substantial Completion.
- (c) Validation of the Revenue Service Demonstration shall be performed by the Independent Certifier and the Project Co Independent Safety Assessor.
- (d) Passengers shall not be carried during the Revenue Service Demonstration.
- (e) Project Co shall simulate Train AW Loading for Revenue Service Demonstration, based on Train performance from previous tests, to represent expected Passenger loading at the Peak Period including variability between Trains. For greater clarity, Project Co shall not be required to load the Trains during Trial Running Resilience Tests.
- (f) Project Co shall carry out the Revenue Service Demonstration in accordance with Capacity Level 1 to demonstrate that Project Co is capable of providing Operations Services with Passengers.
- (g) Project Co shall perform the Revenue Service Demonstration in accordance with the following requirements:
 - (i) all Periods within Capacity Level 1;
 - (ii) all transition time required for ramp-up and ramp-down between Periods;
 - (iii) full duration for Peak Periods;
 - (iv) Off-Peak Periods may be operated for a shorter period with a minimum of 1 hour of Period of Scheduled Headway excluding ramp-up and ramp-down transition between Periods; and
 - (v) Dwell Time for each Station for Capacity Level 1.
- (h) Project Co shall simulate the expected perturbations due to normal operations with Passengers including persons with reduced mobility and including the holding of Train doors and platform screen doors for extended door closing times at wheelchair spaces.
- (i) During the Revenue Service Demonstration, Project Co shall operate the Ontario Line Subway continuously as if in normal operations (without Passengers) in accordance with the relevant specifications in the Commissioning Requirements Traceability Matrix, the Subway Rules and Standard Operating Procedures until the following performance requirements are achieved over a consecutive 14-day period (for clarity, if Project Co does not achieve one or more of these performance requirements, the full 14-day period shall restart):
 - (i) average 14-day rolling average Trip Capacity Ratio of [REDACTED]%, pursuant to Schedule 20 – Payment Mechanism;
 - (ii) daily minimum Trip Capacity Ratio of [REDACTED]%, pursuant to Schedule 20 – Payment Mechanism;

- (iii) average 14-day rolling average Trip Punctuality Ratio of **[REDACTED]**%, pursuant to Schedule 20 – Payment Mechanism (including, for clarity, use of the Headway Buffer for Scheduled Headways for each Period); and
- (iv) daily minimum Trip Punctuality Ratio of **[REDACTED]**%, pursuant to Schedule 20 – Payment Mechanism (including, for clarity, use of the Headway Buffer for Scheduled Headways for each Period).
- (j) Project Co shall record data for all Performance Information for the Performance Reporting System.
- (k) Project Co shall provide the proof of the Revenue Service Demonstration to support the final System Safety Case, Engineering Safety and Assurance Case for the final Consent to Operate Revenue Service Safety Submissions and the final Consent to Operate Revenue Service Security Submissions for the Ontario Line Subway System.
- (l) The Revenue Service Demonstration shall demonstrate to the satisfaction of the Independent Certifier that the specified travel times, Scheduled Headways and operational performance requirements can be achieved.

5.13 Organizational Readiness

- (a) Project Co shall plan for and gather Organizational Readiness evidence throughout the Release management process, and supplement this information as necessary as part of the Project Co Commissioning Report.
- (b) Project Co shall prove full Organizational Readiness of the Project Co Services, using the ISO 55000 as a framework.

5.14 First year of Revenue Service

- (a) Project Co shall demonstrate as part of the commissioning during the first twelve (12) Contract Months:
 - (i) organizational learning;
 - (ii) manage the planning, preparation, execution and reporting of, if necessary, Commissioning activities of the works using the same Project Co Commissioning Plan setup in this document;
 - (iii) support, if necessary, more complex testing activities, for example significant regression testing of the Trains if a supplier issues a configuration update notice; and
 - (iv) support possible continuous improvement efforts with full knowledge of the Project's development history.

6. THE MINIMUM SET OF RELEASES

6.1 General

- (a) Project Co shall use Table 1 and each Section Handover as a minimum set of Releases for the Release Strategy.
- (b) Project Co shall comply with the contents of the minimum set of Releases.
- (c) Project Co may adjust the sequence of the minimum set of Releases.

6.2 Minimum Set of Releases

Table 1: Minimum Set of Releases

[REDACTED]

7. SUBMITTALS

7.1 Document Hierarchy

- (a) Project Co shall prepare and submit the following submittals (the “**Commissioning Submittals**”) to Contracting Authority for review by Contracting Authority in accordance with Schedule 10 – Review Procedure:
- (i) Commissioning Brief;
 - (ii) Integrated Commissioning Plan;
 - (iii) Integrated Commissioning Report;
 - (iv) Project Co Commissioning Plan;
 - (v) Project Co Commissioning Report;
 - (vi) Release Management Plan;
 - (vii) Release Management Report;
 - (viii) Test Plan; and
 - (ix) Test Report.

7.2 Commissioning Brief

- (a) Project Co shall submit a Commissioning Brief to Contracting Authority, which shall describe the Commissioning approach to all design items of the Ontario Line Subway and the New Third Party Infrastructure (the “**Commissioning Brief**”), and which contains at least the:
- (i) Commissioning Strategy;
 - (ii) Release Strategy (3.1);
 - (iii) a preliminary Tree of Tests; and
 - (iv) a preliminary Commissioning Flow chart (4.4).

7.3 Integrated Commissioning Plan

- (a) Project Co shall prepare and submit a plan to Contracting Authority, the Independent Certifier and the Project Co Independent Safety Assessor which shall integrate the following information:
- (i) the Project Co Commissioning Plan;
 - (ii) the commissioning plans of the Civil Contractors;

- (iii) integrated Tree of Tests for the Ontario Line Subway (4.3);
 - (iv) Commissioning Requirements Traceability Matrix; and
 - (v) the set of Section Handovers,

(the “**Integrated Commissioning Plan**”)
- (b) Project Co shall update the Integrated Commissioning Plan with each update of the Project Co Commissioning Plan and the commissioning plans of the Civil Contractors, using the Commissioning Steering Group to coordinate the commissioning plans of Project Co and Civil Contractors.
- (c) Project Co shall submit the Integrated Commissioning Plan and any updated revisions of the Integrated Commissioning Plan to the Commissioning Steering Group for review.

7.4 Integrated Commissioning Report

- (a) Project Co shall prepare and submit a report to Contracting Authority, the Independent Certifier and the Project Co Independent Safety Assessor to demonstrate the progress on the overall testing and Commissioning activities of the Project (the “**Integrated Commissioning Report**”).
- (b) The Integrated Commissioning Report shall integrate the following documents:
- (i) Project Co Commissioning Report; and
 - (ii) commissioning reports of the Civil Contractors.
- (c) The Integrated Commissioning Report shall contain an analysis with findings on the nature of integration amongst the reports in Section 7.4(b).
- (d) Project Co shall update the Integrated Commissioning Report using the Commissioning Steering Group to coordinate the Project Co Commissioning Reports and the commissioning reports of the Civil Contractors.
- (e) Project Co shall submit every revision of the Integrated Commissioning Report and any updated revisions of the Integrated Commissioning Report to the Commissioning Steering Group for review.

7.5 Project Co Commissioning Plan

- (a) Project Co shall prepare and execute a verification, test, acceptance and Project Co Commissioning Plan to demonstrate the successful Commissioning of the Ontario Line Subway and the New Third Party Infrastructure in accordance with the Project Agreement (the “**Project Co Commissioning Plan**”).
- (b) Project Co shall submit the Project Co Commissioning Plan to Contracting Authority, the Independent Certifier and the Project Co Independent Safety Assessor, in accordance with Schedule 10 – Review Procedure.

- (c) The Project Co Commissioning Plan shall demonstrate how Project Co intends to validate and verify all functional, technical, quality and safety requirements, and performance criteria set out in the Project Agreement and demonstrate that such standards has been met or exceeded for the Ontario Line Subway and the New Third Party Infrastructure.
- (d) The Project Co Commissioning Plan shall describe, at a minimum, all Commissioning activities to be carried out during each stage of the Project.
- (e) The Project Co Commissioning Plan shall contain the following:
 - (i) Release Strategy (3.1);
 - (ii) Tree of Tests (4.3);
 - (iii) Commissioning Flow chart (4.4);
 - (iv) Commissioning Requirements Traceability Matrix;
 - (v) Trial Operations strategy (5.10, 5.11 and 5.12) with all scenarios and resilience readiness tests to be tested with measurable pass/fail criteria and revenue service demonstration plan;
 - (vi) requirements, and the timing and sequence of such requirements, necessary in order that Commissioning shall be completed to achieve:
 - (A) Substantial Completion on or before the Scheduled Substantial Completion Date; and
 - (B) Final Completion on or before the Scheduled Final Completion Date;
 - (vii) the names of the individuals or companies proposed to perform all Commissioning;
 - (viii) a schedule of meetings to be held between the Parties to coordinate the performance of Commissioning;
 - (ix) software configuration management plan within the safety-critical disciplines present on the Project, considering that the skills of operations and maintenance personnel to also do work on the same software architecture used within the project, are part of the declarations of readiness which Project Co shall deliver during the project (these skills are part of Operational Readiness and Organizational Readiness)
 - (x) reference to the latest version of the scope configuration; and
 - (xi) list of Release Management Plans for those Releases under Project Co ownership and that Project Co participates in.
- (f) In addition to the tests and inspections specified in the Project Co Commissioning Plan, Contracting Authority and their representatives, with respect to Ontario Line Subway, and the applicable third parties, with respect to New Third Party Infrastructure, shall have the right, acting reasonably, to identify and require Project Co to successfully perform any other testing or verifications relating to

Commissioning during the review of the Project Co Commissioning Plan and Test Plans, in accordance with Schedule 10 – Review Procedure.

- (g) Contracting Authority shall have the right and opportunity to review and comment on the failure management scenarios that will be tested during the Trial Operations.
- (h) After the first Test Tier 1 test, Project Co shall update and integrate the Project Co Commissioning Plan monthly with the Project Works Schedule.

7.6 Project Co Commissioning Report

- (a) Project Co shall prepare and submit a report to Contracting Authority, the Independent Certifier and the Project Co Independent Safety Assessor to demonstrate the progress on Project Co’s testing and Commissioning activities of the Ontario Line Subway and the New Third Party Infrastructure in accordance with the Project Agreement (the “**Project Co Commissioning Report**”).
- (b) The Project Co Commissioning Report shall integrate the following documents:
 - (i) Release Reports; and
 - (ii) Test Reports.
- (c) Project Co shall submit the Project Co Commissioning Report and any updated revisions of the Project Co Commissioning Report to the Commissioning Steering Group for review.

7.7 Release Management Plan

- (a) For each Release appointed to Project Co, Project Co shall prepare and submit to Contracting Authority a plan (a “**Release Management Plan**”) which includes:
 - (i) the scope of the Release, including Release objectives and tests included in the release;
 - (ii) approach of the Release, including:
 - (A) required effort to plan, carry out and report on the Release;
 - (B) organization;
 - (C) risk mitigation; and
 - (D) planning;
 - (iii) the agreed Go/No go criteria;
 - (iv) entry and exit criteria; and
 - (v) risk mitigation and opportunities relating to the Release.
- (b) The Release Management Plan shall contain the following documents:

- (i) list of Test Plans that are part of the Release; and
 - (ii) test procedures for the Release.
- (c) Project Co shall ensure the Release Management Plan is current.
- (d) Project Co shall send the Release Management Plan to the Commissioning Steering Group for review.

7.8 Release Report

- (a) Project Co shall prepare and issue a release report (each a “**Release Report**”), for each Release owned by Project Co, to report on the following:
- (i) evaluate the Release progress and success factors;
 - (ii) evaluate the readiness levels of the System of Interest;
 - (iii) entry and exit criteria;
 - (iv) evaluate whether the release testing and Commissioning activities met the Release objectives;
 - (v) the Release Report shall integrate the Test Reports for the Release; and
 - (vi) the configuration of all (sub)systems which are either part of the Release or which interact with the Release, shall be tracked and included in the Release Report.
- (b) Project Co shall send the Release Report to the Commissioning Steering Group within two weeks of completion of the relevant Release for review.
- (c) Project Co shall submit the Release Report to the Contracting Authority.

7.9 Test Plan

- (a) Project Co shall prepare individual test plans (each a “**Test Plan**”) for each test contained in the Tree of Tests.
- (b) Project Co shall prepare and issue test plans which shall include at a minimum:
- (i) list of requirements from the Commissioning Requirements Traceability Matrix which will be verified or validated;
 - (ii) method statement(s);
 - (iii) the approvals required from any Governmental Authority, manufacturer or other person that are necessary to meet the requirements of the Project Co Commissioning Plan or Applicable Law;

- (iv) test scenarios and/or use cases;
 - (v) test pass/fail criteria; and
 - (vi) test procedures.
- (c) Project Co shall submit the Test Plans to Contracting Authority, the Independent Certifier and the Project Co Independent Safety Assessor.

7.10 Test Report

- (a) Project Co shall prepare and issue a test report matching the scope of each Test Plan (a “**Test Report**”).
- (b) Test Reports shall contain at a minimum:
- (i) test objectives;
 - (ii) test results, including how these relate to the pass/fail criteria;
 - (iii) analysis of results;
 - (iv) conclusions, including possible follow-up or quality assurance activities; and
 - (v) recommendations.
- (c) Project Co shall submit the Test Reports to Contracting Authority, the Independent Certifier and the Project Co Independent Safety Assessor.

PART 2: ORGANIZATION, ROLES AND GOVERNANCE

8. COMMISSIONING RELATED TEAMS

8.1 Organizational structure of the teams

- (a) The Commissioning activities shall be managed by the following three teams, at a minimum:
 - (i) The Commissioning Steering Group, under leadership of Contracting Authority;
 - (ii) The Project Co Commissioning Team, which is under leadership of the Project Co Commissioning Manager; and
 - (iii) Release Management Teams, which is under the leadership of a Release Manager.
- (b) The Project Co Commissioning Team and Release Management Teams report to the Commissioning Steering Group.

8.2 Commissioning Steering Group

- (a) Project Co shall establish a group within twelve (12) months after Financial Close (the “**Commissioning Steering Group**”), which shall be responsible for:
 - (i) monitoring the progress of the commissioning of the Ontario Line Subway;
 - (ii) assigning Releases to the Release Management Teams;
 - (iii) removing bottlenecks or challenges that the Release Management Team cannot solve; and
 - (iv) ensuring that the project environment around the Release is stable enough for Releases to start and is kept stable during the Releases.
- (b) Project Co shall participate in the Commissioning Steering Group during the Construction Period.
- (c) The permanent members of the Commissioning Steering Group are:
 - (i) Project Co Commissioning Manager;
 - (ii) South Civil Project Co’s commissioning manager;
 - (iii) North Civil Project Co’s commissioning manager (when appointed);
 - (iv) Project Co’s Operations Director (as such role set out in Schedule 9 – Key Individuals);
 - (v) Project Co’s Maintenance Director (as such role set out in Schedule 9 – Key Individuals); and
 - (vi) Representative(s) of the Contracting Authority.

- (d) A representative of Contracting Authority chairs the Commissioning Steering Group.
- (e) Commissioning Steering Group meetings shall be held on a monthly basis, or more regular, throughout the Construction Period.
- (f) The Commissioning Steering Group shall discuss each (set of) Release on a monthly basis, or more regularly if required.
- (g) Commissioning Steering Group meetings shall focus on all matters pertaining to the integrated planning, execution, reporting and learning from all Releases for Commissioning the Ontario Line Subway.
- (h) The Project Co Commissioning Manager and Civil Contractors commissioning managers shall be responsible for official collection and dissemination of information pertaining to the Commissioning Steering Group and shall work within the Commissioning Steering Group to optimize and standardize the information flow.

8.3 Project Co Commissioning Team

- (a) Project Co shall establish a team within twelve (12) months after Financial Close (the “**Project Co Commissioning Team**”) which shall be responsible for:
 - (i) providing evidence of the:
 - (A) Performance Readiness;
 - (B) Organizational Readiness; and
 - (C) Operational Readiness;
 - (ii) contributing to the integration process;
 - (iii) contributing to safety and security process;
 - (iv) health and safety management for the Commissioning;
 - (v) configuration management of the Commissioning activities; and
 - (vi) Release management.
- (b) The Project Co Commissioning Manager shall lead the Project Co Commissioning Team.

8.4 Release Management Teams

- (a) A Release Management Team is responsible for the planning, setup, execution and reporting of the Releases assigned to it.
- (b) The Project Co Commissioning Manager shall appoint the Release Management Team with its Release Manager for each Release owned by Project Co.

- (c) The Release Management Team’s composition shall reflect the contents of the Release.
- (d) The Release Management Team shall include representatives of Civil Contractors involved in the Release.
- (e) Project Co shall accommodate temporary members from relevant third parties within the Release Management Team, to ensure that Works involving third parties are commissioned and coordinated.
- (f) The Release Management Team shall have at least the following tasks:
 - (i) management and coordination of the Release;
 - (ii) planning and scheduling of the Release;
 - (iii) support Section Handovers;
 - (iv) test management; and
 - (v) liaise with:
 - (A) contract management of Project Co
 - (B) maintenance management of Project Co;
 - (C) operational management of Project Co;
 - (D) health and safety management of Project Co and the Civil Contractors; and
 - (E) overall integration management.

9. PROJECT CO COMMISSIONING MANAGER

9.1 Appoint a Project Co Commissioning Manager

- (a) Project Co shall appoint a manager to plan, manage, execute and report its Commissioning obligations (the “**Project Co Commissioning Manager**”).
- (b) The Project Co Commissioning Manager shall report directly to the Design Build Director (as outlined in Schedule 9 – Key Individuals).

9.2 Responsibilities

- (a) The Project Co Commissioning Manager shall appoint and lead the Project Co Commissioning Team to the successful execution of all Commissioning obligations.
- (b) The Project Co Commissioning Manager shall:
 - (i) lead and be end responsible for Commissioning within Project Co;

- (ii) represent Project Co in the Commissioning Steering Group;
 - (iii) lead the effort to achieve readiness across all four of the readiness definitions described in Section 2.2(a); and
 - (iv) review and integrate the learning across all Releases within Project Co’s scope.
- (c) The Project Co Commissioning Manager shall be responsible to ensure that all Submittals are submitted to the Contracting Authority in accordance with Schedule 10 – Review Procedure.
- (d) The Project Co Commissioning Manager shall be responsible for inviting the Contracting Authority, IC, ISA, New Third Party Infrastructure owners and relevant others to be present at tests, with the following arrangement:
- (i) Contracting Authority has the right to attend all Commissioning activities, while complying with the relevant health and safety rules;
 - (ii) Project Co Commissioning Manager shall provide the schedule of tests with a two (2) month lookahead window; and
 - (iii) Project Co Commissioning Manager shall classify the presence of parties external to Project Co in the role of witness, checker or approver, and deal with the comments or findings accordingly.

10. RELEASE MANAGER

10.1 Responsibilities of a Release Manager

- (a) Project Co shall appoint a manager (the “**Release Manager**”) who shall be responsible for:
- (i) achieving readiness of the scope of the Release, as assigned by the Commissioning Steering Group;
 - (ii) definition, setup, planning, execution, reporting and analysis (learning) of the Release; and
 - (iii) actively seeking out unallocated scope, missed scope, poorly allocated scope or poorly integrated scope and include this scope within the Release management framework using the Commissioning Steering Group.
- (b) The Release Manager shall act as a first point of contact for all matters pertaining to the Release assigned to the Release Manager, including coordination with the Civil Contractors.

APPENDIX A TO SCHEDULE 14

EXAMPLE TREE OF TESTS

[REDACTED]

APPENDIX B TO SCHEDULE 14

NEW CITY INFRASTRUCTURE

For clarity, the obligations of Project Co in this Appendix B are in addition to and not in substitution of any other requirements for Commissioning of the Works and/or any other requirements in respect of New City Infrastructure contained in the Project Agreement or this Schedule 14, including, for clarity, the process and requirements set out in Section 25.12 (*Inspection, Commissioning and Handover of New Third Party Infrastructure (other than New TTC Infrastructure)*) of the Project Agreement. The obligations in this Appendix B are in respect of New City Infrastructure only.

1. INSPECTION, COMMISSIONING AND HANDOVER

1.1 Interim Inspection of New City Infrastructure

- (a) Project Co shall notify Contracting Authority and the City of Toronto of achievement of all milestones set out in the Inspection and Test Plan in respect of New City Infrastructure, as well as all Witness and Hold Points in respect of New City Infrastructure.
- (b) Project Co shall submit an inspection report of the interim inspection and a list of deficiencies identified by Contracting Authority and the City of Toronto within five (5) Business Days.

1.2 Final Inspection of New City Infrastructure

- (a) Prior to final inspection of New City Infrastructure, Project Co shall, in addition to all other requirements set out in Section 25.12 (*Inspection, Commissioning and Handover of New Third Party Infrastructure (other than New TTC Infrastructure)*) of the Project Agreement:
 - (i) rectification of any defects and deficiencies that may have been identified during the interim inspection of New City Infrastructure;
 - (ii) remove all temporary work no longer required from the Site subject to final inspection, including but not limited to fencing, sign board, samples, and any other items not considered to be part of the Ontario Line Subway or New City Infrastructure, except for those items required for ongoing Works; and
 - (iii) clean all New City Infrastructure prior to Handover following final inspection of such New City Infrastructure, including:
 - (A) sweeping/spraying of roads, boulevards and sidewalks;
 - (B) flushing of sewers; and
 - (C) cleaning out of catch basins, maintenance holes, and valve chambers,

all taking into account ongoing Works.

2. REQUIREMENTS FOR COMMISSIONING, HANDOVER AND ACCEPTANCE

2.1 Applicable to all New City Infrastructure

- (a) In addition to any other requirements in the Project Agreement, Project Co shall satisfy the requirements of this Appendix B prior to, and as a condition of, Handover of New City Infrastructure.
- (b) Project Co shall, prior to and as a pre-condition of Handover of each component New City Infrastructure, complete and perform all requirements of the Output Specifications applicable to such New City Infrastructure.
- (c) Prior to Handover, a final inspection in accordance with Section 1.2 of this Appendix B shall have occurred.
- (d) Project Co shall, prior to and as a pre-condition of achievement of Handover of New City Infrastructure, submit the following to Contracting Authority in accordance with Section 3.1 of this Appendix B for review in accordance with Schedule 10 – Review Procedure:
 - (i) certification of the New City Infrastructure in accordance with Section 4 of this Appendix B; and
 - (ii) final Record Drawings in accordance with Sections 3.1 and 3.2 of this Appendix B, unless final Record Drawings are not reasonably available at the time of Commissioning of the New City Infrastructure, in which case Project Co shall:
 - (A) provide red-lined As-Built Drawings within ten (10) Business Days after final inspection of the New City Infrastructure; and
 - (B) provide final Record Drawings in accordance with Sections 3.1 and 3.2 of this Appendix B within three (3) months of Handover of such New City Infrastructure.

2.2 Applicable to Storm, Sanitary and Combined Sewers

- (a) For each component of New City Infrastructure comprised of storm, sanitary and combined sewers, (including maintenance holes and catchbasins), in addition to the requirements of Section 2.1 of this Appendix B, Project Co shall, prior to and as a pre-condition of Handover of such New City Infrastructure:
 - (i) complete all Commissioning tasks for storm, sanitary and combined sewers pursuant to City Standards and other obligations included in the Project Agreement; and
 - (ii) submit the following to Contracting Authority in accordance with Section 3.1 of this Appendix B, for review in accordance with Schedule 10 – Review Procedure:
 - (A) material testing results;
 - (B) performance test results;

- (C) manufacturer’s manuals and instructions;
- (D) compaction testing results for backfilling and paving;
- (E) video report and detailed written report and electronic files containing chainage-specific defect codes from a CCTV inspection. Where deficiencies have been identified by the CCTV inspection, Contracting Authority shall arrange for additional examinations as required to demonstrate that all deficiencies have been rectified;
- (F) design documents, including design sheets, reports, and technical studies; and
- (G) service connection cards prepared on the standard form supplied by Contracting Authority or the City of Toronto.

2.3 Applicable to Watermains

- (a) For each component of New City Infrastructure comprised of watermains, in addition to the requirements of Section 2.1 of this Appendix B, Project Co shall, prior to and as a pre-condition of Handover of such New City Infrastructure:
 - (i) complete all tasks for the Commissioning of watermains and all associated water distribution infrastructure assets and appurtenances pursuant to City Standards, including the “Construction and Materials Specification Manual”;
 - (ii) submit the following to Contracting Authority in accordance with Section 3.1 of this Appendix B, for review in accordance with Schedule 10 – Review Procedure:
 - (A) material testing results;
 - (B) performance test results;
 - (C) manufacturer’s manuals and instructions;
 - (D) compaction testing results for backfilling and paving;
 - (E) documentation related to the applicable hydrostatic pressure testing, disinfection/chlorination and bacteriological test results, and tracer-wire reports as outlined in the City of Toronto’s Form 400; and
 - (F) design documents, including design reports, and technical studies; and
 - (iii) submit As-Built Drawings (and Record Drawings, if applicable) certified by a Professional Engineer for all alterations or extensions of the drinking water system and for all alterations or extensions to the City of Toronto's sanitary and storm sewer system no later than six (6) months after the City of Toronto has started operating the drinking water system and sanitary and storm sewer system.

2.4 Applicable to Roadways

- (a) For each component of New City Infrastructure comprised of roadways and public boulevards, including sidewalks and furnishing zones, in addition to the requirements of Section 2.1 of this Appendix B, Project Co shall, prior to and as a pre-condition of Handover of such New City Infrastructure:
- (i) pave all road and hardscaped surfaces;
 - (ii) complete all structures and drainage systems;
 - (iii) install the marking of all permanent pavement markings at all intersections and on all major roads;
 - (iv) install all regulatory, warning and guide signing;
 - (v) rectify and repair of all damages, settlements and depressions to the above ground road subgrade; and
 - (vi) submit the following to Contracting Authority in accordance with Section 3.1 of this Appendix B, for review in accordance with Schedule 10 – Review Procedure:
 - (A) material testing results;
 - (B) performance test results;
 - (C) compaction testing results for backfilling and paving; and
 - (D) manufacturer manuals and instructions for all enhanced paving treatments.
- (b) Project Co shall only Handover portions of roadway which will not require any further modifications as part of the Works. For clarity, Project Co shall ensure that all underground Utility Work on a portion of roadway (including all Utility Work with respect to streetlighting and traffic signals) has been fully completed and Commissioned prior to Handover of such portion of roadway.

2.5 Applicable to Bridges, Culverts, Retaining Walls, Noise Walls and Concrete Planters

- (a) For each component of New City Infrastructure comprised of bridges, culverts, retaining walls, noise walls and concrete planters in addition to the requirements of Section 2.1 of this Appendix B, Project Co shall, prior to and as a pre-condition of Handover of such New City Infrastructure, submit the following to Contracting Authority in accordance with Section 3.1 of this Appendix B, for review in accordance with Schedule 10 – Review Procedure:
- (i) material testing results;
 - (ii) performance test results;
 - (iii) manufacturer’s manuals and instructions; and
 - (iv) CCTV for all culverts.

2.6 Applicable to Traffic Signals

- (a) For each component of New City Infrastructure comprised of traffic signals, in addition to the requirements of Section 2.1 of this Appendix B, Project Co shall, prior to and as a pre-condition of Handover of such New City Infrastructure:
- (i) complete all applicable tasks and tests outlined in Ontario Provincial Standard Specification 620 and as per the City Standards;
 - (ii) complete upgrades to existing transit signals equipment and installation of new traffic signals;
 - (iii) commission and testing of traffic signals;
 - (iv) replacement of any traffic signal infrastructure damaged as a result of Construction Activities; and
 - (v) submit the following to Contracting Authority in accordance with Section 3.1 of this Appendix B, for review in accordance with Schedule 10 – Review Procedure:
 - (A) as outlined in Ontario Provincial Standard Specification 620.07.10, a test plan that details, at a minimum, pre-installation testing and inspection as well as proof of performance testing and inspection;
 - (B) details of operation and maintenance instructions for equipment and systems, including a complete list of equipment and part lists consisting of make, size, capacity, and serial number;
 - (C) all warranty information; and
 - (D) any additional materials used in the applicable New City Infrastructure, including names of manufacturers and source supplies and manufacturers' literature.
- (b) Contracting Authority will complete pre and post “turn-on” inspections to determine if the aboveground and underground traffic signal infrastructure complies with City Standards. Deficiencies, if any, will be noted by Contracting Authority and Project Co will be notified by Contracting Authority and instructed to correct such deficiencies. Project Co shall submit the original approved and stamped traffic signal “as built” design immediately after the Handover of the fully completed traffic signal plant.

For any special equipment associated with traffic management, Project Co shall provide system demonstration and training to the City of Toronto for all roadways, which training shall include hands-on instruction of City of Toronto personnel in the operation, adjustment and maintenance of such special equipment.

2.7 Applicable to Streetlights

- (a) For each component of New City Infrastructure comprised of streetlights, in addition to the requirements of Section 2.1 of this Appendix B, Project Co shall, prior to and as a pre-condition of Handover of such New City Infrastructure:
 - (i) complete all street lighting infrastructure as per Toronto Hydro-Electric Systems Limited and Toronto Urban Design Streetscape Manual requirements; and
 - (ii) all pole coordination, installation and removals complete.

2.8 Applicable to Street Trees

- (a) For each component of New City Infrastructure comprised of street trees, in addition to the requirements of Section 2.1 of this Appendix B, Project Co shall, prior to and as a pre-condition of Handover of such New City Infrastructure:
 - (i) install all the soil cells as per manufacturer instructions;
 - (ii) provide required slopes drainage pipes to down-slope catch basins;
 - (iii) submit a full list for trees planted on City of Toronto lands, including but not limited to the road allowance; and
 - (iv) submit all warranty information.
- (b) In addition to the interim and final inspection requirements of Section 1 of this Appendix B, Project Co shall provide five (5) Business Days' notice to the City of Toronto prior to:
 - (i) the delivery and installation of street trees and other and all plant material for inspection prior to installation; and
 - (ii) the removal of existing trees, for which the City of Toronto will inspect all tree protection hoarding, parkland protection hoarding and inspect public and private trees.

3. DOCUMENTATION

3.1 Submittals

- (a) Project Co shall submit to Contracting Authority all documentation (including drawings) required to be delivered under this Appendix B as follows:
 - (i) to Contracting Authority for review in accordance with Schedule 10 – Review Procedure; and
 - (ii) in the following formats and quantities in respect of all documentation required to be delivered to Contracting Authority pursuant to this Appendix B:
 - (A) for As-Built Drawings, four CDs/DVDs, and one full size hard copy set in mylar format;

- (B) for Record Drawings, four CDs/DVDs, one full size hard copy set in mylar format, and one reduced size hard copy set;
- (C) for As-Built Drawings and Record Drawings in CADD/Microstation (V6). CADD/Microstation drawings, in accordance with the City of Toronto's geodetic coordinate system identified in the CADD Specification Manual and City of Toronto By-Law No.954-2009;
- (D) for all other documents (other than documents referenced in Section 3.1(a)(ii)(A) to Section 3.1(a)(ii)(C)), four CDs/DVDs and one hard copy set; and
- (E) each of the foregoing shall be in PDF format generated from the source electronic document and not scanned from hard copies.

3.2 Record Drawings

- (a) Project Co shall provide Record Drawings for the New City Infrastructure in compliance with City Standards, or such other standards as are agreed to by Project Co and Contracting Authority, and in accordance with the Output Specifications.

3.3 Operations Data and Maintenance Manuals

- (a) Project Co shall prepare operations data and maintenance manuals for Contracting Authority and the City of Toronto.

4. CERTIFICATION

- (a) Prior to achievement of Handover of New City Infrastructure, and as a pre-condition of Handover, Project Co shall submit to Contracting Authority or the City of Toronto (if a Notice of Delegation has been issued in respect of the New City Infrastructure) written certification of the New City Infrastructure in the form attached as Attachment 1 of this Appendix B. Each certificate shall be stamped, signed and dated by professionals licensed in the Province of Ontario qualified to certify the specific type of work and equipment being certified.

ATTACHMENT 1

FORM OF NEW CITY INFRASTRUCTURE CERTIFICATION

Certificate Reference Number [...]
(insert reference number)

CERTIFICATE OF NEW CITY INFRASTRUCTURE

A. General

1. This certificate is in respect of:
 - (a) [...] (insert details of the New City Infrastructure to be certified) (the “**Certificate**”); and
 - (b) the Project Agreement between Contracting Authority and Project Co dated [...] (insert date of Project Agreement) (the “**Project Agreement**”) relating to the Project.
2. Defined terms and expressions used in the Project Agreement have the same meanings in this Certificate.
3. This Certificate is used by Project Co for certifying, as applicable:
 - (a) the substantial completion of Construction Activities in respect of those components of the Works set out in paragraph A1 of this Construction Certificate; or
 - (b) the total completion of Construction Activities in respect of any Reinstatement Work carried out by the Construction Contractor pursuant to Section 30 (*Damage and Destruction*) of the Project Agreement in accordance with a Reinstatement Plan, in accordance with the Project Agreement, City Standards, the designs and plans submitted by Project Co and reviewed by the City of Toronto in accordance with Schedule 10 – Review Procedure, other standards that have been agreed to in writing by the City of Toronto and Project Co, and good engineering practices.

B. Construction Contractor’s Statement

1. We certify that the components of the Works set out in paragraph A1 of this Construction Certificate have been designed, constructed, [**substantially completed as set out in paragraph A3(a)**], [**totally completed as set out in paragraph A3(b)**], commissioned and tested in all respects in accordance with: [Inapplicable language to be deleted]
 - (a) the relevant Design Data, Design Certificates, and Construction Certificates pursuant to Schedule 10 – Review Procedure of the Project Agreement in each case to which there has been no objection under the Review Procedure;
 - (b) the provisions of the Project Agreement, including all applicable Output Specifications, as amended by the following Variation(s):
 - (i) [...] (List, if any, the change(s) made by the issue of any Variation(s)); and

- (c) the requirements of City Standards, the designs and plans submitted by Project Co and accepted by the City of Toronto, other standards that have been agreed to in writing by the City of Toronto and Project Co, and good engineering practices.

Signed..... (Construction Contractor’s representative)

Name.....

Date.....

C. Design Team’s Statement

1. We certify that the components of the Works set out in paragraph A1 of this Construction Certificate have been designed, constructed, **[substantially completed as set out in paragraph A3(a)], [totally completed as set out in paragraph A3(b)]**, commissioned and tested in all respects in accordance with: the requirements for examination of the Works contained in the Design Quality Management Plan and the Construction Quality Management Plan and utilizing the standards of care, skill and diligence that, in accordance with the standards of our profession, are required of experienced professionals undertaking such examinations. [Inapplicable language to be deleted]

2. We further certify that in our professional opinion the components of the Works set out in paragraph A1 of this Construction Certificate have been designed, constructed, **[substantially completed as set out in paragraph A3(a)], [totally completed as set out in paragraph A3(b)]**, commissioned and tested in all respects in accordance with: [Inapplicable language to be deleted]
 - (a) the relevant Design Data, Design Certificates, and Construction Certificates pursuant to Schedule 10 – Review Procedure of the Project Agreement in each case to which there has been no objection under the Review Procedure;
 - (b) the provisions of the Project Agreement, including all applicable Output Specifications, as amended by the following Variation(s):
 - (i) [...] (List, if any, the change(s) made by the issue of any Variation(s)); and
 - (c) the requirements of City Standards, the designs and plans submitted by Project Co and accepted by the City of Toronto, other standards that have been agreed to in writing by the City of Toronto and Project Co, and good engineering practices.

SCHEDULE 15

OUTPUT SPECIFICATIONS

[REDACTED]

SCHEDULE 16

ENCUMBRANCES

- (a) For purposes of this Schedule 16, the defined term “Lands” shall include any portion of the Lands.
- (b) Each of the following, to the extent affecting any interest (whether real property interest or contractual interest) in the Lands, is considered to be an encumbrance for the purposes of the Project Agreement (each, an “**Encumbrance**”):
 - (i) All encumbrances, pledges, liens, charges, security agreements, security interests, leases, subleases, title retention agreements, mortgages, easements, encroachments, rights-of-way, rights to use, restrictive covenants, work orders, options or adverse claims of any kind or character whatsoever relating to the title to the Lands disclosed in the Background Information as of the Technical Reference Date.
 - (ii) Liens, charges or prior claims for taxes (which term includes charges, rates and assessments) or utilities (including levies or imposts for sewers and other municipal utility services) not yet due or if due, the validity of which is being contested in good faith, and liens or charges for the excess of the amount of any past due taxes or utilities charges for which a final assessment or account has not been received over the amount of such taxes or utilities charges as estimated and paid by Contracting Authority.
 - (iii) Inchoate liens incidental to construction, renovations or current operations, a claim for which shall not at the time have been registered against the Lands or of which notice in writing shall not at the time have been given to Contracting Authority pursuant to the *Construction Act* (Ontario) or otherwise or any lien or charge, a claim for which, although registered, or notice of which, although given, relates to obligations not overdue or delinquent and in respect of any of the foregoing cases, Contracting Authority has, where applicable, complied with the holdback or other similar provisions or requirements of the relevant construction contracts.
 - (iv) The rights reserved to or vested in the public or any municipality or governmental or other public authority by any statutory provision.
 - (v) Any subsisting reservations, limitations, provisions and conditions contained in any grants from the Crown of any land or interests therein, including reservations of under-surface rights to mines and minerals of any kind including rights to enter, prospect and remove the same.
 - (vi) Any encroachments, easements, rights of way, rights to use or similar interests revealed by any survey of the Lands that has been disclosed in the Background Information as of the Technical Reference Date.
 - (vii) Unregistered agreements with any municipal, provincial or federal governments or authorities and any public utilities or private suppliers of services, provided such

unregistered agreements have been disclosed in the Background Information as of the Technical Reference Date.

- (viii) Unregistered agreements, authorizations, consents, postponements, subordinations, licences or instruments entered into provided that they have been disclosed in the Background Information as of the Technical Reference Date.
- (ix) Unregistered easements, rights of way, rights to use, restrictions, restrictive covenants and similar rights in real property or any interest therein provided that they have been disclosed in the Background Information as of the Technical Reference Date.
- (x) Minor imperfections of title.
- (xi) Statutory exceptions to title and any rights reserved to or vested in any person by any statutory provision.
- (xii) The right of any prior owner, occupant or tenant of any portion of the Lands to occupy any portion of the Lands or to remove buildings, fixed machinery, equipment, fittings or other fixtures located on such portion of the Lands, provided such rights have been disclosed in the Background Information as of the Technical Reference Date.
- (xiii) The rights of any person entitled to any portion of the Lands through length of adverse possession or prescription.

SCHEDULE 17

ENVIRONMENTAL OBLIGATIONS

1 DEFINITIONS AND ABBREVIATIONS

1.1 Definitions

1.1.1 In this Schedule, unless the context indicates a contrary intention, terms which are defined in the Project Agreement (and not otherwise defined in this Schedule 17) shall have meanings given to them in the Project Agreement and the following terms shall have the following meanings:

1.1.2 “**Additional Construction Noise and Vibration Sensitive Receptor Performance Requirements**” has the meaning given in Section 6.4.4.8.

1.1.3 “**Additional Environmental Report**” has the meaning given in Section 5.1.1.

1.1.4 “**Additional Sensitive Receptor**” means a specific property or location susceptible to adverse effects from noise or vibration, but which is not explicitly defined in the Applicable Construction Noise and Vibration Requirements.

1.1.5 “**Additional Operations Noise and Vibration Sensitive Receptor Performance Requirements**” has the meaning given in 6.5.4.7.

1.1.6 “**Adverse Effect**” has the meaning given in the Environmental Protection Act, R.S.O. 1990, c.E.19.

1.1.7 “**Aggregate**” has the meaning given in on the Aggregate Resources Act, R.S.O. 1990, c.A.8.

1.1.8 “**Air Quality Sensitive Receptor**” means a property or location susceptible to adverse air pollution effects. Such properties or locations include, but are not limited to, residences as well as institutional, commercial and industrial buildings.

1.1.9 “**Air Quality Specialist**” means an individual possessing the minimum requirements set out in Section 4.6.3.1.

1.1.10 “**Annual Environmental Compliance Monitoring Report**” has the meaning given in Section 5.2.1.

1.1.11 “**ANSI Recommended Practice**” means ANSI/IES RP-8-18 – Recommended Practice for Design and Maintenance of Roadway and Parking Lighting Facility, as amended from time to time.

1.1.12 “**Applicable Construction Air Quality Criteria and Limits**” has the meaning given in Section 6.9.2.1.

1.1.13 “**Applicable Construction Noise and Vibration Requirements**” has the meaning given in Section 6.4.1.1(d).

- 1.1.14 “**Applicable Operations Air Quality Criteria and Limits**” has the meaning given in Section 6.10.2.1.
- 1.1.15 “**Applicable Operations Noise and Vibration Requirements**” has the meaning given in Section 6.5.1.5(b).
- 1.1.16 “**Aquatic Specialist**” means the individual possessing the minimum requirements set out in Section 4.6.3.2.
- 1.1.17 “**Arborist**” means an individual possessing the minimum requirements set out in Section 4.6.3.3.
- 1.1.18 “**Arborist Report – Metrolinx Lands**” has the meaning given in Section 6.8.4.2.
- 1.1.19 “**Arborist Report – Third Party Lands**” has the meaning given in Section 6.8.4.3.
- 1.1.20 “**Archaeological Risk Management Plan**” has the meaning given in Section 6.7.1.1.
- 1.1.21 “**Biologist**” means an individual possessing the minimum requirements set out in Section 4.6.3.11.
- 1.1.22 “**Canadian Certified Inspector of Sediment and Erosion Control**” means an individual possessing a CAN-CISEC certificate issued by CISEC, Inc.
- 1.1.23 “**Change**” for the purposes of this Schedule 17, means a change to the Project that is inconsistent with the Environmental Reference Documents.
- 1.1.24 “**Climate Mitigation and Resilience Specialist**” means an individual possessing the minimum requirements set out in Section 4.6.3.16.
- 1.1.25 “**Construction Air Quality Impact Zone**” has the meaning given in Section 6.9.3.3(d).
- 1.1.26 “**Construction Air Quality Management Plan**” has the meaning given in Section 6.9.3.1.
- 1.1.27 “**Construction Noise and Vibration Management Plan**” has the meaning given in Section 6.4.3.1.
- 1.1.28 “**Construction Noise and Vibration Performance Limits**” has the meaning given in Section 6.4.2.1.
- 1.1.29 “**Construction Noise and Vibration Sensitive Receptors**” means a property or location susceptible to adverse noise or vibration effects. Such properties or locations include, but are not limited to, residences as well as institutional, commercial and industrial buildings.
- 1.1.30 “**Contamination Management Plan**” has the meaning given in Section 6.1.5.
- 1.1.31 “**Contracting Authority Environmental Commitments**” has the meaning given in Section 2.3.2.

- 1.1.32 “**Cultural Heritage Specialist**” means an individual possessing the minimum requirements set out in Section 4.6.3.4.
- 1.1.33 “**Designated Substances and Hazardous Materials**” includes,
- 1.1.33.1 the substances identified and described as “designated substances” by Ontario Regulation 490/09, as amended, made under the Occupational Health and Safety Act (Ontario);
 - 1.1.33.2 polychlorinated biphenyls, as identified and described in Ontario Regulation 362, as amended, made under the Environmental Protection Act (Ontario);
 - 1.1.33.3 mould to the extent that it represents an area of continuous contamination greater than 10 square metres on visible surfaces or in building cavities and represents an unacceptable situation requiring remediation as determined by an accredited professional that is a Registered Occupational Hygienist accredited by the Canadian Registration Board of Occupational Hygienists, a Certified Industrial Hygienist licensed by the American Board of Industrial Hygiene, or a Professional Engineer with a relevant area of expertise; and
 - 1.1.33.4 additionally includes designated substances and hazardous materials in accordance with the *Occupational Health and Safety Act*, O. Reg. 278/05 (Asbestos on Construction Projects and in Buildings and Repair Operations), Regulation 490 (Designated Substances), Regulation 860 (WHMIS Regulation), Regulation 833 (Control of Exposure to Biological or Chemical Agents Regulation), and/or R.R.O. 1990, Regulation 347 General - Waste Management, as amended (R.R.O. 1990, Reg. 347) under the EPA.
- 1.1.34 “**Designated Substances and Hazardous Materials Discovery Plan**” has the meaning given in Section 6.1.5.2.
- 1.1.35 “**Designated Substances and Hazardous Materials Management Plan**” has the meaning given in Section 6.1.2.2.
- 1.1.36 “**Designated Substances and Hazardous Materials Specialist**” means an individual possessing the minimum requirements set out in Section 4.6.3.5.
- 1.1.37 “**Dewatering**” means the removal of groundwater from the ground through the following means:
- 1.1.37.1 active dewatering, using methods such as dewatering wells, eductor wells, or vacuum lances; or
 - 1.1.37.2 passive dewatering, when groundwater inflow is allowed to occur through soil (such as from cohesionless seams in the soil) or through bedrock (such as from joints, shear zones or fault zones).
- 1.1.38 “**DFO**” means Fisheries and Oceans Canada.

- 1.1.39 “**Discharge**” means any deposit, emission, leak, spill or release to the environment of any solid, liquid, gas, odour, heat, sound, vibration, radiation or combination thereof that,
- 1.1.39.1 arises, either directly or indirectly, from human activities; and
- 1.1.39.2 causes or may cause an Adverse Effect on the environment.
- 1.1.40 “**Documents Relating to Indigenous Nations**” has the meaning given in Section 3.4.2.
- 1.1.41 “**Electromagnetic Compatibility (EMC)/ Electromagnetic Interference (EMI) Specialist**” means an individual possessing the minimum requirements set out in Section 4.6.3.6 and update with Section reference, as applicable.
- 1.1.42 “**EMS Software Solution**” has the meaning given in Section 5.4.2.
- 1.1.43 “**Endangered Species Act (Ontario)**” means the *Endangered Species Act, 2007*, S.O. 2007, c.6, as amended from time to time.
- 1.1.44 “**Environmental Activity Sector Registration**” or “**EASR**” means a registration requirement in respect of construction-related water taking activities prescribed under Ontario Regulation 63/16, as well as noise and vibration and air quality activities prescribed under Ontario Regulation 1/17 – Activities Requiring Assessment of Air Emissions made under the Environmental Protection Act (Ontario).
- 1.1.45 “**Environmental Amendment Proposal**” has the meaning given in Section 2.4.2.
- 1.1.46 “**Environmental Approvals**” means:
- 1.1.46.1 any authorizations(s) issued by the MECP; and
- 1.1.46.2 any Permits, Licences, Approvals and Agreements relating to environmental matters or relating to Environmental Law, and any Permits, Licences, Approvals and Agreements relating to self-assessment standards that must be followed to demonstrate compliance with Environmental Law.
- 1.1.47 “**Environmental Aspect**” means an element of an organization’s activities or products or services that interacts or can interact with the environment.
- 1.1.48 “**Environmental Assessment**” means any environmental assessment completed or required under the Environmental Assessment Act (Ontario), including any environmental assessment or addendum to the environmental assessment required under Ontario Regulation 341/20 Ontario Line Project, made under the Environmental Assessment Act (Ontario). The Environmental Assessment includes the following documents:
- [REDACTED]
- 1.1.49 “**Environmental Assessment Act (Ontario)**” means the *Environmental Assessment Act*, R.S.O. 1990, c. E18, as amended from time to time.
- 1.1.50 “**Environmental Audit Report**” has the meaning given in Section 5.2.3.

- 1.1.51 “**Environmental Compliance Officer**” has the meaning given in Section 4.5.1.
- 1.1.52 “**Environmental Condition Summary**” has the meaning given in Section 6.2.2.4.
- 1.1.53 “**Environmental Consultant**” means one or more reputable, qualified and experienced environmental consulting or engineering firm(s) employing individuals that have been retained by Project Co to provide technical expertise and guidance to Project Co on all Project Co Environmental Commitments, the Environmental Approvals and all other environmental obligation and matters, including monitoring, managing and addressing soil and groundwater impacts and occupational and public health and safety issues, for the duration of the Works.
- 1.1.54 “**Environmental Director**” has the meaning given in Section 4.2.1.
- 1.1.55 “**Environmental Incident**” means an occurrence or a set of circumstances that causes, directly or indirectly an actual or likely Adverse Effect on the environment:
- 1.1.55.1 due to a Spill or Discharge;
 - 1.1.55.2 due to an occurrence that contravenes Applicable Law or the Project Agreement;
 - 1.1.55.3 that results in a stoppage of work; and/or
 - 1.1.55.4 that requires reporting to a Governmental Authority.
- 1.1.56 “**Environmental Inspector**” has the meaning given in Section 4.7.1.
- 1.1.57 “**Environmental Law**” means all Applicable Law relating to environmental assessment processes, public health or the protection of the environment, including (as applicable) public safety or Species-at-Risk.
- 1.1.58 “**Environmental Management System**” or “**EMS**” has the meaning given in Section 5.3.1.
- 1.1.59 “**Environmental Manager**” has the meaning given in Section 4.3.1.
- 1.1.60 “**Environmental Permits and Approvals Coordinator**” has the meaning given in Section 4.4.1.
- 1.1.61 “**Environmental Planning Specialist**” means an individual possessing the minimum requirements set out in Section 4.6.3.7.
- 1.1.62 “**Environmental Protection Act (Ontario)**” means the *Environmental Protection Act*, R.S.O. 1990, c. E. 19, as amended from time to time.
- 1.1.63 “**Environmental Reference Documents**” has the meaning given in Section 2.1.1.1.
- 1.1.64 “**Environmental Specialist**” has the meaning given in Section 4.6.1.
- 1.1.65 “**Environmental Working Group**” or “**EWG**” has the meaning given in Section 4.8.1.

- 1.1.66 “**Environmentally Sensitive Construction Activities**” means complex Construction Activities that have a high potential for causing adverse effects, including,
- 1.1.66.1 Construction Activities that have the potential to impact human health, including with respect to noise, vibration and air quality;
 - 1.1.66.2 rapid-bridge replacements;
 - 1.1.66.3 in-water Construction Activities;
 - 1.1.66.4 steep slope Construction Activities;
 - 1.1.66.5 deep foundation Construction Activities that take place near Sensitive Receptors; and
 - 1.1.66.6 Construction Activities with respect to piers in a watercourse.
- 1.1.67 “**Erosion and Sediment Control Guide for Urban Construction**” means the document issued by TRCA dated 2019 and further amended from time to time.
- 1.1.68 “**Erosion and Sediment Control Plan**” has the meaning given in Section 6.2.8.2.
- 1.1.69 “**Excess Soil**” has the meaning defined by O. Reg. 406/19.
- 1.1.70 “**Fish and Wildlife Conservation Act (Ontario)**” means the *Fish and Wildlife Conservation Act*, S.O. 1997, c.41, as amended from time to time.
- 1.1.71 “**Fisheries Act (Canada)**” means the *Fisheries Act*, R.S.C. 1985, c. F-14, as amended from time to time.
- 1.1.72 “**Groundwater Management and Dewatering/Unwatering Plan**” has the meaning given in Section 6.3.4.3.
- 1.1.73 “**Heritage Detailed Design Report**” has the meaning given in Section 6.6.2.1
- 1.1.74 “**Hydrogeologist**” means an individual possessing the minimum requirements set out in Section 4.6.3.8.
- 1.1.75 “**Identified Contaminated Materials**” means the Contaminated Materials set out in Appendix F to Schedule 17 – Environmental Obligations.
- 1.1.76 “**Indigenous Monitors**” means an individual appointed by an Indigenous Nation or an Indigenous Entity to monitor and/or perform fieldwork on behalf of such Indigenous Nation or Indigenous Entity or their assigned consultant.
- 1.1.77 “**Indigenous Nations Engagement**” means a process of meaningfully engaging with Indigenous Nations whose rights and interests may be affected by the Project, with the objective of providing relevant information to community leaders and members about the Project, meaningfully considering their input, and coordinating on matters of interest to avoid, reduce or mitigate potential adverse impacts.

- 1.1.78 “**Industrial, Commercial and Community Property Use**” has the meaning as per Ontario Regulation (O.Reg) 153/04.
- 1.1.79 “**Integrated Vegetation Management Plan**” has the meaning given in Section 6.8.3.1.
- 1.1.80 “**ISO 14001**” means CAN/CSA-ISO 14001:16 – Environmental management systems – Requirements with guidance for use.
- 1.1.81 “**Licensed Archaeologist**” means an individual possessing the minimum requirements set out in Section 4.6.3.10.
- 1.1.82 “**MECP**” means the Ontario Ministry of the Environment, Conservation and Parks, and any successor ministry thereto.
- 1.1.83 “**Memorandum of Understanding**” means the Memorandum of Understanding: Cultural Heritage Process to Support Accelerating Delivery of the Priority Transit Projects between Ministry of Heritage, Sport, Tourism and Culture Industries (MHSTCI) and Metrolinx and Ministry of Transportation (MTO).
- 1.1.84 “**Metrolinx Species at Risk Framework**” means the Species-at-Risk framework prepared by Metrolinx, dated 2021.
- 1.1.85 “**MHSTCI**” means the Ontario Ministry of Heritage, Sport, Tourism and Culture Industries, and any successor ministry thereto.
- 1.1.86 “**MOL Noise Regulation O. Reg. 381/15**” means Ontario Regulation (O. Reg.) 381/15: NOISE under *Occupational Health and Safety Act*, R.S.O. 1990, c. O.1, as amended from time to time.
- 1.1.87 “**Monthly Environmental Report**” has the meaning given in Section 5.2.2.
- 1.1.88 “**Noise Specialist(s)**” means an individual possessing the minimum requirements set out in Section 4.6.3.9.
- 1.1.89 “**Ontario Water Resources Act**” means the *Ontario Water Resources Act*, R.S.O. c. O.40, as amended from time to time.
- 1.1.90 “**Operations Air Quality Impact Zone**” has the meaning given in Section 6.10.3.2(d).
- 1.1.91 “**Operations Air Quality Management Plan**” has the meaning given in Section 6.10.3.1.
- 1.1.92 “**Operations Noise and Vibration Management Plan**” has the meaning given in Section 6.5.3.1.
- 1.1.93 “**Operations Noise and Vibration Performance Limits**” has the meaning given in Section 6.5.2.1.
- 1.1.94 “**Operations Noise and Vibration Sensitive Receptors**” means a property or location susceptible to adverse noise or vibration effects. Such properties or locations include, but are not limited to, residences as well as institutional, commercial and industrial buildings.

- 1.1.95 “**Operations Noise and Vibration Survey**” has the meaning given in Section 6.5.6.1.
- 1.1.96 “**Overall Benefit Permit**” means a permit that:
- 1.1.96.1 is required to perform an activity that is not otherwise allowed under the Endangered Species Act (Ontario); and
 - 1.1.96.2 authorizes a person, company or organization to perform the activity, as long as such person, company or organization provides an overall benefit to a species in the Province of Ontario.
- 1.1.97 “**Permit To Take Water**” or “**PTTW**” means a permit issued by the MECP for the taking of water in accordance with Ontario Regulation 387/04, made under the Ontario Water Resources Act, or an Environmental Activity Sector Registration in accordance with Ontario Regulation 63/16, made under the Environmental Protection Act (Ontario).
- 1.1.98 “**Project Area**” has the meaning given in Ontario Regulation 406/19, made under the Environmental Protection Act (Ontario).
- 1.1.99 “**Project Co Deviation Report**” has the meaning given in Section 2.4.3.
- 1.1.100 “**Project Co Environmental Commitments**” has the meaning given in Section 2.1.1.2.
- 1.1.101 “**Project Information Form**” means the form required by the MHSTCI, pursuant to the *Ontario Heritage Act* (Ontario).
- 1.1.102 “**Project Leader**” has the meaning given in Ontario Regulation 406/19, made under the Environmental Protection Act (Ontario).
- 1.1.103 “**Provincial Heritage Properties**” has the meaning given in the Standards and Guidelines for the Conservation of Provincial Heritage Properties issued by the MHSTCI pursuant to the *Ontario Heritage Act* (Ontario) (as amended from time to time).
- 1.1.104 “**Provincial Heritage Properties of Provincial Significance**” has the meaning given in the Standards and Guidelines for the Conservation of Provincial Heritage Properties issued by the MHSTCI pursuant to the *Ontario Heritage Act* (Ontario) (as amended from time to time).
- 1.1.105 “**Qualified Person**” when used in this Schedule 17 has the meaning given in Ontario Regulation 153/04, as amended, made under the Environmental Protection Act (Ontario).
- 1.1.106 “**Regional Storm**” means the rainfall event and soil conditions existing during Hurricane Hazel that occurred within the Humber River watershed in Toronto in 1954, transposed over a specific watershed and combined with local conditions as defined by the TRCA.
- 1.1.107 “**Representative Construction Noise and Vibration Sensitive Receptor**” means the Construction Noise and Vibration Sensitive Receptor exposed to the worst-case effects of ground borne vibration, and air and ground borne noise compared to all the nearby Construction Noise and Vibration Sensitive Receptors. The Representative Construction Noise and Vibration Sensitive Receptor is intended to represent all nearby Construction Noise and Vibration Sensitive Receptors.

- 1.1.108 “**Representative Operations Noise and Vibration Sensitive Receptors**” means the Operations Noise and Vibration Sensitive Receptor exposed to the worst-case effects of ground borne vibration, and air and ground borne noise compared to all the nearby Operations Noise and Vibration Sensitive Receptors. The Representative Operations Noise and Vibration Sensitive Receptor is intended to represent all nearby Operations Noise and Vibration Sensitive Receptors.
- 1.1.109 “**Rules for Soil Management and Excess Soil Quality Standards**” means the document referenced by O. Reg. 406/19 and issued by the MECP, dated December 2020 and further amended from time to time.
- 1.1.110 “**Salt Management Plan**” has the meaning given in Section 6.8.1.4.
- 1.1.111 “**Sensitive Receptor**” means a specific property or location susceptible to adverse effects related to the Works. Such properties or locations include, but are not limited to, residences, institutional, commercial and industrial buildings, parklands, watercourses and wetlands.
- 1.1.112 “**Significant Change**” for the purposes of this Schedule 17, means a change to the Project that is inconsistent with the Environmental Assessments or issued environmental permits pertaining to the Project as determined to be significant by the Contracting Authority.
- 1.1.113 “**Soil**” has the meaning defined by O. Reg. 406/19.
- 1.1.114 “**Soil and Excavated Material Management Plan**” has the meaning given in Section 6.2.5.3.
- 1.1.115 “**Soil and Groundwater Contamination and Management Specialist**” means an individual possessing the minimum requirements set out in Section 4.6.3.12.
- 1.1.116 “**Soil Importation Plan**” has the meaning given in Section 6.2.6.1.
- 1.1.117 “**Species at Risk Handover Report**” has the meaning given in Section 6.8.2.1(b).
- 1.1.118 “**Spill**” means, for the purposes of this Project Agreement and notwithstanding any less stringent definition under Applicable Law, a discharge or release to the environment of any liquid that,
- 1.1.118.1 arises, either directly or indirectly, from human activities; and
- 1.1.118.2 causes or may cause an Adverse Effect on the environment
- 1.1.119 “**Species at Risk Specialist**” means an individual possessing the minimum requirements set out in Section 4.6.3.13.
- 1.1.120 “**Spill Prevention and Response Occurrence Report**” has the meaning given in Section 6.1.1.3.
- 1.1.121 “**Spill Prevention and Response Plan**” has the meaning given in Section 6.1.1.1.
- 1.1.122 “**Stage 1 Archaeological Assessment**” means a determination made by a Licensed Archaeologist as to whether there is potential for archaeological sites on a property based on a

review of reviewing geographic, land use and historical information for such property and the relevant surrounding area, a property inspection to document and assess its current condition and contact with the MHSTCI to identify registered archaeological sites on or near the property. A Stage 2 Archaeological Assessment is required when the Licensed Archaeologist identifies areas of archaeological potential during the Stage 1 Archaeological Assessment.

- 1.1.123 “**Stage 2 Archaeological Assessment**” is comprised of field investigations carried out by a Licensed Archaeologist to identify any archaeological resources on the property being developed based on recommendations made in the Stage 1 Archaeological Assessment. The Licensed Archaeologist will determine whether any archaeological resources found are of sufficient cultural heritage value or interest to require a Stage 3 Archaeological Assessment.
- 1.1.124 “**Stage 3 Archaeological Assessment**” determines the extent of the archaeological site and the characteristics of the artifacts. The purpose is to collect a representative sample of artifacts, assess the cultural heritage value or interest of the archaeological site, and to determine the need for mitigation of development impacts and recommend appropriate strategies for mitigation and future conservation.
- 1.1.125 “**Stage 4 Archaeological Assessment**” addresses development impacts on an archaeological site with a level of cultural heritage value or interest that has been determined to require mitigation, either by avoidance and protection or excavation.
- 1.1.126 “**Stationary Sources**” has the meaning as defined in MECP publication NPC-300.
- 1.1.127 “**Strategic Conservation Plan(s)**” is a document which identifies the conservation principles appropriate for the type of cultural heritage resource/attributes being conserved; provides detailed documentation of the resource and its heritage attributes; includes an assessment of current conditions and deficiencies; and recommends conservation measures and interventions in the short, medium and long term to ensure preservation of the property’s cultural heritage significance.
- 1.1.128 “**Substantial Completion Environmental Report**” has the meaning given in Section 5.2.7.
- 1.1.129 “**Sustainability Management Plan**” has the meaning give in Section 3.1.5.1 (*Sustainability Management Plan*) of the Output Specifications.
- 1.1.130 “**Sustainability Specialist**” means an individual possessing the minimum requirements set out in Section 4.6.3.15.
- 1.1.131 “**System-Wide Noise Exposure Objectives**” has the meaning given in Section 6.5.2.1(f).
- 1.1.132 “**Topsoil**” means, as per *Municipal Act*, 2001, c. 25, s. 142 (1), those horizons in a soil profile, commonly known as the “O” and the “A” horizons, containing organic material and includes deposits of partially decomposed organic matter such as peat.
- 1.1.133 “**TRCA**” means Toronto and Region Conservation Authority.
- 1.1.134 “**Tree Tracker**” has the meaning given in Section 6.8.4.6.
- 1.1.135 “**Unwatering**” means the removal of accumulated water from a structure or excavation”.
-

Confidential

- 1.1.136 “**Vegetation Compensation**” means the replacement of a lost/altered natural feature or area and its ecological functions, services, and value.
- 1.1.137 “**Vibration Sensitive Structures**” means heritage designated or listed properties and sensitive structures or buildings or infrastructure as defined in City of Toronto By-Law No. 514-2008.
- 1.1.138 “**Vibration Specialist**” means an individual possessing the minimum requirements set out in Section 4.6.3.14.
- 1.1.139 “**Weekly Construction Air Quality Monitoring Report**” has the meaning given in Section 6.9.4.5.
- 1.1.140 “**Weekly Construction Noise and Vibration Monitoring Report**” has the meaning given in Section 6.4.6.5.
- 1.1.141 “**Well Decommissioning and Protection Plan**” has the meaning given in Section 6.3.1.6
- 1.1.142 “**Zone of Influence**” is comprised of lands where the noise, vibration, Dewatering or air quality impact of an activity associated with the Project may cause exceedance of applicable exposure criteria or limits.

2 COMPLIANCE OBLIGATIONS

2.1 Compliance with Environmental Reference Documents

- 2.1.1 Without limitation to any of Project Co’s rights, remedies or obligations under the Project Agreement, and any other obligations with respect to Project Co conducting its own due diligence investigations:
- 2.1.1.1 Project Co shall, at all times, perform the Works in accordance with Applicable Law and in a manner that ensures, to the extent within Project Co’s and Project Co Party’s control, that Contracting Authority and the Works are in compliance with all obligations (to the extent that each document is applicable to the Works) and as listed in Appendix B of this Schedule 17 (collectively referred to as the “**Environmental Reference Documents**”).
- (a) Project Co shall provide, on an annual basis as part of the Annual Environmental Compliance Monitoring Report in accordance with Schedule 10 – Review Procedure, an updated list of Environmental Reference Documents as necessary to reflect changes in applicable requirements and Applicable Law.
- 2.1.1.2 Project Co shall, at no additional cost to Contracting Authority, comply with all recommendations and requirements, and perform all commitments and obligations in the Environmental Reference Documents, including those set out as the responsibility of the proponent or co-proponents in the Environmental Reference Documents, including, for clarity, the Project Co commitments and obligations that are set out in Appendix A-2 and A-3 of this Schedule 17, except that Project Co,

- (a) shall not be responsible for performance of and compliance with those commitments and obligations that are explicitly set out as Contracting Authority commitments or obligations in Appendix A-1 of this Schedule 17; and
- (b) shall be responsible for complying with the provisions of the Output Specifications, pertaining to the Environmental Reference Documents in the manner set out in the Output Specifications.

(collectively, the “**Project Co Environmental Commitments**”).

2.1.1.3 For clarity, Project Co acknowledges and agrees that, notwithstanding that a recommendation or consideration is not expressed in an Environmental Reference Document as a requirement, commitment or obligation, and is instead expressed as a recommendation or consideration (for example, using the phrase, “may”, “will”, “should”, “it is recommended”, or “to be considered”), such recommendation or consideration is deemed to be a “Project Co Environmental Commitment” for the purposes of the Project Agreement, and a specific reference to the manner in which an obligation in the Output Specifications should be performed or complied with takes precedence over any discretion accorded to performance of or compliance with such obligation in the Environmental Reference Documents.

2.1.2 The Parties acknowledge and agree that if there is any conflict between any criterion, commitment or requirement contained in one or more of the Environmental Reference Documents or under Environmental Law, the more stringent criterion, commitment or requirement shall apply.

2.1.3 Project Co shall submit all documentation which demonstrates Project Co is compliant with the Project Co Environmental Commitments in accordance with Schedule 10 – Review Procedure.

2.2 Project Co Additional Environmental Obligations

2.2.1 Throughout the Project Term, Project Co shall manage all environmental matters and perform all environmental obligations associated with the Project in accordance with the Project Agreement, including this Schedule 17, and in coordination with Contracting Authority.

2.2.2 Project Co shall submit the following information for review by Contracting Authority in accordance with Schedule 10 – Review Procedure, and Section 20.5 (*Design Review Meetings*) of the Project Agreement:

2.2.2.1 information that is required by an Environmental Reference Document or an Additional Environmental Report, other than any information that is explicitly Contracting Authority’s obligation to provide pursuant to a Contracting Authority Environmental Commitment;

2.2.2.2 information that is required at any time pursuant to this Schedule 17, including all plans, reports, Works Submittals and other documents described herein; or

- 2.2.2.3 information that is otherwise requested by the Contracting Authority Representative, in its sole discretion, upon reasonable advance Notice to Project Co;
- (a) that is in the possession and control of Project Co or otherwise contemplated in the Project Agreement, at no cost to Contracting Authority; or
 - (b) that is not in the possession and control of Project Co and which would require additional work or investigation of Project Co that is not otherwise contemplated in the Project Agreement, at the cost and expense of Contracting Authority.

For clarity, the information requested by Contracting Authority in accordance with this Section 2.2.2 may include documentation that is necessary and sufficient to demonstrate that the Works are in compliance with the Project Co Environmental Commitments. Project Co shall provide such documentation to Contracting Authority in accordance with Schedule 10 – Review Procedure following a request by Contracting Authority.

- 2.2.3 Where any plan or document set out in this Schedule 17 is required to be submitted by Project Co in accordance with Schedule 10 – Review Procedure, Project Co shall revise each Submittal on receipt of a “RE-SUBMIT” comment.
- 2.2.3.1 Project Co shall implement such plan or document upon receipt of no further request for “RE-SUBMIT” for the plan or document by Contracting Authority, in accordance with Schedule 10 – Review Procedure.

2.3 Contracting Authority’s Environmental Obligations

- 2.3.1 Contracting Authority shall review all documentation submitted by Project Co under Section 2.2.2 or otherwise in accordance with this Schedule 17 and in accordance with Schedule 10 – Review Procedure.
- 2.3.2 Contracting Authority shall deliver, comply with and perform all commitments and obligations set out in Appendix A-1 of this Schedule 17 (the “**Contracting Authority Environmental Commitments**”). For clarity, the Contracting Authority Environmental Commitments are Contracting Authority’s obligations in Appendix A-1 of this Schedule 17 and Contracting Authority’s portions of the shared obligations are set out in Appendix A-2 of this Schedule 17.
- 2.3.3 No later than thirty (30) days following Financial Close, or such longer period as agreed upon by the Parties, Contracting Authority shall:
- 2.3.3.1 provide Project Co with a summary report of any activities known to Contracting Authority that have been completed, in whole or in part, and the status of works performed prior to Financial Close, by Contracting Authority and other Governmental Authorities relevant to Project Co’s obligations under Sections 2.1 and 2.2;

- 2.3.3.2 provide Project Co with all applicable documentation related to any obligation or commitment contained in any Environmental Assessments that have been performed by Contracting Authority or a Governmental Authority and known to Contracting Authority prior to Financial Close;
- 2.3.3.3 schedule a meeting between Project Co and Contracting Authority to review the summary report and documentation referred to in Sections 2.3.3.1 and 2.3.3.2; and
- 2.3.3.4 schedule an appropriate number of site visits with Project Co to review field activities performed by Contracting Authority prior to Financial Close.

2.4 Environmental Impacts and Changes to Environmental Assessment

- 2.4.1 Subject to Section 2.4.2 and Section 2.4.3, Project Co shall carry out the Works in such a manner so that the environmental impacts of the Works are at all times within the magnitude and extent permitted by the Environmental Reference Documents, Additional Environmental Reports and Applicable Law.
- 2.4.2 Subject to Section 2.4.3, if it is not possible to contain the environmental impact of any aspect of the Works to what is permitted in the Environmental Reference Documents, Additional Environmental Reports and Applicable Law, Project Co shall comply with any amendment procedures required to amend the applicable Environmental Reference Document or Additional Environmental Report in accordance with Applicable Law, at Project Co's sole cost and expense. Prior to contacting any Governmental Authority in respect of an amendment or addendum to any Environmental Reference Document or Additional Environmental Report, Project Co shall prepare and submit a proposal (the "**Environmental Amendment Proposal**") setting out the reason for and details regarding the amendment to Contracting Authority in accordance with Schedule 10 – Review Procedure and Project Co shall obtain the written consent of Contracting Authority.
- 2.4.3 If it is not possible to contain the environmental impact of any aspect of the Works to be within the magnitude or extent permitted by the Environmental Assessments, Environmental Reference Documents and the Additional Environmental Reports, then, prior to carrying out any activity that deviates from the Environmental Assessments, Environmental Reference Documents and Additional Environmental Reports, Project Co shall prepare and submit a report setting out the reason and details for the deviation for review in accordance with Schedule 10 – Review Procedure (the "**Project Co Deviation Report**") which shall include the following information:
 - 2.4.3.1 a detailed description of and reason for the change(s) of the design of the Works from the design concept that served as the basis for the Environmental Assessments, Environmental Reference Documents and the Additional Environmental Reports, including the potential use of Additional Lands;
 - 2.4.3.2 a detailed description of and reason for the change(s) of the Works from the operations concept set out in the Environmental Assessments and all associated operational standard operating procedures, the Environmental Reference Documents and the Additional Environmental Reports;

- 2.4.3.3 Project Co's assessment and evaluation of any environmental impacts, and the magnitude of such environmental impacts, that may arise, directly or indirectly, from the design of the Works, as compared to the reference design concept set out in the Environmental Assessments, Environmental Reference Documents and the Additional Environmental Reports;
 - 2.4.3.4 Project Co's proposed measures for mitigating any negative environmental impacts that may arise, directly or indirectly, from the change(s);
 - 2.4.3.5 Project Co's opinion as to whether additional Permits, Licences, Approvals and Agreements or updates to Permits, Licences, Approvals and Agreements are required as a result of the change(s); and
 - 2.4.3.6 Project Co's proposed impacts to schedule and cost as a result of any change of the design concept set out in the Environmental Assessments, Environmental Reference Documents and the Additional Environmental Reports.
- 2.4.4 In accordance with Ontario Regulation 341/20: Ontario Line Project, made under the Environmental Assessment Act (Ontario), Contracting Authority shall, upon receiving the Project Co Deviation Report, determine in its sole discretion whether the change is a Significant Change to the transit project requiring an addendum to the Environmental Assessment or revisions to Environmental Approvals and whether such Significant Change should be implemented. To the extent that the deviation described by Project Co amounts to a Change or a Significant Change that Contracting Authority determines should be implemented:
- 2.4.4.1 which is not assessed in the design concept set out in the Environmental Assessment but is in compliance with the Project Agreement, including the Output Specifications, Project Co shall carry out all studies and evaluations necessary to assess the environmental effects associated with such Change or Significant Changes, as applicable, in a manner consistent with the original assessment of environmental effects of the Works as documented in the Environmental Reference Documents, and in accordance with the conditions within this Schedule 17, and Project Co shall, subject to and in accordance with Schedule 22 – Variation Procedure, be entitled to a Variation; or
 - 2.4.4.2 which is not in compliance with the Project Agreement, including the Output Specifications, Project Co shall carry out all studies and evaluations necessary to assess the environmental effects associated with such Change or Significant Changes, as applicable, in a manner consistent with the original assessment of environmental effects of the Works as documented in the Environmental Reference Documents, and in accordance with the conditions of this Schedule 17, at Project Co's sole cost and expense.

- 2.4.5 With respect to any Environmental Assessment or amendments or addenda thereto that may be required as a result of Section 2.4.1, Section 2.4.2, Section 2.4.3, or Section 2.4.4, Metrolinx shall be the “proponent” under Ontario Regulation 341/20: Ontario Line Project, made under the Environmental Assessment Act (Ontario), and Project Co shall be Metrolinx’s agent in preparing any such amendment, which shall be submitted to Contracting Authority in accordance with Schedule 10 – Review Procedure.

3 NOTIFICATION, RECORDS AND REPORTING REQUIREMENTS

3.1 Permits, Licences, Approvals and Agreements

- 3.1.1 Project Co acknowledges that Section 9.4 (*Project Co Permits, Licences, Approvals and Agreements*) of the Project Agreement applies to all Permits, Licences, Approvals and Agreements necessary to fulfil Project Co’s environmental obligations under the Project Agreement, including those relating to the amendment of any Environmental Reference Document or Additional Environmental Report.

3.2 Notification to Contracting Authority

- 3.2.1 Project Co shall immediately notify, within twenty-four hours or less, the Contracting Authority Representative of Project Co’s knowledge of:
- 3.2.1.1 any breach by Project Co or any Project Co Party of any Environmental Law relating to the performance of the Works or the Lands;
 - 3.2.1.2 any charge, order, investigation or notice of violation or non-compliance issued under any Environmental Law,
 - (a) against Project Co or any Project Co Party;
 - (b) relating to the Works;
 - (c) relating to the performance of the Project Operations; or
 - (d) relating to the Lands; or
 - 3.2.1.3 any notice, claim, action or other proceeding brought by any person under any Environmental Law,
 - (a) against Project Co or any Project Co Party;
 - (b) relating to the Works; or
 - (c) relating to the performance of the Project Operations; or
 - (d) relating to the Lands.

3.3 Communications with Governmental Authorities

- 3.3.1 Unless otherwise specified in the Project Agreement, Project Co shall liaise directly with the MECP and other applicable Governmental Authorities regarding Project Co's environmental obligations hereunder, except that Contracting Authority together with Project Co shall establish the first point of contact with MECP and other applicable Governmental Authorities following Commercial Close.
- 3.3.2 If requested by Contracting Authority, Project Co shall cooperate with and promptly provide the Contracting Authority Representative with any written documentation or authorizations required by Contracting Authority for any inquiry of any Governmental Authority relating to Project Co's compliance with this Schedule 17, any Environmental Law or any Permits, Licences, Approvals and Agreements in Schedule 34 – Permits, Licences, Approvals and Agreements relating to environmental matters on the Project.
- 3.3.3 Project Co shall submit to the Contracting Authority Representative a copy of any report, submission, application or other document relating to environmental matters on, at, affecting or otherwise relating to the Works or the Lands, concurrent with the filing or submission of the report, submission, application or other document to any Governmental Authority.
- 3.3.4 Project Co shall provide Contracting Authority with a minimum of five (5) Business Days advance Notice of all planned meetings with any Governmental Authority and Project Co acknowledges that Contracting Authority may, in the sole discretion of Contracting Authority, attend such meetings. Project Co shall minute all such meetings held and distribute all meeting minutes to Contracting Authority.

3.4 Indigenous Nations Engagement

- 3.4.1 Contracting Authority shall be responsible for all Indigenous Nations Engagement, and will liaise directly with the applicable Indigenous Nations throughout the Project Term. Contracting Authority may require Project Co to assist with, and support, Contracting Authority's Indigenous Nations Engagement, at the Contracting Authority's sole cost and expense.
- 3.4.2 Project Co shall comply with the requirements of Schedule 18 – Communication and Public Engagement Protocol with respect to providing information for, or completing any report, assessment, submission, application, communications material or other document relating to Indigenous Nations ("**Documents Relating to Indigenous Nations**") and all other planned communications between Contracting Authority and Indigenous Nations.
- 3.4.3 Without limiting or duplicating any other obligation which Project Co may have under the Project Agreement, including this Schedule 17, for any required archaeological assessment, Project Co shall ensure that the Licensed Archaeologist:
- 3.4.3.1 provides written Notice to Contracting Authority thirty (30) Business Days in advance of obtaining any Project Information Form;
 - 3.4.3.2 complies with the MHSTCI's current Standards and Guidelines for Consultant Archaeologists, as at the Technical Reference Date. For clarity, Project Co shall

meet both the standards as well as the guidelines as set out in the MHSTCI's current Standards and Guidelines for Consultant Archaeologists;

- 3.4.3.3 ensures that it follows the process for the involvement of Indigenous Monitors for Stage 2 Archaeological Assessment, Stage 3 Archaeological Assessment and/or Stage 4 Archaeological Assessment monitoring and/or performance of field work in coordination with the IRO's direction; and
- 3.4.3.4 ensures that the Stage 3 Archaeological Assessment or Stage 4 Archaeological Assessment includes protection, avoidance and construction monitoring strategy, as required under the MHSTCI's current Standards and Guidelines for Consultant Archaeologists.

3.5 Environmental Records

- 3.5.1 Project Co shall maintain and submit to Contracting Authority all documents and records relating to Project Co Permits, Licences, Approvals and Agreements for the Project. When documents or records are submitted to Contracting Authority in a version other than the original, Project Co shall provide a blackline version of the document or record showing revisions made from the previous submitted version to the Contracting Authority in addition to the revised document or record in accordance with Schedule 26 – Record Provisions.
- 3.5.2 Project Co shall ensure that documents and records relating to environmental matters for the Project are retained in all revision and when documents or records are submitted to Contracting Authority in a revision other than the original, a blackline version of the document or record showing revisions made from the previous submitted version is provided to Contracting Authority in addition to the revised document or record.

4 KEY INDIVIDUALS AND ENVIRONMENTAL WORKING GROUP

4.1 Environmental Positions

- 4.1.1 Project Co shall ensure that a distinct and qualified individual is appointed to each of the following roles, for the duration of the Construction Period:
 - 4.1.1.1 Environmental Director;
 - 4.1.1.2 Environmental Manager;
 - 4.1.1.3 Environmental Permits and Approvals Coordinator;
 - 4.1.1.4 Environmental Compliance Officer;
 - 4.1.1.5 each Environmental Specialist role set out in Section 4.6; and
 - 4.1.1.6 Environmental Inspector(s).
 - 4.1.1.7 Project Co shall ensure that no single individual occupies more than one of the roles listed in Sections 4.1.1.1 to 4.1.1.6 unless Project Co has obtained the prior written consent of Contracting Authority.

- 4.1.1.8 If requested by Project Co, Contracting Authority may, in its sole discretion, approve the combination of the roles and responsibilities of Environmental Specialists as set out in Section 4.6 if Project Co can demonstrate that an individual possesses all the required qualifications for the identified roles as prescribed in Section 4.6.3, and can demonstrate that the estimated level of effort to carry out the responsibilities of multiple roles can be reasonably fulfilled by a single individual.
- 4.1.2 Project Co shall ensure that a distinct and qualified individual is appointed to each of the following roles, for the duration of the Operational Term:
- 4.1.2.1 Environmental Director
- 4.1.2.2 Environmental Manager
- 4.1.2.3 Project Co shall ensure that no single individual occupies more than one of the roles listed in Sections 4.1.2.1 or 4.1.2.2 unless Project Co has obtained the prior written consent of Contracting Authority.
- 4.1.2.4 If requested by Project Co, Contracting Authority may, in its sole discretion, approve the combination of the roles and responsibilities if Project Co can demonstrate that an individual possesses all the required qualifications for the identified roles as prescribed in Sections 4.2 and 4.3, and can demonstrate that the estimated level of effort to carry out the responsibilities of multiple roles can be reasonably fulfilled by a single individual.
- 4.1.3 Project Co shall have available during the Operational Term, under direction of an Environmental Director, a multi-disciplinary team of specialists experienced in the disciplines required to meet Project Co's obligations under this Schedule 17, and any permit, licence, approval or agreement obligations as set out in Schedule 34 – Permits, Licences, Approvals and Agreements.
- 4.1.4 The positions, as required, can be fulfilled through the use of Subcontractors in accordance with Section 59.3 (*Subcontractors*) of the Project Agreement.
- 4.2 Environmental Director**
- 4.2.1 Project Co shall appoint an environmental director who shall, throughout the Project Term and irrespective of such person's other responsibilities, have defined authority for ensuring compliance with all of Project Co's environmental obligations for the Project (the "**Environmental Director**").
- 4.2.2 The Environmental Director shall be a Key Individual.
- 4.2.3 The Environmental Director shall have the following minimum qualifications:
- 4.2.3.1 a minimum fifteen (15) years of work-related experience for projects of similar size, scope, and complexity to the Project;

- 4.2.3.2 a degree from a recognized post-secondary institution with specialization in planning, environmental planning, geography or another related discipline;
 - 4.2.3.3 knowledge of the Province of Ontario’s Transit Project Assessment Process, GO Transit Class EA Document, and Environmental Assessment Act (Ontario);
 - 4.2.3.4 experience with implementation and management of environmental management systems that conform with ISO 14001;
 - 4.2.3.5 experience in successfully managing all Environmental Aspects of transit projects in the Province of Ontario;
 - 4.2.3.6 knowledge of relevant federal and provincial environmental policies, procedures and legislation;
 - 4.2.3.7 experience liaising with other specialty consultants, contractors and Governmental Authorities; and
 - 4.2.3.8 experience with similar projects in the Province of Ontario.
- 4.2.4 Without limiting the generality of Section 4.2.1, the job specification and responsibilities of the Environmental Director shall include the following:
- 4.2.4.1 directing all aspects of Project Co’s environmental and sustainability programs for the Project, including the annual environmental and sustainability reporting activities;
 - 4.2.4.2 ensuring environmental and sustainability issues are addressed and requirements are met in accordance with the Project Agreement and all Environmental Reference Documents and Additional Environmental Reports;
 - 4.2.4.3 ensuring that all sustainability initiatives are coordinated with Contracting Authority and that the initiatives fit within Contracting Authority’s corporate sustainability priorities and strategies, provided such priorities and strategies are shared with Project Co in advance;
 - 4.2.4.4 establishing and maintaining working relationships with relevant Governmental Authorities and Stakeholders through the Contracting Authority Representative;
 - 4.2.4.5 taking a lead role in internal environmental and sustainability design reviews including development of mitigation and compensation proposals acceptable to the Contracting Authority Representative and Governmental Authorities;
 - 4.2.4.6 liaising with the Contracting Authority Representative and with Governmental Authorities (through the Contracting Authority Representative) as required and acting as the single point of contact for Project Co on all matters relating to environmental management and sustainability;

- 4.2.4.7 directing the preparation and submission to the Contracting Authority Representative of all plans, reports, documents and other information required by this Schedule 17;
 - 4.2.4.8 acting as lead authorizing signatory for Project Co before the release of any new or amended environmental plan, report or document set out in Schedule 10 – Review Procedure and any other environmental plan, report or document identified under Section 2.2.2; and
 - 4.2.4.9 acting as lead authorizing signatory for Project Co before the release of any new or amended plan, report or document pursuant to environmental components of Design Development Submittals, Construction Document Submittals and Project Works Schedules.
- 4.2.5 The Environmental Director shall have the authority up to and including stopping work where the Environmental Management System is not being followed, or where there is a risk of environmental impact.
- 4.2.6 The Environmental Director shall be independent of the Construction Contractor.
- 4.2.7 Project Co shall not assign the responsibilities and obligations of the Environmental Director to any other Project Co Party.
- 4.2.8 Project Co shall submit sufficient documentation to Contracting Authority in accordance with Schedule 10 – Review Procedure to demonstrate that the qualifications of the Environmental Director are sufficient to carry out the responsibilities described in this Section 4.2.
- 4.3 Environmental Manager(s)**
- 4.3.1 Project Co shall appoint one or more environmental manager(s) who shall, throughout the Project Term and under the direction of the Environmental Director, have defined authority for ensuring the day-to-day implementation of Project Co’s environmental and sustainability obligations set out in the Project Agreement (each an “**Environmental Manager**”).
- 4.3.2 Each Environmental Manager shall be a Key Individual.
- 4.3.3 The Environmental Manager(s) shall have the following minimum qualifications:
- 4.3.3.1 ten (10) years of work-related experience on projects of similar size, scope, and complexity to the Project;
 - 4.3.3.2 a degree from a recognized post-secondary institution with specialization in planning, environmental planning, geography or another related discipline;
 - 4.3.3.3 knowledge of the Province of Ontario’s Transit Project Assessment Process, GO Transit Class EA Document, and Environmental Assessment Act (Ontario);
 - 4.3.3.4 experience in successfully managing all Environmental Aspects of transit projects in the Province of Ontario.

- 4.3.3.5 knowledge of relevant federal and provincial environmental policies, procedures and legislation;
 - 4.3.3.6 experience liaising with other specialty consultants, contractors and Governmental Authorities; and
 - 4.3.3.7 experience with similar projects in the Province of Ontario.
- 4.3.4 Without limiting the generality of Section 4.3.1, the job specification and responsibilities of each Environmental Manager shall include the following:
- 4.3.4.1 managing all environmental and sustainability issues associated with the Project on a day-to-day basis, including overseeing the environmental monitoring and follow-up program in accordance with the Environmental Reference Documents, Additional Environmental Reports, Environmental Law and any applicable Permits, Licences, Approvals and Agreements;
 - 4.3.4.2 establishing and maintaining working relationships with relevant Governmental Authorities and Stakeholders in cooperation with the Contracting Authority Representative;
 - 4.3.4.3 ensuring effective operation of the Environmental Management System on a day-to-day basis;
 - 4.3.4.4 ensuring effective operation of the Sustainability Management Plan on an ongoing basis;
 - 4.3.4.5 ensuring environmental and sustainability issues are addressed and requirements are met in accordance with the Environmental Reference Documents, Additional Environmental Reports and the Project Agreement; and
 - 4.3.4.6 ensuring effective development, tracking and monitoring of environmental and sustainability metrics in line with best practice standards.
- 4.3.5 Project Co shall submit sufficient documentation to Contracting Authority in accordance with Schedule 10 – Review Procedure to demonstrate that the qualifications of the Environmental Manager are sufficient to carry out the responsibilities described in this Section 4.3.

4.4 Environmental Permits and Approvals Coordinator(s)

- 4.4.1 Project Co shall appoint one or more environmental permits and approvals coordinator(s) (each an “**Environmental Permits and Approvals Coordinator**”) who shall, throughout the Construction Period in accordance with Section 4.1.1 and during the Operational Term as required in accordance with Section 4.1.3 and under direction of an Environmental Manager, be responsible for obtaining and ensuring the compliance with environmental Permits, Licences, Approvals and Agreements, including those in Schedule 34 – Permits, Licences, Approvals and Agreements, relating to the Works.
- 4.4.2 Without limiting the generality of Section 4.4.1, the job specification and responsibilities of each Environmental Permits and Approvals Coordinator(s) shall include the following:

Confidential

- 4.4.2.1 managing all environmental and sustainability Permits, Licences, Approvals and Agreements associated with the Project, including those listed in Schedule 34 – Permits, Licences, Approvals and Agreements; and
- 4.4.2.2 establishing and maintaining working relationships with relevant Governmental Authorities and Stakeholders through the Contracting Authority Representative.
- 4.4.3 The Environmental Permits and Approvals Coordinator shall have the following minimum qualifications:
 - 4.4.3.1 ten (10) years of work-related experience;
 - 4.4.3.2 a degree from a recognized post-secondary institution with specialization in planning, environmental planning, geography or another related discipline;
 - 4.4.3.3 experience in successfully managing the process of procuring all environmental permits and approvals on transit projects in the Province of Ontario;
 - 4.4.3.4 knowledge of the Province of Ontario’s Transit Project Assessment Process, GO Transit Class EA Document, and Environmental Assessment Act (Ontario);
 - 4.4.3.5 knowledge of relevant federal and provincial environmental policies, procedures and legislation;
 - 4.4.3.6 ability to liaise with other specialty consultants, contractors and Governmental Authorities; and
 - 4.4.3.7 experience with similar projects in the Province of Ontario.
- 4.4.4 Project Co shall submit sufficient documentation to Contracting Authority in accordance with Schedule 10 – Review Procedure to demonstrate that the qualifications of each Environmental Permits and Approvals Coordinator are sufficient to carry out the responsibilities described in this Section 4.4.
- 4.5 Environmental Compliance Officer**
- 4.5.1 Project Co shall appoint an Environmental Compliance Officer (the “**Environmental Compliance Officer**”) who shall, throughout the Construction Period in accordance with Section 4.1.1 and during the Operational Term as required in accordance with Section 4.1.3. Under the direction of the Environmental Manager(s), be responsible for monitoring and managing the implementation of the Environmental Aspects of the Works on a daily basis to confirm compliance with the requirements of:
 - 4.5.1.1 the commitments of the Environmental Reference Documents;
 - 4.5.1.2 environmental Permits, Licences, Approvals and Agreements, including those listed in Schedule 34 – Permits, Licences, Approvals and Agreements; and
 - 4.5.1.3 all plans, documents and Additional Environmental Reports implemented pursuant to Section 2.2.3.

- 4.5.2 Project Co's Environmental Compliance Officer shall have the following minimum qualifications:
- 4.5.2.1 an undergraduate degree or higher in a related discipline (ecology/biology/environmental science) from a recognized university;
 - 4.5.2.2 a minimum of five (5) years of experience conducting environmental inspections, monitoring and compliance;
 - 4.5.2.3 knowledge of methods, approaches, and best management practices related to environmental inspections, including experience with the Construction Administration and Inspection Task Manual (MTO, April, 2005, as amended from time to time); and
 - 4.5.2.4 experience with similar projects in the Province of Ontario.
- 4.5.3 Project Co shall submit sufficient documentation to Contracting Authority in accordance with Schedule 10 – Review Procedure to demonstrate that the qualifications of the Environmental Compliance Officer are sufficient to carry out the responsibilities described in this Section 4.5.

4.6 Environmental Specialists

- 4.6.1 Project Co shall have available during the Construction Period in accordance with Section 4.1.1 and during the Operational Term as required in accordance with Section 4.1.3. Under direction of an Environmental Manager, a multi-disciplinary team of specialists experienced in the disciplines required to meet Project Co's obligations under this Schedule 17, including the following. The following roles can be fulfilled through the use of Subcontractors in accordance with Section 59.3 (*Subcontractors*) of the Project Agreement:
- 4.6.1.1 Air Quality Specialist(s);
 - 4.6.1.2 Aquatic Specialist(s);
 - 4.6.1.3 Arborist(s);
 - 4.6.1.4 Cultural Heritage Specialist(s);
 - 4.6.1.5 Designated Substances and Hazardous Materials Specialist;
 - 4.6.1.6 Electromagnetic Compatibility (EMC)/ Electromagnetic Interference (EMI) Specialist(s);
 - 4.6.1.7 Environmental Planning Specialist(s);
 - 4.6.1.8 Hydrogeologist(s);
 - 4.6.1.9 Noise Specialist(s);
 - 4.6.1.10 Licensed Archaeologist(s);

- 4.6.1.11 Species at Risk Specialist(s);
 - 4.6.1.12 Vibration Specialist(s);
 - 4.6.1.13 Soil and Groundwater Contamination and Management Specialist(s);
 - 4.6.1.14 Climate Mitigation and Resilience Specialist(s);
 - 4.6.1.15 Sustainability Specialist(s); and
 - 4.6.1.16 Biologist(s),

(each an “**Environmental Specialist**”).
- 4.6.2 Project Co acknowledges and agrees that Contracting Authority requires distinct and qualified individuals to carry out the functions of each of the Environmental Specialist roles. Project Co shall ensure that no single individual occupies more than one of the Environmental Specialist roles listed in Section 4.6.1 unless Project Co has obtained the prior written consent of Contracting Authority.
- 4.6.3 Each Environmental Specialist used by Project Co to meet its obligations under the Project Agreement shall meet the following minimum qualifications:
- 4.6.3.1 each Air Quality Specialist shall have:
 - (a) ten (10) years of work-related experience;
 - (b) a degree from a recognized university with specialization in chemical or civil or environmental engineering;
 - (c) experience in predicting the greenhouse gas emission implications of transportation alternatives;
 - (d) experience in designing and evaluating appropriate air quality impact mitigation for transportation projects;
 - (e) experience utilizing scientifically approved dispersion models, such as AERMOD, CAL4HQC and CAL3HQC, and vehicle emission models, such as MOVES;
 - (f) experience in the determination of existing ambient air quality, exceedances in ambient air quality criteria prescribed by municipal, provincial and/or national quality standards and identification of Air Quality Sensitive Receptors;
 - (g) experience in Air Quality Sensitive Receptor identification, assessment of impacts, and the identification of mitigation;
 - (h) understanding of federal, provincial and municipal laws and regulations as they pertain to air quality; and

- (i) ability to liaise with other specialty consultants, contractors and Governmental Authorities;

4.6.3.2 each Aquatic Specialist shall have:

- (a) ten (10) years of work-related experience;
- (b) a degree from a recognized post-secondary institution with specialization in ecology, conservation biology, environmental science or another related discipline;
- (c) knowledge of the Species at Risk Act (Canada), the Fisheries Act (Canada), the Endangered Species Act (Ontario), the Fish and Wildlife Conservation Act (Ontario) and related policies;
- (d) experience in applying for MECP permits and DFO approval as it pertains to aquatic species in preparing Overall Benefit Permits and compensation plans;
- (e) knowledge of the ecological concepts, function of ecosystems and how human land uses are impacting them;
- (f) demonstrated experience involving,
 - (i) the identification and assessment of aquatic species and habitat;
 - (ii) aquatic impact assessment;
 - (iii) development of aquatic mitigation measures; and
 - (iv) experience with similar projects in the Province of Ontario;

4.6.3.3 each Arborist shall have:

- (a) a minimum of five (5) years of work-related experience;
- (b) a degree from a recognized post-secondary institution in a field of study related to trees, landscaping and arboriculture;
- (c) certified membership in good standing with the International Society of Arboriculture;
- (d) knowledge of federal, provincial, municipal and Metrolinx policies, procedures and legislation;
- (e) ability to liaise with other specialty consultants, contractors and Governmental Authorities; and
- (f) experience with similar projects in the Province of Ontario;

- 4.6.3.4 each Cultural Heritage Specialist shall have:
- (a) a minimum of ten (10) years of work-related experience;
 - (b) a degree from a recognized university in a field of study related to historical and architectural aspects of built heritage resources and cultural heritage landscapes;
 - (c) membership in good standing with the Canadian Association of Heritage Professionals;
 - (d) experience in the identification and evaluation of cultural heritage resources;
 - (e) experience in the development of heritage resource mitigation measures, including relocation, salvage and conservation plans for architecture and landscape;
 - (f) knowledge of federal, provincial and Metrolinx cultural heritage policies, standards and guidelines, procedures and legislation;
 - (g) ability to liaise with other specialty consultants, contractors and Governmental Authorities; and
 - (h) experience with similar projects in the Province of Ontario;
- 4.6.3.5 each Designated Substances and Hazardous Materials Specialist shall have:
- (a) a minimum of ten (10) years of work-related experience;
 - (b) a degree or diploma from a recognized university in a field of study related to occupational hygiene, environmental health and safety, environmental science, civil or environmental engineering;
 - (c) experience in the identification and evaluation of designated substances and hazardous materials in accordance with the *Occupational Health and Safety Act*, O. Reg. 278/05 (Asbestos on Construction Projects and in Buildings and Repair Operations), Regulation 490 (Designated Substances), Regulation 860 (WHMIS Regulation), Regulation 833 (Control of Exposure to Biological or Chemical Agents Regulation), R.R.O. 1990, Regulation 347 General - Waste Management, as amended (R.R.O. 1990, Reg. 347) under the EPA; and/or R.R.O. 1990, Regulation 362 Waste Management – PCB's under the EPA;
 - (d) experience in the development of mitigation measures and removal plans for Designated Substances and Hazardous Materials;
 - (e) knowledge of federal, provincial and municipal policies, standards and guidelines, procedures and legislation with respect to Designated Substances and Hazardous Materials;

- (f) ability to liaise with other specialty consultants, contractors and Governmental Authorities; and
 - (g) experience with similar projects in the Province of Ontario;
- 4.6.3.6 each Electromagnetic Compatibility (EMC)/ Electromagnetic Interference (EMI) Specialist shall have:
- (a) a minimum of five (5) years of work-related experience;
 - (b) a degree from a recognized university with specialization in environmental engineering, or related discipline;
 - (c) experience in EMC/EMI in the transit environment;
 - (d) knowledge of relevant federal and provincial environmental policies, procedures, legislation and EMC/ EMI reference documents specified in the Output Specifications; and
 - (e) ability to liaise with other specialty consultants, contractors and Governmental Authorities;
- 4.6.3.7 each Environmental Planning Specialist shall have:
- (a) a minimum of ten (10) years of work-related experience;
 - (b) a degree from a recognized university with specialization in urban and land use planning, environmental, geography or another related discipline;
 - (c) experience in successfully managing transit projects in the Province of Ontario;
 - (d) knowledge of the Province of Ontario's Transit Project Assessment Process;
 - (e) knowledge of relevant federal, provincial, municipal and Metrolinx environmental policies, procedures and legislation;
 - (f) ability to liaise with other specialty consultants, contractors and Governmental Authorities; and
 - (g) experience with similar projects in the Province of Ontario;
- 4.6.3.8 each Hydrogeologist shall have:
- (a) a minimum of ten (10) years of work-related experience;
 - (b) a bachelor or advanced degree from a recognized university in hydrogeology or geoscience or engineering;

- (c) a designation as a “Professional Geoscientist” in the Province of Ontario and be a practicing member of the Association of Professional Geoscientists of Ontario and/or an appropriately trained Professional Engineer, or have other relevant credentials approved by Contracting Authority;
- (d) experience designing, implementing and overseeing Dewatering and unwatering systems, including obtaining all necessary Permits To Take Water, Environmental Activity Sector Registrations, municipal sewer use permits or other discharge permits;
- (e) knowledge of Ontario Regulation 387/04, made under the Ontario Water Resources Act, and the Ontario Water Resources Act; and
- (f) experience with similar projects in the Province of Ontario;

4.6.3.9 each Noise Specialist shall have:

- (a) a minimum of ten (10) years of work-related experience;
- (b) a designation as an accredited Professional Engineer in the Province of Ontario, or have other relevant credentials approved by Contracting Authority;
- (c) experience in successfully managing noise assessments for transit projects in North America;
- (d) knowledge of relevant federal, provincial and municipal policies, procedures and legislation and, where none exist, knowledge of and experience with other appropriate legislation, guidance or standards;
- (e) knowledge of municipal heritage policies and the City of Toronto’s Official Plan;
- (f) ability to liaise with other specialty consultants, contractors and Governmental Authorities; and
- (g) experience with similar projects in the Province of Ontario;

4.6.3.10 each Licensed Archaeologist shall have:

- (a) a minimum of ten (10) years of work-related experience;
- (b) a licence to practice archaeology in the Province of Ontario in accordance with the *Ontario Heritage Act* (Ontario);
- (c) knowledge of federal, provincial and Metrolinx archaeological and heritage policies, standards and guidelines, procedures and legislation;

- (d) experience in industrial archaeology, specifically in rail line construction and historic engineering;
- (e) ability to liaise with other specialty consultants, contractors, Governmental Authorities and Indigenous Nations; and
- (f) experience with similar projects in the Province of Ontario;

4.6.3.11 each Biologist shall have:

- (a) a minimum of ten (10) years of work-related experience;
- (b) degree from a recognized university in one, or several, of the following fields: conservation biology, wildlife biology (including avian and fish), zoology, terrestrial biology, aquatic biology, ecology, or a related field;
- (c) knowledge of ecological concepts, function of ecosystems and how human land uses are impacting them;
- (d) general familiarity with fauna, including bird species and their ecological requirements, which occur in the part of the Province of Ontario in which the Project is located;
- (e) knowledge of federal, provincial policies, standards and guidelines, procedures and legislation including the Species at Risk Act (Canada), the Endangered Species Act (Ontario) and the Fish and Wildlife Conservation Act (Ontario);
- (f) work-related experience involving:
 - (i) the identification and assessment of wildlife / ecosystem species and habitat;
 - (ii) wildlife / ecosystem environmental impact assessment; and
 - (iii) development of wildlife / ecosystem environmental mitigation measures; and
- (g) experience with similar projects in the Province of Ontario;

4.6.3.12 each Soil and Groundwater Contamination and Management Specialist shall have:

- (a) a minimum of ten (10) years of work-related experience;
- (b) designation as a “Qualified Person” as per Section 5 of Ontario Regulation 153/04, made under the Environmental Protection Act (Ontario);

- (c) no conflict of interest as set out in Ontario Regulation 153/04, made under the Environmental Protection Act (Ontario) including with respect to conducting or supervising environmental site assessments, completing certifications with respect to records of site condition, or undertaking any other obligations under Applicable Law.
- (d) experience with and understanding of the application and interpretation of Canadian Standards Association (CAN/CSA Z768 and CAN/CSA Z769) investigation criteria and criteria relating to the assessment of contaminated lands;
- (e) experience with and understanding of the application and interpretation of Ontario Regulation 153/04 and Ontario Regulation 406/19, made under the Environmental Protection Act (Ontario), as amended from time to time, investigation criteria relating to the assessment of contaminated lands;
- (f) experience in designing, implementing and overseeing:
 - (i) Soil management plans;
 - (ii) phase 1 and 2 environmental site assessments;
 - (iii) Soil and groundwater characterization programs;
 - (iv) vapour intrusion assessments;
 - (v) remedial action plans for Soil and/or groundwater and/or surface water;
 - (vi) site inspection and monitoring programs for construction activities;
 - (vii) excess Soil beneficial re-use strategies; and
 - (viii) water effluent treatment and discharge strategies;
- (g) knowledge of risk assessment procedures and requirements;
- (h) knowledge of relevant federal and provincial policies, procedures and legislation, including Waste management and related legislation, regulations, guidelines, policies for water protection and materials management and MTO contaminated property process, and archaeological investigations as applicable;
- (i) ability to liaise with other specialty consultants, contractors and Governmental Authorities; and
- (j) experience with similar projects in the Province of Ontario.

- 4.6.3.13 each Species at Risk Specialist shall have:
- (a) a minimum of ten (10) years of work-related experience;
 - (b) a degree from a recognized university with specialization in ecology, conservation biology, environmental science or another related discipline;
 - (c) knowledge of the ecological concepts, function of ecosystems and how human land uses are impacting them;
 - (d) general familiarity with flora and fauna, and knowledge of the Species-at-Risk and their ecological requirements, that occur in the part of the Province of Ontario in which the Project is located;
 - (e) knowledge of the Species at Risk Act (Canada), the Fisheries Act (Canada), the Endangered Species Act (Ontario), and related policies;
 - (f) experience in registration of species with MECP and implementing MECP Species-at-Risk permits including Overall Benefit Permits for Species-at-Risk; and
 - (g) experience with similar projects in the Province of Ontario;
- 4.6.3.14 each Vibration Specialist shall have:
- (a) a minimum of ten (10) years of work-related experience;
 - (b) a designation as an accredited Professional Engineer in the Province of Ontario, or have other relevant credentials approved by Contracting Authority;
 - (c) experience in successfully managing vibration assessments for transit projects in North America;
 - (d) knowledge of relevant federal and provincial environmental policies, procedures and legislation and, where none exist, knowledge and experience of other appropriate legislation, guidance or standards;
 - (e) knowledge of municipal heritage policies and the City of Toronto's Official Plan; and
 - (f) ability to liaise with other specialty consultants, contractors and Governmental Authorities;
- 4.6.3.15 Each Sustainability Specialist shall have:
- (a) a minimum of five (5) years of work-related experience in sustainability considerations in infrastructure;

- (b) a degree from a recognized university with specialization in sustainability, environmental studies, or related discipline;
- (c) knowledge of sustainability systems and metrics;
- (d) experience on other transit and transportation projects in developing sustainability plans and tracking performance;
- (e) knowledge of the “Envision Rating System for Sustainable Infrastructure” published by the Institute for Sustainable Infrastructure; and
- (f) knowledge of the “LEED Rating System”;

4.6.3.16 each Climate Mitigation and Resilience Specialist shall have:

- (a) a minimum of five (5) years of work-related experience;
- (b) degree from a recognized university in one, or several, of the following fields: geology, geochemistry, physics, geophysics, climatology, meteorology, or related field;
- (c) knowledge of methods, tools, and approaches to evaluating and mitigating the risks and vulnerability of infrastructure to climate change;
- (d) knowledge of methods and tools with respect to climate modelling; and
- (e) experience with similar projects in North America.

4.6.4 For each Environmental Specialist, Project Co shall submit sufficient documentation to Contracting Authority in accordance with Schedule 10 – Review Procedure to demonstrate that the qualifications of the individual meet or exceed the applicable requirements described in Section 4.6.3.

4.7 Environmental Inspector(s)

4.7.1 Project Co shall appoint two or more environmental inspector(s) who shall, under direction of the Environmental Compliance Officer, ensure compliance of the Works with the Environmental Management System and the Project Agreement (each an “**Environmental Inspector**”).

4.7.2 Each Environmental Inspector shall have a minimum of three (3) years of demonstrated working experience in all aspects of environmental monitoring / mitigation during transportation project construction, specifically with respect to work in and around watercourses and in the application and correction of erosion and sedimentation control measures, reporting Spills and the containment of effluent and dust during construction, and with projects in the Province of Ontario of a similar scope and complexity to this Project. Each Environmental Inspector shall also hold certification as a Canadian Certified Inspector of Sediment and Erosion Control (CAN-CISEC), or have proven proficiency in observing, inspecting and reporting on the implementation of Erosion and Sediment Control Plans.

- 4.7.3 Without limiting the generality of Section 4.7.1, the job specification and responsibilities of each Environmental Inspector shall include the following:
- 4.7.3.1 as a minimum, conduct monitoring and inspections on all aspects of the Works in accordance with the Environmental Management System;
 - 4.7.3.2 maintain a log of monitoring and inspection events, which shall include photographic evidence to support the observations recorded during such monitoring and inspection events;
 - 4.7.3.3 complete monitoring and inspection reports and provide to the Environmental Compliance Officer and as part of the Monthly Environmental Report in accordance with Schedule 10 – Review Procedure; and
 - 4.7.3.4 provide advice and recommendations for improving environmental protection and correcting any inefficient practices and/or issues of non-compliance within 24 hours of noticing a potential issue.
- 4.7.4 Project Co shall submit sufficient documentation to Contracting Authority in accordance with Schedule 10 – Review Procedure to demonstrate that the qualifications of each Environmental Inspector are sufficient to carry out the responsibilities described in this Section 4.7.
- 4.8 Environmental Working Group**
- 4.8.1 Project Co shall have qualified representatives, including the Environmental Director, Environmental Manager(s), Environmental Permits and Approvals Coordinator(s), and the Environmental Compliance Officer, who shall form an environmental working group for the Project (the “**Environmental Working Group**” or the “**EWG**”). A representative or representatives from the Contracting Authority will also be a participant in the EWG.
- 4.8.2 The EWG shall meet on an every-other-week basis, or more frequently if required by Contracting Authority, within fourteen (14) days of Financial Close until Substantial Completion. The EWG shall provide teleconference details for those unable to attend in-person.
- 4.8.3 The EWG shall identify their working relationship, roles and responsibilities matrix, and approvals processes, to comply with the environmental requirements of this Project Agreement.
- 4.8.4 At the Contracting Authority Representative’s request, applicable Environmental Specialists shall attend EWG meetings to discuss environmental submissions, content, established submission dates and other relevant requirements in compliance with the Project Agreement and any Applicable Law.
- 4.8.5 At EWG meetings, Project Co shall report on:
- 4.8.5.1 key environmental issues and field activities associated with environmental obligations contemplated in this Schedule 17;

- 4.8.5.2 environmental process, design activities and Construction Activities undertaken as part of the Works;
 - 4.8.5.3 environmentally-related communications with Governmental Authorities;
 - 4.8.5.4 the identification of all Sensitive Receptors and Environmentally Sensitive Construction Activities for review by Contracting Authority;
 - 4.8.5.5 the status and frequency of the monitoring and inspection activities required in accordance with this Schedule 17;
 - 4.8.5.6 the status of environmental protection measures, issues of non-compliance and associated corrective actions and resolution of issues, including presentation of descriptions and photos as required to facilitate such;
 - 4.8.5.7 the status of information that is required at any time pursuant to this Schedule 17, including all plans, reports, submittals and other documents set out in this Schedule 17; and
 - 4.8.5.8 the status of key environmental, social and economic metrics and progress towards continual improvement, including a summary of trends identified in the Monthly Environmental Report, as they pertain to sustainability; and identify any new initiatives, interested parties, or findings as per Section 3.1.5.1(b) (*Sustainability Management Plan*) of the Output Specifications.
- 4.8.6 The EWG meetings shall be facilitated by Project Co and Project Co shall prepare and distribute an agenda and presentation to the Contracting Authority Representative at least 48 hours in advance of each EWG meeting.
- 4.8.7 Project Co shall prepare EWG meeting minutes and submit to the Contracting Authority Representative within five (5) Business Days following EWG meetings.

5 SYSTEMS AND REPORTING

5.1 Additional Environmental Reports

- 5.1.1 In addition to those plans and reports explicitly set out in this Schedule 17, Project Co shall prepare and submit to Contracting Authority (and to the applicable Governmental Authority, if required) any additional reports, plans and documentation relating to the Project that are required by any Applicable Law or any Environmental Reference Document (each an “**Additional Environmental Report**”). All plans and reports explicitly set out in this Schedule 17 and all Additional Environmental Reports shall be submitted to Contracting Authority in accordance with Schedule 10 – Review Procedure prior to submission to any Governmental Authority.
- 5.1.2 Without limiting Section 5.1.1 Project Co shall within ten (10) Business Days or within a time period agreed upon in advance with Contracting Authority provide the Contracting Authority Representative with copies of all evaluations and investigations, audits, monitoring data, reports, drawings, electronic files, checklists, documents, and lab or test results relating to the Lands and the Works, including all evaluations and investigations, audits, monitoring data,

Confidential

reports, drawings, electronic files, checklists, documents and lab or test results related to the Project conducted by or on behalf of or coming into the possession of Project Co at any time whether before or after Financial Close.

5.2 Other Required Environmental Plans and Reports

5.2.1 Project Co shall prepare annual environmental compliance monitoring reports (each an “**Annual Environmental Compliance Monitoring Report**”) in accordance with a format agreed upon by Contracting Authority. Project Co shall submit each Annual Environmental Compliance Monitoring Report to Contracting Authority in accordance with Schedule 10 – Review Procedure.

5.2.1.1 In each Annual Environmental Compliance Monitoring Report, Project Co shall document:

- (a) the status of all Project Co Environmental Commitments;
- (b) a summary of all environmental Permits, Licences, Approvals and Agreements obtained or amended;
- (c) the status of communication with Governmental Authorities;
- (d) a summary of environmental non-compliance issues raised by Contracting Authority and Governmental Authorities, including corrective actions taken to resolve issues, status and timeline for resolution of issues;
- (e) a summary of recommendations from the Environmental Audit Report and a description of actions including a timeline to implement recommendations;
- (f) the reporting requirement related to Integrated Vegetation Management as per Metrolinx Vegetation Guideline, dated 2020, and in accordance Section 6.8.3; and
- (g) a roll-up summary of activities, issues, outcomes, and ongoing matters from the Monthly Environmental Reports of the previous calendar year. Project Co shall provide a clear summary indicating the number and description of environmental issues encountered, the number and description of non-compliant items, and timelines for mitigation of outstanding environmental issues. The summary shall demonstrate data trends and continuous improvement.

5.2.1.2 Provide an updated list of Environmental Reference Documents as applicable to the Works and as necessary to reflect changes in applicable requirements and Applicable Law in accordance with Section 2.1.1.1.

5.2.2 Project Co shall prepare and submit to Contracting Authority monthly environmental reports (each a “**Monthly Environmental Report**”). Project Co shall submit each Monthly

Environmental Report to Contracting Authority in accordance with Schedule 10 – Review Procedure.

5.2.2.1 In each Monthly Environmental Report, Project Co shall document:

- (a) A summary of the environmental management activities undertaken in the reporting month, and a look-ahead for the next month for the following:
 - (i) status of field activities associated with environmental obligations contemplated in this Schedule 17;
 - (ii) environmental process and design activities and Construction Activities undertaken as part of the Works during the period relevant to Project Co's obligations under this Schedule 17, including surveys, inspections, repairs, and construction work undertaken for environmental protection and mitigation measures;
 - (iii) key environmental issues, concerns and risks associated with the Works;
 - (iv) studies and permitting activities;
 - (v) consultation activities and environmentally related communications with Governmental Authorities;
 - (vi) design and implementation of mitigation measures (successes and failures), monitoring activities, resolutions to environmental impacts, and a status update on complying with Project Co Environmental Commitments; and
 - (vii) administrative activities, including training meetings, presentations and health and safety, progress of other environmental plans and reports and submission requirements;
- (b) A summary of compliance issues or activities for the reporting month, including:
 - (i) description of issues encountered;
 - (ii) non-conformance, incidents, preventative and corrective actions;
 - (iii) outcomes;
 - (iv) follow-up actions;
 - (v) expected timelines; and
 - (vi) responsibilities;

- (c) Updated tree compensation inventory in accordance with Section 6.8.4.3; and
 - (d) Copies of any monitoring and inspection reports as completed by the Environmental Inspector(s) in accordance with Section 4.7.
- 5.2.3 Project Co shall obtain, from an independent Environmental Consultant acceptable to Contracting Authority, acting reasonably, an annual independent environmental audit and a report from the independent environmental audit (“**Environmental Audit Report**”) of Project Co’s compliance with its environmental and sustainability obligations under the Project Agreement.
 - 5.2.3.1 Project Co shall submit the qualifications of the independent Environmental Consultant and a work plan for the independent environmental audit to Contracting Authority for review and approval in accordance with Schedule 10 – Review Procedure.
 - 5.2.3.2 Project Co shall complete the Environmental Audit Report annually and submit to Contracting Authority no later than thirty (30) days following the completion of the Environmental Audit Report by the Environmental Consultant in accordance with Schedule 10 – Review Procedure.
 - 5.2.3.3 Project Co may use the Environmental Audit Report to demonstrate compliance with the Environmental Management System as described in Section 5.3
- 5.2.4 Project Co shall provide the Environmental Consultant undertaking the Environmental Audit Report with the complete Project Agreement including any documents referenced within the Project Agreement.
- 5.2.5 The Environmental Consultant undertaking the Environmental Audit Report shall have the knowledge and skills necessary to complete the defined Environmental Audit Report scope, including:
 - 5.2.5.1 appropriate education, skills, experience and/or training considering Applicable Law and local or national guidelines;
 - 5.2.5.2 relevant technical skills specific to the scope, boundaries, and Environmental Audit Report objective; and
 - 5.2.5.3 knowledge of the requirements of best practice standards for environmental audits.
- 5.2.6 All costs and expenses associated with the Environmental Audit Report, including costs and expenses related to undertaking any additional investigations or remedial measures recommended by the Environmental Consultant, shall be borne by Project Co, provided the additional investigations or remedial measures result from a breach by Project Co or a Project Co Party of a Project Co Environmental Commitment.
- 5.2.7 Project Co shall prepare a substantial completion environmental report (the “**Substantial Completion Environmental Report**”) and shall submit the Substantial Completion

Environmental Report to the Contracting Authority Representative prior to Substantial Completion in accordance Schedule 10 – Review Procedure.

- 5.2.7.1 The report shall, at a minimum, document compliance with all Project Co Environmental Commitments as set out in Appendix A-2 and Appendix A-3 of this Schedule 17 and all other environmental obligations under this Project Agreement.
- 5.2.7.2 The Substantial Completion Environmental Report shall include a summary of:
- (a) all Spills, including locations, which had occurred during the Construction Period and how all Spill Prevention and Response Plan activities in accordance with Section 6.1.1 were implemented during the Works and the associated outcomes;
 - (b) how all Designated Substances and Hazardous Materials Management Plan activities in accordance with Section 6.1.2 were implemented during the Works and the associated outcomes;
 - (c) contamination management activities as described in Sections 6.1.3, 6.1.4 and 6.1.5;
 - (d) MECP Hazardous Waste Information Network (HWIN) generator registration as described in Section 6.1.5;
 - (e) Soil and excavated materials management activities as described in Section 6.2;
 - (f) well management and decommissioning activities as described in Section 6.3.1;
 - (g) groundwater, Dewatering/Unwatering and stormwater management activities as described in Sections 6.3.2, 6.3.3 and 6.3.5;
 - (h) noise and vibration management activities as described in Section 6.4;
 - (i) cultural heritage management activities as described in Section 6.6;
 - (j) archaeology management activities as described in Section 6.7;
 - (k) natural heritage management activities including but not limited to Species-at-Risk survey and mitigation activities as described in section 6.8.2, vegetation and tree management activities as described by 6.8.3 and 6.8.4;
 - (l) air quality management activities as described in Section 6.9.2; and
 - (m) and any other environmental activities attributed to Project Co or Project Co Parties environmental obligations as identified in this Schedule 17.

- 5.2.7.3 The Substantial Completion Environmental Report shall also include a summary of environmental compliance obligations as a result of the Works that will continue into the Operational Term.

5.3 Environmental Management System

- 5.3.1 No later than one-hundred and twenty (120) days following Financial Close, Project Co shall establish an environmental management system (“**Environmental Management System**”) that conforms to ISO 14001 and that is administered through the EMS Software Solution. The Environmental Management System shall be submitted to Contracting Authority in accordance Schedule 10 – Review Procedure.
- 5.3.2 No later than three-hundred and sixty-five (365) days following Financial Close, Project Co shall obtain ISO 14001 certification for the Environmental Management System from a certification body accredited by the Standards Council of Canada.
- 5.3.3 The Environmental Management System shall be applicable to all of Project Co’s obligations throughout the Project Term.
- 5.3.4 Project Co shall be the “organization” for the purposes of applying ISO 14001.
- 5.3.5 Project Co shall ensure that Environmental Aspects in the Environmental Management System include all environmental impacts included in the Environmental Reference Documents and in this Schedule 17.
- 5.3.6 Project Co shall ensure that the compliance obligations required in accordance with ISO 14001 includes all requirements under Applicable Law, all requirements of Permits, Licences, and Approvals in Schedule 34 – Permits, Licences, Approvals and Agreements, and all requirements defined in this Schedule 17, including Project Co Environmental Commitments as per Appendix A-3.
- 5.3.7 Notwithstanding the requirement of ISO 14001 for the organization to determine monitoring, measurement, analysis and evaluation requirements, Project Co shall ensure that all requirements for performance evaluation in the Environmental Management System, including,
- 5.3.7.1 the methods for monitoring, measurement, analysis and evaluation;
 - 5.3.7.2 the criteria against which environmental performance is measured; and
 - 5.3.7.3 the timing for performance of monitoring and measuring,
 - (a) the timing for analysis and evaluation of the results from monitoring and measuring; and
 - (b) comply with the requirements set out in this Schedule 17.
- 5.3.8 Project Co shall ensure that the Environmental Management System includes a description of contingency measures developed by Project Co that will be implemented by Project Co during and immediately following Environmental Incidents, including storm and wind events.

- 5.3.8.1 Throughout the Project Term, Project Co shall implement, expand, update and continually improve the Environmental Management System in conformance with ISO 14001.

5.4 Environmental Management System Software Solution

- 5.4.1 Project Co and the Project Co Parties shall use the soil tracking software specified by Contracting Authority, to be identified to the Preferred Proponent (as defined in the RFP) prior to Commercial Close.
 - 5.4.1.1 Project Co is responsible for complying with the requirements of Section 5.4.5.
 - 5.4.1.2 If, at any time during the Project Term, the soil tracking software vendor is no longer in business or otherwise no longer supports the soil tracking software, and the soil tracking software is not supported by another vendor, then Contracting Authority, in consultation with Project Co, will select and implement an alternative cloud-based soil tracking software solution that meets the requirements set out in Section 5.4.5.
- 5.4.2 No later than one-hundred and twenty (120) days following Financial Close, Project Co shall implement Cority Software Inc.'s relevant cloud-based software solutions for the administration of the Environmental Management System (the "**EMS Software Solution**"). The EMS Software Solution shall:
 - 5.4.2.1 allow multiple users to remotely log in and access the solution with single sign-on capability;
 - 5.4.2.2 allow users to upload user documents against any individual record contained within the database;
 - 5.4.2.3 be equipped with document control capabilities that enable users to track versions and revisions and that ensure that the latest revision of documents is being employed by users;
 - 5.4.2.4 allow easy access to data, real-time dashboarding features and business analytics features to enable monitoring of the performance indicators determined in accordance with ISO 14001. A monthly dashboard report shall be automatically generated on the first (1st) day of each month for the preceding month, containing at a minimum a summary of the information described in Sections 5.4.6, 5.4.7 and 5.4.8;
 - 5.4.2.5 include a central repository for all historical and current versions of the documents required to be managed in the Environmental Management System, organized in a manner that promotes efficient access to the documents;
 - 5.4.2.6 include a database that accurately and effectively records and tracks all data required to be managed in the Environmental Management System, which shall be maintained at minimum on a monthly basis or more frequently as required until such time as the Works have been completed; and

- 5.4.2.7 include the software applications set out in Sections 5.4.6, 5.4.7 and 5.4.8.
- 5.4.3 Throughout the Project Term, Project Co shall ensure that,
- 5.4.3.1 the EMS Software Solution is, at all times, the most current, vendor-supported version of the cloud-based software in consultation with Contracting Authority; and
- 5.4.3.2 the EMS Software Solution and all data and documents contained therein are electronically accessible to Contracting Authority, at all times, on a real-time basis through the single sign-on capability.
- 5.4.4 If, at any time during the Project Term, the EMS Software Solution vendor is no longer in business or otherwise no longer supports the EMS Software Solution, and the EMS Software Solution is not supported by another vendor, then Project Co shall, in consultation with and upon written approval of Contracting Authority, select and implement an alternative cloud-based software solution for the Environmental Management System that meets the requirements set out in Section 2.2.1.
- 5.4.5 Soil and Excavated Material Software Application
- 5.4.5.1 the EMS Software Solution shall contain an application for Soil and excavated material monitoring, management, and tracking, where each movement of Soil and excavated materials is captured in the required database. The Soil and excavated material software application shall be executed prior to Soil shipping and capture each movement of Soil and excavated materials outside each Project Area in a real-time digital tracking systems and shall include the following:
- (a) an up-to-date and complete inventory of all receiver sites of Soil and of excavated material generated by the Works that cannot be re-used on the Lands. This includes MECP licensed facilities, temporary storage areas, commercial fill operations, beneficial re-use sites, processing and recycling facilities, landfills and any other receiving site.
 - (b) the following information shall be updated at minimum on a monthly basis until such time as the Works have been completed, including:
 - (i) a unique identification number assigned to each load of Soil and excavated materials shipped outside a Project Area;
 - (ii) the municipal address of each receiver site for each Project Area;
 - (iii) the name of receiver site owner and operator and documentation of when written consent was received;
 - (iv) the date(s) on which notice was filed and updated, as relevant, in the registry for each receiver site;
 - (v) the name of Qualified Person overseeing receiver site activities;

- (vi) the Governmental Authority having jurisdiction over the receiver site;
- (vii) the type of Environmental Approval under which the receiver site is operating, if applicable;
- (viii) the quantity of each load of Soil and excavated material shipped from each Project Area to a receiver site or another Project Area within the Site;
- (ix) the total volume of Soil and excavated material shipped to the receiver site;
- (x) the time and date of each load of Soil and excavated material shipped from each Project Area to a receiver site or another Project Area within the Site;
- (xi) the time and date of each load of Soil and excavated material received at the receiver site or another Project Area within the Site;
- (xii) the description of the Soil and excavated material, including its point of origin location, shipped from each Project Area to the receiver site or another Project Area within the Site;
- (xiii) the name of the Project Co representative authorizing the departure of each load of Soil and excavated materials shipped from each Project Area;
- (xiv) the name of the hauling company, driver name and license plate of the vehicle hauling each load of Soil and excavated materials shipped from each Project Area;
- (xv) the name of the site representative acknowledging the receipt of each load of Soil and excavated materials at a receiver site or another Project Area within the Site;
- (xvi) a description of the number of samples collected and analyzed and a list of parameters included in the analyses that are representative of Soil quality for each load of Soil shipped;
- (xvii) documentation that a written opinion has been provided by Project Co's Qualified Person prior to Soil and excavated material shipment outside a Project Area stating that the quality of Soil and excavated material shipped to each receiver site or another Project Area with the Works is suitable for placement in compliance with Applicable Law based upon information reviewed by Project Co's Qualified Person;

- (xviii) the name and address of each source site of imported Soil and Aggregate;
 - (xix) the Governmental Authority having jurisdiction over the source site of imported Soil and Aggregate, if applicable;
 - (xx) the total volume of Soil and Aggregate imported from each source site;
 - (xxi) the location where imported Soil and Aggregate from each source site was placed within the Site, including the address and UTM coordinates;
 - (xxii) a description of the number of samples collected and analyzed and a list of parameters included in the analyses that are representative of the environmental quality of the Soil and Aggregate imported, if applicable; and
 - (xxiii) documentation that a written opinion has been provided by Project Co's Qualified Person prior to the import of Soil and Aggregate, if applicable, stating that the quality of Soil and Aggregate imported to the Site is suitable for placement at the Works in compliance with Project Co's Soil and Excavated Materials Management Plan and Applicable Law based upon information reviewed by Project Co's Qualified Person;
- (c) in-month evidence and certification by Project Co's Qualified Person that the quality of Soil and excavated materials shipped to each receiver site is compliant with the receiver site license, Environmental Approval, O. Reg. 406/19 and all Applicable Law;
- (d) in-month evidence and certification by Project Co's Qualified Person that each receiver site operated by Project Co within the Site is operating in compliance with O. Reg. 406/19 and all Applicable Law; and
- (e) any Waste manifests, weight tickets, bills of lading or shipping documentation associated with Soil or excavated material.
- 5.4.5.2 Project Co shall update and maintain the information within the Soil and excavated material software application at minimum on a monthly basis or more frequently as required until such time as the Works have been completed.
- 5.4.5.3 The Soil and excavated material software application shall include a monthly dashboard report as described in Section 5.4.2.4 which presents cumulative data for each calendar month. The Soil and excavated material monthly dashboard shall include the following for the applicable month:
- (a) the total quantities of Soil and of excavated material resulting from the Works in each Project Area;

- (b) the total quantities of Soil and of excavated material that were re-used on the Site in each Project Area;
- (c) the total quantities of Soil and of excavated material that were transported from each Project Area for re-use or disposal, including a detailing of quantities by volume shipped to each receiver site; and
- (d) the total quantity of Soil and Aggregate imported to the Site in each Project Area, the provenance of the imported Soil and Aggregate, the location of imported soil and Aggregate placement and the analytical results of testing conducted on the imported Soil.
 - (i) Placement locations for imported Soil and Aggregate shall include UTM coordinates.
 - (ii) Provenance of imported Soil and Aggregate shall include the name of the supplier, address and Environmental Approval under which the source of the imported Soil or Aggregate is operating, if applicable.

5.4.5.4 Upon implementation of a registration or tracking system for Soil movement by any Governmental Authority, Project Co shall be responsible for providing all necessary information to the Governmental Authority as prescribed by the Governmental Authority.

- (a) Project Co shall make the information in the Soil and excavated material software application available to any Governmental Authority when required by that Governmental Authority.

5.4.6 Dewatering/Unwatering Management Software Application

5.4.6.1 The EMS Software Solution will contain an application for Dewatering/Unwatering effluent management and shall be executed prior to extraction and discharge of groundwater, Dewatering/Unwatering effluent, and/or construction process water effluent, in accordance with Sections 6.3.2, 6.3.3 and 6.3.4 in a digital tracking system and shall include:

- (a) a unique identification number is assigned to each flow meter at each Dewatering/Unwatering location;
- (b) each flow meter collecting real-time flow of Dewatering/Unwatering effluent shall have data logging capability with recorded data transmitting capabilities;
- (c) Project Co shall ensure that Contracting Authority Representative receives real-time e-mail alerts of any exceedances of:
 - (i) water taking rates that exceed Environmental Approval limits;

- (ii) Dewatering/Unwatering effluent discharge rates that exceed Environmental Approval limits; and
- (iii) water quality data that exceed Environmental Approval criteria;
- (d) an up to date and complete inventory of all Dewatering/Unwatering effluent discharge points and Dewatering/Unwatering effluent receivers generated by the Works. This includes MECP licensed facilities, storm and sanitary sewer connections, surface water discharge points and any other receiving site, including overland infiltration within the Site. This inventory shall, at a minimum, include the following details and Project Co shall be update and maintain the inventory on a monthly basis until such time as the Works have been completed:
 - (i) the municipal address and UTM coordinates of each Dewatering/Unwatering effluent discharge point;
 - (ii) the name and municipal address of each Dewatering/Unwatering effluent receiver site owner and operator;
 - (iii) the Governmental Authority having jurisdiction over the receiver;
 - (iv) the type of permit or Environmental Approval under which the receiver is operating;
 - (v) the total volume of Dewatering/Unwatering effluent discharged to each receiver;
 - (vi) the description of the source of the Dewatering/Unwatering effluent discharged to each receiver;
 - (vii) a description of the number of samples collected and analyses and a list of parameters included in the analyses that are representative of Dewatering/Unwatering effluent discharge to each receiver; and
 - (viii) an electronic copy of the certificate(s) of analysis for the samples collected and analyzed;
- (e) in-month evidence and certification by the Hydrogeologist or Qualified Person that the quality, volume and discharge rate of Dewatering/Unwatering effluent discharged to each receiver is compliant with Environmental Approval conditions and is not expected to result in Worsened conditions; and
- (f) any Waste manifests or shipping documentation associated with transport of Dewatering/Unwatering effluent to a receiver.

- 5.4.6.2 Project Co shall update and maintain the information within the Dewatering/Unwatering management software application at minimum on a monthly basis or more frequently as required until such time as the Works have been completed.
- 5.4.6.3 Project Co's Dewatering/Unwatering management software application shall include a monthly dashboard report as described in Section 5.4.1 which presents cumulative data for each calendar month. The groundwater monthly dashboard shall include the following for the applicable month:
- (a) the daily and total quantities of Dewatering/Unwatering effluent derived from the Works;
 - (b) the daily and total quantities of Dewatering/Unwatering effluent derived from each Dewatering/Unwatering location;
 - (c) the daily and total volume of Dewatering/Unwatering effluent discharged to each receiver from each Dewatering/Unwatering location and a description of the PTTW or EASR under which the taking occurred;
 - (d) the daily and total volume of Dewatering/Unwatering effluent discharged to each receiver from all locations and a description of the Environmental Approval under which the discharge occurred;
 - (e) the analytical results supporting the discharge and/or disposal of Dewatering/Unwatering effluent;
 - (f) the treatment technologies used at each discharge location, as applicable; and
 - (g) records of the monitoring program to monitor for potential effects of Dewatering/Unwatering as described in Section 6.3.4.4.
- 5.4.6.4 Project Co shall make the information in the Dewatering/Unwatering management software application available to any Governmental Authority when required by that Governmental Authority.
- 5.4.7 Noise and Vibration Software Application
- 5.4.7.1 In accordance with Section 6.4.5 and Section 6.5.6, Project Co shall ensure that real-time monitoring data can be accessed by Contracting Authority through the EMS Software Solution;
- 5.4.7.2 As required, each noise monitor shall have data logging capability with recorded data transmitted to the EMS Software Solution; and
- 5.4.7.3 Project Co shall ensure that Contracting Authority Representative receives real-time e-mail alerts of any exceedances of Applicable Construction Noise and Vibration Requirements or Applicable Operations Noise and Vibration Requirements.

5.4.8 Construction Air Quality Software Application

- 5.4.8.1 In accordance with Section 6.9.4 Project Co shall ensure that all baseline data and real-time monitoring data are available and can be accessed by Contracting Authority through the EMS Software Solution;
- 5.4.8.2 As required, each monitor shall have data logging capability with recorded data transmitted to the EMS Software Solution; and
- 5.4.8.3 Project Co shall ensure that Contracting Authority Representative receives real-time e-mail alerts of any exceedances of Applicable Construction Air Quality Criteria and Limits.

6 ENVIRONMENTAL MANAGEMENT

6.1 Contamination Management and Emergency Response

6.1.1 Spill Prevention and Response

6.1.1.1 Project Co shall prepare and implement a Spill prevention and response plan (a “**Spill Prevention and Response Plan**”) and shall submit the Spill Prevention and Response Plan to the Contracting Authority Representative in accordance with Schedule 10 – Review Procedure. The Spill Prevention and Response Plan shall:

- (a) describe the measures Project Co will take to prevent a Spill of uncontrolled groundwater, or chemicals, Waste, fuels, lubricants, or other Hazardous Substance, and manage or otherwise mitigate the effects of any such Spill during the Project Term. The Spill Prevention and Response Plan shall consider site-specific characteristics, and include, at a minimum, the following:
 - (i) the types and nature of uncontrolled groundwater, chemicals, Waste, fuels, lubricants or other Hazardous Substances to be used during the performance of the Works;
 - (ii) the facilities and procedures to be used for storing and handling such materials, including Spill response, containment and clean-up materials;
 - (iii) monitoring and inspection procedures, including monthly inspections of Spill response and safety equipment, to ensure that management requirements are maintained and that inspections are documented;
 - (iv) employee training on the storage and use of chemicals, Waste, fuels, lubricants and other Hazardous Substances and the prevention of Spills;

- (v) identification of subsurface infrastructure (for example, weeping tile, infiltration galleries, etc.) that may influence the destination of any Spill material;
 - (vi) the identification of municipal and natural discharge locations (for example, municipal catch basins) and drainage pathways on the Lands, and a description of the direction of flow and receiving water body in the event of a Spill;
 - (vii) Spill response procedures for each type of material that may be released or spilled, and the various environmental media that may be affected (for example, atmosphere, surface water, groundwater, ground surface);
 - (viii) procedures for clean-up and restoration of surfaces and environmental media that may be affected by the Spill; and
 - (ix) procedures for notification and reporting of a Spill event to Project Co Parties, Governmental Authorities and other relevant regulatory agencies (e.g., conservation authority, City of Toronto), as applicable.
- 6.1.1.2 Project Co shall make available a hard copy of the latest revision of the Spill Prevention and Response Plan in all site trailers and all site offices.
- 6.1.1.3 After each and any occurrence of a Spill, irrespective of the quantity or characteristics of the material spilled, Project Co shall prepare and submit a Spill prevention and response occurrence report (a “**Spill Prevention and Response Occurrence Report**”) to the Contracting Authority in accordance with Schedule 10 – Review Procedure.
- (a) The Spill Prevention and Response Occurrence Report shall summarize how all Spill Prevention and Response Plan activities were implemented during the remediation and management of the occurrence of the Spill and the associated outcomes, and shall include:
 - (i) the date and time when the Spill was discovered;
 - (ii) a description of the substance spilled;
 - (iii) a description of the location of the Spill (municipal address and/or UTM coordinates);
 - (iv) estimated quantity released and area or volume impacted;
 - (v) a detailed description of estimated damages caused by the Spill;
 - (vi) a description of the any Spill response actions undertaken by Project Co during the remediation and management of the occurrence and the associated outcomes;

- (vii) a description of whether the Spill entered the natural environment – soil, groundwater, surface water, storm drain, or other natural features;
 - (viii) a description of whether the Spill entered lands outside of the Lands;
 - (ix) a description of whether Project Co notified any Governmental Authorities or third parties of the Spill, including date and time of notification and names of parties notified;
 - (x) a description of any direction provided by a Governmental Authority in response to notification and status of any actions related to that direction;
 - (xi) results of sampling and analysis, if undertaken;
 - (xii) root cause analysis;
 - (xiii) a description of Project Co’s actions to prevent further Spills; and
 - (xiv) tracking log of all Spills.
- 6.1.1.4 Project Co shall prepare and submit as part of the Substantial Completion Environmental Report as per Section 5.2.7, a Spill prevention and response implementation summary that describes how all Spill Prevention and Response Plan activities were implemented during the Work and the associated outcomes.
- 6.1.2 Designated Substances and Hazardous Materials Management Plan
- 6.1.2.1 Contracting Authority shall provide Project Co with designated substances surveys available at the time of issuance of this document and in accordance with the Environmental Reference Documents outlined in Section 2.1.
- 6.1.2.2 Project Co shall prepare and implement a Designated Substances and Hazardous Materials management plan (a “**Designated Substances and Hazardous Materials Management Plan**”) and shall submit the Designated Substances and Hazardous Materials Management Plan to the Contracting Authority in accordance with Schedule 10 – Review Procedure. The Designated Substances and Hazardous Materials Management Plan shall describe:
- (a) how Project Co will manage all Designated Substances and Hazardous Materials, including abatement, handling, transportation, testing, disposal and/or ultimate disposition of all Designated Substances and Hazardous Materials generated as part of the Works, including management of Designated Substances and Hazardous Materials associated with building demolition, building dismantling or preservation of built heritage resources and cultural heritage landscapes as applicable;

- (b) the general principles that Project Co will apply for managing the removal of Designated Substances and Hazardous Materials;
- (c) Project Co's over-arching Designated Substances and Hazardous Materials management strategy in terms of sustainable principles and compliance with Applicable Law, regulatory requirements and best practices;
- (d) locations, types and estimated quantities of Designated Substances and Hazardous Materials to be abated, managed, removed by Project Co during the Works;
- (e) data gaps in Designated Substances and Hazardous Materials surveys provided to Project Co and procedures for addressing data gaps prior to abatement activities, including locations not addressed by Designated Substances and Hazardous Materials surveys such as utility conduits and asphalt pavement;
- (f) Project Co's protocols for safe handling, abatement, management and removals, including disposal requirements;
- (g) how Project Co will ensure that no impacts will result to adjacent properties, or the public, during the abatement, handling, management or removal of Designated Substances and Hazardous Materials;
- (h) how Project Co will ensure requirements for mitigation and monitoring associated with built heritage resources as required by the Heritage Detailed Design Report in accordance with Section 6.6 are addressed;
- (i) how Project Co will conduct its activities in compliance with the Occupational Health and Safety Act (Ontario) and all Applicable Law;
- (j) Project Co's contingency plans to mitigate impacts; and
- (k) Project Co's reporting procedures to document and report to Contracting Authority how all management activities, best practices and mitigation measures have been implemented.

6.1.2.3 Project Co shall prepare and submit as part of the Substantial Completion Environmental Report, as per Section 5.2.7, a designated substances and hazardous materials implementation summary that describes how all Designated Substances and Hazardous Materials Management Plan activities were implemented during the Works and the associated outcomes including:

- (a) An inventory of all Designated Substances and Hazardous Materials generated and disposed off-site by the Works. This inventory shall include the following details:
 - (i) the municipal address of receiver;

- (ii) the name of receiver site owner and operator;
 - (iii) the Governmental Authority having jurisdiction over the receiver;
 - (iv) the type of Environmental Approval under which the receiver is operating;
 - (v) the total quantity of Designated Substances and Hazardous Materials transported to each receiver;
 - (vi) the description of the source of the Designated Substances and Hazardous Materials transported to each receiver;
 - (vii) a description of the number of samples collected and analyses and a list of parameters included in the analyses, if applicable;
 - (viii) an electronic copy of the certificate(s) of analysis for the samples collected and analyzed; and
- (b) certification by the Designated Substances and Hazardous Materials Specialist that the Designated Substances and Hazardous Materials transported to each receiver is compliant with receiver requirements.

6.1.3 Hazardous Substances Brought onto the Lands

6.1.3.1 Notwithstanding any Applicable Law or any other provision in the Project Agreement to the contrary, all products and materials, goods or other items which in their natural, original state, or through environmental transformation or degradation contain Hazardous Substances, that are brought onto the Lands by Project Co or any Project Co Party or any person for whom Project Co is at law responsible shall be and remain the sole and exclusive property and responsibility of Project Co and shall not become the property or responsibility of Contracting Authority, notwithstanding their incorporation into or affixation to the Lands, the Project Co Infrastructure or New Third Party Infrastructure and notwithstanding any termination or expiration of the Project Agreement. Any resulting Contamination at the Lands in respect of any Hazardous Substances so brought onto the Lands and the remediation and/or removal thereof and the cost of such remediation and/or removal shall be the sole responsibility of Project Co.

6.1.3.2 Notwithstanding the obligation set out in Section 6.1.3.1, Project Co is prohibited from using any materials identified in Appendix E of this Schedule 17 in carrying out Project Co responsibilities.

6.1.4 Notification Requirements in Respect of Contamination

6.1.4.1 Without limiting the notification obligations of Project Co in Section 16.3 (*Contamination*) of the Project Agreement in respect of the management of Contamination, Project Co shall comply with the following notification requirements:

- (a) Project Co shall immediately notify, within twenty-four hours or less, Contracting Authority of:
 - (i) the discovery of Contamination or Designated Substances and Hazardous Materials in accordance with Section 6.1.5;
 - (I) each Notice shall include at a minimum: (1) the date and time of the discovery by Project Co; (2) a description of the type of Hazardous Substance or Contaminated Material discovered and the medium impacted; and (3) the estimated quantity, proposed method for handling and management, preliminary schedule for handling and management, and schedule impacts to Project Co due to discovery of the Contamination or Designated Substances and Hazardous Materials;
 - (ii) any Discharge or Spill of any Hazardous Substance on, under, at, from or to the Lands, together with full particulars of such Discharge or Spill to the extent known including at minimum, the time and location of the Discharge or Spill, the time Governmental Authorities notified, names of parties notified, a detailed description of estimated damages caused by the Discharge or Spill and remedial action taken by Project Co; and
 - (iii) any notice, claim, action or other proceeding by any person against Project Co or any Project Co Party, or third party relating to the Work concerning any actual or alleged Discharge or Spill of a Hazardous Substance or Designated Substances and Hazardous Materials.

6.1.4.2 In addition to notifying the Contracting Authority Representative in accordance with Section 6.1.4.1, where required by Applicable Law, Project Co shall notify the relevant Governmental Authority of any Discharge or Spill of a Hazardous Substance or Designated Substances and Hazardous Materials on, under, at, from or to the Lands.

6.1.5 Management, Removal and Remediation of Contamination or Designated Substances and Hazardous Materials

6.1.5.1 Upon the discovery of Contamination or Designated Substances and Hazardous Materials that is not addressed in the Designated Substances and Hazardous Materials Management Plan as per Section 6.1.2, or the Soil and Excavated Material Management Plan as per Section 6.2.5 or the Groundwater Management and Dewatering/Unwatering Plan as per Section 6.3.2, and,

- (a) that Project Co is responsible for pursuant to Section 16.3 (*Contamination*) of the Project Agreement;

- (b) that Contracting Authority is responsible for in accordance with Section 16.3 (*Contamination*) of the Project Agreement and, only if instructed to do so by the Contracting Authority Representative in accordance with Section 16.3 (*Contamination*) of the Project Agreement; or
 - (c) that assignment of responsibility in accordance with Section 16.3 (*Contamination*) of the Project Agreement is in dispute or pending and, only if instructed to do so by the Contracting Authority Representative in accordance with Section 16.3 (*Contamination*) of the Project Agreement,
- 6.1.5.2 unless otherwise instructed by Contracting Authority, Project Co shall, within the timeframe specified by Contracting Authority, prepare and submit to the Contracting Authority, in accordance with Section 2.2.3 and Schedule 10 – Review Procedure:
 - (a) a plan for the management of the Contamination (“**Contamination Management Plan**”) in accordance with Section 6.1.5.4; and/or
 - (b) a plan for the management of Designated Substances and Hazardous Materials (“**Designated Substances and Hazardous Materials Discovery Plan**”) in accordance with Section 6.1.5.5; and/or
 - (c) confirm, in writing to the Contracting Authority Representative, that no such remediation or removal of the Contamination or Designated Substances and Hazardous Materials is required by Applicable Law.
- 6.1.5.3 Project Co shall implement the Contamination Management Plan, or the Designated Substances and Hazardous Materials Discovery Plan in accordance with Section 2.2.3 and Schedule 10 – Review Procedure.
- 6.1.5.4 Each Contamination Management Plan shall include:
 - (a) date and time when the Contamination was discovered;
 - (b) description of the Contamination identified including location (municipal address and/or UTM coordinates);
 - (c) description of the circumstances under which the Contamination was discovered, including the preliminary field assessment and observations;
 - (d) description of the handling and management of the Contamination prior to submittal of the Contamination Management Plan;
 - (e) description of the preliminary field investigation including date, time and depth of samples collected, sampling methods, number of samples collected, chemical parameters and media tested;
 - (f) figure depicting sampling locations, sample exceedances, estimated vertical and horizontal extent of the Contamination in relation to the Lands;

- (g) copies of borehole and test pit logs for sample locations, including Soil description and classification;
- (h) copies of laboratory certificates of analysis for the samples collected, including grain size analysis (if applicable);
- (i) sampling and analysis requirements to develop the implementation plan;
- (j) management options for addressing the Contamination and recommended approach, including whether contaminant containment measures are required to avoid re-contamination or contaminant migration;
- (k) implementation plan, including how Contamination will be managed and estimated quantities of Soil and groundwater to be disposed outside the Lands and re-used within the Lands, where applicable;
- (l) schedule;
- (m) costing; and
- (n) rationale for assigning responsibility for the Contamination, as per Section 16.3 (Contamination) of the Project Agreement, including an assessment and comparison of the discovered contamination characteristics with “Project Co Known Contamination”.

6.1.5.5 Each Designated Substances and Hazardous Materials Discovery Plan shall include:

- (a) date and time when the Designated Substances and Hazardous Material was discovered;
- (b) description of the Designated Substances and Hazardous Materials identified including location (municipal address and/or UTM coordinates);
- (c) description of the circumstances under which the Designated Substances and Hazardous Materials was discovered, including the preliminary field assessment and observations;
- (d) description of the handling and management of the Designated Substances and Hazardous Materials prior to submittal of the Designated Substances and Hazardous Materials Discovery Plan;
- (e) description of the preliminary field investigation including date, time and depth of samples collected, sampling methods, number of samples collected, parameters and media tested;

- (f) figure depicting sampling locations, sample exceedances, estimated quantity extent of the Designated Substances and Hazardous Materials in relation to the Lands;
 - (g) copies of laboratory certificates of analysis for the samples collected (if applicable);
 - (h) sampling and analysis requirements to develop the implementation plan;
 - (i) implementation plan, including how Designated Substances and Hazardous Materials will be managed and estimated quantities of Designated Substances and Hazardous Materials requiring management or disposal, where applicable;
 - (j) schedule;
 - (k) costing; and
 - (l) rationale for assigning responsibility for the Designated Substances and Hazardous Materials, as per Section 16.3 (*Contamination*) of the Project Agreement, including an assessment and comparison of the discovered designated substances characteristics with Project Co Known Contamination.
- 6.1.5.6 Parties acknowledge that Project Co’s reasonable costs and expenses associated with the preparation of the Contamination Management Plan or Designated Substances and Hazardous Materials Discovery Plan and characterization, testing, and analysis as set out in Section 6.1.5.4 and Section 6.1.5.5 shall be borne by,
- (a) Project Co, if Project Co is responsible for the Contamination or Designated Substances and Hazardous Materials in accordance with Section 16.3 (*Contamination*) of the Project Agreement; and
 - (b) Contracting Authority, if Contracting Authority is responsible for the Contamination or Designated Substances and Hazardous Materials in accordance with Section 16.3 (*Contamination*) of the Project Agreement.
- 6.1.5.7 Project Co shall be responsible for the characterization, testing, and analysis of Soil and Dewatering/Unwatering effluent that requires off-Site disposal, off-Site re-use or on-Site re-use to the satisfaction of the receiver or disposal site and the satisfaction of the Contracting Authority’s Qualified Person in accordance with applicable regulations.
- 6.1.5.8 Project Co shall be responsible for the characterization, testing and analysis of Designated Substances and Hazardous Materials that requires disposal or management outside of the Works to the satisfaction of the receiver site in accordance with Applicable Law.

- 6.1.5.9 Project Co shall be responsible for MECP Hazardous Waste Information Network (HWIN) generator registration for disposal of regulated Waste, as applicable.
- 6.1.5.10 Project Co shall re-use (rather than remove or replace), as feasible, as much Soil on the Lands as possible in a manner that is consistent with Ontario Regulation 153/04, Ontario Regulation 406/19 and the MECP’s Rules for Soil Management and Excess Soil Quality Standard (2020, and as amended), provided that Project Co complies with its obligations under the Project Agreement.
- (a) Project Co shall evaluate re-use options to consider site-specific excess Soil quality criteria in cases where Soil is geotechnically suitable for re-use as engineered fill, even subject to some reconditioning such as drying or wetting, but Soil quality does not meet the applicable generic excess Soil quality standard.

6.2 Soils

6.2.1 Soils – General

- 6.2.1.1 In the context of media managed in place, Soil or sediment is considered “contaminated” if the quality exceeds the applicable Ministry of the Environment, Conservation and Parks Generic Site Condition Standards at the Site for use under Part XV.1 of the Environmental Protection Act (O. Reg. 153/04) or site-specific standards approved by MECP.
- 6.2.1.2 For Soil extracted during construction and requiring management outside the Project Area, extracted Soil is considered contaminated if the following conditions are met:
- (a) the Soil quality, as assessed and interpreted in alignment with the requirements of O. Reg. 406/19, exceeds the Table 3.1 Excess Soil Quality Standards for Industrial, Commercial and Community Property Use or Table 3.1 Leachate Standard Levels for Industrial, Commercial and Community Property Use (where testing is required). The understanding of quality must take into consideration O. Reg. 406/19 allowances for interpreting data (e.g., statistical compliance assessment);
- (b) the Soil quality exceeds the site-specific standard in an instrument for a receiver site or a document (i.e., fill management plan) referenced by an instrument for a receiver site issued by a municipal, provincial or federal agency; and
- (c) the Soil quality exceeds the site-specific standards developed by a Qualified Person using methods in accordance with O. Reg 406/19 (i.e., Beneficial Reuse Assessment Tool).

- 6.2.1.3 Notwithstanding the coming into force provisions set out in Section 30 of O. Reg. 406/19, Project Co shall comply with O. Reg. 406/19 throughout the Project Term.
- 6.2.2 Environmental Site Assessment
- 6.2.2.1 Contracting Authority shall provide Project Co with all relevant baseline reports, environmental site assessments, certificates of property use, and records of site condition available at the time of issuance of this document and in accordance with the Environmental Reference Documents outlined in Section 2.1.
- (a) Project Co shall be responsible for identifying and complying with all applicable records of site condition and certificate of property use based on property impacts determined by Project Co design, including mitigation, and monitoring requirements in accordance with this Section 6.2, and in accordance with Section 6.3 and Section 6.10.
- (b) Project Co shall be responsible for completing records of site conditions and obtaining or updating certificates of property use.
- 6.2.2.2 Project Co shall review the applicable Environmental Reference Documents in accordance with Section 2.1 to assess the actual or potential impacts to Soil and/or groundwater, to inform the Project design and to inform the development of the requirements for Excess Soil management in accordance with Section 6.2.4 and the Soil and Excavated Material Management Plan in accordance with Section 6.2.5.
- 6.2.2.3 Project Co shall utilize Schedule 45 – Geotechnical Baseline Report and the Geotechnical Baseline Statements therein as the reference document by which the basis of the estimated quantities and categories for Soils and excavated materials are to be defined.
- 6.2.2.4 Prior to handback of Lands to Contracting Authority, Project Co shall be responsible for providing Contracting Authority with an environmental condition summary (each a “**Environmental Condition Summary**”) for each property within the Site which includes:
- (a) a general description of Project Co’s Construction Activities and Project Co’s use of the property throughout the Construction Period; and
- (b) information required by Section 5.2.7.2 (a) through (f) of the Substantial Completion Environmental Report cross referenced to each property.
- 6.2.3 Soil and Excavated Materials Tracking Requirements
- 6.2.3.1 Where Project Co intends to remove Soil or excavated materials outside a Project Area or the Site for either disposal as Waste or use as Soil at a re-use site, Project Co shall ensure that testing and sampling protocols have been followed to establish concentrations for chemical parameters of concern and that Project Co has complied with all Applicable Law.

- 6.2.3.2 Project Co shall provide real-time tracking of each load of Soil and excavated materials shipped from each Project Area within the Site. Project Co shall ensure that real-time Soil shipments are tracked in accordance with Section 5.4.5.
- 6.2.3.3 Project Co shall ensure that all historical and real-time Soil shipping data is available and can be accessed by Contracting Authority through the EMS Software Solution in accordance with Section 5.4.4.
- 6.2.3.4 Project Co shall report to Contracting Authority any shipment of Soil outside a Project Area without the knowledge of Project Co's Qualified Person or the discovery of unsuitable Soils shipped to a receiving site within two (2) Business Days of Project Co's knowledge of the occurrence.
- 6.2.3.5 Contracting Authority is under no obligation to review or approve the information provided with respect to the management of Soil and excavated materials. Any materials removed, disposed or re-used inappropriately shall be at Project Co risk.
- 6.2.4 Excess Soil Management
- 6.2.4.1 Management of Excess Soil for possible re-use at a re-use site or a Soil management site will be conducted in accordance with O. Reg. 153/04 Records of Site Condition – Part XV.1 of the Environmental Protection Act, as amended, and O. Reg. 406/19.
- 6.2.4.2 Without limiting Project Co's obligations to perform the Works at all times in accordance with Applicable Law, Project Co shall:
- (a) perform the respective obligations of the Project Leader and the operator of the project area for the Project under *Ontario Regulation 406/19* made under the *Environmental Protection Act* (Ontario);
 - (b) comply, and cause each Project Co Party to comply, with Applicable Law relating to the management of excavated and excess soil, including without limitation *Ontario Regulation 406/19*;
 - (c) develop and implement plans, procedures, assessments, and systems to ensure the Works are performed in compliance with all requirements of *Ontario Regulation 406/19*, including all such requirements applicable to Project Co in performing the respective obligations of the Project Leader and the operator of the project area; and
 - (d) plan and complete all excess soil management activities required for the performance of the Works in compliance with the Ontario Ministry of Environment, Conservation, and Parks "Management of Excess Soil – A Guide for Best Management Practices – PIBS 9603e" (as may be updated or amended from time to time).
- 6.2.4.3 Project Co shall comply with the requirements of O. Reg. 406/19 and prepare and implement the requirements as outlined in MECP's Rules for Soil Management

and Excess Soil Quality Standards (2020, and as amended) when managing Excess Soil, and shall provide the following when applicable:

- (a) Assessment of past uses report(s) for each Project Area;
- (b) Soil sampling and analysis plan(s) for each Project Area;
- (c) Soil characterization report(s) for each Project Area;
- (d) Excess Soils destination assessment report(s) for each Project Area;
- (e) Implementation of a tracking system, as further described in Section 5.4.5;
- (f) Written opinion of Project Co's Qualified Person stating that Excess Soil is suitable for transport to each re-use site and/or Class 2 Soil management site at which the Excess Soil will be deposited;
- (g) Written consent from the operator of each re-use site and/or Class 2 Soil management site at which the Excess Soil will be deposited, as required per O. Reg. 406/19; and
- (h) Project Co shall file and update notice(s) in the registry per O. Reg. 406/19, as required, for each Project Area and re-use site operated by Project Co within the Site, as applicable.

6.2.4.4 Project Co shall submit all deliverables as described in Section 6.2.4.3 to the Contracting Authority and the Contracting Authority's Qualified Person in accordance with Schedule 10 – Review Procedure.

6.2.5 Soil and Excavated Material Management

6.2.5.1 Project Co shall be responsible for the monitoring and maintenance requirements as identified in a Soil and Excavated Material Management Plan in accordance with Section 6.2.5.3 during the Operational Term.

6.2.5.2 Project Co shall be responsible for the overall integrated Soils and excavated materials management during the Operational Term including compliance with all permitting and approvals requirements and incorporating all data, infrastructure, modeling and items by the Civil Contractors.

6.2.5.3 Project Co shall prepare and implement a Soil and excavated material management plan (a "**Soil and Excavated Material Management Plan**") and shall submit the Soil and Excavated Material Management Plan to the Contracting Authority in accordance with Section 2.2.3 and Schedule 10 – Review Procedure.

- (a) The Soil and Excavated Material Management Plan shall describe how Project Co will address management of all excavated material (i.e. Soil, rock and solid Waste, including Contamination), including loading,

handling, storage, stockpiling, transportation, testing, re-use or disposal and/or ultimate disposition of all excavated material generated as part of the Works.

- (b) The Soil and Excavated Material Management Plan shall comply with the requirements of O. Reg. 153/04 Records of Site Condition – Part XV.1 of the Environmental Protection Act, O. Reg. 406/19, for clarity, all obligations thereunder applicable to Project Co in performing the obligations of the Project Leader, MECP’s “Management of Excess Soil – A Guide for Best Management Practices”, as amended, and Section 3.1.8 (*Urban and Landscape Design*) of the Output Specifications, as well as all Applicable Law.
- (c) The Soil and Excavated Material Management Plan shall include, at a minimum, the following:
 - (i) the general principles that Project Co will apply for managing Soil and excavated materials;
 - (ii) Project Co’s over-arching Soil and excavated materials management strategy in terms of sustainable principles and compliance with regulatory requirements and standard industry practices;
 - (iii) how Excess Soil and excavated material generated by the Works will be managed according to applicable regulations;
 - (iv) Project Co’s definition of each Project Area per O. Reg. 406/19 within the Lands;
 - (v) protocols for characterizing Soil and excavated material quality and determining management, including disposal requirements;
 - (vi) estimated quantities by location in each Project Area and by volume and mass of: total Soil and excavated material resulting from the Works, Soil and excavated material that will be re-used on the Site, and Soil and excavated material to be transported from the Project Area for re-use or disposal; and proposed methods for minimizing these quantities;
 - (vii) procedures for testing and characterizing the Soil and excavated material in compliance with applicable regulations, with consideration given to the regulatory options for confirming compliance with applicable standards (e.g., statistical compliance, averaging two or more samples taken from the same sampling points at the same sampling location and depth);
 - (viii) how Soil and excavated materials will be temporarily staged or stored at each Project Area or other worksites for re-use or

subsequent transfer for re-use or disposal with regard to potential environmental effects and impacts to human health and safety;

- (ix) methods to maximize the re-use of excavated material within each Project Area, including in accordance with Section 6.1.5;
- (x) how areas of known Contamination will be managed and estimated quantities of contaminated material to be re-used on the Lands and re-used or disposed outside of the Lands;
- (xi) how the discovery of Contamination in areas not previously identified will be managed including a general plan of action for the remediation or removal of Contamination as detailed in accordance with Section 6.1.5; and
- (xii) reporting procedures to document how all management activities, including how all Works are completed in accordance with applicable regulations and by or under the supervision of a Qualified Person as required by regulation, and standard industry practices have been implemented.

6.2.5.4 Materials from excavation operations may contain peat, Topsoil and subsoil materials. Project Co shall salvage and stockpile these materials in separate stockpiles in accordance with standard industry practices and in accordance with the requirement of O. Reg. 406/19, as applicable, and in accordance with Section 3.1.8 (*Urban and Landscape Design*) of the Output Specifications. Project Co shall not allow burial of any peat or Topsoil materials. To the extent possible, with the exception of peat materials, Project Co shall re-use geotechnically and environmentally suitable salvaged Topsoil and subsoil materials on the Site.

6.2.6 Soil Importation Plan

6.2.6.1 Project Co shall prepare and implement a Soil importation plan (a “**Soil Importation Plan**”) that describes how Project Co will address management of all Soil imported to each Project Area as part of the Works and shall submit the Soil Importation Plan to the Contracting Authority in accordance with Schedule 10 – Review Procedure.

6.2.6.2 The Soil Importation Plan shall comply with the requirements of O. Reg. 153/04 Record of Site Condition – Part XV.1 of the Act, O. Reg. 406/19, and all Applicable Law, and shall include, at a minimum, the following:

- (a) procedures for determining suitable source sites for importing Soil to the Lands and what quality of Soil is suitable for importation to each Project Area;
- (b) how coordination with the source site Qualified Person will occur, including what documentation will be requested and reviewed by Project Co and provided to Contracting Authority for review; and

- (c) the analytical testing to be completed on Soil imported to the Lands.

6.2.7 Soil and Excavated Materials Implementation Summary

6.2.7.1 Project Co shall prepare and submit a Soil and excavated material management implementation summary containing the following information as part of the Substantial Completion Environmental Report as per Section 5.2.7:

- (a) describe and summarize how all of Project Co's excavated material management activities have been implemented during the Works;
- (b) provide a summary of the total quantities of Soil and excavated material resulting from the Works, Soil and excavated material that was re-used on the Site, and Soil and excavated material that was transported from the Site for re-use or disposal, including details of quantities shipped to each receiver site;
- (c) include an accurate and final inventory at each receiver site of Soil and/or excavated material generated by the Works that cannot be re-used on the Lands. This includes MECP licensed facilities, temporary Soil storage areas, commercial fill operations, beneficial re-use sites, processing and recycling facilities, landfills and any other receiving site. This inventory shall include the following details and shall cover the period of the Works:
 - (i) the municipal address of receiver site;
 - (ii) the name of receiver site owner and operator;
 - (iii) the name of the Qualified Person overseeing receiver site activities;
 - (iv) the Governmental Authority having jurisdiction over the receiver site;
 - (v) the type of Environmental Approval under which the receiver site is operating, if applicable;
 - (vi) the total volume of Soil and/or excavated material shipped to the receiver site;
 - (vii) the description of the source of the Soil and/or excavated material shipped to the receiver site;
 - (viii) a description of the number of samples collected and analyzed and a list of parameters included in the analyses; and
 - (ix) any Waste manifests or shipping documentation associated with Soil or excavated material.

- (d) include evidence and certification by a Qualified Person that the quality of Soil and/or excavated material shipped to each receiver site is compliant with the receiver site license, Environmental Approval, fill management plan, and applicable regulations;
- (e) provide a summary of all sources of imported Soil and Aggregate, including the location of Soil and Aggregate placed from those sources and analytical results confirming the quality of the imported Soil and Aggregate meets that proposed in the Soil and Excavated Material Management Plan; and
- (f) summarize the information provided to Governmental Authorities related to Soil and excavated materials.

6.2.8 Erosion and Sediment Control

- 6.2.8.1 Project Co shall undertake an erosion risk assessment for each location where construction activities are proposed in accordance with the *Erosion and Sediment Control Guide for Urban Construction* (Toronto and Region Conservation Authority, 2019), as amended from time to time, the results of which shall be used to inform the Erosion and Sediment Control Plan.
- 6.2.8.2 Project Co shall prepare and implement erosion and sediment control plans (each an “**Erosion and Sediment Control Plan**”) in compliance with the Erosion and Sediment Control Guide for Urban Construction (TRCA, 2019), or other requirements as stipulated by Governmental Authorities, as amended from time to time. Each Erosion and Sediment Control Plan shall be Site-specific to address local conditions.
- 6.2.8.3 Project Co shall submit the Erosion and Sediment Control Plan to Contracting Authority in accordance with Schedule 10 – Review Procedure and Section 2.2.3. Each Erosion and Sediment Control Plan shall, at a minimum, describe and include the following:
 - (a) a description of land use, topography, drainage, and watercourses;
 - (b) a description of Soils on the site, including erodibility and grain size analysis;
 - (c) a description of the erosion and sediment control measures to be used on the site to manage erosion and the release of sediment to the site and to adjacent sites;
 - (d) a description of how erosion and sediment control measures will be monitored and maintained during the performance of the Works;
 - (e) a description of how the Lands will be stabilized after construction is complete; and

- (f) erosion and sediment control drawings sealed and signed by an accredited Professional Engineer in Ontario.
- 6.2.8.4 Project Co shall conduct inspections of all protections used to control erosion and sediment on a weekly basis, after significant rainfall and snowmelt events (an event during which at least 15 mm has been received within 24 hours or an event with an intensity of at least 5 mm/hour during which at least 10 mm has been received), and daily during extended rain or snowmelt periods, and identify, correct and document any repairs to protections as required.
- 6.2.8.5 Project Co shall implement erosion and sediment control measures prior to commencement of the Construction Activities at any Site location.
- 6.2.8.6 When restoring and stabilizing disturbed soils, Project Co shall ensure seed mixes are appropriate to the local soil conditions and shall follow the Toronto and Region Conservation Authority *Seed Mix Guidelines* (July 2004), as amended from time to time.
- 6.2.8.7 Project Co shall maintain the sediment and erosion control measures until effective stabilization has been achieved with a minimum ground cover of [REDACTED]%.
- 6.2.8.8 Project Co shall prepare and submit to the Contracting Authority a monthly summary as part of the Monthly Environmental Report as set out in Section 5.2.2, describing the results of inspections and corrective actions for the reporting period in accordance with the Erosion and Sediment Control Guide for Urban Construction (TRCA, 2019), as amended from time to time.

6.3 Groundwater and Stormwater

- 6.3.1 Protection/Decommissioning of Existing Monitoring Wells
 - 6.3.1.1 Contracting Authority shall provide Project Co with a summary of monitoring well locations as presented in each geotechnical data report as well as the Environmental Monitoring Well Summary List listed in Appendix B of this Schedule 17, in accordance with Section 2.1 and as amended or replaced from time to time during the Project Term.
 - 6.3.1.2 Project Co shall be responsible for the monitoring and maintenance requirements associated with permanent monitoring wells during the Operational Term.
 - 6.3.1.3 Monitoring wells and piezometers shall be decommissioned by a licenced well driller in accordance with Ontario Regulation 903 under the Ontario Water Resources Act (Ontario), and as per the timeline described in Section 3.1.10.4 (*Geotechnical Instrumentation and Protection of Existing Adjacent Structures*) of the Output Specifications. Project Co shall be responsible for temporary protection and decommissioning of all monitoring wells and piezometers, include with respect to the following:

- (a) any and all monitoring wells installed as part of geotechnical, environmental, or hydrogeological investigations in connection with the Project;
 - (b) all wells installed as part of the studies undertaken by Contracting Authority and that were provided as part of the Background Information; and
 - (c) all instruments associated with monitoring wells as specified in Section 3.1.10.4 (*Geotechnical Instrumentation and Protection of Existing Adjacent Structures*) of the Output Specifications.
- 6.3.1.4 Project Co shall complete monitoring well decommissioning at any additional locations identified and as directed by Contracting Authority from time to time prior to Commercial Close.
- 6.3.1.5 Project Co shall, prior to undertaking any Construction Activities, decommission any supplementary wells installed by Project Co as part of its own investigation and monitoring work as necessary to complete the Works.
- 6.3.1.6 Project Co shall, prior to the start of any Construction Activities, submit to Contracting Authority a well decommissioning and protection plan (a “**Well Decommissioning and Protection Plan**”) in accordance with Schedule 10 – Review Procedure. Each Well Decommissioning and Protection Plan shall outline the protection methods for wells that would be impacted by Construction Activities and demonstrate that decommissioning or protection methods proposed.
 - (a) Each Well Decommissioning and Protection Plan shall be Site-specific to address local conditions.
- 6.3.1.7 Project Co shall prepare and submit a well decommissioning summary containing the following information as part of the Substantial Completion Environmental Report as per Section 5.2.7:
 - (a) describe and summarize how all of Project Co’s well decommissioning activities have been implemented during the Works;
 - (b) provide a summary of the total number of wells decommissioned, UTM coordinate of each well decommissioned, a map of depicting the location of each well decommissioned and a description of the methodology used to decommission each well; and
 - (c) provide copies of MECP well decommissioning records completed by the licensed well driller.
- 6.3.2 Groundwater Management, Dewatering/Unwatering, Construction Process Water Effluent – General

- 6.3.2.1 Project Co shall be responsible for the monitoring and maintenance requirements associated with permanent Dewatering/Unwatering during the Operational Term in accordance with Schedule 34 – Permits, Licences, Approvals and Agreements.
- (a) Project Co shall obtain the applicable Environmental Approval for discharge to the natural environment during the Operational Term, if applicable.
- 6.3.2.2 Project Co shall comply with all applicable records of site condition and certificates of property use based on property impacts determined by Project Co design in accordance with Section 6.2.2.1.
- 6.3.2.3 In the context of media managed in place, groundwater and Dewatering/Unwatering effluent is considered “contaminated” if the quality exceeds the applicable Ministry of the Environment, Conservation and Parks Generic Site Condition Standards at the Site for use under Part XV.1 of the Environmental Protection Act (O. Reg. 153/04) or site-specific standards approved by MECP.
- 6.3.2.4 For groundwater and Dewatering/Unwatering effluent extracted during construction, extracted groundwater and Dewatering/Unwatering effluent is considered “contaminated” if the quality exceeds applicable sewer or stormwater bylaw criteria or other applicable water quality criteria for discharge as applicable to the destination of the groundwater discharge.
- 6.3.2.5 If Project Co intends to discharge Dewatering/Unwatering effluent or construction process water effluent, Project Co shall give Notice to Contracting Authority in advance of commencing discharge. The Notice shall include:
- (a) a description of the Dewatering/Unwatering effluent or construction water effluent;
- (b) the name and location of the intended receiver;
- (c) the type of Environmental Approval under which the receiver operates; and
- (d) a copy of the opinion of the Hydrogeologist or Qualified Person that the quality of the Dewatering/Unwatering effluent or construction process water effluent to be discharged to each receiver is compliant with the Environmental Approval under which the receiver operates and is not expected to result in Worsened conditions
- 6.3.3 Groundwater Management, Dewatering/Unwatering and Construction Process Water Effluent Tracking Requirements
- 6.3.3.1 Project Co shall provide real-time water taking rates, daily volume of water taken, Dewatering/Unwatering effluent rates, construction process water effluent rates, daily volume of Dewatering/Unwatering effluent and daily volume of

construction process water effluent for the duration of the Works. Project Co shall ensure that real-time monitoring is tracked in accordance with Section 5.4.6.

- 6.3.3.2 Project Co shall ensure that all historical and real-time Dewatering/Unwatering water taking rates, daily volume of water taken, Dewatering/Unwatering effluent rates, construction process water effluent rates, daily volume of Dewatering/Unwatering effluent discharge and daily volume of construction process water effluent discharge are available and can be accessed by Contracting Authority through the EMS Software Solution.
- 6.3.4 Groundwater Management, Dewatering/Unwatering and Construction Process Water Effluent Plan
- 6.3.4.1 Project Co shall review the applicable Environmental Reference Documents in accordance with Section 2.1 to assess the actual or potential impacts to surface or groundwater, to inform the Project design and to inform the development of the requirements of the Groundwater Management and Dewatering/Unwatering Plan in accordance with Section 6.3.4.3 and Section 3.1.10.2(i) (*Groundwater Control*) of the Output Specifications.
- 6.3.4.2 Project Co shall utilize Schedule 45 – Geotechnical Baseline Report and the Geotechnical Baseline Statements therein as the reference document by which the basis of the estimated quantities and categories of contaminated water are to be defined.
- 6.3.4.3 Project Co shall prepare and implement a Dewatering/Unwatering management plan (a “**Groundwater Management and Dewatering/Unwatering Plan**”) and shall submit the Groundwater Management and Dewatering/Unwatering Plan to the Contracting Authority Representative in accordance with Schedule 10 – Review Procedure.
- 6.3.4.4 The Groundwater Management and Dewatering/Unwatering Plan shall describe how Project Co will address the management of excess water, groundwater, construction process water and Unwatering effluent generated by the Project during the performance of the Works. The Groundwater Management and Dewatering/Unwatering Plan shall include any dewatering requirements detailed in the Output Specifications and shall include, at a minimum, the following:
- (a) the general principles that Project Co will apply for managing groundwater and dewatering activities and construction process water generating activities;
 - (b) Project Co’s over-arching groundwater, Dewatering/Unwatering and construction process water management in terms of sustainable principles and compliance with regulatory requirements and best practices;
 - (c) locations of anticipated groundwater management, Dewatering/Unwatering and construction process water generating

- activities and estimated timeframes of management activities at each location;
- (d) estimated quantities of Dewatering/Unwatering effluent and construction process water effluent to be managed during the Works and proposed methods for minimizing these quantities;
 - (e) the proposed Environmental Approval, in accordance with Schedule 34 – Permits, Licences, Approvals and Agreements, for the water taking at each Dewatering/Unwatering location and as required for the water discharge location;
 - (f) protocols for characterizing groundwater, Dewatering/Unwatering effluent and construction process water effluent quality and determining management, including disposal requirements in accordance with this Section 6.3.3;
 - (g) how groundwater, Dewatering/Unwatering effluent and construction process water effluent will be treated and disposed of with regard to potential environmental effects and impacts to human health and safety;
 - (h) procedures for water testing, containment, classification, treatment, and disposal/discharge of groundwater, Dewatering/Unwatering effluent and construction process water effluent;
 - (i) how Project Co will ensure that no impacts will result to adjacent trees, vegetation and ecosystems that may be dependent upon existing, near-surface groundwater conditions;
 - (j) how Project Co will conduct its groundwater and construction process water management activities in compliance with Applicable Law, and MECP, municipal and TRCA approvals as outlined in Schedule 34 – Permits, Licences, Approvals and Agreements;
 - (k) Project Co will conduct its Dewatering/Unwatering and/or stormwater management activities in compliance with industry best practices and in consideration of flood management recommendations and TRCA policies;
 - (l) a monitoring program to establish baseline conditions and monitor for potential effects of dewatering on the environment, migration of Contamination and on the structural integrity of adjacent structures;
 - (m) contingency plans to mitigate impacts due to dewatering and/or unexpected water or stormwater discharge volumes; and
 - (n) reporting procedures to document how all management activities, best practices and mitigation measures have been implemented.

- 6.3.5 Groundwater Management, Dewatering/Unwatering and Construction Process Water Effluent Implementation Summary
- 6.3.5.1 Project Co shall prepare and submit a groundwater management and Dewatering/Unwatering implementation summary containing the following information as part of the Substantial Completion Environmental Report as per Section 5.2.7:
- (a) describe and summarize how all of Project Co’s groundwater management, Dewatering/Unwatering activities and construction process water generating activities have been implemented during the construction phase of the Works;
 - (b) provide a summary of the total quantities of groundwater, Dewatering/Unwatering effluent and construction process water effluent managed from the Works during construction, including a detailing of quantities transported to each receiver site and a description of the volumes of water taken from each location and under each PTTW, EASR, City of Toronto permit or other Environmental Approval as identified in Schedule 34 – Permits, Licences, Approvals and Agreements;
 - (c) include an accurate and final inventory at each receiver of Dewatering/Unwatering effluent and construction process water effluent generated by the Works during construction. This includes MECP licensed facilities, storm and sanitary sewer connections and any other receiving site. This inventory shall include the following details and shall cover the period of the Works:
 - (i) the municipal address of receiver;
 - (ii) the name of receiver site owner and operator;
 - (iii) the Governmental Authority having jurisdiction over the receiver;
 - (iv) the type of Environmental Approval under which the receiver is operating;
 - (v) the total volume of groundwater, Dewatering/Unwatering effluent or construction process water effluent discharged to each receiver;
 - (vi) the description of the source of the groundwater or Dewatering/Unwatering effluent or construction process water effluent discharged to each receiver;
 - (vii) a description of the number of samples collected and analyzed and a list of parameters included in the analyses; and

(viii) an electronic copy of the certificate(s) of analysis for the samples collected and analysed; and

(d) evidence and certification by the Hydrogeologist or Qualified Person that the quality of Dewatering/Unwatering effluent and construction process water effluent discharged to each receiver is compliant with the Environmental Approval under which the receiver operates and is not expected to result in Worsened conditions.

6.3.6 Flood Hazard Analysis

6.3.6.1 As part of detailed design process and in accordance with the Output Specifications, Project Co shall wherever infrastructure is proposed to be located within the Regional Storm floodplain:

- (a) complete flood hazard modelling analysis to demonstrate that there is no net increase in risk to human life or property as a result of proposed Works;
- (b) confirm the flood hazard model to be used with TRCA and Waterfront Toronto; and
- (c) provide to Contracting Authority the analysis and floodline mapping, prepared for the watercourse to an appropriate distance for any changes in the proposed condition, detailing the impacts of the proposed Works in accordance with Schedule 10 – Review Procedure.

6.4 Noise and Vibration – Construction

6.4.1 Construction Noise and Vibration – General

6.4.1.1 Project Co shall carry out the Works in compliance with the noise and vibration obligations set out in this Section 6.4 and shall,

- (a) implement measures to minimize and mitigate ground-borne and air-borne noise and vibration generated as a result of the Works;
- (b) comply with,
 - (i) the construction noise limits set out in Section 6.4.2.1 when Project Co proposes to complete Construction Activities that deviate from the City of Toronto bylaws time-of-day construction periods (day, nights), in which case Project Co shall notify Contracting Authority prior to performing the Works outside of these time periods;
 - (ii) the environmental obligations as set out in Appendix A-1 and A-3 of this Schedule 17 in accordance with Section 2.1.1.2;

- (iii) the Environmental Reference Documents listed in Appendix B of this Schedule 17; and
 - (iv) standard industry practice for minimizing ground-borne and air-borne noise and vibration in respect of all performance of the Works;
 - (c) design and construct equipment in accordance with this Section 6.4.1.1; and
 - (d) use construction equipment and perform Construction Activities in a manner that minimizes ground-borne and air-borne noise and vibration,
- (collectively, the “**Applicable Construction Noise and Vibration Requirements**”).
- 6.4.1.2 If Project Co performs overnight Construction Activities, Project Co shall,
- (a) provide Notice to Contracting Authority in accordance with Schedule 18 – Communication and Public Engagement Protocol; and
 - (b) provide public notification in accordance with Schedule 18 – Communications and Public Engagement Protocol.
- 6.4.1.3 Project Co shall ensure that all mobile equipment and vehicles on the Site that have backup alarms are equipped with broadband backup ambient-sensitive alarms only.
- 6.4.1.4 In carrying out the Works, Project Co shall comply with construction noise and vibration reference applicable to the Project and listed in Appendix B – Environmental Reference Documents, in accordance with Section 2.1 and as amended or replaced from time to time during the Project Term.
- 6.4.2 Construction Noise and Vibration Performance Limits
- 6.4.2.1 Project Co shall comply with,
- (a) the airborne construction noise exposure limits set out in Table 6.4.2-1, unless otherwise indicated in Table 6.4.2-2 and Table 6.4.2-3;
 - (i) Project Co shall provide Notice to Contracting Authority of the start date for the listed Construction Activity at each location identified in Table 6.4.2-2 at least twenty (20) Business Days in advanced of the start date of Construction Activities.
 - (ii) The maximum airborne noise exposure limit in Table 6.4.2-3 shall apply to the duration timeline of the Construction Activities identified in Table 6.4.2-2. The duration shall start on the date provided in the Notice to Contracting Authority as per Section 6.4.2.1(a)(i).

- (b) the maximum noise levels for construction equipment as set out in MECP NPC-115 and MECP NPC-118;
- (c) construction noise shall comply with MOL Noise Regulation O. Reg. 381/15 and workers exposed to construction noise at or above 85 dBA shall wear hearing protection;
- (d) the construction vibration limits set out in Table 6.4.2-4 for buildings and structures adjacent to any construction activity, including but not limited to those buildings and structures identified in the Heritage Detailed Design Report in accordance with Section 6.6.2;
- (e) the construction vibration limits set out in OPSS 120 for underground utilities, pipelines and structures;
- (f) unless otherwise indicated, measurements for compliance with construction noise exposure limits, maximum noise levels for construction equipment and ground-borne construction noise exposure limits shall be measured as described in MECP Publication NPC-103;
- (g) unless otherwise indicated, measurements for compliance with construction vibration limits shall be measured as described in ISO 8041-1 and ISO 5348; and
- (h) unless otherwise indicated, the more stringent noise or vibration criteria, limit or requirement shall be used as the performance limit,

(collectively, the “**Construction Noise and Vibration Performance Limits**”).

[REDACTED]

6.4.3 Construction Noise and Vibration Management Plans

- 6.4.3.1 Project Co shall develop and submit a construction noise and vibration management plan (“**Construction Noise and Vibration Management Plan**”) to the Contracting Authority Representative in accordance with Schedule 10 – Review Procedure.
- 6.4.3.2 In accordance with Section 2.2.3, Project Co shall not commence any activity with the potential to exceed the Applicable Construction Noise and Vibration Requirements prior to receiving notification from Contracting Authority on a Construction Noise and Vibration Management Plan.
- 6.4.3.3 The Construction Noise and Vibration Management Plan shall include Site-specific sections to address local conditions and, at a minimum, include a schedule of proposed activities and efforts as well as required methodologies, deliverables and inputs required to comply with Applicable Construction Noise and Vibration Requirements throughout the Construction Period and shall:
- (a) identify mitigation measures to be applied when and where calculated ground-borne or air-borne noise or vibration levels exceed the Construction Noise and Vibration Performance Limits or any other limit under the Applicable Construction Noise and Vibration Requirements, provided that the inclusion or absence of a mitigation measure from this Construction Noise and Vibration Management Plan shall not limit Project Co’s obligation to mitigate any amount of noise and vibration required under the Project Agreement;
 - (b) provide Project Co’s procedures for conducting compliance verification measurements, measurement processes, measurement equipment and analysis methods to confirm that the Works are being carried out in compliance with Applicable Construction Noise and Vibration Requirements;
 - (c) provide Project Co’s procedures for conducting compliance verification measurements to confirm that Construction Noise and Vibration Sensitive Receptors are not exposed to noise and/or vibration that exceed the limits set out in this Section 6.4.2, including an outline of the measurement processes, measurement equipment, and analysis methods that will be implemented; and
 - (d) provided Project Co’s procedures for identification of warning and alert levels to identify an increase in noise and vibration that results in approaching the Construction Noise and Vibration Performance Limits;
 - (e) provide Project Co’s procedure for the stop work process if the Construction Noise and Vibration Performance Limits are exceeded including identification and implementation of mitigation measures; and

- (f) specify how Project Co intends to consult with Construction Noise and Vibration Sensitive Receptors and any nearby residents.

6.4.3.4 The Construction Noise and Vibration Management Plan shall also include:

- (a) an approach for identifying and assessing potential Representative Construction Noise and Vibration Sensitive Receptors in accordance with Section 6.4.4;
- (b) define the construction, staging and laydown areas for each Site in accordance with Schedule 35 – Lands;
- (c) an approach for assessing ground-borne and air-borne noise and vibration for Representative Construction Noise and Vibration Sensitive Receptors and possible mitigation measures in accordance with Section 6.4.5; and
- (d) an approach for construction noise and vibration monitoring in accordance with Section 6.4.6.

6.4.3.5 The Construction Noise and Vibration Management Plan shall be prepared and signed by an accredited Professional Engineer with a minimum of 10 years of experience in assessing and controlling construction related noise and vibration.

6.4.4 Noise and Vibration Sensitive Receptors – Construction Activities

6.4.4.1 Prior to commencement of Construction Activities, Project Co shall conduct and complete a survey of the Lands and the vicinity of the Works, including a Zone of Influence for potential ground-borne or air-borne noise or vibration impacts from the planned Works, to identify Construction Noise and Vibration Sensitive Receptors, including Vibration Sensitive Structures, and to identify Representative Construction Noise and Vibration Sensitive Receptors, as deemed appropriate and sufficient by Contracting Authority, in its sole discretion. The survey shall:

- (a) include the identification of specific sensitive equipment, structures, facilities or procedures;
- (b) be conducted in consultation with the potential Construction Noise and Vibration Sensitive Receptors and in accordance with any public consultation requirements set out in Schedule 18 – Communications and Public Engagement Protocol;
- (c) shall include those receptors identified in accordance with Sections 6.6 and 6.7; and
- (d) select Representative Construction Noise and Vibration Sensitive Receptors such that they are:

- (i) exposed to the worst-case effects of ground borne vibration, and air and ground borne noise compared to all the nearby Construction Noise and Vibration Sensitive Receptors that the Representative Construction Noise and Vibration Sensitive Receptor is intended to represent; and
 - (ii) distributed across areas with differing characteristics affecting noise and vibration levels from the Works. The characteristics shall include:
 - (I) differences in setback from the designed track alignment;
 - (II) differences in grade elevation between the designed track alignment and Representative Construction Noise and Vibration Sensitive Receptor;
 - (III) differences in shielding from the Works (for example, buildings and barriers);
 - (IV) differences in sensitivity to vibration (for example, theatres and high sensitivity medical imaging);
 - (V) have soil and structural characteristics, geometry and propagation characteristics from the Project similar to the other Construction Noise and Vibration Sensitive Receptors that the Representative Construction Noise and Vibration Sensitive Receptor is intended to represent; and
 - (VI) Project Co shall include the results of the Construction Noise and Vibration Sensitive Receptor survey as part of the Construction Noise and Vibration Management Plan as set out in Section 6.4.3.
- 6.4.4.2 If two or more adjacent structures could potentially be subject to differences in impact from the worst-case effects of noise or vibration, then Project Co shall select all such adjacent structures to be included as Representative Construction Noise and Vibration Sensitive Receptors.
- 6.4.4.3 Project Co shall prepare, and keep up to date, a list of Representative Construction Noise and Vibration Sensitive Receptors for the Work and shall submit the list along with any updates, as part of the Construction Noise and Vibration Management Plan as set out in Section 6.4.3 and Schedule 10 – Review Procedure.
- 6.4.4.4 Project Co shall submit all existing conditions noise and vibration measurement data in respect of Representative Construction Noise and Vibration Sensitive Receptors to the Contracting Authority as a component of the Construction Noise

and Vibration Management Plan as set out in Section 6.4.3 and Schedule 10 – Review Procedure.

- 6.4.4.5 Project Co shall perform and record existing conditions baseline noise and vibration measurements prior to the commencement of Construction Activities, at or within each Representative Construction Noise and Vibration Sensitive Receptor, consisting of:
- (a) three (3) days of continuous noise monitoring at each Representative Construction Noise and Vibration Sensitive Receptor, provided that for any outdoor locations the weather conditions are suitable for measurement as per MECP Publication NPC-103;
 - (b) three (3) days of continuous vibration monitoring at each Representative Construction Noise and Vibration Sensitive Receptor as per ISO 8041-1 and ISO 5348; and
 - (c) noise and vibration monitoring shall be conducted at the building façade of each Representative Construction Noise and Vibration Sensitive Receptor where permission has been obtained from the building owner. Where permission has not been obtained, then a location on public property as close to the Representative Construction Noise and Vibration Sensitive Receptor in direct impact of the construction noise or vibration source shall be used.
- 6.4.4.6 For the purposes of establishing the baseline noise levels for the purposes of Table 6.4.2-1, Project Co shall calculate baseline values for each Representative Construction Noise and Vibration Sensitive Receptor using the following averages from the continuous monitoring data obtained by the measurements taken in accordance with Section 6.4.4.5:
- (a) 16-hour weekday and weekend averages from 7:00 to 23:00 to be used for the day-time baseline in Table 6.4.2-1; and
 - (b) 8-hour weekday and weekend averages from 23:00 to 7:00 to be used for the nighttime baseline in Table 6.4.2-1.
- 6.4.4.7 If Project Co and a property owner or receiver do not agree on whether to designate a particular location or property as a Construction Noise and Vibration Sensitive Receptor, Contracting Authority shall make a final determination, in its sole discretion, based on,
- (a) a review of the baseline noise and vibration measurement data for the particular property or location; and
 - (b) any evidence of susceptibility of the location or property to noise or vibration levels at or lower than the Applicable Construction Noise and Vibration Requirements.

- 6.4.4.8 Project Co shall develop additional construction noise and vibration performance requirements for any Construction Noise and Vibration Sensitive Receptors not covered by the construction noise and vibration reference applicable to the Project and listed in Appendix B – Environmental Reference Documents through,
- (a) an assessment and evaluation of the baseline measurements;
 - (b) consultation with the Construction Noise and Vibration Sensitive Receptor groups, in accordance with Schedule 18 – Communications and Public Engagement Protocol; and
 - (c) a review of the noise and vibration requirements for any sensitive equipment or operation that may be impacted by the Works, (the **“Additional Construction Noise and Vibration Sensitive Receptor Performance Requirements”**).
- 6.4.4.9 Project Co shall submit all Additional Construction Noise and Vibration Sensitive Receptor Performance Requirements, including any associated measurement data, as a component of the Construction Noise and Vibration Management Plan as per Section 6.4.3 and Schedule 10 – Review Procedure.

6.4.5 Noise and Vibration Assessment During the Construction Activities

6.4.5.1 Prediction and Assessment of Construction Noise and Vibration

- (a) Project Co shall, during the Construction Period, undertake ground-borne and air-borne noise and vibration assessments for Representative Construction Noise and Vibration Sensitive Receptors and the possible mitigation measures identified in the Construction Noise and Vibration Management Plan in compliance with “Construction Noise Assessment” and “Construction Vibration Assessment” methods as such terms are defined and described in the FTA Manual (as defined in Appendix B hereto).
 - (b) Project Co may apply alternative and equivalent methods of construction assessment to the methods set out in Section 6.4.5.1(a) if such alternatives are deemed appropriate by Contracting Authority, in its sole discretion.
- 6.4.5.2 Prior to the commencement of any Construction Activity that is at any receptor referenced in Section 6.4.4.1(d), and that is,
- (a) expected to exceed the noise exposure limits in Table 6.4.2-1;
 - (b) expected to exceed a construction vibration Zone of Influence threshold for a Vibration Sensitive Structure as per Table 6.4.2-4; or
 - (c) expected to last more than seven (7) days and reasonably expected to produce air-borne or ground-borne noise exceeding the ambient Leq1h

due to road traffic (as measured by Project Co in accordance with MECP procedures),

Project Co shall conduct and submit to Contracting Authority an assessment at all Representative Construction Noise and Vibration Sensitive Receptors likely to be impacted by such Construction Activity. The assessment shall include estimated ground-borne and air-borne noise and vibration, the expected duration and the mitigation measures that Project Co will apply to demonstrably minimize any impacts of noise and vibration and to meet the Applicable Construction Noise and Vibration Requirements and shall be included as a component of the Construction Noise and Vibration Management Plan in accordance with Section 6.4.3, Section 2.2.3 and Schedule 10 – Review Procedure.

- 6.4.5.3 Prior to the use of any construction equipment on a Site, Project Co shall conduct an assessment (using either the manufacturer’s noise data or by measurement) to confirm that such equipment can and will be used in compliance with the Applicable Construction Noise and Vibration Requirements. The results of the construction equipment assessment will be documented in a technical memo and included as a component of the Construction Noise and Vibration Management Plan in accordance with Section 6.4.3 and Schedule 10 – Review Procedure.

6.4.6 Noise and Vibration Monitoring During the Construction Activities

- 6.4.6.1 Project Co shall continuously monitor noise in accordance with the requirements of Section 6.4.5.1 of any Construction Activity that,

- (a) is localized and where receptors are exposed to the Project’s noise for more than thirty (30) days within a 6-week period;
- (b) uses processes or equipment for over 10 minutes during the daytime with a noise emission level exceeding 85 dBA; or
- (c) uses processes or equipment for over 10 minutes during the nighttime with a noise emission level exceeding 75 dBA;

- 6.4.6.2 If Project Co is required to undertake continuous noise monitoring in accordance with Section 6.4.6.1, Project Co shall ensure that such continuous noise monitoring is carried out in accordance with the following requirements:

- (a) the location of the monitor shall be adjusted in response to changes in Construction Activity to capture the highest noise exposure level;
- (b) the microphone of the monitor shall be placed between 1.5 metres and 4.5 metres above the ground level to represent the expected exposure height at the nearest sensitive receptor;
- (c) continuous noise monitoring shall employ Type 1 or Class 1 integrating sound level meters meeting IEC Standard 61672-1:2013;

- (d) each sound level meter shall be calibrated no later than one week prior to its initial use and no less frequently than once per month thereafter;
- (e) the frequency weighting of the sound level meter shall be set to “A” and the speed of response shall be set to “fast”;
- (f) each noise monitor shall have data logging capability with recorded data;
- (g) output data shall contain for each day:
 - (i) the maximum level recorded;
 - (ii) each 10-minute average; and
 - (iii) each 16-hour daytime average (7:00 to 23:00) and each 8-hour average (23:00 to 7:00).

Project Co shall ensure that real-time monitoring data can be accessed by Contracting Authority through the EMS Software Solution in accordance with Section 5.4.6.

- 6.4.6.3 Project Co shall undertake vibration monitoring in accordance with the Construction Noise and Vibration Management Plan for structures that are within the Zone of Influence of construction related vibration and expected to experience vibration peak particle velocities in exceedance of 5 mm/s. The Zone of Influence for vibration shall be established in accordance with the methodology described in the FTA Manual (as defined in Appendix B hereto).
- 6.4.6.4 Project Co shall undertake vibration monitoring in accordance with the Construction Noise and Vibration Management Plan for any heritage attributes identified for built heritage resource or cultural heritage landscapes (as identified in the Heritage Detailed Design Report as per Section 6.6.2), art structures or other vibration-sensitive structure from any Construction Activity within the construction, staging or laydown site where construction related vibration may result in vibration peak particle velocities in exceedance of the criteria set out in Table 6.4.2-4.
- 6.4.6.5 Project Co shall prepare and submit to the Contracting Authority a weekly report describing the monitoring conducted and summarizing the data collected for the reporting period (each a “**Weekly Construction Noise and Vibration Monitoring Report**”) in accordance with Schedule 10 – Review Procedure. The Weekly Construction Noise and Vibration Monitoring Report shall contain, at a minimum, the following:
 - (a) cover page with project name, monitoring report type (noise or vibration), date of monitoring;
 - (b) document information and revision history, including author, quality and independent reviewer names and signatures;

- (c) executive summary, indicating any noise or vibration exceedances including exceedance level, date and time of exceedance, and Project Co actions to investigate and mitigate the exceedance;
- (d) introduction, identifying the purpose of the monitoring report;
- (e) criteria, identifying the noise or vibration criteria used for the monitoring, including both a warning (before action is taken by Project Co) and alert (action is taken by Project Co) criteria;
- (f) data in both tabular and graphical format, identifying hourly noise and vibration levels that were monitored and those monitoring levels that exceed criteria;
- (g) technical issues encountered during the monitoring, including equipment issues, power failures, damage/theft, or other issues that affect the monitoring or data analysis;
- (h) further investigation, including Project Co commitments to review and investigate noise and vibration exceedances, and what mitigation measures are to be implemented to ensure exceedances do not continue to occur;
- (i) site summaries, showing the location of the monitoring equipment, including photograph, with UTM coordinates and address location on a map; and
- (j) include a summary of any complaints received and actions taken to address said complaint as set out in Section 6.4.7.

6.4.6.6 Project Co shall develop and implement mitigation measures to address any non-conformance identified through the monitoring conducted in accordance with Section 6.4.6.1 in consultation with any affected Construction Noise and Vibration Sensitive Receptor and Contracting Authority. The mitigation measures proposed shall be included in the Weekly Construction Noise and Vibration Monitoring Report in accordance with Section 6.4.6.5.

6.4.7 Complaints During Construction Activities

6.4.7.1 Prior to the commencement of the Works, Project Co shall develop, as a component of its Complaints Protocol detailed in Schedule 18 – Communications and Public Engagement Protocol, a process for managing and responding to noise and vibration concerns during the Construction Period. This component of the Complaints Protocol shall be developed in consultation with Construction Noise and Vibration Sensitive Receptors, if applicable, and other concerned Stakeholders identified by Project Co.

6.4.7.2 Project Co shall address and respond to each complaint regarding noise or vibration received during the Construction Activities in accordance with the Complaint Protocol developed in accordance with Schedule 18 –

Communications and Public Engagement Protocol. Upon receipt of a request by Contracting Authority to investigate a complaint regarding noise or vibration, Project Co shall conduct additional ground-borne and air-borne noise and vibration measurements, as required by Contracting Authority, to determine:

- (a) the source of the ground-borne and air-borne noise and vibration that is the subject of the complaint;
- (b) if the ground-borne or air-borne noise or vibration exceeds any of the limits required by the Applicable Construction Noise and Vibration Requirements; and
- (c) if mitigation measures or additional monitoring are required to confirm compliance with the Applicable Construction Noise and Vibration Requirements.

6.4.7.3 If mitigation measures or additional monitoring are required pursuant to Section 6.4.7.2(c), then Project Co shall completely define the required mitigation measures and additional monitoring, as applicable, within two (2) Business Days of the completion of additional field measurements conducted in accordance with the request by Contracting Authority to investigate, or within a longer time frame agreed to by the Contracting Authority. Project Co shall implement the mitigation measures and additional monitoring, as applicable, in full within a timeframe agreed upon by the Parties and shall rectify any non-conformance with Applicable Construction Noise and Vibration Requirements.

6.4.7.4 Project Co shall be responsible for all costs and expenses related to any noise and vibration measurements, investigations and mitigation and monitoring measures required in accordance with Section 6.4.7.2(a) in response to the first 30 separate requests by Contracting Authority to investigate a complaint during each year.

6.4.7.5 The costs of any additional site-specific noise and vibration measurements required in any year above the number set out in Section 6.4.7.4 shall be borne by:

- (a) Project Co if the results indicate that Project Co activities were not in compliance with Applicable Construction Noise and Vibration Requirements; or
- (b) Contracting Authority, subject to and in accordance with Schedule 22 – Variation Procedure, if the results indicate that Project Co activities were in compliance with Applicable Construction Noise and Vibration Requirements.

6.4.7.6 If Contracting Authority receives complaints from the public with respect to Construction Activities that are not in compliance with Applicable Construction Noise and Vibration Requirements, then Contracting Authority may, acting reasonably, require Project Co to cancel or discontinue such Construction

Activities, and Project Co shall cancel or discontinue such Construction Activities as instructed by Contracting Authority.

- (a) Project Co may re-start Construction Activities upon demonstration of compliance with this Section 6.4.7.
- (b) Project Co shall not be entitled to a Variation, Delay Event, Compensation Event, Relief Event or Excusing Cause, or any other form of relief, delay or compensation whatsoever arising from any such instruction by Contracting Authority to discontinue Construction Activities.

6.5 Noise and Vibration – Operations

6.5.1 Operations Noise and Vibration – General

- 6.5.1.1 Project Co shall implement the operational noise and vibration requirements during testing, commissioning, operations and maintenance phase for the Project Operations.
- 6.5.1.2 Project Co shall design and construct the Project Co Infrastructure so that the overall noise and vibration can be achieved during the Project Co Services.
- 6.5.1.3 Notwithstanding the obligations as set out in Section 6.5.2, Project Co shall be responsible for the overall integrated noise and vibration requirements during operations as follows:
 - (a) Exhibition Station through to Don Yard Portal:
 - (i) Project Co shall be fully responsible for compliance with the performance limits as set out in Table 6.5.2-1 and Table 6.5.2-2 in accordance with Section 6.5.5.
 - (b) Don Yard Portal through to the Gerrard Portal:
 - (i) Project Co shall be fully responsible for compliance with the performance limits as set out in Table 6.5.2-2 and Table 6.5.2-3 in accordance with Section 6.5.5.
 - (c) Gerrard Portal through to Science Centre Station:
 - (i) Project Co shall be fully responsible for compliance with the performance limits as set out in Table 6.5.2-1 and Table 6.5.2-2 in accordance with Section 6.5.5.
 - (ii) Project Co shall determine the noise mitigation measures to achieve compliance with the performance limits required in 6.5.1.3(c)(i). This shall include mitigation measures provided by North Civil Project Co.

- (iii) North Civil Project Co mitigation measures shall be limited to the installation of noise barriers. The maximum extent and performance requirements for noise barriers is included in Appendix C of this Schedule 17.
 - (iv) Project Co shall determine the exact extent and location of noise barriers required to provide compliance with the Operations Noise and Vibration Performance Limits. Project Co shall provide all other noise mitigation measures required in addition to the North Civil Project noise barriers.
 - (v) Project Co shall confirm the extent and location of noise barriers to be provided by North Civil Project Co through an Integration Works Submittal in accordance with Schedule 10 – Review Procedure.
 - (vi) Contracting Authority shall cause North Civil Project Co to design, construct, and install the noise barriers.
 - (d) OMSF:
 - (i) Project Co shall be fully responsible for compliance with the performance limits in accordance with Section 6.5.2.1(j)
 - (e) Project Co shall comply with the track-level mitigation in accordance with Section 3.1.12.4(b)(ii)(D) (*Track Structure*) of the Output Specifications.
- 6.5.1.4 Project Co shall undertake and complete a self-assessment of Project Co’s operations to demonstrate compliance with Sections 9 and 47.3 of the Environmental Protection Act, and the requirements of O. Reg. 1/17 Registrations Under Part II.2 of the Act – Activities Requiring Assessment of Air Emissions as related to Project Co Infrastructure. Project Co shall include a summary of the self-assessment in the Operations Noise and Vibration Management Plan in accordance with Section 6.5.3.
- (a) Project Co shall obtain any permits or approvals, if required, as a result of the self assessment completed in accordance with Section 6.5.1.4 and Schedule 34 – Permits, Licences, Approvals and Agreements.
- 6.5.1.5 Project Co shall carry out the operations in compliance with the noise and vibration obligations set out in this Section 6.5, and shall:
- (a) implement measures to identify and mitigate noise and vibration generated as a result of the Project Co Services and in accordance with the Output Specifications and Section 6.5.1.3;
 - (b) carry out the Project Co Services in compliance with:

- (i) the Operations Noise and Vibration Performance Limits set out in Section 6.5.2;
 - (ii) the Environmental Reference Documents as listed in Appendix B of this Schedule 17; and
 - (iii) standard industry practice for ground-borne and air-borne noise and vibration in respect of the Operational Term where a noise and vibration limit is not otherwise identified under Applicable Law or in Section 6.5.2, (collectively, the “**Applicable Operations Noise and Vibration Requirements**”); and
- (c) carry out the Project Co Services in compliance with the Additional Operations Noise and Vibration Sensitive Receptor Performance Requirements for individual Operations Noise and Vibration Sensitive Receptors, as applicable.

Where the noise and vibration measured in accordance with Sections 6.5.5 and 6.5.6 exceeds the criteria specified in Section 6.5.2 these shall be recorded by Project Co as defect within the Maintenance Management System (as defined in the Output Specifications).

6.5.2 Operations Noise and Vibration Performance Limits

6.5.2.1 Project Co shall,

- (a) ensure that all Trains comply with the exterior noise performance standards as outlined in Section 3.1.17.1(d) (*Performance Requirements*) of the Output Specifications;
- (b) ensure that interior noise levels within the Car shall not exceed the criteria in accordance with Section 3.1.17.1(d) (*Performance Requirements*) of the Output Specifications;
- (c) ensure that all Trains shall comply with a maximum pass-by sound level (L_{passby}) at a point of reception for a single Train operating alone and excluding contributions from other sources is 80 dBA taken as the A-Weighted equivalent sound level over the passby time interval;
- (d) ensure that the passenger screen door system complies with the noise performance standards outlined in Section 3.1.16.3 (*Platform Screen Doors*) of the Output Specifications;
- (e) ensure that all Trains shall not exceed the interior background noise criteria (defined as N1) at the Four Seasons Centre for the Performing Arts for a single train operating alone and excluding contributions from other sources over the passby time interval;

- (f) comply with the system-wide, long-term maximum noise exposure objectives set out in Table 6.5.2-1 (the “**System-Wide Noise Exposure Objectives**”), as applicable;
- (g) comply with the ground-borne noise and vibration performance limits set out in Table 6.5.2-2;
- (h) comply with the sound level limits set out in Table 6.5.2-3, as applicable;
- (i) the Train passby airborne noise measured as maximum passby sound pressure level of 75 dBA using slow response or as passby Leq, to be measured at 1 m above top of the noise barrier and 7.5m from track centreline, in front of the buildings at 1 Leaside Park Drive and 15 Leaside Park Drive, with Project Co providing any and all mitigation required to achieve this passby noise limit, including but not limited to noise absorption within the walkways, track structure, rail lubrication and rail dampers;
- (j) ensure that the OMSF complies with NPC-300 noise limits;
- (k) ensure that any additional stationary noise sources added to the South Civil Project Infrastructure and the North Civil Project Infrastructure to support the Project Co Services meet a combined sound level that does not exceed the exclusionary limit or baseline, whichever is greater, as identified in NPC-300 at the nearest sensitive noise receptors;
- (l) ensure Project Co Infrastructure, including Trains, do not generate vibration levels greater than 2 mm/s inside the Station to address human comfort;
- (m) ensure that where workers or others are exposed to noise, that the noise level do not exceed 85 dBA without hearing protection in compliance with MOL Noise Regulation O. Reg. 381/15;
- (n) unless otherwise indicated, ensure that the measurements for compliance with operational indoor or outdoor noise exposure limits shall be measured as described in MECP Publication NPC-103;
- (o) unless otherwise indicated, ensure that the measurements for compliance with operational vibration limits shall be measured with equipment that meets the requirements of ISO 8041-1, ISO 10815:2016 and ISO 5348;
- (p) unless otherwise indicated, ensure that the more stringent noise or vibration criteria, limit or requirement shall be used as the performance limit; and
- (q) ensure during the Operational Term that:
 - (i) the Station fire ventilation openings, rooftop mechanical equipment or other noise-generating HVAC equipment comply

with NPC-300 noise limits for stationary sources at the nearest point of reception, and not exceed 80 dBA at 3 m from the outdoor ventilation opening; and

- (ii) the Station outdoor paging system does not exceed the noise limits in NPC-300 for Stationary Sources at the nearest point of reception,

(collectively, the “**Operations Noise and Vibration Performance Limits**”).

6.5.3 Operations Noise and Vibration Management Plan

6.5.3.1 Project Co shall develop and submit an operations noise and vibration control plan (each a “**Operations Noise and Vibration Management Plan**”) to the Contracting Authority Representative in accordance with Schedule 10 – Review Procedure.

- (a) Each Operations Noise and Vibration Management Plan shall be Site-specific to address location conditions and, at a minimum, include:
 - (i) a summary of the self-assessment as set out in Section 6.5.1;
 - (ii) a list of any updated or additional Environmental Reference Documents as set out in Section 2.1.1.1;
 - (iii) a summary of the baseline survey of the Operations Noise and Vibration Sensitive Receptors in accordance with Section 6.5.4.4;
 - (iv) a summary of all Additional Operations Noise and Vibration Sensitive Receptor Performance Requirements as set out in Section 6.5.4.8; and
 - (v) a summary of the implementation and management process to address the requirements set out in:
 - (I) Section 6.5.4;

- (II) Section 6.5.5;
- (III) Section 6.5.6;
- (IV) Section 6.5.7; and
- (V) Section 6.5.8.

6.5.3.2 Prediction and Assessment of Operations Noise and Vibration

- (a) Project Co shall undertake ground-borne and air-borne noise and vibration assessments for Representative Operations Noise and Vibration Sensitive Receptors in compliance with:
 - (i) the “General Assessments” and “Detailed Analysis Methods” as such terms are defined and described in the FTA Manual (as defined in Appendix B hereto); and
 - (ii) MECP NPC-300, in relation to noise and vibration emitted by Stationary Sources within Stations.
- (b) Project Co may apply an alternative and equivalent method of operational assessment to the method set out in Section (a) if such alternative is deemed appropriate by Contracting Authority, in its sole discretion.
- (c) Project Co shall undertake ground-borne and air-borne noise and vibration assessments for Representative Operations Noise and Vibration Sensitive Receptors in compliance with:
 - (i) the “General Assessments” and “Detailed Analysis Methods” as such terms are defined and described in the FTA Manual (as defined in Appendix B of this Schedule 17); and
 - (ii) the “General Vibration Assessment” and the “Detailed Vibration Analysis” shall both be applied when predicting vibration and determining mitigation requirements.
 - (I) When applying the “General Vibration Assessment”, the adjustment factors in Table 6-12 of the FTA Manual shall be applied for the following soil conditions as per Table 6.5.3-4.
 - (II) It is the responsibility of Project Co to apply the Detailed Vibration Analysis Methodology (as defined in section 6.5 of the FTA Manual) to confirm predictions and determine mitigation requirements, including completion of all required transfer mobility measurement.

Table 6.5.3-4 Vibration Adjustment Factors

[REDACTED]

6.5.4 Noise and Vibration Sensitive Receptors – Operations

6.5.4.1 Prior to commencement of the Operational Term, Project Co shall conduct and complete a survey of the Operational Term Lands (as defined in Schedule 35 – Lands of the Project Agreement) and the vicinity of the planned Operational Term, including a Zone of Influence for the applicable Operations Noise and Vibration Performance Limits that may be potentially exceeded as a result of the Operational Term, to identify Operations Noise and Vibration Sensitive Receptors, including Vibration Sensitive Structures and to identify Representative Operations Noise and Vibration Sensitive Receptors, as deemed appropriate and sufficient by Contracting Authority, in its sole discretion. The survey shall:

- (a) include the identification of specific sensitive equipment, structures, facilities or procedures;
- (b) be conducted in consultation with the potential Operations Noise and Vibration Sensitive Receptors and accordance with any public consultation requirements set out in Schedule 18 – Communications and Public Engagement Protocol;
- (c) include those receptors identified in accordance with Sections 6.6 and 6.7 this Schedule 17.
- (d) select Representative Operations Noise and Vibration Sensitive Receptors such that they are:
 - (i) exposed to the worst-case effects of ground-borne vibration, and air and ground-borne noise compared to all the nearby Operations Noise and Vibration Sensitive Receptors that the Representative Operations Noise and Vibration Sensitive Receptor is intended to represent; and
 - (ii) distributed across areas with differing characteristics affecting noise and vibration levels from the Operational Term. Example characteristics shall include:
 - (I) differences in setback from the track alignment;
 - (II) differences in grade elevation between the track alignment and Representative Operations Noise and Vibration Sensitive Receptor;
 - (III) differences in traffic volume (for example, on either side of arterial roadways, or large commercial centres and institutions);
 - (IV) differences in type of road/track alignment;

Confidential

- (V) differences in track configuration or special track work (for example, crossovers, or areas with the potential to cause wheel squeal (radius curves less than 300 metres));
 - (VI) differences in shielding from track alignment (for example, buildings and barriers);
 - (VII) differences in sensitivity to vibration (for example, theatres and high sensitivity medical imaging); and
 - (VIII) have soil and structural characteristics, geometry and propagation characteristics from the Project similar to the other Operations Noise and Vibration Sensitive Receptors that the Representative Operations Noise and Vibration Sensitive Receptor is intended to represent.
- 6.5.4.2 If two or more adjacent structures could potentially be subject to differences in impact from the worst-case effects of noise or vibration, then Project Co shall select all such adjacent structures to be included as Representative Operations Noise and Vibration Sensitive Receptors.
- 6.5.4.3 Project Co shall prepare, and keep up to date, a list of Representative Operations Noise and Vibration Sensitive Receptors for the Operational Term and shall submit the list, along with any updates as part of the Operations Noise and Vibration Management Plan as set out in Section 6.5.3. Project Co shall submit all noise and vibration measurement data in respect of Representative Operations Noise and Vibration Sensitive Receptors to the Contracting Authority Representative.
- 6.5.4.4 Project Co shall perform and record baseline noise and vibration measurements at or within each Representative Operations Noise and Vibration Sensitive Receptor, consisting of:
- (a) continuous noise monitoring at each Representative Operations Noise and Vibration Sensitive Receptor, provided that for any outdoor locations the weather conditions are suitable for measurement as per MECP Publication NPC-103, such that at least three (3) days of validated noise data is obtained;
 - (b) indoor noise monitoring at each Representative Operations Noise and Vibration Sensitive Receptor, provided that permissions to enter are obtained by Project Co and measurements are completed as per MECP Publication NPC-103, and at least one hour of validated noise data is obtained; and
 - (c) vibration monitoring at each Representative Operations Noise and Vibration Sensitive Receptor as per ISO 8041-1 and ISO 5348 such that at least one hour of validated vibration data is obtained.

- 6.5.4.5 For the purposes of establishing the baseline noise levels for the purposes of Table 6.5.2-1, Project Co shall calculate baseline values for each Representative Operations Noise and Vibration Sensitive Receptor using the following averages from the continuous monitoring data obtained by the measurements taken in accordance with Section 6.5.4.4:
- (a) 16-hour averages from 7:00 to 23:00 to be used for the day baseline in Table 6.5.2-1;
 - (b) 8-hour averages from 23:00 to 7:00 to be used for the night baseline in Table 6.5.2-1;
- 6.5.4.6 If Project Co and a property owner or receiver do not agree on whether to designate a particular location or property as a Representative Operations Noise and Vibration Sensitive Receptor, Contracting Authority shall make a final determination based on,
- (a) a review of the baseline noise and vibration measurement data for the particular property or location; and
 - (b) any evidence of susceptibility of the location or property to noise or vibration levels at or lower than the Applicable Operations Noise and Vibration Requirements.
- 6.5.4.7 Project Co shall develop additional noise and vibration performance requirements for any Operations Noise and Vibration Sensitive Receptors not covered by the Environmental Reference Documents, through,
- (a) an assessment and evaluation of the baseline measurements;
 - (b) consultation with the Operations Noise and Vibration Sensitive Receptor groups in accordance with Schedule 18 – Communications and Public Engagement Protocol; and
 - (c) a review of the noise and vibration requirements for any sensitive equipment or operation that may be impacted by the Operational Term, including the operation of the Cars that contain equipment that requires mitigation for vibrations lower than 0.045 mm/sec RMS, (the **“Additional Operations Noise and Vibration Sensitive Receptor Performance Requirements”**).
- 6.5.4.8 Project Co shall submit a report summarizing of all ground-borne and air-borne noise and vibration assessments conducted in accordance with Section 6.5.4 including all Additional Operations Noise and Vibration Sensitive Receptor Performance Requirements as part of the Operations Noise and Vibration Management Plan as set out in Section 6.5.3.

6.5.5 Noise and Vibration Commissioning

- 6.5.5.1 Project Co shall develop and implement a noise and vibration compliance verification measurement plan for Commissioning of the Ontario Line Subway and New Third Party Infrastructure to demonstrate compliance with applicable performance limits and applicable environmental permits or approvals in accordance with Schedule 14 – Commissioning. The compliance verification noise and vibration measurements shall be representative of the applicable criteria, and be taken at the same locations, where possible, referenced in Section 6.5.2, and be representative of the worst-case sensitive points of reception surrounding the Project, and the passby limits as applicable.
- 6.5.5.2 Test equipment, including all microphones and transducers, shall be selected appropriately to ensure they have low enough noise floors to measure levels consistent with the applicable criteria. As a minimum, Project Co shall use the following measurement equipment: Type 1 sound level meter with octave band filters and vibration transducers with sensitivities of 1 V/g.
- 6.5.5.3 Measurements shall be conducted by Project Co with consideration for the intended use of the space. Unless dictated otherwise by the use of the space, ambient noise measurements shall be performed in octave bands with the meter time constant set to fast (125 ms) response and shall be performed during ambient conditions that are representative of the intended usage of the space. Where appropriate, and consistent with its intended use, extraneous noise interruptions shall be excluded from the measurements.
- 6.5.5.4 The measured noise and vibration levels shall not exceed the Operations Noise and Vibration Performance Limits as set out in Section 6.5.2. If the Operations Noise and Vibration Performance Limits are exceeded then Project Co shall carry out remedial measures as are appropriate to reduce the noise and/or vibrations levels as applicable and then repeat the measurement in accordance with Section 6.5.5.1 to demonstration compliance.
- 6.5.6 Monitoring During the Operational Term – Representative Operations Noise and Vibration Sensitive Receptors
- 6.5.6.1 Over the first five years of the Operational Term, Project Co shall carry out a survey of ground-borne, air-borne noise and structure-borne and vibration measurements, both indoor and outdoor (each a “**Operations Noise and Vibration Survey**”) to confirm that the Project Co Services are in compliance with Applicable Operations Noise and Vibration Requirements and the Additional Operations Noise and Vibration Sensitive Receptor Performance Requirements, as applicable. The monitoring shall be conducted at:
- (a) all receptors referenced in Section 6.5.4 during the first year of the Operational Term; and
 - (b) **[REDACTED]**% of the receptors referenced in Section 6.5.4, during each of the following four (4) years. The locations selected for

monitoring shall be approximately equally distributed along the length of the Ontario Line Subway. The locations monitored shall alternate each year (i.e. total number of receivers = A+B, where A = one half of the receivers and B= the other half of the receivers, then monitor as follows: Year 2-A, Year 3-B, Year 4-A, Year 5-B).

- 6.5.6.2 For each year after the first five (5) years of the Operational Term, the number of receptors at which the Operations Noise and Vibration Survey is conducted may be reduced to no less than [REDACTED]% of the receptors referenced in Section 6.5.4. The monitored locations shall be approximately equally distributed along the Project and vary from year to year with priority placed on locations for areas near special track work or tight radius curves.
- 6.5.6.3 Additional noise and vibration surveys shall be conducted at three worst-case receivers along the Ontario Line Subway during the 5th, 10th, 15th, 20th, 25th and 30th year of operation to confirm that the long-term noise exposure objectives in Table 6.5.2-1 and Table 6.5.2-2 have been achieved.
- 6.5.6.4 Project Co shall submit a technical memo documenting the Operations Noise and Vibration Survey as per Sections 6.5.6.1, Section 6.5.6.2 and Section 6.5.6.3 to the Contracting Authority Representative in accordance with Schedule 10 – Review Procedure.
- 6.5.6.5 Project Co shall utilize a noise and vibration monitoring system for the Operational Term and the monitoring shall be accessed by Contracting Authority through the EMS Software Solution in accordance with Section 5.4.7.
- 6.5.6.6 Project Co shall report any non-conformance with the Applicable Operations Noise and Vibration Requirements or any Additional Operations Noise and Vibration Sensitive Receptor Performance Requirements resulting from the Operations Noise and Vibration Survey to the Contracting Authority Representative in accordance with Section 6.5.8.
- 6.5.7 Complaints During Operational Term
- 6.5.7.1 Project Co shall address and respond to each complaint regarding noise or vibration arising from the Operational Term in accordance with the Complaints Protocol developed in accordance with Schedule 18 – Communication and Public Engagement Protocol. Upon receipt of a request by Contracting Authority to investigate a complaint regarding noise or vibration, Project Co shall conduct ground-borne and air-borne noise and vibration measurements, as required by Contracting Authority, to determine,
- (a) the source of the ground-borne and air-borne noise and vibration that is the subject of the complaint;
 - (b) if the ground-borne or air-borne noise or vibration exceeds any of the limits required by the Applicable Operations Noise and Vibration Requirements; and

- (c) if mitigation or additional monitoring is required in order to confirm compliance with the Operations Noise and Vibration Performance Limits.
- 6.5.7.2 If mitigation or additional monitoring is required pursuant to Section 6.5.7.1(c), then Project Co shall completely define the required mitigation measures and additional monitoring, as applicable,
 - (a) no later than 48 hours following the completion of noise and vibration measurements conducted by Project Co in accordance with Section 6.5.7.1, or within a longer timeframe agreed to by the Contracting Authority Representative, Project Co shall take steps towards defining the mitigation measures and additional monitoring, as applicable; and
 - (b) no later than seven days following the completion of noise and vibration measurements conducted by Project Co in accordance with Section 6.5.7.1, or within a longer timeframe agreed to by the Contracting Authority Representative, Project Co shall completely define the mitigation measures and additional monitoring, as applicable.
- 6.5.7.3 Project Co shall implement the mitigation measures and additional monitoring, as applicable, in full, within a timeframe agreed upon by the Parties on a case-by-case basis and shall rectify any non-conformance with Applicable Operations Noise and Vibration Requirements.
- 6.5.7.4 Project Co shall provide the results of any site-specific noise and vibration measurements, conducted in accordance with Section 6.5.7.1 or Section 6.5.7.2 to the Contracting Authority Representative no later than 48 hours after completion of field measurements required for the investigation, wherever possible, or within an alternative timeframe agreed to in writing by the Contracting Authority Representative.
- 6.5.7.5 Project Co shall be responsible for all costs and expenses related to any noise and vibration measurements required in accordance with Section 6.5.7.1 in response to the first 30 separate requests by Contracting Authority to investigate a complaint during each Contract Year.
- 6.5.7.6 The costs of any additional site-specific noise and vibration measurements required in any Contract Year above the number set out in Section 6.5.7.5 shall be borne by,
 - (a) Project Co, if the results indicate that, the Operational Term was not in compliance with Applicable Operations Noise and Vibration Requirements or, if applicable, the Additional Operations Noise and Vibration Sensitive Receptor Performance Requirements, or
 - (b) Contracting Authority, subject to and in accordance with Schedule 22 – Variation Procedure, if the results indicate that the Operational Term was in compliance with Applicable Operations Noise and Vibration

Requirements or, if applicable, the Additional Operations Noise and Vibration Sensitive Receptor Performance Requirements.

6.5.8 Non-Conformance During Operational Term

6.5.8.1 Project Co shall report any non-conformance with the Applicable Operations Noise and Vibration Requirements or any Additional Operations Noise and Vibration Sensitive Receptor Performance Requirements resulting from the Operations Noise and Vibration Survey to the Contracting Authority Representative no later than 24 hours after the identification of such non-conformance.

6.5.8.2 If the results of an Operations Noise and Vibration Survey conducted pursuant to Section 6.5.6 demonstrate that the Works or Project Co's mitigation measures under Section 6.5.1.5 do not result in full compliance with any Applicable Operations Noise and Vibration Requirements or Additional Operations Noise and Vibration Sensitive Receptor Performance Requirements, then Project Co shall rectify all such non-conformance within a time period and using mitigation methods agreed in writing between the Contracting Authority and Project Co in accordance with Schedule 10 – Review Procedure.

6.5.8.3 Project Co shall carry out all necessary measurements to demonstrate that non-conformances have been rectified and shall provide the results of such measurements to Contracting Authority no later than two (2) Business Days after completion of the measurement or in accordance with the timeframe agreed between the Parties.

6.5.9 Inquiries to Governmental Authorities – Operations Noise and Vibration

6.5.9.1 Unless otherwise specified in the Project Agreement, Project Co shall liaise directly with applicable Governmental Authorities regarding Project Co's noise and vibration obligations.

6.5.9.2 If requested by Contracting Authority, Project Co shall cooperate with and promptly provide the Contracting Authority Representative with any written documentation or authorizations required for any inquiry of any Governmental Authority relating to Project Co's compliance with this Schedule 17, any Applicable Operations Noise and Vibration Requirements or any Permits, Licences, Approvals and Agreements in Schedule 34 – Permits, Licences, Approvals and Agreements relating to noise and vibration.

6.5.9.3 Project Co shall forward to the Contracting Authority Representative a copy of any report, submission, application or other document relating to noise and vibration matters on, at, affecting or otherwise relating to the Operational Term or the Lands, concurrent with the filing or submission of the report, submission, application or other document to any Governmental Authority.

6.6 Cultural Heritage

6.6.1 Cultural Heritage – General

6.6.1.1 Project Co shall be responsible for the monitoring and maintenance requirements as a result of impacts to built heritage resources and cultural heritage landscapes as required during the Operational Term.

6.6.1.2 Project Co shall comply with the cultural heritage reference documents, in accordance with Appendix B of this Schedule 17 and Section 2.1.

6.6.1.3 Contracting Authority shall prepare any required Strategic Conservation Plan(s) for built heritage resources and cultural heritage landscapes as identified in the Heritage Detailed Design Report (as defined below), or as a result of Minister’s Consent Conditions (as defined in Appendix B hereto) in consultation with Project Co.

6.6.2 Heritage Detailed Design Report

6.6.2.1 Contracting Authority shall provide Project Co with the preliminary heritage detailed design report (the “**Heritage Detailed Design Report**”) in accordance with the Cultural Heritage Report (as defined in Appendix B hereto).

6.6.2.2 Project Co shall review, update and submit a revised Heritage Detailed Design Report, consistent with preliminary Heritage Detailed Design Report format, to the Contracting Authority, including all supplementary reports required based on detailed design to the Contracting Authority in accordance with Schedule 10 – Review Procedure.

(a) Project Co shall ensure that the revised Heritage Detailed Design report is prepared by a Cultural Heritage Specialist.

(b) Project Co shall comply with the mitigation measures, monitoring, and commitments made within the Heritage Detailed Design Report and all supplementary reports or any supplementary revisions.

6.6.2.3 In accordance with Section 2.2.3, Project Co shall file the revised Heritage Detailed Design Report with the MHSTCI after receipt of notification from Contracting Authority in accordance with Schedule 10 – Review Procedure.

6.7 Archaeology

6.7.1 Archaeology Risk Management

6.7.1.1 Project Co shall comply with the archaeological reference documents in accordance with Section 2.1.

6.7.1.2 Contracting Authority shall undertake additional archaeological assessments at the locations identified in Appendix D of this Schedule 17.

- 6.7.1.3 Project Co shall prepare and implement an archaeological risk management plan for the Works (the “**Archaeological Risk Management Plan**”). The Archaeological Risk Management Plan shall be consistent with Project Co’s obligations set out in Section 16.4 (*Items of Geological, Historical Heritage or Archaeological Interest or Value*) of the Project Agreement and shall address any recommendations resulting from Environmental Reference Documents, as identified in Appendix B in accordance with Section 2.1, prepared for the Project.
- (a) The Archaeological Risk Management Plan shall include, at a minimum, the following requirements:
- (i) the actions required resulting from the recommendations of the Archaeological Reports identified in Appendix B of this Schedule 17 including any archaeological monitoring requirements by a Licensed Archaeologist during the Construction Activities;
 - (ii) a review of registered archaeological sites located within one kilometre of the Project footprint;
 - (iii) a process for amending the Archaeological Risk Management Plan to incorporate any additional actions required resulting from subsequent archaeological assessment reports completed;
 - (iv) a protocol to be followed if human remains are discovered which includes how Project Co will ensure that human remains are managed in compliance with Applicable Law and all requirements of Governmental Authorities with respect to such discovery, including the Funeral, Burial and Cremations Services Act, 2002 (Ontario) and the Standards and Guidelines for the Conservation of Provincial Heritage Properties issued by the MHSTCI pursuant to the *Ontario Heritage Act* (Ontario);
 - (v) a protocol to be followed if previously undocumented archaeological resources are discovered which describes how Project Co will comply with Applicable Law regarding management of previously undocumented archaeological resources;
 - (vi) a process to ensure that Project Co complies with Applicable Law for the management of archaeological sites, including the City of Toronto’s Terms of Reference for archaeological assessment;
 - (vii) a process to ensure that Project Co complies with Applicable Law for the management of archaeological resources at a National Historic Site;

- (viii) a process for the involvement of Indigenous Monitors for Stage 2 Archaeological Assessment, Stage 3 Archaeological Assessment and/or Stage 4 Archaeological Assessment field work, as applicable, in accordance with Schedule 18 – Communication and Public Engagement Protocol;
 - (ix) be developed in accordance with any Indigenous Nations Engagement commitments as identified in the Archaeological Reports identified in Appendix B of this Schedule 17 as provided by Contracting Authority; and
 - (x) all public consultations will be carried out in accordance with the requirements set out in Schedule 18 – Communications and Public Engagement.
- (b) Project Co shall submit the Archaeological Risk Management Plan to Contracting Authority in accordance with Schedule 10 – Review Procedure.

6.8 Natural Heritage

6.8.1 Natural Heritage – General

- 6.8.1.1 Project Co shall carry out the Works in compliance with the Erosion and Sediment Control Plan as per Section 6.2.8.
- 6.8.1.2 Project Co shall carry out the Works in compliance with the Integrated Vegetation Management Plan as per Section 6.8.3, and the Arborist Report – Metrolinx Lands and Arborist Report – Third Party Lands as per Section 6.8.4, and the planting and landscape plan in accordance with the Output Specifications.
- (a) Project Co shall determine the required compensatory activities related to all permitting requirements and as per the Metrolinx Vegetation Guidelines.
 - (b) Contracting Authority will be responsible for costs associated with all compensatory activities.
- 6.8.1.3 For Construction Activities that may result in the death of fish or the harmful alteration, disruption or destruction of fish habitat, Project Co shall complete an assessment and DFO request for review, as required.
- 6.8.1.4 Project Co shall develop and implement a salt management plan (a “**Salt Management Plan**”). The Salt Management Plan shall be submitted to Contracting Authority in accordance with Section 2.2.3 and Schedule 10 – Review Procedure.
- (a) The Salt Management Plan shall outline the best management practices for road salt use in accordance with Environmental and Climate Change

Canada's (ECCC) Code of Practice for the Environmental Management of Road Salts.

- 6.8.1.5 Project Co shall be Smart Salt certified as per the requirement of the Smart About Salt Council (SASC) Certification program.
 - 6.8.1.6 Should any works be proposed below the high-water mark, Project Co shall develop an in-water works plan in accordance with the Erosion and Sediment Control Guide for Urban Construction (TRCA, 2019), as amended from time to time and consult with the TRCA in accordance with Schedule 34 – Permits, Licences, Approvals and Agreements.
 - 6.8.1.7 Project Co shall implement the operational requirements in accordance with Sections 6.8.2, 6.8.3 and 6.8.4 during testing, commissioning, operations and maintenance phase for the Project Operations.
 - 6.8.1.8 Project Co shall be responsible for the overall integrated operational requirements in accordance with Sections 6.8.2, 6.8.3 and 6.8.4 during the Operational Term, including compliance with all permitting requirements and incorporating all data, infrastructure, modeling and items by the Civil Contractors.
- 6.8.2 Endangered Species and Species-at-Risk
- 6.8.2.1 Project Co shall carry out the Works in compliance with the obligations set out in this Section 6.8.2 and in compliance with Permit #: CR-D-002-19 and in accordance with the Species-at-Risk framework as set out in the Metrolinx Species at Risk Framework.
 - (a) Throughout the Project Term, Project Co shall comply with and implement the Project Co requirements of the Metrolinx Species at Risk Framework. Project Co shall be responsible for:
 - (i) additional investigations and assessment of impacts associated with Project Co's design of the Project, as identified in the Metrolinx Species at Risk Framework;
 - (ii) adherence to the timing constraints, environmental parameters and requirements identified in the Metrolinx Species at Risk Framework, and where necessary, confirmation of timing constraints, environmental parameters and requirements in consultation with Contracting Authority and the appropriate Governmental Authority;
 - (iii) preparation of all documentation and deliverables identified in the Metrolinx Species at Risk Framework;
 - (iv) monitoring and associated reporting as identified in the Metrolinx Species at Risk Framework; and

- (v) decommissioning and inspection activities as identified in the Metrolinx Species at Risk Framework and any required or associated corrective actions and reports.
 - (b) Project Co shall submit to Contracting Authority a Species-at-Risk handover report (the “**Species at Risk Handover Report**”) in accordance with Schedule 10 – Review Procedure. The Species at Risk Handover Report shall include:
 - (i) the status of Works related to Species-at-Risk, including Works completed and to be completed prior to the end of the Project Term; and
 - (ii) all conditions identified in the Metrolinx Species at Risk Framework that are the responsibility of Project Co.
- 6.8.2.2 If required, Project Co shall obtain any and all necessary approvals, clearances or permits required under the Endangered Species Act (Ontario MECP), the Fish and Wildlife Conservation Act (Ontario MNRF), the Species at Risk Act (Canada ECCC), Migratory Birds Convention Act (ECCC), the Fisheries Act (DFO) or from the TRCA and shall provide any required protection, mitigation, compensation or monitoring required to adhere to such approvals, clearances or permits, and shall provide any supplementary documentation or reporting needed to achieve compliance with such approvals, clearances or permits, except where such obligations are set out specifically as Contracting Authority Environmental Commitments.
- 6.8.2.3 During detailed design, if it is determined that a suitable habitat to support identified Species-at-Risk exists within the Metrolinx Lands, Project Co shall complete targeted surveys to confirm the presence or absence of the Species-at-Risk listed in Table 6.8.2-1 as required in compliance with the Metrolinx Species at Risk Framework.

Table 6.8.2-1 Species-at-Risk Identified within Proposed Metrolinx Lands

[REDACTED]

6.8.3 Integrated Vegetation Management Plan

- 6.8.3.1 Project Co shall develop and implement an integrated vegetation management plan prepared by a Biologist and an Arborist in accordance with the Metrolinx Vegetation Guideline, dated 2020, as amended from time to time (the “**Integrated Vegetation Management Plan**”).
- (a) The Integrated Vegetation Management Plan will be implemented within thirty (30) days of tree removal.
 - (b) Project Co shall submit the Integrated Vegetation Management Plan to Contracting Authority in accordance with Schedule 10 – Review Procedure.

Confidential

6.8.3.2 Project Co shall be responsible for wetland, tree and vegetation management activities, including compliance with all Applicable Law and in accordance with Section 6.8.4.

6.8.4 Tree Management

6.8.4.1 Project Co shall be responsible for tree protection and management on the Lands including compliance with all Applicable Law, Environmental Reference Documents and the Project Agreement.

(a) Where applicable, Project Co shall be responsible for tree protection and management in accordance with the municipal and permit requirement as per Schedule 34 – Permits, Licences, Approvals and Agreements.

6.8.4.2 Project Co shall engage an Arborist to develop an arborist report for the Metrolinx Lands that are owned by Metrolinx (the “**Arborist Report – Metrolinx Lands**”) that includes,

(a) a detailed inventory of all trees on the Metrolinx Lands as of Commercial Close, including,

(i) a description of the type of tree and the GPS location of tree; and

(ii) a clear indication of whether each tree will be removed, protected, or left as is by Project Co during the course of the Works; and

(b) for the trees that Project Co intends to protect during the course of the Works, a description of Project Co’s protection measures to ensure that the trees will be preserved and undamaged.

6.8.4.3 Project shall engage an Arborist to develop an arborist report for Lands that are not Metrolinx Lands or Metrolinx Lands that are not owned by Metrolinx (the “**Arborist Report – Third Party Lands**”) which

(a) meets the requirements of applicable municipal by-laws;

(b) is developed in accordance with the municipalities’ requirement and Schedule 34 – Permits, Licences, Approvals and Agreements;

(c) provides a detailed inventory of all trees on the Lands (other than Metrolinx Lands) as of Commercial Close, including,

(i) a description of the type of tree and the GPS location of tree; and

(ii) a clear indication of whether each tree will be removed, protected, or left as is by Project Co during the course of the Works; and

- (d) for the trees that Project Co intends to protect during the course of the Works, a description of Project Co's protection measures to ensure that the trees will be preserved and undamaged.
- 6.8.4.4 Project Co shall submit the Arborist Report – Metrolinx Lands and the Arborist Report – Third Party Lands to Contracting Authority in accordance with Schedule 10 – Review Procedure.
- 6.8.4.5 For Lands that are not Metrolinx Lands or Metrolinx Lands that are not owned by Metrolinx, Project Co shall obtain all tree removal/injury permits from the City of Toronto that are required to perform the Works in accordance with Appendix B of Schedule 34 – Permits, Licences, Approvals and Agreements. Project Co shall ensure that Contracting Authority is kept apprised of all discussions and agreements respecting tree and vegetation replacement and compensation with municipalities.
- 6.8.4.6 Throughout the Project Term, Project Co shall continuously manage and update a tracker that includes a detailed inventory of all trees on the Metrolinx Lands and Third Party Lands that are greater than 10 cm diameter at breast height and that have been removed during the Project Term, including a description of the type of tree and the GPS location of tree (the “**Tree Tracker**”). Project Co shall provide such list to Contracting Authority upon request by Contracting Authority in accordance with Schedule 10 – Review Procedure.
 - (a) Project Co shall provide updates on permitting and tree compensation requirements as part of the Monthly Environmental Report in accordance with Section 5.2.2 and Schedule 10 – Review Procedure.

6.9 Air Quality During Construction

6.9.1 Air Quality During Construction – General

- 6.9.1.1 Project Co shall meet all applicable regulatory requirements and standards regarding air emissions, including fugitive dust and odour, during the performance of the Works, and shall:
 - (a) comply with all applicable Environmental Approvals and Permits, Licences, Approvals and Agreements as they relate to air quality management, including when designing, purchasing and operating equipment;
 - (b) implement measures for managing the Project's constructed-related air emissions, including fugitive dust and odour; and
 - (c) if any Applicable Construction Air Quality Criteria and Limits are exceeded, implement mitigation measures to achieve compliance with the Applicable Construction Air Quality Criteria and Limits.

6.9.2 Applicable Construction Air Quality Criteria and Limits

- 6.9.2.1 In carrying out the Works, Project Co shall ensure that ambient particulate matter generated from construction activities complies with:
- (a) Ontario Regulation 419/05 for Air Pollution – Local Air Quality (O. Reg. 419/05);
 - (b) Ontario Ambient Air Quality Criteria (AAQC), published by MECP and updated April 2019;
 - (c) The Canadian Ambient Air Quality Standards (CAAQS), published by CCME, and dated 2017; and
 - (d) Metrolinx mitigation threshold for construction projects shown in Table 6.9.2-1,
- (collectively, the “**Applicable Construction Air Quality Criteria and Limits**”).

Table 6.9.2-1 Applicable Construction Air Quality Criteria and Mitigation Thresholds for PM2.5, PM10 and Silica

[REDACTED]

- 6.9.2.2 Project Co shall ensure that odours from sulfur-containing and other odour producing substances are controlled to meet the 10-minute odour standards in the Ontario Ambient Air Quality Criteria or Schedule 3 of O. Reg. 419/05, made under the Environmental Protection Act (Ontario).
- 6.9.2.3 Project Co shall ensure that other contaminants generated from construction activities, such as combustion gases from vehicles/equipment used for construction, meet Applicable Construction Air Quality Criteria and Limits. All off-road diesel-powered equipment used during the Project must meet the Canadian Non-Road (Off-Road) Compression Ignition Engine Exhaust Emission Standards or Canadian Non-Road (Off-Road) Spark Ignition Engine Exhaust Emission Standards. These standards are aligned with corresponding US EPA standards.
- 6.9.2.4 All road vehicles will meet applicable Canadian road vehicle exhaust and evaporative emission standards. Project Co shall maintain diesel and electric equipment and their emission control systems to manufacturers’ specifications.
- 6.9.3 Construction Air Quality Management Plan
- 6.9.3.1 Project Co shall submit a detailed and comprehensive air quality management plan (“**Construction Air Quality Management Plan**”) for all Construction Activities to the Contracting Authority Representative in accordance with Schedule 10 – Review Procedure.
- 6.9.3.2 The Construction Air Quality Management Plan shall include Site-specific sections to address local conditions and will include a description of Project Co’s mitigation and dust control measures for each and all Construction Activities to

Confidential

demonstrate conformance, as practical, to recognized standard specifications as outlined in the Best Practices for the Reduction of Air Emissions from Construction and Demolition Activities (Environment Canada, 2005), as amended from time to time, and in accordance with the Metrolinx Environmental Guide for Air Quality and Greenhouse Gas Emissions Assessment (2019), as amended from time to time.

- 6.9.3.3 The Construction Air Quality Management Plan shall include, at a minimum, the following:
- (a) a description of the Construction Activity(ies) and conditions with the potential to result in the generation or dispersion of airborne particulate matter or other airborne contaminants including crystalline silica, that are identified to exceed [REDACTED]% of the criteria limit as set out in Table 6.9.2-1 as determined in accordance with Sections 6.9.2 and 6.9.4;
 - (b) a description of potential environmental impacts, nuisance impacts and impacts on human health and safety of the contaminants;
 - (c) identify specific air quality objectives relevant to the Project identified in Table 6.9.2-1 and as outlined in the Metrolinx Environmental Guide for Air Quality and Greenhouse Gas Emissions Assessment (2019), as amended from time to time.
 - (d) based on air dispersion modelling or other scientific approaches consistent with the requirements of O. Reg. 419/05 and in accordance with Metrolinx Environmental Guide for Air Quality and Greenhouse Gas Emissions Assessment (2019), as amended from time to time. Project Co's estimation of the potential worst-case air quality impacts of the Works on lands within a 500 m radius of the boundaries of the Site ("**Construction Air Quality Impact Zone**");
 - (e) identification of all sensitive receptors (such as residences, daycare, schools, hospitals, senior housing) within the Construction Air Quality Impact Zone per Best Practices for the Reduction of Air Emissions from Construction and Demolition Activities (Environment Canada, 2005) and Metrolinx Environmental Guide for Air Quality and Greenhouse Gas Emissions Assessment (2019), both as amended from time to time;
 - (f) a description of the existing conditions baseline air sampling and monitoring program in accordance with Section 6.9.4.1;
 - (g) provide Project Co's procedures for identification of warning and alert levels to identify an increase in emissions that results in approaching the Applicable Construction Air Quality Criteria and Limits;
 - (h) provide Project Co's procedure for the stop work process if the Applicable Construction Air Quality Criteria and Limits are exceeded including identification and implementation of mitigation measures

- (i) establish protocols for documenting, reporting and addressing public complaints in accordance with Section 6.9.5;
- (j) a list of mitigations to be implemented by Project Co for each and all major Construction Activity in order to reduce, control and manage emissions to prevent the discharge of airborne particulate matter, fugitive dust and other airborne contaminants to offsite areas, including,
 - (i) relevant best practices per Construction Activity from the Best Practices for the Reduction of Air Emissions from Construction and Demolition Activities, published by Environment Canada, dated 2005, as amended from time to time; and
 - (ii) the best practices set out in Section 6.9.6;
- (k) including measures required by any and all of the Environmental Reference Documents in accordance with Appendix B of this Schedule 17 and Section 2.1.

6.9.4 Air Quality Monitoring Requirements – Construction Activities

- 6.9.4.1 Project Co shall develop and implement an existing conditions baseline air sampling program prior to commencement of construction and a monitoring program during construction to,
- (a) establish air monitoring and sampling methods, locations and frequencies of air contaminants; the rationale for the choice of such methods, locations and frequencies; and any changes that will be made to such methods, locations and frequencies over the duration of the Construction Period for any contaminant;
 - (b) establish protocols for action items when relevant air quality criteria are exceeded, such as investigation procedures, mitigation measures and timeframes to implement;
 - (c) establish reporting requirements and timeframes, such as, reporting to Metrolinx any exceedance of any continuously monitored ambient air quality objective at any location within one hour of the occurrence; reporting of an exceedance of a non-continuously monitored contaminant will be made within 24-hours of receipt of the data;
 - (d) prior to the commencement of any Demolition or other Construction Activities, establish an existing conditions level by monitoring air contaminants typically generated from Construction Activities with known health hazards, including particulate matter within the Construction Air Quality Impact Zone. The existing conditions air quality should be measured over a minimum period of one week prior to construction activities, where large local sources of pollution, such as highways directly affect the zone of influence of the Project; and

- (e) monitoring of particulate matter and other contaminants in the air during and following Demolition and any other Construction Activities in the Construction Air Quality Impact Zone.
- 6.9.4.2 No later than thirty (30) days following Financial Close, Project Co shall develop, as a component of the Complaints Protocol set out in Schedule 18 – Communication and Public Engagement Protocol, a process for managing and responding to air quality concerns during the Project Term. This component of the Complaints Protocol shall be developed in consultation with concerned Stakeholders identified by Project Co.
- 6.9.4.3 For Construction Activities that take place on a specific Site for fewer than thirty (30) consecutive days over a six (6) week period, and that have the potential to exceed the Applicable Construction Air Quality Criteria and Limits, Project Co shall ensure that there are no visible dust emissions discharged into the atmosphere beyond the geographical boundaries of the Site. Dust shall be considered “visible” if opacity at a geographical boundary of the Site exceeds [REDACTED]% for more than 3 minutes during any 60-minute period, as measured with a calibrated opacity meter.
- 6.9.4.4 For longer-term Construction Activities that take place on a specific Site for a minimum of thirty (30) or more consecutive days within a six (6) week period, and that have the potential to exceed the Applicable Construction Air Quality Criteria and Limits, Project Co shall continuously and simultaneously monitor PM2.5 and PM10 over the course of the performance of the Construction Activities in order to assess compliance with the Applicable Construction Air Quality Criteria and Limits in accordance with the following:
 - (a) Project Co shall log data frequently, and at a maximum of fifteen-minute intervals and the monitoring instrument shall have an accuracy of \pm [REDACTED]%;
 - (b) Project Co shall ensure that Contracting Authority Representative receives real-time e-mail alerts of any exceedances of the Applicable Construction Air Quality Criteria and Limits for PM2.5, PM10 and any other air contaminant being monitored; and
 - (c) Project Co shall ensure that all historical and real-time monitoring data are available and can be accessed by Contracting Authority through the EMS Software Solution in accordance with Section 5.4.7.
- 6.9.4.5 Project Co shall prepare and submit to the Contracting Authority Representative, for information, a weekly report describing the monitoring conducted and data collected in accordance with Section 6.9.4 as well as instrument calibration data (“**Weekly Construction Air Quality Monitoring Report**”). Project Co shall submit each Weekly Construction Air Quality Monitoring Report to the Contracting Authority Representative in accordance with the time frame set out Schedule 10 – Review Procedure.

6.9.4.6 Project Co shall develop and implement air quality mitigation measures to address any non-conformance with the Applicable Construction Air Quality Criteria and Limits in consultation with Contracting Authority.
